

## Medicine God 561

### Unrivaled Medicine God

#### Chapter 561: Perfect Completion!

“What?! Old Hai, you aren’t making a joke, right?”

“Yeah! Old Hai, is there a mistake? The numbers of the demonic beasts in this Vast Heaven Pagoda’s first three levels are extremely terrifying. How can a bunch of Sea Transformation Realm and Soul Sea Realm juniors compete in killing Demonic beasts inside?”

“Medicinal pills can’t be used to replenish essence energy inside the Vast Heaven Pagoda. Even the Three Sects’ head disciples will die from essence energy exhaustion from constantly killing inside the first level.”

Qi Hai’s statement was seriously too subverting; it was completely exceeding everyone’s understanding.

Forget about the third level, just in the first level, it was also impossible for these sect disciples to stay inside for a long time.

If they had that capability, the Three Sects’ disciples would have long slaughtered the first level clean. How could they possibly wait until today?

“*Heh heh*, this old man just stated his view. Why is there a need for you all to approve? As for to believe it or not, it’s naturally up to you all,” Qi Hai said with a cold snicker.

Actually, he himself spent a very long time to digest this news as well. He obviously did not hope to convince these people with a few sentences.

The reason why legends were legends was that it was practically impossible to accomplish.

Hence, once a legend became a reality, it was basically very hard to make ordinary people believe.

Because within the scope of their understanding, it was simply impossible for something like this to happen.

“Old Hai, calm your anger. Old Hai’s meaning is that . . . actually, we got it wrong all along?” Ning Yixian saw Qi Hai flare up and hurriedly voiced out to advise.

Qi Hai nodded and said, “In truth, these things, I came to know of it but naturally I don’t believe it either. With our age, it’s obviously impossible to enter the Vast Heaven Pagoda again to ascertain things for sure. But without a doubt, the average Sea Transformation Realm and Soul Sea Realm absolutely don’t dare to make extra stopovers in the Vast Heaven Pagoda. Once they fall into a tight encirclement, it would basically be the outcome of getting kicked out. The Vast Heaven Pagoda Inheritance’s chance is extremely hard to come by. Nobody dares to make this sort of bet. And martial artists who were able to be the first one to charge into the next level were all the strongest one among them under normal circumstances. The number of demonic beasts killed was naturally the most as well. Hence, the reward they obtained was naturally the most generous. In the course of time, we fell into a misconception and think that the martial artist who enters the next level earlier would obtain more rewards.”

Even though the others did not believe, they were also listening to Qi Hai’s explanation very attentively.

Qi Hai's analysis was very on point. It essentially restored the truth of history to its original state and had immense convincing power too.

While these people present still did not dare believe it, subconsciously, they still felt that Qi Hai's analysis was not wrong.

Ning Yixian's eyes showed deep pondering, and he said, "So, it's actually like this! But what does this have to do with Ye Yuan's name turning golden?"

Qi Hai drew a deep breath and said, "I heard the previous generation Realm Lord said before, legend has it that in this Vast Heaven Pagoda Inheritance, there is a kind of completion rate called . . . Perfect Completion!"

Ning Yixian's pupils constricted slightly as he drew a cold breath and said, "Old Hai's meaning is that . . ."

The others had yet to react, but Ning Yixian's brain spun the fastest. He virtually knew at the first moment what the Perfect Completion Qi Hai was talking about was.

Previously, Qi Hai kept saying that the clearing rewards was related to the completion rate. The so-called completion rate was the number of demonic beasts killed. Then, what Perfect Completion meant did not need to be verbalized any further to understand it!

Qi Hai nodded his head and said, "That's right! If the legends are true, Ye Yuan he must have killed all the demonic beasts in the first three levels and obtained the Perfect Completion's reward. Hence, that's why his name would turn into gold-color!"

"What? Ye Yuan killed off all of the demonic beasts?"

"This . . . Is this what a Sea Transformation Realm can accomplish? The demonic beasts in each level are absolutely not beneath millions in number. Ye Yuan, a Sea Transformation Realm martial artist, how can his essence energy possibly sustain until killing off all the demonic beasts?"

"Yeah! Moreover, all of this have to be achieved within three days! Which is also to say that Ye Yuan must expend essence energy constantly every second! Under the circumstances where he had no medicinal pills to replenish, this is simply something impossible!"

Qi Hai's words made everyone all burst into a discussion.

Not that they did not believe Qi Hai's words, but that his words were too outrageous.

If Ye Yuan had Soul Sea Realm strength now, they would not feel that the so-called Perfect Completion was that impossible either.

But Ye Yuan was only at the Sea Transformation Realm currently!

Especially the third level. Those demonic beasts were only a major boundary lower than Ye Yuan. Numbers in the millions was an exceedingly terrifying force. How could Ye Yuan possibly kill finish alone?

If they knew that what Ye Yuan killed was the extremely hard to tangle with, the Armored Diamond Bulls, it was uncertain what thoughts they would have.

.....

In the inheritance space, a light flashed. Ye Yuan was transported inside.

“Young man, congratulations to you! You’ve become the first martial artist to achieve Perfect Completion in this ten thousand years and will obtain tremendously generous clearing rewards!” The mysterious person’s voice sounded out right away.

At this time, the others had already entered the fourth level. In this inheritance space was just Ye Yuan alone.

“Perfect Completion?” Ye Yuan could not help being stupefied when he heard that.

“That’s right! You annihilated all of the demonic beasts in the first three levels. In the Vast Heaven Pagoda Inheritance, it’s called Perfect Completion!” explained the mysterious person.

Ye Yuan was enlightened. He only killed finish all the demonic beasts because he wanted to collect the nameless energy. To think that a Perfect Completion actually came from stumbling about blindly.

However . . . he was the first one in this ten thousand years?

Speaking of this, the difficulty of this Perfect Completion was really not an ordinary kind of big!

Especially the third level. Those Armored Diamond Bulls were simply powerful until it could be said to be perverse. Even when the Spirit Bristle Divine King was young, he might not be able to clear it either!

“So that’s how it is! May I ask Senior, what the reward of Perfect Completion is? *Uh* . . . cultivation methods and the likes of medicinal pills, forget it,” Ye Yuan said.

The mysterious person was clearly stunned by Ye Yuan’s such insolent and wildly arrogant attitude. The other people clearing three rounds consecutively, which one of them did not overflow with gratitude when seeing these rewards?

Yet, just this punk was actually still so picky!

“Young man, what high-sounding sentiments! Do you know what kind of heaven-defying items the cultivation methods and medicinal pills in this Vast Heaven Pagoda are?” The mysterious person’s words carried a hint of anger.

In fact, the mysterious person truly did not plan on giving Ye Yuan cultivation methods and medicinal pills. But Ye Yuan’s attitude made him very displeased.

However, Ye Yuan paid no attention to his displeasure. He said, “I know. But I’m really not lacking in cultivation methods and medicinal pills. Therefore . . . can it be exchanged for other things? If there seriously isn’t, changing medicinal pills to some precious medicinal herbs works too.”

“Is that so? If I insist on giving you cultivation methods and medicinal pills?” said the mysterious person, somewhat irately.

Ye Yuan shrugged his shoulders and said, “If it’s like this, Senior better keep it for yourself. These two really don’t have much effect on me.”

Ye Yuan could also guess with his eyes closed that even if he achieved Perfect Completion in the first three levels, the cultivation methods and medicinal pills obtained also could not possibly be very heaven-defying items.

At least, it was not possible to be more powerful than his Spirit Bristle Nine Yang Divine Art, and it was also impossible to surpass his alchemy skills.

Since that was the case, why did he need to waste time?

### Unrivaled Medicine God

#### **Chapter 562: Nine's True Word Formula**

A long, long silence . . .

Ye Yuan did not rush that mysterious person. He just waited quietly.

All of a sudden, several beams of light descended from the sky. Three talismans suspended in front of Ye Yuan quietly.

"This is your reward. Three Void Escape Thunderous Explosion Talismans! Each Void Escape Thunderous Explosion Talisman is equivalent to a Peak Divine Traversing Realm martial artist's all-out attack once! Additionally, there is still a martial technique. You open up your sea of consciousness now. The Vast Heaven Pagoda will imprint it into your sea of consciousness. You can slowly comprehend it," said mysterious person after falling silent for a long time.

Seeing those three Void Escape Thunderous Explosion Talismans, Ye Yuan's eyes could not help lighting up.

This was good stuff. If used well, it could even kill a Peak Divine Traversing Realm martial artist!

Such a talisman was absolutely a heaven-defying class treasure in the Endless World.

Ye Yuan's research into talismans was not much. But he also knew that this kind of one-time attack talisman was exceedingly valuable. It was equal to storing an extremely powerful martial technique.

This was undoubtedly an additional major killing tool to the current Ye Yuan!

As long as he did not battle against peak Divine Traversing Realm experts, he could practically do whatever he wanted in the Endless World.

Ye Yuan was not courteous either, off-handedly keeping the three talismans into the spatial spirit artifact.

But what made Ye Yuan even more curious was still this martial technique.

Regarding imprinting in the sea of consciousness this sort of inheritance method, Ye Yuan was naturally not foreign.

Any and all things passed down through this sort of method, the power was all extremely formidable. Furthermore, they were incredibly abstruse and hard to understand. It was because this sort of martial technique could only be understood but not expressed in words. It was simply unable to be inscribed into jade slips.

