

MGE 1251

Chapter 1251 - Swallowing Blueflame Leopard Emperor

“To have such a trump card, that’s the reincarnation of an Empyrean for you.”

“Why didn’t he use this card earlier? If Zhenxu Divine Kingdom had been breached earlier, then even though Firmament Holy returned, he wouldn’t be able to reverse the situation.”

“Quasi-Empyrean rank powerhouses are difficult to control. The three-headed starry dark stone dragon is obviously difficult to control. If it was taken out at will, the three-headed starry dark stone dragon may have attacked Blueflame Leopard Emperor and them.”

“The situation has become more chaotic. The three-headed starry dark stone dragon has become the key variable in deciding the outcome of this war.”

“...”

Holies and Great Holies spectating from afar looked at the three-headed starry dark stone dragon with a flash of excitement in their eyes. The quasi-Empyrean rank three-headed starry dark stone dragon has the fearsome power to influence the outcome of this war.

Yang Feng narrowed his eyes, gave up chasing Blueflame Leopard Emperor, and stared at the three-headed starry dark stone dragon with great vigilance. The three-headed starry dark stone dragon is a pinnacle intermediate quasi-Empyrean rank being. Back in the day, Blueflame Leopard Emperor paid a great price to suppress it. It is definitely a strong enemy.

Shi Yu looked at the three-headed starry dark stone dragon, her eyes flickered with enigmatic shade, and abstruse fluctuations diffused from her and spread in all directions.

Since the Holies and Great Holies are focused on Yang Feng, no one noticed the fluctuations Shi Yu released secretly.

Countless pieces of shattered starlight surged. The starlight barrier where Starmoon Sky Snake Great Holy is located was shattered.

Of the 27 mechanical stars and 500 million battle robots Starmoon Sky Snake Great Holy confronted, only 16 mechanical and barely 400 million battle robots remain.

Starmoon Sky Snake Great Holy looked at Yang Feng with apprehension and said, “Firmament Holy, if you swear by your soul that you won’t pursue today’s matter, we can act as if nothing happened. We will never oppose you again!”

For him to be able to defeat Empyrean reincarnations Ghostface Emperor and Blueflame Leopard Emperor, who are invincible in the the same realm, Yang Feng possesses incredible strength. At this time, Starmoon Sky Snake Great Holy is extremely regretful, his mind shrouded in layers of gloom.

“Why are you talking so much nonsense to him? The situation is still under our control. We must get rid of Yang Feng now. Otherwise, once we give him some time, he will grow further. If we can’t kill him now, we’ll all die in the future. And become the nourishment for his evolution.”

The redstar barrier collapsed, and Redstar Great Holy emerged from the redstar barrier and uttered icily.

There are still 22 mechanical stars remaining in the redstar barrier. The redstar race powerhouses are still entangled with the huge mechanical legion.

“Sir Firmament Holy, what happened today is our fault. We are willing to compensate you three times the damage you incurred. Why don’t we sweep this incident under the rug? If we continue to fight, both sides will only suffer.”

The barrier of threads collapsed, and Arachnid Great Holy walked out of the void, a sweet smile on her face.

Inside the barrier of threads, there are still 13 mechanical stars left. Arachnid Great Holy clearly hadn’t tried hard.

Blueflame Leopard Emperor gnashed his teeth, and then lowered his head and said reluctantly, “Firmament Holy, we were wrong this time. If you let this matter rest, our forces will withdraw from the central starfield. We will never oppose you again!”

“That’s right. We will compensate you three times the damage you incurred. We will never oppose you again!”

Ghostface Emperor clenched his teeth. The right side of his body is full of cracks and wounds, with blood running down his body and dripping into the void.

Yang Feng’s attack contained the law of karma. Before the law of karma is dispelled, the wounds littering Ghostface Emperor’s body can’t be healed.

Yang Feng frowned slightly, and the killing intent in his eyes fluctuated. He weighed things repeatedly.

All of a sudden, ripples transmitted from the rear, and his eyebrows relaxed.

Yang Feng smiled coldly, erupted with countless runes, and emanated terrifying killing intent.

“He wants to challenge Blueflame Leopard Emperor and them!”

“That’s a total of four quasi-Empyreans and two Great Holy rank Empyrean reincarnations, who are only second to quasi-Empyreans!”

“That’s insane! Even if it’s the eight Warlock Emperors of the human race, they weren’t as crazy while in the Great Holy realm.”

“Advanced Great Holy, he actually promoted to an advanced Great Holy. What a fast speed of advancement. However, rapid advancement isn’t equivalent to a great increase in combat strength.”

“...”

When the wills of Holies and Great Holies sensed Yang Feng’s seemingly substantial killing intent, the color of incredulity shimmered in their eyes.

“If it were somewhere else, it might be hard for me to make you stay. But this is my territory. Now that you’re here, I won’t allow you to leave.”

Yang Feng smiled coldly, and countless mysterious runes appeared on the Xi Shen Armor.

The remaining mechanical stars shone and resonated with each other. Countless mechanical towers appeared on the mechanical stars. Queer fluctuations emerged and resonate with each other.

Seal chains swept towards Starmoon Sky Snake Great Holy from all directions and drew him into a space.

Starmoon Sky Snake Great Holy roared madly, shone with starlight all over his body, and attacked frantically the sealed space.

Under the frenzied attacks of Starmoon Sky Snake Great Holy, ripples were set off inside the sealed space, yet the space didn't break.

Blueflame Leopard Emperor roared, "Let's take action! Or else he's going to deal with us one by one!"

The Blueflame Spirit Bead shone brightly, frantically extracted Blueflame Leopard Emperor's Blue Fire of Purification, turned into a fire star with destructive power, and shot towards Yang Feng like a meteor.

When hit by this attack, even an Empyrean will be injured. This is the strongest attack of Blueflame Leopard Emperor.

All of a sudden, a ghost mask flew out and landed on Ghostface Emperor's face, and he turned into an eyesore tyrant with 99 eyes.

The eyesore tyrant is a terrifying extraordinary life form. A mature eyesore tyrant possesses at least Infinity Warlock rank strength. Each eye of the eyesore tyrant contains a strange curse, which is impossible to defend against.

As soon as Ghostface Emperor turned into the eyesore tyrant, the 99 eyes locked on Yang Feng, radiated hair-raising light, and fired gray curse rays at Yang Feng.

Redstar Great Holy's eyes shone coldly. He raised his hands, lifted the Scarlet Star, which is an Empyrean grade secret treasure handed down by the redstar race from generation to generation, stepped on a path formed from scarlet light, traversed thousands of kilometers, and appeared in front of Yang Feng, and the Scarlet Star burst out with brilliant light and barreled towards Yang Feng.

Arachnid Great Holy smiled sweetly. She flicked her fair finger repeatedly, and threads that even Holies cannot see crossed the void and shot towards Yang Feng.

Wherever the strange threads passed, the void was completely sealed. Even if it's a quasi-Empyrean rank powerhouse, they wouldn't be able to break through the sealed space created by the threads for a short period of time. At the same time, despite looking soft, the threads can break through the magic shields of even quasi-Empyreans.

Faced with the siege of the four formidable powerhouses, Yang Feng's eyes flashed with ridicule.

With a dull look in its eyes, the three-headed starry dark stone dragon appeared in the rear. There was a cold flash in its eyes, and its three dragon heads ejected lightning fast, crossed the void, and bit at Redstar Great Holy.

“Damn beast!”

Redstar Great Holy’s countenance changed dramatically. He twisted his body and escaped to one side, his invincible momentum broken.

The Scarlet Star radiated scarlet light and formed a scarlet barrier.

The three-headed starry dark stone dragon forcibly crushed the scarlet barrier, and then tore off Redstar Great Holy’s right arm.

Gray light of petrification spread across Redstar Great Holy’s body from his right shoulder.

“Damn beast, how dare you hurt me! Go to hell!”

There was a fierce flash in Redstar Great Holy’s eyes, and he roared. All of a sudden, scarlet blades, spears, swords, and halberds flew out from the Scarlet Star, turned into a torrent of light, and stabbed towards the three-headed starry dark stone dragon.

The three-headed starry dark stone dragon is formed from Starry Dark Stone, which is extremely hard and can’t be broken by even Great Holy rank powerhouses. However, the countless scarlet blades, spears, swords, and halberds punched the three starry black stone dragon full of holes, and a large amount of silver blood dripped into the void.

With a fierce flash in its eyes, the three-headed starry dark stone dragon turned into a dark ray and engaged Redstar Great Holy.

A black hole suddenly emerged, swept towards the vicious curses and the beam formed from Blue Fire of Purification, and devoured everything.

A torrent of time appeared, enveloped the black hole, and transported it to a different time. In an instant, the black hole appeared in front of Blueflame Leopard Emperor.

“Die!”

A large hand covered by the Xi Shen Armor, containing terrifying devour runes, emerged from the black hole and pressed on Blueflame Leopard Emperor’s forehead.

The devour runes shone, and the arrogant and unparalleled Blueflame Leopard Emperor distorted and was swallowed by the black hole in an instant.

When they saw Blueflame Leopard Emperor being swallowed into the black hole, the faces of the powerhouses of the allied forces distorted and assumed the colors of fear and despair.

Chapter 1252 - Devouring Ghostface Emperor

A green halberd ray emerged in the black hole and sliced Blueflame Leopard Emperor in two.

The black hole shone with runes and frantically devoured Blueflame Leopard Emperor’s life origin. In an instant, he body became shriveled, as if he had turned into a desiccated corpse.

The 99 eyes on the eyesore tyrant that Ghostface Emperor turned into exploded, and a copious amount of blood converged and formed a huge, twisted eye inlaid with 99 eyes.

The 100th eye is the most terrifying secret method of the eyesore tyrant. When a quasi-Empyrean rank eyesore tyrant uses the 100th eye, it may be able to seriously wound even an Empyrean.

Only Great Holy rank eyesore tyrants can use the 100th eye. Furthermore, they can use this secret method only twice during their life.

99 kinds of curses converged and turned into a gray pillar of light barreling towards Yang Feng.

Arachnid Slays Holy secret method!

With a cold flash in her eyes, Arachnid Great Holy flickered a finger, and mysterious runes appeared.

Countless strange threads suddenly converged and formed a projection of Primal Chaos Mother Spider with 999 beautiful faces.

Primal Chaos Mother Spider is the first spider born in the universe. She gave birth to countless children by means of asexual reproduction. Feisuo Plane's Queen of Spiders Lolth is a child of Primal Chaos Mother Spider.

Back in the day, Primal Chaos Mother Spider treated true dragons, phoenixes, rocs, and other true spirit level direbeasts as food. She was a being closest to the Eternal Sovereign realm.

As soon as Primal Chaos Mother Spider's projection appeared, she opened her mouth and ejected Primal Chaos Dark Light.

The Primal Chaos Dark Light contains the essence of decomposition. Once hit by it, even an Empyrean's body will be decomposed.

The two powerhouses unleashed a startling attack in order to save Blue Flame Emperor from Yang Feng.

"You're a step too late!"

Yang Feng's eyes glimmered with the shade of derision, and he smiled coldly. A torrent of time appeared around him and crazily accelerated the flow of time around him.

Practically in an instant, the countless runes inside Blueflame Leopard Emperor's body collapsed, his life origin was devoured, and he turned into dust that flew out of the black hole.

A crown engraved with a mysterious vertical eye suddenly appeared on Yang Feng's head. The vertical eye radiated abstruse, distorted light, and a white curtain appeared.

When the 100 eyes curse ejected by the 100th eye slammed into the white curtain, ripples rose and 90% of their power was absorbed.

The remaining 10% of the curse strangely passed through Yang Feng's magic shield and slammed into his body.

