

Merchant 1441

Chapter 1441: Lin Yuan's Opportunity

It could be said that Lin Yuan badly wanted the plant-type fey with the Sacred Wood bloodline.

Lin Yuan had always assumed that the Divine Wood Federation strictly controlled their plant-type feys with the Sacred Wood bloodline. Thus, he never aimed to obtain one.

But from what Ding Chengshuo said, Lin Yuan realized that he could obtain a plant-type fey with the Sacred Wood bloodline.

With this information, Lin Yuan took over the discussion from Su Yiren and said, "It's not difficult to evolve the bloodline of your turtle-species fey. Since the fey is called the Dragon Horns Mysterious Turtle, it means that it has a dragon-species fey bloodline. The dragon-species fey bloodline is an important opportunity for some fish-, insect-, and snake-species feys, but it's a burden to turtle-, tiger-species, and other feys with elite bloodlines.

"The best way to evolve the Dragon Horns Mysterious Turtle's turtle-species fey bloodline is to use pure spirit qi to trigger its bloodline. Its bloodline will be purified naturally while devouring its dragon-species fey bloodline. This is the best way to evolve the Dragon Horns Mysterious Turtle's bloodline. Only a pinnacle Class 4 Creation Master will be able to provide the spirit qi of sufficient purity."

Lin Yuan's words caused Ding Chengshuo's chest to contract.

As a low-class Class 4 Creation Master, he did not expect the young man dressed in black to figure out the key point just from the name of his fey.

But when Lin Yuan mentioned the pure spirit qi that only a pinnacle Class 4 Creation Master could provide, Ding Chengshuo immediately became crestfallen. But at the same time, he looked at Lin Yuan with despair as though he was hoping for something.

Ding Chengshuo knew that the young man dressed in black would not have rambled on for so long for nothing.

"I can give you with the spirit qi that only a pinnacle Class 4 Creation Master can provide. Later, summon the Dragon Horns Mysterious Turtle so I can check the attributes and laws it has comprehended. After its bloodline has evolved, I can even help it overcome the Myth III World Cleansing. Additionally, I can even provide you with Law Crystals that the Dragon Horns Mysterious Turtle can absorb to rapidly increase its power," said Lin Yuan.

Lin Yuan's words caused Ding Chengshuo's breath to become hitched in his throat.

As tears started welling up in Ding Chengshuo's eyes, Lin Yuan went on to say, "However, I have a condition for increasing the power of your main fey and enabling your position as a member of parliament to skyrocket."

At this moment, Ding Chengshuo's rising excitement was promptly quenched.

It turned out that the young man wearing black was still gunning for the plant-type fey with the Sacred Wood bloodline.

Ding Chengshuo was willing to trade with Lin Yuan.

Without Lin Yuan's help, there was only a minuscule possibility of Ding Chengshuo being able to enter the Sacred Wood Mystic Realm.

Even if Ding Chengshuo was able to enter the Sacred Wood Mystic Realm and gain a plant-type fey with the Sacred Wood bloodline, the Holy Lady who guarded the Sacred Wood Mystic Realm would check if the plant-type fey with the Sacred Wood bloodline had been contracted before Ding Chengshuo could leave the Sacred Wood Mystic Realm with it. He would not be permitted to take it out of the Sacred Wood Mystic Realm if it had not been contracted.

Even if the Dragon Horns Mysterious Turtle reached Myth III and Ding Chengshuo became a thearch-class expert, he still would not dare to challenge the Holy Lady's power.

When Lin Yuan saw Ding Chengshuo's expression, he knew that the matter was not as simple as he thought.

At that moment, a possibility came to Ding Chengshuo's mind. He clenched his fists, gnashed his teeth, and hesitated for a moment before he said, "I have a way for you to have the chance to gain a plant-type fey with the Sacred Wood bloodline.

"The top ten members of parliament in the Divine Wood Federation's imperial court have the right to bring one of their descendants into the Sacred Wood Mystic Realm. However, each of the top ten members can still only take one plant-type fey with the Sacred Wood bloodline. But, they can choose to give up their benefits to their descendants, thereby allowing their descendants to contract the plant-type fey with the Sacred Wood bloodline.

"This law was put in place 20 years ago when the Sacred Wood Mystic Realm was first opened. The reason was that the top ten members already had plant-type feys with the Sacred Wood bloodline. These ten members of parliament were able to convince the Holy Lady.

"I can take you to the Sacred Wood Mystic Realm with me to take advantage of this loophole. Unfortunately, it's already hard enough to become one of the top 20 members of parliament. If I want to have any shred of hope of becoming one of the top ten members, the Dragon Horns Mysterious Turtle has to be Suzerain X/pinnacle Myth III at the very least.

"The top eight members of parliament are all thearch-class, so I'm only left with the ninth and tenth position to fight for."

Ding Chengshuo stared at Lin Yuan for a while to observe his reaction before he added, "The Divine Wood Federation's members of parliament cannot get a proxy to fight on their behalf. Thus, you will have to nurture me if you want to get the plant-type fey with the Sacred Wood bloodline."

Lin Yuan furrowed his brow.

It was possible for him to evolve the Dragon Horns Mysterious Turtle to thearch-class as all he needed to do was provide it with Law Crystals.

However, this was too large of an investment. Using these resources to nurture Ji Feng's main fey would be more worthwhile.

Alas, Lin Yuan was seriously interested in the plant-type fey with the Sacred Wood bloodline.

Plant-type feys with the Sacred Wood bloodline had to have incomparable advantages if they deserved to be the Divine Wood Federation's specialty feys.

Su Yiren looked at Lin Yuan and said softly, "Young Master, why don't I—"

Before Su Yiren could finish speaking, Lin Yuan cut her off without hesitation.

Lin Yuan knew that Su Yiren wanted to use the Absolute Love Poppy to control Ding Chengshuo and form a Love Desire Glass within him. This would make him a loyal puppy that was completely malleable to Su Yiren's control.

However, how could Ding Chengshuo enter the Sacred Wood Mystic Realm if he was under Su Yiren's control?

It was likely that the other experts with sacred source lifeforms would discover that something was off when he was fighting for a chance to enter the Sacred Wood Mystic Realm.

If that happened, it would be a small loss to lose Ding Chengshuo but a huge loss to also lose the plant-type fey with the Sacred Wood bloodline.

Chapter 1442: Riches That None Will Turn Away

Although the Divine Wood Federation's imperial court had a loose hold over the lords, very few of them felt zero sense of belonging to the Divine Wood Federation like Ding Chengshuo.

He was even willing to use the treasure that was plant-type feys with the Sacred Wood bloodline as a bargaining chip.

Nonetheless, Lin Yuan could not let the resources that he was going to invest in Ding Chengshuo go to waste. The best way to keep his resources from going to waste was to gain Ding Chengshuo's loyalty and turn him into his servant.

Lin Yuan fixed his eyes on Ding Chengshuo and said solemnly, "Use the Willpower Rune that you used to contract the Dragon Horns Mysterious Turtle to swear your loyalty to me, and I'll come up with a way to evolve the Dragon Horns Mysterious Turtle to Creation Breed within four months."

Ding Chengshuo's eyes abruptly widened. However, he did not immediately agree to this amazing opportunity because Lin Yuan was asking for his beloved freedom.

Ding Chengshuo never dared to dream he would become a thearch-class expert one day.

But this method of becoming a thearch-class expert would mean that he would not be able to stand at the top of the world but would have to be ordered around like a slave.

Ding Chengshuo felt that it might be better for him to contentedly remain and continue to lord over Oak City.

However, he dared not to reject Lin Yuan.

