

Merchant 1341

### **Chapter 1341: Sky City's Pillars**

As such, Lin Yuan could not give the Kill Carnage Willpower Rune to Silver Corona even though it was very suitable for Silver Corona.

In total, Lin Yuan had comprehended 10 Willpower Runes. If he told anyone this, they would be frozen with shock.

It was unheard of for such an elite young person to own 10 Fantasy Breed feys. Yet, Lin Yuan still felt that he did not have enough to go around.

Besides the one he had already used, Lin Yuan only had the Kill Carnage Willpower Rune he had comprehended in the alien insect dimensional rift.

After being stuck on the Knowledge Willpower Rune for so long, Lin Yuan knew the torture of yearning for a Willpower Rune but being unable to obtain one. He also knew how difficult it was to comprehend a Willpower Rune intentionally.

If it were easy to comprehend a Willpower Rune intentionally, there would be countless spirit qi professionals who burnt holes in their wallets to hire Creation Masters to create a custom Willpower Rune for their feys.

The Dragon Saliva Whale Fragrance that Red Thorn found could increase a fey's ability to comprehend Willpower Runes from nature.

The jade-textured agarwood could calm a person down and give them clarity to focus. It was Lin Yuan's favorite incense fragrance.

Lin Yuan decided that when he returned, he would choose his favorite scent out of the four Dragon Saliva Whale Fragrances. Then, he would be able to muddle the jade-textured agarwood and his favorite Dragon Saliva Whale Fragrance together for his daily use. This might help him to comprehend a Willpower Rune that was suitable for the Remembrance Soul Whale as soon as possible.

If he could not find the best Willpower Rune, a perfectionist like Lin Yuan would not dare to contract any new feys.

If any other elite member of the young generation knew what he was thinking, scathing thoughts would immediately fill their heads.

*How are you still not satisfied after comprehending 10 Willpower Runes? It would be the happiest day of our lives if we managed to comprehend one! What do you take Willpower Runes for? Do you think they're vegetables sold at the market or toilet paper that is always readily available?*

*Also, you're way too heavy-handed! The Dragon Saliva Whale Fragrance is so precious that anyone who obtains even a small piece of it will carefully turn it into an accessory they wear wherever they go to increase their ability to comprehend Willpower Runes from nature. Yet, you choose not to only immediately burn it up but also insist on picking the best scent out of the four!? How infuriating!*

.....

Nonetheless, these young elites would never have the opportunity to know that Lin Yuan held such a treasure in his hands as he was not the type to show off. He always kept his treasures and fortunes a secret.

By now, Red Thorn's brutal child ramets had finished consuming all the flesh from the three Island Whales, reducing them to bones.

The Mother of Bloodbath carefully stored the Island Whale bones in a Diamond fey storage box.

Just like the Island Whale brain oil, the bones became more valuable with age.

These three sets of old Island Whale bones shone like pieces of jade at the bottom of the sea.

Lin Yuan immediately decided what he would use the Island Whale bones for. He did not plan on opening them up to gain access to their marrow, even though that would enable the Floating Island Whale to hatch sooner.

This was because he still had the bones of hundreds of giant whales that could be used to enable the Floating Island Whale to hatch sooner.

Lin Yuan was a patient person, but there would be no guarantee that waiting would allow him to gain another three sets of Island Whale bones, much less mature Island Whale bones. Lin Yuan was also unwilling to kill high-quality whales to obtain their bones.

He planned on using the three sets of Island Whale bones as pillars that would hold up the true Sky City that he was going to build on the Floating Island Whale's back.

After Lin Yuan extracted the Island Whale's brain oil, they would lose their jade sheen and turn ivory.

The furniture and items made from whale bones that appeared at auctions were all made from bones that had their marrow extracted.

If the marrow were kept sealed within the bones, the whale bones would be sturdier and start to glow under the nourishment of the marrow.

By using the Island Whale bones to build Sky City, the water elements and spirit qi released would nourish the Floating Island Whale's skin and prevent its skin from drying out while flying in the sky. This would also allow any plant-type feys that Lin Yuan planted on the Floating Island Whale's back to grow without needing to be watered, as the water vapor released from within the Island Whale bones would be enough.

The Island Whale bones were extremely strong. When combined with other strong spiritual ingredients, Sky City would be saved from damage when the Floating Island Whale knocked into other targets.

Hu Quan would be beside himself with excitement if he found out that Lin Yuan wanted to use the three sets of Island Whale bones to build Sky City.

Currently, Red Thorn had reached Gold IX/Fantasy V and was one step away from Platinum grade.

Lin Yuan returned Red Thorn and the Remembrance Soul Whale to the Spirit Lock spatial zone and stopped using Faith Application.

The Mother of Bloodbath came over to Lin Yuan, presented him with the 10 Diamond fey storage boxes full of brain oil, and said, "Here are all the resources that can be collected from the large whale fall. Besides the whale bones, I also asked Red Thorn to save over 100 gallbladders. The giant whales' gallbladders are strong antidotes for poison, even the rarest ones. They might be useful to you one day."

Lin Yuan smiled and received the fey storage boxes as he replied, "You've worked hard, Mother of Bloodbath. If not for you, a person without experience like me would have been left at a loss about how to teach Red Thorn what to and what not to eat."

The Mother of Bloodbath shook its head.

Its contributions were minuscule compared to what Lin Yuan had done for it. It did not deserve Lin Yuan's gratitude. Instead, it should be the one expressing its gratitude. Given all the times that Lin Yuan had saved it, thanking him a thousand times would still be insufficient.

The Mother of Bloodbath softly said, "Lin Yuan, you didn't want me to stand on ceremony with you, so why are you acting like this with me? Also, one of the fey storage boxes I gave you contains seven Law Crystals. Six of them are Myth I, while two are Myth II. These giant whales might be large in size, but they aren't strong. It's actually a shame only one out of the three Island Whales reached Creation Breed. The Law Crystal from that Island Whale is at least 10 times more valuable than the Law Crystals from the other giant whales."

#### **Chapter 1342: Disobedient Silver Umber Black**

Lin Yuan's eyes lit up, but he did not immediately look inside the fey storage boxes.

All of the Law Crystals would become the Sacred Sword Wielding Queen's food and be absorbed by its skirt. There was no rush to check on them now, and he could do it when he returned to the mansion.

Now that the bottom of the sea had been cleared out, Lin Yuan prepared to return to the island with Liu Jie and the Mother of Bloodbath to start the important task of enabling the Floating Island Whale to hatch sooner.

It would be too inconvenient to extract the marrow from the hundreds of giant whale bones while they were in the sea.

A giant whale spent most of its time in the deep sea and only came to the surface occasionally for air. Hence, the pressure in their marrow was extremely high. Once the bones were open by even a crack, all the marrow would be pushed out, and the pure water elements and spirit qi would spill out and dissipate into the sea.

In order to ensure that the Floating Island Whale could absorb all of the marrow, the option would be to extract it on the island.

Besides the benefits that Lin Yuan was expecting, the whale fall had also brought the legendary Remembrance Soul Whale to him. This was the pleasant surprise of his trip to Raging Waves City.