Severe pain transmitted from all parts of Yang Feng's body, a feeling of weakness, which he hadn't felt for a long time, welled up in his heart, and bursts of dizziness surged in his head, interfering with his thinking.

Holy Spirit Warlocks possess a Holy soul and an immortal body with a trace of immortal might and are immune to most curses.

However, the eyesore tyrant is different. It's a variant of heaven and earth. Even Warlock Emperors would be somewhat apprehensive of its curse. If the Xi Shen Armor had not swallowed the Gloweye Crown and acquired the power to resist curses, the eyesore tyrant's 100 eyes curse would have seriously wounded Yang Feng.

"What a strange and powerful curse. That's the eyesore tyrant's 100th eye for you. It's a shame, but you yourself are too weak! Third form!"

The Xi Shen Armor shone with countless runes, and a terrifying projection appeared in the black hole.

The projection spread the fingers of a hand, crossed space, appeared above the eyesore tyrant that Ghostface Emperor incarnated into, and turned into a black hole that pressed towards the eyesore tyrant.

The eyesore tyrant twisted and changed into a hundred-armed giant, who shone with countless runes, bellowed, and contended against the power of the black hole.

The Primal Chaos Dark Light appeared in front of Yang Feng in an instant and barreled towards him.

A ripple rose in the void, and a mechanical star appeared in front of Yang Feng and knocked into the Primal Chaos Dark Light.

Boom!

Amid a deafening explosion, the mechanical star was blown apart, and all its parts collapsed and decomposed into a strange substance that can no longer be used.

This is Yang Feng's nest. He has arranged many fallbacks here. In his nest, he is able to fight the four peerless enemies by himself without fear.

The Green Yang Halberd ejected from the black hole like a green meteor and stabbed the head of the hundred-armed giant.

The hundred-armed giant is as big as a star. For it, the Green Yang Halberd is as small as a speck of dust.

The Green Yang Halberd ran through the head of the hundred-armed giant, and then 10 green stars exploded inside its body and blasted it apart.

The black hole emerged and swallowed the parts of the hundred-armed giant that Ghostface Emperor incarnated into.

Ghostface Emperor was once an unparalleled overlord for a reason. He broke out with countless runes, turned into a huge golden stone, and sealed himself in it.

The golden stone is a peerless secret method gilliant specter race powerhouses wield. Once used, they will be turned into an extremely durable Gilliant Mystic Stone. Not unlike when Michaelia changed into an angel's egg, it is the most formidable life-saving secret method of the gilliant specter race.

When Ghostface Emperor turned into a Gilliant Mystic Stone, the rate at which his life origin flowed out decreased by an amazing degree.

“Everyone at the Holy realm and above, come and besiege Firmament Holy! If he doesn’t die today, we will all suffer a tragic end!”

Arachnid Great Holy’s beautiful eyes shimmered with fear and regret, and she shouted.

The Holies and Great Holies who struggled with mechanical legions all over the place cast all kinds of secret methods and frantically rushed this way.

7 Great Holies with an Empyrean grade secret treasure stimulated their Empyrean grade secret treasure to the limit, and attacks containing Empyrean might tore the firmament and shot towards Yang Feng.

The 7 Great Holies with an Empyrean grade secret treasure possess terrifying battle prowess. When faced against the 7 people at the same time, even a quasi-Empyrean rank powerhouse will have to flee.

Meanwhile, the 6th generation battle robots and ruler series battle robots took this opportunity to deal the Holies and Great Holies a large number of injuries.

“This is my territory! For you to try kill me here, what a joke.”

With a flash of disdain in his eyes, Yang Feng smiled coldly and snapped his fingers.

Zhenxu Divine Kingdom, at 36 nodes, 36 Star Fortress Annihilation Cannons appeared abruptly.

Lights shone, the energies drifting in Zhenxu Divine Kingdom were extracted, and 36 beams burst out from Zhenxu Divine Kingdom and shot towards the sky.

Swept by the Star Fortress Annihilation Cannon beams, Holies turned into ashes one by one. At the same time, the magic shields of the 7 Great Holies with an Empyrean grade secret treasure collapsed and a part of their body was vaporized, dealing serious damaged.

In just an instant, 23 Holies and 3 Great Holies were blasted into slag, 40 Holy Spirit Warlock rank weapons were destroyed, and 10 Great Holies and 36 Holies were seriously injured.

“So this is Firmament Holy’s trump card!”

“How terrible! So this if the fallback Firmament Holy set up? Even if eternal empyrean races come to attack, they will have to pay a very painful price.”

“Firmament Holy Yang Feng! Truly dreadful!”

“...”

When they saw a large, empty area in the starry sky, the spectating Holies inhaled a breath of cold air, their hair standing on end.

A volley fired by the Star Fortress Annihilation Cannons wiped out the equivalent of an empyrean race of another starfield. This combat power is simply incredible.

“Fortunately, I didn’t participate. Firmament Holy Yang Feng is really terrifying!”

The eyes of Cosmic Eyes Tiger Great Holy, who is hiding in the void, shimmered with lingering fear. When he saw Redstar Great Holy, Arachnid Great Holy, Starmoon Sky Snake Great Holy, and other powerhouses of the allied army join forces, he wanted to join them and drive Yang Feng's forces out of the central starfield in one fell swoop.

However, Cosmic Eyes Tiger Great Holy hesitated and ultimately didn't participate in the battle. Not long ago, he still regretted not participating in the feast of dividing Yang Feng's sphere of influence. But now he's rejoicing.

A river of time emerged. In an instant, Yang Feng appeared in front of Three-headed Dark Weavedread Great Holy, and the projection in the black hole extended a hand towards the other party.

"No! Help me!"

At this time, half of Three-headed Dark Weavedread Great Holy's body began reorganizing, and he unleashed a shaking scream, a look of fear on his face. He radiated dark light from his three heads and resisted the erosion of the black hole.

That black hole shone with countless runes. In an instant, the black hole drew Three-headed Dark Weavedread Great Holy inside.

A river of time appeared around the black hole and accelerated the flow of time of the black hole. After just a few breaths of time, Three-headed Dark Weavedread Great Holy, the No. 1 expert of the dark weavedread race, was turned into a desiccated corpse.

Chapter 1253 - Devouring Redstar Great Holy

"The dark weavedread race is finished!"

When the spectating Holies saw Three-headed Dark Weavedread Great Holy being devoured by Yang Feng, a thought welled up inside them.

Without the Empyrean grade secret treasure, the Dark Rod, the dark weavedread race can no longer continue to be an empyrean race and suppress a starfield.

A torrent of time surged. In an instant, Yang Feng crossed thousands of kilometers, appeared in front of Darkmist Great Holy, and extended his hand, and a black hole suddenly emerged and swept towards Darkmist Great Holy.

Darkmist Great Holy's expression changed greatly. He shone with countless runes and frantically escaped towards the outside.

Darkmist Great Holy, who is proficient in the essence of mist, can gather and disperse at will. Thus, the Star Fortress Annihilation Cannons haven't dealt him much damage. However, Yang Feng's essence of devour restrains his essence of mist. If he turns into mist, he will be easily swallowed by the black hole.

The black hole expanded and became the size of a world at once, about to swallow Darkmist Great Holy.

"Damn it!"

Darkmist Great Holy's countenance changed greatly. His strength flared up. The Mist Spirit Bead flew out above his head, and a curtain composed of countless runes appeared and guarded him.

The Mist Spirit Bead is said to be a treasure formed by the blood essence of an Eternal Sovereign. Only a powerhouse proficient in the essence of mist can operate this secret treasure, which contains unpredictable power. Even though it's not a secret treasure of an unparalleled overlord level Empyrean, but it's still classified as an unparalleled secret treasure.

"The secret treasure is quite formidable! It's a shame, but you yourself are too weak!"

A cold voice emerged from the black hole, and the Green Yang Halberd suddenly flew out and, as if a shooting star, slammed into Darkmist Great Holy.

Along with flashed of distorted light, the Green Yang Halberd crushed the curtain of mist formed from countless mysterious mist runes, and then sliced Darkmist Great Holy in two.

The terrifying black hole swallowed Darkmist Great Holy.

As soon as Darkmist Great Holy was swallowed, his life origin was extracted, and he collapsed and disappeared. There isn't even a trace of dust left.

Darkmist race powerhouses are strange beings formed from extraordinary power of mist. If they are devoured, no residue will be left behind.

"So strong! To instakill the strongest powerhouse of an empyrean race in one move, Firmament Holy Yang Feng is really scary!"

"What a terrible monster!"

"Even a quasi-Empyrean rank powerhouse can't instakill the strongest powerhouse of an empyrean race in one move. Firmament Holy has become stronger. How did this happen? How did he make such rapid progress in such a short time?"

"..."

The Holies hidden in the surroundings felt a chill go down their spine when they saw this scene. Even when confronting a quasi-Empyrean rank powerhouse, Darkmist Great Holy would be able to resist somewhat. It would be impossible to instakill him. However, such a fearsome being was not able to withstand a single blow of Yang Feng. This made those Holies feel cold all over.

Ripples rose, and a black hole appeared in front of Dragon Giant Great Holy in an instant and barreled towards him.

The lower half of Dragon Giant Great Holy's body was blown away by the Star Fortress Annihilation Cannons, dealing him serious damage. Now he can unleash less than 50% of his original fighting strength. In a breath of time, the black hole swallowed him, frantically extracted his life origin, and turned him into ashes.

The other four strongest powerhouses of empyrean races with an Empyrean grade secret treasure felt their blood run cold when they saw this scene.

When faced with the 7 strongest powerhouses of empyrean races with an Empyrean grade secret treasure, even a quasi-Empyrean rank powerhouse may not be able to prevail. But since they were badly injured by the Star Fortress Annihilation Cannons, it enabled Yang Feng to easily eliminate them one by one.

With a cold flash in her eyes, Arachnid Great Holy flicked her finger, and Primal Chaos Mother Spider's projection turned its head, locked its eyes on Michaelia, and opened her mouth, and Primal Chaos Dark Light shot towards Michaelia.

"Arachnid Great Holy, you're courting death!"

Killing intent streaked across Yang Feng's eyes. Yang Feng willed, and a mechanical star appeared in front of Michaelia in an instant and blocked the Primal Chaos Dark Light.

Boom!

Along with a sky-shaking blare, the mechanical star collapsed and disintegrated.

Two mechanical stars collapsed, and cracks began to appear of the barrier formed by the remaining mechanical stars. It is clearly hard to seal a terrifying quasi-Empyrean rank powerhouse such as Starmoon Sky Snake Great Holy for a long time.

Starmoon Sky Snake Great Holy, Arachnid Great Holy, and Redstar Great Holy, of the three quasi-Empyrean rank powerhouses, Starmoon Sky Snake Great Holy is the strongest. Because of this, he was the one Yang Feng chose to seal.

"Firmament Holy, if you agree not to pursue this matter, we can act as if nothing happened. If this war continues, your beloved Michaelia and Shi Yu will die."

There was a cold flash in Arachnid Great Holy's beautiful eyes. She flickered her fair finger, and threads strangely appeared behind Shi Yu and stabbed at her.

At this time, Shi Yu, who is manipulating the three-headed starry dark stone dragon, is in an unguarded state. She can't resist the threads.

As a heavenly earthen emperor, Shi Yu has dominion over all earthen. Even so, it is impossible for her to dominate a quasi-Empyrean rank three-headed starry dark stone dragon.

But after being sealed for countless years, the consciousness of the three-headed starry dark stone dragon has become hazy and its soul has become badly damaged. This is the reason why the Great Holy rank Shi Yu was able to dominate it. However, to manipulate the quasi-Empyrean rank three-headed starry dark stone dragon to fight Redstar Great Holy, it is already Shi Yu's limit. She can't protect herself at the same time as she manipulated the three-headed starry dark stone dragon.