“Now, you can begin receiving the inheritance!”

Once the mysterious person’s voice faded, a stream of light shot out from the firmament and directly entered into Ye Yuan’s sea of consciousness.

Ye Yuan naturally would not fully open up his sea of consciousness. He shielded the golden characters and the black bead these things using mystic arts.

One could not be without vigilance against others. Ye Yuan did not wish for his secrets to be pried by people.

The light flashed, then faded. Ye Yuan instantly felt that inside his sea of consciousness had additional nine words: Lin, Bing, Dou, Zhe, Jie, Lie, Zhen, Qian, Xing!

“This is the Nine Characters True Word Formula. Each word encompasses the maxim of the Great Dao. You should study it well! This martial technique is not some earth-shaking great skills, but it can develop the potential in the human body to the extreme. It is far from what ordinary martial techniques can be equated to.

The mysterious person seemed to be worried that Ye Yuan did not know about the goods. That was why he talked a whole bunch to explain it.

Ye Yuan’s entire body trembled!

He was an Alchemy Emperor of his generation in his previous life. His understanding of Heavenly Dao was exceedingly profound. How could he not tell that these nine characters contained the maxim of the Great Dao?

With his horizons, he was actually unable to fully understand a single word!

Just as the mysterious person said, this martial technique was not some earth-shaking great skill. But it was even more incredible than those things.

Cultivating them to the peak, he would most probably have the capability of obliterating heaven and earth, even affirming one’s Dao and becoming a deity!

The item rewarded from this Perfect Clear was indeed incomparable from normal rewards.

Ye Yuan knew that this Nine Characters True Word Formula, even when placed in the Divine Realm, would probably stir up a bloody slaughter among martial artists too.

“Thank you very much for Senior’s present! Ye Yuan is endlessly grateful!” Ye Yuan cupped his fists and said gratefully to the void.

Yet, the mysterious person ignored him. The Vast Heaven Stele directly descended from the sky and landed in front of Ye Yuan.

“You cleared the first three levels perfectly. The time for comprehending the Vast Heaven Stele is three times of others, which is also 45 days’ time. Grasp it well!” said the mysterious person coldly, and then no longer made a sound.

Ye Yuan could not help smiling wryly. This mysterious person seemed to be throwing a little tantrum because of his contempt previously and did not want to respond to him.

But Ye Yuan did not think too much either. His attention was very quickly drawn by the Vast Heaven Stele.

The first impression that the Vast Heaven Stele gave Ye Yuan was . . . all-encompassing!

As if this small stone tablet was the crystallization of myriad life on earth.

Ye Yuan's understanding of the Dao was far from what those rookies could compare to. But even he could not discern this Vast Heaven Stele's origin.

"This Vast Heaven Inheritance is truly unbelievably mystical. Could it actually be . . . an item left behind by a Deity Realm powerhouse? Disregarding this Vast Heaven Stele, even the Nine Characters True Word Formula and that nameless energy are top-notch inheritances when placed in the Divine Realm too!" Ye Yuan was incomparably shocked in his heart.

However, he had a feeling that within this Vast Heaven Stele, the most powerful object was none other than this stele before his eyes!

On it was teeming with the aura of the Dao. It was simply a heaven-defying treasure.

Ye Yuan put away his thoughts very quickly and entered Heart Like Still Water heart realm, sinking his divine sense into the Vast Heaven Stele.

45 days' time looked to be a lot, but to contemplate this stele, it's something in the course of a twinkle. Having such a precious opportunity, Ye Yuan did not wish to waste it.

*Bang!*

Instantaneously, Ye Yuan was seemingly placed within a boundless sea of fire. His entire person seemed to be about to combust.

Ye Yuan was dragged into this space right as his consciousness came into contact with the Vast Heaven Stele.

This stretch of space, apart from flames, did not have anything!

"Didn't expect that what I will contemplate in is the Concept of Fire. It's just who knows how much can be comprehended from the visualization this time!" Ye Yuan was also somewhat secretly looking forward to it.

The Concept of Fire was actually the concept that Ye Yuan wanted to comprehend the most. In his previous life and this, he had a baffling affinity with fire.

But yet, he used essence fire to an exceptionally profound realm but did not comprehend any kind of true intent involving fire.

To think that this Vast Heaven Stele was actually this mystical, knowing what he needed, directly bringing him to a flame world.

*It's just that these flames don't seem to be that powerful. How should I comprehend true intent?"*

Ye Yuan suddenly discovered that the surrounding flames were not as powerful as imagined. It could not cause any harm to him at all.

Under such circumstances, how should he comprehend concepts?

*"En? No, wait! The temperature of these flames is slowly rising. If one doesn't pay attention, it won't be detected at all!"*

Ye Yuan suddenly discovered the abnormality and became alert.

The surrounding flames suddenly became violent. Tongues of flames wantonly extended, as if it was going to devour everything!

In an instant, Ye Yuan was engulfed by countless flame tongues, burning him to ashes fully.

Coming back to his senses again, Ye Yuan was actually standing there perfectly well again, as if the same as when he just came in!

The neither warm nor violent flames were currently blazing as if it was completely harmless to man and beast. But all of a sudden, the flames erupted abruptly, leaping up once more!

*"Is this wanting to burn me to death countless times to let me experience the flames' Scorching True Intent personally? Heh heh, indeed a fine method! This Vast Heaven Stele is indeed mystical!"* Ye Yuan said with an emotional sigh.

That taste of being burned to death, Ye Yuan felt like he had experienced it in person. If he did not wish to be burned to death, then he had to comprehend the Scorching True Intent as soon as possible to be able to be spared from the torture of being immolated.

Fortunately, although it was the consciousness which entered into the space inside the Vast Heaven Stele, Heart Like Still Water heart realm could still be used.

Ye Yuan was not careless either, directly entering into the state of Heart Like Still Water Realm and started comprehending the Concept of Scorching Flames!

### Unrivaled Medicine God

#### **Chapter 563: Flame Movement Carnage!**

*"This is already Ye Yuan's third day inside this inheritance space, right? The reward of this Perfect Clear is truly incomparably bountiful!"*

*"Yeah. The quintessence of this Vast Heaven Pagoda is the Vast Heaven Stele's comprehension. Ye Yuan obtained Perfect Clear. The time is actually three times of others! I really don't know what level Ye Yuan will reach after coming out from the Vast Heaven Pagoda!"*

*"The inheritance space's time flow rate is 15 times slower compared to the outside world. Which is also to say that Ye Yuan has 45 days' time to go and comprehend the Vast Heaven Stele! With his talent, I really don't know to what degree he can comprehend to!"*

Seeing that gilded name on the light projection, the audience all felt envious.

To the vast majority of martial artists, the Vast Heaven Pagoda Inheritance only had the opportunity to comprehend the Vast Heaven Stele once. It was because they simply could not make it past the sixth level.

Which was also to say that how much could be comprehended after clearing the third level would be up to the martial artist's own comprehension abilities.

The time was only 15 days. Some people would be able to rely on this opportunity to soar to the heavens in one move, while others still remain lost in the masses.

But without any doubt, to be able to obtain the chance to contemplate the Vast Heaven Stele, one would at least be a notable figure in a region!

"City Lord Ren, congratulations! Your grandson is actually able to achieve the Perfect Completion in the legends. His gains this time is bound to be unbelievably startling. Wu Fang City's position, nobody in the entire Endless World can replace it!" Ning Yixian went forward to congratulate.

"*Haha*, not at all, not at all! This boy's temper is stubborn as hell. This old man can't tame him at all. I only hope that he doesn't add more problems for me!"

Although Ren Xingchun kept only grumbling in his words, the expression on his face betrayed him. Anyone also knew the delight in his heart right now.

As it went, when one man attained the Dao, his fowls and dogs ascended to heaven too. It was roughly this meaning.

At this point, nobody suspected Qi Hai's words anymore.

The reward of this Perfect Completion was absolutely incomparably lavish!

Otherwise, how could Ye Yuan possibly stop for three day's time in the inheritance space?

The momentum of Wu Fang City's rise was already unstoppable. In the future, it might even overpower the Three Sects.

Therefore, starting from just now, there were many people going forward to congratulate to express goodwill to Ren Xingchun, so as to establish a relationship with Wu Fang City.

But toward this situation, the Three Sects' old ancestors did not seem to have any displeasure.

In truth, when they knew that Ye Yuan was Ren Xingchun's grandson, the Three Sects knew that Wu Fang City was likely about to become the Endless World's most special existence already.

It was just that they did not expect that this day would actually arrive so quickly.

If there weren't the Fierce Gale World's invasion, these three sects would surely think of ways to suppress Ye Yuan and not let Wu Fang City rise up.

But being forced by the current situation, internal strife would only let the Endless World fall apart to pieces. The Three Sects' old ancestors naturally did not dare to make a move without careful consideration. They were even the same as other people, going to build a connection with Ren Xingchun as well.

In truth, everyone had a score in their hearts. If the Endless World were able to beat back the Fierce Gale World by luck this time, the Northern Domain's topographical arrangements would undergo titanic changes too.

.....

Within the Vast Heaven Stele's consciousness space, Ye Yuan was already the embodiment of a flame person at this time.

Over 30 days had already passed from the very first time being 'burnt to death.' And in these 30 plus days, he already 'died' several hundred times.

From the earlier survival of just at most few breaths of time, now he could already persevere for an entire day!

