

Merchant 901

Chapter 901: Lin Yuan is Bleeding

When Lin Yuan activated the Pure Land of Bliss, white sand granules appeared all around Endless Summer's roots.

The previously unwounded Endless Summer felt as though it was being soaked in a comfortable hot spring.

Lin Yuan focused all his energy into injecting spiritual power into the Pure Land of Bliss to enable it to expand as much as possible and absorb all the Creation World Ley Line residue that Endless Summer had not absorbed.

When the Creation World Ley Line landed on Endless Summer's tree crown, a golden glow lit up around Endless Summer.

Endless Summer's aura suddenly intensified, and it seemed to transform again.

But this time, the transformation involved its grade instead of quality.

Previously, Endless Summer was like an unhatched egg. Now, it had broken out of its shell.

Endless Summer started to grow even taller until it reached 1,800 meters tall.

At this point, Endless Summer was the tallest entity in the remote area, and it looked even more imposing than the looming mountains in the distance.

During a question-and-answer session, the Moon Empress had told Lin Yuan about how feys could evolve from Suzerain to Sovereign.

Unlike feys that evolved from Diamond X/Fantasy V to Suzerain before undergoing the World Cleansing to evolve to Myth Breed, only Creation Breed feys could break through Suzerain to evolve to Sovereign.

The aura radiated by a Sovereign fey could strike fear into the hearts of 100 Suzerain feys.

Sovereign was not just a name. It also represented the fey's level and status.

However, Lin Yuan also remembered the Moon Empress mentioning that Suzerain X feys that evolved to Creation Breed needed some time before they could break through to Sovereign.

Endless Summer's direct evolution to Sovereign had to be connected to its bloodline's evolution and Mystic Moon's separation of the Trial of World Creation's attacks into smaller bolts that Endless Summer had used to temper the Enlightenment Rune.

Hence, Endless Summer had not wasted a shred of the second and third attack's energy.

Mystic Moon nodded approvingly when he saw that Endless Summer had evolved to Sovereign. "With three tree cores, the triple-core cycle, and the remote bloodline that was unlocked, Endless Mystical Dream Summer sure is interesting! This is the only way you'll be worthy of standing by the Young Lord's side."

Mystic Moon opened his mouth and swallowed the silver dragon pearls.

Despite having taken on the Trial of World Creation's attacks, Mystic Moon did not look winded at all. It was as though everything he had just done had only been effortless assistance.

Endless Summer swung its branches wildly and changed into its human form.

It hurriedly used its hands to catch the golden Creation World Ley Line.

Endless Summer did not expect that it would break through from Suzerain X where it had been stuck for some time to Sovereign the moment it evolved to Creation Breed.

Endless Summer would be elated to have evolved if this was any other time.

However, the time it had taken to break through had wasted a few minutes that it could have spent absorbing the Creation World Ley Line.

These few minutes caused some of the Creation World Ley Line's energy to be lost, and Endless Summer's heart ached over this waste.

Luckily, the lost energy could be replaced with the world power's nourishment.

When the Creation World Ley Line landed in Endless Summer's hands, the power of Enlightenment exploded around Endless Summer, and a pinkish-purple Enlightenment World expanded out around it.

After the Enlightenment World opened, Endless Summer hurriedly buried the Creation World Ley Line in the ground of the Enlightenment World.

An endless number of golden threads burst forth from the ground where the Creation World Ley Line had been buried. The golden threads sailed around the Enlightenment World in every different direction.

The golden threads nourished and stabilized the Enlightenment World, and the world power of the Enlightenment Law slowly grew stronger.

Slowly the golden threads faded and returned to the ground where the Creation World Ley Line had been buried.

A short while later, the golden threads burst from the ground again and spread out to temper the Enlightenment World.

Now, Endless Summer had finally become a Sovereign I/Creation/ fey.

Endless Summer still wore the same pinkish-purple palace robe as before. However, its aura was completely different from before.

Its aura was even more extraordinary than before, and its every movement had a mystical note to it.

The mystical note fused with the Enlightenment World's roots, and Endless Summer became the willpower of the Enlightenment World.

The Pure Land of Bliss was absorbing the golden light from the Creation World Ley Line, and Lin Yuan could feel a pressure weighing on him that had not been there before.

This pressure made Lin Yuan sigh to himself.

It looks like Morbius' grade is too low.

Morbius was only Bronze X/Legend, so it was unfeasible to expect it to be able to absorb the energy from the Creation World Ley Line.

It was only after the Blue Flash Purple Butterfly evolved to Fantasy Breed that Morbius would be able to evolve again.

At that time, Lin Yuan would probably be able to see more when he checked on Creation Breed feys.

However, Lin Yuan was unwilling to let the energy from the Creation World Ley Line get away from him.

Lin Yuan fought against the pressure and injected spirit qi into the Pure Land of Bliss to support it as it absorbed the energy in the Creation World Ley Line.

Luckily, there was only a small amount of Creation World Ley Line energy. Lin Yuan's support would have been useless if there was any more.

However, this form of assertive support was not without its costs. While Lin Yuan was suppressing the pressure and circulating his spiritual power, the spiritual power in his body went out of control and seriously injured him.

Lin Yuan felt something rise up in his throat, and fresh blood leaked out of his mouth and nose with a dull moan of pain.

The sudden appearance of blood terrified the Mother of Bloodbath that was currently carrying Lin Yuan and the old woman that was standing nearby.

The silver-haired old woman's chest tightened, and she instinctively put a large distance between her and Lin Yuan..

Chapter 902: Sacred Source Lifeform For You

The old lady thought, ?I didn't do anything! I hope Mystic Moon doesn't blame Lin Yuan's injuries on me! If he does, I'll become the person that made the Radiant Moon Palace's Young Lord bleed! Not even sacrificing the entire Cage of Brahma Insects will be able to make up for such a sin.

The Mother of Bloodbath was also astonished by the blood flowing out of Lin Yuan's mouth and nose.

Ever since the Mother of Bloodbath had become Lin Yuan's Path Protector, he had remained in the pink of health.

Moreover, Lin Yuan's body had been cleansed by the Silver Stamen Gold Luster Cassia nectar, and his genetic model had also been optimized.

Why was the healthy Lin Yuan suddenly bleeding?

The Mother of Bloodbath had not sensed anyone making a move on Lin Yuan.

Although the silver-haired old woman was a thearch-class expert and it was possible for the Mother of Bloodbath to have missed an attack on Lin Yuan, the Mother of Bloodbath had noticed the old woman's alarmed gaze at the sight of Lin Yuan bleeding.

The Mother of Bloodbath hurriedly circulated its Blood Law to stem the flow of Lin Yuan's blood and allowed the spirit qi inside Lin Yuan's body to return to regular flow.

Lin Yuan's blood that had flowed out also did not go to waste as the Mother of Bloodbath used the Blood Law to return the blood into Lin Yuan's body.

Mystic Moon rushed to Lin Yuan's side to check on him when he noticed Lin Yuan bleeding.

After he confirmed that nothing serious had happened to Lin Yuan, Mystic Moon did not ask any more questions. Instead, he stood beside Lin Yuan protectively.

Mystic Moon sensed that Lin Yuan was circulating his spiritual power toward the Source Sand underground and realized that this was the reason Lin Yuan had been injured.

Since Lin Yuan was Mystic Moon's Young Lord, Mystic Moon would continue to protect Lin Yuan throughout any decision that Lin Yuan made.

Nonetheless, Mystic Moon had always been curious about Lin Yuan.

Mystic Moon's sacred source lifeform was one of the three sacred source lifeforms that had built Star Web. Hence, Mystic Moon could find out anything about Lin Yuan from Star Web if he wanted to.

However, Mystic Moon had never done so. Instead, he had used his sacred source lifeform to lock all the information about Lin Yuan on Star Web so that not even the other members of royalty would be able to obtain information about Lin Yuan without Mystic Moon's permission.

Although Mystic Moon had locked Lin Yuan's information and had not looked at the information himself, he had been paying attention to all of Lin Yuan's news on Star Web and was cheering him on just like everyone else.

