#### Chapter 481: Ancestor of Silkpants

"What? Old man, you say it one more time!"

Jin Peng even thought that he heard wrongly. In this Breaking Dawn City, there were actually still people who dared to not sell things to him?

Qi Hai said with a faint smile, "Young Master Jin, really sorry about it. Before you came just now, I've already agreed upon a price with this little brother. According to the rules, the transaction between us is already considered complete. It isn't nice to renege. If the rules are broken, this old man, I, won't have the face to keep a foothold in this line in the future."

Hearing Qi Hai's words, even Ye Yuan was rather surprised.

This old man's performance before this was enough to leave people an impression that he only sought profits.

But the two of them already raised the price to 500 middle-grade essence crystals right now, and this old man still wanted to sell to him instead?

Jin Peng's eyes narrowed slightly, his gaze when looking at Qi Hai revealed killing intent.

"You're afraid that you won't have the face to keep a foothold? Do you believe that I will take away your plaque right now and make you have no way of having a foothold here?" Jin Peng gnashed his teeth in hatred and said.

But Qi Hai had an indifferent look as he said, "Hehe, this place doesn't want to keep this Lord; there will naturally be a place that will. Although I, Qi Hai, love essence crystals, I cherish my feathers more."

As he spoke, Qi Hai ignored the sullen Jin Peng, turned to Ye Yuan and said, "This Little Brother, these essence crystals, I'll accept them. You take the medicinal herb."

But Ye Yuan's impression of this old man was overhauled, and he said with a smile, "Alright. This herbal grass, I'll keep it. As for the price . . . I'll give you 500 middle-grade essence crystals as it is appropriate."

Qi Hai waved his hand and said, "No need, no need. Since we've already settled on the price, then it's a done deal. This old man, I, won't take an additional piece of essence crystal! A hundred means a hundred!"

Ye Yuan did not think that this old fellow was actually a person with such principles. He actually really just took 100 middle-grade essence crystals.

Since the old man himself insisted on it, Ye Yuan could not very well force the other party to take extra.

But Ye Yuan knew that Qi Hai had already thoroughly offended this silkpants. This silkpants probably would not let Qi Hai walk out of Breaking Dawn City alive.

Ye Yuan was such a person. Others gave him an inch of respect, he would return them a foot.

He already made the decision to ensure this old man's safety.

Qi Hai, this Crystal Formation Realm powerhouse, was still a little weak in the Breaking Dawn City.

Yet, when Jin Peng saw that these two people completely paid him no heed and directly completed the transaction, he had long flown into a great rage.

He smiled coldly at this time and said, "Good! Excellent! In this Breaking Dawn City, this is actually my first time encountering such ballsy people! Yu Qing, take this old man down for me! I want to see if he's really so principled!"

Yu Qing was naturally the Fourth Level Sea Transformation guard behind him.

This was Jin Peng's gold medal hired thug. Following Jin Peng, he naturally committed substantial crimes.

Of course, he obtained considerable benefits too, acquiring quite a bit of cultivation resources. That was how he broke through to the Fourth Level Sea Transformation.

Yu Qing's strength was enough to place in the top ten when looking at the entire Breaking Dawn City as well.

Among the people present, there was only him, one middle-stage Sea Transformation Realm. Who would Jin Peng fear?

Yu Qing was just about to make a move when Ye Yuan took a light step, blocking perfectly between Yu Qing and Qi Hai.

"This old man, I'm protecting him!" Ye Yuan said coolly.

A hint of sneer flashed across the corner of Jin Peng's mouth as he said, "Take care both of them!"

"Yes!" Yu Qing was likewise itching for a fight.

He had already gradually become fond of this feeling of abusing people. Following Jin Peng, he could do as he pleased in this Breaking Dawn City!

"Sigh . . . This boy is foolish and rich. To think that he's still quite loyal to friends. It's just that he's kind of dumb. What a pity . . ."

"This Jin Peng is a little overlord. Who in the Breaking Dawn City dares to provoke him? Beat the young one, and the old one will come. This is the scariest part!"

"Where is there a need for the old one to come out? This checkpoint right in front might not be passable! I reckon that this boy cracked himself up to have some strength and thinks that he can cross boundaries to battle. But the person he's facing is someone at the middle-stage Sea Transformation Realm!"

"This boy definitely comes from a silkpants background too. The experts in the family all humored him, that's why he thinks that he's impressive. In truth, they are all completely flowers grown in a greenhouse; snapping once they come out."

Seeing that the scene was gradually losing control a little, many stall owners started discussing.

Evidently, nobody was optimistic about Ye Yuan.

In their eyes, Ye Yuan and Jin Peng should be around the same; both were with a silkpants background.

It was just that . . . Jin Peng brought along a middle-stage Sea Transformation Realm! Was Ye Yuan dumb?

Of course, they guessed the opening but could not guess the ending.

Ye Yuan indeed came from a silkpants background, but he, this silkpants, was a heaven-defying silkpants.

Yu Qing snickered, the strength of middle-stage Sea Transformation Realm erupted entirely. A punch smashed towards Ye Yuan's face.

This kind of direct abusing was even more satisfying for people!

Ye Yuan's seniors and juniors watched this scene calmly all the way. The instant Yu Qing punched out, Tian Yu curled his mouth disdainfully and spat out a word from his mouth, "Dumb\*ss!"

A Fourth Level Sea Transformation Realm dared to posture in front of Ye Yuan. It was purely the action of courting doom!

Ye Yuan did not move all along. He just quietly watched Yu Qing, watching him display that garish punch.

Just as that violent storm-like punch was about to smash onto Ye Yuan's face, Ye Yuan lightly extended a finger.

Yu Qing did not think that a First Level Sea Transformation dared to be so overbearingly haughty in front of him. In his mind, this Ye Yuan was truly courting death to the extreme.

"Go and die!" Yu Qing said with a hideous grin.

One punch and one finger would bump together just like this. This sight in everybody's imagination did not appear.

Yu Qing's violent aura instantly vanished into nothing the moment it came into contact with Ye Yuan's finger.

The expression on Yu Qing's face froze there, not daring to believe everything happening before his eyes.

"Ah!

Yu Qing suddenly gave a miserably cry, his entire person crumbling softly onto the ground.

Everyone stared fixedly and saw that Yu Qing's chest was already covered in fresh blood.

"This . . . What kind of situation is this? A finger crippled a Fourth Level Sea Transformation?"

"My eyes aren't blurry, right? That boy, is he really First Level Sea Transformation?"

"So . . . So strong!"

"I've seen that Yu Qing attack before. He's very strong! He was actually defeated by that boy's one finger?"

Many people all felt that their eyes were blurry. Ye Yuan's body clearly did not undulate any aura. He just used his finger to lightly poke Yu Qing's fist, and Yu Qing ended up like this?

This was a Fourth Level Sea Transformation Realm!

Why did he look like cotton candy?

The eyes that these people looked towards Ye Yuan with again all carried thick fear.

Ye Yuan did not bother with the Yu Qing on the ground. His gaze turned towards Jin Peng.

Jin Peng was already dumbfounded with shock by this scene. At this time, he suddenly detected Ye Yuan's gaze, and could not help shuddering all over.

"D-D-Don't, you . . . You don't come over!" Jin Peng repeatedly retreated in fear.

Ye Yuan looked at Jin Peng and suddenly beamed and said, "Silkpants is it? Hur hur . . . I'm the ancestor of silkpants!"

Seeing that ill-intent smile of Ye Yuan's, Jin Peng felt very ominous.

"You . . . You . . . What are you trying to do?"

"Haha. You'll know very soon," Ye Yuan said with a laugh.

#### **Chapter 482: Didn't You Say It?**

At the City Lord Manor.

A semi-clad woman in extremely thick makeup was panting endlessly in the embrace of a man in luxurious black robes.

"Ah! City Lord Your Excellency, you're so naughty!"

"Haha! This is called naughty? There are still naughtier things at the back!"

"Hehe. I just like you to be bad!"

Jin Feng was just about to go further when he was interrupted by an extremely disharmonious sound.

"Reporting!" A manservant barged inside dragging his tone, kneeling on the ground with a slam.

"City Lord, Your Excellency, things are bad!"

Jin Feng's face fell, and he said, "What is it? Kicking up such a fuss! This Breaking Dawn City is already under the rule of the Purple Mansion Sect at present. What major thing can there be?"

"City . . . City Lord, Your Excellency! Young Master he . . . he . . ." said the manservant as he panted heavily.

Jin Feng's expression changed. Pushing away the woman in his arms, he stood up and asked, "What happened to Young Master? Is it possible that there are still people who dare to touch Peng-er in this Breaking Dawn City?"

"Young Master he . . . His essence energy got sealed by someone and then hung on the city gates! A strip of cloth is even hung on him. On it was written . . . written . . ."

"Can you f\*cking say finish in one breath or not? Quickly speak! What was written?" Jin Feng grabbed the manservant's collar and asked.

"This lowly one dare not say," said the manservant timidly.

"Talk! Otherwise, I'll smack you to death in one palm!" Jin Feng roared.

"Ah! Don't, don't! I'll talk! On it was written . . . I'm a tortoise's son!"

Bang!

Jin Feng clapped that manservant into minced meat with one palm!

"I want to take a look if there's anybody more arrogant than me in this Breaking Dawn City! Saying that Peng-er is a tortoise's son, doesn't that rope Your Father together into the scolding? Hehe, looks like my, Jin Feng's, temper these two years has been too good. There are already people that dare to not appreciate it and become unbridled!"

Finished talking, Jin Feng rushed out with a swoosh.

. . . . .

There were streams of people below the city gates. Many people were gesturing and pointing.

"Who's that young man? Such great nerves to actually dare make fun of Jin Peng, this little overlord?"