The surrounding flame temperature was unbelievably high. If one did not know the Scorching True Intent, one would simply not be able to make it through very long.

And the Scorching True Intent was also an extremely profound and powerful true intent. It was even harder to comprehend than Ye Yuan's own Falling Flower Floating Zero Sword Intent.

For ordinary martial artists, even for martial artists that cultivated fire-attribute cultivation methods, wanting to comprehend the Scorching True Intent was exceedingly difficult too.

And the supreme true intent that evolved from the Scorching True Intent was even more absurdly daunting.

This supreme true intent was also one of the Spirit Bristle Divine King's greatest reliance to roam the Divine Realm unhindered. It could be seen how hard this true intent was to comprehend.

If Ye Yuan could comprehend the Scorching Supreme True Intent, its power would be much more daunting compared to the Azure Dipper Floating Zero Sword!

This was also one of the reasons why Ye Yuan was so interested in the Scorching True Intent.

Another reason was naturally that he liked to play with fire inherently.

As an alchemist, he naturally sowed inseparable destiny with fire.

But an alchemist's fire control and comprehending true intent were two entirely different concepts.

Controlling fire was the manipulation of essence fire. As long as one had the corresponding seals, it would do.

But comprehending true intent required understanding the original source of flames. What one comprehended was the Great Dao maxim of the fire element.

Although fire control was also an extremely profound study to alchemists, compared to comprehending concepts, the degree of difficulty was still a little lower.

If not like so, Ye Yuan would also not possibly have not comprehended Scorching True Intent until now.

But within this Vast Heaven Stele's consciousness space, Ye Yuan finally found the turning point for comprehension!

Experiencing over 30 days of tempering, Ye Yuan finally fumbled out some knack to it.

"Looks like this fire control and the True Intent of Fire are completely two extremes! The art of fire control is to produce a resonance with the essence energy within the body and essence fire, and from there, drive the essence energy for one's own use. While the True Intent of Fire is to convert essence energy into the most fundamental form of fire to immolate the opponent with an exceptionally terrifying temperature! No wonder I couldn't find the entrance threshold of the Scorching True Intent all this while. Looks like it was alchemist this occupation which misdirected me! If not for contemplating the Vast Heaven Stele this time, I'm afraid that I would still have to wander around inside this mistaken area for a long time! But looking at it now, 45 days should be enough!" Ye Yuan said with a vicissitude of emotion.

Ye Yuan being 'burnt to death' so many times was naturally also not dying for naught.

Gradually, he touched upon some Scorching True Intent's tricks as well and started to maneuver the essence energy within the body to simulate the Concept of Scorching Heat.

"*Argh!*" Ye Yuan gave a miserable cry and was burnt to death by the flames once more.

Very quickly, he obtained new life again and endured the broiling of this limitless flames once more.

For so many days, Ye Yuan's path of comprehension was not that simple. He went through a torment that the average person could not imagine!

Even though this immolation would not really cause death, that kind of anguish made people go insane.

This method of comprehension was for the sake of letting the martial artist clearly sense the Scorching True Intent with every inch of their flesh and skin. That kind of torment was even harder to bear.

Furthermore, this kind of agony became clearer along with the true intent Ye Yuan comprehended becoming increasingly profound.

Because in pace with the survival time extending, this agony was magnified limitlessly.

If it were a normal person, they would long have been unable to bear it. They would withdraw out of this consciousness space themselves.

Yet, Ye Yuan did not ease up for even a moment, repeating this process of revival after death, and dying again after living, for hundreds of times!

On the 45th day, Ye Yuan who had been standing still freely allowing the flames to burn finally had some movement!

It was only to see him tightly clenching both fists, bending his body slightly, then abruptly blasting both fists out, akin to a flood dragon heading out to sea!

"Flame Movement Carnage!"

Ye Yuan gave a light cry. All of a sudden, the entire consciousness space trembled. The flames which originally filled the entire consciousness space actually scattered and disappeared into nothingness under Ye Yuan's one punch!

### Unrivalled Medicine God

#### **Chapter 564: Illusionary Spirits Killing Array!**

Inside the inheritance space, the corners of Ye Yuan's mouth curled slightly. His consciousness had already withdrawn out of the Vast Heaven Stele.

It could be discerned from Ye Yuan's expression that he was still pretty satisfied with the power of that one punch earlier.

"My sword moves are mostly long-distance attacks. Close-combat has always been the weakest link. But with the Flame Movement Carnage, my close-combat abilities now are rather impressive as well! This Vast Heaven Stele is indeed mystical, to actually be able to let people comprehend true intent with this kind of method. Truly remarkable!" Ye Yuan muttered to himself.

Ye Yuan comprehended the Scorching True Intent and created this Flame Movement Carnage move in these 45 days. This was what he completely did not expect before this.

Ye Yuan had close ties with the Spirit Bristle Divine King in his previous life and had a clear understanding of both the Scorching True Intent's comprehension difficulty and power.

Therefore, prior to this, Ye Yuan actually did not have confidence in comprehending true intent at all.

It was just that he did not expect that this consciousness space was very mystical, to actually be able to let people comprehend concepts through such a method of experiencing true intent personally.

This Flame Movement Carnage was a martial technique that Ye Yuan created himself. He formed his own style.

In terms of power, this move, apart from Myriad Rain Sword Blades, was already not weaker than his other martial techniques!

Listening to it did not seem to be anything impressive, but one had to know that this move was still a move released with the Scorching True Intent.

Once Ye Yuan made further progress and comprehended the Scorching Supreme True Intent, how terrifying would the power of his moves be?!

Although this move was not as outrageous as the Wind-Fire Violent Blaze Transforming Dragon, the power could not be underestimated either. More importantly, this move compensated for Ye Yuan's close-combat weak point, making his combat abilities even more comprehensive!

Flame Movement Carnage this move was executed by converting the essence energy into Scorching True Intent and storing it in the fist. Once it landed on the other party, it could pour in the extremely scorching energy into the other party's body, causing tremendous damage from there!

With Ye Yuan's bizarre and agile movement technique, coupling it with the Flame Movement Carnage was absolutely formidable to the extreme!

Furthermore, the area-of-effect of this move is extremely small, so the essence energy expended was very little. Ye Yuan's control over essence energy was extremely precise in the first place. Using this move could entirely be sustained for a very long time.

If he had comprehended this move before this, the first three levels would not need to be so taxing at all.

"It's time to go to the fourth level!"

Three days was almost already up. Ye Yuan had comprehended the Scorching True Intent too. He obviously would not stay here on top of that.

All of a sudden, the inheritance space trembled abruptly. A vortex suddenly appeared behind Ye Yuan.

Ye Yuan was sucked into the vortex without the slightest precaution.

"This brat, to actually dare look down on this venerated self. Serves you right to suffer some hardship!" at this time, within a nameless space, a faint black shadow said with a cold snort.

Hearing the voice, who could it be but that mysterious person?

Looks like he was still very displeased with Ye Yuan's haughty attitude!

"However . . . this boy actually comprehended the Scorching True Intent within such a short time. Truly staggering talent! His talent is not at all inferior to Master's!" muttered the mysterious person to himself again.

The mysterious person also did not expect that Ye Yuan actually directly visualized out the Scorching True Intent.

In the beginning, he still felt that Ye Yuan was reaching too far beyond his grasp. After all, this Scorching True Intent was famed for being hard to comprehend.

Even for some normal true intent, comprehending them requires more than ten years as well. And this standard was still applicable to Qin Yan, Guo Taoqun, their level of geniuses.

To ordinary martial artists, they would not be able to comprehend even an extremely simple true intent for all their lives.

To ordinary people, true intent was a height that they would be unable to reach for all their lives.

The Scorching True Intent was an extremely high-end existence among true intents. Even if one's talent was startling, comprehension time was also calculated in units of decades.

Unless one's talent was heaven-defying until the mysterious person's master's height, otherwise, it was absolutely reaching beyond one's grasp.

Even though the mysterious person was very pleased with Ye Yuan's performance in the first three rounds, he was still not optimistic about Ye Yuan being able to fully comprehend the Scorching True Intent within a short 45 days!

Yet, Ye Yuan's performance made him wide-eyed and dumbfounded with shock!

Right at the beginning, Ye Yuan was burnt to death by the flames very quickly. The mysterious person was still secretly taking delight in his misfortune by the side.

But a few days later, he could not laugh anymore.

Ye Yuan's improvement speed was too rapid!

From several breaths to several dozen breaths. Then to 15 minutes, an hour, two hours. Ye Yuan's improvement speed practically climbed vertically!

Over a dozen days later, the mysterious person was long already staring woodenly with his jaw slack.

At the rate of this improvement speed, maybe Ye Yuan could really comprehend the Scorching True Intent within 45 days!

When Ye Yuan's Flame Movement Carnage was executed, the mysterious person almost jumped up.

Ye Yuan really did it!

He completely comprehended the Scorching True Intent!

Within 45 days, from being instantly killed to fully comprehending the Scorching True Intent; just how heaven-defying a talent did this require?!

How could there be such a freak in this world?

"*Heh*, this brat is really interesting! I increased a bit of difficulty for him previously in the third level. To think that he still finished perfectly. Now, he even fully comprehended the Scorching True Intent during the first reward. Truly remarkable! Looks like he really cares not for cultivation methods and medicinal pills. This brat's soul force isn't weak. Could he be an alchemist still? If that's true, then this boy will really be heaven-defying! This venerable has guarded here for countless years. Finally, I encountered an interesting youth! In these countless years, this is still the first time that I'm so looking forward to a youth!" said the mysterious person to himself.