Once he had ascertained that Lin Yuan was fine, Mystic Moon looked at the Kill Food Worm.

It was no secret that Black had the Blue Flash Purple Butterfly.

If Lin Yuan summoned the Blue Flash Purple Butterfly, he would be able to turn the Kill Food Worm into his loyal servant immediately.

The Kill Food Worm would want to serve the Blue Flash Purple Butterfly and swear its loyalty of its own accord.

This was why Mystic Moon had not injured the old woman more seriously after deciding to give the Kill Food Worm to Lin Yuan.

Endless Summer was done absorbing the Creation World Ley Line, and it walked through the air toward Lin Yuan.

Lin Yuan congratulated Endless Summer with a solemn expression.

Instead of a sea of spirit qi crystals being produced in the Spirit Lock spatial zone like what he had anticipated, a golden pearl had appeared.

The aura of the Creation World Ley Line seeped out of the golden pearl.

Lin Yuan took a closer look and realized that there was a small golden spine in the golden pearl.

He sighed and thought, *It looks like I expected too much.*

After a Myth Breed fey finished experiencing the World Cleansing, a large amount of pure spirit qi would descend along with the World Grace.

It was expected that the pure spirit qi would turn into spirit qi crystals after being absorbed by the Pure Land of Bliss.

However, the Creation World Ley Line was different from the World Grace as it contained energy that could evolve worlds instead of pure spirit qi.

This energy teemed with a life of its own and would not decrease after it was used up. Instead, it would evolve after being nourished by world power.

Lin Yuan suddenly remembered that there had not been any Creation World Ley Line when the Dark Death Law on the Sacred Sword Wielding Queen's skirt evolved to the Dark Death Law.

There also had not been any World Cleansing when the Vicious Poison Law evolved from Myth II to Myth III.

Although the Sacred Sword Wielding Queen's skirt could evolve the completed laws in Law Crystals into law worlds, it would not receive the rewards that came with the World Cleansing and Trial of World Creation.

Lin Yuan wondered what changes would happen to the Dark Death World if his golden pearl was buried within it.

He decided to summon the Sacred Sword Wielding Queen from the depths of his soul later on and let it take a look at the golden pearl to see if it had anything to say about it.

Endless Summer bowed deeply to Lin Yuan and stayed in that position for some time before turning its head to thank Mystic Moon.

Mystic Moon waved his hand dismissively and said, "There's no need to thank me. I wouldn't be here if not for the Young Lord, much less help you."

Endless Summer still thanked Mystic Moon. However, it did not thank Lin Yuan because those words were insufficient to cover the debt of gratitude that it owed Lin Yuan.

Lin Yuan smiled brightly and said to Endless Summer, "You've finally evolved to Creation Breed."

Endless Summer looked ashamed as it felt that it had used too many of Lin Yuan's Law Crystals. The breakthrough it had been able to experience was a result of every Law Crystal that Lin Yuan had given it.

Lin Yuan gave Endless Summer a rainbow ball of light.

Endless Summer immediately realized what this rainbow ball of light was.

Before Endless Summer could react, Lin Yuan said, "Since you've evolved to Creation Breed, you should be able to contract sacred source lifeforms now."

A look of disbelief came over Endless Summer.

Nonetheless, it was unsurprising that Lin Yuan was now giving it a sacred source lifeform after he had given it so many Law Crystals.

Endless Summer knew that this was a product of Lin Yuan's affection.

Endless Summer, who had already decided to dedicate its life to protecting Lin Yuan, did not try to reject Lin Yuan and immediately received the sacred source lifeform..

Chapter 903: It's About Time to Use It

"Young Master, I'll form a marrow contract with this sacred source lifeform after I return home. I'll immediately inform you of its abilities afterward."

Lin Yuan nodded.

After witnessing Wen Yu's Astronomical Parliament, Lin Yuan had realized how important a sacred source lifeform's abilities were for a faction's expansion.

It would be good if Endless Summer's sacred source lifeform was a power offense-type like Zong Ze's sacred source lifeform because it would increase Endless Summer's strength and battle prowess.

It would also be fine if Endless Summer's sacred source lifeform was the same type as Wen Yu's sacred source lifeform.

Such sacred source lifeforms would greatly benefit a faction's expansion, and they would enable the faction to chart out businesses in different directions.

Mystic Moon did not find it surprising that Lin Yuan had given Endless Summer a sacred source lifeform. After all, Lin Yuan was the Young Lord of the Radiant Moon Palace, and all the resources in the world should be available to him.

Given that Lin Yuan had rushed out in the middle of the Guard Ye Banquet just to save Endless Summer, it showed how important Endless Summer was to him.

However, the silver-haired old woman had a different point of view.

She looked green with envy as she gazed at the sacred source lifeform in Endless Summer's hands.

Even though she was one of the Elders of the Cage of Brahma Insects, she still did not have a sacred source lifeform of her own.

However, the Moon Empress' disciple had so casually given a sacred source lifeform to a fey that had just evolved to Creation Breed.

This sacred source lifeform came from a Class 5 dimensional rift.

Every Class 5 dimensional rift only had one sacred source lifeform.

As jealous as the old woman felt, she did not let it get the better of her.

She greatly desired Lin Yuan's resources and was determined to form a good relationship with Lin Yuan.

She was not intending to form a good relationship with Lin Yuan to gain access to the Moon Empress but purely because of Lin Yuan.

Since Lin Yuan was dressed in the Moonbeam Coronation Costume, he had clearly just rushed over from the Guard Ye Banquet.

The silver-haired old woman decided to ask the Cage of Brahma Insects leader about Lin Yuan's news from the Guard Ye Banquet.

At that moment, Lin Yuan's phone rang.

Lin Yuan saw that the call was coming from Gu Lang.

He picked up the call and heard Gu Lang's austere voice, as though there was something weighing on his heart. "Lin Yuan, the Guard Ye Banquet is over. I'll have to take a raincheck on the meal at Kitchen Fragrance Palace that we were going to have together. I'm sorry. I'll find a chance to make it up to you in the future."

Gu Lang hung up the call.

Lin Yuan frowned. From their short interaction, Lin Yuan had learned that Gu Lang was a very mild-mannered person.

There was no way that Gu Lang would cancel their meal without a good reason.

Could something have happened during the Guard Ye Banquet?

Lin Yuan remembered Wang Fuxiang, who was the doom bringer of men, standing behind the Bamboo Monarch.

At that time, Lin Yuan did not know why Wang Fuxiang and the Bamboo Monarch had been sitting together or why they were dressed like a couple.

Moreover, Lin Yuan had noticed the Bamboo Monarch's countenance turning more sickly after the Guard Ye Banquet began.

Although the Bamboo Monarch had been maintaining a jovial expression, his face slowly drained of color.

That was when Lin Yuan had realized that the Bamboo Monarch had to have been stained with bad luck after starting a relationship with Wang Fuxiang.

Lin Yuan did not know what kind of bad luck Zong Ze had been afflicted with or what effect it had on Zong Ze.

However, Wang Fuxiang's bad luck could take a man's life.

While Lin Yuan was thinking, his phone rang again.

Lin Yuan had just been thinking of Zong Ze when the latter called.

He picked up the call and heard Zong Ze cough and say, "Lin Yuan, something happened to Lord Bamboo Monarch at the Guard Ye Banquet. Gu Lang went back with Lord Bamboo Monarch to the Purple Bamboo Forest. Master and I are going to the Purple Bamboo Forest tomorrow to visit Lord Bamboo Monarch. Our meal will have to be postponed."

Zong Ze apologized softly before going on to ramble, "If you find my cooking nice after having a taste, I can make meals and deliver them to you whenever you want."

Zong Ze had said the last line so incoherently that Lin Yuan had not heard him clearly.

Just as Lin Yuan was about to ask Zong Ze to repeat what he said, Zong Ze let out a howl of pain as though someone had just hit him.

"Senior Brother, can you not hit my head whenever you please? I'm not a child anymore."

A familiar voice took over the call and said, "Hehehe, so what if I hit your head once in a while? I even changed your diapers when you were a baby! Since you're already on the phone with Little Yuan, it saves me the trouble of calling him myself."

