Chapter 1551: Night Leaning Moon's Opportunity!

The Heavenly Family Cottage was situated at the paradise of nature.

But when they arrived at Leaning Moon Mountain and saw the spiritual ingredients around them and the flowing rivers, Blue Lotus, White Phoenix, and Blood New Moon realized that artificial scenery was not as harmonious as the natural environment but was just as beautiful.

In fact, it was even more pleasant-looking because it involved the handiwork of a Class 5 Creation Master.

White Phoenix now understood better why the Sacred Cry Moon Beast was insistent on staying by the Moon Empress' side.

It could not only be nourished by pure spirit qi often but the Moon Empress' other feys were also affiliated with the moon.

This was likely the reason the Sacred Cry Moon Beast was able to cross that wall.

At that moment, the Moon Empress was livid because Night Leaning Moon was telling her about what happened with Whale Ocean Commerce.

The Moon Empress did not expect Lin Yuan to have been exposed to such danger when she had been locked away training.

Luckily, everything had gone well eventually, and Lin Yuan used his own means to take control of Di Wanmi's body and gained a Class 5 Creation Master.

Night Leaning Moon looked at the enraged Moon Empress and said, "The first time I saw Lin Yuan, I felt that he was too bull-headed. I learned from Liu Jie that Lin Yuan was the type of person who liked to do everything on his own. I always felt that such a person would fall into unnecessary accidents easily when trying to accomplish big things.

"But since our last interaction, I realized that I have been belittling him all this time. Lin Yuan holds himself to a high standard. When he was faced with a serious matter and was unsure if he could handle it, he immediately contacted Mystic Moon.

"When I reported this matter to the imperial court, I did not mention that Lin Yuan had taken control of Di Wanmi. You are his master. Now that you're out, you should be the one to make the final decision on how this matter should be resolved."

The Moon Empress smiled proudly when she heard Night Leaning Moon praising Lin Yuan.

But when she heard that Night Leaning Moon had not reported Lin Yuan taking control of Di Wanmi to the imperial court, the Moon Empress looked deeply into Night Leaning Moon's eyes and said, "Leaning Moon, I owe you one. I plan on letting Little Yuan develop on his own. As his master, I'm only going to protect him without interfering. Thus, I plan on letting him make a decision on this matter."

Nonetheless, the Moon Empress had already guessed what Lin Yuan's choice would be.

At this juncture, the right thing for Lin Yuan to do would be to increase his power.

Hence, the Moon Empress was not going to dictate Lin Yuan's life.

Otherwise, the Moon Empress would not have promised him when Lin Yuan came to the Radiant Moon Palace last time for the Golden Lotus Brocade Pearls.

Although the Moon Empress' Creation Master power had reached a new level, she still could not concoct the pure spirit qi that Lin Yuan had given her.

Thus, the Moon Empress's expectations for Lin Yuan did not stop at becoming a Radiance Envoy.

At that moment, the Moon Empress sensed Lin Yuan's aura from outside of the palace. As such, she interrupted Night Leaning Moon and said, "My disciple is here. Wait for me here, and I will fetch him."

Night Leaning Moon was shocked by what the Moon Empress said.

Night Leaning Moon never thought the day would come when the Moon Empress would go and personally fetch someone from the entrance.

However, Night Leaning Moon was unaware that this was not the first time the Moon Empress did this.

When Lin Yuan arrived at the entrance of the Radiant Moon Palace, he said to Mystic Moon, "Uncle Mystic, when the three members of Heavenly Family Cottage come to visit Master, I plan on taking the Mother of Bloodbath out. We will be returning later."

Mystic Moon dared not reply.

If he agreed and Lin Yuan left, he would have to shoulder the blame if the Moon Empress needed to talk to Lin Yuan about something, but he was not there.

However, Mystic Moon knew that Lin Yuan could only be taking the Mother of Bloodbath to do something important at such a time.

Just as Mystic Moon was thinking about how he should reply, he felt the Moon Empress' aura.

He let out a sigh of relief and thought, *?Young Lord, you better tell this to the Moon Empress yourself.*

The Moon Empress had heard what Lin Yuan said.

When she drew near, she said softly to him, "Go ahead. I'll wait for you to eat together, no matter how late you return."

Although they had not been apart for that long, the person that the Moon Empress wanted to see the most now that she was out of seclusion was Lin Yuan.

The Moon Empress was not skilled at expressing her emotions.

Now that she was with him, she did not have much to say.

As long as she saw him, she would feel a sense of ease that she had never experienced in the past.

When they walked into the inner palace, Lin Yuan immediately spotted Night Leaning Moon, who was drinking tea.

Lin Yuan greeted Night Leaning Moon respectfully before taking out the fan White Phoenix had given him and handing it to the Moon Empress.

Lin Yuan was a junior. Night Leaning Moon might bow and thank him if he handed it to her.

However, Lin Yuan could not bring himself to accept Night Leaning Moon's bow. Thus, he felt it would be best to give the fan to the Moon Empress.

The Moon Empress would be the one to decide if she wanted to give it to Night Leaning Moon.

The instant that Lin Yuan took out the fan, Night Leaning Moon felt the intense night power coming from it.

Her heartbeat started to race. She stared at the black fan, and her lips twitched.

She immediately recognized that the fan was made from White Phoenix's feathers. It was the thing that she had asked for but had been rejected and did not forcefully grab because she was the Night Empress of the Radiance Federation.

The Moon Empress was also stunned when Lin Yuan took out the black fan.

She smiled brightly before walking over to Night Leaning Moon and said, "Leaning Moon, you saw for yourself. Lin Yuan gave this to me. You take it. There's still some time left before the Radiance Hundred Sequence selection. I will give you more pure spirit qi, and you should be able to break through before the selection."

Night Leaning Moon received the black fan and softly thanked Lin Yuan before flashing herself out of the Radiant Moon Palace.

Soon, a thread of night entered the Spirit Guards' land.

Night Leaning Moon put herself in seclusion in the Spirit Guards' land.

Lin Yuan scratched the back of his head when Night Leaning Moon thanked him.

He was grateful she left quickly because he could not say "you're welcome" to her.

The Moon Empress knew Night Leaning Moon well.

Hence, she knew how significant Night Leaning Moon's soft thanks was.

At that moment, Blue Lotus, White Phoenix, and Blood New Moon walked in with the Mother of Bloodbath behind them.

They were standing respectfully at the entrance of the Radiant Moon Palace and were taking in the fragrance of the Silver Stamen Gold Luster Cassia.

Chapter 1552: Strangeness of the Silver Stamen Gold Luster Cassias

Blue Lotus, White Phoenix, and Blood New Moon shared a look.

They noticed that something was not normal with the Silver Stamen Gold Luster Cassias.

They were clearly two Fantasy Breed plant-type feys. Yet, they seemed to be showing clear signs of intelligence.

When they saw Blue Lotus, the Silver Stamen Gold Luster Cassias shook themselves and caused numerous flowers to fall, sending fragrance wafting into Blue Lotus and the Mother of Bloodbath's noses.

Evidently, the Silver Stamen Gold Luster Cassias were more friendly toward Blue Lotus and the Mother of Bloodbath.

However, they were not standoffish toward Blood New Moon and White Phoenix either. Otherwise, they were fully capable of locking their fragrance within their flower buds to prevent Blood New Moon and Blue Lotus from smelling it.

White Phoenix cocked an eyebrow and asked Blue Lotus with surprise, "Blue Lotus, Blue Lotus, these two trees are interesting! They are showing clear signs of intelligence at Fantasy Breed."

Ever since Blue Lotus saw the Silver Stamen Gold Luster Cassias, she could not tear her eyes away from it.

She gently touched one of its branches. She could feel the affection that the Silver Stamen Gold Luster Cassia was sending her way and that it was transferring spirit qi to the place where her hand was. It was as though it was greeting her.

