Chapter 1361: First Generation Life Forms

“Devour Lord!”

When the Third Ancestor Dragon saw Yang Feng, his eyes shot with blood and flashed with frenzied killing intent.

The Ten Thousand Dragons Tomb is the Third Ancestor Dragon’s strongest secret treasure, while three ancestor dragon skeletons are the core of the Ten Thousand Dragons Tomb.

Now that the Fourth Ancestor Dragon was devoured by Yang Feng, the power of the Ten Thousand Dragons Tomb has dropped by 20%.

“Ladies and gentlemen, Devour Lord is overwhelmingly strong. I’m not a match for him. Why don’t we join forces to defeat him and seal him here? In this way, we will have a chance to compete over the Eternal opportunity.”

The First Fiend Emperor took a deep look at Yang Feng and suggested with a flash of resentment in his eyes.

The First Fiend Emperor spent countless resources and part of his soul, which he attached to the fiend emperors of this era, and woke up ahead of time like this, yet Yang Feng killed the fiend emperor of this era. This resulted in a deep hatred between the two.

The First Fiend Emperor, who was originally a powerhouse on the level of Primal Chaos Mother Spider, has now become the weakest of the ten powerhouses on the platform. Naturally, his heart is filled with resentment.

The First Fiend Emperor was originally far stronger than the First Abyssal Master. But after the First Abyssal Master received the endless Abyss, he surpassed the First Fiend Emperor in terms of strength.

When they heard the First Fiend Emperor’s words, the other eight Emphyreans on the platform focused their gazes on Yang Feng, and a silence filled the platform.

The First Fiend Emperor’s heart sank: “Fuck, Devour Lord’s reputation is too fierce! They don’t dare to act rashly!”

Yang Feng killed countless powerhouses and wiped out many powerful races. Furthermore, he slayed more than 50 Emphyreans already.

Intimidated by his fierce might, no one wants to deal with Yang Feng. They are all apprehensive and are unwilling to take action lightly.

“First Fiend Emperor, since you tried to stir up discord, then let’s finish our unfinished battle here. Go to hell!”

A ripple surged, and a torrent of time appeared around Yang Feng. In an instant, Yang Feng’s speed accelerated one thousand-fold and surpassed the speed of light, and he unleashed a halberd ray slashing towards the First Fiend Emperor.

“How overbearing!”

“So this is Devour Lord! He’s too overbearing!”

“So long as there is an excuse, he will take decisive action! Devour Lord is really tyrannical! But that’s the No. 1 powerhouse of our universe for you!”

“…”

The eight Emphyreans watched quietly with apprehension in their eyes.

“Devour Lord!”

With a fierce flash in his eyes, the First Fiend Emperor bellowed furiously and broke out with countless runes, and a vast fiend sea appeared.

A fiend claw that can easily crush a world and suppress heaven and earth directly emerged from the the vast fiend sea and shot towards Yang Feng.

Yang Feng’s halberd ray surged with the essence of power and unleashed stars.

The huge fiend claw was shattered by the stars, and then the green halberd ray slammed into the First Fiend Emperor and chopped him in two.

Strange runes glimmered, and a palm-sized black peach wood collapsed.

Yang Feng’s eyes flashed with enigmatic light, and he uttered with a cold smile: “Scapegoat Deity Peach Wood! First Fiend Emperor, you have so many treasures. But how many of these treasures do you actually have?”

Scapegoat Deity Peach Wood is a secret treasure refined from the wood of an eternal god tree, the Scapegoat Peach Tree. Scapegoat Deity Peach Wood can enable a Holy escape death once and even resist an attack from an Emphyrean.

The Scapegoat Peach Tree has been chopped down by an Emphyrean during the Eternal Sovereign age and refined into Scapegoat Deity Peach Wood. Since the Eternal Sovereign age until now, only a couple pieces of Scapegoat Deity Peach Wood are left.

“Devour Lord!”

Along with ripples, the First Fiend Emperor appeared at the edge of the platform, glared at Yang Feng with resentment in his eyes, gritted his teeth, and enunciated each syllable.

“Devour Lord, please quell your anger. The First Fiend Emperor is an Emphyrean of our universe after all. Our true enemy is Gumana Universe! The First Fiend Emperor was just a bit rude. He didn’t actually attack you. Please spare his life.”

Evil God Ancestor smiled faintly and took a step forward, and strange runes appeared around him.

The Third Ancestor Dragon uttered coldly, “That’s right. Devour Lord, the First Fiend Emperor just spoke a few word, yet you already want to kill him. That’s too overbearing.”

The First Abyssal Master smiled lightly and said, "Devour Lord, I think we should work together for now. When we see the Eternal opportunity, we can compete for it then."

With his tyrannical strength, Yang Feng is a threat to the safety of the nine Empyreans, which pushed them to show signs of unity.

Yang Feng's eyes glimmered coldly, and he wanted to say something. All of a sudden, his eyes suddenly shimmered with a dignified shade, and he looked into the distance.

The border shrouding the platform collapsed, and a huge flower appeared in front of everyone.

With slight flashes of light, the Empyreans on the platform turned into streams of light and flew towards the center of the huge flower.

Yang Feng gave up chasing the First Fiend Emperor and flew towards the center of the huge flower to compete for the Eternal opportunity.

The First Fiend Emperor gnashed his teeth and stared at Yang Feng: "Devour Lord, I will definitely kill you! When I advance to the Eternal realm, I will tear you limb from limb!"

A strange fragrance fog gushed out of the huge flower and shrouded Yang Feng and the other Empyreans.

Yang Feng and them fell from the sky and dropped to the ground one after another. No matter what secret methods they used, they weren't able to fly.

Yang Feng's eyes constricted and flashed with a dignified color: "What a powerful restricted airspace area! It even has the power to restrict Empyreans!"

Yang Feng has a powerful small world in his body. Even in a world without any extraordinary forces, he can draw the small world's world force to fly and exert all kinds of extraordinary powers.

The strange fragrance fog has the ability to restrict Yang Feng and the other Empyreans from flying, which is simply unfathomable.

Boom! Boom! Boom!

Loud noise came from the earth as 100-meter-tall stonemen rushed over with battle axes in their arms.

"Break!"

The Third Ancestor Dragon's figure swayed, and he turned into a dragon 100 meters long. He twisted his dragon body, appeared in front of a huge stoneman like a bolt of lightning, and slammed his claw into the other party.

Boom!

The huge stoneman was smashed by the Third Ancestor Dragon's attack. At this time, another huge stoneman brandished its battle axe and chopped at the Third Ancestor Dragon.

Although the huge stonemen look clumsy, but in fact, they are exceedingly fast. A battle axe slammed into the Third Ancestor Dragon and left a huge wound on his body, and blood spilled.

“So strong! These stonemen are stronger than ordinary Emyreans!”

When the Emyreans saw this, their countenance changed slightly.

Even among the ten Emyreans, the Third Ancestor Dragon is ranked in the top three in terms of defense. It is really difficult for attacks unleashed by ordinary Emyreans to break his dragon scales.

“But that’s all!”

Sun Lord snorted coldly. His figure shook slightly, and he hurled the Sun War Lance at the huge stonemen.

As if a meteor, the Sun War Lance slammed into Emyrean rank stonemen and blasted them to pieces.

Primal Chaos Mother Spider smiled and flicked her fingers, and transparent, colorless Primal Chaos Threads wound around huge stonemen and bound them.

Star Giant Lord roared and unleashed his fists barreling towards the huge stonemen. Where his fists passed, stonemen were blown to pieces one after another.

Evil God Ancestor suddenly showed a queer smile, and strange ripples appeared on his body at once.

“Don’t delude yourselves! You will all die here and become nutrients for my evolution to the Eternal realm!”

A cold and cruel voice rose from the midst of the stonemen, and a stoneman emperor radiating golden light appeared all of a sudden and tore the void with his golden battle axe.

Evil God Ancestor’s figure appeared in the void, and a remnant Eternal grade shield radiating Eternal aura appeared in front of him.

The remnant Eternal grade shield flickered with light, and a true dragon, a qilin, a kumpeng, and a qiongji, four visions appeared at once and formed a four spirit boundary.

When the golden battle axe slammed into the four spirit boundary, it crushed the four spirit boundary, and then slashed at Evil God Ancestor.

An Emyrean rank evil god soul appeared at once and was sliced apart by the golden battle axe.

At that moment, Evil God Ancestor disappeared and appeared in the distance.

“What’s that?”

“What sort of extraordinary life form is he? Why haven’t I seen it before?”

“So strong! He’s not inferior to us in terms of strength!”

“...”

Gazes of apprehension fell on the stoneman emperor.

“No need to guess. We are a variant of heaven and earth birthed by the universe will. Born to protect the universe. If you can defeat us, you will be able to gain our strength. Conversely, if you are killed by us, we will gain your strength.”

“If all of you die, we will be able to leave this place that binds us, advance to the Eternal realm, and protect our universe. You are just nutrients for our evolution.”

The stoneman emperor looked at Yang Feng and company and said with a cold smile.

Lights shone, and a mountain surrounded by countless angels fell from the sky. Beautiful female blazing angels flew out from the mountain and radiated Empyrean rank fluctuation of power. Guarded by the numerous blazing angels, there stands a gorgeous angel empress.

“First generation angels!”

“They are first generation angels, the prototype of angels! I didn’t expect to see them here!”

“...”

When the Third Ancestor Dragon and them saw the first generation angels, their eyes flickered with wary.

Chapter 1362: Empyreans Fight

In the universe of the world of Warlocks, the strongest weapons under the control of gods are angels. The angels that just emerged are first generation life forms.

Every first generation angel is a blazing angel and an Empyrean rank combatant. Among them, the angel empress is an unequaled overlord-level Empyrean. She’s a terrifying being on the same level as Primal Chaos Mother Spider, the Third Ancestor Dragon, and them.

A fearsome aura transmitted from afar, and an ancestor dragon surrounded by 100 true dragons flew out and stared at the Third Ancestor Dragon.

A parasol tree shrouded by Phoenix Fire appeared abruptly. On the parasol tree, there are 100 phoenixes. In the center of the 100 phoenixes, there is a phoenix empress, who is diffusing a noble air.

The earth quaked, and a golden giant emperor with a height of 10,000 meters walked over from afar, looking like a moving golden mountain.

In this tree core world, under the influence of mysterious laws, even though the true body of the Third Ancestor Dragon as big as the sky, but it is restricted to a length of 100 meters. The golden giant emperor with a height of 10,000 meters can be rated as terrifying.

Escorted by dozens of Empyrean rank serpents of extinction, a serpent emperor of extinction with a length of 10,000 meters flew over from afar and looked coldly at the 10 Empyreans with its serpent eyes.

Escorted by tens of thousands of quasi-Empyrean rank vajra beetles, an unequaled overlord-level vajra beetle emperor flew over from afar.

Escorted by 100 Empyrean rank dark transcendents, an Empyrean rank dark transcendent emperor flew over from afar

Escorted by 60 kumpengs, a kumpeng ancestor flew over from afar and arrived here.

A 100,000-meter-long primeval beast of devour that has only appeared in legends, which feeds of planes, emerged from afar and stared at Yang Feng coldly.

Upon seeing this scene, the 10 Emphyreans inhaled a breath of cold air.

The number of Emphyreans in the tree core is far greater than the number of Emphyreans that awakened in the world of Warlocks.

The First Fiend Emperor's eyes flickered with enigmatic light, and he tried to sow dissension: "There is only one Eternal slot. Ladies and gentlemen, how do you plan to divide it? Why don't we go to the place where the Eternal opportunity is located, and then make plans about our next course of action?"