Lin Yuan immediately recognized Uncle Li's voice. Apparently, Uncle Li was Chef Supreme's first disciple.

When he recalled the rumors about Chef Supreme's first disciple, Lin Yuan felt that it greatly differed from his personal experience of Uncle Li as an honest and wife-fearing man.

"Little Yuan, the fight between you and Zong Ze was amazing! When I get back from the Purple Bamboo Forest, I'll cook red braised meat for you. It'll be a good chance for Auntie Zhang and me to see where you're living and whether Chu Ci is as stick-thin as before."

A current of warmth flooded Lin Yuan's heart as he replied, "No problem. You and Auntie Zhang are welcome at my place anytime!"

Uncle Li grinned and said, "It's settled. Auntie Zhang and I will visit you and Chu Ci when we have more time. I even wanted the old man—"

Suddenly, Lin Yuan noticed the call was cut off.

It seemed that Uncle Li had ended the call.

Lin Yuan could not help but be curious as he did not understand why Uncle Li had ended the call in such a rush.

Meanwhile...

Li Changlin felt someone kick his backside forcefully and snatch the phone out of his hands. He looked back and saw that his assailant was Chef Supreme.

Chef Supreme snapped angrily at Li Changlin, "At your age, shouldn't you already be aware of what to say and what not to say?"

If Li Changlin had finished what he wanted to say, the person on the other end of the phone would have assumed that Chef Supreme wanted to steal the Moon Empress' disciple.

From the way that the Moon Empress adored her disciple, she would definitely cause trouble for Chef Supreme in future imperial court meetings if she found out.

The more he thought about it, the angrier Chef Supreme became, to the point that he wanted to kick Li Changlin to vent his anger. When he lifted his leg, his daughter pressed his leg back down.

When he saw his daughter's angry gaze, Chef Supreme chuckled and thought, Daughters really sever themselves from their maiden family the moment they get married.

Chef Supreme sighed. It seemed like the Bamboo Monarch, and Wang Fuxiang's short-lived tragic fate was about to come to an end.

Regardless, Bamboo Monarch was a Class 5 Creation Master and should not die at the hands of a woman.

...

The silver-haired old woman had been listening while Lin Yuan was talking on the phone.

When she heard him mention Uncle Li and Auntie Zhang, the gears in her brain started to turn.

A couple with the surname Li and Zhang could only be that pair from Kitchen Fragrance Palace.

At that moment, the way the old woman looked at Lin Yuan changed.

She did not expect the Moon Empress' disciple to be so well connected.

Lin Yuan still had not interacted with the old woman any further. Instead, he turned to Endless Summer and the Mother of Bloodbath and said, "The both of you should return to the mansion."

Next, Lin Yuan said to Mystic Moon, "Uncle Mystic, let's return to the Radiant Moon Palace. The Guard Ye Banquet is already over, and Master must be anxious over my prolonged absence."

From the call, it seemed that Chef Supreme was going to take his disciples to the Purple Bamboo Forest to visit the Bamboo Monarch.

Lin Yuan did not know whether the Moon Empress was going to take him to the Purple Bamboo Forest as well, but he felt that the Possess Star Intelligent Dark Clouds pollen that he had accidentally produced would finally come into use..

Chapter 904: The Special Strength Law

When Lin Yuan had accidentally nurtured the Possess Star Intelligent Dark Clouds, he had not seen much use for it. After all, bad luck was intangible and gossamer.

But after some time, he had discovered that Wang Fuxiang was not the only person stained by bad luck.

For example, he had found out that Zong Ze was also afflicted by bad luck at the Guard Ye Banquet.

At first, Lin Yuan had been doubtful of whether Zong Ze was truly Chef Supreme's disciple. As a Class 5 Creation Master, shouldn't Chef Supreme be able to do something about Zong Ze's bad luck?

But after talking more with Zong Ze and Gu Lang, Lin Yuan learned that they had been friends since they were young.

They had been with Chef Supreme and the Bamboo Monarch for almost their entire lives. Thus, it was impossible that Chef Supreme was unaware of Zong Ze's bad luck.

But since Zong Ze's bad luck had not been removed, Lin Yuan could not help but feel that the situation was dubious.

Can it be that Class 5 Creation Masters aren't capable of removing bad luck? If so, the Possess Star Intelligence Dark Clouds pollen is unbelievably valuable.

After witnessing the relationship between Wang Fuxiang and the Bamboo Monarch at the Guard Ye Banquet, Lin Yuan was even more certain of his conclusion.

If Class 5 Creation Masters could remove bad luck, the Bamboo Monarch would not have been affected by Wang Fuxiang.

Although the Possess Star Intelligent Dark Clouds would come into use now, Lin Yuan had to carefully consider how he should proceed.

"Young Master, I'll head back to the mansion now to form a marrow contract with the sacred source lifeform and wait for you to return," said Endless Summer.

The Mother of Bloodbath was about to speak but stopped itself.

As Lin Yuan's Path Protector, the Mother of Bloodbath wanted to turn into a small spider and hide in his hair like it used to.

But Mystic Moon was with Lin Yuan now, and Lin Yuan's destination was the Radiant Moon Palace. Hence, it was unlikely that he would be in any danger.

It would not be of any help to Lin Yuan if it tagged along. The Mother of Bloodbath sighed lightly and said, "Fine, I'll wait for you back at the mansion too."

The Mother of Bloodbath decided to work hard on increasing its power once it returned to the mansion. It was currently still stuck at Myth II and had not even gained body weaponization.

Although its powers were considered at the top of the pyramid in the Radiance Federation, Lin Yuan was the Moon Empress' disciple, and the Moon Empress' power was at the absolute peak of the pyramid.

Thus, the Mother of Bloodbath felt that it was still too weak to be Lin Yuan's Path Protector.

Nonetheless, the Mother of Bloodbath had not lost confidence in itself. Ever since it had gained the External Blood Bone, the Mother of Bloodbath knew that it could stand toe to toe with feys of the same grade without any fear.

The Mother of Bloodbath had always been confident in its talent and bloodline. When it evolved to Creation Breed, it would definitely be much stronger than other Creation Breed feys.

Although the External Blood Bone would be the key to increasing its power, it was also the source of its problems because the Red Water Blood Snakes caused the Mother of Bloodbath to require much more resources in order to evolve.

The Mother of Bloodbath was not a Creation Master, and it could not obtain any resources by staying at the mansion.

Lin Yuan had always been the one who provided the Mother of Bloodbath with resources.

Although Lin Yuan had an endless supply of resources, the Mother of Bloodbath was afraid that Lin Yuan would run out of resources while trying to help it evolve to Creation Breed.

The Mother of Bloodbath thought, *Maybe I should find the chance to return to the Endless Forest to collect blood-type spiritual ingredients and go on an extended training retreat.*

Lin Yuan noticed the Mother of Bloodbath's expression. He knew that in spite of the Mother of Bloodbath's cold demeanor, it was actually a sensitive creature.

He had just helped Endless Summer evolve to Creation Breed, and it was now time to focus his efforts on helping the Mother of Bloodbath evolve as well.

He had given the sacred source lifeform that he had prepared for the Mother of Bloodbath to Endless Summer. But now, he had gained another sacred source lifeform as his prize for winning the Martial Arts Stage.

Lin Yuan would wait till he returned to the mansion to give the new sacred source lifeform to the Mother of Bloodbath.

After the Mother of Bloodbath and Endless Summer left, Mystic Moon glanced at the Kill Food Worm before asking, "Young Lord, what do you think should be done about this Kill Food Worm?"

Lin Yuan had already used Morbius' True Data to check on the Myth III Kill Food Worm.

Basically, the Kill Food Worm was the Kill Food Sky Butterfly's young stage.

Besides being able to comprehend laws, the Kill Food Worm's abilities and exclusive skills would change drastically when it transformed into the Kill Food Sky Butterfly.

Thus, it did not do Lin Yuan much good to learn about the Kill Food Worm's current abilities.

However, the law that the Kill Food Worm comprehended was special.

Most feys comprehended laws and willpowers that were related to their types. As such, when the willpowers transformed into laws, the laws would also be of the same type as the fey and have the respective attributes.