When he returned to the island and was about to extract the giant whale's bone marrow, he was instantly stunned by the island's state.

*What the hell? What's going on? Why has Silver Umber Black reverted to its original body? Why are all the sea-king experts almost dead?*

White Speak was in human form as it stood atop Silver Umber Black and carved its back with a piece of white bone.

The scene was enough to make one bristle with anger.

Although Lin Yuan had not explicitly shown that he had forgiven Silver Umber Black, reading between the lines of what he had said was enough to discern his attitude toward it.

Since the Mother of Bloodbath had forgiven Silver Umber Black, he would not pursue the matter either.

Thus, why was White Speak attacking Silver Umber Black?

Lin Yuan immediately yelled, "White Speak, what's going on?"

He trusted White Speak more than he did Silver Umber Black.

Regardless of whether White Speak believed that he was a Dictator, the glowing dots of faith in the shrine provided by White Speak were real. White Speak provided the largest glowing dots, and this meant that White Speak's faith in Lin Yuan ran deep.

Since the glowing dots provided by White Speak had not diminished, White Speak would not go against his wishes. There had to be a reason for all of this.

Silver Umber Black shivered in terror as it watched White Speak carve the scales off its back. When it recalled the things that White Speak had done to it, all the hair on its back stood up.

When Silver Umber Black saw Lin Yuan had returned to the island, it screamed wildly, "Lin Yuan, save me! I'll do anything if you'll save me! I'll tell you all of the First Emperor Shark Clan's secrets that I know of!"

At that moment, Silver Umber Black was like a rabbit that had been backed into a corner by a tiger and had suddenly spotted a glimmer of hope.

White Speak spun around and jumped down from Silver Umber Black's back. It placed the silvery-blue paste he had carved out of Silver Umber Black's back into a crystal bottle and said, "Lord, you specifically said that no one from the island was allowed to enter the sea. But, I found this smelly fish eyeing the sea suspiciously. Since this smelly fish did not listen to your instruction, I decided to teach it a lesson. This smelly fish needs to learn its place. Servants should stick to doing what servants do. Since it wants to be your servant, how can it ignore your order?"

Lin Yuan was slightly surprised when he heard what White Speak said.

White Speak sure knew how to protect him.

Besides people close to him like the Mother of Bloodbath and Liu Jie, Lin Yuan did not want nor would he allow anyone to know that he had obtained the Remembrance Soul Whale.

He looked at Silver Umber Black, who had transformed back into human form. Silver Umber Black was in a pathetic state, and its shiny horn appeared dimmer. There was also blood oozing out of its mouth. Clearly, White Speak had not held back.

When Lin Yuan seemed to have no intention of blaming White Speak, it knew that it had succeeded in currying favor.

In White Speak's eyes, Silver Umber Black's action was punishable by death.

It was just a puny smelly fish. Yet, it dared to ignore Lord Dictator!

Since White Speak lived in the marsh world, life rank was above all else.

Any dimensional lifeform that dared to defy its Apostle would be punished harshly in the dimensional world. After experiencing the dimensional world's merciless ways, White Speak repeated it on Silver Umber Black.

The Kill Food Sky Butterfly first looked at White Speak with fright before it walked over to Lin Yuan and said, "Lin Yuan, things happened just as White Speak said. Although White Speak's methods are extreme, I don't think White Speak's in the wrong."

The Kill Food Sky Butterfly shot a scathing look at Silver Umber Black.

If only the Kill Food Sky Butterfly were as capable at flattery as White Speak, it would have also stopped Silver Umber Black from peeking into the sea.

Given that Silver Umber Black was a Sea Emperor that had reached Immortal Breed, using its spiritual energy to sense beneath the water was no different from seeing with its eyes.

Lin Yuan walked over to Silver Umber Black and cocked his head as he asked the humiliated Silver Umber Black, "It looks everything you said before I went to collect the whale fall was a lie."

For some reason, Silver Umber Black felt a chill overwhelm its heart, and it hurriedly pleaded, "Lord, I have never been anyone's subordinate before, so it's understandable that I don't understand the rules. Please give me a chance. I know a lot of information about the First Emperor Shark Clan, and I'll tell you all of it. I can also tell you anything and everything that you want to know about the First Emperor Cutlass Clan."

Lin Yuan did not forgive Silver Umber Black immediately. Although it should be telling the truth as it would not be reduced to being any other sea clan's subordinate even if the First Emperor Cutlass Clan had waned in power, it was not good for it to be unaware of the rules.

This was especially so because he had decided to make the First Emperor Shark Clan pay a price, and he would definitely be starting a war with the sea clans.

Leaving a Sea Emperor that was unaware of the rules by his side would only cause him trouble.

Rules could not be picked up in a day, and Lin Yuan did not have the time to educate Silver Umber Black.

Thus, fear became the best solution. As long as Silver Umber Black's heart was pumped full of fear, it would think about the consequences before it acted and be careful about breaking the rules.

Lin Yuan turned and asked White Speak, "White Speak, what is that thing you carved out?"

### **Chapter 1343: Liu Jie is Astonished by the Floating Island Whale**

White Speak fished a large bottle full of silver-blue paste out of his sleeve. It handed the bottle to Lin Yuan and said, "Lord, when I attacked the smelly fish, I noticed that its scales were extremely smooth. So, I decided to collect some. From now on, when I'm under the sun in my original form, I can spread the scales on my back. It should be very comfortable."

White Speak presented the bottle like a treasure and added, "Lord, I collected over 30 bottles full of scales. If you like them, I can give them to you."

Lin Yuan almost exploded.

Given that Silver Umber Black was a Sea Emperor from the First Emperor Cutlass Clan, its scales were definitely expensive high-quality water-type spiritual ingredients.

It was no wonder that Silver Umber Black was in a sorry state since White Speak had collected so many of its scales.

Lin Yuan would be able to understand if White Speak wanted to use the scales to increase its power or give them to White Pavilion.

However, White Speak wanted to use the scales as skincare or give them to Lin Yuan. What use would he have for the scales? Was he supposed to use them as an exfoliant when he showered?

Lin Yuan's lips twitched, and he returned the bottle to White Speak as he said, "Since you're so interested in these scales, you should keep them."

He took out the Jeweled Cave Golden Toad and said, "It seems that you're on good terms with Silver Umber Black. After taking so many of its scales, you should comfort it. Stay here for a while."

White Speak was slightly shocked by what Lin Yuan said, but it smiled when it picked up on what he meant.

When Silver Umber Black heard what Lin Yuan said, it suddenly felt that Lin Yuan seemed even more terrifying than White Speak. This petrifying image of Lin Yuan was burned into Silver Umber Black's mind. It was so terror-stricken that it almost burst into tears.

But when it saw Lin Yuan's cold expression, it dared not plead for mercy as it was afraid that it would cause him to change his mind and choose an even more barbaric method.

Silver Umber Black cowered in fear as it entered the Jeweled Cave Golden Toad of its own accord.

As for the two sea-king experts, Lin Yuan tossed them to White Speak so that it could teach them a lesson.

