Chapter 341: Being Enlightened

Ye Yuan smiled bitterly and said, "But these three array formations really aren't hard!"

The disappointment on Wei Xiao's face grew even thicker. "Still being stubborn! These three array formations are where the essence of Founding Father's formation path lies. You, a tiny little Spirit Condensation Realm martial artist, actually dare to outrageously say that it's simple? Truly unaware of how high the sky is and how deep the earth is!"

Ye Yuan was helpless. He knew that no matter how he explained, this old fellow would not believe it either.

Nonchalantly taking out a pile of low-grade essence crystals, Ye Yuan said to Wei Xiao with a smile, "Old Wei, look closely!"

Finished talking, Ye Yuan casually struck out those low-grade essence crystals around the vicinity of a peach tree.

As the last piece of essence crystal got in position, those essence crystals suddenly lit up, and actually flew on their own, surrounding that peach tree as they spun.

Finally, the brilliant rays of light radiated by those essence crystals covered the peach tree.

After a few moments, the luster dissipated completely. That peach tree did not exist anymore. It was actually utterly obliterated already!

Wei Xiao's face was filled with astoundment!

His shock was obviously not because of the peach tree's annihilation but due to the array formation that Ye Yuan laid out!

"This is the simplified version of the Lesser Nine Revolutions Interlocking Formation," Ye Yuan said.

As he said, he took out another pile of low-grade essence crystals and casually struck them out.

A huge commotion of light like before, but it thoroughly isolated the peach tree.

"This is the simplified Six Extreme Seals Grand Array," Ye Yuan continued saying.

Ye Yuan was still waiting to lay out the Asura Confounding Formation when he was halted by Wei Xiao.

"No need, no need anymore! I-I believe you! But, h-how is this possible?"

Wei Xiao's gaze when looking at Ye Yuan was like he had seen a ghost. Wei Xiao had stayed in this place for thousands of years and was all too familiar with these three sets of array formations.

Although the simplified array formations did not have such incredible might, the principle was the same.

Ye Yuan's technique when laying out the formation flowed smoothly and naturally. Clearly, he was already crystal clear with the array formations.

Wei Xiao only gradually digested this outcome after a long while. Except, the bewildered look on his face grew even thicker.

"Back then, the prodigious sect master took five hundred years to comprehend 50% - 60% of the Array Formations Three Volumes. You're only at the Spirit Condensation Realm. You . . . How did you do it?" Wei Xiao was even somewhat tongue-tied when speaking.

Ye Yuan put on an innocent face and said, "I don't know either. I just looked at it like that and understood it."

Ye Yuan was also not deliberately trying to anger Wei Xiao. He could not very well say that he was a Tier 9 array master in his previous life and understanding Tier 5 or Tier 6 array formations was not all that difficult, right?

But Wei Xiao was still riled. The expression on his face right now was fascinating to the extreme. If he was not a soul body currently, he would probably spew out three liters of blood, right?

What did he mean by just looked at it like that and understood it?

Something that others might not necessarily comprehend even if they spent hundreds and thousands of years, you understood after looking for less than two days. Do you still want people to live?

The one Wei Xiao admired most in this lifetime was Sect Master. But looking at it now, there was utterly no way of comparing Sect Master to this youth in front of him!

This was too depressing!

Nothing was more dismal than your idol being defeated!

This sentence from Ye Yuan also blocked off all of Wei Xiao's questions.

I'm just this much of a genius. No other reason. Things that were as hard as climbing up to the sky to others was as simple as turning over my hand to me. What did you want to ask?

At this instant, Wei Xiao really felt like he was an old person smacked down by the new generation.

"Alright then, since you've already comprehended the Array Formations Three Volumes, follow me now."

Ye Yuan followed Wei Xiao back to the study. Wei Xiao beckoned with one hand. A small and exquisite flag cut through the air into Ye Yuan's hand.

Wei Xiao said, "This is my Grand Yan True Sect's Sect Master's token. With it around, my Grand Yan True Sect's legacy will never be extinguished! In the future, when you look for a successor, pass these three sets of array formations and this flag to him, and it will be considered as fulfilling my long-cherished wish!"

Ye Yuan played around with the flag and exclaimed with some surprise, "This flag is actually a profound artifact!"

Wei Xiao nodded and said, "That's right. This is an array formation profound artifact named Profound Water Flag. Using it can raise the speed of you setting up array formations by 50%. Tier 3 and below array formations can be instantly formed through the flag!"

The larger scale the array formation, the longer the set up time.

It was already very heaven-defying for this flag to be able to raise the speed of setup by 50%.

Ye Yuan said in delight, "Excellent stuff!"

"Additionally, your realm is too low. This Grand Yan Space still has an array formation setup within it. Its name is Enlightening Formation. As for what realm you can break through to, that will have to depend on yourself," Wei Xiao explained.

"En? That's excellent! Thank you very much, Old Wei! Let's hurry up and begin! My fellow disciples' life and death are currently unknown. I'm very worried about their safety and want to go back quickly." Ye Yuan gave thanks to him.

Wei Xiao nodded and said, "Since that's the case, I'll activate the array formation now!"

Wei Xiao brought Ye Yuan to a hidden room and made Ye Yuan enter it. The array formation activated and then colossal amounts of essence energy began to gather within the secret room!

Enlightening Formation was an array formation even higher rank than the Spirit Gathering Formation. It could amass enormous amounts of essence energy instantaneously and provide it for martial artists endlessly; just like swallowing cultivation medicinal pills non-stop!

Soon enough, layers of fog appeared inside the hidden room. The thick essence energy had already condensed to form mist!

Ye Yuan absorbed the essence energy greedily into his body and refined them.

In truth, ever since divine soul perfection previously, Ye Yuan could have taken advantage of the momentum to break through to the Ninth Level Spirit Condensation Realm. But he kept lacking the opportunity.

Now that he was refining essence energy unceasingly, the spirit liquid within his body condensed with exceptional speed. Very soon, he broke through the bottleneck for the Ninth Level Spirit Condensation Realm!

Outside the formation, Wei Xiao was astonished once again. "Why would this boy absorb so much essence energy to break through to the Ninth Level Spirit Condensation Realm? Furthermore, his breakthrough to the Ninth Level Spirit Condensation Realm actually did not have any hints of a bottleneck! Looks like his cultivation realm comprehension had long surpassed the standards of Eighth Level Spirit Condensation Realm. This boy is truly remarkable!"

At this time, Wei Xiao no longer doubted Ye Yuan's degree of genius.

And right then, the spirit liquid within Ye Yuan's Dantian became increasingly more satiated and gradually reach a saturated state!

Peak Ninth Level Spirit Condensation Realm!

The next step was condensing and forming crystal!

Right at this moment, the cultivation method that Ye Yuan was revolving changed quietly!

"What? Does he want to break through to the Crystal Formation Realm right away? Too reckless! He went from the Eighth Level Spirit Condensation Realm to Peak Ninth Level Spirit Condensation Realm. In between, he crossed an entire minor realm. He actually didn't even consolidate his realm and didn't cross it from Half-Step Crystal Formation Realm, breaking through to the Crystal Formation Realm directly. Seriously too reckless!" Wei Xiao was frightened by Ye Yuan's act.

He made Ye Yuan enter this formation to let him break through to Peak Ninth Level Spirit Condensation Realm, not to let him break through to the Crystal Formation Realm directly.

Who knew that this boy kept doing some unimaginable things? Without even catching his breath, he broke through to the Crystal Formation Realm directly!

Ye Yuan did not have so many misgivings and completely did not plan on crossing from Half-Step Crystal Formation Realm either. He planned on breaking through to the Crystal Formation Realm right from the start!

Chapter 342: Nine-Nine Return to One, Crystal Formation Realm!

Ye Yuan already laid his foundation extremely solid during the Spirit Condensation Realm. Breaking through to the Crystal Formation Realm now was something that happened without effort.

Sometimes, breaking through realms also needed to be done in a single vigorous effort. Being overly cautious would adversely affect the success rate of breaking through instead.

When Ye Yuan broke through to the Ninth Level Spirit Condensation Realm, he already accumulated this momentum to the peak condition.

Choosing to break through to the Crystal Formation Realm right now was the best option!

Nine-nine, 81 spirit liquid drops seethed inside Ye Yuan's dantian. Ye Yuan's aura rose continuously without pause!

Under the guidance of the Spirit Bristle Nine Yang Divine Art, these nine-nine, 81 spirit liquid drops, actually started revolving in high speed inside Ye Yuan's dantian!

At this time, Ye Yuan did not compress the spirit liquid within his dantian but circulated these spirit liquid to let them swim inside his meridians!

The revolving spirit liquid gradually formed a vortex. The more it revolved, the faster it went! The more it revolved, the lesser it became!

That vortex shrunk at a speed discernible to the naked eye. All the spirit liquid transformed into essence energy inside Ye Yuan's body and begun circulating.

Finally, that vortex shrunk to the limit, virtually disappearing.

"Nine-nine return to one! Condense!" Ye Yuan howled.

An extremely soft splitting sound seemed to have come from inside the dantian.

Looking over closely, Ye Yuan's dantian actually had an additional extremely tiny crystal. And that crystal was still revolving at high speeds.

Right at this moment, the essence energy within Ye Yuan's body just happened to finish circulating one complete cycle, returning to the dantian once more.

When the essence energy returned to the dantian, it was immediately drawn in by the crystal, circling one round around the crystal before flowing towards the meridians once again.

And at this time, that tiny crystal expanded by a bit!