This discovery made Blue Lotus think, *?It looks like I underestimated the Silver Stamen Gold Luster Cassias' intelligence. They are acting more friendly and allowing Blood Love and me to receive more of their fragrance while only allowing Blood New Moon and White Phoenix to experience a small portion because they sense our foundations.*

Plants needed light and warmth to grow.

Jade Sundial's Sky Sundial Jade Spider bloodline had been separated. Blood New Moon had gotten the heat portion, while Blood Love had received the light portion.

White Phoenix was the night that would steal light away. Heat took away moisture. This was why the Silver Stamen Gold Luster Cassias were giving out preferential treatment.

Blue Lotus asked softly, "White Phoenix, what level were you at when you unlocked the Heavenly Family Fey bloodline?"

White Phoenix was stunned for a moment before he said, "I have been a Heavenly Family Fey ever since I was born. Don't you know this? What's the point in asking?"

Blue Lotus rolled her eyes at White Phoenix and said, "So, having been a Heavenly Family Fey for your entire life, don't you have basic knowledge? I have memories from before I became a Heavenly Family Fey. I awoke my Heavenly Family Fey bloodline when I evolved to Fantasy Breed.

"Sister Jade Sundial and Purple Love found me and brought me to the Heavenly Family Cottage. These two trees are in a very similar situation to the one that I was in. However, I was already showing signs of being able to control the four seas when I was Fantasy Breed.

"These two trees don't seem to be able to trigger celestial phenomena yet. But who's to say? Some Heavenly Family Feys only awaken their Heavenly Family Fey bloodline when they evolve to Creation Breed. This was what happened to Little Deer and Rock."

White Phoenix's lips twitched. *Blue Lotus, why do you always bring up the fact that I'm a natural Heavenly Family Fey? There are nine of us in the Heavenly Family Cottage. I'm just one of them, and the weakest one at that.*

Every time Blue Lotus mentioned this, White Phoenix felt that Blue Lotus was not praising his talent but that it was a subtle dig at him.

If they started fighting, White Phoenix might not be able to defeat Blue Lotus.

Blue Lotus' abilities lay in support, defense, and healing, but White Phoenix's abilities mostly involved offense. She directly curbed him.

At the same time, White Phoenix was also shocked by what Blue Lotus said.

He did not expect Blue Lotus to be so impressed by the Silver Stamen Gold Luster Cassias. She was even implying that there was a possibility that the Silver Stamen Gold Luster Cassias could become Heavenly Family Feys.

If the Silver Stamen Gold Luster Cassias truly transformed into Heavenly Family Feys, the Moon Empress would have three Heavenly Family Feys in her possession, including the Sacred Cry Moon Beast.

These two Silver Stamen Gold Luster Cassia had always been planted in the Radiant Moon Palace.

Although the Moon Empress had not formed contracts with them, she had nurtured them, and they were considered to be her feys.

The Moon Empress would not be willing to give up the two Silver Stamen Gold Luster Cassias to the Heavenly Family Cottage when they became Heavenly Family Feys, and the Heavenly Family Cottage would not be able to bring themselves to ask them from her anyway.

At that moment, the Moon Empress walked to the main palace and sat on the main throne.

Mystic Moon walked to the entrance to invite Blue Lotus, White Phoenix, and Blood New Moon in.

Lin Yuan shot a look at the Mother of Bloodbath.

The Mother of Bloodbath hurriedly said to Blood New Moon, "Father, I need to go and do something with Lin Yuan. I will wait for you at the lava zone tonight."

The Mother of Bloodbath clenched its fist and forcefully controlled its tidal wave of emotions because it was unsure if its mother could be revived.

It would all depend on the Remembrance Soul Whale's performance at the lava zone.

Ever since Blood New Moon and the Mother of Bloodbath reunited, he had walked on eggshells.

He did not know how to express his fatherly love. On the one hand, if he expressed too little, the Mother of Bloodbath would not feel it. But if he expressed too much, it could be uncomfortable for the Mother of Bloodbath.

Although Blood New Moon had lived for a long time, this was the first time that he was being a father and feeling all the emotions and responsibility that came with the role.

Blood New Moon had never spent time with the Mother of Bloodbath.

Thus, although Blood New Moon did not express it outwardly, he was far more frantic than the fathers of newborns.

Even before Blood New Moon met the Mother of Bloodbath, he knew that he wanted to bring it to the lava zone because that was where Jade Sundial was buried.

If it were possible, Blood New Moon was willing to find a cave in the lava zone where he would be able to be with Jade Sundial forever.

However, these were the thoughts that Blood New Moon had before he reunited with the Mother of Bloodbath.

Now that he had found his daughter, his thoughts changed.

Blood New Moon planned on protecting the Mother of Bloodbath and its savior.

But from their first interaction, Blood New Moon could sense that Lin Yuan was special to the Mother of Bloodbath.

This meant that the Mother of Bloodbath definitely felt an emotion toward Lin Yuan that it did not feel for anyone else.

This was not the normal feeling that a Path Protector had toward the person they were protecting, nor was it a simple feeling of gratitude.

Although the Mother of Bloodbath did not say it explicitly, Blood New Moon could tell that the Mother of Bloodbath was looking at Lin Yuan in a very similar way that he had looked at Jade Sundial all those years ago.

Spider-species feys were the least emotional feys. But once they fell in love, it would be for life. This applied to spider-species Heavenly Family Feys as well.

Blood New Moon could be certain that his daughter was already in love with Lin Yuan.

Chapter 1553: Journey to the Lava Zone

Although his daughter had not voiced her feelings, it was already very deep.

As a father, he had the right to ask her about it.

However, he had only just reunited with the Mother of Bloodbath and did not think that it would be right for him to ask.

One look at Lin Yuan was enough to tell that he was completely oblivious to the Mother of Bloodbath's feelings.

Blood New Moon became conflicted and had no idea how he should handle the situation.

No one in the Heavenly Family Cottage would be able to teach him about this, and there was no one else that he could ask either.

Although White Phoenix was experienced and had a never-ending fountain of opinions when it came to relationships, Blood New Moon was not willing to learn childcare tips from a bachelor.

Out of frustration, Blood New Moon smiled bitterly and said to the Mother of Bloodbath, "Little Love, I will go to the lava zone to wait for you once I'm done visiting the Moon Empress."

The Mother of Bloodbath was surprised when it heard this.

Lin Yuan and it were just about to head to the lava zone to see if they could gather enough of its mother's soul.

But it felt that it was likely that its father would be spending considerable time at the Radiant Moon Palace, giving them enough time to investigate the lava zone.

At that time, it would also have an answer and would not have to be kept in torturous suspense.

If the Remembrance Soul Whale could find enough of its mother's soul in the lava zone, it would have good news for its father.

If the Remembrance Soul Whale could not find enough of its mother's soul, it would be better for the Mother of Bloodbath not to bring the matter up and save its father from further pain.

After Mystic Moon led Blood New Moon, Blue Lotus, and White Phoenix into the Radiant Moon Palace, Lin Yuan waved his hand and summoned the Kill Food Sky Butterfly.

The lava zone was at the southernmost part of the Radiance Federation. Its neighbors were Bronze Furnace City and Flames City.

If Lin Yuan rode on Blackie, it would take them several days to reach the lava zone. But if he used the Kill Food Sky Butterfly, they would be able to arrive in a little over an hour.

Both of them rode south on the Kill Food Sky Butterfly.

When Lin Yuan saw the nervous and hopeful expression on the Mother of Bloodbath's face, he thought long and hard about how he should comfort it.

All he did was pat the Mother of Bloodbath's shoulder.

If his parents also had the same opportunity, Lin Yuan would probably be even more excited and anxious than the Mother of Bloodbath.

This was the same feeling as families of patients had when they were waiting outside an operating room.

But unfortunately, his parents had been trampled and devoured by the insect tide.