The Mother of Bloodbath and Liu Jie grinned when they saw how Lin Yuan treated Silver Umber Black.

Reading on Myb o xno vel. com ,Please!

Lin Yuan was always gracious and rarely lost his temper. Although this was a virtue, it could also be mistaken for spinelessness.

The way that Lin Yuan talked to Silver Umber Black proved that he had constantly been maturing. He had grown from a bright youth to a dignified young man of the upper echelon.

Lin Yuan had already given Silver Umber Black a chance, but it had ignored his order. Since Silver Umber Black did not know how to appreciate the opportunity it had been given, it deserved to be taught a brutal lesson.

If Lin Yuan gave Silver Umber Black multiple chances, Silver Umber Black would only disregard the rules, cross the line, and eventually lose its loyalty to Lin Yuan.

Only the Mother of Bloodbath, Liu Jie, the Kill Food Sky Butterfly, and Shadow were left on the island. They were all dear to Lin Yuan, and he did not feel the need to hide anything from them.

Thus, he summoned the Island Whale embryo out of the Spirit Lock spatial zone.

Other than Liu Jie, who understood the Island Whales, the Mother of Bloodbath and Kill Food Sky Butterfly were not sea feys and knew very little about the Island Whales. As a dimensional lifeform, Shadow was completely in the dark.

Liu Jie had noticed that the Island Whale embryo that Lin Yuan took out was very different from regular Island Whale embryos.

Usually, the Island Whale embryos were blue. But, the one Lin Yuan took out was a mix of green and blue, and it had both wind- and water-type aura.

This was the first time that Liu Jie had come across such an Island Whale embryo.

Lin Yuan placed his hand on the Floating Island Whale embryo. After Lin Yuan had fed the Floating Island Whale so many times, it had become accustomed to his aura.

The Floating Island Whale within the egg immediately swam over to where Lin Yuan's hand was placed on the shell. Lin Yuan could also feel the tremors coming from inside the egg.

When Lin Yuan saw the confused expressions of those around him, he said, "When I first established a private faction, I did not decide to name it Sky City by chance. From the beginning, I aimed to build a faction in the sky. This is a mutated Island Whale embryo called the Floating Island Whale. It can swim in the sky just like how the Island Whales swim in the sea."

Shadow did not think much of what Lin Yuan said as it did not come from the main world. However, Liu Jie, the Mother of Bloodbath, and the Kill Food Sky Butterfly froze.

Naturally, the three of them did not question the truth of what Lin Yuan had said. However, what he had said was just too shocking. An Island Whale that flew in the sky was completely different from one that swam in the sea.

The Island Whale from the sea would not be able to infringe on land, but the Floating Island Whale from the sky could. Hence, they had completely different strategic significances.

By building a camp on the Floating Island Whale's back, the faction would be able to land on any part of the world and would not have to be constrained by domains.

Liu Jie suddenly realized that he had never truly understood Lin Yuan, much less aimed for the same ambitions. He could not even begin to imagine Lin Yuan's ambitions.

From the beginning, Lin Yuan had set his sights on not just the Radiance Federation but the entire main world. He had been constantly working hard toward this aspiration.

Now that Liu Jie had become Night Leaning Moon's disciple, all the resources he used to increase his power came from her.

However, Liu Jie had no doubt that even if he did not have a Master, Lin Yuan would do all he could to provide him with carcinoma feys that the Insect Queen could control.

Liu Jie had always wanted to be the one to shelter Lin Yuan. Yet, from every angle, it was plain to see that Lin Yuan was the one protecting every member of Sky City.

Eventually, Liu Jie did not say anything as there was no need to. In order to catch up to Lin Yuan and become Lin Yuan's retainer for the rest of his life, all he could do was work harder and harder.

Liu Jie composed himself and pulled up his sleeve as he said, "Lin Yuan, there are hundreds of whale bones. Let's split up to extract the marrow."

Lin Yuan took out the Diamond fey storage boxes that the Mother of Bloodbath had given him and summoned all the giant whale bones other than those of the three Island Whales.

He had not thought much of it when he was at the bottom of the ocean. But now that the hundreds or even thousands of meters long giant whale bones were laid out on the island, they took up more than half the space on the island. The sight of the landscape was startling.

#### **Chapter 1344: Almost 10,000,000,000 Radiance Dollars of Provision**

Liu Jie instructed the Insect Queen to produce many of the Shield Ladybugs.

The giant whale bones were very heavy. Although the Mother of Bloodbath, Kill Food Sky Butterfly, and Shadow could lift the bones easily, Lin Yuan and Liu Jie were unable to.

Every one of the Diamond Shield Ladybugs possessed Herculean strength, and 10 of them were enough to lift the giant whale bones.

As sturdy as the whale bones were, finding a way to extract the marrow was not difficult.

The whale bones were connected by the spine running from their heads to their tails. There were also many support bones below their heads.

The space at the center of the whale's skull was the weakest part of the whale bones, and a glue-like membrane covered the hole. This membrane would not rot in the whale fall. All one had to do was gently use a sharp object to break the membrane, and the marrow would spill out naturally.

Liu Jie, the Mother of Bloodbath, Kill Food Sky Butterfly, and Shadow used this method to extract the marrow from each set of bones to preserve the whale bones' completeness.

Lin Yuan opened the Spirit Lock spatial zone and took out all the wind-type heavenly-maiden-grade elemental pearls.

Out of all the types of Elemental Shellfish, Lin Yuan had the least wind-type Elemental Shellfish. However, given that only the Floating Island Whale utilized the wind-type heavenly-maiden-grade elemental pearls, Shiny had not had the chance to utilize them. As such, he had the highest number of wind-type heavenly-maiden-grade elemental pearls.

In front of the astonished Liu Jie, Kill Food Sky Butterfly, and Mother of Bloodbath, Lin Yuan produced box after box of wind-type heavenly-maiden-grade elemental pearls and placed them around the Floating Island Whale embryo.

Next, he plastered himself on the Floating Island Whale's egg. He slit his palms and used his blood to form a link with the Floating Island Whale.

Frankly, Lin Yuan did not need to inject any more spirit qi into the Floating Island Whale embryo as there was sufficient spirit qi in the giant whales' bone marrow for the Floating Island Whale's needs.

Lin Yuan only needed to provide it with heavenly-maiden-grade elemental pearls.

However, it was clear that there was more pure water-elemental energy than spirit qi in the giant whales' bone marrow.

In order to allow the Floating Island Whale embryo to absorb pure water-elemental energy and water-elemental energy, Lin Yuan planned on cutting off the spirit qi for the rest of the feys in the Spirit Lock spatial zone while the Floating Island Whale was absorbing the bone marrow.

Reading on Mybo xno vel. com ,Please!

When Gray was absorbing large amounts of pure spirit qi in the Spirit Lock spatial zone, Lin Yuan had been worried that the Floating Island Whale embryo would be affected.

Now that the Floating Island Whale had taken on the main role, he no longer had anything to be afraid of.

