

## **MGE 1151**

### **Chapter 1151 - Suppressing the Moonshatter Great Holy**

“Are you going to go all out? Great! Let me slay you and use your life origin to lay my foundation!”

There was a flash of excitement in Yang Feng’s eyes. The Xi Shen Armor shone, erupted with countless runes, and spread a pair of wings engraved with countless runes, entering its second form.

The Kunmo Stone in the core of the Xi Shen Armor shone, and tremendous power poured into Yang Feng.

Yang Feng brandished the Green Yang Halberd, and 10 suns appeared, brilliant green sunlight covered the sky, and a green halberd ray stabbed the moonlight spear, which took the Moonshatter Great Holy 30,000 years to refine.

In an instant, countless wisps of green sunlight purified the moonlight and intertwined with it.

The void shook and a terrible energy storm swept in all directions.

As if blown by spatial wind, a green sunflame crossed tens of thousands of light-years and landed on an abandoned celestial body.

The abandoned celestial body burst into raging flames and burned to ashes.

A moonlight ray fell on a celestial body, and the celestial body exploded into countless fragments.

The Green Yang Halberd tore the moonlight, ran through the void, and slashed the 100,000-meter-long cosmic eyes tiger.

The space twisted and distorted, making the Green Yang Halberd slightly deviate from its original trajectory.

A terrifying green halberd ray suddenly broke out and severed the cosmic eyes tiger’s right foreleg from the shoulder, and a large amount of blood spilled.

A black hole suddenly emerged and swallowed the right foreleg of the cosmic eyes tiger.

There was a flash of fear in the Moonshatter Great Holy’s eyes. A pair of spatial wings formed from the essence of space appeared behind him, and he space jumped and fled into the distance.

“Lost! The Moonshatter Great Holy actually lost!”

“The Firmament Holy actually defeated the Moonshatter Great Holy!”

“He surprisingly defeated an eternal empyrean race Great Holy!”

“...”

Seeing this scene, the complexion of the spectating Holies changed dramatically and their expression flashed with incredulity. They didn’t expect that Yang Feng could defeat a Great Holy, an eternal empyrean race Great Holy, too boot.

The Cloud Dragon Queen inhaled a breath of cold air. She had already regarded Yang Feng very highly, but she still didn't expect that Yang Feng could defeat a Great Holy: "What a scary monster! A peerless prodigy of this era, a monster with the making of an Empyrean!"

Yinshe Xingkong was also filled with shock: "Amazing! Truly amazing! The Firmament Holy Yang Feng is an incredible powerhouse! To defeat a Great Holy while in the advanced Holy Spirit Warlock realm, how dreadful!"

"Awesome! To actually be able to defeat a Great Holy, this Firmament Holy is incredible strong!"

"The Firmament Holy is really powerful! In their day, Empyreans were probably no stronger than him!"

"..."

In the Hall of Holies, the eyes of the Tai Yuan Star's aristocratic waiters shimmered with shock.

"Firmament Holy! Since you dared injure me, you're dead! The cosmic eyes tiger race will never let you get away with it! Today's grudge will be repaid one hundred-fold in the future!"

After several space jumps, the Moonshatter Great Holy appeared thousands of light-years away and issued an earth-shaking roar.

"Repaid one-hundredfold you say? You're going to die today, so how can you repay anything?"

Yang Feng raised the corners of his mouth into a slight smile of contempt and pointed with a finger, and the Bead of Time suddenly appeared, glittered with countless runes, and emitted immortal Empyrean might. A torrent of time emerged, crossed thousands of light-years along a mysterious law, and rolled out towards the Moonshatter Great Holy.

Swept by the torrent of time produced by the Bead of Time, the Moonshatter Great Holy trembled slightly, and the flow of time around him became disordered.

"Power of the essence of time!"

Surprised, the Moonshatter Great Holy frantically burned the power of his bloodline. A cosmic eyes tiger 1 million meters long suddenly appeared, roared, broke out with tyrannical power, and directly shattered the torrent of time around him.

At the moment when the torrent of time was shattered, the Moonshatter Great Holy saw Yang Feng appear in front of him and stab at him with the Green Yang Halberd.

The Moonshatter Great Holy opened his mouth, and a small golden bell flew out and evolved into a golden star blocking in front of him.

Yang Feng slashed the golden star with his halberd. 10 suns suddenly appeared, and a green halberd ray instantly split the golden star, landed on the Moonshatter Great Holy, and sliced him in two.

A black hole suddenly emerged, drew the Moonshatter Great Holy inside, and frantically devoured his life origin.

After the Moonshatter Great Holy was swallowed by the black hole, he frantically struggled inside and nearly broke free. In the end, however, he was suppressed by Yang Feng, unable to escape.

“Suppressed! He actually suppressed the Moonshatter Great Holy! This, this is incredible!”

“That’s an eternal empyrean race Great Holy, yet he suppressed him just like that! How fierce!”

“To be able to suppress a Great Holy, the Firmament Holy is really terrifying! Amazing!”

“...”

The spectating Holies inhaled a breath of cold air, feeling a chill go down their spine.

The Moonshatter Great Holy is a Great Holy rank powerhouse, a most formidable existence of a race. Back in the day when the Time Lord created the Time Imperial Court, suppressed the universe, and defeat the strongest powerhouses of the time, there were only 12 Great Holies following him.

The golden bones race and the other two empyrean races of the Tai Yuan Star have only about three Great Holies standing guard.

“Firmament Holy, the Moonshatter Great Holy is a Great Holy of the cosmic eyes tiger race! Hurry and release him! Don’t invite a calamity to the Tai Yuan Starfield!”

Along with flashes of golden light, the golden bones race’s Empyrean grade secret treasure the Golden Piercing Horn suddenly flew out and shone brightly, and a true spirit level direbeast golden horn rhinoceros appeared from the Golden Piercing Horn. It locked the void and charged at Yang Feng.

Behind the true spirit level direbeast golden horn rhinoceros, projections containing the will of countless golden bones race powerhouses appeared one after another.

Taking advantage of the moment when Yang Feng suppressed the Moonshatter Great Holy, the Golden Noble Great Holy mobilized the power of the golden bones race and launched a fearsome attack.

The Golden Noble Great Holy is aware that this attack cannot claim Yang Feng’s life. But so long as he rescues the Moonshatter Great Holy, Yang Feng would have an additional Great Holy rank enemy.

“Golden Noble Great Holy, by taking action during my fight with the Moonshatter Great Holy, you have broken the rules! That’s great! Now I don’t have to obey any rules, either!”

The look in Yang Feng’s eyes turned cold. All of a sudden, ripples rose, and 10,000 Vajra Rulers appeared.

The 10,000 Vajra Rulers shone with countless runes, resonated with each other, and condensed their power into one, forming a golden light screen covering 100 kilometers.

The true spirit level direbeast golden horn rhinoceros slammed into the light screen and crushed it.

In an instant, countless cracks appeared on the 10,000 Vajra Rulers, and even their core microchips burst.

With its power not diminished, the true spirit level direbeast golden horn rhinoceros stabbed at Yang Feng with its giant horn.

Yang Feng smiled faintly, and the black hole knocked into the true spirit level direbeast golden horn rhinoceros.

At the moment of contact, the black hole opened and spat out the Moonshatter Great Holy.

“No!”

The countenance of the Moonshatter Great Holy changed dramatically, and he issued a deafening roar.

The giant horn of the true spirit level direbeast golden horn rhinoceros stabbed the Moonshatter Great Holy and tore him apart, nearly shattering his soul.

A black hole suddenly emerged, swallowed the Moonshatter Great Holy, and frantically devoured his life source.

In a few breaths of time, the Moonshatter Great Holy’s life origin was sucked dry, and he turned into a desiccated corpse.

“How could this happen?”

The Golden Noble Great Holy’s face turned pale and his eyes shimmered with despair.

“It’s impolite not to reciprocate! Since the golden bones race has acted against me, the I’ll charge some interest first!”

Yang Feng smiled coldly and pointed with a finger, and a warship more than 3,000 kilometers long flew out of the void. 36 Holy Slaying Artillery shone and bombarded the headquarters of the golden bones race and its allies on the Tai Yuan Star.

“Stop!”

The Golden Noble Great Holy’s countenance changed greatly, and he roared madly.

The golden bones race’s headquarters unleashed golden boundaries that blocked the light beams shooting towards it.

A Holy Slaying Artillery light beam slammed into the Black Ancient Mountain, the headquarters of the black bones race, which is a vassal race of the golden bones race.

The 100,000-meter-tall Black Ancient Mountain erupted with a black boundary. The black boundary had just emerged, when it was pierced through by the light beam. The light beam swallowed entire Black Ancient Mountain, wiping out all the black bones race powerhouses inside.

In the wake of the terrifying light beams, spirit mountains belonging to the golden bones race’s allies were blasted to pieces, and countless powerhouses perished.

“Firmament Holy, please stop!”

An endless cloud suddenly appeared. In the cloud, a cloud dragon converged and turned into a tall, handsome middle-aged man.

“Cloud Dragon Great Holy! He’s here!”

“This is the Cloud Dragon Great Holy. Is the cloud dragon race going to take action?”

“ ... ”

When the spectating Holies saw the middle-aged man, their eyes flashed with enigmatic light. The Cloud Dragon Great Holy, the Golden Bones Great Holy, the Silver Brilliant Spirit Snake Great Holy, these three Great Holies are the strongest Great Holies of the Tai Yuan Starfield.

Among these three Great Holies, the Cloud Dragon Great Holy is the strongest. He is regarded as the No. 1 powerhouse of the Tai Yuan Starfield.

## **Chapter 1152 - Quelling 10 Celestial Bodies in a Row**

Yang Feng glanced at the Cloud Dragon Great Holy and asked coldly, "Does the cloud dragon race wants to be my enemy?"

The Cloud Dragon Great Holy's aura is like a sea, like a bottomless sea and his strength is unfathomable, far above that of the Golden Bones Holy.

Although Yang Feng is able to slay the Moonshatter Great Holy, but he is aware that he is still not the opponent of the Cloud Dragon Great Holy. However, with the Empyrean grade secret treasures that he has on his person, if he wants to escape, then the Cloud Dragon Great Holy might not be able to make him stay.

6 celestial bodies with abundant resources have fallen into Yang Feng's hands. Thanks to the resources of these 6 celestial bodies, a steady stream of battle robots will be manufactured.

Even if the cloud dragon race and the golden bones race join forces, Yang Feng is confident in his ability to defeat them.

When the Cloud Dragon Great Holy appeared, the Golden Noble Great Holy stopped attacking and quietly looked at the scene in front of him.

The Cloud Dragon Great Holy replied, "Firmament Holy, the cloud dragon race doesn't intend to be your enemy! However, the Tai Yuan Star is our home celestial body. Please be understanding and don't use such powerful weapons here."

With their power, Holy Slaying Artillery can slay Holies and severely injure Great Holies. They can wipe out a low grade celestial body with one strike.

The Tai Yuan Star is a high grade celestial body that can withstand fights between Holies. However, Holy Slaying Artillery can still cast devastating damage to this celestial body and harm its plane origin.

Yang Feng smiled coldly, looked at the Golden Noble Holy, and uttered icily: "Fine, I'll give you face, Cloud Dragon Great Holy. Golden Noble Great Holy, you dared to attack me during the duel. Hand over 20 life celestial bodies. Otherwise, I will sweep the celestial bodies of the golden bones race's vassals and eliminate them one by one!"

Yinshe Xingkong smiled helplessly: "I see, so the golden bones race was his target all along. In this way, we can't stop him from dealing with the golden bones race."