Although Lin Yuan had the Remembrance Soul Whale, he still could not revive his parents.

...

At that moment, Blood New Moon bowed at the Moon Empress and said sincerely, "Moon Empress, you helped my beloved wife all those years ago. Now, you've helped my daughter too. Please accept my bow."

The Heavenly Family Cottage and Radiance Federation were considered the largest factions in the world. The head of the Heavenly Family Cottage and the members of royalty of the Radiance Federation were considered equals.

If Blood New Moon had just bowed to the Moon Empress and thanked her, it would be appropriate to express his gratitude.

However, he had even spoken to her with such respect. This meant that he had not been speaking as a member of the Heavenly Family Cottage but as Lin Yuan's Protector.

Mystic Moon had already told the Moon Empress about the fact that Blood New Moon had become Lin Yuan's Protector.

Blood New Moon's action caused the Moon Empress' eyes to shine, and she replied honestly, "I did help Jade Sundial all those years ago. However, I had a selfish reason for helping your daughter."

The Moon Empress spoke candidly, but it gave Blue Lotus, White Phoenix, and Blood New Moon a nice feeling.

Heavenly Family Feys all lived by following their hearts.

Following one's heart was different from being stupid.

How could there be such a coincidence in the world?

The Moon Empress just happened to save Jade Sundial and Blood New Moon's daughter, and Blood New Moon even became her disciple's Protector.

White Phoenix, Blood New Moon, and Blue Lotus all shared the same thoughts but did not bring it up.

Although they had such thoughts, it did not diminish their gratitude toward Lin Yuan and the Moon Empress.

Otherwise, Blood New Moon would not have sworn on the celestial phenomena that he was affiliated with to become Lin Yuan's Path Protector or bowed in gratitude to the Moon Empress.

But now that the Moon Empress voiced their thoughts, none of them had any qualms.

The three of them now felt gratitude and true respect for the Moon Empress because only someone who was magnanimous and meant for the biggest things could say such words.

Moreover, there was no one who did not like being friends with an honest person.

White Phoenix said in response to the Moon Empress' honesty, "Moon Empress, we destroyed many Tower Canon sites on the way to the Radiance Federation. I'm sure you're aware of the deep enmity between our Heavenly Family Cottage and Tower Canon."

The Moon Empress did not comment.

Tower Canon's Fifth Page Truth had attacked Jade Sundial when she was giving birth and at her weakest.

The Heavenly Family Cottage and Tower Canon had become lifelong enemies.

Moreover, Purple Love had gone and massacred one of Tower Canon's largest camps and First Page Fate.

However, Purple Love had also been seriously injured.

When she first heard the news, the Moon Empress did not first think of the enmity between the Heavenly Family Cottage and Tower Canon.

Instead, she became certain of one thing. There was definitely something seriously wrong with the Eight Pages of Tower Canon.

However, the Eight Pages had always been shrouded in mystery, and the Moon Empress had not investigated the matter thoroughly.

She might not even have the best information on the current Eight Pages.

White Phoenix observed the Moon Empress while he spoke. When the Moon Empress' expression did not change, White Phoenix fell silent for a moment before he went on to say, "Moon Empress, we learned from the sites that there will be two pages from the Eight Pages of Tower Canon who will be visiting the Radiance Federation."

White Phoenix said this in an attempt to be friendly with the Moon Empress.

The Eight Pages of Tower Canon had to have a clear motive for going into action.

However, White Phoenix did not expect the Moon Empress to still look so calm after receiving the news.

All she said was, "If people from Tower Canon are really coming to the Radiance Federation, they should expect to have their lives ended here."

White Phoenix, Blue Lotus, and Blood New Moon were stunned by what the Moon Empress said.

They wondered how confident the Moon Empress had to be to be able to say such a thing.

Apparently, not only had the Sacred Cry Moon Beast evolved past Eternal, but the Moon Empress' power had also reached another level.

Only people who were powerful enough could back up such confidence.

It was likely that the Radiance Federation's Royal Capital would be abuzz with activity in a week's time when the Radiance Hundred Sequence selection began.

...

The Kill Food Sky Butterfly arrived at the lava zone.

Lin Yuan noticed that the fire elements in the fire zone were just as concentrated as in a Class 3 abyss dimensional rift. However, the fire elements here were even purer than those of the Class 3 abyss dimensional rift.

At that moment, the Mother of Bloodbath fell to its knees on the Kill Food Sky Butterfly's back, and its body started to tremble violently.

Chapter 1554: Lava Zone

The Mother of Bloodbath felt the bloodline in its body pulsing slightly.

The fire elements in the lava zone were extremely saturated.

These fire elements felt extremely warm to the Mother of Bloodbath. It felt completely different from the fire elements that it was familiar with.

These fire elements embraced the Mother of Bloodbath, and the Mother of Bloodbath felt the same emotion it felt when it saw Blood New Moon.

The Mother of Bloodbath knew that the fire elements were responding to its bloodline.

The Mother of Bloodbath was not one who liked to wallow in sadness. The few tears that it shed in its life were all for Lin Yuan's sake.

The Mother of Bloodbath had even managed to prevent itself from crying when it saw its father.

But now, the feelings that the Mother of Bloodbath felt from the fire elements caused it to start to sob uncontrollably.

When the Mother of Bloodbath fell to its knees and started to tremble with large tears flowing down its face, Lin Yuan did not instruct the Kill Food Sky Butterfly to land. Instead, he squatted down and used his thumb pad to wipe the tears away.

Lin Yuan had already guessed that the fire elements affected the Mother of Bloodbath.

Jade Sundial's body had turned into the lava zone, and the fire elements remained there. This meant that there was definitely something special about the fire elements formed from Sky Sundial Jade Spider.

This was what made the lava zone special.

Lin Yuan felt that it was highly likely that using the Remembrance Soul Whale to gather the Sky Sundial Jade Spider's soul would be a success.

The fire elements from the lava zone were gathering toward the Mother of Bloodbath.

The Mother of Bloodbath would definitely be able to recover memories through its bloodline.

The Mother of Bloodbath looked up, and its eyes met Lin Yuan's concerned ones.

At that moment, the Mother of Bloodbath could not hold it back anymore and wrapped its arms around Lin Yuan.

Lin Yuan gently patted the Mother of Bloodbath's back to comfort it. He did not say anything even as the tears dampened his shoulder.

The Kill Food Sky Butterfly thought, *"The Mother of Bloodbath has always been suppressing and hiding its feelings for Lin Yuan. However, now that it could sense its mother, all of its walls fell, and it was acting so intimately. But looking at Lin Yuan, it seems that he doesn't understand the Mother of Bloodbath's feelings. He is purely comforting the Mother of Bloodbath."*

The Kill Food Sky Butterfly did not mind that its father-in-law was obtuse because its relationship with Purple Afterglow was great.

Although the Nirvana Blaze Butterfly had been spending all day and night with Purple Afterglow, it was also male. Thus, the Kill Food Sky Butterfly could rest its mind.

Otherwise, the Kill Food Sky Butterfly would be absolutely depressed at that moment.

Having one-sided feelings for someone was better than being cheated on.

A moment later, the Mother of Bloodbath removed itself from the hug and said softly, "Lin Yuan, let's go down and take a look."

The Mother of Bloodbath's face turned suspiciously red.

When the Kill Food Sky Butterfly landed, Lin Yuan returned it to the Spirit Lock spatial zone and summoned the Remembrance Soul Whale with a wave of his hand.

The Remembrance Soul Whale was currently Bronze X/Legend.

Before Lin Yuan comprehended a Willpower Rune that was related to the soul, this would be the limit for the Remembrance Soul Whale.

Lin Yuan instructed the Remembrance Soul Whale, "Remembrance Soul Whale, use Soul Knot and search for remnants of souls in this area."

The Remembrance Soul Whale let out a cry and immediately started to sweep the area for souls.

