#### Chapter 731: Challenging the Dojo

“Lord Chairman is really brilliant! With the prices of these medicinal pills being lowered, it attracts even more people to come and buy these Tier 5 medicinal pills! At this rate, our sales are probably going to be several dozen percents more than before!”

The Heaven’s Destiny Trading Company’s manager was filled with admiration towards Zuo Xin in his heart when he saw the throngs of people.

Zuo Xin smiled and said, “Lowering prices normally, that is lowering your status yourself. But once opponents appear, us lowering prices happens without extra effort. Speaking of which, we still have to thank this Ye Yuan. But this sort of method can only be used for a short while. It will be detrimental without benefits over a long time.”

“Your Excellency is wise!”

“*Huhu*, don’t need to curry favor! We’ve already made our move on our side. The next step will be up to Alchemy Saint He,” Zuo Xin said smilingly

Zuo Xin was aware of He Shuming’s displeasure towards Ye Yuan. Therefore, he would definitely make Ye Yuan unable to bear the consequences of failure today.

This set of combination blows landing, he did not believe that a brat still wet behind his ears could withstand it!

At their store, the Fragrant Medicine Pavilion’s manager said with an indignant face, “This Heaven’s Destiny Trading Company is seriously too shameless! This is our first day opening for business, and they used this kind of measures. Too insidious!”

The Fragrant Medicine Pavilion’s manager was that elderly man Ye Yuan saw on that day when he went to Meteor Trading Company.

The elderly man’s name was Li Huisheng; he was a manager with a very long record of service and credentials in the Meteor Trading Company.

Ye Yuan’s manpower was seriously limited for such a big Fragrant Medicine Pavilion. But Qian-er attached very high importance to this collaboration, practically pouring in the entire Meteor Trading Company’s strength into the Fragrant Medicine Pavilion.

Regarding this, Ye Yuan did not refuse.

This sort of thing like management was actually not what he was good at.

A master specialized in his own field. Ye Yuan did not like to stick his nose into other fields for everything.

Li Huisheng was indeed very experienced in this area. The Meteor Trading Company running badly was not because the management was bad.

Of course, such a large Fragrant Medicine Pavilion, Ye Yuan could not possibly let the Meteor Trading Company occupy a nest which wasn't theirs.

He arranged for Yu Ming to be an assistant of Li Huisheng. It was learning in-name, but actually, there was also the intent of monitoring the management.

Yu Ming never would have dreamed that he would be able to manage such a large medicinal store one day.

As long as Ye Yuan was able to gain a firm foothold on this Ancient Opulence Street, Yu Ming could be said to soar to the skies in one bound, enjoying all manners of wealth and glory.

Being around Li Huisheng, he did not need to be responsible to Li Huisheng. He was only responsible to Ye Yuan!

Regarding this, Yu Ming's feelings of gratitude towards Ye Yuan already could not be expressed using words.

The investment in Ye Yuan back then was simply too worth it.

Ye Yuan's manpower was lacking. He even took in Yu Ming's brother, Cheng Jiang, too.

The two people quit their ascension pool guarding duty and wholeheartedly stayed here at Ye Yuan's side.

If it were others, wanting to break away from the city guards army was naturally not that easy. But after Ye Yuan let Luo Fang know, this was merely a piece of cake.

Apart from this, Ye Yuan even helped Ren Dong and Xiao Ruyan got two identity tokens. This way, they could openly appear in front of people.

Back then when they ascended, Ye Yuan was afraid of incurring trouble and kept Lu-er and the rest into the Vast Heaven Pagoda at the final juncture.

Now, Ye Yuan was considered to have gained a firm foothold in the Ancient Opulence City. Getting two identity tokens was naturally nothing hard.

With this, the manpower on Ye Yuan's side was just enough.

Through a period of training, Xiao Ruyan and Ren Dong both broke through to the Alchemy King Realm.

Under Ye Yuan's guidance, their strengths were far greater compared to ordinary Alchemy Kings.

Letting them refine Tier 4 medicinal pills was achievable.

The group of people bustled about but they were very resentful toward the Heaven's Destiny Trading Company's actions.

"Zuo Xin that old fellow is shrewd and planning something bad. Mister Ye is challenging them right opposite of their store. It's impossible for them to allow us to grow unchecked. Using this sort of despicable means is also within reason. When our Meteor Trading Company had just arrived at the Ancient Opulence City, we wanted to get a foothold on Ancient Opulence Street too. Weren't we also

squelched by them until we could only go to another place? If it wasn't like this, how could we possibly not be able to open up the situation all the way until now?" Qian-er said.

Very clearly, even Qian-er also acknowledged that this Zuo Xin was very formidable.

To be able to develop the Heaven's Destiny Trading Company to this sort of degree, Zuo Xin contributed tremendously.

But Ye Yuan smiled when he heard that and said, "Don't need to complain anymore. If they don't take some measures, it would be weird instead. Selling on discount this sort of means is not considered much either. I think the Heaven's Destiny Trading Company likely still has other cards to play!"

Qian-er was alarmed when she heard that and said, "Still have other measures? This . . . What kind of measure would it be?"

Ye Yuan was just about to speak, when he looked over outside the door and said with a smile, "Isn't it here now?"

The group looked over towards the entrance and saw seven to eight people flood inside the Fragrant Medicine Pavilion all at once.

These seven to eight people were all wearing alchemist attires. The six stars on their chest were very dazzling.

And one of them even had seven stars on his badge. Who could it be but He Shuming?

These seven to eight people, the ones with the lowest strength were middle-rank Alchemy Ancestors too!

"*Hiss* . . . Ancient Opulence City only has a total of around 10 Alchemy Ancestor powerhouses. Seven came all at once. Alchemy Saint He is truly skillful! Ye Yuan, I said to transfer our Meteor Trading Company's Alchemy Ancestor powerhouses over, but you just refused! Now, we are going to suffer a huge loss, right?" Qian-er gnashed her teeth in hatred and said.

The Meteor Trading Company naturally had Alchemy Ancestor powerhouses too. Moreover, it was even a high-rank Alchemy Ancestor.

The collaboration this plan, Qian-er planned to let him come and hold down the fort at Fragrant Medicine Pavilion but was rejected by Ye Yuan firmly.

Ye Yuan said smilingly, "Just a few Alchemy Ancestors. Doesn't count as anything."

"Just a few . . . Alchemy Ancestors?"

Qian-er was speechless. You yourself are only at Alchemy Sovereign Realm, alright?

Moreover, this Alchemy Sovereign was even an Alchemy Sovereign without an alchemist badge!

They could not refine Tier 6 medicinal pills, so they were destined to be crushed by these Alchemy Ancestors, let alone that there was still that Alchemy Saint He glaring at them like a ravaging tiger.

“Ye Yuan, this old man heard that your new shop opened for business and specially invited a few people in the same line over to pay tribute. What? We are not welcomed?”

He Shuming greeted Ye Yuan with a big smile from far away, rather like old friends.

It was just that even a moron also knew that He Shuming was a weasel paying respects to the hen, with no good intentions!

The Heaven’s Destiny Trading Company was at the opposite Heaven’s Destiny Trading Company’s Alchemy Saint. How could he possibly be here to support the Fragrant Medicine Pavilion?

Challenging the dojo was more like it!

The martial artists surrounding and watching outside became spirited at once. They did not expect that this was just the first day opening for business and both parties already had swords drawn and bows stretched!

Alchemy Saint He made a move personally. There was a good show to watch now.

This Fragrant Medicine Pavilion wouldn’t close down on the first day it opened for business, right?

Ye Yuan went forward to welcome with a smile too, saying in a clear voice, “If there are friends coming to congratulate, the Fragrant Medicine Pavilion is naturally most welcoming. But if there are mad dogs coming to bark crazily, we’ll naturally serve with dog-beating sticks. Alchemy Saint He, I wonder which type are you?”

The Heaven’s Destiny Trading Company had long witnessed Ye Yuan’s sharp tongue before and had sufficient mental preparations this time. He laughed loudly when he heard that and said, “These few people in the same line heard that a medicinal store strong enough to rival the Heaven’s Destiny Trading Company opened on Ancient Opulence Street. There must be an Alchemy Path master with astonishing strength holding down the fort! We came today wanting to bear witness to this Alchemy Path master’s strength. Ye Yuan, I wonder where this Alchemy Path master is?”

#### **Chapter 732: Gallant Promise**

Seeing this sort of provocative action, Jun Tianyu’s brows knitted together slightly.

Towards this He Shuming, he did not have much of a favorable impression.

For the sake of Liu Yiru’s illness, Jun Tianyu had once dropped in to visit He Shuming before. But because He Shuming cherished his feathers, he was not willing to take action.

He Shuming was afraid that he could not cure it, so he did not dare to take action.

The last time Ye Yuan went to treat Gu Qing, He Shuming’s attitude made Jun Tianyu dislike him even more.

Who knew that this guy actually came to provoke again today, finally infuriating him.

“He Shuming, the Fragrant Medicine Pavilion is opening for business today. Are you making light of this Jun like this?”

Jun Tianyu gave a cold snort. A powerful sword intent released involuntarily.

He Shuming's expression changed slightly, but he did his best to keep a calm exterior and said, "Brother Jun saying this, it can be seen that the Fragrant Medicine Pavilion doesn't have confidence! Brother Jun can send me packing today. But after today, I'll see if there is anyone who dares to come to the Fragrant Medicine Pavilion to buy things!"

Jun Tianyu's brows furrowed when he heard that, but he could not very well make a move.

He knew that the doubts about the Fragrant Medicine Pavilion outside now were considerable. If they avoided and did not fight today, it would probably really be like He Shuming said; no one would come and buy their things.

Opening and doing business, what it stressed was harmony breeds wealth. Even if Jun Tianyu's martial strength was any greater, he was also not able to convince others from the heart.

