

Merchant 1111

Chapter 1111 Big Brother, I Miss You!

The description of Han Tianhe and Liu Yanshan in their profiles stated that they only had one main fey each. Besides their main fey, which was Creation Breed, the other feys were all Myth Breed.

This was the usual path that experts took as it already took a large number of resources to nurture a Creation Breed fey.

It would take multiple times the number of resources to evolve a Creation Breed fey.

Although Han Tianhe and Liu Yanshan had Connected Beast Park's support, Connected Beast Park did not have enough resources for them to evolve their other feys to Creation Breed.

Resources were limited, and evolving their other feys to Creation Breed would divert resources away from Han Tianhe and Liu Yanshan's current main fey.

Lin Yuan was a little disappointed that Han Tianhe and Liu Yanshan only had one main fey each.

This meant that even if the Invisible Demon killed them, he would only be able to gain two World Crystals.

Nonetheless, two World Crystals were better than one.

Lin Yuan asked Liu Jie, "Big Brother Liu, you should be going to the Spirit Guards' land tomorrow to evolve the insect-species carcinoma feys that are under the Insect Queen's control. You don't have to go to the ultimate fighting ground!" Liu Jie hurriedly replied, "Although the result of the fight is already set, this is still the first time that Sky City is engaging another faction in a life-or-death fight. As the leader of Sky City's white-clothed followers, how can I not attend? I already took leave, and it'll not be too late for me to head to the Spirit Guards' land after the blood pact ultimate fight."

Lin Yuan immediately smiled brightly.

After tomorrow, Sky City would officially take its place amongst all the major veteran and top factions.

Sky City had yet to display martial force to the other factions.

Lin Yuan was still bored after his conversation with Liu Jie, but the rest of the people were bustling about.

Since Chu Ci had left to train, she no longer asked Wen Yu, the Mother of Bloodbath, and Endless Summer to play chess.

Lin Yuan now felt that the house was rather quiet.

Frankly, he missed Chu Ci.

He took out his phone to call Chu Ci, but she was already in the middle of a call.

Lin Yuan's eyebrow twitched as he wondered who Chu Ci could be talking to on the phone at this time.

Just as Lin Yuan was about to dive into anxiousness, Chu Ci called him back.

He picked up, and Chu Ci instantly asked, "Big Brother, who were you talking to? When I called you, it said that you were on the line!"

While she was talking, Chu Ci continued to issue orders. "Obsidian Iron Wild Bull, use Wild Iron Added Protection and charge toward the wave of alien insects! Burning Sunflower Twins, follow the Obsidian Iron Wild Bull and use Burning Fire Hot Mist to attack the targets around the Obsidian Iron Wild Bull! Hey, Lin Yuan, can you hear me? I'm currently clearing out a wave of dimensional insects. They're so noisy!"

Lin Yuan immediately realized that he had called Chu Ci when she had called him, which resulted in both lines being crossed.

Based on the orders that Chu Ci had just issued to the Obsidian Iron Wild Bull and Burning Sunflower Twins, Wild Iron Added Protection and Burning Fire Hot Mist were the Obsidian Iron Wild Bull and Burning Sunflower Twins' new abilities. This meant that the Obsidian Iron Wild Bull and Burning Sunflower Twins had both evolved their grades.

This discovery made Lin Yuan frown. It was normal that the Obsidian Iron Wild Bull had evolved its grade. However, the Burning Sunflower Twins was still a Fantasy Breed fey, and evolving its grade now would affect its potential.

"Chu Ci, I can hear you. Did you evolve the Burning Sunflower Twins' grade?"

"Lin Yuan, I comprehended a Willpower Rune that's very suitable to the Burning Sunflower Twins not long after I left to train. Teacher Cold Moon agreed that it was extremely suitable, so I evolved the Burning Sunflower Twins to Myth Breed. I was going to surprise you when I returned home."

Lin Yuan immediately looked elated.

He could not be happier that Chu Ci had comprehended another Willpower Rune.

He was even happier than when he comprehended a Willpower Rune himself. Nothing made an older brother happier than to see his sister grow.

Soon after turning 16, Chu Ci had already comprehended three Willpower Runes.

This was stunning talent!

With Cold Moon to guide her, Lin Yuan need not worry about Chu Ci, and her three feys would continue to grow quickly.

Lin Yuan felt that she would be able to enter the Radiance Hundred Sequence selection in a year's time.

Chu Ci continued to shout a chain of orders, and Lin Yuan became anxious again.

She was swamped with dealing with the insect wave and should not be calling him at such a time.

Could she have fallen in love?

Lin Yuan had never encountered this problem before, and his head ached slightly as he wondered what would be the best way to talk to Chu Ci about this.

In his previous life, he had not become a parent. Hence, he had zero experience in this regard.

Before Lin Yuan could ask, his ear was attacked by the sounds of the insect wave that Chu Ci was dealing with.

“Lin Yuan, I saw on Star Web that your first training experience also included dealing with an alien insect wave. As I faced the alien insect wave, I started to think about how you must have felt at the time. Big Brother, I miss you!”

Lin Yuan was instantly touched and felt his love for Chu Ci resurface.

At the same time, he sighed deeply.

It seemed that his sister had not fallen in love. She was just a considerate sister.

After chatting with Chu Ci for a while, Lin Yuan hung up.

The sounds of the insect wave triggered Lin Yuan’s passion and reminded him of his adventurous experiences.

He preferred adventuring over planning for the mansion’s expansion and nurturing feys. During an adventure, he could experience the ferocity of battle.

After the blood pact ultimate fight with the Zheng family, the matter would finally come to a rest.

Chapter 1112 Mouth of Relinquish Split Into Three

Before the Radiance Hundred Sequence selection that would take place in a month’s time, Lin Yuan would train well in the Divine Wood Federation and continue watching over the marsh world expansion.

He did not have to worry about the expansion into the abyssal world as Long Tao would manage it. All he had to do was continue supplying high-class Creation Master resources and wait to reap the benefits.

Lin Yuan sat at the table and read under the comfortable scent of agarwood. Suddenly, he felt something happening to Red Thorn in the Spirit Lock spatial zone, and he immediately went in.

Red Thorn’s Mouth of Relinquish was quivering

Lin Yuan sucked in a breath. Red Thorn was finally done transforming.

He was ready to take a good look at what changes had happened to Red Thorn.

The Mouth of Relinquish suddenly expanded outward.

Previously Red Thorn had the shape of a flat ball and was four meters long and four meters wide.

But now, it was eight meters long, six meters wide, but only three meters tall.

The meat-shaped flower spores on top of the Mouth of Relinquish started to grow in all directions and formed a flexible green stem.

The green stem looked very weak, as though it would snap with the slightest of force applied on it.

But the green stem continued to grow and a red flower bud larger than the Mouth of Relinquish suddenly grew out of the green stem.

A fairy with three sets of wings appeared in the center of the flower bud. The fairy had long crimson hair and ivory skin.

Its long skirt that extended past its feet was woven from vines, and it had an exceedingly adorable appearance.