"This brat, such a large commotion breaking through to the Crystal Formation Realm?" Wei Xiao involuntarily furrowed his brows.

The essence energy inside the array formation poured into Ye Yuan's body crazily, but Ye Yuan took it all in.

The essence energy was like floodwaters that opened the gate, filling Wei Xiao who was watching with apprehension.

Ye Yuan's body was akin to a bottomless pit. No matter how the floodwater poured in, it could not be filled!

81 spirit liquid drops forming a crystal had probably never appeared before in the Endless World's history. Therefore, Ye Yuan's upheaval when breaking through appeared tpp outrageous in Wei Xiao's eyes.

The frenzied essence energy kept circulating a great circulatory cycle inside Ye Yuan's body without stopping. That small crystal was also expanding continuously.

Finally, after orbiting nine-nine, 81 great circulatory cycles, Ye Yuan's aura withdrew abruptly, ceasing the frenzied absorption of essence energy.

And presently, a pale yellow crystal suspended peacefully in the center of his dantian.

Ye Yuan finally broke through to the Crystal Formation Realm!

Wei Xiao's gaze grew intent, but he heaved a long sigh and muttered to himself, "Heh, this brat really succeeded! Seriously reckless!"

Ye Yuan also breathed a slow breath of turbid air but did not ease up.

To other martial artists, divine soul transformation was a very relaxed step. But to him, this was a deadly step!

Before long, the essence energy which had just calmed down became agitated again.

Ye Yuan's mind suddenly burst in pain. The torment of the divine soul ripping apart came once again!

This sort of perverse transformation manner really made Ye Yuan feel like going crazy.

He knew that this kind of transformation was because of those golden texts inside his sea of consciousness. He also knew that he would obtain even greater benefits from such a transformation.

But the anguish experienced during this process was unimaginable by ordinary people!

This time, Ye Yuan was mentally prepared long ago. Clenching his teeth tightly, his pair of fists also balled up tightly.

Even so, a series of muffled groans was still emitted from his throat.

Right at this moment, that black bead which had been lying quietly inside Ye Yuan's sea of consciousness the entire time stirred!

The black bead quivered slightly and actually shook off some black powder.

When the black powder fell off, it instantly vanished.

Immediately after, Ye Yuan felt a trace of cool refreshingness coming from within his sea of consciousness. His head which initially felt like it was exploding actually did not ache anymore!

However, Ye Yuan could clearly sense that his divine soul was still being ripped apart.

The present Ye Yuan was like a spectator observing his own divine soul being torn bit by bit coldly.

Finally, those golden characters moved out!

These golden characters were like exquisite tailors, sewing up Ye Yuan's shredded divine soul again. But there were no fissures at all!

"Huuuu . . ."

Ye Yuan spat out a long breath of turbid air. The divine soul transformation finally ended!

"What in the world is that black bead, to actually have such miraculous effects?"

As a Divine Realm's pinnacle existence once, Ye Yuan actually had not heard of such a miraculous black bead before. It was clear that its origins were absolutely extraordinary!

It was just that from the surface, he simply could not tell this black bead's value. It also did not have any unusual aspects.

If it were not sucked inside his sea of consciousness by the golden characters, he would probably have treated it the same as garbage and threw it aside, right?

Sensing the power belonging to Crystal Formation Realm martial artists, Ye Yuan felt like he was brimming with strength!

The crystal within Ye Yuan's dantian was formed by the condensation of nine-nine, 81 drops of spirit liquid. The quality was much higher than the average First Level Crystal Formation Realm.

Disregarding all else, just talking about essence energy, Ye Yuan's current First Level Crystal Formation Realm was not in any way weaker than the average Third Level Crystal Formation Realm!

When Wei Xiao saw Ye Yuan walk straight out of the hidden room, he could not help being stunned.

"Why did you come out so soon? You just broke through to the Crystal Formation Realm. Aren't you going to consolidate your realm?" Wei Xiao asked puzzledly.

Most people would have to enter closed-seclusion for a period of time after newly breaking through realms to consolidate their realm. Who would exit seclusion directly like Ye Yuan?

"No need. Old Wei, thank you for your care these two days, but I'm still worried about my fellow apprentices, so I'll bid my farewell here. No matter what, I have to confirm their life and death!" Ye Yuan said.

Wei Xiao said, "I can understand your feelings. But even if you broke through to the Crystal Formation Realm, leaving also can't change anything, right? In my opinion, you should stay here to raise your cultivation well, and leave after reaching the Soul Sea Realm. Only this way will you have the strength for self-preservation in the war between two worlds!"

Ye Yuan shook his head and said, "The Six Extreme Seals is unbelievably powerful. It can only be damaged further from Endless World's side. But even if the seal was destroyed right now, the Fierce Gale World would not be able to launch a massive attack for some time too. Even if my fellow apprentices are no longer around, I also have to hurry back to the sect. I don't wish for my friends to meet with any mishap!"

Wei Xiao sighed and said, "Since your mind is made up, I won't hold you anymore. But since the passageway between the two worlds is already linked together, you have to take care of yourself after leaving."

Finished talking, Wei Xiao brought Ye Yuan to a transmission array.

Ye Yuan bowed deeply in Wei Xiao's direction and said his goodbyes, "Take care, Old Wei!"

Finished talking, Ye Yuan stepped into the transmission array.

Ye Yuan's eyes blurred, and when he reappeared, he returned to the second level of the Eternal Splendor Palace again!

Currently, the Eternal Splendor Palace was devoid of people, looking rather bleak.

Ye Yuan did not hesitate and walked directly towards the direction of the exit.

Ye Yuan was just about to go down one level when alarm bells suddenly sounded. A silhouette leaped out from the side. Who could it be but Lan Feng who was guarding here?

"You finally came out! I've waited for you for very long!" This is nine by nine, so just nine-nine.

Chapter 343: Thousand Flowing Petals Showing Its Might Again!

"Mm? Having not seen you for a few days, you actually broke through to the Crystal Formation Realm already!"

Sensing the aura coming off of Ye Yuan's body, Lan Feng felt rather surprised.

But it was merely just a little surprised. The strength of a First Level Crystal Formation Realm was inadequate to make him take it to heart.

What made Lan Feng truly wary was still those puppets. But he also figured out his plan too. As long as he did not enter the array formation, Ye Yuan would not be able to do anything to him.

But when Ye Yuan saw Lan Feng, he grinned instead and said, "Your gall really isn't small. To actually dare block me here alone."

"Doesn't matter. I've already asked my comrades for help. I just have to persevere until they arrive here! Although those puppets of yours are impressive, you're still not qualified to defeat me quickly!" Lan Feng said derisively.

Fierce Gale World martial artists advocated personal martial force most of all and disliked assistance from external items. They were very disdainful of Ye Yuan's methods.

Lan Feng hoped to see a panicky expression on Ye Yuan's face, but he was disappointed.

Not only was there not a trace of panic to be seen on his face, but Ye Yuan was also so composed that it made him a little flustered.

Freaking absurd! Lan Feng cursed inwardly.

"That's also to say that as long as I finish you off before your comrades arrive, then it's all good?" Ye Yuan said with a grin.

"Harrumph! Wild arrogance!" Lan Feng was furious when he heard that.

"Enough crap. Come on!" Ye Yuan extended a hand. Canghua Sword appeared in his hand.

But Lan Feng did not make a move. He was afraid that Ye Yuan would suddenly release the sword puppets. Once he fell into the array formation, it would not be easy for him to want to free himself.

This Lan Feng looked like he had a straightforward personality at first glance, but it did not mean that he was dumb.

The anxious one right now was Ye Yuan, not him. He just had to waste time.

And this was also all taught to him by Big Brother Lan Bao.

Ye Yuan smiled slightly and said, "You're not coming? Then I'm coming!"

Ye Yuan wielded his sword and pointed at Lan Feng. Exquisite flower petals started appearing in the air!

Seeing this scene, Lan Feng's complexion changed drastically!

This fellow was actually able to maneuver heaven and earth essence energy!

He thought that what Ye Yuan was relying on were the sword puppets. He never thought that he still had such a fierce move!

But the problem was that Ye Yuan was still only at the Crystal Formation Realm. How did he do it?

But there was already no more time for him to think. If he pondered anymore, he was going to die!

After breaking through to the Crystal Formation Realm, Ye Yuan's perception and affinity toward heaven and earth essence energy went up by a huge step. Executing Thousand Flowing Petals again was no longer as demanding as it was before at the Spirit Condensation Realm. The speed of execution naturally also sped up considerably.

The Lan clan brothers were all the same type, exceptional speed and formidable fist strength.

Only to see Lan Feng tap his feet and his figure moved explosively, shooting towards Ye Yuan.

A cluster of flower petals blocked in front of Lan Feng like it floated along with the wind.

Lan Feng clenched his jaws. "Break for me!"

A fist smashed out. Essence energy surged, and an exploding noise actually sounded!

The fist without any ostentatiousness was a fist with a crushing force that overwhelmed all!

Lan Feng belonged to those type who were extremely powerful in close-combat. He did not mobilize large amounts of heaven and earth essence energy to face his opponents like Ye Yuan, but would condense heaven and earth essence energy onto his own fist to wield it as he pleased!

This kind of brandishing method could muster heaven and earth essence energy the fastest and augment the might of his fist art to the maximum degree!

In mid-air, Lan Feng's fist collided with that cluster of flower petals!

There was no intense impact sound.

That cluster of flower petals slowly melted, finally vanishing. But Lan Feng's fist force was already totally crumbled by Ye Yuan!