"There is indeed only one Eternal slot! But so long as you all die here! We'll be able to leave this world and gain our freedom. So go to hell!"

The dark transcendent emperor's eyes surged with killing intent, and he slashed at the First Fiend Emperor with a dark sword.

The 100 Emphyrean rank dark transcendent glimmered, cast offensive secret methods, and attacked the First Fiend Emperor.

The First Fiend Emperor's expression changed greatly, and he cast various strange spells and dodged the attacks of the Emphyrean rank dark transcendent.

The dark transcendent emperor and the other Emphyreans from the tree core attacked the 10 Emphyreans one after another.

The 10 Emphyreans cast various formidable offensive secret methods and engaged the Emphyreans from the tree core.

The 100,000-meter-long primeval beast of devour took a step, appeared in front of Yang Feng in a flash, and opened its big mouth, and countless sawteeth rotated in the center of its big mouth. A terrifying black light of devour swept towards Yang Feng.

"I don't have time to waste here with you!"

Countless mysterious runes shone, and the Wheel of Time emerged. A torrent of time gushed out of the Wheel of Time, swept towards Yang Feng, and brought him to the past.

The black light of devour hit empty air.

When the primeval beast of devour saw his opponent disappear, his eyes flashed with a blank shade, and then his mouth part glimmered with countless runes and radiated devour light sweeping towards the First Abyssal Master.

"Devour Lord, you bastard!"

The First Abyssal Master hurled verbal abuse, and then cast defensive spells and fled to one side.

"Space-Time Walk!"

"Damn it! Devour Lord actually used this unequalled secret method!"

“What now?”

“...”

When the other nine overlords saw Yang Feng cast the unequalled secret method, the Space-Time Walk, their eyes flickered with the shade of envy.

If you are not proficient in the essence of time, then no matter how powerful you are, you won't be able to use this unequalled secret method. After mastering this secret method, if the opponent can't deal with it, then no attack will be able to hit you.

Yang Feng traveled in the future, easily crossed thousands of kilometers, and appeared behind the tree core's Emphyreans, and then arrived at the center of the flower.

In the center of the flower, there is a clear lake, a fragrance of nectar wafting out from it.

In the middle of the lake, there is a drop of bright flower dew suspended in the air. Wisps of mysterious aura are emanating from the drop of bright flower dew.

As soon as Yang Feng saw the drop of glittering flower dew, he realized that it is the biggest and only opportunity for him to advance to the Eternal realm.

“Boundary! No, this is rejection of the universe will! It seems that there are no shortcuts at this stage! I can only kill all those other Emphyreans!”

Yang Feng has just taken a step, when a mighty force blasted him 100 kilometers away and made him frown.

Even though he's an unequalled overlord-level Emphyrean, but he can't contend against a universe's universe will. Only Eternal Sovereigns can contend against a universe will with absolute power.

“Then my first target shall be the primeval beast of devour. As long as I devour him, my essence of devour will be able to progress further.”

Yang Feng's eyes flashed coldly, and he disappeared from the present and traveled to the future.

The First Abyssal Master, who was besieged by the serpent emperor of extinction and the primeval beast of devour, was covered in wounds at this time. One after another, defensive boundaries appeared around him, and then shattered.

The serpent emperor of extinction and the primeval beast of devour were powerhouses of the same caliber as the First Abyssal Master to begin with. But now that they joined forces, First Demon Lord is in great trouble. The dozens of Emphyrean rank serpents of extinction further restrained the First Abyssal Master.

Less than a quarter of an hour after the battle began, many wounds appeared on the First Abyssal Master. Those wounds were filled with the essence of extinction and were difficult to heal.

Along with strange ripples, Yang Feng returned to the present from the future and appeared behind the primeval beast of devour, and a halberd shot towards the primeval beast of devour lightning fast.

The primeval beast of devour radiated dazzling light, curled up slightly, and neutralized 30% of Yang Feng's power.

When the green halberd ray slammed into the primeval beast of devour, it only left a huge cut, but it could not bisect the primeval beast of devour.

"What an impressive primeval beast of devour!"

Yang Feng's eyes shimmered with an enigmatic shade. The Xi Shen Armor on his body glimmered, and the flow of time around him accelerated a thousand-fold. With a speed exceeding the speed of light, he appeared in front of a serpent of extinction and severed its head with his halberd.

A black hole emerged and swallowed that serpent of extinction.

"This is the key!"

After Yang Feng killed a serpent of extinction, a strange key projection appeared in his hand.

Yang Feng mused: "Only by killing enough powerhouses, only then can the key that opens the boundary be fully formed! Only then can I get the Eternal opportunity!"

After that serpent of extinction was killed, the eyes of the serpent emperor of extinction, the dozens of serpents of extinction, and the primeval beast of devour flashed, and they cast secret methods and hurled attacks at Yang Feng.

Along with a torrent of time, Yang Feng disappeared from this place and entered the future.

"Fiend Realm!"

The First Fiend Emperor's eyes flashed with malice. He waved his hand, and nine Eternal Fiend Bones emerged, spewed out endless demonic qi, and formed a Fiend Realm that locked the past, present, and future.

Ripples surged, and Yang Feng was forced to emerge from the future and appear in the present.

"Sorry, Devour Lord! I must use my strongest secret method to stop their attacks! Please forgive me!"

The First Fiend Emperor showed a malicious smile, cast secret methods, and traveled freely within the Fiend Realm, avoiding the attacks of the dark transcendent emperor.

"Devour Lord, you are the strongest powerhouse in our universe! I'll leave this place to you!"

The First Abyssal Master showed a smile of schadenfreude. His figure fluttered, and he turned into a stream of light and flew towards the First Fiend Emperor.

The eyes of the other Emphyreans revealed enigmatic light, but no one tried to break the First Fiend Emperor's Fiend Realm.

Seeing that Yang Feng was forced to exit the future and appear in the present, the Emphyreans born in the Cosmic Tree Sea had a tacit understanding and did not continue to attack the Fiend Realm.

Space-Time Walk is originally an unequaled secret method that Eternal Sovereigns can master. The nine unequaled overlords need the help of various secret treasures to restrain this unequaled secret method of Yang Feng.

“Fine! I’ll just suppress them!”

Yang Feng’s thoughts revolved, and then he uttered decisively.

Ripples surged, and Ling, Ying, and Xingji emerged behind Yang Feng.

Ling’s figure fluttered, and she brandished the Whip of the Ruler and entangled the primeval beast of devour.

Xingji brandished the Shield of the Ruler, and the shield flickered and formed a formidable boundary that sealed Xingji herself, Ying, and the serpent emperor of extinction in a star world.

After the battlefield was divided in two, Yang Feng faced 56 serpents of extinction by himself.

The eyes of the 56 serpents of extinction flashed with a fierce shade, and they belched beams of extinction barreling towards the star world formed by the Shield of the Ruler.

Boom!

Under the joint attack of the 56 serpents of extinction, the star world shook violently, and a fearsome crack appeared on it.

“To be distracted while facing me, you’re really arrogant! Fourth form!”

Yang Feng’s eyes glimmered coldly. The Xi Shen Armor shone, and a blurry projection emerged from the Xi Shen Armor and merged with him.

Chapter 1363: Cutting Down the Serpent Emperor of Extinction

Yang Feng’s figure fluttered, and he turned into a blur and flew into the midst of the serpents of extinction. In an instant, he appeared in front of an Empyrean rank serpent of extinction, crushed its magic boundaries, and then sliced it in two and devoured it.

Along with flashes of afterimages, almost in an instant, Yang Feng cut down seven serpents of extinction and devoured their life origin.

“He’s so strong!”

“He slayed seven Empyreans in an instant! So this is Devour Lord! The invincible overlord of our universe!”

“Devour Lord is too powerful!”

“...”

When they saw this, the other Empyreans inhaled a breath of cold air.

The seven serpents of extinction were born from the Cosmic Tree Sea. Although they were a little inferior to ordinary Empyreans, but they were real Empyreans nonetheless and possessed amazing

combat power. They were equal to Shi Yu and Michaelia when they are boosted by the Magic Note Throne in terms of strength.

To be able to cut down seven serpents of extinction in a row, Yang Feng's strength is absolutely terrifying.

The remaining 49 serpents of extinction were enraged. Their eyes flashed with a fierce shade, and they fired beams of extinction and attacked Yang Feng.

The beams of ruin resonated with each other and formed a giant snake containing the essence of extinction. Even if it's an Emphyrean, if they are hit by the giant snake made from the essence of extinction, they will directly collapse and turn into dust.

If a grade 3 plane was hit by the terrifying giant snake, its plane origin will would collapse and it will disintegrate directly.

Ripples surged, and 3,000 Holy grade and 100,000 Warlock Monarch rank Vajra Rulers suddenly appeared, resonated with each other, and activated a huge defensive boundary.

The 3,000 Holy grade Vajra Rulers are mechanical guards Yang Feng refined using the resources he raked from the whole universe over the years. They are one of the strongest trump cards he has to play.

When the giant snake constructed from the essence of extinction hit the defensive boundary erected by the Vajra Rulers, the boundary held out for only a moment, and then shattered. The giant snake shot towards the Vajra Rulers. In the wake of its huge body, everything was destroyed and turned into dust.

Even Holy grade Vajra Rulers fell apart and turned into dust when they were hit by the giant snake.

At this moment, Yang Feng appeared in front of seven serpents of extinction in a blink, brandished his halberd, and cut them in two.

A black hole emerge directly, swept towards the seven serpents of extinction, drew them inside, and devoured their life origin.

Spatial ripples surged, and Lightning Rulers, Blade Rulers, and other Holy grad as well as Warlock Monarch rank mechanical rulers appeared and attacked the serpents of extinction.

Those Warlock Monarch rank mechanical rulers have the ability to break through the defense of the serpents of extinction. Every time their attacks hit the serpents of extinction, they will cause some damage to the serpents of extinction.

The serpents of extinction opened their mouths and belched beams of extinction. In the wake of the beams of extinction, mechanical rulers were smashed.

Yang Feng shuttled among the mechanical rulers, brandished his halberd, cut down one serpent of extinction after another, and devoured their power.

"Is Devour Lord crazy? He's using his strongest combat power!"

"If you use your strongest combat power here, it will only attract more enemies! How could Devour Lord do something so unwise?"

“Devour Lord’s mechanical legions are really scary. They have the power to quell Emyreans. However, if there are too many losses in this battle, it will be detrimental to the next battle. What was he thinking?”

“...”

When the other nine Emyreans saw this scene, their eyes flickered with enigmatic light.

Primal Chaos Mother Spider, Sun Lord, and them are invincible overlords who once fought true spirits and even prayed on them. They are exceedingly strong. Although they are now being restricted by the Cosmic Tree Sea and are at a complete disadvantage, but that is also because they have yet to employ their full combat power. If they go all out, they will be each more ferocious than the next.

“You are Devour Lord? The smell coming from you is disgusting! I’ll kill you!”

The angel empress’s eyes flashed fiercely. Her figure fluttered, and she took the 108 Emyrean rank blazing angels and flew this way.

Space Rulers suddenly flew out, activated space boundaries, and blocked in front of the angel empress.

“What audacity!”

The blazing angels in front of the angel empress shouted and brandished their swords, and dazzling sword rays tore the firmament and slashed towards the space boundaries.

The space boundaries activated by the Space Rulers collapsed, and then the Space Rulers themselves were cut into pieces by the sword rays.

Space ripples surged, and 30 million 7th generation battle robots modified by level-7 strongholds suddenly poured out, turned into a torrent of steel, and swept towards the angel empress and the 108 blazing angels.