"Hehe, don't care who it is. Either way, it really vents our anger this time! This punk normally played the tyrant. Finally, there's somebody who came out to control him!"

"Haha! That's true! This father and son pair are like vampires; cheating us of how many essence crystals in the past?! You look at what's written there. Haha! An old tortoise! A tortoise's son! Really vivid!"

Jin Feng was powerful. The City Lord Manor had as many experts as clouds. These bottom level martial artists normally dare not resist at all.

Today, there was someone helping them vent their anger. They naturally felt liberating in their hearts.

Ye Yuan stood on top of the city gates, one leg stepping on a rope. The other end of the rope was tied onto a leg of Jin Peng's, looking really like some silkpants playing around.

Jin Peng was still reluctant to admit fault in the beginning. But his essence energy was sealed by Ye Yuan. Currently, he was no different from normal people.

Being yoyo-ed up and down by Ye Yuan a couple of times, all the blood in his body rushed to his head. At the end, his entire person fainted and was now unconscious.

The martial artists below were all incomparably excited when they saw this scene and gave off a series of praises.

All of a sudden, an extremely strong pressure pounced from face-front. Everyone chose to shut their mouths sensibly. They all knew who came.

"Peng-er!" Jin Feng saw Jin Peng being dangled on the city walls from a long way and was so furious that he was blowing smoke from all seven orifices.

He came to not far away from Ye Yuan and stood in the air, saying in a cold voice, "Punk, you really have such great gall!" To actually dare provoke somebody who is far superior in power?"

Ye Yuan smirked and said, "It's your son who provoked me first. Sorry, I hate others being even more silkpants than me the most!"

Seeing Ye Yuan so arrogant, Jin Feng flared up even more.

"Brat, quickly let Peng-er down. Or else, I'll make you die without a complete corpse!" Jin Feng's killing intent was already not concealed in the slightest.

The next scene made everyone dumbfounded from shock. Ye Yuan gave an oh, and then he actually lifted up his leg!

Breaking Dawn City was a massive frontier town. Hence, the city gates were constructed very grandly.

Earlier, Jin Peng was moved by Ye Yuan to the highest point of the city gates and was several hundred feet away from the ground.

In just a blink of an eye, after Ye Yuan lifted his leg, everyone could hear a huge slam. Jin Peng's head smashed straight onto the ground!

With this, even Jin Peng, a Sea Transformation Realm powerhouse, did not react to it!

Everyone all thought that Ye Yuan would have a verbal exchange with Jin Feng and say a few fierce words.

Who knew that Ye Yuan would actually be so obedient and directly let go of the rope!

"You! Why did you release the rope?!" Jin Feng said, currently enraged.

But Ye Yuan said blankly, "Huh? Didn't you say to let me release him just now?"

"Puff!" Jin Feng nearly spewed out a mouthful of old blood.

I asked you to release, but I didn't ask you release him that way!

Jin Peng's essence energy was sealed and totally could not muster essence energy to protect the body. Hence, Jin Peng directly had intimate contact with the ground through his fragile fleshy body.

Although martial artists' bodies were extremely robust under the nourishment of essence energy, it was still a flesh and blood human body in the end.

He directly tumbled down from a height of several hundred feet; moreover, it was even head landing on the ground . . .

"Oh, forgot to tell you. I poured in quite a bit of essence energy just now into the ropes. That's why it fell so quickly. You quickly take a look at him. Don't let him fall to his death." Ye Yuan's words were hell-bent on shocking people to death.

Jin Feng's figure swayed, and he nearly fell down from the air.

This punk was absolutely deliberate!

"You've got guts, boy! You'll regret the things that you did today!" Jin Feng gnashed his teeth in hatred as he glared at Ye Yuan

Finished talking, he leaped, arriving by Jin Peng's side instantaneously.

The ground was stone bricks. Currently, the stone bricks were already smashed to dust by Jin Peng's head.

Jin Peng's head directly entered the ground, leaving only half of his body still on the surface; a reverse living onion.

Since the start earlier, Jin Peng did not even give off a mumble. This made Jin Feng's heart give birth to a hint of foreboding premonition.

If it were a normal fall, Jin Peng would not be in a situation to the extent where he could not even give off a wail.

But that boy actually poured essence energy into the ropes!

That speed earlier was exceedingly swift. Even he was not able react to it; by then, Jin Peng already dropped down.

Jin Feng raised his hand to pull his son out from the ground but saw that Jin Peng's entire head was a bloody mess. Clearly, he had sustained severe injuries.

Seeing his son in such a wretched state, Jin Feng's killing intent surged towards the skies.

"Come, men!" Jin Feng yelled out.

Two martial artists rushed out from the crowd very soon.

"City Lord, Your Excellency!"

"Send Peng-er back to the City Lord Manor for me. Find people to treat him at once!" Jin Feng said in a low voice.

"Yes!"

Those two martial artists carried Jin Peng away very quickly. Jin Feng's expression became even more somber too.

From start to end, Ye Yuan did not stop them.

Seeing Jin Feng come in front of him again, Ye Yuan suddenly smiled and said, "Why the superfluous action? Actually, I dealt my blow very properly. Jin Peng can just be an idiot from now on. There's no need for him to come out and harm people."

"You! Puhwark . . ." This time, Jin Feng was really angered until he vomited blood.

He had been the Breaking Dawn City's City Lord for so many years. Today, he was actually being toyed around in the hands of this boy before his eyes!

How could people accept this?!

"Boy, you're digging your own grave here!" Jin Feng said word by word.

### [Unrivaled Medicine God](#)

#### **Chapter 483: Toying With**

"Haha. I am digging a grave. But . . . it's dug for you," said Ye Yuan with a smile. He took no heed of Jin Feng's threat.

"What a sharp tongue! I want to see if you can still be stubborn in a while!"

Jin Feng's hand suddenly appeared a ringed great saber. Killing intent surged towards the skies without being concealed at all.

When those martial artists below were enveloped by this immense killing intent, they withdrew one after another.

Ye Yuan who was opposite of Jin Feng was seemingly oblivious to the intent. Jin Feng's killing intent seemed to directly pass through Ye Yuan without any effect.

Seeing this scene, Jin Feng's expression suddenly became grave.

Jin Feng being able to become the Breaking Dawn City's City Lord was by fighting it out with his own strength and real swords and spears.

"This youngster might be remarkable, but he's still a little too reckless! Jin Feng has killed countless people in his life. This killing intent is already on the verge of materializing; it's on a completely different level from that Yu Qing!"

"I heard that before Jin Feng became the Breaking Dawn City's City Lord, he killed countless people. Back then, when he was still at the Sixth Level Sea Transformation, he wielded the ringed great saber in his hands alone to come and challenge the previous city lord. The previous city lord was a Seventh Level Sea Transformation expert! Jin Feng actually crossed realms and killed his opponent, becoming the new city lord. It could be seen how formidable his strength is!"

"Now that Jin Feng has already broken through to the Seventh Level Sea Transformation for so many years, his strength is already on an entirely different level from back then. Against the present Jin Feng, most likely even Ninth Level Sea Transformations might not be his match!"

"Yeah. He has already not personally taken action in the Breaking Dawn City for many years. Nobody knows just how powerful he is now. But just based on this killing intent, it can make ordinary martial artists' minds waver and not even unleash their martial techniques, right?"

Crossing a small stage to battle was as easy as eating and drinking to Ye Yuan. But among normal martial artists, it was as hard as ascending to the heavens.

For Jin Feng to be able to cross realms and kill a Seventh Level Sea Transformation when he was at the Sixth Level Sea Transformation, it could be seen that his concepts comprehension was already tremendously powerful.

However, concepts comprehension this sort of thing, Ye Yuan transcended the entire Endless World.

"Boy, I couldn't tell that you still have some capabilities. To actually be immune to the killing intent that I'm releasing! However . . . My Ravaging Heaven's Melody Saber isn't that easy to resolve! Die obediently!"

Jin Feng gave a cold smile. The saber quaked, and a series of clashing metal sounds emitted from the blade's body.

As soon as this sound emitted, it was like a demonic melody, tunneling into every martial artists' ears.

Those martial artists down below did not think that such a situation would occur. Each and every one of them desperately used their hands to cover their eyes.

But even so, the expressions on their faces were still incomparably as if in agony.

Even Ye Yuan's mind fell into a trance after hearing this bizarre demonic melody.

Once Jin Feng saw this state, he cleaved towards Ye Yuan with a blade!

Yet, Jin Feng's eyes blurred, and Ye Yuan's figure vanished!

He was inwardly alarmed and suddenly felt like his blade was being blocked by something. It actually could not slash downwards!

Focusing his eyes to look, Jin Feng's three spiritual and seven physical souls were frightened away.

He saw that Ye Yuan had actually arrived before him since who knew when, using two fingers to clasp hold on his ringed great saber!

The saber momentum stopped, and the sound wave attack immediately dissipated. Those martial artists below recovered to normal very quickly. But when they saw the scene of Ye Yuan using his fingers to grab hold of Jin Feng's saber, every one of them was astounded until their jaws all hit the ground.

"You got to kidding, right? Such sharp and fierce saber momentum, he . . . he actually used his fingers to grab it, and he is still perfectly unscathed?"

"Just who in the world is this youth? Why is he so powerful? Using one's fingers to grab Jin Feng's ringed great saber, even Peak Ninth Level Sea Transformation won't dare to do so as well, right?"

"Too . . . Too strong! Totally not on the same level! Completely crushed! A First Level Sea Transformation crushing a Seventh Level Sea Transformation . . . Such a thing actually happened?"

The sword intent on Ye Yuan's body was much stronger than Jin Feng's saber intent. Jin Feng's saber intent could not harm Ye Yuan at all.

