Chapter 1321: Fighting Myriad Dragons Father

There are many true spirits hiding in Eternal Origin Sea, each of which emits fierce aura.

The true spirit-level extraordinary life forms are not real entities, but beings formed from Eternal origin force. Although they possess unequalled overlord-level strength, but their real fighting strength is not at the level of a genuine Emyrean.

But even so, if these true spirit-level extraordinary life forms work together, they can even slay an unequalled overlord-level Emyrean.

Yang Feng used the Mask of Fantasy Spirit Emperor to disguise himself as an extinction python formed by Eternal origin force and swam freely in the Eternal Origin Sea.

After a while, the sea in front of the Island of Eternity surged with waves. Yang Feng silently emerged from the bottom of the sea and took a step towards the Island of Eternity.

Powerful rejection force came from the Island of Eternity and tried to repel Yang Feng.

“Emyrean rank rejection force can’t stop me.”

With a faint smile, Yang Feng stepped on the Island of Eternity and looked at the center of the island with a burning color in his eyes.

Strands of the aura of fate transmitted from the center of the Island of Eternity.

After Yang Feng obtained the two great fate secret treasures, with the Fate Algorithm as the foundation, he mastered the law of fate. He has strong control over fate-type spells.

With his virtually Emyrean rank strength, Yang Feng can stir the power of fate to make an ordinary person have repeated fortuitous encounters and finally promote to an Infinity Warlock.

He can detect the aura of fate coming from the center of the Island of Eternity. His figure fluttered, and he rushed towards the center of the Island of Eternity.

Boom! Boom!

Along with rumbling sounds, a cyan mountain cracked. Countless cyan runes converged to form an expressionless Emyrean rank cyan rock giant, which stabbed at Yang Feng with the lance in its hands.

“Die!”

Yang Feng’s eyes flickered with a fierce color. The Unbreakable Shield in his hands turned into a stream of light and shot towards the cyan rock giant.

Boom!

Along with an earth shaking blare, Yang Feng was blasted 100 kilometers away. The cyan rock giant was blasted tens of kilometers away.

With a flash of light, Ling came out of the void, brandished the Whip of the Ruler, and whipped the cyan rock giant's head.

A great force capable of smashing stars and destroying worlds broke out in an instant and crushed the cyan rock giant's head.

A black hole emerged abruptly, swallowed the cyan rock giant, and frantically extracted its life origin.

Yang Feng quietly analyzed: "Its life origin is weak. Its at most only at the level of a Great Holy. Despite this, it has the strength of a genuine Empyrean."

Any Empyrean rank powerhouse is a being that lived countless years and experienced countless battle before they reached their current level. It is only in the Twin Universe Flower, which is formed from the essence of two universes, that it is possible to produce so many pseudo Empyreans.

Boom! Boom!

A string of violent noise sounded as 10 ancient trees surged with countless mysterious runes and broke out with Empyrean rank strength in an instant.

"I don't have time to waste here!"

Yang Feng creased his eyebrows. Ripples rose in the void, and a swarm of mechanical rulers emerged and frenziedly attacked the 10 Empyrean rank ancient trees.

Boom! Boom! Boom!

The 10 Empyrean rank ancient trees waved their rattans, which contain the essence of power. Wherever the rattans passed, a large number of mechanical rulers were blown into powder.

The mechanical rulers that appeared are enhanced Warlock Monarch rank units that possess fierce fighting strength. They were able to leave wounds on the Empyrean rank ancient trees.

Yang Feng rushed to the center of the Island of Eternity while his mechanical legion engaged with the Empyrean ancient trees.

In the Eternal Origin Sea, there are 7 unequalled overlord-level powerhouses as well as a large number of other Empyreans. If Yang Feng is delayed here, many variables will arise.

After crossing the forest of Empyrean ancient trees, an unending mountain range appeared in front of him.

Countless runes shone, and terrifying auras transmitted from the unending mountain range.

"Do it!"

Yang Feng ordered, a cold look in his eyes.

Ling pointed with a finger, and a spatial gate opened. All of a sudden, her life-bound level-7 stronghold emerged, and its Devastator Cannon erupted with countless runes.

A terrifying pillar of light ejected out of the Devastator Cannon and slammed into the unending mountain range. In the wake of the pillar of light, the mountain range was devastated.

A huge gorge appeared in the middle of the mountain range.

The mountain Emyreans were destroyed before they could even appear.

After firing from the Devastator Cannon, Ling's level-7 stronghold puled back the cannon and disappeared.

In terms of power alone, the Devastator Cannon can seriously injure an unequalled overlord-level Emyrean with one shot. It is the most powerful weapon in Yang Feng's possession at present.

However, Emyreans grasp all kinds of powerful secret methods. As such, unless they are forced into a situation where they cannot evade, its is extremely hard to hit them.

A black hole emerged, swept towards the mountain Emyreans, and swallowed the part of Eternal origin that hasn't scattered yet.

Countless engineering robots flew to the place where the mountain Emyreans were destroyed and collect all kinds of precious minerals.

Yang Feng continued to fly towards the center of the Island of Eternity.

After crossing the mountain range with mountain Emyreans, a limpid lake emanating sacred light appeared in front of Yang Feng. In the center of the lake emanating sacred light, there is a snow-white lotus radiating Eternal aura.

"Found it!"

Yang Feng's eyes broke out with countless mysterious runes, and he looked around the snow-white lotus.

After careful observation, Yang Feng pondered for a moment. With a flash of unswerving determination in his eyes, he came to the lake and touched it.

Formidable force flowed into him and nourished his body and soul.

"This sacred lake 10 times better than the golden lake!"

There was a flash of excitement in Yang Feng's eyes. He jumped into the sacred lake and strode towards the snow-white lotus in the middle of the lake.

"At last! They would never have imagined that I would arrive here first. The Eternal opportunity is definitely mine!"

A voice full of overbearing self-confidence came from a distance, and Myriad Dragons Father, who is scorched black, exudes a stench of decay, is covered in wounds, and is shrouded in true dragon qi, appeared at the edge of the lake.

"Black Dragon Emperor! What are you doing? Get out of here! Or die!"

When Myriad Dragons Father saw Yang Feng in the lake, his eyes widened from anger. He roared fiercely and sent a dragon claw containing terrifying dragon qi and frigid killing intent shooting towards Yang Feng.

The Eternal opportunity is the ultimate goal of all Emphyreans. Even if it were a close relative standing in front of him, Myriad Dragon Father would cut them down mercilessly, let alone Black Dragon Emperor.

Yang Feng frowned slightly and shot towards the snow-white lotus: "It's really not that simple!"

With a flash of ripples, Ling appeared, brandished the Whip of the Ruler, and attacked Myriad Dragons Father.

"Empress Ling! You're not Black Dragon Emperor! You're Devour Lord! So you killed the real Black Dragon Emperor. And you killed Grandwood Lord, as well!"

Myriad Dragons Father's eyes flashed, and he guessed the truth. He sent a claw shooting towards the Whip of the Ruler. His claw erupted with countless strands of true dragon qi and blasted the Whip of the Ruler away.

With a flash of ripples, Phantom Ruler emerged and opened a strange eye on its body, and phantom light slammed into Myriad Dragons Lord.

Myriad Dragons Father's eyes blurred and lost focus for a moment.

Ying suddenly jumped out from a shadow, and the Lance of the Ruler in her hands stabbed towards Myriad Dragons Father's heart like a poisonous dragon.

When faced with a surprise attack from the three Emphyreans, an ordinary Emphyrean would be in danger of dying.

"Three Emphyreans! Devour Lord, you hid your strength quite deeply! You actually have three Emphyrean guardians. It's a shame, but even if it's three Emphyreans, they are no match for I, Myriad Dragons Father!"

With a fierce flash in his eyes, Myriad Dragons Father burned his true dragon blood, broke out with dragon scales containing mysterious runes, and surged with true dragon qi.

When Ying's Lance of the Ruler stabbed into Myriad Dragons Father's dragon scales, it issued grating noise and tore open a large wound on the other party's body, and blood spilled.

"Scram!"

With a ferocious glimmer in his eyes, Myriad Dragons Father sent a fist containing countless strands of dragon qi smashing towards Ying.

Ying raised the lance to block in front of her. With a loud blast, as if a broken rag doll, she was blown 10,000 kilometers away by Myriad Dragons Father's strike. She trembled and oozed blood from between her lips.

"Illusion arts are both strong and weak! For a true dragon like myself! An Emphyrean proficient in illusion arts is but an ant!"

With a fierce glimmer in his eyes, Myriad Dragons Father opened his mouth, and a True Dragon Bead appeared, tore the firmament, and slammed into the Phantom Ruler.

Endless strands of dragon qi erupted from the True Dragon Bead and twisted wildly.

The Phantom Ruler trembled. Under impact of the true dragon qi, cracks appeared on the Phantom Ruler's core chip.

Chapter 1322: Slaying Myriad Dragons Father

Myriad Dragons Father is the most powerful true dragon in Gumana Universe. His pure true dragon qi is the bane of all other existences. The Phantom Lord used the Dream Spirit Fruit to advance to the Emyrean realm. In essence, it is much weaker than Silver Autarch. This is why it suffered serious damage from Myriad Dragons Father's attack.

The elusive Whip of the Ruler whipped Myriad Dragons Father, and a force broke out and blasted away several of the other party's dragon scales that possess astonishing defensive strength, and blood spilled.

"So you're the mechanical golem Empress Ling forged by Devour Lord! Truly formidable! Your strength is quite outstanding even among Emyreans. However, you are not my opponent. Get lost, or I'll tear you to shreds!"

With a ferocious flash in his eyes, Myriad Dragons Father bellowed and brandished his hand, which turned into a violent true dragon and shot towards Ling.

With a cold glimmer in her beautiful eyes, Ling flicked her wrist, and a giant Unbreakable Shield appeared in front of her.

The Unbreakable Shield broke out with countless runes and formed a fearsome defensive barrier protecting this area.

Boom!

The violent true dragon roared and sent a claw containing tremendous destructive might blasting towards the Unbreakable Shield's barrier.

Despite how violent the true dragon was, it still couldn't tear the Unbreakable Shield's barrier apart.

With a faint smile on his face, Yang Feng came to the center of the lake and stepped into the snow-white lotus.

The snow-white lotus closed and broke out with countless mysterious runes, and a stream of pure life origin poured into Yang Feng and strengthened his body and soul.

"Break!"

Myriad Dragons Father was enraged. He roared wildly, burned the true dragon blood inside him, and violently attacked the Unbreakable Shield.

Boom! Boom! Boom!

Along with earth-shaking blasts, the Unbreakable Shield blocked the attacks of Myriad Dragons Father.

The Unbreakable Shield is one of the most outstanding masterpieces Magic Note Lord forged in his life. Furthermore, it has the potential of advance to the Eternal grade. Ling is an Emyrean rank powerhouse. Even though Myriad Dragons Father is an unequalled overlord-level powerhouse, but he can't break through the barrier that easily!

“Since I can’t get it, then no one shall get this Eternal opportunity!”

Myriad Dragons Father was furious. With a malevolent and sinister gleam in his eyes, he blurred, erupted with countless runes, and changed into a formidable true dragon 10,000 meters long and shrouded in fearsome true dragon qi.