The Twin Red Pagoda, Intelligent Ganoderma Sinensis, and various Elemental Shellfish would not be greatly affected. The worst-case scenario would be that the Elemental Shellfish would be temporarily unable to produce elemental pearls.

The Mother of Bloodbath, Liu Jie, Kill Food Sky Butterfly, and Shadow quickly poured the whale marrow all over the Floating Island Whale embryo.

A storm of wind elements with the Floating Island Whale at the center swirled on the island.

If An He had not changed the terrain of the island and driven away all other lifeforms, the other lifeforms would be in trouble if they witnessed this scene.

Once whale marrow from 80 giant whales was poured on the Floating Island Whale egg, Lin Yuan could sense the Floating Island Whale banging against the shell. This showed that the Floating Island Whale was so eager to meet him that it was anxiously thrashing around.

Lin Yuan let out a sigh when he felt the Floating Island Whale's affection toward him.

Although 2/3 of the giant whale marrow had already been used up, the Floating Island Whale embryo still had not let out a single whale cry. It seemed that there was no hope of the Floating Island Whale hatching today.

This was unsurprising as the Floating Island Whale embryo needed pure wind-elemental energy to grow, and there had been none at the bottom of the ocean.

The Gao family had been nurturing the Floating Island Whale ever since they received it but never provided it with any pure wind-elemental energy. This meant that the Floating Island Whale embryo had only started to be nurtured when it landed in Lin Yuan's hands, entered the Spirit Lock spatial zone, and received its first influx of pure spirit qi, water-elemental energy, and wind-elemental energy.

If the Floating Island Whale embryo were still able to hatch after only absorbing the giant whales' bone marrow without initially absorbing pure spirit qi, water-elemental energy, and wind-elemental energy, the Floating Island Whale would not be as valuable as it was.

Nonetheless, Lin Yuan was adamant about not touching the three Island Whales' bone marrow.

After absorbing the bone marrow of so many giant whales, it would take the Floating Island Whale a month at the most to hatch. Thus, Lin Yuan would be able to see the Floating Island Whale hatch before the Radiance Hundred Sequence selection.

Lin Yuan had been looking forward to the Floating Island Whale hatching for a long time. Ever since he received the Floating Island Whale embryo, a day did not go by that he did not wish for the Floating Island Whale to hatch as soon as possible.

Without this large whale fall, it could take six months for the Floating Island Whale to hatch using just the resources available in the Spirit Lock spatial zone. But now, Lin Yuan only had to wait for another month.

The wind-type heavenly-maiden-grade elemental pearls stacked below the Floating Island Whale embryo were being used up at a visible rate.

After consuming so many precious spiritual ingredients and the Earth Center Fine Milk, Lin Yuan's body had also improved.

Even if there were no healing-type feys around to heal the wound on his palm, he would be able to use his spirit to control the cells to accelerate healing.

Lin Yuan was in no rush to heal his wounds. Instead, he continued to supply blood in order to deepen his connection with the Floating Island Whale.

Liu Jie, the Mother of Bloodbath, and the rest continued to extract the whale marrow as they stared in shock at the wind-type heavenly-maiden-grade elemental pearls being used up.

With every breath that the Floating Island Whale took, at least 10 wind-type heavenly-maiden-grade elemental pearls and the marrow from one giant whale would be used up. This meant that the Floating Island Whale used up hundreds of millions of Radiance Dollars with every breath it took.

The Floating Island Whale took five breaths every minute. In 20 minutes, Lin Yuan had used up close to 10,000,000,000 Radiance dollars on the Floating Island Whale.

This speed of consumption was terrifying as even top factions in the Radiance Federation would not be able to afford it.

However, Lin Yuan's gains and losses would balance out.

Besides the hatching speed issue, it was clear from its quality that Lin Yuan's Floating Island Whale would be stronger and larger than the Island Whales hatched by other factions.

The wild Island Whales hatched in the sea could easily reach close to a length of 50,000 meters. Meanwhile, those hatched by top factions would only be able to reach a length of 30,000 meters at best.

#### **Chapter 1345: Lin Yuan's Team of Spirit Craftsmen**

This was because the water-elemental energy and concentration of spirit qi provided by those top factions could not compare to that of the whale fall.

Factions did not regard the Island Whale as an ordinary fey but as a strategic resource.

Some of the factions with sea or trading roles, like Whale Ocean Commerce, nurtured the Island Whales in order to transport goods by sea.

By using the Island Whales, they would not be attacked by sea feys and would be able to trade with the various federations. Hence, there was no need for Whale Ocean Commerce to nurture the Island Whale embryos to the best of their ability.

The number of Creation Masters would not be able to affect the purity of spirit qi and water elements. Instead, the class of the Creation Masters was what mattered. High-class Creation Masters were able to produce spirit qi and water elements of much higher concentration than low-class Creation Masters.

Every faction's Creation Master resources were tight, and they tried to save as much as possible. Thus, it was no wonder that Whale Ocean Commerce aimed to hatch the Island Whales at the lowest cost possible to save Creation Master resources and nurture more Island Whales.

Lin Yuan used wind-type elemental pearls that all had outer layers.

He had also taken out multiple water-type heavenly-maiden-grade elemental pearls with outer layers and placed them around the Floating Island Whale egg.

This meant that Lin Yuan's manual nurturing of the Floating Island Whale was no different from the Island Whales nurtured by a whale fall. In fact, the Floating Island Whale he nurtured would be better.

A large whale fall could not compare to the purity of elemental energy in an Over the Rail Coral elemental pearl.

After using the bone marrow from over 90 giant whales and 1,000 wind-type heavenly-maiden-grade elemental pearls, Lin Yuan finally sensed tremors coming from the Floating Island Whale embryo. The Floating Island Whale embryo's whale cries also became louder.

Lin Yuan smiled. He only had to wait for the little one inside the egg to grow strong enough to break through the shell, and the Floating Island Whale would be hatched.

After the bone marrow from the final giant whale was used up and the Floating Island Whale drew another breath, the island fell silent.

Before the Floating Island Whale hatched, it could not be without pure spirit qi. Lin Yuan hurriedly returned it to the Spirit Lock spatial zone before collecting the unused wind- and water-type heavenly-maiden-grade elemental pearls.

Liu Jie helped Lin Yuan to collect the whale bones as he said, "Lin Yuan, it looks like the Floating Island Whale will be able to hatch within the month. It will be a large undertaking to start building atop the Floating Island Whale once it hatches.

Reading on Mybo xno vel. com ,Please!

"Hu Quan only has 350 Spirit Craftsmen in the Heavenly Craft Pavilion, and the underground palace needs Hu Quan for the time being. The base in the marsh world also needs Spirit Craftsmen. I think that there are too few Spirit Craftsmen in the Heavenly Craft Pavilion. We should tell Hu Quan to hire more Spirit Craftsmen."

Lin Yuan did not nod immediately. Instead, he frowned.

There would be construction ongoing simultaneously on the Floating Island Whale's back, the Divine Wood Federation's underground palace, and the base in the marsh world. The Heavenly Craft Pavilion's Spirit Craftsmen would definitely be insufficient.

