Chapter 1271: Hardworking Army of Hundred Questions Beasts

The Invisible Demon was so excited that it fell to its knees and said, "I'm privileged to receive your source-type power. I definitely won't disappoint you and successfully evolve to Class 12."

After all the time they had spent together, Lin Yuan knew that the Invisible Demon was very cautious and would not attempt to do anything that it did not have the confidence to achieve.

Otherwise, it would have jumped at the chance to go through the Source-Type Cleansing the last time Lin Yuan offered instead of waiting until it could evolve to Class 12 and use the Source-Type Cleansing to kill two birds with one stone.

But now that the Invisible Demon was taking the initiative to ask for the Source-Type Cleansing, it meant that it was confident it would succeed.

Lin Yuan had asked White Speak if dimensional lifeforms would encounter any risk when they evolved from Class 11 to Class 12.

White Speak had responded that there was a chance the evolution would fail. But even if it did fail, it would not result in death.

Hence, Lin Yuan had nothing to worry about now.

He took the Invisible Demon into the marsh world through Klein Hub so that it would be able to evolve its class in the marsh world.

It was not convenient to take the Invisible Demon into the abyssal world to evolve its class. But at least the marsh world was also a dimensional world, and it would still be a better choice than the main world.

When Lin Yuan entered the marsh world, he realized that only two days had passed.

In the distance, someone had already planted several fruit trees. It seemed that his words had an effect on the Spirit Craftsmen.

It just so happened that in the past two days, Lin Yuan had found the time to produce the Bronze/Epic feys requested by the Spirit Craftsmen.

It was effortless on Lin Yuan's part to produce Bronze/Epic feys, and it did not take a long time either.

The only part which took more time was producing the Bronze/Legend fey for Liu Tong.

One of the Medusa Snake Demons was currently planting decorative plants on the Marsh Ground Sphagna not far off from Lin Yuan.

He decided to call it over and instruct it to fetch Liu Tong so that he could give all the Bronze/Epic feys to Liu Tong to hand out.

At first, he thought that the Medusa Snake Demons would be terrified of him and it would be difficult to communicate with them.

Yet, when he called out to the Medusa Snake Demon, it looked at him with admiration and respect. Lin Yuan found this slightly odd.

He had not spent any time in the marsh world connecting with the Medusa Snake Demons in just two days. So why wasn't it afraid of him?

What had happened was that when Lin Yuan left for the Spirit Lock spatial zone the last time he was in the marsh world, news that he was a Dictator spread like a wildfire amongst the Medusa Snake Demons in the territory.

To these Medusa Snake Demons, Apostles were already magnificent in their eyes, much less the legendary Dictator.

These Medusa Snake Demons could not believe how lucky they were to be able to live in the same territory as the Dictator and be able to gaze upon the Dictator's face so often.

After receiving Lin Yuan's instruction, the Medusa Snake Demon acted as though it had just received an order from a god and immediately stopped what it was doing to slither away toward where the Spirit Craftsmen were working solemnly.

Lin Yuan turned and entered the breeding room where the 50 Hundred Questions Beasts were working.

The breeding room looked very bare and unimpressive. However, the space was extremely large.

One Hundred Questions Beast could take up about 100 square meters of space, and the room was also equipped with top Creation Master instruments.

When Lin Yuan checked on the Hundred Questions Beasts' progress, he was not disappointed by a single one of them.

Almost every Hundred Questions Beast produced five bottles of Grade 3 spirit fluid in two days.

The fat ginger cat had produced seven bottles of Grade 3 spirit fluid.

This amounted to a total of 281 Grade 3 spirit fluids in two days. Lin Yuan was extremely satisfied with this productivity.

After he set up some cat toys in the breeding room, Lin Yuan left the breeding room.

When he stepped out of the breeding room, he ran into Liu Tong, who was covered in mud and standing with ramrod straight posture 20 meters away from the structure.

Liu Tong rushed up to Lin Yuan and said with a big grin, "Lord, in less than a week, we'll be done with the construction of the lightroom that your cat fey asked us to build."

Lin Yuan reached out his hand to brush some of the mud off of Liu Tong's chest and mud as he replied, "Liu Tong, try to put more thought into the construction. Here, these are the feys all of you requested. I've brought all of them with me with time."

He handed a Diamond fey storage box to Liu Tong.

Lin Yuan was aware of the lightroom that Liu Tong spoke of. This was a job that Genius had given the Spirit Craftsmen the last time it came into the marsh world to plant Soldier Ration Radishes.

The lightroom would aid in the Soldier Ration Radish's growth. Hence, it was the best option to halt all other work and focus on building the lightroom first.

Liu Tong was shocked by what Lin Yuan said, and he dared not receive the Diamond fey storage box.

It was no lie that he was delighted by this. As the one who was going to receive all the benefits first, he was undeniably happier than the other Spirit Craftsmen because he was receiving a Bronze/Legend fey instead of a Bronze/Epic fey.

But at the same time, he felt more shocked and touched than happy.

In two days, the City Lord he had pledged his loyalty to had produced 34 Bronze/Epic feys and one Bronze/Legend fey.

This was not just an injection of resources but also proof that the City Lord he had pledged his loyalty to did not look down on them just because they were only Spirit Craftsmen.

Instead, he kept his promise to them and fulfilled it in the shortest time possible.

This feeling of being respected caused Liu Tong's heart rate to speed up.

When Liu Tong did not receive the Diamond fey storage box, Lin Yuan shook his wrist and said, "Take a look and see if there are any problems with any of the feys. If any problems are discovered when you're handing them out, report them to me. There are some feys whose bloodlines mutated during the evolution, and so they differ from the original request. However, all the mutations and evolutions are positive, so I didn't swap any of them out."

Liu Tong immediately realized that he was frozen.

Chapter 1272: Invisible Demon Transformed into a Hornet's Nest

Liu Tong hurriedly received the Diamond fey storage box and thought, *?I wonder who the lucky ones are to receive feys that underwent positive mutations.*

It was rare for Bronze grade feys to undergo positive mutations, and it would delight any person to know that this had happened to one of their feys. No one would turn away a fey that had undergone a positive mutation.

After Lin Yuan finished speaking to Liu Tong, the latter took the Diamond fey storage box with him and went back to work.

The Kill Food Sky Butterfly flew over to Lin Yuan and said, "Young Master, Wendy, Rising Lizard, and White Pavilion aren't in the territory. They've gone out to train. If you need them for anything, I'll bring them back to you immediately."

Lin Yuan shook his head.

Since Wendy, Rising Lizard, and White Pavilion were all Apostles, they should not remain idle but go out to train whenever they could.

Moreover, Lin Yuan did not have any business with them this time and did not need to call them over.

The last time Lin Yuan had spoken to White Speak, he found out how the marsh region was divided.

Lin Yuan silently set the Marsh East Palace as the battleground of the marsh world.

Hence, he needed the Apostles under his wing to grow up as soon as possible.

“Kill Food Sky Butterfly, let them continue to train. I won’t call them back unless something urgent comes up. By the way, how has the recovery of your bloodline been coming along?”

“Thanks to the earth-type heavenly-maiden-grade elemental pearls you gave me, my bloodline has healed completely. Moreover, I still need some time to get used to my Sovereign power. But it will take some time before my power increases again in the future by undergoing a new Trial of World Creation.”