However, the fairy did not open its eyes and seemed to be sleeping.

Lin Yuan was surprised and guessed that the three Source Seeds came from one source-type item that had split.

Otherwise, they would not have had such an attraction toward each other.

There were many of the same types of dimensional lifeform. Zhang Xiaobai's group's Titan Giant Boas were all the same source-type lifeform. But no matter how close the Titan Giant Boas were, they were still individual lifeforms.

They did not immediately desire to become one like the Source Seeds did.

Evidently, the three Source Seeds combined to form one fairy source-type lifeform.

This fairy was Red Thorn because Lin Yuan could sense the bloodline that linked him and Red Thorn from this fairy. However, six-winged fairy source-type lifeforms were considered legends.

How did they become a common sight for him?

The moment Red Thorn released its aura, it attracted Brocade Zither and Silver Corona's attention.

Silver Corona was also a six-winged fairy source-type lifeform and had no problems with Red Thorn's aura.

Silver Corona flapped its wings and started to fly around Red Thorn as though it was cheering Red Thorn on.

After flying a few rounds, Silver Corona noticed that Brocade Zither was cowering behind the stem of the Golden Lotus Brocade Pearl.

Silver Corona flew over and took Brocade Zither's hand to pull it toward Red Thorn so that they could cheer Red Thorn on together.

The slumbering Red Thorn stirred at that moment, and the Mouth of Relinquish transformed again.

Three cracks appeared down the Mouth of Relinquish. The cracks became deeper and practically split the Mouth of Relinquish into three.

The Mouth of Relinquish roared, and Lin Yuan sensed an endless stream of blood energy flowing from the three Mouths of Relinquish.

The blood energy swiftly transformed the Mouth of Relinquish.

The three Mouths of Relinquish started to grow longer, and each became the shape of flat balls.

Each Mouth of Relinquish was five meters long, four meters wide, and three meters tall.

Lin Yuan could not help but gasp in astonishment as he did not expect Red Thorn's transformation to be so explosive.

Red Thorn had requested an evolution from Lin Yuan after it consumed the two Source Seeds.

After careful consideration, Lin Yuan had chosen for the Red Thorn to evolve its consumption and digestive abilities. Red Thorn's consumption and digestive abilities came from the Mouth of Relinquish.

Yet now, there were three Mouths of Relinquish. The digestive and consumption abilities of the original Mouth of Relinquish had not improved.

However, Red Thorn could still consume and digest at three times the rate of before.

This meant that Red Thorn's endurance during battle had increased by three times, and it could consume the blood energy during a fight to gain an even larger advantage.

Endurance was the most important factor to a fey that fought on the frontline.

They changed again before Lin Yuan could carefully study the three Mouths of Relinquish.

A strong plant tube connected the three Mouths of Relinquish.

Crack lines appeared on the uneven surface on the Mouths of Relinquish. One of the cracks was much larger than the others.

As the Mouth of Relinquish grew and shrank, the cracks became even more obvious and suddenly expanded.

Many sharp teeth poked through from the cracks, turning each crack into a large mouth.

A large Tongue of Relinquish grew from the mouths formed from the largest cracks.

Previously, the Tongue of Relinquish had sharp teeth growing all over it so as to digest and break apart flesh.

Now, the Tongues of Relinquish were much thicker than before, and the teeth had become even sharper. There were hundreds of different types of sharp teeth growing all over the Tongue of Relinquish meant to tackle every different type of flesh.

This allowed the Mouth of Relinquish to become a highly efficient food-processing machine.

Chapter 1113 Completely Transformed Red Thorn! Red Thorn's Real Form!

However, the front and back of the Tongue of Relinquish did not match.

The front of the Tongue of Relinquish was purple and green.

Lin Yuan inhaled sharply as he noticed that the tip of the tongue was covered in scars.

The scars looked exactly the same as those that had covered him and Ji Feng. As such, the changes to the front of the Tongue of Relinquish were due to the strange plant seed.

When the Tongue of Relinquish fully extended from the Mouth of Relinquish, something happened that left Lin Yuan was shellshocked.

Even more cracks appeared on the Mouth of Relinquish, and it started to expand rapidly.

Suddenly, the cracks split wide open, and 180 blinking Eyes of Relinquish appeared on the surface of the Mouth of Relinquish.

Lin Yuan did not have trypophobia, but the Eyes of Relinquish made all the hair stand up on his skin. His skin especially crawled when the eyes blinked.

Nonetheless, Lin Yuan was delighted when he saw the 180 malevolent Eyes of Relinquish.

After the Mouth of Relinquish split into three, they also evolved three times.

When Red Thorn entered battle with the 180 Eyes of Relinquish, it would allow Red Thorn to produce a sea of flowers that stretched a radius of 18 kilometers.

Besides being able to store blood energy, the Eyes of Relinquish were also Red Thorn's strongest attack technique.

An increase in the number of Eyes of Relinquish meant that Red Thorn's attacking power would also rise.

More Eyes of Relinquish would also allow the Blood Brew Grapevine to grow Blood Brew Grapes more quickly. This would enable the Mother of Bloodbath to evolve to Myth III as soon as possible.

At that moment, the sleeping Red Thorn suddenly unfurled.

Just when Lin Yuan thought that the Mouth of Relinquish's changes had finished, the center of the three Mouths of Relinquish that had been wrapped up by a strong tube opened up, and 36 gill-shaped flowers bloomed.

The 36 flowers formed four strangely beautiful flower walls.

Two long vines grew out of the flower walls. The vines twisted around each other, and red flowers popped up all over them.

The swaying vines looked like a magical swing in the middle of a sea of flowers.

At this moment, Red Thorn opened its eyes and looked directly at Lin Yuan. It completely ignored Silver Corona and Brocade Zither, who were flitting around it.

Red Thorn said in a sweet voice, "Yuan, I slept for such a long time. I could feel you next to me when I was asleep. However, I couldn't wake up to be with you."

Lin Yuan stretched out his finger for Red Thorn to land on it.

He always felt that Red Thorn had the attitude of an older sister or a queen. Yet, Red Thorn's voice turned out to be so sweet.

It sounded just like the voice of an eight-year-old girl.

Red Thorn's hair flicked, and a glistening dark green vine shot out of its hair and wrapped around Lin Yuan's wrist just like it used to.

However, Red Thorn was no longer the stupid predator plant it used to be. It was now a fairy source-type lifeform with three sets of wings. It was now part of the most respected bloodline of all the fairy-type lifeforms.

Just when Lin Yuan was about to reply, a thought came to his mind.

Oh no. I've been neglecting the Acid Corrosion Queen Bee.

While Red Thorn's Mouth of Relinquish had been transforming, the Acid Corrosion Queen Bee was within the hive in the Mouth of Relinquish. The Mouth of Relinquish had been locked ever since the transformation started, trapping the Acid Corrosion Queen Bee within.

Although Red Thorn's transformation was complete, the Acid Corrosion Queen Bee still had not come out of the Mouth of Relinquish.