After searching, it turned up the souls of feys like the Sharp-Eared Fire Fox, Fire Source Wolf, and Ring Tail Flame Python.

There were also some souls of adventurers mixed in with the souls of these feys. Evidently, some adventurers had died here.

There were also an uncountable number of souls of plant-type feys.

The lava zone was a complete ecological environment.

At every moment, there were feys killing and hunting each other. This was the natural law of the jungle.

Although the souls of the weak lifeforms quickly dissipated after they died, too many feys had died in the past few days.

The Remembrance Soul Whale needed pieces of a soul to use Soul Knot to pick and sort through them.

The Sky Sundial Jade Spider had died too long ago. Even if any of its soul was left, it would be extremely weak.

It was almost impossible to find the Sky Sundial Jade Spider's soul using this method.

Even if Lin Yuan and the Remembrance Soul Whale stayed here every day to sort through the souls, it might take them decades to find the Sky Sundial Jade Spider's soul if they were unlucky.

No matter how strong Lin Yuan was, he could not prevent the feys from ever dying or falling sick.

Lin Yuan said to the Mother of Bloodbath that had eyes full of hope, "We are on the border of Bronze Furnace City. The deeper we walk into the lava zone, the more concentrated the fire elements become and the more likely we'll be able to find the soul.

"Let's head toward the center of the lava zone, and the Remembrance Soul Whale will continue to search while we travel."

The Mother of Bloodbath nodded.

It fell silent for a moment before it said, "Lin Yuan, once we reach the lava zone, let's search until it's time for dinner. If we can't find anything, we'll continue for another day after the Radiance Hundred Sequence selection. If we still can't find anything, then perhaps Mother's soul is really gone."

The Mother of Bloodbath knew that time was precious to Lin Yuan.

It was already a guarantee that Lin Yuan would be able to become a Radiance Envoy.

There was also going to be an earth-shattering bet between the Radiance Federation and Freedom Federation taking place two years later.

The next two years would be the most crucial period for Lin Yuan to increase his power.

Hence, the Mother of Bloodbath did not want to waste Lin Yuan's time.

Furthermore, the Mother of Bloodbath was certain that the center of the zone where the fire elements were the most concentrated was where its mother's soul would be most likely to be found. If its mother's soul could not be found there, it was practically certain that its mother's soul was already gone.

They had only walked a few thousand meters, yet the fire elements were already much more concentrated!

Only the most powerful feys could survive at the center of the lava zone.

Hence, there could not be many other souls at the center of the lava zone.

It should not be difficult to search.

As they walked, Lin Yuan noticed that the Remembrance Soul Whale was gathering more and more souls of spirit qi professionals.

The souls of spirit qi professionals were the easiest to dissipate.

If their souls were still being picked up, it meant that they had only died recently.

As such, Lin Yuan sensed that something was wrong.

Chapter 1555: The Phantom that Resembles the Mother of Bloodbath!

Why did so many spirit qi professionals die at the lava zone?

As the Remembrance Soul Whale continued to search, Lin Yuan figured out the reason.

The Remembrance Soul Whale found the soul of an abyss demon.

In fact, there were so many souls of abyss demons here that Lin Yuan could not find the souls of any other lifeforms.

It was likely that an adventurer had set off from the Bronze Furnace City or was on the way back and happened to encounter the abyss dimensional rift.

The abyss demon had killed many spirit qi professionals.

Soon, Lin Yuan and the Mother of Bloodbath walked into the inner sanctum of the lava zone.

There, Lin Yuan found that many of the fire-type feys had mutated, and their bloodlines had been purified.

The most obvious mutation had happened to the spider-species feys.

Lin Yuan even saw a Diamond X/Fantasy V fire-type spider-species fey.

This was the first time that Lin Yuan had seen a fey that had evolved to Fantasy Breed and comprehended a Willpower Rune in the wild.

Such a fey was a gift to the world.

Lin Yuan used True Data to check on the fire-type spider-species fey and saw that it was called the Ghost Fire Pierce Spider.

It mainly used elemental and physical attacks and excelled at assassination.

Although the Ghost Fire Pierce Spider had reached Diamond/Fantasy, it was still as small as a bottle cap. If it was kept hidden, it would be a natural killer.

From the moment that the Ghost Fire Pierce Spider saw the Mother of Bloodbath, it started acting exceptionally affectionately toward it.

Diamond/Fantasy spider-species feys had gained intelligence, albeit a low level.

The Ghost Fire Pierce Spider was acting so affectionately toward the Mother of Bloodbath because it had been absorbing the fire-elemental energy in the area that was also the Mother of Bloodbath's source.

Ever since the Mother of Bloodbath evolved to a Heavenly Family Fey, it had been nurturing the Blood Brew Grapevine.

It even fed the small portion of the Crimson Tentacle Algae's body that could not be turned into an instrument to the Blood Brew Grapevine.

As the Mother of Bloodbath continuously used the Blood Law to guide it, the Blood Brew Grapevine managed to comprehend a Willpower Rune that was related to blood. It could be said that it was the Mother of Bloodbath's best disciple.

When the Mother of Bloodbath glanced at the Ghost Fire Pierce Spider, it placed the Ghost Fire Pierce Spider in its palm and said, "Your life changed here. I will give you an opportunity too. If you're willing, I will keep you by my side from now on. I will help you to grow."

When the Ghost Fire Pierce Spider heard what the Mother of Bloodbath said, it disappeared into the Mother of Bloodbath's hair.

Although the Mother of Bloodbath had not said that it was going to accept the Ghost Fire Pierce Spider as its disciple, it was evident that this was what had just happened.

It was a fantastic opportunity for the Ghost Fire Pierce Spider to be able to become the Mother of Bloodbath's disciple.

From now on, the spider's life would be transformed.

Just as they were about to enter the center of the lava zone, Lin Yuan noticed that the Remembrance Soul Whale was finding just as many souls.

However, it was no longer finding any weak lifeforms.

At that moment, Lin Yuan spotted a heavily injured spirit qi professional supporting a three-meter-tall gorilla-species fey walking toward them from a distance.

When the expert saw Lin Yuan and the Mother of Bloodbath, he immediately shouted, "There's a gathering of strange beasts up ahead! It looks like a fire-type treasure has appeared! Run! The feys that dug out the treasure encountered the feys that did not manage to obtain the treasure. Those that missed out will probably start venting their anger!"

The man walking over was a king-class expert. The gorilla-species fey next to him was the Diamond IV/Fantasy II Fire Tattoo Combat Gorilla.

Spirit qi professionals who contracted fire-type feys would always head to the lava zone to find treasures that they could use to increase their power.

Most fire-species feys had extremely violent tempers. It was very normal for them to attack people on sight.

Although the lava zone did not have a large area, fire-type feys could increase their power extremely quickly here.

Hence, every powerful fire-type fey could not find it in themselves to coexist.

As such, feys were very territorial.

Any lifeform that steps into another fey's territory would be seen as an invader and promptly attacked.

The king-class expert had been kind enough to warm Lin Yuan and the Mother of Bloodbath. This indicated that he was a decent person.

With a wave of his hand, a beam of green light extended from Lin Yuan's hand to the middle-aged man and the Fire Tattoo Combat Gorilla.

The middle-aged man and Fire Tattoo Combat Gorilla's injuries were immediately healed.

Lin Yuan's action made the middle-aged man immediately aware that Lin Yuan was truly capable and able to traverse the center of the lava zone.

Hence, the middle-aged man did not give out any more warnings.

He thought of the scene that he just saw and said, "There is at least one Myth Breed fey in human form in there. It seems that it's guarding a fire-red stone. From afar, the stone looks like spider legs. But I'm not sure if I saw it right."

Lin Yuan's eyes lit up when he heard what the middle-aged man said.