However, the Kill Food Worm had not comprehended a law that was related to its type. Rather, it had comprehended a pure Strength Law.

The Strength Law not only allowed the Kill Food Worm to be stronger than other feys, but it also improved the Kill Food Worm's physique.

Lin Yuan thought, "If I kill the Myth III Kill Food Worm, the Sacred Sword Wielding Queen's skirt would have the Myth III Strength Law embedded in it. With the Strength Law, my own strength will definitely rise significantly."

But the moment the thought entered Lin Yuan's mind, he dismissed it.

If Law Crystals were used, the Kill Food Worm would soon evolve to Creation Breed, and it would not need external help during its evolution like Endless Summer did.

Once the Kill Food Worm transformed into its larva stage, it would be able to defend against the Trial of World Creation's attack without any issues.

A living Creation Breed Kill Food Sky Butterfly would be much more useful than a law on the Sacred Sword Wielding Queen's skirt.

When Lin Yuan used Blackie's Spirit Essence Explosion, he gathered spirit qi to release explosive damage.

Moreover, the Mother of Bloodbath was about to evolve to Creation Breed. With the Kill Food Sky Butterfly, Lin Yuan would be able to better protect the Mother of Bloodbath so that it could safely overcome the Trial of World Creation.

"Uncle Mystic, why don't you take care of the Kill Food Worm for me first and return it to me after returning from the Radiant Moon Palace."

Mystic Moon nodded and said, "Young Lord, I shall hold on to the Kill Food Worm for now then."

Mystic Moon walked up to the Kill Food Worm and scoffed. "I know you understand what I'm saying. If you know what's good for you, you're going to shrink now."

The Kill Food Worm had seen Mystic Moon's true form and sensed Mystic Moon's aura.

Although it was not as terrified as it had been when it was faced with the Dominate Sky Snake Dove, it was still very afraid of Mystic Moon..

Chapter 905: A Guest

The Kill Food Worm hastily shrunk itself until it was only five centimeters long, and it looked like any other caterpillar.

Mystic Moon picked up the Kill Food Worm and placed it inside a jade box.

The jade box was just a normal box carved out of jade and did not have any defensive abilities. The Kill Food Worm could break out anytime it wanted.

However, the Kill Food Worm did not move a muscle as it did not dare to retaliate.

In spite of its panicked state, it knew what its life's purpose was.

The purpose of its life was to transform into the Kill Food Sky Butterfly. Thus, it would not do anything that would jeopardize its life while in the presence of a creature as strong as Mystic Moon. In fact, it knew better than other feys how to act in order to guarantee its survival.

Lin Yuan knew that he would be able to tame the Kill Food Worm if he summoned the Blue Flash Purple Butterfly. However, he had not formed a contract with the Kill Food Worm and could not store it in his spiritual spatial zone.

The most he would be able to do was keep the Kill Food Worm in the Spirit Lock spatial zone and instruct the Blue Flash Purple Butterfly to tame the Kill Food Worm there.

Although the Kill Food Worm would definitely start obeying the Blue Flash Purple Butterfly, it had not evolved to Creation Breed or transformed into the Kill Food Sky Butterfly. Hence, it would be able to use world power to be contracted to the Blue Flash Purple Butterfly and become the Blue Flash Purple Butterfly's servant.

Lin Yuan was afraid that the Kill Food Worm would go on a rampage in the Spirit Lock spatial zone without the contract.

Everything precious to Lin Yuan was in the Spirit Lock spatial zone. The Myth III Kill Food Worm was fully capable of killing all the feys and destroying all the spiritual ingredients in the Spirit Lock spatial zone.

If the Kill Food Worm killed the Twin Red Pagoda, Phoenix Perching Chinese Parasol Tree, and Cinnabar Osmanthus Haworthia, Lin Yuan would not know how to handle it, much less Lin Yuan's actual feys like the Floating Island Whale, Gray, Genius, Chimey, Wind Speed Rapid Antelope, Silver Corona, and Brocade Zither.

Moreover, Lin Yuan needed the Elemental Shellfish to produce heavenly-maiden-grade elemental pearls in order to collect more resources.

As such, Lin Yuan decided to wait till after he left the Radiant Moon Palace to evolve the Kill Food Worm as soon as possible.

Lin Yuan was continuously feeding the Sacred Sword Wielding Queen with Law Source Crystals, and it was continuously producing Law Crystals.

The Kill Food Worm was not like Endless Summer, which had only recently evolved to Myth III.

It had used its own abilities to evolve to pinnacle Suzerain/Myth III and would only need a few Law Crystals before it evolved to Creation Breed.

After Mystic Moon stored the Kill Food Worm away for Lin Yuan, he prepared himself to leave with Lin Yuan to the Radiant Moon Palace.

The most convenient way to travel to the Radiant Moon Palace was for Mystic Moon to return to the precious item made of the Jeweled Cave Golden Toad and Lin Yuan to use the Ethereal Jellyfish's ability to transport them to the Radiant Moon Palace.

Although they would need to make several stops in between, it should only take a moment.

The silver-haired woman hesitated when she saw Mystic Moon and Lin Yuan about to leave. She did not know whether to take the initiative to say something to Lin Yuan.

If she let them leave without striking up a conversation with them, the Sky-Covering Weeping Willow's tree core and Kill Food Worm she had given up would just be compensation for her mistake.

However, if she spoke a bit more to them or even managed to get Lin Yuan's contact details, she would have the chance to interact more with Lin Yuan in the future.

When she saw Mystic Moon enter the toad-shaped precious weapon, the old woman mustered up her courage and said to Lin Yuan, "Lord, I was too reckless and brought you trouble. I would like a chance to go and see you to apologize properly."

Lin Yuan immediately knew what the silver-haired old woman meant.

"You don't need to come to see me to apologize. The Kill Food Worm and Sky-Covering Weeping Willow's tree core are enough."

The old woman's face fell. Going to see Lin Yuan to apologize was just a euphemism, but she did not expect Lin Yuan to reject her immediately.

However, Lin Yuan's next words made the old woman's face light up.

"If you're going to come to visit, you'll be a guest."

The old woman quickly took out the phone that she had not used in a long time to record Lin Yuan's contact details.

70% of the creatures in the world were insects.

Cage of Brahma Insects was able to remain as one of the top three top factions for the past century because insects were the most abundant lifeform on earth.

As Lin Yuan continued to expand Sky City, he would need to often interact and collaborate with Cage of Brahma Insects.

By forming a good relationship with Cage of Brahma Insects, all of Lin Yuan's future insect-species fey needs would be taken care of with one phone call.

Moreover, Lin Yuan needed sufficient influence in order to have a shot at becoming a Radiance Envoy.

Forming a good relationship with as many factions as possible would only be beneficial to Lin Yuan.

Lin Yuan wanted to use his own effort to make the Moon Empress proud of him. He did not want people's first thought when they saw him was that he was the Moon Empress' disciple.

Lin Yuan saved the silver-haired old woman's number and sent a message to Liu Jie telling him not to worry and that Endless Summer had smoothly evolved to Creation Breed.

Lin Yuan soon arrived at the Radiant Moon Palace using the Ethereal Jellyfish's ability.

Mystic Moon exited the Jeweled Cave Golden Toad.

As Lin Yuan and Moon Empress walked through a long corridor, they were greeted by Cold Moon standing at the door to the inner palace.

Cold Moon rushed up to them and said, "The Moon Empress is concocting spirit fluids."

Mystic Moon hastily halted, and Cold Moon said to Lin Yuan, "Young Lord, you can enter the inner palace anytime. The Moon Empress has been asking after you ever since she returned."

Lin Yuan nodded and walked into the inner palace.

Not even Mystic Moon and Cold Moon were allowed to disturb the Moon Empress when she was concocting spirit fluids. Yet, she had given Lin Yuan the authority to do so.

Once Lin Yuan entered the inner palace, he saw the Moon Empress standing behind a work table with 100 spiritual ingredients from lucky feys.

When he saw the spiritual ingredients, Lin Yuan knew that the Moon Empress was trying to come up with a solution to the Bamboo Monarch's issue.