Could the Mouth of Relinquish have digested the Acid Corrosion Queen Bee?

However, this did not seem possible as the Acid Corrosion Queen Bee was a Diamond X source-type lifeform. There was no way that it would be digested by the Mouth of Relinquish so easily.

Lin Yuan hurriedly asked Red Thorn, "Red Thorn, is the Acid Corrosion Queen Bee still in the Mouth of Relinquish?"

Red Thorn pouted and shook its small head as it said, "The Acid Corrosion Queen Bee is in the Mouth of Relinquish. I trapped it in a spore before I started evolving. The spores at the bottom of the plant are protected."

A few vines about half a centimeter thick appeared from the ground.

It was at this moment that the Acid Corrosion Queen Bee charged toward Red Thorn.

Red Thorn said coldly, "Stay away from me! Your house was cracked when the Mouth of Relinquish was evolving. You can choose one of the Mouths of Relinquish to build another hive. I might allow you to build hives in the other two Mouths of Relinquish if you perform well. I'll also help you link up the three hives."

Lin Yuan was astonished by the difference in tone that Red Thorn took with Acid Corrosion Queen Bee compared to the tone it took with him.

Red Thorn's voice had been extremely sweet when it spoke to him, but it sounded like an overbearing queen when talking to the Acid Corrosion Queen Bee.

Lin Yuan did not expect Red Thorn to have a variety of different voices.

Moreover, he was surprised to see that the Acid Corrosion Queen Bee was not only undaunted by Red Thorn's tone, but it even continued dancing in the air as though it was an excited child.

It seemed to be extremely grateful that Red Thorn was even willing to speak to it.

The Acid Corrosion Queen Bee was about to bid goodbye to Lin Yuan before returning to the Mouth of Relinquish to start building its house.

But the moment it flew onto Lin Yuan's shoulder, the two spiky vines that grew out of Red Thorn's hair whipped toward the Acid Corrosion Queen Bee.

The Acid Corrosion Queen Bee not only did not dodge Red Thorn's attack, but it even moved into the line of attack.

It seemed to be even happier after being beaten by Red Thorn.

The Acid Corrosion Queen Bee stared at the vines like they were a treasure.

Brocade Zither anxiously stopped Silver Corona.

Brocade Zither could tell how loving and possessive Red Thorn was over Lin Yuan from Red Thorn's actions.

Red Thorn had only just awoken, and it was clearly not the time to make friends with it.

Chapter 1114 Peaked at Six Wings

For some reason, the six-winged Silver Corona could also sense pressure coming from Red Thorn's bloodline. Silver Corona understood that Red Thorn's bloodline had reached the peak of Class 3 fairies.

The moment the opportunity arose, it was even possible that Red Thorn would grow a fourth set of wings. The Acid Corrosion Queen Bee had already returned to the Mouth of Relinquish to start building its hive.

Red Thorn reached out its left hand to Lin Yuan and said softly, "Lin Yuan, I want you to tie a red ribbon on me."

Lin Yuan took out the red ribbons that he always had on hand for Red Thorn.

However, the red ribbons that Lin Yuan had prepared for Red Thorn were too wide for the fairy source-type lifeform Red Thorn.

Lin Yuan used a Day and Night Spirit Silver feather and cut the red ribbon into four pieces before he tied one of it around Red Thorn's wrist.

Red Thorn grinned and flapped its wings happily.

Lin Yuan waved at Silver Corona and Brocade Zither.

The five fingers on his hand had more than enough seats for the three small fairies.

Silver Corona did not hesitate to fly over to Lin Yuan, but Brocade Zither's face flushed like a tomato, and it did not move from its spot.

Red Thorn looked between Lin Yuan and Brocade Zither before flying over to Brocade Zither. It took Brocade Zither's hand and led it over to the hand that Silver Corona was seated on.

Red Thorn gently pinched Brocade Zither's face and said, "Your face is so soft. It's really cute!" Brocade Zither's face turned an even darker shade of red.

At that moment, two Hundred Questions Beasts walked over to Lin Yuan. Both of them had a bottle of spirit fluid in their mouth and presented it to Lin Yuan.

"Lord, this is a new spirit fluid that we concocted. When used together, they can increase the rate of growth of the Soldier Ration Radish's main root. The results are extremely obvious."

Lin Yuan looked elated.

Genius had been tirelessly researching the Soldier Ration Radish.

Lin Yuan could not believe that these two Hundred Questions Beasts had solved the issue of the Soldier Ration Radish's nurturing under Genius' tutelage.

He could now produce even more Soldier Ration Radishes.

Genius padded over and said, "Yuan, I want to plant Soldier Ration Radishes in the marsh world. The leaves don't need the pure spirit qi in the Spirit Lock spatial zone to grow. They'll be able to grow quicker in the fertilized soil of the marsh world. The marsh world also has enough space for the Soldier Ration Radishes to grow. You have to prune the vines as often as you do now. The Soldier Ration Radish's old vines are much stronger than its new vines."

Lin Yuan nodded and rubbed Genius' head as he said, "Genius, you've been tiring yourself out. Make sure not to overwork. You're always telling me to work in moderation and have sufficient rest. Why don't you take your own advice?"

Lin Yuan looked at the other Hundred Questions Beasts and said, "All of you too. Make sure to get 12 hours of rest every day. I'll bring more toys for you to add more excitement to your rest time."

The previous batch of 50 Hundred Questions Beasts and the new batch of 50 Hundred Questions Beasts meowed to express their thanks to Lin Yuan.

To the 100 Hundred Questions Beasts, Lin Yuan was their savior. He had nurtured them and helped them escape their previous pathetic life.

All the Hundred Questions Beasts were eager to work 24 hours a day non-stop to repay Lin Yuan.

Genius hurriedly replied, "Okay, Yuan! I will sleep with you every night. There's no rush to nurture the Hundred Questions Beasts. Leave their rest time to me. I'll definitely take good care of them!"

Lin Yuan set his worries to rest.

It was true that he was nurturing these Hundred Questions Beasts into Creation Masters so that they could work for him.

However, that did not mean that he wanted them to work endlessly without rest.

Red Thorn and Genius happily played together for a while.

Genius and Chimey came to Lin Yuan first, shortly followed by Red Thorn.

As such, Genius and Chimey had watched Red Thorn grow from a seed to its current state.

Red Thorn was closer to Genius, and it could be said that they had the best relationship out of all of Lin Yuan's feys.

Genius was also the one who had taught Red Thorn how to speak using its gill-shaped petals.

Lin Yuan observed that Red Thorn was close to all the feys he had formed contracts with.

This was why Red Thorn took the initiative to connect with Brocade Zither despite being of a more elite bloodline.

By contrast, Red Thorn was standoffish toward the Hundred Questions Beasts that it had not formed contracts with.

Although Red Thorn would not treat them the same way it treated the Acid Corrosion Queen Bee, it would still not behave in a friendly manner toward them.

After all, Red Thorn was carnivorous, and any lifeform that it did not have ties with were all the same in its eyes.

