

MGE 1331

Chapter 1331: Storming the Twin Universe Flower

Yang Feng stepped into a torrent of time, crossed the void, and extended his hand, and large hands extended and grabbed eight Eternal Fiend Bones.

The other nine Eternal Fiend Bones glimmered, entered the void, and disappeared.

The four fiend emperors fighting Michaelia's group surged with demonic qi and escaped in different directions.

"You want to escape?! Fat chance!"

Yang Feng's eyes suddenly surged with mysterious runes. As if an unequaled god, he beckoned with his hand, and the Wheel of Time radiated abstruse, dazzling rune light.

Four torrents time emerged from the Wheel of Time and shrouded the four fiend emperors.

The four fiend emperors trembled slightly, and their speed became extremely slow.

Michaelia's group of four flew out and attacked the four fiend emperors.

Time runes flew out from the Wheel of Time and entered the bodies of Michaelia's group of four, making their speed soar.

Ling's Whip of the Ruler whipped a fiend emperor like a poisonous dragon.

The fiend emperor was not Ling's opponent to begin with. Now that the Fiend Domain was broken, he was weakened by the Wheel of Time, and Ling was strengthened by the Wheel of Time, the fiend emperor is naturally not a match for Ling.

Within a dozen plus breaths of time, the fiend emperor had his bones broken and flesh mangled by Ling.

Rune chains emerged out of nowhere, stabbed the fiend emperor, suppressed him, and pulled him into a sealing jade coffin.

Ling raised her slim eyebrows, brandished the Whip of Time, and attacked another fiend emperor.

After the Fiend Domain disappeared, Ying became far stronger than a fiend emperor who lost most of his mental faculties. When Ling and Ying worked together, it was even more so as if crushing dry weeds and smashing rotten wood. They dealt a fiend emperor serious damage in just a few moves.

The rune chains appeared again, stabbed the fiend emperor, and suppressed him.

Ling and Ying joined hands again and attacked the other two fiend emperors, and then defeated and suppressed them.

In a mysterious space, there is a black coffin engraved with countless abstruse runes suspended, emitting fearsome pressure.

"Curses! If it wasn't for the fact that I awoke ahead of time, I would be able to slay you! Devour Lord! How dare you kill my avatar and destroy my secret treasures. When I awake, I will kill you!"

A furious roar came from the black coffin. Fate force surrounded the black coffin and erased all traces of fate in this area.

Stars fell down from the sky and bloody clouds roiled and burst out with bloody rain.

“Stars fall, blood pours down from the sky! Those are signs that Empyreans have fallen!”

“Four Empyreans of our universe have fallen!”

“Those Empyreans didn’t die in the universe battlefield, but died in internal strife! That’s saddening!”

“Our universe is weak to begin with. Yet now four Empyreans have fallen! I’m afraid the gap with Gumana Universe has only widened!”

“...”

When they saw the visions of stars falling and the bloody rain, the eyes of powerhouses of different races flickered with worry.

Every Empyrean is a prodigy among prodigies, a freak among freaks, a the top combat power of a universe.

In the long history of the universe, in order to advance to the Eternal realm, many Empyreans have cast secret methods and sealed themselves in an attempt to resuscitate in this era.

However, most of the Empyreans died in the long river of time due to various accidents.

When the eight Warlock Emperors of the human race rose back in the day, they killed many Empyreans who have sealed themselves.

According to the analysis of human Warlocks, the number of Empyreans that will appear in this era may reach 100. As for the Empyreans that fell, it is fundamentally impossible to fill their place in a short time.

“Devour Lord is invincible! But he’s killing too many people!”

“Unless Devour Lord advances to the Eternal realm, he will be besieged by the other Empyreans. He killed too many Empyreans of our universe! I’m afraid he will have to fight a lone battle in the future!”

“After slaying so many Empyreans of our universe, who will ally with him to fight against powerhouses of the other universe?”

“Devour Lord is too cruel. If he showed mercy, compromised with other Empyreans, and fought together with them against the powerhouses of Gumana Universe, that would be great.”

“...”

Powerhouses in the void watched Yang Feng, and their eyes shimmered with complicated emotions.

The death of Golden Cicada Lord and the other Empyreans is a huge blow to the world of Warlocks.

Yang Feng swept the powerhouses in the void with a cold gaze.

The powerhouses in the void were silent, not daring not say anything. The four Empyreans that besieged Yang Feng, including the unequaled overlord-level First Fiend Emperor, were slayed. Such combat power

can be rated as heaven-defying, surpassing that of the eight Warlock Emperors of the human race. Now no one dares to violate Yang Feng's dignity anymore.

Countless mysterious runes shone, and the Blue Mirror of Fate flew out.

Yang Feng waved his hand, and a strand of the First Fiend Emperor's fate aura entered the Blue Mirror of Fate.

The Blue Mirror of Fate shone and radiated fate aura, and its surface distorted. Yet nothing appeared in the end.

Yang Feng's eyes flickered with a dignified shade: "To be able to erase his fate traces, that's an old monster that has existed since the Eternal Sovereign age for you. Truly amazing." The legend claiming that the First Fiend Emperor once competed with an Eternal Sovereign over a Eternal slot seems to be true."

Since the goal of the First Fiend Emperor and Yang Feng is to advance to the Eternal realm, there's no way their contradictions can be reconciled. As such, Yang Feng had no qualms to slay the First Fiend Emperor's avatar and seal the four fiend emperors.

"Let's go to the Twin Universe Flower!"

Yang Feng's eyes flashed coldly, and he went towards the Twin Universe Flower.

Ling and Ying and a torrent of steel followed behind Yang Feng.

Michaelia looked at the backs of Ling and Ying, and her beautiful eyes flickered with unwillingness: "Damn it, I'm still too weak!"

Shi Yu sighed faintly: "I wish I could advance to an Empyrean right now!"

While under the blessing of the Magic Note Throne, Michaelia and Shi Yu possess Empyrean rank fighting strength. But they are still quasi-Empyreans in essence. Once they enter the Twin Universe Flower, they will lose the blessing of the Magic Note Throne and won't be able to interfere in the fighting between Empyreans. This is the reason why Yang Feng had them guard Ninth Warlock Imperial Court.

"Devour Lord is going to the Twin Universe Flower!"

"He is going to fight in the Twin Universe Flower!"

"The Twin Universe Flower is a passage linking the two universes, with powerhouses of Gumana Universe roaming everywhere! Yet he's actually going there!"

"What boldness! That's Devour Lord for you! What an unswerving spirit!"

"..."

The powerhouses of the world of Warlocks watched with a burning color in his eyes.

When the Twin Universe Flower comes into being, a stable channel connecting the two universes will appear. Unequaled overlord-level Empyreans can cross into the other universe through the stable channel.

This means that the Twin Universe Flower has become the focus of the fight between the two universes. If any one universe occupies the Twin Universe Flower, they will gain a bridgehead from where they can make incursions into the opposing universe and where they can retreat to and defend.

There are countless precious resources in the Twin Universe Flower, many of which are extinct in the universe. Once you occupy the Twin Universe Flower, you will be able to get a lot of resources and become more powerful.

Powerhouses of many powerful races in the world of Warlocks watched Yang Feng's back silently.

It is true that there are countless precious resources in the Twin Universe Flower. But there are many Empyreans compering there. If anyone below the Empyrean realm enters that place, they will become prey for Empyreans.

Even peerless prodigies like Golden Qilin Prince and Phoenix Princess stand no chance in front of genuine Empyreans. Naturally, the powerhouses of the world of Warlocks don't dare to step in lightly.

"Open!"

When Yang Feng arrived in front of the Twin Universe Flower, countless mysterious runes appeared in his eyes, and a ray containing Eternal aura flew out of his eyes and entered the Twin Universe Flower.

The Twin Universe Flower radiated dazzling light, and a huge passage opened.

Yang Feng stepped into the huge passage, followed by the tremendous mechanical legion.

The Twin Universe Flower on Gumana Universe's end shone with countless mysterious runes, and a huge passage opened.

"Someone seized the Eternal opportunity!"

"Someone obtained the Eternal opportunity."

"The Twin Universe Flower opened! Now anyone can enter it and look for opportunities!"

"Let's go! The Twin Universe Flowers belongs to our universe!"

"As long as we occupy the Twin Universe Flower, our universe will gain an advantage. And become more powerful!"

"..."

At the entrance of the Universe Twin Flower on Gumana Universe's end, there are large armies. In the center of each army, there is an Empyrean rank powerhouse emanating Empyrean pressure.

Those armies rushed into the Twin Universe Flower without hesitation.

Under the suppression of the three Eternal Sovereigns, its basically impossible to advance to the Eternal realm in Gumana Universe. But if they enter the Twin Universe Flower and plunder its resources, and

then conquer the world of Warlocks, make great contributions, and obtain the favor of the universe will, the Emphyreans may have a chance to advance to the Eternal realm.

Chapter 1332: Gathering

Along with flashes of light, Tier V Hives surrounded by swarms of Tier IV and Tier III Hives flew to the entrance of the Twin Universe Flower.

“The 18 sacred races!”

“People of the 18 sacred races have come!”

“The 18 hounds kept by the 3 Eternal Sovereigns appeared at last!”

“These hounds have finally been unleashed.”

“...”

At the entrance of the Twin Universe Flower, the armies of Gumana Universe watched the Hives with a dignified shade in their eyes.

Many powerhouses watched the Hives with envy and hatred in their eyes.

In Gumana Universe, the 3 Eternal Sovereigns have suppressed the universe. The 3 divine races and 18 sacred races are their tentacles to control the universe.

After advancing to the Emphyrean realm, the powerhouses of Gumana Universe either chose to submit to the 3 Eternal Sovereigns and join the ranks of the sacred races. Or cast secret methods to seal themselves, wait for the universe great tribulation, and fight for the sole Eternal slot.

Each one of the 3 Eternal Sovereigns of Gumana Universe made great contributions during a universe great tribulation, won universe favor, and finally set foot in the Eternal realm.

The Emphyreans who were forced to seal themselves naturally don't have a favorable opinion of the 18 sacred races.

Tier V Hives are comparable to Emphyrean rank powerhouses in terms of fighting strength and are the symbol of the 3 Eternal Sovereigns' troops. Ordinary low-level Hives are one thing. But once a being who has not submitted to the 3 Eternal Sovereigns uses a Tier V Hive, they will be quelled. At that time, even the 3 Eternal Sovereigns will take action at a most critical juncture.

The Tier V Hives surrounded by many other Hives arrived and formed 10 distinct forces.

“Illusion butterfly sacred race, greenstone sacred race, purplestone sacred race, shadowclaw sacred race, flamewell sacred race, lightmine sacred race, shirake sacred race, ghostblade sacred race, goldwhirl sacred race, blasteel sacred race, 10 sacred races have gone all out!”

“When the 3 old monsters make a move, they don't give anyone else a chance.”

“10 sacred races, 10 Emphyreans are enough to crush any existence! The 3 old monsters made a decisive and vicious move.”

“...”

When the Empyreans at the scene saw this, they felt a slight chill in their hearts.

The 10 sacred races turned out in full strength. Furthermore, while joining forces, they can display heaven-defying fighting strength.

Even if it's an unequaled overlord-level Empyrean, when faced against the 10 sacred races, they will be suppressed if they don't escape.

The number of Empyreans of Gumana Universe gathered here exceeds 30. However, even if they join forces, the 30 Empyreans may not be the opponents of the 10 sacred races.