Even though he clearly knew that He Shuming did not have good intentions, his Alchemy Saint title was right there. It was fine if they fought, but the Fragrant Medicine Pavilion's reputation would be utterly fouled.

The panic in He Shuming's heart vanished when he saw the situation and said with a smile, "We came today purely to communicate and exchange notes among alchemists. Why must Brother Jun be so hot-tempered?"

At this time, Ye Yuan suddenly voiced out, "What kind of a communication style does Alchemy Saint He want? Just state it out clearly will do."

He Shuming was secretly pleased when he saw Ye Yuan accepting the challenge. But he feigned surprise on his face and exclaimed, "En? Could it be that that expert in the Fragrant Medicine Pavilion is Ye Yuan yourself? This ... Could it be that such a large Fragrant Medicine Pavilion of yours doesn't even have an Alchemy Ancestor powerhouse holding down the fort? This is also too shabby, right?"

With this, the surrounding martial artists could not help discussing softly.

"What? I even thought that the rumor was false. Opening such a large medicinal store in the most bustling place on Ancient Opulence Street, how can there possibly be not even one Alchemy Ancestor? Looking at it now, it was actually true!"

"A medicinal store without even a single Alchemy Ancestor, can the medicinal pills sold be eaten?"

"This ... I really have no idea where Ye Yuan's confidence comes from, to actually dare open a medicinal store with this kind of strength. We'd better go to the opposite Heaven's Destiny Trading Company to buy medicinal pills."

Although the rumors said that the Fragrant Medicine Pavilion did not even have an alchemy ancestor, everyone actually did not really believe it.

To dare challenge the Heaven's Destiny Trading Company, one at least had to have a high-rank Alchemy Ancestor holding down the fort too, right?

Messing around for half a day, and there was only one Alchemy Sovereign? Even if this Alchemy Sovereign was any more abnormal, what use was there?

Qian-er wished to find a hole in the ground to crawl into. The skeleton in their closet was exposed with this. She felt that her face was thrown all the way back to her grandma's place.

Even for those medicinal pills which could not be refined, employing their Meteor Trading Company's Alchemy Ancestors to put on a facade was good too.

Now, things were great. How could an Alchemy Sovereign convince the public?

Ye Yuan smiled very calmly and said, "There is naturally an alchemy ancestor. But due to various reasons, he is unable to make it today. Everyone, what my Fragrant Medicine Pavilion trade are Tier 5 medicinal pills. But we likewise accept Tier 6 medicinal pill transactions. However, Tier 6 medicinal pills must be booked in advance, and the spirit medicines are provided by yourselves. Everyone rest assured. The Tier 6 medicinal pills produced by the Fragrant Medicine Pavilion are absolutely better than any other stores in the Ancient Opulence City!"

"*Heh heh*, what high-sounding sentiments! Before bragging, you don't gauge your strength either. Aren't these words uttered from the mouth of a puny little Alchemy Sovereign the biggest joke in the world?" An Alchemy Ancestor powerhouse laughed coldly when he heard that.

This was a high-rank Alchemy Ancestor named Su Qide. His strength was only second to He Shuming among this group of Alchemy Ancestors; he was not to be underestimated.

Ye Yuan fished out several medicinal pills. These medicinal pills were shockingly all Tier 6 medicinal pills!

"Although our Fragrant Medicine Pavilion's Alchemy Ancestor powerhouse is unable to make it here, he left behind several Tier 6 medicinal pills. The few of you all claim to be Alchemy Ancestors. I wonder how many are able to refine this standard of Tier 6 medicinal pills?" Ye Yuan said coolly.

"Tier 6 transcendent-grade! *Hiss ...*"

Once the medicinal pills appeared, He Shuming and the others, their expressions all changed.

The few medicinal pills in Ye Yuan's hands were actually all Tier 6 transcendent-grade medicinal pills without exception!

Even though these people were Alchemy Ancestor powerhouses, to want to refine Tier 6 transcendent-grade, it was still a little forceful.

Even He Shuming this Alchemy Saint had to depend on luck to refine Tier 6 transcendent-grade too.

The number of Tier 6 transcendent-grade medicinal pills in the entire Ancient Opulence City was probably also just as many as in Ye Yuan's hand.

It could be imagined how precious these Tier 6 transcendent-grades in Ye Yuan's hand were!

How on earth did this brat find so many transcendent-grade medicinal pills?

"*Heh heh*, looks like the Meteor Trading Company specially transferred over quite a number of transcendent-grade medicinal pills from other places for the sake of this Fragrant Medicine Pavilion! Can

a mere few transcendent-grade medicinal pills intimidate us?” He Shuming was the first to react and said with a cold smile.

In his view, Ye Yuan’s Tier 6 transcendent-grades could only be transferred over from other places by the Meteor Trading Company.

Otherwise, who else was able to refine so many Tier 6 transcendent-grade medicinal pills in this Ancient Opulence City?

But Ye Yuan laughed when he heard that and said, “Is that so? I can promise everybody here that custom-ordering Tier 6 medicinal pills from the Fragrant Medicine Pavilion, prepare three sets of spirit medicines yourself. The worst of the medicinal pills turned over to everyone will also be Tier 6 high-grade!”

When these words came out, the audience burst into an uproar!

This sort of promise was seriously too domineering!

Even the Heaven’s Destiny Trading Company did not dare to easily make this kind of promise either!

Alchemy Ancestors refining Tier 6 medicinal pills, if it was not those common medicinal pills, there was a very high likelihood of ruining the medicinal pills.

Just three sets of spirit medicines were able to guarantee at least Tier 6 high-grade. This kind of promise was seriously too confident!

He Shuming’s face was black as the bottom of a bot. If the Fragrant Medicine Pavilion really had this kind of ability, who would still go to their Heaven’s Destiny Trading Company to buy medicinal pills in the future?

“Ye Yuan, aren’t you bragging too hard here? Be careful of giving yourself a slap when you can’t do it when the time comes!” He Shuming sneered as he said with a black face.

“Alchemy Saint He really likes to worry! Whether I’m able to do it or not, time will naturally prove everything. Today, I sent the word out. Everyone present all can bear witness. If my Fragrant Medicine Pavilion can’t do it, we’ll compensate 100 times of the spirit medicines’ value!” Ye Yuan said gallantly.

*Murmur ...*

Ye Yuan’s words ignited the surrounding martial artists all at once!

The prices of Tier 6 spirit medicines were not cheap to begin with. If compensating according to 100 times, once or twice was still fine. If the number of times goes up, even a colossal giant like the Heaven’s Destiny Trading Company probably would not be able to afford it either!

This promise of Ye Yuan’s was too extreme. Either the Fragrant Medicine Pavilion collapses directly, or the Fragrant Medicine Pavilion soar to the sky in one move.

If Ye Yuan could really do it, the Heaven’s Destiny Trading Company would likely be pushed down too.

He Shuming himself was no longer calm as well. He could not quite grasp whether Ye Yuan really had this confidence, or was he making an empty show of strength ...

## Unrivaled Medicine God

### **Chapter 733: Compete with My Disciples**

"I want to pre-order one Tier 6 Dragon Tiger Pill!"

"I want to pre-order one Spirit Heart Sacred Rain Pill!"

"I want to pre-order ..."

Even Boundless Realm martial artists were no longer able to remain calm when they saw so many transcendent-grade medicinal pills.

Transcendent-grade medicinal pills, what did this signify?

This was a guarantee!

A guarantee that this medicinal pill was able to reach the limits of the medicinal efficacy!

In front of transcendent-grade medicinal pills, no one was able to maintain composure.

For a moment, the entire Fragrant Medicine Pavilion fell into chaos. Up here, down there, were all Boundless Realm martial artists wanting to pre-order Tier 6 medicinal pills.

Ye Yuan said in a clear voice, "Everyone, don't be hasty! Otherwise, we totally won't accept your request! Those with the intention, head over there to line up and register. The first batch is only accepting pre-orders from 100 customers. Bring the spirit medicines and pill formula to the Fragrant Medicine Pavilion within three days. Half a month later, the Fragrant Medicine Pavilion will deliver this batch of medicinal pills together, and we will accept orders for the second batch of people at that time! Everybody rest assured; earlier, I said that the lowest is high-grade medicinal pills. Actually, the majority should be all superior-grades, even possibly transcendent-grades. As for high-grade, it should be lesser. If we're really only able to refine out high-grade medicinal pills, everyone, please don't mind."

Once these words were said, those Boundless Realm martial artists clamored one after another in a mad rush to be first and lined up over at one side.

Ye Yuan's words made each and every one of them even more incredibly thrilled!

The likelihood of high-grade was very low, with the majority being superior-grade, even possibly transcendent-grade!

This kind of promise was sufficient to make all the martial artists crazed!

When He Shuming saw this scene, his face instantly became black as the bottom of a pot.

"Ye Yuan, you're boasting so much, I really want to see how you wind it up! If you can't hand over the medicinal pills half a month later, I'll see what face you still have to have a foothold on Ancient Opulence Street!"

In He Shuming's view, Ye Yuan was completely smacking his own face in order to look imposing!

These Alchemy Ancestors present were all extremely formidable figures. But there had never been anyone who dared to make this sort of promise before either.

A puny little Alchemy Sovereign was actually rampant to such an extent.

This kind of promise was simply smacking the faces of these Alchemy Ancestors.

One had to know that medicinal pills being superior-grade and above all basically had to depend on luck. Especially transcendent-grade medicinal pills, the probability of emerging was already infinitely close to zero.

But Ye Yuan said that the likelihood of high-grade was very low, while the majority were all superior-grade medicinal pills.

Where did this kind of promise place them, these Alchemy Ancestors?

"Heh, to dare make this sort of promise, looks like the Fragrant Medicine Pavilion really has a capable person aiding it! I wonder if Owner Ye can invite him out or not to let everyone broaden our knowledge?" Su Qide seriously could not put up with it and voiced out.