As soon as Myriad Dragons Father assumed his true form, he sent a claw barreling towards a surrounding spirit mountain.

Boom! Boom! Boom!

Under the frenzied attacks of Myriad Dragons Father, cracks appeared on the firm spirit mountain.

Any Empyrean is a prodigy among prodigies, a freak among freaks, a peerless powerhouse who created their own path. Even if it’s an Eternal Sovereign, if their stay still and allow an Empyrean attack them, their origin will be crushed by the Empyrean and they will die.

Although the spirit mountain is formed from the essence of two universes, but it still can’t withstand the attacks of Myriad Snakes Father.

Ying walked out from the void, accelerated to the extreme, and stabbed at Myriad Dragons Father with the Lance of the Ruler.

“Fuck off!”

Myriad Dragons Father’s incarnation of a giant true dragon sent his tail whipping towards Ying.

Ying’s countenance changed slightly. She assumed a defensive stance and blocked with the Lance of the Ruler in front of her.

The giant true dragon’s tail slammed onto Ying’s Lance of the Ruler and blasted it 10,000 kilometers away together with Ying.

The Phantom Ruler appeared once more, and a strange eye emerged on its body and fired twisted phantom light containing terrifying illusion force barreling towards Myriad Dragons Father.

Overbearing true dragon qi poured out of Myriad Dragons Father and formed a frightening whirlpool.

When the phantom light slammed into the frightening whirlpool formed from true dragon qi, it collapsed.

Ordinary Empyreans may be somewhat scared of Phantom Ruler’s phantom light. But for Myriad Dragons Father, the Phantom Ruler’s phantom light is hardly worth mentioning. Previously, he was hit by it because he was caught off guard.

Without paying the Phantom Ruler any mind, Myriad Dragons Father frenziedly attacked the spirit mountain. Cracks appeared all over the spirit mountain.

Boom!

Along with loud noise, the spirit mountain collapsed, and the lake’s water, which is filled with mysterious power, scattered in all directions.

The snow-white lotus in the center of the lake began to withered slowly.

“Myriad Dragons Father, you’re a step too late!”

An extremely tyrannical aura erupted inside the snow-white lotus.

A torrent of time emerged at once. Filled in confidence, Yang Feng shrouded in the torrent of time took a step and appeared in front of Myriad Dragons Father, and the Warbringer Halberd in his hands stabbed the other party with with fearsome speed that exceeds the speed of light.

An overbearing force penetrated Myriad Dragons Father’s body and left a wound on his body.

Ling brandished the Whip of the Ruler and attacked Myriad Dragon Father, breaking several of his bones.

Ying appeared behind Myriad Dragons Father and stabbed him with the Lance of the Ruler.

Countless mysterious runes shone, and the Spirit Osta Fortress emerged. An Empyrean skeleton emerged from the fortress formed from countless Holy bones, slammed a claw into Myriad Dragons Father’s head, and broke out with countless runes, dealing severe damage to the other party.

“Curses! You want to kill me?! You don’t have that ability yet!”

Myriad Dragons Father roared furiously and broke out with terrifying dragon force. In an instant, he sent Yang Feng and the other three flying.

Covered in blood, Myriad Dragons Father turned around and ran away without looking back.

“It’s no use, Myriad Dragons Father. Since you have destroyed the spirit land, use your life to pay the debt!”

Yang Feng felt the endless power inside him begin to vanish slowly. His eyes flickered with intense killing intent, and he broke out with countless runes, turned into a fearsome black hole, swept towards Myriad Dragons Father, and drew the other party inside.

The black hole shone with countless mysterious runes and frantically devoured Myriad Dragons Father’s life origin.

“Open!”

Myriad Dragons Father’s eyes flashed with a fierce gleam, and he roared and brandished his dragon claws, trying to tear the black hole apart.

Strange ripples rose. When Myriad Dragons Father’s dragon claw touched the black hole’s core, it was repelled and its origin was sucked away, and it turned into a withered dragon claw.

“How is that possible? How could you become so strong? You haven’t gone through the Empyrean baptism yet. You’re not a genuine Empyrean yet! How could you become so strong! I’m not reconciled! I’m not reconciled!”

Myriad Dragons Father howled miserably, a look of despair in his eyes.

The Whip of the Ruler emerged abruptly in the black hole and hit Myriad Dragons Father in the head.

Myriad Dragon Father's head split open, and tremendous life origin gushed out and was absorbed by the black hole.

The Whip of the Ruler attacked Myriad Dragons Father in the black hole continuously. Myriad Dragons Father's body collapsed bit by bit, and his life origin flowed out and was absorbed by the black hole.

After more than a dozen breaths of time, Myriad Dragons Father's life origin was completely devoured by Yang Feng.

The black hole disappeared at once.

Ling came to Yang Feng and asked curiously, "My lord, have you successfully transformed?"

Just now, Yang Feng dealt Myriad Dragons Father serious damage and displayed astonishing strength.

"Myriad Dragons Father is really vicious. He destroyed the spirit mountain and severed the origin. I only completed 80% of my transformation."

Yang Feng's eyes flashed with regret. He felt the unparalleled power inside him vanish rapidly.

He raised the corners of his mouth into a smile, "However, I gained great benefits this time. I even devoured Myriad Dragons Father. Once I leave here, I have the confidence to promote to an Empyrean in the outside world!"

"Prior to that, I still have to dispose of a few more Empyreans!"

Yang Feng's eyes glimmered coldly. He broke out with countless runes, and ripples appeared in space.

A swarm of battle robots appeared at once and flew in all directions.

The battle robots changed and turned into a huge spirit mountain.

Thanks to the countless battle robots, the mountain range ravaged by the Devastator Cannon became whole again.

Yang Feng poured out some of the lake water he collected, and then broke out with countless runes, turned into a snow-white lotus, and floated quietly in the lake.

There are powerful barriers set up on the Island on Eternity, making it so even Empyreans can't detect what's going on on the island from outside. It was precisely because of this that Yang Feng is so daringly lying in wait.

Three hours later, earth-shaking noise erupted and fearsome Empyrean auras filled the island.

The fighting lasted for three hours before stopping, and then two groups of people came rushing towards the spirit mountain.

Chapter 1323: Plotting against Protonight Lord

Among the two groups of people, one is composed of Empyreans of Gumana Universe, while the other is composed of Empyreans of the world of Warlocks.

None of the six unequaled overlord-level Empyreans has died. As for ordinary Empyreans, a large number of them have fallen. There were originally 19 Empyreans of Gumana Universe. But only 10 Empyreans arrived here. Of the 9 Empyreans that have fallen, 2 were devoured by Yang Feng and the remaining 7 were buried in the Eternal Origin Sea.

There were originally 14 Empyreans of the world of Warlocks. But there are only 8 left at this time. 6 Empyreans have fallen in the Eternal Origin Sea.

Every Empyrean is a fearsome being of a universe, is an invincible overlord of an era. Once they die, various vision will appear in the universe.

The fall of 15 Empyreans is a world-shaking occurrence and can only take place on such a cruel battlefield that involves Eternal opportunities.

Among the two groups, many Empyreans are injured. But the 6 unequaled overlord-level powerhouses have no injuries.

If he hadn't forcefully crosses the Eternal Origin Sea, Myriad Dragons Father wouldn't have been covered in injuries, either.

When Golden Crow Emperor saw the snow-white lotus, his eyes shimmered with a burning color. He flapped his wings, turned into a golden stream of light, and flew towards the snow-white lotus.

"Protonight Domain!"

Protonight Lord's eyes shimmered fiercely. He spread the fingers of a hand and broke out with countless mysterious runes, which evolved into a fearsome domain.

Golden Crow Emperor can fly tens of thousands of light-years with a flap of wings in the universe. But in the Protonight Domain, he kept flapping his wings, yet he got farther and farther away from the white lotus.

Green Dragon Emperor's eyes flashed fiercely, and he turned into a 10,000-meter-long true dragon emanating an aura of invincibility and sent a claw shooting towards an Empyrean of Gumana Universe.

The Empyrean of Gumana Universe never expected Green Dragon Emperor to attack him. With a look of shock in his eyes, he broke out with countless runes, which formed a cyan shield in front of him.

Green Dragon Emperor's dragon claw slammed into the cyan shield and crushed it, and then grabbed the right arm of the Empyrean of Gumana Universe and tore it off.

"Damn it!"

The Empyrean of Gumana Universe cursed, and then cast a secret method and escaped into the distance.

When faced against an unequaled overlord-level Empyrean, an ordinary Empyrean is not the opponent of the other party. Generally speaking, at least 4 Empyreans are needed in order to be able to rival an unequaled overlord-level Empyrean.

The Emphyreans of Gumana Universe cast secret methods and flew towards the white lotus, completely disregarding the Emphyrean who was attacked. The Emphyrean who was attacked could only choose to escape.

“Go to hell!”

All kinds of powerful offensive secret methods shook the void as the Emphyreans attacked each other, eyes shot with blood.

Emphyreans of Gumana Universe and Emphyreans of the world of Warlocks, the Emphyreans of two universes fought frenziedly. Anyone who approached the white lotus would become the target of the Emphyreans.

Among the Emphyreans, Golden Crow Emperor can be regarded as the fastest. But under the bombardment of Emphyreans of Gumana Universe, he was injured all over and had no choice but to escape the side of the white lotus.

As the Emphyreans fought, they deliberately avoided the white lotus emitting sacred light.

“Success!”

All of a sudden, there was a ripple in the void, and Hollow Night Lord of Gumana Universe strangely appeared in front of the snow-white lotus, extended a hand towards it, and smiled.

“Damn it!”

“Don’t tell me he succeed?”

“...”

The eyes of the spectating Emphyreans flashed with astonishment, and they frenziedly hurled all kinds of attacks at Hollow Night Lord.

A powerful defensive barrier suddenly appeared and blocked Hollow Night Lord’s hand.

“How is this possible?”

Hollow Night Lord’s eyes flashed with shock. In an instant, the attacks of the other Emphyreans blasted him into pieces.

Along with flashes of light, the Emphyreans cast secret methods, and lights shot towards the Hollow Night Lord’s fragments and swept away his flesh and soul.

For other Emphyreans, an Emphyrean’s flesh and soul are rare treasures. An Emphyrean’s flesh and soul are top materials for refining Emphyrean grade secret treasures.

After Hollow Night Lord was dealt with, the fighting became more intense.

In the frenzied fighting, one ordinary Emphyrean after another was torn to pieces, and their flesh and soul were collected by others.

Terrifying fluctuations of power vibrated in the area. If it were not for the fact that the Island of Eternity was blessed by the origin force of two universes, it would have been torn apart by the Emphyreans already.

“No!”

Along with a shrill scream, Green Dragon Emperor’s incarnation of a true dragon tore Dragon Devil Lord apart, and then stuffed the other party’s upper body into his mouth.

Golden Crow Emperor, who has turned into a three-legged golden crow, flew over at once, bit Dragon Devil Lord’s lower body, and ate it.

For Golden Crow Emperor and True Dragon Emperor, an Emphyrean’s flesh is a great tonic. Theoretically, as long as they devour 100,000 Emphyreans and refine their flesh and soul, there is a sliver of a chance that they will advance to the Eternal realm. Of course, there is only a sliver of a chance.