Lan Feng was so greatly frightened that he turned pale. "How is that possible? You're only at the Crystal Formation Realm! How can you be so proficient in the usage of heaven and earth essence energy?!"

The reason why Lan Feng was astonished was because that clump of flower petals was not Ye Yuan's full strength, but it was only a small tuft of the flower petals that Ye Yuan condensed!

And this small cluster of flower petals was just enough to neutralize the fist force that Lan Feng invoked!

Just how accurately did he grasp it?!

It was as if Ye Yuan saw through it with one glance how much heaven and earth essence energy this fist of Lan Feng had amassed!

Something that even he, this Sea Transformation Realm, could not do, but a First Level Crystal Formation Realm martial artist could accomplish. How could Lan Feng not be astounded?

For close-combat type martial artists like Lan Feng, the most important thing was momentum.

And presently, he was completely unable to gather his own momentum. Ye Yuan would not give him the opportunity to accumulate any momentum!

Ye Yuan did not pay attention to Lan Feng's astonishment. All of his energy were placed on manipulating the Thousand Flowing Petals.

Although he had already broken through to the Crystal Formation Realm, maneuvering heaven and earth essence energy was something that only martial artists at the Sea Transformation Realm and above could accomplish.

Accurately speaking, only Soul Sea Realm martial artists could control heaven and earth essence energy as they wished!

Sea Transformation Realms merely understood some superficial knowledge.

Hence, manipulating Thousand Flowing Petals was still something tremendously difficult for Ye Yuan.

It was just that compared to while being at the Spirit Condensation Realm, it was way easier now.

Presently, a circumference of a hundred feet was already flooded with countless flower petals. Ye Yuan naturally would not give Lan Feng any chance at all!

He moved another small cluster of flower petals which churned towards Lan Feng. Lan Feng's expression darkened, and he gritted his teeth and said, "Humph! So what if you can mobilize heaven and earth essence energy? How can I lose to a puny little Crystal Formation Realm martial artist? Torrential Pear Blossom Fist! Break for me!"

All of a sudden, Lan Feng's aura skyrocketed. A colossal aura swept away those flower petals.

This was the true strength of a Sea Transformation Realm powerhouse!

Only to see Lan Feng's fist shadows cascade forth, negating Ye Yuan's attack one after another.

It was seemingly as if no matter how many flower petal attacks Ye Yuan mustered, they were unable to breach Lan Feng's defense!

Yes. After Lan Feng's aura skyrocketed, he did not attack but defended passively!

Because his surroundings were already jam-packed with flower petals. Even if he unleashed the full strength of Sea Transformation Realm, he would have no way of getting through these flower petals either!

As a close-combat martial artist, he already lost the only chance to approach Ye Yuan!

With his speed, if he struck first to gain the initiative, Ye Yuan's Thousand Flowing Petals would not have succeeded in launching so smoothly.

But sadly, Lan Feng was cautious in taking action and did not attack first. By the time he felt that something was not right, there was already no chance left!

Now, he could only take a beating passively!

Ye Yuan's Thousand Flowing Petals was not some ordinary martial technique, but it was a supreme true intent's sword move!

When Ye Yuan was at the Second Level Spirit Condensation Realm, he could already use this move to injure the Sea Transformation Realm Yao Qian. One could imagine just how powerful the attack of this sword move was!

Now that Ye Yuan already advanced an entire major realm, the might when displayed again could no longer be mentioned in the same breath.

Even the formidable Lan Feng could only avoid contact when facing the Thousand Flowing Petals!

Those withering flower petals looked like they were harmless to humans and animals, but in truth, killing intent was concealed!

What Lan Feng could rely on presently was his thick essence energy!

As long as he could persist until Ye Yuan's essence energy ran out, he would have the chance to kill Ye Yuan.

Lan Feng's Torrential Pear Blossom Fist danced flawlessly. However . . . there was not a wall without a crack in this world and also no absolute defense.

No matter how fast his fists were, it was also not possible to defend everywhere!

One had to know that the Thousand Flowing Petals was not a straightforward attack, but flower petals that could flutter.

All-pervasive!

[Unrivaled Medicine God](#)

Chapter 344: Infiltrating

Regardless of how compact Lan Feng's fist art was, how could it possibly block the limitless flying flowers?

While Lan Feng did not detect it, a bunch of petals already flew into his defensive circle by following a path along his lower body.

"Thousand Flowing Petals, explode!"

Ye Yuan gave a low cry. Only to hear puffing sounds occurring everywhere. Countless tiny explosion sounds took place inside Lan Feng's defensive radius.

Each flower petal's explosion was certainly not very strong. But the explosions from thousands and tens of thousands of flower petals, that was not something fun.

Lan Feng's body was blasted away until it quivered non-stop like he was dancing drunkenly.

The protective essence energy of a Sea Transformation Realm was exceedingly powerful, especially for a close-combat martial artist like Lan Feng.

But no matter how powerful it was, it could not contend with this petal rain that filled the entire sky.

Ye Yuan manipulated more and more flower petals to fly toward Lan Feng. By the end of it, he was already submerged by the petals.

Countless flower petals exploded. Lan Feng's body trembled even more violently.

Finally, that powerful protective essence energy was breached by these innumerable miniature explosions! Lan Feng's main body started to receive the explosions!

"Puwarkk!"

Lan Feng violently vomited a mouthful of fresh blood and kneeled feebly onto the ground!

But right at this moment, Ye Yuan moved!

Ye Yuan did not wait for Lan Feng to hit to the ground. With a flash, he arrived before him.

"God Stunning Spike!"

Ye Yuan's divine soul force erupted abruptly, attacking Lan Feng's sea of consciousness!

Lan Feng evidently did not imagine that Ye Yuan would suddenly perform a sneak attack, using divine soul mystic arts to attack him.

While completely caught off-guard and still at a loss as to what was happening, Lan Feng only felt his mind go blank, and the whites of his eyes could be seen. Then, he was out cold!

But Ye Yuan's means had not ended yet!

He formed seals with both hands swiftly. His soul force was released once more, plunging into Lan Feng's sea of consciousness!

"Slave seal, form!"

Currently, Lan Feng's divine soul was viciously attacked by Ye Yuan's God Stunning Spike and already sustained substantial injuries. It was also in a completely unprepared state.

Making use of this time lag, Ye Yuan forcefully planted a slave seal in Lan Feng's divine soul!

Different from Yuan Fei's soul contract, after having the slave seal planted, Lan Feng would lose his own consciousness. All actions must be taken from Ye Yuan.

Moreover, due to Ye Yuan forcefully planting the slave seal, it would also cause irreversible damage to Lan Feng's divine soul. Lan Feng's cultivation in this life would also halt here.

Seeing the slave seal form successfully, Ye Yuan also felt like collapsing.

The series of attacks earlier were all completed in the time it took for a spark to fly off a piece of flint. Regardless whether to his essence energy or divine soul, it was all an enormous burden.

A Crystal Formation Realm martial artist planted a slave seal on a Sea Transformation Realm martial artist. This was something that others did not even dare to imagine. But Ye Yuan did it!

Sea Transformation Realm was not a major realm. Although the divine soul strength of Sea Transformation Realm martial artist was enhanced to a certain degree compared to Crystal Formation Realm martial artist, it was not that kind of major realm leap.

Especially for a pure martial artist like Lan Feng. In terms of divine soul realm grinding, it barely reached the standards of middle to late-stage Alchemy Grandmaster.

After Ye Yuan broke through to the Crystal Formation Realm, his divine soul realm had already leaped directly to the perfection of early-stage Alchemy Grandmaster; roughly around Lan Feng's divine soul realm.

It was precisely so that Ye Yuan dared to perform such a risky move; planting a slave seal in Lan Feng!

Although Ye Yuan succeeded, the entire process was something incredibly perilous.

Ye Yuan's divine soul realm was not as high as Lan Feng's when all was said and done. If Lan Feng had any bit of precaution, not only would he fail to succeed, it would cause his divine soul to suffer a backlash instead.

Therefore, before Ye Yuan made his move, he already took into consideration each and every step.

Not that Ye Yuan liked the thrill, but because Ye Yuan wanted to understand Mei Zhen and the rest's whereabouts through Lan Feng.

Ye Yuan knew that no matter how he asked, Lan Feng would not tell him as well.

Even if he told him, Ye Yuan would not dare believe it either.

So the best way was to control Lan Feng!

Furthermore, Ye Yuan still had even longer-term considerations. If Mei Zhen and the rest died, everything was obviously too late. But if they did not die, he still had areas to use Lan Feng in.

Ye Yuan did not waste too much time. Lan Feng already informed experts to come through secret methods previously. The more he delayed, the more dangerous it got.

"Open up your divine soul! I want to search your memories!" Ye Yuan instructed.

Lan Feng's eyes recovered some light, but he disregarded the injuries on his body and struggled to his feet to give a bow towards Ye Yuan. "Yes, Master!"

Ye Yuan's divine sense entered Lan Feng's sea of consciousness and read his memories.

Seeing that Mei Zhen and the rest were fine, he could not help heaving a long sigh in relief.

Speaking of which, he had to thank Lin Chao. If not for him interjecting, Mei Zhen and the rest would probably already be dead now.

Ye Yuan fished out an Azure Profound Heart Nourishing Pill and threw it to Lin Chao. "Quickly eat it. But there isn't time for you to refine the medicinal strength already. We leave now!"

"Many thanks for master bestowing the pill!" Lan Feng said deferentially.

.....

Eternal Splendor Palace's underground, the location of the Six Extreme Seals Grand Array, also the place where the passageway between the Endless World and Fierce Gale World lied.