The Cloud Dragon Holy frowned and sighed, yet remained silent.

Originally, Yang Feng, an outsider from the main world, was secretly resisted by the Tai Yuan Starfield's powerhouses. Originally, Yang Feng obtaining 10 life celestial bodies was already the limit. The Tai Yuan Starfield's Holies wouldn't tolerate any more than that.

However, Yang Feng slayed a Great Holy by himself. Coupled with the Golden Noble Great Holy interference in the duel, it gave him the best excuse. At this time, no one can oppose Yang Feng's revenge, or else they will become his enemy. No one is willing to stand against an unequaled prodigy who slayed a Great Holy while in the Holy Spirit Warlock realm.

The Golden Noble Great Holy's face flushed from anger. He swept the Holies at the scene with his gaze, seeking the support of allies.

Under the Golden Noble Great Holy's gaze, the Holies lowered their heads one by one, as if they hadn't seen the Golden Noble Great Holy.

Yang Feng said indifferently, "Golden Noble Great Holy, will you hand them over or not? If you don't, then we'll have a full-scale war, where only one side will be able to survive!"

By slaying the Moonshatter Great Holy, Yang Feng pulled off an awe-inspiring feat. Consequently, even the allies of the golden bones race were deterred by Yang Feng's power, not daring to be his enemies. The Tai Yuan Starfield's neutral Holies are even more so reluctant to be enemies with such an unparalleled prodigy like Yang Feng.

"20 life celestial bodies! If we hand over 20 life celestial bodies, the golden bones race will no longer be able to hold its position as one of the Tai Yuan Starfield's three empyrean races! Firmament Holy, if you want war, then we'll go to war with you! The golden bones race will fight you to the bitter end!"

With a fierce flash in his eyes, the Golden Bones Great Holy pointed with a finger, and the Golden Piercing Horn shone. The true spirit level direbeast golden horn rhinoceros projection appeared, radiated endless golden light, and rushed towards Yang Feng.

"Great, since the golden bones race wants to be exterminated, then I'll give you guys a hand!"

All of a sudden, the Bead of Time appeared, a river of time surrounded Yang Feng, and the flow of time around him accelerated hundred-fold. His figure fluttered, and he turned into a stream of light and flew into the distance.

The Empyrean grade secret treasure the Bead of Time is far below other Empyrean grade secret treasures in terms of offense and defense. However, its ability to manipulate time can be rated as heaven-defying. In an instant, Yang Feng disappeared along with it.

The Golden Noble Great Holy, who is the second strongest powerhouse of the golden bones race, has intermediate Great Holy rank cultivation base. Within the scope of the Tai Yuan Star, he can obtain a boost in strength from his race. Yang Feng naturally chose not to fight him here.

The Golden Noble Great Holy looked around and said, "Everyone, the Firmament Holy is really arrogant and domineering! Would you like to join hands with me and destroy this human bastard?"

The Tai Yuan Starfield's Holies remained silent. They lowered their heads, unwilling to get themselves involved in the war between the humans and the golden bones race.

“Golden Bones Great Holy, let me give you a gift!”

Yang Feng’s voice suddenly rose in the void. A metal sphere emerged, opened, and ejected light that formed a projection in the void.

A screen depicting a celestial body appeared in the void. In the outer space outside the celestial body, ripples rose, and a huge interstellar fleet appeared.

In an instant, countless light beams poured down on the celestial body like a tide and destroyed the celestial body’s cities one after another.

Countless level-6 battle robots turned into a torrent of steel and flew towards the celestial body.

“Chattem Star!”

“So decisive and fast!”

“To act so soon, that’s so vicious!”

“...”

When the Holies saw this, their complexion changed dramatically. The Holies believed that Yang Feng needed to prepare for at least 10 days before he could launch an attack. They didn’t expect that Yang Feng would be so fierce. As soon as he left, he began to attack the golden bones race’s vassals.

Hundreds of thousands of Transcendent rank powerhouses with human head and snake body flew out from the Chattem Star.

The mechanical legion, which is filled with Bright World Warlock rank robots, plunged into the swarm of Transcendent rank powerhouses and, as if cutting through butter, easily slayed the Transcendent rank powerhouses.

Countless lights rained down on the Transcendent rank powerhouses with human head and snake body and erased them from this world, turning them into countless fragments.

“So strong! What terrifying mechanical golem legion!”

“Awesome! Even the mechanical golem legion of legend of the 6th Warlock Emperor, the Dawn Lord, may not have been this powerful!”

“...”

When the Holies saw this scene, they inhaled a breath of cold air.

In front of these Holies, Infinity Warlock rank powerhouses are nothing but ants that they can slay with a casual strike. If they go all out, they can even slay 100 Infinity Warlocks in one blow.

However, the number of Infinity Warlock rank battle robots attacking the Chattem Star is 10 million. Before such a force, even these Holies would feel their skull go numb and would retreat.

The dreadful mechanical legion descended on the Chattem Star and wiped out the golden bones race’s staunch allies.

“The Chattem Star is finished!”

“What a ferocious method!”

“...”

The Holies sighed when they saw the mechanical legion descend of the Chattem Star.

The Golden Noble Great Holy was so angry that he started trembling and his eyes became shot with blood.

The mechanical sphere flickered, lights shone, and nine projections depicting nine celestial bodies suddenly emerged.

In the outer space outside the nine celestial bodies, the space rippled, and nine huge interstellar fleets suddenly appeared and attacked the nine celestial bodies.

Light rained down on the nine celestial bodies and blasted apart the headquarters of the golden bones race’s vassals, and then a huge number of battle robots shot towards the nine celestial bodies like tides.

Countless Transcendent rank powerhouses emerged from the nine celestial bodies and engaged with Yang Feng’s mechanical legion.

The Transcendent rank powerhouses were easily cut into countless pieces.

After smashing dozens of battle robots, other race Warlock Monarch rank powerhouses were slayed and became evolution nutrients of the mechanical legion.

Under this complete suppression, the 10 celestial bodies that can give birth to Holy Spirit Warlocks were occupied by Yang Feng and became his territory.

“How fierce! The Firmament Holy is so fierce!”

“10 celestial bodies were quelled just like that! That’s really vicious!”

“The Firmament Holy is really dreadful. I should make sure to never become his enemy!”

“...”

When the Holies saw these scenes, their expressions became extremely unsightly.

The golden bones race’s 10 life celestial bodies were easily captured and their Transcendents were slaughtered and reduced to materials. Of the celestial bodies protected by Holies, few can withstand such a fearsome attack.

The most frightening thing is that Yang Feng’s mechanical legion is practically endless. Once he captures a celestial body, it will be impossible to get it back.

The Cloud Dragon Great Holy’s eyes shimmered with regret, “How dreadful! The Firmament Holy Yang Feng is really dreadful! I shouldn’t have given the Golden Noble Great Holy a chance to attack just now!”

The Golden Noble Great Holy attacked Yang Feng with the tacit approval of the Tai Yuan Starfield's Holies. They didn't want to see Yang Feng devour the Moonshatter Great Holy and become more powerful.

However, the Tai Yuan Starfield's Holies didn't expect that Yang Feng would take this opportunity to completely fall out with the golden bones race and occupy 10 celestial bodies in a row.

Now even the silver brilliant snake race doesn't dare to stand in front of Yang Feng's crusade against the golden bones race, or else Yang Feng will regard it as a mortal enemy and attack and annihilate it.

"Curses! What do I do? What do I do now?"

Seeing this scene, the Golden Noble Great Holy felt cold all over his body, as if he fell into an ice cave. He broke out in a cold sweat from his back. He doesn't know what to do.

The golden bones race doesn't fear Yang Feng, whose true body can be regarded as a Great Holy. However, the same is not true for the endless mechanical legion under his command. It is a most feared existence for the golden bones race.

### **Chapter 1153 - Empyrean Corpse**

"I have something else to do! I'll take my leave first, everyone!"

A Holy spoke a few words, and then turned into a stream of light and disappeared.

The Holies standing in the void blurred and disappeared one after another.

The cloud dragon race and silver brilliant snake race Holies disappeared, as well.

Only the Golden Noble Great Holy and a few golden bones race's ally Holies remained in the void.

"Firmament Holy, if you want to fight, then the golden bone race will fight you to the death!"

After panicking for a moment, the Golden Noble Great Holy's eyes flashed with a dignified and decisive shade. His figure fluttered, and he flew away with the other Holies.

"Holies, I am the Silver Brilliant Manor's young master Yinshe Xingkong. I wonder what to call you two and where you come from?"

With a flash of light, Yinshe Xingkong appeared in front of the two Holies who came with the Moonshatter Great Holy and made a salute.

The beautiful Holy with long black hair smiled and said, "I am the Lightless Sea's Lightless Sacred Maiden. This is my friend, the zhenxu race's divine son."

Yinshe Xingkong narrowed his eyes and uttered with a mild smile, "So it's Your Highnesses the Lightless Sea's Lightless Sacred Maiden and the zhenxu race's divine son. Excuse me for my lack of manners."

The Lightless Sea and the zhenxu race are a force comparable to an eternal empyrean race and an eternal empyrean race respectively. The sacred daughter and the divine son are prodigies of these two major forces with the greatest potential and comparable to Great Holies of the central starfield.

The Zhenxu Divine Son uttered haughtily, "I'm here because of the Abaddon Emperor Palace."

Yinshe Xingkong smiled and asked, "Would the two of you like to come to the Silver Brilliant Manor to have a talk?"

The Lightless Sacred Daughter smiled and said, "Then I'll have to trouble you."

The three Holies disappeared along with flashes of light.

After Yang Feng's mechanical legion captured 10 celestial bodies, countless engineering robots entered the 10 celestial bodies and began to madly transform them and collect all kinds of resources.

In addition, in the Jue Yuan Mountain's Holy gathering, Yang Feng got four celestial bodies. A total of 16 life celestial bodies with rich resources fell into his hands.

Booming sounds of machinery rose on the 16 life celestial bodies as countless engineering robots excavated minerals. At the same time, the 16 celestial bodies were shrouded in a thick fog, making it impossible to see what's going on there.

The Tai Yuan Starfield's Holies cast spells to monitor the 16 celestial bodies. They are aware that the golden bones race won't leave the matter at that.

One day later, brilliant golden light shone, and a golden spirit mountain engraved with countless mysterious runes flew out of the Tai Yuan Star.

"On the move! The golden bone race is on the move!"

"So decisive. That's the Golden Bones Sacred Mountain, a sacred land where the golden bones race has resided for 10,000 years. The golden bones race has mobilized all its strength! It's going to launch a fierce offensive!"

"The fight between the two will determine which race will be the third empyrean race of the Tai Yuan Starfield. The defeated side will sink into a hopeless situation."

"..."

When the Holies detected the movement on the Tai Yuan Star, excitement flashed in their eyes, and they cast various spells in an attempt to spy on the golden bone race.

As soon as the Golden Bones Sacred Mountain left the Tai Yuan Star, ripples appeared around it, and it entered the ripples and disappeared.

Even though the Holies used all kinds of spells, they can't find any traces of the Golden Bone Sacred Mountain.

Silver Brilliant Manor, in a garden.

The Zhenxu Divine Son took a glass of wine, took a sip, and asked with a faint smile: "The golden bones race finally took action! Young manor master, which side do you think has a better chance of winning this war?"

Yinshe Xingkong answered, "The Firmament Holy has a higher chance of winning."