The 30 million 7th generation battle robots are a mechanical legion Yang Feng constructed after establishing the Ninth Warlock Imperial Court and they can defeat ordinary Emyreans.

The angel empress and the 108 Emyrean rank blazing angels brandished their Angel Swords and unleashed frightening sword rays that sliced the battle robots into pieces.

However, the torrent of 7th generation battle robots is nearly endless. No matter how many the blazing angels destroyed, there were always other battle robots to take their place.

After the huge mechanical legion barely managed to stop the angel empress and the 108 Emyrean rank blazing angels, Yang Feng moved instantaneously from one place to another like a ghost, cut down the remaining serpents of extinction, and devoured them.

Boom!

Along with earth-shaking noise, the star world formed by the Shield of the Ruler collapsed, and two figures flew out. They are Ying and Xingji. They are covered in many wounds, and each wound diffuses the aura of extinction.

The serpent emperor of extinction filled with the power of extinction emerged in the void, and his eyes flashed with a cruel gleam.

“Devour Lord, how dare you slaughter my people! Damn you!”

The serpent emperor of extinction scanned the surroundings with his tremendous soul force, and his eyes flickered with a fierce shade. All of a sudden, he belched a beam of extinction that destroyed everything in its wake.

Countless mysterious runes shone on Yang Feng’s body, and a black hole emerged and swept towards the beam of extinction.

When the beam of extinction slammed into Yang Feng’s black hole, two supreme essences intertwined, entangled, distorted, collapsed, and disappeared.

Neither the serpent emperor of extinction’s essence of extinction nor Yang Feng’s essence of devour had the absolute upper hand.

With a blur, Yang Feng appeared in front of the serpent emperor of extinction and slashed with his halberd, and a green halberd ray tore the firmament, slammed into the serpent emperor of extinction, and sliced open a huge cut on his body.

Devour runes appeared and devoured the flesh and blood at the giant wound.

The serpent emperor of extinction issued a shriek, twisted his huge body, surged with the essence of power, and attacked Yang Feng.

“I am far more powerful than you are!”

Yang Feng smiled coldly. The Xi Shen Armor glimmered, and an endless amount of power gushed out from the Kunmo Stone and poured into his body.

Yang Feng brandished his halberd, and stars constructed from the essence of power appeared, tore the firmament, and attacked the serpent emperor of extinction.

An unfathomable scene appeared.

In front of the 10,000-meter-long serpent emperor of extinction, Yang Feng looks like a tiny toothpick. However, when he slashed the serpent emperor of extinction with his halberd, the opponent’s body burst open, and an endless amount of flesh and blood splashed. The serpent emperor of extinction was cut in two by Yang Feng’s halberd strike.

A black hole emerged and swallowed the two halves of the serpent emperor of extinction.

A huge amount of life origin poured into Yang Feng from the serpent emperor of extinction.

The serpent emperor of extinction belched a beam of extinction in an attempt to smash the black hole.

Yang Feng spoke in a frigid voice, a cold look in his eyes, “It’s useless! You’ve already incurred severe damage! It’s basically impossible for you to break my spell!”

The black hole broke out with countless runes, and dazzling black light shone and suppressed the beam of extinction.

Fearsome devour force enveloped the serpent emperor of extinction, and a huge amount of life origin poured into Yang Feng.

“Devour Lord, die!”

An Angel Sword tore the firmament and slashed towards the black hole from afar.

The angel empress slashed down with her sword, and all the battle robots in her sword's way collapsed and turned into powder.

Xingji's figure swayed slightly, and she appeared in front of Yang Feng with the dilapidated Shield of the Ruler. Rays of starlight appeared and formed a starlight boundary.

Boom!

When the angel empress' sword slammed into the starlight boundary, it sliced the starlight boundary into pieces.

A terrible crack appeared on Xingji's Shield of the Ruler.

“Angel empress, you're a step too slow!”

Yang Feng smiled lightly, and the serpent emperor of extinction inside the black hole turned into dust that wafted out with a wind.

When the angel empress was distracted by Yang Feng, six Holy grade Blade Rulers erupted abruptly, brandished their blades, cut apart her defensive boundaries, and left 6 wounds on her body.

“Die!”

The angel empress was furious. A sacred light swept her body, and all her wounds healed instantly. Next, she slashed with her sword, and a dreadful sword ray broke out and crushed the six Blade Rulers.

Chapter 1364: You're a Step too Late

As soon as the serpent emperor of extinction died, a key condensed in Yang Feng's hand.

At the same time, formidable Eternal origin force poured into Yang Feng from the serpent emperor of extinction and nourished his body.

Eternal patterns appeared on Yang Feng's bones, making his bones stronger.

“Sure enough! Every time you kill an Emphyrean born in the Cosmic Tree Sea, you can seize the Eternal origin force hidden inside them and become more powerful!”

Yang Feng's eyes glimmered brightly and surged with a scorching shade. With a flash, he appeared behind the primeval beast of devour and slashed at him with the halberd in his hands.

The huge body of the primeval beast of devour contracted slightly and erupted with strange ripples, neutralized 70% of the attack's power.

With the flash of a green halberd ray, a long gash appeared on the primeval beast of devour, and blood gushed out.

Mysterious runes appeared on the primeval beast of devour's body, and the long gash healed rapidly.

"What a fearsome healing ability! The primeval beast of devour is worthy of being one of the most terrifying direbeasts in the universe. With his strong offense and defense, it's really hard to kill him!"

Yang Feng frowned, and then gave up attacking the primeval beast of devour. He surged with a torrent of time and disappeared.

In an instant, Yang Feng appeared in front of an Emyrean rank blazing angel, and his right hand turned into a black claw, surged with dreadful demonic might, and stabbed into the chest of the Emyrean rank blazing angel, and then scooped out her heart.

Countless runes shone and sealed the angel heart. A black hole emerged directly and swallowed the Emyrean rank blazing angel body.

After reaching the Emyrean realm, many life forms no longer have any critical parts. Even if their head is severed, the heart is pierced, or the body is cut in two, they won't die.

The angel heart Yang Feng extracted is the crystallization of the blazing angels life origin. Only someone who has a deep understanding of angels can kill a blazing angel and extract an angel heart formed from their life origin.

A powerhouse like the Third Ancestor Dragon can also kill an Emyrean rank blazing angel, but they won't be able to extract an angel heart.

"You! Damn you!"

The unequaled overlord-level angel empress was enraged and burst out with sacred light.

Speed, power, darkness, light, space, and fire, the angel empress surged with the light of six essences, took a step, crossed an endless distance, appeared in front of Yang Feng, and slashed down with her sword.

More than 200 Holy grade mechanical rulers blocking in front of the angel empress collapsed and turned into powder.

Thousands of 7th generation battle robots were smashed into powder that dispersed with the wind.

Yang Feng smiled faintly: "Quite impressive! As expected of an angel empress!"

Ripples rose, and Xingji equipped with the Unbreakable Shield appeared in front of Yang Feng.

The Unbreakable Shield flickered and glittered with countless runes, and a miniature universe projection appeared. Inside the miniature universe, lifelike stars emerged.

Once the miniature universe turns from illusory to real, the Unbreakable Shield will be able to advance to an Eternal grade secret treasure.

When the Angel Sword containing six essences slammed into the miniature universe, the miniature universe radiated dazzling starlight.

Six visions, namely a cyan radiance, stars, a dark world, a mountain of light, collapsed space, and fire burning the space, emerged and forcibly smashed the dazzling starlight radiated by the miniature universe, and the whole miniature universe collapsed in an instant

The sword slashed down and slammed into the Unbreakable Shield itself. The sword left a terrible sword mark on the shield, and then blasted Xingji away.

“You’ve gone too far!”

Countless mysterious runes appeared, and Yang Feng fully integrated with the Xi Shen Armor. The flow of time around him accelerated one thousand-fold. He suddenly appeared in front of the angel empress and sent his hand clawing at her heart.

The angel empress was about to raise her sword to fight back, when the Web of Fate suddenly appeared and entered her body. The power inside her body that she just consumed was restored and became sluggish for a moment.

At that moment, Yang Feng’s right hand stabbed into the chest of the angel empress, shone with countless runes, and dug out an angel heart.

A black hole emerged, swallowed the angel empress, and frantically extracted her life origin.

A key appeared in Yang Feng’s hand. At the same time, a tremendous Eternal origin force poured into his body.

“How could this be? How could he be so powerful?”

“Devour Lord is indeed invincible in the universe. However, he can’t be this powerful!”

“The angel empress just showed a flaw, and then was killed directly. How is this possible?”

“...”

The eyes of Primal Chaos Mother Spider, the First Fiend Emperor, and the other seven unequaled overlords shimmered with incredulity when they saw this. The angel empress was a powerhouse on the same level as Primal Chaos Mother Spider and them. To defeat such a powerhouse is simple, but kill them is beyond difficult.

The angel empress just revealed a small flaw and was killed by Yang Feng. That’s incredible.

After the angel empress was killed, a huge amount of Eternal origin force poured into Yang Feng’s body and engraved Eternal patters on his body, which increased his strength again.

Yang Feng’s figure flashed slightly, and he plunged into the midst of the blazing angels. He killed the blazing angels one after another and harvested Emyrean grade angel hearts.

When Primal Chaos Mother Spider and them saw the Emyrean grade angel hearts, their eyes surged with avarice.

With enough of such angel hearts, a powerhouse may be able to promote to the Empyrean realm.

A guard composed of dozens of Empyrean rank blazing angels is extremely luxurious. Even Eternal Sovereigns may not have so many Empyrean subordinates.

The First Fiend Emperor's eyes flickered with apprehension, and he stopped his attack on the dark transcendents: "Ladies and Gentlemen from the Cosmic Tree Universe! Devour Lord is too strong. Why don't we work together to quell him? If he continues like this, all of us will fall here."

The seven forces born in the Cosmic Tree Sea revealed the shade of hesitation and stared at Yang Feng with apprehension.

The unequaled overlords who were all battered due to the pursuit of the Cosmic Tree Sea's powerhouses got a chance to take a breather.

Under the gazes of the many Empyreans, Yang Feng smiled faintly. Then, his figure fluttered, and he appeared above the primeval beast of devour. The Eternal patterns inside him shone and diffused Eternal aura, and he unleashed a halberd strike that slammed into the primeval beast of devour.

The primeval beast of devour shone with countless runes. This time, however, he wasn't able to neutralize the power of Yang Feng's attack and was cleaved in two by the green halberd ray.

A black hole emerged, swallowed the primeval beast of devour, and extracted his life origin.

"Eternal aura!"

"Devour Lord has mastered Eternal power!"

"Devour Lord already possesses some characteristics of an Eternal Sovereign!"

"We must not let him live, or else we will all lose the only chance to advance to the Eternal realm!"

"..."

The eyes of the Empyreans flickered with shock. They looked at each other and reached a tacit understanding.

The nine unequaled overlord-level Empyreans of the world of Warlocks stopped attacking the Empyreans born in the Cosmic Tree Sea.

The eyes of the Empyreans born in the Cosmic Tree Sea flashed with a fierce shade, and they united to attack Yang Feng.

True dragons roared, phoenixes soared, and kumpengs howled. More than 100 Empyreans born in the Cosmic Tree Sea joined forces and displayed shocking might. Wherever they passed, battle robots were smashed and turned into powder.

Under the siege of the Empyreans, it is only a matter of time before the huge mechanical legions Yang Feng refined from the resources he plundered all over the universe collapse and are completely destroyed.

"A bunch of fools! You're a step too late!"

Yang Feng's eyes shimmered with the shade of derision, and three keys appeared in his hand.

Three radiances flashed, shrouded Yang Feng, and pulled him directly to the center of the flower.

