

Merchant 1461

Chapter 1461: Shocking Elemental Explosion

A shapeless white jade represented Roar of a Windy Day. Gray could summon a wind-covered horse from it.

At that moment, a yellow snake-species fey with thunder crackling all around it appeared on Gray.

Just as Lin Yuan was about to ask Gray why it was not summoning the jade beast, Gray said in a childlike voice, "Yuan, replenish some of my spirit qi. Otherwise, I won't be able to activate the rainbow weather gem."

Lin Yuan found this strange.

Although Gray had used up a significant amount of spirit qi to fuse the abilities, only a minute had passed. As such, Gray should still have at least 4/5 of its spirit qi left.

Gray also did not require a lot of spirit qi to summon the snake-species fey.

Could it be that the rainbow weather's elemental lifeform was special?

Lin Yuan lifted his hand and used Spirit Injection on Gray. Soon after, Gray was brimming with spirit qi again.

After Lin Yuan used Spirit Injection on Gray, it should continuously slow down the decrease in Gray's spirit qi for two hours.

Now that it was full of spirit qi again, Gray let out another cry and summoned all the jade beasts.

Gray's body was ensconced in rainbow light, and the five jade beasts fused together to form a colorful crane.

Lin Yuan's eyebrow twitched when he saw the crane because it looked exactly the same as Gray when it used Cloud Morph.

At first, Lin Yuan assumed that Gray was just a support- and control-type Heavenly Family Fey.

But now, it seemed that this was not the case.

The crane that was formed from a combination of five jade beasts was full of five types of elemental energy and had very strong attacking potential.

Lin Yuan decided to test this power.

He waved over the Wind Speed Rapid Antelope and said, "Wind Speed Rapid Antelope, try and receive one of Gray's attacks. See if it is able to push you back a step."

The Wind Speed Rapid Antelope was a Gold X/Legend fey.

Lin Yuan had been feeding wind-elemental pearls to the Wind Speed Rapid Antelope to set up a strong foundation for it.

In the time that the Wind Speed Rapid Antelope had been consuming the heavenly-maiden-grade elemental pearl powder, its fur had changed from khaki to white while its horns were also starting to grow out again. Evidently, its bloodline had mutated.

The Wind Speed Rapid Antelope was only one step away from reaching Gold/Fantasy.

The Wind Speed Rapid Antelope did not immediately attack the crane that Gray summoned. Instead, it tilted its head and weaved layers of wind.

Gray and the Wind Speed Rapid Antelope were friends and spent a lot of time playing together.

Gray knew that the Wind Speed Rapid Antelope was trying to get it to attack. Hence, Gray ordered the crane to attack the wall of wind.

The crane spat out rainbow light at the net of wind.

When Lin Yuan sensed Gray's attack, he frowned, and alarm bells rang in his head.

He hurriedly shook his hand, and the Source Sand appeared.

A large amount of Close Guard Sand blocked the rainbow light. The sand wall violently exploded.

Although the explosion did not break through the sand wall and endanger the net of wind, it still formed an obvious divot.

The Source Sand was a Diamond/Fantasy elemental source-type lifeform.

Lin Yuan did not do this because Gray's attack was powerful. But because the five types of elements in the tangled rainbow weather would repel each other and lead to an explosion. It was considered an elemental explosive ability.

Even if the explosion landed on the Wind Speed Rapid Antelope, it would not die. But it would still be heavily injured.

Lin Yuan had nurtured the Wind Speed Rapid Antelope for so long, and it also managed the Spirit Lock spatial zone. He could not bear to see it become injured.

The Wind Speed Rapid Antelope and Gray were completely ignorant of the situation.

Meanwhile, Lin Yuan had been completely floored from the point of silence to the moment he sensed the power of the explosion.

Was this the power of a Heavenly Family Fey? Despite only being Bronze grade, it was able to produce more power than Gold grade.

Although this attack's strength came from the explosion of elements, Gray would be able to produce stronger explosions as it absorbed more and a higher concentration of weather.

By the time Gray reached Myth Breed, it would be as powerful as a Creation Breed fey.

Lin Yuan left the Spirit Lock spatial zone.

After dinner, he logged into Star Web.

The news about the abyss dimensional rift's opening had not yet broken out on Star Web. All the discussions still surrounded Sky City and the Moon Empress' disciple.

But once the news about the abyss dimensional rift was released, it would take over the center of attention on Star Web because it represented a new chapter for the Radiance Federation.

Lin Yuan had not logged onto Star Web as Black for some time.

Ever since his virtual image joined the Celestial Stairway's Hall of Fame, he no longer needed to fight on the Celestial Stairway monthly to maintain his star rating.

As such, Black's influence on Star Web was diminishing.

Although the fan club and posts were still available, they were not as active as they were in the past.

Lin Yuan did not log into Star Web as Black this time, either. Instead, he logged in as himself.

He had been so busy that he had not logged onto Star Web as himself for some time as well. As a result, he had many unread messages.

This account was public. He had only ten people on his friend list.

Yet, it turned out that one of the people on his friend list had sent him more than 20 messages.

Lin Yuan was not surprised by this.

People who truly needed to seek him out had their own ways of reaching him. They did not need to use Star Web to contact him at all.

Lin Yuan saw that the person looking for him was a familiar face, Zhou Jiaxin.

Chapter 1462: Zhou Jiaxin and Elder Ning in Trouble

Zhou Jiaxin: Are you there? I want to talk to you about the store. The matter is quite urgent. If you have time, I would really like to seek your opinion.

...

Zhou Jiaxin: I won't think I'll be able to continue managing the store. The store had earned 2,400,000 Radiance dollars, and I sent you 750,000 as per your ownership shares. Thank you for looking after me all this time. As for the goods you provided that haven't been sold off, I will deliver them to the address you gave me through Ostrich Logistics once I've moved out of the store.

Zhou Jiaxin had sent the first message nine days ago and the newest one an hour ago.

From her messages, Lin Yuan was certain that she was in relatively deep trouble. The Zhou Jiaxin he knew would never let the shop go. Lin Yuan had made his first purchase on Star Web from her store.

She had been very kind to him. Without her special attention, he would have missed out on the Wind Speed Rapid Antelope, Cinnabar Osmanthus Haworthia, and Cinnabar Sweet Osmanthus.

The Wind Speed Rapid Antelope had become the Spirit Lock spatial zone's manager, the Cinnabar Osmanthus Hawthornia had attracted the Fortuitous Fortune-Carrying Swallow, and the fruits produced by the Cinnabar Sweet Osmanthus had increased his spiritual energy.

Many of Lin Yuan's opportunities were a result of Zhou Jiaxin's help. As such, he had been helping her in return by providing her with goods.

A few months ago, her Class 3 store had been promoted to Class 5.

Additionally, due to the high quality of spiritual ingredients and feys that she sold, her store was famous even amongst Class 5 stores.

Zhou Jiaxin had shared updates about the store with the Purchase With No Loss store's fan club.

The Purchase With No Loss store's fan club was mostly comprised of bigshots, many of whom were Creation Masters.

Moreover, there were members of factions who visited the store every night at 8:00 p.m. to wait for the heavenly-maiden-grade elemental pearls.

Hence, Zhou Jiaxin and the other members who had joined the fan club early by buying the Usneas had less and less authority in the group.