Along with flashes of light, the Empyreans of Gumana Universe gathered here flew into the Twin Universe Flower one after another, trying to get ahead, plunder resources, and establish achievements.

In a Tier V Hive, in a beautiful palace, there is a round table with eleven seats, each occupied by an Empyrean.

The eyes of Greenstone Lord, who has a green crystal inlaid in the forehead, flashed with derision, and he uttered with a cold smile, "A bunch of fools. Do they think it's that easy to establish achievements? If it were, would the universe devour war be called the universe great tribulation?"

Shrouded in shadows, Shadowclaw Lord said indifferently, "Few of those fools have experienced the last universe devour war. Naturally, they are ignorant about the dangers of the universe devour war. At the most critical point of the universe devour war, even Eternal Sovereigns will fall if careless. They only see that his majesty Frost Eternal Sovereign advanced to the Eternal realm. But they don't see that almost all the Empyreans of the same era as his majesty Frost Eternal Sovereign have died. As such, it's not surprising for them to take chances."

"That's right. At the most critical point of the universe devour war, even Eternal Sovereigns will fall if careless. Therefore, let's work together to complete the task."

A handsome wing divine race Empyrean with short blue hair and a pair of blue wings spread behind him uttered with a light smile.

Blasteel Lord equipped with countless mechanical accessories said flatly, "Blue Wing Lord, please rest assured. We will work with you to complete the task."

The other Empyreans nodded.

Blue Wing Lord is the lord of the wing divine race of this generation and Wing Eternal Sovereign's trusted aid. The 3 Eternal Sovereigns unanimously approved and let him command the 10 sacred races.

The 3 Eternal Sovereigns are old monsters who have experienced countless wars, including universe devour wars. They are well aware how important it is to have unified leadership.

With leadership in Blue Wing Lord's hands, even if 20 Empyreans attack the 10 sacred races, the former will meet a dead end.

Under the deterrence of the 10 sacred races, other Empyreans of Gumana Universe entered the Twin Universe Flower.

Lights shone, and numerous Hives led by 25 Tier V Hives flew into the Twin Universe Flower.

In the Twin Universe Flower, ripples rose in the void, and Yang Feng emerged.

“Ling! Ying!”

Yang Feng turned, looked at Ling and Ying, and spoke slowly.

Ling and Ying looked at each other, and then nodded at Yang Feng.

Countless mysterious runes shone, and 2 spherical level-7 strongholds with a diameter of 1,000 kilometers emerged directly.

Not unlike the small world inside Yang Feng, the 2 spherical level-7 strongholds can evolve and grow continuously, providing great power to Ling and Ying.

The 2 level-7 strongholds dropped down, landed on the earth, blurred, and disappeared immediately.

Spherical machines were ejected from the void at once.

As soon as the spherical machines landed on the earth, they quickly extended and changed into mechanical towers engraved with countless mysterious runes.

Countless engineering robots emerged and build all kinds of fortifications and munition factories in the area.

With the munition factories built, mechanical robots can be repaired and built in the Twin Universe Flower, raising the war potential of Yang Feng’s mechanical legions by 10 times.

Ling and Ying shone with countless runes, and then entered the earth and disappeared.

“Go and kill all powerhouses of Gumana Universe! And collect resources!”

Yang Feng glanced at the huge mechanical legions and ordered coldly.

The huge mechanical legions dispersed, flew in different directions, and began to hunt down powerhouses of Gumana Universe.

Yang Feng glanced in the direction of Eternal Origin Sea, and his eyes shimmered with enigmatic light. His figure fluttered, and he turned into a stream of light and flew towards Eternal Origin Sea.

On a spirit mountain, green light shone, and a 10,000-meter-long green dragon engraved with innumerable abstruse runes, emanating quasi-Empyrean rank fluctuations of power flew out and fled towards the void.

“Green Dragon Prince! A peerless prodigy of the world of Warlocks can’t withstand a single blow! The world of Warlocks is really weak! Take a look as I, Ghost Cicada Autarch, shoot a true dragon!”

A heroic, confident voice sounded on the spirit mountain, and a young man with a horn on the head, two pairs of insect wings spread on the back, and a tyrannical aura raised a black bow and fired at Green Dragon Prince.

In a instant, a black arrow tore the firmament and stabbed into Green Dragon Prince's incarnation of a green true dragon.

Countless mysterious runes appeared, and Green Dragon Prince fell from the sky, spilling blood.

Green Dragon Prince belched a big mouthful of blood, a look of despair in his eyes: "Curses! I shouldn't have separated from my father!"

Green Dragon Prince is an ambitious genius. Although he entered the Twin Universe Flower together with Green Dragon Emperor, but he decisively separated from Green Dragon Emperor in order to search for his own opportunities and find a chance to advance to an Empyrean.

At the beginning, Green Dragon Prince did get a lot of opportunities. But when he met Ghost Cicada Autarch of Gumana Universe's four great prodigies, he was defeated with one strike.

Ghost Cicada Autarch walked up to Green Dragon Prince, stepped on his head as if he were a dead animal, and said with a contemptuous smile: "If I extract your dragon tendons, I will be able to forge a true dragon bow! It's a shame, but you are not an Empyrean rank true dragon and cannot be forged into an Empyrean grade secret treasure."

A quasi-Empyrean rank powerhouse said to Ghost Cicada Autarch with a smile, "Your highness, can you leave the dragon member to this subordinate? It's a great tonic!"

Ghost Cicada Autarch replied with a bold smile, "No problem! I don't need that kind of thing."

A strong sense of humiliation welled up inside Green Dragon Prince. He broke out with abstruse runes and tried to resist the suppression of Ghost Cicada Autarch.

"Trying to struggle? You're courting death!"

Ghost Cicada Autarch smiled derisively and stomped with his foot on Green Dragon Prince's head, and a frightening force shattered all Green Dragon Prince's resistance.

Green Dragon Prince belched a large mouthful of blood. The previously high-spirited prodigy appeared to look extremely miserable.

"To attack people of our universe, you're really brave. Go to hell!"

A cold voice sounded, and a huge palm containing Empyrean pressure fell down from the sky and shot towards Ghost Cicada Autarch

"Empyrean!"

Ghost Cicada Autarch's countenance changed greatly. All of a sudden, green leaves emerged, shone with countless mysterious runes, and changed into a mysterious courtyard full of extraordinary plants.

The huge palm grabbed the mysterious courtyard full of extraordinary plants and squashed it.

Chapter 1333: Cutting down White Qilin Lord

Green light shone, and the pale-faced Ghost Cicada Autarch appeared 10,000 kilometers away.

"Not bad! To be able to dodge my attack, you do have some skill!"

A calm voice sounded in the void, and Yang Feng turned from illusory to real and appeared in the void.

“Devour Lord!”

As soon as Green Dragon Prince saw Yang Feng, a gleam of complicated emotions streaked across his eyes.

When Green Dragon Prince came out into the world, with his true dragon bloodline, he looked down on mere human Warlocks. Ever since Yang Feng defeated him, Yang Feng evolved at a speed far exceeding that of his peers and finally created the Ninth Warlock Imperial Court of the human race and became a frightening powerhouse. Consequently, even his father, Green Dragon Emperor, had to attach importance to this being.

“Devour Lord!”

The countenance of Ghost Cicada Autarch and the other powerhouses of Gumana Universe next to him changed greatly, and their eyes flashed with fear.

Ghost Cicada Autarch is one of the four autarchs of Gumana Universe, a peerless prodigy as famous as Silver Autarch, an invincible figure in the same rank of Gumana Universe. Despite how strong he is, he has no choice but to admit that he is far inferior to Yang Feng.

“World of Warlocks’ Devour Lord! Great! If I cut you down, I will be able to increase my chances at attacking the Eternal realm in the future!”

A tranquil voice sounded, and a tall powerhouse equipped with a white battlegear, with white eyes, emitting tyrannical aura, walked out of the void and emanated Empyrean might.

“White Qilin Emperor!”

“White Qilin Emperor has come! Devour Lord is done for.”

“White Qilin Emperor is an unequalled overlord-level powerhouse of our universe. Now that he’s here, Devour Lord is done for!”

“...”

Upon seeing this scene, the eyes of Ghost Cicada Autarch and the other powerhouses of Gumana Universe shimmered with excitement.

White Qilin Emperor is a top-shelf Empyrean of Gumana Universe. Although he hasn’t reached the unequalled overlord level, but he has defeated several Emphyreans.

White Qilin Emperor cares about saving face. As such, although these powerhouses of Gumana Universe know that White Qilin Emperor has a long way to go to reach the unequalled overlord level, but they still flattered him.

Now that White Qilin Emperor has arrived, Ghost Cicada Autarch and company are sure that Yang Feng is screwed.

White Qilin Emperor's eyes flashed with the shade of satisfaction, and he looked condescendingly at Yang Feng and said coldly, "Devour Lord, kneel! I will leave you with an intact corpse and make your death more comfortable."

"You want to kill me? You're overestimating yourself!"

Along with an icy shimmer in his eyes, Yang Feng smiled coldly and took a step forward. With a flash of light, the Green Yang Halberd appeared in his hand, and he unleashed a green halberd ray containing terrifying Empyrean might slashing towards White Qilin Emperor.

"That's Devour Lord for you. Despite being a quasi-Empyrean, you can already display Empyrean might. You have some skill. But a quasi Empyrean is just a quasi-Empyrean. To attack me without having crossed the Empyrean domain, what a reckless thing!"

White Qilin Emperor's flashed coldly. He smiled icily and waved his hand, and a white qilin projection exuding Empyrean might suddenly appeared and extended a claw towards Yang Feng.

When the green halberd ray collided with the white qilin's claw, it sliced the white qilin in two, and then slammed into White Qilin Emperor and cut him in two.

"You advanced to an Empyrean! How is this possible? Silver Autarch has occupied the sole Empyrean slot of your world! How could you have advanced to an Empyrean!"

When White Qilin Emperor was cut in two, the two halves of his body broke out with innumerable runes and escaped in different directions.

After sustaining sever damage in a direct confrontation, White Qilin Emperor understood that Yang Feng has not only advanced to an Empyrean, but also become an unequaled overlord-level Empyrean. If he stays here, only death will await him.

"White Qilin Emperor was actually defeated! How is this possible?"

"Devour Lord has advanced to an Empyrean. How, how is this possible? The sole Empyrean slot in that universe has already been occupied by Silver Autarch. How could he have advanced to an Empyrean?"

"..."

On the spirit mountain, Ghost Cicada Autarch and his followers felt cold all over, as if they have fallen into an ice cave. However, as peerless prodigies that are far superior to ordinary people, they were taken aback for just a moment, and then cast secret methods, turned into a stream of light, and fled in different directions.

"You want to escape? You're too late!"

Yang Feng smiled coldly and pointed with a finger. All of a sudden, the Wheel of Time appeared and shone with innumerable runes, and two torrents of time poured out of the Wheel of Time and shot towards the two halves of White Qilin Emperor's body.

The two halves of White Qilin Emperor's body fell into a chaotic state of time.

A black hole appeared abruptly, drew in White Qilin Emperor, and broke out with vast devour force.

As if ants, Ghost Cicada Autarch and his followers were sucked into the black hole.

Tremendous devour force broke out in the black hole and devoured the life origin of White Qilin Emperor and them.

Within a few breaths of time, Ghost Cicada Autarch and company turned into ashes and disappeared.

White Qilin Emperor only persisted for a dozen plus breaths of time before his life origin was completely devoured and he turned into ashed.