The Zhenxu Divine Son uttered, "Oh? The Firmament Holy has only a few Holies under him. The golden bones race is an empyrean race of the Tai Yuan Starfield. It has existed for hundreds of thousands of years and has a terrifying underlying strength. Yet it still has slim odds against the Firmament Holy, who just recently arrived from the main world? In addition to a Great Holy rank starry direbeast, what other tricks does the Firmament Holy have up his sleeve?"

Yinshe Xingkong uttered, "I don't know!"

The Zhenxu Divine Son smiled and uttered, "Okay, let's make a bet! I bet that the golden bones race will be able to defeat the Firmament Holy. If I win, you'll give me a Spring of Immortality and vice-versa. Are you in?"

Yinshe Xingkong replied after contemplating for a moment, "Alright!"

The Tai Yuan Star, the Cloud Sea.

The Dragon Cloud Queen asked, "Father, who do you think will win this war?"

A profound glimmer of wisdom streaked across the Cloud Dragon Great Holy's eyes, and he replied slowly, "It should be the golden bones race! After all, as one of the three empyrean races of the Tai Yuan Starfield, the golden bones race has profound underlying strength. They previously explored the treasure-troves of two Empyreans. The Firmament Holy can fight the golden bones race to a draw at most. But the final victor is bound to be the golden bones race."

At the Jue Yun Mountain, the reason why the Cloud Dragon Queen gave in to Yang Feng was that she was unwilling to make an enemy of him for no reason. But that doesn't mean that she fears him.

Previously, the Cloud Dragon Great Holy didn't assume a severe stance against Yang Feng because he doesn't want to make an enemy of him, not because he thinks that the cloud dragon race is weaker than him.

The Cloud Dragon Queen sighed: "I also think that the golden bones race will win. However, there is a voice in my heart saying that the Firmament Holy will be the final victor."

The Cloud Dragon Great Holy smiled faintly and said, "Your hunch isn't wrong. The Firmament Holy, who slayed a Great Holy while in the advanced Holy Spirit Warlock realm, possesses tremendous potential. Even if he is defeated in this war, as long as he lives, he will be able to defeat the golden bones race in the future. If he doesn't die in this war, he will be the final victor in the future."

The Cloud Dragon Queen nodded and waved her fair hand, and the Empyrean grade secret treasure the Dragon Cloud Mirror shrouded in a cloud suddenly flew out and radiated brilliant light.

Cloud eyes emerged in various places of the Tai Yuan Starfield, searching for the golden bone race's Golden Bones Sacred Mountain and Yang Feng's interstellar fleet.

A starfield is extremely vast, hundred times wider than the Milky Way Galaxy. Although Holy rank powerhouses can cast secret methods to peek into an area hundreds of thousands of light-years away, but compared to the whole starfield, said area is only the size of a grain of dust.

Holies such as the Cloud Dragon Queen are unable to find the traces of the golden bones race's Golden Bones Sacred Mountain and Yang Feng's interstellar fleet.

In the Chattem Star's outer space, spatial ripples rose, and the Golden Bones Sacred Mountain emerged.

"There it is! At the Chattem Star!"

"The golden bones race's target is the Chattem Star!"

"..."

As soon as the Golden Bones Sacred Mountain appeared, the Holies paying attention to this place immediately relayed the information to their friends. The wills of Holies converged on this place from all over the Tai Yuan Starfield.

"Perish!"

A tyrannical voice came from the Golden Bones Sacred Mountain.

Two giant golden bones hands emitting Great Holy rank fluctuations of power tore the firmament and extended towards the Chattem Star.

The two giant golden bones hands have a length of 10,000 kilometers each. Everywhere they pass, the void collapses and the core chips of the formless Mist Rulers shatter.

On the Chattem Star, mechanical towers suddenly emerged, and countless runes shone and converged on the central tower.

A mechanical flower occupying an area tens of kilometers in radius bloomed, revealing a 100-meter-long conical spike engraved with numerous mysterious runes.

The mechanical flower is one of the strongest offensive weapons of the xizu and is called the Celestial Body Destruction Fortress Cannon. This is a terrifying weapon that is based on a formidable celestial body and draws the power of the celestial body. In terms of power alone, a full strength blow can deal serious damage even to quasi-Empyrean rank powerhouses.

Only a celestial body that can accommodate a Holy battle can be used as the foundation of such a terrifying weapon like the Celestial Body Destruction Fortress Cannon.

The power of the entire Chattem Star converged into one. In an instant, a cyan light beam tore the sky, slammed into the two giant golden bones hands, and ran through, and then barreled towards the Golden Bones Sacred Mountain.

"Impossible!"

A roar of disbelief of the Golden Noble Great Holy came from the Golden Bones Sacred Mountain.

The Golden Piercing Horn flew out of the Golden Bones Sacred Mountain, and a true spirit level direbeast golden horn rhinoceros projection suddenly appeared, radiated golden light from its hooves that formed a golden bridge underneath it, and galloped towards the cyan light beam.

Boom!

A heaven-shaking blare rose as the cyan light beam and the golden horn rhinoceros collided, intertwined, and extinguished.

Countless artillery extended on the Chattem Star, and a rain of light barreled towards the Golden Sacred Mountain like a tide.

All of a sudden, lights shone, and a worn-out, pitch-black corpse emitting an aura of decay, with an ogre horn, a ferocious face, and one eye dug out, emanating wisps of immortal Emyrean might, appeared, erupted with countless strange runes, and blocked in front of the Golden Bones Sacred Mountain.

When the torrent of light coming from the Chattem Star reached the Emyrean corpse, it was absorbed by the Emyrean corpse, unable to harm it.

Even if only a soulless body remains from a Warlock Emperor, it is still very difficult for Infinity Warlock rank power to harm them.

“- Emyrean corpse! So this is the underlying strength of the golden bones race!”

“As expected of one of the Tai Yuan Starfield’s three empyrean races, their underlying strength is profound. Once the golden bones race makes a move, it strikes with such strength that you basically won’t be able to fight back.”

“...”

When the spectating Holies saw the Emyrean corpse, shock flashed in their eyes.

#### **Chapter 1154 - Battling the Golden Bones Race**

When the Emyrean corpse appeared, the torrent of light fired by the Chattem Star disappeared.

On the Chattem Star, apart from the Holy Slaying Artillery and the Celestial Body Destruction Fortress Cannon, few weapons can pose a threat to the Emyrean corpse. Instead of harming the Emyrean corpse, the other weapons will nourish it.

A junior Great Holy and 6 Holies of the golden bones race emerged and flew out from behind the Transcendent rank powerhouses of the golden bones race and its allies.

A 1,000-kilometer-long starry scorpion, a 3,000-kilometer-long starfire snake, a 100,000-meter-long starry ghost ship shrouded in distorted ghosts, a 1,000-kilometer-tall demonic mountain radiating golden light, a 3,000-kilometer-long starcraft fish snake beast with the head of a fish and the body of a snake, a three-headed ogre lion with three lion head and an ogre horn on each head suddenly appeared, emanating Holy rank fluctuations of power.

The six Holy rank existences are Holy grade weapons the golden bones race has cultivated over the past hundreds of thousands of years. They are no weaker than actual Holy Spirit Warlocks.

An Emyrean corpse, a golden bones Great Holy, and 12 Holy Spirit Warlock rank existences, with the exception of the other two the empyrean races, this fearsome force can crash almost all forces of the Tai Yuan Starfield. This underlying strength of the golden bones race shocked the Tai Yuan Starfield.

The Emyrean corpse, the Great Holy, and the 12 Holy Spirit Warlock rank existences tore the firmament and flew towards the Chattem Star.

There aren't too many treasures that can quell Great Holies. Consequently, the golden bones race doesn't believe that there is a treasure that can quell Great Holies on the Chattem Star.

On the Chattem Star, 18 Holy Slaying Artillery suddenly appeared, shone, and fired 18 light beams that can slay Holies barreling towards the golden bones Holies.

Following flashes of distorted light, the Holies flew 100 kilometers away in one go and easily evaded the light beams.

"Humph, you want to harm us by using attacks that don't contain the law of karma? Dream on!"

The golden bones Great Holy snorted coldly and spread the fingers of his hand, and golden bone spikes stabbed towards the 18 Holy Slaying Artillery like meteors.

Boom!

Along with loud noise, the golden bone spikes pierced through the 18 Holy Slaying Artillery, and the artillery exploded and set off fearsome mushroom clouds.

On the Chattem Star, the earth cracked in various places, and swarms of 6th generation battle robots poured out like an ocean, blotted out the sky, and rushed towards the golden bones race powerhouses.

"A bunch of ants!"

The golden bones Great Holy snorted, extended his hand, extracted the energies of the heaven and earth, and formed a 1,000-meter-long golden hand slapping towards the battle robots.

10 million Dazzling Light Units resonated with Dazzling Rulers and fired their artillery. Resplendent light beams formed a torrent of light, slammed into the giant golden hand, and smashed it.

Practically in the next moment, the almost endless sea of 6th generation battle robots engaged with the golden bones race's Holies.

The starry scorpion spat out countless rays of starlight that bombarded the battle robots, crushing them one by one.

The starfire snake belched a pillar of fire that ignited the 6th generation battle robots in its wake and burned them into ashes, including the core chips.

While ignoring the vast majority of the attacks, the Empyrean corpse crushed hundreds of 6th generation of battle robots with every attack.

Under the protection of the 12 Holies, the golden bones race and its allies stimulated powerful treasures and cast all kinds of formidable spells, destroying 6th generation battle robots one after another.

Boom! Boom! Boom!

The sound of huge explosions rose incessantly. The place where the golden bones race is located seems to have become a giant flesh millstone. Countless battle robots attacked it, and then were torn to pieces and destroyed.

Located in the center of the flesh millstone, the Empyrean corpse's perfect grade immortal body is being bombarded by all kinds energy light beams. Instead of dealing it damage, the light beams are helping it to heal its wounds. Only attacks performed by Blade Rulers can cut its skin, but only by a small fraction.

"The Firmament Holy only amounts to this much!"

On the Golden Bones Sacred Mountain, while gazing at the Chattem Star, the the Golden Noble Great Holy smiled coldly.

The Golden Noble Great Holy intends to focus the power of the golden bones race on the celestial bodies occupied by Yang Feng one after another, squeeze out his living space bit by bit, and finally quell his forces at the Ansara Star.

If he can slay Yang Feng, that would be for the best. If he can't, the Golden Noble Great Holy will take the golden bones race to the central starfield and contend against Yang Feng with the help of an eternal empyrean race.

"In the end, the golden bones race will come out on top!"

"The underlying strength of the Firmament Holy is too shallow."

"The golden bones race's gamble paid off. Except for the Ansara Star, the Firmament Holy cannot contend against the golden bones race from the other life celestial bodies under his control.

"..."

Complicated emotions welled up inside the Holies spying on the Chattem Star.

The Tai Yuan Star, the Silver Brilliant Manor.

The Zhenxu Divine Son smiled and said, "The Firmament Holy is going to lose this war!"

Yinshe Xingkong frowned and remained silent.

The Tai Yuan Star, the Cloud Sea.

The Cloud Dragon Great Holy's eyes flickered with the shade of graveness, "After this defeat, the Firmament Holy's main force will be annihilated. By then, he won't have the strength to contend against the golden bones race. The outcome is clear. After all, the golden bones race is stronger. The golden bones race possesses an Empyrean corpse and has refined it into a weapon, what a surprise."

The Cloud Dragon Queen's beautiful eyes flashed with a dignified shade, and she uttered slowly: "The golden bones race has successfully refined the Empyrean corpse, that's incredible!"

The Empyrean corpse has a perfect grade immortal body, which possesses all kinds of mysterious and abstruse powers. Once the Empyrean corpse is refined into a weapon, it will be comparable to a Great Holy rank weapon.