In an instant, Yang Feng appeared in the center of the flower, opened his mouth, and ingested the resplendent flower dew.

As soon as the drop of flower dew entered Yang Feng's mouth, countless bright runes shone, and a huge amount of Eternal origin force poured into his body and nourished his body and soul.

One after another, Eternal patterns appeared in Yang Feng's body.

Five visions, namely stars, a black hole, a torrent of time, a river of fate, and spatial gates, emerged above Yang Feng. Countless runes flew out of his body and merge into the five visions.

Within a dozen plus breaths of time, all Emphyreans rushed to the center of the flower, but then were obstructed by the flower's boundary.

With a fierce flash in his eyes, Sun Lord shone with countless runes, turned into a giant sun, and knocked into the flower's barrier.

Boom!

The whole world appeared to shake slightly. Sun Lord's incarnation of a huge sun suffered a terrifying backlash and collapsed directly.

Sun Lord was blasted thousands of kilometers away, his face pale. He coughed repeatedly and spewed a large amount of blood.

"Damn it. So that's what it is. You can get keys by killing them. Only when you get the keys, only then can you enter and get the Eternal opportunity!"

Upon seeing this scene, Primal Chaos Mother Spider's eyes glimmered fiercely, and she rushed towards the golden giant abruptly.

Chapter 1365: Advancing to the Eternal Realm

Sun Lord, the Third Ancestor Dragon, and the other unequalled overlords started to go crazy. They cast formidable offensive secret methods and hurled attacks at the remaining seven unequalled overlord-level Emphyreans born in the Cosmic Tree Sea.

The seven unequalled overlord-level Emphyreans born in the Cosmic Tree Sea also cast formidable offensive secret methods and attacked Sun Lord and them.

Boom!

Heaven-shaking noise reverberated and shook the whole universe.

Stars, a black hole, a torrent of time, a river of fate, and spatial gates evolved into five mysterious runes respectively. The five mysterious runes converged and formed an Eternal imprint that entered the deepest part of the universe and integrate with the whole universe.

A sacred and mighty Eternal aura pervaded the whole universe.

“Someone advanced to an Eternal Sovereign!”

“Eternal! Someone advanced to an Eternal Sovereign!”

“Who? Who was it? Who advanced to an Eternal Sovereign?!”

“Eternal! Eternal Sovereign! Someone has advanced to an Eternal Sovereign!”

“...”

In the whole universe, all life forms at the Moonlight Warlock rank and above perceived the birth of an Eternal Sovereign.

“My name is Feng Eternal Sovereign!”

A vast, sacred, mighty voice reverberated in the sea of knowledge of every person in the universe.

“It’s him! It’s Devour Lord! Devour Lord advanced to an Eternal Sovereign!”

In an eternal relic site, the eyes of Feng Xuanzhen, who is only half a step away from the Empyrean realm, flashed with disbelief. He sighed faintly, and his fighting spirit was no more.

Although the universe of the world of Warlocks can produce many Empyreans, but it only has one Eternal slot. Once someone advances to the Eternal realm, no matter how talented others are, they won’t be able to advance to the Eternal realm.

“Eternal Sovereign, Yang Feng has advanced to an Eternal Sovereign.”

Turandot Subcontinent, in Rose Garden, the eyes of the former master of Rose Garden, Carolina, surged with disbelief.

“He actually advanced to an Eternal Sovereign!”

“That’s inconceivable!”

“Back in the day, his soul aptitude was so lacking that I thought he wouldn’t even be able to advance to a Great Warlock.”

Feeling both excited and incredulous, the women in Rose Garden discussed spiritedly.

Cangzhi Plane, Battle Demon Sect’s headquarters.

“Eternal Sovereign! That guy really did it! Fortunately, I didn’t make an enemy of him, or else I would have become a stepping stone for him to advance to the Eternal realm.”

Magic Note Lord, who was doing research in a secret chamber, suddenly raised his head, surged with a complicated shade in his eyes, and sighed faintly.

The Eternal slot is the ultimate goal of all Empyreans. Deep in his heart, Magic Note Lord naturally yearned to advance to the Eternal realm. However, he knew very well that he was not match for Yang Feng. After weighing things again and again, he made a choice beneficial to both sides.

Battle Demon Sect's headquarters, at the summit of a spirit mountain, Death Lord is standing quietly on the spirit mountain, his eyes are full of indifference, yet a glimmer of hope streaked across the abyss of his eyes.

Battle Demon Sect's headquarters, in a hall.

When Huang Yihe heard the voice, he broke out with a beaming smile and laughed heartily, lacking the demeanor of a powerhouse, "Feng Eternal Sovereign! Eternal Sovereign! I nurtured an Eternal Sovereign disciple! Ha-ha! Excellent!"

"What great luck!"

Yu Jingang and the other former elders of Battle Demon Sect glanced at Huang Yihe, and their eyes glimmered with envy.

In recent years, with Yang Feng channeling a massive amount of resources his way, Huang Yihe has advanced to a Holy Spirit Warlock and has exceeded many supreme elders of Battle Demon Sect by far.

Now that Yang Feng has advanced to the Eternal realm, Huang Yihe, who has already exhausted his potential, might even be able to attack the Warlock Emperor realm.

Yu Jingang's heart was full of bitterness and regret: "If only I had accepted him as my personal disciple!"

At the time when Yang Feng and Shi Xue joined Battle Demon Sect, only Shi Xue was accepted as a personal disciple by Yue Wuxian. With his poor aptitude, it would be almost impossible for Yang Feng to step into the gate of Battle Demon Sect. Had it not been for Shi Xue, Yang Feng would have been rejected by Battle Demon Sect.

No one thought that a level-2 Warlock with a low aptitude would advance step by step and become a Eternal Sovereign who is truly invincible in the world and has an infinite lifespan.

"Eternal Sovereign! How could he have advanced to an Eternal Sovereign! How could he have advanced to an Eternal Sovereign!"

Cangzhi Plane, in a big city, Bai Wuqing's eyes shimmered with the shade of incredulity, and the wine cup in his hand shattered.

The eyes of the former Taboo Monarch shimmered with a smile, "Eternal, he actually advanced to the Eternal realm! Worthy of the man chosen by my lord!"

Tai Yuan Starfield.

The eyes of Cloud Dragon Great Holy flickered with a carefree smile: "Eternal, he actually advanced to an Eternal Sovereign. That goes beyond my expectation. Ha-ha! I became the father-in-law of a mighty Eternal Sovereign."

Silver Brilliant Great Holy's eyes shimmered with a complex color: "Eternal, he actually advanced to an Eternal Sovereign."

Yinshe Xingkong's eyes flashed with envy. Back in the day, Yang Feng was just a Holy Spirit Warlock. But in less than 1,000 years, he has advanced to an invincible Eternal Sovereign.

Yinshe Xingkong sighed faintly: "I can't compare to him."

Eternal Ancient Road, the central starfield.

Starmoon Sky Snake Great Holy's eyes shimmered with fear, "Eternal Sovereign! Sure enough, he advanced to an Eternal Sovereign. Fortunately, although our starmoon sky snake race has become his vassal, but it has preserved its legacy."

Cyan Thunderbolt Great Holy uttered with a faint smile, "No, this was a blessing in disguise to your starmoon sky snake race. Since he advanced to the Eternal realm, you have become a vassal of an Eternal Sovereign. Now no one in the whole universe will dare to embarrass you."

Starmoon Sky Snake Great Holy was stunned slightly, and then said with a happy smile: "Yes, the starmoon sky snake race is now a vassal of the mighty Feng Eternal Sovereign. Is there anyone in the universe who would dare oppose the mighty lord?"

"Eternal!"

"Devour Lord advanced to the Eternal realm!"

"It's Devour Lord! He's the one who advanced to the Eternal realm!"

"Yang Feng advanced to the Eternal realm!"

"He actually advanced to the Eternal realm!"

"..."

The whole universe seethed. The races that were hostile with the human race were anxious, while Yang Feng's allies were excited.

"Eternal, he actually advanced to the Eternal realm! No! Impossible! The only Eternal slot is mine. I'm going to advance to the Eternal realm!"

The First Fiend Emperor's eyes flashed with a fierce shade, and he released heaven-shaking roars, erupted with countless mysterious runes, burned his blood, and tried to attack the Eternal realm.

A rune containing endless mystery and fiend bloodline marvels emerged and tried to form an Eternal imprint and integrate with the universe.

As soon as the rune appeared, it was crushed by a great force and collapsed directly.

At the moment when the rune collapsed, the First Fiend Emperor disintegrated and disappeared.

"Eternal! I am..."

As he disintegrated, the First Fiend Emperor burned with fearsome obsession.

"Eternal!"

The eight unequalled overlord-level Emphyreans of the world of Warlocks looked at Yang Feng, who is inside a sacred pillar of light and has advanced to the Eternal realm, with envy in their eyes.

At this time, unless an Eternal Sovereign steps in, no Empyrean can harm Yang Feng. Moreover, any Empyrean who attacks Yang Feng will suffer from a backlash and be suppressed by universe origin force.

In the sacred pillar of light, Yang Feng slowly opened his eyes, looked at the Empyreans born in the Cosmic Tree Sea, and pointed with his finger.

“No!”

“Don’t!”

“Don’t do that!”

“...”

Shrill screams erupted as the Empyreans born in the Cosmic Tree Sea turned into pure Eternal origin force that poured into Yang Feng.

If the Empyreans born in the Cosmic Tree Sea could kill Yang Feng and the others, and then devour the drop of flower dew, they would be able to leave the Cosmic Tree Sea and become a truly complete Empyrean. Now they are just incomplete existences and can be easily deprived of the Eternal origin force inside them by Yang Feng.

“Third Ancestor Dragon, since you are my enemy, then go to hell!”

Yang Feng glanced at the Third Ancestor Dragon coldly and extended his hand.

A giant hand containing Eternal aura fell from the sky and shot towards the Third Ancestor Dragon.

“Feng Eternal Sovereign, even if it’s you, it’s not that simple to kill me!”

The Third Ancestor Dragon’s eyes flashed coldly. He bellowed and waved his hand, and the Ten Thousand Dragons Tomb appeared.

True dragon qi welled up and 10,000 dragons opened their eyes.

The Fifth Ancestor Dragon’s eyes ejected out a torrent of time, which can fix the past, present, and future, and it swept towards Yang Feng.

One after another, true dragons flew out from the Ten Thousand Dragons Tomb and shot towards Yang Feng.

The true dragons spewed out dragon beads that barreled towards Yang Feng like meteors.

Even if it’s an unequaled overlord-level Empyrean, if they are besieged by the 10,000 dragons, they will be seriously injured or even quelled if careless.

When the giant hand containing Eternal aura slammed into the dragon beads, countless runes shone and easily quelled and sealed the dragon beads.

The true dragons just flew out, when they were blown away by the giant hand.

After blowing away countless true dragons, the giant hand pierced through the Third Ancestor Dragon’s magic boundaries and, while under the other party’s shocked gaze, grabbed him.

A black hole flickered and swallowed the Third Ancestor Dragon.

In an instant, the Third Ancestor Dragon turned into dust.

The Ten Thousand Dragons Tomb was enveloped by countless runes, and then contracted and flew into Yang Feng's hands.

"The effect isn't great. Even though I devoured an unequaled overlord-level Empyrean, it didn't upgrade my life origin by much. Only if I can devour 100 million Empyreans, only then will it be possible for me to advance further. It's a shame, but even if all the Empyreans born from the beginning of the universe to the present are added, they won't reach 100 million."

After he devoured the Third Ancestor Dragon, Yang Feng calculated the benefits he gained.