The Vajra Rulers guarding Shi Yu suddenly flew out, resonated with each other, and formed a fearsome defensive barrier.

When the threads stabbed into the barrier, they strangely passed through the barrier and stabbed at Shi Yu.

Primal Chaos Threads are the most formidable secret method Arachnid Great Holy has mastered. Unless it's a barrier containing immortal Holy might, no barrier can hinder or touch the Primal Chaos Threads.

Although the barrier formed by the resonance of the 1,000 Vajra Rulers is enough to resist a full-strength attack of a Great Holy, but it can't stop the Primal Chaos Threads.

Regarding Holies, beings below the Holy rank are ants. After all, in the face of attacks unleashed by Holy rank extraordinary life forms, even top quasi-Holies have no strength to resist.

"Fourth form!"

Yang Feng's eyes flashed coldly. His figure shook slightly, and the projection appeared behind him and fused with him.

The Xi Shen Armor shone with countless runes, and a nearly endless amount of power gushed out from the Kunmo Stone.

A torrent of time appeared, and the flow of time around Yang Feng increased hundred-fold. In an instant, he crossed a distance of thousands of kilometers, appeared behind of Shi Yu, and flicked a finger, and terrifying Blue Fire of Purification emerged, turned into a fire dragon, and rolled out towards the Primal Chaos Threads.

Blue fire shone, and the Primal Chaos Threads, which easily passed through the barrier formed by the Vajra Rulers, were easily burned by the Blue Fire of Purification into nothing.

"Blue Fire of Purification, how can he wield Blueflame Leopard Emperor's bloodline innate skill. Has his essence of devour evolved to that point?"

Upon seeing this scene, Arachnid Great Holy felt a chill in her heart.

After the essence of devour evolves to the extreme, then when you devour a powerhouse, you'll be able to devour everything of the opponent. You'll even be able to master their bloodline innate skills and essences.

Arachnid Great Holy only heard of powerhouses who evolved the essence of devour to the extreme in legends. According to legend, every powerhouse who has evolved the essence of devour to the extreme is invincible in the same realm.

A quasi-Empyrean rank powerhouse who evolved the essence of devour to the extreme once took down an Empyrean with them.

"You actually forced me into the fourth form! Go to hell!"

A voice full of killing intent echoed in the area. With a frigid flash in his eyes, Yang Feng took a step, crossed the river of time, appeared above Redstar Great Holy, and sent a palm strike barreling towards the opponent.

A golden horn extended from Yang Feng's right hand, emanated immortal Empyrean might, and stabbed towards Redstar Great Holy.

"Firmament Holy, you don't have the ability to kill me!"

Redstar Great Holy has the upper hand while fighting the three-headed starry dark stone dragon. Even though he was suddenly attacked by Yang Feng, he still has a tyrannical look on his face. The scarlet star above his head shone with countless runes, emanated immortal Emyrean might, and shot towards Yang Feng.

When the golden horn stabbed the scarlet star, a terrifying golden beam tore the scarlet star apart and ran through Redstar Great Holy's body.

The three-headed starry dark stone dragon rushed over at once, and its three dragon heads tore Redstar Great Holy to pieces.

A black hole suddenly emerged, swallowed the pieces of Redstar Great Holy's body, and frantically devoured the other party's life origin.

A river of time appeared inside the black hole and frantically accelerated the flow of time.

Inside the black hole, Redstar Great Holy struggled frenziedly, and then turned into dust that floated out of the black hole.

"Died!"

"Redstar Great Holy died!"

"That's a quasi-Emyrean rank powerhouse! Yet he actually died at Yang Feng's hands."

"Without employing Eternal grade secret treasures, he actually killed a quasi-Emyrean rank powerhouse! When did Firmament Holy become so terrifying? How did he become so terrifying? What the hell happened?"

"..."

When the Holies present saw Redstar Great Holy die, they felt their blood run cold. A quasi-Emyrean rank powerhouse is a bigwig standing at the very top of Eternal Ancient Road. Since such a strong powerhouse died at Yang Feng's hands, is there anyone if the entire Eternal Ancient Road that is Yang Feng's opponent?

Chapter 1254 - Primal Chaos Mother Spider

The three-headed starry dark stone dragon shook slightly, twisted its huge dragon body, and appeared in front of Shi Yu.

Michaelia's figure fluttered, and she flew to behind the three-headed starry dark stone dragon together with Cloud Dragon Great Holy and Silver Brilliant Great Holy.

The three-headed starry dark stone dragon, after all, is a quasi-Emyrean rank extraordinary life form. And defense is its forte. With its protection, there's no need to worry about Arachnid Great Holy's Primal Chaos Threads.

Teleportation beams emerged in the space, and countless 6th generation battle robots suddenly appeared. It seems like Zhenxu Divine Kingdom has endless mechanical legions.

Thanks to top grade warp gate, Yang Feng transferred back the mechanical legions scattered in the central starfield.

Ruler series battle robots poured out like a tide and rushed towards the enemy Holies and Great Holies.

Vajra Rulers appeared continuously around Yang Feng and resisted all kinds of attacks.

Under the bombardment of the Holies and Great Holies, Vajra Rulers were blown to pieces one after another. It is thanks to the Vajra Rulers, who are as a firm as a barrier, that Yang Feng is able to unbridledly devour strong enemies one after another. Otherwise, despite how strong Yang Feng is, it would be impossible to ignore the attacks of the Holies and Great Holies.

In theory, if there's enough Holy Spirit Warlock rank powerhouses, they can even kill an unparalleled Emphyrean.

Under the siege of the ruler series battle robot, the Holies and Great Holies attacking Yang Feng suffered serious damage.

Phantom fluctuations rolled out towards a Holy whose life force field was broken, and the Holy's eyes flashed with confusion.

At the moment when the Holy's eyes surged with confusion, 7 Blade Rulers that have advanced to the Warlock Monarch realm appeared in front of the opponent lightning-fast and brandished their blades.

A copious amount of blood splashed as the 7 Blade Rules sliced the Holy into countless pieces.

A black hole emerged immediately, swallowed the countless pieces of the Holy, and absorbed their life origin.

The life origin of every Holy is a great tonic to Yang Feng. Only by devouring the life origin of many Holies, was he able to surpass countless prodigies in history and gradually reach this step.

When Arachnid Great Holy saw Redstar Great Holy turn into ashes before her eyes, she felt ice-cold all over her body, and fear filled her heart.

Inside the sealing barrier, Starmoon Sky Snake Great Holy became more violent. Countless starlight shone and bombarded the sealing barrier, and cracks appeared on the barrier one by one. He is aware that it'll be his turn next when Arachnid Great Holy dies.

"It's your turn now!"

Yang Feng's eyes flashed coldly and fell on Arachnid Great Holy, and terrible killing intent spread in all directions like a tide.

"Mother, save me!"

The complexion of Arachnid Great Holy changed dramatically. She flipped her fair hand, and a Primal Chaos Mother Spider sculpture with 999 faces of beautiful women appeared.

The faces of beautiful women on the Primal Chaos Mother Spider statue flew out, suspended in the void, and turned into countless distorted runes.

The projection of a vast torrent of time, which seems to run through the past, present, and future, emerged.

In the torrent of time projection, there are projections of countless stars. In the center of the countless star projections, there is a huge spider hovering. Compared to the huge spider, the star projections are as small as grains of rice. The huge spider has 9,999 faces of beautiful women on its body.

This terrifying spider is the first spider born in the universe — Primal Chaos Mother Spider. She was an unparalleled overlord level being as soon as she was born. At its peak, she even fed on true dragons and phoenixes. She was a terrifying existence closest to the Eternal realm.

According to the investigations performed by countless human Warlock historians, if it weren't for the shackles of bloodline, Primal Chaos Mother Spider would likely have become the first Eternal Sovereign born in the universe. Unfortunately, although Primal Chaos Mother Spider's bloodline is extremely powerful, but at the same time, it shackles her, making it impossible for her to advance further and step into eternity.

Chaotic, distorted, terrifying immortal Empyrean might diffused from the huge Primal Chaos Mother Spider and spread into the void.

When the powerhouses in the void saw Primal Chaos Mother Spider, their eyes congealed. This is the first time they have seen such a huge and terrifying being.

Primal Chaos Mother Spider fundamentally doesn't need to use the power of laws and utilize the energies drifting in the universe. With a random blow, she can destroy a star.

Holies have great power and can destroy stars. But in order to be able to destroy stars, they need to mobilize the power of laws. If they can't mobilize the power of laws, they're only able to destroy some weaker stars.

Yang Feng looked at Primal Chaos Mother Spider with a dignified shade in his eyes: "So strong! So this is an unparalleled overlord level Empyrean! What a terrifying existence. It's much stronger than Boyan Lord!"

A face of a beautiful woman on Primal Chaos Mother Spider's back flew out and countless threads wound, forming a devastating beauty with black hair and a perfect figure. But this devastating beauty is not weak at all. Instead, she's full of domineering and overbearing aura.

Primal Chaos Mother Spider is one of the most powerful and terrifying female intelligent life forms in the world of Warlocks. She surpassed countless male powerhouses by far.

A strange rune flashed in the eyes of the devastating beauty, and her rosy lips parted: "Firmament Holy, I am Primal Chaos Mother Spider. Arachnid Great Holy is my daughter. Can you give me face and let this matter rest?"

Yang Feng saluted Primal Chaos Mother Spider and said, "Great Primal Chaos Mother Spider! Your daughter wanted to destroy my foundation, kill all my important people, and cut off my hope of ascending the Empyrean throne. Even if it's the great you, it is impossible to have me let her go with just a few words."

Primal Chaos Mother Spider is a most terrifying being in the world of Warlocks. According to legend, she once cooperated with an Eternal Sovereign and bit another Eternal Sovereign, which ultimately led to the death of the latter. Faced with such an unparalleled overlord level Empyrean, despite how strong Yang Feng is, he is still in awe. He is unwilling to make an enemy of her for no reason.

Primal Chaos Mother Spider asked, expressionless, "So you're unwilling to give me face?"

Yang Feng answered indifferently, "Anyone who offends me must pay a price."

Although Primal Chaos Mother Spider is terrifyingly strong, but she has lived for too long. She's a terrifying being that has existed ever since the universe was created. No matter what secret methods she uses, she can't leave the river of time at this time.

If Primal Chaos Mother Spider wakes up from the river of time and steps out of the river of time at this time, she will be eroded in the next moment and her soul will decay. Only her immortal body will be left.

"Arachnid Great Holy will compensate you 10 times as much as the losses you incurred. In addition, you will be able to get what you have been looking for in this place."

Primal Chaos Mother Spider was silent for a moment, then flicked a finger, and a golden radiance flew towards Yang Feng and fell into his hand.

"Universe Root Fragment!"

When the golden radiance fell into Yang Feng's hand, his eyes suddenly brightened and revealed the shade of excitement.

The Universe Origin Fragment is one of the most important core materials of the level-7 stronghold of the xizu. It is a precious mineral that will be born when a universe is created or destroyed and the universe's origin splits.

Few people can make use of Universe Origin Fragments. However, every Universe Origin Fragment can be used to create a sacred land for cultivation. This is why Primal Chaos Mother Spider collected a Universe Origin Fragment.

Yang Feng glanced at Arachnid Great Holy and said coldly, "Arachnid Great Holy, if you swear not to be my enemy ever again, then you can leave."

Arachnid Great Holy heaved a sigh of relief, and then erupted with countless runes. The river Styx suddenly appeared, and she spat out a mysterious scale and began to make a Styx oath.