It might not even be enough to meet his rate of expansion if 500 Spirit Craftsmen were sent to the marsh world to build the base.

There was no person on earth that did not hope that their base would be built as soon as possible. Hence, there would never be enough Spirit Craftsmen in the Heavenly Craft Pavilion.

However, hiring Spirit Craftsmen in earnest for the Heavenly Craft Pavilion would not only require a large number of resources, but Hu Quan would also be unable to teach all of them.

Lin Yuan had discussed this with Hu Quan before, and Hu Quan had said that bringing 500 Spirit Craftsmen at a time was already his limit. The more people were hired, the more potential trouble would follow as it was statistically more possible for there to be a spy amongst them that would leak Sky City's secrets.

Lin Yuan encountered subterranean dimensional lifeforms like the Land Imp for the first time at the border between the Divine Wood Federation and Iron Hammer Federation.

The Land Imp would be a much better candidate to build the underground palace than Spirit Craftsmen. Three Class 5 Land Imps would be as good as a team of Class 4 Spirit Craftsmen.

Additionally, the Land Imps were good with their hands. Despite their shaggy and unappealing appearance, all of them were competent builders.

Some spirit qi professionals would not immediately kill the Land Imps they encountered in Class 2 subterranean dimensional rifts. Instead, they would follow the Land Imps to their nest before killing them and stealing the weapons in the nest.

The weapons created by the Land Imps were always welcome in the luxury market. It was for this reason that many factions with Creation Master roles had put up job offers at guild clubs for adventurers to catch living Land Imps that the factions then bought from them.

Next, the factions used spirit fluid to try to train the Land Imps. It was then that they discovered it was difficult for humans to subjugate the Land Imps. Even if the Land Imps were eventually successfully trained after prolonged efforts, they would still not be fully loyal and lazy to boot. They would seize the chance to escape whenever it was available.

After so much labor and Creation Master resources invested, those factions had only received pitiful returns.

One of the factions that had been worst hit was Coiling Dragon's Valley.

During a conversation with Long Tao, the latter had even complained about Coiling Dragon's Valley's failure to train the Land Imps to Lin Yuan.

As much as Lin Yuan pitied Long Tao, there was no guarantee that he would also be unable to succeed where Coiling Dragon's Valley failed.

Creation Masters could not gain the Land Imps' loyalty because they were unable to harness source-type power. They were only able to use spirit qi and had no concept of faith power.

Spirit qi was tempting to every fey but completely unappealing to dimensional lifeforms.

However, Lin Yuan could use the Sacred Sword Wielding Queen and Dark Blue to wield both source-type power and faith power.

Additionally, he had gained the Vein Land Imp in the Divine Wood Federation and transformed it into an Apostle.

With the Vein Land Imp, Lin Yuan could use it to teach other Land Imps in the future. The Vein Land Imp would pick the best Land Imps to become its believers or use its totem to change them into Favored Believers.

This would increase not only the power of the Vein Land Imp's faith power but also create a fully faithful team for Lin Yuan's sake.

If Lin Yuan used the same resources on these Land Imps that he was currently using on the Spirit Craftsmen, he would be able to accomplish his goal sooner.

Once the Class 6 dimensional rift in the Radiance Federation was opened to the public, the Radiance Federation would undergo a radical change.

Since this was the beginning of this century's transformation, Lin Yuan would follow the trend and make use of dimensional lifeforms to their greatest extent.

### **Chapter 1346: Handsome Reward and Heavy Punishment**

Lin Yuan shook his head and said to Liu Jie, "Big Brother Liu, do you remember the Vein Land Imp?"

Liu Jie was momentarily stunned when he heard what Lin Yuan said. When he thought about the amazing way that Lin Yuan had subjugated the Vein Land Imp, he immediately understood what Lin Yuan meant.

Liu Jie's eyes lit up as he said, "I'll go to the guild clubs immediately when we return to put up a job offer to catch Land Imps. The dimensional rift's active period has only just ended, and the price of dimensional lifeforms is at an all-time low. Not long ago, I saw that the Snail-Clawed Snail, which used to cost 800,000 Radiance dollars, now goes for only 200,000 Radiance dollars. Even those high-quality ones only cost 350,000."

Lin Yuan stretched and replied, "I will have to trouble you for this matter, Big Brother Liu. Let's go. We will head to Raging Waves City first to see if our collecting of the large whale fall affected them. Then, we'll return to the Royal Capital."

The Kill Food Sky Butterfly returned to its original form when it heard what Lin Yuan said.

At that moment, the Kill Food Sky Butterfly suddenly thought about what White Speak had done to Silver Umber Black.

Some time had passed since Silver Umber Black had entered the Jeweled Cave Golden Toad. If Lin Yuan did not let Silver Umber Black out soon, Silver Umber Black would be scared to death by White Speak even if White Speak did not hurt it.

Silver Umber Black was useful to Lin Yuan, and it would do no good to allow it to be scared to death by White Speak.

The Kill Food Sky Butterfly decided to remind Lin Yuan, who scratched his head awkwardly.

Lin Yuan had been so focused on Sky City's expansion that he had completely forgotten about Silver Umber Black. If the Kill Food Sky Butterfly had not reminded him, he would have brought it to the Royal Capital.

Thus, Lin Yuan opened the Jeweled Cave Golden Toad and let White Speak, Silver Umber Black, and the two sea-king experts out.

White Speak bowed respectfully to Lin Yuan and said, "Lord, I have offered suitable compensation and apologized. In order to prevent this smelly fish from insulting you, I gave it a friendly lesson on how to speak and act in front of you."

White Speak narrowed its eyes at Silver Umber Black, and the latter immediately fell to its knees in front of Lin Yuan with terror as it greeted him non-stop.

Lin Yuan walked over to Silver Umber Black and said softly, "Everything is fine now that White Speak apologized to you. I wanted you and White Speak to communicate in order to build your friendship. It's best if you're not constantly on guard with each other when you're working under me. I will ask you again. Are you sure that you want to become my servant?"

Silver Umber Black became even more terrified by Lin Yuan's cold tone. It dared not to rebuke him.

Reading on Mybo xno vel. com ,Please!

It had been impressed by Lin Yuan's countenance when it first laid eyes on him. Everything about Lin Yuan, from his features to his aura, was adored by Silver Umber Black.

But now, Silver Umber Black was terror-stricken by Lin Yuan's affection.

White Speak was Silver Umber Black's nightmare, and White Speak worked for Lin Yuan. A master collected servants that had the same character as them.

Lin Yuan appeared to be an innocuous bright young man, but he was definitely scarier than White Speak. Nonetheless, White Speak had conditioned Silver Umber Black to the point that Silver Umber Black knew not to say anything against him.

Silver Umber Black hurriedly said, "Lord, I, Silver Umber Black will start serving you from today and listen to your every command. I no longer live for the sea of the First Emperor Cutlass Clan. I belong to only you."

Lin Yuan did not know what Silver Umber Black was speaking, nor did he know that White Speak had caused him to take on such a huge burden. But he would not mind even if he knew.