Lan Feng who was covered in injuries walked in, detaining Ye Yuan whose essence energy was sealed.

The Fierce Gale World already deployed a large number of troops underground. But they were all Crystal Formation Realm martial artists.

It was just two to three days since the passageway was opened up. Large numbers of experts were still currently en route rushing over.

"Lord Lan Feng!" When the guard saw Lan Feng, he bowed and said respectfully.

Lan Feng nodded and said, "The person that Big Brother Lan Bao made me capture is already caught. This prisoner is highly important. I have to escort him personally back to the tribe!"

"Yes! This way please, Lord Lan Feng!" The guard did not dare to obstruct and directly let him through.

Lan Feng's status was the highest in this place. They naturally did not dare to say anything else.

Furthermore, the matter of Lan Feng staying behind to capture someone was known by all these guards.

Lan Bao and the rest already returned to the Fierce Gale World to arrange for the matters concerning the invasion of the Endless World. After all, compared to Ye Yuan alone, the war of two worlds was the major event!

But Lan Bao should have already received Lan Feng's summons at this time and was currently hastening over.

Ye Yuan glared at Lan Feng fiercely but refused to enter the passageway.

"What are you looking at?! Move quickly!" Lan Feng shoved.

"Just kill me if you have the capabilities!" Ye Yuan said wrathfully.

"Hehe, you still have great use. How can I let you die so easily? Moreover, in order to catch you, I suffered heavy injuries. We have to settle this score properly later!" Lan Feng said with a cold sneer.

The pair carried out a conversation, putting up enough of a show.

Finally, being shoved by Lan Feng, Ye Yuan entered the passageway. Lan Feng also followed in after.

"No way, right? That young man was only at the First Level Crystal Formation Realm. He actually beat Lord Lan Feng to that extent?! This combat strength is also too terrifying, yeah?" after the two people left, a guard exclaimed in surprise.

"What do you know?! I heard previously that the Endless World martial artist that failed to be captured was only at the Eighth Level Spirit Condensation Realm. It's definitely this punk! Just a few days of not seeing him, he actually broke through directly to the Crystal Formation Realm! If not because this punk is abnormal, why would Lord Lan Feng have to capture him alive?" the other person said.

"Really too scary! Our Fierce Gale World martial artists have always been renowned for the might of our combat strength. But compared to this young man, the disparity isn't an ordinary kind of big!" The guard then sighed with admiration.

Chapter 345: Back Thrust!

Once he entered the Fierce Gale World, Ye Yuan felt the storm winds howl towards him like blades, slicing until his face hurt.

Lan Feng noticed Ye Yuan's discomfort and enquired, "Is Master not used to this gale?"

Ye Yuan waved his hand and released his aura slightly. Those storm winds actually swept past his side automatically like he was filtered out.

The might of this gale was roughly the same as the Nine Heavens Road. With Ye Yuan's understanding of the concept of wind, these storm winds naturally could not hurt him.

Lan Feng's expression flickered. "To think that Master's attainments in the concept of wind are so high. Our Fierce Gale World's natives come into contact with this gale ever since birth. But scarcely anyone can reach Master's boundary!"

"This hurricane is not strong. I can still handle it. If my conjectures are right, the Fierce Gale World's tempests should exceed this, right?" Ye Yuan waved his hand and said.

Lan Feng nodded and said, "That's right. The Fierce Gale World's storms are the weakest in the Central Capital. The intensity of the gales radiates outwards with the Central Capital as the center. Places that are closer to the Central Capital have weaker storms, while places further from the Central Capital have more powerful hurricanes."

Ye Yuan nodded and said, "So, that's the case. Then how strong is the place with the strongest gales?"

Lan Feng said, "The Fierce Gale World is divided into nine regions according to the strength of the storms. Level One is the weakest, and Level Nine the strongest. The gales in the Level Nine region is exceptionally terrifying. Even Lord Wind Emperor also don't dare to set foot in that region."

When he mentioned this Level Nine region, Lan Feng's face carried thick apprehension. Evidently, it was an extremely terrifying place.

Ye Yuan could not help asking interestedly, "With your strength, what is the deepest region you can reach?"

Lan Feng said, "This old slave's strength is meager. I can only move about at most in the Level Five region. Any deeper in and I'll be powerless."

"Oh? With your Sea Transformation Realm strength, you can actually only reach the Level Five region. Looks like the Fierce Gale World's storms are indeed very powerful! Then what level is this region we're currently at now?"

"The vast majority of the people all live in the Level Three region. Any further out and ordinary people will not be able to penetrate within. Only martial artists with formidable strength can do it. Hence, the struggle for land inside the Level Three region is very intense. Tribes will frequently slaughter each other because of land. The place we're at right now is the location between the borders of the Level Three and Level Four regions."

Ye Yuan asked puzzledly, "Just the members of your tribe that I've seen were four Sea Transformation Realm experts already. You're actually only able to stay in such a remote area?"

"Replying master, our Lan Family is not an ordinary tribe but a branch of the Tempest Guards under the Wind Emperor's command. Four thousand years ago, the old Wind Emperor brought the Tempest Guards and planned on personally storming the Endless World. But the Grand Yan True Sect sealed the passageway between the two worlds using the Six Extreme Seals Grand Array. Hence, the old Wind Emperor left us Lan Family Clan behind here to guard the land of the seal."

Ye Yuan came to a realization. "No wonder you guys arrived so quickly. It was actually this reason! Alright, this matter brooks no delay. Let's hurry to your tribe. If we waited until Lan Bao discovers a problem, it would make it a lot more troublesome for nothing."

"Yes, Master."

.....

Around an hour later, Lan Bao brought Lan Hu back to the passageway area.

The two of them strolled leisurely around the second level but did not see a shadow. An ominous premonition involuntarily welled up in their hearts.

"Did you all see Lan Feng?" Lan Bao came back and asked the guards.

That guard thought that Lan Bao came back for some other matter. He only knew that it was for Lan Feng when he heard it at this time. He hurriedly said, "Replying Your Excellency, Lord Lan Feng already returned to the Fierce Gale World around an hour ago."

Lan Bao was secretly alarmed and asked, "Mm? Why did he go back?"

That guard was also baffled. Logically speaking, Lord Lan Feng and Lord Lan Bao should have met. Could it be they took different paths?

The guard also felt that something was not quite right. Hence, he recounted the event of Lan Feng passing through the entrance from the very beginning to the end exactly as it was.

Lan Bao's face involuntarily changed drastically when he heard that. Sending that guard flying far away with a slap, he roared, "You moron! When that brat was at the Spirit Condensation Realm, the four of us couldn't even take him down combined! Now that he broke through to the Crystal Formation Realm, how can Lan Feng possibly capture him alive alone?"

Lan Bao did not deal a lethal blow. That guard spat out blood as he begged for mercy, "Have mercy, Your Excellency! Have mercy, Your Excellency!"

"Humph! I'll find you to settle the scores later! Lan Hu, let's chase after!"

Finished talking, Lan Bao led the charge into the Fierce Gale World. Lan Hu followed after.

The group of guards was as silent as cicadas in cold weather. Nobody dared to make a sound.

They all could not figure things out. Lord Lan Feng clearly detained that Endless World boy. What problem would there be?

.....

Fierce Gale World.

On the way to the Lan Family Tribe, Lan Bao said in a low voice, "How do you see it, Lan Hu? Do you think that . . . there's a possibility of Lan Feng turning traitor?"

Lan Hu shook his head and said, "Lan Feng grew up together with me. I understand his character the best. His loyalty towards the tribe, maybe even we can't compare! Furthermore . . . he has no reason whatsoever to defect!"

"But . . . why did he help that brat enter the Fierce Gale World? Is it possible that . . . he really defeated that boy?" The more Lan Bao thought, the more perplexed he got.

His understanding of Ye Yuan merely stopped at the sword puppets. As for his combat strength, he was utterly ignorant.

But even if that boy broke through to the Crystal Formation Realm, even if Ye Yuan used the sword puppets, it was also impossible to take Lan Feng down in such a short amount of time, right?

What happened in-between all this?

Lan Bao and Lan Hu did not even think in the area of slave seal. Because in their viewpoint, this was something that could not possibly occur.

"Saying anything is pointless. We'll know what happened after we return to the tribe," Lan Hu said.

Lan Bao nodded and said unwillingly, "We'll have to leave it at that!"

.....

The Lan Family Tribe was located at the borders between the Level Three Gale Region and the Level Four Gale Region. The environment was rather harsh.

Yellow sand pervaded this area. The gale winds were piercingly cold. People who had slightly weaker strength would be slashed by the storm winds immediately.

Not far away from the tribe, two silhouettes appeared. They were precisely Ye Yuan and Lan Feng.

"With what you said earlier, I reckon that Lan Bao and the rest still have at most another hour before they are back. You only have an hour's time to bring them out! Bring this spatial artifact with you. Once you have the opportunity, fit them inside according to the mantra that I recited. I'll receive you outside!" Ye Yuan instructed Lan Feng.

"Yes, Master!" Lan Feng said.

Lan Feng already became Ye Yuan's slave. All of his actions were done according to Ye Yuan's will.

Passing the spatial artifact to him naturally had nothing to be concerned of.

Lan Feng's current identity was not being suspected yet. He just had to come up with a reason to return to the tribe, and then bring Mei Zhen and the rest out, and that would do.

Making use of this time difference, Ye Yuan could deal a back thrust and charge back to the realm passageway again!

Although a large group of Crystal Formation Realm martial artists was stationed over there, with his strength plus Lan Feng and throw in his fellow apprentices, breaking through would be a cinch.