The Kill Food Sky Butterfly sounded slightly frustrated, and it could not help but let out a sigh.

Given that it possessed one of the top three bloodlines amongst butterfly-species feys, the Kill Food Sky Butterfly had always felt responsible for the rate at which its power increased.

During its time in the marsh world, it had seen how dimensional lifeforms increased their power and realized how much more difficult it was for feys to increase their power.

The dimensional lifeforms that increased their class through consuming flesh reminded the Kill Food Sky Butterfly of back when it was the Kill Food Worm. Now that it had transformed into the Kill Food Sky Butterfly, it could not use the same methods it did when it was the Kill Food Worm to increase its power.

The Kill Food Sky Butterfly had thought about asking Lin Yuan for some Law Crystals.

It had used many Law Crystals to force its power to increase to the level of Creation Breed. However, it was Lin Yuan who had given it the Law Crystals. Now, it was thinking about asking Lin Yuan instead.

The Kill Food Sky Butterfly was too embarrassed to bring itself to ask.

At that moment, Lin Yuan gave the Kill Food Sky Butterfly a small wooden chest. When it opened the wooden chest, it was almost blinded by the light of all the Law Crystals within.

“There are 2,000 Law Crystals here. Use them. Once you’re done, you can ask Purple Afterglow to inform me to prepare more for you. I’ll continuously provide you with Law Crystals until you reach Creation V. Once you reach Creation V, you’ll need World Crystals to increase your power. As of now, it’s slightly difficult for me to obtain World Crystals. Hence, you’ll have to work hard on your own once you reach Creation V.”

Lin Yuan could not help but think back to the World Source Crystal and two World Crystals he had given the Sacred Source Wielding Queen.

The Sacred Sword Wielding Queen was already done absorbing the World Source Crystal, but it needed seven days to absorb each of the World Crystals.

The Miao family had sacrificed two World Crystals to Lin Yuan in order to save Zheng Kaiyuan and Miao Zhi. One of the World Crystals came from the Sovereign I/Creation I Sacred Cure White Deer while the other came from the Sovereign III/Creation II Submerged Sea Blue Whale.

After the Sacred Sword Wielding Queen was done absorbing the World Source Crystal, it would definitely be more interested in absorbing the Sacred Cure White Deer's World Crystal first because it had never absorbed a wood-type law or World Crystal before.

But in the end, Lin Yuan had decided to instruct the Sacred Sword Wielding Queen to absorb the Submerged Sea Blue Whale's World Crystal first.

Lin Yuan had the healing-type fey Jasmine Lily which fulfilled most of his healing needs.

Thus, regardless of the Sacred Cure White Deer's World Crystal having strategic significance,

Lin Yuan wanted the Sacred Sword Wielding Queen to absorb it after it absorbed the Submerged Sea Blue Whale's World Crystal first.

There was an endlessly changing sea and the ability to shift between water and ice within the Submerged Sea Blue Whale's World Crystal.

As such, the Submerged Sea Blue Whale's World Crystal would be able to provide Lin Yuan with both water and ice immunity and add a Sword Skill that combined both water and ice.

This Sword Skill would suit Dark Blue well.

In three days' time, the Sacred Sword Wielding Queen would be done absorbing the Submerged Sea Blue Whale's World Crystal.

Lin Yuan itched with anticipation to see the Submerged Sea Blue Whale's Submerged Water World and the new Sword Skill.

The Kill Food Sky Butterfly silently received the chest.

It was anxious to increase its power as soon as possible so that it would be able to protect Purple Afterglow better.

Moreover, the Kill Food Sky Butterfly had witnessed how wealthy Lin Yuan was. Hence, it was not shocked by the 2,000 Law Crystals in the chest.

Regardless, it was still as happy as it could be.

Apart from the Law Crystals, the Kill Food Sky Butterfly was even happier that they had come from its father-in-law. It was delighted that Lin Yuan cared so much for it.

The Kill Food Sky Butterfly immediately left to find a place where it could start absorbing the Law Crystals.

Now that everything else was settled, Lin Yuan lowered his head and said to his shadow, "Invisible Demon, let's begin."

The moment Lin Yuan spoke, the Invisible Demon's figure appeared 15 meters away from him with an austere expression on its face.

Lin Yuan shook his hand, and the 9900 units of source-type power he had instructed the Sacred Sword Wielding Queen to prepare started flowing into the Invisible Demon's body.

No natural phenomenon occurred once all the source-type power entered the Invisible Demon's body.

Rather, the ground and sky were suddenly covered with a layer of shadows with Invisible Demon as its center. The enormous shadow spilled forth from the Invisible Demon, and a pained yet ecstatic expression appeared on its face.

But shortly after, the delight on its face disappeared as the shadows seemed to become knives that turned it into a hornet's nest from the inside out.

Chapter 1273: Smaller But Stronger!

Although its body had become a hornet's nest, the shadows continued to spill out from its body.

The Invisible Demon's body was continuously destroyed and put back together.

Lin Yuan suddenly felt that the Invisible Demon's experience during this evolution was very similar to his experience when he consumed the Earth Center Fine Milk, as his body had also undergone a continuous cycle of destruction and rebirth after he consumed the Earth Center Fine Milk.

His body had completely transformed during the cycles, but it had been so excruciating that he had not been able to move at all.

However, the Invisible Demon was still able to move its body in spite of the agonizing pain.

The Invisible Demon scratched its body wildly with its three-inch-long purplish-black nails in order to alleviate some of the pain. The sharp nails tore the Invisible Demon's already wrecked body even further apart, stinging Lin Yuan's heart.

But after a few scratches, one of the Invisible Demon's purplish-black nails would fall off and be replaced by a pure black nail that was even sharper and thinner than before.

The pure black nails continued to rip through the Invisible Demon's body. As the number of injuries on the Invisible Demon's body increased, the shadows flowed out from the Invisible Demon's body at a quicker rate.

At that moment, the Invisible Demon's body fused with the shadows, and everything turned dark.

Nothing happened in the dark world for a few hours.

Just as Lin Yuan was becoming worried about the Invisible Demon and was going to call out to it, the Invisible Demon emerged from the shadows 15 meters away from Lin Yuan.

At that same moment, all the shadows that had taken over seemed to find their rightful place and returned to the Invisible Demon's body.

The fully transformed Invisible Demon's appearance was revealed.

If Lin Yuan was not already aware that this was the Invisible Demon, he would not be able to imagine that this dimensional lifeform had transformed from the Invisible Demon.

When it had been Class 11, the Invisible Demon had been light purple with a humanoid silhouette. But now, the Invisible Demon was emanating an aura of malevolent carnage and could only be described as a wild beast.

Perhaps it was because the Invisible Demon had spent some time amongst humans and became accustomed to human appearance and was intentionally imitating human appearance, but it looked exactly like a spirit qi professional in every way besides its face.

The Invisible Demon was around 1.8 meters tall. In spite of its skinny physique, its muscles had the same sturdiness that was characteristic of all abyss dimensional lifeforms.

But now that it was Class 12, it was only around 1.7 meters tall, and its body had become even skinner and bonier than before. All the strength of its muscles had been hidden under its skin.

This height and size were more suitable for the Invisible Demon, whose main attacking method had an assassination style.

This was not the only part of the Invisible Demon's appearance that had changed. Its body no longer had any traces of purple or green. Only black and white were left.