After Genius brought the Hundred Questions Beasts back to work, Silver Corona said, "Sister Red Thorn, your bloodline has reached the peak of six wings. You're one step away from gaining eight wings." Silver Corona's tone was cordial and absent of any envy. Silver Corona was purely happy for Red Thorn.

"Under normal circumstances, I should only have four wings right after birth. It was because of that seed that Yuan fed me that mutated my bloodline and coincidentally allowed me to gain six wings. It even enabled me to reach the peak of the six wings bloodline. After I swallowed that seed, my quality evolved significantly as well. The only area of disappointment is that my grade didn't budge at all," replied Red Thorn.

Lin Yuan used True Data to check on Red Thorn's attributes.

Chapter 1115 Scar-Covered Scars

[Fey Name]: Red Thorn (Six-Winged Fairy) (Thousand Eyes Relinquish)

(Fey Species): Rafflesia genus/fairy species

(Fey Grade): Silver (1/10)

[Fey Type]: Source/Wood

(Fey Quality): Fantasy V

Abilities:

(Mouth of Relinquish): Secretes vigorous digestive fluids with powerful corrosive properties, allowing a faster speed to absorb the energy in the food. The Tongue of Relinquish inside the mouth is able to increase the digestion speed by several times. It can also secrete a special corrosive fluid from the flesh and blood that it consumed. When the Tongues of Relinquish pierce a target, the tip of the tongue can be cut off and left in the target's body. While the target remains alive, the tip of the tongue will control the target's spirit and soul. After the target dies, the tip of the tongue can control and manipulate the target to make it appear as though it was still alive.

(Brutal Carnivore Vine): The vines contained digestive fluids that grew in midair, and the sharp teeth on the inner side of the vine could grind off and collect flesh and blood energy.

(Eye of Relinquish): Eyes formed by using blood and flesh energy. Each eye contains a huge amount of blood and flesh energy. When the number of Eyes of Relinquish on every Mouth of Relinquish are maintained below 60, they are merely able to store energy. When the number of Eyes of Relinquish is above 60, those Eyes of Relinquish that are above 60 can be turned into an energy ray at any time.

Exclusive Skill:

(Spore Growth): Spits a huge amount of spores, which can absorb the energy or flesh energy supplied by Red Thorn, out of its spore cavity to quickly grow ramets and child ramets that are controlled by the ortet. [Wither Glory]: Red Thorn can rapidly absorb the energy from the soil and pour the energy into the sea of flowers. As long as the soil has the roots of the child ramets and ramets, the withered sea of flower would reach its prime state.

Lin Yuan could not help but be shocked that Red Thorn's quality had reached Fantasy V.

This was an unexpected happy surprise for him.

Lin Yuan had always been troubled over evolving Red Thorn's quality. But now, that problem had been solved without any effort.

As long as Red Thorn continued to consume flesh, it would be able to evolve to Myth Breed.

There would be no more obstacles.

Red Thorn now had the highest quality amongst all of Lin Yuan's feys.

Lin Yuan also finally knew what the purple and green scar-covered front part of the Tongues of Relinquish were used for.

Red Thorn had adopted the strange plant seed's ability to manipulate lifeforms.

The tip of the Tongue of Relinquish could not only control living targets but dead ones as well.

Suddenly, Lin Yuan thought of the blood pact ultimate fight tomorrow with the Zheng family and how Han Tianhe and Liu Yanshan would be dying at the hands of the Invisible Demon.

Both of them were thearch-class experts. If Red Thorn could use the Tongues of Relinquish to control them after their deaths, these two powerful experts would become Lin Yuan's puppets.

This thought made Lin Yuan's eyes light up as this would add two sets of thearch-class power to his arsenal.

te

If he had any trouble in the future or ran into any dangers, they would be good to have around.

After the blood pact ultimate fight ended, the losing side would have to give up everything to the winner.

Hence, it was easy for him to obtain Han Tianhe and Liu Yanshan one way or another.

Once the Zheng family lost, Han Tianhe and Liu Yanshan would be counted as Sky City's property. Not even the Miao family would be able to take them back.

Lin Yuan asked, "Red Thorn, are there any limits to the target that the Tongues of Relinquish can control? Do three tongues mean only three targets can be controlled?"

"The Tongues of Relinquish control targets by leaving the tongue tip inside the targets' bodies. This means that the tongue tip acts as a parasite that controls the target's mind and spirit. The stronger the mind and spirit of the target, the harder it will be for the Tongue of Relinquish to control them. There's also a chance that the process will fail. If the target is dead, the mind and spirit will lose their agility. No matter how strong the target was, the tongue tip will definitely be able to control them. The controlled target's contracted feys will also be under the Tongue of Relinquish's control. However, there is a condition that the target's fey's core cannot be extracted. This will ensure that all the target's original powers are retained. If the core is taken out, the target will only keep their original physical power," replied Red Thorn.

Lin Yuan now knew more details about the Mouth of Relinquish that was not mentioned in True Data.

In order to use the full power of the Tongue of Relinquish, Lin Yuan could not take the World Crystals out of Han Tianhe and Liu Yanshan's main feys.

It would be pointless to control only the bodies of the two Creation Breed feys.

Lin Yuan was more interested in the two thearch-class experts than he was in the two World Crystals.

Sky City would gain three more top experts by absorbing the strange plant seed and gaining its abilities.

It would also ensure that the marsh world, the Divine Wood Federation, and the Return from Faraway Mansion all had an expert to watch over them.

At this moment, Red Thorn went on to say, "Yuan, although the Tongue of Relinquish can control experts, the death of the expert will result in the tongue tip inside them being destroyed. The tongue tip needs a large amount of blood energy and a long time to recover. Of course, there's also a way for the tongue tip to grow back quickly. I can drop down a grade to regrow the Tongue of Relinquish."

Lin Yuan quickly waved his hand.

Red Thorn's grade evolution had always been his biggest problem. How could he allow Red Thorn to drop its grade just to regrow the Tongue of Relinquish?

Moreover, it was not easy to kill thearch-class experts.

"Red Thorn, your consumption and digestive abilities evolved when you transformed. How does your consumption of dimensional lifeforms differ from before?" asked Lin Yuan.

"I can now consume Class 4 dimensional lifeforms in droves," replied Red Thorn.

Chapter 1116 Blue Clouds and Departure

"I can also occasionally eat the flesh of Class 5 dimensional lifeforms. Hehe, Yuan. Now that my digestive and consumption abilities are improved, I can even consume metal-type spiritual ingredients and gain their characteristics. These characteristics will present themselves in the Sea of Flowers."

Lin Yuan's eyes flashed, and he took out the ferromanganese the Source Sand had regurgitated.

He placed a portion of it in the Mouth of Relinquish. Soon, Lin Yuan noticed that the Mouth of Relinquish's digestive fluids had completely dissolved the ferromanganese. Lin Yuan could not help but be amazed at the Mouth of Relinquish's digestive ability.

He gave the Platinum fey storage box full of ferromanganese to Red Thorn and said, "Red Thorn, eat as much ferromanganese as you like. The metal properties in the ferromanganese will not only make the predatory vines stronger, but it'll also increase their ability to strip flesh from a target."