After making the Styx oath, Arachnid Great Holy prostrated herself towards Primal Chaos Mother Spider projection, and then turned into a stream of light and disappeared.

Several Holies disappeared from the battlefield along with Arachnid Great Holy.

In the river of time, the devastating beauty nodded at Yang Feng, and then distorted, turned into the face of a beautiful woman, flew to Primal Chaos Mother Spider's body, and closed its eyes.

The projection of the river of time slowly disappeared.

"It's over!"

“There is no hope!”

“...”

Upon seeing this scene, the eyes of the Holies and Great Holies fighting fiercely flashed with despair. As a quasi-Empyrean rank powerhouse, Arachnid Great Holy’s existence alone can make Yang Feng somewhat vary. Now that Arachnid Great Holy left. On this battlefield, Yang Feng is the only one left with strength comparable to the quasi-Empyrean realm.

Lights shone, and Holies and Great Holies fled in different directions.

“Want to escape? You can! But you have to leave a fate reflection behind!”

There was a cold flash in Yang Feng’s eyes. He smiled coldly and flicked a fingers, and the Blue Mirror of Fate appeared. Wisps of fate aura emerged from the Blue Mirror of Fate and hit the fleeing Holies and Great Holies.

Next, wisps of fate aura came from the directions of the fleeing Holies and Great Holies and entered the Blue Mirror of Fate.

When they saw this scene, the hostile Holies and Great Holies turned pale, and their eyes flickered with despair.

Once hit by the Blue Mirror of Fate’s fate aura, then even if you escape to the edge of the universe, you won’t be able to escape Yang Feng’s pursuit. Only by leaving the universe, will you be able to get rid of the Blue Mirror of Fate’s tracking.

Chapter 1255: Starmoon Sky Snake Great Holy Submits

Yang Feng swept the allied army with his gaze, smiled coldly, and uttered frigidly, “If you want to surrender, kill the powerhouses of the blueflame sky leopard race, the ghostface race, the redstar race, and the starmoon sky snake race. Only by killing them and using their heads and souls, can you be qualified to surrender. Otherwise, you will be wiped out.”

“Kill!”

“Lend me your head!”

“I’m sorry, sir! Lend me your head!”

“...”

The allied army broke apart in an instant, and Holies and Great Holies of the allied army frantically attacked the 4 strong races and fought recklessly for a chance to survive.

With his prestige on the line, Yang Feng will never go against his word.

When the zhenxu race collapsed, apart from the races that slayed zhenxu race Holies, the other races were all wiped out by Yang Feng.

Now that the Blue Mirror of Fate is in Yang Feng’s hands, even if these races have the protection of Great Holies, they can’t escape Yang Feng’s pursuit, not even if they escape to the edge of the universe.

The only way for them to survive is to kill powerhouses of the 4 strong races and exchange their heads for a chance to surrender and live.

“You scoundrels!”

“You dare betray us!”

“Stop, you lowlives!”

“Let’s kill all the traitors!”

“...”

The powerhouse of the 4 strong races fought their former vassals with bloodshot eyes.

Countless lives faded in the void.

The powerhouses subordinated to Yang Feng besieged the 4 races and their loyal vassals together with the huge mechanical legions.

Now that the overall situation changed so much, everyone can see that the defeat of the 4 races is already set in stone.

“Stop, Firmament Holy. You can kill me, but please let the starmoon sky snake race live! I will offer you all the wealth accumulated by the starmoon sky snake race! Furthermore, I know the coordinates of an Eternal Sovereign laboratory. As long as you give the starmoon sky snake race a chance to survive, I will tell you the coordinates of the Eternal Sovereign laboratory. I’m the only one who knows the coordinates.”

Starmoon Sky Snake Great Holy madly attacked the sealing barrier formed by the mechanical stars and roared.

Yang Feng glanced at Starmoon Sky Snake Great Holy and said coldly, “Starmoon Sky Snake Great Holy, I already gave you a chance. But since you gave up that chance and refused my kindness, you have to pay the price. The starmoon sky snake race will be destroyed because of your stupidity and become a stepping stone for my progress.”

The path to the Empyrean throne is laid with the corpses of countless powerhouses. Since Empyreans require too many resources. Without sufficient resources, no matter how incredible a prodigy is, it is impossible to promote to the Empyrean realm.

“Firmament Holy, can you give me face and let Starmoon Sky Snake Great Holy off? I can guarantee that he won’t oppose you again. With the universe great tribulation imminent, any quasi-Empyrean rank powerhouse of our universe is an important asset and should not be squandered in internal strife in vain.”

Ripples rose in the void, and Cyan Thunderbolt Great Holy sighed, flew out of the void, and said unhurriedly.

Cosmic Eyes Tiger Great Holy also stepped out of the void and said slowly, "That's right. Firmament Holy, I also ask that you let Starmoon Sky Snake Great Holy and the starmoon sky snake race off. Of course, you can take four-fifths of their domain."

In the void, light shone, and Guang Hai Great Holy with long, cyan hair and enveloped by bright light emerged from the void.

Guang Hai Great Holy, who emanates quasi-Empyrean rank aura, uttered slowly: "Firmament Holy, please give us face and pardon Starmoon Sky Snake Great Holy. We will compensate you 10 times as much as the losses you incurred this time as well as have Starmoon Sky Snake Great Holy swear a Styx oath that he and the starmoon sky snake race will never oppose you again. The death of a quasi-Empyrean is too great a loss to our universe."

There are less than 20 known quasi-Empyrean rank powerhouses in Eternal Ancient Road's central starfield, and each one of them has terrifying power. They are considered top powerhouses even in the backdrop of the universe great tribulation.

With a sharp gaze in his eyes, his face expressionless, Yang Feng looked at the three quasi-Empyreans and asked: "If I don't give you face, will you go to war with me?"

Cosmic Eyes Tiger Great Holy felt a chill go down his spine and replied decisively, "No, if you really want to wipe out the starmoon sky snake race, the cosmic eyes tiger race is willing to help you!"

The rate at which Yang Feng's strength increases is too fast. Not long ago, he wasn't the opponent of a quasi-Empyrean. But now, even Redstar Great Holy, a quasi-Empyrean rank powerhouse, died at his hands. This filled Cosmic Eyes Tiger Great Holy with fear.

Every Empyrean reached the pinnacle by treading a path inlaid with the corpses of countless powerhouses. Cosmic Eyes Tiger Great Holy doesn't want to be a stepping stone under Yang Feng's feet.

The cosmic eyes tiger race has a feud with Yang Feng to begin with. If Yang Feng finds an excuse to start a war, it will be a nightmare for the cosmic eyes tiger race.

Cyan Thunderbolt Great Holy said with a slight sigh, "Firmament Holy, Starmoon Sky Snake Great Holy offended you. You have the right to deal with him any way you see fit. I just hope that you consider it some more and preserve the vitality of our universe."

Guang Hai Great Holy smiled and uttered, "Firmament Holy, it's up to you how to deal with Starmoon Sky Snake Great Holy. If you insist on wiping out the starmoon sky snake race, the guang hai race is willing to help you wipe it out. If it is annihilated as soon as possible, it will also allow our universe to preserve more vitality."

Inside the mechanical star sealing barrier, Starmoon Sky Snake Great Holy revealed the shade of despair in his eyes.

The cosmic eyes tiger race and the guang hai race are both eternal empyrean races. Once these two eternal empyrean races join in the suppression, the starmoon sky snake race will truly cease to exist in the universe. Not even a trace of its line will remain.

Yang Feng uttered indifferently, "Starmoon Sky Snake Great Holy, out of respect for the 3 quasi-Empyreans, I will give you a chance. As long as you swear to be my slave, open your soul, and let me set a restriction in your soul, I will give you a way to survive and the starmoon sky snake race the right to surrender. I only give you 10 seconds to consider. If you don't agree, you will be annihilated together with the starmoon sky snake race."

"I agree! Firmament Holy!"

Within the mechanical star sealing barrier, Starmoon Sky Snake Great Holy sighed slowly, and then radiated starlight and reverted to his human form. He looks like he aged by hundreds of thousands of years.

Each Empyrean rank powerhouse is a protagonist of an era, a peerless prodigy, and the protector of a race. Few quasi-Empyrean rank powerhouses are willing to yield to another.

However, Starmoon Sky Snake Great Holy evidently cares quite a lot for the starmoon sky snake race. He chose to submit to Yang Feng for the sake of his race.

Countless runes emerged from Starmoon Sky Snake Great Holy's forehead and condensed into a starmoon sky snake projection formed from starlight.

Numerous mysterious mechanical tentacles extend from the Xi Shen Armor, stabbed into the starmoon sky snake projection, and formed mysterious runes that eroded Starmoon Sky Snake Great Holy's soul.

"So this Firmament Holy's secret treasure! Truly formidable!"

"To be able to control a quasi-Empyrean, what a dreadful secret treasure!"

"..."

When the present Holies saw this scene, a chill surged in their hearts.

Once a powerhouse is promoted to a Holy, they will obtain an immortal body and their soul will gain a wisp of immortal property. By then, no domination spells will be able work on them. Only when they open their soul, will it be possible to tamper with their soul.

For Yang Feng to be able to set up a restriction on a quasi-Empyrean's soul, even though the quasi-Empyrean has to open their soul, it is already extremely terrifying.

Yang Feng said flatly, "The starmoon sky snake race can surrender! Go destroy my enemies, Starmoon Sky Snake Great Holy!"

"Yes! Lord! I will destroy your enemies for you!"

Starmoon Sky Snake Great Holy saluted Yang Feng, and then shone with countless runes, revealed his true body, which is as big as a star, and rushed towards the battlefield.

Boom! Boom! Boom!

Heaven-shaking explosions sounded in the void.

Wherever Starmoon Sky Snake Great Holy passed through, starlight shone and blasted powerhouses of the enemy races into pieces. No Holy can stop his attacks.

Following behind Starmoon Sky Snake Great Holy, a huge mechanical legions unleashed a massacred on the enemies.

After Starmoon Sky Snake Great Holy joined the battle, the allied army collapsed completely. Some of the powerhouses of the allied army fled in different directions, while others stayed to fight Yang Feng's forces to the death.

The fierce battle lasted for one day and one night. In the end, two-thirds of the allied army's elites were wiped out and most of its Holies and Great Holies were slayed by Yang Feng and his subordinates.

"Blueflame Leopard Emperor, Ghostface Emperor, and Redstar Great Holy died; Arachnid Great Holy escaped; Starmoon Sky Snake Great Holy submitted; and two-thirds of the allied army was annihilated."

Before the war was completely over, a piece of information appeared on the Holy Forum, and the forum exploded.

"Firmament Holy is back!"

"How? Even though Firmament Holy is back, it should be impossible to kill Redstar Great Holy! Redstar Great Holy is a quasi-Empyrean!"

"Starmoon Sky Snake Great Holy! Even among quasi-Empyrean rank powerhouses, he is ranked at the top. How could he have submitted to Yang Feng?"

"That's 3 quasi-Empyreans, 2 Great Holy rank Empyrean reincarnations, and a large number of Holies and Great Holies, how could Firmament Holy have defeated them?"

"No way! This information must be false!"

"There's some kind of ploy involved here! Firmament Holy can't be so powerful!"

"..."

In the Holy Forum, countless Holies commented one after another, filled with disbelief. No one believes that Yang Feng can kill a quasi-Empyrean rank powerhouse while being besieged by so many powerhouses.

Chapter 1256 - Unequaled in Eternal Ancient Road

"It's true! I saw it with my own eyes! Firmament Holy slayed the two Empyrean reincarnations Blueflame Leopard Emperor and Ghostface Emperor as well as Redstar Great Holy. Firmament Holy has already surpassed me in terms of strength."