Ye Yuan said, "I already said that he isn't around today. Aren't you putting people on the spot here? Besides, how can an alchemist who is able to casually refine superior-grade medicinal pills be what trash like you guys can meet whenever you want?"

All of a sudden, Ye Yuan's words became incomparably incisive, directly making this group of Alchemy Ancestors out to be trash!

"You! Arrogant! Truly too arrogant! A measly little Alchemy Sovereign actually dares to make impertinent remarks to Alchemy Ancestors! If we, these Alchemy Ancestors, are trash, then what are you? Could it be that cultivating until today, you don't even know rudimentary pecking order?"

Su Qide was the first to react to it and was directly choked badly by Ye Yuan.

Alchemist rankings were extremely strict. When low-level alchemists saw high-level alchemists, for them to act with a pupil's mannerism was also very commonly seen.

Alchemist was an occupation completely reliant on accumulation, experience, and accruing of knowledge. All these required time to bring to success.

For alchemists to want to jump realms and defeat their opponents, it was much, much harder than martial artists.

So under normal circumstances, even at the same realm, between initial-rank, middle-rank, and high-rank, there was an extremely large gap too.

A heaven-defying existence like Ye Yuan was absolutely in the minority.

Of course, if an alchemist could acknowledge an Alchemy Emperor at the level of Ye Yuan as master, their starting point was naturally much higher compared to these ordinary alchemists. Only then, was there the possibility of crossing realms to battle.

Ye Yuan said haughtily, "I only respect the strong. Your strength is too weak. In my eyes, it's total trash. Why do I have to respect you all? Moreover, you all are clearly here to challenge the dojo. Still want to talk about pecking order with me. Don't you find it laughable?"

"Good, good, good!" Ye Yuan's words thoroughly infuriated Su Qide. He uttered three 'good's in succession, gnashed his teeth in hatred, and said, "A measly little Alchemy Sovereign actually dares to utter wild ravings. I want to see what capabilities you have to dare call us, a group of Alchemy Ancestor powerhouses, trash! Boasting needs the courage to boast. Dare to compete or not?"

Ye Yuan said scornfully, "Competing with a bunch of trash like you guys, you aren't qualified enough yet!"

"Hahaha! Who doesn't know how to talk big? You saying this, is it conceding?" Su Qide said with a big laugh.

"Conceding? You're thinking too much. What I meant was that your level is only fit to have a contest with my disciples. Ren Dong, Ruyan, come over!"

Ren Dong and Xiao Ruyan froze when they heard that. They also did not expect to be called out by Ye Yuan at this time, arriving by Ye Yuan's side blankly.

Seeing this scene, Su Qide's face went green.

But Ye Yuan did not care about his expression. He instructed the duo, "The two of you, educate them well what is called alchemist!"

Even though the two followed Ye Yuan for a very long time already and knew that Ye Yuan's strength was overwhelming, dealing with these Alchemy Ancestors shouldn't be a problem.

But to let them do it, they were rather jittery.

But in front of so many people, they could not yield either. They could only toughen their scalps and said, "Yes, Master!"

"Puu huuu ..."

With this, many people could not hold it in and let out laughter immediately.

Qian-er could not refrain from laughing, her entire person shaking with laughter, and said to the Elder Duan beside in a low voice, "This Ye Yuan is really too bad! To even be able to come up with this kind of lousy move! He doesn't go himself but let his two disciples go up. Making two Alchemy Kings compete with Alchemy Ancestors, even if they lost, Su Qide would probably get stench all over himself too!"

Elder Duan shook his head too and said with a laugh, "This boy is indeed deriding. But it's very practical. With this, Su Qide is checkmated viciously but can't wind it up."

Su Qide was angered until his chest was like puffing bellows. Only after some time, did he catch his breath and said in a great rage, "Ye Yuan punk, you ... you're bullying others too far! You let two Alchemy King Realm babies compete with this old man, this is insulting this old man! Alchemy Saint He, I recommend to ally up all the trading firms in the entire city and boycott this Fragrant Medicine Pavilion!"

He Shuming also did not expect that Ye Yuan would come up with this kind of low-blow. But outside of his fury at this time, he was somewhat filled with lingering fear afterward.

If it were him provoking Ye Yuan just now, it would probably be even more awkward at this time, right?

His illustrious name was almost ruined in this punk's hands!

Hearing Su Qide said so, He Shuming immediately responded, "Ye Yuan, you're too condescending! To actually insult seniors like this! Today, I ..."

He Shuming had not finished speaking when he was interrupted by Ye Yuan rudely. Ye Yuan said, "Alchemy Saint He, this Ye Yuan doesn't have the intention of joking! Aren't you all here to challenge the dojo? I'll give you this opportunity today! Let's compete for three rounds, how about that?"

### Unrivaled Medicine God

#### **Chapter 734: Disciples Requesting Battle**

"Oh? Compete for three rounds? How to compete?" He Shuming asked rather interestedly.

"Up to you to pick! Let's pit soldiers against soldiers, general against general! You compete with me. Then pick two out among these garbage Alchemy Ancestors to compete with my disciples." Ye Yuan said very indifferently.

Only he was indifferent. The others were not calm.

An Alchemy Sovereign leading Alchemy Kings to challenge an Alchemy Saint bringing two Alchemy Ancestors?

This punk wasn't soft in the head, right?

More importantly, Ye Yuan actually handed the initiative over to He Shuming, allowing him to pick the events.

If He Shuming picked what he was good at to compete in, wasn't this extending his head out for people to chop?

"Haha, Ye Yuan, I know that you have some capability! But you making light of heroes under the heaven like this will cost you dearly! Or maybe, you wish to use this kind of method to make me have misgivings about my reputation and let you off today?" He Shuming said with a loud laugh.

Ye Yuan smiled lightly and said, "You're over-thinking! How about this, since it's a competition, then let's add some stake, how's that?"

He Shuming was slightly startled, thinking to himself, could this boy be for real?

"What stake?"

"If I lose, the Fragrant Medicine Pavilion is yours! You lose, give me 100 thousand merit points! This deal, it's a sure win without losing anything for you. How about it? Dare to compete or not?" Ye Yuan said directly.

Qian-er got anxious when she heard and hurriedly said, "No way! This sort of competition is unfair in itself. Ye Yuan, you're treating it too much of a child's play like this!"

He Shuming laughed loudly and said, "Hahaha, Ye Yuan, looks like even your own people aren't optimistic about you!"

Ye Yuan completely ignored Qian-er and said to He Shuming, "Doesn't matter. I have the final say here!"

"Good! Since it's already said until like this, if I still don't agree, wouldn't it let the heroes of the world scoff? But our two parties competing, it can't be each side believing that they are right, that both sides have their merits. Got to find a person to preside over, right?" He Shuming said.

"I'll preside over, how's that?"

A deep and powerful voice suddenly sounded out in the crowd. Everyone looked over where the voice came from, and they saw a middle-aged man dressed in fine clothing sticking out.

He even brought an attendant alongside him, but Ye Yuan recognized that he was precisely the city guards army's head-commander, Luo Fang!

A figure able to make Luo Fang tag along as an attendant, his identity was also obvious.

"City Lord Your Excellency! W-Why have you come?" He Shuming said in astonishment.

This person was precisely Ancient Opulence City's City Lord, Ying Tianya!

Ye Yuan had heard of Jun Tianyu mentioning this person before. Even the lofty and proud Jun Tianyu's appraisal of Ying Tianya was very high too.

If say there were still people Jun Tianyu was apprehensive of in this Ancient Opulence City, there was only this Ying Tianya!

Ying Tianya walked out slowly from the crowd, carrying the unique bearing of a sovereign, and said with a faint smile, "This Ying heard that a Master Ye newly emerged in the city, and even opened a medicinal pill store on Ancient Opulence Street, so I came over to have a look on a spur of the moment. But I didn't expect that Alchemy Saint He is actually competing with Master Ye here. I wonder if this Ying has the qualifications to take on the post of the person presiding over?"

He Shuming hurriedly said, "City Lord Your Excellency is in such a mood. This He is absolutely honored!"

Ying Tianya nodded his head and looked at Ye Yuan, saying, "Does Master Ye have any objections?"

Ye Yuan said smilingly, "No objections."

Ying Tianya chuckled and said, "Fine then. This Ying will witness the splendor of my Ancient Opulence City's two pinnacle masters! I wonder what you two wish to compete in?"

Attentive people could tell that Ying Tianya's words placed Ye Yuan and He Shuming on equal positions. This made them very surprised.

Ye Yuan was merely a puny little Alchemy Sovereign. He could actually let City Lord His Excellency regard him with special attention like so?

Ye Yuan shrugged his shoulders when he heard that and said, "Doesn't matter to me. Up to him then."

Ye Yuan's attitude deeply wounded He Shuming's pride.

Seems like under this kind of circumstances, the one displaying an indifferent attitude should be him, right?

This brat really knew how to seize the limelight!

"Competing in pill refinement with a measly little Alchemy Sovereign, other people will definitely say that I'm bullying you! How about this, let's compete in fire control. How's that?" He Shuming said with a cold smile.

"Shameless! I heard that Alchemy Saint He is strongest in fire control. Isn't this bullying people?"

"Indeed rather shameless. But who asked that Ye Yuan to posture himself? He's only at the Alchemy Sovereign Realm, yet, he had to pretend to be like an Alchemy Emperor; indifferent about anything. Then he would naturally have to pick what he's good at."

"Actually, with Alchemy Saint He's strength, even if he doesn't choose fire control, Ye Yuan doesn't have any chances of victory either, right? Ye Yuan is biting more a little more than he can chew. Once he loses, the entire Fragrant Medicine Pavilion will be lost to him."

He Shuming's reputation in Ancient Opulence City was extremely great. Everyone all knew that what he was most proficient in was fire control.