The Invisible Demon's skin, hair, and eyebrows were white, while its eyes, lips, and nails had become pure black. It was the same black as the shadows.

Although its teeth were still the same as they peeked through the Invisible Demon's black lips, the transformed Invisible Demon now fit human beauty standards much better than it used to.

Lin Yuan felt that the Invisible Demon was much easier on the eyes now.

A totem of two eyes covered by shadows appeared on the back of the Invisible Demon's right hand. This totem symbolized the Invisible Demon's status as an Apostle.

The Invisible Demon felt slightly conflicted as it observed its appearance.

It had been bullied heavily in the abyssal world due to its small size. Its greatest wish in life was to become as mammoth as the horned demons and win over the respect and affection of other demons with its strength and heft.

Yet, it was even smaller now despite becoming stronger.

Wait! It had become shorter and skinnier.

It was like a person who had received a raise but went bald at the same time. This perfectly described how the Invisible Demon felt at that moment.

The Invisible Demon was afraid that its looks would repulse Lin Yuan, and it thought, *Will Lin Yuan want to keep his distance from me just like the other abyss demons did because I'm even skinnier and shorter now?*

Lin Yuan walked over to the Invisible Demon at this moment while saying, "Shadow, you look much better now. All you need is a mask to cover your mouth, and you won't stick out no matter where you go."

Shadow let out a breath of relief. It seemed that Lin Yuan did not despise the new appearance it gained after transforming.

Lin Yuan's praise also made Shadow less upset about its height and size changes, as nothing was more important to it than Lin Yuan's happiness.

Lin Yuan took out a set of spirit qi clothes and tossed it at Shadow.

Shadow hurriedly thanked Lin Yuan and carefully put on the clothes in case its nails ripped the cloth.

Now that Shadow was Class 12 and had gained immortal power, Lin Yuan knew that he would not be able to use True Data to check on its characteristics.

But at the same time, he was still extremely curious about the potential changes to Shadow's original natural skill and any new natural skills it might have gained.

Shadow had pledged its loyalty to Lin Yuan and had no reason not to tell Lin Yuan about its natural skills if he asked.

As such, Lin Yuan asked, "Shadow, now that you're an Apostle, did your natural skill improve in any way?"

Shadow hurriedly replied, "Lord Dictator, Hidden Shadow/Killer Shadow can now allow me to hide within the shadow of any item. Hidden Shadow does not seem to have improved by much. I can still only sense targets up to two levels higher than me. But in the Killer Shadow state, I'm able to attack the shadows of other targets. When I attack the shadow of a non-living being, I will be able to shatter the body of the non-living being. When I attack the shadow of a living being, the living being will experience many times the inflicted damage."

Lin Yuan's eyes lit up.

Chapter 1274: Shadow Piercing Back Hibernation

According to Shadow's reply, Lin Yuan now knew that the improvement in the ability of Hidden Shadow/Killer Shadow lay in that it now enabled Shadow to shatter non-living beings and inflict multiplied damage on living beings.

Shadow used an assassination style of combat.

The changes to Hidden Shadow/Killer Shadow increased Shadow's damage power and enabled it to attack targets that were stronger than it was effectively.

When Shadow saw Lin Yuan's expression, it knew that he was very satisfied with the improvement in Hidden Shadow/Killer Shadow. This delighted Shadow and spurred it on to prove itself even further.

Before Lin Yuan asked Shadow what the new natural skill it obtained was, Shadow said, "Lord Dictator, the new natural skill I gained when I evolved to Apostle is called Shadow Piercing Back Hibernation. It's

much stronger than Hidden Shadow/Killer Shadow. It will allow me to lock a shadow-possessing target within a set area. I will appear behind the target through its shadow and assassinate it. When I'm using Shadow Piercing Back Hibernation on a target, the other shadow-possessing targets in the area will be blinded by shadows. When I stab a target with my nails, I'll also be able to extract the target's vitality to heal my wounds."

Lin Yuan almost started clapping for Shadow.

If what Shadow said was true, Shadow Piercing Back Hibernation seemed almost too powerful! It would allow Shadow to move freely behind targets in a set area using shadows.

Normally, the back of every lifeform was their blindspot, and it was the place that the lifeform would be least able to respond to in the shortest time possible. This position might not be the target's weak spot, but it would still greatly increase Shadow's attack's success rate.

Moreover, Shadow could achieve this even without activating Shadow Piercing Back Hibernation.

But when Shadow did activate Shadow Piercing Back Hibernation, it would be able to blind all other targets in the area and prevent them from going to the aid of Shadow's current target. This also greatly increased Shadow's attack's success rate.

Meanwhile, the ability to drain a target's vitality to heal itself would increase Shadow's endurance during combat and enable it to stand toe to toe against stronger opponents by killing other targets and continuously healing its wounds.

Lin Yuan felt that Shadow Piercing Back Hibernation fit Shadow's physique perfectly and allowed it to become an even better assassin.

This would enable Shadow to strike fear into any lifeform of the same grade.

Lin Yuan looked down at the shorter Shadow and stretched out his hand to ruffle its white hair as he said with a smile, "Shadow, you're now strong enough to defeat ten of your past selves. If we ever have a chance to enter the abyssal world in the future, you can accept any lifeform that catches your fancy as your believer. Alternatively, if you see any interesting dimensional lifeform in the marsh world, you can accept it as well."

Shadow was shocked. It had been the most scorned creature in the abyssal world not long ago. It had still been a captive within the purple-golden cage a month ago.

But now, it had increased not only its power but also become an Apostle, which it had never dreamed that it would become.

This all came from the Dictator standing before him.

Along the way, a feeling besides respect rose within Shadow.

Actually, Shadow had already decided which believer it was going to accept.

Rather than the horned fire-element-wielding demons it had used to envy, it preferred to accept many of its kind.

It wanted to declare loudly to the entire abyssal world that the Invisible Demons were not pathetic creatures. It wanted to use its army of Invisible Demons to gain the respect of all other demons.

Hence, Shadow told Lin Yuan about its idea candidly, "Lord Dictator, I only want to accept Invisible Demons as my believers and Favored Believers. I will create a team of assassins to serve you."

After some thought, Lin Yuan found Shadow's idea to be achievable.

Sky City's white-clothed followers were more like soldiers and could not perform the job of assassins.

It was inevitable that Sky City needed to spill blood in order to expand.

Hence, Sky City needed a sharp dagger that could perform jobs in the dead of night.

The team of Invisible Demon assassins formed by Shadow would be able to fulfill this job.

Although Invisible Demons were rare in the abyssal world, it would not be difficult for Lin Yuan to achieve this.

All he had to do was ask Long Tao to look out for Invisible Demons when he ventured into the Class 6 abyss dimensional rift.

At that moment, Lin Yuan thought about the ability Faith Gift or Robbery, which Dark Blue had gained the previous night.

Faith Gift or Robbery would enable Dark Blue to inject faith power into a target to strengthen its faith power. This was the gift part of the ability.

The robbery part of the ability would allow Dark Blue to use the faith power in its body as the standard to drain faith power from targets with less faith power than it had.

But as strong as Faith Gift or Robbery was, the amount of faith power in Dark Blue's body was limited.

However, Dark Blue also had the ability Faith Application, which allowed Lin Yuan to inject faith power into Dark Blue when they were fused together.