Things that other people dare not do, Ye Yuan did it without impediment.

"H-H-How can you not be affected by the sound wave attack?" Jin Feng was alarmed until he was stammering when he talked.

"For that lousy thing of yours to want to hurt me, training another thousand years isn't enough either!" Ye Yuan said nonchalantly, but his body surged with sword intent.

With a smash, Jin Feng was sent flying out.

Ye Yuan had indeed received the influence of the sound wave earlier. This sound wave attack not only acted on the martial artist's sense of hearing, but it also applied to the martial artist's divine soul even more, making it impossible to guard against.

But once that attack reached Ye Yuan's sea of consciousness, the nameless black bead suspended in Ye Yuan's sea of consciousness lightly vibrated and dissipated the attack. Ye Yuan did not even have time to take the initiative to defend.

What this sound wave attack was most powerful at was divine soul attack. Once the divine soul attack was broken, one just had to use essence energy to close off their hearing, and the sound wave attack would be useless.

Jin Feng was struck by the sword intent released from Ye Yuan's body. His innards were like being overturned, instantaneously sustaining extremely severe internal injuries.

"Just what is this boy's background? How can he be so strong? Up until now, he hasn't even released a proper attack!" Jin Feng was shocked beyond words in his heart.

He could sense that Ye Yuan was completely toying with him. Or else, with that blow earlier, he would already have croaked!

You got to kidding. Just using the powerful sword intent emitted from his body and he could cross boundaries to wound a Seventh Level Sea Transformation martial artist. If he were to unleash martial techniques, then how strong would that be?

Thinking up to here, Jin Feng unwittingly shuddered.

How could such a powerful existence suddenly appear in Breaking Dawn City?

Seeing Ye Yuan walk over towards him, Jin Feng crawled to his feet and flew in the direction of the City Lord Manor.

Ye Yuan gave a faint smile and followed after.

His speed was much faster than Jin Feng's and caught up to him very quickly.

Slam!

Sword intent clashed with sabre intent. Jin Feng was sent flying by Ye Yuan again.

Just like this, Ye Yuan chased Jin Feng all the way to the City Lord Manor.

"Lord Dai, help! Lord Dai . . ." Jin Feng's shrill cry reverberated throughout the City Lord Manor.

Bang!

Jin Feng's body directly broke the City Lord Manor's front gate, flying inside.

Ye Yuan slowly walked inside the City Lord Manor. Looking at the Jin Feng lying on the ground covered entirely in blood, he said coolly, "You father and son pair committed all sorts of crime in Breaking Dawn City. You complied to the Tranquil Cloud Sect in public while opposing in private, and actually even willingly become the Purple Mansion Sect's lackeys! Death isn't regrettable!"

Jin Feng was alarmed in his heart, and he looked at Ye Yuan disbelievingly as he said, "Y-Y-You are . . . How is this possible? Why didn't I receive any news at all that you came to Breaking Dawn City?"

Ye Yuan said with a smile, "If you got the news, how could I make it to Breaking Dawn City? Alright, thanks for leading the way. Now . . . You can go die already."

"Ahh! Don't!" Jin Feng yelled out in despair.

But Ye Yuan was disinclined to bother with him. Forming a sword with his fingers, a streak of sword qi sped like the wind towards Jin Feng.

Right then, a figure suddenly appeared between the two people.

The person lightly flapped his sleeves. That streak of sword qi was scattered!

When Jin Feng saw this person's back view, he immediately said agitatedly, "Lo-Lord Dai! Many thanks for Lord Dai's life-saving grace!"

But when Ye Yuan stared at the person before his eyes, his expression became solemn.

### [Unrivaled Medicine God](#)

#### **Chapter 484: If I Want to Kill Him, You Can't Prevent I**

"I didn't think that the Purple Mansion Sect actually sent a Soul Sea Realm over to station at Breaking Dawn City!"

This person in front of Ye Yuan wearing the Purple Mansion Sect's outfit was shockingly a Soul Sea Realm expert!

Ye Yuan even thought that the Purple Mansion Sect would at most send a Ninth Level Sea Transformation here. To think that it would actually be a Soul Sea Realm!

The Purple Mansion Sect's Soul Sea Realms appeared to be many, but when distributed across the entire Southern Domain, it was not enough.

Since the Purple Mansion Sect eradicated the six great sects until now, it had merely been several months' time. There were still many places that were not very stable, requiring Soul Sea Realm experts to hold down the fort.

Ye Yuan never would have thought that the Purple Mansion Sect would send a Soul Sea Realm powerhouse here to hold down the fort at Breaking Dawn City; it was a remote place.

The Purple Mansion Sect grand elder had a middle-aged appearance. Among Soul Sea Realm experts, he was also considered an up-and-coming star.

After the middle-aged man saw Ye Yuan, he was observing Ye Yuan the entire time but did not speak.

Seeing Ye Yuan talk at this time, he gave a faint smile too and said, "Looking at your appearance, you're that Ye Yuan from the Tranquil Cloud Sect. This Seat is the Purple Mansion Sect's Dai Yuhen."

From the initial shock, Ye Yuan recovered too and said coolly, "That's right. I'm precisely Ye Yuan. To think that Elder Dai actually recognized me at a glance."

Dai Yuhen said smilingly, "Stopping my Purple Mansion Sect with your strength alone. Wanting to not recognize you is out of the question as well! Furthermore, you have such skills at such an age. I thought about it, in the land of the Southern Domain, there's only you."

Ye Yuan curled his mouth and said, "I'm quite surprised though. Why is Elder Dai here in Breaking Dawn City?"

This Dai Yuhen was actually not in a rush to take action against Ye Yuan either. He actually took the initiative to strike up a conversation with Ye Yuan, appearing like everything was under control.

Seeing Ye Yuan asking, Dai Yuhen did not hide anything either, and he said with a smile, "Speaking of it, me being here is still because of you!"

Ye Yuan was said bewilderedly, "Because of me?"

Dai Yuhen nodded and said, "That's right. Because you've done too many inconceivable things! In order to prevent for contingencies, Sect Master went out of the way to transfer me over from another place to garrison this place! It's just I didn't think that this contingency . . . actually really happened."

Ye Yuan could not help smilingly bitterly when he heard that. The one who drew this Soul Sea Realm expert over was actually still himself.

But Ye Yuan became curious again very soon and enquired, "There are many frontier cities that can lead to the Northern Domain. How did you know that I'd definitely go through this Breaking Dawn City?"

Dai Yuhen said, "About this . . . Martial Nephew Lin Chao is still quite far-sighted. He once said that if the Tranquil Cloud Sect moved north, they would definitely break down into parts, and choose an extremely remote city to leave. And with your personality, you're bound to choose the most complicated circumstances Breaking Dawn City. To think that his words really hit the mark."

Ye Yuan could not help being slightly amazed. This Lin Chao's thoughts were meticulous; he was definitely an adversary that was extremely hard to deal with.

Including the previous time He Mingde led a team to besiege the Tranquil Cloud Sect, it was also Lin Chao guessing that it was him presiding over the grand array.

This Lin Chao's understanding of his character was very thorough. He was also exceptionally skilled in grabbing other people's soft spots to do things, and his actions were remarkably ruthless.

If not that he had some measures, he would really still have to suffer a huge deal the previous time.

Seeing Ye Yuan's face revealed a look of realization, Dai Yuheng then asked, "Martial Nephew Lin said that there was a need to guard against you guys. I previously even thought that he was making a big deal over nothing. Looking at it now, your means are truly fantastic. Before meeting you, I actually did not even get wind of any news at all. Sect Master laid down countless informers at the Tranquil Cloud Sect. How did you all escape?"

Ye Yuan did not conceal anything either, briefly recounting the matter of him constructing a miniature transmission array, leaving Dai Yuheng staring wide-eyed and mouth agape.

After a long time, Dai Yuheng finally heaved a long sigh and said, "What Martial Nephew Lin said was correct. Luo Qingfeng and Skymaple escaping to the Northern Domain are but stray dogs. You're my Fierce Gale World's mortal malady! Ye Yuan, I actually focus wholeheartedly on Dao and dislike these strifes. But you and I each serve a different master. I can't let you leave today."

Ye Yuan nodded slightly. He also saw through that this Dai Yuheng was rather different from the Purple Mansion Sect's other people. Or else, it was not possible to talk so much crap with him.

But since Dai Yuheng showed up here, this fight was destined to be unavoidable.

"Come on!" Ye Yuan said coolly.

Dai Yuheng was stupefied as he asked weirdly, "You want to fight with me?"

"What? Can it be that you want me to surrender?" Ye Yuan replied with a question instead.

"Isn't that so? I know that your strength is very formidable and can cross realms to battle. But, against me, you don't have any chance of winning!" Dai Yuheng shook his head and said.

Ye Yuan was rather amused and said, "How will one know without trying?"

At this time, Jin Feng who had been watching the two people converse by the side the entire time said with a loud laugh, "Punk, what are you thinking? Lord Dai is a Soul Sea Realm expert. You, a puny little Sea Transformation Realm, actually dare challenge him with no notion of how high the heaven, and how deep the earth is?"

Soul Sea Realm was an invincible existence to Sea Transformation Realms. This was common sense.

Ye Yuan's actions were actually subverting common sense in itself. Jin Feng finding it absurd was within reason too.

Yet, Ye Yuan's existence had always been smashing common sense!

Seeing Jin Feng rear his head, Ye Yuan said with a cold smile, "Just now that interruption, I forgot that there was still you, a trash. Alright then, before fighting, I'll send you to heaven first. There's no need to thank me."

Ye Yuan already had an understanding of the conduct of Jin Feng this father and son pair. Jin Feng this person had complete disregard for human life. Using his position as a city lord, who knew how many people he had exploited. The martial artists all dared to be angry but dared not voice out.