This was Ye Yuan's plan!

And now, he had to see if Lan Feng could successfully bring out the Tranquil Cloud Sect disciples.

Roughly the lesser part of an hour later, Lan Feng's figure appeared in Ye Yuan's sight . . .

Unrivaled Medicine God

Chapter 346: Lan Yu

"You didn't find them?"

Seeing Lan Feng's expression, Ye Yuan immediately felt a foreboding feeling.

"This . . . Master had better ask him."

As he spoke, a figure appeared in front of Ye Yuan. Who could it be but Pang Wannian?

It was just that his body was currently covered in wounds. His face was already swollen. Clearly, these few days had not been very pleasant.

The second Pang Wannian saw Ye Yuan, he felt a multitude of feelings surge up and tears gushed out.

But there was no longer much time for them to catch up. Ye Yuan said, "Senior Apprentice Brother Pang, keep things short. Lan Bao might have already returned to the Lan Family Tribe. We don't have much time! Where did Elder Mei and the rest of the apprentices go?"

Pang Wannian was shocked and hurriedly said, "Elder Mei and the rest were escorted to the Central Capital. The Lan Family tribe members said that they were to be sold over there as slaves! Because I'm missing an arm, they felt that it's unsightly. That's why they left me in the tribe. Oh yeah, it's the Lan Family Tribe's patriarch who personally escorted them there!"

Ye Yuan's brows knitted. This surprise thoroughly disrupted his plan.

"Why were the Lan Family Tribe's actions so quick? They shouldn't know that I'm coming to save them, right?" Ye Yuan said bewilderedly.

"Nothing to do with Master. It's Lord Patriarch's decision! The realm passageway is already linked together. He must report to Lord Wind Emperor at the first moment. Hence, he brought a portion of the tribe's experts and master's fellow apprentices and set off that very night to hasten to the Central Capital," Lan Feng explained.

"Patriarch?"

"Yes! The patriarch is the strongest expert in the Lan Family Tribe. The one and only Soul Sea Realm powerhouse! Our Lan Family's mission is to guard the passageway between two worlds. Therefore, he

dared not dawdle and had to report to His Majesty, the Wind Emperor, as soon as possible about this matter."

Ye Yuan felt a wave of helplessness. Truly, plans could not catch up changes.

He thought that he could catch the Lan Family Tribe completely unawares and rescue his fellow apprentices away. Who knew that something like this would actually happen?

This way, his plan to catch them off-guard completely fell through.

Ye Yuan let out a sigh and said, "Can't stay here too long then. Since Elder Mei and the rest of the disciples have already been brought to the Central Capital, we still need to talk about this at length."

Ye Yuan's voice had yet to fade when a bugle call sounded from Lan Family Tribe a little way off!

"Not good! Lan Bao's movements are too fast! Looks like he already discovered that something's wrong with Lan Feng and is chasing over right now! Let's leave quickly!" Ye Yuan said.

Lan Bao's strength was a great deal stronger than Lan Feng's. Even though Ye Yuan had broken through now, he still was not Lan Bao's match.

Direct confrontation right now was not the move of a wise man.

Not far away, sand clouds billowed. The Lan Family Tribe was actually marching straight for Ye Yuan!

Wang Pannian was also very anxious when he saw the situation and said, "Junior Apprentice Brother Ye, what should we do now? Flee in the direction of the Central Capital?"

Ye Yuan shook his head and said, "No. We'll flee towards the Level Four Gale Region! Lan Feng, you and Senior Apprentice Brother Pan enter the spatial artifact first!"

As he said, Ye Yuan transferred the pair into the spatial artifact. Tiptoeing, Spirit Void Shattering Space was executed, and he transformed into a streak of blue smoke that dashed towards the outer gale regions.

.

15 minutes later, Lan Bao brought Lan Hu along with the rest and appeared at the place where Ye Yuan was at previously.

Lan Bao spat viciously and said gloomily, "Truly didn't think that Lan Feng really turned traitor! Why?!"

Lan Hu remained silent. But another person beside Lan Bao said, "Lan Bao, there's something I don't know if I should say."

That person was called Lan Yu; he was also a Fifth Level Sea Transformation Realm expert like Lan Bao.

The patriarch brought along the experts in the tribe and left the Lan Family Tribe. He and Lan Bao became the ones with the greatest strength in the tribe.

"En? Lan Yu, what's there not to say between us brothers?"

Lan Yu nodded and said, "When I saw Lan Feng earlier, I felt that something was amiss. But it was not obvious, so I didn't pay much attention either. Looking at it now, he seems to have really . . ."

Lan Bao's face darkened slightly. "Really what?"

"He seems to be . . . controlled by somebody! Thinking about it now, his eyes back then were rather slack; without that energy before. Because he said that he was previously injured by that Endless World brat, I didn't pay much attention too," Lan Yu said.

"Are you saying that he had a slave seal planted by someone?!" Lan Bao was shocked and enraged.

Lan Yu nodded his head and said, "Only that can explain why he would do such an abnormal action!"

"Impossible! That brat just broke through to the Crystal Formation Realm. How can he possibly plant a slave seal on Lan Feng?" Lan Bao bellowed at Lan Yu.

But the more he roared, the guilt-ridden he felt.

Lan Bao, Lan Hu, Lan Feng, and Lan Yun were cousins who grew up together since young. Their relationship was very good.

Now, hearing that Lan Feng actually had a slave seal planted by someone, how could he not be furious?

Lan Yu did not speak. He knew that Lan Bao actually already believed it in his heart.

Honestly speaking, he also did not think in this area when he saw Lan Feng.

Although he heard Lan Bao say before that Ye Yuan was terribly cunning, in Lan Yu's impression, Ye Yuan was merely just a Spirit Condensation Realm martial artist after all. How could he possibly plant a slave seal on a martial artist two major realms higher than him?

That was too preposterous!

But right now, this was the only explanation that worked!

Bang!

Lan Bao half-kneeled on the ground and smashed a fist onto the ground. Yellow sand billowed up!

"Ye Yuan! If I catch you, I'll definitely peel off your skin and pull out your tendons!" Lan Bao gnashed his teeth hatefully and said.

Lan Yu patted Lan Bao's shoulder and said with a sigh, "Alright, now's not the time to be saying this! Lan Feng's aura vanished after he reached here. In my opinion, they are very likely to be carrying a spatial artifact on them. I asked the guards. When Lan Feng came out, he was alone. That one-armed slave is definitely hiding inside a spatial artifact!"

Evidently, this Lan Yu was able and shrewd. He was certainly an existence like an intelligent military advisor in the Lan Family Tribe. Otherwise, the patriarch could not possibly have put his heart at ease by leaving the tribe to him too.

In comparison, while Lan Bao's combat strength was high, he was clearly slightly inferior in the wits aspect.

Being spoken to like that by Lan Yu, Lan Bao was shocked awake abruptly. He hurriedly said, "Right! The matter on hand right now is to capture that brat! I will definitely hack him into tiny pieces! He should already know that that group of apprentices of his was already brought to the Central Capital. I'll bring men to chase after in that direction right away!"

As he spoke, Lan Bao was about to bring men and head in the direction of the Central Capital.

"Hold your horses!" Lan Feng said.

"En? What?" Lan Bao asked questioningly.

Lan Yu said, "Although I've never met that Ye Yuan, but from what you said, this boy is bound to be crafty and resourceful! What we can think of, he can surely think of it too! If we head in the direction of the Central Capital, it might just be exactly what he wants!"

"You mean . . . he's headed for the Level Four Gale Region?" Lan Bao said puzzledly.

Lan Yu nodded his head and said, "I'm 80% sure! At this time, smart men won't go towards the direction of the Central Capital! That's no different from seeking their own doom! How about this, I'll go back and bring a Fierce Wind Vulture over. But, only you alone can pursue him."

Unrivaled Medicine God

Chapter 347: Bird Feather

In the sky-filled yellow sand, a person and a vulture tore through the air as they traveled. Their speed was exceedingly fast.

Fierce Wind Vultures were indigenous demonic beasts born in the Fierce Gale World. Not only could they fly in the gale winds, but they were also tracking experts.

Fierce Wind Vultures were very rare. There were only two Fierce Wind Vultures in the Lan Family Tribe as well; this was one of them.

It circled twice around the place that Ye Yuan stopped at previously, then it flew straight for the Level Four Gale Region. It was in perfect harmony with Lan Feng's guess without prior consultation.

Lan Bao sat on the back of the Fierce Wind Vulture, his two eyes looking around everywhere like a hawk wanting to find Ye Yuan's figure.

He already chased Ye Yuan for three days and night but did not find any trails at all.

But he knew that with the Fierce Wind Vulture here, Ye Yuan could not escape!

In these three days and nights, the Fierce Wind Vulture was brought around in circles several times. It nearly found him quite a few times but missed it by a narrow chance.

Clearly, Ye Yuan already realized that somebody was tracking him!

But it was precisely so that Lan Bao's killing intent grew even stronger!

Because Ye Yuan's fleeing was highly targeted. They were all ways to easily lead the Fierce Wind Vulture astray.

Ye Yuan could not have possibly known these methods in advance. He could only have learned them from Lan Feng!

This fellow really treated Lan Feng as a slave to order about!

"Punk, just you wait! As long as I find you, I'll make you unable to wish for neither to live nor to die! I want to see just how long your essence energy can last. Or perhaps, you can try fleeing into the Level Five region!" Lan Bao said with a cold sneer.

Right at this moment, Lan Bao's face changed!