Chapter 1366: Michaelia Advances to an Empyrean

Above the Eternal realm, there still are stronger beings. The master of the white jade phalanx bone was a terrifying being above the Eternal realm. In the universe of the world of Warlocks, the strongest are Eternal Sovereigns. Yang Feng doesn't know what the beings above the Eternal realm are called. However, in high energy level universes, there are definitely beings more powerful than Eternal Sovereigns.

Primal Chaos Mother Spider saluted Yang Feng and said respectfully, "Greetings, mighty Feng Eternal Sovereign!"

"Greetings, mighty Feng Eternal Sovereign!"

The other Empyreans exchanged a look, and then bowed their heads and saluted Yang Feng.

Empyreans are beings far stronger than Holies. Similarly, Eternal Sovereigns are beings far stronger than Empyreans.

Yang Feng glanced at Primal Chaos Mother Spider and the other Empyreans and said indifferently, "Will you open your soul and submit to me, or will you die here?"

"Feng Eternal Sovereign, I know you're far stronger than I am, but you can't make me submit! No one can make me submit!"

Sun Lord stood straight as a ramrod, and his eyes radiated dazzling sunlight. He broke out with innumerable runes, turned into a giant sun, and slammed towards Yang Feng with indomitable aura.

Sun Lord has been invincible all his life. Even if he can't advance to the Eternal realm, he will never submit to anyone.

At this moment, six pairs of wings suddenly unfurled behind the Evil God Ancestor and flapped, a deep black force shrouded him, and he fled towards the outside.

The First Abyssal Master surged with demonic qi, and two Empyrean rank abyssal master corpses appeared and shot towards Yang Feng.

Mother of Myriad Broods waved her hand, and an insect hive full of ancient, desolate, and mysterious aura flew out, shone with countless runes, and turned into a 10,000-meters-tall hive full of gates.

One after another, Holy Spirit Warlock rank insect monsters flew out of the hive. A total of 10,000 insect monsters emitting Holy Spirit Warlock rank aura rushed towards Yang Feng.

Those insect monsters have no intelligence and are no match for Holy Spirit Warlocks. But 10,000 such insect monsters can slay even an Emphyrean. Even unequalled overlord-level Emphyreans will be killed by these insect monsters if careless.

This hive is a trump card Mother of Myriad Broods spent countless years to cultivate in order to compete for the Eternal slot. Now she's forced to release it just to run for her life.

After Mother of Myriad Broods released the hive, twelve pairs of wings unfurled behind her, and she ran away frantically.

Star Giant Lord's body broke apart and turned into countless strands of starlight that flew towards the outside.

Myriad Eyes Ancestor disintegrated into myriad eyeballs that shot in different directions.

"Since you don't want to submit, then die!"

Yang Feng smiled calmly and flicked his finger at Sun Lord's incarnation of a giant sun.

An unfathomable scene appeared.

Without any fluctuations of power, Sun Lord's incarnation of a giant sun collapsed and turned into pure origin force that flowed into Yang Feng.

Wiping out an overlord with the flick of a finger! So this is Eternal might!

A black hole emerged and swept towards the 10,000 Holy Spirit Warlock rank insect monsters. The 10,000 Holy rank insect monsters, which can easily destroy a world, were drawn into the black hole and turned into dust in an instant.

A terrifying torrent of time suddenly gushed out, swept Evil God Ancestor, Mother of Myriad Broods, the First Abyssal Master, Star Giant Lord, and Myriad Eyes Ancestor, and reversed the flow of time around them, and they appeared in the place where they stood previously.

A terrifying black hole suddenly emerged, swept towards the five unequalled overlords, and forcibly drew the five unequalled overlords inside.

"Yang Feng, let's die together!"

When Evil God Ancestor was drawn into the black hole, his eyes glimmered with the shade of despair, and he bellowed and burned his blood.

A dark as ink lance emitting Eternal aura without a lance head suddenly flew out, turned into a meteor, ran through the black hole, and stabbed towards Yang Feng.

"Eternal grade secret treasure? It's no use! You're too weak! Even though you have an Eternal grade secret treasure, you can't harm me!"

With a cold look in his eyes, Yang Feng reached out with his hand and easily caught the lance between his fingers. Runes shone and easily suppressed and sealed the lance.

“Devour Lord, I am willing to...”

The five unequalled overlord-level Emphyreans struggled and screamed in the black hole. After only a breath of time, they all turned into dust and had their life origin devoured.

Primal Chaos Mother Spider broke out in a cold sweat from her back, and her pretty eyes surged with the shade of horror, “So powerful! Feng Eternal Sovereign is so powerful! He’s much more powerful than the Eternal Sovereigns I have met so far. I was right to stay put.”

Back in her day, Primal Chaos Mother Spider had seen the horror of Eternal Sovereigns. Any Eternal Sovereign is a truly invincible being of an era. At that time, she bit an Eternal Sovereign. But that was before the Eternal Sovereign has advanced to the Eternal realm. With Primal Chaos Mother Spider’s strength, unless an Eternal Sovereign is mortally wounded, she is not a match for the other party.

Yang Feng said flatly, “Primal Chaotic Mother Spider, only you are left. Will you submit to me, or die?”

“Mighty Feng Eternal Sovereign, I am willing to submit to you and serve you.”

Primal Chaos Mother Spider knelt and surged with soul fluctuations, and a fearsome spider projection engraved with countless mysterious runes appeared.

Yang Feng pointed with a finger, and Eternal light condensed into an Eternal rune that broke into Primal Chaos Mother Spider’s soul. In this way, Yang Feng can decide the fate of Primal Chaos Mother Spider with a will.

Unless it’s an Eternal Sovereign far stronger than Yang Feng or some treasure of heaven and earth of a high energy level universe, it is impossible to break the rune set up in Primal Chaos Mother Spider’s soul.

Boom! Boom!

Along with loud bursts of noise, the Cosmic Tree Sea world formed by the Heaven and Earth Spirit Root began to collapse.

“It’s a shame, but this world is a special world that just appeared to cultivate an Eternal Sovereign. If this world were permanent, I would be possible to cultivate Emphyreans continuously.”

Two streams of light flashed, and Yang Feng and Primal Chaos Mother Spider appeared outside the Cosmic Tree Sea. Yang Feng looked at the collapsing Cosmic Tree Sea with the shade of regret in his eyes.

In the Cosmic Tree Sea, there were countless treasures of heaven and earth, including many treasures whose effects surpassed eternal god fruits. If the Cosmic Tree Sea existed permanently, it would be an inexhaustible treasury.

“Devour Lord!”

“No, it’s Feng Eternal Sovereign now!”

“He is the mighty Feng Eternal Sovereign!”

“It’s him!”

“...”

In the void, wills emerged one after another. Powerhouses at the Holy Spirit Warlock realm and higher cast all kinds of spells and gazed at Yang Feng, and their eyes shimmered with a complicated shade.

In the past, although Yang Feng was invincible in the world, but if several unequalled overlord-level Empyreans worked together, they would still be able to pose a threat to him. But after he advanced, Yang Feng became truly invincible and immortal, which made others despair.

Along with two flashes of light, Michaelia and Shi Yu walked out of the void.

“Big brother! I want a gift!”

Michaelia’s eyes flashed with a cheerful color, and she threw herself into Yang Feng’s arms and smiled coquettishly, filled with expectation.

“Okay! This is a present for you!”

Yang Feng smiled and flicked his finger, and the heart of the unequalled overlord-level angel empress flew into Michaelia’s hand.

“What a powerful angel empress heart! With this, I can advance to an Empyrean!”

Michaelia’s pretty eyes glimmered with the shade of excitement, and she clenched her hand. The angel empress heart turned into pure force that flowed into her body.

“If you want to receive my power, you will have to become my clone! Let’s fuse together!”

A terrifying will burst out from the angel empress heart and tried to seize Michaelia’s body.

Although Michaelia is a pinnacle quasi-Empyrean rank being, but she can’t suppress the terrifying will of the angel empress.

Yang Feng touched Michaelia’s forehead with a finger, and Eternal force emerged and boosted Michaelia’s soul, and her soul became extremely formidable.

“You’re already dead! Your power belongs to me!”

Michaelia snorted coldly. As if an unparalleled Angel Sword, her soul force slammed into the angel empress’s will and crushed it.

After the angel empress’s will collapsed, Michaelia absorbed the immense power of the angel empress.

Countless mysterious runes appeared and a vast, frightening power rose inside Michaelia’s body.

The universe energies within millions of light-years gathered and condensed into an Empyrean gate in the void.

“Break!”

With a cold flash in her pretty eyes, Michaelia slashed down with her sword, and a fearsome sword ray blasted into the Empyrean gate.

Boom!

The Empyrean gate was sliced open. Michaelia's figure fluttered, and she plunged into the Empyrean gate.

Before long, with Cangzhi Plane as the core, the universe energies within millions upon millions of light-years surged and condensed into countless Flowers of the Universe in the void.

"Flowers of the Universe! Someone successfully advanced to the Empyrean realm!"

"Michaelia has become an Empyrean!"

"She is the second powerhouse to advance to the Empyrean realm in this era!"

"The means of Eternal Sovereigns are unfathomable!"

"..."

The eyes of the spectating powerhouses surged with complicated emotions.

Chapter 1367: When a Person Gets to the Top, all Their Friends and Relatives Get There with Them

The endless number of Flowers of the Universe turned into a torrent and flowed into Michaelia's body.

Ripples surged, and a Sea of Power suddenly appeared in the void.

Michaelia flew into the Sea of Power, absorbed its origin force, and transformed continuously.

After Michaelia absorbed enough origin force, the Sea of Power disappeared.

Countless rays of starlight condensed into 9.99 million stars and formed a Ring of Starlight in the void.

The Ring of Starlight radiated countless rays of starlight that illuminated Michaelia, allowing her to comprehend the essence of fate.

After the Ring of Starlight disappeared, a huge Gate of Space emerged.

Countless mysterious runes gushed out of the Gate of Space and poured into Michaelia.

"The fourth vision, how can Michaelia trigger the fourth vision? Even though she's a variant of heaven and earth, the resources she built up are too shallow to trigger the fourth vision."

"It's because of that angel empress's heart! It must have been the heart of an unequalled overlord-level angel empress."

"Feng Eternal Sovereign is really something else!"

"Eternal Sovereigns are truly dreadful!"

"..."

The eyes of the spectating powerhouses shimmered with envy.

Angel emperors have the potential to evolve into an Empyrean. However, that's just potential. Who knows how hard it is for them to advance to an Empyrean. Moreover, even if they advance to an

Empyrean, they usually can only trigger three visions. Yet Michaelia triggered four visions. This shows that her evolution potential is comparable to that of unequaled overlords like Time Lord.

A frightening Empyrean might diffused from Michaelia. As if an invincible angel empress, she walked out of the void filled with starlight and arrived in front of Yang Feng, and her eyes filled with joy: "Thank you, big brother!"

"Younger sister Shi Yu. Isn't it about time that you start calling me older sister?"

With a proud gleam in her pretty eyes, Michaelia turned around and looked at Shi Yu, and boundless Empyrean might diffused from her and swept towards Shi Yu.

"Big brother!"

Shi Yu gritted her teeth, looked at Yang Feng pitifully, and implored softly.

"I have a gift for you, as well!"

Yang Feng smiled and waved his hand, and the heart of the stoneman emperor flew out and entered Shi Yu's hand.

"Thank you, big brother!"

There was a flash of ecstasy in Shi Yu's beautiful eyes. In an instant, she broke out into countless mysterious runes and inhaled the stoneman emperor's heart.

"You..."

The will of the stoneman emperor just appeared, when Yang Feng touched Shi Yu's forehead with a finger, and a wisp of Eternal force surged and shattered the will.