"Cyan Thunderbolt Great Holy! That's Cyan Thunderbolt Great Holy!"

"Cyan Thunderbolt Great Holy is a person of virtue and prestige. He wouldn't tell lies. That is to say, it's true? Firmament Holy really defeated 3 quasi-Empyreans and 2 Great Holy rank Empyrean reincarnations?"

“...”

Once Cyan Thunderbolt Great Holy appeared in the Holy Forum, he immediately caused a sensation. Cyan Thunderbolt Great Holy is the oldest quasi-Empyrean rank powerhouse in Eternal Ancient Road's central starfield. Which his confirmation, the Holies began to believe it.

“Firmament Holy is very strong. Few people in Eternal Ancient Road can be his opponent. He's far stronger than I am.”

A comment appeared on the Holy Forum.

“That's Cosmic Eyes Tiger Great Holy! He also showed up!”

“It seems to be true.”

“I was also there at that time. Firmament Holy really defeated Blueflame Leopard Emperor and Ghostface Emperor!”

“I was there, as well! Redstar Great Holy was indeed killed by Firmament Holy.”

“The allied army suffered disastrous casualties. Its Holies and Great Holies were all killed. With the help of the Blue Mirror of Fate, Firmament Holy killed the fleeing Holies and Great Holies one after another. How dreadful.”

“...”

One after another, Holies appeared on the Holy Forum and talked about what happened on the battlefield, prompting the other Holies to shudder.

“Firmament Holy is as powerful as a quasi-Empyrean! How truly fearsome!”

“How come it's so fast? It's been less than 50 years since he promoted to a Great Holy. How could he progress so rapidly?”

“Advanced Great Holy! Even though he is proficient in the essence of devour, it's impossible to promote so quickly! After all, he is not an Empyrean reincarnation.”

“...”

The Holies wondered how Yang Feng could become so powerful in such a short time.

“Slayed a quasi-Empyrean! How did this happen? How can he be so fearsome!”

Eternal Ancient Road, in a huge Qilin Blood Pool, the eyes of Gold Qilin Prince flashed with the color of shock. He is emanating Great Holy rank fluctuations of power.

As a pure blood child of an Empyrean, Gold Qilin Prince possesses true spirit level pure bloodline and is extremely talented. After entering the Eternal Ancient Road, he found one treasury after another, purified his bloodline, and advanced all the way to the Great Holy realm.

For a Holy to promote to a Great Holy in less than 500 years, that's an absolutely incredible feat. It should be noted that many Holies spend thousands or tens of thousands of years as just junior Holies, unable to make any progress.

Even in the Eternal Sovereign age, Gold Qilin Prince's rate of progress would be regarded as incredible. But when compared to Yang Feng's rate of progress, it's not worth mentioning.

Gold Qilin Prince's eyes flashed with billows, and he sighed: "The ninth Warlock Emperor! The human race, will it give birth to a 9th Warlock Emperor?"

Yang Feng can already kill quasi-Empyrean rank powerhouses. In the same realm, there is basically no one who can compete with him. No matter how unwilling, Gold Qilin Prince is aware that he is no longer Yang Feng's opponent.

Eternal Ancient Roar, in a secret realm on the edge of the central starfield, there is a mysterious dragon tomb.

In that dragon tomb, there are countless dragon bones piled up. The dragon bones are decayed and mottled. Although the bones are full of vestiges of the passage of time, but they still emanate wisps of Holy might. These dragon bones clearly belong to Holy Spirit Warlock rank beings.

In the center of the dragon tomb, there is a huge, lifelike green dragon with a length of 100,000 kilometers. The green dragon emanates immortal Empyrean might.

Different from the dragon bones, there are no traces of the passage of time on the green dragon. If it weren't for the fact that the huge green dragon has no soul fluctuations, no one would be able to tell that it is a corpse.

Under the green true dragon, there is a 100-meter-tall green altar engraved with countless mysterious runes.

In the center of the altar, there sits a person. It is Green Dragon Prince.

The green altar gathers the dragon force of the whole secret realm and channels it into Green Dragon Prince.

From the huge green dragon corpse, pure dragon force is extracted and channeled into Green Dragon Prince.

Intermediate Great Holy rank fluctuations of power emanate from Green Dragon Prince.

"Blueflame Leopard Emperor, Ghostface Emperor, Redstar Great Holy! Firmament Holy has become so formidable that even a quasi-Empyrean rank powerhouse died at his hands."

Surrounded by dragon qi, Green Dragon Prince opened his eyes, his eyes flashed with complicated emotions, and he sighed.

Green Dragon Prince opened one treasury after another that his father hid in Eternal Ancient Road. As a result, within a short period of time, he has promoted to an intermediate Great Holy. He even surpassed Gold Qilin Prince. But he's still no near the level of quasi-Empyrean rank old monsters in terms of strength.

Since Yang Feng can already slay quasi-Empyrean rank old monsters, Green Dragon Prince realized that the gap between him and Yang Feng is getting bigger and bigger. It is almost impossible for him to catch up.

Eternal Ancient Road, in a secret realm.

On a 10,000-meter-tall parasol tree enveloped by Phoenix Fire, there is a huge phoenix nest. The phoenix nest, which is made from countless phoenix feathers, is filled with phoenix force.

The huge phoenix nest is a small world of itself, in which there is an exquisite, luxurious palace.

The first phoenix born in the world naturally wasn't interested in making exquisite palaces. But some of the phoenix born later rather liked to build palaces in their nests and enjoy themselves.

In the center of the palace, there sits a devastatingly beautiful woman. It is Phoenix Princess.

The eyes of Phoenix Princes flickered with a complicated shade, and she sighed, "Blueflame Leopard Emperor, Ghostface Emperor, and Redstar Great Holy, they actually died at Firmament Holy's hands. There's no longer anyone in Eternal Ancient Road who is his opponent. If those old monsters sleeping in the river of time don't appear, he will be invincible in the whole world!"

Phoenix Princes was a peerless prodigy of an era, a terrifying being unequaled in the same realm back in the day. However, she is being overshadowed by Yang Feng.

Even though Phoenix Princess has obtained many treasures hidden in Eternal Ancient Race by the phoenix race, but she is still far from being the opponent of a quasi-Empyrean rank powerhouse. Even when it comes to old Great Holies like Cloud Dragon Great Holy and Silver Brilliant Great Holy, she can at most barely contend against them.

"Firmament Holy! He's too fierce!"

"The human race! It seems that it is going to give birth to a ninth Warlock Emperor!"

"He is unequaled in Eternal Ancient Road!"

"What fast rate of progress! Although the eight Warlock Emperors of the human race have once been unequaled in Eternal Ancient Road, but none of them had such a rapid speed of progress."

"Firmament Holy, I'm afraid he's the most overbearing Great Holy in the history of the human race!"

"..."

Discussions spread all over the central starfield.

The Emperorslayer Forum is a forum that brings together the top assassins of Eternal Ancient Road.

"Hand of Death gave up the mission to assassinate Firmament Holy."

"Their assassination success rate is 100%. Once they accepted a mission, Hand of Death has never given up."

"There's no other way. After all, the target is Firmament Holy, who even slayed Redstar Great Holy, a quasi-Empyrean rank powerhouse. Even though Hand of Death has previously assassinated Great Holies, but they're not Firmament Holy's opponent."

"Twin Dark also gave up!"

“Normal, rational people won’t accept this assassination mission. That’s the Firmament Holy. If you offend him, you will lead your whole race into the abyss of extinction.”

“Eye of Dreams! Ranked No. 1, Eye of Dreams has’t given up the mission yet.”

“If it’s Eye of Dreams, then perhaps there’s hope that they can assassinate Firmament Holy.”

“If Eye of Dreams can assassinate Firmament Holy, then the whole world will pay attention to us assassins!”

“...”

In the Emperorslayer Forum, a flood of discussions surged. Almost all the assassins who accepted the mission of assassinating Yang Feng gave up the mission.

Unless they have the protection of the other two Emypyrean grade fate secret treasures, then once anyone leaves traces in the universe and is targeted by the Blue Mirror of Fate, they won’t be able to escape Yang Feng’s pursuit.

In the Emperorslayer Forum, the hopes of all the assassins are placed on Eye of Dreams, the person ranked first on the assassin list. They wish Eye of Dreams can create a miracle and assassinate Yang Feng.

After annihilating the main forces of the allied army, Yang Feng’s mechanical legions rushed towards the domains of the blueflame sky leopard race, the ghostface race, and the other defeated races.

The mechanical legions swept one star after another and easily conquered them.

Originally, the collapse of such a huge force as the blueflame sky leopard race would surely have attracted countless hungry wolves. However, when the forces ready to make a move heard that that Yang Feng is eyeing the domains of the blueflame sky leopard race and the other races, they became well-behaved and didn’t dare to make a move, afraid that Yang Feng would find an excuse to destroy them and annex their domains.

Yang Feng deliberately revealed some flaws in order to dupe those forces into taking action. But those forces didn’t dare to mess around. They even actively cooperated with Yang Feng’s subordinates and helped them take over one star after another.

Cosmic Eyes Tiger Great Holy, Guang Hai Great Holy, Cyan Thunderbolt Great Holy, these three quasi-Empyrean rank powerhouses gave a joint warning to the forces who wanted to become an enemy of Yang Feng, making it so these restless forces kept a clear head.

Yang Feng alone already had stifled countless forces in Eternal Ancient Road. Coupled with the three eternal ancient race, they basically didn’t gave others any leeway.

Although Arachnid Great Holy escaped the calamity, but she was still forced to cede one-third of her domain to Yang Feng.

After Yang Feng absorbed those domains, his sphere of influence expanded wildly and his became the largest domain in Eternal Ancient Road.

Chapter 1257 - Sweeping Eternal Ancient Road

Inside Zhenxu Divine Kingdom, in a huge mechanical fortress covering an area of 1 million kilometers in radius.

“It can start at last! Unfortunately, there is still a main material missing. Secret Origin Stone is still missing. If I can find Secret Origin Stone, I’ll be able to refine a level-7 stronghold that exceeds xizu technology.”

Standing quietly in a square, Yang Feng gazed at a spherical machine with a diameter of 10,000 kilometers placed on a platform, a look of regret in his eyes.

The spherical machine is a level-7 stronghold embryo. The spherical machine is engraved with countless abstruse runes.

Mysterious light surged, and a huge amount of energy poured into the spherical machine from all directions.

Secret Origin Stone is a very rare and precious ore. If a bit of it is added, an alloy will possess terrifying hardness.

If Secret Origin Stone is added to the semi-finished level-7 stronghold, its defense will be increased by 1,000 times. By then, even Warlock Emperor rank powerhouses won’t be able to easily break the defense of the level-7 stronghold.

Yang Feng looked at the level-7 stronghold embryo with expectation in his eyes: “After adding a Kunmo Stone, the power of this level-7 stronghold will become even more terrifying. I’m really looking forward to the day when it is completed.”

Once the level-7 stronghold is successfully built, Yang Feng will be confident to quell even Warlock Emperors.

After all, the level-7 stronghold is not purely the crystallization of xizu technology, but also has the technologies of the Warlock civilization, the blasteel race, and the Shidna civilization as well as some higher energy level laws integrated.

The path Yang Feng treads contains two cores. One is the essence of devour, while the other is machinery. The level-7 stronghold carries Yang Feng’s path of machinery.

Yang Feng mused, “Now I can visit the many eternal relic sites in Eternal Ancient Road.”

With a flash of light, Yang Feng disappeared from this place.

The level-7 stronghold embryo shone with countless runes, becoming more and more powerful.