"If this is the case, I want you to swear on your Immortal body. Once you're done, return to the sea and organize all of your and Shark Awn's resources. Shark Awn is dead, and its territory is the closest to yours. Try to gather all the resources before the members of royalty from the Radiance Federation come to find you. Once they come to see you, come see me in the Royal Capital."

Silver Umber Black's eyes lit up.

*Doesn't this mean that I won't have to be with White Speak again for a long time? This is great!*

Silver Umber Black used its most sincere posture to pledge on its Immortal body to become Lin Yuan's servant. From now on, Lin Yuan could control Silver Umber Black's life with one word.

Before the joy could sink in, what Lin Yuan said next caused Silver Umber Black to plunge back into despair.

"According to the agreement between the Radiance Federation and the Eight Clans of Sea Experts, you need to testify on behalf of the Radiance Federation with regards to the crime of Shark Awn barging into the Radiance Federation's territory to steal resources.

“You can’t stay in the sea anymore, and the Eight Clans of Sea Emperors will definitely want to make you pay. So, you have to do your best to collect everything valuable in the sea after the Radiance Federation’s royalty comes to see you.

“From now on, you just have to do your best to work for me. If you perform well, I can leave you in charge of all the sea resources I take control of in the future. If your performance is unsatisfactory, it will be because you’re incompetent. If so, you don’t have to work for me. I’ll leave you with White Speak.”

Silver Umber Black struggled to nod as it trembled in fear.

Lin Yuan was going to reward it handsomely as it did hope that it would be able to take control of all the Sea Emperors.

But at the same time, the punishment was cruel. It would choose death over staying by White Speak’s side.

In order to make Lin Yuan happy, Silver Umber Black was ready to give its all. It would return to the sea and go to Shark Awn’s territory to kill all of Shark Awn’s subordinates that could potentially threaten it. It would take control of those that were willing to submit to it.

Even if it had to work hard, it would gather all of its own and Shark Awn’s resources within three days.

Silver Umber Black kept kneeling respectfully even after Lin Yuan and the rest rode away on the Kill Food Sky Butterfly.

The two sea-king experts that had been practically invisible since Lin Yuan let them out of the Jeweled Cave Golden Toad helped Silver Umber Black up.

They knew that Silver Umber Black’s choice would cause them to never be able to return to the sea clans. They would have no choice but to work for this person named Lin Yuan for the rest of their lives.

While riding on the Kill Food Sky Butterfly, Lin Yuan spotted many spirit qi professionals dressed in uniform outside Raging Waves City. They wore striking standard masks, which indicated that they were Spirit Guards.

Lin Yuan let out a sigh of relief when he saw the Spirit Guards and the undamaged Raging Waves City.

#### **Chapter 1348: Who are You Calling Brother?**

Wang Ce would not do anything to blatantly offend a disciple of royalty. If the situation blew up, he could not expect Cicada Song to clean up the mess.

When Wang Ce saw the beautiful baby blue butterfly land on the harbor in front of the city, he prepared to walk up to it to greet Lin Yuan. But before he could, Sky City’s City Lord had already walked over to Wang Ce and said, “I’m sorry that my actions on the island caused some trouble. Did the giant waves affect Raging Wave City in any way?”

Wang Ce was stunned, but he narrowed his eyes and fixed his gaze on Lin Yuan’s eyes. One glance was all it took for him to realize that Lin Yuan’s eyes were only full of honest sincerity.

This caused him to immediately change his opinion of Lin Yuan.

Previously, he had not wanted to bring this matter up with Lin Yuan because he was afraid it would displease An He.

The citizens of Raging Waves City did not know about the giant waves, and they had not caused any impact.

Wang Ce had wanted to shoulder the matter before deepening his working relationship with Sky City to trade for many high-quality Bronze feys with Law Source Crystals. This was his way of making up for the incident.

Yet, it turned out that there had been no point in him thinking about this.

Lin Yuan had taken responsibility for everything without a single thought of shirking the responsibility.

Wang Ce looked at the bright eyes behind the mask with majestic sky city patterns and could not help but feel a wave of respect rise within him. He could not help but associate positive feelings with Sky City.

This young man was the responsible leader of a faction. Under his leadership, Sky City had to also be a responsible faction.

Wang Ce changed his mind about not mentioning the matter. Since Lin Yuan had asked, Wang Ce felt that there was no reason to hide the truth from Lin Yuan. If he did, he would be doing a disservice to Lin Yuan's gesture of responsibility.

"Brother, your actions on the island sure were violent to cause such large waves 800 leagues away. The waves rose from the sea one after another. At first, they were only about 20 meters. But eventually, the waves grew to 100 meters and above. The tallest waves reached 300 meters. Thanks to your pre-emption and the Spirit Guards who gathered to use their feys to defend against the waves, no serious losses occurred."

.....

Wang Ce chuckled before continuing. "Brother, come have a seat at my place. I'll brew you another cup of Sea Valley Tea. We can have a good chat."

Liu Jie went straight to the team of Spirit Guards when he jumped down from the Kill Food Sky Butterfly's back.

When the two Guard Envoys saw Liu Jie, they hurriedly rushed up to greet him, but Liu Jie stopped them. The Guard Envoys immediately realized that Liu Jie did not want to expose his identity and discreetly nodded at him before returning to the team.

When the two Guard Envoys heard what Wang Ce said to Lin Yuan, they exclaimed internally, *"Brother? Who are you calling brother? You're calling the Moon Empress' disciple your brother? Wang Ce, after so many years, why didn't I realize how fearless you are!?"*

The two Guard Envoys looked at Wang Ce with strange gazes.

They had been sent to Raging Waves City to carry out missions for years and knew Wang Ce well by now. They both knew that Wang Ce was miserly to the point of stinginess.

As the Captain of a city's guards, Wang Ce held a high rank in Raging Waves City. Yet, his only hobby was to drink Raging Waves City's specialty Sea Valley Tea.

Neither of the Guard Envoys knew what was so delicious about the Sea Valley Tea, which tasted no different from seaweed soup.

Wang Ce's frugal personality was why the resources Raging Waves City supplied to the Raging Waves Guard were only spent on essentials.

Part of the Raging Waves Guard was stronger than other seaside cities was that Raging Waves City was a trading city. Another reason was Wang Ce's naturally economical personality.

Wang Ce addressed Lin Yuan as 'brother' despite not knowing that he was the Moon Empress' disciple. He even invited Lin Yuan back to his house to drink Sea Valley Tea. This meant that Wang Ce regarded Lin Yuan as a close acquaintance.

When only Lin Yuan's identity as Sky City's City Lord was considered, it shocked the entire Star Web that a new faction like Sky City's martial power had already climbed higher than Connected Beast Park.

Many Star Web reporters in the Radiance Federation were already equating Sky City to the Cage of Brahma Insects, Rhine Lifeform, and Whale Ocean Commerce.

Regarding Creation Master resources, Sky City could produce a Bronze/Epic fey daily. This rate indicated that Sky City had at least two Class 4 Creation Masters.