This would enable Lin Yuan to use Faith Gift or Robbery in the fused state as well. If so, the amount of faith power in Lin Yuan's body would become the standard, and he would be able to give or take faith power from targets with less faith power than him.

Lin Yuan decided to test Faith Power Gift or Robbery when he saw the totem in Shadow's hand.

He had already turned into a mermaid once in front of the Shadow the last time he used Faith Application. Hence, he had nothing to be embarrassed about doing it a second time.

Chapter 1275: Shadow's Lethal Weakness

As such, Lin Yuan used Faith Application to fuse with Dark Blue.

Shadow had been slightly embarrassed when Lin Yuan tousled its hair. It was about to say something when it saw Lin Yuan transform into its Dictator's body.

The last time Lin Yuan transformed into the Dictator's body, Shadow had only dared to peek at him once before averting its gaze as it was afraid that staring would be regarded as blasphemous.

But that one glance had etched the magnificence of Lin Yuan's Dictator's body into Shadow's mind.

Now that it was looking at Lin Yuan's Dictator's body again, Shadow was just as shellshocked as before. But at the same time, it felt nervous as it thought that something had happened to Lin Yuan.

According to legend, Dictators only used their Dictators' bodies when they needed to flaunt their might.

"Shadow, I want to use you to test one of my abilities. It won't put you in any danger, so you don't need to be scared. If you feel uncomfortable in any way during the experiment, let me know immediately. At the same time, I'll observe your situation carefully," said Lin Yuan.

Shadow anxiously said, "Lord Dictator, use me to test whatever you need. I might be small, but I'm as strong as can be."

Shadow stood at attention, completely unguarded, as it awaited for Lin Yuan to do whatever he wanted. It was its honor to be experimented on by its Dictator in Shadow's mind.

Lin Yuan flicked his tail, and faith power gushed out from the shrine in his soul.

His liquid-like long hair changed from dark blue to vibrant amber, and 12 pillars of amber water shot out from the ground near his feet toward the sky.

All the faith power within the pillars of water made Shadow's eyes widen to the size of sockets. It was astonished by the ocean of faith power possessed by Lin Yuan's Dictator's body.

Lin Yuan pointed at Shadow, and the 12 pillars of amber water combined into one belt of water that shot into Shadow's body.

Shadow noticed that the totem on the back of its hand was starting to grow warmer.

Since Shadow had only recently evolved to Apostle, the faith power within its totem was at the level of extremely weak.

In the short span of a few seconds, the faith power in Shadow's totem started to rise in power until it became higher weak.

As Shadow felt the faith power surging within its totem, it thought, *?How could this be uncomfortable? I've never been more comfortable!*

Faith power was the source of all Apostles' power.

Shadow had heard of how powerful Dictators were, but it had never heard of any Dictators who were able to use their faith power to strengthen the faith power of the Apostles.

Before Shadow could revel in this blissful feeling, it experienced what it could only describe as true discomfort.

The moment that the faith power rose from higher weak to below average, it felt the totem on the back of its right hand twist violently.

It was as though the pillars of water were trying to push air into a balloon that had already been stretched to its limit. If any more air were pushed into the balloon, it would burst.

Lin Yuan had been observing Shadow throughout. When he noticed a strange expression come over its face, he immediately stopped using Faith Gift or Robbery to inject faith power into Shadow.

Judging from the results of Shadow's experiment, Lin Yuan was able to estimate the limits of Faith Gift or Robbery.

Although he still had more than enough faith power left in his shrine, he would not inject faith power into Shadow when it could not take any more.

It was likely that using such an ability would only be able to strengthen the faith power of the Apostles by one large step before it started endangering the Apostles.

After Lin Yuan stopped injecting faith power into Shadow, it said with shock, "Lord Dictator, I can now use my source sacred body."

This immediately piqued Lin Yuan's interest.

He remembered both White Speak and the Dark Scorpion using their source sacred bodies during their fight.

The source sacred body was the second ability that Apostles had, and it could only be used when the Apostle's faith power reached below average.

Both White Speak and Dark Scorpion had changed into human form when they used their source sacred bodies. Not only did their power increase, but they could also use a power known as sacred absolute ability.

"Shadow, since you can use your source sacred body now, use it once so I can see what your sacred absolute ability is."

During his conversation with White Speak, Lin Yuan had learned that Dark Scorpion's sacred absolute ability was disintegration. When the ability made contact with a lifeform, the lifeform's cells would separate rapidly. This would cause significant damage to the lifeform.

White Speak had been able to swallow Dark Scorpion's sacred absolute because White Speak's sacred absolute ability was replay. This meant that White Speak would be able to swallow the sacred absolutes of Apostles that did not have a stronger faith power than it did. It would only be able to swallow a portion of the sacred absolutes of Apostles that had stronger faith power than it did.

It would then spit out the sacred absolutes it had swallowed to attack its targets.

The sacred absolutes of Apostles all had unique abilities.

Thus, Lin Yuan was almost uncontrollably curious about Shadow's sacred absolute.

Frankly, Lin Yuan was not only curious about Shadow's sacred absolute but the appearance of its sacred source body.

Now that Shadow already looked almost indistinguishable from humans, what changes would it undergo when it used its source sacred body?

Shadow immediately activated the faith power that Lin Yuan had injected into its totem.

The white parts of Shadow's body slowly became transparent while the black parts turned into shadows. It was as though Shadow had disappeared right before Lin Yuan's eyes.

However, he could sense through the faith power he had injected into Shadow that it had not moved an inch.

Lin Yuan thought, *Shadow's source sacred body turns it into an actual shadow. This greatly increases its ability to conceal itself.*

While Shadow was using source sacred body, he realized that the faith power he had injected into Shadow was slowly depleting.

Shadow deactivated its source sacred body and exclaimed, "Lord Dictator, my sacred absolute allows me to fuse with any shadow and explode it at will to inflict damage on the main body casting the shadow."

Lin Yuan's eyebrow twitched.

Shadow's sacred absolute seemed to increase its ability to attack from a distance. This enabled Shadow not to have to be near a body in a battle to attack it.

Lin Yuan noticed its flaw after understanding what Shadow Piercing Back Hibernation was all about. This seemingly invincible ability actually had a fatal weakness.

Chapter 1276: Comparison Between Brothers

When Shadow was facing off against targets like the Yellow Jadeite Golden Butterfly, it would be grievously hurt by being rebuffed by the shield even before it managed to land a hit on its target.

This seriously limited the attacking range of Shadow's sacred absolute.

"Shadow, you gained a new method of attacking with this sacred absolute, and it will definitely be effective during battle. I'm going to continue testing my ability now!"

Once again, Lin Yuan used Faith Gift or Robbery on Shadow. But this time, he used the robbery part of the ability.

When Lin Yuan used the ability, a giant silhouette of faith power appeared behind the mermaid that Lin Yuan had transformed into.

When the amber silhouette and Lin Yuan pointed at Shadow, the latter realized that it could no longer control its faith power.

When Lin Yuan used the robbery part of Faith Gift or Robbery, he did not take back the faith power he had injected into Shadow. This meant that Lin Yuan could use his faith power to keep Apostles trapped at below-average and cause them to lose control of their faith power.

This was basically the same as lowering an Apostle's life rank back to a dimensional lifeform.