However, even if the number of Emphyreans in the two universes is add up, it can’t reach 100,000. To promote to an Eternal Sovereign by consuming Emphyreans is nothing other than a pipe dream.

After Dragon Devil Lord died, the rest of the Emphyreans suddenly noticed something and felt their blood run cold. They cast their secret methods and escaped from the battlefield.

Only the 6 unequaled overlord-level Emphyreans remained on the battlefield.

The 6 unequaled overlord-level Emphyreans looked at each other and cast all kinds of powerful offensive secret method to fight one another.

Prior to this, in a tacit understanding, the 6 unequaled overlords hunted the other side’s Emphyreans to reduce the number of competitors. Now that only the 6 unequaled overlord-level Emphyreans are left here, they took it up a notch.

The void vibrated and the earth cracked.

Even though the Island of Eternity is blessed by the origin of two universes, but in the wake of the fight between the 6 unequaled overlord-level Emphyreans, countless cracks appeared all over the island.

“Success! The Eternal opportunity is mine!”

With a flash of black light, Protonight Lord forcibly ate Green Dragon Emperor’s claw attack, which tor off a huge piece of his flesh, and appeared in front of the white lotus. With a flash of ecstasy in his eyes, he extended a hand towards the white lotus.

The white lotus glimmered with countless mysterious runes and changed into Yang Feng, and the Warbringer Halberd stabbed at Protonight Lord.

“Devour Lord! Why are you here? Damn it, you got the Eternal opportunity!”

When Protonight Lord saw Yang Feng, he was both astonished and furious. He bellowed thusly.

The Warbringer Halberd stabbed Protonight Lord almost in an instant and broke out with terrifying force, cleaving the other party in two.

A black hole emerged, swept towards Protonight Lord, drew him inside, and then turned into a stream of black light and flew in the direction of the Eternal Origin Sea.

“Damn you, Devour Lord!”

Nova Lord was both astonished and angry. With a glimmer of frigid killing intent in his eyes, he cast a secret method, and countless rays of light shone, turned into lances of light, and stabbed towards Yang Feng.

“Come back! Devour Lord!”

The First Abyssal Master’s eyes glimmered fiercely. He broke out with countless runes all over his body and pointed at Yang Feng, and a black barrier appeared in the void.

In the face of such an abrupt change, the other 3 unequaled overlords hastily cast spells and sealed the void to make Yang Feng stay.

“I don’t have time to play with you guys!”

Yang Feng smiled faintly. All of a sudden, ripples surged within the void, and 1,000 Holy grade mechanical rulers appeared, cast offensive spells, and hurled attacks at the 5 unequaled overlord-level Emphyreans.

The 5 unequaled overlord-level Emphyreans cast their secret methods and blasted apart one Holy grade mechanical ruler after another with ease.

However, the Holy grade mechanical rulers managed to delay the 5 unequaled overlord-level Emphyreans for a moment.

“Break!”

Yang Feng brandished his hand and attacked the seal barriers. A golden horn appeared in his right hand, and he pierced through the seal barriers, and then turned into a stream of light and flew away.

“Devour Lord, you’re finished! If I infuse you into a top-shelf potion and consume you, I’ll definitely be able to promote to the Eternal realm!”

Golden Crow Emperor’s eyes flashed with a frenzied color. He flapped his wings, surged with endless fire, and flew towards Yang Feng.

The dauntless Holy grade mechanical rulers hurled all kinds of attacks at Golden Crow Emperor and blasted open small wounds on his body.

Not concerned with the Holy grade mechanical rulers, Golden Crow Emperor flew straight towards Yang Feng.

“Goodbye!”

Yang Feng flew to the edge of the Island of Eternity, smiled at the 5 unequaled overlord-level Emphyreans, and plunged into the Eternal Origin Sea.

“Die!”

With a fierce flash in his eyes, Golden Crow Emperor opened his mouth, and a sun ejected, slammed into the Eternal Origin Sea, and set off huge waves in the sea.

Chapter 1324: Devouring Golden Crow Emperor

With a fierce flash in his eyes, Golden Crow Emperor landed on a Leaf Origin Ship and chased after Yang Feng.

A brand of Golden Crow Fire was engraved on Yang Feng's body. Even if he runs 10,000 kilometers away, he won't be able to escape from Golden Crow Emperor.

Green Dragon Emperor frowned slightly and shouted, "Come back, Golden Crow Emperor! Don't be reckless!"

"Fuck, why am I in such a hurry! This is an illusion! It's a top illusion, to boot!"

Golden Crow Emperor is worthy of being an unequaled overlord-level Emyrean. In an instant, he came back to his senses, scanned Yang Feng with his tremendous soul force, and discovered some abnormality.

Although the Phantom Ruler is not a match for the unequaled overlord-level Golden Crow Emperor in frontal battle. However, with its fearsome phantom force, the Phantom Ruler can guide and amplify certain emotions of Golden Crow Emperor.

The Phantom Ruler is an existence that no Emyrean rank powerhouse can underestimate. Furthermore, even Eternal Sovereigns can be affected by its abilities if careless.

Boom!

A golden horn broke out from the Eternal Origin Sea and slammed into the Origin Leaf Ship, and an overbearing force instantly crushed the Origin Leaf Ship.

"Devour Lord, damn you!"

Golden Crow Emperor's both astonished and furious voice transmitted from the Origin Leaf Ship before he fell into the Eternal Origin Sea.

Golden Crow Emperor's eyes flashed with a decisive color. He burned his blood and used his wings to swim towards the Island of Eternity.

With Golden Crow Emperor's strength, he can return to the Island of Eternity within 10 breaths of time.

A large hand extended from the Eternal Origin Sea, grabbed Golden Crow Emperor's leg, and pulled him to the bottom of the Eternal origin Sea.

Golden Crow Emperor previously barely resist the Eternal Origin Sea's pulling force. Now that Yang Feng pulled him as well, he was dragged to the bottom of the sea.

The Eternal Origin Sea's dissolution force shrouded Golden Crow Emperor and frantically decomposed his power.

“Devour Lord, we are comrades-in-arms from the same universe! Let me go! Let’s resist the invasion of Gumana Universe together!”

Golden Crow Emperor’s eyes glimmered coldly, and he roared. At the same time, his remaining two claws shot towards Yang Feng lightning fast.

If Yang Feng hesitates for even a moment, he will beheaded by Golden Crow Emperor, and then decomposed into pure Eternal origin force by the Eternal Origin Sea.

Ling appeared at once, brandished both fists, and punched the claws of Golden Crow Emperor, knocking them away.

After knocking away Golden Crow Emperor’s claws, Ling rushed forward and attacked the other party.

Originally, with Golden Crow Emperor’s strength, even though Ling and Yang Feng have joined forces, they would not be a match for him. However, inside the Eternal Origin Sea, Golden Crow Emperor’s power is being constantly decomposed. He can’t display even half of his strength.

Thanks to the Kunmo Stones, both Yang Feng and Ling have the ability to absorb the power of the Eternal Origin Sea. They can display 70-80% of their strength in the Eternal Origin Sea. Under these circumstances, Golden Crow Emperor suffered continuous wounds and issued miserable screams.

Green Dragon Emperor’s eyes glimmered coldly, and he uttered in a loud voice, “Devour Lord, Golden Crow Emperor is an unequalled overlord of our universe! And is pillar of our resistance against Gumana Universe! If you kill him, the combat strength of our universe will be weakened by a fraction. Please consider the overall situation and spare him this time! I can assure you that so long as he lives, he will never oppose you again!”

Yang Feng smiled coldly and said in reply, “The overall situation? Then why did you guys ignore the overall situation just now? You joined forces with those aliens and attacked me! If we have worked together just now, the remaining Emphyreans of Gumana Universe wouldn’t have escaped!”

If Golden Crow Emperor’s group of 3 unequalled overlord-level Emphyreans joined forces with Yang Feng, then the remaining Nova Lord and Myriad Trees Ancestor wouldn’t have escape.

But the 3 unequalled overlord-level Emphyreans attacked Yang Feng instead. As a result, Yang Feng decided to choose the plan B and escape from the Island of Eternity.

Green Dragon Emperor said, “Devour Lord, if you kill Golden Crow Emperor here, it’ll only serve as fodder for your enemies. Why don’t you give me face and let this matter rest?”

A black hole emerged in the Eternal Origin Sea, swallowed Golden Crow Emperor, and channeled a tremendous stream of life origin into Yang Feng.

Green Dragon Emperor’s expression became extremely unsightly.

Blue Moon Merfolk Empress hid at the edge of the Island of Eternity. When she saw this, she was startled, and her eyes shimmered with fear, “Golden Crow Emperor actually died at Devour Lord’s hands. Devour Lord is so fierce.”

Golden Crow Emperor is an unequaled overlord-level Emyrean. Back in the archgod age, he was an extremely ferocious being that hunted true spirit-level Emyreans for their flesh.

Yet such an unequaled overlord-level Emyrean died at Yang Feng's hands. If this is known to the outside world, the whole world of Warlocks will be shocked.

Yang Feng hid in the Eternal Origin Sea and quietly waited for prey to appear. At the same time, he absorbed the power of the Eternal Origin Sea.

The Emyreans were very cautious. They hid on the Island of Eternity, not daring to set foot on the Origin Leaf Ships.

After waiting for an hour and seeing that the Emyreans have no intention to go to the Eternal Origin Sea, Yang Feng quietly left the Eternal Origin Sea.

The world of Warlocks, the location of the Twin Universe Flower.

Yang Feng turned into a wind of nothingness and flew out of the Twin Universe Flower without attracting anyone's attention.

He crossed a warp gate, returned to Battle Demon Sect's branch floating continent, and went to the sky above the branch floating continent.

Yang Feng broke out with countless mysterious runes, and vast, boundless pressure spread from him and swept in all directions.

The energies within millions of light-years and countless universe laws instantly converged and formed an Emyrean Gate containing terrifying power in the void.

"That's the Emyrean Gate! Someone is attacking the Emyrean realm!"

"Who is it? Who is attacking the Emyrean realm?! Silver Autarch already occupied the only Emyrean slot in this era. How could anyone attack the Emyrean realm now?"

"What a fool! This era's Emyrean slot has already been occupied by Silver Autarch. Even a monster like Devour Lord is restricted to the quasi-Emyrean realm and can't advance to the Emyrean realm! Yet someone's attacking the Emyrean realm now! What a reckless thing!"

"..."

Powerful wills reverberate in the void. Attracted by the energy fluctuations, Holies and Great Holies cast spells and traced the source of the fluctuations.

"Devour Lord! Devour Lord is advancing to an Emyrean!"

"He is advancing to an Emyrean at this time!"

"Didn't he enter the Twin Universe Flower? How come he's advancing to an Emyrean at this time?"

"He must have obtained tremendous benefits. He must have accumulated enough reserves in the Twin Universe Flower to advance to an Emyrean."

"To attack the Emyrean realm now, isn't that too hasty?"

“...”

The wills of Holies surged in the void. Virtually no one is optimistic about Yang Feng's prospects to advance to the Empyrean realm.

The universe energy-level of the world of Warlocks is low. As such, only 1 Empyrean can be produced in each era. Even though the universe's origin has recovered somewhat, but it is still very difficult to produce multiple Empyreans. It is almost impossible for Yang Feng to become an Empyrean in this era.

“Break!”