Many factions were trying to butter up Sky City now. However, Wang Ce did not need to at all as the Raging Waves Guard Captain was under Cicada Song's jurisdiction just like the City Lord was.

Even if it was to protect An He's pride, Wang Ce only needed to stay out of Lin Yuan's way. He did not need to bootlick Lin Yuan at all.

Did Sky City and Wang Ce have an ongoing deal? If so, the two Guard Envoys wanted to congratulate him as this meant that he had formed a connection with the Moon Empress' disciple.

Raging Waves City only needed to provide resources, and they would never have to worry about high-quality Bronze feys anymore.

The captain of a city's guard had the authority to utilize the city's wealth. Moreover, a Class 6 abyss dimensional rift had opened, and the members of royalty planned on allowing the major cities to build representative cities in the abyssal world to construct a third version of the Radiance Federation.

Once this plan was put into action, all the 32 cities would face a shortage of Creation Master resources and a lack of feys.

Now that Wang Ce had formed a relationship with Lin Yuan before this happened, it put Raging Waves City a step ahead of the other cities.

He was so lucky that the other Guard Captains should be envious of him!

From what Wang Ce said, Lin Yuan confirmed that Raging Waves City had not been damaged by his actions.

Lin Yuan had not rested ever since he returned from the Divine Wood Federation, and he still had many matters to attend to.

When he returned to the Royal Capital, he not only had to use his identity as the Moon Empress' disciple to interfere in the blood pact ultimate fight between Sky City and Connected Beast Park. He also needed to wait for Sun Ningxiang to bring her grandmother to the mansion.

Now that Lin Yuan had Shiny, it needed dragon liver, phoenix blood, and pure wind elements to nurture it.

Lin Yuan had the heavenly-maiden-grade elemental pearls produced by the Celestine Elemental Shellfish for the pure wind elements.

However, he was still at a loss with regards to the dragon liver and phoenix blood. Hence, he decided to call Long Tao and Li Xuan when he returned to ask them about this issue

#### **Chapter 1349: New Large Order**

Lin Yuan had come to Raging Waves City to see if it had been damaged, and he had no intention of staying there.

He smiled and shook his head as he said, "I am very busy. Since you addressed me as your brother, I shall call you Big Brother Wang. I'm sorry my actions caused you to worry. Our previous deal only involves me nurturing 200 of the Steel Spike Iron Oysters. In order to show how sorry I am, I will also give you 50 various types of superior Bronze/Epic feys."

Wang Ce was delighted when he heard what Lin Yuan said as the 50 various types of Bronze/Epic feys would enable 50 of the best Raging Waves Guards to greatly increase their power.

Before Wang Ce could become lost in his joy, he realized Lin Yuan had said he was giving the 50 Bronze/Epic feys for free to express his apology.

This was 50 Bronze/Epic feys he was talking about! One ordinary Bronze/Epic fey would sell for about at least 3 million Radiance dollars, while a superior Bronze/Epic fey would sell for upwards of 5 to 10 million Radiance dollars.

This meant that Sky City's City Lord was providing Raging Waves City with 2 billion Radiance dollars worth of resources as an apology. This amounted to a month of the Raging Waves Guard's expenses during the dimensional rift's active period.

Wang Ce also thought about how Lin Yuan would lead Cicada Song's disciple Gao Feng to Raging Waves City to take over the Sea Bliss Clan's resources. This would allow Wang Ce to strike up a relationship with Gao Feng.

All the unhappiness that Wang Ce felt toward Lin Yuan because of the giant waves evaporated.

"Brother, the Raging Waves Guard appreciates your gesture. The citizens of Raging Waves City will thank you when they find out."

Wang Ce grinned when he suddenly felt the pricks of awkwardness.

When Lin Yuan saw this, he thought about Wang Ce's expression when they had been discussing their collaboration.

Lin Yuan asked tentatively, "Big Brother Wang, would you like me to nurture more Steel Spike Iron Oysters?"

Wang Ce had been in a dilemma over how he should broach the topic with Lin Yuan as the order of 200 Steel Spike Iron Oysters was already large enough in his eyes. He was afraid that Lin Yuan would take his repeated suggestion to work together as him trying to take advantage of Lin Yuan.

.....

From Wang Ce's perspective, spirit qi professionals were asking favors from Creation Masters when they asked for help to nurture feys, even when sufficient compensation was paid. He felt that this mindset applied to everyone.

Now that Lin Yuan had taken the initiative, Wang Ce felt less awkward.

"You're right. 200 Steel Spike Iron Oysters isn't enough to meet the Raging Waves Guard's needs. I told you about how Raging Waves City will be entering the Class 6 abyss dimensional rift to build a city there. Soon, the Raging Waves Guard will need to expand, and 200 Steel Spike Iron Oysters will definitely be insufficient. Please take it as a favor to me, and I will pay you 6 Law Source Crystals for every fey you nurture instead of the five we originally agreed on."

Wang Ce's urgent tone allowed Lin Yuan to understand how not only were the factions excited to expand into the abyssal world and begin harvesting the profits, but even the Guard Captains of the major cities felt extreme pressure.

It was likely that the major cities were racking their brains to come up with a way to obtain high-quality Bronze feys.

The collaboration between Lin Yuan and Wang Ce was not a one-time deal.

There were many benefits to working with the major cities as it would allow Lin Yuan to collect Law Source Crystals rapidly. Hence, Lin Yuan planned on working with Wang Ce for as long as possible.

"Big Brother Wang, Sky City has a large store of spirit fluids, and I will never refuse to do my part for Raging Waves City. Calculate how many Steel Spike Iron Oysters you need. If the number isn't too high, Sky City will help. As for the price, we can stick with the original 5 Law Source Crystals for every fey."

Now, Wang Ce felt that Lin Yuan was truly his brother.

He would like to share his blood with Lin Yuan to become true blood brothers.

However, this was just a fantasy as he was still the Captain of the Raging Waves Guard, and it would not be appropriate for him to be overly close with the leader of a faction.

When Lin Yuan said that he would not hesitate to do his part for Raging Waves City, Wang Ce felt a rush of warmth.

Wang Ce took Lin Yuan's attitude toward Raging Waves City to mind.

Since Lin Yuan had put it so clearly, there was no need for Wang Ce to waste time on unnecessary politeness.

Wang Ce quickly calculated the number of the Steel Spike Iron Oysters that Raging Waves City needed and said, "Raging Waves City needs at least 5,000 more Steel Spike Iron Oysters as every newly employed Raging Waves Guard will need the Steel Spike Iron Oyster. Moreover, the Steel Spike Iron Oyster is easy to maintain, and I would like to stock up on some for future prizes."

He did not expect Lin Yuan to agree to this number as 5,000 Steel Spike Iron Oysters was too large of an order.

Yet, Lin Yuan happily agreed.

"5,000 Steel Spike Iron Oysters isn't a problem. However, the nurturing time will take slightly longer. I will send someone to deliver batches of 200 Steel Spike Iron Oysters to you every ten days. What do you think?"

Wang Ce was frozen with shock from the moment Lin Yuan agreed.