The Cloud Dragon Great Holy said: "It's not so simple. The golden bones race has only mobilized part of the Empyrean corpse's power. If it is perfectly refined, it will be able to display pinnacle Great Holy rank power. By then, even this father may not be its opponent."

A thick mist formed from Mist Rulers suddenly appeared and covered the Chattem Star, obstructing the sight of the Holies spying on the Chattem Star.

“Sh\*t!”

The Golden Noble Great Holy had an ominous premonition in his heart.

At this time, ripples rose in the void, and countless 6 generation battle robots poured out from the abandoned celestial bodies around the Chattem Star and attacked the Golden Bones Sacred Mountain.

A rain of light fired from the abandoned celestial bodies turned into torrents of light that can rip Holies apart and blasted towards the Golden Bones Sacred Mountain.

The Golden Bone Sacred Mountain erupted with countless golden runes, which evolved into a golden boundary that blocked the torrents of light.

The swarms of 6th generation battle robots turned into a terrifying mechanical torrent and frantically attacked the Golden Bones Sacred Mountain.

“Die!”

With a fierce flash in his eyes, the Golden Noble Great Holy used the power of his race to stimulate the Golden Piercing Horn, and a true spirit level direbeast golden horn rhinoceros projection suddenly appeared, radiated brilliant golden light, and rushed towards the 6th generation battle robots.

The primary artillery of the 30 million Dazzling Light Units shone and, under the resonance of 36 Warlock Monarch rank Dazzling Rulers, fired light beams that converged into one and slammed into the golden horn rhinoceros projection.

The two powerful forces intertwined, collapsed, and disappeared, and terrifying shock waves tore the void to pieces.

The golden horn rhinoceros projection collapsed and disappeared.

The Golden Piercing Horn darkened. It needs to recover for a period of time before it can be used again.

Three Holies and the Golden Noble Great Holy flew out from the Golden Bones Sacred Mountain, cast secret methods, and engaged the countless battle robots.

Explosions sounded incessantly as the three Holies, one Great Holy, and numerous golden bones race powerhouses blasted 6th generation battle robots to pieces.

On the Chattem Star, a sea churned, and the nine-headed starry dragon scorpion emperor beast appeared and fired nine venomous beams barreling towards the golden bones race powerhouses.

With a dull look in its eyes, the Empyrean corpse unleashed a punch and smashed six venomous beams one by one.

The three remaining venomous beams slammed into the Empyrean corpse, and a terrifying venom corroded the Empyrean corpse. Its flesh ulcerated and emitted a foul stench.

As a Great Holy rank direbeast, the venomous beams fired by the nine-headed starry dragon scorpion emperor beast are extremely vicious. They can poison Great Hokies to death. Naturally, they can corrode the flesh of Warlock Emperor rank powerhouses.

In the sky, a gale rose, and large windblades containing the essence of wind dropped down from the sky and slashed towards a golden bones race Holy.

A 10,000-meter-tall pale ogre appeared, erupted with countless runes in his eyes, stimulated his ogre horn, and fired a cyan light beam barreling towards the golden bones race Holy.

## **Chapter 1155 - Slaying Great Hokies**

Jing Jiu changed into a star heavenly whale, operated star force, and fought the starry scorpion.

Gui Longjiu changed into his true form and clashed with the starfire snake.

Yang Feng emerged from the void. With the Xi Shen Armor already in its second form, an endless power poured into him from the Kunmo Stone lodged in the core of the Xi Shen Armor.

Yang Feng pointed with his hand, and the Bead of Time suddenly emerged and shone with countless runes. A torrent of time running through the past, present, and future emerged from the mysterious river of time and flowed towards the golden bones race's Hokies.

The golden bones race's Hokies immediately felt that the flow of time around them became extremely slow.

The Celestial Body Destruction Fortress Cannon shone and absorbed the energy of the entire Chattem Star, forming a vortex, and then a bright pillar of light tore the sky and blasted towards the golden bones race Great Holy.

The golden bones race Great Holy was disturbed by the torrent of time for only a moment before golden light shone from his back and immortal Holy might condensed into a golden light beam that dispelled the torrent of time.

At this moment, the Celestial Body Destruction Fortress Cannon's pillar of light, which gathered the power of the entire celestial body, slammed into the golden bones race Great Holy.

The lower body of the golden bones race Great Holy was directly vaporized by the Celestial Body Destruction Fortress Cannon.

A black hole suddenly emerged, swept towards the golden bones race Great Holy, and drew him in.

"The Golden Pool Great Holy was swallowed!"

"The Firmament Holy is here! Damn it, why is he here?"

"How did he guess that we would launch a surprise attack on the Chattem Star?!"

"Why is the Firmament Holy's main force here?"

"..."

The golden bones race's Holies felt a chill go down their spine when they saw this scene.

Yang Feng occupied 16 celestial bodies. According to common sense, his troops should be distributed among the 16 celestial bodies. In particular, the first celestial body he occupied, the Ansara Star, should be guarded by many powerhouses.

The golden bones race's Holies have investigated countless times before choosing to attack the Chatter Star. They, who wanted to crush Yang Feng's power bit by bit, didn't expect that they would be besieged by Yang Feng's main force instead.

A warship equipped with 36 Holy Slaying Artillery suddenly emerged, and then the 36 Holy Slaying Artillery shone and fired 36 light beams barreling towards the remaining golden bones race's Holies.

The countenance of the golden bones race's Holies changed dramatically, and they cast secret methods, soared into the sky, and escaped in different directions.

"No!"

"Don't!"

"..."

After losing the protection of the Holies, powerhouse below the Holy rank of the golden bones race and its allies became exposed and were swept by the Holy Slaying Artillery light beams, turning into dust.

The almost endless mechanical legion poured into the huge holes blasted open by the Holy Slaying Artillery and unleashed a massacre.

As soon as the Infinity Warlock and Warlock Monarch rank powerhouses of the golden bones race and its allies appeared, they were cut into pieces by the mechanical legion. An endless amount of flesh and souls were absorbed and devoured by the mechanical legion.

The Xi Shen Armor's mechanical wings flapped, and it erupted with countless runes. Yang Feng appeared in front of a Holy of the golden bones race's allies, brandished the Green Yang Halberd, and easily sliced him in two.

The black hole emerged and swallowed the Holy.

When the remaining Holies saw this scene, they lost all fighting spirit. They each cast their secret methods and rushed to the sky.

A swarm of Space Rulers suddenly emerged, resonated with each other, and launched 108 space boundaries, directly sealing the void.

"Open!"

A golden bones race Holy roared and slashed with a golden bone blade, and endless golden light converged and formed a golden blade that slashed a space barrier and sliced it apart.

At this moment, Yang Feng appeared in front of the Holy in a blink and unleashed a halberd strike, and a green halberd ray cut the other party in two. A black hole suddenly appeared and swallowed the Holy.

The starry scorpion wanted to escape, but it was bitten by Jing Jiu's incarnation of a star heavenly whale, almost being bitten in two.

Countless Blade Rulers took this opportunity to hack at the starry scorpion, and countless chunks of flesh rose into the air.

Jing Jiu's incarnation of a star heavenly whale pounced on the starry scorpion, bit it and absorbed its flesh and soul.

The sky dragon entangled with a golden bones race Holy. But as expected of an empyrean race powerhouse, the golden bones race powerhouse persevered tenaciously despite being besieged.

A million Lightning Rulers resonated with each other, and countless lightning shone. A lightning spear suddenly appeared, tore the sky, slammed into the starfire snake, and ran through it, causing serious damage.

Countless Blade Rulers pounced on the starfire snake and engulfed it.

Cang Guifei's incarnation of a green pale ogre entangled with another golden bones race Holy.

The remaining two Holes of the golden bones race's allies turned into two streams of light and flew outside in an attempt to escape the celestial body.

"You want to escape? Fat chance!"

Yang Feng's cold voice sounded. In a blink, he appeared behind a Holy, brandished his halberd, and cleaved the Holy in two, and a black hole swallowed the Holy.

"I am willing to surrender! Sir Firmament Holy, the starry voidborn race is willing to submit to you and serve you. Please accept us, sir Firmament Holy. I, Ba Xiong, am willing to become your hound, sir Firmament Holy! Tell me whom to bite, and I'll bite them!"

The last remaining Holy, who has the head of a dragon, the body of a dog, and a pair of wings on the back, prostrated itself on the ground decisively and pleaded bitterly.

Yang Feng pointed to a golden bones race Holy and said, "You really know how to take note of the situation! Suppress this person. If your performance is good, I will take you as a servant!"

"Yes! Lord!"

Ba Xiong's eyes flashed with the shade of elation, and it suddenly rushed towards the golden bones race Holy and besieged him together with the sky dragon.

The golden bones race Holy roared angrily, "Ba Xiong, you traitor, you will die a miserable death! The golden bones race won't let your voidborn race off! The golden bones race will exterminate you traitors!"

Ba Xiong replied with a ferocious smile, "After today, the golden bones race will be a thing of the past. How will you exterminate my race?"

The golden bones race Holy gnashed his teeth and shouted, "Firmament Holy, let us go. The golden bones race will give you 100 Springs of Immortality in return. Furthermore, we shall sign a peace treaty. Within the next 100,000 years, the golden bones race will never oppose you."

"I got such a good opportunity to eliminate the golden bones race. Do you think I will miss it?"

Yang Feng smiled icily, and then appeared behind the golden bones race Holy in a blink, sliced him in two with his halberd, and devoured him.

The outer space outside the Chattem Star.

Under the command of the Golden Noble Great Holy, the Golden Bones Sacred Mountain shone and radiated golden light, and golden blades cut 6th generation battle robots to pieces, including their core chip.

Despite besieged by countless 6th generation battle robots, the Golden Bone Sacred Mountain remains as steady as Mt. Tai, showing no signs of being breached.

"Damn it, these mechanical ants are really annoying!"

The Golden Noble Great Holy watched the endless mechanical legion while full of anxiety.

No matter what large-scale offensive secret methods the Golden Noble Great Holy used, they were broken by the mechanical legion, forcing him to only being able to stimulate immortal Holy might and destroy the battle robots one by one.

Boom!

Suddenly, a huge explosion came from the Golden Bone Sacred Mountain.

"The Golden Pool Great Holy died!"

"How could the Golden Pool Great Holy have died? He is guarded by the Empyrean corpse!"

"How could this happen?"

"..."

Fear enveloped the golden bones race powerhouses in the Golden Bones Sacred Mountain. The Golden Pool Great Holy was part of the golden bones race's underlying strength. Now that he died, the Golden Noble Great Holy became the only remaining Great Holy of the golden bones race. Moreover, the six Holies of the golden bones race and its allies and the six Holy grade weapons that the golden bones race has spent countless years to nurture that entered the Chattem Star, their fate is also worrying.

"The Golden Pool Great Holy died! How could this happen?!"

The Golden Noble Great Holy was shocked immediately, and a sense of regret suddenly appeared like a poisonous snake and ruthlessly bit his heart. This is the first time that he regretted making an enemy of Yang Feng.

Boom! Boom!

In the Golden Bones Sacred Mountain, soul lamps exploded one after another, representing the death of golden bones race Holies.

“The Golden Blade Holy has died!”

“The Golden Bridge Holy has died!”

“What’s going on? Our Holies that entered the Chattem Star, they are dying?!”

“...”

When the golden bones race saw the soul lamps explode, they felt cold like they have fallen into an ice cave, and fear filled their hearts. Once all the Holies that entered the Chattem Star have died, the golden bones race will only have three Holies and one Great Holy remaining. It will no longer be considered an empyrean race.