He actually chose the fire control he was most skilled in at this time. It was seriously quite contemptible.

...

The Fragrant Medicine Pavilion made some simple preparation work. Because fire control did not require too complicated stuff, therefore, it was finished preparing very fast.

During this period, Qian-er had been nagging by the side constantly. Clearly, she was very displeased with Ye Yuan's decision.

Although she knew that Ye Yuan had some skill, doing so was truly a bit too risky.

Reaching Alchemy Saint Realm, which person would be mediocre?

Moreover, even if Ye Yuan's means were heaven-defying, what about his two disciples?

What Ren Dong and Xiao Ruyan had to face were Alchemy Ancestor experts!

Could his disciples be as heaven-defying as him too?

Ren Dong and Xiao Ruyan duo dragged their feet to Ye Yuan's side and said softly, "Master, we ... we ..."

Ye Yuan smiled as he patted Ren Dong's shoulder and said, "It's fine. Just take it as a game and bring out your usual training standards will do. Even if we really lose, worst comes to worst, we'll start over from the beginning once more. With Master's capabilities, what does a tiny little Fragrant Medicine Pavilion count as? Furthermore, the disciples that I, Ye Yuan, taught, if they can't even beat a few mongrels, then that's too disgraceful!"

In his past and present life, Ye Yuan only took in these two disciples. These few years, Ye Yuan spared no efforts in teaching them too, and never kept things to himself.

The two people's improvements, Ye Yuan took it all into his sights. Therefore, he was plenty confident in them too.

After a round of words, although it was unable to dispel the two person's worries entirely, it made them set their minds at ease considerably.

Yeah, a tiny little Fragrant Medicine Pavilion, what did it count as to Ye Yuan?

The two people exchanged glances, secretly cheering themselves on.

Everything prepared, Su Qide took the lead to fall out of the ranks. Looking at Ren Dong and Xiao Ruyan, he said with a scornful look, "Two little babies, don't blame this old man for bullying you guys! Want to blame, then blame that unreliable master of yours. It's fine if he's ignorant, but he even made his disciples come out and lose face!"

Ren Dong was indignant once he heard that and immediately shot back, "You old fogey, Master he can mess you up just with one finger! Just who is losing face, we'll know in a while!"

Finished talking, he turned to Ye Yuan again and said, "Master, Disciple requests to battle!"

Ye Yuan smiled and said, "Go then!"

As he said, Ye Yuan held his palm out. A small and exquisite lotus flower appeared. It was precisely one of Fiery's clones.

At present, Fiery and Ye Yuan's mind were linked up. As long as Ye Yuan was willing, he could lend essence fire to anybody for use and would not get a backlash.

"Take it. Teach that old bastard a lesson properly!"

#### **Chapter 735: Fire Tree, Silver Flower**

Alchemy King and Alchemy Ancestor were separated by two major boundaries.

But alchemists' duels were different from martial artists. A difference of two major boundaries between martial artists, even for a monster like Ye Yuan, he could not salvage it too.

But among alchemists, outside of competing in pill refinement, Alchemy Kings still had a possibility of winning Alchemy Ancestors theoretically.

Of course, that was also just in theory.

If without heaven-defying inheritances, for an Alchemy King to want to win an Alchemy Ancestor, that was basically sheer nonsense.

The accumulations and experience of an Alchemy Ancestor were simply not what Alchemy Kings could compare to.

Especially with fire control, experience had a crucially important effect. That was the accumulation on countless times of pill refinement.

Ren Dong and Xiao Ruyan's age were placed right there. No one felt that they could match up to a veteran Alchemy Ancestor like Su Qide in terms of fire control.

Actually, even Ren Dong himself did not have the least bit of confidence either.

Alchemy Ancestor expert, this was a boundary that he did not even dare to think about in the Lower Realms. And now, he was actually going to compete in fire control with such a powerhouse.

But Su Qide's words earlier infuriated Ren Dong.

Ye Yuan was akin to a god in his heart now. Su Qide's words touched his reverse-scale!

"No matter what, I must have a match with this old fellow properly! Even if I can't win him, I can't lose face for Master either!" Ren Dong secretly resolved himself.

In other people's view, this was a competition completely without chances of victory. But Ren Dong knew that Master's round was absolutely a crushing victory!

Competing in pill refinement, the present Ye Yuan was indeed unable to refine Tier 7 medicinal pills. But if competing on fire control, so what if the person was an Alchemy Saint powerhouse?

"Begin then, brat. I want to take a look at just how formidable the disciple taught by an Alchemy Sovereign is!"

As he said, Su Qide's essence energy spat out. A cluster of red flames appeared in his palm.

His fingers fiddled with the red flame, as if strumming a zither, dancing, giving people a feeling of soothing and relaxation.

In-between this, he even raised his head to look at Ren Dong from time to time, but he saw that Ren Dong still did not move. He just watched him control fire stupidly.

Seeing this scene, Su Qide was even prouder of himself.

"Truly too formidable! Indeed well-deserving of being an existence second only to Alchemy Saint He in Ancient Opulence City! This fire controlling skill is probably only inferior to Alchemy Saint He's!"

"Alchemy Ancestor experts are Alchemy Ancestor experts. Without repeated training and tempering, how can it be possible to master this level of fire controlling skill?"

"Today is really an eye-opener! Alchemy Ancestor Su's fire controlling skill is already so formidable. Then formidable to what degree is Alchemy Saint He?"

Hearing everyone's praises, Su Qide was even prouder of himself.

He still had some strength left over at this time, so he had the thought of flaunting his skill. The movements of his hands sped up more.

With this, it aroused more marveling.

Rather, it was Ren Dong who still looked at Su Qide blankly, and actually seemed like he forgot to take action.

“Hey, boy, you aren’t dazed from watching, right? *Huhu*, indeed an inexperienced brat who has ever seen the world before. Broadened your horizons today, right?”

He Shuming was even more delighted to see that Ren Dong was ‘frightened silly.’

Su Qide winning this match, the Fragrant Medicine Pavilion was basically half in his hands already. How could he not be delighted?

Ren Dong seemingly only came back to his senses at this time and said absent-mindedly, “*Uh*, this is the fire control of Alchemy Ancestor Realm?”

“Otherwise, what do you think? Boy, you’re still young, experiencing some setbacks isn’t much. With your age, to be able to cultivate to Alchemy King Realm is considered not bad. Either way, the Fragrant Medicine Pavilion won’t exist anymore in the future too. Why not you come under my tutelage. I’ll impart you even more ingenious fire controlling skills!” He Shuming guided gently and actually started snatching away his opponent’s people already.

He did not perceive the meaning in Ren Dong’s words at all, and he even thought that Ren Dong was taken by surprise by Su Qide’s fire controlling skill, that was why he would let out such an emotional sigh.

When Ren Dong heard, he knew that He Shuming was mistaken. He shook his head and said, “If this is the fire controlling skill of Alchemy Ancestor Realm, then me winning him shouldn’t be too difficult.”

He Shuming was stunned when he heard that. This brat actually dared to mess with him?

He was just about to fly off the handle when Ren Dong moved at this time!

Only to see him beckon with one hand. The fire lotus bloomed, similarly forming a small cluster of flames.

Following that, Ren Dong’s hands started moving dreamlike, while that small cluster of flames actually grew into a small tree under his spurring. Furthermore, it was strikingly vivid and lifelike!

That small tree gradually germinated, growing out branches, becoming luxuriant!

The originally still somewhat noisy Fragrant Medicine Pavilion suddenly quietened down at this time.

While He Shuming’s eyes turned into wide-saucers when he saw this scene.

Such consummate fire controlling skill was also not the least bit inferior to him, this Alchemy Saint!

What fire control skill was particular about was exquisiteness. Areas that should be strong was strong, places that should be weak was weak.

Only like this, could one let the medicinal pill receive more abundant baptizing of flames when refining pills.

To be able to condense flames to form the shape of a small tree, this required immensely profound skill!

Su Qide on the other hand, his skills appeared very brilliant indeed. But regarding the degree of exquisiteness in controlling flames, it was clearer worse than Ren Dong.

“Fire tree, silver flowers!”

Ren Dong gave a light cry. Bright-colored silver flowers actually bloomed one after another on that small tree!

How did Su Qide still have that leisurely composure from before at this time?

When he saw Ren Dong’s skill, his entire face went green.

He desperately urged the flames in his hand, likewise wanting to condense and form a small tree.

Su Qide was an Alchemy Ancestor powerhouse in the end. Under forceful deploying, he really condensed out the shape of a small tree.

It was just that this small tree’s appearance, even for the martial artists who did not know fire controlling skills, they could also distinguish the good from the bad.

At the end, Su Qide’s face was flushed red. But the small tree was completely unable to become like Ren Dong’s, vivid and lifelike.

“The first match, Fragrant Medicine Pavilion wins!” Ying Tianya announced the results right away.

Regarding this kind of result that was apparent, no one doubted it at all.

Ren Dong put away the flames, ran in front of Ye Yuan, and said with an excited look, “Master, turns out that my fire controlling skill is already this incredible!”

Ye Yuan smiled and said, “You don’t know what’s you’re talking about. It’s still early! Today, making you guys take action is to let you guys find a bit of confidence. But keep in mind to not be complacent! One loses by pride and gains by modesty, understood?”

Ren Dong nodded his head like a chicken pecking for rice and said obediently, “Disciple understands!”

These few year’s time, Ren Dong and Xiao Ruyan duo did not idle their time away in the Vast Heaven Pagoda.

On the contrary, Ye Yuan carried out demon-like training for the two of them.

This fire controlling was one of them!

The missions that Ye Yuan assigned were all extremely focused. Ren Dong and Xiao Ruyan immersing themselves in diligent practice, their strength soared by leaps and bounds too.