.....

"*Ouch!*"

Ye Yuan gave a miserable cry, landing heavily onto the ground.

"This fellow is actually so petty! I merely just didn't want his cultivation methods and medicinal pills, and he actually restrained my essence energy, directly throwing me into the fourth level!" Ye Yuan rubbed his buttocks and stood up.

Right away, Ye Yuan guessed that it was the mysterious person playing tricks.

But this fall was really heavy. Even with Ye Yuan's physique, he cried out in pain too.

However, after entering the fourth level, Ye Yuan's essence energy was already recovered. Slightly circulating essence energy a bit, the pain instantly disappeared.

"*En?* The fifth level's entrance is actually right there? What the hell is with this fourth level? Why isn't there anything at all? Could it be that that mysterious person saw that this Young Master is

incomparably talented and that the fourth level couldn't stump me, so he directly guaranteed me to enter the fifth level?" Ye Yuan guessed very cockily.

This fourth level was greatly different from the first three levels. It could be seen through at a glance. The fifth level's entrance was not far ahead. Ye Yuan could go over with a few leaps.

Furthermore, this fourth level's layout was different from before. It seemed to be an illusionary space. The surrounding was void of anything.

"Who cares. Head over first before talking!"

As he said, Ye Yuan opened up his footsteps and directly walked over towards the fifth level's entrance.

Yet, he had just walked for not very far when all of a sudden, several dozen phantoms descended from the sky, encircling Ye Yuan in the center.

"Illusionary Spirits Killing Array, activate now!" said one of the phantoms faintly.

### [Unrivaled Medicine God](#)

#### **Chapter 565: Cracking the Formation with Migh**

Seeing those phantoms, Ye Yuan could not help turning solemn.

"Illusionary spirit bodies!"

That middle-aged man at the helm was stunned hearing that as well and said rather surprisedly, "Young man, you actually know about the illusionary spirit body. Indeed, you have some knowledge and experience. No wonder you could perfectly clear the first three level."

The so-called illusionary spirit body was created by refining the divine soul spiritual body with an extremely special method into a virtually undying, imperishable state.

This sort of illusionary spirit body was exceedingly hard to tangle with. Because they were very difficult to kill.

Even when blasting them into dregs, they could still restore their original appearance very quickly.

Unless the martial artist's realm was much higher than the illusionary spirit body's and used a mighty arcane ability to utterly annihilate them, that was how one could kill them.

Ye Yuan had very in-depth research into the divine soul before and saw through at one glance that these people were illusionary spirit bodies.

"Uh . . . Senior, you actually have your own consciousness!"

Hearing this middle-aged man actually speak to him, Ye Yuan was stunned as well.

As far as he knew, illusionary spirit bodies generally had their consciousness wiped by others, becoming an unfeeling killing machine.

Yet, these people in front of him had intelligent eyes. Clearly, they had their own consciousness. This unwittingly made Ye Yuan greatly surprised.

“Looks like you know quite a bit! Relax, we were refined to become illusionary spirit bodies out of our own accords and at the same time preserving our own consciousness,” said the middle-aged man.

“Willingly?” Ye Yuan could not help being amazed.

The process of refining an illusionary spirit body was exceedingly tortuous. Even for the divine soul spirit body, that anguish could also overwhelm people until they wished for death.

Moreover, to refine an illusionary spirit body, one must kill the other party in front of them, and extract the soul to undergo refinement. The method was exceptionally cruel.

It was precisely because of so that this sort of method was classified as a forbidden art in the Divine Realm. Once it was discovered that somebody refined an illusionary spirit body, they would be rallied upon and attacked together.

These illusionary spirit bodies before his eyes were all actually refined out of their own free will. This truly gave Ye Yuan a surprise.

“That’s right! We received the Vast Heaven Pagoda’s owner’s great grace while we were still living. But because of an accident, all of us fell. The Vast Heaven Pagoda’s owner made it at the last moment and killed the adversary. That’s how we were spared from the outcome of our souls dissipating.” The middle-aged man seemed to be very spirited and actually chatted with Ye Yuan.

Ye Yuan only came to a realization after hearing it. But he said doubtfully again, “With the Vast Heaven Pagoda owner’s means, even if he couldn’t revive you guys, finding a couple of bodies to let you all take possession to revive should still be achievable, right?”

The middle-aged man laughed and said, “Certainly! It’s just that we weren’t willing, that’s all. Back then, the Vast Heaven Pagoda’s owner gave us two options. One was to let us take possession and revive. The other was to become this Vast Heaven Pagoda’s guardian spirits. The few of us discussed it and finally still decided to become the guardian spirits!”

Ye Yuan nodded slightly. Since these people were willing, then he was naturally disinclined to poke a finger into other people’s affairs as well.

“Senior, just what kind of person is this Vast Heaven Pagoda’s owner?” Ye Yuan could not hold back the puzzlement in his heart, and he inquired.

“I can’t talk about this. If you have an affinity with this Vast Heaven Pagoda, you’ll naturally know in the future,” said the middle-aged man.

Looking at the middle-aged man’s appearance, Ye Yuan knew that he could not inquire anything either. He clasped his hands and said, “Make a move then, Senior.”

The middle-aged man looked at Ye Yuan and said smilingly, “Even though I find you, this brat, rather pleasing to the eye, we won’t pull our punches!”

“Senior just feel free to take action will do!” Ye Yuan did not care a whit.

These illusionary spirit bodies before his eyes were clearly not just Sea Transformation Realm strength. But they suppressed their realms at the middle-stage Sea Transformation without exception, matching theirs with Ye Yuan's realm.

The power of the array was released, and Ye Yuan sensed a pressure blotting out the heaven and earth approaching.

With Ye Yuan's knowledge and experience, he could naturally discern that these illusionary spirit bodies formed a set of array formation!

Furthermore, this set of array formation, Ye Yuan actually had not seen before!

But using his butt to think, even he could also figure out that the power of this array formation was bound to be extraordinary.

"Young man, take this!"

A cold light flashed. Countless streaks of sword light assailed towards Ye Yuan.

With this attack, Ye Yuan knew that the difficulty of this round rose more than just a tiny bit compared to the first three levels.

Even though it was much lesser in numbers, in terms of quality, it was more than a level stronger.

Although the first three levels were challenging, that was only in terms of demonic beasts numbers. On a small-scale, it simply had no way of stopping Liu Hong and Qin Yan these people.

But wanting to charge out of the formation in this fourth round, without some capabilities, one probably could not pass it.

However, Ye Yuan's current goal was not just to make it through, but it was to thoroughly crack the array formation, even going as far as to kill all of these illusionary spirit bodies!

Having tasted the benefits of Perfect Clear, Ye Yuan was naturally unresigned to just simply succeed in clearing the round.

The fourth, fifth, and sixth level, these three levels, he wanted to perfectly clear them too!

The allure of the Vast Heaven Stele was seriously too great!

"*Heh heh*, just comprehended the Flame Movement Carnage. Perfect for trying it this time!" Ye Yuan chuckled lightly, his figure instantly becoming strange.

*Bang! Bang! Bang!*

Ye Yuan unleashed three punches in succession, directly scattering aside all of the sword shadows!

"Scorching True Intent! Fine lad!" The middle-aged man's shock was by no means small.

This array formation of theirs killing middle-stage Sea Transformations was no different from pinching an ant to death. But now, it actually could not form an effective attack in front of Ye Yuan!

Ye Yuan just relied on the Flame Movement Carnage and actually utterly suppressed all of them!

This involuntarily made the middle-aged man feel very aggrieved. This fourth level's mission was to make them suppress their boundaries to the same level as the challenger. They were simply unable to unleash the strength that they should have.

Initially, with their Martial Path cultivation and coupled with this set of array formation, suppressing opponents at the same realm was simply like playing around.

But he never could have expected that Ye Yuan's true combat strength far surpassed his own realm. Moreover, Flame Movement Carnage this move was extremely powerful. It was simply unrivaled in front of those at the same realm!

If not for their Martial Path experience being very abundant, that strike just now would already have let Ye Yuan directly crack the array formation.

With the middle-aged man's visual prowess, he could obviously tell that with their present strength, they were simply incapable of stopping Ye Yuan from entering the next level.

Right at this time, a voice sounded by the middle-aged man's ear, "Kuai Liang, raise the threshold to the late-stage Sea Transformation!"

Kuai Liang's eyes lit up, and his face could not help showing an amused look.

This voice came from none other than precisely that mysterious person.

"Okay!"

Very clearly, the others received the same order too.

In an instant, these people's auras skyrocketed, instantly breaking through the middle-stage Sea Transformation, and rising to the late-stage Sea Transformation!

When Ye Yuan saw this scene, he could not refrain from saying disdainfully, "Senior, can you all still be like this when guarding the pass? Isn't it too shameless?"

Kuai Liang chortled with laughter and said, "Young man, we can't be blamed for this. Want to blame, blame for yourself for being too monstrous! Come on!"

Ye Yuan grinned and said with a laugh, "Senior is thinking too much. Do you think that by advancing to late-stage Sea Transformation, you can stop me from cracking the formation? Are you ready? I'm coming!"