Regarding such a scourge, Ye Yuan would never show leniency.

However, Dai Yuhen clearly did not plan on letting Ye Yuan kill Jin Feng. He said indifferently, "Jin Feng has already pledged allegiance to my Purple Mansion Sect. I won't let you kill him!"

Jin Feng was overjoyed hearing that and said, "Thank you very much, Lord Dai! Jin Feng will definitely slog it out for the Purple Mansion Sect!"

Finished talking, he turned to Ye Yuan again and said, "Punk, in front of Lord Dai, you still dare to be so arrogant! The Southern Domain being unified by the Purple Mansion Sect is already something which cannot be stopped. You all these Tranquil Cloud Sect's remaining spawns still not going to obediently submit to arrest with folded arms?"

With Dao Yuhen backing him, Jin Feng felt like his waist could be straightened even more.

But Ye Yuan was disinclined to bother with Jin Feng. Instead, he said to Dai Yuhen nonchalantly, "If I want to kill him, you can't prevent it."

His voice had yet to fade when innumerable flower petals instantly appeared in the City Lord Manor!

It was precisely Ye Yuan's Thousand Flowing Petals!

Seeing this scene, Dai Yuhen's brows furrowed slightly. The power of this move was rather formidable!

Although it was not worth mentioning to him, to Jin Feng, it was plenty to kill him several times over.

Dao Yuhen flicked his sleeves grandly. Majestic essence energy partitioned those flower petals far away.

When Jin Feng saw such a horrifying move, his eyes revealed a stunned expression. But, seeing Dai Yuhen resolving it casually, he could not help becoming even cockier.

"Haha! You! Just a boy who is overestimating his own strength! I'm standing right here! You come and kill me! Come and kill me!" Jin Feng said to Ye Yuan with a big laugh.

All of a sudden, Jin Feng's laughter ceased abruptly. Because he felt a chill behind his back.

Two fingers pressed at the center of his back since who knew when!

"As you wish!"

Ye Yuan voice seemingly came from the underworld. Force was released. A sharp and fierce sword intent instantly pierced Jin Feng's heart.

**Chapter 485: Battling Soul Sea!**

Dai Yuhen reacted at the first moment. But it was already too late for him to save people.

"Avatar body!"

Seeing the two Ye Yuans — one at the front and one at the back — Dai Yuhen's expression became somber.

Seemed like this Ye Yuan was even harder to deal with than imagined!

As for Jin Feng's life and death, Dai Yuhen actually was not overly concerned.

Jin Feng used his final consciousness to lower his head and look at his own chest, his eyes filled with disbelief.

Finally, his consciousness dissipated entirely, and his body collapsed weakly onto the ground.

"Looks like I still underestimated you!" Dai Yuhen heaved a sigh and said.

The avatar body was not the least bit threatening to him at all. But to Jin Feng, it was deadly.

Ye Yuan's means were inexhaustible. It really made it impossible to guard against.

Dai Yuhen could not help sizing up this youth before his eyes once more as if the latter had limitless methods.

It was not to the extent where Ye Yuan really had the qualifications to fight with him, right?

Dao Yuhen very quickly denied this idea. How was this possible?

Between Soul Sea Realm and Sea Transformation Realm, there was a giant chasm. It was impossible to cross, let alone that Ye Yuan was still only First Level Sea Transformation.

What was happening to him? He was actually frightened from a teenage youth. Truly declining as he aged.

Dai Yuhen laughed self-deprecatingly in his heart.

"Alright. That hindering fellow is already eliminated. There won't be people hampering us anymore!"

When Ye Yuan was talking, he was actually brimming with fighting intent!

"You're sure that you really want to fight with me? I know that your strength isn't weak, but, it's precisely so that I might not be able to grasp the limits properly. A genius like you falling is seriously too pitiable," Dai Yuhen asked once more.

Ye Yuan did not think that this Da Yuhen actually still had a heart that cherished talents, and he was rather surprised.

But since Ye Yuan broke through to the Sea Transformation Realm, he had yet to unleash his full strength.

He was already matchless among Sea Transformation Realms. Only Soul Sea Realm experts were worthy to be his opponent.

This Dai Yuhen was clearly an opponent tailor-made for Ye Yuan!

"Haha! Elder Dai is indeed quite different from He Mingde those scumbags. But you don't have to worry about me. Just come at me with your best shot! Even if I beat you today, I'll let you leave as well," Ye Yuan said with a huge laugh.

Arrogance!

In Dai Yuhen's eyes, this Ye Yuan was too arrogant!

A Sea Transformation Realm saying to let a Soul Sea Realm live. This sounded somewhat comical no matter how one listened to it.

Dai Yuhen's face sunk slightly and he said, "Humph! What a rampant boy! I want to see just how you'll beat me!"

Finished talking, the two people arrived in mid-air without prior consultation. With their strength, fighting in the City Lord Manor would probably exterminate even fowls and dogs at the side.

"You guys, look! There are two people facing off over there! That purple shirt man has such a powerful pressure. Doesn't seem like what Sea Transformation Realm experts can have. Could that be a Soul Sea Realm expert?"

"My God! Is this Soul Sea Realm? Indeed ridiculously powerful! Separated so far away and I'm even somewhat stifled. Moreover, I feel that he isn't even intentionally giving off the pressure of a Soul Sea Realm expert!"

"Who's that young man opposite him? Seems like only First Level Sea Transformation! These two people facing off in the air aren't about to have a fight, right?"

"Are you kidding? First Level Sea Transformation versus First Level Soul Sea. Is that boy a moron?"

"You're the moron! That young man is the youth who used his fingers to grab Jin Feng's great ringed-saber just now on top of the city gates. His strength is terrifyingly powerful! He was chasing Jin Feng to the City Lord Manor and actually provoked a Soul Sea Realm expert! But, no matter how great his strength is, squaring off against Soul Sea Realm . . . it is most likely a hopeless action!"

"What? Using his fingers to grab City Lord's great ringed-saber? Holy sh\*t! Are the youths now all powerful to such a degree? Indeed, we, these front waves, are all smacked to death on the beach."

Once Ye Yuan and Dai Yuhen appeared, they drew a large number of martial artist to crowd around and spectate.

But Dai Yuhen's aura was too strong. Those martial artists all crowded around far away to watch self-consciously. Nobody dared to approach the two people.

"Origin Spirit Nine Transformations!"

Ye Yuan gave a low cry and directly activated Origin Spirit Nine Transformations!

Facing Soul Sea Realm experts, his present realm was seriously too low. Hence, Ye Yuan did not hesitate, using Origin Spirit Nine Transformations straight away.

Dao Yuhen's expression changed. He saw Ye Yuan's aura rise with rapid speed and actually broke through the Second Level Sea Transformation very quickly!

Ye Yuan's aura surged all the way, finally stopping at the Fourth Level Sea Transformation.

Ye Yuan borrowed the power of the essence energy in his body first to instantly break through three minor realms, arriving at the Middle-Stage Sea Transformation Realm!

Seeing this scene, Dai Yuhen's expression could not help changing drastically!

"This . . . This . . . This . . . Could it be that what you just used is Origin Spirit Nine Transformations?" Dai Yuhen exclaimed in shock.

"You actually know the Origin Spirit Nine Transformations?" Hearing Dai Yuhen saw through it right away, Ye Yuan was also quite surprised.

"Hiss . . . It's really Origin Spirit Nine Transformations! I heard that you silently sneaked into the Fierce Gale World. Could it be that you stole the Xue Family's martial art manuals away?" Dai Yuhen's brain could not quite wrap itself around it.

"Stole away? You're thinking too much! Xue Family those dunces, most likely, there has yet to be anyone who can use it to my level," Ye Yuan said coolly.

Dai Yuhen was involuntarily shocked, and he thought to himself that was true as well.

It had only been a few months' time. If Ye Yuan really stole the Origin Spirit Nine Transformations, it was absolutely impossible to cultivate to such a level.

Directly breaking through from early-stage Sea Transformation to middle-stage Sea Transformation, such a span was too outrageous!

Dai Yuhen naturally did not know that the reason why Ye Yuan only broke through three minor realms was that his essence energy sea was too large!

With Ye Yuan's foundation, advancing three minor realms was already the limit.

But the way those martial artists below them saw it, that was entirely not the case!

"What martial technique did that youth use just now? He actually broke through to middle-stage Sea Transformation in the blink of an eye! Too sick!"

"Never heard before that there's still such a perverse martial technique! With such a martial technique, wouldn't crossing realms to battle be as simple as eating and drinking?"

"Hehe. Initially thought that it was just a lopsided fight. Now, it looks like there's a good show to watch! That young man's strength was very formidable to begin with. Now, he actually broke through three minor realms in succession. While I don't know how much distance it can pull closer to Soul Sea Realm, there is more or less something worth watching! Such a battle is hard to come across in a hundred years in the Breaking Dawn City!"

These martial artists' blood were all boiling. They were looking forward to this great fight.

Soul Sea Realm experts were extremely rare in the Southern Domain. Except for the Eight Great Sects, there were extremely few Soul Sea Realm experts that existed.

Just like the disparity between strength, wanting to break through to Soul Sea Realm from Sea Transformation Realm was similarly a heavenly chasm.

Being able to watch a Soul Sea Realm expert level great battle today was perhaps a turning point for them too!

"Thousand Flowing Petals!"

Ye Yuan's Canghua Sword shook. Countless flying petals swept over!

Now that Ye Yuan broke through to Sea Transformation Realm, his execution of Thousand Flowing Petals was already at the extent of being at his fingertips. Executing this martial technique virtually did not require any time at all.