It was just that the two of them were both immersed in exceedingly dreary training. Moreover, most of the training was alchemist’s basic skills, resulting in the two of them not having much understanding of their current strength.

It was only when Ren Dong saw Su Qide controlling his fire did the former knew what kind of level his strength already reached.

One could say that apart from his cultivation realm not reaching the standard, he actually already surpassed Alchemy Ancestor powerhouses all-round in basic skills now!

## Unrivaled Medicine God

### **Chapter 736: Complete Victory!**

"Junior Apprentice Brother, you can even win with such standards. I already have nothing to say." Xiao Ruyan rolled her eyes at one side.

Ren Dong touched his head when he heard and said embarrassedly, "Senior Apprentice Sister, I ... I also didn't expect that his level was so lousy."

"Makes sense. I even thought that an Alchemy Ancestor's fire controlling level was very high. I didn't think that that was all he got. Made me worry for half a day in vain."

"Huhu, yeah! I was dumbfounded watching just now and even thought that I saw wrongly. How can an Alchemy Ancestor's fire control level be just this bit? Senior Apprentice Sister's fire controlling skill is even more formidable than mine. You should win even more easily."

"Hehe, even a guy like you can win. If I don't win, wouldn't I lose face for Master too much?"

These apprentice sister and brother's conversation made everyone speechless when they heard.

Alchemy Kings who dared to say this sort of words in front of Alchemy Ancestors were probably also just these two apprentice sister and brothers, right?

Ying Tianya looked at Ye Yuan rather interestedly, his gaze exuding thick astonishment.

Ren Dong's and Xiao Ruyan's expressions did not seem to be fake. Looks like they really did not know that their own strengths were actually that strong.

Then how profound a skill did the Ye Yuan who was able to teach the two of them had to have?

Ren Dong's performance earlier really took his breath away.

If not for seeing with his own eyes, Ying Tianya really did not dare to believe that a puny little Alchemy King actually had such superb fire controlling standards.

Ying Tianya could not help looking forward to the showdown between Ye Yuan and He Shuming.

Right at this time, Xiao Ruyan fell out of the ranks and said to the group of Alchemy Ancestors with full confidence, "Hey, is there any a little stronger? Come out and let's compete. If it's that level just now, this young lady won't even have the desire to compete."

"..."

The group of Alchemy Ancestors glanced around, looking at one another. Not one actually dared to come out and fight.

If it was before Ren Dong and Su Qide's competition, they would definitely have jumped up already.

But now, facing Xiao Ruyan's provocation, they did not even dare to let out a fart.

They heard distinctly just now that Xiao Ruyan was Ren Dong senior sister. Moreover, when Xiao Ruyan was looking down on Ren Dong earlier, Ren Dong did not have any temper at all either.

That indicated that Xiao Ruyan's fire control level was even above Ren Dong's!

And in their group of people, the one strongest at fire control was Su Qide.

Under such circumstances, who was still willing to take the initiative to come out and lose face?

"What? If no one else is coming out to fight, this Ying will take it as you guys forfeit," Ying Tianya said nonchalantly when he saw that there was no one responding for a long time here.

Xiao Ruyan smiled smugly, but she voiced out, "Forget it, looks like you guys are also just this level. How about this, this young lady will perform a set of fire controlling art. If there is anyone among you guys able to do it, count it as this young lady's loss. How's that?"

Those few Alchemy Ancestors exchanged glances and felt indignant, but they did not dare to speak up.

At this time, nobody dared to come out and brag either. Everyone losing face together was better than one person coming out to lose face.

By the side, He Shuming's face was already livid with rage already. This bunch of fellows was really not reliable at all, to actually be freaked out by a little child!

"Since you all are not speaking, then this young lady will take it as you guys agree!"

As she said, Xiao Ruyan held her palm out. A small cluster of flames gradually became a small flower.

Following that, her palm quivered. Another small flower actually emerged again.

Xiao Ruyan's palm vibrated with rhythm. After that, one small flower after another derived from it.

Xiao Ruyan actually danced trippingly while creating little flowers. And those small flowers rose and danced gaily along with her.

At this moment, Xiao Ruyan was like a flower fairy maiden. Those flower petals served to accentuate her beauty even more soul-stirringly.

For a moment, all the martial artists were senseless from watching.

They had never seen such a beautiful scene before, such exquisite fire controlling skills.

Creating one small flower wasn't considered much. Three or five flowers did not count as anything too. But creating a hundred flame flowers in one go, and still being able to manipulate to her will like so, then that was too incredible!

All of a sudden, Xiao Ruyan stopped the dance steps. Those tiny flowers also dissipated along with it.

Quite a number of people were still immersed in that beautiful scene earlier and was unable to extricate themselves.

"Too ... Too beautiful! Really have no way of imagining that dreary fire controlling arts are actually able to display such a magnificent and gorgeous environment!

"Even Master Ye's disciples have such strength. Then wouldn't his own fire controlling skills be heaven-defying?"

"I really want to witness Master Ye's fire controlling skills! But the Fragrant Medicine Pavilion already won two rounds in a row. There probably isn't the opportunity already, right?"

Xiao Ruyan herself also did not expect that her displaying this fire controlling skill today, she actually became the goddess in the hearts of the Ancient Opulence City's male martial artists.

After today, many people all came to the Fragrant Medicine Pavilion all for a look at her gorgeous appearance.

"Gentleman, are there people able to imitate Miss Xiao's fire controlling skill?" Ying Tianya asked.

Those few Alchemy Ancestors had awkward looks, their eyes evading.

Forget about Xiao Ruyan, even Ren Dong's move was already hard for them to execute!

Ying Tianya smiled faintly when he saw no one respond and said, "Since that's the case, the second round is also the Fragrant Medicine Pavilion's victory! The Fragrant Medicine Pavilion won two rounds in a row. This Ying feels that this third round probably doesn't have the need to compete already, right?"

He Shuming's expression flickered incessantly but did not make a sound.

Right then, Ye Yuan came forward and said, "Alchemy Saint He is an Alchemy Saint powerhouse. Presumably, his fire controlling skill wouldn't be so mediocre. This Ye feels that this third round should be engaged in. Otherwise, Alchemy Saint He would likely be unconvinced in his heart! How about this, this Ye will be like his disciple and display a fire controlling skill. If Alchemy Saint He is able to do it, count it as this Ye's loss. How's that?"

Ye Yuan stepping out at this time was equivalent to checkmating He Shuming.

Ying Tianya was a little surprised, but asked He Shuming, "What does Alchemy Saint He think?"

Actually, He Shuming's fire controlling skill was rather brilliant. Xiao Ruyan's level of fire control, he could actually barely achieve it.

But the problem was, Xiao Ruyan was just Ye Yuan's disciple.

The disciple's strength already reached such a level. Then what about her master?

But to let him admit defeat like this, he was unreconciled to it too.

He was this Ancient Opulence City's top seat. If he admitted defeat, where would he put his old face?

He Shuming gritted his teeth and said, "Compete then! Who's afraid of who?!"

Ye Yuan smiled slightly and said, "Watch closely!"

Only to see Ye Yuan place his hands together and pull. With a flutter, countless flying birds flew out from his palms just like this, soaring around the Fragrant Medicine Pavilion's cross-beam.

These flying birds were all strikingly lifelike. Even the eyes of each bird seemed so intelligent.

If not for knowing beforehand, these martial artists would probably even think that these flying birds were real!

Furthermore, the species of these flying birds were all different. Size and appearance, not a single one was exactly alike!

Counting simply, Ye Yuan created thousands of birds with species different from one another.

Everyone all sucked in a cold breath!

Different from Xiao Ruyan, Ye Yuan practically created so many flying birds instantaneously.

This level of fire control skill could already be rated as a masterpiece!

### Unrivaled Medicine God

#### **Chapter 737: Hundred Birds Paying Homage to a Phoenix!**

Thousands of birds circled around the beam. This scene was a grand sight.

Just this move was already hard for He Shuming to imitate.

Drawing a myriad of life with the power of flames, this level of fire control was simply divine!

He Shuming's fire control skills were very strong. To really make him illustrate some flying birds, he was also barely able to achieve it. But to let him do it until every flying bird was so lifelike and indistinguishable from the original, how could he accomplish it?

This did not just require subtle control over flames, it required exquisite control over essence energy even more!

"Humph! I was wondering how incredible a fire controlling skill it was. It's merely about the same as your disciple too!" He Shuming said stubbornly.

Once these words came out, quite a few martial artists shot him contemptuous eyes. This was clearly the tempo of unable to bear a loss.

But Ye Yuan smiled slightly and said, "Alchemy Saint He doesn't have to be anxious. It isn't finished yet!"

Finished talking, Ye Yuan extended a finger, and dotted and drew a line in the air. A series of faint chirps suddenly sounded out.

"My god! It's a phoenix! That ... is that really a phoenix?"

"No, wait! That isn't a real phoenix! It's likewise drawn by Ye Yuan with fire control skills!"

Once the phoenix emerged, a wave of marveling immediately echoed in the Fragrant Medicine Pavilion.

Those birds were originally flying around the beam. Once the fire phoenix emerged, they actually collectively stopped in the air, and actually seemed to pay homage to the fire phoenix collectively!

"My hundred birds paying homage to a phoenix, if Alchemy Saint He can do it, count it as our Fragrant Medicine Pavilion lose, how's that?" Ye Yuan said with a smile that wasn't a smile.

He Shuming's expression was incomparably nasty. He never would have thought that a puny little Alchemy Sovereign's fire controlling skills actually reached such a terrifying level!

The scary thing about this hundred birds paying homage to a phoenix was not how difficult it was to illustrate, but that these birds actually had some intelligence!

Fire controlling skill reaching this kind of level already had no way of describing with words anymore!

He, He Shuming, even if he cultivated for another several hundred years, it was impossible to attain such a level too.