The young man dressed in black would be able to evolve the pinnacle Myth II Dragon Horns Mysterious Turtle to Creation Breed in four months. Ding Chengshuo believed but, at the same time, dared not believe that such a promise could come true.

But was a pinnacle Class 4 Creation Master truly capable of evolving a pinnacle Myth II fey to Creation Breed within four months?

Ding Chengshuo was terrified that he would be killed the moment he turned Lin Yuan down.

He felt a wave of charisma hit him when Lin Yuan mowed down the woman in purple. If he was the direct target of such charisma, he would lose consciousness in three seconds.

While Ding Chengshuo was stuck between a rock and a hard place, Lin Yuan said, "The Divine Wood Federation is in such a mess. If the Ding family sets off in the right direction, you'll be able to stand above the rest and hold unquestionable power that will open any door you want.

"I heard that none of your young family members have made it into the Divine Wood Hundred Sequence. I can give every direct descendant in your family who is of suitable age two Bronze/Epic feys. I will also provide resources for five of your top younger members to evolve their feys from Normal quality to Myth Breed.

"This way, these five members will definitely be able to join the Divine Wood Hundred Sequence. The rest of the disciples who were also given Bronze/Epic feys will have to depend on you if they want to enter the Divine Wood Hundred Sequence. Once you become my subordinate, the Ding family will have no lack of Creation Master resources. I advise you to think carefully."

Lin Yuan leaned back on the sofa and fell silent.

Su Yiren swept her silky hair behind her shoulders as she stared at Ding Chengshuo with her purple eyes.

Ding Chengshuo was stupefied by what Lin Yuan had just told him. There was no longer any conflict in him, just disbelief.

This young man in black just promised me a mountain of riches! No one in the world could say no to such riches.

Ding Chengshuo was the pillar of the Ding family and was willing to sacrifice his freedom if it meant that the Ding family would be able to thrive.

Moreover, Lin Yuan did not sound as though he wanted to lash Ding Chengshuo to his side and use him like a slave. Rather, he sounded like he wanted to help Ding Chengshuo become the center of the Divine Wood Federation.

After careful consideration, Ding Chengshuo stood up.

Ding Chengshuo, the most elite person in Oak City, knelt respectfully in front of Lin Yuan and swore on the Dragon Horns Mysterious Turtle's Willpower Rune to become Lin Yuan's servant.

Once Ding Chengshuo was done, Lin Yuan stood up and said, "Summon the Dragon Horns Mysterious Turtle. It will stay with me for the next four months. After four months, it will appear before you again. As for the other benefits, I promise that you'll receive them in a month's time. Her name is Su Yiren, and you can contact her for anything."

Ding Chengshuo did not rise to his feet but summoned the Dragon Horns Mysterious Turtle instead.

Immediately after, a black turtle with a pair of dragon horns appeared by Ding Chengshuo's side. It was clear that it had decided against appearing in its human form to show respect for its first meeting with Lin Yuan.

In Ding Chengshuo's spiritual spatial zone, the Dragon Horns Mysterious Turtle had found out through its connection with Ding Chengshuo that it was being given a huge opportunity and that its contractor had become Lin Yuan's servant. Hence, the Dragon Horns Mysterious Turtle needed to show the appropriate attitude toward Lin Yuan.

Lin Yuan used True Data to check on the Dragon Horns Mysterious Turtle and found out that the law it had comprehended was the Heavy Water Law.

The Heavy Water Law was considered a good water-type law.

Although the Dragon Horns Mysterious Turtle's abilities were ordinary, its three exclusive skills were balanced. Clearly, Ding Chengshuo had invested a lot of effort into nurturing it.

Horns were growing all along the length of the Dragon Horns Mysterious Turtle's body, and a layer of dragon scales also covered the horns. This meant that the dragon-species fey bloodline in its body was not much weaker than the turtle-species fey bloodline.

Lin Yuan said to Ding Chengshuo, "If you're lucky, the dragon-species bloodline might mutate and enable the Dragon Horns Mysterious Turtle to transform into a Dragon Turtle after the turtle-species bloodline devours the dragon-species bloodline."

Ding Chengshuo was delighted when he heard what Lin Yuan said and hastily expressed his gratitude to Lin Yuan alongside the Dragon Horns Mysterious Turtle.

Before Lin Yuan had the idea to accept Ding Chengshuo as his servant, he decided to find out the Dragon Horns Mysterious Turtle's type so he could find suitable Law Crystals to increase the Dragon Horns Mysterious Turtle's power.

But now that Ding Chengshuo was Lin Yuan's servant and Ding Chengshuo was bound to him by a law, he could not betray Lin Yuan.

Thus, there was no need for Lin Yuan to skimp on Law Crystals when it came to the Dragon Horns Mysterious Turtle.

However, Lin Yuan could not stay in the Divine Wood Federation for long. If he wanted to evolve the Dragon Horns Mysterious Turtle to Creation Breed within four months, he needed to keep the Dragon Horns Mysterious Turtle by his side to nurture it.

Chapter 1443: Lin Yuan's New Sword Skill

Lin Yuan took out the Jeweled Cave Golden Toad and said to the Dragon Horns Mysterious Turtle, "Go in."

After the Dragon Horns Mysterious Turtle entered the Jeweled Cave Golden Toad, Lin Yuan turned and walked out of the guest room with Su Yiren trailing behind him.

Ding Chengshuo was left kneeling on the floor with his fists tightly clenched. He felt as though he had been dreaming.

After Lin Yuan and Ding Chengshuo were done talking, Liu Jie arranged for the Sincere Merchant Group's next step in less than half an hour.

From today onward, the Sincere Merchant Group members would join the Prosperous Chamber of Commerce.

Mr. Zhao would co-manage the Prosperous Chamber of Commerce with Li Wan, but she would have the final say. He was more there to keep watch over Li Wan.

Lin Yuan's expression changed when he looked at Li Wan, and he said, "Phoebe Zhennan City isn't far from Oak City. Phoebe Zhennan City is nearer to the Iron Hammer Federation than Oak City is. Currently, there isn't a chamber of commerce in Phoebe Zhennan City. The Prosperous Chamber of Commerce can open a branch there."

Li Wan did not think that there was any profit to be made from opening a branch in a small city like Phoebe Zhennan City. If there was, the other chambers of commerce would have already opened branches there.

But since the request had come from Lin Yuan, Li Wan would immediately carry it out.

"I will see to this immediately and open a Prosperous Chamber of Commerce branch in Phoebe Zhennan City within two weeks."

Lin Yuan nodded at Li Wan.

He led Liu Jie, Ji Feng, Little Flower, Little Grass, and Su Yiren out of the Prosperous Chamber of Commerce's tree castle and rode off toward the underground palace on Blackie.

While they were flying, Su Yiren felt that the further the black giant flood dragon flew, the more remote the surroundings became.

This made Su Yiren curious about why Lin Yuan had set up his base in such a desolate area.

However, it became clear to her once they entered the Bone Lotus Flowers' area.

She realized that Lin Yuan wanted to set up a restricted area at the border of the Divine Wood Federation and Iron Hammer Federation. But she had no clue what the next stage of his plan was.

However, once the restricted area was built up, it would immediately attract the attention of the Divine Wood Federation and Iron Hammer Federation. This would immediately trigger the Great Lush Federation into action, and their secret elite families would definitely interfere.

At that time, the restricted area would turn into the eye of the storm of the entire Startling Lines Continent.

Su Yiren was not at all shocked by the four low-class dimensional rifts amongst the Bone Lotus Flowers.

But Lin Yuan had to have come prepared when he set up this restricted area.

The Bone Lotus Flowers were carnivorous, and all the alien beasts that spilled out of the dimensional rift fell prey to the Bone Lotus Flowers.