Countless mysterious runes appeared on Shi Yu and spread in all directions.

The energies within millions of light-years were extracted again, setting off terribly energy storms in the universe.

An Empyrean gate appeared once more in the void.

"Again!"

"It's a second Empyrean!"

"This time, is it Shi Yu?"

"When did it become so easy to be promoted to an Empyrean?"

"..."

When the spectating powerhouses saw the Empyrean gate, they were stunned and couldn't believe their eyes.

Shi Yu's figure swayed slightly, and she arrived in front of the Empyrean gate and unleashed a punch. Her punch smashed the Empyrean gate, and she flew inside.

The Flowers of the Universe appeared again and spread all over the void.

“It’s a success!”

“When a person gets to the top, all their friends and relatives get there with them!”

“Feng Eternal Sovereign is too powerful!”

“So this is the power of an Eternal Sovereign. To enable other powerhouses to easily advance to the Empyrean realm, truly formidable!”

“Devour Imperial Court is worthy of being the strongest imperial court in the history of the human race. No, with Feng Eternal Sovereign present, it is one of the strongest imperial courts in the history of our universe!”

“...”

When the spectating powerhouses saw the Flowers of the Universe, their eyes surged with complicated emotions.

Even during the times when Eternal Sovereigns existed, it took on average 100,000 years for an Empyrean to be born. Yet now, in such a short time, two Empyreans have been born. This is just incredible.

The Sea of Power and the Ring of Starlight appeared one after another.

After the Ring of Starlight disappeared, the Gate of Space emerged abruptly, and an endless amount of space runes spilled out and flowed into Shi Yu.

“Four visions! Shi Yu also triggered four visions!”

“Feng Eternal Sovereign is really formidable!”

“That’s a vision that only unequalled overlords can trigger! Four visions!”

“...”

The eyes of the spectating powerhouses shimmered with envy.

“When a person gets to the top, all their friends and relatives get there with them indeed!”

Feng Xuanzhen, who is in a far away secret realm, looked at the Gate of Space in the void, and his eyes flashed with the shade of bitterness.

According to all predictions, Feng Xuanzhen was the peerless paragon of the human race in this era and one of the future leaders of the human race. But then Yang Feng emerged, defeated Feng Xuanzhen in one fell swoop, grasped all the opportunities that presented themselves, and finally advanced to the Eternal realm.

Now the combat power of Yang Feng’s core subordinates has exceeded that of Feng Xuanzhen by far.

“When a person gets to the top, all their friends and relatives get there with them!”

Blue Moon Merfolk Empress looked at the Gate of Space with a bitter gleam in her beautiful eyes.

Back then, in the eyes of Blue Moon Merfolk Empress, both Michaelia and Shi Yu were not worth paying attention to. But now they have both advanced to the Empyrean realm. Furthermore, they have triggered four visions. Their evolution potential is higher than that of Blue Moon Merfolk Empress.

With a slight flash of light, Shi Yu hugged Yang Feng's arm and smiled like a flower, filled with joy, "Thank you, big brother!"

"Michaelia, call me older sister!"

With that, Shi Yu also burst out with fearsome Empyrean might and threw Michaelia a look of provocation.

"Older sister Shi Yu!"

After weighing things, Michaelia judged that she is not a match for Shi Yu and called reluctantly.

With a flash of ripples, Death Lord walked out of the void, bowed to Yang Feng, and said unhurriedly, "Greetings, mighty Feng Eternal Sovereign! Please fulfill your promise to me."

Yang Feng responded: "No problem. But before that, I have something else to do."

"Sorry, I was too impatient."

Death Lord nodded and suppressed the joy in his heart, and then turned into a stream of light and disappeared.

Yang Feng pointed with a finger, and the Blue Mirror of Fate and the Web of Fate appeared, burst out with dazzling light, broke out with innumerable mysterious runes, and resonated with each other.

In a secret palace, the complexion of a shrewd looking Empyrean with a monkey tail wrapped around the waist suddenly changed, and the Veil of Fate containing an endless fate aura flew out directly.

"This is the resonance of the three great fate-type secret treasures! It's Feng Eternal Sovereign's doing! What now?"

The expression of Aurum Ape Emperor changed dramatically, and he looked at the Veil of Fate with intense reluctance.

The Veil of Fate has saved Aurum Ape Emperor's life who knows how many times. Without the Veil of Fate, he would have died long ago and could not have advanced to an Empyrean.

"No, the Veil of Fate is mine! No one can take it from me. If I run away immediately, even an Eternal Sovereign won't be able to catch me! Let's sever the resonance!"

With a cold gleam in his eyes, Aurum Ape Emperor pointed with his finger, and a golden rune entered the Veil of Fate.

A fearsome fate aura emerged from the Veil of Fate, cut off the river of fate, and erased all traces of fate.

Countless golden runes shone, and golden rune chains twisted around the Veil of Fate and sealed it.

Aurum Ape Emperor grabbed the Veil of Fate, and then turned into a golden ray and fled towards the outside.

“You want to escape? It’s a shame, but you’re a step too slow!”

Ripples surged, and Yang Feng walked out of the void and gazed at Aurum Ape Emperor, an icy look on his face.

“Greetings, mighty Feng Eternal Sovereign!”

As soon as Aurum Ape Emperor saw Yang Feng, he felt a chill in his heart. He saluted Yang Feng and spoke respectfully.

Yang Feng said flatly, “Hand over the Veil of Fate and submit to me. I’ll spare your life!”

Aurum Ape Emperor bowed and said respectfully, “Mighty Feng Eternal Sovereign, the Veil of Fate is mine. You are a great and noble Eternal Sovereign and are proficient in the essence of fate. Must you fight me for a mere Empyrean grade secret treasure?”

“What do you know? The three great fate-type secret treasures contain the mysteries of fate. If the three treasures are united, they can form an Eternal grade fate-type secret treasure. I am determined to get this treasure! Since you don’t want to hand it over, then you can die!”

Yang Feng pointed at Aurum Ape Emperor with a cold look in his eyes.

In an instant, Yang Feng’s finger changed into a terrifying heavenly pillar that suppressed the void and extended towards Aurum Ape Emperor

“Even though you are an Eternal Sovereign, it still won’t be that easy to kill me!”

With a fierce flash in his eyes, Aurum Ape Emperor took out a golden wolf tooth club, which emanated Empyrean might, tore the firmament, and shot towards the heavenly pillar.

As if containing a universe will, the heavenly pillar easily smashed the golden wolf tooth club, and then slammed into Aurum Ape Emperor and crushed him.

A black hole emerged and devoured Aurum Ape Emperor.

Yang Feng beckoned with his hand, and all kinds of secret treasures of Aurum Ape Emperor flew out and flew into his hand. The Veil of Fate also fell into his hand.

Mysterious runes shone, and the three great fate-type secret treasures, namely the Blue Mirror of Fate, the Web of Fat, and the Veil of Fate, resonated with each other and fused together.

Chapter 1368: Eternal Grade Secret Treasure, Mirror of Fate

Within millions of light-years, terrifying energy storms were set off, and an endless amount of energies converged and formed dark clouds.

Countless lightning runes surged inside the dark clouds, and human-shaped lightning exuding Empyrean rank aura emerged in the dark clouds.

“Divine Punishment Thunderclouds!”

“That’s the legendary Divine Punishment Thunderclouds that can quell even Emyreans.”

“Back in the day, when Arcane Treasure Emperor wanted to refine an Eternal grade secret treasure, he gathered five Emyreans, yet they were still easily quelled by the Divine Punishment Thunderclouds.”

“Is an Eternal grade secret treasure about to be born?”

“...”

When powerhouses saw the thunderclouds containing the power to destroy anything in the void, a dignified color flashed in their eyes.

“Divine Punishment Thunderclouds! Because of this thing, I didn’t dare refine Eternal grade secret treasures. The three great fate-type secret treasures could not be united because of it. Fend Eternal Sovereign is really bold.”

Magic Note Lord looked at the Divine Punishment Thunderclouds, and his eyes flashed with a dignified color. He is proficient in alchemy and has refined who knows how many secret treasures. He even refined several Emyrean grade secret treasures with the potential to advance to Eternal grade secret treasures. However, he didn’t dare to refine Eternal grade secret treasures. After all, once the Divine Punishment Thunderclouds appear, he will die without the shadow of a doubt.

Lightning flashed and thundered, and a thunderbolt lance millions of kilometers long, that can easily pierce through a world, emerged abruptly and shot towards Yang Feng.

The thunderbolt lance is the manifestation of the universe annihilation will. If an Emyrean rank overlord is hit by the thunderbolt lance, they will be easily pierced through and turned into ashes.

Except for the 36 primary material planes, any plane in the universe of the world of Warlocks will be destroyed once hit by the thunderbolt lance.

“But! What pure universe energy!”

In the face of the earth-shaking blow of the Divine Punishment Thunderclouds, Yang Feng raised the corners of his mouth into slight smile and spread the fingers of his hand. A black hole appeared directly and easily swallowed the thunderbolt lance.

Countless runes flashed inside the black hole, and the thunderbolt lance was turned into pure force that flowed into Yang Feng’s body.

The fearsome black hole reached the Divine Punishment Thunderclouds in an instant, broke out with terrifying devour force, and swallowed the Divine Punishment Thunderclouds.

“The Divine Punishment Thunderclouds were swallowed just like that?”

“The Divine Punishment Thunderclouds is gone just like that?”

“That’s the Divine Punishment Thunderclouds! The Divine Punishment Thunderclouds that can easily vanquish Emyreans! It’s gone just like that?!”

“...”

The spectating Empyreans gazed at the empty sky with a blank look in their eyes. Divine Punishment Thunderclouds can easily vanquish an Empyrean. Those powerhouses thought that Yang Feng would have to fight the Divine Punishment Thunderclouds for hundreds of rounds, for several days and nights. They didn't expect that the Divine Punishment Thunderclouds would be swallowed by Yang Feng in one move.

Magic Note Lord's eyes flashed with a complex color, and he sighed faintly: "An Eternal Sovereign is really strong beyond imagination. In this universe, there are not many things that can harm him."

The three fate-type secret treasures merge with each other. At the moment when they were about to merge completely, a tremendous repulsive force gushed out of the three fate-type secret treasures and rejected the merger.

"Sure enough, a fate-type Eternal grade secret treasure is incredible. Although the powerhouse who refined this Eternal grade secret treasure was an Eternal Sovereign, yet they could not refine it at one time. They could only place it here to absorb the fate force of countless powerhouse and condense step by step."

"But since I have advanced to the Eternal realm, this treasure is destined to come into being today."

Yang Feng's eyes flashed. He erupted with countless runes and pointed with his finger, and a huge torrent of fate flowed into the three great fate-type secret treasures.

Under the crushing power of fate force that contains Eternal force, the three great fate-type secret treasures finally merged together inch by inch.

Nine days later, an ancient bronze mirror, which looks very ordinary yet contains fearsome power, suddenly appeared, and fate fluctuations diffused from it.

"Mirror of Fate! Unexpectedly, my first Eternal grade secret treasure is the Mirror of Fate!"

Yang Feng looked at the bronze Mirror of Fate with a queer shade in his eyes.

The Xi Shen Armor, the Unbreakable Shield, and the Spirit Osta Fortress, they all have the potential of advance to Eternal grade secret treasures. In particular, the Xi Shen Armor is Yang Feng's first Empyrean grade body protection secret treasure, yet his first Eternal grade secret treasure is the Mirror of Fate. This made him perceive the fickleness of fate.