Innumerable flower petals floated up into the skies from god knew when and encircled Lan Bao layer by layer!

These flower petals actually did not scatter in the slightest within the Level Four gale wind and swept towards Lan Bao!

Seeing this scene, Lan Bao was not startled but became pleased instead. "Heh heh, finally can't resist making a move? Looks like you've already reached your limits, eh? If you continue running, you most likely won't even have the strength to attack, right? However . . ."

Lan Bao's gaze grew intently as he said in a grave voice, "A newly broken through Crystal Formation Realm boy is actually able to mobilize heaven and earth essence energy. It truly makes me rather surprised! Lan Feng . . . should have fallen to this, right?"

One had to say that Lan Bao's combat talent was very strong.

Just from this move, Thousand Flowing Petals, he could determine the reason that Lan Feng lost.

"Trying to use this move to deal with me? Hehe, you're still a little too inexperienced!"

Finished talking, Lan Bao's aura suddenly erupted. The powerful aura field actually swept away the flower petals that filled the skies!

In a twinkle of an eye, Lan Bao already completed the mustering of heaven & earth essence energy!

Only to see him tiptoed lightly, and his entire body soared high into the air, flying off the Fierce Wind Vulture.

"Flood Dragon Goes to Sea!"

Lan Bao roared fiercely. Smashing a fist out, a series of wind tearing sounds sounded, striking the sky-filled flower petals until they were pulverized!

One punch from Lan Bao actually blasted apart the Thousand Flowing Petals that Ye Yuan condensed!

The might of one fist was overwhelmingly powerful!

"Still going to be a coward, Ye Yuan? Do you think that you can escape my Five-Finger Mountain?" Lan Bao gave a loud cry and exerted pressure on Ye Yuan.

Rumble!

Another punch smashed out. The acres of flower petals were sent scattering.

"Hahaha! To be able to maneuver heaven and earth essence energy at the Crystal Formation Realm, I admit that you're a one of a kind genius that I've ever seen! But . . . you must die today!" Lanbao roared loudly again as he punched out a first.

Rumble!

Another punch!

"Lan Feng is my brother that grew up together with me since young! You actually dare to plant a slave seal on him?! I'll make you wish you were dead!"

Each time he punched out, Lan Bao would say a sentence.

It was to incite Ye Yuan out and also in order to vent out the killing intent in his heart.

But right then, Lan Bao's expression changed drastically!

The limitless flower petals actually abandoned him and engulfed towards that Fierce Wind Vulture!

Turned out that Ye Yuan's goal was not Lan Bao at all but the Fierce Wind Vulture!

"Lad, you dare?!" Lan Bao was anxious and furious as he howled.

Lan Bao's three punches earlier were extremely powerful. The Fierce Wind Vulture was simply unable to withstand his attacks. That was why he flew off the Fierce Wind Vulture. But he did not expect to fall for Ye Yuan's ploy to lure the tiger away!

Now, no matter how swift his movements were, he would not be able to catch up either!

The limitless flower petals already wrapped around the Fierce Wind Vulture. Even if his fist was stronger, how could it possibly blast away all the flower petals?

But why would Ye Yuan bother with Lan Bao's feelings?

His goal was that Fierce Wind Vulture from the very beginning!

The Fierce Wind Vulture was only a Tier 3 demonic beast. How could it be a match for the Thousand Flowing Petals?!

"Thousand Flowing Petals, decapitate!" Ye Yuan shot out abruptly from the yellow sand and howled fiercely.

The boundless flower petals were like myriad tiny blades, slicing towards that Fierce Wind Vulture!

"Screech!!"

The Fierce Wind Vulture cried out lightly and flapped its wings desperately, trying to chase away these flower petals.

But sadly, these were not ordinary flower petals, but ones formed from heaven and earth essence energy!

Each petal was extremely mesmerizing but also dangerous!

In the fierce gales, only to hear slicing sounds coming over . . .

When the flower petals scattered, only feathers that filled the sky and the Fierce Wind Vulture covered in bloodstains were left.

The gale winds blew, and the bird feathers floated away with the wind, looking very spectacular.

Immediately after, a splat was heard. The Fierce Wind Vulture's corpse hit the ground.

When Lan Bao saw this scene, his face had long become as black as the bottom of a pan!

Each Fierce Wind Vulture was unbelievably precious. Ye Yuan actually killed it off just like killing a chicken!

Lan Bao stood in the air, looking like an enraged demon god.

"Do you think that you can escape by killing the Fierce Wind Vulture?" Lan Bao emphasized each word as he said to Ye Yuan.

But Ye Yuan cracked a smile and said, "Feel free to chase after and see!"

Finished talking, Ye Yuan kept his longsword and turned around to flee!

Spirit Void Shattering Space's third layer was displayed in full force, vanishing instantly without a trace.

When Lan Bao saw Ye Yuan's speed, he was secretly startled. He immediately did not dare to be careless and pursue him at top speed.

"This punk, is it possible that he relied on a pair of legs and circled around with me for three days and night?" Lan Bao thought of this possibility and was inwardly shocked.

Although the Fierce Wind Vulture was a Tier 3 demonic beasts, its flying speed in the gale winds was not slower than Sea Transformation Realm martial artists. It was even faster than First Level and Second Level Sea Transformation Realm martial artists!

But such a speed actually could not catch up to Ye Yuan's pair of legs?

Just how fast was this punk's speed?

Lan Bao's speed was naturally needless to say. The Third Level Sea Transformation Realm Mei Zhen and Wu Zhao could not follow his speed. It could be seen how fast he was!

Lan Bao saw that Ye Yuan's speed was astonishing and also did not dare to hold back at this time. He pursued Ye Yuan with his own maximum speed.

The Fierce Wind Vulture was already dead. If Lan Bao lost Ye Yuan, he probably could not find him again.

While Ye Yuan's present speed was extremely astounding, the two people's distance was still shrinking continuously.

Gradually, Lan Bao could already see Ye Yuan's back view. A hint of smirk involuntarily flashed past the corner of his mouth!

"Run then! Keep running! I'll see where you can run to!" Lan Bao said with a hideous sneer.

However, his smile instantly froze on his face!

Not knowing how, he saw Ye Yuan pull apart the distance from him once more with a swoosh!

Unrivaled Medicine God

Chapter 348: Running Frantically!

Although Lan Bao was a close-combat martial artist, his fist wind could attack from a distance.

As long as Ye Yuan entered his attack range, Lan Bao did not even need to catch up to him to be able to strike him down.

But just as Ye Yuan barely entered his attack range, he actually increased his speed!

This made Lan Bao so dejected that he could choke on it!

"This boy, just how many cards has he not played?! How is it possible for a First Level Crystal Formation Realm to have such swift speed?!" Lan Bao felt that it was beyond understanding.

But this was a fact. He also had no choice even if he did not understand.

Toward a character who was formerly an Alchemy Emperor, Lan Bao not comprehending the situation was not unexpected.

Entering the mystic realm this time, Ye Yuan made ample preparations!

Before setting off, he spent a full 500 thousand points and used all of it to exchange for Tier 3 medicinal herbs to refine medicinal pills!

The three days and nights of pursuing previously, Ye Yuan was igniting his essence energy the entire time to execute Spirit Void Shattering Space.

The most adequate preparation that he made this trip was essence energy recovering medicinal pills. Just like that, he swallowed medicinal pills and ran until now.

Relying on Fierce Wind Vulture knowledge gleaned from Lan Feng, he forcefully spun around in circles with Lan Bao for three days and nights!

But this was already the limit. The Fierce Wind Vulture's speed was too fast. Even if Ye Yuan's movement speed was heaven-defying, being able to sustain until now was already very extraordinary.

Ye Yuan knew that he could not escape, so he laid in ambush and plotted to finish off the Fierce Wind Vulture!

But after eliminating the Fierce Wind Vulture, Ye Yuan would have to directly confront Lan Bao.

With his present strength, he was simply not Lan Bao's match.

That fight earlier also clearly showed many problems. The Thousand Flowing Petals that could overpower and finish off Lan Feng by surprise was ineffective against Lan Bao.

So he only had one way: run!

Comparing movement techniques, Ye Yuan was even slightly inferior to the Fierce Wind Vulture, let alone Lan Bao.

Regardless of whether it was essence energy or comprehension towards the Concept of Wind, Ye Yuan could not match Lan Bao.

But . . . Ye Yuan had medicinal pills!

Tier 3 medicinal pill, Haste Pill!

This Haste Pill was very heaven-defying among Tier 3 medicinal pills. It could double a martial artist's speed by stimulating the meridians and acupoints in the martial artist's body!

Only Ye Yuan could refine out such a perverse medicinal effect too. Swapping an Alchemy Grandmaster in, he could probably only refine high-grade Haste Pills at the very most, which only had a 50% speed increase.

Of course, a 50% speed increase was already very heaven-defying in the general sense.

Except that the Haste Pills that Ye Yuan refined were all superior-grade medicinal pills!

Essence Energy Ignition under the Transmission Concept, plus Spirit Void Shattering Space movement technique, plus superior-grade Haste Pills, made Ye Yuan's speed directly multiply several times over compared to normal!

He opened up the distance between Lan Bao all at once!

Lan Bao currently had an impulse to vomit blood. He watched as Ye Yuan was about to enter his attack range, but was shaken off by him right away!

And Lan Bao's movement technique was already raised to the fastest. Looking on, the distance between him and Ye Yuan was actually widening evermore!

A Fifth Level Sea Transformation Realm going all out actually could not catch up to a First Level Crystal Formation Realm. No matter how one looked at this scene, it was somewhat comical.