### **Chapter 1156 - White Jade Phalanx Bone**

The mist covering the Chattem Star slowly dispersed, and a celestial body with broken mountains, cracked earth, and collapsed space everywhere appeared in front of everyone.

An enormous mechanical legion flew out of the Chattem Star, turned into a mechanical sea, and rolled out towards the Golden Bones Sacred Mountain.

“Wiped out! The golden bones race’s main force was wiped out!”

“The Firmament Holy set up a trap here.”

“But how did he know that the golden bones race would choose the Chattem Star to launch an attack?”

“...”

The spectating Holies inhaled a breath of cold air, unable to believe their eyes.

The Tai Yuan Star, the Silver Brilliant Manor.

Yinshe Xingkong smiled and said, “That’s the Firmament Holy for you! Your highness divine son, it seems that I won this bet.”

With a cold snort, the Zhenxu Divine Son flicked his finger, and a spatial secret treasure flew towards Yinshe Xingkong: “Humph!”

The Tai Yuan Star, the Cloud Sea.

The Cloud Dragon Great Holy sighed and said with mixed feelings: “The golden bones race suffered a defeat, and it’s such a miserable defeat, to boot. That went way beyond my expectations. The Firmament Holy is actually this formidable. Pass down my order, the cloud dragon race absolutely cannot provoke the Firmament Holy. Have everyone take a look at the Firmament Holy’s image.”

The Cloud Dragon Queen nodded, and then blurred and disappeared.

The Chattem Star’s outer space.

With the Green Yang Halberd in his hand, Yang Feng is quietly standing in the void and watching the Golden Bones Sacred Mountain with a cold look in his eyes.

“Firmament Holy!”

Standing on the Golden Bones Sacred Mountain, the Golden Noble Great Holy bellowed furiously, his eyes shot with blood and full of resentment.

With this defeat, the golden bones race will be knocked down from the position of an empyrean race.

The Golden Bones Sacred Mountain radiated golden light that bombarded battle robots and blasted them to ashes.

On the celestial bodies surrounding the Chattem Star, mechanical towers suddenly emerged, shone, and frantically devoured the universe energies in this area, making it so the Golden Bones Sacred Mountain can no longer extract universe energies to fight.

The Golden Bones Sacred Mountain’s reserves of magic crystals decreased frantically.

The Golden Noble Great Holy’s eyes flashed with a fierce shade, and he roared miserably: “Firmament Holy, just you wait. The golden bones race will never leave you alone!”

The Golden Piercing Horn shone, and a true spirit level direbeast golden horn rhinoceros projection suddenly appeared, radiated golden light from its hooves, and darted towards the outside.

The golden horn rhinoceros smashed the 6th generation battle robots in its way and opened a path.

The Golden Bones Sacred Mountain turned into a golden ray and fled outside along the path opened by the golden horn rhinoceros.

On the Chattem Star, the Celestial Body Destruction Fortress Cannon shone and once again extracted the plane’s origin force and turned it into a pillar of light that blasted towards the Golden Bones Sacred Mountain.

In an instant, the Golden Bones Sacred Mountain’s boundaries were blown to pieces. The pillar of light swallowed more than 100,000 golden bones race powerhouses and pulverized them.

The golden horn rhinoceros projection formed from the power of the golden bones race shattered and collapsed.

The Golden Noble Great Holy spat out a big mouthful of blood and trembled, seriously injured.

After the Celestial Body Destruction Fortress Cannon extracted the Chattem Star’s plane origin force, its energy level dropped, and it fell from a celestial body that can birth Holy Spirit Warlocks to a celestial body that can only birth Warlock Monarchs.

The Celestial Body Destruction Fortress Cannon is extremely powerful. But once used, it will extract the plane origin force. It will eventually turn a vibrant life celestial body into a low energy level abandoned star.

The almost endless mechanical legion rushed at the Golden Bones Sacred Mountain and unleashed a bout of massacre and destruction.

A swarm of Devour Rulers pounced on the Golden Bones Sacred Mountain and frantically devoured everything, and the mountain's boundaries collapsed one by one.

The Golden Noble Great Holy and the three Holies resisted with all their might, yet they could only defend the area they are located in.

In other places, many golden bones race powerhouses below the Holy rank were exposed to the 6th generation battle robot.

"So this is the Firmament Holy's mechanical golem legion! It's really scary!"

"It gives off a hair-raising feeling! It's too powerful!"

"Truly dreadful!"

"..."

The wills of the spectating Holies crossed the void and locked on the Golden Noble Great Holy and company bitterly struggling inside the mechanical legion, and they felt their blood run cold.

After bitterly fighting until now, the Golden Noble Great Holy and company have already destroyed 20 million 6th generation battle robots. However, no matter how many they kill, the numbers of the 6th generation battle robots don't seem to decrease.

Without the protection of the Golden Bones Sacred Mountain's boundaries, the ordinary members of the golden bones race are being slaughtered by the mechanical legion virtually without any power to fight back.

Standing quietly in the void, Yang Feng watched the golden bones race powerhouses fight with his mechanical legion. He has no intention of stepping onto the Golden Bone Sacred Mountain.

Acheson and the other Holy Spirit Warlock powerhouses under Yang Feng's control are also standing outside the Golden Bones Sacred Mountain. In front of each one of them, there are 100,000 Vajra Rulers guarding them.

After all, as one of the Tai Yuan Starfield's three empyrean races, the golden bones race has a profound underlying strength. As a nest that the golden bones race has operated for countless years, who knows how many dangers the Golden Bones Sacred Mountain hides.

Although Yang Feng is comparable to a Great Holy in terms of combat power, but he is unwilling to step onto the Golden Bone Sacred Mountain.

The fierce battle continued for three days and nights.

The Golden Bones Sacred Mountain tried to escape this place several times, but was blocked by Yang Feng every time, suffering heavy casualties.

"Firmament Holy, the golden bones race admits defeat. Please give us a way out. As long as you let us leave, the resentment between us will be written off. The golden bones race will never become your enemy again."

The Golden Noble Great Holy helplessly looked at Yang Feng standing in the void and pleaded with him.

On the Golden Bones Sacred Mountain, there are only less than 3 million golden bones race people remaining. The 3 million people are the golden bones race's elites, are the seeds that the Golden Noble Great Holy and the three Holies spent countless efforts to protect.

Yang Feng replied icily, "Since the golden bones race has become my enemy, its better to wipe it out completely."

In the fight with the golden bones race, Yang Feng has lost more than 60 million 6th generation battle robots, of which 40 million have been completely destroyed and cannot be repaired. If he can't completely annihilate the golden bones race and seize all its power, it won't be so easy for him to recover his strength.

On the Chattem Star, the Celestial Body Destruction Fortress Cannon madly extracted the Chattem Star's plane origin force.

In an instant, life magic energy and elemental particles disappeared from the Chattem Star, and the whole celestial body became dead. At the same time, many extraordinary life forms died and many minerals with extraordinary power degenerated.

A brilliant pillar of light tore the sky, slammed into the Golden Bones Sacred Mountain, and ran through the last defensive boundaries of the mountain, blasting a golden bones Holy to ashes and seriously wounding the Golden Noble Great Holy and the other two Holies.

"Firmament Holy, you forced my hand! Let's perish together!"

With a ferocious shimmer in his eyes, the Golden Noble Great Holy released a crazy roar and burned the power of his bloodline.

The Golden Bones Sacred Mountain erupted with brilliant light and suddenly cracked open, and a white jade phalanx bone sparkling like jade and emanating immortal Eternal might emerged.

As soon as the white jade phalanx bone flew out, it shot towards Yang Feng.

"What's that? An Eternal Sovereign's phalanx bone? What terrifying power! The innate characteristic of this power is even beyond that of the Gumana Universe's three Eternal Sovereigns!"

A premonition of deadly danger welled up inside Yang Feng.

On the flagship of Yang Feng's fleet, 36 Holy Slaying Artillery shone, and the light combined into a light beams that blasted into the white jade phalanx bone.

Endless light swallowed the white jade phalanx bone.

After the endless light disappeared, the white jade phalanx bone emerged unharmed and continued to fly this way. Where it passed, the void collapsed and the 6th generation battle robots in its way turned into ashes.

Every time the white jade phalanx bone flew a certain distance, the Golden Noble Great Holy's body wizened by a fraction. Evidently, a Great Holy rank being cannot bear the power of the white jade phalanx bone.

A million Lightning Rulers resonated with each other, and countless lightning flashed and formed a lightning spear that tore the firmament and slammed into the white jade phalanx bone.

The lightning spear instantly collapsed, unable to harm it in the least. On the contrary, a lot of lightning force was directly absorbed by the white jade phalanx bone.

Acheson and the other Holies subordinated to Yang Feng cast Holy grade offensive secret methods and hurled attacks at the white jade phalanx bone.

Subjected to the many attacks of Holies, the white jade phalanx bone continued to fly towards Yang Feng, still unharmed.

“It’s effective. Although the white jade phalanx bone is invincible, but the person controlling it is too weak!”

Yang Feng willed, and all artillery under his control fired at the white jade phalanx bone.

Space Rulers set up spatial boundaries in front of Yang Feng, while Vajra Rulers formed a huge defensive boundary.

When the white jade phalanx bone touched the spatial boundaries set up by Space Rulers that can even resist Holies, the spatial boundaries collapsed one by one. When it touched the huge defensive boundary formed by Vajra Rulers, the defensive boundary collapsed directly, and cracks appeared on 1 million Vajra Rulers.

## **Chapter 1157 - Annihilation of the Golden Bones Race**

The white jade phalanx bone pierced the defensive boundary of the Vajra Rulers and stabbed towards Yang Feng.

Yang Feng pointed with his hand, and the Bead of Time suddenly appeared. A torrent of time swept towards the white jade phalanx bone.

The torrent of time, which can interfere with the flow of time of Great Holies, has no effect on the white jade phalanx bone, which seems to exist in the past, present, and future.

“This must be the remains of an Eternal Sovereign or an existence above the Eternal Sovereign realm! As expected, the golden bones race has a profound foundation! Fortunately, I was prudent enough not to set foot on the Golden Bones Sacred Mountain!”

A dignified ray flashed in Yang Feng’s eyes. The Xi Shen Armor entered its second form, and the Kunmo Stone embedded in its core poured a tremendous energy into him, making him step into the Great Holy realm. Yang Feng brandished the Green Yang Halberd with all his strength, and 10 suns emerged, condensed into one, and slashed the white jade phalanx bone.

Boom!

With an earth-shaking sound, the Green Yang Halberd in Yang Feng's hand was blasted away, the Xi Shen Armor of his body cracked, his bones fractured, and his soul was severely shocked. The person himself seems like he's about to die.

"What a pity!"

A look of regret in his eyes, the Golden Noble Great Holy sighed, and then trembled and turned into ashes and disappeared.

The white jade phalanx bone remained suspended in the void.

Greedy wills reverberated in the void. Ripples rose in the void, and a giant hand extended from the void and shot towards the jade phalanx bone.

"You want to steal my spoils! Do you want to die?"

With a fierce shade in his eyes, Yang Feng brandished the Green Yang Halberd, slashed the large hand, and operated the law of karma. His attack extended along the hand's arm, crossed a great distance, and slammed into a Holy with ox horns hidden on a celestial body tens of thousands of light-years away.

"Stop!"

The ox-horned Holy screamed miserably. He was split in two, and terrifying green sunfire broke out all over his body, madly burning him.

"The ox-horned Holy was quelled!"

"The law of karma!"

"How fierce!"