Red Thorn happily accepted the Platinum fey storage box.

It was a complete glutton, and it was happy as long as it was munching on something.

Red Thorn flew up and kissed Lin Yuan's cheek as it said with innocent eyes, "Yuan, the improvement in digestive ability allows me to gain even more attributes from dimensional lifeform flesh. Consuming the flesh of different dimensional lifeforms will allow the digestive fluids produced by the Tongue of Relinquish to evolve quickly. I won't be as picky as I was before. I want to eat everything."

Red Thorn smacked its mouth and continued. "Of course, I'll be even happier if I get to eat more abyss demons! Abyss demon flesh is the firmest amongst all the dimensional lifeforms, and their blood has decaying properties. After I consume them, I'll be able to do more damage to plant-type feys. The decaying properties will make it easier for me to digest metal-type spiritual ingredients as well."

Lin Yuan's eyebrow twitched. How could it say it was not picky then move on to request abyss demons as its meal?

However, it would not be a difficult matter to obtain abyss demon flesh for Red Thorn.

A Class 6 abyss dimensional rift had opened in the Radiance Federation, and abyss demon flesh would soon be available in abundance.

After remaining in the Spirit Lock spatial zone for a while, Lin Yuan hugged Genius to sleep.

His sleep was dreamless, and he woke up before the sun rose.

He thought, If I sleep too early and too deeply, I end up waking too early too.

Since the sun had not risen, Lin Yuan flipped through Zheng Kaiyan's profile that Wen Yu had prepared for him.

As he read the profile, Lin Yuan felt that it was not an impressive feat to be part of a veteran faction.

He had come from nothing and would face many obstacles if he tried to shoot for success.

Success.

However, he would also be free of the burdens of his family and any possible hidden enemies.

Zheng Kaiyan was always intelligent. However, he did not have a say and was sentenced by his family to become a useless person.

It was no wonder that he was even willing to sell out his family for the sake of making a comeback.

Lin Yuan was engrossed in reading Zheng Kaiyan's profile when someone knocked on his door.

He looked up and saw that the sky was turning bright.

He stood up and tossed Zheng Kaiyan's profile as he thought, Zheng Kaiyan is useful but he can't be used too much. His character and experiences have shaped him into the cruel person he is today. If I use him too much, he might do something unsavory even if he swears his loyalty on a Willpower Rune. Thus, it will already be pushing it if I leave him to control the Zheng family's territory.

Lin Yuan had many things to worry about and did not want to spend too much effort on Zheng Kaiyan.

After reading the profile, Lin Yuan knew what he would do with Zheng Kaiyan from now on.

However, it would be up to Zheng Kaiyan if he was worthy of such treatment.

Lin Yuan opened the door to his room and saw Wen Yu carrying two sets of spirit qi clothes for him.

She smiled and said, "Young Master, Pinru and I decided on the style of the Sky City uniform last night. We rushed it out alongside the Invisible Demon. Both of you can try it on together!"

Wen Yu handed the Sky City uniforms to Lin Yuan and closed the door.

Lin Yuan rubbed his head.

Nonetheless, it would be best for everyone to wear the Sky City uniform during the blood pact ultimate fight.

Wen Yu had consulted him about the design of the Sky City uniform, and he had casually mentioned the red clouds clothes that he had read about in a manga in his previous life.

The Sky City uniform that Wen Yu and Lu Pinru designed was completely white with blue clouds embroidered on it.

The design was flowy, and it easily reached the floor. The wide sleeves also completely covered the wearer's arm. The collar was stiff and reached the wearer's nose.

Sky City's mask would leave the mouth and chin uncovered.

This uniform was just right to cover the exposed part of the face.

It was only when the collar moved that the wearer's chin would peek out slightly.

Although the uniform looked large, Wen Yu and Lu Pinru had tailored it to each person's body.

The cutting of the waist and shoulder curved elegantly.

This uniform accentuated Lin Yuan's beauty well.

Lin Yuan realized that his uniform was very different from the Invisible Demon's uniform.

There was also golden thread embroidered around the blue clouds.

Lin Yuan had not intended on being too persnickety with the uniform like he had been with the standard mask.

But the golden thread that Wen Yu had used made the clouds appear as though they were actually drifting when the sun shone down on it.

Lin Yuan called out to the Invisible Demon and gave it its uniform.

Both Lin Yuan and the Invisible Demon put on their uniforms and masks.

Lin Yuan took a good look at the Invisible Demon before he looked at himself in the mirror.

He felt that this uniform was much better than the clothes he had read about in the manga. The blue clouds did not clash with the subdued background color as the red clouds would have.

Chapter 1117 Totem Stone Columns

The Invisible Demon looked into the mirror at its uniform-clad self.

Its pale purple lips were tightly pressed together.

This was the first time that it was wearing clothes from the main world.

Last night, the Invisible Demon had felt an incredible amount of warmth from Wen Yu as she was taking its measurements.

The Invisible Demon felt that it was worthwhile to swear its loyalty to Lin Yuan even if it did not become an Apostle.

The warmth it had felt made the Invisible Demon truly willing to stay here.

Soon, everyone put on their Sky City uniform and gathered downstairs.

Listen had returned to the mansion earlier.

Although Listen had not explicitly said that he wanted to get his revenge on the Zheng family, no one in the Return from Faraway Mansion wanted the Zheng family decimated more than him.

The blood of Listen's elders was on the hands of the Zheng family's third lineage.

Listen had to avenge them no matter what it took.

However, he did not want to encumber Lin Yuan with his revenge or influence Lin Yuan's decision.

Now that he was about to get his revenge, Listen was so excited that he got goosebumps.

Lin Yuan nodded at everyone. The sight of all of them in the Sky City uniform made for an impressive and charismatic scene.

Today's breakfast was crepes with crispy maple syrup banana pie.

After breakfast, everyone prepared to head to the ultimate fighting ground that was at the north side of the Radiance Palace.

But this was when they realized that they were facing a problem. They did not have a suitable avian-type fey to take them there.

WE

Lin Yuan massaged his forehead as he had been troubled by this issue in the past.

However, he stopped worrying ever since Blackie gained the ability to fly and obtained the 12 Sky Fragrance Beauty Butterflies.

Nonetheless, neither Blackie nor the unfinished fey carriage would be suitable to represent Sky City.

It was necessary for them to prepare a special fey carriage that would be able to represent Sky City. Regardless, there was not enough time to nurture feys that would be suitable now, and this would have to be a problem they tackled in the future.

It seemed that the best option now would be for them to reserve avian-type feys to take them to the ultimate fighting ground.

Lin Yuan used his phone and booked a Diamond Snow-Necked White Egret.

The Diamond Snow-Necked White Egret was not the fastest Diamond fey, but it was the most comfortable one to ride.

The group headed to the ultimate fighting ground atop the Snow-Necked White Egret.