Buddha-tempered person and Violent-tempered woman had not spoken in the fan club for some time.

However, it was said that Violent-tempered woman was now working in Zhou Jiaxin's store and had even bought some of the store's ownership shares.

Lin Yuan was also a shareholder of Zhou Jiaxin's store. However, he possessed more shares than Violent-tempered woman.

From the messages that Zhou Jiaxin had sent, Lin Yuan should have earned 720,000 Radiance dollars out of the 2,400,000 Radiance dollars that Zhou Jiaxin's store earned. Evidently, Zhou Jiaxin had given him an additional 30,000 Radiance dollars to express her gratitude.

Even 3,000,000 Radiance dollars was insignificant to him.

Lin Yuan only needed around eight minutes to evolve a fey to Bronze/Epic. He could earn 3,000,000 Radiance dollars after working in the Spirit Lock spatial zone for 48 seconds.

However, to Zhou Jiaxin, who had only earned less than 200,000 Radiance dollars, even 3,000 Radiance dollars was a large sum.

Lin Yuan would have ignored this if it was coming from anyone else.

However, Zhou Jiaxin was one of the first people he met when he transmigrated.

He would definitely help her.

Since she was only going to leave the store two days later, he decided to pay the store a visit to understand the situation and understand what kind of trouble she was in that forced her to give up her dream of running her store.

Besides Zhou Jiaxin, Elder Ning had also sent Lin Yuan a message.

Elder Ning was the one who had given Lin Yuan his Star Web Card. He had added Lin Yuan to his friend list when he gave Lin Yuan the Star Web Card.

Lin Yuan had been chosen by the City Lord of Redbud City and found his way to the Moon Empress because of the news that Elder Ning had released. Thus, Elder Ning was aware that Lin Yuan was the Moon Empress' disciple.

Ning Yanting: Young Lord, I would like to ask for your help to take a look at the Spiral-Toothed Shark. I want to awaken its megalodon bloodline. However, there was an issue while I was concocting the spirit fluid, and it caused an anomaly with the Spiral-Toothed Shark's bloodline. I urgently require the essence blood of main-dragon-species feys to evolve the Spiral-Toothed Shark's bloodline. This is the only way to salvage its life.

Elder Ning had sent this message three days ago.

Lin Yuan could not help but wonder if he was too late.

He anxiously left Star Web and picked up his phone to call Elder Ning.

Elder Ning picked up the call after a few rings.

Lin Yuan quickly said, "Elder Ning, I just saw the message you sent me on Star Web. I do have the essence blood of main-dragon-species feys, and I'll send it to you through Ostrich Logistics immediately. I hope the Spiral-Toothed Shark isn't in danger because of my three-day delay."

Ning Yanting had exhausted himself trying to source the essence blood of main-dragon-species feys.

Ever since he became a Class 4 Creation Master, he had been trying to help the Spiral-Toothed Shark to awaken its megalodon bloodline. This ambition had cost him countless resources and left him penniless.

Ning Yanting thought that that ingredient would be the key to unlocking the Spiral-Toothed Shark's megalodon bloodline. However, he was sorely disappointed.

The best way to save the Spiral-Toothed Shark would be to help it gain a new bloodline. However, this was the last thing that Ning Yanting wanted.

If he was going to go down this road, he could have evolved the Spiral-Toothed Shark into the Spiral-Toothed Dragon Teeth Shark.

Ning Yanting was able to obtain most of the spiritual ingredients. However, the essence blood of main-dragon-species feys was beyond his reach.

If he only needed blood, he could ask for a few drops from experts that possessed main-dragon-species feys.

Since he did not have any resources, he could just owe Lin Yuan a favor that he would slowly return in the future.

However, essence blood was the essence of main-dragon-species feys. The higher their grade was, the less essence blood they produced.

A main-dragon-species fey could only produce five to six drops of essence blood.

Ning Yanting could not bear to see the fey he contracted die because of his stubbornness. Hence, he had turned to Lin Yuan.

Chapter 1463: Scheming

Only Lin Yuan, the Moon Empress' disciple, could obtain a precious item like the essence blood of a main-dragon-species fey.

Ning Yanting's face had been flushed with embarrassment when he typed out the message asking Lin Yuan for help.

However, Lin Yuan did not reply to his message even after three days had passed. This left Ning Yanting feeling rather bitter.

Just as Ning Yanting was about to resign himself to his fate, he received Lin Yuan's call telling him that he could solve his problem.

Ning Yanting was speechless. He had no idea what he should say as thanks seemed too superficial.

Nonetheless, Ning Yanting could not afford the essence blood of main-dragon-species feys.

Lin Yuan sensed Ning Yanting's conflict and said, "Elder Ning, feel free to let me know if you have any other needs. Coincidentally, I need your help with something."

When Ning Yanting heard how Lin Yuan addressed him, he felt as though he could see the young man furiously scribbling away during his exam. Although that young man was now the Moon Empress' disciple, he was still as humble as he had always been.

"Young Lord, please let me know if you need me to do anything."

When Lin Yuan entered the Spirit Lock spatial zone, Chimey had urged him to start the Warm Sun Fund soon.

Previously, Lin Yuan and Sun Ningxiang had discussed how the Warm Sun Fund should be carried out.

Besides the time it spent increasing its power in the hopes of holding a fan meeting soon, Chimey spent all of its time live-streaming to garner funds for the Warm Sun Fund.

Lin Yuan could not disappoint Chimey.

He had come from the less prosperous Xia Region in Redbud City. As such, no one knew about the environment there better than him.

Thus, Lin Yuan planned on starting the Warm Sun Fund in Xia Region before spreading its influence to the rest of Redbud City and eventually the entire Radiance Federation.

In order to ensure that the Warm Sun Fund operated smoothly, a person with a ministerial background like Elder Ning was necessary.

After telling Elder Ning about his intention, Lin Yuan hung up.

He drained one drop of essence blood from the main-dragon-species fey organs and sent it to Elder Ning.

Ning Yanting was burning with excitement and motivation.

This young man had not even left the Xia Region for a year, yet he was already thinking of a way to help his hometown.

How could such a pure-hearted person exist? If he was doing all this for his hometown, imagine what he could do for the entire Radiance Federation?

Ning Yanting had always felt that Lin Yuan had enough Creation Master talent to be considered a genius that created a new record for the Creation Master exam.

But now, Ning Yanting felt that Lin Yuan's character was even more brilliant than his Creation Master talent. His character far exceeded being described as noble because he also wanted to help others.

Lin Yuan logged into Star Web and visited Zhou Jiaxin's store.

When he arrived, he saw that the store was having a sale. Many customers in the store were fighting to buy up the spiritual ingredients.

Most of the Spirit-Siphon Goldfish in the pool had already been sold.

Currently, Violent-tempered woman and five other employees were present in the store beside Zhou Jiaxin. All seven of them were frazzled with all the work they had to do.

Lin Yuan walked up to Zhou Jiaxin, who was introducing a spiritual ingredient to a customer, and said, "Big Sister Xin, I missed the Star Web messages you sent me. But once I saw them, I immediately rushed here."

Zhou Jiaxin froze when she heard this familiar voice and whipped around in shock.

Once she was certain that the voice had come from Lin Yuan, Zhou Jiaxin apologized to the customer before asking an employee to take over the introduction.