Moreover, given the strength of Lin Yuan's faith power, he would be able to suppress Apostles with stronger faith power than below-average. This ability had significant strategic significance for Lin Yuan as he continued to expand into the different dimensional worlds.

After testing Faith Gift or Robbery, Lin Yuan released his control over Shadow's faith power while retrieving the faith power he had injected into its body.

...

Shadow would be able to replenish its depleted faith power, but Lin Yuan could not.

Thus, he could not use up his faith power carelessly to strengthen the faith power of his Apostles.

Shadow, Rising Lizard, Wendy, and White Pavilion should depend on themselves to strengthen their faith power while using him should be reserved as secret weapons to be used against powerful opponents.

White Speak had decided to follow him because it believed that he was a Dictator and that Dark Blue's Faith Water was his dictator's prize.

As long as Lin Yuan was careful not to expose himself and allow White Speak to realize that he was not actually a Dictator, White Speak was the strongest combat power he possessed.

He would be able to use Faith Gift or Robbery to strengthen White Speak's faith power to its maximum extent to reach the pinnacle of what Apostles could achieve.

If he helped White Speak, he would even be able to challenge the Marsh East Palace in the Marsh East Circle.

Lin Yuan badly wanted the sacred source lifeforms in the Marsh East Palace.

After handing a ball of Faith Water to Shadow, he left the marsh world.

...

In Miao Zhenshan's study, Miao Zhuo and Miao He sat on either side of Miao Zhenshan as they reported to him.

As Miao Zhenshan listened to Miao Zhuo's report, he nodded with satisfaction.

It was undeniable that Miao Zhenshan preferred Miao Zhuo over Miao He. However, Miao Zhuo's soul was injured, which prevented him from becoming a Class 4 Creation Master.

Under such circumstances, it would be difficult to make the others accept Miao Zhuo as the next family leader.

Ever since Miao Zhenshan singled out Miao He, the latter no longer wasted his days away and started taking things seriously.

However, Miao He clearly lacked some of the deviousness and bravery that Miao Zhuo had.

Miao Zhenshan asked Miao Zhuo, "Zhuo, how high of a chance do you think that Sky City will help the Sea Bliss Clan with their blood fight ultimate fight against us?"

Miao Zhuo knew that his grandfather had been bothered by this problem over the past few days.

Miao Zhenshan had decided of his own accord to issue the blood pact ultimate fight challenge to the Sea Bliss Clan. Hence, he definitely did not think that Sky City would help the Sea Bliss Clan.

However, Miao Zhuo did not say what his grandfather wanted to hear as it would only bring his father temporary joy. It would also be impractical, and his grandfather would think of him as a shortsighted person when he failed.

After thinking for some time, Miao Zhuo felt he needed to give his grandfather some form of warning, even if the warning might displease his grandfather.

“Grandfather, I think we need to be on our guard against Sky City. It would be unsurprising if Sky City came after us for revenge after we helped the Zheng family with their blood pact ultimate fight against Sky City.”

Miao Zhenshan frowned and turned to ask Miao He, “He, what do you think?”

Miao He chortled maniacally to himself after listening to what Miao Zhuo said.

Why is Miao Zhuo setting up more roadblocks for Grandfather at such a time? Grandfather was the one who decided to go ahead with the blood pact ultimate fight. By saying this, he might as well slap Grandfather across the face.

“Grandfather, you’ve thoroughly investigated the matter of the Aurora pollen. The Sea Bliss Clan started their scheme regarding the Aurora pollen long ago, and Condense Fairy Orchard’s Sun Ningxiang is also personally involved.

“Condense Fairy Orchard is on good terms with Sky City. But at the same time, Condense Fairy Orchard is also at odds with the Sea Bliss Clan. There’s no reason for Sky City to help the Sea Bliss Clan by this logic.

“Moreover, we placed many spies in the Sea Bliss Clan decades ago. It’s possible that the Sea Bliss Clan discovered one or two of them over the years, but we placed more than 20 spies there. All the news they sent back says that Sky City rejected the Sea Bliss Clan’s plea for help.

“The Sea Bliss Clan’s internal situation is a mess now, and Qi Hend has started settling matters his way. It seems that he wants to drag Qi Wangyang down from his position as the leader of the Sea Bliss Clan and replace him with Qi Haitao instead. Obviously, he has gone mad. I think that Big Brother’s words came from a place of fear.”

Miao Zhuo decided not to rebuff Miao He and chose to ignore him.

Miao Zhenshan did not reply, so Miao Zhuo knew that his grandfather was still unconvinced by either side.

Miao Zhenshan grandfather was playing a dangerous game of chess. It was so perilous that he was not even able to trust either Miao Zhuo or Miao He with certainty.

“Grandfather, if you’re still worried, I can ask Lord Lin Yuan to look into the matter, or you can go to Whale Ocean Commerce. Whale Ocean Commerce has already settled their deal with us. There’s no way they’ll deny a request for help from us now. With an immortal expert on our side, we won’t have to be afraid even if Sky City does decide to help the Sea Bliss Clan.”

Miao Zhuo’s words struck Miao Zhenshan deeply.

But eventually, he decided to take one final gamble and placed his bet that Sky City would not help the Sea Bliss Clan with their blood pact ultimate fight.

If his gamble fell through, he still had enough time to seek help from the Moon Empress’ disciple or Whale Ocean Commerce. Either way, he would have to owe one of them a favor. As such, there was no need for him to take preventive measures.

Chapter 1277: Strange Occurrence on the Ultimate Fighting Ground

It should be good news that Connected Beast Park had gained seven new thearch-class experts. Alas, some of them became arrogant after their power increased, which greatly displeased Miao Zhenshan.

They used to be mere emperor-class experts who had climbed up the ladder using Connected Beast Park’s resources. The source of their development came solely from the Miao family. However, a few of them were so pompous that Miao Zhenshan was sure that Miao Zhuo and Miao He would not be able to hold down once he died.

Hence, Miao Zhenshan decided to send these people out to participate in the blood pact ultimate fight against the Sea Bliss Clan.

It would be fine if Sky City decided not to help the Sea Bliss Clan. But even if they did decide to step in, Miao Zhenshan would not be overly distraught over sacrificing these few thearch-class experts.

While Miao Zhenshan was engulfed in his anxiousness, the blood pact ultimate fight between Connected Beast Park and the Sea Bliss Clan officially began.

Lin Yuan had no intention of attending the blood pact ultimate fight. He did not think that the City Lord of Sky City needed to participate in such a spectacle personally.

He was fully focused on the new Sword Skill he was about to receive and the whale fall near the islands that the Sea Bliss Clan owned. As such, he instructed Shadow to attend the blood pact ultimate fight itself.

A few hours later, Shadow would bring back the bodies of the Creation Breed feys and World Crystals.

Lin Yuan did not care about whether the experts from the Sea Bliss Clan had survived.

He ordered Shadow to manipulate the experts from Connected Beast Park to summon their feys and attack them so that he would be able to gain more rewards.

...

Although Lin Yuan did not care about the blood pact ultimate fight between Connected Beast Park and the Sea Bliss Clan, the other factions did not share his sentiment.

Connected Beast Park helping the Zheng family with their blood pact ultimate fight had already caused hysteria to sweep through the public, much less this blood pact ultimate fight between a veteran and a top faction.