Zhou Luo asked Lin Yuan softly, "Young Master, an issue suddenly came to mind. There are sure to be other factions spectating the blood pact ultimate fight. As I'm only a king-class expert, will I embarrass Sky City by participating in the blood pact ultimate fight?"

A ruthless glare streaked across Lin Yuan's gaze, and he smiled while shaking his head.

"As long as everyone from the Zheng family who participates in the blood pact ultimate fight dies today, who would dare to mock Sky City?"

Lin Yuan's smile seemed bloodthirsty at that moment, and the feeling only surged.

Ever since he found out from Zheng Kaiyuan that the Zheng family was going to issue a blood pact ultimate fight challenge to Sky City, Lin Yuan had come up with a plan.

At first, he had felt that Endless Summer and the Kill Food Sky Butterfly would be sufficient to deal with this matter.

However, the Zheng family had managed to borrow thearch-class experts that possessed Sovereign IV/Creation V feys from the Miao family.

Experts of this level would be able to annihilate Endless Summer and the Kill Food Sky Butterfly in the blink of an eye.

Luckily, the Moon Empress had given him the Invisible Demon, and Sky City had managed to find out who were the participants that the Zheng family was going to send out through Liu Jie.

Otherwise, Endless Summer and the Kill Food Sky Butterfly would have met their doom on the ultimate fighting ground.

Nonetheless, even without the Invisible Demon, Lin Yuan would not have given up just because he found out that the Zheng family was going to send out Han Tianhe and Liu Yanshan.

He would have immediately turned to the Moon Empress for help.

Although he did not want to rely on external help when it came to his faction, he was not stubborn enough to insist on his way when it was a life-or-death situation. There was also no way that he would have taken Endless Summer, the Kill Food Sky Butterfly, or the rest of Sky City's members' lives as a joke.

Although his dagger was obviously aimed at the Zheng family, he wanted to take down the Miao family even more.

Liu Jie, Wen Yu, Listen, Zhou Luo, Endless Summer, Ji Feng, and the Mother of Bloodbath were influenced by Lin Yuan's overwhelming viciousness, and their expressions reflected as so.

It was fine for the humans to have menacing auras, but the Mother of Bloodbath was a Myth Breed fey while Endless Summer was a Creation Breed fey.

Since the Mother of Bloodbath was a bird-catching spider and birds were its fundamental source of sustenance, the small and timid Snow-Necked White Egret almost lost all its strength and would have tumbled down from the air.

Ji Feng noticed that the Snow-Necked White Egret would soon be unable to take the Mother of Bloodbath and Endless Summer's auras, so he released the Karma Sword Lily and Prior Decree Sleeping Lotus' auras to shelter the Snow-Necked White Egret.

In the distance, Lin Yuan spotted the Radiance Palace, where the Allstar Match had been held.

A giant pagoda stood to the north of the Radiance Palace.

An ocean of blood had been spilled on the grounds of the pagoda.

SW

The tower jutted up into the sky like a sword, brimming with the bravery of battle. The tower was also damaged in places, proof of the sacrifice and blood that had been laid down during battles.

Red gems of various sizes were embedded all over the top of the pagoda. They represented the glory behind the bloodshed.

When they moved nearer, Lin Yuan saw totem stone columns lining the bottom of the pagoda. There had to be more than 100 stone columns.

These stone columns surrounded the pagoda and formed a grand dueling ground.

Lin Yuan realized that the pagoda was about as high as the height that the Snow-Necked White Egret was flying at, and its tip almost pierced the clouds.

Upon closer inspection, the stone columns that seemed small from up in the air were actually about 180 meters tall.

The stone columns were also thick enough that not even 100 people would be able to wrap their arms around one collectively.

Lin Yuan was stunned when he studied the totems on the stone columns.

Chapter 1118 Zheng Ji is Suffocated

There was a tradition that every faction that was destroyed on the ultimate fighting ground would be carved as totems on the stone columns.

Every stone column had at least 40 totems carved into it.

The sheer number of the totems on the stone columns was evidence of how many factions had ended with their blood spilled on the ultimate fighting ground.

Soon, the Zheng family would join the ranks of those totems.

The Snow-Necked White Egret trembled as it flew to the designated area for avian-type feys to land.

Lin Yuan saw that the area was already full of various avian-type feys, and it took some time for the Snow-Necked White Egret to find a place to land.

He was considerably stunned by all the people that had come to spectate the blood pact ultimate fight between Sky City and the Zheng family.

There was still an hour to go before the blood pact ultimate fight officially started, and as one of the stars, Sky City had only just arrived.

Yet, the spectators had arrived even earlier than the stars.

Lin Yuan and the rest immediately headed to the entrance of the ultimate fighting ground. Along the way, many people gawked at them. Although this was the first time that the group was wearing the uniform designed by Wen Yu and Lu Pinru, their mask already revealed their identity.

Many people slowed down their pace to mumble under their breaths as though they were discussing something in secret.

At this moment, a voice from nearby exclaimed, "I waited for you people forever. You're finally here!"

Lin Yuan looked around until his gaze landed on Sun Ningxiang and two girls.

The two girls who were with Sun Ningxiang were vaguely familiar to Lin Yuan. He recalled seeing them at Sky City's private faction territory.

Sun Ningxiang knew that Lin Yuan was the City Lord of Sky City.

She was sure to watch the blood pact ultimate fight that involved not only the Zheng family but also the Miao family that supported the Zheng family.

However, Lin Yuan did not expect Sun Ningxiang to be waiting for him at the ultimate fighting ground.

By doing this, she was openly declaring that Condense Fairy Orchard and Sky City were on the same side.

Sun Ningxiang walking over to Lin Yuan also represented the deep bond between Condense Fairy Orchard and Sky City.

This was the second time Sun Ningxiang declared her alliance with Sky City.

However, the first time had been on Star Web, while it was in real world this time.

Sun Ningxiang smiled at Lin Yuan, but she was momentarily confused about how she should address him.

Eventually, she settled on not addressing him. Instead, she said with a worried tone, "The Miao family is definitely supporting the Zheng family in this blood pact ultimate fight. The members of the Zheng family have been staying at the Miao family's old residence in the Royal Capital even before they decided to issue the blood pact ultimate fight challenge."

Sun Ningxiang was silent for a moment before she went on to say, "Zheng Kaiyuan was accepted into our small circle. If he has any brains, he should have made use of that lucky opportunity to gain authority in the Miao family."

She mentioned the last part because she felt that she and Lin Yuan were on good enough terms. Otherwise, her words could have been misconstrued as interfering in Sky City's internal affairs.

Lin Yuan's lips curled upward, and he said, "Thank you, Sun Ningxiang. I'm ready."

He and Sun Ningxiang headed toward the ultimate fighting ground together.

Just as they were about to enter the ultimate fighting ground, Lin Yuan saw the Zheng family. They seemed to be waiting for someone.

Zheng Ji's expression was ashen.

He had led the Zheng family to the ultimate fighting ground early to separate themselves from the Miao family.