Lin Yuan did not disturb her. Instead, he quietly stood off to the side to wait for her to finish concocting the spirit fluid she was working on.

He saw seven green birds with vine-like feathers picking up and pecking the spiritual ingredients before placing them in a crystal dish in front of the Moon Empress.

The Moon Empress used her soul to mix and combine the spiritual ingredients in the crystal dish, and they quickly turned into a sticky substance.

The Moon Empress stored the amber substance in the suet chalcedony bottle with a shake of her hand and sealed the opening.

Chapter 906: All I Need is Master

This was not the first time that Lin Yuan had seen the Moon Empress concocting spirit fluids. But every time he did, he felt a strange astonishment.

Her manipulation of the spiritual ingredients was exceptionally efficient, and she could perfectly combine tens of spiritual ingredients in less than a minute.

Lin Yuan had also seen Master Hong Shen concoct spirit fluids. It would take Master Hong Shen close to two hours to use his soul to combine tens of spiritual ingredients, and even then, 100% homogenization was not guaranteed.

He felt that the difference between a Class 4 Creation Master and a Class 5 Creation Master was too vast.

The canyon that separated Class 4 Creation Masters and Class 5 Creation Masters was even wider than the one that separated Class 4 Creation Masters and Class 1 Creation Masters.

The Moon Empress smiled when she saw Lin Yuan. However, she sighed when she looked back down at the amber substance in the suet chalcedony bottle.

Lin Yuan noticed this and asked softly, "Master, is this the potion that will remove Wang Fuxiang's bad luck?"

The Moon Empress realized that Lin Yuan had learned about what had happened at the Guard Ye Banquet.

"This spirit fluid can dispel the bad luck that's festering in the Bamboo Monarch's soul. However, the root of the bad luck must be removed first."

The Moon Empress stored away the suet chalcedony bottle.

Previously, the Moon Empress might have approved of Chef Supreme's method.

But ever since accepting Lin Yuan as her disciple, the Moon Empress understood that Chef Supreme's method would lead to a feud with the Bamboo Monarch even though it would also solve the issue.

The Bamboo Monarch was a rational person. Even though he knew that he would be afflicted by bad luck, he still chose to be with Wang Fuxiang.

This meant that the Bamboo Monarch had already prepared himself for the worst.

Hence, the Bamboo Monarch would never allow Chef Supreme to harm Wang Fuxiang.

The Moon Empress understood how the Bamboo Monarch felt. If Lin Yuan were in Wang Fuxiang's place, she would also never allow anyone to hurt him.

If she was really left with no other choice, the Moon Empress was even willing to sacrifice herself in order to preserve Lin Yuan.

Thus, the Moon Empress was not going to participate in this matter. She was not going to stop Chef Supreme from going to the Purple Bamboo Forest, but she was not going to take Lin Yuan there either.

When Lin Yuan noticed the worried look on the Moon Empress' face, he immediately felt uncomfortable.

This was the first time that Lin Yuan had seen such a look of helpless nervousness on the Moon Empress's face.

"Master, I heard from Zong Ze that the Bamboo Monarch fell ill at the Guard Ye Banquet. Is it because of Wang Fuxiang's bad luck?" asked Lin Yuan.

The Moon Empress nodded and replied, "Wang Fuxiang's bad luck is something that she was born with. It must have something to do with her ancestry. This kind of bad luck has a major effect on the soul of others. The stronger the love, the more damage will be done to the soul. Not even Grade 5 spirit fluids can achieve the level of decay that the bad luck has caused to the Bamboo Monarch's soul."

The situation was exactly as Lin Yuan had thought.

At first, Lin Yuan was thinking about how to use the Possess Star Intelligent Dark Clouds pollen. But now, he only saw one way to use it, which was to give it to the Moon Empress.

The Possess Star Intelligent Dark Clouds pollen could remove bad luck. It would be able to remove Wang Fuxiang's bad luck in a large enough amount.

When Wang Fuxiang's bad luck disappeared, the Bamboo Monarch's soul would no longer be affected by the bad luck.

The Bamboo Monarch should be able to return to the pink of health with the spirit fluid that the Moon Empress concocted.

At this point, it was a matter of life or death for the Bamboo Monarch.

It was a choice between love and his own life and duty. The Bamboo Monarch was stuck between a rock and a hard place.

However, even if he continued to be unable to make a decision, someone would eventually make the decision for him.

If the Moon Empress used the Possess Star Intelligent Dark Clouds pollen now to save the Bamboo Monarch, he would owe her a debt that he would never be able to return.

This would be extremely beneficial to the Moon Empress.

The Moon Empress had always been looking after Lin Yuan, and he felt that it was high time that he did something to help her.

"Master, will you be happy if you can remove Wang Fuxiang's bad luck?" asked Lin Yuan with a smile.

He took out the brocade box with the Possess Star Intelligent Dark Clouds pollen and said, "Master, look, this is something I obtained by accident while nurturing a fey. The thing inside should be able to help with Wang Fuxiang's bad luck."

Lin Yuan gave the brocade box to the Moon Empress.

The Moon Empress was engulfed in her thoughts about the Bamboo Monarch's issue and was stunned when she heard what Lin Yuan said.

However, she took what Lin Yuan said seriously because she trusted and respected her disciple and because she knew that he could nurture the Golden Lotus Brocade Pearls that proved his unique abilities as a Creation Master.

The Moon Empress opened the brocade box and studied the light golden pollen inside.

Shortly after, her eyes lit up.

The pollen in the box could remove Wang Fuxiang's bad luck. However, Wang Fuxiang's bad luck was so aggressive that one box of Possess Star Intelligent Dark Clouds pollen was not enough.

The Moon Empress asked Lin Yuan, "Disciple, do you have more of this pollen?"

Lin Yuan nodded and replied, "Master, I'm able to produce one box every week."

The Moon Empress patted Lin Yuan's stray strands of hair and said, "Disciple, you've done a great service for the Bamboo Monarch. Let's go! I'll take you to Purple Bamboo Forest, and you can give the pollen to him yourself!"

She remembered Chef Supreme, who was rushing to the Purple Bamboo Forest and felt that she should give him a call to stop him.

If Chef Supreme attacked, the Bamboo Monarch and Chef Supreme would not stop fighting until one of them was dead.

They would never be on good terms again for the rest of their lives.

Lin Yuan hurriedly said, "Master, I think it's best if you give the Possess Star Intelligent Dark Clouds pollen to the Bamboo Monarch."

The Moon Empress was surprised by this, but she understood why Lin Yuan had said so.

Warmth flooded her heart, and she touched the radiant pearls on Lin Yuan's collar.

"If you give the Possess Star Intelligent Dark Clouds pollen to the Bamboo Monarch, you'll have done him a huge favor. You'll also become Wang Fuxiang's savior. From then on, you can even ask for the Purple Bamboo Forest, and the Bamboo Monarch will give it to you," said the Moon Empress gently.

Lin Yuan shook his head. He knew what the Moon Empress' intentions were, but his status was still too low to meet with the Bamboo Monarch.

Although this favor would make Lin Yuan's future smoother, he had always depended on himself and did not even like to bother the Moon Empress.

As such, he did not care about the favor that the Bamboo Monarch would owe him. Moreover, this favor would be much more useful to the Moon Empress.

Lin Yuan smiled brightly at the Moon Empress, revealing a row of pearly teeth, and said, "All I need is Master."

Chapter 907: What's There to Despise?

The Moon Empress called Chef Supreme and said, "Don't do it. I have a plan."

She hung up the call and turned to say to Lin Yuan, "Disciple, I'll need to be at the Purple Bamboo Forest for a few days, and I'll take Cold Moon with me. If you need me, you can call either one of us."

The Moon Empress gave Lin Yuan his prizes for the Martial Arts Stage.

Sacred source lifeforms that had not been contracted all looked like rainbow balls of light, and it was impossible to tell what was inside. Lin Yuan had also never tried to check.

There was also a square crest engraved with ten mottled beams of light. Some of the beams of light were bright while others were dark, but they all gave the feeling of having been through a rollercoaster of a life.