Since she was going to represent Lin Yuan in handling all his affairs in the Divine Wood Federation, this place was going to become her stronghold.

Everything in the underground palace had been progressing like clockwork.

Hu Tian instructed the Scary Claw Rock Bear to break apart the ironwood into planks.

Hu Quan supervised the Spirit Craftsmen while he excitedly drew up his designs.

The Vein Land Imp lazily dozed under the sun while it used its natural skill to produce the Floating Silver.

In about a week, the Vein Land Imp had almost completely dug out all the Spirit Settling Silver Ores.

Lin Yuan told Ji Feng to store away the Spirit Settling Silver Ore dug out by the Vein Land Imp so that Lin Yuan could transfer them to Zong Ze when he returned to the Radiance Federation.

Tonight, Lin Yuan needed to give Su Yiren some instructions.

Moreover, Hu Quan had not had a proper meal ever since he arrived at the Divine Wood Federation. Hence, Lin Yuan and Liu Jie planned on having a good meal with Hu Quan tonight before they returned to the Radiance Federation tomorrow morning.

The last time that Lin Yuan spent the night at the underground palace, he had to sleep in a tent. But now, he could sleep inside the underground palace.

Hu Quan had specially set aside several rooms for Lin Yuan and Liu Jie so that it would be convenient for them whenever they came to the Divine Wood Federation.

Although Hu Quan had not paid as much attention to the decoration in these rooms, he had laid a simple layer of Star Rocks and added another layer of wool carpet over the Star Rocks. There were also a few pieces of furniture made out of jade-textured wood and several plants.

Its interior could match up to the residences of veteran factions in the Radiance Federation.

But in order to match up to the residences of the top factions, Hu Quan would have to add carvings.

For Su Yiren, living in such a room was like a paradise. She felt as though all the troubles and hardships she had experienced were nothing.

She felt no different from when she was in her bedroom back in the Dark Continent. There was also a large bed made of jade-textured red sandalwood in her bedroom back home.

However, Su Yiren did not want to lie to herself. She was still a stray dog that had fled from the Dark Continent.

She owed everything that she had to Lin Yuan's kindness.

Otherwise, she would have died in that trash dump with the rusted long dagger in her hands until she eventually became a feast for insects and rats.

Su Yiren looked sad while removing her clothes and changing into a long purple dress with albizia flower patterns embroidered. This dress gave her an air of soft elegance.

She realized that her hair descended past her forehead and covered her eyes. Su Yiren took out a hair clip made from the Myth Sunset Color Flower's flower bud and clipped up her black hair.

The weight of the hair caused the Sunset Color Flower's flower bud to bloom into a small dark purple trumpet-shaped flower. The Sunset Color Flower bloomed during sunset. When it did not receive natural light, it wilted.

This added an air of sorrow to Su Yiren, who had been wandering around for some time and did not have many accessories with her. But this air of sorrow made her as alluring as honey was to bees.

While Liu Jie was cooking outside the underground palace, Lin Yuan anxiously returned to the Spirit Lock spatial zone because he had just heard the Sacred Sword Wielding Queen say from the depths of his soul, "Master, I am done absorbing that large turtle's World Crystal."

Lin Yuan was very curious to see what Sword Skill the Sacred Sword Wielding Queen gained after absorbing the Prism Snapping Turtle's World Crystal.

Up to now, Lin Yuan had gained a total of six World Crystals.

The Prism Snapping Turtle's World Crystal was the most special one of them all.

Once he entered the Spirit Lock spatial zone, Lin Yuan summoned the Sacred Sword Wielding Queen.

Lin Yuan noticed that there were not many changes to the Sacred Sword Wielding Queen's skirt. However, the hem along her chest had a new silver turtle crest alongside the dark crow crest and giant whale crest.

Chapter 1444: Silver Turtle's Reflection Attack

After Lin Yuan noticed the change in the Sacred Sword Wielding Queen's appearance, he used True Data to check on it.

[Sacred Source Name]: Sacred Sword Wielding Queen

[Sacred Source Species]: Source genus/Sacred Source species

[Sacred Source Star Grade]: 3 Stars

[Sacred Source Type]: Main Water/Mixed

Abilities:

[Queen Form]:

1. Queen's Skirt Hem: Able to absorb the Willpower Runes from the bodies of dead feys or source-type items. The Willpower Runes or Law Runes from Myth Breed feys' Law Crystals will be carved on the queen's skirt. The Law Crystals which have their laws absorbed will become Law Crystals that possess pure law power.

[Sacred Sword Form]:

1. Blade of Sacred Sword: When the spirit qi in the body is depleted, the blade will pierce the skirt hem to unleash all the laws and willpower stored within.

Sword Form (Dark Death World): Night Crow Wither Attack: Inject all the power from the Dark Death World into the sacred sword. The sacred sword's blade will change into 28 Night Crows with dark death power. The contractor can attack with the sacred sword 28 times. If the attacks are launched consecutively, every attack will have an additional withering effect. Every 14 layers of withering effects will be released towards the target, and the 56 withering effects from the 28 consecutive attacks will cause the target to truly start withering.

Sword Form (Vast Water World): Attack of the Sea Leaping Whale: Inject all the power of the Vast Water World into the Sacred Sword so that it will be configured with the power of water. According to the water surrounding the Sacred Sword Wielding Queen, the Sword Form can either be diminished or amplified. When the contractor wields the Sacred Sword, it can summon an enormous whale out of the water as an attack. During the attack, the wielder of the Sacred Sword can decide the state of the enormous whale. It can rile up giant waves that switch between water and ice.

Sword Form (Simulation World): Silver Turtle's Reflection Attack: Transfer all the power from the Simulation World into the Sacred Sword, and the Sacred Sword will gain the ability to engrave attacks into itself. When used against its friendly side, it can engrave one of the already existent Sword Forms. When used against its enemy, it can absorb attacks that are not stronger than the Silver Turtle's Reflection Attack and release the attack any time while the Sword Form is being used.

Lin Yuan noticed that the Sacred Sword Wielding Queen's type was still Main Water/Mixed despite having absorbed the Prism Snapping Turtle's Law Crystal.

This was unsurprising as the Submerged Sea Blue Whale's World Crystal had two Creation World Ley Lines while the Prism Snapping Turtle's World Crystal only had one.

The Prism Snapping Turtle was an earth-type fey. If its World Crystal had more Creation World Ley Lines than the Submerged Sea Blue Whale, the Sacred Sword Wielding Queen's type would have changed to Main Earth/Mixed.

Next, Lin Yuan went to check on the new Sword Skill. When he saw Silver Turtle's Reflection Attack and its description, he decided that he would use all the World Creation golden pearls he had on hand to evolve the Simulation World and increase Silver Turtle's Reflection Attack's strength.

Lin Yuan felt that Silver Turtle's Reflection Attack was a very strong and flexible Sword Skill. It used the Sword Forms already embedded in it to decide its ability.

During the last battle at sea, the environment had amplified Attack of the Sea Leaping Whale's power.

Previously, Lin Yuan would only be able to use Attack of the Sea Leaping Whale once. But now, he could use Silver Turtle's Reflection Attack to copy Attack of the Sea Leaping Whale and use it another time.

If he chose to make an imprint of Night Crow Wither Attack, he would be able to use Night Crow Wither Attack twice and release 56 crows imbued with dark death power.

Every time the crows attacked, they would produce a withering effect. The first 15 layers would trigger a once-off withering attack. After the 28 withering effects were produced, the target would enter a true withering state.

If an enemy was too strong, Lin Yuan could not guarantee that every one of his attacks would be successful even with his strong martial skills.

But if he used Night Crow Wither attack twice, he could easily send the target into a true withering state no matter how much effort the enemy put into dodging.