Ever since he had come to the Royal Capital and moved into the Miao family's old residence, rumors regarding the Zheng family had been flying all over Star Web. Some rumors were about how the Zheng family relied on the Miao family and that there was no way that the Zheng family would have been able to make a name for themselves in Indigo Azure City if they had not had the Miao family's support.

Zheng Ji had always lived by his pride, and he could not take any external criticisms or insults.

He was unbelievably upset by these rumors as the Miao family had barely helped the Zheng family all these years.

Zheng Ji had always begrudged Miao Zhi for being unable to bring over the Miao family's supplies to the Zheng family. Yet, she had no qualms using the Zheng family's resources as she pleased.

Thus, the rumors on Star Web were a punch to his pride.

When they were on their way to the ultimate fighting ground, Zheng Ji calculated the Zheng family's chances of winning over and over.

Since Zheng Kaiyuan had managed to borrow Han Tianhe and Liu Yanshan, Zheng Ji was more than fully assured that the Zheng family's victory was inevitable.

However, the only representative from the Zheng family would be Zheng Ji, and there would definitely be people criticizing them after the blood pact ultimate fight.

In the future, it was likely that people would automatically think of the Miao family as the Zheng family's support whenever the Zheng family was mentioned.

A few generations later, the Zheng family would be completely swallowed by the Miao family.

This thought made Zheng Ji's chest tighten.

Upon arrival, Zheng Kaiyuan had suddenly said that he wanted to wait for Sky City to arrive by the entrance.

Zheng Ji was well aware of what Zheng Kaiyuan had in mind. Zheng Kaiyuan clearly wanted revenge for his broken teeth.

They could just settle all their grievances during the blood pact ultimate fight. It would cause more problems for the Zheng family if they clashed with Sky City now.

The participants that the Zheng family were sending out were not all from the Zheng family.

After the blood pact ultimate fight ended, this premature fight would make the Zheng family seem like bullies.

Zheng Kaiyuan had completely disregarded the Zheng family's reputation for his personal vendetta. As such, Zheng Ji felt that Zheng Kaiyuan was no longer fit to become the leader of the Zheng family.

Moreover, Miao Zhi had immediately supported Zheng Kaiyuan's suggestion.

Since the blood pact ultimate fight was just before them, the Zheng family had no choice but to rely on the Miao family. Although Zheng Ji was the Zheng family's leader, he could not openly rebuke Miao Zhi.

This made Zheng Ji quake with suppressed anger.

All he could do was sit by and watch as his grandson provoked Sky City.

By this time, Zheng Kaiyuan had already seen Lin Yuan and the rest.

Chapter 1119 The Old One is Acting Like the Young One

Zheng Kaiyuan's expression immediately soured and turned menacing.

Miao Zhi flipped her hair and tried to exude charisma.

Lin Yuan scoffed. "The old one is acting like the young one. The Zheng family sure is interesting!"

At first, Lin Yuan thought that the Zheng family was standing by the ultimate fighting ground's entrance as a show of respect as they awaited Han Tianhe and Liu Yanshan's arrival.

But when Lin Yuan saw Zheng Kaiyuan's expression change and his prepared stance to charge, Lin Yuan knew that the Zheng family had actually been waiting for him.

If the Zheng family had really been waiting for Han Tianhe and Liu Yanshan, Zheng Kaiyuan would not have reacted in such a way when he saw Lin Yuan.

Lin Yuan did not want to bother with the Zheng family. But when he approached, the woman next to Zheng Kaiyuan blocked their path.

Lin Yuan noticed that this woman shared similar features to Zheng Kaiyuan. Hence, this woman had to be Zheng Kaiyuan's mother, Miao Zhi.

Before Lin Yuan could tell Miao Zhi to move away, Miao Zhi said, "Which one of you broke my son's teeth? I'll make sure you suffer during the blood pact ultimate fight!"

Liu Jie circulated his spiritual power and prepared to attack Zheng Kaiyuan and Miao Zhi.

There was enmity based on bloodshed between Sky City and the Zheng family.

Although it was against the blood pact ultimate fight's rules to kill Zheng Kaiyuan and Miao Zhi before the blood pact ultimate fight started, Zheng Kaiyuan and Miao Zhi needed to pay a painful price for their provocation.

Miao Zhi and Zheng Kaiyuan needed to learn that they had no right to block Sky City's path.

At that moment, Lin Yuan placed his hand on Liu Jie's shoulder, and Liu Jie halted his spiritual power.

While Liu Jie circulated his spiritual power, Sun Ningxiang looked at him in shock.

She had interacted with Liu Jie many times before, but he had always been wearing the standard Spirit Guards' mask.

Since she could not see his face, she only identified him by his aura.

Liu Jie had the exact same aura as the Young Liege of the Midnight Palace.

Sun Ningxiang could not help but venture the bold guess that the person circulating his spiritual power beside Lin Yuan was actually the Young Liege of the Midnight Palace.

She was almost certain that her guess was correct.

When Lin Yuan had been slighted at the Midnight Palace, Liu Jie had also stood up for Lin Yuan just like he was doing now.

Miao Zhi and Zheng Kaiyuan noticed Liu Jie circulating his spiritual power.

When they saw Lin Yuan stop Liu Jie, they assumed that it was because Lin Yuan was frightened.

Lin Yuan turned and said nonchalantly, "The leader of the Zheng family has to be amongst the group of Zheng family members gathered there. I'm surprised that a member of the Miao family has the right to speak on behalf of the Zheng family."

All of the faces of the members of the Zheng family fell.

Zheng Ji glared at Miao Zhi with obvious disgust as Lin Yuan's words had dealt a heavy blow to Zheng Ji's heart.

Lin Yuan went on to say, "The blood pact ultimate fight has its own rules. Although I'm not going to kill you because it's against the blood pact ultimate fight's rules, the two of you are dead men walking for blocking my path. However, the rules of the blood pact ultimate fight state that if one party continues to provoke the other party, the provoked party can attack as long as the result isn't lethal. I'm officially warning you now. If you refuse to heed me, you'll regret it."

Expectedly, Miao Zhi and Zheng Kaiyuan did not back down.

Miao Zhi looked over at Zheng Ji as he was the only one that would be able to protect her and Zheng Kaiyuan when the situation escalated into a physical confrontation.

She slightly regretted not taking Zheng Ji's suggestion to arrive at the blood pact ultimate fight together with the Miao family. If they were together, she would not have to feel threatened.

In the face of Miao Zhi and Zheng Kaiyuan's pleading gazes, Zheng Ji could only circulate his spiritual energy.

A short and fat humanoid figure appeared in front of Zheng Ji. It had dark skin, but it was not extremely ugly either.

It was wearing thick brown armor and seemed to be brimming with strength.

Lin Yuan used True Data to check on the short and fat humanoid figure, and he saw that it was the Suzerain X/pinnacle Myth III God of Strength Dung Beetle.

The God of Strength Dung Beetle was an insect-species fey known for its strength.

However, its strength still could not compete with the Kill Food Sky Butterfly's as there was a vast difference in their bloodlines.