Green Dragon Prince's eyes flickered with shock: "So strong! So this is Devour Lord! He's so powerful that he can even slay Emyreans at will. He crossed that barrier and advanced to an Emyrean!"

When he was in the quasi-Emyrean realm, Yang Feng could already defeat Emyreans. But it was virtually impossible for him to slay Emyreans. Only in a sealed space like the Eternal Duel Arena, from where the opponent could not escape, would he be able to kill an ordinary Emyrean.

White Qilin Emperor is an Emyrean infinitely close to the unequaled overlord level. For such a fearsome being to be killed by Yang Feng, there's only one possibility, that is, Yang Feng broke through the Emyrean boundary and became an unequaled overlord-level Emyrean.

"Green Dragon Prince, you may have some use."

Yang Feng glanced at Green Dragon Prince and pointed with his finger, and a torrent of resplendent runes flew out from his finger and flowed into Green Dragon Prince.

"Thank you for saving me, Devour Lord."

Green Dragon Prince changed into human form and bowed respectfully to Yang Feng, a complex look on his face.

Yang Feng has advanced to an Emyrean and become an unequaled overlord-level Emyrean on the same level as Green Dragon Emperor and the First Fiend Emperor. Green Dragon Prince naturally has to show Yang Feng respect.

"No need!"

Yang Feng pointed with his finger, and an order chain appeared, wrapped around Green Dragon Prince, and locked him. Then, his figure fluttered, and Yang Feng turned into a stream of light and flew towards Eternal Origin Sea.

In a dense forest.

"This is Nirvana Seven Colors Orchid! With this Nirvana Seven Colors Orchid, I will have a 30% chance to advance to a Great Holy!"

A Holy of Gumana Universe stared at a Nirvana Seven Colors Orchid not far away, and his eyes flickered with a burning color.

A terrifying black hole suddenly emerged, swept towards the Holy of Gumana Universe, and drew him inside.

Along the way, whenever Yang Feng met a powerhouse of Gumana Universe, he would suppress and devour them. A total of a dozen plus Holies of Gumana Universe were devoured and turned into ashes by him.

With a slight flash of light, Yang Feng appeared at the edge of Eternal Origin Sea.

“Three Empyreans! And they are Empyreans of Gumana Universe! Great! If I kill you guys, I will be able to get more universe favor!”

When Yang Feng appeared at the edge of Eternal Origin Sea, he saw three Empyreans waiting at the edge of Eternal Origin Sea, clearly wishing to enter the deepest part of the sea and search for Eternal opportunities.

Before he left the island of Eternity, Yang Feng destroyed the Origin Leaf Ships. Unable to leave the Island of Eternity, the Empyreans stranded on the island could not spread any news.

“You’re Devour Lord! To provoke us, what a foolish thing to do. That’s courting death.”

Bull Demon Lord, a 100-meter-tall powerhouse with a bull head and a human body, covered in black scales, stared at Yang Feng coldly, and his eyes surged with endless killing intent.

Wind Ghost Lord, a handsome powerhouse with a black horn on the head and engraved with countless runes on the body, said flatly, “Bull Demon Lord, don’t get ahead of yourself! Devour Lord is not alone. He is always accompanied by an Empyrean rank alchemy golem.”

“Wind Ghost Lord, you’re being too careful! Even with Empress Ling by his side, Devour Lord is not our opponent. Let’s kill him and plunder everything he has!”

With a fierce glimmer in his eyes, Golden Goose Emperor broke out with innumerable runes and turned into an extraordinary life form golden goose covered in golden feathers and radiating dazzling golden light.

The golden goose is a kind of true spirit-level extraordinary life form only slightly inferior to true dragon, phoenix, qilin, and other true spirits of this level. Nevertheless, it is a fearsome existence.

The golden goose flapped its wings, appeared in front of Yang Feng together with golden light, and grabbed at him with its talons.

Golden Goose Emperor’s talons are extremely formidable. A strike from them can pierce through even the head of a true dragon.

With a fierce glimmer in his eyes, Bull Demon Lord appeared behind Yang Feng in a flash, and the wolf tooth club in his hands containing the essence of power slammed towards Yang Feng.

Chapter 1334: Joining Forces

“You three have decent strength. If you met someone else, you may have been able to compete with them. It’s a shame, but you met me.”

Countless mysterious runes shone, and the Wheel of Time emerged and radiated mysterious, dazzling light. As if a god manipulating time, Yang Feng took a step and stepped into the future.

The attacks of the three Empyreans slammed into Yang Feng, but it was as if they hit empty air.

A strange shadow flashed, and Yang Feng appeared on Golden Goose Emperor's head and slashed down with his halberd.

A fearsome green halberd ray slammed into Golden Goose Emperor's head and cut him in two.

A black hole suddenly emerged, swept towards Golden Goose Emperor, drew him inside, and frenziedly devoured his life origin.

No matter how Golden Goose Emperor struggled inside the black hole, tremendous life origin was still devoured by Yang Feng, nourishing his body and soul.

When Wind Spirit Lord saw this scene, he felt a chill go down his spine, "Devour Lord, you have promoted to an Empyrean!"

Although he looks like a musclebrain, but Bull Demon Lord is quite astute. He broke out with countless runes, and a pair of giant dragon wings appeared behind him. His figure fluttered, and he escaped into the distance.

When Bull Demon Lord saw Yang Feng perform the shocking secret method Space-Time Walk, he realized that unless they can break the time-type Empyrean grade secret treasure, the two of them stand no chance against Yang Feng.

Back in the day, Time Lord relied on the Wheel of Time to cast Space-Time Walk, fight several archgod Empyreans, and slay them one after another, which established his reputation as an unequaled overlord. The terror of this secret method can well be imagined.

When Wind Ghost Lord saw this scene, his expression changed greatly. He broke out with countless runes, employed the essences of wind and speed, turned into a stream of light, and fled in the opposite direction of Bull Demon Lord.

"So decisive! That's an Empyrean who has experienced many battles for you! If you ran away as soon as you saw me, then even if I wanted to chase you, it would take some effort. It's a shame, but since you attacked me, you're end has been set."

Yang Feng smiled faintly, and the Wheel of Time shone with countless runes, turned into two torrents of time, and swept towards Bull Demon Lord and Wind Ghost Lord.

Swept by the torrents of time, the flow of time around the 2 Empyreans became chaotic.

Yang Feng stepped out of a torrent of time, appeared in front of Wind Ghost Lord unhurriedly, and brandished the halberd in his hands.

In a flash, a brilliant green halberd ray crushed Wind Ghost Lord's barriers, and then sliced the person himself in two.

A black hole emerged, swept towards Wind Ghost Lord, drew him inside, the devoured his life origin.

After killing Wind Ghost Lord, Yang Feng appeared in front of Bull Demon Lord with a flash and slashed at the other party with the halberd in his hands.

“Devour Lord, stop! I am the great Divine Eyes Eternal Sovereign’s carriage-pulling bull. Please spare my life. In the future, if your universe is destroyed, I will plead with the great Divine Eyes Eternal Sovereign to spare your life once!”

A cyan bell emerged from Bull Demon Lord, radiated dazzling light, and blocked in front of him.

The cyan bell shone with countless runes, and nine worlds appeared, combined into one, and formed a terrifying defensive barrier.

When Yang Feng’s halberd strike collided with the terrifying defensive barrier, it smashed the barrier, and a fearsome force crushed the nine worlds in an instant. Next, the halberd ray slammed into Bull Demon Lord and left a frightening gash on his body.

Bull Demon Lord roared spinelessly, “Stop! Devour Lord, show mercy. I am willing to submit to you! Please spare my life!”

Yang Feng replied coldly, “Okay. Give up resistance and let me set up a brand in your soul.”

A cold gleam flashed deep in Bull Demon Lord’s eyes. He gritted his teeth, and a blurry bull soul projection with dragon wings appeared in front of him.

Yang Feng suddenly took action. Radiating green light, the Green yang Halberd in his hands erupted with extreme speed and sliced Bull Demon Lord in two in an instant.

“You...”

Bull Demon Lord was shocked and angry. The two halves of his body were swallowed by the black hole.

“Your soul has been blessed by an Eternal and has many trump cards set up in it. If I set up a restriction in your soul, I’m afraid I will be left in the dark. Do you really think I don’t know anything?”

Yang Feng gazed at Bull Demon Lord struggling in the black hole, smiled coldly, and spoke icily.

Methods of Eternal Sovereigns are incredible and unfathomable. Even though Yang Feng has the Xi Shen Armor, but it is still impossible for him to take control of an Emphyrean under the command of an Eternal Sovereign.

There was a flash of unwillingness in Bull Demon Lord’s eyes. His life origin was completely extracted, and he turned into ashes that drifted away with wind.

Yang Feng beckoned with his hand and collected the treasures the three Emphyreans had on them. His figure fluttered, and he entered Eternal Origin Sea.

The Island of Eternity.

“The two side aren’t fighting! They sure are smart!”

When he stepped onto the Island of Eternity, Yang Feng swept the island with his formidable soul force. He detected that the Emphyreans of the world of Warlocks and Gumana Universe have occupied a spirit mountain each and confronted each other, yet they haven’t fought.

At this time, on the Island of Eternity, there is a total of 6 Empyreans of the world of Warlocks and 7 Empyreans of Gumana Universe. In terms of strength, Gumana Universe has a slight advantage.

However, if they really fought, both sides would have suffered. Moreover, there are many dangers in the Twin Universe Flower. If they fight and suffer heavy injuries, they may convenience people who come later. As such, they have restrained one another and kept a strange balance.

“This soul force! It’s Devour Lord!”

“He’s back!”

“To dare come back, that damn bastard must be seeking death!”

“ ... ”

As soon as the Empyreans sensed Yang Feng’s soul aura, their eyes flashed ferociously, and they flew towards him.

Within a few breaths of time, the 13 Empyreans appeared at the edge of the Island of Eternity.

Nova Lord proposed, a cold flash in his eyes, “Devour Lord, you dare come back! You must have a death wish! Green Dragon Emperor, First Abyssal Master, join us. Let’s kill Devour Lord, and then refine him into a supreme potion. We only want one-quarter of the potion. You can have the remaining three-quarters.”

When they heard that, the eyes of Green Dragon Emperor and the First Abyssal Master flickered, and they stared at Yang Feng coldly.

When faced against the 13 Empyreans, who include 4 unequaled overlord-level Empyreans, except for an Eternal Sovereign, virtually no one would be able to defeat them.

If it were not for the fact that they are afraid that Yang Feng will escape into Eternal Origin Sea, Green Dragon Emperor and the other Empyreans of the world of Warlocks would have already attacked Yang Feng.

“Green Dragon Emperor, I saved your son on the way. I’ll give him back to you.”

Yang Feng threw a cyan ball of light, which turned into Green Dragon Prince and flew towards Green Dragon Emperor.

“Royal father!”

With a flash of humiliation in his eyes, Green Dragon Prince stood quietly behind Green Dragon Emperor.

Green Dragon Emperor’s eyes flickered with enigmatic light, and he uttered calmly, “Thank you, Devour Lord!”

Yang Feng said with a slight smile: “Green Dragon Emperor, First Abyssal Master, you must have already guessed that I advanced to an Empyrean. Even if you join forces, you’ll only be able to defeat me at most. In Eternal Origin Sea, it is meaningless for you to defeat me. Why don’t you join forces with me, kill the Empyreans of Gumana Universe, and divide their treasures equally?”

“Fine! I agree! Let’s join forces and kill the Emphyreans of Gumana Universe.