Kuai Liang's smile froze abruptly on his face.

"Quick! Combine attacks and kill this boy!"

This blow of Ye Yuan's carried tremendous power. The might of one punch actually made even him feel somewhat of a shudder!

*Bang!*

Just one punch shattered the grand array which Kuai Liang presided over into smithereens!

## Unrivaled Medicine God

### **Chapter 566: Fifth Level**

The might of that fist was dreadfully powerful!

In the past, when Ye Yuan encountered array formations, he would think of cracking them first.

But this time, he did not!

In order to test out the power of the Flame Movement Carnage, he threw a punch over crudely just like this!

This punch collided head-on with Kuai Liang without the slightest bit of gaudiness.

The result was Ye Yuan's complete victory!

One had to know that behind Kuai Liang there was the support of an array formation. What Ye Yuan faced was not him alone, but it was the entire array formation.

Yet, this punch directly blasted everyone flying!

"Apologies for offending, Senior. This Ye wants to clear the round perfectly and have no choice but to kill you all!"

As he said, Ye Yuan's figure moved, and a punch rumbled towards Kuai Liang once more.

"Fine lad! I'll wait for you at the next level!"

At this time, the grand array was simply unable to finish forming. The late-stage Sea Transformation Kuai Liang when facing Ye Yuan only had the chance to close his eyes and await death.

"Okay. Let's meet at the fifth level!"

Ye Yuan said verbally, but his attack was not careless at all, directly blasting Kuai Liang into residue with a punch.

Regarding the other people, Ye Yuan followed suit as well, disposing them one by one.

Without the combined power of the array formation, these late-stage Sea Transformation illusory spirits simply could not cause any threat to Ye Yuan.

After these illusory spirits were killed by Ye Yuan, they did not appear again. They vanished.

Since Kuai Liang said to meet again in the next level, it naturally showed that the next level was even harder and that he would not appear again.

Ye Yuan did not hesitate either and directly entered the fifth level from the passageway.

.....

"Quickly look! Ye Yuan entered the fifth level! Why is it so quick?"

"Hiss . . . He spent three days in all the first three levels before making it through. But in this fourth level, he actually didn't even use 15 minutes? Isn't this too exaggerated?"

“Right now in the fifth level, there’s only Liu Hong the four of them. They stayed in the fourth level for quite a few days. Ye Yuan he . . . actually passed through instantly!”

Ye Yuan’s name only stopped in the fourth level for a very short time before directly showing up in the fifth level. This gave everyone a huge shock.

About Ye Yuan being able to clear the fourth level, these people already did not have objections long ago. But nobody could have expected that Ye Yuan’s clearing speed would actually be so swift.

“What’s this boy . . . playing at again?” Ren Xingchun said somewhat perplexedly.

“*Huhu*, if my conjectures are right, Ye Yuan might have reaped considerable gains in the inheritance space, and his strength had a very great improvement. Hence, his clearing speed is this quick,” Qi Hai said.

“I think so too. But doesn’t this boy want to clear the round perfectly anymore?” Ren Xingchun said.

“How can Perfect Completion be that easy? After the fourth level, the difficulty will get increasingly greater. Wanting to clear the round perfectly is practically impossible. Looking from Ye Yuan’s performance previously, him clearing perfectly in the first three levels was probably very strenuous as well. Or else, he would not have passed through right on the time limit each time either. Now, he definitely knows that he’s incapable of clearing perfectly. Hence, that’s why he would choose to charge through directly,” Qi Hai said.

Ren Xingchun nodded his head and rather approved of this notion as well.

It was true that Ye Yuan was impressive. But to let him perfectly cleared another three rounds again, that was virtually something impossible.

This fourth round already had close to a hundred years since someone passed it. The level of difficulty could be imagined.

Even if Ye Yuan’s strength stood head and shoulders above others, if he wanted to clear the rounds perfectly again like before, the likelihood was not big.

And truthfully, wanting to clear Kuai Liang this round was not something that easy.

If Ye Yuan did not glean tremendous harvests in the first three levels and in the inheritance space, it was also impossible for him to want to pass through this round so effortlessly.

Perhaps, he would have to employ the Myriad Rain Sword Blades.

But with Ye Yuan’s present control over the Myriad Rain Sword Blades, unless he made use of the nameless essence energy, otherwise, Kuai Liang would not give him the time to execute the skill.

. . . . .

In the fifth level, light flashed at the entrance area. Ye Yuan’s silhouette appeared.

Not far away, three people were currently looking at the Liu Hong within the array formation with ghostly pale expressions.

Within the array formation, Liu Hong was teetering on his feet. How was there still any hint of the demeanor of an expert?

"He's about to die," Ye Yuan judged the outcome indifferently.

Qin Yan trio watched too nervously, so they did not notice Ye Yuan's appearance at all.

With Ye Yuan talking, the three of them were startled awake abruptly.

Turning around to look, Guo Taoqun said in astonishment, "Ye Yuan! You actually really made it here!"

The three of them were still unaware of the matter of Ye Yuan clearing the rounds perfectly. Although they heard the mysterious person said that Ye Yuan was different from them, but specifically in what way, they did not know.

Seeing Ye Yuan at this time, Guo Taoqun blurted it out right away.

Ye Yuan laughed in spite of himself and said, "You guys all made it over. Can't I make it through?"

Guo Taoqun was stunned, then he said with a forced smile, "Makes sense. It's just, why were you so slow? With your strength, you should have entered even earlier than us!"

Ye Yuan just smiled and did not answer, but looked at Liu Hong and said rather surprisedly, "Who is this person? To actually be able to make it here with you all?"

Qin Yan said with a disdainful look, "He's called Liu Hong. A very cocky fellow! He kept on posturing in front of us and actually even wanted to clear the fifth level. You look . . . He can't hold on anymore, right?"

Even though Qin Yan was very displeased with this Liu Hong, his strength was not the ordinary kind of strong!

During the fourth level, Liu Hong finally revealed his true strength, and he was again the first one to charge into the fifth level!

And Liu Hong's battle finally made Qin Yan trio realize that this boy's strength was indeed above theirs!

Now, Liu Hong had already fought for a day and night inside this array formation!

To be able to persevere in the fifth level until now, it could be seen that this Liu Hong's strength was rather uncommon.

"En? How many days has it just been? You're actually already Fourth Level Sea Transformation, almost Fifth Level Sea Transformation?" Qin Yan said in amazement.

Although just a few days had passed in reality, Ye Yuan already stayed for 45 days inside the inheritance space.

Experiencing this period of accumulation, Ye Yuan was only a step away from the Fifth Level Sea Transformation.

"Huhu, I had some gains in the first few levels, that's how I was lucky to break through. That Liu Hong almost can't hold on anymore. At most five moves, he's dead for sure," Ye Yuan said indifferently.

The three people being led by Ye Yuan like this, unconsciously looked towards Liu Hong.

Once five moves passed, Liu Hong was indeed stabbed by a sword with a moment of carelessness.

Following that, he was very quickly killed by a flurry of swords.

Afterward, Liu Hong's body disappeared just like this and was transported out of the Vast Heaven Pagoda.

"Alright. You guys came first. I won't snatch with you guys. You all discuss for a bit who goes first then," Ye Yuan said faintly.

Qin Yan and Guo Taoqun exchanged glances, both having some fear.

These people were too strong. They made no pretense to be stronger than Liu Hong and simply could not make it through at all.

Including Yin Yanhua, they all did not move after hearing Ye Yuan's words.

Ye Yuan gave them a glance and said smilingly, "Since you all are declining so modestly, then I won't be courteous."

Finished talking, Ye Yuan leaped and directly stepped into the array formation.

### Unrivaled Medicine God

#### **Chapter 567: Really Different!**

Liu Hong was transported out just like this. But he did not feel dejected at all.

During the Vast Heaven Pagoda trip this time, he felt that he perfectly accomplished the objectives he targeted and would definitely make the Three sects gave him a sidelong glance.

He would surely receive the Three Sects' attention this time and become an immensely popular figure!

Yet, when he arrived at the Vast Heaven Pagoda's main entrance, he discovered that there was not a single person paying attention to him.

Everyone was staring at the light screen, as if they could make out what was happening inside from those scanty few remaining names on it.

*Weird. I already came out. What are they still looking at? No matter how impressive those Three Sects' head disciples are, they can't possibly last longer than me in the fifth level either!* Liu Hong thought perplexedly to himself.

Liu Hong was very curious. Him being transported out, everyone should already be aware of it. But why was there not a single person paying attention to him?

According to what he had in mind previously, he should already be encircled by the various major sects now, and he would be warmly invited to join the Endless Alliance by Ning Yixian they all.

But everything happening before his eyes was too different from what he predicted previously.

Not a single person seemed to pay attention to his appearance. Everyone's attention was still on the Vast Heaven Pagoda Inheritance.

As for what the mysterious person said before, Ye Yuan being different from them these words, Liu Hong had flung it to the back of his mind long ago.

He did not feel that there was anybody who could obtain even more dazzling results than him in the Vast Heaven Pagoda Inheritance this time!

His, Liu Hong's, opponents, were only the Three Sects' head disciples!

But what kind of situation was this right now?

Unable to hold back the puzzlement in his heart, Liu Hong grabbed an itinerant cultivator disciple who was kicked out by the Vast Heaven Pagoda long ago.

"This Vast Heaven Pagoda Inheritance is also about to end soon, right? What are they still looking at?" Liu Hong inquired.