Ye Yuan leaped lightly. The Canghua Sword wrapped around by countless flying petals slashed towards Dai Yuhen!

### [Unrivaled Medicine God](#)

#### **Chapter 486: Defeat**

"Fine lad! Watch this!"

Even though Dai Yuhen had confidence, he did not dare to belittle Ye Yuan at this time either.

Ye Yuan's combat strength greatly surpassed his level itself. Consecutively jumping three minor realms at this moment, God knew how formidable his strength was!

Such an increase in strength was already very terrifying for ordinary martial artists, let alone it happening to a top genius?

Ye Yuan's speed was seemingly slow, but in reality, it was fast. Furthermore, it was erratic, just like a specter.

Moreover, the places that he reached all had large quantities of flower petals following, looking like countless large flower petals had bloomed in the air.

"Crane Dance Seven Absolute Palms!"

Dai Yuhen's palm force spat out. It was akin to immortal cranes dancing, graceful and agile.

At this instance, the power of a Soul Sea Realm martial artist was displayed beyond all doubt!

The places that Dai Yuhen's palm wind reached, Ye Yuan's Thousand Flowing Petals would be dissipated instantly.

Ye Yuan's Thousand Flowing Petals was nigh-invincible in the Sea Transformation Realm. But in front of Dai Yuhen, it could not gain any advantage at all.

"This is Soul Sea Realm? Really powerful! A casual move can explode with such horrifying power. It's completely not what Sea Transformation Realms can contend with!"

"F\*ck you; are you blind? Isn't the youth that's fighting with him a Sea Transformation Realm? If not for seeing with my own eyes, I truly dare not believe that there is really a Sea Transformation Realm that can fight to such a level with a Soul Sea Realm!"

"That young man is indeed powerful! But he totally cannot approach that purple shirt expert. Carrying on like this, a defeat is something inevitable."

Ye Yuan and Dai Yuhen exchanged a hundred moves in the blink of an eye. But Ye Yuan simply could not even enter a 50 feet radius around Dai Yuhen.

Moreover, Dai Yuhen had been on defensive the entire time and had yet to take the initiative to attack once.

Hence, in the other martial artists' view, Ye Yuan's strength much too weak.

Actually, they did not know that it was not that Dai Yuhen did not want to counterattack, but it was because he simply could not find the opportunity to counterattack.

Ye Yuan's figure was erratic, leaving upon hitting. He seemed to be completely without any desire to continue fighting aggressively.

Dai Yuhen simply could not figure out where Ye Yuan's next attack would appear at. Only by waiting for Ye Yuan to take the initiative to show himself that he could passively counterattack.

From start to end, it was all Ye Yuan holding the initiative.

Ye Yuan's attack might not be able to pose a threat to Dai Yuhen; likewise, Dai Yuhen had no way of causing any harm to Ye Yuan.

By fusing the Wind Flow concept into his movement technique, it made Ye Yuan's movements become extremely bizarre.

For Dai Yuhen to want to catch Ye Yuan, he had to give up on his defensive circle and let Ye Yuan approach.

But Dai Yuhen who had already borne witness to Ye Yuan's methods did not dare to do so at this time.

Who knew if this boy had some powerful attack that could breach the protective essence energy of a Soul Sea Realm expert?

Therefore, Dai Yuhen also decided to play it safely, executing probing attacks with Ye Yuan first.

Fighting up until now looked like flowers cascading from the skies. Actually, it was just the two people warming up.

It was just that the way the other martial artists saw it, this was already a peak battle.

Because among them, there was no one at all who could withstand a casual blow from the two people.

In the crowd, Tian Yu and the rest were watching the fight too.

When they saw Ye Yuan suddenly face off with a Soul Sea Realm expert, their hearts leaped to their throats.

As disciples of the Eight Great Sects, they were deeply aware of the might of Soul Sea Realm martial artists.

Tian Yu they all knew that Ye Yuan had once defeated the Myriad Sword Sect's Qin Yan. But, just what the chances of victory was like facing off against a Soul Sea Realm expert, they really had no score in their hearts.

Seeing Ye Yuan locked in battle with Dai Yuhen at this time, they were a little calm in their hearts instead.

However, they were also aware that the real fight was only starting now.

"Ye Yuan, do you plan on dragging it out like this all the way? I can afford to drag on, but can you do so? Carrying on probing like this, you won't be able to figure out just where the limits of my strength lie either." Dai Yuhen clearly had plenty of strength left over, even talking while he was defending.

"Alright then. Thousand Flowing Petals, arise!" Ye Yuan's voice came over faintly.

All of a sudden, essence energy flower petals that blotted out the skies and covered the earth condensed in the sky above Breaking Dawn City, practically covering the sun!

Horrifying essence energy undulations crushed the martial artists below until they could not catch their breath.

Seeing this scene, Dai Yuhen was not alarmed but became delighted instead.

Ye Yuan was finally going to have a frontal battle with him!

Under the powerful strength of Soul Sea Realm, everything was nothingness!

With the strength of Fourth Level Sea Transformation, the Thousand Flowing Petals that Ye Yuan used was unbelievably horrifying from beginning to end.

Right now, the entire sky was a sea of flower petals, looking extremely torrential and grandiose.

If Ye Yuan could battle with Zhao Chenggan in his present state, it was ample to one-shot him!

"Haha! This should be the move that you created yourself, right? Indeed prodigious! If I didn't have Soul Sea Realm strength, I would most likely be one-shotted by you instantly! Truly impressive! However . . . using this move to deal with me is still too tender! Crane Dance Nine Heavens!"

When Dai Yuhen's move was released, it instantaneously amassed massive quantities of heaven and earth essence energy!

The aura belonging to a Soul Sea Realm pushed aside the petals which filled the skies.

"F\*ck me! So, this is their true strength! I already have no way of describing using words! These two people are really powerful until it makes people despair!"

"Yeah! If this is the true strength of a Soul Sea Realm, then I feel that I'll probably have no way of striding out this step for the rest of my life!"

"That young man only has Fourth Level Sea Transformation boundary right now and can actually unleash such a terrifying move. In my view, this move of his might really not be beneath that Soul Sea Realm's!"

"The two people's moves are both extremely terrifying. Who wins and who loses . . . It is really hard to say!"

Dai Yuhen struck out a palm, compressing the air until it exploded! Ye Yuan sensed a harrowing aura coming from the front.

Facing a Soul Sea Realm expert's powerful martial technique, Ye Yuan did not dare to slight it. Mobilizing those countless flower petals, it charged at Dai Yuhen frantically!

"Thousand Flowing Petals, explode!"

Yet, the Thousand Flowing Petals which had never failed finally lost its edge this time.

Even with the Thousand Flowing Petals' detonation producing massive obstruction, Dai Yuhen's palm wind still pressed forward irresistibly like a hot knife through butter!

Talking about it was as if things happened slowly, but in reality, it was only in a twinkling.

Dai Yuhen's Crane Dance Nine Heavens finally still landed on Ye Yuan's body!

Boom!

Ye Yuan was blasted out several hundred feet away!

"Puhwark!"

Ye Yuan tasted sweetness in his throat and spurted out a mouthful of blood.

"Sigh. Still lost in the end! But for a Sea Transformation Realm martial artist to be able to accomplish to such an extent, it's already plenty to be proud of!"

"Yeah! A First Level Sea Transformation could actually cross a major realm to fight with a First Level Soul Sea to such an extent! Before this, I simply dare not imagine it!"

"Also don't know how that Soul Sea Realm expert plan on dealing with him. Such a genius perishing is truly too pitiable."

A series of sighs was emitted from the crowd. But regarding Ye Yuan's performance, they were all immensely shocked.

If it were an ordinary First Level Sea Transformation, they probably would not have the courage to attack at all in front of a Soul Sea Realm expert, right?

Dai Yuhen flew to not far away from Ye Yuan, his face carrying solemnness as he said, "Really didn't expect that you could actually force me to use Crane Dance Nine Heavens. Furthermore, even dissipating most of Crane Dance Nine Heavens' force. Truly widened my horizons greatly! However . . . it ends here. Follow me back to the Purple Mansion Sect!"

[Unrivaled Medicine God](#)

**Chapter 487: You're Very Strong!**

Hearing Dai Yuhen's words, Ye Yuan suddenly wiped away the fresh blood hanging from the corner of his mouth and gave a grin.

"Soul Sea Realm is indeed powerful! Looks like I still underestimated Elder Dai! Elder Dai's strength, among First Level Soul Sea Realms, is also considered very strong! But wanting to bring me away just based on this is still not quite enough!"

Dai Yuhen shook his head and said with a sigh, "I know that geniuses all have their pride. But you being able to perform to such an extent is already very impressive! Even if you lost, there's nothing to be ashamed of either."

The way Dai Yuhen saw it, Ye Yuan was a dead duck being stubborn and could not bear a loss.

In the case of geniuses, their talents were greater compared to normal people. But they also found it very hard to accept failure without misgivings.

Ye Yuan forcing him to this extent with First Level Sea Transformation boundary was truly very remarkable already.

"Lost? Haha! I can't afford to lose! Hence . . . my only way out is to keep winning all the way!" Ye Yuan laughed self-mockingly.

Finished talking, Ye Yuan released his aura fully once more. Wind-Fire Violent Blaze Transforming Dragon condensed and formed in his hands rapidly!

Seeing this scene, Dai Yuhen's face changed!

This move had yet to be released, and it already made even him, this Soul Sea Realm expert, feel somewhat daunted! Presumably, the power was extraordinary!

Just how many trump cards in his hands has this boy not used yet? The power of that move earlier was freakish enough already. This current move is actually even more perverse than the move just now!

Dai Yuhen silently cursed in his heart.

But grumbling was grumbling. Dai Yuhen's speed of executing his move was not slow.