"..."

The Holies' wills hidden in the void pervaded with dread. No one dared to compete for the white jade phalanx bone anymore.

Even if a quasi-Empyrean rank powerhouse attacked Yang Feng from across hundreds of thousands of light-years, they would only suffer a setback.

Yang Feng grabbed the white jade phalanx bone, and countless runes poured into it and sealed it.

Now that the Golden Noble Great Holy died, the Golden Bones Sacred Mountain no longer has the power to resist.

On the Golden Bones Sacred Mountain, the two Holies fought with all their might and used all kinds of trump cards. After destroying about 10 million 6th generation battle robots, they were finally slayed by the endless sea of battle robots.

Standing outside the Golden Bones Sacred Mountain, Yang Feng and his subordinated Holies cast secret methods, sealed the escape routes of the Golden Bones Sacred Mountain, and finally killed all the powerhouses of the Golden Bones Sacred Mountain.

"From today on, I, Firmament Holy, will take over all the forces of the golden bones race! If you don't agree, you can come and fight me!"

After the last golden bones race powerhouse on the Golden Bones Sacred Mountain was killed by the 6th generation battle robots, Yang Feng cast a spell to peek at the other race Holies and spoke indifferently.

With that, under the escort of the almost endless mechanical legion, Yang Feng stepped onto the broken Golden Bones Sacred Mountain.

"The golden bones race was annihilated!"

"From today on, the human race will become one of the Tai Yuan Starfield's three empyrean race!"

"The whole golden bones race has been destroyed, how savage."

"Three Great Holies have already died at the Firmament Holy's hands!"

"..."

All the forces in the Tai Yuan Starfield were alarmed.

The Tai Yuan Star, the Silver Brilliant Manor.

The Zhenxu Divine Son sighed: "He didn't let a single golden bones race person escape, the Firmament Holy is really vicious and cruel!"

Yinshe Xingkong uttered slowly, "The winner is king, the loser an outlaw. If the Firmament Holy was the one who lost, then the ending of his forces would probably be no better than that of the golden bones race. The humans would probably have been all eliminated. However, from today on, no one in the Tai Yuan Starfield will dare to provoke him as they wish."

The Lightless Sacred Daughter's beautiful eyes shimmered with enigmatic light, and she asked: "Satellite Holy, can you introduce me to the Firmament Holy?"

Yinshe Xingkong smiled and said in reply, "No problem. After a while, I'll invite him to the Tai Yuan Star."

The Tai Yuan Star, the Cloud Sea.

The Cloud Dragon Great Holy's eyes flashed with a dignified color, and he said slowly, "I didn't anticipate that the Firmament Holy would be able to defeat the golden bones race. It's really beyond my expectation."

The Cloud Dragon Queen sighed: "It's regrettable, but if the golden bones race still existed, we could join forces and be barely able to curb his development. However, he found a pretext to eliminate the golden bones race. Now that things have played out like this, we can no longer put him in check."

If the golden bones race still existed, the three empyrean races would barely be able to contain Yang Feng. But now that Yang Feng destroyed the golden bones race, even if the cloud dragon race and the silver brilliant snake race join forces, they may not be the opponent of Yang Feng's mechanical legion.

Furthermore, the silver brilliant snake race is on good terms with Yang Feng. The two sides can join hands and stifle the cloud dragon race.

The Cloud Dragon Great Holy uttered, "If you can't defeat them, join them. Doesn't he like beauties? Choose the most outstanding beauty from the cloud dragon race's younger generation and offer her to him."

The Cloud Dragon Queen contemplated for a while before replying reluctantly, "Fine!"

There are many beautiful women in the cloud dragon race, including a large amount of stunningly beautiful women. However, since the cloud dragon race is one of the Tai Yuan Starfield's three empyrean races, its beautiful women are goddesses being pursued by other races. This is the first time that the cloud dragon race has taken the initiative to marry one of their own into to another race.

The Tano Star.

Ripples rose in the void, and a huge fleet suddenly appeared. Acheson flew out from the fleet, looked at the Tano Star, and barked, "I am Acheson, a subordinate of the Firmament Holy! The Tano Star's star master, come out and greet me!"

A quasi-Holy rank aura rose from the Tano Star, and a 100-meter-tall giant with a dragon tail and purple runes engraved all over his body flew out and respectfully greeted Acheson: "The Tano Star's star master greets sir Acheson."

Acheson spoke with an air of arrogance: "From today on, the Tano Star belongs to sir Firmament Holy. Your race has two choices, either immediately leave the Tano Star, or become a vassal of sir Firmament Holy. If you chose the latter, you must obey all orders of sir Firmament Holy."

Since he is a Holy Spirit Warlock and the Tano Star's star master is just a quasi-Holy that hasn't formed an immortal body, Acheson can slay the other party. It is not surprising that he is being arrogant.

The Tano Star's star master replied respectfully, "The violetcore race is willing to serve sir Firmament Holy and fully obey his orders. Furthermore, the violetcore race is willing to give sir Firmament Holy free access to the race's treasury."

Acheson uttered flatly, "Great!"

Countless 6th generation battle robots flew out from the fleet, entered the Tano Star, and began to transform the celestial body. With the cooperation of the Tano Star's star master, Yang Feng quickly took control of the Tano Star.

As soon as the golden bones race was wiped out, Yang Feng dispatched Acheson with a fleet to take control of one celestial body after another, easily taking hold of the golden bones race's forces.

After the golden bones race was wiped out, its vassal races have prepared to join Yang Feng's camp. Except for a few races who like to kill humans, all the other vassal races joined Yang Feng's camp. The races who joined Yang Feng's camp caught all the people of their race who liked to kill humans and sent them to Yang Feng to deal with.

In just 10 days, 372 life celestial bodies controlled by the golden bones race fell into Yang Feng's hands.

The major forces of the Tai Yuan Starfield all covet the forces of the golden bones race. But since Yang Feng said that he was going to take over the forces of the golden bones race, the major forces could only retreat, not daring to compete with Yang Feng.

After Yang Feng's mechanical legion occupied the forces of the golden bones race, it stopped its expansion.

Countless engineering robots were produced and began to collect the resources of the 372 life celestial bodies.

Countless explorers searched for mineral celestial bodies in the areas under the golden bones race's control.

Every day, 10,000 units of 6th generation battle robots were produced and added to Yang Feng's mechanical legion, replenishing the mechanical legion's strength.

The leaders of vassal forces went to the Ansara Star to greet Yang Feng.

The Ansara Star, on the summit of the Golden Bones Sacred Mountain that Yang Feng captured.

"What a great harvest!"

Sitting at the edge of a pool formed from life magic energy, Yang Feng checked his spoils of war and raised the corners of his mouth into a carefree smile.

Yang Feng seized 372 Springs of immortality from the golden bones race and obtained 53 Springs of Immortality from its vassal races. In addition, Yang Feng also found three materials necessary to manufacture the level-7 stronghold and countless precious resources in the treasuries of the golden bones race and its vassal races.

In the treasury of the golden bones race, there were countless treasures of heaven and earth, among which there were no less than 30 treasures that can enable the soul aptitude of Warlocks to break through the level-7 wall and advance to level-8.

So long as Yang Feng wants to, he can cultivate a waste with level-1 soul aptitude into a peerless genius with level-8 soul aptitude. Of course, an astronomical amount of resources will have to be consumed in order to achieve that.

If it wasn't for the fact that Yang Feng wants to build a solid foundation, he could advance to a Great Holy with the help of the resources he obtained from this war.

## **Chapter 1158 – Recovery of the Spirit Osta Fortress**

"The white jade phalanx bone and the Emyrean corpse are the most precious treasures among the spoils. Unfortunately, the Emyrean corpse is too badly destroyed. Its immortal essence is largely gone. If that wasn't the case, I would be able to create a quasi-Emyrean rank existence.

Yang Feng looked at the Emyrean corpse, whose flesh was corroded by the nine-headed starry dragon scorpion emperor beast's poison, leaving only the skeleton behind, with regret in his eyes.

The Empyrean corpse was originally seriously damaged and had little immortal essence. After it was refined into a weapon by the golden bones race and went through successive wars, most of its immortal essence was consumed.

Even if such a dilapidated Empyrean corpse had a Empyrean Root Corpse Bead, it wouldn't be able to become a quasi-Empyrean rank powerhouse.

Quasi-Empyrean rank powerhouses are world-shaking beings. With the Empyrean Root Corpse Bead, an Empyrean corpse whose immortal essence is preserved by 90% and countless treasures of heaven and earth can be used to refine a quasi-Empyrean rank corpse powerhouse.

"There is only the purest variant corpse aura left in the Empyrean corpse. With my current strength, it will consume a lot of time and energy to refine it. It's not cost-effective. I should feed it to the Xi Shen Armor to let it progress a step further."

Yang Feng willed, and the Xi Shen Armor appeared from the void. Countless mechanical tentacles extended from the Xi Shen Armor, stabbed into the Empyrean corpse, and began to devour it.

The Empyrean corpse was quickly wrapped and completely covered by countless mechanical tentacles, which absorbed its immortal Empyrean essence.

After all, Yang Feng is only a Holy Spirit Warlock. Although he can devour the immortal Empyrean essence, it will take thousands of years to refine it. Moreover, the immortal Empyrean essence is not as useful to him as the life origin of a Holy.

As the supreme crystallization of Yang Feng's alchemy, the Xi Shen Armor has all kinds of incredible powers. It can perfectly devour the Empyrean corpse and evolve into a more powerful existence.

"Is this really Eternal Sovereign remains?"

Yang Feng took out the white jade phalanx bone, and countless runes flashed in his eyes. Detection spells fell on the white jade phalanx bone one after another.

The white jade phalanx bone is full of mystery. No matter what spell was used, it couldn't detect anything out of the ordinary.

Yang Feng pondered for a while, and then spread the fingers of his hand. A black hole suddenly emerged and swallowed the white jade phalanx bone.

A terrifying devour force enveloped the white jade phalanx bone, yet couldn't devour so much as a sliver of the white jade phalanx bone's power.

Yang Feng mused: "Amazing! Even if its a Warlock Emperor rank existence, I can devour and refine it. This is definitely an Eternal Sovereign existence, or even an existence above the Eternal Sovereign rank."

"Yang Feng, can I absorb the Empyrean corpse? It is a great tonic to me."

The Spirit Osta Fortress, which turned into a mysterious brand on Yang Feng's ear, suddenly spoke.

"Okay!"

Without hesitation, Yang Feng willed, and the Xi Shen Armor's tentacles pulled back, revealing the Empyrean corpse.

Along with a flash of light, the brand flew out of Yang Feng's right ear, turned into the Spirit Osta Fortress, and swallowed the Empyrean corpse.

After swallowing the Empyrean corpse, countless mysterious runes emerged from the Spirit Osta Fortress. The countless cracks covering its body were quickly mended at a speed visible to the naked eye.

On the Bloodmoon Battlefield, Yang Feng was able to escape because the Spirit Osta Fortress blocked the attack of the Wing Eternal Sovereign. Had it not been for the Spirit Osta Fortress, Yang Feng may have died at that time. Although the Empyrean corpse can make the Xi Shen Armor evolve by a large margin, but that is nothing compared to saving his life.

"Thank you!"

A thought sounded directly in Yang Feng's mind.

Yang Feng smiled and asked, "What are you thanking me for? You saved my life at that time, so I should be the one thanking you. By the way, how is your recovery?"

The Spirit Osta Fortress replied: "After absorbing this Empyrean corpse, 90% of the damage caused to me by the Wings Eternal Sovereign has been healed. The rest will be slowly healed. If I can absorb a few more Empyrean corpses, I'll be able to recover faster."