She walked over to Lin Yuan and said with a smile, "You sure have grown in the few months since I last saw you!"

Lin Yuan had indeed grown from 177 centimeters to 180 centimeters, and his physique had also filled out significantly.

Lin Yuan could tell that Zhou Jiaxin was trying to hide her sadness and asked, "Big Sister Xin, your Class 5 store is doing well. Why are you closing it all of a sudden?"

Zhou Jiaxin sighed and replied, "You're a major shareholder of the store, so I wanted to ask your opinion first. However, the three Class 2 Creation Masters that the store employed are no longer willing to work for us. An old rising faction has been pressuring me to turn my store into one of their chain stores so they can take over the management."

Lin Yuan finally understood the situation. An old rising faction was targeting Zhou Jiaxin.

If the rising faction chose to use underhanded methods, Zhou Jiaxin would be helpless against them. This was the reason many Class 5 stores needed to gain the support of factions.

However, Class 2 Creation Masters were not considered important people in a rising faction.

Zhou Jiaxin had also treated the three Class 2 Creation Masters very well, and there was no reason for them to succumb to the rising faction's threats to stop working for Zhou Jiaxin.

Since Lin Yuan was confused, he asked Zhou Jiaxin, "Big Sister Xin, did the rising faction force the three Class 2 Creation Masters to leave?"

Zhou Jiaxin hurriedly shook her head and replied, "This rising faction has had its eye on our store for a long time. They did not make their move in the past on account of the three Class 2 Creation Masters' pride.

"However, Whale Ocean Commerce is holding a large-scale recruitment of Creation Masters, regardless of their class or experience. They claim that they want to test the Creation Masters. Whale Ocean Commerce will nurture the Creation Masters who join. This news was the reason the three Class 2 Creation Masters chose to leave."

At first, Lin Yuan had only wanted to do a small favor for Zhou Jiaxin. But he did not expect to learn such a piece of news from her.

Whale Ocean Commerce again! Creation Masters again!

Lin Yuan had found out from Ji Feng that Whale Ocean Commerce was not hiring Creation Masters for their abilities but for their actual selves.

Whale Ocean Commerce's offer would draw countless Creation Masters to them.

If these Creation Masters all ended up secretly killed by Whale Ocean Commerce, the Radiance Federation's Creation Master potential would be halted.

However, there was something that Lin Yuan did not understand.

Even if Whale Ocean Commerce was daring enough to use the Creation Masters' bodies to commit crimes, they would not be able to escape the long arm of the members of royalty once their deed was discovered.

Previously, Lin Yuan planned on taking White Speak to Whale Ocean Commerce's residence one night to conduct an investigation. However, there was no guarantee that they would be able to escape detection by Whale Ocean Commerce's experts or even find anything useful.

Chapter 1464: Lin Yuan's Capability!

Even if Lin Yuan was able to escape detection by Whale Ocean Commerce's experts, it would be difficult for him to find out what Whale Ocean Commerce's scheme was from one secret visit.

However, it would be a good opportunity for Wen Yu to use Faceless Paper on him so he could sneak into Whale Ocean Commerce's recruitment as a Class 2 Creation Master.

He would then be able to find out Whale Ocean Commerce's scheme.

Lin Yuan said, "Big Sister Xin, I have a way for you to continue running this Class 5 store should you wish to do so. I can put you in contact with Condense Fairy Orchard so you'll be able to work with them in the future. This way, the rising faction won't dare to lay a hand on your store."

Lin Yuan paused for a moment before adding, "Big Sister Xin, I am very interested in Whale Ocean Commerce's offer. Do you happen to know any details?"

Wen Yu had already told him all that Zhou Jiaxin had just told him about Whale Ocean Commerce.

Wen Yu had agreed to keep watch over Whale Ocean Commerce. Hence, she would definitely tell him anything that she knew about the matter.

The only reason she had not told him would be that she was unaware of it. This was not surprising because Sky City currently did not have an intelligence department.

All the information that Wen Yu had came from the Hidden Moon Pavilion.

The information in the Hidden Moon Pavilion was not updated daily but whenever they received a new report.

Lin Yuan understood that he needed to set up his own information channels.

A top faction openly recruiting and testing Creation Masters was not an event that was unheard of. Thus, this matter did not warrant attention from the Hidden Moon Palace.

But ever since Lin Yuan found out about Ten Thousand Flags Trading's true colors from Ji Feng, he was certain that Whale Ocean Commerce's recruitment of Creation Masters, regardless of their class, indicated that they were about to take a huge step.

Zhou Jiaxin's face lit up with joy, but she was also shocked.

When she first met Lin Yuan, she thought that he was just another bright young man.

The way he only used Federation dollars to purchase items showed that he was very frugal. Given that he even bought ores of inferior quality, Zhou Jiaxin assumed Lin Yuan was not in a favorable financial situation.

Yet, after a small span of time, Lin Yuan was spending Radiance dollars at her store and even started his own Star Web store.

In order to show her support for Lin Yuan, Zhou Jiaxin had even gone to visit his Star Web store.

However, she did not expect to find him selling Bronze Usneas that were snatched off the shelves the moment they were put up there.

Eventually, Zhou Jiaxin ended up joining the fight for the Usneas.

Ever since then, Zhou Jiaxin became sure that Lin Yuan had the support of a Creation Master.

Later, Lin Yuan even became a shareholder of her store and provided her with Silver Usneas at regular intervals.

This made Zhou Jiaxin even more certain that Lin Yuan had a Creation Master supporting him.

However, the changes that involved Lin Yuan later confused Zhou Jiaxin.

Suddenly, many bigshots streamed into the Purchase With No Loss store's fan club, and Lin Yuan even started auctioning off the Flower Brocade Pearls in the group.

The elder Creation Masters were all eager to snatch up the Flower Brocade Pearls.

The Flower Brocade Pearls could sell for hundreds of thousands of Radiance dollars at the Rare Lifeform Pavilion. Yet, Lin Yuan could sell tens or even hundreds of them at his store.

Lin Yuan had become the lucky audience member at the Allstar Match who managed to defeat Meng Xu of the Savage Snake Guild Club.

At that point, Zhou Jiaxin finally knew that the young man she saw as her younger brother was an undeniable genius.

As a result, Zhou Jiaxin did not contact Lin Yuan again.

More time passed, and the Purchase With No Loss store started to auction off heavenly-maiden-grade elemental pearls.

The Flower Brocade Pearls were already beyond Zhou Jiaxin's reach. Thus, she had no concept of what the heavenly-maiden-grade elemental pearls were. After all, the heavenly-maiden-grade elemental pearls did not even appear at the Rare Lifeform Pavilion. They were also too valuable to appear at private auctions that were below emperor-class.

Although Zhou Jiaxin knew that the heavenly-maiden-grade elemental pearls were precious, this did not give Zhou Jiaxin a better idea of how deep the well that was Lin Yuan ran.

At that moment, Zhou Jiaxin realized that Lin Yuan could link a small Class 5 store to a top faction with one mere statement.

Was such capability possible?

If my store truly ends up gaining the protection of Condense Fairy Orchard, the rising faction will definitely flee far away and never dare to even think of targeting my store again. Rather, they will have to be worried about my revenge.

Zhou Jiaxin was delighted because this meant that the store she poured her blood, sweat, and tears into would be saved.