Although the Mirror of Fate is an Eternal grade secret treasure, but its offensive capability isn't strong. Yet it can easily change a person's fate. And as long as someone leaves a trace in the universe, Yang Feng can find the other party through the Mirror of Fate.

In the universe of the world of Warlocks, as long as anyone has killing intent or hostility directed at Yang Feng, the Mirror of Fate will warn him, making all assassinations impossible.

Thanks to the power of the Mirror of Fate, if anyone tries to advance to the Empyrean or Eternal realms, Yang Feng will be able to perceive it easily. By then, if he wishes, Yang Feng can kill powerhouses before they can advance to the Empyrean or Eternal realms.

Yang Feng waved his hand, and Shi Xue's aura entered the Mirror of Fate.

Mysterious runes gushed out of the Mirror of Fate, and a set of universe coordinates suddenly appeared in Yang Feng's sea of knowledge.

Ripples rose in the void, and Yang Feng disappeared from his place.

At the edge of the universe, there is a desolate starfield full of abandoned stars.

With a slight flash of light, Yang Feng appeared in the star field and came to an abandoned star

Yang Feng touched the abandoned star with a finger.

Ripples rose, and a powerful illusion spell set up on the abandoned star collapsed.

A magnificent ice palace suddenly appeared in front of Yang Feng.

"Who is it? Who dares to disturb my lord's sleep?"

In front of the ice palace, an ice phoenix sculpture broke out with countless mysterious runes. The ice phoenix came to life, broke out with quasi-Empyrean rank fluctuations of power, and stared coldly at Yang Feng.

Yang Feng walked out of the void, stood quietly in front of the ice phoenix, and uttered unhurriedly, "It is I! Yang Feng! Feng Eternal of the Ninth Warlock Imperial Court and Shi Xue's older brother!"

"So it's lord Yang Feng! No, it's the great Feng Eternal Sovereign! My lord has told me that if you come, you may go in. Please go in!"

Countless mysterious runes appeared on it, and the ice phoenix turned into a gorgeous girl with a noble temperament and saluted Yang Feng respectfully.

An Eternal Sovereign is a being invincible in the universe of the world of Warlocks. Even if it's a quasi-Empyrean, but in the eyes of an Eternal Sovereign, they are just a slightly powerful ant.

With the ice phoenix leading the way, Yang Feng went through one palace after another and came to a palace shrouded in endless ice force.

In the center of the palace, there is a mountain of ice made of Sacred Ice. Every piece of Sacred Ice is made of the quintessence of ice. A piece the size of a fingernail of Sacred Ice is enough for an ice-type level-1 Warlock to cultivate all the way to the Glorious Sun Warlock rank.

At the top of the mountain of ice, there is an ice coffin suspended.

The ice coffin is shining with countless mysterious runes and absorbing a tremendous amount of ice force from all around.

Yang Feng took a step, crossed the many boundaries of the mountain of ice, and climbed to the top of the mountain.

The ice phoenix's eyes flickered with shock, "Amazing. As expected of an Eternal Sovereign. He is the most powerful person in this era!"

There are many powerful defensive boundaries set up on the mountain of ice. If they don't enter according to a specific set of steps, even an ordinary Empyrean will be directly suppressed and frozen.

Yang Feng came to the top of the mountain, looked at the ice coffin, and saw a peerless beauty with long black hair lying in the ice coffin. This peerless beauty is Shi Xue.

Shi Xue's eyebrows are creased and her face is contorted in pain.

Yang Feng swept Shi Xue with his tremendous soul force and frowned: "What a severe injury!"

A tremendous space-time backlash force has filled Shi Xue's body, reducing her life origin and lifespan with every passing moment.

The ice phoenix complained: "At that time, when Boyan Lord arrived at our universe, it was a time when the fluctuation of the universe's power was most severe. If I had not saved you, my lord would not be in this state right now. My lord may have become an Eternal Sovereign."

When Yang Feng heard the ice phoenix's complaint, he smiled bitterly and didn't say a word. As he continued to scan Shi Xue with his tremendous soul force, his eyebrows became more and more wrinkled.

The ice phoenix's beautiful eyes flashed with worry, and she asked curiously, "Lord Feng Eternal Sovereign, can my lord still be saved?"

Yang Feng said slowly, a dignified expression on his face, "She can! If I split half of my Eternal origin, I can cure her completely."

The ice phoenix's expression changed slightly and her eyes twinkled, yet she remained silent.

Eternal origin is the core of an Eternal Sovereign. Once Yang Feng splits half of his Eternal origin, he will not only be seriously wounded, but he'll even drop from the Eternal realm.

It never occurred to the ice phoenix that it may be impossible to save Shi Xue with the unfathomable means of an Eternal Sovereign.

Yang Feng continued: "There is also another way! That is, to kill some Eternal Sovereigns and extract their Eternal origin. In this way, Xue'er's injuries can be treated and she can even advance to a higher level."

Chapter 1369: Nether Moon Island

The ice phoenix's eyes lit up and glimmered with the shade of hope.

In the past, killing an Eternal Sovereign was almost impossible. That's because the world of Warlocks didn't have a single Eternal Sovereign.

However, there are three Eternal Sovereigns in Gumana Universe. If they are killed and their life origin is plundered, it can be used to save Shi Xue.

Yang Feng slashed his wrist with his hand, and drops of precious Eternal blood fell down and disappeared into Shi Xue's red lips.

Under the nourishment of the Eternal blood, Shi Xue's eyebrows relaxed, and she fell into a deep slumber.

Yang Feng frowned slightly, and a complex color flashed in his eyes: "The temporal backlash is really terrible! At that time, she probably tried hard so that I wouldn't notice."

When Boyan Lord descended on the world of Warlocks, there were hundreds of Emphyreans sleeping in the universe, but none of them stepped in. That's because the temporal backlash would be really terrible.

If Shi Xue had not come out and suppressed Boyan Lord. At this time, the universe of the world of Warlocks would not be the state it is now.

Yang Feng touched the Mirror of Fate with a finger, and countless mysterious runes welled up in the Mirror of Fate. In the deepest part of the Mirror of Fate, a star shrouded in ice and snow emerged.

Yang Feng inserted his hand into the Mirror of Fate.

The void in a starfield split open abruptly, and a large hand ejected from the void and shot towards a star with a diameter of 300,000 kilometers.

"Who dares to come to my Sky Ice Emperor Palace!"

Frightening Emphyrean aura rose from the star, and Ancient Ice Deus shrouded in endless frost came out of the star, brandished a frost halberd, and attacked the large hand.

"Die!"

An ice-cold voice sounded in the void, and a large finger containing Eternal force shot towards Ancient Ice Deus.

"Feng Eternal Sovereign! You..."

The eyes of Ancient Ice Deus flickered with shock. He just opened his mouth, when the large finger pressed on his head, and terrifying Eternal force broke out and suppressed and sealed him.

Countless mysterious runes shone, and the large hand grabbed the star with a diameter of 300,000 kilometers. Thanks to a mysterious spell, the star shrank until it was the size of a palm, and then disappears into the rift.

In the ice palace, Yang Feng took out his hand from the Mirror of Fate, and an azure ball full of mystery appeared and emitted a cold aura.

The eyes of the ice phoenix shimmered with the shade of shock, "This is the Sky Ice Emperor Palace, where Ancient Ice Deus resides! He seized it so easily! Eternal Sovereigns are really scary!"

The Sky Ice Emperor Palace has the Emphyrean rank Ancient Ice Deus. Even when she was in her peak condition, Shi Xue was not willing to easily provoke such a fearsome force. Yet such a fearsome force was easily quelled by Yang Feng.

Yang Feng flicked his finger, and the Sky Ice Emperor Palace suspended above the ice coffin and shone with countless runes. Pure ice force poured into the ice palace from the Sky Ice Emperor Palace.

Yang Feng reached into the Mirror of Fate again, grabbed nine stars containing the ice origin, and placed them above the ice coffin. Fearsome ice force poured into the ice coffin from the ten stars.

“What impressive ice force! Every one of these ten stars can give birth to an Empyreans or has given birth to an Empyrean.”

Subjected to the fearsome ice force, the ice phoenix trembled and kept retreating. She couldn't withstand the Empyrean rank chill.

Eternal blood flew out of Yang Feng's right hand and condensed into a bottle of blood. A drop of Eternal blood dropped from the bottle of blood and fell into Shi Xue's mouth.

Yang Feng took a deep look at Shi Xue, and his eyes flickered with reluctance, which then gave way to determination. He glanced at the ice phoenix and said, “I'll take my leave! Stay here and protect her. When she wakes up in the future, I will help you advance to the Empyrean realm!”

The ice phoenix's beautiful eyes flashed with the shade of elation, and she responded respectfully, “Yes! Many thanks, great Feng Eternal Sovereign!”

Yang Feng sighed slightly and spread the fingers of his hand, and countless runes containing Eternal mysteries emerged and shrouded the ice palace.

Thanks to these runes, if an unauthorized Empyrean enters the ice palace, they will be killed directly. Only an Eternal Sovereign can break this boundary by force.

A torrent of fate swept the ice palace and hid it inside. Even if it's an Eternal Sovereign, they won't be able to detect the ice palace.

With a flicker of ripples, Yang Feng disappeared from this place.

Cangzhi Plane, Nether Moon Island.

Nether Moon Island is the entrance to Netherworld and the boundary that separates life and death on Cangzhi Plane. At the same time, it is a terrible danger zone.

From Nether Moon Island, the living can enter the world of the dead — Netherworld!

Nether Moon Island is located in Necro Sea. In the almost endless Necro Sea, there are countless nether creatures. No ships can sail in Necro Sea except for nether ships.

Nether Moon City is a large city on the edge of Necro Sea. In this large city, the powerhouses of various races gather to purchase precious treasures of heaven and earth of Necro Sea from creatures of Necro Sea.

“So this is Nether Moon City.”

As he strolled inside Nether Moon City, Yang Feng saw all kinds of strange races

Covered with a black cloak, as if a living dead, Death Lord was taciturn and exuded a sense of melancholy.

Yang Feng glanced at Death Lord and said, “To not say so much as a word, how boring. I wonder what your wife liked about you.”

Death Lord remained silent.

Yang Feng ignored Death Lord and walked towards the edge of Necro Sea.

At the edge of Necro Sea, there is a black, 30-meter-long nether ship engraved with countless mysterious nether runes and emitting nether aura anchored.

“A trip to Nether Moon Island costs a mid grade soul stone.”

Shrouded in a black cloth, an emissary of the nether ship, who is spliced from various bones, spoke slowly.

Yang Feng waved his hand, and two mid grade soul stones flew into the hand of the nether ship’s emissary. Yang Feng boarded the nether ship together with Death Lord.

At this time, there are already six people aboard the nether ship. Among the six people, there is a middle-aged man with a haggard and gloomy face, looking like a living dead; an extremely beautiful and sexy Warlock 27 or 28 years of age; two young and lively beautiful Warlock sisters; a dashing young Warlock; and a tall and sturdy ogre powerhouse with a horn on the head.

“Older sister, that uncle is so handsome! He exudes an air of melancholy, which is really fascinating!”

When a beautiful girl, who looks like she’s only 15 or 16 years old, saw Death Lord, her eyes brightened, and she activated a sound-proofing boundary and whispered.

A beautiful girl who looks like she’s 23 or 24 years old, yet has a mature temperament, wrinkled her eyebrows and said, “Yingying, how many times have I told you not to talk about others behind their backs. Besides, in the wide world, there are countless powerhouses. The sound-proofing boundary isn’t omnipotent.”

Qian Yingying said with a smile, “I’m a Glorious Sun Warlock. To eavesdrop on me, you have to be at least an Infinity Warlock rank expert. Why would Infinity Warlocks go to a damnable place such as Nether Moon Island?”