The First Abyssal Master’s eyes flashed. Countless mysterious runes appeared on him, 12 pairs of demonic wings unfurled behind him, unequalled overlord-level aura emanated from him, and he sent a claw shooting towards Nova Lord.

“Alright, I’ll join hands with you this once to kill the Emphyreans of Gumana Universe and pay you back for saving my son.”

Green Dragon Emperor’s eyes flashed, and he turned into a true dragon and sent a claw barreling towards Myriad Trees Ancestor.

The eyes of the other 4 Warlocks of the world of Warlocks flickered, and they clenched their teeth and attacked the other 5 Emphyreans of Gumana Universe.

Yang Feng’s figure flickered, and he appeared in front of Giant Stone Dragon Lord, a 10,000-kilometer-tall powerhouse engraved with innumerable abstruse runes, and slashed at the other party with the halberd in his hands.

“To compete with me in terms of strength, you’re seeking death!”

Giant Stone Dragon Lord’s eyes glimmered fiercely, and he extended a claw. In an instant, his claw erupted with the essences of petrification and power, changed into a terrifying pillar of light capable of petrifying and crushing anything, and shot towards Yang Feng.

When the green halberd ray collided with the pillar of light, it smashed the pillar of light, and then slammed into Giant Stone Dragon Lord and sliced him in two.

“Unequalled overlord! You’re an unequalled overlord!”

Despair flashed in Giant Stone Dragon Lord’s eyes, and he roared wildly.

A black hole emerged abruptly, swept towards Giant Stone Dragon Lord, drew him inside, and devoured his life origin.

“Unequalled overlord-level Emphyrean!”

“Devour Lord has indeed advanced and become an unequalled overlord-level Emphyrean!”

“ ... ”

The countenance of the remaining 4 Emphyreans of Gumana Universe changed dramatically, their hearts shook, and their eyes shimmered with despair.

Chapter 1335: Cutting Down Emphyreans in Succession

“I’ll stall them! Nova Lord, go kill Devour Lord!”

With a ferocious glimmer in his eyes, Myriad Trees Ancestor broke out with innumerable runes and turned into a towering ancient tree 1,000 kilometers tall.

Stars appeared on the huge tree and radiated dazzling starlight.

The Empyreans can see that there are countless life forms being generated on those stars, with each star being a world.

Amid the many stars, Myriad Trees Ancestor is the only god and supreme existence.

Countless thick vines extend in all directions, radiated brilliant light, and cut up the world, separating Green Dragon Emperor, the First Abyssal Master, and the other 4 Empyreans from the rest of the world.

Green Dragon Emperor, the First Abyssal Master, and the other 4 Empyreans used powerful offensive secret methods to bombard the barrier formed by Myriad Trees Ancestor.

The stars on Myriad Trees Ancestor exploded one after another, and the countless life forms on those stars perished.

“Hurry up! I won’t last long! I can only hold on for 1 hour at most!”

Myriad Trees Ancestor’s will reverberated in the seas of consciousness of Nova Lord and the remaining 4 Empyreans of Gumana Universe.

Myriad Trees Ancestor sealed 2 unequaled overlord-level Empyreans and 4 ordinary Empyreans by himself, which can be rated as a miracle. Even though he is an unequaled overlord, but he has use his origin force and can’t last long.

“Devour Lord, go to hell!”

With a fierce flash in his eyes, Nova Lord erupted with countless runes and turned into a spirit mountain, the Nova Mountain, radiating endless sacred light.

Dazzling light shone, and 9 Nova Beads flew out from the Nova Mountain and turned into 9 stars that shot towards Yang Feng.

The 9 Nova Beads are peerless spirit beads produced by the Nova Mountain and are comparable to an unequaled secret treasure each. When the 9 beads are deployed together, even if it’s an Eternal Sovereign, they will suffer heavy damage if hit.

Black Silver Lord’s eyes glimmered with a ferocious shade, and he erupted with innumerable runes, turned into a dark silver giant 100 meters tall, and radiated dark silver light.

In an instant, tens of billions of dark silver monsters, which were eroded by dark silver light, emerged, cast all kinds of offensive secret methods, and attacked Yang Feng.

Myriad Snakes Mother’s beautiful eyes shimmered coldly, and she turned into a terrifying snake as big as the sky surrounded by countless huge snakes, with each huge snake emanating palpitation-inducing extraordinary fluctuations of power.

A golden vertical pupil appeared in the void and radiated golden light that barreled towards Yang Feng.

The golden vertical pupil is called Myriad Snakes Pupil and it contains the power of the countless offsprings birthed by Myriad Snakes Mother and controls the power of all kinds of curses. If an unequaled overlord-level Empyrean is hit by the pupil’s light, they will be entangled by countless strange curses and suffer greatly.

Dragonfish Lord's eyes flickered ferociously, and he turned into a monster as big as the sky with a dragon head, a fish body, and 10 bulky arms, with an Empyrean grade secret treasures in each arm, and attacked Yang Feng from ten directions.

Shrouded in endless death qi and corpse qi, looking like a dead person, Spirit Corpse Lord appeared in front of Yang Feng, brandished the Eternal bone in his hand, and attacked Yang Feng, an apathetic look on his face.

The 5 Empyreans working together displayed astonishing power. Even if it's an unequaled overlord-level Empyrean, when besieged by the 5 Empyreans, they would be somewhat scared. After all, they could be seriously injured or even killed if careless.

Yang Feng's eyes flashed with admiration: "So decisive! Worthy of being an unequaled overlord-level Empyrean! Myriad Trees Ancestor is really great!"

Myriad Trees Ancestor burned his life origin to separate the world in two, only then was he able to trap the 6 Empyreans of the world of Warlocks.

However, each of the 6 Empyreans is a shocking existence. It's not that easy to trap them. After this battle, regardless of the outcome, Myriad Trees Ancestor will be seriously injured. In the best-case scenario, he will fall into a dying state. In the worst-case scenario, he will exhaust his life origin and turn into a corpse.

If Myriad Trees Ancestor had not been so decisive, Yang Feng could have killed off the weaker Empyreans one by one, and then hunted down Myriad Trees Ancestor and Nova Lord. In that was the case, the Empyreans of Gumana Universe would have no chance at survival.

"It's a shame, but your only mistake was to run into me!"

Yang Feng smiled calmly. The Wheel of Time flew out and shone with countless runes. Shrouded by the essence of time, he took a step and stepped into the future, leaving only a shadow in the present.

The joint attack of the 5 Empyreans hit the shadow left by Yang Feng and blew open a terrible hole on the shadow, and then the law of karma erupted, yet couldn't trace back to Yang Feng's true body.

"Open!"

Ripples surged, and Yang Feng returned from the future, appeared on the giant spirit mountain Nova Lord turned into, roared, and attacked the spirit mountain with the Warbringer Halberd in his hands.

Four visions, namely a torrent of time, spatial gates, stars, and a black hole, appeared directly, converged into one, and slammed into the giant spirit mountain.

Boom!

Along with an earth-shaking blare, the giant spirit mountain Nova Lord transformed into cracked.

"Let's die together! Devour Lord!"

A voice full of despair transmitted from the spirit mountain Nova Lord transformed into. Countless runes shone, and a world-shaking explosion swallowed Yang Feng and everything around him.

“Damn It! You’re crazy!”

“Nova Lord, have you gone mad?”

“Asshole!”

“...”

The countenance of Myriad Snakes Mother and the several other Empyreans of Gumana Universe changed greatly, and they cast secret methods and set up defensive barriers.

The endless light swallowed everything at once. The defensive barriers of Myriad Snakes Mother and company collapsed directly, and they were swallowed by the white light.

The First Abyssal Master looked at the endless white light with expectation in eyes, “Nova Lord detonated! Was he killed?”

Green Dragon Emperor looked in that direction, and his eyes shimmered with a complicated color: “Is he dead?”

In the war against Gumana Universe, Yang Feng is an ally of the First Abyssal Master and them. However, in the competition for the Eternal slot, Yang Feng is an enemy of other Empyreans.

Deep down, the First Abyssal Master and Green Dragon Emperor think that it’s better for Yang Feng to die here, so that there’s one peerless enemy competing for the Eternal slot less.

After the endless white light dissipated, a huge hole appeared in the earth. The hole is filled with strange, distorted forces and laws. Even if it’s a Great Holy, if they enter the hole, they will be killed by the distorted laws.

On the earth, there is Empyrean flesh scattered everywhere. Myriad Snakes Mother and the other 3 Empyreans of Gumana Universe were blown apart and are at their last breath.

“That’s Nova Lord for you! Sure enough, no unequaled overlord-level Empyrean can be underestimated!”

Ripples flashed, and Yang Feng emerged from the future, appeared in the present, and coughed up a big mouthful of blood, his face slightly pale.

When the big mouthful of blood was coughed up, it changed from crimson red to white and turned into a white arrow shooting towards Yang Feng.

Yang Feng flicked his finger, and the white arrow capable of slaying Great Holies collapsed at once.

“If I hadn’t mastered the Space-Time Walk secret method, I would have been severely injured by Nova Lord’s detonation. Sure enough, no Empyrean can be underestimated.”

Black holes emerged on Yang Feng’s body and dispelling the law forces of Nova Lord’s detonation, and his aura became more and more fearsome.

Green Dragon Emperor sighed secretly: “He’s still alive! What a monster!”

The First Abyssal Master's eyes flickered, and he said slowly, "Space-Time Walk is a top secret method that only powerhouses proficient in the essence of time can master. By mastering this top secret method, Emphyreans may have a chance to slay Eternal Sovereigns."

Space-Time Walk is an unequalled secret method that Time Lord mastered. It enabled him to run rampant in the world. However, as long as they advance to the Eternal realm, any powerhouse will be able to master a secret method like the Space-Time Walk.

It is precisely because of this that Eternal Sovereigns are so terrifying and can be regarded as invincible.

But now that Yang Feng mastered the Space-Time Walk spell, it became possible to break an Eternal Sovereign's Space-Time Walk. With this, Emphyreans may be able to surround and kill an Eternal Sovereign.

A black hole swept towards the seriously injured Dragonfish Lord, swallowed him, and frantically devoured his life origin.

"Even if I die, I won't be a stepping stone for your evolution!"

With a fierce flash in his eyes, Spirit Corpse Lord broke out with countless runes and detonated.

"It's no use. Compared to Nova Lord, you're far inferior. Furthermore, you have been seriously injured. Even if you want to detonate, it depends on whether I allow it or not!"

The Wheel of Time flew out at once, and a brilliant chain made of time runes flew out and stabbed into Spirit Corpse Lord.

The corpse force inside Spirit Corpse Lord was sealed and suppressed by the chain of time runes. Spirit Corpse lord trembled slightly, unable to budge.

A black hole emerged, swallowed Spirit Corpse Lord, and turned him into ashes in a few breaths of time.

Upon seeing this scene, the two remaining Emphyreans of Gumana Universe felt their blood run cold. Black Silver Lord's figure fluttered, and he flew towards Eternal Origin Sea. He would rather be transformed into origin force by Eternal Origin Sea than become a stepping stone for Yang Feng.

Chapter 1336: Alliance

"It's no use! You are destined to die at my hands."

With a cold look in his eyes, Yang Feng took a step, appeared in front of the Black Silver Lord like a ghost, and punched him, and countless mysterious runes shone and entered the other party's body.

Black Silver Lord changed into a huge dark silver mountain 1,000 kilometers tall. Shrouded by countless abstruse runes, the dark silver mountain shrank constantly and finally changed into a palm-sized dark silver mountain, and then Yang Feng threw it into a box.