He said to the Mother of Bloodbath, "Let's go and take a look at the center of the lava zone now. Before the lava zone was formed, it used to be a forest. There's no way that there are fire-type treasures here. Hence, all the fire-type treasures here are definitely related to the Sky Sundial Jade Spider's corpse. If the red stone is truly formed from the body of the Sky Sundial Jade Spider, it must contain a part of its soul.

"No matter how little the soul fragment it contains is, the Remembrance Soul Whale only needs to absorb a bit of it to use Burning Soul New Life and spiritual ingredients full of soul power to direct the pure energy into the soul. The soul energy will do its best to replenish the broken soul and make it whole again."

The Mother of Bloodbath was so excited that it did not know what to do.

It had been slightly dispirited. But now, it was filled with limitless hope.

The Mother of Bloodbath immediately rushed to the center of the lava zone with Lin Yuan.

The Mother of Bloodbath revealed its Heavenly Family Fey prowess at that moment.

The moment it tapped into its Sky Sundial Jade Spider bloodline, a sun appeared above its head.

Flames licked the Mother of Bloodbath's skirt, and it was bathed in sunlight.

It resembled a sun goddess.

At that moment, the Mother of Bloodbath unleashed its killer instinct.

It was set on fighting for the stone that could be its mother's leg, no matter what it took.

When the Mother of Bloodbath triggered its Sky Sundial Jade Spider bloodline, all the fire elements in the lava zone started to seethe.

Soon, the fire-elemental energy started to solidify and slowly formed the phantom of a woman.

The woman's image was blurry, but no one could refute that she looked exceedingly similar to the Mother of Bloodbath.

She had the same sun crowning her head.

When the fire elements solidified into the phantom of a woman, a gust of wind finally blew into the lava zone.

With the gust of wind came clouds and rain that had not fallen in years.

As the breeze and wind intermingled, yearning perforated the entire area.

Chapter 1556: A Hug!

The breeze wove around the rain as droplets landed on Lin Yuan and the Mother of Bloodbath's bodies. They also landed on the phantom image of the woman.

Although the phantom image greatly resembled the Mother of Bloodbath, it was still formed from fire elements. The rain evaporated into vapor when it landed on the phantom image. The vapor dried up almost instantly.

The high temperature caused the air around the woman to become fuzzy.

The phantom image of the woman stood unmovingly in front of the Mother of Bloodbath.

Lin Yuan thought about a legend that the Moon Empress had told him about.

It said that once a fey reached a certain level of power, the energy in their body would retain their final wish after they died.

At that moment, the phantom image of the woman reached out and gently hugged the Mother of Bloodbath.

It seemed that the Sky Sundial Jade Spider's final thoughts were all about her newborn daughter.

The Mother of Bloodbath could feel its mother in every cell of its body.

Although the feeling was not as visceral as the one it felt from Blood New Moon, it was even more intricate.

The formation of the phantom image of the woman used up all of the fire elements in the area. This changed the environment of the lava zone.

All of the lifeforms in the lava zone collectively looked toward the phantom image of the woman.

Bronze Furnace City immediately noticed the changes in the lava zone.

The lava zone used to be a forest.

The Sky Sundial Jade Spider's death had transformed the forest into an area full of fire elements where abyss dimensional rifts regularly opened.

It could be said that the lava zone transformed the entire Bronze Furnace City's manufacturing industry.

Every year, many contractors who contracted fire-type feys would move to Bronze Furnace City.

The change in the lava zone would significantly affect the entire Bronze Furnace City.

However, the Mother of Bloodbath was unaware of all this because many fire-type feys had rushed toward it.

Any fey with any intelligence knew that once a change took place in its location, it was likely that they would be able to gain an opportunity.

The feys that were more intelligent could sense the Mother of Bloodbath's identity as a Heavenly Family Fey.

However, the feys that were less intelligent had already started charging toward the Mother of Bloodbath. This disrupted the Mother of Bloodbath from basking in its mother's warmth.

Before the Mother of Bloodbath could take action, Lin Yuan stepped in.

There was no one else here. Thus, Lin Yuan did not hold back in the slightest.

He used Blackie's Spirit Essence Explosion and gathered spirit qi in his left fist.

Meanwhile, black wings spread out from his back. The wings provided him with an additional speed that made his movements a blur.

Moreover, Lin Yuan had very high combat skills and fighting strategies.

In an instant, he returned to his original position.

However, the feys that rushed over had all received a heavy punch from him and were writhing on the ground.

Lin Yuan's action shocked many feys that had been about to attack and triggered carnage within many feys.

These feys advanced in a horde.

Just as Lin Yuan was about to attack again, the Ghost Fire Pierce Spider that had hidden itself in the Mother of Bloodbath's hair emerged.

A red and blue layer of demonic fire covered the Ghost Fire Pierce Spider. The twin-colored flames swirled around on the Ghost Fire Pierce Spider's body and formed a terrifying face.

The Ghost Fire Pierce Spider was like a bullet that shot through all the attacking feys.

The punctured feys were soon set alight with red and blue flames that reduced these feys to their shells.

The burning bodies of the feys caused the red and blue flames to become more vibrant.

Eventually, the red and blue flames were recalled to the Ghost Fire Pierce Spider's body.

At that moment, the terrifying face on the Ghost Fire Pierce Spider's body spat out a purple tongue of fire that sailed toward the Diamond VI/Fantasy IV Mighty Fire Scary Lion.

Lin Yuan felt that the tongue of fire was the limit of a Diamond/Fantasy fey's power. It only needed a small push to reach Myth Breed.

The Mighty Fire Scary Lion stood no chance against this power.

Soon, the purple tongue of fire burned the Mighty Fire Scary Lion to ashes.

In the next instant, a large amount of red and blue flames flowed out from the Mighty Fire Scary Lion and returned to the Ghost Fire Pierce Spider's body.

When Lin Yuan saw this, he could not help but silently marvel at the Ghost Fire Pierce Spider's talent.

The Ghost Fire Pierce Spider's exclusive skill was called Robbing Fire.

[Robbing Fire]: When a target has been afflicted with the Robbing Fire, as long as a target's energy level is lower than that of the Robbing Fire, their energy will become a part of the Robbing Fire.

Under normal circumstances, the small assassin that was the Ghost Fire Pierce Spider had a lower energy level than most feys of the same grade.

Luckily, the change in the lava zone had saved the Ghost Fire Pierce Spider's talent.

Nonetheless, the Ghost Fire Pierce Spider could not compete with Lu Shuang's Exquisite Rhino Giraffe.

The Ghost Fire Pierce Spider would not even be able to compete with the Diamond X/Fantasy V Earth Walking Witch Snake, but it had intelligently made use of assassination.

It not only secretly attacked the feys that were weaker than it but also gave the feys that Lin Yuan had beaten another blow.

Through Robbing Fire, the Ghost Fire Pierce Spider continuously increased the strength of the red and blue flames.

Eventually, it combined the red and blue flames using Stacking Venomous Fire and produced venomous fire-elemental energy.

One attack wiped out the Mighty Fire Scary Lion, which was not much weaker than the Ghost Fire Pierce Spider.

The Ghost Fire Pierce Spider's utilization of the combat technique indicated that it was a special combat-class fey.

The longer it spent on the battleground and the more targets it killed and the more powerful it became.

However, there was a limit to how much its power could be increased.

This limit was determined by how much the Ghost Fire Pierce Spider's body could handle.

The Ghost Fire Pierce Spider also had an exclusive skill called Fire Change Essence Soul.

[Fire Change Essence Soul]: A special insect protein will be produced using up the twin-colored flames. The insect protein can quickly heal the Ghost Fire Pierce Spider's essence, stamina, and combat will by triggering its soul.

Although this exclusive skill was weak on its own, it produced amazing results when used in conjunction with Robbing Fire.

With the skill to combine such an exclusive skill and ability, it was no wonder that the Ghost Fire Pierce Spider caught the Mother of Bloodbath's eye.