"Humph! Ye Yuan, today's score, this He has noted it down! Let's go! 100 thousand merit points, I'll send people to transfer you in a while!"

He Shuming seriously could not stay on here any longer and could only flick his sleeves and leave.

When they left, it even incurred a wave of booing.

After today, Ye Yuan could be considered to have become famous in one battle in the Ancient Opulence City.

An Alchemy Saint powerhouse brought along a bunch of Alchemy Ancestors to the Fragrant Medicine Pavilion to challenge them. In the end, they were beaten by an Alchemy Sovereign and two Alchemy Kings to a sorry plight, each and every one of them leaving dusty and dirty in appearance!

This level of strength was sufficient to indicate that the Fragrant Medicine Pavilion had the ability to keep a foothold on Ancient Opulence Street.

Moreover, in the foreseeable future, Fragrant Medicine Pavilion's limelight might even overshadow the Heaven's Destiny Trading Company completely!

"Ye Yuan, you're too incredible! Really didn't expect that your fire controlling skill has actually reached such a miraculous boundary!"

Ye Yuan's performance gave Qian-er a hugely pleasant surprise. Only now did she know why Ye Yuan did not want their Meteor Trading Company's Alchemy Ancestor powerhouse to come over.

In front of Ye Yuan, what did Alchemy Ancestor powerhouses count as?!

Ye Yuan looked at Qian-er and said mockingly, "Didn't you even say prior to this that I was treating it too much of a child's play?"

Qian-er's face reddened, and she lowered her head bashfully. Although separated by a layer of veil, Ye Yuan was able to feel her embarrassment too.

"Your fire controlling art is so incredible. Why didn't you tell me in advance? Let me be mentally prepared too!" Qian-er said begrudgingly.

Ye Yuan said with a smile, "Even if I tell you that I'm very incredible, would you believe?"

"Uh ... seems like no," Qian-er was stunned and blurted out.

"Hahaha! Master Ye's fire control skill truly let this Ying broaden my horizons! If not for seeing with my own eyes, this Ying would really be unable to imagine that an ascender actually possessed such terrifying strength!" Ying Tianya said with a big laugh.

"Huhu, City Lord Your Excellency is too kind. This is merely an unorthodox path of this Ye, just trying to get by."

Ying Tianya looked at Ye Yuan meaningfully and suddenly opened his mouth, "Master Ye, how about we head inside and have a talk?"

Ye Yuan said, "Please!"

...

Driving away He Shuming, there was also not much use of Ye Yuan staying at the front anymore.

This sort of thing like management, the Meteor Trading Company's people were obviously much more formidable than him.

This time, he achieved fame in one battle. With so many martial artists witnessing him defeating He Shuming with fire controlling arts, it would definitely spread throughout the entire Ancient Opulence City very quickly.

What this selling of medicinal pills relied on was fame.

The Heaven's Destiny Trading Company being able to overwhelm the Meteor Trading Company, a very large degree was all due to He Shuming.

The Meteor Trading Company was unable to dispatch Alchemy Saint powerhouses over to this Ancient Opulence City for various reasons. Being suppressed was also bound to happen.

For Ye Yuan to smack He Shuming's face today so domineeringly, the objective was in order to let all the martial artists know his prowess. This way, the Fragrant Medicine Pavilion would naturally rack in riches.

Adding in that the Fragrant Medicine Pavilion's medicinal pills quality was too solid, squeezing out a large proportion of the Heaven's Destiny Trading Company's profits was also inevitable.

Cooperating with the city guards army, Ye Yuan long had expectations.

Him unveiling the medicinal pills for Luo Fang to try previously naturally captured his heart all at once.

It was just that Ye Yuan did not expect that Ying Tianya this City Lord actually came to visit.

"I wonder what City Lord Your Excellency is finding Ye Yuan for?" when both parties sat down, Ye Yuan asked straight away.

"Huhu, Master Ye is a straightforward man speaking his mind. I won't beat around the bush either. Luo Fang holds the few types of medicinal pills you guys unveiled in high esteem. I came today naturally wanting to witness it," Ying Tianya said.

"Oh? Just a few medicinal pills. How can it trouble City Lord to come in person?"

As he said, Ye Yuan took out several medicinal pills and placed them in front of Ying Tianya.

Ying Tianya was not courteous either, swallowing those few kinds of medicinal pills in one go, his eyes involuntarily lighting up.

"No wonder Luo Fang praised your medicinal pills so highly. This medicinal effect is indeed extraordinary! Master Ye, our City Lord Manor plan on placing an order for these few medicinal pills. Each type of medicinal pill, 5000 pills. What do you think?" Ying Tianya said.

The medicinal pills Ye Yuan took out had a total of five kinds. 5000 of each type of medicinal pill was 25 thousand medicinal pills.

To the newly open Fragrant Medicine Pavilion, this was absolutely a big business.

But Ye Yuan's face did not have much of an agitated expression. Instead, he smiled faintly and said, "Thank you very much for City Lord Your Excellency's generous kindness. This Ye is endlessly grateful. But City Lord Your Excellency didn't make a trip personally for the sake of a few medicinal pills, right?"

Ying Tianya laughed out loud when he heard and said, "Haha, looks like it indeed can't hide from Master Ye! Actually, coming to find Master Ye today is because I have a matter to request you. It's just that this matter is hard to talk about, so ..."

Ye Yuan smiled and said, "So you first put me under obligation, then talk about this hard to say matter, is it?"

Luo Fang's expression changed when he heard that and said, "Ye Yuan, what are you saying! City Lord His Excellency, he ..."

Luo Fang had yet to say finish and was stopped by Ying Tianya with a hand gesture, who said with a smile, "Master Ye's heart is like a clear mirror. Looks like nothing can be hidden from you. It's just that this matter is very important to me ..."

But Ye Yuan interrupted Ying Tianya's words straight away and said, "Something that even City Lord Your Excellency finds very hard is most likely very dangerous. Since it's hard to talk about, then it would be better to not talk about it. This business, our Fragrant Medicine Pavilion won't take it on."

### [Unrivaled Medicine God](#)

#### **Chapter 738: Spar**

There was no free lunch in this world. Ying Tianya buying so many medicinal pills from the Fragrant Medicine Pavilion in one go, if this was calculated according to earth essence crystals, the number could be counted in the hundreds of thousands.

Therefore, the thing he wanted Ye Yuan to do would likely have to pay an equal price too.

If it were just treating illnesses and saving people, Ying Tianya definitely would not find it so hard to say.

Therefore, Ye Yuan determined that the thing Ying Tianya wanted him to do definitely had a corresponding risk.

At least, to him, this Divine Traversing Realm martial artist, it was rather dangerous.

Ying Tianya's stomach full of words was blocked right at his mouth by Ye Yuan. His gaze when looking at Ye Yuan could not help having some transformation.

He thought that his order of his was sufficient to move Ye Yuan. He didn't expect that Ye Yuan rejected it without even blinking.

One had to know that this order, even when placed in the Heaven's Destiny Trading Company, it was absolutely not a small sum either, let alone that the Fragrant Medicine Pavilion was just a newly-opened medicinal store.

"Master Ye, this order has nothing to do with me inviting you to take action. After the matter is done, this Ying will have another generous gift to offer. The value will be several times of this order!" Ying Tianya refused to give up.

Ye Yuan said smilingly, "Does City Lord Your Excellency take this Ye to be a fool? The more generous the remuneration you give, it means that the matter you make this Ye do will be more dangerous. This Ye is just a Divine Traversing Realm junior. If City Lord Your Excellency requires alchemists, wouldn't going to find Alchemy Saint He be more suitable?"

It was not that Ye Yuan really did not want to go. It was just that his current strength was still a little weak in the Divine Realm. Therefore, he planned to cultivate in the Ancient Opulence City for a period of time before going out.

The strength of the Divine Realm's martial artists was much stronger compared to the Lower Realms.

Ye Yuan could even leap across a major cultivation realm to one-shot his foe in the Lower Realms. But wanting to do this while being in the Divine Realm was quite hard.

He still had some chances of victory when dealing with ordinary initial-stage Boundless Realm powerhouses with his current strength. But if they came out from major families with inheritances, then it would be rather strained.

Even in this unassuming Ancient Opulence City, martial artists who comprehended true intent could be found everywhere too.

Even like Jun Tianyu this kind, they were also not too far off from comprehending supreme true intent.

Walking around outside with Ye Yuan's current strength was still a little too dangerous.

Ying Tianya smiled bitterly and said, "I'm not hiding things from Master Ye. Actually, the person I have in mind originally was He Shuming too. But after witnessing Master Ye's skills, I feel that you're a more suitable choice. But for precautionary measures, I plan on inviting you and Alchemy Saint He to go along together. Master Ye rest assured, this trip is only to save people. As long as the person is rescued, we'll pull out immediately and absolutely won't stay!"

Ye Yuan mused for a moment and said, "Talk more about the specifics."

The moment Ying Tianya heard that there was hope, he could not help becoming overjoyed and recounted the whole story of the incident.

Turns out that Ying Tianya's junior apprentice brother unwittingly found an ancient grotto and headed inside the grotto alone to seek treasures. In the end, he was trapped in that ancient grotto.

But Ying Tianya's relationship with this junior apprentice brother was very close. The two of them had a kind of special skill to transmit news. Hence, his junior pleaded for help from Ying Tianya through this skill.

Ying Tianya received the news that his junior was trapped in the ancient grotto and was unable to get away. Furthermore, he was inflicted with a peculiar poison. It was Ying Tianya who thought of inviting alchemists along.

"That junior of mine is only only at the Second Level Heaven Enlightenment. He's able to preserve his life in that ancient grotto. Presumably, that grotto shouldn't be too dangerous. This Ying assures you to definitely do everything in my power to ensure your safety this trip! As long as this Ying is around, I absolutely won't let people harm a hair of yours!" Ying Tianya patted his chest and said.