That person turned back to take a look. Seeing that it was Liu Hong, he was a little agitated.

The Vast Heaven Pagoda Inheritance this time, Liu Hong had indeed achieved very dazzling results. And his itinerant cultivator identity also made him be idolized by many itinerant cultivators.

"Turns out it's Senior Apprentice Brother Liu. You're already out! Senior Apprentice Brother Liu shocked everyone with one move! Truly the role model of my generation's itinerant cultivators!"

Being buttered up by this person, Liu Hong instantly found a sense of existence. Holding back the wild elation in his heart, he feigned indifference and said, "Not at all, not at all. We all came from itinerant cultivators background and should naturally advance and withdraw together."

That person had a pleasantly surprised look when he heard. Even though he was selected to enter this Vast Heaven Pagoda Inheritance too, compared to Liu Hong, it was undoubtedly one in the heaven, the other on the ground. To be able to establish such a relationship, it was very useful to him in the future as well.

After all, everybody was about to all join the Endless Alliance. With Liu Hong's strength, he was bound to be able to receive an important post.

"Senior Apprentice Brother Liu is indeed modest, with the demeanor of a major sect's disciple! After the Vast Heaven Pagoda Inheritance this time, Senior Apprentice Brother Liu is most likely the younger generation's number two person already. Truly remarkable!" That itinerant cultivator sighed with admiration.

These words of his were originally flattery, but to Liu Hong, it sounded very grating on the ears.

He was clearly the number one person, alright? Why was he the number two person?

Could it be that among those three people, there was still somebody who could break through the fifth level?

"Oh, right, why is everybody still staring at the Vast Heaven Pagoda? If barring no accidents, the inheritance this time should be ending latest by tomorrow, right? Everybody should be preparing to leave," said Liu Hong, pressed down the unhappiness within.

"Uh, ending? It's still early, right? You look at that light screen. On it has a scalding gold name! That person is incredible! Those old ancestors all don't dare to blink their eyes right now, fearful of missing this historical moment!" The person clicked his tongue in admiration.

Liu Hong followed the direction he pointed at and looked over. Indeed, he saw that there was a gilded name in the fifth level. It was precisely Ye Yuan.

This astonishment was not small. Apart from himself and the Three Sects' head disciples, there was actually still somebody who made it into the fifth level?

How was this possible?

He was trapped inside the Illusionary Spirits Killing Array previously and did not notice that Ye Yuan had already entered the fifth level at all.

"What special meaning does this gilded name have?" Liu Hong frowned and asked.

"It naturally has special meaning! That gilded name represents perfectly completing the first three levels! Oh, Perfect Completion means killing all of the demonic beasts in the first three levels!"

That person was scared that Liu Hong did not know what Perfect Completion meant and even specially explained it to him.

"What? Killing all of them? How is that possible?" Liu Hong almost leaped up.

This shout of his immediately attracted many gazes to look at him.

Yet, not a single one of those old ancestors turn around; their gazes still staring fixedly at the light screen.

The itinerant cultivator saw Liu Hong's eyeballs pop out and could not help saying with a smile, "Actually, when I heard those old ancestors say this, my reaction was the same as Senior Apprentice Brother Liu's. But looking at it now, that Ye Yuan should have really done it. Because the time he stayed in the inheritance space was three times compared to you guys!"

Liu Hong drew a cold breath. This news was seriously too staggering to him.

All of a sudden, he recalled the words said by that mysterious person inside the inheritance space, and could not help quivering.

"He's different from you guys!"

Turns out that he was really different!

Liu Hong did not know where this Ye Yuan popped out from, to actually crush him until he had not a single patch of skin unscathed!

His gaze was also glued tightly on that gilded name on the light screen and was speechless for a long time.

.....

“Hey, do you guys think that Ye Yuan can pass through this round or not?” Guo Taoqun asked the other two.

Yin Yanhua said icily, “I’ve never doubted Ye Yuan being able to clear the fifth round before!”

Qin Yan said, “Ye Yuan has clearly experienced some things that we don’t know about down below. Otherwise, how can his realm possibly rise so quickly? When he was at the First Level Sea Transformation, he already killed a Soul Sea Realm expert. Now that he broke through to the peak Fourth Level Sea Transformation, his strength is truly hard to gauge already.”

“En? That’s odd! Doesn’t these spirit bodies match according to the level of the martial artist that enters?” Guo Taoqun suddenly said.

The two people’s expression changed when they heard that and also discovered what was amiss.

Previously when these illusionary spirits killed Liu Hong, they were First Level Soul Sea boundary.

Now that Ye Yuan entered the array formation, they actually did not suppress their boundary, but maintained First Level Soul Sea Realm!

“Hiss . . . Could it be that these illusionary bodies want to battle with Ye Yuan with Soul Sea Realm strength? This . . . Isn’t this too much of a bully?” Qin Yan said in astoundment.

Yin Yanhua’s eyebrows knitted slightly and said, “Looks like . . . these spirit bodies’ judgment of Ye Yuan’s strength has already placed him in the same class as Soul Sea Realm!”

The three people drew a cold breath at the same time . . .

In this fifth level, these illusionary spirits’ concepts and martial techniques were much stronger compared to at the fourth level!

Under such circumstances, they were actually still going to use Soul Sea Realm strength to deal with Ye Yuan. This was simply . . . too much of a bully.

It was also to say that the difficulty of Ye Yuan passing this round was several times of theirs!

Could Ye Yuan really make it through this round?

“Young man, at the fourth level, our strength was only 30% of the same boundary. But now . . . we possess 70% of our original body’s strength! You have to be careful!” Kuai Liang said.

### [Unrivaled Medicine God](#)

#### **Chapter 568: Meet Again in the Next Level**

The 70% strength that Kuai Liang talked about was naturally not referring to his cultivation, but the concept strength at the same realm.

Which was also to say that originally, Kuai Liang comprehended 100% of the concepts. But at the fourth level, he only used these concepts' 30%.

Even 30% was stronger than the vast majority of the martial artists that came to challenge the rounds.

With 70% strength, even if it was just First Level Soul Sea, it was not what a martial artist like Liu Hong could resist. Let alone that there were still several martial artists at the same boundary adding on with an array formation.

Liu Hong and Qin Yan they all may well be facing numerous difficulties to want to pass through this fifth level.

"Senior doesn't have to be courteous. Just bring it on!"

Ye Yuan fully released his aura. The surroundings faintly had a red glow revolving around, but condensed and did not dissipate. This was precisely the mark of the Scorching True Intent showing outside.

Seeing this scene, Kuai Liang's expression was slightly apprehensive as he said, "Essence energy is converting to become Scorching True Intent. To actually be able to achieve condensing and not dissipating, looks like your control over essence energy has already reached an extremely profound boundary! Even my original body is incapable of achieving your level! Young man, you've really brought us too many surprises!"

Ye Yuan said smilingly, "Just displaying my slight skill before an expert. Senior's strength should greatly surpass mine. If not for adhering to the rules, killing me is probably just a matter of a twinkle."

Kuai Liang waved his hands and said, "That's different. Me being stronger than you is just in terms of realm. Your concepts comprehension and control over essence energy are much stronger than mine! I truly dare not imagine that you're only 17 years old!"

"Huhu, Senior is too kind. Ye Yuan is making a move!"

"Come on!"

Ye Yuan's fist momentum erupted abruptly, his entire person entering a frenzied state. It could be said that each fist landed solidly on the flesh, suppressing the array formation formed by these illusionary spirits.

These illusionary spirits were all First Level Soul Sea boundary. Ye Yuan, a Fourth Level Sea Transformation, actually suppressed so many people!

Seeing this scene, the three people by the sides were dumbstruck.

They never would have thought that just around ten days or so of not meeting, Ye Yuan was actually formidable to such a level already!

"I originally thought that I had considerable gains myself in this Vast Heaven Pagoda and should have shrunk the distance between Ye Yuan by a little. Never expected that . . . the gap between us is becoming greater and greater!" Qin Yan said with a bitter smile.

“He . . . This set of fist arts of his seems to have Scorching True Intent! My God! This level of true intent, Ye Yuan actually fully comprehended it!” Guo Taoqun’s jaws nearly fell off from shock.

Yin Yanhua’s expression was grave as she said with a nod, “It’s indeed the Scorching True Intent! Being so far away, the essence energy within my body actually feels discomfort! Ye Yuan’s current strength is seriously too terrifying! The three of us most likely can’t even exchange a single blow with him!”

“No wonder that mysterious person said that Ye Yuan was different from us. Looks like his harvests in the earlier few rounds was far more than we imagined!” Qin Yan said.

“What’s laughable was that I still thought that Ye Yuan tripped and stumbled previously. Thinking about it now, he was long not on the same level as us!” Guo Taoqun said speechlessly.

“Yeah. Disregarding other things, just this combat strength of his right now is likely plenty to overpower Third Level Soul Seas! Crossing boundaries to fight to his sort of degree is also considered a wonder,” Qin Yan said helplessly.

. . . . .

Inside the array formation, Ye Yuan was akin to entering an uninhabited zone. Places where his fists passed by, those illusionary spirits all clamored to evade.

But one could tell that this group of people’s cooperation had a very tacit understanding. Furthermore, their fighting experience was very abundant.

Under Kuai Liang’s guidance, they did not clash head-on with Ye Yuan at all.