Although the Ghost Fire Pierce Spider could continuously kill feys that were weaker than it to strengthen itself, a Myth Breed fey had just dashed out from the inner sanctum of the lava zone.

Chapter 1557: All Lifeforms Melt and Boil!

Although this fey had only just evolved from Fantasy V to Myth Breed, its life rank had been advanced from the moment it overcame the World Cleansing. This was a bridge that would be difficult for one to use talent to cross.

Moreover, most of the fire-type feys in the lava zone had evolved their bloodlines and had strong natural talents.

Thus, when the Ghost Fire Pierce Spider started fighting with the Myth I Lava Scary Clawed Bear, the red and blue flames burned the Lava Scary Clawed Bear to the point that it could not stop howling in pain.

All the fur on its body was scorched black.

Nonetheless, no actual damage could be done to it.

At that moment, the Lava Scary Clawed Bear opened its mouth and let out a roar.

It was about to tap into the fire elements floating in the air when it realized that all the fire-type energy in the area had been drained by the phantom image of a woman with a crown on her head.

The Lava Scary Clawed Bear could only make use of the fire-elemental energy in its roots to use the attack Bear King Claw Attack.

The Lava Scary Clawed Bear's claws were agile as they ripped through the air and violent fire power sailed through the air.

If they hit the Ghost Fire Pierce Spider that did not have strong defense abilities, it would be torn apart.

The Lava Scary Clawed Bear had been certain that it was about to kill the Ghost Fire Pierce Spider when a ferocious cry filled the air.

Soon, the Mother of Bloodbath shook its hand, and a ribbon of light wrapped around the Lava Scary Clawed Bear. The Lava Scary Clawed Bear instantly lost control of its movements.

All the blood in its body had been locked.

Soon, the Lava Scary Clawed Bear realized with shock that three large hornless dragons with red bodies and red horns had slithered from under the girl's skirt. Each of the dragons was almost 100 meters long.

One of the dragons charged toward the Lava Scary Clawed Bear, and its horns pierced the Lava Scary Clawed Bear's chest.

The Lava Scary Clawed Bear immediately lost consciousness.

But this was just the beginning.

The Mother of Bloodbath used Funeral of Light and took control of the Lava Scary Clawed Bear using light energy.

Before the Lava Scary Clawed Bear was scorched dry by the light energy, it would become the Mother of Bloodbath's puppet.

The Mother of Bloodbath was unsure if the Remembrance Soul Whale would be able to find its mother's soul. Yet, the short period of time that it could enjoy its mother's love had been cut short.

All the fire-type feys that had come to this place were looking enviously at the phantom of the Mother of Bloodbath's mother. Evidently, they wanted to absorb the phantom's fire elements.

This enraged the Mother of Bloodbath.

All of you have been benefiting from my mother. Forget the fact that you have no intention of thanking her, but you're even trying to devour her!?

The Mother of Bloodbath's emotions exploded, and a long spear appeared in its hand.

At that moment, it heard a gentle voice say, "Leave this to me."

Soon, a middle-aged woman wearing a red skirt appeared in front of the Mother of Bloodbath.

She first bowed toward the woman's phantom image before plucking a red hairpin from her hair.

She held the hairpin and shouted, "Spirit Return! All Lifeforms Melt and Boil!"

Triangle-shaped scales surfaced on her face.

There was no doubt that they were snake scales.

A roar was released from her mouth, and colorless fumes spewed out.

The woman pushed her hairpin into the venomous fumes, and it quickly dissolved, staining the fog red.

Soon, the fumes spread out, and all the feys that were Myth II and below started to melt like candles when they came into contact with the venomous fumes.

In an instant, all their strong bodies liquefied.

The middle-aged woman cleared out all the feys that had been eyeing the phantom image of the woman.

This was the second time that Lin Yuan saw a Myth III fey use Spirit Return through Body Weaponization.

After the middle-aged woman unleashed her killing move, she recalled her aura.

She bowed to the Mother of Bloodbath and said, "Greetings."

The Mother of Bloodbath did not lower its aura.

When the middle-aged woman sensed the Mother of Bloodbath's enmity, she hurriedly explained, "Miss, I'm a Venomous Fire Viper with a normal bloodline. You happened to land when I broke out of my shell."

The middle-aged woman looked at the phantom image of the woman with a child-like gaze before saying, "I have been benefiting from her ever since I was young. I managed to mutate and quickly increase my power. Now, I have reached Myth III. I cannot repay everything that she has done for me. If you don't mind, please allow me to stay by your side so I can repay her and be of some help to you through my service."

The middle-aged woman shot a look of disgust at the melted feys and said, "Miss, there are two groups of feys here. The first group is natives that have been benefiting from the lava. The other group is fire-type feys that moved to the lava zone for the environment. They only consider the lava zone as a treasure trove and only want to drain all of its resources.

"I came over because people were trying to steal the precious rock. We have always regarded the precious stone as the remnant of her body. However, a few foreign feys found help with the intention of stealing the precious stone together. Although it ended with us suffering grievous injuries, we managed to keep the foreign feys away. We killed the leader of those feys. They probably won't be coming here again anytime soon.

"Would you like to take a look at the precious rock? From the moment we sensed your aura, we decided to follow you from now on."

The Mother of Bloodbath's heart skipped a beat.

The Mother of Bloodbath did not like the feys that had transformed by being nourished by its mother because it saw this as them eating its mother's flesh.

But the Mother of Bloodbath could not bring itself to be angered by the middle-aged woman's words. Rather, it was very touched.

Lin Yuan studied the middle-aged woman's sincere expression.

He thought about the feys at the center of the zone that were protecting the precious rock.

He now had a better understanding of how much feys prioritized kindness.

It was very likely that the precious rock had been formed from the Sky Sundial Jade Spider's legs. It would be nutritious for any fey.

Yet, these feys were protecting it to return the favor and were now willing to serve the Mother of Bloodbath for the rest of their lives.

"I'm going to watch over Lin Yuan. My mother was the one who turned into the lava zone. I have a father too. I will tell my father to make you into external members of Heavenly Family Cottage," said the Mother of Bloodbath.

Chapter 1558: The Mother of Bloodbath's Motive

The Mother of Bloodbath was very honest when it spoke, and gratitude was written all over its face.

Regardless of whether the precious rock that had been protected for years was its mother's soul, the feys that had used its mother's flesh to evolve were indeed trying to thank its mother in their own way.

The middle-aged woman was shocked, and her jaw fell open.

Her thinking was very simple. She had decided to do so solely because she wanted to repay the favor.

However, she did not expect the Mother of Bloodbath to send all of them to the Heavenly Family Cottage to become external members.

Although feys usually became greedy when they encountered Heavenly Family Feys that were weaker than them so that they could seal the Heavenly Family Fey's opportunities, all the feys from the Heavenly Family Cottage were no different from gods.

They represented the strongest feys in the main world.

The Heavenly Family Cottage would only ever consist of Heavenly Family Feys.

However, many feys joined Heavenly Family Cottage as external members.

It was a dream for many feys.

Still, it was extremely difficult to become an external member of the Heavenly Family Cottage. They had to be at least Creation Breed.

The middle-aged woman was one of the strongest feys to be protecting the precious rock. However, she still did not think that she was worthy of becoming an external member of the Heavenly Family Cottage.

The Mother of Bloodbath had its own motive for making this arrangement.

These feys wanted to follow the Mother of Bloodbath because they wanted to repay its mother.

If these feys were allowed to join Sky City, they would not complain about being sent out on missions, but they might not be willing to be ordered around by the white-clothed followers. Inevitably, a fight would break out.

Feys that had not been contracted and had become accustomed to relying on their own abilities to comprehend Willpower Runes and fight the elements were usually extremely strong-headed and untamed.