With a flash of intense killing intent in his eyes, Yang Feng unleashed a punch containing Empyrean rank power and attacked the Empyrean Gate.

Boom!

Along with an earth-shaking blast, Yang Feng's body exploded inch by inch, and blood splashed everywhere.

The Empyrean Gate remained motionless and radiated mysterious light.

“What a shame. Although Devour Lord has surpassed ordinary Empyreans, but he still can't break the Empyrean Gate.”

“After absorbing Silver Autarch's soul origin brand, the Empyrean Gate has become stronger.”

“Only after the universe has fully recovered, will the Empyrean Gate become easier to open. It's still too difficult now.”

“...”

The eyes of the Holies and Great Holies flashed with regret.

At first, with Yang Feng's strength, he could smash the Empyrean Gate and easily advance to an Empyrean. However, Silver Autarch took the lead and occupied the Empyrean slot, making the Empyrean Gate abnormal.

“Sure enough, it was only right for me to choose to advance now! Only now can I tear the Empyrean Gate apart.”

Yang Feng's eyes flickered coldly. The Xi Shen Armor broke out with countless mysterious runes, and a blurry projection emerged and merged with Yang Feng.

Yang Feng unleashed a punch, and four visions, namely a torrent of time, spatial gates, stars, a black hole, emerged and slammed into the Empyrean Gate.

Boom!

Along with a world-shaking blare, Yang Feng blasted open a hole in the Empyrean Gate.

Pure force and universe laws landed on Yang Feng. As a result, he transformed continuously, and his aura rose steadily.

Yang Feng took a step and walked towards the Empyrean Gate.

Ripples surged, and a handsome Empyrean radiating bright golden light, with a pair of cicada wings on the back, appeared in the void, raised a golden bow, and locked on Yang Feng.

Countless rays of golden light shone, and a brilliant golden arrow turned into a light beam and shot towards Yang Feng's heart at an unimaginable speed.

Chapter 1325: The First Fiend Emperor

"It's Golden Cicada Lord! He took action!"

"Why? Devour Lord hasn't offended him!"

"Devour Lord is too strong! He hasn't advanced to an Empyrean yet, but he is already this strong. Once he advances to an Empyrean, will anyone still be a match for him?"

"Many people don't want to see Devour Lord advance to an Empyrean!"

"Once Devour Lord is really promoted to an Empyrean, those old monsters won't be able to rest in peace."

"..."

The spectating Holies and Great Holies immediately recognized the identity of the Empyrean assassin, and felt a chill well up in their hearts.

Now that the Twin Universe Flower has emerged, a channel linking the two universes has appeared. Yet Empyreans are still sniping at other Empyreans of their universe. This naturally gave rise to a chill inside the Holies and Great Holies.

These Empyreans cast secret methods to slumber millions, tens of millions, or even hundreds of millions of years for the sake of the sole Eternal slot. The Eternal realm is the only and ultimate goal of these Empyreans. Naturally, they won't miss any opportunities.

A figure flashed, and Ling appeared in front of Yang Feng, raised the Unbreakable Shield, and activated a powerful defensive barrier.

Boom!

The golden arrow is a full strength attack of Golden Cicada Lord and is extremely powerful. However, it only set off ripples on the defensive barrier conjured by the Unbreakable Shield.

"Empress Ling!"

"So strong! What is that secret treasure?"

"What powerful defense. It was able to withstand Golden Cicada Lord's finishing move."

"..."

The eyes of the spectating Holies and Great Holies glimmered with enigmatic color, and they commented one after another. The human Holy Spirit Warlocks showed smiles of excitement.

At this moment, Yang Feng has already stepped into the Eternal Gate. He is walking towards the deepest part of the gate.

Ripples rose in the void, and a crocodile as big as a star, with 24 moons suspended above the head and a pair of flesh wings on the back, emerged, opened its big mouth, and bit at Ling.

“Swallow Moon Crocodile Emperor appeared!”

“He’s an unequaled overlord-level Emphyrean!”

“Swallow Moon Crocodile Bite is one of the most scary attacks in the world! Even unequaled overlord-level Emphyreans wouldn’t dare to take it head on.”

“...”

When the human Holy Spirit Warlocks saw this scene, anxiety flashed in their eyes.

This is a fight between Emphyreans. If Holy Spirit Warlocks joined this fight, they would be nothing more than cannon fodder — fairly advanced cannon fodder.

Crack!

Swallow Moon Crocodile Emperor bit the defensive barrier of the Unbreakable Shield and stuffed the Unbreakable Shield together with Ling into his mouth.

Along with crisp sounds, the barrier of the Unbreakable Shield broken bit by bit.

“I shall be your opponent!”

Golden Cicada Lord just wanted to move forward, when a terrifying angel sword ray emerged and slashed towards Golden Cicada Lord.

Golden Cicada Lord frowned slightly and raised the Golden Cicada Slayer Bow, and fearsome golden light shone, crushed the angel sword ray, and sent Michaelia flying.

A frightening energy shock wave spread in all directions.

“Get lost! Angel queen, even though you have the blessing of the Magic Note Throne, but you’re not a match for me! If you refuse to get lost, then go to hell!”

Golden Cicada Lord bellowed, a fierce flash in his eyes.

Michaelia’s pretty eyes flickered coldly, and she said, “I’m indeed not a match for you. However, my task is only to stall you for a while! Golden Cicada Lord, there’s still time for you to surrender. Otherwise, once my older brother promotes to an Emphyrean, the golden cicada race will be exterminated.”

“Devour Lord promoting to an Emphyrean? Impossible! In the universe, who knows how many people want to see him dead! You’re going to be buried together with him! Let me send you on your way!”

Golden Cicada Lord smiled ferociously. His figure fluttered, and he raised the Golden Cicada Slayer Bow and fired at Michaelia.

Ripples rose in the void, and a cyan kunpeng as big as the sky, emitting Emyrean pressure flew out and shot towards the Emyrean Gate.

“Cyan Kunpeng Emperor, hold up!”

Countless mysterious runes shone in the void, and a Shi Yu’s incarnation of a golden giant, which is as big as the sky, appeared and sent a fist flying towards the cyan kunpeng.

“Fuck off!”

With a fierce flash in his eyes, Cyan Kunpeng Emperor knocked into Shi Yu’s incarnation of a golden giant, and tremendous force broke out and sent her flying.

Cyan Kunpeng Emperor is a terrifying existence infinitely close to the unequaled overlord-level. Naturally, he can send a false Emyrean like Shi Yu flying.

After Cyan Kunpeng Emperor sent Shi Yu flying, he turned into a cyan stream of light and rushed into the Emyrean Gate.

All of a sudden, the invisible Lance of the Ruler, which contain exceptional power, ejected from the Emyrean Gate and stabbed towards Cyan Kunpeng Emperor.

Cyan Kunpeng Emperor was focused on chasing after Yang Feng and destroying the other party’s Emyrean ceremony. As such, he wasn’t prepared to face a hidden Emyrean assassin.

In an instant, the Lance of the Ruler stabbed Cyan Kunpeng Emperor, and then extended and pierced his body.

Taking advantage of this opportunity, Shi Yu stepped forward and brandished the Emyrean grade secret treasure Sword of Stone, and a sword ray emerged and slammed into Cyan Kunpeng Emperor. Cyan Kunpeng Emperor’s flesh began to petrify, break, and turn into powder that dispersed with the wind.

“Damn you!”

Cyan Kunpeng Emperor unleashed a shocking roar. Countless runes shone, and his cells split and recombined.

In one breath of time, Cyan Kunpeng Emperor regained his peak condition. He operated the essence of space and unleashed spatial blades shooting towards Shi Yu and Ying.

Although Cyan Kunpeng Emperor is an Emyrean infinitely close to the unequaled overlord-level, yet after suffering a surprise attack from Ying, he was dealt serious damage. Even though he cast a secret method to heal himself, but his strength was still greatly reduced. As a result, he was restrained by Shi Yu and Ying.

“Who is that?”

“Who is that Emyrean? She’s amazing! With one strike, she dealt Cyan Kunpeng Emperor serious damage!”

“Who is she? I don’t think Devour Lord has such a powerful ally!”

“This strange power. Could Devour Lord have forged a second Empyrean golem?”

“A second Empyrean golem! That’s incredible! Devour Lord’s alchemy is really incredible!”

“...”

When they saw Ying’s fighting style and the fluctuations of power specific to Kings of Rulers emanating from her, the spectating Holies and Great Holies guessed the truth at once.

As the crystallization of technology mastered by Yang Feng, Ying and Ling didn’t have to enter the Empyrean Gate and receive its baptism. As such, their fluctuations of power are different from those of normal Empyreans.

“A bunch of trash!”

Demonest Plane, in the deepest part of a deadly danger zone. A voice full of malice sounded abruptly. Countless mysterious runes shone, and a black crystal flew out of a coffin and entered the void.

The vicinity of Cangzhi Plane, in a secret realm full of demonic qi. The fiend emperor is curled up in a cocoon and is absorbing the surrounding demonic qi.

The black crystal suddenly appeared and turned into a stream of light that entered the fiend emperor’s cocoon.

“Who are you? You want to take my body? Screw off!”

The fiend emperor opened his eyes and roared, and his eyes surged with an overbearing shade.

“It’s no use. You’re just one of the resurrection pawn I arranged. How can a pawn disobey the player? Now merge with me!”

A callous, cruel voice appeared in the fiend emperor’s soul.

Countless mysterious runes appeared in the fiend emperor’s blood and firmly locked his soul and power, making it so that he can’t resist.

“Who are you?”

The fiend emperor’s eyes flashed with the shade of unwillingness, and he clenched his teeth.

“Who am I? I am the First Fiend Emperor, the fiend emperor who has existed since the Eternal Sovereign age, the only fiend emperor in the universe! All of you are my pawns, my nutrients. The body you cultivated isn’t bad! Thank you for your hard work!”

A derisive, cruel, callous voice rang in the fiend emperor’s mind.

The fiend emperor’s eyes flashed with despair and unwillingness, and his soul was swallowed by a fearsome mouth in his sea of knowledge: “It turns out that I have been a pawn of another all my life! I’m not reconciled!”

The fiend emperor’s body trembled slightly, and his eyes glazed over. In the next moment, his eyes regained their luster and burst out with brilliant light.

As if worshipping its monarch, the demonic qi in the secret realm flew towards the fiend emperor and flowed into his body.

“Not enough! This power isn’t enough! There’s not enough time! Let’s go!”

The First Fiend Emperor frowned and slashed with his hand, and a spatial gate opened in the void, revealing a space full of treasures.

A small jar engraved with countless bloody runes, emanating the aura of countless true spirits flew out.

The blood essence of a true dragon, a phoenix, a kunpeng, a qilin, a pixiu, a giant, and other Emphyreans flowed out of the small jar and poured into the First Fiend Emperor’s body.

The First Fiend Emperor transformed constantly, and his aura climbed steadily. In an instant, he broke through and became an Emphyrean. At the same time, his power rose madly.

When the blood essence in the jar was no more, the First Fiend Emperor was already emanating unequalled overlord-level fluctuations of power.

Chapter 1326: Advancing to an Emphyrean (I)

The First Fiend Emperor frowned slightly: “This body can’t fully display my peak strength!”