"Crane Dance Nine Heavens!"

It was still the previous move, Crane Dance Nine Heavens. But this time, Dai Yuhen used 90% of his power!

Under normal circumstances, not at a life-and-death juncture, martial artists would not employ all of their essence energy.

If the essence energy that one martial technique move expended were too much, it would make the martial artist lack strength to carry on. Once they could not dispose of their opponent, then it would be them perishing.

Hence, martial artists only used 60% - 70% of their strength under most circumstances when fighting.

That Crane Dance Nine Heavens move earlier, Dai Yuhen already wielded 70% strength.

It was not to be underestimated how this 70% strength did not seem to be much. To a First Level Sea Transformation like Ye Yuan, it was already tremendous respect.

One had to know that if Dai Yuhen's opponent were swapped, he probably would not even use 10% of his strength!

First Level Soul Sea and Fourth Level Sea Transformation was simply not a fight on the same level.

But this time, Dai Yuhen used 90% power in one go. It was practically already his full power!

Before this, Dai Yuhen simply had not thought of this possibility that Ye Yuan would actually forced him to this sort of degree!

90% power Crane Dance Nine Heavens! It actually carried the faint cries of immortal cranes in the palm wind. It could be seen that Dai Yuhen already displayed this move to the ultimate.

The roaring sounds of the wind and fire colossal dragon and the faint cries of immortal cranes surged to the skies, colliding together fiercely.

Rumble!

A massive impact, stirring up waves of air billows, sending the City Lord Manor's rubble flying.

The martial artists below already deliberately maintained distances. But there were still many martial artists who were knocked over by this bout of air blast.

The shock wave of Soul Sea Realm level battle was too great.

"Hiss . . . That young man is too scary! This time, the two people are actually evenly-matched!"

"He is still First Level Sea Transformation and has such terrifying combat strength already! By the time his strength reaches Soul Sea Realm, how terrifying would it be?!"

"This young man seems to have limitless trump cards. I even thought that move just now was already his greatest trump card. To think that this move is even more terrifying!"

This time, Ye Yuan and Dai Yuhen fought to a draw. Dai Yuhen was actually blasted flying out!

But Dai Yuhen's realm was much higher than Ye Yuan's. So he only suffered some light injuries.

However, this was already plenty to shock Dai Yuhen to his core!

The attack of a Middle-Stage Sea Transformation Realm could actually hurt a Soul Sea Realm?

Furthermore, the attack this time was even under the prerequisite of him using 90% power!

Which was also to say that Ye Yuan's combat strength was already infinitely close to his!

"Ye Yuan, I must admit now that you have enough qualifications to be my opponent! You're very strong!" Dai Yuhen declared to Ye Yuan earnestly.

Ye Yuan was similarly blasted flying out. But his injuries were much heavier compared to Dai Yuhen's.

However, Ye Yuan's facial expression did not have the slightest hint of pain. He was abnormally excited instead!

Ye Yuan suddenly discovered that he actually gradually developed a liking for this feeling of fighting.

Previous life, all of his time and energy was spent on alchemy skills, and he virtually did not experience the joy of fighting.

But in this life, he walked the path of vengeance and experienced countless instances of great life-and-death battles. He actually gradually developed a liking for this sort of feeling!

This feeling of treading the borders of life and death made Ye Yuan incomparably stimulated!

Fighting formidable foes one after another also made Ye Yuan unbelievably free from inhibitions!

This feeling of liberation was exactly the same as refining pills!

Originally, Ye Yuan was only passively walking the martial path. But now, he quite enjoyed this joy of growing.

Ye Yuan was deeply aware that only by falling in love madly with something could people have the chance to reach the top.

Previously, he had always been forcing himself to cultivate the martial path. Actually, it was not enough to sustain him to reach Ji Canglan's height.

But now, Ye Yuan had the confidence to surpass everything!

"Haha! Elder Dai, you're very strong too! Truly to my heart's content! Let's fight again!" Ye Yuan said heroically.

Dai Yuhen's life goal was likewise the Martial Path. In this battle, fighting until now had great inspiration to him!

Saying it out was even quite inconceivable!

A Soul Sea Realm expert actually obtained enormous harvests through a fight with a Sea Transformation Realm martial artist!

Yet, this was not something that was unthinkable. Ye Yuan's moves contained the of the great Dao, much greater than Dai Yuhen's own comprehensions.

It was precisely due to this that Dai Yuhen could glean much insights from this battle.

He believed that if he went back to seclude and comprehend things this time, he was bound to have huge harvests!

But the fight was not over yet!

"Haha! Good! It's hard to meet an opponent like you. The next attack, you have to be careful! This is where the essence of my life's work lie, and also my final trump card! If that was your limits just now, I advice you to best not fight anymore and surrender without resistance!"

Dai Yuhen was also stimulated by Ye Yuan's heroicness and wanted to have a final great battle with Ye Yuan.

Ye Yuan chuckled and said, "I said before, I'll keep winning all the way! Elder Dai, you'd better return to the Purple Mansion Sect and devote yourself to the Martial Path! This kind of thing like invading the Endless World is unsuited for you!"

"Haha! Ye Yuan, you see it clearly! But, I, Dai Yuhen, received His Majesty, the Wind Emperor's, great grace. How can I watch with folded arms to this sort of thing? Enough crap. Come and fight!" Dai Yuhen said with a loud laugh.

"Alright. Since that's the case, then I'll send you packing! I recently comprehended a sword move. I myself have not tested its power either. Elder Dai, you have to be careful!"

After the laughter, the two people's expressions were both a never-before solemnness.

Both knew that the other party's next attack would be an earth-shattering blow!

### [Unrivaled Medicine God](#)

#### **Chapter 488: Myriad Rain Sword Blades**

"What are they talking about? Invade the Endless World?"

"Seems like that's the meaning! However . . . what in the world is going on? Who would invade the Endless World for no reason?"

"No idea. Their conversation is rather baffling."

Ye Yuan's words caused a considerable stir among the crowd.

The Purple Mansion Sect's true face had yet to be exposed up until now. These martial artists still thought that the Southern Domain's great change was just the Endless World's internal affairs.

Even though Ye Yuan did not put the cards on the table, he actually already stated it very obviously. As to how much these people would believe, it would be up to their fortunes.

If possible, Ye Yuan naturally wanted to bring everyone in the Southern Domain and move north. But time was pressing, and where would he find the time to convince these people one by one?

And at this time, the atmosphere between the two in the air already become somewhat strange.

The two people were still talking in a jovial manner just now. At this moment, the expressions on the two people's faces were a never-before solemn.

It even led to the surrounding atmosphere to be somewhat different.

Some slightly stronger martial artists were affected by this atmosphere and sensibly distanced away from the two once more.

Very soon, somebody guessed that this might be Ye Yuan or Dai Yuhen going to unleash their move!

Right then, Dai Yuhen moved.

This time, Dai Yuhen no longer held anything back. His full strength erupted abruptly. The surrounding essence energy gathered around him frenziedly.

"Quickly look! What's that?!"

"My God! He actually condensed gathered essence into materialization. How much heaven and earth essence energy did he need to gather?!"

"Immortal crane phantom! The power of this move truly demonstrates the disparity between Soul Sea Realm and Sea Transformation Realm! Wonder how that young man will respond!"

Where Dai Yuhen's palm force rose, a faint phantom of an immortal crane actually formed gradually.

That was to say that Dai Yuhen already condensed essence energy to materialization. It could be seen how great the power of this move was!

And the condensed form of the amassed essence was precisely the prominent characteristic of Soul Sea Realm experts!

Soul Sea Realm experts could gather very terrifying essence energy with a wave of their hands. It was already on an entirely different level from Sea Transformation Realm experts.

This essence energy that was gathered could become corporeal. It could be seen just how powerful a martial technique move that they could use was.

But to the early-stage Soul Sea Dai Yuhen, condensing gathered essence was still somewhat too forceful. That was why he saved this move for the last.

Even so, that faint immortal crane phantom was also sufficient to astonish people!

On the other side, after Ye Yuan prepared for a long time, he finally moved too!

But this movement left everyone dumbstruck in amazement!

"What? This . . . This . . . This young man can actually condensed gathered essence into materialization too! Isn't he just Sea Transformation Realm?"

"What the f\*ck! This is too perverse! He actually condensed out so many sword blades!"

"Just who the hell is this young man? His talent is too terrifying as well! Since ancient times, I've never heard of anybody who could condense gathered essence into materialization at the Sea Transformation Realm!"

Ye Yuan used Canghua Sword as a guide, and then around them were condensed myriad tiny sword blades!

The sword blades were not large; it was like fragments of a sword. Regardless of so, Ye Yuan succeeded in condensing beyond all doubt!

Those martial artists down below did not know Ye Yuan's past. If they knew that Ye Yuan could already maneuver heaven and earth essence energy at the Spirit Condensation Realm, perhaps they would feel that his condensing gathered essence in the Sea Transformation Realm was nothing much.

Of course, the difficulty of condensing gathered essence was completely not on the same level as maneuvering heaven and earth essence energy. Otherwise, Dai Yuhen would not treat it as his final ace in the hole either.

However, Ye Yuan's realm was still a little low in the end. So his control over essence energy reached an extremely minute degree, only condensing out tiny sword blades. This way, the difficulty would lessen greatly.

Seeing this scene, Dai Yuhen's face also had indescribable solemnness.

The impact that Ye Yuan gave him today was seriously too great!

"I truly didn't think that you can actually perform to such an extent. You really made this Dai widen his horizons! Then let us use this move to determine the victor! With Cranes, Immortal Comes! Go!"

Dai Yuhen's palm force pressed on. That faint immortal crane phantom attacked Ye Yuan with a light cry!