However, Zhou Jiaxin did not have a decent answer to Lin Yuan's question.

Suddenly, her eyes lit up, and she said, "One of the Class 2 Creation Masters should be coming later to settle his wages. Once he arrives, we can just ask him about it."

Lin Yuan nodded.

Since Zhou Jiaxin's store was having a sale, there were even more customers than usual. Violent-tempered woman and the other five employees were overwhelmed with work.

Lin Yuan had experience running his own store and attending to customers. He helped Zhou Jiaxin to see to a few customers while they were waiting for the Class 2 Creation Master.

The Class 2 Creation Master arrived at Zhou Jiaxin's store a while later.

He had an arrogant attitude but was friendly toward Zhou Jiaxin. Clearly, he was on good terms with her.

Zhou Jiaxin patted Lin Yuan's shoulder and said to the Class 2 Creation Master, "Lord Fei, my brother... Partner would like to ask you about Whale Ocean Commerce's recruiting and testing of Creation Masters."

The Class 2 Creation Master glanced at Lin Yuan out of the corner of his eye before he said,

"Whale Ocean Commerce is recruiting Creation Masters. Why would someone who isn't a Creation Master want to learn about this matter?"

Zhou Jiaxin smiled awkwardly and shot Lin Yuan an apologetic look.

Although Zhou Jiaxin was the owner of a Class 5 Star Web store, her status was below that of a Class 2 Creation Master. She even had to address him as 'Lord'. Thus, she could not force him to speak if he was unwilling.

Chapter 1465: You Need to Register Early

Lin Yuan took a step forward and said, "I also happen to be a Class 2 Creation Master who wants to understand Whale Ocean Commerce's test."

A look of shock flashed across the Class 2 Creation Master's face.

Fei Yu had never heard of a person becoming a Class 2 Creation Master at such a young age.

However, it was a major crime to impersonate a role that was not one's own. As such, no one would dare to do so. Moreover, Zhou Jiaxin was standing right here. There was no way that the young man would dare to lie so blatantly.

Hence, Fei Yu changed his attitude to one of friendliness toward Lin Yuan.

Although Fei Yu was also a Class 2 Creation Master, he was willing to socialize with a young Class 2 Creation Master like Lin Yuan. Lin Yuan could become a Class 3 Creation Master soon, and it would not be disadvantageous for Fei Yu to be acquainted with him.

Fei Yu hurriedly told Lin Yuan about Whale Ocean Commerce's recruitment and testing.

"Friend, you must register quickly if you want to participate in Whale Ocean Commerce's test. The cut-off time for the registration is tomorrow morning. It will be too late if you don't register today!"

Lin Yuan's expression shifted, and he said, "Friend, do you know what kind of a test it will be?"

Fei Yu was stunned by Lin Yuan's question. He was also unsure what kind of test Whale Ocean Commerce would administer.

Normally, a faction that was recruiting and testing Creation Masters would ask for the Creation Master's class. However, Whale Ocean Commerce did not set a hurdle for the Creation Masters' class. They took in all Creation Masters regardless of their class.

Since Fei Yu did not have an answer to Lin Yuan's question, he changed the topic and said, "Friend, have you heard of Sea Sky Nurture?"

Lin Yuan frowned and nodded with his eyes fixed on Fei Yu.

Fei Yu did not notice the change in Lin Yuan's gaze and went on to say, "Apparently, those who perform well during the test will have a chance to become a disciple of one of Sea Sky Nurture's pinnacle Class 4 Creation Masters. This is a great opportunity! This benefit is the reason I decided to give it a try."

Fei Yu sighed and continued. "Otherwise, I would have continued living a carefree life working in Miss Zhou's store."

Lin Yuan was now certain that Whale Ocean Commerce was up to no good.

All of Sea Sky Nurture's Creation Masters had been killed by Ten Thousand Flags Trading. How could the dead take in disciples?

While Lin Yuan was thinking, Fei Yu finished settling his wages with Zhou Jiaxin.

Before he left, Fei Yu mumbled to himself, "It's almost time for the Radiance Hundred Sequence selection. Will I be able to make it in time to spectate the selection if I participate in Whale Ocean Commerce's test?"

Suddenly, it all became clear to Lin Yuan.

He had been wondering how Whale Ocean Commerce could continue being so blatant in their actions if they were killing Creation Masters.

But now, he figured it out.

Whale Ocean Commerce revealed the news that they had two Immortal experts and declared that their Young Leader intended on fighting for a spot to become a Radiance Envoy. Clearly, they were trying to stall for time to dodge the attention of the members of royalty.

But during this time, the sea clans had broken the agreement between the Eight Clans of Sea Emperors and the Radiance Federation. The Radiance Federation and Freedom Federation royalty had also fought each other from thousands of kilometers away by using their sacred source lifeforms to trigger celestial phenomena. On top of all that, the Azure Federation and Freedom Federation had sent out envoys to visit the Radiance Federation.

These three events held all of the members of royalty's attention, and they could not spare any effort to keep an eye on Whale Ocean Commerce.

This meant that Whale Ocean Commerce was going to seize this chance to put its carefully prepared plan into action.

After Fei Yu left, Lin Yuan checked the Purchase With No Loss store's fan club and saw that most of the Creation Masters were discussing Whale Ocean Commerce.

There were even some Creation Masters who belonged to factions that were faltering, and those who did not belong to any faction were going to give it a try.

One of these people was Master Duan Li, who had worked for Lin Yuan for three months.

Lin Yuan left Star Web and immediately instructed Wen Yu to investigate this matter.

It did not take long for Whale Ocean Commerce to find out how one could register for Whale Ocean Commerce's test.

Since Lin Yuan was going to register, he could not go with his original appearance.

Lin Yuan asked Wen Yu to apply Faceless Paper on him, and his exquisite features were replaced by plain ones.

There were two ways to register for Whale Ocean Commerce's test. The first way was to register on Star Web, and the second was to register offline at Whale Ocean Commerce's booth in the Royal Capital.

Since Lin Yuan was not in Star Web at the moment, he went to the booth to register.

While he was filling in his name, he stopped himself and wrote in the name 'Chu Yuan' instead.

After he was done registering, an employee from Whale Ocean Commerce informed him to report for the test four days later.

After exchanging a few words with the employee from Whale Ocean Commerce, Lin Yuan learned that those who were from the Royal Capital could report at a later date, but those who came from far away from the Royal Capital were going to be delivered to the Royal Capital on avian-type feys.

Lin Yuan thought, *?In four days, I will know why Whale Ocean Commerce needs all these Creation Masters.*

...

Deep in the middle of the cold night, plants were covered in frost.

This was not normal weather for the three months of spring in the Royal Capital.

In a study room with shelves made of jade-textured wood that was filled with books, a middle-aged man with solemn features placed a black chess piece on the board.

The man opposite him, who bore a striking resemblance to him, did not have many white chess pieces left. This man hurriedly said, "Big Brother, let me redo my last move! I want to change the position."

The man with solemn features did not halt as he said, "Wancheng, don't be flippant. If you change your previous move, you won't be able to turn the tables later on. Unfortunately, I saw through your plan."

He threw the chess piece in his hand on the board. Evidently, he did not want to continue playing.

Di Wancheng also fell silent.