Sky City and the Sea Bliss Clan immediately became trending topics on Star Web, and almost all trending posts were about this matter. Even news about the main member of a top faction being cheated on or the daughter-in-law of a veteran faction being abused suddenly became insignificant by comparison.

Lin Yuan needed to garner faith power from the main world. Hence, he only cared about the posts regarding Sky City.

1

Star Web was like another world in the Radiance Federation, and many spirit qi professionals were even professional tabloid reporters on Star Web.

Professional reporters usually reported the facts. However, tabloid reporters would latch onto any morsel of gossip and start spreading it throughout Star Web to attract as much attention and speculation as they could.

Lin Yuan found these salacious topics to be ironic because if he was not the person in question, he would have been fooled by them and assumed they were true.

These tabloid posts included topics such as:

<Sky City's City Lord berates Connected Beast Park in a meeting room. So stuck up! A real man would help the Sea Bliss Clan!>

<Shocking! Sky City's best combat power falls at Connected Beast Park's feet>

<According to sources, Connected Beast Park and Sky City have settled the matter privately>

There were both positive and negative comments under these posts, but Lin Yuan did not think of removing them because they were advertising Sky City in a way. In fact, Lin Yuan wanted to thank these tabloid posts for boosting Sky City's popularity and mentioning the City Lord numerous times.

It could be said that the blood pact ultimate fight between Connected Beast Park and Sea Bliss Clan had become the main topic of conversation in the entire Radiance Federation. Even non-spirit qi professionals discussed the matter when they were grocery shopping for the Usneas and Jasmine Lilies in the morning markets.

1

The moment the blood pact ultimate fight started, three thearch-class experts flew out from Connected Beast Park's side.

The veteran and rising factions who were knowledgeable about Connected Beast Park had been shocked to see the three thearch-class experts. They had assumed that Liu Yanshan and Han Tianhe's deaths were almost unrecoverable blows to Connected Beast Park. Yet, Connected Beast Park managed to produce three new thearch-class experts in the blink of an eye. It seemed that Connected Beast Park's well of resources ran deeper than they originally thought.

By contrast, when the Sea Bliss Clan's three participants stepped out, the spectators' excitement deflated. The Sea Bliss Clan's three participants were clearly feeble.

Neither Qi Heng nor Qi Wangyang was present, and Qi Haitao led the team.

It was clear that this team was a far cry from being a match for Connected Beast Park's experts.

But, when Gu Han did his round of participant confirmation, the downtrodden-looking Qi Haitao suddenly requested to be swapped out.

Soon, Gu Han announced the official start of the blood pact ultimate fight between Connected Beast Park and the Sea Bliss Clan, with a strange look on his face despite there being seemingly no one who stepped up to take Qi Haitao's place.

This caused the scene to fall into a peculiar silence. The situation resembled the blood pact ultimate fight between Sky City and the Zheng family almost uncannily. It had also been two versus three, and the side with two was almost ridiculously outmatched.

It did not take long before the astonished gasps broke the silence of the spectators.

"Damn! What's going on? There are clearly only two members of the Sea Bliss Clan left, but I definitely heard that young man who left say that he would be swapped out. Where's the substitute?"

"I'm sure the Sea Bliss Clan is done for either way. The person that was swapped out was their Young Leader Qi Haitao. I heard that Qi Haitao was gutsy, so I didn't expect him to back out almost immediately. Moreover, Lord Gu Han should have raised the issue of them lacking a substitute. But instead, he went directly to announcing the start of the blood pact ultimate fight."

"Can history really be repeating itself? Is Sky City helping the Sea Bliss Clan with the blood pact ultimate fight, after all?"

"Sky City is amazing! Connected Beast Park is so pretentious that they should be taught a good lesson!"

Miao Zhenshan was personally leading the team for Connected Beast Park because he had been unsure if Sky City would end up helping the Sea Bliss Clan.

When he saw the situation over on the Sea Bliss Clan's side, his face fell, and alarm bells rang in his head.

He released his pinnacle thearch-class expert aura and was sweeping through the entire ultimate fighting ground.

His unrestrained aura affected the audience.

Chapter 1278: Similarity Between Dimensional Lifeforms and Feys

Gu Han coughed lightly while releasing his aura as a warning to Miao Zhenshan.

Miao Zhenshan had released his aura to investigate whether there was another expert on the Sea Bliss Clan's side.

After a thorough check, he became certain that he could not sense even a hint of anything strange going on.

However, this made his heart sink instead of filling him with joy.

Previously, he had only arrived in time to see Han Tianhe and Liu Yanshan's corpses but not who from Sky City had killed them.

Now that the same situation was unfolding, an ominous feeling overwhelmed Miao Zhenshan. Could Sky City have immortal power?

If so, there would be no point in Connected Beast Park trying to win against Sky City. After scheming and plotting against Sky City for so long, it had been for naught. Connected Beast Park was like an ignorant mouse playing right into the hands of the cat that was Sky City.

But no matter how depressed Miao Zhenshan felt at that moment, he still had to express his apologies to Gu Han immediately. Gu Han had the support of the Chief Guard of the Spirit Guards and Iron Prison. As such, Miao Zhenshan could not afford to get on the wrong side of Gu Han.

Miao Zhenshan and the spectators were not alone as the three thearch-class experts from the Miao family had also sensed something was wrong. They immediately summoned their main combat feys with grim expressions.

The two king-class experts from the Sea Bliss Clan had come resigned to what they thought was their inevitable deaths because Qi Heng and Qi Haitao had told neither of them about what was going to happen.

When they saw the three Creation Breed feys summoned by the experts from Connected Beast Park, the two king-class experts could not even muster the courage to summon their own feys.

As per Lin Yuan's instruction, Shadow did not attack immediately after Connected Beast Park's thearch-class experts summoned their Creation Breed feys. Instead, it waited for them to summon more of their feys.

Shadow would feel that it had failed Lin Yuan if it only managed to bring back the corpses of three Creation Breed feys and three World Crystals.

.....

The three thearch-class experts from the Miao family stared at the two king-class experts from the Sea Bliss Clan warily, and they dared not make the first move.

The two king-class experts from the Sea Bliss Clan had completely lost the courage to fight back. If their sphincter had not strengthened after becoming A-rank spirit qi professionals, they would have already soiled their pants.

One side was on guard while the other was terrified. The blood pact ultimate fight was at a stalemate.

The buzzing noises of chatter intensified, and Connected Beast Park's three thearch-class experts exchanged looks.

Each of them summoned a Myth Breed fey that they would use to attack the Sea Bliss Clan experimentally.

However, the moment they summoned their Myth Breed feys, a black shadow that had been positioned a distance away from the ultimate fighting ground for some time flashed through the ultimate fighting ground.

Nine flashes later, the corpses of three thearch-class experts, three Creation Breed feys, and three Myth Breed feys littered the ground of the ultimate fighting ground.

Just like before, the bodies of the three dead thearch-class experts were split cleanly in half while the bodies of the dead Creation Breed feys and Myth Breed feys remained intact save for a hole on their backs.

Previously, Shadow had not been aware that the fey corpses would be useful to Lin Yuan, and it had felt guilty for some time about splitting the two Creation Breed feys' bodies into halves. Thus, Shadow took special care not to damage the bodies of the feys' bodies this time.

It stored the feys' bodies into a Diamond fey storage box and turned to return to the Return from Faraway Mansion so it could report back to Lin Yuan.