With their present strength, they simply had no way of counter-pressuring Ye Yuan. They could only drag the time patiently with Ye Yuan, looking for the opportunity.

And the primary target of Ye Yuan’s attacks was placed on Kuai Liang. He was the core of this array formation, guiding the cooperation of the entire array formation and acting as a middleman, being highly important.

But Kuai Liang was very smart. He lay low within the array formation all along and did not come into direct contact with Ye Yuan.

Ye Yuan’s fists were always blocked by the combined power of the array formation.

This set of array formation could not be said to not be strong. A bunch of First Level Soul Seas teaming up together virtually had the strength of a peak Third Level Soul Sea already.

But even so, they were still domineeringly suppressed by Ye Yuan.

Ye Yuan suddenly beamed and said, “Senior, do you think that by hiding for a moment, you can still hide for life?”

Kuai Liang was concealed within the array formation as he called out in a clear voice, “If you have the capabilities, then drag me out!”

“Haha! Senior, look closely!”

Finished talking, Ye Yuan's figure suddenly shot out but did not rush for Kuai Liang.

*Bang!*

Another illusionary spirit was sent flying out. But his position immediately had people covering. That illusionary spirit was fine and returned to the array formation again very quickly. This was the formidable aspect of array formations.

"Huhu, young man, it's useless!" Kuai Liang said with a laugh when he saw this scene.

"Is that so?" Ye Yuan gave a faint smile. His figure moved, but he rushed towards another person.

*Bang!*

That person was blasted flying out too.

*Bang!*

*Bang!*

*Bang!*

For a time, there were people blasted flying out without pause.

In the beginning, Kuai Liang still did not take it seriously. But very soon, he discovered something amiss. The entire array formation seemed to have a feeling of sluggishness and was not operating as smoothly as before.

But by the time he came around, it was already too late!

How could Ye Yuan possibly give him the opportunity?

Kuai Liang's eyes blurred. Ye Yuan actually appeared before him from god knows when.

"Heh heh, apologies, Senior! Let's meet again at the next level!"

*Bang!*

Ye Yuan did not pull his punches in the slightest. He mustered essence energy fully and gathered it onto his fist, then blasted Kuai Liang into residue with one punch.

In terms of combat power alone, none of these illusionary spirits was Ye Yuan's match. As long as Ye Yuan grabbed hold of a weakness, wanting to kill them was not something difficult.

The core of this set of array formation was at Kuai Liang's place. The most vulnerable link was here too!

Even though Ye Yuan had never seen before this array formation, his Formations Path attainments were exceptionally high.

Those fights previously, Ye Yuan was not lashing out blindly like a headless fly, but he was actually feeling out this array formation's method to crack it.

But sadly, how could Kuai Liang know. Not only was Ye Yuan's combat strength astonishing, but he was also even a Level Nine Formations Path expert!

Although this set of array formation was profound, as long as Ye Yuan worked hard to find the flaw, how could Kuai Liang conceal it?

He only practiced this set of array formation to the point he became proficient in it. But he did not understand the principle of the array formation after all.

Unless they could finish off Ye Yuan very quickly, otherwise, the final outcome could only be having the formation cracked by Ye Yuan, then routed each of them one by one.

Once Kuai Liang died, the entire array formation clearly became too weak to withstand a single blow.

Ye Yuan followed suit, killing these illusionary spirits one by one, and perfectly clearing the fifth level very quickly!

Qin Yan and the others were long already staring wide-eyed and their jaws slack!

What kind of situation was this?

Them attempting to challenge this level was by breaching the constraints of the array formation at all costs and rushing towards the next level's entrance.

But Ye Yuan?

Not only did he crack the array formation, he even killed all of the illusionary spirits!

One had to know that these illusionary spirits, each one of them in terms of strength alone was not beneath theirs!

### Unrivaled Medicine God

#### **Chapter 569: Who's Bullying Who?**

"Everyone, I'm making a move first," Ye Yuan greeted the Qin Yan trio and directly entered the sixth level.

Qin Yan and the others exchanged glances and already did not know what they should say.

At this time, the illusionary spirits that were already 'killed' by Ye Yuan emerged once more one by one.

"Do you guys still plan on challenging the round? Seems like . . . we don't have any hope at all!" Qin Yan said rather dispiritedly.

Guo Taoqun gritted his teeth and side, "Already came here. We can't retreat without fighting! I'll go first!"

As he said those words, Guo Taoqun entered inside the array formation with a leap.

. . . . .

"Ye Yuan he really entered the sixth level! He has produced the best result in this one thousand years!"

"After entering the fourth level, his speed became fast instead! The fourth level only used 15 minutes to clear it. This fifth level is also merely just using the lesser part of a day's time. Truly inconceivable!"

“Wonder just where this fellow’s limits lie! I don’t know if he can clear the sixth level or not. If he can even make it past the sixth level, then he’ll be the fifth martial artist who charges into the seventh level in this ten thousand years! Such monstrosity simply surpasses ancient and modern times!”

“This . . . isn’t very likely, right? I heard that this sixth level’s guardian’s strength is even a cut above the challenger’s own strength. Adding the supplementation of the array formation, it’s simply impossible to make it through!”

“Who knows . . . Ignoring the differences in strength, just talking about what happened inside this Vast Heaven Pagoda, how many miracles has Ye Yuan created already?”

The other person did not reply.

Yeah. Just within this Vast Heaven Pagoda, how many turning points had Ye Yuan already created?

The first three levels cleared perfectly, obtaining three times the inheritance time of others.

Other people all got increasingly slower as they challenged the rounds. But after Ye Yuan entered the fourth level, his speed became faster instead. Consecutively clearing two levels actually only used half a day’s time.

Who could ascertain that Ye Yuan definitely could not clear the sixth level?

Liu Hong stared at that gold-colored name blankly. The sense of defeat in his heart was incomparably intense.

He originally thought that he was the most talented youngster in this Endless World. Who knew that there were people beyond people. This Ye Yuan’s talent flung him more than several streets behind!

What was laughable was that he still prided himself on being exceptional previously, and he even shrugged off that mysterious person’s words.

Ye Yuan’s performance in this Vast Heaven Pagoda was much more dazzling than his.

Forget about the third level, even in the first level, Liu Hong did not dare to remain behind to kill off all the demonic beasts!

And at this time, each step that Ye Yuan advanced trampled on his self-esteem once.

Soon . . . it was going to be crushed.

.....

At the sixth level, Kuai Liang was already waiting in full battle formation.

“Young man, what’s your name called? This seat is called Kuai Liang. You just call me Elder Brother Kuai will do.”

This was Kuai Liang’s first time telling Ye Yuan his own name.

In this ten thousand years, he had just spoken to a scanty few people before.

But Ye Yuan was clearly the one that he spoke the most to.

“Junior Ye Yuan has seen Elder Brother Kuai!” Ye Yuan reported his family name.

Kuai Liang nodded and said, “Ye Yuan, you’re very decent! This sixth level, it’s already been a thousand years since anybody entered. Even if this ten thousand years, not many people could barge into the sixth level too. Furthermore, perfectly clearing these first five levels is just you alone!”

“Oh? But previously, someone made it to the eighth level, right? Could it be that he didn’t clear perfectly?” Ye Yuan asked rather curiously.

That person called Li Fantian walked even further than Lu Linfeng. Logically speaking, he should be a world-shaking figure.

Such a genius should logically have the possibility of completing each level perfectly.

But it was only to see Kuai Liang shook his head and said, “He did indeed achieve Perfect Completion in the first four levels. But he fell short of success at the fifth level. Hence, your talent is still above his!”

Successfully clearing and perfectly clearing, the difficulty was not even on the same level. The fifth level’s degree of difficulty was indeed not an ordinary kind of great.

If Ye Yuan did not comprehend a number of true intents, wanting to perfectly clear this round was likely not that easy as well.

Ye Yuan nodded his head, but he said with a forced smile, “But Elder Brother Kuai, isn’t it somewhat high-handed for you guys to guard this level with the strength of Fourth Level Soul Sea Realm?”

Kuai Liang laughed loudly when he heard that and said, “Your true combat power can’t be measured using realms at all. The hurdles that the Vast Heaven Pagoda set up are used to test the martial artist’s potential. You are able to clear the round perfectly at the fifth level and kill our First Level Soul Sea doppelgangers. The might of your combat strength is thus obvious. Furthermore, I have a feeling that you didn’t go all out when you were at the fifth level!”

Ye Yuan said helplessly, “Fine then. In a while, Elder Brother Kuai have to show leniency!”

“Heh heh, showing leniency can’t be done! The stronger you are, the more we can’t pull our punches! This time, we’re going to unleash 100% of your concepts’ strength!” Kuai Liang said with a laugh.

“Tsk tsk, how ruthless! Since Elder Brother Kuai regards me so highly, then I naturally also have to strive with all my might this time! But before this, can Elder Brother Kuai allow me to break through realm first?” Ye Yuan said smilingly.

Kuai Liang was startled. “Oh? You’re going to break through again so quickly? Fine. What’s the harm in letting you break through?”

Ye Yuan said with clasped hands, “Thank you very much, Elder Brother Kuai!”

Ye Yuan did not talk nonsense either, directly amassing immense heaven and earth essence energy, and started to break through to the Fifth Level Sea Transformation!

.....

Roughly two hours later, the storm ceased. Ye Yuan's aura rose by a level once more, and finally broke through to the Fifth Level Sea Transformation!