Whale Ocean Commerce was currently playing a dangerous game of chess. Chess could represent the passage of life and time.

However, Whale Ocean Commerce could not afford the consequences if they lost the game because it would mean that every person from Whale Ocean Commerce would become a criminal in the Radiance Federation's eyes! All of them would have no other ending waiting for them besides death!

After a short period of silence, the same maniacal look appeared on Di Wantian and Di Wancheng's faces.

Chapter 1466: The Path That Di Wantian Paved

"Wancheng, how many Creation Masters signed up to participate in the test?" asked Di Wantian.

Di Wancheng smiled and replied, "Big Brother, the number of Creation Masters who signed up is so high that I can't keep track of it. There should be 621 Class 2 Creation Masters, 74 Class 3 Creation Masters, and 12 Class 4 Creation Masters."

Di Wancheng paused for a moment before continuing. "Big Brother, the lives of these Creation Masters should be enough to fill the gap that Third Sister needs to become a Class 5 Creation Master, right? However, isn't it too early for us to act now?"

Di Wantian shook his head and picked up a black chess piece. He felt the weight of it in his palm as he said, "Early? It isn't early at all! We started our plan too late. Yet, the stars aligned, and the Radiance Federation ended up clashing with the sea clans and made a bet with the Freedom Federation.

"Moreover, the Freedom Federation sent envoys to the Radiance Federation to spectate in the Radiance Hundred Sequence selection. The envoys from the Freedom Federation will definitely cause trouble during the Radiance Hundred Sequence selection. The members of royalty will all be deployed to watch over the Radiance Hundred Sequence selection.

"This period is when the royalty's attention is the most scattered. The best time for us to strike is now! Wancheng, don't forget that Third Sister cannot wait any longer. The longer the delay, the more her body will deteriorate."

Di Wancheng's voice was determined, but he was trembling on the inside.

Whale Ocean Commerce would be done if even a hint of this matter was leaked to any member of royalty.

But when he thought about how Third Sister could become a Class 5 Creation Master using these Creation Masters in just a few days, Di Wancheng relaxed.

Once their so-called Third Sister became a Class 5 Creation Master, she would be the fourth Class 5 Creation Master in the Radiance Federation, and the power held by the current three Class 5 Creation Masters would be divided to accommodate the fourth Class 5 Creation Master.

Once the low-class Creation Masters died, there would be no reason for the Radiance Federation's royalty to persecute their Third Sister over the dead Creation Masters.

Di Wancheng felt that Whale Ocean Commerce was contributing to the Radiance Federation.

At that moment, someone knocked on the door.

Di Wancheng frowned for a moment before he asked, "Is it Hao? Come in!"

Usually, no one dared to disturb Di Wantian's study. Only Di Wancheng, Third Sister, and Di Hao were permitted to enter Di Wantian's study.

Di Wantian's wife had died young, and his son was the apple of his eye.

The moment he spoke, a young and slightly hoarse voice said from the other side of the door, "Father, Uncle Wu asked me to tell you that we have invited people from Four Beasts Territory to come to our house as guests."

Di Hao was slightly confused and asked, "Father, where are these people from Four Beasts Territory? Additionally, our business is sea trading. I fail to see how we can work with Four Beasts Territory, whose business involves beast-type feys."

Di Wantian stood up and led Di Hao over to take a seat next to him before he said, "Hao, leave this matter alone and focus on practicing your combat skills. Your sacred source lifeform has only just reached 3 Stars. You need to work harder!"

Di Hao pouted as he looked at Di Wantian with displeasure. He did not understand why his father changed the subject whenever he asked a question to clarify his confusion.

For example, he had asked numerous times where his Third Aunt went. His father's reply was always that she was out training and had not yet returned.

But what kind of training lasted over a decade? Di Hao could not bring himself to believe such an explanation.

But as unhappy as Di Hao was, he still agreed.

"Father, don't worry. You gave me plenty of Suzerain metal ores. Once my sacred source lifeform digests all the metal ores, it will evolve to 4 Stars! I heard that Chef Supreme's disciple's sacred source lifeform

evolved to 4 Stars during the fight during the Guard Ye Banquet's Martial Arts Stage. Once my sacred source lifeform evolves to 4 Stars, I wonder if I will become stronger than Chef Supreme's disciple."

Di Hao's gaze was full of excitement when he spoke.

Di Wantian's chest tightened when he saw Di Hao's gaze.

Ever since Whale Ocean Commerce struck up a deal with Tower Canon and their Third Sister found an unorthodox path to become a Class 5 Creation Master, he formed a wall between him and his son.

This was to prevent Di Hao from learning about the skeletons in his family's closet and to prevent him from exhibiting too much of his talent because it would attract the attention of the members of royalty.

Di Wantian felt guilty toward Di Hao.

If anyone else had asked the question, Di Wantian would have replied without hesitation that Zong Ze was stronger.

Zong Ze's strength did not only stem from his 4 Stars sacred source lifeform but also his fey with the Barren bloodline.

It would be impossible for Di Hao to obtain a fey with the Barren bloodline.

But soon, this would change.

Once their Third Sister became a Class 5 Creation Master, she would be able to fight for the chance to become a member of royalty.

When that happened, Whale Ocean Commerce would be the family of a member of royalty, and Di Hao would be considered a descendant of a member of royalty and obtain the chance to gain a fey with the Barren bloodline.

In two years, their Third Sister could work hard at nurturing Di Hao, and it would be easy for him to become a Radiance Envoy.

When that happened, Di Hao would be enthroned at the top of the world and be able to bask in the admiration of thousands.

This was the path that Di Wantian was paving for Di Hao.

The path was almost complete.

Di Wantian gave Di Hao a few more pieces of advice.

Di Hao was irked by the nagging and found a reason to excuse himself from Di Wantian's study.

As Di Wancheng watched the image of Di Hao's back, he could not help but ask, "Big Brother, Hao's sacred source lifeform might not be outstanding, but it can already cause significant damage despite not having even reached 6 Stars. If Third Sister helps him, he should be able to become the leader of the Radiance Envoys."

Di Wantian nodded in agreement and said, “The Moon Empress’ disciple and Chief Guard Ye’s disciple are still mysteries to me. The Moon Empress’ disciple’s sacred source lifeform appeared to be immune to the elements, but that sacred source lifeform in the form of a young girl turned into a sword. I don’t think the Moon Empress is able to enable her young disciple to contract two sacred source lifeforms.”

Chapter 1467: Warm Sun Fund Begins, Smooth-Sailing All the Way!

“Presently, Hao’s strongest attack can reach the power of a Myth Breed fey. But two months ago, the Moon Empress’ disciple’s attack could reach the power of a Myth III fey that also carried a hint of Creation power.

“Chief Guard Ye’s disciple summoned four insect-species carcinoma feys, and all four of their power had reached Diamond X/Legend. Chief Guard Ye’s disciple is a walking disaster. Once he becomes older, he will be able to wipe out all life on a continent with a wave of his hand. He might not be strong in a one-on-one fight, but he is definitely unrivaled when it comes to a group battle. He will definitely be able to gain full marks in the group battle portion of the Radiance Envoy selection.

“The Bamboo Monarch’s disciple chose to participate in the Arts Stage. However, his sacred source lifeform reached 4 Stars long ago, and it happens to be the natural enemy of Chef Supreme’s disciple’s sacred source lifeform.