"This brat definitely cast some kind of mystic art. He absolutely can't sustain it for long! I don't believe that you can keep on maintaining this speed!" Lan Bao pondered to himself.

However, the result disappointed Lan Bao greatly. Ye Yuan's pair of legs ran like they never knew fatigue.

Half a day passed, not only did Lan Bao fail to catch up to Ye Yuan, he opened up a huge distance instead!

Lan Bao could not help becoming very anxious. If he lost his perception of Ye Yuan, under this situation without the Fierce Wind Vulture, he simply could not track Ye Yuan.

"Damn it! What kind of evil art did this brat use?! He's actually able to maintain this kind of speed for such a long time! No way, I'll lose him if it continues like this! Go all out! I must kill this boy!"

Lan Bao made his resolution. Biting his own tongue, he swallowed a drop of vital blood essence into his abdomen!

"This damn brat! To actually cause me to burn my vital blood essence! When I catch you, I'll definitely make you regret ever being born into this world!" Lan Bao gnashed his teeth in hatred and said.

Martial artists' vital blood essence was extremely precious. Once it was lost, it would be exceedingly difficult to replenish.

And once vital blood essence loss exceeded a certain amount, the martial artist even faced the risk of cultivation realm falling!

With the vital blood essence reaching his abdomen, Lan Bao's speed immediately soared!

Under a wild chase, he actually reduced the distance between him and Ye Yuan little by little!

Moreover, Lan Bao discovered to his delight that Ye Yuan's speed was gradually becoming slower! With these changes, catching up to Ye Yuan seemed to be something inevitable!

"Brat, this time, you finally can't endure any more, right?! Haha! Die!"

Lan Bao secretly amassed strength and prepared to give Ye Yuan a fatal blow!

But right at this moment, Ye Yuan's speed skyrocketed once again and actually recovered to the speed at the very start!

The blood essence that Lan Bao immolated was in the midst of being slowly expended. His speed was also naturally becoming increasingly slower. The two people's speed, one in front, the other at the back, was practically about the same!

But this time, Lan Bao finally saw clearly. Ye Yuan swallowed two medicinal pills consecutively just now!

This unwittingly made him have an impulse of cursing his mother. What the hell medicinal pill did this brat eat?! To actually have such a perverse effect?!

Just like that, Ye Yuan and Lan Bao, one behind the other, ran speedily within the desolate and uninhabited Level Four Gale Region.

At times, Ye Yuan's speed was a little faster, throwing Lan Bao behind. Sometimes, Lan Bao's speed was slightly faster, nearly catching up to Ye Yuan.

One time, Lan Bao nearly entered the attack range, alarming Ye Yuan until he broke into a cold sweat as well.

Ever since that time, Ye Yuan no longer dared to wait until the medicinal effect subsided to consume the Haste Pill. As long as his speed fell slightly, he would swallow one right away.

The pair, racing each other, sprinted frenziedly like this for another three days and three nights!

The specifics of how far they ran, the two of them already utterly could not recall exactly. But they could feel the gale winds getting stronger and stronger. They were about to enter the Level Five Gale Region soon!

The Level Five Gale Region was a forbidden area to Crystal Formation Realm martial artists.

Even a Sea Transformation Realm expert like Lan Bao did not dare to go too deep in as well.

Once it exceeded the limits of his ability, Lan Bao only had the outcome of being dismembered by the wind blades too!

"Ye Yuan, ahead is the Level Five Gale Region! I'll see where you can still run to! You should also know that the Level Five Gale Region is a forbidden area for Crystal Formation Realms! I advise you to allow yourself to be seized obediently without resisting! I'll make it painless for you!" Lan Bao yelled out.

"My *ss! Do you think I'm stupid? I'd rather be blown to death by the storms than stop! Just give up on this! If you have the capabilities, then chase after! I'll see how much blood essence you can burn!" Ye Yuan's voice came over from a long distance away.

In truth, by this time, Ye Yuan and Lan Bao were already approaching their limits.

Even if Ye Yuan's medicinal pill was anymore heaven-defying, it was also impossible to keep eating endlessly. Moreover, the Haste Pills in his hands were already pretty much depleted!

This kind of day and night running, Ye Yuan ate no less than 20 Haste Pills. The burden on his body was already at its limits.

Lan Bao's situation was not any better. He already burned almost 10% of his blood essence!

This was already his limit. If he burnt anymore, he would be at risk of his realm falling.

Furthermore, running frenziedly like this, he already reached his limit too!

[Unrivaled Medicine God](#)

Chapter 349: Where Did Ye Yuan Go?

Presently, their speed were greatly reduced significantly compared to before.

The burden on their bodies was already at the limits. Now, they were battling whose willpower was more tenacious.

Whoever eased up, the other party would win!

In comparison, Ye Yuan's difficulty was a little greater.

Because adding in the three days and night from before, he already ran non-stop for six days and night!

Consuming 20 Haste Pills in succession not only made his body reach its limits, but it also greatly reduced the effects of the medicinal pills.

But no matter what, he could not let out this sigh of relief. Because the price was . . . death.

"Boy, do you really not want to live anymore? Ahead lies the Level Five Gale Region. With your strength, going in means certain death!" Lan Bao shouted again.

"Stop yammering. Chase after if you have the capabilities. If you don't have the abilities, then shut your mouth for this Little Lord! I won't stop!" Ye Yuan gritted his teeth and said.

Ye Yuan also did not think that this Lan Bao was actually so stubborn, to actually chase until now in one breath. He could only grit his teeth and keep him company to the very end too.

But this time, Lan Bao did not hurl a torrent of abuse. After keeping silent for a moment, he said again, "Kid, I admit that you're a peerless talent. As long as you're willing to join our Fierce Gale World, I can let bygones be bygones! Furthermore, I'll recommend you to Lord Wind Emperor! With your talent, you might be taken in by Lord Wind Emperor as a disciple! At that time, you can enjoy limitless cultivation resources!"

Ye Yuan also mused for a moment over on his side. He opened his mouth to ask, "Is what you said true?"

When Lan Bao sensed that there was hope, he could not help rejoicing in his heart. "Of course it's true! You can mobilize heaven and earth essence energy at the Crystal Formation Realm. In the future, you'll definitely be a peerless powerhouse! Why do you have to end yourself here? Lord Wind Emperor is a Boundless Realm powerhouse! With his grooming, you might even have a possibility of becoming the next generation Wind Emperor! That is a Boundless Realm powerhouse!"

In the Lower Realms, Boundless Realm these two words represented showing disdain for the world! It signified elegance and talent! It symbolized loneliness at the pinnacle!

Nobody could resist the temptation of Boundless Realm!

Especially Ye Yuan who was currently in a desperate situation. The allure of Boundless Realm could unleash an even greater effect.

It was just that Lan Bao simply did not know that Boundless Realm was roughly the same as a fart in Ye Yuan's eyes.

If he disregarded the comprehension of concepts, Ye Yuan would not spend too much time even to cultivate to the Divine King realm.

Boundless Realm was too easy in his eyes!

"Then . . . you swear a Heavenly Dao Oath. Only then, will I believe you!" Ye Yuan hesitated slightly.

Lan Bao was overjoyed when he heard that. But he said indifferently, "That's not a problem. How about we stop first? Going forward is the Level Five Gale Region already."

"Alright. I'll count to three. We stop together!" Ye Yuan said.

"Fine!" Lan Bao's glimmered with brilliant light. He did his best to restrain the killing intent in his heart, while he actually revolved all the essence energy in his body on the sly and prepared to deal Ye Yuan a certain kill blow.

"One . . ."

"Two . . ."

Ye Yuan's voice came over leisurely. Lan Bao already mustered up his fist momentum. He just had to wait for Ye Yuan to stop and he would immediately erupt and kill him!

"Three!"

But when he counted to three, Ye Yuan threw another two medicinal pills into his mouth. Not only did he not stop, but he also ran even faster!

Lan Bao thought that Ye Yuan fell for it and had long charged up his fist might fully.

Seeing this scene, Lan Bao's eyes went wide and he hurriedly dissipated the amassed essence energy by force.

Even so, the powerful backlash still made Lan Bao suffer some internal injuries.

For this purpose, Lan Bao's speed was affected too. The pair pulled apart the distance all at once again.

This made Lan Bao so furious until his teeth made grinding sounds!

This brat absolutely did it on purpose!

"You tricked me!" Lan Bao roared angrily.

"Didn't you not stop as well? Why isn't it you who tricked me?"

"You ate medicinal pills again!"

"How about you stop first? I'll stop when you stop!"

"."

How could Lan Bao dare to stop?

This brat was full of tricks who simply could not be trusted!

But they were about to enter the Level Five Gale Region in a moment. In his present condition, entering the Level Five area was very dangerous.

If Ye Yuan really paid no heed to his life and entered, then was he entering or not?

Ye Yuan was currently sprinting frantically when all of a sudden, a gust of fierce wind blew over, choking him till he coughed and nearly overturned him on the ground.

"Sss . . . this Level Five Gale Region's storm winds are indeed not on the same level as before!"

Finally, Ye Yuan stepped into the Level Five Gale Region!

According to what Lan Feng said, the Level Four Gale Region to the Level Five Gale Region was a watershed!

The strength of the Level Five gale winds was several times stronger than previously! Even Sea Transformation Realm did not dare to rashly go deep inside too!

The Level Five storm wind's wind blades were close to materializing. Martial artists being inside was as if they were placed in a boundless blade formation.

Furthermore, the Level Five storm winds could even erode martial artists' protective essence energy. If they stayed too long, they would undoubtedly die without a burial ground!