"Elder Brother Kuai, thanks for waiting!" Ye Yuan said with clasped hands.

Kuai Liang looked at Ye Yuan, his gaze revealed astonishment. "You, a puny little Sea Transformation Realm, actually have such impact when breaking through a minor boundary! If not for witnessing with my own eyes, I even thought that you were assaulting the Soul Sea Realm!"

Ye Yuan said smilingly, "I've incurred Elder Brother Kuai's ridicule. The cultivation method that I cultivate in is rather special. The essence energy required is very massive. So the commotion when breaking through is a bit big."

It was more than just a bit big. It was very huge, alright?

Kuai Liang nodded and said, "Your strength is so formidable; the cultivation method that you cultivate naturally can't be too lousy. Looks like your inheritance isn't simple. It probably isn't what this small world can have!"

Ye Yuan smiled. He knew that this could not hide from Kuai Liang's eyes either, and he could only change the topic. "Elder Brother Kuai, let's begin!"

Finished talking, Ye Yuan leaped and was about to land inside the array formation.

At the same time, the essence fire within Ye Yuan's body erupted abruptly. During the process of him leaping, the aura in his body erupted once more, and his boundary soared up mightily.

By the time he landed inside the array formation, he already directly broke through to the Seventh Level Sea Transformation!

Origin Spirit Nine Transformations!

Following Ye Yuan's boundary slowly advancing, the Cleansing Sandal Sacred Flame was already unable to sustain him breaking through three minor boundaries. Even breaking through to late-stage Sea Transformation this time was quite forceful.

Fortunately, the Cleansing Sandal Sacred Flame was very powerful among Tier 4 essence fires. Only then, did it forcibly support his breakthrough.

When Kuai Liang saw this scene, his eyes became wide-saucers, "Fine lad. To actually still have this card up your sleeves! This martial technique is remarkably powerful! To actually directly aid you to break through to the late-stage Sea Transformation! I originally thought that I could bully you properly this time. Now, why do I feel like it's still you bullying me?"

### Unrivaled Medicine God

#### **Chapter 570: Two Great Concepts of Fire**

"Haha! Elder Brother Kuai, I'm coming!" Ye Yuan said with a loud laugh.

"Bring it on!"

Facing Ye Yuan bearing down menacingly, Kuai Liang awaited in full battle array.

Presently, Ye Yuan broke through to the late-stage Sea Transformation Realm. His strength soared fiercely once more!

Flame Movement Carnage was brandished; it was on a completely different level than before.

Kuai Liang these people used all of their power. Their concepts were clearly all true intent level and above.

But Ye Yuan's Scorching True Intent overwhelmingly crushed them!

Flame Movement Carnage was just created, and its power was already not worse off compared to the Nine Swords Stance and Thousand Flowing Petals, these martial techniques. It could be imagined how formidable the might of Scorching True Intent was!

Even in terms of instantaneous explosive power, Flame Movement Carnage was even stronger than the move Ye Yuan created using supreme true intent.

What was even deadlier was that Ye Yuan's control over essence energy was very precise. One should not look at how each punch of his seemed to use all the strength in his body, it actually did not expend much essence energy.

With his present essence energy density, even if he fought non-stop for a day and a night, he would not exhaust all the essence energy within his body at all.

Of course, the prerequisite was that the Origin Spirit Nine Transformations could sustain for such a long time.

For a time, the situation inside the array formation was actually the same as in the fifth level; Kuai Liang's side was completely suppressed by Ye Yuan.

"Heh heh, Elder Brother Kuai, this array formation of yours is already useless against me. If you don't wish to lose, quickly think of a way," Ye Yuan said to Kuai Liang as he punched out.

Kuai Liang was also someone who was a veteran of a hundred battles. Looking at Ye Yuan's performance in the fifth level, he knew that the array formation was already useless.

*Rumble!*

After a violent collision, Kuai Liang and Ye Yuan both separated.

"Ye Yuan, you're indeed formidable! This array formation, we brothers practiced for a very long time before slowly understanding it well. You merely entered the array for half a day and actually already have a thorough understanding of the array formation!" Kuai Liang said with an emotional sigh.

Ye Yuan's monstrousness totally exceeded his expectations. This boy seemed to have limitless means.

He had already guarded this pass here for God knows how many years and had yet to be suppressed to this extent by a junior.

Although he admired Ye Yuan's talent, Kuai Liang still felt very aggrieved.

He was a powerhouse that controlled a region while he was still alive. Even if he became an illusionary spirit guarding this pass now, his pride still remained.

Being beaten by Ye Yuan for three consecutive rounds like this, it brought out his temper!

“However . . . we brothers are not easy to bully! What I want to tell you is that not using array formations can instead increase our combat strength even more! Brothers, go full power!”

Kuai Liang roared.

Each and every one of those illusionary spirits was like injected with stimulants, instantly erupting with a powerful aura!

Even though their boundaries were still Fourth Level Soul Sea, Ye Yuan suddenly felt that these illusionary spirits became somewhat different!

As if all of a sudden, these illusionary spirits became gods of war one by one, giving people a feeling of peerlessness.

“Hahaha! How many years has it been since this feeling of hot blood boiling! Thank you, Ye Yuan! If it wasn’t for you, we’d probably all remain as emotionless walking corpses!” Kuai Liang said with a loud laugh.

The Kuai Liang at this time was akin to a god of war; his eyes radiating a brilliant light as if two different persons from that previous lifelessness.

Seeing Kuai Liang brimming with fighting spirit, Ye Yuan said with a smile, “Looks like these few years, Elder Brother Kuai was shackled by the rules and became overly cautious and didn’t dare to act boldly! Since that’s the case, I’ll consult Elder Brother Kuai’s true strength then!”

“Good! Ye Yuan, I’ll put forth my best effort to defeat you! This round isn’t that easy to clear! Go!”

Under Kuai Liang’s command, those 30 over illusionary spirits rushed towards Ye Yuan without any pattern at all. It was entirely different from that strict order previously.

But Ye Yuan’s face became solemn. These people became completely different!

However, Ye Yuan naturally would not show weakness either. His figure moved, and he charged towards those illusionary spirits.

With his current late-stage Sea Transformation strength used in conjunction with the Scorching True Intent and Concept of Wind flow, it was not too difficult to contend with Fourth Level Soul Seas.

In an instant, Ye Yuan fell into these 30 over people’s encirclement.

Different from landing in the array formation prior to this, these illusionary spirits’ attacks were without any order to speak of. It was completely each fighting their own battles.

But not knowing why, these people’s combat power suddenly soared by a level!

Furthermore, even though they were each fighting separate battle, the cooperation between each other was extremely well-coordinated.

Frequently, as Ye Yuan's fist was just thinking of hitting towards a person, he would suffer the pincer attacks of multiple people at the same time. Helpless, Ye Yuan could only give up the attack and switch to defense.

The teamwork between these people was absolutely not as simple as one plus one equals two!

Although there was no array formation's augmentation, the pressure that Ye Yuan felt was much stronger than when they formed an array formation.

Ye Yuan crisscrossed among the illusionary spirits and displayed the Wind Flow True Intent to the limits. There was actually a feeling of beyond one's power!

This made Ye Yuan very baffled.

Just what in the world happened to these people?

"Haha! Back then, we were all a mercenary team. Every fight was all acting in concert together. For close to a thousand years, we ourselves can't remember clearly how many times we've fought together either! This sort of fighting instinct has long been assimilated into your blood already! Without the constraints of array formations, the teamwork between us will become even closer instead! Ye Yuan, if you can defeat us under this condition, you'll have the qualifications to accept the challenge of the final three levels!" Kuai Liang said loudly.

Ye Yuan was enlightened in his heart when he heard that!

No wonder he had a feeling of being unable to carry out every time he attacked. Turns out that these people had long taken team fights as their own instincts.

The incomparable trust between each other. Even communicating with their eyes was not needed; it was simply accomplishing things with a thought!

Fighting instinctively like this was undoubtedly extremely formidable.

"So that's how it is! Elder Brother and everyone else are indeed very strong. Your trust between each other also makes Ye Yuan visibly moved. However . . . this seventh level, I must go!"

Finished talking, Ye Yuan's aura likewise erupted abruptly, soaring tremendously once more!

"Essence Energy Ignition! Flame Movement Carnage!"

Ye Yuan gave a roar. The essence energy within his body instantly ignited!

Instantaneously, Ye Yuan's fist exploded with a dazzling red light. An appalling aura forced those illusionary spirits back!

Following that, Ye Yuan swung out a fist, smashing it towards that group of illusionary spirits like a tempestuous storm!

*Rumble!*

The Transmission True Intent coupled with the Scorching True Intent, two types of true intents added together for the first time, making the power of Flame Movement Carnage soar explosively!

Even though what Ye Yuan was facing a group of Fourth Level Soul Sea experts, this punch still beat the opponent down to the mortal world like breaking a dead branch off a tree!

Those dozen over illusionary spirits at the forefront were practically obliterated by Ye Yuan at the first moment.

Those illusionary spirits at the back also received injuries to varying degrees!

However, Ye Yuan did not have the intent of stopping. A punch smashed over again, annihilating quite a few illusionary spirits once more.

Two punches down, only a scanty few illusionary spirits remained in good condition.

Seeing this scene, Kuai Liang's complexion was white as a sheet . . .