The First Fiend Emperor is an unequalled overlord-level powerhouse. Back in the past, he once competed with an Eternal Sovereign for the Eternal opportunity.

At the time, the First Fiend Emperor was only half a step away from being able to advance to the Eternal realm. Unfortunately, he was defeated by the other party and had to fall into a deep sleep.

Later, when the First Fiend Emperor woke, the universe had changed. It was no longer possible to advance to the Eternal realm. Left with no other choice, he cast a secret method and fell into a deep slumber. He is one of the most fearsome beings in the world of Warlocks.

“Devour Lord, you want to promote to an Emphyrean? Not so fast! After all, the fewer rivals there and the fewer variables there are, the better.”

The First Fiend Emperor’s eyes glimmered with a ferocious shade. Along with a flash of light, a scepter filled with frightening spatial force emerged and slashed the void, and a spatial gate appeared in the void. He stepped into the spatial gate.

Battle Demon Sect’s branch floating. Light shone, and a spatial gate appeared. The First Fiend Emperor emerged from the spatial gate, and fearsome pressure diffused from him.

“Fiend emperor! What’s going on? How did he become an Emphyrean?”

“How could this happen? Not even Devour Lord was able to advance to an Emphyrean. How did he advance to an Emphyrean?”

“Since he came here, he must want to stop Devour Lord from advancing to an Emphyrean!”

“That’s right. Once Devour Lord advances to an Emphyrean, his past enemies won’t be able to rest in peace.”

“...”

When the spectating Holies saw the fiend emperor, shock shimmered in their eyes.

It is extremely difficult to promote an Empyrean. Although Yang Feng is strong, but because the sole Empyrean slot was occupied by Silver Autarch, he had no choice but to wait until today, and then forcibly advance.

For the fiend emperor to be able to advance to an Empyrean without any warning, that is quite incredible.

Along with an afterimage, Ying crossed the void, appeared in front of the fiend emperor, and stabbed at the other party with the Lance of the Ruler.

“Fuck off!”

The First Fiend Emperor’s eyes flashed with brilliant light. A pitch black sword, the Sword of the Fiend Emperor, inlaid with the vertebra of a true dragon, a phoenix, a qilin, and other true spirits appeared in his hand, and the First Fiend Emperor slashed at Ying.

In an instant, four fiend true spirits formed from fiend force, namely a true dragon, a phoenix, a qilin, and a black turtle, suddenly emerged, cast secret methods, and attacked Ying.

Ying’s face fell, and she brandished the Lance of the Ruler and activated a powerful defensive barrier blocking in front of her.

Boom!

When the attacks launched by the four true spirits hit Ying’s defensive barrier, they crushed the defensive barrier. At the same time, they blasted Ying 10,000 kilometers away.

Phoenix Fire containing evil force appeared on Ying and burned her. A large amount of blood flowed out of Ying’s mouth, fell into the void, and turned into strange demonic qi.

“So strong! To be able to defeat an Empyrean rank alchemy golem with a single strike, truly formidable!”

“Fiend emperor has already surpassed an ordinary Empyrean in terms of strength!”

“This is the strength of an unequaled overlord-level Empyrean! It’s impossible for the fiend emperor to master this sort of strength. The only possibility is that he has become the vessel for someone’s resurrection.”

“A fearsome being that possesses the strength of an unequaled overlord-level Empyrean and can easily occupy fiend emperor body and defeat his soul. There’s only the legendary one such being — the First Fiend Emperor!”

“...”

When the spectating powerhouses saw the First Fiend Emperor send Ying flying, they vaguely guessed his identity.

The First Fiend Emperor stepped into the Emyrean Gate and went towards the deepest part of the gate.

Inside the Emyrean Gate, there is an empty space without any universe laws or forces. It is completely empty.

As the First Fiend Emperor traveled through the Emyrean Gate's empty space, his expression became more and more unsightly and dignified.

The First Fiend Emperor broke out with countless mysterious runes and accelerated his pace. At the same time, boundless, terrifying pressure diffused from him.

A Holy rank Blade Ruler suddenly emerged in the channel, broke out with a speed that exceeded the speed of light and reached an unimaginable degree, and slashed at the First Fiend Emperor.

"Screw off, ant!"

The First Fiend Emperor's eyes flickered fiercely, and he roared and punched the Holy rank Blade Ruler.

A vast, frightening force erupted, slammed into the Blade Ruler, and blasted it into powder.

After the Blade Ruler was destroyed, a Holy rank Lightning Ruler appeared in the channel and stabbed at the First Fiend Emperor with a lightning lance.

The First Fiend Emperor's face darkened. He unleashed a punch, and a fiend dragon appeared, grabbed the Lightning Ruler, and crushed it.

After the Lightning Ruler was crushed, a Space Ruler appeared and attacked the First Fiend Emperor.

The extremely precious Holy rank mechanical rulers, which could become the trump cards of major forces, appeared in succession, and then were destroyed by the First Fiend Emperor. They used their existence to buy Yang Feng time.

Each Holy rank mechanical ruler possesses astonishing fighting strength. They are even stronger than ordinary Holy Spirit Warlocks. Even for Emyreans, one such mechanical ruler is a very precious treasure. However, Yang Feng is using these Holy rank mechanical rulers just to delay the First Fiend Emperor.

"Get the hell out of the way!"

After destroying 30 plus Holy rank mechanical golems, the First Fiend Emperor finally understood Yang Feng's determination. He cast a secret method, changed into a fiend true dragon shrouded in endless demonic qi, faced the attacks of the mechanical rulers, and flew towards the deepest part of the Emyrean gate.

Countless Holy rank mechanical rulers emerged one after another. According to Yang Feng's order, they raised their output to the max and frantically attacked the First Fiend Emperor.

Under the siege of countless Holy rank mechanical golems, the First Fiend Emperor's incarnation of a fiend true dragon suffered repeated injuries, with dragon scales splashing about and blood spilling.

The First Fiend Emperor's incarnation of a fiend true dragon bulldozed the Holy rank mechanical golems blocking in his way. Despite the countless wounds that appeared on his body, his speed has increased by 100 times.

"You're late!"

When the First Fiend Emperor reached the deepest part of the Empyrean Gate, he saw Yang Feng show him a smile full of endless killing intent.

Pure and unadulterated Empyrean aura slowly diffused from Yang Feng.

The First Fiend Emperor's expression became unsightly at once, and he said while enunciating each syllable: "You actually succeeded!"

With Cangzhi Plane as the core, terrifying energy storms rose within hundreds of millions of light-years. An endless amount of universe energies mixed with various powerful universe laws converged.

Countless magical flowers containing various universe laws and radiating sacred light emerged.

"Flowers of the Universe! This vision appears when someone promotes to an Empyrean! Devour Lord actually succeeded!"

"How is this possible? Devour Lord has successfully promoted to an Empyrean!"

"The sole Empyrean slot was already occupied by Silver Autarch. For Devour Lord to be able to advance to an Empyrean, that's beyond astounding."

"..."

In the world of Warlocks, powerhouses looked at the starry sky shrouded in the Flowers of the Universe radiating sacred aura, and their eyes shimmered with shock.

"As expected of the most powerful genius in the history of our human race!"

"Devour Lord is worthy of being the strongest Warlock in the history of our human race!"

"Our Devour Imperial Court is destined to be invincible in the universe!"

"..."

Brimming with excitement, countless human Warlocks on Cangzhi Plane released their joy on the magic network. Other race powerhouses who opposed the human race lost all courage, and their eyes filled with fear.

The endless Flowers of the Universe full of sacred aura turned into a stream and flowed into Yang Feng, and boundless Empyrean fluctuations of power diffused from him.

The First Fiend Emperor stared coldly at Yang Feng, and his eyes flashed with intense killing intent.

Yang Feng has already completed the Empyrean ceremony. Since he is now being blessed by the universe for the final transformation, the First Fiend Emperor can no longer interfere.

If the First Fiend Emperor attacks Yang Feng now, he will receive the universe's backlash. At the same time, he won't be able to harm Yang Feng.

At this stage, only if an Eternal Sovereign takes action and faces the universe's backlash, it might be able to kill Yang Feng in one strike.

Endless power surged from the universe, and a vast ocean containing power and mysteries appeared in Cangzhi Plane's outer space.

"This is the second vision that appears when someone advances to an Empyrean! The Sea of Power!"

"Sure enough, it's Devour Lord!"

"This is a powerhouse from our universe, not an outsider like Silver Autarch!"

"..."

The spectating powerhouses commented spiritedly when they saw this.

With a flash of light, Yang Feng appeared in the center of the Sea of Power, turned into a black hole, and frantically devoured the power of the endless Sea of Power.

The power in the Sea of Power is the purest power constructed from the universe's origin force. A drop of the Sea of Power has more power than a Spring of Immortality.

When they advance to the Empyrean realm, only then can Empyreans absorb this purest power to evolve and transform. Silver Autarch was regarded as a weakest Empyrean because he has never experienced the transformation of the Sea of Power.

Chapter 1327: Advancing to an Empyrean (II)

In the Sea of Power, Yang Feng operated the essence of devour and frenziedly devoured the Sea of Power's purest power.

The Xi Shen Armor, the Green Yang Halberd, and other Empyrean grade secret treasures on Yang Feng frantically absorbed the Sea of Power's power.

Yang Feng's eyes flashed coldly, and countless mysterious runes appeared on his body.

Yang Feng transmitted the power extracted from the Sea of Power to Ling, Ying, and the Phantom Ruler.

In fact, since Ling, Ying, and the Phantom Ruler are secret treasures forged by him, they can absorb the power Yang Feng extracted from the Sea of Power.

Under the frenzied devouring, the seemingly endless Sea of Power disappeared at a speed visible to the naked eye.

"How overbearing! He's going to dry up the Sea of Power!"

"The whole Sea of Power is going to be absorbed!"

"It's terrible. When a common Empyrean advances, they have their limit. They cannot absorb the entire Sea of Power. Only Devour Lord is able to devour the power of the whole Sea of Power."

“ ... ”

The eyes of the spectating Holies and Great Holies, who watched what's happening here through different secret methods, flashed with shock.

Common Emphyreans can only absorb part of the Sea of Power at most. Yang Feng is the only one able to devour the power of the entire Sea of Power.

Yang Feng is a powerhouse who formed a perfect grade immortal body while in the quasi-Emphyrean realm, possesses Emphyrean rank fighting strength, and is proficient in the essence of devour. As a result, he is able to completely devour the Sea of Power.

The power of the Sea of Power was absorbed by Yang Feng's perfect grade immortal body and integrated with the Emphyrean origin in his body, which made his body and soul evolve again and become more fearsome and formidable.

After the Sea of Power disappeared, starlight gathered in the universe.

Countless rays of starlight converged in the void and formed a Ring of Starlight constructed from 9.99 million stars.

Endless starlight poured out of the Ring of Starlight and illuminated Yang Feng.

In the endless starlight, in addition to pure star force, the history of the 9.99 million stars was also displayed in front of Yang Feng one by one.

In the eyes of ordinary Emphyreans, the history of the countless stars is only the historical changes of said stars. However, Yang Feng is proficient in the law of fate. Countless mysterious runes appeared in his eyes. He looked at the stars and saw strands of fate force.

“The Ring of Starlight is actually the best opportunity to help Emphyreans to comprehend the essence of fate. Among the three visions, it has the greatest effect on me.”