Ripples rose, and ruler series battle robots that evolved to the pinnacle Warlock Monarch realm appeared in front of the level-7 stronghold embryo.

A series of mechanical tentacles extend from the level-7 stronghold embryo and pierce into the ruler series battle robots.

Mechanical eggs engraved with countless abstruse runes suddenly appeared and wrapped around the ruler series battle robots.

Inside the mechanical eggs, the ruler series battle robots evolved continuously and became more powerful. Wisps of immortal Holy might slowly diffused from the mechanical eggs.

One of the most horrifying abilities of the xizu level-7 stronghold is the ability to evolve Warlock Monarch rank ruler series battle robots to the Holy realm.

In theory, if there are 10,000 Holies dauntlessly besieging them, even a Warlock Emperor can be quelled.

Unfortunately, it is extremely difficult for Holies to be born. An eternal empyrean race and its vassal races will have only 100 to 200 Holies in total. Besides, those Holies aren't puppets. They all have their own convictions and thoughts. It's fundamentally impossible for them to recklessly besiege a Warlock Emperor.

It is precisely because of this that the ability of the xizu level-7 stronghold to evolve ruler series battle robots is so terrifying. With enough Holy rank battle robots, they can contend against even an Empyrean.

Multicolored Eternal Valley is an eternal relic site full of multicolored light.

In Multicolored Eternal Valley, there is a river formed by multicolored light. Holies are quietly sitting next to the multicolored river and gazing at it.

From time to time, multicolored beasts emerge from the multicolored river. Every time they slay a multicolored beast, the Holies can absorb the laws and power contained in the multicolored beast.

Suddenly, the multicolored river churned, and multicolored beasts emanating multicolored light emerged from the river, roared, and rushed towards the Holies.

All kinds of lights shone as the Holies rushed towards the multicolored beasts.

A sun golden crow shone, erupted with Sun God Fire, and engaged a multicolored fire horse. The Sun God Fire and the multicolored light intertwined and fought each other.

In the end, the multicolored fire horse was torn to pieces by the sun golden crow's claws, and multicolored light flowed into the latter.

The sun golden crow flickered and turned into a handsome oriental youth with a gloomy expression.

A beautiful girl in yellow, who looks to be 18 or 19 years old and has a golden ogre horn on the head, stepped forward and uttered, a look of adoration on her face, "Big brother Yi, you're really awesome. The multicolored fire horse was as powerful as an intermediate Holy, yet you killed it so easily. That's amazing!"

Yi Yuanyang sighed: "So what if I killed a multicolored fire horse? There's still a large gap between me and that person. If it were him, even the beast king of Multicolored Eternal Valley wouldn't be his opponent."

The girl in yellow smiled and said, a disapproving look on her face, “How is that possible? Multicolored Eternal Valley’s beast king is comparable to a quasi-Empyrean rank being. In the whole Eternal Ancient Road, few people are its match. Big brother Yi, is the person you’re chasing after a quasi-Empyrean rank old monster?”

Yi Yuanyang replied slowly, “He’s not a quasi-Empyrean, not yet...”

The multicolored river suddenly turned and rolled, and countless multicolored beasts issued earthshaking roars and flew to the deepest part of the valley.

Countless rays of multicolored light shone, and a multicolored beast with a dragon head, a lion head, a leopard head, a human body, four arms, and a long scorpion tail on the back came out of the multicolored river.

“Beast king!”

“It’s the multicolored beasts’ beast king. How come it showed up?”

“Run!”

“...”

As soon as the Holies next the multicolored river saw the beast king, their countenance changed greatly, and they cast their secret methods and fled in all directions.

The beast king is the overlord of Multicolored Eternal Valley. It generally stays in the deepest part of Multicolored Eternal Valley and rarely comes out. But once it comes out, many Holies will die.

When Yi Yuanyang saw the beast king, his expression changed greatly. He took the girl in yellow, turned into a stream of fire, and ran away.

A quasi-Empyrean rank existence can easily kill a Holy.

“What’s going on? The beast king isn’t attacking. Is it on guard against something?”

Yi Yuanyang suddenly looked into the void.

Ripples rose in the void, and a figure came out into the open.

Yi Yuanyang’s eyes flashed with a complex color, and he exclaimed, “It’s him! Firmament Holy!”

“Firmament Holy!”

“That’s Firmament Holy!”

“The beast king must have appeared because of Firmament Holy.”

“...”

The Holies stopped fleeing, looked this way, and commented.

Multicolored Eternal Valley’s beast king stared at Yang Feng vigilantly.

Yang Feng shone with countless runes, took a step, and appeared in front of the beast king in an instant, and then unleashed a punch. His fist evolved into a star and blasted towards the multicolored beast king.

The multicolored beast king shone with multicolored light and fired a black beam of stillness, a white beam of purification, and a gray beam of destruction from its three heads respectively.

The three beams shot into the sky, and the star collapsed and shattered.

Boom! Boom!

Multicolored light kept flashing, the whole void kept shaking, and terrible energy shock waves kept spreading in all directions.

The girl in yellow asked, "Big brother Yi, is that the person you've been chasing after?"

Yi Yuanyang's eyes flashed with a complicated shade, and he sighed: "Yes, that person is the one I've been chasing after! Firmament Holy Yang Feng!"

Back when he went to Battle Demon Sect and challenged Yang Feng, Yi Yuanyang was full of spirit. But ever since he was defeated at Yang Feng's hands, he buried all pride in his heart, climbed up recklessly, and finally surpassed many geniuses and promoted to a Holy Spirit Warlock.

A Holy Spirit Warlock is a top figure of the universe no matter the times. Even in the Eternal Sovereign age, Holy Spirit Warlocks were regarded as top powerhouses.

However, seeing the target he has been chasing after being able to fight quasi-Empyrean rank powerhouses and still have the upper hand, Yi Yuanyang naturally felt complicated emotions his heart.

The girl in yellow smiled sweetly and gripped Yi Yuanyang's hand: "Big brother Yi, don't give up. You will catch up to him one day. Even if you can't catch up to him, you can still experience many wonderful things as you chase after him."

Yi Yuanyang was silent for a moment. Looking at the girl who had accompanied him for many years ever since he entered Eternal Ancient Road, his eyes flickered with the shade of softness: "That's right! Even if I can never catch up to him, I can still experience many wonderful things as I chase after him. Jia Yun, let's get married after we leave here."

Jia Yun's beautiful eyes lit up and her smile bloomed like a flower: "Alright!"

A green halberd ray ran through the beast king's body and cut off its heads. All of a sudden, a black hole emerged and swallowed the beast king.

Countless runes shone. After persevering for only a moment, the multicolored beast king collapsed and turned into a tremendous amount of power that flowed into Yang Feng.

"Didn't expect to meet an acquaintance here!"

After devouring the multicolored beast king, Yang Feng glanced at Yi Yuanyang, and his eyes showed the shade of surprise. He then retracted his gaze. His figure fluttered, and he disappeared.

Multicolored Eternal Valley, Brilliant Divine Domain, Eternal Star, Yang Feng visited one eternal relic site after another, searching for the mysteries of eternity. Every time he left an Eternal Relic site, Yang Feng's strength has increased greatly.

Chapter 1258: Promoting to a Pinnacle Great Holy

Eternal relic sites are secret realms established by Eternal Sovereigns. When eternal relic sites are at their peak, they can suppress even Warlock Emperor rank powerhouses. However, after being destroyed and turned into ruins, they rarely have the power to threaten Empyreans.

Except for a few inscrutable eternal relic sites that are intact, the remaining eternal relic sites only have the power to threaten quasi-Empyrean at most. Furthermore, most eternal relic sites don't even have the power threaten quasi-Empyreans.

At this time, Yang Feng has by far exceeded ordinary quasi-Empyreans in terms of strength. Naturally, he can steamroll through the ordinary eternal relic sites. The fruit which transcends eternal god fruits that Yang Feng obtained in Jing Yuan Continent gave rise to shocking changes in his potential and aptitude.

When he transmigrated to Cangzhi Plane, Yang Feng was just an ordinary earthling with inferior level-1 soul aptitude. However, after going through all kinds of evolutions, his aptitude has surpassed that of countless powerhouses in the universe. He has become a truly peerless prodigy.

100 years passed in a flash.

In these 100 years, Yang Feng visited one eternal relic site after another.

In Eternal Ancient Road's central starfield, even eternal relic sites controlled by eternal empyrean races were opened to Yang Feng one by one.

Of course, in exchange, Yang Feng had to allow the elites and talents of the eternal empyrean races enter the eternal relic sites under his control.

Zhenxu Divine Kingdom, in a secret chamber.

Yang Feng opened his eyes, countless mysterious runes appeared in his body, and pinnacle Great Holy rank aura diffused from him and soared into to the sky.

After spending 100 years, Yang Feng finally broke through to the pinnacle Great Holy rank realm from the advanced Great Holy rank realm.

Yang Feng's eyes shimmered with an inscrutable shade, and he sighed: "It's really hard! It took me 100 years just to make a breakthrough. If I only rely on the practice of cultivation, who knows how long it will take me to promote to a quasi-Empyrean.

Ordinarily, to break through to the pinnacle Great Holy realm from the advanced Great Holy realm in 100 years would already be regarded as astonishingly fast. After his very existence was changed by the fruit which transcends eternal god fruits, Yang Feng became able break through and promote to a quasi-Empyreans in only 1,000 years.

However, with Gumana Universe's invasion as the backdrop, if he is a step late and fails to promote to an Eternal Sovereign before Gumana Universe's Eternal Sovereigns descend, then everyone in the world of Warlocks will become pray to Gumana Universe.

With a flash of blue light, Yang Feng disappeared from his place.

In a palace, sitting on a throne, Cloud Dragon Queen is dealing with all kinds of affairs in an orderly manner.

Light shone, and Yang Feng appeared behind Cloud Dragon Queen. He looked at her beautiful back with a satisfied smile.

Among his women in Eternal Ancient Road, Michaelia and Shi Yu are the strongest. However, they aren't really interested in managing a huge force. Cloud Dragon Queen and Yinshe Kongyin, who have the highest political prowess, are managing the central starfield and Taiyuan Starfield respectively.

Cloud Dragon Queen is a Holy and has a much higher status than Yinshe Kongyin. As such, she is specially responsible for managing the central starfield.

"Your majesty!"

With a start, Cloud Dragon Queen got up and saluted Yang Feng.

Yang Feng smiled and extended his hand to stop Cloud Dragon Queen, "We are husband and wife. There's no need to be overly polite. By the way, have you found anything about the matter I asked you to check?"

Cloud Dragon Queen replied, "The last master of the Web of Fate of the three great fate secret treasures was Manasaber Lord. After their death, the Web of Fate has never appeared again. As for the Veil of Fate, it is not in Eternal Ancient Road. It is reportedly in the main world."

The Blue Mirror of Fate, the Veil of Fate, and the Web of Fate, these three great fate treasures contain the essence of fate.

In order to promote to an Eternal Sovereign, you must master the essence of fate. Of course, in the greater universe, which has a higher universe energy level, it may not be necessary to master the essence of fate in order to be able to promote to the Eternal realm. But in the world of Warlock, there is only this way to step to eternity.

Over time, Yang Feng obtained information on a number of civilizations and acquired the technology of the Shidna civilization, which gave birth to an Eternal Sovereign. All that information indicates that only by mastering the essence of fate, is it possible to advance to an Eternal Sovereign.

Yang Feng, who has already promoted to a pinnacle Great Holy, is only one step away from becoming a quasi-Empyrean rank powerhouse and really setting foot into the domain of immortality. He already began the preparations for his promotion to an Eternal Sovereign.