"Do you need this?"

Yang Feng spread the fingers of his hand, and the Empyrean Root Corpse Bead suddenly appeared.

The Spirit Osta Fortress answered with excitement and agitation: "This is an Empyrean Root Corpse Bead, a treasure that can be barely seen once every 100,000 years. If it's properly used, one may even be able to create an Empyrean rank corpse powerhouse. It is also a great tonic for me. Are you sure you want to give it to me?"

Yang Feng flicked his finger, and the Empyrean Root Corpse Bead flew towards the Spirit Osta Fortress: "Here you go!"

"After absorbing the Empyrean Root Corpse Bead, I can recover 10% of my strength. I'll start refining it now. Yang Feng, if your life is in danger, wake me up. Once I recover 10% of my strength, even if it's a quasi-Empyrean rank powerhouse, I'll be able to quell them. However, since I'm seriously damaged, I'll be able to suppress two quasi-Empyrean rank powerhouses at one time at most. Furthermore, once I suppress the other party, I will fall into a deep slumber. You have to take note of that!"

The Spirit Osta Fortress gave Yang Feng an incantation to wake it up, and then turned into a brand and entered Yang Feng's right ear.

Yang Feng pointed to the white jade phalanx bone and asked curiously, "Wait a minute, Spirit Osta Fortress, do you know what this is?"

"Eh! This thing?"

The Spirit Osta Fortress flew out, circled the white jade phalanx bone, and emitted fluctuations of doubt, which ultimately turned into shock.

Spirit Osta Fortress spoke full of shock: "This should be the remains of an existence beyond the Eternal Sovereign King realm. I didn't expect that there would be such remains in your universe."

Yang Feng asked curiously, "Beyond the Eternal Sovereign King realm?! What's that?"

"Universes with different universe energy levels can birth powerhouses of different realms. The universe energy level of the world of Warlocks is fairly low. No matter how talented they are, the most extraordinary genius in your universe can advance to the Warlock Emperor rank at most. Back in the day, when the universe of the Shidna civilization was at its strongest, it was even able to give birth to an Eternal Sovereign."

"As everyone knows, a universe's Eternal Sovereign has infinite lifespan. As long as the universe doesn't perish, their soul will never decay. However, even if the lifespan of a universe is calculated in hundreds of millions of years, there will eventually come a day when its lifespan elapses, and a universe great tribulation will take place."

"The Shidna civilization's Eternal Sovereign wanted to take a step further and transcend the boundary of the universe. In the end, he found a way to break through the boundary of the universe and reach the greater universe. He was defeated and seriously injured by an Eternal Sovereign King in the greater universe. As a result, our universe's universe energy level fell, and it was finally defeated and annexed by the Gumana Universe."

"Above the Eternal Sovereign realm is the Eternal Sovereign King realm. This phalanx bone is the remains of a terrifying existence beyond the Eternal Sovereign King realm. I wouldn't be able to refine this treasure even in prime, let alone now."

The Spirit Osta Fortress explained to Yang Feng in a dignified tone.

"It turns out that there are existences more terrifying than Eternal Sovereigns. Even an Eternal rank treasure cannot refine this remains. How strong was that powerhouse? How strong was the powerhouse who slayed them?"

Yang Feng was shocked. In his eyes, Eternal Sovereigns were already incredibly strong existences that can suppress a universe and instakill a Holy from hundreds of thousands of kilometers away in one blow.

However, in the mysterious greater universe, there are terrifying existences above the Eternal Sovereign realm. This is simply unfathomable.

A faint conjecture streaked across Yang Feng's mind: "The Eternal Sovereigns born before in the world of Warlocks have probably entered the greater universe, where they have been defeated. This is probably the reason why this universe's universe energy level is so low and is constantly falling."

There are many Eternal Sovereign relic sites in the world of Warlocks. Numerous documents show that the world of Warlocks once had Eternal Sovereigns. The disappearance of these Eternal Sovereigns has always been a mystery.

After listening to the Spirit Osta Fortress's explanation, Yang Feng vaguely guessed the truth.

Yang Feng asked, "How strong are the three Eternal Sovereigns of the Gumana Universe?"

The Spirit Osta Fortress answered hatefully: "The Divine Eyes Eternal Sovereign has gone through several universe wars and is approximately an intermediate Eternal Sovereign. The Wing Eternal Sovereign and the Frost Eternal Sovereign are junior Eternal Sovereigns. But the Shidna civilization's Eternal Sovereign was a prodigious pinnacle Eternal Sovereign. If it wasn't for the fact that he was seriously injured by the Eternal Sovereign King and the universe energy level of our universe had fallen, the Gumana Universe wouldn't have been a match for our universe."

Yang Feng asked curiously, "Do you know how to go to the greater universe?"

The Spirit Osta Fortress answered: "For people from low universe energy level universes to go to the greater universe, you either must have the guidance from powerhouses from the greater universe, or you must draw support from the power of the universe to break through the boundary of the universe after you have advanced to an Eternal Sovereign. You currently can't go there. The boundary between the universe and the greater universe is much harder to break through than the boundary between your universe and the Gumana Universe."

Yang Feng then asked the Spirit Osta Fortress many questions about the greater universe.

The Spirit Osta Fortress, however, only answered 'I don't know'. Although it is an Eternal grade treasure, but it was refined after the Shidna civilization's Eternal Sovereign returned gravely injured from the greater universe. Next came the invasion of the Gumana Universe. It and its original master basically spent all their time together in battle. As a result, it doesn't know much about the greater universe.

## **Chapter 1159 - Jade Sound Music Holy**

"Lord, this is an invitation letter from the Silver Brilliant Manor's young master. He's inviting you to go to the Tai Yuan Star to listen to a concert. The central starfield's Jade Sound Music Holy has come to the Tai Yuan Starfield to hold a concert."

Zhou Ruoyu handed Yang Feng a golden invitation.

"Jade Sound Music Holy! Ruoyu, Ruoling, if it's her, you cannot miss this concert."

Ruslana's beautiful eyes brightened, and she snatched the golden invitation from Yang Feng, played with it fondly, and then looked at the confused Zhou Ruoyu and Zhou Ruoling and explained: "The Jade Sound Music Holy is one of the ten music Holies of the central starfield. Her singing is not only most beautiful music in the world, but it can also soothe your soul and nurse your body."

"Listening to her singing is a most wonderful enjoyment in the world. Of the ten music Holies, five only sing for eternal empyrean races and two only sing for Holies. Only three music Holies travel the universe and hold concerts from time to time. Anyone can listen to their singing as long as they have an invitation. The Jade Song Music Holy is one of these three music Holies. Her concerts are extremely hard to come by, much more harder than meeting a Great Holy. Even if it's in the central starfield, it is extremely difficult to get to listen her singing. Only top aristocrats can listen to her singing."

Zhou Ruoling hugged Yang Feng's arm and said cutesy in a sweet voice, "Lord, I want to go. Take me with you! After practicing cultivation all this time, I'm fatigued! Take me with you! Take it as a reward for my hard work, okay?"

Zhou Ruoling is an extremely rare talent that is rarely seen once in 1 trillion people. In order to cultivate her into an expert, Yang Feng put a tight leash on her and had her practice cultivation nonstop.

Zhou Ruoling, who is a somewhat lively character, finds it boring to practice cultivation all day long. Now that she heard that a concert that only Holies have the opportunity to attend to will be held in the Tai Yuan Star, it immediately attracted her attention.

Yang Feng looked aside and saw Zhou Ruoyu gazing at him eagerly. As a result, he smiled and said, "Alright, let's go together."

Inside a lavish starship flying towards the Tai Yuan Star.

A space boundary is installed inside the lavish starship, forming a space with an area of thousands of square kilometers. Inside the vast space, there are mountains, a lake, a forest, and a snowfield. The scenery here is picturesque and beautiful. Those who can ride the lavish starship are wealthy aristocrats of the Tai Yuan Starfield.

While sitting in a chair and tasting fine wine, Yang Feng is quietly watching Ruslana and the other two girls playing in the lake with a smile on his face.

Yang Feng does his best when practicing cultivation. But in ordinary times, he is someone who likes to enjoy life.

"It's really strange to meet a Holy here."

Yang Feng suddenly looked aside.

He saw a peerless beauty with fair, sparkling skin, a perfect figure, black, shoulder length hair, and extraordinary temperament, wearing a white one-piece swimsuit and a pair of large sunglasses, swimming in the lake.

With a flash of faint light, thin mist rose from the peerless beauty wearing large sunglasses as the water covering her body evaporated. She comfortably reclined on a deck chair and quietly basked in the artificial sun.

Female Holies are basically guaranteed to be extremely beautiful. Even if they were originally ugly, as long as they adjust their body, they can definitely become devastatingly beautiful. Only disposition and temperament are hard to change.

Although the peerless beauty's eyes are covered by the large sunglasses, but her temperament alone is extraordinary and extremely attractive.

As if sensing Yang Feng's undisguised gaze, the extremely beautiful Holy glanced in his direction, and then stopped paying him any more attention.

Yang Feng used a secret method to restrain his Holy might, looking just like an ordinary Infinity Warlock.

An ordinary Infinity Warlock is akin to an ant in front of a Holy. As such, it is not surprising that she won't spare him a second glance.

The extremely beautiful Holy has also used a secret method to restrain her Holy might. However, with his sharp senses, Yang Feng was able to see through her true strength at a glance.

"Hello, beautiful lady, I'm Andy, the third successor of the Tai Yuan Star's Curixis Monarch Manor. Can I sit here?"

A handsome blonde man with two antennas on his head and an abstruse rune engraved on his forehead came up to the beautiful Holy and asked enthusiastically, a perfect smile on his face.

Several young men and women with outstanding appearances and temperament, who obviously come from prestigious families, are standing not far away and looking this way with a smile on their faces.

The people in this lavish starship are all wealthy and remarkable. But even so, the beautiful Holy still stands out like a crane in a flock of chicken, making it so others want to make friends with her.

The beautiful Holy replied coldly, "I'm sorry, but I like to be alone."

Seeing this scene, Yang Feng showed a smile of derision.

Andy is just an Infinity Warlock. Although he can already be considered to be a genius when taking into account the Tai Yuan Star's younger generation, but in front of a female Holy, he is just an ant. The beautiful Holy is already being rather restrained and polite.

If it was a temperamental female Holy with a tyrannical disposition instead, Andy may have already forfeited his life.

Rejected by the beautiful Holy, Andy's eyes flickered with humiliation. When he saw Yang Feng smiling derisively not far away, he became furious and shouted, "What are you smiling for? What's so funny?"

Yang Feng answered flatly, "I'm smiling because I saw a certain fool overestimating himself."

Andy suppressed the anger burning inside him and asked coldly, "I'm Andy, the third successor of the Tai Yuan Star's Curixis Monarch Manor. Who are you?"

Outside the three empyrean races, the Curixis Monarch is a Warlock Monarch rank powerhouse ranked in the top 30 of the Tai Yuan Star. Although Andy is confident that no one on this starship can compete with him in terms of background, but he is still cautious.

Yang Feng uttered indifferently, "You don't deserve to know who I am."

Andy's eyes burned with the fire of anger, and he uttered with a cold smile, "I don't deserve to know?"

"Older brother Andy is the third successor of the Curixis Monarch Manor and owns a 30% stake in this starship, making him equivalent to the owner of this starship. If he isn't qualified to ask about your background, then who is?"

A tall, beautiful, sexy girl with long, gray hair and tanned skin color walked over and sneered.