Seeing that aggressive immortal crane phantom, Ye Yuan launched this martial technique unhurriedly.

"Azure Dipper Floating Zero Sword . . . Myriad Rain Sword Blades!"

Sword blades whirled towards the immortal crane with extreme speed. It actually somewhat had the hint of reaching first despite launching later.

In that instance, in the eyes of the martial artists below, an immortal crane and a massive cluster of sword rain collided together violently, seemingly like a celestial phenomenon.

Rumble!

A violent explosion sound emitted in the air. Two figures plummeted from the skies respectively.

When Tian Yu saw the situation, he hurriedly leaped up and caught the Ye Yuan who fell down.

"Junior Apprentice Brother Ye, are you alright?"

When the Tranquil Cloud Sect disciples saw the situation, they hurriedly crowded around and showed great concern about his well-being.

Ye Yuan's complexion was very pale. The corners of his mouth and his body dripped with a considerable amount of blood, his condition looking very poor.

Seeing his seniors and juniors express concern, Ye Yuan waved his hands feebly and said, "It's fine. Senior Apprentice Brother Tian Yu, I'll have to trouble you to help me over."

Dai Yuhen did not have Ye Yuan's treatment. His body slammed fiercely onto the ground.

But this degree of impact was not considered much to Soul Sea Realm martial artists.

Dai Yuhen's injuries were primarily from the fight earlier.

He was covered in wounds all over his body. That appearance was just like being stabbed by swords. They were evidently wounds left behind by Ye Yuan's move just now.

Seeing Ye Yuan came over, Dai Yuhen could not help forcing a smile and said, "To think that I actually lost to a Sea Transformation Realm today! However . . . you're really very strong! Being able to condense gathered essence into materialization at the Sea Transformation Realm, not saying never to be seen again, it's absolutely without any precedence, right?"

This sentence from Dai Yuhen immediately brought on a storm.

This Soul Sea Realm actually lost?

Because Ye Yuan and Dai Yuhen both sustained very severe injuries, those martial artists could not figure out for a moment just who won and who lost either.

Only hearing Dai Yuhen admit it personally now did they know that this Sea Transformation Realm youth actually really triumphed over a Soul Sea Realm expert!

They had long borne witness to Ye Yuan's might and were also already aware that Ye Yuan had the strength to contend with a Soul Sea Realm expert. Even after Dai Yuhen used a martial technique that condensed gathered essence into materialization, Ye Yuan still defeated him. This made those martial artists all feel like they were dreaming.

Turns out that Soul Sea Realm experts were not undefeatable!

Dai Yuhen's With Cranes, Immortal Comes was very strong. But during that battle earlier, Ye Yuan's sword blades ultimately still had a small number of them that broke through, landing on Dai Yuhen's body!

Hence, even though the two people both received severe injuries, it was actually still Ye Yuan whose skill was a level higher.

Ye Yuan's complexion was white as a sheet. This was not just suffering the tremendous impact of With Cranes, Immortal Comes. It was even because of essence energy expenditure being too exorbitant.

This move, Myriad Rain Sword Blades, seriously expended too much essence energy. Even if Ye Yuan's control of essence energy reached an extremely subtle level, it was also somewhat struggling to make ends meet.

Ye Yuan retrieved a medicinal pill from his storage ring and threw it to Dai Yuhen, saying with a forced smile, "Elder Dai is a true gentleman. Today, I won't start a slaughter. Hope that you conduct yourself well and don't associate with those Fierce Gale World's peoples' vile deeds!"

### [Unrivaled Medicine God](#)

#### **Chapter 489: No Greater Merit!**

"Cough, cough, cough . . . I'm originally a Fierce Gale World's native. Whence the don't associate with their vile deeds? You've been to the Fierce Gale World before and should know that I have no command over myself."

Dai Yuhen also had a doleful look. Clearly, on the matter of invading the Endless World, he was quite conflicted too.

The war between two worlds signified endless massacre with the dead souls being countless.

"No command over yourself? Your life is your own, not others'! Zhao Tianyin is a paramount existence in your eyes, an existence that brooks no desecration! But do you know what you all are in his eyes? You people are . . . just a bunch of tools for him to order around!" Ye Yuan said coolly.

Dai Yuhen's gaze sunk slightly, his complexion suddenly flushing crimson as he said furiously, "How can His Majesty, the Wind Emperor, be profaned by you like this! If you have the capabilities, just kill me! Or else, I'll surely make you pay the price for today's affront!"

Ye Yuan shook his head and said with a sigh, "Pedant! Zhao Tianyin is just a Boundless Realm expert! He's only a mortal too! Look at him assuming solemn airs normally. When he kneeled before me, wasn't he like a dog too?"

"Cough, cough, cough . . . Y-You're courting death!"

Dai Yuhen struggled, wanting to stand up. But he could not even do so after trying several times.

"Sigh . . . Heavenly Dao is boundless, humans are insignificant. In front of Heavenly Dao, we're but merely ants! Elder Dai, if not on account of you and I were having this battle today, why would I waste my breath on you? You feel that I'm insulting Zhao Tianyin, but let me tell you something. Zhao Tianyin doesn't have the qualifications to make me insult him at all. Place your horizons further. There is still the Divine Realm . . ."

Dai Yuhen's expression froze. Divine Realm these two words naturally aroused his desires.

Dai Yuhen suddenly recalled that Ye Yuan had once entered deep into the Fierce Gale World to rescue his fellow apprentices, but he returned to the Endless World without a scratch.

What in the world happened in between this? Why did His Majesty, the Wind Emperor, actually not keep this boy behind?

There seemed to be many stories in between this!

After this fight, Dai Yuhen and Ye Yuan could even be said to have some appreciation of each other.

Dai Yuhen could feel Ye Yuan's sincerity. Otherwise, he could very well just kill him and be done with it.

Ye Yuan did not show any mercy when cutting down Liao Wenguang, He Jun, and the rest.

The reason why he did not kill him today was probably still because of this standing aloof from the world mentality of his.

Was it possible that . . . he was really wrong?

"Also, although I don't know just why two generations of your Wind Emperor invaded the Endless World back to back, I have a feeling that they have some kind of ulterior objective. But, no matter what, Zhao Tianyin . . . I'll definitely kill him with my own hands!"

Speaking up to here, Ye Yuan suddenly seethed with killing intent.

Zhao Tianyin's humiliation that day, Ye Yuan will ultimately claim it back one day!

"Alright. My words end here. As for how you choose, that's your matter. Nothing to do with me. However . . . If I bump into you next time on the battlefield, then I won't show mercy! Senior Apprentice Brother, let's go!" Ye Yuan said coolly.

Dai Yuhen silently watched Ye Yuan's back view, but storms were brewing in his heart.

The ideology that he had been inculcated with since young was to give allegiance to His Majesty, the Wind Emperor. And the cultivation method he trained in, medicinal pills used in cultivation, were all bestowed by His Majesty, the Wind Emperor.

So in Dai Yuhen's mind, pledging allegiance to His Majesty, the Wind Emperor, was something that came very naturally.

Yet, Ye Yuan's words today silently opened up a window in his sealed mind.

.....

Northern Domain, Xiuming Mountain Peak.

Two elderly men and a middle-aged woman who had lost some of her charms were drinking tea at the stone table under the pine tree. A youth each stood behind the middle-aged woman and one of the old men respectively.

The two youths, one male, one female, were shockingly the Yin Yanhua and Guo Taoqun who returned to the Northern Domain from the Tranquil Cloud Sect.

With two of them appearing here, these three people's identities were also obvious.

These three people were precisely the Myriad Sword Sect, Heavenly Martial Sect, and the Profound Ice Sect's old ancestors, and also the Northern Domain's and even the entire Endless World's three most powerful people!

It was just that these three people had knitted brows which did not relax at the present, and were not in the mood to drink tea at all.

The Myriad Sword Sect's old ancestor was called Qin Hongtao. At present, he currently had an enraged look as he said, "That punk called Ye Yuan is too arrogant! To actually dare detain Yan-er! I think he's tired of living! Ning Yixian, you actually even made me spare that brat. You're simply too ridiculous!"

The Ning Yixian in Qin Hongtao's words was precisely the Heavenly Martial Sect's old ancestor.

"According to what Taoqun they all said, this child's talent is exceedingly freakish. He's already matchless among the young generation! Now that the Endless World is about to fall into a catastrophe, if you kill Ye Yuan, wouldn't it aggrive our own and gladden the enemy?" Ning Yixian urged.

Ning Yixian knew that Qin Yan was Qin Hongtao's lineage grandson; the person to inherit his mantle in the future.

Now that Qin Yan was held captive by Ye Yuan, how could Qin Hongtao not be furious?

But at this time right now, it was totally not the time to have internal strife.

If the Tranquil Cloud Sect was just an inconspicuous little sect, then forget it. But, Ye Yuan's talent was too startling. Such a genius being killed by their own people, wouldn't it be the biggest joke in the world?

But Qin Hongtao did not think this way. Ye Yuan's actions were simply plucking his whiskers!

When he heard this news, Qin Hongtao wanted to go and kill people at that time but was held back by the Ning Yixian who had arrived first.

The result was that Qin Hongtao was forcefully hurled up at Xiuming Mountain by Ning Yixian.

"Humph! No matter how great that punk's talent is, taking Yan-er as hostage won't do! Unless he personally goes to the Myriad Sword Sect to kowtow and offer an apology to this old self, otherwise, this grudge isn't over! Letting this Tranquil Cloud Sect off back then was a mistake. Now, this old man I will mend the fold after the sheep is lost, and go through the trouble of making this trip to eradicate this Tranquil Cloud Sect!" Qin Hongtao said in a towering rage.