The Order of Radiant Light had the feeling of vastness, and an unknown seed was embedded in the center.

The vastness enveloped the seed, and light gave the seed burning hope of life.

When the seed grew into a large tree, it would shade all the living creatures in its vastness.

The Order of Radiant Light had a simple design and was very light.

However, it somehow felt heavy in Lin Yuan's hand.

The weight did not come from the Order of Radiant Light itself but from the pressure that weighed down on Lin Yuan.

The Order of Radiant Light marked the beginning of Lin Yuan's road to becoming a Radiance Envoy and was his advantage over others.

The Moon Empress left immediately for the Purple Bamboo Forest after giving Lin Yuan his prizes.

She could stop Chef Supreme with one call because she knew what Chef Supreme was thinking.

However, she did not know how the other members of royalty ticked.

If something happened during this time, it would be bad for the entire Radiance Federation.

In spite of the serious situation, the Moon Empress left with a warm smile on her face, as though she had just heard good news.

After the Moon Empress left, Lin Yuan wanted to take off the Moonbeam Coronation Costume.

But after struggling for some time, he gave up. The Moonbeam Coronation Costume was just as hard to take off as it was to put on.

It had 300 accessories that were all made from spiritual ingredients that came from Creation Breed feys.

Although these accessories looked sturdy and even pulling on them with excessive force would not be able to change their shapes, the accessories were all intricately made. Only strictly following the proper steps would allow one to fully remove the Moonbeam Coronation Costume.

Lin Yuan walked out of the inner palace to find Mystic Moon and said, "Uncle Mystic, I can't take off the Moonbeam Coronation Costume. Can you help me take it off?"

Lin Yuan tried taking off the radiant pearl sash, and he wondered how Mystic Moon had put it for him so easily.

Mystic Moon smiled and replied, "Young Lord, let's go to the Moonbeam Coronation Pavilion. The Moon Empress' Moonbeam Coronation Costume is usually stored there. When she was making this Moonbeam Coronation Costume, she left a space for you to hang it in the Moonbeam Coronation Pavilion."

Lin Yuan followed Mystic Moon to the Moonbeam Coronation Pavilion.

Once they were inside the Moonbeam Coronation Pavilion, Mystic Moon took off the Moonbeam Coronation Costume for Lin Yuan in fluid motions and hung it next to the Moon Empress' Moonbeam Coronation Costume.

Next, he placed the 300 accessories on a moon-colored long jade table.

"Previously, the Moon Empress' Moonbeam Coronation Costume was hung in the center of the Moonbeam Coronation Pavilion. But now, it's moved to the right to make space for yours on the left," said Mystic Moon.

Mystic Moon could not help but think of the changes that had taken place in the Radiant Moon Palace over the last six months.

Ever since Lin Yuan became the Young Lord of Radiant Moon Palace, he slowly started to leave traces of himself all over the Radiant Moon Palace.

Basically, no matter what the Moon Empress had, Lin Yuan had one too.

Mystic Moon was also delighted to have Lin Yuan as his Young Lord.

Once they left the Moonbeam Coronation Pavilion, Mystic Moon said, "Young Lord, why don't I release the Kill Food Worm while you summon the Blue Flash Purple Butterfly? Given the Kill Food Worm's personality, even if the Blue Flash Purple Butterfly can't fully control the Kill Food Worm, it should be able to stop the Kill Food Worm from going on a rampage. If you want to fully control the Kill Food Worm, you'll have to wait until it evolves to Creation Breed and transforms into the Kill Food Sky Butterfly first."

Lin Yuan nodded and replied, "Uncle Mystic, release the Kill Food Worm!"

He waved his hand and summoned the Blue Flash Purple Butterfly out of the Spirit Lock spatial zone.

The Blue Flash Purple Butterfly fluttered around and flashed with purple light.

Even Mystic Moon could not help but raise an eyebrow at the Blue Flash Purple Butterfly's beauty.

It was no wonder that the Blue Flash Purple Butterfly was one of the most beautiful butterfly-species feys.

When the Blue Flash Purple Butterfly evolved to the Purple Afterglow Beauty Goddess Butterfly, it would truly be the most beautiful.

Mystic Moon opened the jade box, and the Kill Food Worm inside was immediately frozen with attraction by the Blue Flash Purple Butterfly.

Shortly after, the vicious insect turned into an obedient puppy. It twisted its body and bounced about happily as though it was in the presence of its goddess.

The Blue Flash Purple Butterfly did not even spare a glance at the Kill Food Worm as it continued to fly around Lin Yuan.

It was clearly trying to demonstrate its affection for Lin Yuan.

Lin Yuan could sense the Blue Flash Purple Butterfly's disdain for the Kill Food Worm through their spiritual energy link.

This disdain was akin to Genius' resentment for water world dimensional lifeforms.

Although the Kill Food Worm was far from attractive, it had one of the three most elite bloodlines amongst butterfly-species feys. Technically, from a bloodline standpoint, the Kill Food Worm was of a higher level than the Blue Flash Purple Butterfly.

Moreover, the Kill Food Worm was so powerful that Lin Yuan did not know why the Blue Flash Purple Butterfly had to despise it.

Lin Yuan instructed the Blue Flash Purple Butterfly to order the Kill Food Worm to stand at attention before extending its body to one meter.

The Blue Flash Purple Butterfly reluctantly engaged the Kill Food Worm.

After receiving the Blue Flash Purple Butterfly's order, the Kill Food Worm obediently stood still and grew itself until it was one meter long..

Chapter 908: The Suppressed Genetic Ability

After being ordered by the Blue Flash Purple Butterfly, the Kill Food Worm looked hypnotized.

It looked hypnotized enough to overcome its genetic inclinations.

The Kill Food Worm even forgot its life's goal of transforming into the Kill Food Sky Butterfly. All it wanted to do now was curry favor with the Kill Food Sky Butterfly.

Lin Yuan was amazed by how much influence the Blue Flash Purple Butterfly's appearance had.

He could not help but think of the 12 Sky Fragrance Beauty Butterflies that the Moon Empress had given him.

The Blue Flash Purple Butterfly did not just attract butterfly-species feys. However, different butterfly-species feys were attracted to the Blue Flash Purple Butterfly to different extents.

The Moon Empress was the one who had nurtured the 12 Sky Fragrance Beauty Butterflies, and Lin Yuan had not contracted them. Hence, it was not easy for him to control them.

The most he could do was instruct them to order the Emperor Armored Martial God Insects to pull a fey carriage.

But after the Blue Flash Purple Butterfly evolved to the Purple Afterglow Beauty Goddess Butterfly, Lin Yuan would be able to use them to perfectly control the Sky Fragrance Beauty Butterflies.

It would be as though the 12 Sky Fragrance Beauty Butterflies were truly Lin Yuan's feys, and they would be able to control the Emperor Armored Martial God Insects to do more than just pull a fey carriage. With the Purple Afterglow Beauty Goddess' orders, the Emperor Armored Martial God Insects would become Lin Yuan's personal guards.

This would be extremely helpful to Lin Yuan.

Lin Yuan could finally focus on nurturing the 12 Diamond X/Fantasy V Sky Fragrance Beauty Butterflies until they were ready to undergo the World Cleansing to evolve into Myth Breed feys.

With the Mother of Bloodbath, Endless Summer, and the Kill Food Sky Butterfly, even the weakest Sky Fragrance Beauty Butterfly would be able to safely overcome the World Cleansing.

Lin Yuan said to the Sacred Sword Wielding Queen in the depths of his soul, "How many Law Crystals have you accumulated?"

The Sacred Sword Wielding Queen said with satisfaction, "I have about 600 Law Crystals. Master, I've been producing Law Crystals ever since you took the last batch from me."

Lin Yuan rolled his eyes.

To the Sacred Sword Wielding Queen, absorbing Law Source Crystals was a form of luxurious enjoyment.

If Lin Yuan did not allow the Sacred Sword Wielding to absorb the Law Source Crystals, it would probably start crying profusely.

But now, it was like the Sacred Sword Wielding Queen's job to absorb the Law Source Crystals.

After Endless Summer overcame the Trial of World Creation, it returned the brocade pouch with the Law Source Crystals to Lin Yuan.