The beautiful, grey-haired, sexy girl is called Shana and is the fifth successor to a grand duke manor. Among the several aristocratic youngsters, she is a most beautiful and capable big sister.

Yang Feng glanced at Andy and answered flatly, "His father is barely qualified to say a few words to me. If your father learns that you dared talk to me like this, he will break your legs or directly kill you so as to apologize to me."

Andy narrowed his eyes and stared fixedly at Yang Feng, and a sense of vigilance welled up inside him. For Yang Feng to run his mouth despite knowing his identity, if he isn't a madman, then he must have a frightening background. As the third successor of the Curixis Monarch Manor, Andy isn't a pampered young master, but an elite among elites. He regained his composure and quietly looked at Yang Feng, sizing him up.

"Jade Sound Music Holy, please come out and greet us!"

Three Holy Spirit Warlock rank auras rose outside and shrouded the lavish starship, and then a voice reverberated in the starship.

When Andy detected the terrifying fluctuations of power, his face fell: "Holies, three Holies! Why have Holies come here?"

"Holies, what are Holies doing here?"

"What did they come for?"

"..."

Everyone in the lavish starship was alarmed.

The strongest powerhouses in the lavish starship are several supreme Infinity Warlocks. In front of Holies, those supreme Infinity Warlocks are no different from ants.

With a slap, these Holies can erase the thousands of people aboard the lavish starship, not even leaving ashes behind.

Even the aftermath of Holies fighting can destroy the lavish starship.

With a slight sigh, the beautiful Holy took off her sunglasses and revealed a devastatingly beautiful face. The peerless appearance matched with extraordinary temperament propelled her charm to the extreme.

When Andy saw the Jade Sound Music Holy's appearance, he was shocked at once. His heart was stolen by her. His mouth became dry and his heartbeat accelerated, as if she is his first love: "Jade Sound Music Holy, she is the Jade Sound Music Holy! She's so beautiful!"

"So beautiful!"

"She's the embodiment of beauty!"

"Too beautiful!"

"..."

When the surrounding aristocratic men saw the Jade Sound Music Holy, they inhaled a breath of cold air, and shock flashed in their eyes.

Yang Feng's eyes brightened and shimmered with admiration, "What a peerless beauty. She's a notch better than the succubus queen. Of the beauties I have seen so far, she is second only to Xue'er!"

The Cloud Dragon Queen and other female Holies are stunningly beautiful. Yet when compared with the Jade Sound Music Holy, they are slightly lacking.

In terms of demeanor, however, the Jade Sound Music Holy is a notch better than Shi Xue, who has the air of an empress.

"Truly beautiful!"

"Beyond beautiful!"

"An incarnation of beauty!"

"..."

Zhou Ruoyu's group of three girls looked at the Jade Sound Music Holy with admiration in their eyes. Ruslana's eyes flashed with greed, wishing she could gobble the Jade Sound Music Holy up.

#### **Chapter 1160 - He is the Firmament Holy**

The Jade Sound Music Holy suddenly erupted with mysterious, music note-like runes and radiated mystical light. She took a step and left the starship.

Outside the starship, there stand three Holies.

Of the three Holies, one is a three-meter-tall powerhouse with a deer head and a human body, another is a human-shaped powerhouse with three rhomboid eyes on the head, and the last one is a tall, burly, handsome powerhouse with beautiful, long hair and a three-colored cloud suspended above his head.

The handsome powerhouse with a three-colored cloud floating above his head smiled and said, "Jade Sound Music Holy, sir Divine Emperor invites you to come to the Myriad Flowers Divine Mountain."

"Rainbow Spirit Holy, I'm sorry, but I already accepted the invitation of the Silver Brilliant Manor to hold a concert. Let's talk about this next time!"

Jade Sound Music Holy smiled sweetly, looking like a flower in full bloom. Her mere existence paints an extremely beautiful scenery.

The Rainbow Spirit Holy smiled and uttered, "Jade Sound Music Holy, you have rejected sir Divine Emperor four times already. Our patience is limited. This time you must come with us."

The smile on the Jade Sound Music Holy's pretty face gradually faded, and she asked coldly, "What if I don't agree?"

The Rainbow Spirit Holy replied with a leisure smile, "Then we can only offend you and forcefully bring you back."

The deer-headed Holy and the Holy with three rhomboid eyes suddenly burst out with intermediate Holy rank fluctuations of power.

The Rainbow Spirit Holy burst out with advanced Holy rank fluctuations of power, a threatening look in his eyes.

The Jade Sound Music Holy's expression flickered. Countless runes appeared all over her body, and a junior Holy rank life force field shrouded her: "Just the three of you can't make me stay. We are less than 10,000 light-years away from the Tai Yuan Star. Once the Silver Brilliant Manor learns of this, it won't let you get away with it."

A Holy Spirit Warlock is easy to defeat, but very difficult to kill. The Jade Sound Music Holy has existed for many years. For her to still be able to roam free in the universe, she naturally is proficient in countless escape secrets methods.

"Yes, Jade Sound Music Holy, it's easy for the three of us to defeat you, but really difficult to make you stay. However, this time sir Divine Imperator gave us the Lock Star Net. We already sealed the void. The void will be sealed for three days, which is enough time for us to capture you."

The Rainbow Spirit Holy smiled and pointed to the void.

Starlight rose and formed a giant net that covered the area and sealed everything.

"Lock Star Net!"

The Jade Sound Music Holy has remained calm and collected until now. But when she saw the net of starlight cover the area, her countenance changed, and she exclaimed.

The Lock Star Net is a Holy grade secret treasure that a human Great Holy rank alchemist refined after spending countless years and collecting 1,639 stars and countless treasures of heaven and earth.

The sole ability of the Lock Star Net is to seal the void with the help of infinite starlight. If a Great Holy operated this secret treasure, they would even be able to seal a Great Holy in this void.

The Lock Star Net is famous in the Eternal Ancient Road's central starfield. Since it came into being, two Great Holies have died inside it.

Seeing the Lock Star Net, the Jade Sound Music Holy's heart sank. She realized that she probably won't be able to escape this calamity.

There are many secret treasures in the world that can compete with the Lock Star Net. However, those secret treasures are extremely precious. The Jade Sound Music Holy doesn't have a single such treasure.

"It's over! These are men of the Divine Imperator! We're dead!"

Inside the starship, Andy's face turned pale and his eyes flashed with despair.

The countenance of the aristocratic youngsters aboard the starship changed and their eyes filled with despair. They are all smart people. Naturally, they are aware that since the Divine Imperator sent people to abduct the Jade Sound Music Holy, everyone aboard the starship will have to be silenced.

"Are you the Divine Imperator's men?"

An indifferent voice sounded in the starry sky. The four Holies looked in the direction of the voice.

Ripples rose in the void, and Yang Feng slowly emerged from the void and looked at the three Holies subordinated to the Divine Emperor with an enigmatic smile.

The Jade Sound Music Holy's eyes constricted: "It's him? I made an error in judgement? He's actually a Holy?"

Andy cried out, "To dare go to an area with several Holies, is he a Holy, as well?!"

Someone suddenly shouted from among the Tai Yuan Star's aristocrats, "I remember now! He's the Firmament Holy! He's the human Firmament Holy!"

"The Firmament Holy, he's the human Firmament Holy!"

"That's right, he's the human Firmament Holy! We may be saved."

"..."

Bursts of excited cheers rose in the starship.

"The Firmament Holy, he's surprisingly the Firmament Holy! I almost provoked him just now! That was really dangerous! I nearly brought extinction upon my clan."

When Andy heard the cheering, he broke out in a cold sweat from his back, filled with fear.

Shana turned pale, and endless fear and regret filled her heart.

The aristocratic youngsters around Andy and Shana left their side, avoiding the two as if they have the plague.

It is said that the golden bones race of the Tai Yuan Star's three empyrean races was wiped out because the Golden Bones Sacred Son offended the Firmament Holy. Several staunch allies of the golden bone race were wiped out, as well."

"If your father learns that you dared talk to me like this, he will break your legs or directly kill you so as to apologize to me."

At the thought of Yang Feng's words, Andy smiled bitterly and sighed: "It's true. If my father learns that I almost provoked the Firmament Holy, he will kill me."

Although Andy is the third successor of the Curixis Monarch Manor and is ranked in the top of the Tai Yuan Star's aristocracy. But compared with the Firmament Holy, he is no different from an ant. In front of the Firmament Holy, the whole Curixis Monarch Manor is no different from an ant. Yang Feng doesn't need to take action himself. He can send a Holy to wipe out the Curixis Monarch Manor.

Although the Curixis Monarch dotes on Andy, but for the sake of the clan, he won't hesitate to kill him.

The Rainbow Spirit Holy's eyes constricted, and he spoke with a gentle smile: "So you are the Firmament Holy! The No. 1 Holy of the human race, one of the Tai Yuan Starfield's three empyrean races. I'm sorry for my lack of manners. I am the Rainbow Spirit Holy, one of the 24 Holies subordinated to the Divine Emperor. Our lord has invited the Jade Sound Music Holy to visit the Myriad Flowers Divine Mountain.

Firmament Holy, please give us face and act as if nothing happened. In the future, when you go to the central starfield, our lord will give you a generous reward!”

When the Rainbow Spirit Holy arrived at the Tai Yuan Starfield, he learned through secret channels that the golden bones race of the Tai Yuan Star’s three empyrean races was wiped out by a human Holy called Firmament Holy.

The proud Rainbow Spirit Holy doesn’t care about the golden bones race. However, he is aware that a being that can destroy the golden bones race isn’t someone that he can contend with.

“The Tai Yuan Starfield is my territory! To dare run wild in my territory and attack my distinguished guest, go to hell!”

Yang Feng smiled and extended his hand, and the Bead of Time suddenly appeared and erupted with countless runes. A river of time gushed out of the Bead of Time and swept towards the three Holies.

Engulfed by the torrent of time, the flow of time around the three Holies became chaotic.

“You three can let me test the power of the new weapon!”

Yang Feng erupted with numerous runes, and the Xi Shen Armor suddenly appeared. There is a golden horn in the right hand of the Xi Shen Armor.

The golden horn is a product formed after the Xi Shen Armor devoured the golden bones race’s Empyrean grade secret treasure the Golden Piercing Horn.

Yang Feng’s figure fluttered, and he appeared behind the deer-headed Holy in a blink, stimulated the golden horn, and attacked the opponent.

The deer-headed Holy surged with countless mysterious runes and turned into a 10,000-meter-tall deer-headed giant, and a tortoise shell emitting an archaic aura suddenly appeared and blocked in front of him.

Boom!

The golden horn slammed into the archaic tortoise shell and blasted it to pieces, and then a golden light beam blasted a giant hole open in the deer-headed Holy.

A black hole suddenly emerged, swallowed the deer-headed Holy as well as the Holy with three rhomboid eyes, and frantically extracted their life origin.

“Firmament Holy, sir Divine Emperor won’t forgive you for attacking us!”

The countenance of the Rainbow Spirit Holy changed dramatically, and he blurred, turned into a three-colored rainbow, and frantically fled into the distance.

The Lock Star Net suddenly burst out with endless starlight and swept towards Yang Feng, shining like stars in the sky.

“Break!”

Yang Feng smiled coldly and sent a fist flying, and a golden light beam stabbed into the stars covering the sky.

Subjected to the resplendent golden light, the stars burst one after another. The golden light beam ran through the Lock Star Net, and then slammed into the Rainbow Spirit Holy and blasted open a huge hole in his body.

A black hole suddenly emerged below the Rainbow Spirit Holy, swallowed him, and frantically devoured his life origin.