With Lan Feng's strength, he only dared to stay for a day's time in the Level Five Gale Region too. Any longer and he would not be able to leave.

Now that Ye Yuan experienced it for himself, it indeed had a feeling of repute was not as good as encounter!

Ye Yuan's comprehension of the Concept of Wind was not low. But even so, he also felt like he bit off more than he could chew.

But, he could no longer turn back. He could only run deeper inside!

Seeing Ye Yuan plunge headfirst into the Level Five Gale Region, Lan Bao's expression flickered. Hesitating slightly, he also gritted his teeth and charged in!

With his present body condition, he could at most stay for a day inside the Level Five Gale Region.

If he could not kill off Ye Yuan within a day, the outcome would be too dreadful to contemplate!

Stepping into the Level Five Gale Region, Lan Bao could only cut off all means of retreat!

But the moment he entered the Level Five Gale Region, Lan Bao was taken aback!

Ye Yuan disappeared!

Ye Yuan actually vanished from his perception!

How was this possible?

He and Ye Yuan entering the Level Five Gale Region was only the time difference between the front foot and the back foot! How could Ye Yuan possibly shake him off in such a short time?

All of a sudden, a type of emotion called panic welled up from the bottom of Lan Bao's heart.

Pursuing Ye Yuan these few days without rest and even losing nearly 10% of his vital blood essence, it could really be said to be shedding one's heart blood.

And now, he actually lost Ye Yuan!

Lan Bao was like a gambler right now. During these few days and nights, he bet his own fortune bit by bit. Now, he suddenly discovered that he lost it all but did not gain anything.

This sort of feeling was just like suddenly dropping into hell. That sort of hesitation and powerlessness made him feel terror from the bottom of his heart!

"Ye Yuan!"

"YE YUUUAANN!"

Lan Bao roared in the fierce winds. But what answered him was only the whistling of the fierce gales.

Lan Bao's eyes turned red at once. He gritted his teeth and said, "I don't believe this! You, a First Level Crystal Formation Realm, can go up to the skies in this Level Five Gale Region! Even if I have to dig three feet underground today, I'll also dig you out! If you have the capabilities, don't get sliced into pieces by the gale winds!"

Unrivaled Medicine God

Chapter 350: Comprehending True Intent Again!

Lan Bao ran wildly as if he was crazy, wanting to find Ye Yuan's silhouette.

But it was as if Ye Yuan disappeared into thin air. No matter how he let out his sense, there was nobody all around.

"Argh! Ye Yuan! Get out here for me!" Lan Bao howled like a wild beast.

There was still nobody that answered him. It was as if he was the only person left in the entire world.

Lan Bao gave up all hope!

He racked his brains and also could not figure out how the hell Ye Yuan disappeared!

Ye Yuan had clearly been inside his perception the entire time. Why did he vanish all of a sudden?

"En?"

From the corner of his eyes, Lan Bao seemed to have discovered something.

Walking closer to take a look, he noticed that the ground was spotted with blood!

"Haha! Turns out that he overestimated his own strength and was blown away by the gale winds! Really gave this Father of yours a fright! But . . . even if you're dismembered by the gale winds, I also want to see your corpse!"

The bloodstains on the ground had yet to dry. Clearly, it had just dripped. There were only Lan Bao and Ye Yuan, these two people. Who could the bloodstains be but Ye Yuan's?

Seeing this pool of bloodstains, Lan Bao finally heaved a great sigh in relief.

This situation reversed too quickly, making a Sea Transformation Realm expert like Lan Bao feel very out of sorts.

He was still waiting in hell earlier. Now, he flew to heaven all at once.

Looking around, Lan Bao finally found another area of bloodstains and could not help being ecstatic. He started following the direction of the bloodstains and chased over!

.

Those bloodstains were indeed left by Ye Yuan. His body was covered all over with wounds left by wind blades!

His arms, legs, chest, back, and even his face had streaks of bloodstains. These were all wounds left by the wind blades.

Ye Yuan's clothes were already fully soaked in fresh blood, looking horrifyingly ghastly!

But Ye Yuan seemed to be completely oblivious to all this; like he could not feel pain.

At this moment, Ye Yuan was not running on land but was swept up into the air by the gale winds!

Ye Yuan's body drifted far along with the fierce winds just like a piece of paper, seemingly as if he already lost control of his body and could only submit to the whims of the wild storms.

But looking over closely, Ye Yuan's body seemed to be swaying slightly with a rhythm.

Although that extent was very tiny, small until it could be overlooked, he was indeed moving!

If Lan Bao was present, he would surely jump out of his skin!

Because Ye Yuan already withdrew protective essence energy! He was currently completely unprotected! Taking off protective essence energy in the Level Five Gale Region, this was no different from suicide!

The all-pervasive wind blades would mince martial artists into meat paste anytime.

Even for Fierce Gale World martial artists who lived each day in the gale winds, nobody dared to do so too!

But not only did Ye Yuan do it, he even stubbornly survived until now. Although the wounds on his body looked very dreadful and shocking, it was beyond all doubt that he was still alive!

.....

Lan Feng chased the bloodstains all the way. The initial exhilaration became doubt. Then, it turned into a foreboding feeling!

The deeper in, the more intense that ominous feeling got.

Evidently, Ye Yuan did not die!

If Ye Yuan really lost resistance, he would be diced into pieces by these materialized wind blades very soon.

And the bloodstains on the ground were only some flecks and spots. It looked rather like it dripped from some minor wounds.

And along the way as he tracked, he discovered that the bloodstains on the ground were becoming lesser and lesser!

When he had just started, there were bloodstains the size of two palms on the ground. Later, it gradually became one palm size. Then, to the back, there were only bloodstains the size of a chicken egg.

What did this show?

It showed that Ye Yuan's wounds were currently healing!

Lan Bao sucked in a deep breath and forcefully mustered up essence energy to increase speed and hunt him down!

He wanted to see just what deceitful trick Ye Yuan was deliberately doing.

Half a day after entering the Level Five Gale Region, Lan Bao finally saw Ye Yuan who was drifting in the air!

When Ye Yuan appeared in front of Lan Bao, words were really unable to describe the astonishment in his heart.

The bloodstains on Ye Yuan already dried up. But that miserable feel came from straight ahead.

Except, Lan Bao could not become happy at all when he saw Ye Yuan's tragic appearance.

Because that was not the main point!

The main point was that Ye Yuan was actually comprehending the Concept of Wind in the Level Five Gale Region!

Comprehending the Concept of Wind by itself was not something impressive. One could say that Fierce Gale World martial artists have been comprehending the Concept of Wind without a moment's pause since birth.

But there had never been anyone who would use this sort of insane method to comprehend concepts!

Removing protective essence energy to let their bodies be fully exposed to the gale winds. Nobody dared to try this kind of suicidal cultivation method!

Ignoring that this was the Level Five Gale Region, even at the Level Four or even the Level Three Gale Region there would not be people doing this sort of thing!

But Ye Yuan did it just like that!

Not only did he do it, he even survived proper and well until now!

This was truly something beyond understanding!

Without essence energy protecting the body, how did Ye Yuan avoid those countless streaks of concentrated wind blades?

When Lan Bao saw Ye Yuan's movements clearly, his pupils involuntarily constricted!

Ye Yuan's body was swaying about in an extremely tiny range. And each time he swayed, he could evade the wind blades skillfully!

With Lan Bao's visual prowess, he actually could not see clearly just how Ye Yuan avoided it!

But undoubtedly, the wind blades that were everywhere and that could only be withstood using protective essence energy in his eyes, Ye Yuan could avoid them niftily!

Those wind blades could not harm Ye Yuan!

Whoosh!

A wind blade cut Ye Yuan's body. Ye Yuan furrowed his brows in pain. Several drops of fresh blood flowed down his body!

Seeing this scene, Lan Bao's heart plummeted.

He plainly saw earlier that when that wind blade arrived in front of Ye Yuan, Ye Yuan already had nowhere to evade.

But the final outcome was that . . . it just left a trivial wound on Ye Yuan's arm!

And just in that instant earlier, there were no less than several hundred wind blades that attacked Ye Yuan. But only this one wind blade left a shallow wound on Ye Yuan's body!

"No way! I can't let him continue to comprehend! Take this chance to kill him!"

Lan Bao had an ominous feeling. He decided to make a move!

The next instant, Lan Bao's Sea Transformation Realm aura abruptly erupted. Only to see his body transform into an afterimage, sweeping over towards Ye Yuan in mid-air!

"Tumultuous Violent Wave! Go die, Ye Yuan!"

An extremely violent punch, formidable until it made people feel stifled.

But Ye Yuan in mid-air seemed to still be immersed in the world of comprehending the Concept of Wind and was oblivious to Lan Bao's attack.

Lan Bao's explosive power was extremely strong and his speed was also exceedingly quick. His figure crossed a distance of several hundred feet in a blink of an eye and arrived in front of Ye Yuan.

Powerful essence energy undulations blasted away all those materialized wind blades, forming a vacuum zone without wind blades!

One could imagine just how formidable the might of this fist from Lan Bao was!

Right at this moment, Ye Yuan who had his eyes shut the whole time suddenly snapped them open. Looking at Lan Bao, the corner of his mouth showed a derisive smile.

Lan Bao was shocked inwardly and immediately felt that things were not going well.

Indeed, he only felt a blur before his eyes. Ye Yuan's figure vanished from sight!

"You came at such a perfect timing. I can test the Wind flow True Intent that I'd just comprehended!"

It was as if Ye Yuan's voice came from hell.