This true withering state was the bane of plant-type feys.

It could be said that Silver Turtle's Reflection Attack added to the power of the original attack.

If Lin Yuan did not engrave already existent Sword Forms using Silver Turtle's Reflection Attack but absorbed the damage from an enemy, it would turn into a perfect defense.

Regardless of how Silver Turtle's Reflection Attack was used, Lin Yuan's combat methods would be diversified. Thus, Lin Yuan's power would still be raised greatly.

The Sacred Sword Wielding Queen tossed a World Crystal that had been absorbed to Lin Yuan.

It pouted and gave Lin Yuan puppy eyes as it nudged Lin Yuan's sleeve with its head and looked expectantly at the amber-button-shaped Diamond fey storage box.

Lin Yuan immediately knew that the Sacred Sword Wielding Queen was waiting for Lin Yuan to allow it to eat the other three World Crystals.

Lin Yuan thought, *“The Sacred Sword Wielding Queen sure is greedy. It's never full.”*

Lin Yuan took out the other three World Crystals from the Diamond fey storage box. The three World Crystals consisted of the Sacred Cure White Deer's wood-type Sacred Healing World Crystal, the Blazing Sun Dragon Cricket's fire- and light-type Scorching Sun World Crystal, and the Shadow Tied Mesmerizing Snake's dark-type Shadow Tied World Crystal.

If the Sacred Sword Wielding Queen absorbed the Sacred Healing World Crystal, Lin Yuan would gain a healing-type Sword Skill.

The Scorching Sun World Crystal was an elemental offense-type Sword Skill.

The Shadow Tied World Crystal was a control-type Sword Skill.

Although Lin Yuan would not need to use Sword Skills anytime soon, he still chose to allow the Sacred Sword Wielding Queen to absorb the Sacred Healing World Crystal.

The Sacred Sword Wielding Queen might only need a week to absorb a World Crystal, but it could also absorb Law Source Crystals simultaneously. Thus, its Stars would be raised at an increased rate if it was absorbing a World Crystal as well.

After checking the Sacred Sword Wielding Queen's new Sword Skill and giving it a new World Crystal to absorb, Lin Yuan moved on to a more important matter.

He was going to give the Sacred Sword Wielding Queen the golden pearls he had not had the chance to utilize so that it would be able to evolve the quality of its law worlds.

Lin Yuan took out the 15 precious golden pearls. Most of them had been produced from the Pure Land of Bliss when Lin Yuan was helping the Miao family to nurture their experts to thearch-class.

Chapter 1445: The Lifespan Mouse and Flower Mink Mouse

Lin Yuan had not held back at all with the Miao family's thearch-class experts. All their feys who had evolved to Creation Breed and gained their creation World Ley Lines had their Creation World Ley Lines sucked clean by the Pure Land of Bliss.

The Sacred Sword Wielding Queen had been looking forward to eating the golden pearls. He had not given them to the Sacred Sword Wielding Queen because he had not decided which law world he wanted to strengthen.

The Sacred Sword Wielding Queen reached out its fingers to the golden pearls in Lin Yuan's hand. It looked like a little girl who was begging her father to allow her to eat the sweets.

Lin Yuan could feel how badly the Sacred Sword Wielding Queen wanted the golden pearls and said, "Sacred Sword Wielding Queen, absorb these golden pearls and evolve the Simulation World as much as possible."

The Sacred Sword Wielding Queen's eyes sparkled as it said, "Master, when I was absorbing the Law Crystals, you didn't instruct me to strengthen any laws, so I stored up all the source-type energy. If the golden pearls are combined with the law worlds, they will form miniature Creation World Ley Lines within the law worlds.

"You just need to use source-type power to temper these miniature Creation World Ley Lines, and they will eventually become complete Creation World Ley Lines. You can also choose to save the source-type power by absorbing more golden pearls. This will also result in complete Creation World Ley Lines."

Lin Yuan chose the former option without hesitation. It was much easier for him to obtain Law Source Crystals than it was for him to obtain golden pearls.

It would not be extremely difficult for Lin Yuan to obtain the golden pearls as he could just give a Law Crystal to experts who had feys that had been stuck at Suzerain X/pinnacle Myth III, and the feys would very likely have a breakthrough that led to their Trial of World Creation.

There were many pinnacle emperor-class experts in the Radiance Federation's factions who had pinnacle Myth III feys.

Hence, Lin Yuan could harvest all of them to gain the golden pearls.

This method of obtaining the golden pearls would not attract the wrath of the feys whose Creation World Ley Lines he had absorbed but would gain their gratitude instead. In Lin Yuan's eyes, this was a win-win choice.

The Sacred Sword Wielding Queen had already chosen seven of the golden pearls to combine with the Simulation World.

When the Sacred Sword Wielding Queen absorbed these seven golden pearls, Lin Yuan suddenly realized that seven more golden threads had appeared beside the original single golden thread on the silver turtle crest.

This meant that the Simulation World now had a complete Creation World Ley Line and seven miniature Creation World Ley Lines.

The Sacred Sword Wielding Queen opened its eyes and said, "Master, if you want to use source-type power to temper the miniature Creation World Ley Lines, it will take much longer to evolve the laws. Since this is my first time going through this as well, I'm also unsure how much source-type power is needed to form one Creation World Ley Line."

Lin Yuan shook his head at the Sacred Sword Wielding Queen to say that he was in no rush.

Such things could not be rushed!

Since the Sacred Sword Wielding Queen had absorbed the seven golden pearls and was strengthening the Simulation World, Lin Yuan did not instruct it to evolve the other law worlds.

Although the Sword Skills related to the other law worlds would not be strengthened if their law worlds were not evolved, a large amount of source-type resources was needed to form a complete Creation World Ley Line.

There was a limit to source-type power. If two law worlds were being evolved at the same time, the effectiveness would be cut down by half.

This would prevent the Sword Forms copied by the Silver Turtle's Reflection Attack from being evolved, but it would allow Lin Yuan to absorb and release damage from his enemies.

Now that Lin Yuan had settled the Sacred Sword Wielding Queen, he was in no rush to evolve his newly gained Item-Storing Walnut Trees.

He had obtained more than 600 Item-Storing Walnut Trees from Li Wan, and they could not be evolved in a short span of time.

Thus, Lin Yuan pondered for a while before summoning the Flower Branch Mouse he caught before meeting up with Su Yiren.

Lin Yuan was going to evolve the Flower Branch Mouse into the Lifespan Mouse.

But as he injected spirit qi into the Flower Branch Mouse, he noticed that something was wrong. It did not shed its fur like the other Flower Branch Mouse had when he evolved it into the Lifespan Mouse.

The previous Flower Branch Mouse's brown and gray fur had turned orange and red, while this Flower Branch Mouse's fur turned to brown and black..

Lin Yuan suppressed his suspicions and continued to evolve it for another half a minute.

The Flower Branch Mouse started out the same size as Lin Yuan's palm but transformed into a purple and black mouse that was almost 40 centimeters.

Two sharp canines peeked out from its lips, and its originally hairless tail became hairy and flat.

It now resembled a mink-species fey.

The purple and black mouse in Lin Yuan's hand was almost as rotund as the ginger-colored Hundred Questions Beast.

Lin Yuan used True Data to check on the purple and black mouse. He saw that its name was the Flower Mink Mouse, not Lifespan Mouse.

Lin Yuan immediately realized that a mutation had taken place during one of the two times that he was evolving the Flower Branch Mouse.

But he did not even need to hesitate before he became certain that the Flower Branch Mouse's regular evolution was the Flower Mink Mouse.

He had only managed to evolve it into the Lifespan Mouse due to a miracle.