Only by advancing to an Eternal Sovereign, will Yang Feng be able to contend against Gumana Universe's 3 Eternal Sovereigns. In front of an Eternal Sovereign, even if it's unequaled overlord-level powerhouses like the 7 Warlock Emperors of the human race, unless they flee, only death will await them.

Yang Feng said flatly, “Have the masters of Lightless Sea, Goldleaf Abode, and Flyingsea Bridge come see me. I want to enter Wall of Eternity!”

Wall of Eternity is the most important eternal relic site in Eternal Ancient Road, and it is located in the center of the central starfield.

Wall of Eternity is guarded by Lightless Sea, Goldleaf Abode, and Flyingsea Bridge, which are forces comparable to eternal empyrean races. Only by acquiring the approval of the three eternal empyrean forces, can a path leading to Wall of Eternity be opened.

In addition to the three eternal empyrean forces opening a path leading to Wall of Eternity, a Warlock Emperor rank powerhouse can freely tear the void and create a path leading to Wall of Eternity, as well.

With Yang Feng’s current strength, he can’t create a path to Wall of Eternity.

Cloud Dragon Queen smiled sweetly and said, “Yes! Your majesty, I think they will be very happy to open a path to Wall of Eternity for you.”

At this time, the force controlled by Yang Feng has become the largest force in Eternal Ancient Road. Only if all of Eternal Ancient Road’s eternal empyrean races work together, will it be possible to defeat Yang Feng.

However, that’s something nearly impossible to achieve. After all, there are great conflicts between the eternal empyrean races. Many of them are outright mortal enemies of one another. Unless Yang Feng does something that compels them to work together, they won’t dare to oppose him.

Even if it is a quasi-Empyrean rank powerhouse, they can’t make the 3 eternal empyrean forces open a path to Wall of Eternity. But the same 3 eternal empyrean forces won’t dare to deny Yang Feng’s request.

The act of hindering Yang Feng from stepping onto the Warlock Emperor path is enough for him to launch a war of extermination.

Any peerless prodigy who wants to promote to an Emphyrean won’t tolerate others blocking their way.

Without any suspense, after Yang Feng’s words were transmitted, the three eternal empyrean forces quickly sent a reply, stating that they are willing to open a path to Wall of Eternity for Yang Feng.

A void in central starfield.

Lights shone as one Holy after another flew over from afar and arrived at this void.

In a mysterious space, light shone, and Cosmic Eyes Tiger Great Holy emerged slowly.

In the mysterious space, Cyan Thunderbolt Great Holy said with a faint smile, “Cosmic Eyes Tiger Great Holy, you’ve come, as well.”

Cosmic Eyes Tiger Great Holy sighed, saying: “That’s right! The path leading to Wall of Eternity will finally be opened again. Of course I want to have a look! Wall of Eternity has opened eight times in modern times. Each time it opened, human Warlocks had come in. Each time the human Warlocks came out of Wall of Eternity, a human Warlock stepped into the Emphyrean realm and became a Warlock Emperor of

the human race. If there are no accidents, Firmament Holy should be able to become the ninth Warlock Emperor of the human race.”

Guang Hai Great Holy sighed in frustration and chimed in: “The ninth Warlock Emperor! The universe really favors the human race!”

Ever since the Eternal Sovereign age ended, Empyreans were the strongest beings in the universe. An Empyrean can enable a race to rise and dominate an era.

Apart from true spirit-level life forms such as true dragon, phoenixes, and rocs, it is really amazing when other races are able to give birth to an Empyrean.

Although eternal empyrean races are called empyrean races. But in fact, most of them have only given birth to quasi-Empyrean rank powerhouses.

The human race, which used to be a slave and plaything race in the past, has actually given birth to 8 Warlocks Emperor rank powerhouses. This naturally aroused the envy of many races in Eternal Ancient Road and led to the suppression and discrimination against the human race.

Now that Yang Feng has soared, there will be no longer any large-scale discrimination aimed at the human race in Eternal Ancient Road. All the major races in Eternal Ancient Road are afraid of giving Yang Feng an excuse to exterminate them and plunder all their wealth and territory.

In the mysterious space, the eyes of the rest of the quasi-Empyrean rank powerhouses flickered with a complicated shade.

Ripples rose in the void, and a silvery-white warship 3,000 kilometers long flew out. There is a person sitting on the top of the warship. That person is Yang Feng.

“Firmament Holy!”

“Firmament Holy has come!”

“It’s today! He’s going to enter Wall of Eternity!”

“I’m afraid that the human race is going to give birth to a ninth Warlock Emperor in the near future!”

“He will become the ninth Warlock Emperor of the human race in the future!”

“...”

Holies in the void looked at Yang Feng on the top of the warship with a scorching shade in their eyes.

Cyan Thunderbolt Great Holy took a deep look at Yang Feng, and his eyes shimmered with a dignified shade: “He’s become stronger again!”

Cosmic Eyes Tiger Great Holy said with a bitter smile, “One thousand li in a single day [1]! Truly amazing! Even Empyrean reincarnations aren’t as amazing!”

Guang Hai Great Holy nodded slightly.

After being strengthened by the fruit which transcends eternal god fruits, Yang Feng surpassed the Empyrean reincarnations prodigies in many aspects.

“Greetings, Firmament Holy!”

Lightless Great Holy, Goldleaf Great Holy, and Flyingsea Great Holy flew up to Yang Feng and bowed slightly in salute. Of the three powerhouses, Lightless Great Holy is a quasi-Empyrean, while the other two are only pinnacle Great Holies.

Chapter 1259: Wall of Eternity

“Begin!”

Yang Feng got up and walked up to the three powerhouses, nodded his head, and uttered.

Lightless Great Holy silently recited an incantation and spread the fingers of his hand, and a scroll-type Empyrean grade secret treasure, the Lightless Sea, shrouded in mysterious light suddenly flew out.

The Lightless Sea flew into the sky and broke out with countless runes, and a substance dark like ink gushed out of the Lightless Sea and formed a queer sea that devours all light.

The queer sea churned and twisted and entered the void, as if linking to a mysterious space.

The queer sea expanded for an entire day and night before an enigmatic, giant stone wall projection emitting wisps of eternal aura appeared at the end of the lightless sea.

The giant stone wall is the most mysterious eternal relic site, Wall of Eternity, in Eternal Ancient Road’s central starfield. After the Eternal Sovereign age, almost all Empyreans have visited Wall of Eternity.

After the end of the Eternal Sovereign age, there have been less than five people who advanced to an Empyrean yet have not entered Wall of Eternity.

The eight Warlock Emperors of the human race have all entered Wall of Eternity.

Goldleaf Great Holy silently chanted an incantation and waved his hand, and a golden flower-type Empyrean grade secret treasure, the Goldleaf Flower, shrouded in mysterious light flew out.

The Goldleaf Flower shone, and countless runes flew out and formed golden leaves. The golden leaves condensed into a golden boat.

The water of the lightless sea can easily erode even quasi-Empyrean rank powerhouses. Only by standing on the golden leaf boat formed by the Goldleaf Flower, is it possible to resist the erosion of the lightless sea.

Flyingsea Great Holy waved a hand, and an Empyrean grade secret treasure, the Multicolored Bridge, inscribed with countless abstruse runes and radiating multicolored light appeared.

The Multicolored Bridge radiated colorful lights, which formed a rainbow bridge that crossed the lightless sea and reached the other end.

The lightless sea opens the path to Wall of Eternity, the golden leaf boat can sail in the lightless sea, while the rainbow bridge is a shortcut through the almost boundless lightless sea.

Without the cooperation of any one of the three eternal empyrean races, the opened path would be incomplete, and it would be impossible to reach Wall of Eternity.

Yang Feng took a step and directly boarded the golden leaf boat.

Countless runes shone on the golden leaf boat, and it grew a pair of golden wings. The golden wings flapped, and the golden leaf boat flew onto the rainbow bridge.

The rainbow bridge shone slightly and took the golden leaf boat towards the deepest part of the lightless sea.

In just a dozen breaths of time, the golden leaf boat rode the rainbow bridge across the void and appeared on an island in the deepest part of the lightless sea.

Although it is called an island, but it is actually a huge continent with a diameter of 1 million kilometers.

In the center of the huge continent, there is a black stone wall 1 million kilometers tall. On the black stone wall, there are countless mysterious runes engraved, emitting wisps of eternal aura.

“So this is Wall of Eternity, the stone wall that has recorded the paths of the universe’s Eternal Sovereigns, the stone wall that has recorded the mysteries of the eternal.”

Yang Feng looked at the black stone wall, and his eyes shimmered with an enigmatic shade. He strode towards Wall of Eternity.

In here, all laws are distorted. As a result, despite how strong Yang Feng is, he can slowly walk towards Wall of Eternity. He lost the ability to move thousands of kilometers with each step.

After crossing 100 kilometers, Yang Feng felt a terrible force, which appeared out of nowhere, pressure him, making it seem like he’s carrying a huge star.

Yang Feng smiled faintly and proceeded forward. With his current strength, even if he carries a star, he won’t feel any pressure.

As he moved forward, the pressure on Yang Feng increased.

When Yang Feng was 10,000 kilometers away from Wall of Eternity, the pressure he felt was equivalent to the weight of 100 stars.

“So this is Wall of Eternity! Curses, I can’t even touch it! Curses!”

A three-meter-tall ogre powerhouse projection with an ogre horn and a ferocious face appeared and released a roar of unwillingness, and then turned into a distorted light and disappeared.

“So it’s a vestige of history!”

Yang Feng took a look at the projection and immediately understood that it was a vestige left by an ogre powerhouse.

Wall of Eternity has recorded the paths of Eternal Sovereigns. If you can touch it, you’ll be able to get tremendous benefits. However, according to legend, no one below the Empyrean realm has ever touched Wall of Eternity.

“Detestable! Why is this happening? Am I really that weak?”

Yang Feng walking for about 10 kilometers, when a powerhouse with a dragon head and a leopard body appeared, issued a roar, and then disappeared, a reluctant look on their face.

As Yang Feng walked forwards, one projection after another emerged, and then disappeared.

In the central starfield, there is a screen projecting displaying Yang Feng's experiences.

The laws in Wall of Eternity do not prohibit projections.

Cosmic Eyes Tiger Great Holy suddenly asked, "Do you think he can step into the Empyrean domain?"

Virtually all Empyrean rank powerhouses who visited Wall of Eternity before promoting to the Empyrean realm reached the range of 1,000 kilometers from Wall of Eternity. The range of 1,000 kilometers is the Empyrean domain.

Cyan Thunderbolt Great Holy said flatly, "Without a doubt."

Guang Hai Great Holy nodded silently.

The other quasi-Empyrean rank powerhouses nodded as they gazed at Yang Feng.

Cosmic Eyes Tiger Great Holy asked with a faint smile, "Do you think he can touch Wall of Eternity?!"

This time, everyone in the mysterious space fell silent.

It is said that only powerhouses with the potential to promote to the Eternal realm can touch Wall of Eternity prior to advancing to the Empyrean realm.

In the long history of the universe, there are no records of anyone being able to touch Wall of Eternity prior to advancing to the Empyrean realm.

Cyan Thunderbolt Great Holy hesitated for a moment and said, "It should be possible!"

Guang Hai Great Holy was silent for a moment and shook his head slightly: "Come on. It's not that easy to promoted to an Eternal Sovereign."

No matter in which universe, Eternal Sovereigns are the pinnacle of existence. Unless the universe perishes. Otherwise, its Eternal Sovereigns won't die due their lifespan running out.

It is most difficult to promote to the Eternal realm. Since the end of the Eternal Sovereign age, more than 1 billion years have passed. During this time, countless prodigies and who knows how many unparalleled overlord-level geniuses have been born. But not a single one of them was able to advance to advance to the Eternal realm.