Strands of insight welled up inside Yang Feng as he frenziedly operated the Fate Algorithm and deduced the essence of fate. Thanks to the two Emphyrean grade secret treasures containing fate force in his possession, Yang Feng has already mastered the law of fate. Now, with the deductions of the Fate Algorithm, a mysterious rune containing fate force formed in each of his eyes.

When the two mysterious runes took shape, the Ring of Starlight containing endless star force and the history of countless stars collapsed.

“What's going on? Among the three visions, the Ring of Starlight is the one that lasts the longest. Why did it end so soon?”

“Is that the end? Devour Lord's baptism of starlight was too short.”

“Star Lord's baptism of the Ring of Starlight lasted seven days and seven nights. Devour Lord is far stronger than Star Lord was back then, so how come he lasted such a short time?”

“When he devoured the entire Sea of Power, he should have angered the universe origin will.”

“ ... ”

As they watched the collapse of the Ring of Starlight, the eyes of the spectating powerhouses revealed the shade of surprise. Generally speaking, the stronger the Emyrean is and the greater their potential, the longer they will be baptized by the Ring of Starlight. It is inconceivable that Yang Feng was baptized by the Ring of Starlight for such a short time.

At this time, a gate as big as the sky, which contains endless spatial force, appeared in the void and sucked in Yang Feng.

Countless mysterious runes welled up inside the gate and poured into Yang Feng.

“Gate of Space!”

“This is the fourth vision! The Gate of Space! Once an Emyrean enters the Gate of Space, they will be baptized by the Gate of Space, and their life essence will be transformed. Even if it’s a being least proficient in the essence of space, they will master the essence of space!”

“The fourth vision! This is the fourth vision of legend. Among the eight Warlock Emperors of the human race, only Time Lord, Taboo Lord, and Transcendent Lord have triggered the fourth vision.”

“As expected of Devour Lord, of the most powerful quasi-Emyrean in the history of the human race!”

“Devour Lord is indeed the most outstanding being in the human race in terms of potential.”

“...”

The countless powerhouses watched the Gate of Space in the void with complicated emotions in their eyes.

In the Gate of Space, Yang Feng absorbed countless mysterious runes, which propelled his mastery of the essence of space to a higher level.

When Yang Feng’s essence of space evolved successfully, the Gate of Space collapsed.

A torrent of time emerged in the void. In the endless torrent of time, with only half of the head exposed, a Dragon of Time as big as a star appeared. Vast, endless time force diffused from the Dragon of Time.

“The fifth vision! The Dragon of Rime!”

“This is the legendary fifth vision, the Dragon of Time, that is only triggered by those who have amassed Eternal reserves!”

“To trigger the fifth vision, could Devour Lord Devour have amassed Eternal reserves?!”

“The fifth vision! Devour Lord has surpassed the eight Warlock Emperors of the human race! How fearsome!”

“No wonder so many Emyreans didn’t want to see Devour Lord promote to an Emyrean. He poses a great threat to them!”

“...”

When the powerhouses spectating via different spells saw the Dragon of Time, shock welled up in their eyes.

The Dragon of Time is not the legendary Dragon of Time that can travel freely through the universe, travel freely between the past, present, and future. It's a vision built by time force that is triggered after a powerful extraordinary life form advanced to an Empyrean.

When the Dragon of Time appeared, it opened its mouth, and light containing time force shrouded Yang Feng.

Inside the light, Yang Feng changed from a youth to a young adult, from a young adult to an old person, from an old person to a young adult, and finally to a youth. In the cycle of transformation, Yang Feng experienced the mysteries of the essence of time.

The First Fiend Emperor's eyes flashed with regret. He clenched his teeth and stared at Yang Feng, who is shrouded in time force, with killing intent in his eyes: "The fifth vision! What a dreadful enemy! It's a shame, but I was a step too late to throttle him!"

As an Empyrean that existed ever since the Eternal Sovereign age, the First Fiend Emperor has more restrictions placed on him by the universe. If he had not borrowed the fiend emperor's body, but had woken with his true body at this time, his soul would decay, and he would turn into ashes and disappear into the river of history.

The First Fiend Emperor paid a huge price as well as countless rare treasures to forcibly resuscitate in the fiend emperor's body.

Despite paying such a huge price, he still failed to kill Yang Feng. This naturally filled the First Fiend Emperor with anger.

It felt like the Dragon of Time appeared a long time ago. But in fact, it's only been 10 breath of time.

After 10 breaths of time, the Dragon of Time collapsed and disappeared.

Yang Feng opened his eyes, and terrifying Warlock Emperor rank fluctuations of power spread in all directions.

"Finally advanced to an Empyrean!"

"Devour Lord advanced to an Empyrean!"

"He finally advanced!"

"..."

Gazes full of complicated emotions focused on Yang Feng. They are aware that Yang Feng has become a terrifying entity now that he advanced to an Empyrean.

"Empyrean! Devour Lord has finally promoted to an Empyrean!"

"Now that Devour Lord has advanced, our Devour Imperial Court will be as steady as a mountain."

"Is there anyone who is his match for Devour Lord now?"

"..."

The whole human magic network cheered. Everyone was full of excitement. Prior to this, although Devour Imperial Court was guarded by four Empyrean rank powerhouses. But Yang Feng was only a quasi-Empyrean after all. No matter how powerful he was, there was still a limit.

But now that Yang Feng advanced to an Empyrean, with his potential, it is only a matter of time before he becomes an unequaled overlord-level Empyrean.

Once he's an unequaled overlord-level Empyrean, then even when the ancient Empyreans return, there will be nothing to fear.

The First Fiend Emperor said courteously, "Five visions, truly amazing. Hello, Devour Lord. I am the First Fiend Emperor. I'm sorry about what happened today. Can you pretend as if nothing happened?"

"The First Fiend Emperor? You came here to kill me. And now you want to sweep this under the rug just like that? Just go to hell!"

Yang Feng glanced at the First Fiend Emperor, and his eyes flashed with strong killing intent. With a flick of his wrist, the Warbringer Halberd appeared in his hand, and he stabbed at the First Fiend Emperor.

When he unleashed the halberd strike, time distorted and space became chaotic. Containing terrifying devour force as well as offensive secret methods of nine different Empyreans, the Warbringer Halberd stabbed towards the First Fiend Emperor.

"Since you want to fight, then I'll oblige you! I shall kill the Ninth Warlock Emperor of the human race!"

The First Fiend Emperor is an extremely tyrannical being. His eyes shimmered fiercely, and he broke out with countless runes. A terrifying true dragon constructed from fiend force emerged and extended a claw towards Yang Feng.

The terrifying true dragon contains fiend force and dragon force and is extremely strong. Even a real true dragon may not be its opponent. Its claw strike can deal serious damage to even Empyreans.

Chapter 1328: Cutting Down Golden Cicada Lord

The Warbringer Halberd stabbed towards the fiend true dragon, and three Empyrean projections exuding unequaled overlord-level aura emerged from the river of time, cast all kinds of incredible secret methods, and hurled attacks at the fiend true dragon, blasting it into pieces.

Boom!

At the moment when the fiend true dragon was blasted into pieces, the First Fiend Emperor was blown 10,000 kilometers away. His body was crushed all over, and blood spilled.

"Astounding! That's the First Fiend Emperor, the legendary primogenitor of fiends."

"He is the First Fiend Emperor! He has existed since the Eternal Sovereign age and competed with an Eternal Sovereign!"

"That's an unequaled overlord-level Empyrean! He was surprisingly seriously injured by Devour Lord! How dreadful!"

"..."

The powerhouses hiding in different spaces drew in a sharp breath when they saw this scene.

The First Fiend Emperor is an unequaled overlord-level Emyrean who has existed since the Eternal Sovereign age and possesses tyrannical combat power. Ying is also an Emyrean rank being. But when faced with the First Fiend Emperor, she was blown away in a single move.

Yet now the First Fiend Emperor sustained serious damage from Yang Feng's attack. This is simply unbelievable.

"Let's attack together and kill him! If we don't kill him today, we will be the ones to die! If we don't go all out now, we won't even have a chance to do that later!"

Golden Cicada Lord's eyes flashed fiercely, and he gritted his teeth. Countless mysterious runes appeared around him. Swallowing golden cicadas with a ferocious mouthpart and countless mysterious runes engraved on the body appeared, turned into a terrible golden swarm, and flew towards Ling, Ying, Michaelia, and Shi Yu.

The swallowing golden cicadas are ferocious insects that Golden Cicada Lord spent countless treasures of heaven and earth on and fed his blood essence. If careless, even an unequaled overlord-level Emyrean can be turned into a pile of bones by the swallowing golden cicadas.

The swallowing golden cicadas are Golden Cicada Lord's trump card and they were meant to be used in the fight for Eternal opportunities. They have always been hidden. But now, in order to kill Yang Feng, he couldn't have so many considerations.

Golden Cicada Lord attacked Yang Feng and tried to prevent him from advancing to an Emyrean. With Yang Feng's character, he will definitely kill the other party.

Two of the three fate-type Emyrean grade secret treasures have fallen into Yang Feng's hands. Furthermore, Yang Feng has advanced to an Emyrean. Even if Golden Cicada Lord tries to escape, Yang Feng will find him. Now his only chance at survival is to kill Yang Feng.

The swallowing golden cicadas are extremely fierce and can easily devour even a Emyrean. Ling, Ying, Michaelia, and Shi Yu had no choice but to cast powerful offensive secret methods and crush the nearby swallowing golden cicadas.

Golden Cicada Lord's eyes glimmered with a pained shade as he watched this scene. When they unite, the countless swallowing golden cicadas can kill even an Emyrean. But now that they dispersed into four parts, they were being slaughtered by Ling and them. With a flash of determination in his eyes, he burned his blood and poured all his power into the Golden Cicada Slayer Bow.

In an instant, a golden arrow containing frightening law of karma locked on Yang Feng and shot towards him like a meteor.

Swallow Moon Crocodile Emperor erupted with countless runes, and 108 moons he swallowed emerged and radiated bright moonlight.

The moonlight formed six pairs of moonlight wings on Swallow Moon Crocodile Emperor's back. The six pairs of moonlight wings flapped, and Swallow Moon Crocodile Emperor appeared in front of Yang Feng in a flash, opened his big mouth, and bit at the other party.

Cyan Kunpeng Emperor's eyes flickered fiercely, and he broke out with countless runes. A Cyan Kunpeng Lance made from Eternal Sovereign vertebra and inscribed with numerous images of true spirits flew out, broke out with the essence of wind, and stabbed at Yang Feng.

Whether it is Golden Cicada Lord, Swallow Moon Crocodile Emperor, or Cyan Kunpeng Emperor, they are all far stronger than Blue Moon Merfolk Empress, only a step away from becoming unequaled overlords. When faced with the joint attacks of the three, even an unequaled overlord-level Emphyrean would retreat.

"Before I advanced to an Emphyrean, it would be really hard to resist the three of you working together. But now, your moves are full of flaws in my eyes! Let me bestow you death!"

Yang Feng smiled coldly. The Wheel of Time appeared abruptly and shone with countless mysterious runes, and a distorted torrent of time shrouded him.