Lin Yuan felt that there was nothing special about the God of Strength Dung Beetle's True Data. The only part that stood out was its ability Strange Power Rebound. It could rebound any attack that was weaker than the God of Strength Dung Beetle's power.

If one were unaware, they would be taken off guard by this ability during a fight against the God of Strength Dung Beetle.

Many people saw the confrontation between Sky City and the Zheng family.

The other factions had come to watch the blood pact ultimate fight to watch the excitement, see if the Zheng family had managed to borrow help from the Miao family, and find out what kind of power Sky City possessed.

This confrontation was the best opportunity to see how strong Sky City was, and no one was going to miss it.

Lin Yuan looked around at the audience that had gathered, Miao Zhi and Zheng Kaiyuan, and Zheng Ji as he said savagely, "Endless Summer, I'm not going to allow these two people to back out now."

Endless Summer smiled and replied, "City Lord, I know what to do."

Chapter 1120 Aren't You Afraid of Connected Beast Park Coming Back for Revenge?

Right after Endless Summer spoke, two purple-pink hydrangeas formed in the air and shot toward Zheng Kaiyuan and Miao Zhi.

Zheng Ji immediately ordered the God of Strength Dung Beetle to defend the pair.

The aura that Endless Summer released was very subtle, and it would be hard to detect the murderous aura unless one was more powerful than Endless Summer.

Hence, the God of Strength Dung Beetle smiled oddly as it used Strange Power Rebound.

Unsurprisingly, when the two hydrangeas collided with the God of Strength Dung Beetle, its smile warped into anguish.

The two hydrangeas exploded against the God of Strength Dung Beetle's body, and left two bloody holes in their wake.

A few hydrangea petals passed through the holes and landed on Zheng Kaiyuan and Miao Zhi's legs.

The hydrangea petals mangled their legs, and the pair immediately cried out in pain. Zheng Kaiyuan and Miao Zhi were blown away by the force that accompanied the petals.

Now, Lin Yuan's path had been completely cleared.

Endless Summer said, "City Lord, the people who were blocking the path have been cleared away. They can't walk away even if they want to now."

Lin Yuan strode over.

The God of Strength Dung Beetle immediately backed away so as to not block Lin Yuan's path.

Before the God of Strength Dung Beetle could let out a sigh of relief, someone howled in pain, "How dare you attack me! I'm a member of the Miao family!"

Sun Ningxiang piped in and said, "You married into the Zheng family, yet you call yourself a member of the Miao family. How ludicrous! The altercation that just happened was the equivalent of a blood pact ultimate fight between Sky City and the Zheng family. Without the Miao family's help, does anyone from the Zheng family have the guts to fight? The Miao family's revenge? This sounds interesting."

Sun Ningxiang's heartless words crushed the last shred of the Zheng family's dignity.

Lin Yuan silently continued to walk toward the ultimate fighting ground.

At that moment, Zheng Ji set aside his pride and immediately called the Miao family's healing-type spirit qi professionals to treat Miao Zhi and Zheng Kaiyuan before he attended to the God of Strength Dung Beetle's injury.

The God of Strength Dung Beetle's roots were undamaged, and Zheng Ji sent it back to the spiritual spatial zone with an eased mind so that it could heal itself.

The altercation made Zheng Ji aware that Sky City was not to be trifled with. Zheng Ji thought, The girl that attacked is definitely wielding thearch-class combat power. There's no other explanation for why she was able to break through the God of Strength Dung Beetle's defenses with just one attack and cause even Strange Power Rebound to fail.

However, the incident also enabled Zheng Ji to lay his worries to rest as he was sure that Endless Summer was Creation III at best.

Otherwise, the God of Strength Dung Beetle's roots would have been injured by such an attack.

With Han Tianhe and Liu Yanshan around, it should be no problem for them to kill Endless Summer.

Thanks to the healing-type spirit qi professionals, Zheng Kaiyuan and Miao Zhi's lives were preserved.

However, their legs could not be recovered, and they would be confined to wheelchairs for the rest of their lives.

Zheng Ji was relieved to see that Zheng Kaiyuan and Miao Zhi were fine.

He was not truly afraid for their safety as he had already lost all hope in the selfish Zheng Kaiyuan.

Zheng Ji only cared about their injuries because he was afraid that their irreparable injuries would result in the Miao family changing their minds and deciding not to help with the Zheng family's blood pact ultimate fight.

There was no way that the Zheng family would be able to win with their measly combat power.

As he stared at the disabled Zheng Kaiyuan, Zheng Ji became all the more certain that Zheng Kaiyuan was unsuitable to be the leader of the Zheng family.

Although Zheng Kaiyuan's legs were also unusable, he still had both his legs intact.

Meanwhile, Zheng Kaiyuan's legs were all gone, and even the part he used to procreate had to be affected as well.

By comparison, Zheng Kaiyuan seemed much more suitable to become the Zheng family's leader.

Miao Zhi had always been vain, and losing her legs was a shock that was too much for her to take.

Despite being a daughter of a top faction and a wife of a veteran faction, vulgarities spewed from Miao Zhi's mouth as she berated Zheng Ji for his insistence on coming to the ultimate fighting ground in advance.

Zheng Kaiyuan lifted his head with difficulty and stared at Lin Yuan and the rest as they walked away.

He said to Zheng Ji, "Grandfather, you'll be the last to participate in the blood pact ultimate fight! I want the people from Sky City to die the moment the fight begins! Especially that damn woman!"

Zheng Ji's solemn expression turned stony.

Of course he had to go last! If he went first, he would be asking to be killed!

The God of Strength Dung Beetle had been seriously injured to save Zheng Kaiyuan and Miao Zhi's life, but Zheng Kaiyuan did not care about the God of Strength Dung Beetle's injuries at all.

Zheng Ji felt that Zheng Kaiyuan was rather disrespectful.

As the crowd around them grew larger, Zheng Ji hurriedly ordered someone to lift up Zheng Kaiyuan and Miao Zhi, and he walked toward the ultimate fighting ground.

Under the mocking gazes of the members of other factions, Zheng Ji felt as though he had aged significantly in the blink of an eye.

Having his pride stripped away was the most painful torture for Zheng Ji.

But at the same time, he was wary.

He had agreed to Zheng Kaiyuan's suggestion of a blood pact ultimate fight. Although the two thearch-class experts from the Miao family would ensure that the Zheng family won the blood pact ultimate fight, this decision could also result in the Zheng family losing all their dignity in the future.

The Sky City group arrived at the lounge prepared for the two competitors, and they all took a seat.

Before arriving at the lounge, Sun Ningxiang had left with Apricot and Peach Witch to the public area to watch the blood pact ultimate fight and cheer Sky City on.

Lin Yuan patted Zhou Luo's shoulder and said, "Zhou Luo, Endless Summer just showed some of its power. As much as Zheng Ji cares about his pride, there's no way he will be the first to dive through death's door. The Zheng family will definitely send out either Han Tianhe or Liu Yanshan first. As such, you'll be the first person we send out."

The moment Lin Yuan spoke, Zhou Luo instantly became anxious.