Nether Moon Island’s keepers will kill all powerhouse at the Infinity Warlock realm or higher. As such, no Infinity Warlock rank powerhouse dares to go to Nether Moon Island. Even if it’s a Holy Spirit Warlock rank powerhouse, they will be slayed by Nether Moon Island’s keepers.

The degree of danger in each plane’s Netherworld is different. In Feisuo Plane’s Netherworld, an Infinity Warlock rank powerhouse can run amuck. However, Cangzhi Plane is the core of the universe and its Netherworld is one of the most dangerous places among myriads of worlds. Even Death Lord can’t go to the deepest part of Cangzhi Plane’s Netherworld.

Qian Yingying was very dissatisfied and said, “Besides, I said that he’s fascinating. I didn’t speak ill of him. What’s wrong with that?”

Qian Meimei uttered helplessly, “Don’t you know that misfortune follows a loose tongue? There are times when quarrels will develop into enmity. We are on a major mission. There cannot be any accidents.”

Qian Yingying said dissatisfiedly, “I know!”

Yang Feng smiled lightly and said: "According to ancient records, countless beautiful women have gone crazy over you. That seems to be true! Death Lord!"

Death Lord was silent, a dull look on his face.

Yang Feng shook his head and paid Death Lord no more mind: "What a dull person! There are even people who like people like that!"

After a while, the nether ship's messenger picked up the oars, and the nether ship set off.

Two runes appeared in Yang Feng's eyes, and he looked at the nether ship and analyzed its laws.

Every Eternal Sovereign has a terrifying learning ability and can easily analyze the laws of their universe.

Any Eternal Sovereign can use more than 100 kinds of essences. However, the most powerful essences they wield are still the essences which they used to condense the Eternal imprint.

"Hello, I am Chen Feihai from the Yuyuan Manor's Chen Family. What do I call you, young ladies?"

The dashing young man smiled and approached the two beautiful Warlock sisters.

Qian Meimei frowned slightly and said in reply, "Qian Meimei!"

Yet Qian Yingying's eyes burst out with enigmatic light, and she uttered with a bright smile: "Qian Yingying!"

Chen Feihai was so eloquent that he coaxed Qian Yingying into a smile, and the two sides chatted enthusiastically.

Chapter 1370: Netherworld

"Hello, I am Qian Meimei. What's your name?"

Qian Meimei felt that there's something extraordinary about Yang Feng and asked thusly.

Upon seeing this scene, Chen Feihai's eyes flashed with displeasure. Qian Yingying is young and lively, yet Qian Meimei intellectual beauty is more to his liking.

Yang Feng answered, "My name is Yang Feng."

"Yang Feng!"

As if this name contained magic power, the eyes of the powerhouses aboard the nether ship constricted, and they looked carefully at Yang Feng.

Even the nether ship's emissary looked at Yang Feng.

Chen Feihai smiled coldly and said, "There's no need to look. With how big the world is, there are as many people called Yang Feng as the hair of an ox. But there is only one Feng Eternal Sovereign. That great person is an Eternal Sovereign. There's no way he would come to such an insignificant place?"

Thanks to Cangzhi Plane's magic network, the images of many great people have been widely spread.

Empyreans are practically the embodiment of a certain law of the universe. Unless they deliberately let people know, the magic network cannot bear their existence.

With Yang Feng's terrifying power as an Eternal Sovereign, as long as he wishes, he can even make all the creatures in the whole universe, except for Holy Spirit Warlocks and Warlock Emperors, forget his existence.

Qian Meimei hesitated for a moment and said, "Yang Feng, it's a good name. You have the same name as that great person. However, Yang Feng, you should be careful. If the officials of Devour Imperial Court learn of your name, I'm afraid something bad will happen."

Yang Feng said with a smile: "Don't worry. Feng Eternal Sovereign won't care about such trifles."

The name Yang Feng is very common. On Cangzhi Plane alone, there are 10,000 people named Yang Feng. Yang Feng doesn't care about such trifles at all.

Qian Yingying snorted coldly, "Humph. Can't recognize others' good intentions. Although Lord Feng Eternal Sovereign may won't mind such trifles, but his people may mind."

Qian Meimei said with a helpless smile, "My little sister was impolite. Please forgive her."

There are people who like Qian Yingying's character much. However, she can easily offend others, as well. Qian Meimei is aware that not every Tom, Dick, and Harry can board the nether ship. Naturally, she doesn't want to make an enemy for no reason.

Yang Feng uttered flatly: "It's fine. Since she's still young, it's understandable that she isn't sensible."

The proud Qian Yingying straightened her back and said, "Young? I'm 300 years old!"

Yang Feng smiled faintly and didn't argue with Qian Yingying.

The journey to Nether Moon Island was uneventful.

At the entrance of Nether Moon Island, there stood four 10-meter-tall nether emissaries composed from bones, with each bone engraved with abstruse runes.

As soon as the nether ship arrived at Nether Moon Island, the eyes of the four nether emissaries flashed with a dim light, and they looked at the nether ship.

When faced against the nether emissaries' Nether Pupils, even Empyreans can't escape their attention. Before Yang Feng advanced to the Eternal realm, only by using the Empyrean grade Mask of Fantasy Spirit Emperor, only then would he be able to escape the prying eyes of the nether emissaries.

If the four nether emissaries were outside Nether Moon Island, they wouldn't be worth mentioning. Any Infinity Warlock would be able to deal with them. However, on Nether Moon Island, even a quasi-Empyrean rank powerhouse can be slayed by them if careless.

Only Empyreans can smash the laws and easily kill the four nether emissaries on Nether Moon Island.

The gazes of the nether emissaries fell on Yang Feng and Death Lord, and then passed them without noticing anything.

“Nether Moon Island! This is the territory of the dead! The living shall not enter!”

A faint, cold voice echoed in the void.

Fearsome nether aura gushed out of Nether Moon Island and swept towards the eight people on board the nether ship.

The eight people all took out Nether Jades, and nether aura gushed out of the Nether Jades, shrouded them, and made them emit the aura of the dead.

The eyes of the four nether emissaries flickered with faint light, and then became dim.

Yang Feng looked at Nether Moon Island and saw that the whole island is shrouded in endless darkness. One after another, strange nether fires emerged in the void and became the only light of Nether Moon Island.

On Nether Moon Island, corpse-like soul eaters without a soul can be seen everywhere.

Corpse that died in Necro Sea as well as some corpses that came from mysterious places will become soul eaters and wander on Nether Moon Island.

The whole Nether Moon Island is full of a deathly, desolate, and terrifying aura. If a Great Warlock goes to Nether Moon Island, they will be eroded by nether aura and become a dead person.

The ogre powerhouse with a horn on his head walked out of the crowd and silently entered Nether Moon Island.

Nether Jade is produced on Nether Moon Island. Nether Jade, which contains nether aura, is necessary for many nether Warlocks to practice cultivation. It is very precious.

Additionally, there are also nether fruits on Nether Moon Island. Nether fruits are a kind of strange treasure that nether Warlocks long for.

.

Nether Warlock is a powerful branch of human Warlocks. Although nether Warlocks haven't given birth to an Empyrean so far, but they have given birth to five Holy Spirit Warlocks. Nether Warlocks are far stronger than other Warlocks of the same realm.

The haggard middle-aged man, who looks like a living dead, went into the darkness and disappeared.

Chen Feihai smiled and said, “Ladies and gentlemen, it seems that you all want to go to Netherworld. Why don't we go together?”

Seeing that no one had any objections, Chen Feihai smiled and flicked his fingers, and a green firefly flew out of his hand, turned into a dark green radiance, and flew towards the front slowly.

Everyone followed the green radiance.

Hair-raising wind blew incessantly.

Piercing wails, screams, and laughter came from all parts of Nether Moon Island without warning.

The Qian sisters, the beautiful and mature female Warlock Lin Xia, and Chen Feihai became slightly green in the face and trembled.

Qian Meimei took a deep look at Yang Feng and Death Lord, and a queer shade flashed in her eyes: "These two are impressive! They should be Bright World Warlock rank powerhouses!"

Chen Feihai followed Qian Meimei's gaze. After seeing Yang Feng and Death Lord, a gloomy color flashed in his eyes. He is a Glorious Sun Warlock and can't resist the erosion of nether aura. Yet Yang Feng and Death Lord can easily resist the erosion of nether aura. There is only one possibility, that is, they are Bright World Warlock rank experts.

Even it's Yuyuan Manor's Chen Family, it will attach great importance to a Bright World Warlock. And won't easily offend powerhouses of this realm.

After walking for 3,000 kilometers, a towering nether mountain, whose peak entered the void, appeared in front of everyone's eyes.

At the foot of the nether mountain, there is a huge cave 1,000 meters tall. In this cave, there is a twisted channel constructed from countless strands of nether aura.

The nether mountain is called Netherfield Mountain, while the huge cave is called Nether Cave.

"The living shall not enter! The dead shall not exit!"

Ten words are engraved on both sides of Nether Cave.

Chen Feihai looked at Nether Cave with fear in his eyes: "This is the entrance leading to Cangzhi Plane's Netherworld. Once we step into Nether Cave, it will be hard to come back!"

Netherworld is the world of the dead. In Netherworld, there is a magical river Styx. Even if it's an Emphyrean, if they enter the river Styx, their soul will be cleansed, and they will become a corpse.

Even if it's an Eternal Sovereign, if they are cleansed in the river Styx for 10 years, their soul will be eroded, and they will be in danger of dying.

Cangzhi Plane's Netherworld is the most dangerous Netherworld in the universe. Even Emphyreans are not willing to stay there.

For nether Warlocks, Netherworld is a world full of opportunities and dangers alike.

"Husband, I've come to see you!"

Lin Xia smiled sweetly and stepped into Nether Cave.

Yang Feng smiled calmly and walked in together with Death Lord.

Chen Feihai gritted his teeth and stepped into Nether Cave.

The Qian sisters followed suit and entered, as well.

After going through the twisted channel, and a vast nether aura assaulted Yang Feng's face.

Yang Feng looked in front of him and saw that Lin Xia's eyes have lost all luster. She turned into a corpse-like living dead and walked away slowly.

"To go to Netherworld to find her husband! It's not that simple! This is Cangzhi Plane, not Feisuo Plane."

Yang Feng glanced at Lin Xia, and then looked away.

Lin Xia is just a Moonlight Warlock and doesn't have a powerful nether secret treasure. Upon entering Netherworld, her death was all but guaranteed.

Even if it's an Infinity Warlock, they must rely on the power of secret treasures to be able to travel within Cangzhi Plane's Netherworld.

An ancient bronze lamp lit up in the rear. Illuminated by the ancient bronze lamp's light, Chen Feihai walked out of the channel.

Qian Meimei and Qian Yingying also came out of the channel.

"Interesting! This is nether bloodline! Furthermore, it's nether holy bloodline! It's very pure! This is next generation nether holy bloodline. No, it's hidden nether emperor bloodline. No wonder they can enter Netherworld safely. This is Gu Nether Emperor bloodline."

Yang Feng looked at the Qian sisters. At a glance, he saw through the particularity of the Qian sisters.

In Netherworld, there are nether creatures, the most powerful among which are the three nether emperors.

The three nether emperors are Gu Nether Emperor, Hun Nether Emperor, and Shi Nether Emperor.

The three nether emperors will die once they leave Netherworld. But in Netherworld, they can easily kill even unequaled overlord-level Emphyreans.

The three nether emperors are the rulers of Netherworld. They reside in Cangzhi Plane's Netherworld and can freely travel to any plane's Netherworld.