Inside the distorted torrent of time, Yang Feng seems to have disappeared from the present and arrived in the future. He suddenly evaded the attacks of the three Emphyreans. In the end, he appeared in front of Golden Cicada Lord, brandished his halberd, and stabbed at the other party.

"How is this possible? How could this happen! How could he evade the joint attacks of the three of us! I am an Emphyrean! Even unequaled overlord-level Emphyreans can't evade my attacks so easily!"

Seeing such a strange scene, Golden Cicada Lord felt his blood run cold and endless fear shroud his heart. Consequently, he stopped for a moment. Strange, hard to detect phantom fluctuations surrounded him.

"No, I was hit by a spell! This is an illusion spell, a brilliant illusion spell! This is an Emphyrean rank illusion spell!"

After all, Golden Cicada Lord is an Emphyrean and has a firm will. He recovered in an instant and understood that he was hit by an illusion spell. Otherwise, no matter how strong Yang Feng is, Golden Cicada Lord wouldn't have failed to keep his composure and his mind wouldn't have been shaken by fear.

At this moment, the Warbringer Halberd slashed Golden Cicada Lord and cleaved him in two.

A black hole emerged, swallowed Golden Cicada Lord, and frantically extracted his life origin.

Inside the black hole, Golden Cicada Lord struggled madly, a look of fear on his face. Nevertheless, he had all of his life origin extracted in a few breaths of time and turned into ashes.

"So powerful! After he advanced to an Emphyrean, Devour Lord has become so powerful!"

"Space-Time Walk, this is the signature spell of Time Lord. With it, you can travel freely between the past, present, and future. This is a most terrifying evasion spell."

"Space-Time Walk can be used to dodge into the past or the future, and then return to the present. This is an unrivaled spell Time Lord employed at the time. Devour Lord not only has the Wheel of Time, but he can also cast this spell. He has become unrivaled."

“Unless an Empyrean proficient in the essence of time steps in and interferes with time, only defeat will await any Empyrean who is faced with Devour Lord!”

“...”

The Holies and Great Holies inhaled a breath of cold air when they saw this, and their eyes flickered with a dignified shade.

“Space-Time Walk! This is an unequaled spell of Time Lord!”

“Devour Lord was actually able to make this Empyrean rank spell see the light of day gain!”

“No matter how powerful a spell is, it becomes useless if it can’t hit. Back in the day, there have been many archgod Empyreans who were stronger than Time Lord, but they were ultimately defeated by Time Lord thanks to the unequaled spell Space-Time Walk.”

“Now that Devour Lord has mastered the Space-Time Walk spell, Swallow Moon Crocodile Emperor and Cyan Kunpeng Emperor are done for!”

“...”

When the spectating human Warlocks saw this scene, excitement flashed in their eyes, and they commented spiritedly. The whole human magic network was jubilant and excited to no end.

Standing in a strange space, Dawn Lord’s eyes flickered with complicated emotions, and he sighed faintly, “Space-Time Walk! The unequaled spell Time Lord wielded back in the day! He actually mastered it. Devour Lord is truly a despairing being.”

Dawn Lord didn’t enter the Twin Universe Star to compete for resources. Instead, he wisely chose to adventure in secret realms in the world of Warlocks and improved his strength.

Within the Twin Universe Flower, there are countless powerhouses. There are even unequaled overlord-level Empyreans looking for opportunities. If Dawn Lord entered the Twin Universe Flower and ran into an unequaled overlord-level Empyreans of Gumana Universe, he would likely have died. He was very rational and didn’t go there.

After devouring Golden Cicada Lord, Yang Feng took a step in the torrent of time, appeared in front of the Swallow Moon Crocodile Emperor in a flash, and slashed at the other party with the halberd in his hands.

“I’ve been waiting for you! Die, Devour Lord!”

With a fierce glimmer in his eyes, Swallow Moon Crocodile Emperor, opened his mouth and ejected a bead, the Moon Spirit Bead, radiating endless moonlight.

The Moon Spirit Bead is an Empyrean grade secret treasure Swallow Moon Crocodile Emperor refined by swallowing the moons near 10,000 planes and spending countless treasures of heaven and earth as well as the bone essence of 6 Empyreans. It is extremely powerful and can quell even Empyreans. It is Swallow Moon Crocodile’s trump card and the thing he banks on to fight for Eternal opportunities with unequaled overlord-level Empyreans.

Yang Feng smiled calmly, and then blurred. He disappeared from the present and came to the future.

The Moon Spirit Bead hit Yang Feng and went straight through him, as if it hit empty air.

In an instant, Yang Feng returned to the present, appeared under Swallow Moon Crocodile Emperor's belly, and slashed at the opponent's belly with the halberd in his hands.

A strange rune shone, and the Moon Spirit Bead appeared in front of the Warbringer Halberd and blocked Yang Feng's finishing halberd strike.

Boom!

A terrifying explosion erupted in an instant and spread in all directions. Green halberd rays slammed into Swallow Moon Crocodile Emperor and opened eerie wound on his body.

Chapter 1329: Cutting Down Two Emphyreans in a Row

"Pretty good! Swallow Moon Crocodile Emperor, your strength is pretty good!"

Yang Feng's eyes flashed with praise. All of a sudden, he became illusory. He disappeared from the present and appeared in the future.

The Cyan Kunpeng Lance stabbed Yang Feng and passed right through him, as if it stabbed a mirage. Even though it unleashed a karma spell, but it still wasn't able to follow Yang Feng to the future and stab him.

Yang Feng emerged from the future, appeared behind Swallow Moon Crocodile Emperor, and unleashed a halberd strike.

Boom!

The Moon Spirit Bead shone, appeared in front of the Warbringer Halberd, and blocked Yang Feng's full strength blow.

This time, tiny cracks appeared on the Moon Spirit Bead. The bead received hard to mend serious damage.

The Moon Spirit Bead is extremely mysterious and has all kinds of incredible magical powers. Even so, it can't resist the continuous attacks of an unequalled overlord-level Emphyrean like Yang Feng.

The Moon Spirit Bead's instant movement, which makes it similar to a death substitution secret treasure, requires the consumption of its origin force. The bead can hold on for only a couple of times.

"First Fiend Emperor!"

With a fierce gleam in his eyes, Swallow Moon Crocodile Emperor faced the sky and roared.

After he mastered the peerless secret method Space-Time Walk, with the power of the Wheel of Time, Yang Feng can freely disappear from the present for a short time and go to the past or future, which is simply unbelievable.

With the exception of the First Fiend Emperor, Swallow Moon Crocodile Emperor and Cyan Kunpeng Emperor are no match for Yang Feng.

“Fiend Domain!”

The First Fiend Emperor stared firmly at Yang Feng, as if facing his mortal enemy who promoted to an Eternal Sovereign in the past. Countless mysterious runes appeared, and vast demonic qi diffused from him.

Eighteen Eternal Fiend Bones containing Eternal aura flew out from behind the First Fiend Emperor.

The eighteen Eternal Fiend Bones are secret treasures the First Fiend Emperor refined from the bones of a powerful Eternal Sovereign. After obtaining the bones, the First Fiend Emperor threw them into a cave full of demonic qi and had them absorb the blood essence and souls of 13 Emphyreans. He spent millions of years to refine them. Each of the bones is an unequalled secret treasure. When the eighteen bones combine, they are even more powerful.

As soon as the eighteen Eternal Fiend Bones flew out, endless demonic qi mixed with strands of Eternal aura formed a terrifying demonic world that sealed the void.

Endless demonic qi surged and fixed the flow of time.

“Devour Lord, this is my Fiend Domain world! In this world, the past, present, and future are one, are in my grasp! You can no longer escape to other times! Now go to hell!”

The First Fiend Emperor’s eyes shimmered fiercely, and he brandished the Sword of the Fiend Emperor and slashed at Yang Feng.

Countless mysterious runes shone, and a terrifying sword ray that seems to be constructed from the universe’s malice slashed towards Yang Feng.

“Indeed. The past, present, and future are one in this Fiend Domain world. To be able of breaking my invincible secret method, you’re worthy of being an unequalled overlord-level powerhouse, First Fiend Emperor!”

Yang Feng looked at the Wheel of Time, whose light dimmed by a lot, and praised.

Yang Feng’s Space-Time Walk is a kind of secret method that can enable him to freely travel between the past, present, and future. It can be rated as unbreakable. Thanks to it, Swallow Moon Crocodile Emperor and Cyan Kungpeng Emperor were in the palm of his hand. Only the First Fiend Emperor was able to restrain Yang Feng’s secret method

If it were not for the First Fiend Emperor, Yang Feng would be able to kill Swallow Moon Crocodile Emperor and Cyan Kungpeng Emperor without suffering any injuries. This is the terror of the unparalleled secret method Space-Time Walk of Time Lord.

“However, even though you broke my Space-Time Walk, you’re still not a match for me!”

With a cold glimmer in his eyes, Yang Feng beckoned with his hand, and the Green Yang Halberd appeared in his hand. The Green Yang Halberd trembled and cheered, fully accepting Yang Feng as its master.

A magnificent aura broke out, and a dazzling green sun emerged and shot towards the demonic sword ray.

When the dazzling green sun appeared, countless tongues of green sunfire splashed in all directions and ignited, burned, and purified demonic qi.

In an instant, the green sun collided with the sword ray that contains universe malice.

In a flash, the green sun smashed the sword ray containing universe malice, and distorted shock waves spread in all directions.

The weakened green sun slammed into the First Fiend Emperor, and fearsome green sunfire burning wildly enveloped him.

Endless green sunfire intertwined with the First Fiend Emperor's fiend force, and strange black smoke appeared. Strange faces appeared in the black smoke and issued hair-raising cries.

Swallow Moon Crocodile Emperor operated the Moon Spirit Bead and Cyan Kunpeng Emperor operated the Cyan Kunpeng Lance and attacked Yang Feng.

Since the starry sky has been fixed by the eighteen Eternal Fiend Bones, Yang Feng can no longer use the Space-Time Walk to travel to an alternate space and cannot dodge the attacks of the two Emyreans.

"Sure enough, I can't dodge your attacks now. However, if it's just you guys, then I don't need to dodge your attacks! Fourth form!"

Yang Feng's eyes flashed with a cold killing intent. Countless mysterious runes appeared on the Xi Shen Armor, and a blurry projection appeared and merged with Yang Feng.

A vast and endless power poured into Yang Feng from the Xi Shen Armor, making him more terrifying.

"Break!"

Yang Feng unleashed a halberd slash. Inside the green halberd ray, projections of stars containing the essence of power appeared and shot towards Moon Spirit Bead.

Boom!

Along with a deafening blare, the Moon Spirit Bead was blasted into countless fragments.

"My Moon Spirit Bead! Devour Lord, I won't rest until you die!"

When Swallow Moon Crocodile Emperor's secret treasure was broken, he coughed up a mouthful of blood. His eyes shot with blood, and he unleashed a shocking roar.

"You won't have that opportunity!"

A cold voice sounded in the void. A green halberd tore the firmament, slammed into Swallow Moon Crocodile Emperor, and sliced him in two, and then a black hole emerged and swallowed Swallow Moon Crocodile Emperor.

"A chance!"

Seeing that Swallow Moon Crocodile Emperor was swallowed by the black hole, Cyan Kunpeng Emperor was not startled but elated. With a frigid killing intent in his eyes, he burned his blood, and the Cyan Kunpeng Lance's speed accelerated to the extreme.