Myriad Snakes Mother's expression changed a number of times. Her beautiful eyes flickered with the shade of pleading, and she uttered pitifully, "Devour Lord, please spare me! I am willing to serve you as a servant for the rest of my life!"

Yang Feng glanced at Myriad Snakes Mother and said coldly, "I don't dare to accept an Empyrean rank servant. You better become a stepping stone for my evolution!"

Any Empyrean is an invincible existence with a perfect grade immortal body. Even if Yang Feng uses the Xi Shen Armor, it will still be difficult to penetrate deep into their soul.

Moreover, Gumana Universe is guarded by 3 Eternal Sovereigns that possess unpredictable methods, including methods that can forcibly eliminate a brand set up by Yang Feng in the souls of these Empyreans.

Myriad Snakes Mother gritted her teeth and sent a voice transmission, "Devour Lord, I know you can't trust me. However, I know of an Eternal treasury in Gumana Universe. If you swear to keep me alive, then I'll take you to that treasury."

Yang Feng frowned slightly. The black hole collapsed, and he stared coldly at Myriad Snakes Mother and asked, "If there really is such a treasure, then why haven't you claimed it for yourself?"

After he advanced to an Empyrean, Yang Feng will usher in once more a period of rapid development. However, in order to advance to the Eternal realm, the necessary resources will make one give up all hope. As such, he won't miss any chances to improve his strength.

"The vast universe has countless danger zones. Although more than 99% percent of Gumana Universe does not pose any threats to us Empyreans. However, there are still several danger zones that will threaten the lives of even Empyreans."

"The treasury is in one such danger zone. I was going to go to that place and take it away after I stepped into the unequalled overlord level. But now I can only use it to save my life." Myriad Snakes Mother sighed faintly.

"Fine, I'll spare your life!"

Yang Feng pondered for a while and spread the fingers of his hand, and countless runes flew out and entered Myriad Snakes Mother's body.

Myriad Snakes Mother, who is as big as the sky and can easily devour a world, turned into a delicate snake the size of a palm, and then was sealed in a jade box by Yang Feng.

Boom!

Along with earth-shaking noise, a huge crevice appeared on the giant ancient tree Myriad Trees Ancestor turned into.

Despite how powerful Myriad Trees Ancestor is, but he can't withstand the attacks of 2 unequalled overlord-level Empyreans and 4 Empyreans for a long time.

A series of offensive secret methods slammed into the giant ancient tree and blasted it into pieces.

Big hands formed from spells extended and grabbed the fragments of the giant ancient tree Myriad Trees Ancestor turned into.

Myriad Trees Ancestor is an unequalled overlord-level eternal god tree and every part of his body is a great treasure that can change the fate of an ordinary person.

Standing quietly aside, Yang Feng watched silently this scene. He didn't fight with the other Emypreans over the fragments of Myriad Trees Ancestor.

The First Abyssal Master's eyes flashed with an enigmatic ray, and he said with a faint smile, "Space-Time Walk! Devour Lord, you're really amazing! Even if Time Lord revives now, he won't be your opponent."

Yang Feng smiled faintly and said, "It's just a stroke of luck."

Blue Moon Merfolk Empress's beautiful eyes flickered with complicated emotions, "To be able to advance to an Emyprean in this era, Devour Lord is really incredible! No wonder he was able to master an unequalled secret method like the Space-Time Walk!"

The other Emypreans of the world of Warlocks looked at Yang Feng with complicated emotions in their eyes, as well. They realized that Yang Feng has reached the apex of the world of Warlocks and become one of its most dreadful bigwigs.

Now that Yang Feng has mastered the unequalled secret method Space-Time Walk, unless there's someone who can break his secret method like the First Fiend Ancestor, it will be virtually impossible to defeat Yang Feng no matter how many Emypreans attack.

"These are the treasures of the Emypreans of Gumana Universe. According to our agreement, you can choose at will."

Yang Feng extended his hand, and small worlds containing the treasures of Emypreans of Gumana Universe opened and radiated dazzling light.

As soon as Blue Moon Merfolk Empress and the other 4 Emypreans saw the treasures, their eyes brightened, and they extended their hands repeatedly and took away a part of the resources.

Green Dragon Emperor asked, "Devour Lord, you didn't come just to kill them, right?"

Everyone's eyes fell on Yang Feng.

Yang Feng responded frankly, "That's right. I'm here to form an alliance with you all and take control of the Twin Universe Flower. It's still too difficult for me to take control of the entire Twin Universe Flower by myself!"

After he advanced to an Emyprean, Yang Feng's fighting strength has reached an incredible level. He can easily suppress ordinary Emypreans now. However, since a large number of Emypreans of Gumana Universe have invaded the Twin Universe Flower, Yang Feng can only look for allies.

Green Dragon Emperor and the First Abyssal Master are 2 unequalled overlord-level Emypreans of the World of Warlocks who have revived already. If they join Yang Feng's camp, it will greatly enhance the strength of his camp and increase his confidence in his plan.

The First Abyssal Master smiled faintly and asked, "What do we gain if we form an alliance with you?"

Yang Feng replied with a faint smile, "First Abyssal Master, if you form an alliance with me, then I'll give you the endless Abyss."

The First Abyssal Master's eyes lit up, and he asked, "Are you being serious?"

The endless Abyss is the birth place of the First Abyssal Master and it contain countless secrets. At the time, he was forced to come out into the world ahead of time and had to give up on the endless Abyss.

Since the First Abyssal Master lost control over the endless Abyss, his strength has weakened greatly and he was unable to recover his strength of the old days.

In his prime, the First Abyssal Master was a fearsome being that could contend against the First Fiend Emperor. But since he lost the endless Abyss and resuscitated ahead of time, his strength was weakened greatly, placing him in the ranks of ordinary unequaled overlord-level Empyreans, far from the level he was at in his prime. Upon hearing that Yang Feng wants to return the endless Abyss to him, the First Abyssal Master couldn't help but be excited.

Yang Feng said decisively, "As long as you form an alliance with me and occupy the Twin Universe Flower, then I will give you the endless Abyss."

Yang Feng's avatar can promote to an Empyrean rank powerhouse in the endless Abyss in 10,000 to 20,000 years. However, the endless Abyss is not worth mentioning when compared with the Twin Universe Flower world.

As long as Yang Feng occupies the Twin Universe Flower, he will be able to obtain countless precious resources and even cultivate several Empyreans.

Yang Feng's eyes flashed brightly, and he uttered, "As for you guys, as long as you fight the enemies of Gumana Universe together with me and occupy the whole Twin Universe Flower world, you will be allocated the resources of the Twin Universe Flower world according to your contributions."

Blue Moon Merfolk Empress said decisively, "Alright. Devour Lord, the blue moon merfolk are willing to fight with you against the powerhouses of Gumana Universe."

During the universe great tribulation, the strong can get more resources and become increasingly stronger. While the weak can only be eliminated or even directly exterminated together with their race.

The Twin Universe Flower world is the incarnation of the origin of two universes. In this world, there are countless resources, including unique treasures that can enable you to break through the heaven-man boundary and god-man boundary as well as peerless treasures of heaven and earth that can enable you to break through to the Empyrean realm.

If Blue Moon Merfolk Empress doesn't join the feast of carving up the Twin Universe Flower world, she will regret it for the rest of her life. Of course, once she joins Yang Feng's alliance, she will have to compete and fight with powerhouses of Gumana Universe, and she may even be in danger of dying. Blue Moon Merfolk Empress has already predicted this.

Green Dragon Emperor pondered for a while and said decisively, "In that case, I will join your alliance."

Withered Fire Lord, who looks like dead wood encased in flames, said flatly, "I'll join, too!"

Whirlwind Lord shrouded in a tornado uttered: "Count me in!"

Cyan Rock Emperor constructed from Cyan Steel Rock pondered for a moment and refused: "It's too dangerous to fight here. Please forgive me for refusing."

"Since you are not willing to fight for our universe, then what's the point of keeping you? To waste resources?"

A cold voice came from behind Cyan Rock Emperor, and a terrifying claw ejected, stabbed Cyan Rock Emperor, and dug out his heart.

"Well said! Since you don't want to ally with us, then go to hell. So as to avoid our intelligence being leaked!"

With a ferocious flash in his eyes, Green Dragon Emperor blasted Cyan Rock Emperor's head apart with a claw strike.

A black hole emerged, shrouded Cyan Rock Emperor, and frenziedly devoured his life origin.

The other three Empyreans felt a slight chill in their hearts when they saw this scene.

Blue Moon Merfolk Empress broke out in a cold sweat from her back and rejoiced. If she tried to leave this alliance, she would likely also be killed by Yang Feng, the First Abyssal Master, and Green Dragon Emperor.

Since Yang Feng's group of 3 unequaled overlord-level Empyreans have decided to swallow the whole Twin Universe Flower world, it's natural that they won't leave someone sitting on the fence alone. Anyone who doesn't belong to the alliance has to be eradicate, so that there won't be any variables or accidents.

Chapter 1337: Slaying Empyreans in Succession

"Gumana Universe is in its peak state and has a much greater number of Empyreans than our universe."

After leaving the Island of Eternity, Green Dragon Emperor uttered this.

The eyes of the First Abyssal Master, Blue Moon Merfolk Empress, and the other Empyreans focused on Yang Feng.

Yang Feng replied with a light smile, "Yes, Gumana Universe has a much greater number of Empyreans than our universe. However, only the 18 sacred races truly fully obey the orders of the 3 Eternal Sovereigns."

These Empyreans are all smart. They understood Yang Feng's implication at once.

In Gumana Universe, there are countless experts. However, Empyreans are haughty being and would rarely submit to the 3 Eternal Sovereigns and become their lackeys. Only the 18 sacred races completely obey the 3 Eternal Sovereigns.

"In the Twin Universe Flower, even if it's Empyreans, it is hard to disseminate information, not to mention that this place is also shrouded in the fog of conflict. This is a great opportunity, our only opportunity."

“My mechanical legions have already made arrangements in the Twin Universe Flower world. As such, the information of the whole Twin Universe Flowers is at my fingertips.” Yang Feng claimed with a confident smile.

“Amazing! Devour Lord’s mechanical golem legions are really amazing!”

Upon hearing this, the Emyyreans felt a slight chill in their hearts, and they looked at Yang Feng with complicated emotions in their eyes.

Each of these Emyyreans is a peerless powerhouse who has experienced countless battles. Naturally, they know the importance of intelligence. The Twin Universe Flower world is shrouded by a powerful force field, which even Emyyrean soul force cannot hope to surpass.

With the help of his mechanical legions, Yang Feng is able to master intelligence of the whole Twin Universe Flower. This is simply unbelievable.

“Found prey! Let’s go!”

Yang Feng revealed a smile and waved his hand, and a blue mechanical ball flew out, landed on the ground, opened, and changed into a Warp Gate.

Yang Feng stepped into the Warp Gate and disappeared from this place.

The First Abyssal Master’s eyes flashed with a peculiar gleam, and he praised sincerely: “So this is another crystallization of Devour Lord’s core alchemy — Warp Gate. To be able to span endless distances in an instant, this is truly outstanding alchemy.”

Blue Moon Merfolk Empress said lightly, “Indeed, with this Warp Gate, the troops of Devour Imperial Court can be instantly placed into the opponent’s sphere of influence. It’s equivalent to raising your strength dozens of times.”