“Third Sister’s nurturing will decide how far Hao can go. Go and make arrangements to kill every person from Four Beasts Territory besides the Creation Masters. Send Four Beasts Territory’s Creation Masters to Third Sister, and she will handle them.”

Di Wancheng hesitated before asking, “Big Brother, should we send the Creation Masters we recruited to Third Sister first before we move on to the Creation Masters from Four Beasts Territory? After all, Four Beasts Territory has the support of the Du family.”

Di Wantian scoffed and said, “Even if the Du family comes to see us to take revenge for Four Beasts Territory, is there any reason for us to fear them? Ten years ago, they lost to us during the fight for the mineral vein. Now, they won’t be able to save Four Beasts Territory even if they try.

“Moreover, I don’t plan on keeping our recruitment of Creation Masters under wraps. Once Third Sister becomes a Class 5 Creation Master, it won’t matter even if the Du family discovers that we killed Four Beasts Territory. The Du family would never dare to offend a Class 5 Creation Master out of their concern for another faction.”

Di Wancheng immediately went off to attend to their ‘guests’ from Four Beasts Territory.

...

After Lin Yuan was done with the registration, he prepared himself to burn the midnight oil in the Spirit Lock spatial zone.

However, he was stopped by Chimey.

In the past few days that Chimey had been live-streaming, there had been comments saying that it had been lying in its previous live stream when it said that it was going to set up the Warm Sun Fund to

rescue feys and spirit qi professionals because there had not been a single peep about Warm Sun Fund since then.

At first, Chimey ignored these messages because Lin Yuan had promised that he would carry it out, and Lin Yuan would never fail in his promise to Chimey.

However, the audience members in the live streaming room noticed the negative comments and started to discuss them.

Eventually, many of the beauty community's live-streamers started accusing and suspecting Chimey. They said that this popular rookie live-streamer was a failure.

Tonight, Chimey's live-streaming room turned into a fierce battleground, and it got to the point that Chimey could not sing in peace.

All the accusations extremely hurt Chimey.

It had started out as a Sound Bird that could not even sing. Chimey truly wanted to help feys like it and Genius as well as spirit qi professionals like Lin Yuan.

Chimey was not an evil, lying live-streamer like they said. The more Chimey thought about it, the sadder it became. When it recounted the incident to Lin Yuan, a few beads of tears even dripped down its face.

Lin Yuan had not forgotten about the Warm Sun Fund. In fact, he had already made preparations for it and asked the experienced Sun Ningxiang to draw up a plan for it.

No matter how capable Lin Yuan was, he was only one man and needed time for the plan to unfold.

However, the people on Star Web were becoming impatient, and they were using this matter as a weapon to accuse and attack Chimey.

This was the third time that Lin Yuan was seeing Chimey cry. The first two times were because he had fainted. This time, it was because it was extremely hurt.

Lin Yuan hurriedly wiped away Chimey's tears with the pad of his finger and said, "Chimey, the Warm Sun Fund's structure is being set up. It will be started in the Xia Region, where we used to live together. I was going to tell you that the Warm Sun Fund will be starting two days later. But I shall release the news tonight since you can't wait anymore."

Lin Yuan's tone turned stern, and he said, "Chimey, even the most impressive person can't control the thoughts of others. But you have to remember to continue doing good deeds. Don't worry. All the accusing voices aimed at you will disappear tomorrow morning. You'll be able to continue live-streaming as per normal by tomorrow night."

Although Lin Yuan was saying such things to Chimey, he was hopping mad.

There had to be a person pulling the strings from the shadows to enable this matter to be able to grow to such an extent in such a short span of time.

The only people who could be behind this were the live-streamers who clashed with Chimey.

People's hearts were made of flesh, and their eyes were always beady with scrutiny.

This matter was important enough to become a trending moral matter.

The live-streamers who used morals to attack Chimey would definitely eat their words once the Warm Sun Fund was started, and the other people would immediately attack them on Star Web even without Lin Yuan's interference.

Lin Yuan took out his phone and called Fan Hansheng, Sun Ningxiang, Long Tao, and Li Xuan to put the cherry atop the matter regarding the Warm Sun Fund.

Tomorrow morning, the Warm Sun Fund would officially begin.

Although the Warm Sun Fund was a freshly started charity fund, it included plant-type feys from Condense Fairy Orchard, avian-type feys from Dark Clouds Bird Shrine, dragon-species feys from Coiling Dragon's Valley, and insect-species feys from the Cage of Brahma Insects.

As for beast-type feys, amphibious-type feys, fish-species feys, and other types of feys that Lin Yuan had not found suppliers for yet, he would be able to buy them from Star Web to funnel into the Warm Sun Fund.

However, the four top factions would not be supplying the feys for free.

Condense Fairy Orchard had become a branch of Sky City. As for Coiling Dragon's Valley, Dark Clouds Bird Shrine, and the Cage of Brahma Insects, Lin Yuan would buy the feys at their market price.

The Warm Sun Fund was Chimey's idea. But even if Chimey had not come up with it, Lin Yuan had long wanted to set up a charity fund.

Lin Yuan's hope was not for the unfortunate people to become experts through the Warm Sun Fund but to lead happier lives.

At the very least, he hoped they would not have to lead lives of hardship but have smooth-sailing journeys instead.

Chapter 1468: Beginning of the Warm Sun Fund

A ray of dawn light cut through the all-encompassing dark mist. The sun had risen.

The chicken-species feys around the streetside spirit lifeform store started to cluck, attracting a few grumpy complaints from inside the spirit lifeform store.

A person should be at their most energetic when they awoke. However, this was not the case for Li Ziqiang.

After Li Ziqiang opened his eyes and looked at the middle-aged woman next to him, he fell in a daze while lying on his bed.

He was a regular person who was not a spirit qi professional, and his wife was the same.

His son had turned 18 years old not long ago.

When they went to check his talent, it was discovered that he had spirit qi professional potential and was affiliated with power offense-type insect-species feys.

The Li family only had single descendants for three generations, and none of them had been a spirit qi professional.

Li Zhong's spirit qi professional talent was a shining moment for the entire Li family.

But before Li Ziqiang and Wang Xuemei could properly revel in their joy, Wang Xuemei succumbed to a strange illness that left her dizzy, nauseous, and weak. She vomited out any food she ate after five minutes.

Li Ziqiang had hired some experienced physicians to check on her condition, but they could not figure out what was ailing her.

He was at a complete loss and spent a fair amount of money to hire a healing-type spirit qi professional.

After the healing-type spirit qi professional checked on Wang Xuemei, he deduced that the issue lay with her soul. This explained her dizziness, nausea, and lack of strength.

If it was a problem with her spirit, a spirit-type fey and healing-type spirit qi professional could immediately cure Wang Xuemei.

But since this problem involved her soul, it was beyond the healing-type spirit qi professional's abilities.

In order to cure Wang Xuemei, a Class 2 and above Creation Master was required because a Class 1 Creation Master could not concoct souls that affected souls.

However, it cost at least 20 Radiance dollars to be examined by a Class 2 Creation Master.

Li Ziqiang had been working under a Class 1 Spirit Craftsman.

After scrimping and saving for over a decade, he had managed to save up 17 Radiance dollars. However, this was meant to be given to Li Zhong so he could buy a good-quality power offense-type insect-species fey.