Shadow's orders had been to kill the three thearch-class experts and win the blood pact ultimate fight on the Sea Bliss Clan's behalf. It had performed the job perfectly.

After Shadow left, the spectators remained silent.

Although they had already guessed that Sky City was helping the Sea Bliss Clan with the blood pact ultimate fight, they still found it hard to quickly come to terms with it when it happened right before their eyes.

Connected Beast Park did not just lose three thearch-class experts as according to the rules of the blood pact ultimate fight, the lives of the members of Connected Beast Park were in the hands of the Sea Bliss Clan.

Could this spell the end of the mighty top-faction Connected Beast Park?

All the Star Web reporters present started racking their brains for the best way to report on this blood pact ultimate fight.

Many of the people who had come to watch the blood pact ultimate fight between Connected Beast Park and the Sea Bliss Clan live were famous. When they recovered from the shock, some of them immediately logged onto Star Web to post about the results of the blood pact ultimate fight.

Sky City's popularity shot up as the gossip mongers spread the news throughout Star Web.

At that moment, Lin Yuan and the Fortuitous Blessing-Carrying Swallow were looking at each other. Suddenly, he felt the faith power within the shrine increase by at least 5%. However, this was just the beginning, a kickstarter.

Lin Yuan felt that his identity as the City Lord of Sky City would be able to multiply the amount of faith power within the shrine.

Excitement bubbled up uncontrollably within him.

The increase in faith power also notified Lin Yuan that the blood pact ultimate fight between Connected Beast Park and the Sea Bliss Clan had ended and that Shadow should be back soon.

Sure enough, Shadow appeared in front of him the moment the thought entered his mind.

Shadow handed the Diamond fey storage box that Lin Yuan had given it that morning back to him as it said, "Lord Dictator, there are a total of three Class 11 lifeforms and three lifeforms below Class 11 in this Diamond fey storage box. Take a look."

Lin Yuan smiled at Shadow's expectant expression as he received the Diamond fey storage box.

He did not need to look inside to know that the three Creation Breed feys and three Myth Breed feys' corpses were complete within the Diamond fey storage box.

As a demon from the abyssal world, Shadow was merciless. But at the same time, it was new to feelings which resulted in an adorable side.

Seeing how innocently excited Shadow was, Lin Yuan had to play along.

As such, he praised Shadow generously.

When he saw Shadow's toothy smile of contentment, Lin Yuan felt that dimensional lifeforms and feys shared many similarities. The biggest similarity was that they approached feelings with a very simple approach.

Chapter 1279: Prism Snapping Turtle and Blazing Sun Dragon Cricket

Lin Yuan could not help but think about how the Radiance Federation and abyssal world would be linked through the Class 6 abyss dimensional rift once it opened.

It was possible that abyss demons would become helpers to spirit qi professionals or be tamed by them so that they would eventually move over to the main world.

After praising Shadow, Lin Yuan carefully checked the fey corpses within the Diamond fey storage box.

Previously, at the Miao family, Lin Yuan had taken the Creation World Ley Lines of the seven thearch-class experts' feys while they were undergoing the Trials of World Creation to evolve to Creation Breed. He had gained seven new golden pearls through this.

Hence, Lin Yuan was well aware of what the seven thearch-class experts' Creation Breed feys were.

They had all been pinnacle emperor-class, and their main feys had been picked carefully. As such, Lin Yuan badly yearned for these Creation Breed feys' law worlds.

When he was done checking the three Creation Breed fey corpses, his eyes suddenly lit up. One of them was the fey that he wanted the most. It was the Prism Snapping Turtle.

The Prism Snapping Turtle's law world was the Simulation World, and it could be used to imitate other feys and their abilities and exclusive skills.

Although the Prism Snapping Turtle could not overwhelm stronger feys by imitating them, it would be able to use this to defeat weaker feys.

Lin Yuan took out the Prism Snapping Turtle's World Crystal. A large silver turtle with a mirror for a shell lay within the World Crystal. It looked very ordinary and could not compare to the scene within the Sacred Heal White Deer or the Submerged Sea Blue Whale's World Crystals.

But upon closer inspection of the Prism Snapping Turtle's World Crystal, Lin Yuan noticed that there seemed to be a world tucked within each of the scoots on its back. As the scoots overlapped, they formed an ever-evolving world.

The Prism Snapping Turtle flawlessly fit into every one of the worlds and became an essential part of them.

Lin Yuan did not know what type of Sword Skill the Sacred Sword Wielding Queen would gain after it absorbed the Simulation World. But regardless, it was sure to be acrobatic and versatile.

.....

The other two Creation Breed feys' law worlds were not bad but not as impressive as the Prism Snapping Turtle's Simulation World.

The Shadow Tied Mesmerizing Snake's World Crystal was full of faint shadows that looked as though they were about to die out as they spread their woe throughout the world. These shadows turned into nooses every once in a while that tried to loop around anything they could.

The dead expert's Shadow Tied Mesmerizing Snake would eventually become a burden that tied to every tangible item.

The giant snake with long horns on its head, sharp grayish-purple scales, and a wooden horn growing out of its head was twirling around on a stone pillar as though it wanted to strangle the stone pillar.

Its law world was the Shadow Tied World which enabled it to control shadows during combat like Shadow could.

However, Shadow attacked like a strong assassin while the Shadow Tied Mesmerizing Snake's attack would act more like a shadow being puppeteered by a wizard.

Moreover, the shadows from the dead would have some level of spiritual combat ability.

Lin Yuan guessed that the Sacred Sword Wielding Queen would be able to gain a controlling Sword Skill when it consumed the Shadow Tied World Crystal.

Yet, Lin Yuan did not want the Sacred Sword Wielding Queen to absorb the Shadow Tied World Crystal so soon unless it no longer had any other World Crystals to absorb.

Shadow was borne from darkness and the Shadow Tied World Crystal was a dark-type World Crystal.

When the Sacred Sword Wielding Queen absorbed the Shadow Tied World, Lin Yuan would gain resistance to dark-type. However, he already had the Dark Death World for this.

Lin Yuan preferred a more comprehensive development rather than specialized resistance against dark-type.

The third World Crystal was the Scorching Sun World Crystal that came from the Blazing Sun Dragon Cricket.

The Blazing Sun Dragon Cricket was both fire- and light-type, and the Scorching Sun World would give Lin Yuan defense against fire- and light-type. This would provide Lin Yuan with the second type of defensive ability.

After the Sacred Sword Wielding Queen absorbed the Scorching Sun World Crystal, Lin Yuan would have a much easier time fighting against Zong Ze.

Of course, this would be the case if the Fiery Sky Hou had not purified its bloodline. Now that it had improved its Barren bloodline and gained the top strange flames Red Plum Falling Fire, Lin Yuan was not confident that the fire-elemental resistance provided by the Sacred Sword Wielding Queen would be enough.

The Blazing Sun Dragon Cricket was a damage-type fey that purely used wide-ranged attacks. It was exceedingly similar to Han Tianhe's Earth Core Dragon Snail.

After the Sacred Sword Wielding Queen absorbed the Scorching Sun World Crystal, Lin Yuan would also gain a Sword Skill that would be powerful against a group.

It was not easy to gain World Crystals. Once the Sacred Sword Wielding Queen absorbed all the World Crystals that Lin Yuan had, he would have to try to come up with a way to use the golden pearls formed from Creation World Ley Lines.