Withered Fire Lord uttered slowly, “With such an enemy, one can hardly rest at peace. But Devour Lord is now our ally. Such an ally is really reassuring.”

The eyes of the Emyyreans flashed for a while, and then they stepped into the Warp Gate one after another.

When they walked out of the Warp Gate, the Emyyreans saw a floating city with a diameter of 1,000 kilometers suspended in the void.

Soldiers with a lion head, a human body, and a pair of dragon wings on the back flew out of the floating city, dropped down, collected all kinds of precious resources, and then flew back towards the floating city.

Yang Feng smiled lightly and said, “This is a floating city inhabited by leosaurs! It’s master is Leosaur Emperor, an ordinary Emyyrean! Let’s join hands and get rid of him!”

“I’ll go!”

The First Abyssal Master’s eyes glimmered ferociously, and he broke out with countless runes and turned into a giant 1,000 meters tall.

The First Abyssal Master brandished the sword in his hands and unleashed a sword strike, and a terrifying sword ray seemingly capable of sundering the firmament slashed towards the floating city.

Wherever the sword ray passed, demonic light shone, and leosaur powerhouses exploded and had their life origin devoured, making the power of the sword ray more terrifying.

“Who dares attack I, Leosaur Emperor?!”

An earth-shaking roar came from the floating city, and the giant Leosaur Emperor with a lion head, a human body, and three pairs of dragon wings on the back appeared and extended a claw towards the fearsome sword ray.

Boom!

The whole floating city shone with countless mysterious runes and boosted Leosaur Emperor, enabling his claw strike to forcibly crush and explode the sword ray.

In the center of the terrifying explosion, the void distorted and became chaotic, and spatial rifts emerged.

Upon seeing this scene, Leosaur Emperor’s eyes flickered with fear, “Unequaled overlord-level Empyrean!”

The First Abyssal Master Emperor frowned slightly: “Sure enough, powerhouses who dare to enter the Twin Universe Flower have some skill! It will take me some effort to break this tortoise shell.”

Even though the First Abyssal Master is an unequaled overlord-level Empyrean and is far stronger than Leosaur Emperor. However, it is very difficult to overcome the floating city Leosaur Emperor spent countless resources to make.

“First Abyssal Master! Let’s attack together! This is not the time to swap pointers, but to wage war!”

Along with a true dragon roar, a green true dragon 1,000 meters long appeared abruptly and extended a claw towards the floating city.

Whirlwind Lord erupted with countless runes and brandished the Whirlwind Blade, and a blade ray containing the essence of wind slashed towards the floating city.

Withered Fire Lord opened his mouth and exhaled, and a sea of fire appeared and swept towards the floating city.

Blue Moon Merfolk Empress pointed at the floating city with a scepter, and a string of water emerged and slashed towards the floating city as if a blue blade.

Boom! Boom! Boom!

Under the siege of the 5 Empyreans, the floating city collapsed and shattered inch by inch.

In the floating city, leosaur powerhouses turned into streams of light, flew outside, and tried to escape.

The leosaur powerhouses just flew out from the floating city, when they were blasted into pieces by the attacks of the 5 Empyreans.

“I shall pay you back a hundred times for today’s events in the future!”

With a flash of black light, Leosaur Emperor turned into a stream of light, soared into the sky, glared at the 5 Empyreans with resentment, and shouted.

“It’s no use! You are destined to fall here today!”

The Wheel of Time appeared in the void abruptly, and a torrent of time constructed from time runes emerged from the Wheel of Time, slammed into Leosaur Emperor, and caused the flow of time around him to fall into chaos.

Yang Feng emerged from the torrent of time and unleashed a halberd strike, and a green halberd ray slammed into Leosaur Emperor and sliced him in two.

A black hole emerged and swallowed half of Leosaur Emperor’s body.

With the flash of a green halberd ray, the remaining half of Leosaur Emperor’s body disintegrated into pieces that turned into streams of light and flew into the hands of the First Abyssal Master’s group of 5 Empyreans.

When besieged by 6 Empyreans, including 3 unequaled overlord-level Empyreans, even an unequaled overlord-level Empyrean can be slayed. This is a force that hasn’t appeared many times in the world of Warlocks even during the Eternal Sovereign age.

If Yang Feng took out Ling, Ying, and the huge mechanical legions, it may be possible for him to erase the leosaurs. But it wouldn’t be that easy.

“Let’s go hunt the next prey!”

After dividing up the wealth of the leosaurs, Yang Feng smiled and said this.

The First Abyssal Master’s eyes flashed with excitement, and he urged: “Let’s hurry!”

The eyes of the rest of the Empyreans flickered with excitement and filled with fighting spirit.

Every Empyrean is a huge treasury. After the leosaurs were wiped out, their wealth fell into the hands of Yang Feng and company. Even though it was divided between 6 Empyreans, everyone still had great gains.

After going through a Warp Gate, a huge spirit mountain radiating five-colored light appeared in front of Yang Feng’s group of 6 Empyreans.

“Let’s get started!”

The First Abyssal Master’s eyes flickered fiercely, and he unleashed a sword strike towards the spirit mountain emitting five-colored light.

The other Empyreans unleashed formidable secret methods and attacked the spirit mountain, as well.

Great devastation broke out on the spirit mountain.

Under the siege of the 5 Empyreans, the huge spirit mountain was quickly breached.

Spirit Mountain Lord just escaped from the spirit mountain, when he was quelled by Yang Feng, who was biding his time, using the Wheel of Time.

A steady stream of information transmitted from the mechanical legions spread throughout the Twin Universe Flower. The alliance composed of Yang Feng and the other 5 Empyreans killed one Empyrean of Gumana Universe after another and wiped out their people.

Every time they kill an Empyrean, Yang Feng's group of 6 Empyreans can get great wealth. At first, this alliance was just an alliance formed due to constraining circumstances. But as the fighting continued and as they hunted more and more Empyreans, the alliance became increasingly more stable.

The First Abyssal Master and Green Dragon Emperor became more and more proactive and actively sought to fight. They both awakened ahead of time in order to compete for the Eternal opportunity and thus haven't fully restored their strength. Every time they kill an Empyrean and devour their soul and flesh, they can restore a part of their strength and make up for the loss of lifespan.

In each battle, Yang Feng used the Blue Mirror of Fate to mask the fluctuations of fate and kill all enemies without leaving any traces.

In two days, Yang Feng's group of 6 Empyreans killed a total of 19 Empyreans of Gumana Universe and gained tremendous wealth.

Every Empyrean is a huge, mobile treasury. Yang Feng obtained many rare materials from the treasuries of these Empyreans, including precious minerals that have already disappeared in the world of Warlocks. He gained enough resources to improve the performance of Ling and Ying and refine a third level-7 stronghold.

Chapter 1338: Gathering

The Twin Universe Flower, in a vast field, Hives landed, and countless tentacles ejected from them, stabbed the earth, and extracted world force.

Hives are the crystallization of Gumana Universe's civilization. They can extract world force and turn it into an energy source as well as transform it into all sorts of magical and mysterious extraordinary forces.

Even if only a head remains of an ordinary person, so long as the soul was not broken, they can be easily revived in Tier V Hives.

In a Tier V Hive, in front of a huge round table, there sit 11 Empyreans of Gumana Universe.

Sitting in the seat of honor, Blue Wing Lord uttered unhurriedly, "There has been no news of Leosaur Emperor for two days now. It seems that he has fallen. The leosaur elites should also have been wiped out."

Shadowclaw Lord frowned slightly and said, "How is that possible? Leosaur Emperor brought the Leosaur City. Inside the Leosaur City, even an unequaled overlord-level Empyrean may not be a match for him! Unless an Eternal Sovereign took action, is there anyone in the Twin Universe City who can silently erase him? Didn't he just find a secret realm and deliberately all cut off contact with us."

The other Empyreans nodded.

The reason why Empyreans such as Leosaur Emperor didn't enter the Twin Universe Flower in the first moments was due to safety considerations. Furthermore, when they entered the Twin Universe Flower, they brought their nests with them. In their nests, even unequaled overlord-level Empyreans may not be their opponents.

Blue Wing Lord said indifferently, "If it were only Leosaur Emperor, then this explanation would make sense. But in the past two days, 19 Empyreans have cut off all contact with us. This is no accident. Someone is hunting Empyreans of our universe."

As soon as he said this, the expressions of the 10 sacred race lords changed slightly.

Every Empyrean is an invincible being who rose above others after countless battles. If an Empyrean of Gumana Universe comes to the world of Warlocks, they will be able to kill countless powerhouses. The death of 19 Empyreans is a heavy blow to Gumana Universe.

Blasteel Lord uttered unhurriedly, a glimmer of wisdom in his eyes, "In other words, an Empyrean alliance has been formed in the world of Warlocks' camp. The leader of the Empyrean alliance must be Devour Lord! The tentacles of his mechanical legions have spread throughout the Twin Universe Flower world. Only he can grasp the whereabouts of the Empyreans."

The other Empyreans nodded when they heard that.

In the outside world Empyreans can investigate hundreds of millions of kilometers with a single spell. But in the Twin Universe Flower, this ability has been greatly weakened. Unless it's an Empyrean who specializes in investigation spells, ordinary Empyreans can spread their soul force to just thousands of kilometers away.

Under such circumstances, Empyreans can only rely on their subordinates to explore and search the Twin Universe Flower world. Powerhouses of the 10 sacred races have fought with Yang Feng's mechanical legions, which are spread throughout the Twin Universe Flower world, repeatedly, with both side suffering heavy casualties.

In the whole Twin Universe Flower world, only Yang Feng's mechanical legions have the ability to grasp information regarding this world.

Blue Wing Lord said with a slight smile, "If I'm not mistaken, Devour Lord should have obtained the Twin Universe Flower's Eternal opportunity and advanced to an Empyrean. Otherwise, it would be impossible for him to focus his energy on the whole Twin Universe Flower world."

Lightmine Lord said slowly, "Exactly. If the Eternal opportunity had been taken by another Empyrean, Devour Lord would have to guard against them. That Empyrean would have to return to Cangzhi Plane to fight for more resources and try to advance to the Eternal realm."

It is the dream of every Empyrean to advance to the Eternal realm. Only by advancing to the Eternal realm, will they be able to live forever and won't have to fear their lifespan running out their soul decaying.

Whether it's in the world of Warlocks or in Gumana Universe, the lifespan of Empyreans is at most just 1 million years, which is even less than that of a feeble divine force rank god in their divine kingdom.

Once their lifespan runs out, no matter how powerful an Empyrean is, their soul will decay, and they will become a pile of bones. Of course, much like fearsome beings like Primal Chaos Mother Spider, Empyreans can fall into a slumber. But in that way, they will be no different from living dead.

Only Empyreans who are overwhelmed by the longing to advance to the Eternal realm will cast secret methods to seal themselves, spend their days as living dead, and wait for the universe great tribulation to arrive and fight for Eternal opportunities.

To advance to the Eternal realm is the greatest wish of countless Empyreans as well as the reason for their survival until this day. In order to advance to the Eternal realm, those Empyreans are willing to pay any price. For the sake of Eternal opportunities, they will fight even other Empyreans of the same universe.

In the world of Warlocks, Cangzhi Plane is the center of the universe and the quintessence of the universe and it contains Eternal opportunities. This has led to countless powerhouses fighting over it. As long as the human race shows any signs of decline, it will attract countless races to tear the humans to pieces and occupy Cangzhi Plane.