A good starting fey could help Li Zhong's future development. It could even attract the attention of his teachers in the Intermediate Spirit Qi Academy and lead to him being recommended to enroll in the Redbud Spirit Qi Intermediate Academy.

But now, his wife needed the money badly to save her life. At the same time, his son needed the money to get ahead of his peers.

If Li Ziqiang was the one who had fallen ill, he would insist on the money going to his son no matter what.

However, when he saw his wife's expressions of agony, he steeled himself and thought, *?I will go and borrow money. I have to heal my wife, even if it means I'll have to live with debt! My son will be able to make his way in life on his own. If I don't save my sick wife, what kind of man will that make me?*

Li Ziqiang hurriedly stood up to borrow money from his sister, who was also living in the Xia Region.

After spending the 20 Radiance dollars and making use of some under-the-table means, Wang Xuemei was back to normal by the evening.

Li Ziqiang was afraid that Wang Xuemei would reject treatment if she found out that 20 Radiance dollars needed to be spent, so he did not tell her about it on their way to receive treatment.

Eventually, when she found out that Li Ziqiang had spent 20 Radiance dollars to cure her, she immediately started crying in self-reproach. Large beads of tears rolled down her face.

Li Ziqiang placed his arm around Wang Xuemei's shoulders.

Although he was comforting her, his smile was just as bitter.

He would need to starve for a year and a half to repay his sister's three Radiance dollars.

As for Li Zhong, they had no choice but to choose a normal offense-type insect-species fey with unconfirmed abilities and exclusive skills.

A spirit qi professional could not break the contract between them and their fey.

If the insect-species fey evolved to Bronze grade and the exclusive skill it unlocked turned out to be useless or did not align with being power offense, his son would not be able to make a name for himself even if he was a spirit qi professional.

While the husband and wife were despondently walking home, they spotted a crowd of people gathered around a building. Li Ziqiang and Wang Xuemei could hear the people discussing feys, something that was free, and such.

Perhaps it was because the group was getting too noisy, but a spirit qi professional walked out of the building and shouted, "Everyone, keep quiet and line up properly! I will take a headcount. Once the number exceeds 500, the others will have to come back tomorrow morning at 7:00 a.m.! Otherwise, you might not get your chance by nightfall. Please also remember that when you go and choose your fey, you have to go to the administrative office in the Xia Region to process the necessary documents. Otherwise, you won't be able to take home the fey you obtained from the Warm Sun Fund."

Many people voiced their thanks and immediately dashed off to the administrative office. They had entered after hearing the news and were unaware of the rules.

Only those who had arrived early and learned about the rules had already gone to the administrative office to process the necessary documents.

Many people had already processed their documents, verified their identities, and obtained their feys.

Although the Xia Region was a small place, every citizen in the Radiance Federation had the right to log into Star Web.

Chimey was a phenomenon-class live-streamer on Star Web.

Amongst the people busking on the streets, there had to be at least three of them who were singing Chimey's songs.

When the term 'Warm Sun Fund' was mentioned, many people immediately took out their phones to record everything that was happening here and post it to Star Web.

Things were going smoothly, and the people could head to the administrative office directly for processing because of the Warm Sun Fund's connection to the four top factions and because Lin Yuan had already asked Elder Ning to inform Ling Xiao.

Ling Xiao had issued an order to the Xia Region's administrative office for them to cooperate with the Warm Sun Fund.

The Warm Sun Fund's first stop was the Xia Region. This was an opportunity for Redbud City.

Redbud City experienced year-long rain. The terrain consisted of mountains and forests, and one side of the city faced a sea full of reefs that made it impossible to build a harbor to fish for fish-species feys.

Redbud City did not have anything remarkable to speak of compared to other cities.

Chapter 1469: In the Name of Love

Elder Ning had told Ling Xiao all about who was behind the Warm Sun Fund. It was the disciple that he had delivered to the Moon Empress, Lin Yuan.

Moreover, the Warm Sun Fund also involved four top factions.

There was no other charity fund in the Radiance Federation that was as reputable as the Warm Sun Fund.

News of the Warm Sun Fund would spread all over Star Web today. The larger the scale, the faster news of it would travel on Star Web.

It would not take long for the shining light of the Warm Sun Fund to reflect on Redbud City.

It was possible for this matter to attract rising and veteran factions to move to Redbud City.

Ling Xiao had wanted to seek Lin Yuan out more than once. But every time, he gave up the idea after mulling over it.

This was because Lin Yuan was selflessly helping others and should not be linked to his petty scheme.

Ning Yanting was one of Redbud City's elders. With him around to communicate with Lin Yuan, Ling Xiao would not need to communicate with Lin Yuan.

Ling Xiao decided that he would cooperate fully with anything related to the Warm Sun Fund.

When Ling Xiao heard that the Warm Sun Fund wanted to communicate with other regions besides the Xia Region, he personally did all he could to help them out. He could not allow the Moon Empress' disciple to be contaminated by the actions of lowly evildoers.

After Li Ziqiang understood the situation, he anxiously dragged his wife and son to the administrative office to verify the situation.

At that moment, the ever-careful Wang Xuemei said to Li Ziqiang, "Husband, take our son to Lord Fang to verify the situation. We'll split up and work. I will continue to stay here to watch over the situation."

In all her life, Wang Xuemei had never encountered such a lucky break.

Although nothing seemed off at the moment, there was no guarantee that it would not all turn out to be a lie when they entered the building.

Wang Xuemei's family was already in debt and could not sustain any more losses.

Hence, Wang Xuemei wanted to understand the situation first and wait to see if those who walked out of the building had truly obtained feys.

Li Ziqiang agreed with Wang Xuemei and said, "Okay! I will take Zhong to the administrative office first to verify the situation with Lord Fang. Once the matter is verified, I will stay here to queue up through the night so Zhong will be able to gain a fey first thing tomorrow."

Li Ziqiang decided to stay up all night to queue because he was afraid that the Warm Sun Fund would abandon the Xia Region at any moment.

Li Ziqiang usually went onto Star Web immediately after he returned home from work.

Li Ziqiang also liked listening to songs. Thus, he knew who Sparrow Voice Loli Goddess was.

Although Li Ziqiang had never rewarded money to Chimey, he was considered one of her old fans.

He had also happened to catch the live stream where Sparrow Voice Loli Goddess had said that she wanted to start the Warm Sun Fund.

Li Ziqiang felt that Sparrow Voice Loli Goddess should not be able to afford such expenditure from just the money she earned from live-streaming.

After Li Ziqiang took Li Zhong to the administrative office, Wang Xuemei noticed that every person who entered the building later exited with a fey in hand.

Suddenly, Wang Xuemei spotted a familiar figure in the crowd. She hurriedly walked up to the young girl and asked, "Little Lan, what are you doing here? I am going to bake some biscuits tonight, and I'll send some to you. Don't stand on ceremony with me this time!"

The young girl looked at Wang Xuemei with gratitude before she said, "Thank you, Auntie Wang!"

Yet, Zhang Lan was slightly suspicious.

Wang Xuemei's family was not considered poor, and they had at least 10 Radiance dollars in savings.

The Warm Sun Fund was meant to help those who did not have savings and were genuinely in need of help.

Wang Xuemei did not meet those conditions.