However, as much as mutation was a result of miracles, they did not appear out of nowhere.

In order for the Flower Branch Mouse to mutate into the Lifespan Mouse, the Flower Branch Mouse had to already have the genes for it. However, the proportion of such genes was very small and almost undetectable, which made it very difficult to activate.

Thus, if Lin Yuan kept evolving the Flower Branch Mice, it was possible that he would eventually be able to evolve another Lifespan Mouse.

Lin Yuan decided to give Su Yiren another instruction before he returned to the Radiance Federation.

He was going to tell her to order the Prosperous Chamber of Commerce to capture as many Flower Branch Mice as they could.

The Lifespan Mouse did not have any combat ability, but the Flower Mink Mouse was a fierce combat-type fey.

For the experts in the Divine Wood Federation, the Flower Mink Mouse's glistening black fur and substantial size made it a good option to be turned into clothes or to contract.

Chapter 1446: Seventh Page War's Power

The Flower Mink Mice that Lin Yuan did not have much use for could be given to the Prosperous Chamber of Commerce to be sold off. It was likely that the Divine Wood Federation's spirit qi professionals would be very happy to receive them.

After storing the Flower Mink Mouse in the Diamond fey storage box, Lin Yuan went to the Pure Land of Bliss to check on the Spirit-Mouthed Peonies.

Lin Yuan had used most of the Spirit-Mouthed Peony flower buds when he was helping the Mother of Bloodbath awaken its Sky Sundial Jade Spider bloodline.

Now, all the flower buds had grown out again.

After absorbing a week's worth of spirit qi, the newly grown flower buds were in the process of blooming. They would be fully bloomed after another five or six days.

At that time, Lin Yuan would be able to pluck the flowers and give them to the Moon Empress.

The Spirit-Mouthed Peonies that Lin Yuan had not used to awaken the Mother of Bloodbath's Sky Sundial Jade Spider bloodline had turned into flower buds that were about the size of a fist.

If a Spirit-Mouthed Peony's flowers were plucked after they were full of spirit qi, it would not be able to produce new flowers.

This would be wasting the Spirit Lock spatial zone's resources.

It took Lin Yuan almost an hour to pluck all the Spirit-Mouthed Peony's flower buds. By this time, Liu Jie would be done making dinner.

Lin Yuan left the Spirit Lock spatial zone and returned to his room to change into clean clothes before he walked out of the room.

He happened to bump into Su Yiren, who had also just walked out of her room.

As he looked at Su Yiren dressed in light purple clothes, he felt that she was more charming than when she was all dolled up.

Her features had a masculine touch, and she had the aura of an enchanting poppy. If she was dressed lavishly, her accessories would depress her aura.

When Su Yiren saw Lin Yuan, she hurriedly walked up to him and said, "Thank you, Lin Yuan."

Lin Yuan raised an eyebrow in surprise and asked, "What are you thanking me for?"

Su Yiren's jaw fell open, and she looked at Lin Yuan in shock as she wondered if he was kidding.

What am I thanking you for? I'm thanking you for saving me from danger, giving me the hope to carry on, allowing me to have new goals and motivation which make me want to continue living, and giving me that bag of Law Crystals that make it possible for me to get my revenge one day.

Su Yiren was too embarrassed to tell Lin Yuan these reasons.

She was still a girl, after all. It would be too much to ask her to lay out her reasons for being grateful.

Faced with Lin Yuan's questioning look, Su Yiren immediately knew that the mighty Lin Yuan was still a clueless man.

She hurriedly avoided his gaze and was silent for a moment before she said, "Thank you for giving me that bag of Law Crystals."

A look of understanding came over Lin Yuan.

With regards to the bag of Law Crystals, Lin Yuan needed to tell Su Yiren something.

"You're an A-rank spirit qi professional who hasn't reached S-rank. Given that your feys have reached Suzerain/Myth I, it means that you rolled grades. You don't have to hold back when using the Law Crystals.

"Spirit-, soul-, and mind-type Law Crystals, and these types of spiritual ingredients are too rare. You don't have to wait for the Trapped Love Poppies to reach Myth II before you allow them to absorb the Law Crystals.

"I have many Law Crystals, and you can come to me for more if you've used up your current stock. Power is the root of everything. If the day ever comes that you become stronger than Seventh Page War, you will be able to take back the Dark Continent on your own."

Su Yiren looked both shocked and touched. She was shocked by what Lin Yuan said about him having many Law Crystals.

She was shocked by what Lin Yuan said about him having many Law Crystals.

Is he even human? Could the three Class 5 Creation Masters in the Radiance Federation be working for Lin Yuan? His well of Law Crystals can't run so deep from just having one Class 5 Creation Master working for him.

She was grateful when he said that he permitted her to use Law Crystals as she pleased.

Although it would be a waste to use Law Crystals on the Trapped Love Poppies when they were only Myth I, her grandmother would probably do the same for her if she was still alive.

Su Yiren had sworn her loyalty to Lin Yuan and formed a contract with one of the Astronomical Parliament's north-south constellation seats.

Lin Yuan had every right to treat her like a tool and milk her dry of all her use.

Yet, he did not do so.

This caused the tieless and lonely Su Yiren to feel a sense of belonging to this underground palace.

She also greatly agreed with what he said about how everything led back to gaining more power for herself.

However, Seventh Page War was not human but a plant-type fey. The Absolute Love Poppy's charm was not as effective on plant-type feys as on humans.

Moreover, Seventh Page War had two sacred source lifeforms, and one of them had reached 10 Stars and gained the ability to activate celestial phenomena.

Seventh Page War had almost managed to kill all of Su Yiren's grandmother's feys within 100 moves. This meant that Seventh Page War had to have already reached that level.

All of a sudden, Su Yiren was gripped by helplessness.

This was when she heard Lin Yuan say, "If you comprehend new Willpower Runes while increasing your sacred source lifeform's Stars, I will provide you with the Bronze/Epic Trapped Love Poppy. You can close any gap with enough effort. As a Dark Envoy, I'm sure you're aware that you can never stop running."

The disheartened Su Yiren clenched her fists tightly.

No matter how slim the chances are, I still have to give it a shot. Otherwise, I won't be able to face Grandma or Elder He, who died protecting me.

Su Yiren was silent for a moment before she said, "Lin Yuan, I would like to go to Oak City tomorrow. I don't have much to do in the underground palace. After all, the restricted area isn't fully formed yet. Also, I would like to pick 14 homeless people from Oak City's slums to turn them into the 14 Poppy Fruits."

Frankly, it would be easy for Su Yiren to nurture the 14 Poppy Fruits, and she could pick anyone. She could even use the relationship between the Prosperous Chamber of Commerce and the Ding family to pick 14 outstanding young girls.

However, she did not do so.

Chapter 1447: The Secret Deep Within the Great Lush Federation

Su Yiren had been saved from the slums of Oak City, and light broke into her pitch-dark world. Hence, she also wanted to do the same for others.

Additionally, women from the slums were exceptionally resilient. They had a strength and persistence that regular women did not possess.

If such women were turned into the 14 Poppy Fruits and started the Love Music Centers, they would be able to withstand temptation as well as be more motivated to dance and sing to the best of their abilities.

Su Yiren did not care about the 14 women's features. When the Absolute Love Poppy used 14 Poppy Fruits to form contracts with the women, their features and auras would also be transformed to the point that they would be able to enchant any living creature.

Naturally, Lin Yuan had no objections when Su Yiren mentioned that she was going to seek out her 14 Poppy Fruits tomorrow.