Ye Yuan smiled as he shook his head and said, "Asking me to go is viable. But this kind of guarantee is still not enough!"

Ye Yuan was not some fledgling experiencing the world for the first time. This kind of verbal promise, he did not trust at all.

When danger really struck and Ying Tianya ran at the critical juncture, who could he find to reason things out?

Ying Tianya hesitated for a moment, but took out a suit of armor and said, "This is this Ying's personal suit of armor; high-grade profound artifact, Skyplume Treasure Armor. Even Heaven Enlightenment Realm powerhouses are unable to break its defense in a short while either. I wonder if this Ying's sincerity is sufficient? Of course, the terms promised to Master Ye prior still stands. After the matter is done, I'll pay a reward of one million merit points separately!"

Ye Yuan took over the Skyplume Treasure Armor from Ying Tianya's hands and said with a nod, "Alright, deal. But I have a condition!"

"Master Ye please say!"

"My condition is that Brother Jun travel together with me!" Ye Yuan said.

Ying Tianya nodded with an emotional sigh, "If Younger Brother Jun is able to travel together, then that's for the best. With Younger Brother Jun's strength, this journey is bound to have a few more parts of assurance!"

...

After Ying Tianya left, Ye Yuan said to Jun Tianyu with a slight apology, "Brother Jun, dragging you into the water this time, I'm really sorry!"

Ye Yuan knew that this journey likely would not be that simple. But the only helper Ye Yuan could find now was only Jun Tianyu.

Jun Tianyu said with a smile, "What's Younger Brother Ye saying? This Jun has also not worked out my body for a long time. My cultivation has also remained stagnant for very long. This trip is precisely a turning point. I hope that I'm able to have some gains."

Jun Tianyu's words were not false. These few years, for the sake of Liu Yiru's ailment, he practically abandoned cultivation, resulting in his cultivation stagnating and not advancing all along.

If he still did not work his body, wanting to break through in the future would be hard.

A character like Jun Tianyu was naturally unresigned to only having Heaven Enlightenment Realm strength for all his life. That would be even worse than killing him.

Ye Yuan said, "Great kindness can't be thanked with words. This grace of Brother Jun, this Ye has remembered it."

"*Haha*, isn't Younger Brother Ye regarding me as an outsider here? To really talk about being grateful, it should also be me thanking you! Without you, I'd probably be a walking corpse right now already. Moreover, this Fragrant Medicine Pavilion establishing, you gifted 20% performance shares directly to me. You can't let a grown man like me eat idly without working, right?" Jun Tianyu cracked a rare joke.

It was just that no matter what, to be able to generously travel together under the situation where he clearly knew there was danger, this great kindness of Jun Tianyu's made Ye Yuan very grateful.

Ye Yuan thought about it and said, "Brother Jun, this Ye's current strength is meager and is also unable to help you refine medicinal pills. But this Ye is incapable and happened to have some comprehension on Sword Dao too. Why don't we spar a bit? Hopefully, it can be of some assistance to you."

Jun Tianyu froze when he heard that. He was really unaware that Ye Yuan actually had some attainments along the martial path apart from refining pills.

Moreover, hearing Ye Yuan's meaning, his attainments on Sword Dao was even not low.

Jun Tianyu had dealt with Ye Yuan for some time too and knew that he was not someone to shoot his mouth off.

To dare say so, he probably had some capabilities.

But regarding Ye Yuan's words, Jun Tianyu was still rather disapproving of it in his heart.

Ye Yuan's attainments in alchemy, Jun Tianyu prostrate on all fours in admiration.

But there were times a person's strength just wouldn't do. How high could Ye Yuan's attainments in Sword Dao be?

Ye Yuan doing so was just a kind of compensation for dragging him into the water just now. The idea was nice, except, the effects were likely totally nonexistent.

In Jun Tianyu's view, Ye Yuan's present level was completely unable to understand how high his current Sword Dao concept boundary was!

#### **Chapter 739: Restoring Pill Formula**

"Lord Chairman, things are bad! Today, the moment the Fragrant Medicine Pavilion opened for business, the door sill was crushed from the crowd!"

Early in the morning, the Heaven's Destiny Trading Company's manager went to find Zuo Xin in a fluster. The Fragrant Medicine Pavilion's explosive scene frightened him badly.

In comparison, their Heaven's Destiny Trading Company side here was deserted and quiet, practically without any customer.

Zuo Xin's frowned and asked, "What's going on?"

"The Tier 5 medicinal pills that the Fragrant Medicine Pavilion unveiled, the medicinal effects are actually 40-60% higher than our varieties of the same kind, but the prices are even cheaper than after we discounted 20%! In addition ... In addition ..." said the manager. The manager stammered but did not dare to continue speaking.

Zuo Xin's expression darkened, and he said, "Speak!"

"Yes, Lord Chairman! In addition, Alchemy Saint He was completely crushed by the Ye Yuan, master and disciples, yesterday. Overnight, it was like the martial artists in the entire city all knew the Fragrant Medicine Pavilion's prowess!" the manager said.

*Bang!*

Zuo Xin gnashed his teeth hatefully and threw the teapot in his hand directly onto the ground, smashing it into pieces.

"Go, think of ways to get some of the Fragrant Medicine Pavilion's medicinal pills over for me!" Zuo Xin said solemnly.

"This subordinate has already gotten them from some martial artists who purchased the medicinal pills. Here they are."

The manager clearly knew how to handle affairs well. Without waiting for Zuo Xin's instructions, he already brought the medicinal pills over.

But at this time, Zuo Xin was not in the mood of praising him at all. Snatching the medicinal pills over in a flash, he started scrutinizing in detail.

But looking for a long time, Zuo Xin could not figure out what difference the medicinal pills in his hands was from his own too.

"Go, get Alchemy Saint He to come over! Hang on ... forget it, I'll go find him myself!"

Such a major matter, Zuo Xin could not wait at all.

If it were really as the manager said, then the Heaven's Destiny Trading Company would be facing its greatest crisis!

The business that Zuo Xin laid down a foundation for in the Ancient Opulence City painstakingly would be encroached on to the limits by the Meteor Trading Company very soon!

Although Tier 5 medicinal pills only belonged to the low-level market, it was also the largest market. If this piece were eaten by the Fragrant Medicine Pavilion entirely, their business would probably lose 30-40%!

This kind of loss, the Heaven's Destiny Trading Company seriously could not bear it!

Moreover, Zuo Xin also heard that the Fragrant Medicine Pavilion even had an expert assisting behind and was even able to refine superior-grade, even transcendent-grade Tier 6 medicinal pills.

If left to grow unchecked, the outcome was too ghastly to imagine!

Originally thought that two plots were enough to deal a fatal blow to the Fragrant Medicine Pavilion. Who knew that hitting the snake failed to kill it and was bitten instead. The Fragrant Medicine Pavilion just opened for business day two and caused such a grave threat to the Heaven's Destiny Trading Company.

What surprised him even more was that He Shuming, a dignified Alchemy Saint, actually lost to an Alchemy Sovereign just like this!

Even though it was just on fire control, losing means losing; there was no excuses. Those martial artists purchasing medicinal pills would not listen to any excuses either!

Zuo Xin found He Shuming very quickly. Initially, he was embarrassed to meet Zuo Xin. But he already came to find him. He could not very well avoid Zuo Xin either.

But after Zuo Xin briefly recounted the enormous crisis the Heaven's Destiny Trading Company was facing, He Shuming had no way of being calm too.

He originally thought that yesterday's loss was just a one-time loss, did not affect the whole.

Who knew that on the second day morning, he would hear such news like a bolt out of the blue.

"This ... Why would the Tier 5 Essence Restoring Pill add in Starnet Secret Flower? *En?* There is even Moon Foil Heavenly Sand? This ... This doesn't adhere to medicinal theory at all! The strangest thing is that after adding in these things, the medicinal effect actually increased 40-50% compared to the original. This is simply inconceivable!"

He Shuming was deserving of being an Alchemy Saint powerhouse. Just by smelling it with his nose, he already found the aspects different from ordinary Tier 5 Essence Restoring Pills.

It was just that the way he saw it, adding in these things was simply downright nonsense and should ruin the medicinal properties of the core ingredients.

But why would the medicinal effects rise so much instead after adding these in?

A new type of medicinal pill emerging in the world would always cause alchemists to fervently research it.

The composition of a medicinal pill actually did not have many areas that could be concealed. High-level alchemists could differentiate what kind of medicinal herbs a medicinal pill was constituted of just by using their noses.

But to want to restore the pill formula through a medicinal pill, that was virtually something impossible.

Because each type of medicinal herb's proportion, quantity, were all unable to restore to its original form. Let alone the method of refining and how the fire should be controlled.

Alchemy was an extremely precise work. Even if it were wrong by a wee bit, what was refined would be useless pills too.

But this did not hinder He Shuming's gasps of admiration towards this Tier 5 Essence Restoring Pill!

"Alchemy Saint He, can this medicinal pill ... be restored to its original form?" Zuo Xin asked rather cautiously.

He Shuming heaved a sigh and said, "With my strength, it's definitely unable to restore the pill formula. This medicinal pill looks trivial and normal on the surface. But the refining method is extremely mystifying and done by an experienced alchemist. If I want to crack it ... there's likely only sending it back to the headquarters. It's just, I don't know if the Alchemy Emperor powerhouses in the headquarters can restore the pill formula or not!"

Restoring the pill formidable, although it was virtually impossible, there was still that little bit of hope. If not, there wouldn't be some very popular pill formulas circulating too.

But to want to restore the pill formula, it normally required strength that transcended multiple ranks.

This is because their understanding towards medicinal theory and pill refinement had already reached an extremely profound boundary.

If luck was good, they could still fumble out some trick to it through some attribute relationship between the spirit medicines.