Blood New Moon had become Lin Yuan's Protector and would be staying by his side.

If these feys were sent to be led by its father, it would increase a branch of Lin Yuan's power.

The Mother of Bloodbath had met Blood New Moon, Blue Lotus, and White Phoenix, and they were considered members of the Heavenly Family Cottage.

The Mother of Bloodbath felt that it was a done deal that Lin Yuan would become a Radiance Envoy.

Once he became a Radiance Envoy, he would be on top of the world.

If the Heavenly Family Cottage could stand alongside him, they would definitely be able to help him significantly.

It was said that daughters no longer had any ties with their families once they got married.

The Mother of Bloodbath was still unspoken for, but everything it did was for Lin Yuan's sake.

Lin Yuan saw that the fire-elemental energy within the phantom image seemed to be about to dissipate.

He knew that this was because the Sky Sundial Jade Spider's last wish had been fulfilled. There was nothing left anchoring the fire elements, so they were about to be reabsorbed into nature.

Lin Yuan hurriedly suggested, "Mother of Bloodbath, the fire-elemental energy here is about to dissipate. It will start to disperse 20 minutes later and will be fully gone in two hours. Try and see if you can absorb the fire-elemental energy within the phantom image. It will be a waste if the energy disappears."

The Mother of Bloodbath shook its head gently.

Its Sky Sundial Jade Spider bloodline only consisted of light energy.

All of the energy in the phantom image was fire-elemental energy, and the Mother of Bloodbath could not absorb the fire elements.

Blue Lotus had already told the Mother of Bloodbath about the secret of the Sky Sundial Jade Spider bloodline.

Hence, only Blood New Moon was able to absorb the fire-elemental energy.

Blood New Moon was the weakest member of the Heavenly Family Cottage.

However, he had reached Sovereign/Eternal, and his roots were locked.

He could quickly increase his power if he absorbed energy that was suitable for his roots.

Blood New Moon's Sky Sundial Jade Spider bloodline came from Jade Sundial.

Jade Sundial had given her bloodline to Blood New Moon before she died.

Thus, the fire-elemental energy within the phantom energy was the same as that of Blood New Moon's roots.

After absorbing the fire-elemental energy, Blood New Moon would be able to improve significantly or even reach pinnacle Eternal.

In a few hours, the Mother of Bloodbath found out how deeply emotional its father was.

This phantom image of its mother contained the fire-elemental energy that had been inside its mother's body when she was alive. They allowed the Mother of Bloodbath to sense motherly and wifely affections.

Given the Mother of Bloodbath's understanding of Blood New Moon, it knew that Blood New Moon would not only refuse to absorb the fire-elemental energy, but he would even do his best to collect all the dissipating fire-elemental energy.

He would also use the fire-elemental energy in his body to nurture the fire-elemental energy from the phantom image, all so that the phantom image would persist for longer.

Blood New Moon was very strong.

It would not be difficult for him to maintain the fire-elemental energy at the beginning. But with every passing second that the fire-elemental energy in his body was used up, he would eventually run out, and this could result in his grade falling from Eternal to Immortal.

The Mother of Bloodbath always understood one principle.

After a person passed, the living had to move on for the dead to rest in peace. Since they could not do anything about the situation, they should not torture themselves.

Although the Mother of Bloodbath still took out its phone to call Blood New Moon, it did not tell him about the phantom image.

Rather, it released the Red Water Blood Snakes and instructed them to guard the phantom image.

The Red Water Blood Snakes all had the same combat power as the Mother of Bloodbath. They were more than strong enough to protect the fire-elemental energy from being targeted by other fire-type feys.

The Mother of Bloodbath shot a look at Lin Yuan.

Coincidentally, Blood New Moon happened to step out of the Radiant Moon Palace at this time.

He saw the call coming from his daughter and started chatting to the Mother of Bloodbath in a gentle voice.

Although the Mother of Bloodbath had not mentioned that anything was wrong, Blood New Moon was satisfied just to hear the voice of the daughter with whom he had just reunited.

Blue Lotus and White Phoenix were still in the Radiant Moon Palace, so they continued to discuss Tower Canon with the Moon Empress and seek her opinion.

Since the Heavenly Family Cottage and Tower Canon were enemies, the Moon Empress, White Phoenix, and Blue Lotus exchanged the information that they held about Tower Canon.

Chapter 1559: Dad, Mom has a Chance of Revival!

At that moment, Lin Yuan, the Mother of Bloodbath, and the middle-aged woman reached the center of the lava zone where the precious rock was at.

As they walked nearer, Lin Yuan suddenly realized that the precious rock had the same aura as the phantom image of the woman. It might even have a stronger aura.

The precious rock had the shape of a section of a spider leg. It stuck out of the ground and reached a height of almost 20 meters.

Besides the middle-aged woman, there was another Myth Breed fey in human form with broken hands and only one leg. It was currently curled up on the ground.

The other feys that had not been able to change into human form were also heavily injured.

These feys all looked wary when they spotted Lin Yuan.

But when they caught sight of the middle-aged woman and the Mother of Bloodbath's aura, they settled down, and child-like expressions spread across their faces.

With a wave of Lin Yuan's hand, he let out the Diamond X/Fantasy V Jasmine Lily.

The Jasmine Lily spun gently, and the pointed Bud of Mountain Jade bloomed.

The three white flowers growing out from the green stem shot out three beams of vitality.

The three beams of vitality formed a large net that was linked by all the feys. It ended with the Myth Breed fey in human form that had lost its limbs.

The Myth Breed fey in human form had fallen in despair.

It was the Fire Mountain Fox Mouse that originally had four limbs. However, it lost three of them in the recent battle.

Even if it could be healed in time, it would never regain its ability to walk. To its knowledge, severed limbs would never regrow.

Only the amphibious-type Myth Breed feys could use their own natural talent to regrow parts of their bodies.

In fact, very few amphibious-type feys had such strong natural ability.

However, the Fire Mountain Fox Mouse did not expect all its cells to be triggered when the vitality entered its body.

All the blood in its body flowed toward its severed limbs, and the vitality activated its genetic model, allowing them to regrow.

Soon, to its shock, the Fire Mountain Fox Mouse realized that its limbs were starting to slowly regrow.

Joy filled out its entire heart.

Although it had been blessed with an opportunity when it was born, it had struggled to reach where it was today.

Being a guard of the precious stone had become the Fire Mountain Fox Mouse's faith.

It was willing to sacrifice its life, but it still wished to live like a normal person.

Otherwise, if someone targeted the precious stone, it would have no combat power and would only be able to watch as the stone was stolen.

When these feys were healed by Lin Yuan, they all started to bow to him to express their thanks.

All these feys had a suspicion in their minds.

They all felt that the person who had helped them seemed like a moron.

Why does he keep talking to the air? Moreover, his words involved the soul! It's so strange!

The Remembrance Soul Whale was a legendary fey, and it could only be seen by others when Lin Yuan fused with Dark Blue.

Usually, when Lin Yuan summoned it, he was the only one who would be able to see it.

Lin Yuan instructed the Remembrance Soul Whale to use Soul Knot and start searching the area for souls.

A large battle had just taken place there, and there were many deaths.

Thus, no matter how hard the Remembrance Soul Whale searched, it could only find the souls of the feys that had died in battle.

Lin Yuan could clearly sense the same aura from the phantom image in the precious rock.

However, the Remembrance Soul Whale's Soul Knot could not reach the soul.

Hence, in order to see if the precious stone truly contained Jade Sundial's soul, they would need to break the precious stone.

Lin Yuan could not decide this for himself. As such, he cast his gaze on the Mother of Bloodbath.

The Mother of Bloodbath looked at Lin Yuan's gaze and saw him gesturing to break something.

The Mother of Bloodbath was shocked by this.

After less than three seconds of silence, it came to a decision.