"A return trip between the underground palace and Oak City is about 1,000 kilometers. You haven't contracted an avian-type fey, so the journey isn't convenient for you. Tomorrow morning, I will give you the pinnacle Diamond Snow-Necked Swan. It might not fly as swiftly as Blackie, but it's sufficient to make the trip to and from Oak City and the underground palace."

It would take Lin Yuan at least two weeks to use his spirit qi to evolve the pinnacle Diamond Snow-Necked Swan on his own.

Thus, he could nurture it for Su Yiren on his own. Instead, he would leave the job to Genius and the Hundred Questions Beasts.

There were numerous high-quality Bronze feys in Lin Yuan's Diamond fey storage box. He had caught them a few months ago when he went to pick wild ingredients from the Endless Forest.

Lin Yuan had evolved them long ago but had not found the right people to give them to.

The most suitable avian-type fey amongst these feys was the Snow-Necked Swan. However, it was only Bronze/Epic.

Once the Snow-Necked Swan was handed to Genius, it would be Diamond X/Legend by tomorrow morning.

Su Yiren was about to thank Lin Yuan again when she remembered how Lin Yuan had asked for her reason for thanking him.

She was afraid Lin Yuan would ask the same question, so she did not thank him this time.

She was already Lin Yuan's subordinate, and it would be better for her to perform well than to thank Lin Yuan.

...

Once Lin Yuan walked to the entrance of the underground palace, the scent of roasted meat wafted into Lin Yuan's nose. His stomach immediately reacted by letting out a rumbling noise.

Liu Jie had roasted an entire Platinum Black Back Mountain Boar.

It was not easy to nurture the Black Back Mountain Boar to Platinum grade. However, the Platinum Black Back Mountain Boar was far tastier than the Silver or Gold Black Back Mountain Boar.

The Black Back Mountain Boar that Liu Jie was roasting had at least 100 kilograms of meat on it. There was no way that Lin Yuan and the rest would be able to finish eating all of it.

Liu Jie was currently shaking salt and pepper onto the Black Back Mountain Boar.

Little Flower and Little Grass stood next to Liu Jie as they were utterly entranced as they watched the roasting Black Back Mountain Boar.

Little Flower gulped continuously while Little Grass' saliva dripped out of his mouth and onto his white clothes. There was a sizable damp patch on his white clothes.

Hu Quan was holding a brush and brushing honey on the Black Back Mountain Boar's posterior. He preferred the taste of honey to pepper and liked its posterior's firm taste.

Lin Yuan said to Hu Quan, "Uncle Hu, call over Hu Tian and the other Spirit Craftsmen. We can give them half of the meat. They have worked hard for so long and deserve to have a good meal."

Hu Quan stood up and said with a smile, "Okay! I will go and call those brats and the sly Hu Tian over to eat with us."

Hu Quan was a boor and never cared for unnecessary courtesies. He only cared about a person's true self and never did anything behind anyone's back either.

Nonetheless, Hu Quan was still aware of the gap between Lin Yuan and the Spirit Craftsmen.

Given that Lin Yuan bothered to think of these ordinary Spirit Craftsmen and was willing to eat with them showed that Lin Yuan was a person who was considerate of those who did hard labor.

At that moment, Lin Yuan was shining brightly, and Hu Quan could not tear his eyes away from him.

The Black Back Mountain Boar was eaten down to its bones in less than half an hour.

Hu Tian was holding up a leg bone and slurping on its marrow.

Hu Quan shot Hu Tian a menacing glare.

Because of the fact that he was an emperor-class expert and could circulate his spirit qi to speed up his digestion, Hu Tian had eaten almost 40kg of meat and visited the bathroom thrice.

This person completely abandoned his pride just so he could stuff more food into his stomach!

Little Flower and Little Grass had never eaten such delicious food.

Lin Yuan was afraid that Little Flower and Little Grass would eat more to fill their stomachs to the greatest extent. Thus, he took out some sour plums to give the children while eating.

Lin Yuan and everyone from the underground palace were happily feasting on the Black Back Mountain Boar.

Meanwhile, it was frigid and austere over in the Great Lush Federation.

In the Divine Wood Federation, it was summer all year round, while it was colder in the Iron Hammer Federation. It had even started snowing in the center region of the Iron Hammer Federation.

But to the north of the Iron Hammer Federation, where the Great Lush Federation was, ice and snow covered the ground year-round.

The weather was the reason the ground in the Great Lush Federation was unsuitable for agriculture.

This was why the people from the Great Lush Federation chose to form merchant groups and chambers of commerce. This business decision was the reason behind the Great Lush Federation becoming the richest federation out of the Startling Lines Continent's three federations.

The secret elite families who controlled chambers of commerce were rolling in riches.

The strongest four secret elite families in the Great Lush Federation were shrouded in mystery. Most of the secret elite families sought help from these four families.

It went without saying that the help did not come for free. Most of the secret elite families in the Great Lush Federation had lost a portion of their shares of ownership to these four families.

These four families held absolute power in the Great Lush Federation.

But at that moment, the heads of these four families were currently kneeling in front of a gruesome mishmash of flesh.

The mass of flesh was placed on a jeweled throne and was throbbing faintly.

The four families' leaders were sweating buckets as their faces were stretched into terrified expressions.

Chapter 1448: A Smoking Gun Appears

The four families' leaders dared not even glance at each other for fear of raising the ire of the gruesome mass of flesh.

At that moment, a clear and childish voice said from within the bloody ball of flesh. When one heard the voice, it would be as though they were hearing the truth.

"The four of you have been developing in the Great Lush Federation for so many years, yet you've only managed to obtain this pathetic pile of Law Crystals. Most of these Law Crystals are in fragments. How do you think you should be punished?"

The four families' leaders anxiously started to kowtow as they pleaded for mercy.

"Lord Truth, we did try our best. Unfortunately, there aren't many Myth Breed and Creation Breed feys in the Startling Lines Continent. Moreover, the experts from the Divine Wood Federation and Iron Hammer Federation don't like to appear in their imperial courts.

"We can't target the experts from external cities. If many of the experts from these cities die, the Divine Wood Federation and Iron Hammer Federation's imperial courts will definitely launch an investigation. If they discover that something is wrong, they will ban the chambers of commerce of the Great Lush Federation. If that happens, we won't be able to earn any more money for you."

While the four families' leaders were talking, the mass of flesh on the throne suddenly cracked, and a silver-haired young boy with chiseled features appeared. His eyes were innocent as he looked at the four families' leaders up and down.

But when the four families' leaders felt this gaze on them, goosebumps rose all over their bodies.

All four of them were certain that they were about to be punished when the persuasive voice said, "Hahaha, my sacred source lifeform is the hardest to evolve amongst all the Eight Pages of Tower Canon. Nonetheless, my sacred source lifeform is finally about to break through to 10 Stars."

The silver-haired boy touched the scar at the back of his neck, and a manic look appeared in his eyes.

"Once my sacred source lifeform reaches 10 Stars, I will be able to properly give the Moon Empress and the Night Empress a run for their money. A few days ago, there was weird activity surrounding the sun, and the Heavenly Family Fey affiliated with the sun has resurfaced. After my sacred source lifeform evolves to 10 Stars, it will be time to collect the Heavenly Family Crystal that I failed to obtain last time."

This was not the first time the four families' leaders heard the silver-haired boy mumbling to himself almost deranged way.

But the more they heard it, the more afraid they became.

Suddenly, the silver-haired boy's tone turned cold as he said, "All of you are collecting Law and World Crystals too slowly. Since the experts from the Divine Wood Federation and Iron Hammer Federation don't like appearing in the imperial courts, a war that no expert can tear themselves away from needs to take place in the Divine Wood Federation and Iron Hammer Federation.