Now that Lin Yuan said that he could deliver 200 Steel Spike Iron Oysters to Raging Waves City every ten days, Wang Ce was overcome with elation.

It would take more than a few days to expand the Raging Waves Guard as every applicant needed to be strictly screened. The process took at least six months and could last up to a year.

But in these six months to a year, Sky City would send 600 Steel Spike Iron Oysters to Raging Waves City every month. This would be long enough to fulfill the order. Wang Ce could not be happier about this.

It only took Lin Yuan a few minutes to nurture a Bronze/Epic fey in the Steel Spike Iron Oyster, and it would only take a month for him to produce 5,000 Steel Spike Iron Oysters if he worked hard.

But he was not going to deliver them all at once a month later because he needed to go to the Divine Wood Federation to train and could not spend the entire month cooped up in the Spirit Lock spatial zone nurturing feys like he used to. Additionally, it would be hard for people to stomach the fact that he could nurture 5,000 feys in a month even if he used the excuse that he prepared potions.

### **Chapter 1350: Buzzing Forums and Miao Zhenshan was Uneased**

Eight months was the perfect amount of time to fulfill this order.

But at the same time, collaborating with Raging Waves City would also bring Lin Yuan 25,000 Law Source Crystals. When added to the Law Source Crystals he already had, Lin Yuan would not have to worry about the Sacred Sword Wielding Queen going hungry for a long time.

Liu Jie was no longer surprised by the way Lin Yuan conducted business. However, the same could not be said about the two Guard Envoys behind him—their eyes widened to the point that they almost fell out of their sockets.

In order to become a Guard Envoy, one had to be a thearch-class expert at least. Additionally, Guard Envoys spent a lot of time in the outlands on assignment, and most of the Spirit Guards were well-versed in the ways of the world, much less the Guard Envoys.

However, the way Lin Yuan conducted business still astonished them. They had never seen someone seal such a large deal so casually.

Could this be what the disciple of a Class 5 Creation Master was capable of?

After confirming the deal, Lin Yuan no longer had any business in Raging Waves City.

Lin Yuan, Liu Jie, and the Mother of Bloodbath rode off to the Royal Capital onboard the Kill Food Sky Butterfly.

He had spent about three days handling the matters in Raging Waves City. As the events over the course of three days unfolded, Star Web exploded.

As more people learned about the blood pact ultimate fight, Connected Beast Park gained an increasing number of haters.

Those who were less polite outright insulted Connected Beast Park and mocked them. Those who were more polite praised the Sea Bliss Clan for being able to defeat a top faction.

The less intelligent ones assumed that the Sea Bliss Clan had been secretly garnering power to the point that they were on the same level as top factions. They had just kept their power under wraps all this time. Those who were smarter internally complimented Sky City and became fans of Sky City.

.....

The relatively new yet consistently impressive Sky City attained the same title as top factions from this battle.

Additionally, the Star Web reporters' articles were plastered with discourse equating Sky City to the Cage of Brahma Insects, Whale Ocean Commerce, and Rhine Lifeform. These endless articles allowed the less intelligent Star Web users to see the truth. They stopped praising the Sea Bliss Clan and became dedicated to being Sky City's fans.

The buzz of activity on Star Web was skewed in favor of Sky City. Every negative comment was directed at Connected Beast Park.

Under normal circumstances, a faction would usually come under attack for interfering in the blood pact ultimate fight between two factions.

If Connected Beast Park had not helped the Zheng family, Sky City helping the Sea Bliss Clan would not have had such an effect on the forums. It could be said that this circumstance was brought upon Connected Beast Park by themselves.

From the moment Sky City entered the scene, they had taken up a permanent spot on Star Web's territory lists. Thus, it was hard for them to escape notice from the other factions. These were the same factions that were constantly hanging outside Sky City to wait for the right moment they could take a bite out of Sky City.

The way Sky City retaliated caused all the factions and people on Star Web to be shocked at how solid they were. It also allowed them to realize that this new faction could not be crossed, and all thoughts of doing so vanished from their minds.

The Miao family was a top faction with a Creation Master role. In the decades that Miao Zhenshan had led the Miao family, he was respected and showered with attentiveness wherever he went.

Miao Zhenshan was used to being placed on a pedestal and cared deeply about how others felt about him. He could not stand for a single negative opinion.

He had spent the last two days hooked on Star Web and reading the comments. He had almost died of fury.

*Just how much money has Sky City spent hiring people to drag down Connected Beast Park?*

Miao Zhenshan had spent three hours straight reading through Star Web, but he had been unable to find a single positive comment about Connected Beast Park. He felt utterly humiliated.

In the past two days, he had smashed numerous precious items in his study room. He thought about how the once lofty Connected Beast Park had fallen so far down this slippery slope.

Everything seemed to have started with Miao Zhuo and Miao Qi being chased out from the Guard Ye Banquet. From that point onward, most of the top factions had given up their long-standing collaborations with Connected Beast Park.

By breaking their collaborations, Connected Beast Park was not the only one who would suffer losses, and these top factions would also need to seek Creation Master resources from elsewhere.

Decisions made by top factions were always made after a meeting between the main factions. This meant that these factions had decided to draw a line between them and Connected Beast Park.

Connected Beast Park fell from grace so quickly that it could not be singularly attributed to Miao Zhuo and Miao Qi insulting Lin Yuan and Wang Fuxiang.

Connected Beast Park and Sky City had crossed paths because of Condense Fairy Orchard.

Connected Beast Park had been targeting Condense Fairy Orchard for a long time. However, Sky City had swooped in to work with Condense Fairy Orchard, thereby saving them.

During that meeting, Connected Beast Park had decided to do something to counter Sky City and keep them at bay. They had tried to do this by using their influence to request that spiritual ingredient suppliers stop supplying to Sky City.

Spiritual ingredients were the most fundamental factor in evolving feys. Without spiritual ingredients, Sky City would not be able to concoct potions even if they had Creation Masters.

Yet, Sky City had been completely unaffected and continued to issue daily Fate Letters and offer custom Bronze/Epic feys.

At that time, Connected Beast Park had only tried to suppress Sky City through business means which was not considered egregious.

Connected Beast Park had issued a blood pact ultimate fight challenge to Sky City because Zheng Kaiyuan had wanted it. Han Tianhe and Liu Yanshan would not have died if he had not pushed for the blood pact ultimate fight.

With this thought, Miao Zhenshan longed to desecrate all of the Zheng family's ancestral graves. However, the Zheng family's ancestral graves were located at the mountain behind the old manor in Indigo Azure City, and Sky City had already acquired that area. As such, Miao Zhenshan would not be able to touch them no matter how badly he wanted to do so.

Recently, the Sea Bliss Clan and Sky City had been completely silent.

Miao Zhenshan felt utterly indignant toward the Sea Bliss Clan. If Sky City had not helped the Sea Bliss Clan, the Sea Bliss Clan could only have stood there and waited to be crushed by Connected Beast Park. They absolutely did not have the capabilities to take Connected Beast Park's resources.

Miao Zhenshan could not shake the feeling of unease that came from Sky City's silence.