There were still about 1,400 Law Crystals left after Endless Summer evolved to Creation Breed.

Including the 600 Law Crystals that the Sacred Sword Wielding Queen had produced, Lin Yuan now had a total of 2,000 Law Crystals.

The Kill Food Worm had the power of a Myth III fey, and it only needed a few more Law Crystals with pure law power to become pinnacle Myth III.

At that time, the Kill Food Worm would transform to its larva stage and be ready to undergo the Trial of World Creation.

Lin Yuan felt that the 2,000 Law Crystals should be enough to enable the Kill Food Worm to evolve to Creation Breed.

He was a person who immediately put his ideas into action.

After bidding goodbye to Mystic Moon and placing the Blue Flash Purple Butterfly and Kill Food Worm in the Jeweled Cave Golden Toad, he continued to instruct the Blue Flash Purple Butterfly to control the Kill Food Worm.

Next, he used the Tentacle Node to return to the place where Endless Summer had experienced the Trial of World Creation and released the Blue Flash Purple Butterfly and Kill Food Worm.

The Kill Food Worm was extremely obedient and looked completely different from the vicious beast it used to be.

Although the Kill Food Worm was not thinking straight, it could sense the closeness between the Blue Flash Purple Butterfly and Lin Yuan.

Moreover, Lin Yuan and the Blue Flash Purple Butterfly were spiritually connected, and the Blue Flash Purple Butterfly's spiritual ripples were interlaced with the flavor of Lin Yuan's spiritual energy. Hence, the Kill Food Worm became even more intimate with Lin Yuan.

Although it could not be as close to Lin Yuan as the Blue Flash Purple Butterfly was, it would no longer attack Lin Yuan even without the Blue Flash Purple Butterfly's control.

Lin Yuan was not against the Kill Food Worm's new attitude, and the Kill Food Worm even wanted to nudge Lin Yuan's leg as a show of affection.

This scared Lin Yuan, who jumped back in fright.

Although the Kill Food Worm had been subdued, the black spikes that covered its body could even pierce the Mother of Bloodbath's armor.

If the Kill Food Worm nudged Lin Yuan, he was afraid that he would become a bloody mangled piece of punctured flesh in no time.

He took a deep breath and instructed the Blue Flash Purple Butterfly to keep the Kill Food Worm as calm as possible.

Lin Yuan took out the amber-button-shaped fey storage box and the brocade pouch with Law Crystals.

When Lin Yuan took out two Law Crystals, the pure law power inside triggered the Kill Food Worm's abilities and caused it to cry out.

The Kill Food Worm's craving for the Law Crystals and its attraction to the Blue Flash Purple Butterfly clashed fiercely.

This was why Lin Yuan did not previously put the Kill Food Worm inside the Spirit Lock spatial zone.

Eventually, the Kill Food Worm's attraction to the Blue Flash Purple Butterfly won out, and the Kill Food Worm remained under control.

Lin Yuan tossed the two Law Crystals to the Kill Food Worm.

The Law Crystals landed on a grass patch next to the Kill Food Worm, but it did not go over to consume them as it was suppressing its yearning to wait for the Blue Flash Purple Butterfly's permission.

Lin Yuan nodded at the Blue Flash Purple Butterfly, which then gave the Kill Food Worm permission to consume the two Law Crystals.

The Kill Food Worm released a large amount of energy and shot toward the Law Crystals like an arrow.

It opened its mouth and swallowed the Law Crystals with one gulp.

Lin Yuan could not help but be amazed by the Blue Flash Purple Butterfly's ability to control the Kill Food Worm.. The Blue Flash Purple Butterfly could even win out over the Kill Food Worm's genetics to control it perfectly.

Chapter 909: The New Creation Breed, Lin Yuan's Sudden Comprehension

Lin Yuan continued to feed the Kill Food Worms 10 Law Crystals at a time.

He noticed that it became more affectionate as he continued to feed the Kill Food Worm.

It lay by Lin Yuan's feet and looked up at him with a loving gaze as it waited for him to feed it more Law Crystals.

Soon, the law aura around the Kill Food Worm became stronger and reached pinnacle Suzerain/Myth III level.

At this point, Lin Yuan had already used about 500 Law Crystals. But he did not stop. Instead, he fed it at an even faster rate.

From his experience with Endless Summer, Lin Yuan knew that many Law Crystals were needed for a fey to evolve from pinnacle Myth III to Creation Breed.

As he continued to feed the Kill Food Worm, the number of Law Crystals in the brocade pouch decreased until finally, less than 200 Law Crystals were left.

Lin Yuan sighed and decided that if the remaining Law Crystals were insufficient for the Kill Food Worm to evolve to Creation Breed, they would have to stop where they were.

The Sacred Sword Wielding Queen could produce 1,000 Law Crystals every day. He just needed to wait for two days before enough Law Crystals were produced for the Kill Food Worm to evolve to Creation Breed.

When Lin Yuan placed his last 50 Law Crystals on the ground, the Kill Food Worm only absorbed some of them.

At that moment, the Kill Food Worm's power allowed it to break free from the Blue Flash Purple Butterfly's control, and it started to thrash about wildly on the ground.

Lin Yuan shook his sleeve, and the amber-button-shaped Source Sand changed into a granule of sand and tunneled underground.

The ground in a 10-meter radius around Lin Yuan turned into quicksand.

A feather formed from the Day and Night Spirit Silver shot out of the quicksand and turned into black wings that attached themselves to Lin Yuan.

Lin Yuan flapped the wings and flew up into the air.

The Blue Flash Purple Butterfly landed on Lin Yuan's shoulder. It was clear that the Kill Food Worm's aura had scared it after it had absorbed the Law Crystals.

From the Blue Flash Purple Butterfly's reaction, Lin Yuan could tell how much more it hated the Kill Food Worm now.

He felt that the obedient Kill Food Worm's future would not be smooth sailing from now on.

From the Kill Food Worm's aura, Lin Yuan could tell that it was about to evolve to Creation Breed because its aura had already caused a thick Trial of World Creation Cloud to form. The Trial of World Creation Cloud was already flashing with crimson lightning.

The Kill Food Worm was rapidly spitting out sky blue silk threads, and it looked as though a swatch of sky was wrapping around the Kill Food Worm.

The light blue threads contrasted with the Kill Food Worm's brown body, but soon, the light blue threads melded with the black spikes to fully envelop the Kill Food Worm.

A 600-meter-long light blue larva loomed before Lin Yuan.

He hastily moved backward. The Kill Food Worm could easily handle all of the Trial of World Creation's attacks in its larva stage.

Lin Yuan only needed to stand by the side and watch quietly until the Kill Food Worm overcame the Trial of World Creation and broke out of its larva.

Lin Yuan flapped his wings and flew to a safe area. He instructed the Source Sand to dig a trench around the larva in preparation to catch the residual energy of the Trial of World Creation.

He still did not know what he could do with the small golden pearl that had formed on the Pure Land of Bliss after absorbing the Creation World Ley Line.

At that moment, a crimson lightning bolt descended from the Trial of World Creation Cloud and struck the larva like a red cleaver.

Red lightning-shaped patterns appeared all over the light blue larva.

Despite being struck by lightning, the larva remained silent.

Lin Yuan sensed that the law power had shattered, and an aura of destruction was hanging around the larva.

However, Lin Yuan also sensed a burgeoning vitality within the aura of destruction that differed from the Kill Food Worm's own vitality.

The energy from the new vitality made Lin Yuan's hair stand on end.

He knew that this was the aura of the Kill Food Sky Butterfly's bloodline.

The Blue Flash Purple Butterfly did not seem affected by the Kill Food Sky Butterfly's bloodline.

As a butterfly-species fey, the Blue Flash Purple Butterfly only knew how to admire itself and was unbothered by bloodlines that were more elite than its own.

The Trial of World Creation's attacks continued to descend, and each strike embedded the lightning bolt patterns on the larva even deeper.

When the third strike landed on the larva, a fist-sized hole opened on its top.

A skinny blue butterfly flew out of the hole.