These golden pearls should be used to strengthen the law worlds on the Sacred Sword Wielding Queen's skirt, and Lin Yuan needed to think carefully about how he would go ahead in utilizing them.

Every part of Myth Breed and Creation Breed feys' bodies was precious, and Lin Yuan intended to give the corpses of these Myth Breed and Creation Breed feys to the Mother of Bloodbath so that it could absorb the blood energy within them before separating them into spiritual ingredients that would be useful to Creation Masters.

The flesh would be given to Purple Demon so that it could grow quickly.

According to Lin Yuan's plan, after helping the Sea Bliss Clan win their blood pact ultimate fight against Connected Beast Park, he was going to take Liu Jie, the Mother of Bloodbath, and a few Spirit Craftsmen with him through the Space Tunnel to the Divine Wood Federation to continue training.

But after the news that Qi Haitao had given him, Lin Yuan decided to scrap this plan as going to the islands owned by the Sea Bliss Clan to check on the exact situation of the whale fall was of a higher priority now.

Qi Heng had left his phone number with Lin Yuan before leaving Sky City's Star Web private territory.

The Sea Bliss Clan had just won the blood pact ultimate fight and were about to hand over all of their resources to Sky City.

Chapter 1280: I Want to See the Whale Fall!

Qi Heng definitely had many things to do now.

Lin Yuan did not want to wait for Qi Heng to contact him so that he could stall. As such, he called Qi Heng immediately.

At that moment, Qi Heng was standing in the Sea Bliss Clan's tent at the ultimate fighting ground and basking in the crowd's attention.

When he saw Miao Zhenshan standing some ways ahead of him, he suddenly felt that he was better than Miao Zhenshan.

However, this feeling only lasted a fleeting moment because he knew that the Sea Bliss Clan was not the one who had defeated Connected Beast Park in the blood pact ultimate fight. It was actually Sky City that deserved the credit.

The Sea Bliss Clan was a loser, just like Connected Beast Park, and both sides had lost all their resources to Sky City. Sky City, which had remained in the shadows, was the true victor of this incident.

For some reason, when Qi Heng thought back to Sky City's City Lord's calmness when they met at Star Web's private faction territory, he had a feeling that Sky City was pulling the strings behind everything.

At the end of the day, the Qi family would be a rudderless boat once they left the ultimate fighting ground.

Qi Heng could not help but feel uncontrollable resentment when he saw Qi Wangyang's ecstatic expression.

At that moment, Qi Heng's phone rang. When he looked at the screen, he saw that it was an unfamiliar number.

Given the timing, Qi Heng could guess who the call was coming from.

He dared not hesitate before he answered the call and a clear young voice on the other end of the call said, "The Sea Bliss Clan has won the blood pact ultimate fight against Connected Beast Park. Sky City has kept up our end of the deal. Now, it is time for the Sea Bliss Clan to keep up its end."

Qi Heng circulated his spiritual power and molded the spirit qi into a vortex beside him. Next, he used his sleeve to cover his mouth before saying, "Lord, the Qi family will not return to the Sea Bliss Clan residence after the blood pact ultimate fight. You can come and take over our resources at any time. If you don't want the spirit qi professionals working in the Sea Bliss Clan, please give me one day to dismiss them."

.....

Lin Yuan nodded to himself. He was satisfied with the way Qi Heng conducted business.

“Someone will go over to the Sea Bliss Clan to take over the resources and handle the spirit qi professionals working under the Sea Bliss Clan. You don’t need to worry about it. However, you should still remember what you said in Sky City’s Star Web private faction territory. Now, take me to see the large whale fall near the islands.”

Qi Heng momentarily froze when he heard what Lin Yuan said because he knew that Sky City’s City Lord was calling to ascertain the truth of Qi Haitao’s news. Sky City would keep its promise to the Qi family if it were true. If it turned out to be fake, Sky City would probably make the Qi family pay.

However, Qi Heng had nothing to be afraid of because there truly was a large whale fall near the islands. But any large whale fall would be protected by powerful sea beasts and experts from the sea clans.

Thus, Qi Heng dared not touch the large whale fall in spite of its close proximity to the Sea Bliss Clan’s islands. He had only made use of the nutrients swept to the surface by the currents.

Although Qi Haitao had not mentioned this, Qi Heng was sure that the City Lord of Sky City would understand this.

“Please give me an hour. I will wait for you at the entrance of the Listening Heron Chamber of Commerce then. I would like to use the hour to settle some of the Qi family’s internal problems.”

Lin Yuan made a noise of acknowledgment before hanging up.

This journey to Raging Waves City would be a long one.

Lin Yuan’s Ethereal Jellyfish had not placed any Tentacle Nodes along the route to Raging Waves City, and Lin Yuan could use this journey to do so as it would make his future journeys to Raging Waves City much easier.

Wen Yu had wanted to go on this journey as well. But when she remembered her power and all the matters that needed to be attended to in Sky City’s Star Web private territory, she eventually decided to stay in the mansion.

Given that this would be a long journey, Liu Jie and the Mother of Bloodbath immediately started to make preparations.

Ji Feng would stay to watch over the Listening Heron Chamber of Commerce. It was still not convenient for him to move around in his current situation. If he summoned his feys and displayed his power, people would link him to the Young Leader of the faction Sea Sky Nurture that had disappeared over a decade ago.

When Qi Heng put down the phone, he looked at Qi Wangyang, who was waving madly at the crowd, and coughed.

Qi Heng pulled Qi Wangyang over and told him about the deal between Sky City and the Sea Bliss Clan that he and Qi Haitao had made on Star Web.

Qi Wangyang’s expression changed abruptly and hardened.

He had been overjoyed when he saw the black shadow kill the three Connected Beast Park thearch-class experts during the blood pact ultimate fight. He silently blamed Qi Heng and Qi Haitao for not telling him about such a serious matter.

Qi Wangyang had expected Qi Heng and Qi Haitao to pay a heavy price, but he did not expect that it would cost the entire Sea Bliss Clan.

5,000,000 Radiance dollars is useless! It can't even buy a few Angelfish of Bliss of decent quality. Is the City Lord of Sky City treating us like beggars that need to be patronized?

Before Qi Wangyang could say anything, Qi Heng summoned a giant bear covered with blue flames and slapped Qi Wangyang's head.

This sudden slap was not forceful, but Qi Wangyang still fainted. A spark of blue flame also entered Qi Wangyang's head when he fell unconscious.

This slap shocked every member of the Qi family, including Qi Haitao. The people from Connected Beast Park, Gu Han, the audience, and the influencers and reporters from Star Web were all taken aback as well.

The Star Web reporters took photos while the influencers from Star Web immediately posted about this on Star Web. Anyone would want a piece of such juicy news.

Qi Heng ignored the reactions and used his spiritual power to create a wall around the Qi family before he turned and said to Qi Haitao, "Haitao, you're going to be the leader of the Qi family from now on. Your father caused the Qi family to fall and gave away everything the Sea Bliss Clan built over the past decades. He forced us to become beggars that are desperately looking for a way out. A person like this isn't fit to be the leader of the Qi family.

"My Death Flames Curse Bear hit Qi Wangyang's head with a curse. As long as his spiritual energy doesn't exceed mine, he won't be able to break free of the curse."