Along with a series of afterimages, the Cyan Kunpeng Lance appeared behind Yang Feng and stabbed at his heart.

If the Cyan Kunpeng Lance pierces through their heart, then even an unequaled overlord-level will suffer severe damage to both the body and soul.

Ding!

At the moment when the Cyan Kunpeng Lance was about to pierce into Yang Feng, the mechanical wings engraved with countless mysterious runes behind Xi Shen Armor slapped the Cyan Kunpeng Lance away.

“Thank you for coming to throw away your life!”

Yang Feng turned around and unleashed a halberd strike, and a tyrannical halberd ray shot towards Cyan Kunpeng Emperor.

“I will die! I will die! I will die! No, I don’t want to die!”

Fear welled up inside Cyan Kunpeng Emperor, and a flaw appeared in his actions.

“No, I was hit by an illusion spell!”

In an instant, Cyan Kunpeng Emperor was hit by a realization. But before he could react, the green halberd ray sliced him in two.

A black hole emerged, swallowed Cyan Kunpeng Emperor, and frenziedly devoured his life origin.

Swallow Moon Crocodile Emperor and Cyan Kunpeng Emperor struggled inside the black holes as their life origin was devoured. After a few breaths of time, they turned into dust that was carried out of the black holes by wind.

“So strong! Two Emphyreans have fallen just like that!”

“Devour Lord is really fierce!”

“Swallow Moon Crocodile Emperor, Cyan Kunpeng Emperor, and Golden Cicada Lord, these are ferocious Emphyreans who were invincible in an era. Even among Emphyreans, they are top existences! Yet Devour Lord killed them all by himself! That’s unbelievable!”

“Unequaled overlord-level Emphyrean! Devour Lord could already compete with Emphyreans while in the quasi-Emphyrean realm. In that case, now that he promoted to an Emphyrean, it’s not surprising that he stepped into the unequaled overlord-level domain.”

“No wonder those Emphyreans wanted to stop him from advancing to an Emphyrean. They were afraid that such a monster would break the cage once it advanced to an Emphyrean.”

“While under the siege of four Emphyreans, including an unequaled overlord like the First Fiend Emperor, Yang Feng actually killed three of them! That’s beyond incredible!”

“Only the First Fiend Emperor is left! It seems that he won’t be able to escape this calamity!”

“The Ninth Warlock Emperor may very well be the strongest Warlock Emperor of the human race!”

“...”

When the spectating Holies and Great Holies saw this, their eyes flickered with the color of shock. They were aware that Yang Feng was bound to become an unequaled overlord and be tyrannically strong once he advanced to an Empyrean. But they never expected him to be able to easily kill three Empyreans while being besieged by four Empyreans.

This kind of achievement can be rated as unbelievable, exceeding the achievements of the previous eight Warlock Emperors of the human race.

Chapter 1330: Defeating the Fiend Emperor

“Devour Lord, why don’t we stop here?”

Terrifying demonic qi surrounded the First Fiend Emperor, and his injuries began to heal quickly at a speed visible to the naked eye.

“Stop here? You tried to stop me from advancing to an Empyrean, which is something unforgivable. Yet now you want to stop here with just a few words? You must be out of your mind.”

Yang Feng’s eyes glimmered brightly and locked on the First Fiend Emperor. At the same time, he erupted with countless mysterious runes and extracted the life origin of the three Empyreans, strengthening his body and soul.

“In that case, let’s see who will be the one to die!”

With a fierce flash in his eyes, the First Fiend Emperor broke out with innumerable runes constructed from demonic qi and slashed with his hand, and a rift opened in the void.

Four black coffins engraved with abstruse runes flew out of the rift.

The lids of the four coffins opened, and four fiend emperors with a blank look in their eyes, yet emanating Empyrean rank aura emerged from the coffins.

“Fiend emperors! Four Empyrean rank fiend emperors!”

“That’s four fiend emperors that are equivalent to Empyreans!”

“Four fiend emperors. Four Empyrean rank powerhouses. So this is the First Fiend Emperor’s trump card! What a scary trump card!”

“...”

As soon as the spectating Holies saw the four fiend emperors, they inhaled a breath of cold air. Each Empyrean rank powerhouse is an extremely gifted being invincible in an era.

An Empyrean can enable a weak race to soar and turn into a fearsome race that dominates an era. However, the First Fiend Emperor took out four Empyrean rank fiend emperors at once, which can be regarded as beyond incredible.

“This is what I saved up after 100 million years. Except for the fiend emperors who were slayed, all other fiend emperors ultimately fell into my hands. They are the embodiment of the universe’s dark forces!

Devour Lord, since you insist on being my enemy, then let me cut you down! And take everything you have!”

The First Fiend Emperor’s eyes flickered ferociously. All of a sudden, he ejected and shot towards Yang Feng.

The figures of the four Empyrean rank fiend emperors fluttered, and they turned into four rays shooting towards Yang Feng.

“First Fiend Emperor, I’m not without support, either!”

Yang Feng smiled faintly. Teleportation beams surrounded Yang Feng, and Ling, Ying, Michaelia, and Shi Yu appeared in front of him and attacked the four fiend emperors.

A torrent of time surrounded Yang Feng, and he appeared in front of the First Fiend Emperor in a flash. Accompanied by a string of afterimages, the Warbringer Halberd in his hands stabbed at the First Fiend Emperor.

The First Fiend Emperor’s eyes shimmered fiercely, and he cast various powerful offensive spells and attacked Yang Feng.

The void shook continuously, and terrifying shock waves spread in all directions.

The Fiend Domain world constructed by the eighteen Eternal Fiend Bones is extremely powerful. Despite 10 Empyrean rank powerhouses fighting inside it, it is still standing strong.

Yang Feng stifled the First Fiend Emperor, and wounds appeared on the other party’s body. Ling also stifled a fiend emperor. Ying tied with a fiend emperor. Michaelia and Shi Yu, the two pseudo Empyreans, could barely withstand the attacks of the remaining two fiend emperors. As a result, there numerous wounds appeared on the bodies of Michaelia and Shi Yu.

The Fiend Domain world is full of demonic qi and contains the power of the demonic path. It is the domain of the fiend emperors. In this world, the fiend emperors heal at an amazing speed and grow stronger.

Michaelia is weaker than Shi Yu. In the end, a fiend emperor broke her defenses and nearly sliced her in two with a sword strike.

“Devour Lord, you don’t want to reconcile with me. But you don’t know that I don’t want to reconcile with you, either. As long as I slay you and take everything you possess, I will have the hope to advance to the Eternal realm! You are my Eternal opportunity! You’re going to die today! No one can save you!”

The eyes of the First Fiend Emperor, who is covered in blood, flashed with a savage shade. He cast various powerful offensive secret methods and recklessly attacked Yang Feng.

As long as that fiend emperor kills the pseudo Empyrean Michaelia, the First Fiend Emperor’s momentum will snowball, and he will ultimately slay Yang Feng.

“As expected of the First Fiend Emperor, of an unequaled overlord from the Eternal Sovereign age! You deserve from me to go all out to kill you! In that case, you can be at ease and go to hell!”

Yang Feng smiled coldly, broke out with countless mysterious runes, and pointed with a finger, and the Wheel of Time suspended in the void, radiated brilliant light, and surged with time runes.

“The Wheel of Time? I admit that Spate-Time Walk is an unequaled secret method. But in my world, the past, present, and future are one! Even if Time Lord revived now, he would still be done for in my world!”

The First Fiend Emperor’s eyes flashed with derision, and he slashed at Yang Feng with his sword, filled with self-confidence.

“There’s more than one way to use the Wheel of Time!”

Yang Feng smiled faintly. In an instant, his expression became solemn, and he shouted loudly: “In the name of the Ninth Warlock Emperor of the human race, I shall use of the power of the entire human race!”

Countless mysterious runes shone. With Cangzhi Plane as the core, a magnificent voice spread to the whole universe.

The eyes of an Infinity Warlock of Battle Demon Sect flashed with fervor, and he said loudly, “Your majesty, please use my power.”

A radiance was extracted from the Infinity Warlock and disappeared.

“Your Majesty, use our power!”

“...”

In Battle Demon Sect, voices rang without hesitation.

In the vast universe, in a powerful Warlock group.

A Holy Spirit Warlock’s eyes shimmered with a burning shade: “Your majesty Devour Lord, please use my power!”

In a mysterious secret realm, Kong Fangao suddenly showed a smile: “Devour Lord! Since you need my power, then take it!”

In all parts of the universe, nearly 90% of human Warlocks offered their power.

Cangzhi Plane’s underground world erupted with countless rays of sacred light, and a dazzling pillar of light flew out from the underground world and entered the Wheel of Time via a mysterious law.

Behind the Wheel of Time, countless projections emerged and gathered the wills and power of human powerhouses. Light condensed from countless runes ejected and illuminated the First Fiend Emperor.

Shackles formed from countless time runes firmly locked the First Fiend Emperor.

The First Fiend Emperor’s eyes flashed with disdain: “Is this your trump card? Even if you gather the power of the whole human race, you can seal me for less than ten seconds at most! We are strong enough to match a race!”

Yang Feng's eyes flashed coldly. The Xi Shen Armor broke out with abstruse runes, and a ten-kilometer-long Devastator Cannon extended from it.

"No! Stop!"

As soon as the First Fiend Emperor saw the Devastator Cannon, warnings went off in his mind. He felt a threat to his life and roared.

Countless mysterious runes glowed. The Devastator Cannon shone, and a brilliant Devastator Cannon beam containing the power to destroy anything slammed into the First Fiend Emperor.

In an instant, the First Fiend Emperor was swallowed by the Devastator Cannon beam.

Inside the Devastator Cannon beam, the First Fiend Emperor's secret treasures emerged continuously, and then collapse and shattered. None of them could protect him.

After the Devastator Cannon beam disappeared, a black skeleton engraved with countless mysterious runes quietly suspended in the void, radiating brilliant light.

A black hole emerged, swallowed the black skeleton, and frantically devoured the First Fiend Emperor's life origin.

"The First Fiend Emperor fell just like that!"

"That's the first fiend emperor in the world, a fearsome existence who once competed with an Eternal Sovereign."

"The First Fiend Emperor is an unequaled overlord-level Empyrean. And he's a powerful unequaled overlord-level Empyrean, to boot. Yet he actually died at Yang Feng's hands. That's astounding!"

"From today on, no one can stop Devour Lord's rise."

"..."

The spectating powerhouses looked on with awe in their eyes.

"Escaped? To be able to escape under such circumstances, that's an old monster who existed since the Eternal Sovereign age for you."

Yang Feng frowned slightly. Although he devoured a large amount of pure Empyrean origin from the black skeleton, but that's completely different from vast as a sea life origin of an unequaled overlord-level Empyrean.

"Since you have escaped! Then I'll accept the gifts you left."

Yang Feng's eyes flashed coldly. He took a step, appeared in the center of the Fiend Domain, and extended his hand towards one of the eighteen Eternal Fiend Bones.

The Eternal Fiend Bone suddenly erupted with fearsome force, yet Yang Feng suppressed and grabbed it.

The remaining seventeen Eternal Fiend Bones suddenly broke out with abstruse runes, turned into streams of light, and flew in different directions.