Lizard Dragon Great Holy was silent for a moment and said, "That's right. Even though it's Firmament Holy, it's still a bit far-fetched."

Lizard Dragon Great Holy is the leader of the sacred starry lizard dragon race. Sacred starry lizard dragons are a race created by an Eternal Sovereign. They are extraordinary life forms that originated from true spirit-level starry sacred lizards and posses true dragon bloodline. Mature sacred starry lizard dragon posses Infinity Warlock rank fighting strength. Lizard Dragon Great Holy is a quasi-Empyrean rank powerhouse and is no weaker than Starmoon Sky Snake Great Holy.

The other quasi-Empyreans nodded in agreement. Although they admit that Yang Feng is extremely powerful, but it's not so simple to advance to the Eternal realm.

Under the gazes of many powerhouses, practically without any suspense, Yang Feng reached the range within 1,000 kilometers of Wall of Eternity and easily stepped into the Empyrean domain that countless powerhouses could not set foot in.

"Unfortunately, I can only walk till here."

A handsome man whose eyes seem to contain innumerable stars appeared next to Yang Feng and sighed.

Yang Feng looked at the handsome man, and his eyes shimmered with an inscrutable shade: "That's Star Lord! He was indeed the weakest one before the promotion to a Warlock Emperor."

Among the eight Warlock Emperors of the human race, although Star Lord was also an unparalleled overlord, but before advancing to a Warlock Emperor, he wasn't unparalleled.

"Have I surpassed Star Lord? Unfortunately that doesn't count for anything. Since Star Lord became an unparalleled overlord, I can also become an unparalleled overlord in the future and even surpass him!"

Yang Feng advanced dozens of kilometers, when a blond man with a domineering air about him appeared and smiled with confidence and pride.

"That's Dawn Lord. Back then, he was elated."

Yang Feng took a look at Dawn Lord and continued to move forward.

"Unexpectedly, I didn't manage surpass anyone except for Star Lord. Curses! I will surpass you guys and step into eternity in the future!"

A man with gray hair, a tall a sturdy figure, and a handsome appearance, yet with some facial paralysis, roared unwillingly.

"That's Golem Lord. Perhaps it was this unwillingness that led to him going crazy in the later period."

Yang Feng glanced at Golem Lord, sighed slightly, and continued to move forward.

"To surpass Golem Lord and Star Lord, it seems that I'm still quite strong! Our human race's secret treasures are the strongest. I will use them to change the human race. In the future, I will make an Eternal grade secret treasure and advance to the Eternal realm."

Equipped with all kinds of strange secret treasures, a beautiful youth with fair skin and a fascinating smile appeared and looked at Wall of Eternity.

"Magic Note Lord. According to legend, he's a beautiful youth with a cheerful personality. The legend is true! In his later years, Magic Note Lord was indeed refining an Eternal grade secret treasure. I wonder if he succeeded."

Yang Feng looked at the beautiful youth, smiled knowingly, and continued to move forward.

After another dozens of kilometers, a tall man with a cold face and spiritless eyes appeared.

Yang Feng looked at the man, and his eyes flashed with a peculiar color: "Death Lord. Among the eight Warlock Emperors, he only had one love.

Chapter 1260: Time Lord

At first, Death Lord was just an ordinary genius Warlock with superior level-5 soul aptitude, which was only better than that of Taboo Lord, who had the worst aptitude. He had a wife who was his childhood sweetheart and with whom he lived happily the first half of his life.

When Death Lord advanced to a Starry Sky Warlock, while trying to protect him, his wife was killed by a strong enemy, and her soul was torn apart by a vicious spell.

In order to revive his wife, Death Lord embarked on the strongest Warlock path. After countless battles, he finally reached the top, promoted to a Warlock Emperor, and became invincible in the world.

However, even though Death Lord reached the top and became a Warlock Emperor, he still could not revive his wife. All because his wife's soul was torn to pieces and part of it fell into the river Styx and was washed clean.

On the day his wife died, if Death Lord possessed Warlock Emperor rank power, or even just Infinity Warlock rank power, he would be able to revive her. But as time went on, it became more and more difficult to revive her.

After being baptized by the river Styx, the soul of an intelligent life form will be washed clean and have all memories erased.

To revive an intelligent life form baptized by the river Styx, you have to promote to an Eternal Sovereign, and then reverse time and laws.

After Death Lord promote to a Warlock Emperor, he tried every method he could think of to revive his wife, but to no avail. He never married a second woman.

Death Lord stood still and looked intensely at Wall of Eternity.

Yang Feng took a deep look at Death Lord, and then continued to move forward.

"Time Lord, Taboo Lord, I will surpass you! I definitely will! I am the No. 1 powerhouses in the universe. Everyone must serve at my feet. And you are no exception!"

A tall and burly man with a small brand on the neck, long, black hair falling towards the waist, a handsome appearance, and a defiant and domineering expression roared loudly, a fierce glint in his eyes.

"Transcendent Lord! It is said that he was hellbent on surpassing Time Lord and Taboo Lord! It seems that it is true!"

Yang Feng looked at Transcendent Lord and continued to move forward.

100 kilometers away from Wall of Eternity, a powerhouse in black armor and mask suddenly appeared and looked quietly into the distance.

“Taboo Lord, the most mysterious Warlock Emperor. Back in the day, virtually all their enemies have died. Their name and existence are a taboo. Most of their information was erased by them themselves. Now, except for their subordinates that have survived to this day, not many people know about their origin.”

Yang Feng looked at Taboo Lord in black armor and continued to move forward.

After bypassing Taboo Lord, the projections of several other race powerhouses appeared as Yang Feng moved towards Wall of Eternity.

“He reached in front of Wall of Eternity!”

“Someone actually reached in front of Wall of Eternity!”

“Since Wall of Eternity was established, this is the first person who is not an Empyrean that reached in front of Wall of Eternity!”

“...”

The eyes of the spectating Holies and Great Holies flashed with astonishment. They all guessed that Yang Feng would be able to step into the Empyrean domain, but they didn’t expect him to reach in front of Wall of Eternity.

“This is my limit. It is just one step, but it feels like an insurmountable chasm. The universe’s universe energy level is too low to support the birth of an Eternal Sovereign.”

With a faint sigh, a heroic man with white hair and eyes full of vicissitudes, yet full of firmness, stood quietly in front of Wall of Eternity, only two meters away from it.

Yang Feng looked at the heroic man with respect in his eyes: “Time Lord! The first Warlock Emperor!”

Time Lord was the first Warlock Emperor of the human race. After countless battles, he and his companions unified the human race and gradually lifted it from the ranks of inferior slaves despised by countless people to the overlord of the universe.

The cultivation system of human Warlocks was also created by Time Lord. By relying on the orthodox Warlock cultivation system created by Time Lord, the human race was able to continue to cultivate, give birth to a large number of powerhouses, and finally stand at the top of the universe.

Although Taboo Lord created the bloodline Warlock path, but they also assimilated the orthodox Warlock cultivation system. Without the support of the orthodox Warlock cultivation system, it would be impossible for them to create the bloodline Warlock path.

Yang Feng bowed slightly and saluted Time Lord.

If it were not for Time Lord, the humans would not be able to get rid of the archgods’ enslavement. Of course, in order to get rid of the archgods’ enslavement, Time Lord had to pay a painful price.

At the beginning, there were countless human heroes who followed Time Lord. In the end, however, only 12 Great Holies survived. The rest died in fights with archgods.

At that time, Time Lord nearly died several times in battle, but then was rescued by his brothers. Many of his closest brothers, companions, and comrades died on the battlefield. He is one of heroes Yang Feng admires and respects the most.

“You came!”

The Time Lord projection sighed slightly and turned to look at Yang Feng.

“What’s going on?”

Yang Feng was surprised. He swept the Time Lord projection with his frightening soul force. But no matter how he scanned, it showed that it is only a historical projection.

Time Lord smiled and said, “Don’t be surprised. After all, I mastered the essence of time. And I also dabble in prophecy. I used the power of the Wheel of Time to cross time and see you. The strongest candidate of the human race.”

Yang Feng uttered, “Hello, mighty Time Lord. I am Firmament Holy Yang Feng.”

Time Lord took a deep look at Yang Feng and smiled: “Firmament Holy Yang Feng? Not Feng Xuanzhen? Interesting! You seem to be someone outside fate! It’s a pity, but prying into the future is too heavy a burden for me. Web of Fate, Wheel of Time, I’ll leave them to you! I hope you can set foot in eternity and protect the human race. If possible, help me take care of my old friends. Even if they oppose you, I hope you can give them a way to survive.”

A river of time mysteriously appeared in the void, and a round Wheel of Time with nine corners suddenly emerged, turned into a stream of light, and fell into Yang Feng’s hand.

There are nine runes containing the mysteries of times engraved on the nine corners. When Yang Feng saw the nine runes, he felt his understanding of the essence of time progress by a creation.

With a flash of light, a silver net appeared in Yang Feng’s hand. Wisps of fate aura emanated from the Web of Time.

As Yang Feng held the two Empyrean grade secret treasures, a complex color flashed in his eyes: “Time Lord is being quite generous. It seems that he really died.”

Each Warlock Emperor rank powerhouse is a terrifying being with all kinds of incredible powers. Although they will die when their lifespan runs out and their soul decays. But as long as they are willing to pay the price and seal themselves, they can even live more than 100 million years.

Primal Chaos Mother Spider is an old monster that has existed since the birth of the universe. Of course, as the price, she must sleep in a special place, not daring to appear in the open.

For Time Lord to give Yang Feng his most powerful secret treasure, the Wheel of Time, as well as the Web of Time, one of the three fate-type Empyrean rank secret treasures, there is only one possibility, that is, that he died.

Yang Feng put away the two Empyrean grade secret treasures and took a step forward. He just moved, when a terrible force containing Eternal rank fluctuations pressed on him.

Yang Feng became still as if he was hit by an immobilization spell.

“He can’t touch Wall of Eternity!”

“A legend is indeed a legend. No one in the Great Holy realm can touch Wall of Eternity!”

“It’s a shame, but in this era, no one can touch Wall of Eternity prior to advancing to an Empyrean!”

“...”

The spectating Holies and Great Holies were full of complicated emotions, both happy and sorry.

With the universe great tribulation imminent, the other universe’s Eternal Sovereigns are biding their time, waiting for an opportunity to step in. The world of Warlocks must bear an Eternal Sovereign in order for there to be a glimmer of hope for it to be able to compete with Gumana Universe. But with Yang Feng’s excessively overbearing conduct, many people don’t want to see him advanced to the Eternal realm.

“The last step is really hard to take! Second form!”

Yang Feng frowned slightly. The Xi Shen Armor shone and entered the second form.

After entering the second form, Yang Feng’s strength soared. Countless runes shone, allowing him to move slightly.

“Not enough! The third form!”

A black hole emerged, and the hazy projection in the black hole shone with countless runes and tried to contend against the terrifying power.

“Still not enough! Fourth form!”

With a cold flash in his eyes, Yang Feng fused with the hazy projection, and then erupted with terrifying strength and forcefully took a step.

Crack! Crack

With that step, Yang Feng felt like he is carrying hundreds of millions of stars. His bones issued cracking sounds and cracked.

“Not good! Even the fourth form isn’t enough! I’m still half a step away! Damn, what the hell should I do? Do I have to give up?”

Yang Feng’s whole body was filled with sharp pain and his soul trembled. Even though he extracted the power of the Kunmo Stone, but he still can just barely bear it. It’s impossible to for him to take the last half a step. He finally realized why no one except from Empyreans has touched Wall of Eternity for hundreds of millions of years.