The exceedingly beautiful Illusion Butterfly Lord, who is the only female Empyrean among the 11 Empyreans, wrinkled her eyebrows and asked, "What shall we do now? Do we and Devour Lord just stand facing each other?"

Blue Wing Lord's eyes flashed coldly: "Of course not! The Empyrean alliance formed by Devour Lord has killed 19 Empyreans of our universe and plundered their treasuries. If we continue to stand facing each other, the Empyreans of our universe will be attacked and killed one by one. We can only unite and launch a fatal attack against Devour Lord. Drive Devour Imperial Court's forces out of the Twin Universe Flower. Otherwise, Devour Lord's forces will only grow stronger with time."

The other Empyreans pondered for a while and agreed with Blue Wing Lord's words.

Over the past years, many spies have infiltrated Devour Imperial Court. According to their findings, Devour Imperial Court hasn't gone a single day without producing battle robots. Its battle robots have reached a despairing number.

Once Yang Feng has a firm foothold in the Twin Universe Flower, the powerhouses of Gumana Universe will need to pay 10 times or even 100 times the price before it is possible to drive away Devour Imperial Court from the Twin Universe Flower world.

Blue Wing Lord smiled and said, "If we attack Devour Imperial Court by ourselves, then even though we'll win, we'll have to pay a huge price. Our top priority now is to contact the other Empyreans, tell them this information, and let them join hands with us to eradicate Devour Imperial Court from the Twin Universe Flower world."

When they heard that, the rest of the Empyreans smiled, and they became more pleased with Blue Wing Lord as the leader.

Although the 10 sacred races are sure that they can defeat Yang Feng's Devour Imperial Court, but a lion goes all out even when fighting a rabbit. For every Empyrean that joins them, the fighting strength of the 10 sacred races will be upgraded. They may even end up playing a decisive role on the battlefield

Despite having the upper hand, Blue Wing Lord didn't neglect to try amass more strength, which naturally pleased the 10 sacred race lords.

Under the dissemination of the powerhouses of the 10 sacred races, the Empyreans of Gumana Universe learned of this information.

In the center of the stamen of a three-colored flower as big as the sky, there is a beautiful and luxurious palace. On a throne of that palace, there sits a handsome young man with insect antennae on the head.

This handsome young man is Star Locust Lord, a fearsome existence second only to unequaled overlord-level Empyreans.

Hundreds of beautiful girls of different races are dancing in the palace, painting a fairyland-like picture.

Star Locust Lord's eyes flashed with an overcast shade, and he sighed slowly, "Leosaur Emperor, Golden Sea Emperor, ... they all fell! The universe great tribulation is really dangerous. Devour Lord, the universe child the another universe, is really dangerous! Let's withdraw!"

The fact that 19 Empyreans died within two days shocked the Empyreans of Gumana Universe.

The Empyreans of Gumana Universe are prodigy-level figures. They quickly understood the current situation. Some chose to retreat to Gumana Universe, while others chose to join the allied army of the 10 sacred races.

Originally, these obstinate and rebellious Empyreans would never have joined the 10 sacred races and become the lackeys of the 3 Eternal Sovereigns. However, due to the pursuit of Yang Feng and company, if they still want to gain benefits in the Twin Universe Flower, they can only join the camp of the 10 sacred races and defeat Devour Imperial Court.

When the Empyreans joined the alliance of the 10 sacred races, the 10 sacred races became like a tiger that grew wings and steamrolled through the mechanical legions obstructing their way.

Yang Feng's mechanical legions continuously appeared out of nowhere and harassed the rear of the 10 sacred races.

Several Empyreans united to form a fearsome adaptable force. In the wake of the several Empyreans, mechanical legions were suppressed and destroyed one after another.

Yang Feng's mechanical legions intercepted constantly, yet the 10 sacred race allied army steamrolled through them.

A few days later.

Tier V Hives, spirit mountains, warships, floating cities, miraculous flowers, and other vessels of Empyreans appeared in front of the largest mechanical city of Devour Imperial Court.

In front of the largest mechanical city of Devour Imperial Court, there are countless mechanical fortresses built and 36 mechanical stars suspended in the void. There are cannons everywhere. This is a sight that can cause one's heart to beat wildly.

Blue Wing Lord looked at the huge mechanical city and uttered, a scorching shade in his eyes, “So this is the last base of Devour Imperial Court! So long as we break through here, we can expel the forces of Devour Imperial Court completely. Pass down my order — attack!”

Countless soldiers flew out from the Tier V Hives, spirit mountains, and other vessels and flew towards the mechanical city.

Chapter 1339: Decisive Battle

Countless battle robots flew out from the huge mechanical city and engaged the soldiers of different races.

Much like the battle robots, the soldiers of different races are cannon fodder. Their only role on the battlefield is to save the power of the Emphyreans of their camp.

As the huge mechanical legions unleashed their attacks, all kinds of energy beams broke out and erased thousands of soldiers of different races.

Although the battle robots were surrounded and destroyed by soldiers of different races from time to time, but the damage ratio of both sides was not on the same level at all.

As he watched the battlefield, Blue Wing Lord’s eyes flickered with a peculiar shade, and he uttered unhurriedly, “Devour Lord’s alchemy is really dreadful! In terms of fighting strength, the weakest of these mechanical golems are at the pinnacle Starfield step (Infinity Warlock), infinitely close to the Starcraft step (Warlock Monarch). And they can be mass produced. If we go for a war of attrition, we don’t stand a chance.”

Infinity Warlock rank powerhouses are already regarded as higher mid tier powerhouses of Gumana Universe and can become bigwigs with a title on many stars.

A race needs to spend a lot of resources to cultivate an Infinity Warlock rank powerhouse. But on this kind of battlefield, Infinity Warlock rank powerhouses are just cannon fodder. If the battle goes on like this, then even if the damage ration is 1:1, the camp of Gumana Universe still won’t be able to hold on.

Shadowclaw Lord said with a frigid smile, “Devour Lord’s alchemy is really formidable. However, it is not Starfield step ants who will decide the outcome of the battle, but us!”

The rest of the Emphyreans smiled.

“I am Blue Wing Lord, the commander of this expeditionary force of Gumana Universe. Devour Lord, please come out and have a talk with me.”

Blue Wing Lord’s figure fluttered, and he appeared above the Tie V Hive that is being used as the headquarters of the expeditionary force and radiated mysterious blue light, looking like a powerful god.

With a flash of light, a young man wearing a black body armor, with extraordinary temperament, and emanating a domineering aura appeared above the huge mechanical city. It was Yang Feng.

Yang Feng looked around and uttered calmly, “I am Devour Lord!”

“That’s Devour Lord Yang Feng!”

“Sure enough, he already advanced to an Empyrean!”

“He is the most dreadful enemy of our universe!”

“The universe devour war isn’t that simple. Although the universe energy level of the universe of the world of Warlocks is half a universe energy level lower than that of our universe, but it is still a powerful universe that once gave birth to Eternal Sovereigns. If it were not for the fact that their universe was met with a disaster that lowered its universe energy level, it would definitely have given birth to Eternal Sovereigns. Such a universe with deep roots is a most dreadful universe. As long as enough time is given, it will birth a new Eternal Sovereign.”

“As long as we cut him down, we’ll be able to obtain an Eternal opportunity!”

“...”

Inside the Hive, the Empyreans of Gumana Universe focused gazes full of killing intent on Yang Feng.

Universe devour wars are extremely dangerous. Even the weakest of universes have a chance to make a comeback, that is, to give birth to an Eternal Sovereign.

Even though Yang Feng wasn’t a universe child favored by the universe will at first, but after he killed countless powerhouses of Gumana Universe, he became one. As long as an Empyrean of Gumana Universe slays him, it will be equivalent to making great contributions to Gumana Universe. They will get the favor of the universe will as well as a chance to advance to the Eternal realm.

“Devour Lord, surrender! Your universe is much weaker than ours. Our universe has 3 Eternal Sovereigns. Once the time is right, the 3 Eternal Sovereigns will descend on your universe, and all your efforts will be rendered useless. Your relatives, lovers, and friends, they will all suffer because of you. There’s still time for you to surrender.”

“As long as you surrender to our universe and join the command of the 3 Eternal Sovereigns, the human race will become a sacred race of our universe and continue to exist. And you will become the lord of the human race and enjoy endless glory and wealth.” Blue Wing Lord’s eyes glimmered, and he spoke words of advise.

Yang Feng replied, “If I surrender to your universe, more than 90% of the life forms in our universe will die. Furthermore, you will force me to personally attack the forces of our universe. Most importantly, once I surrender to your universe, it will become impossible for me to advance to the Eternal realm. Therefore, I cannot surrender to your universe.”

Blue Wing Lord’s eyes glimmered with frigid killing intent, and he spoke in a icy voice: “Sure enough! I knew you wouldn’t surrender. In that case, we can only fight each other!”

One after another, Empyrean auras gushed out from the Tier V Hive. A total of 20 Empyrean auras gushed out from the depths of Gumana Universe’s army and swept the firmament.

After receiving the information transmitted by Blue Wing Lord, many Empyreans chose to return to Gumana Universe, while 9 Empyreans joined the camp of the 10 sacred races.

A force composed of 20 Empyreans would be a rare spectacle even in the world of Warlocks during the Eternal Sovereign age. Apart from Eternal Sovereigns, there's virtually no forces that can contend against the 20 Empyreans.

Furthermore, there are even 2 unequaled overlord-level Empyreans among the 20 Empyreans, and they are Blue Wing Lord and Blasteel Lord.

"20 Empyreans! What a grand show of strength!"

In the huge steel city, the First Abyssal Master picked up a glass of wine, took a leisurely sip, and spoke with a light smile.

Blue Moon Merfolk Empress sighed faintly and uttered with worry, "Even if we join hands, we're no match against 20 Empyreans."

The First Abyssal Master smiled lightly and said, "Blue Moon Merfolk Empress, there's no need to worry. In this war, it all depends on what trump cards Devour Lord has up his sleeves. If he doesn't have any trump cards that can turn the tables, then we can only abandon him and leave. The oath we swore does not stipulate that we have to continue to stand together with him in the face of certain doom."

Green Dragon Emperor said calmly, "That's right! If Devour Lord doesn't have a trump card that can turn the tables, then I can only leave here. 20 Empyreans is more than what we can handle."

Withered Fire Lord and Whirlwind Lord nodded silently.

In order to set foot in the Eternal realm, these Empyreans entered the Twin Universe Flower world, and then formed an alliance with Yang Feng. They aren't willing to stand by his side and risk their lives.

Even if Gumana Universe occupies the Twin Universe Flower world, it will take a long time to completely defeat the world of Warlocks. Of course, once the Twin Universe Flower world is captured by Gumana Universe, the universe of the world of Warlocks will be at a complete disadvantage.

Yang Feng stood quietly in the void, glanced indifferently at the 20 Empyreans, and revealed a smile, "Blue Wing Lord, thank you so much for bringing them here to throw away their lives!"

In an instant, mechanical towers rose from the earth, resonate with each other, broke out with countless mysterious runes, and formed mysterious order chains.

Countless mysterious runes shone, and projections of Ling and Ying appeared in the void, looking like aloof, unrivaled gods.

Two level-7 strongholds as big as the sky appeared at once and resonated with the 36 mechanical stars.

Mysterious chains that can seal and suppress anything emerge from the void and shot towards the 20 Empyreans.

When the 20 Empyreans saw the mysterious chains, alarms went off in their heads. They cast secret methods and attacked the mysterious chains.

Under the bombardment of the Empyreans, the mysterious chains were broken one after another.