"I will give you four months. I will awake again in four months, and I better detect the flames of war all the way over here in the Great Lush Federation. Otherwise, you useless people will turn into my jacket."

The silver-haired boy patted the ball of flesh behind him, and the four families' leaders said with trembling voices, "Lord Truth, we will definitely do well!"

The four families' leaders were only able to let out breaths of relief when they walked out of that strange tower.

They looked at each other, and all of them knew that Lord Truth was about to start harvesting the crops he had planted long ago.

In his eyes, all the experts in the Startling Lines Continent were parasites whose only function was to raise his sacred source lifeform to 10 Stars.

The Startling Lines Continent was about to descend into chaos!

...

After eating the roasted meat, Su Yiren went to Lin Yuan's room, and they talked for a long time.

Since Su Yiren was going to help Lin Yuan manage the Divine Wood Federation side of business, she needed to have a good understanding of his goals and plans in order to do her job well.

After their conversation, Su Yiren's perspective of Lin Yuan changed.

As she listened to Lin Yuan talk about his opinions and goals, she felt as though he was as lofty as the clouds.

Su Yiren found out that he had founded a group called Sky City, and they were using the sacred source lifeform Astronomical Parliament to set up the entire main world.

A question appeared in Su Yiren's mind.

Could this be how an elite from one of the three major federations acted?

Su Yiren had not been to the Radiance Federation, but the previous Dark Envoy had visited the Radiance Federation before. When the previous Dark Envoy returned to the Dark Federation, he told Su Yiren all about the Radiance Federation.

From just the three Class 5 Creation Masters in the Radiance Federation, Su Yiren knew that calling the Radiance Federation prosperous was an understatement.

But it would be impossible for every person in the thriving Radiance Federation to aim to conquer the entire main world.

It would be almost impossible for the elites from smaller federations to even step out of their own land.

While talking to Lin Yuan, Su Yiren mentioned the Radiance Envoys and Major Federation Meeting twice.

Although Lin Yuan had not given her affirmative answers, he had not denied it either.

Su Yiren was certain that Lin Yuan was either one of the current Radiance Envoys or wanted to become one.

From Lin Yuan's analysis of the situation, Su Yiren felt that the latter was more likely.

Additionally, Lin Yuan was only around 18 years old.

On their way back, all of them had ridden on Lin Yuan's fey.

Su Yiren was a Class 3 Creation Master and could easily sense that the black flood dragon was a Diamond/Fantasy fey.

Given that he already possessed such power at his young age, it should pose no problem for him to become a Radiance Envoy two years later.

When Su Yiren gained the amount of power that Lin Yuan currently had, she was 23 years old.

Now that Su Yiren had all the information she needed, she walked out of Lin Yuan's room.

Since Lin Yuan had used the Earth Center Fine Milk to refine his body, he no longer needed seven or eight hours of sleep a day. He was able to reach peak condition with just two or three hours of sleep.

Lin Yuan returned to the Spirit Lock spatial zone and evolved the Item-Storing Walnut Trees. That night, he managed to evolve the 50 500-year-old Item-Storing Walnut Trees to Bronze/Legend and gained 1,280 pairs of Bronze/Legend Item-Storing Walnuts.

Chapter 1449: Slowly Strengthening Apostles

After storing away the Item-Storing Walnuts, Lin Yuan went into the marsh world through Klein Hub.

When he arrived at the marsh world, he saw Genius ordering five Spirit Craftsmen to plant the Item-Storing Walnut Trees.

A three-meter-tall humanoid crocodile with crocodile armor on its body was rapidly digging holes using its hands.

After the Spirit Craftsmen planted the Item-Storing Walnut Trees and filled up the hole with soil, two Medusa Snake Demons wrapped their arms around the Item-Storing Walnut Trees' trunks and squeezed forcefully.

Soon, the crooked Item-Storing Walnut Trees were all straightened.

Genius sensed that Lin Yuan had arrived and headed toward him. It leaped deftly and landed on Lin Yuan's shoulder.

It affectionately nudged Lin Yuan's face and said in a childish voice, "Yuan, ever since you decided to nurture the Item-Storing Walnut Trees, I told the other Hundred Questions Beasts to concoct spirit fluids that can increase the grade and quality of the Item-Storing Walnuts as well as quicken their ripening. Currently, we have enough for more than 200 Item-Storing Walnut Trees."

Lin Yuan gently patted Genius' head and said, "Genius, I have 50 Item-Storing Walnut Trees that are more than 500 years old. Nurture these Item-Storing Walnut Trees first until they reach Diamond and produce Item-Storing Walnuts. I'll give you the other 600 Item-Storing Walnut Trees that are more than 300 years old after I've evolved them to Bronze/Epic. This will ensure that they produce the best quality Item-Storing Walnuts."

Genius nodded and said, "Yuan, I think that we have too little manpower to properly develop the marsh world. We need some people here who can do hard labor."

Lin Yuan flicked Genius' nose and replied, "Genius, I will be able to solve the problem quickly once I'm back in the Radiance Federation. There will be many more people in the marsh world soon."

He had discussed with Sun Ningxiang how he wanted to set aside a large area in the marsh world to be used to cultivate plants.

Recently, Sun Ningxiang had been recruiting employees who were willing to become recluses, so Lin Yuan could pick some of them to help Genius.

Additionally, the Class 3 Spirit Craftsmen were also building houses even though this task was beneath them. If someone could take over the task, it would free them up to become more efficient in tasks where they were actually needed.

Otherwise, it would be too much of a waste for Genius to ask the Medusa Snake Demons and Class 3 Spirit Craftsmen to plant the Item-Storing Walnut Trees.

The half-man half-crocodile was one of White Pavilion's Apostles that it had used its natural skill to transform.

The half-man half-crocodile had a sturdy physique and was very strong. It was very suitable for them to do hard labor in the territory.

Genius received the Diamond fey storage box with the Item-Storing Walnut Trees and was about to jump off Lin Yuan's shoulder to make preparations to plant them when Lin Yuan embraced it and summoned the Snow-Necked Swan from the Diamond fey storage box before saying, "Genius, evolve the Snow-Necked Swan to Diamond by tonight. Su Yiren needs an avian-type fey, and the Snow-Necked Swan is the most suitable."

Genius immediately agreed and said, "Yuan, don't worry. I have already stocked up on many spirit fluids. I will have the Snow-Necked Swan to Diamond evolved before dawn tomorrow."

After Genius headed to the breeding room to work, Lin Yuan walked a lap but still could not find the Kill Food Sky Butterfly.

Lin Yuan contacted Purple Afterglow using his spiritual energy and found out that the Kill Food Sky Butterfly and Purple Afterglow had been searching for marsh soil around the territory.

When Purple Afterglow found out that Lin Yuan was looking for the Kill Food Sky Butterfly, the Kill Food Sky Butterfly rapidly led Purple Afterglow back to the territory.

In less than 40 minutes, the Kill Food Sky Butterfly appeared in front of Lin Yuan.

Lin Yuan asked, "Kill Food Sky Butterfly, have you formed a contract with your sacred source lifeform?"

"Lin Yuan, I want to wait a while before I contract the sacred source lifeform. The territory is currently lacking in marsh soil. A few days ago, the Medusa Snake Demons went to search for marsh soil and were met with danger. A Class 7 Medusa Snake Demon encountered a Class 7 Marsh Pattern Water Boa. After the Marsh Pattern Snake Boa ambushed the Medusa Snake Demon, both of them eventually ended up killing each other. Hence, I told the Medusa Snake Demons to stop searching for marsh soil.

"I informed White Speak to set up a line of defense on the outskirts of the territory. Only the Marsh Crocodiles, Medusa Snake Demons, and Medusa Giant Lizards are allowed to pass through the line of defense.