Ning Yixian said, "Heh, you, this old man, still have such a fiery temper! What will you do to eradicate their Tranquil Cloud Sect? You don't wish for that beloved grandson of yours to live anymore? That boy is clearly somebody who is decisive in killing. You dare to go and exterminate his sect, he will dare to kill your grandson! Could it be that you dare to lose all decorum with him?"

Qin Hongtao's expression froze. Ning Yixian's words evidently struck his soft spot.

Yes. Ye Yuan's move was too ruthless!

He, Qin Hongtao, was formidable, but Qin Yan was a hostage in his hands!

"Sigh . . . As a matter of fact, you and I both still have to thank this boy called Ye Yuan. If not for him withstanding the entire Purple Mansion Sect with his strength alone, the Fierce Gale World's army would probably have crossed the Endless Forest already!

Speaking up to here, Ning Yixian's eyes revealed thick admiration too.

If not for Ye Yuan's appearance messing up the Purple Mansion Sect's arrangements, after the realm passageway linked up, the Fierce Gale World would be able to march straight in, directly crossing the Endless Forest!

"Ye Yuan this child's merits are the greatest! Qin Hongtao, you're a character on the level of being as weighty as Mount Tai and as brilliant as the Big Dipper. Why stoop to the level of a junior? Moreover, Qin Yan being detained was originally you all provoking first. Ye Yuan doing so was also just for the sake of self-preservation. This period at present, our three sects still need to put the interests of the whole above all else!"

The Profound Ice Sect old ancestor, Immortal Jing Xuan, who did not speak the entire time finally opened her mouth.

[0] The 'Immortal' used for Immortal Jing Xuan is to describe a middle-aged fairy maiden. Just a tidbit.

**Chapter 490: This Place Has Been Taken over by Us**

Jing Xuan's evaluation of Ye Yuan could not be said to be not high.

And in reality, Ye Yuan could live up to this appraisal as well.

If it weren't Ye Yuan defeating the Purple Mansion Sect thrice at the Tranquil Cloud Sect, they would already have firmly controlled the Southern Domain's situation.

After the Fierce Gale World's Divine Traversing Realm experts show up, the Southern Domain's overall situation would be a foregone conclusion. They would just have to place their sights on the Northern Domain, and that would be it.

And at that time, these people in the Northern Domain would still be unaware that the Purple Mansion Sect was the Fierce Gale World's survivors.

"Humph! Yan-er is still in their hands right now. How will this account be settled?"

Not knowing why, once this Jing Xuan spoke, Qin Hongtao's bluster fell in an instant.

"How else can it be settled? Didn't you detain a Sea Transformation Realm elder from the Tranquil Cloud Sect? Just send him back for them!" Ning Yixian said.

"Fine! Send him back then! But I'll say the nasty things first. If Yan-er has any injuries, I'm going to send an army to denounce them!" Qin Hongtao said with a black face.

Ning Yixian waved her hand and said, "Enough nonsense! Let us discuss how to deal with the Fierce Gale World martial artists! Back then, the Grand Yan True Sect sealed off the realm passageway, and the future generations gradually forgot about this matter. To think that after several thousand years, the Fierce Gale World had yet to give up hope and staged a comeback again! Sigh . . . Speaking of which, it's our oversight too!"

Jing Xuan said, "Those few seniors from the Grand Yan True Sect back then deserves our admiration. Now that this heavy responsibility has fallen on our shoulders, the martial artists of our generation should follow the example of our predecessors: possess the will to die and to resist foreign enemies!"

Although this Jing Xuan preserved her looks exceedingly well and only had the appearance of a middle-aged woman, she was actually a figure from the same generation as Qin Hongtao and Ning Yixian. She also had Peak Divine Traversing Realm strength.

This Jing Xuan was as cold as ice, a cut from the same cloth as Yin Yanhua.

But the words that she said had the breadth of spirit of rather to break than to bend.

But Qin Hongtao said with frowned brows, "That might be the case, but the Fierce Gale World has a Boundless Realm expert! Once the realm passageway stabilizes fully, the Endless World will . . ."

Speaking of Zhao Tianyin, the three people felt a heavy burden like a 30 thousand catties crushing down.

"There's still an issue. The Purple Mansion Sect has already laid low in the Endless World for several thousand years, experiencing countless generations of people, and already know the Endless World like the back of their hands. But we're completely clueless about the Fierce Gale World!"

One had to admit that the Endless World was passive everywhere right now, and virtually could not see any hope.

These three people conversed here for a long time and also had a woebegone look.

"Old ancestors, to say who in the Endless World understands the Fierce Gale World best, it's none other than that Tranquil Cloud Sect's Ye Yuan! He'd once entered deep into the Fierce Gale World and even captured a Sea Transformation Realm slave," Yin Yanhua suddenly voiced out.

"Heh, this boy is truly an enigmatic character. No idea which hole in a rock he jumped out from either. Oh, right, speaking of this boy, has their Tranquil Cloud Sect completed their migration already?" Ning Yixian asked Guo Taoqun.

Guo Taoqun nodded and said, "Three days ago, they already gathered in Fallen Rain City. They already sent news before coming here. Everyone from the Tranquil Cloud Sect will be gathering in Spirit Sealing City."

Ning Yixian said with a frown, "Spirit Sealing City? That seems to be the Heavenly Evil Sect's territory, right? What are they going there for?"

"This . . . I don't know," Guo Taoqun shook his head and said.

But at this time, Yin Yanhua's eyes glimmered slightly and voiced out, "The Heavenly Evil Sect is notorious. Burning, killing, raping, pillaging; committing all kinds of atrocities. They just happen to lack a place to settle down. Could it be . . ."

"Not to that extent, right? Although the Heavenly Evil Sect's strength isn't considered much in the Northern Domain, at any rate, they have a Soul Sea Realm expert holding down the fort too. The Tranquil Cloud Sect going to do battle at an opponent's home ground, I think taking down the Heavenly Evil Sect wouldn't be that easy, right?"

"Heh heh, this boy really makes people rather look forward to it! In this Northern Domain land right now, the most eye-catching is most likely this Tranquil Cloud Sect group's movements, right? Since they have this intention, then let's just sit tight and watch. If they really can't, then giving them a hand is good too. That Heavenly Evil Sect, I've long found them an eyesore. If not for the sake of Wu Fang City, I'd have long exterminated them!"

Speaking until the back, Ning Yixian's tone became icy-cold. Evidently, he disliked this Heavenly Evil Sect too.

Hearing these words, Jing Xuan nodded slightly, while Qin Hongtao snorted coldly.

"Taoqun, Yanhua, inform the various Northern Domain's major faction's old ancestors as soon as possible. They are all to hurry to Wu Fang City to meet in half a month! In addition, since the Tranquil Cloud Sect has already moved north, then shut down all the transmission arrays leading to the Southern Domain! Sigh . . . This important juncture . . ." Ning Yixian instructed.

. . . . .

Different from the Southern Domain, the Myriad Sword Sect, Heavenly Martial Sect, and the Profound Ice Sect were not all of the Northern Domain's forces.

These three great sects all had peak Divine Traversing Realm old ancestors holding down the fort. So they were the strongest three great sects.

Apart from this, there were still many forces with late-stage Divine Traversing Realm holding down the fort.

These factions were all the Northern Domain's peak forces!

As for middle-stage Divine Traversing Realm and early-stage Divine Traversing Realm forces, there were many too.

Of course, like the Heavenly Evil Sect, small sects with only a Soul Sea Realm martial artist holding down the fort were as many as oxen hair.

This Heavenly Evil Sect's strength was not strong. But the sect's only Soul Sea Realm expert, Mao Yuanji, cozied up to the number one Alchemy Path faction in the Northern Domain through some means somehow.

Hence, even though this Heavenly Evil Sect's evil doings knew no limits, nobody dared to do anything to them either.

At the Heavenly Evil Sect's main peak, two silhouettes stood in the air.

"Who are you people? Such audacity! To actually dare barge forcefully into my Heavenly Evil Sect's main peak!"

The one talking was a Heavenly Evil Sect elder. But his round of questioning was without any confidence whatsoever.

These two people appeared too suddenly. There was actually not a bit of news which came from the gates.

Furthermore, the Heavenly Evil Sect still had the sect protecting grand array guarding. If enemies came to attack, how could there possibly be no reaction at all?

This elder instinctively sensed that these two people were not easy to deal with!

Ye Yuan stood in the air with his hands behind his back. Lightly sweeping a glance down below, he slowly opened his mouth and said, "From today onwards, this world will no longer have the name 'Heavenly Evil Sect'! This place has been taken over by us!"

"What? What did he say? Taken over? Hahaha! A Sea Transformation Realm brat uttering such wild ravings to take over our Heavenly Evil Sect?"

"He even said to let our Heavenly Evil Sect's name be removed just now! Hahaha! Is this boy soft in the head?"

"Yeah! Our Heavenly Evil Sect is the Wu Fang City's subordinate power. Who dares to provoke us? Heh heh, these years, how many people wanted to take down my Heavenly Evil Sect? Didn't each and every one of them still ended up dusty and dirty in appearance?"

Ye Yuan's words drew a wave of guffawing.

In their viewpoint, Ye Yuan and Luo Qingfeng were here to be a joke.

If two people could wipe out the Heavenly Evil Sect, they would have been exterminated countless times over long ago!

Moreover, these two people, one was First Level Soul Sea, one was Second Level Sea Transformation, which were also equivalent to the Heavenly Evil Sect's Sect Master plus the lowest level elder's strength.

Remove their name?

Being dumb, right?

Right at this time, a black-robed man flew out from the main hall and came before Ye Yuan pair.

"The two of you are guests from far away. But isn't wanting to remove my Heavenly Evil Sect's name right after coming a bit too arrogant?" said the black-robed man coldly.