At that moment, Wang Xuemei asked hopefully, “Little Lan, are they giving out feys for free inside the building?”

Zhang Lan nodded and said, “They really are giving out feys for free in there. Moreover, they will also choose the fey’s abilities and exclusive skills according to the spirit qi professional’s talent. They also accept the sick and help cure those unable to afford medical treatment on their own. I came here to heal the injury to my leg. Auntie Wang, look at how my leg has healed. I can go out to earn money to take care of Grandma from now on!”

Zhang Lan ran toward Wang Xuemei happily to share her joy.

Next, she told Wang Xuemei about the rules of this place before she skipped home to tell her grandmother the good news.

Wang Xuemei felt slightly conflicted,

If Li Ziqiang had chosen to set the money aside for their son’s fey, and she had come here instead to cure her illness, she would not have passed the assessment that Zhang Lan said was necessary.

Luckily, Li Ziqiang had chosen to spend their savings to heal her and landed their family in debt. This enabled them to meet the condition that the Warm Sun Fund had laid out.

Presently, Wang Xuemei was full of bliss and elation. She was glad that Li Ziqiang loved her and delighted that someone was kind enough to start the Warm Sun Fund, which had reignited her family’s hope.

That night, Star Web was abuzz with activity. The users from the Xia Region only took up a small portion of the total users on Star Web. However, the videos and pictures of the Warm Sun Fund were like matches capable of starting a raging flame.

That night, when Chimey started its live stream, it had been afraid of encountering the same situation as before.

From the moment Chimey started its live-stream, the nasty comments and paid naysayers flooded in.

Chimey remembered that Lin Yuan had told it to live-stream as per usual and focused on singing as it ignored the comments.

Chapter 1470: Bai Hao is Boiling Mad

Literate: Do all of you who are insulting Sparrow Voice Loli Goddess truly feel this way? If so, all of you are evil! There has never been a host willing to put all her earnings into starting a charity fund.

: Since Sparrow Voice Loli Goddess said she would do it, she definitely will! It hasn’t been long since she announced her plan. Don’t you know that it takes time to set up and prepare a fund? It’s not something that can be done in a day!

: If you are posting such nasty comments because you were instigated, I can understand that. But you are too wicked if you were hired to try and earn money through such an unscrupulous method!

Literate was livid when he posted the comment.

He was not one of Sparrow Voice Loli Goddess' old fans.

Sparrow Voice Loli Goddess had been live-streaming for more than eight months, but Literate came across her live stream by chance just two months ago.

Literate did not know much about Sparrow Voice Loli Goddess; all he did was enjoy her singing. He always noted down the lyrics of her songs and practiced them in his free time.

The moment he truly became her fan and started adoring her was the night when she showed her true appearance and announced that she was going to start the Warm Sun Fund.

A talented person was admired by many, but only a person with morals would gain the affections of the masses.

Literate had browsed through other live-streaming rooms in the talent and beauty communities and was familiar with the top fans in those live-streaming rooms.

Many of the nasty comments and accusations were coming from these familiar names.

Literate had said what he said for the benefit of these people.

However, the comments were spilling out at a breakneck pace, and Literate's comment was soon lost in the swarm of messages.

But many audience members had already seen his message, and Sparrow Voice Loli Goddess' old fans quickly sent in reply messages. Some also copied Literate's original message and resent it.

Regardless of what the matter was, opposing opinions would lead to an argument. Chimey's live-streaming room was no exception.

Chimey kept its eye on the comments as it sang, and it had seen every single message.

Suddenly, Chimey was hit with a wave of dejection toward singing.

It was working so hard to live stream to help more feys and people that were in the same situation that itself, Genius, and Lin Yuan had been in.

Yet, it ended up being misunderstood, and strife broke out in its live-streaming room.

Chimey did not deserve such burdens, and it was tired. Singing was not bringing it any happiness now.

Chimey missed the past when it used to perch on Lin Yuan's ear and only sing for him.

As such, Chimey stopped singing.

It looked at the comments and said, "I'm a little tired of singing. I hope we'll be able to meet again in the future."

Chimey immediately left Star Web and ignored the reactions of the audience.

Many talent and beauty hosts smiled when Chimey went offline.

Chimey's appearance had stolen a lot of their audience members and put their livelihoods at risk.

Music was not mainstream in the Radiance Federation, and the talent community was very small on Star Web.

Although Chimey was a beauty host, it used to block its face and had been no threat to the top hosts who depended on their looks.

But the other beauty hosts felt threatened ever since Chimey revealed its looks.

Hence, many beauty and music hosts had gathered together to knock Sparrow Voice Loli Goddess down a peg.

Suppose Sparrow Voice Loli Goddess had stopped its live stream to explain the situation and report on the progress of the Warm Sun Fund's preparation. In that case, the hosts who had hired people to write nasty comments might be stuck as they would have to pay extra when the situation turned complicated.

But now that Sparrow Voice Loli Goddess left without offering any sort of explanation, it only fuelled the narrative that she was guilty.

Now that Sparrow Voice Loli Goddess was gone, the people left in the live-streaming room went ahead and said whatever they wanted without holding back.

At that moment, Bai Hao entered the live-streaming room.

Bai Hao was confused when he entered the live-streaming room. He had entered because he saw that Sparrow Voice Loli Goddess was hosting a live stream. So why was she gone now?

Since the impending Radiance Hundred Sequence selection would cause Bai Hao's position in the Radiance Hundred Sequence to change, he had been training hard and had not had time to log onto Star Web.

Just as Bai Hao was about to give rewards like he usually did, he saw the messages.

He became so angry that he forgot he was part of the Radiance Hundred Sequence and started to engage with the hate comments. He could not sit on the fence and allow Sparrow Voice Loli Goddess to suffer such humiliation. He was willing to defend her using any scathing and rude reply necessary.

Bai Hao managed to quell many of the hate comments.

One had to register for Star Web with one's real identity. If Bai Hao had contacted Star Web and pursued the matter, he would easily be able to find out these people's true identities.

However, not everyone on Star Web was afraid of Bai Hao.

A few of the major hosts on Star Web had the support of factions. They were able to succeed easily because of strings pulled by these factions.

These major hosts had reported to their factions before they attacked Sparrow Voice Loli Goddess so their factions would be prepared to save them if things got out of hand.

Poison Beauty shook her head when she saw Bai Hao confronting the hate messages.

Poison Beauty had not entered the live-streaming room to add onto the hate comments. She was just one of PSparrow Voice Loli Goddess' normal listeners.

But on the other hand, Poison Beauty was very popular on Star Web.

Previously, she was only a small host in Star Web's battle community.

In order to attract more people to watch her live stream, she had rooted herself at Level 100 of Star Tower, becoming one of the Celestial Stairway's guards.

The number of fans following her had skyrocketed after she made use of Black's popularity twice. She had come up with all the solutions she could think of and retained her popularity.

Eventually, she had signed a contract with the Listening Heron Chamber of Commerce and became their sales host to sell luxury goods.

This enabled her to gain even more fans but also helped her to bring in a sizable income.

The Listening Heron Chamber of Commerce had a strict rule that their contracted hosts could not have any negative events or images tied to them.

Hence, Poison Beauty could not speak up to attack the hate comments like Bai Hao was doing and defend Sparrow Voice Loli Goddess for fear of losing her job.