To the shock of the other feys, the Mother of Bloodbath reached out and broke off a piece of the precious stone.

At the same time, Lin Yuan instructed the Remembrance Soul Whale to use Soul Knot.

Blood New Moon was still on the call and sensed that something was wrong.

The Mother of Bloodbath had said it would handle some business with Lin Yuan.

Yet, after eight minutes of speaking, it did not mention any serious business at all. In fact, it seemed to be alluding to something.

Blood New Moon was certain that the Mother of Bloodbath had definitely encountered an issue, and he immediately became anxious.

"Little Love, where are you? I am done here, so I'll go to you now!"

At that moment, the Mother of Bloodbath saw a bright smile spread across Lin Yuan's face as he nodded at it.

The Mother of Bloodbath had been forcefully controlling its emotions. At that moment, its tears broke through the dam and started flowing down its face.

This time, Lin Yuan did not comfort the Mother of Bloodbath because the Mother of Bloodbath had been suppressing itself for too long and needed to vent.

Blood New Moon panicked when he heard the Mother of Bloodbath crying.

His fatherly instincts kicked in, and he instinctively thought, *"Did Lin Yuan take advantage of my daughter and is refusing to take responsibility!?"*

The more Blood New Moon thought about it, the more anxious he became. The Mother of Bloodbath sobbed, "Dad, Lin Yuan found Mother's soul here in the lava zone. There's a chance that she can be revived!"

The Mother of Bloodbath's words stupefied Blood New Moon.

He squatted down at the Radiance Moon Mountain and slapped the ground happily.

He was clearly smiling, but the sorrow in his heart mixed with hundreds of other emotions and rushed to the surface.

This tugged down Blood New Moon's lips, and he started to shed tears while cradling his head.

The Mother of Bloodbath could clearly sense the change in its father's aura.

It could imagine how happy its father was currently feeling.

However, time was of the essence.

There were only seven or eight minutes left before the fire elements dissipated.

The Mother of Bloodbath anxiously said, "Dad, come to the lava zone now! You will be able to sense my location once you're here. Mom left something for you here. If you don't receive it, it will disperse into nature."

Chapter 1560: Blood New Moon's Heavenly Family Blessing!

The moment the Mother of Bloodbath spoke, something started happening to the sun.

Every person in the world that was looking at the sun realized with shock that a spider-shaped pattern had appeared on the sun.

At the next moment, Blood New Moon's image emerged from the sunlight, and the image of the spider disappeared from the sun.

Everyone looking at this thought that they were seeing things.

Blood New Moon had just arrived at the lava zone and spotted the phantom image of the woman immediately.

He was in a daze as he opened his arms and started to grow larger until he was the same size as the woman.

Blood New Moon reached out and gently hugged the phantom image of the woman.

The Mother of Bloodbath had been hugged by the phantom image of the woman, and now the phantom image of the woman was being hugged by Blood New Moon.

It was as though there should be a small baby between the two of them that they would look after and nurture into a princess. The three of them would then live out the rest of their lives happily.

Blood New Moon was also a spider-species fey and was not adept at expressing his emotions.

However, Blood New Moon's emotions were a wreck.

Its emotions over the past few years had been dominated by sorrow.

For as long as Blood New Moon could remember, he had never experienced as much joy as he had felt today.

Today, Blood New Moon found his long-lost child, Blood Love. His child had also acknowledged him.

More importantly, Blood New Moon found out that Jade Sundial had a chance to be revived.

Blood New Moon was incredulous with regard to this because he had watched Jade Sundial die with his own eyes.

Before she died, she had even extracted her bloodline.

However, Blood New Moon did not believe that Blood Love would lie to him about this matter.

Blood New Moon's tears fell on the phantom image of the woman's hair, causing a faint mist to rise.

At that point, one of the Red Water Blood Snakes said, "Dad, hurry up and absorb all of the fire elements that Mother left behind! We will need your help to search for Mother's soul. Dad, I know you're unwilling to absorb Mom's fire elements, but they will go to waste if you don't absorb them. You have to become stronger to be able to protect Mom and me in the future."

It was true that Blood New Moon did not plan on absorbing the fire elements. Instead, he planned on using his own method to collect all the fire elements, albeit doing so would have a negative effect on him.

But the Mother of Bloodbath's coaxing words pierced cleanly through Blood New Moon's heart.

She's right! If I was strong enough, I wouldn't have had to watch Fifth Page Truth secretly attack Jade Sundial and lose my daughter in the process. All of that happened because I was too weak.

Two members of the Eight Pages of Tower Canon were coming to the Radiance Federation.

Envoys from the Freedom Federation and Azure Federation were also coming to visit the Radiance Federation.

After speaking with the Moon Empress in the Radiant Moon Palace, Blood New Moon had sensed that this sleeping lion of the Radiance Federation was ready to bear her fangs at Tower Canon.

It was likely that Whale Ocean Commerce's action had pricked the tiger.

Hence, Blood New Moon needed to be strong enough to protect his daughter, be able to see his wife revived one day, and repay Lin Yuan's kindness.

The Mother of Bloodbath had said that Lin Yuan had helped to collect Jade Sundial's soul.

Lin Yuan had saved the Mother of Bloodbath's life several times and allowed the Mother of Bloodbath to awaken its Heavenly Family Fey bloodline.

If the Mother of Bloodbath had not activated the sun during its transformation into a Heavenly Family Fey, Blood New Moon was unsure if he would have been able to find the Mother of Bloodbath when he arrived at the Radiance Federation.

Now, Blood New Moon needed to repay his daughter's favor to Lin Yuan and the favor for reviving his wife.

Blood New Moon felt that even if he separated himself into spiritual ingredients and gifted all of them to Lin Yuan, it would be far from enough.

Moreover, Jade Sundial used to be the second member of the Heavenly Family Cottage.

If Lin Yuan revived Jade Sundial, he would essentially save the entire Heavenly Family Cottage.

Purple Love would be overjoyed when she found out.

When he sensed that the fire elements in the phantom image were about to disappear, Blood New Moon's body lit up with crimson and golden flames.

Rays of sunset glow covered Blood New Moon, and his hair was now stained gold.

His one red and one orange eye were set ablaze with beautiful flames.

The fire elements in the phantom image were the same as those of Blood New Moon's roots.

At that moment, the fire elements within the phantom image all entered Blood New Moon's body.

Blood New Moon's prowess raised significantly, and his Eternal aura became even stronger.

It was as though the sun in the sky was celebrating this moment. The clouds in the sky resembling cotton candy evaporated under the sun's rays.

Even if it was raining in a certain place, it stopped, and the weather changed to a beautiful sunny day.

The Mother of Bloodbath used External Blood Bone and found that the beautiful totem of a sun on Blood New Moon's neck was climbing up toward his face. It resembled a rising sun.

This totem was not an imprint but a solidification of light.

At that moment, Blood New Moon turned and gently tapped the three Red Water Blood Snakes' horns.

Soon, the same sun totem appeared on the three Red Water Blood Snakes.

The three Red Water Blood Snakes were also covered with robes of sunset light. This made them seem even more intimidating and added a layer of radiance.

"Dad, what is this?"

Blood New Moon replied softly, "When a Heavenly Family Fey reaches Eternal XII, it will be able to use a heavenly family blessing. Normally, a Heavenly Family Fey will only be able to use it once every decade. However, the three Red Water Blood Snakes are basically three sets of fangs. I split the heavenly family blessing into three and used it on them.

"Blue Lotus' heavenly family blessing is related to support abilities. She used it on Lin Yuan to enable him to become affiliated with Lin Yuan. Feys with water elements as their roots will not attack Lin Yuan again. This blessing doesn't have practical use for Lin Yuan.

"My heavenly family blessing not only won't be of help to him but might also affect him negatively because it uses up the blood energy of the being that it's used on. This might be a change that resulted from my Blood Red Bird Catching Spider bloodline."