Zuo Xin exclaimed in shock, "Even Alchemy Venerables are unable to restore to its original form?"

He Shuming shook his head and said, "In my opinion, Alchemy Venerable experts won't cut it too! If this medicinal pill is refined by Ye Yuan himself, then his attainments in alchemy are absolutely above mine! It's just that his cultivation is lacking, that's why he's not able to refine Tier 6 and above medicinal pills. But if it's like this, then that person behind him ... his strength would be too terrifying!"

Although unwilling to admit it, the truth in front of him still made He Shuming candidly admit defeat.

Zuo Xin was horrifyingly shocked when he heard that. This was just a Tier 5 medicinal pill. Logically speaking, Alchemy Venerable powerhouses should be able to restore the pill formula.

But He Shuming said such intricate pill must have Alchemy Emperors to work on it.

Zuo Xin gritted his teeth and said, "This batch of medicinal pills are of great importance. We'd better send it back to the headquarters! Later, I'll make clear the situation to Lord Deacon. If these medicinal pills really can have their pill formulas restored, it will absolutely be highly beneficial to our Heaven's Destiny Trading Company!"

He Shuming nodded his head, clearly in approval of Zuo Xin's view too.

Under normal circumstances, Alchemy Emperor powerhouses would not even be bothered to take action and restore such low-level medicinal pills.

But in Zuo Xin's view, if the pill formulas of these medicinal pills could be restored, the Heaven's Destiny Trading Company would have profits pouring in!

Because the Heaven's Destiny Trading Company's branches were everywhere; spanning several major regions. Once popularized, these few types of medicinal pills would absolutely be money trees!

Regardless whether the headquarters agree or not, these medicinal pills must all be sent back!

Zuo Xin believed that with upper echelons' vision, they would absolutely be able to discern these Tier 5 medicinal pills' value!

...

And at this time, Ye Yuan and Jun Tianyu were currently facing opposite each other.

"Brother Jun, I'll demonstrate a set of martial technique now, named Azure Dipper Floating Zero Sword. You have to look closely!"

#### **Chapter 740: In the Limeligh**

"Nine Swords Stance!"

Ye Yuan gave a light cry. Nine figures suddenly divided. Nine streaks of swordlight merged into one, charging straight for the horizon!

Jun Tianyu was a person extremely arrogant at heart and haughty in manner. Regarding Ye Yuan's enthusiasm, although he did not say anything verbally, he was still rather disapproving of it in his heart.

But the moment Ye Yuan's Nine Swords Stance appeared, Jun Tianyu's countenance suddenly changed.

"Supreme true intent! It's actually supreme true intent!" Jun Tianyu exclaimed in shock.

But Ye Yuan did not answer. The second move was unleashed!

"Thousand Flowing Petals!"

"Myriad Rain Sword Blades!"

"Rending the Sky!"

Each move he executed, Ye Yuan's sword intent blossomed a degree more!

When it reached Rending the Sky this style, Ye Yuan's sword intent was already powerful to an unrivaled degree.

Jun Tianyu's sword intent was involuntarily spurred on by Ye Yuan.

The sword intent on his body appeared rather disorderly. Under Ye Yuan's sword intent, his sword intent was actually somewhat going out of control!

One had to know that he was two major cultivation realms higher than Ye Yuan. Such a bizarre thing would actually occur!

By the time Ye Yuan finished displaying the four styles of sword moves, Jun Tianyu had looked at Ye Yuan and smiled bitterly as he said, "Younger Brother Ye, you've kept me bitterly in the dark! You and I have been acquainted for so many days, and I actually didn't know that you were even a Sword Path expert! What made me even more astonished was that you actually even comprehended supreme true intent!"

Ye Yuan smiled and said, "Not that I intentionally hid it. It's just that I didn't have the chance to take action these few days. Moreover, even if I comprehended supreme true intent, my cultivation realm is still a little too low when all is said and done."

Right now, all the people in the city knew that an Alchemy Path genius appeared on Ancient Opulence Street, and even crushed Alchemy Saint He.

But the world did not know that this Alchemy Path genius was also a Martial Path genius at the same time!

A Martial Path genius who comprehended supreme true intent!

Although Ye Yuan's supreme true intent had yet to be perfected, to a holy land, there were not many people able to comprehend a supreme true intent in total as well.

One should not look at how Jun Tianyu's strength was formidable and not far from comprehending supreme true intent either. But to really reach the point of comprehending the elementary form of supreme true intent, he still had a very long way to go.

As for reaching perfection, it would probably be his life's pursuit.

While Ye Yuan's supreme true intent was clearly not too far away from perfection already!

To such a young martial artist, this was simply an inconceivable thing.

"Younger Brother Ye, you really astound me too greatly! Even for super holy lands' geniuses, there aren't many able to comprehend supreme true intent at your age either! If holy lands know that you comprehended Sword Dao to this kind of extent, they will definitely treat you like a treasure," Jun Tianyu said.

"*Huhu*, I don't like to be waited upon by other people nor do I need to be attended to by others as well. Brother Jun, leave this matter aside for the time being. Let's exchange notes properly on Sword Dao these few days. Hopefully, it can be of assistance to you," Ye Yuan said.

Jun Tianyu nodded and said, "That will be for the best!"

These few years, although Jun Tianyu delayed some cultivation time because of Liu Yiru's affairs, the main thing was still that he fell into a bottleneck.

Not everyone could be like Ye Yuan, comprehending true intent by admiring the sight of a blossom shower.

And on this point, no one was able to help Jun Tianyu transcend the bottleneck.

But Ye Yuan was different. His comprehension on Sword Dao was extremely deep and already touched the true meaning of Great Dao.

Him giving pointers to Jun Tianyu frequently let him have a feeling of suddenly being enlightened.

Having an expert to give pointers when at this kind of bottleneck would yield the effect of twice the result with half the effort.

And Ye Yuan did not have the intention of holding back either, talking about his own comprehension towards Sword Dao for Jun Tianyu to hear.

Ye Yuan had a feeling that this trip probably would not go that smoothly. Therefore, the stronger Jun Tianyu's strength was, the more assurance regarding their safety.

Of course, Ye Yuan did not idle away himself either.

For this trip, Ye Yuan did not stint to employ the chaos gems to slow down the flow of time!

With the Fragrant Medicine Pavilion, Ye Yuan did not lack earth essence crystals for the time being now. All sorts of resources piling up, he broke through his bottleneck very quickly.

Cultivating nearly for six month in the Vast Heaven Pagoda, Ye Yuan broke through two minor boundaries in a row and finally broke through to the Fourth Level Divine Traversing Realm, reaching middle-stage Divine Traversing Realm!

But after reaching middle-stage Divine Traversing Realm, Ye Yuan's consumption of resources became even scarier.

The 100 thousand merit points earned from He Shuming there was actually expended fully in these six months.

For He Shuming, 100 thousand merit points, it was actually not considered much. But to the Ancient Opulence City's ordinary martial artists, it was absolutely an astronomical figure.

And Ye Yuan actually only broke through two minor cultivation realms after using finish these 100 thousand merit points.

If he let other martial artists knew, they would definitely let loose a torrent of abuse that he was prodigal.

But Ye Yuan had no choice too. Each time he broke through a minor cultivation realm now, the essence energy required was several times of ordinary martial artists. The medicinal pills expended was naturally sizable too.

Fortunately, the Fragrant Medicine Pavilion's business these few days was extremely good. Ye Yuan spent fast, earned even faster.

From the Fragrant Medicine Pavilion opening for business until now, it was merely 10 short days. And in these 10 day's time, the Fragrant Medicine Pavilion already completed the counteroffensive against the

Heaven's Destiny Trading Company, virtually monopolizing the medicinal pill business of all martial artists under Boundless Realm.

There was no other choice; the Fragrant Medicine Pavilion's Tier 5 medicinal pills were cheap and good. Only a fool would not come and buy.

And the Fragrant Medicine Pavilion's approach squeezed the Heaven's Destiny Trading Company enough for them to choke.

Their discount sale was originally only planning on carrying out for a month. But now, they were forced to continue the discount indefinitely.

Zuo Xin originally thought that a month's time was sufficient to take down the Fragrant Medicine Pavilion. Who knew that he was squeezed until he had no mood to have a temper now.

Except, even if the Heaven's Destiny Trading Company lowered prices to sell Tier 5 medicinal pills now, the Ancient Opulence City's martial artists still did not buy it. This reduced the Heaven's Destiny Trading Company's profit margin even more.

No advantage in quality, no advantage in price. The Heaven's Destiny Trading Company fell into a huge predicament all at once, their profits shrinking by a large margin.

In just ten days, the Heaven's Destiny Trading Company's profits directly shrunk by 40%!

This kind of situation delighted Qian-er and Li Huisheng greatly.

Being suppressed by the Heaven's Destiny Trading Company for so many years, this turnover battle was fought extremely beautifully!

Although they lost 20% profit because they offended Ye Yuan, they still had a feeling of exaltation upon fulfillment now.

The one even happier was Yu Ming. This feeling of sitting at home and counting money was simply too awesome.

Ye Yuan gave Yu Ming 5% shares. Although it was only 5%, he got rich overnight now as well.

The feeling of counting money until one's hands had cramps was simply too wonderful.

Yu Ming still had a feeling like he was dreaming until now.

But these few days, he also learned many things following behind Li Huisheng.

Ye Yuan handed such an important matter to him. He naturally did not dare to be perfunctory.

Yu Ming was a clever person. He knew that everything today was all given by Ye Yuan.

His emotional investment had already received immense return. But to want to sustain, it required even more hard work.

Ye Yuan lacked a competent helper in the Fragrant Medicine Pavilion, and if he did not perform well, there would naturally be people to come and replace him.

Just as the Fragrant Medicine Pavilion's limelight was extremely flourishing, Ying Tianya finally dropped in.