After the chains were broken, all the energies in the void were extracted, and the space was strengthened so firmly that spatial spells could no longer be cast.

The eyes of the projections of Ling and Ying surged with countless abstruse runes as they mobilized all computing power to carry out calculations.

36 Devastator Cannons and 1,653 Holy Slaying Artillery appeared abruptly and glimmered, terrifying beams tore the firmament. Under the calculations performed by Ling and Ying, the trajectories of the terrifying beams were adjusted, and they barreled towards the 20 Emyreans.

“No!”

Blue Wing Lord’s eyes flickered with panic. To his horror, he discovered that no matter how he dodges, he will ultimately be hit by the Devastator Cannon beams.

Blue runes shone as secret treasures flew out and blocked in front of Blue Wing Lord.

“Damn it! This is a trap!”

“Devour Lord, I curse you...”

“Stop!”

“...”

The Emyreans issued startled and angry roars. Countless mysterious runes shone, and defensive secret treasures flew out from the Emyrean and protected them.

With the void being sealed by the mechanical towers, even though the Emyreans are proficient in numerous evasion secret methods, but they can’t use them at all.

This world of machinery as well Yang Feng’s mechanical domain. It is comparable to the First Fiend Emperor’s Fiend Domain world formed from 18 Eternal Fiend Bones, where the space is stabilized and the past, present, and future is unified. You basically cannot dodge in here and have to face the attacks head on.

Under the bombardment of the Devastator Cannon and Holy Slaying Artillery beams, the defensive secret treasures of the 20 Emyreans collapsed bit by bit. In the end, the beams swallowed the 20 Emyreans completely.

The First Abyssal Master’s eyes glimmered with a dignified shade, and he uttered slowly, “What strength! So this is Devour Lord’s strength!”

Green Dragon Emperor’s eyes flashed with enigmatic light, and he said unhurriedly, “Unequaled defensive warfare! Except for Eternal Sovereigns, no one can breach the mechanical world set up by Devour Lord. What terrifying alchemy! It turns out that the strongest ability of Empress Ling and Empress Ying lies not in combat, but lies in their tremendous computing power, which they can use to coordinate artillery fire in a nearly prophetic way. Without prior notice of this, then even if it’s 30 Emyreans, they will be swallowed by the artillery fire all the same.”

Chapter 1340: Defeating the Allied Army

Blue Moon Merfolk Empress had chills go down her spine, "How terrible! It turns out that Devour Lord still hid such a trump card!"

When the Ninth Warlock Imperial Court was established, Blue Moon Merfolk Empress thought of disturbing Battle Demon Sect's nest. But then the thought flashed past and didn't materialize. If she did disturb Battle Demon Sect's nest at that time, she would have turned into dust already.

After the beams disappeared, only 7 figures remained in the void.

"Blue Wing Lord, Blaststeel Lord, Illusion Butterfly Lord, Shadowclaw Lord, Lightmine Lord, Greenstone Lord, Ghostblade Lord, that's the 10 sacred races of Gumana Universe for you. It's amazing that you are still alive."

Yang Feng looked at the 7 Emphyreans in the void, and the corners of his mouth rose into a slight smile.

The 7 Emphyreans are covered in wounds. Among them, only the injuries of Blue Wing Lord, whose right arm is broken, and Blaststeel Lord, whose left leg is missing, are fairly light. As for the remaining Emphyreans, most of their body has been vaporized, while Greenstone Lord even more so is just left with a head.

Blue Moon Merfolk Empress drew in a sharp breath: "Impressive! 13 Emphyreans died due to this attack. This attack is even more powerful than a random strike of an Eternal Sovereign."

Green Dragon Emperor uttered lightly, "If it's in terms of power alone, then it's indeed approaching the level of an Eternal Sovereign's full strength strike. However, when compared to a genuine Eternal Sovereign, it's still far too lacking. At the very least, such an attack cannot be unleashed continuously."

The other Emphyreans nodded.

"Retreat!"

Blue Wing Lord's eyes glimmered coldly, and he flapped his wings, turned into a blue stream of light, and fled backwards.

If this expedition fails, Blue Wing Lord will be deprived of all authority and severely punished once he returns to Gumana Universe. But it's better than dying here.

The figures of the other 6 Emphyreans fluttered, and they escaped in different directions.

"Myriad Snakes Mother, it's time for you to make contributions! Go and bring them back alive. If you can't, then you shall die!"

Yang Feng waved his hand, and Myriad Snakes Mother flew out from a jade box and landed in front of him.

"Yes! My lord!"

Myriad Snakes Mother looked coldly at Yang Feng, felt a chill in her heart, and spoke respectfully.

The trap set up by Yang Feng claimed the lives of 13 Emphyreans in one fell swoop and severely wounded the other 7 Emphyreans. This is an overwhelming result.

After this battle, the Twin Universe Flower will fall into Yang Feng's hands, and the world of Warlocks will gain the initiative in the universe war.

If before this battle, the world of Warlocks' chances of defeating Gumana Universe were just 10%, then after this battle, its chances have risen to 30%. There is a glimmer of hope for the world of Warlocks. Yang Feng made great contributions to the world of Warlocks. He is hopeful to advance to the Eternal realm.

Myriad Snakes Mother's figure fluttered, and she turned into a giant snake the size of a star and chased after the 7 fleeing Emphyreans.

Along with flashes of light, the First Abyssal Master, Green Dragon Emperor, and the other Emphyreans of the world of Warlocks flew out and chased after the 7 Emphyreans.

"Stop them!"

"Don't let them pass!"

"If we let them through, our lord will be in danger!"

"..."

Tier V and Tier IV Hives flew out, turned into powerful Hive monsters, and attacked the First Abyssal Master and company.

Strengthened by Great Holies and Holies, the Tier V Hives reached the level of pseudo Emphyreans in terms of fighting strength and forcibly blocked the First Abyssal Master, Green Dragon Emperor, and the other Emphyreans of the world of Warlocks.

The powerhouses of the 10 sacred races went crazy and tried their best to stop the First Abyssal Master and the other Emphyreans of the world of Warlocks. Once Blasteel Lord and the other Emphyreans of Gumana Universe die, the respective sacred races will fall from the ranks of sacred races and become ordinary greater races in the universe.

The 18 sacred races have countless enemies in Gumana Universe. Once they fall from the ranks of sacred races, their enemies will swarm them and tear them to pieces.

"Damn ants! Get lost!"

The First Abyssal Master's eyes flashed fiercely, and he changed into a fiend giant as big as a star and slashed at a Tier V Hive monster with the giant sword in his hands.

The Tier V Hive monster issued an earth-shaking cry as the First Abyssal Master severed its right arm with a sword strike, and countless powerhouses of Gumana Universe died.

The Tier V Hive monster still rushed towards the First Abyssal Master and attacked him frenziedly, blocking his way forward.

Another Tier V Hive monster rushed over and frenziedly attacked the First Abyssal Master.

With a cold look in his eyes, the First Abyssal Master cast various powerful offensive spells and attacked the 2 Tier V Hive monsters. With his unequaled overlord-level strength, it's only a matter of time before

he cuts down the 2 Tier V Hive monsters. But this time will allow the 7 Empyreans of Gumana Universe escape.

Green Dragon Emperor, Blue Moon Merfolk Empress, Withered Fire Lord, and Whirlwind Lord were stopped by Hive monsters, as well.

Although the Hive monsters are not a match for the 4 Empyreans. However, the 4 Empyreans must go all out while fighting them. Otherwise, if they are careless, they will be seriously injured.

All of a sudden, the Wheel of Time appeared in the void and shone with innumerable runes, and torrents of time emerged and swept towards the 7 Empyreans.

The flow of time around the 7 Empyreans became chaotic at once.

The flow of time around Greenstone Lord's remaining head, Ghostblade Lord's remaining lower body, and Shadowclaw Lord's remaining claw reversed, and they slowly flew in the opposite direction.

Among the other 4 Empyreans, the flow of time around Lightmine Lord and Illusion Butterfly Lord distorted, and their speed became slower, yet they didn't experience the phenomenon of time reversal.

Blue Wing Lord and Blasteel Lord were completely unaffected by the torrent of time.

A black hole emerged, swept towards Greenstone Lord, Ghostblade Lord, and Shadowclaw Lord, and drew them inside.

Terrifying devour force broke out, extracted the life origin of the 3 heavily injured Empyreans, and turned them into ashes.

"I'll stop him, or we'll all die! When you return, don't forget to protect my lightmine race!"

Lightmine Lord's eyes shimmered coldly. A sparkling lightning crystal melted, and his destroyed limbs regenerated in an instant. Vast Empyrean might slowly diffused from him.

The lightning crystal is Lightmine Lord's life origin. Once it breaks, Lightmine Lord will die. By then, even if an Eternal Sovereign takes action, they will hardly be able to save him.

Blue Wing Lord said loudly, "Lightmine Lord, as long as I'm alive, your lightmine race will be protected by me!"

Lightmine Lord nodded. As if a god of lightning, he held a lightning halberd and stabbed at Yang Feng.

"Lightmine Lord, I shall be your opponent!"

A fearsome aura transmitted from the void, and Myriad Snakes Mother's incarnation of a giant snake emerged and rushed towards Lightmine Lord.

Lightmine Lord was both astonished and infuriated, and he bellowed: "Myriad Snakes Mother, how dare you betray our universe! Aren't you afraid that your race will be exterminated by the 3 Eternal Sovereigns?"

Myriad Snakes Mother smiled sweetly and said ruthlessly, "If they're exterminated, then so be it! As long as I'm alive, I can establish the race anew. It doesn't matter if they all die."

There are all kinds of Empyreans. Some Empyreans value their race and struggle for the rise of their race all their life. However, many more Empyreans are selfish and put themselves first. Myriad Snakes Mother doesn't care about her race. She created the race herself. Even if the whole race is wiped out, she won't feel any sadness.

With Lightmine Lord being blocked by Myriad Snakes Mother, Yang Feng's figure fluttered, and he appeared in front of the Blaststeel Lord and unleashed a halberd strike.

Among these Empyreans, the one Yang Feng wants to quell the most is no other than Blaststeel Lord. Blaststeel Lord contains the crystallization of the blaststeel race's secret methods and technology.

Once the blaststeel race's highest level of technology falls into his hands, Yang Feng's strength will be greatly improved again.

"Black Steel!"

Blaststeel Lord roared, a fierce flash in his eyes.

A broken black mechanical armor appeared at once and fused with Blaststeel Lord. In an instant, a terrifying aura erupted from Blaststeel Lord.

"Break!"

With a fierce flash in his eyes, Blaststeel Lord brandished a black blade radiating black light and slashed at Yang Feng.

Boom!

With a loud blast, Yang Feng deflected the black blade in Blaststeel Lord's hands, and then sliced the person himself in two.

A black hole emerged at once and swallowed Blaststeel Lord.

Countless mysterious runes shone and frantically devoured Blaststeel Lord's life origin and memories.

As Blaststeel Lord is an unequaled overlord-level Empyreans, it's not that easy for Yang Feng to defeat him. However, when he was hit by the Devastator Cannon beams, his body almost collapsed and his soul was severely damaged. He could use less than 10% of his original strength. As such, he was easily defeated by Yang Feng.

Blue Wing Lord gritted his teeth and took out a feather, and the feather emanated Eternal aura.

The feather burst out with countless mysterious runes that turned into feathers of light, shrouded Blue Wing Lord, and propelled him towards the outside. In an instant, Blue Wing Lord disappeared from his place.