"I also told White Speak to send out its subordinates to kill all dimensional lifeforms around the territory that are Class 7 and above. Purple Afterglow and I used the distribution of the Marsh Crocodiles to collect marsh soil while helping to clear the Class 7 and above dimensional lifeforms.

"I would like to settle these tasks before I contract the sacred source lifeform. If I contract the sacred source lifeform now, it will definitely affect the rate of the development in the marsh world," said the Kill Food Sky Butterfly.

From what the Kill Food Sky Butterfly said, Lin Yuan knew that the Kill Food Sky Butterfly was putting off absorbing the sacred source lifeform for the sake of the marsh world's development.

Since the Kill Food Sky Butterfly was being so considerate, Lin Yuan did not insist on the Kill Food Sky Butterfly forming a contract with the sacred source lifeform.

Lin Yuan would return to the Radiance Federation tomorrow morning.

Lin Yuan was extremely curious about the Mother of Bloodbath's sacred source lifeform. He also needed to help Ji Feng contract his sacred source lifeform.

After speaking with the Kill Food Sky Butterfly for a while more, Lin Yuan called Rising Lizard, Wendy, and White Pavilion over.

Lin Yuan noticed that Rising Lizard was growing at the quickest rate. It already had four believers, three Favored Believers, and reached Class 8. It would reach Class 9 very soon.

Rising Lizard increased its power so quickly because all of the Medusa Snake Demons were doing their best to attract the Medusa Giant Lizards that Rising Lizard would use to increase its power.

Wendy had snake-species feys and used their venom to evolve its power to Class 4. It had one Favored Believer and two believers.

Chapter 1450: Wen Yu's Astonishing Transformation

White Pavilion had not been an Apostle for long. Hence, it had only evolved by one class. Currently, it had one Favored Believer and one believer.

Lin Yuan knew that these three had not stopped working hard at all.

After bonding with Rising Lizard, Wendy, and Rising Lizard for a while, Lin Yuan left the marsh world.

Lin Yuan did not plan on investing any more energy into the marsh world until the Radiance Hundred Sequence selection was over.

Once the Radiance Hundred Sequence selection was over, Lin Yuan planned on taking White Speak to the Palace of Everything in the Marsh East Circle to see if he could trade for some better quality source-type items and sacred source lifeforms.

After leaving the marsh world, Lin Yuan collapsed on the bed and fell asleep.

The next morning, Lin Yuan gave the Snow-Necked Swan that Genius evolved to Diamond X/Legend to Su Yiren before instructing Ji Feng, Little Flower, Little Grass, and Liu Jie to enter the Jeweled Cave Golden Toad.

Lin Yuan entered the Space Tunnel and appeared on the other side at the Return from Faraway Mansion's basement.

He tumbled out of the Space Tunnel and massaged the back of his head in pain. The discomfort of such long-distance travel was even more painful than when he drank the Silver Stamen Gold Luster Cassia nectar to cleanse his body of impurities.

After recovering from his discomfort, Lin Yuan let Liu Jie, Ji Feng, Little Flower, and Little Grass out of the Jeweled Cave Golden Toad.

As for the Dragon Horns Mysterious Turtle, Lin Yuan kept it in the Jeweled Cave Golden Toad.

Although Lin Yuan did not mind showing the Law Crystals with pure law power to the Dragon Horns Mysterious Turtle, he did not want it to find out that he was from the Radiance Federation and not the Great Lush Federation.

When Lin Yuan saw how Little Flower and Little Grass looked around curiously, he said, “Little Flower and Little Grass, this is your new home. Big Brother Liu will cook good food for you from now on. Big Sister Wen Yu will make new clothes for you. She will arrange rooms for you, and you can tell her how you want your room to be decorated.”

Gratitude and admiration appeared in Little Flower and Little Grass’ eyes.

The two of them had been born into hardship and had led one of the saddest lives in the Divine Wood Federation. They had no choice but to rely on themselves, and they were the most important person in each other’s lives.

The Dark Sun Send Mess Butterflies allowed the two children to understand the fear of being separated by death.

In that situation, Lin Yuan had not just saved Little Flower and Little Grass’ lives but their souls and emotions as well.

The two children experienced warmth and care from Lin Yuan and Liu Jie. The ‘home’ that Lin Yuan spoke of allowed them to realize that their savior thought of them as family.

Little Flower held Little Grass’ hand tightly, and Little Grass gripped her hand just as hard. These two children knew that they finally had a home.

After leaving the basement and returning to the mansion, Lin Yuan saw an enormous book with its pages rapidly flipping. Light golden paper flew all around the room. These pieces of golden paper were empty when they were flying around but were full of neat words when they landed on the ground.

Lin Yuan knew that Wen Yu was using the Elemental Paper’s exclusive skill, Hear Heaven’s Secrets.

However, the image of Wen Yu using Hear Heaven’s Secrets was very different from what Lin Yuan had imagined.

It seemed that the help of Mystic Moon during her recent trip to the Radiant Moon Palace had enabled the Elemental Paper to transform.

Lin Yuan used True Data to check on the Elemental Paper.

[Fey Name]: Elemental Paper (Blossoming Paper Flower)

[Fey Species]: Elemental/Paper

[Fey Grade]: Diamond X

[Fey Type]: Wood

[Fey Quality]: Fantasy V

Abilities:

[Dance of Paper]: Transform the body into a piece of paper that is immune to physical attacks. However, it is especially vulnerable to elemental attacks. The paper has a teleporting power. The teleportation can be used every three seconds and has a radius of 20 kilometers.

[Paper Crane's Promise]: The paper will be stacked to form a paper crane that can send messages. The paper crane will be engraved with the aura of the person receiving the message. If a person other than the receiver touches the paper crane, it will burst into flames. The paper crane has a teleporting power that is 30 times more powerful than that of Dance of Paper.

[Thoughts Letter Paper]: The paper will absorb the target's blood and form a temporary contract with the target. The people holding the Thoughts Letter Paper will be able to communicate with each other using their thoughts as their thoughts will automatically appear as words on the paper. The people holding the Thoughts Letter Paper will be able to read the words together.

[Faceless Paper]: An imaginary paper will appear in front of the target, and it can take the shape of the target's appearance. As long as the Elemental Paper is not destroyed, the imaginary paper will be undamaged even if the target is killed.

[Paper Flower Funeral]: The paper will be folded into a flower that will form an imprint when it lands on a target. Even if the target is hidden, cloned, or affected by elements, the paper flower imprint can be used to sense the target's location.

[Paper of Ten Thousand Forms]: The paper can pretend to be a person, fey, mountain, city, sea, or even sky. While in the imitation state, the entities hidden behind the paper can enjoy absolute defense.

Exclusive Skill:

[Hear Heaven's Secrets]: The contractor will become a book of secrets that is linked to the flying piece of paper. When the book's pages are turned, it can transfer any knowledge within to the flying piece of paper.

[Truth Form Paper]: While the paper is flying around, soul power can be used to form a piece of paper that can investigate the truth. When questioning a target, the paper will be folded into a flower if the target is telling the truth, and it will break apart if the target is lying.

Although Wen Yu was not a spirit qi professional who was skilled at combat, her comprehension had reached the peak of the younger generation.

Compared to the Elemental Paper's grade change, Lin Yuan was more shocked by its change in abilities.

He felt that its abilities were even stronger than many sacred source lifeforms.

Lin Yuan could not help but marvel at how powerful the Elemental Paper was.

Previously, the Elemental Paper excelled at gathering information and keeping secrets.

But now, the Diamond X/Fantasy V Elemental Paper's abilities were fundamentally strengthened, and its new abilities gave it a wider variety of skills.