There were light purple spots on the butterfly that reflected the sunlight like gems.

Lin Yuan had imagined what the Kill Food Sky Butterfly would look like. As one of the butterfly-species feys with the three most elite bloodlines, Class 4 Fey Observers had written an introduction about the Kill Food Sky Butterfly.

However, the Class 4 Fey Observers had only written a few lines and had not included any pictures.

Lin Yuan did not expect the ugly Kill Food Worm to become so beautiful when it transformed into the Kill Food Sky Butterfly.

Despite having the power of worlds, the Kill Food Sky Butterfly looked weak and fragile.

Lin Yuan could not help but be disappointed.

He thought that the Kill Food Worm would be able to comprehend a Willpower Rune when it transformed into the Kill Food Sky Butterfly.

He did not expect that it would not comprehend anything at all.

But after the Kill Food Sky Butterfly flew out of the larva, Lin Yuan sensed the change in attitude that the Blue Flash Purple Butterfly had toward the Kill Food Sky Butterfly.

The Blue Flash Purple Butterfly was no longer hateful. Instead, it looked like it had fallen in love at first sight.

Lin Yuan looked at the Blue Flash Purple Butterfly in shock. Apparently, the Blue Flash Purple Butterfly still only cared about looks.

At that moment, the Blue Flash Purple Butterfly flew toward the Kill Food Sky Butterfly.

Now, only the Creation World Ley Line was left to descend, and there was no danger for the Blue Flash Purple Butterfly.

Hence, Lin Yuan did not stop the Blue Flash Purple Butterfly.

The Blue Flash Purple Butterfly and the Kill Food Sky Butterfly flew around each other as the afternoon sunbeams cascaded down around them.

As Lin Yuan sensed the Blue Flash Purple Butterfly's mood, he suddenly entered a state of comprehension..

Chapter 910: Son, You're Amazing!

The weak blue butterfly with purple spots and the shimmering purple butterfly fluttered around each other as though they were in love.

The picture of the two dancing butterflies was exceptionally beautiful.

The light reflecting off the butterflies were like ripples of water that intermingled with the sunbeams, forming fractals of tea-colored light that made the sunlight appear even more charming.

Lin Yuan had not known what kind of Willpower Rune would be suitable for the Blue Flash Purple Butterfly.

He had chosen to contract the Blue Flash Purple Butterfly because Morbius' Spirit Lock spatial zone could only be used by feys with Normal abilities, and the Blue Flash Purple Butterfly's Silence Scale Powder had been just the control ability that Lin Yuan needed.

However, the butterfly that had hatched from the Blue Flash Butterfly's cocoon Lin Yuan had bought from Liu Jie unexpectedly underwent a legendary transformation.

This had given Lin Yuan an opportunity that he had yet to use.

Now, Lin Yuan was no longer clueless about this as a purple butterfly-shaped rune appeared in his spiritual spatial zone.

The Willpower Rune that Lin Yuan comprehended was the Blue Flash Purple Butterfly's original form and the word 'beautiful' projected from the Willpower Rune.

This Willpower Rune was a beauty-related one that Lin Yuan had comprehended from the Blue Flash Butterfly.

This was the most special Willpower Rune that Lin Yuan had comprehended, but it was not as special as the Kill Food Sky Butterfly's comprehension power.

The Willpower Rune that Lin Yuan had just comprehended was aimed at the spirit and soul and was considered an attribute willpower.

Lin Yuan smiled brightly as he looked at the spinning butterfly-shaped Willpower Rune. The problem that had been poking the back of his mind was finally gone.

Since the Blue Flash Purple Butterfly had comprehended the butterfly-shaped Willpower Rune, it was definitely suitable for it.

The Blue Flash Purple Butterfly was finally going to evolve to Fantasy Breed.

After the Blue Flash Purple Butterfly evolved to Fantasy Breed, Morbius would also be able to evolve to Fantasy Breed. Morbius' evolution to Fantasy Breed would be extremely beneficial to Lin Yuan because not only would it gain new exclusive abilities, but the Spirit Lock spatial zone would also expand. It was even possible that new abilities would appear.

When Morbius was Normal quality, there had only been one spirit pool inside the Spirit Lock spatial zone. But after Morbius had evolved to Bronze grade and gained the Pure Land of Bliss, a patch of white sand that could heal a fey's roots also appeared.

Both the improvement in the Spirit Lock spatial zone's facilities and its expansion would improve Lin Yuan's arsenal of abilities.

It would allow Lin Yuan to produce more precious resources that would help him gain partnerships with more factions and expand his personal and business network.

This would greatly be in Lin Yuan's interests.

When Morbius evolved to Fantasy Breed, the concentration of spirit qi in the Spirit Lock spatial zone would increase, and the jade-textured wood and spotted corals would also be produced at a quicker rate. The Elemental Shellfish would also produce heavenly-maiden-grade elemental pearls faster.

Ever since the incident of the evolving water world dimensional rift, Lin Yuan had not been able to communicate with Morbius as it had fallen asleep and had yet to awaken.

It was likely that Morbius would wake up from its slumber during its evolution to Fantasy Breed.

At that moment, the Kill Food Sky Butterfly suddenly activated its world power that solidified around its body.

The Kill Food Sky Butterfly did not absorb the Creation World Ley Line that had descended from the Trial of World Creation Cloud as it was too preoccupied with swearing its loyalty to the Blue Flash Purple Butterfly.

After the Kill Food Sky Butterfly swore to become the Blue Flash Purple Butterfly's servant, Lin Yuan sensed the imprint of a law world from his spiritual energy link with the Blue Flash Purple Butterfly.

The imprint was like a switch through which the Blue Flash Purple Butterfly could order around the Kill Food Sky Butterfly. The Blue Flash Purple Butterfly could even take the Kill Food Sky Butterfly's life if it wanted to.

Lin Yuan felt that the Kill Food Sky Butterfly was doing a good job of being an obedient puppy.

It immediately became obedient before even ascertaining if the master it decided to serve was worth serving.

Lin Yuan sensed the Blue Flash Purple Butterfly's affection for the Kill Food Sky Butterfly deepening and thought, *?It looks like the Blue Flash Purple Butterfly will be treating the Kill Food Sky Butterfly well.*

This was the first time that Lin Yuan had sensed such strong emotions from the Blue Flash Purple Butterfly ever since contracting it.

He had always thought of the Blue Flash Purple Butterfly as a haughty and vain male butterfly. He did not expect it to turn into a lovesick teenager the moment it met the Kill Food Sky Butterfly.

This made Lin Yuan think of the Jasmine Lily.

The Blue Flash Purple Butterfly used to stick with the Jasmine Lily, and Lin Yuan felt that their relationship transcended that which could exist between feys.

But now, he felt that he had been thinking too much.

The Blue Flash Purple Butterfly was just a jerk that had been using the Jasmine Lily as a soft bed.

Now that the Blue Flash Purple Butterfly had fallen in love at first sight with the Kill Food Sky Butterfly and the Jasmine Lily had become even more luscious, it was likely that the Jasmine Lily would become both the Blue Flash Purple Butterfly and Kill Food Sky Butterfly's bed in the future.

Lin Yuan understood why the Kill Food Sky Butterfly did not change into human form. According to the Class 4 Fey Observer's description of the Kill Food Sky Butterfly, its bloodline was so elite that it did not like to change into human form. It would only change into human form when faced with an enemy so it could use body weaponization to attack.

The Trial of World Creation Cloud was still creating the Creation World Ley Line, so Lin Yuan called over the Kill Food Sky Butterfly and Blue Flash Purple Butterfly.

The Blue Flash Purple Butterfly landed on Lin Yuan's nose, and the Kill Food Sky Butterfly followed suit.

A clear and calm female's voice coyly greeted Lin Yuan like how a wife would talk to her father-in-law.

This made Lin Yuan want to praise the Blue Flash Purple Butterfly.

Son, you're amazing!

While Lin Yuan internally praised the Blue Flash Purple Butterfly, his eyebrow twitched, and he responded to the Kill Food Sky Butterfly's greeting.

The Kill Food Sky Butterfly was a Creation Breed fey, and its world power was centered around combat..
