

MGE 1371

Chapter 1371: Conflict

The three nether emperors have been eternally unchanging. However, they are not Eternal Sovereigns. They have a limited lifespan. In general, the lifespan of a nether emperor is 100 million years. After 100 million years, they will die, and then a new nether emperor will be born from their corpse.

Although the three nether emperors cannot leave Netherworld, but there are many powerful beings who will go to Netherworld to trade with them. Due to this, it is not uncommon for descendants with nether emperor bloodline to appear on different planes.

Yang Feng looked into the distance and saw a vast river Styx run through the sky and connect countless planes. The river Styx is constantly churning and diffusing nether aura.

The river Styx is the ultimate destination of all souls in the universe.

Even if it's an eternally inextinguishable Eternal Sovereign, once they fall and their Eternal imprint collapses, their soul will ultimately return to the river Styx and be decomposed.

Even if it's a god in their god country, their soul will weaken and, after hundreds of millions of years, eventually decay and fall into the river Styx.

Soul projections are falling into the river Styx one after another. As soon as a soul projection falls into the river Styx, it is decomposed directly.

Beside the river Styx, there are soulstealers composed of bones, covered with a soul cloak, and holding a bone spoon.

There are souls sprinkling onto the edge of the river Styx. As if hyenas, the soulstealers rush over and scoop up the souls with bone spoons.

When the bone spoons touch the souls, the souls are pulled into the bone spoons.

Lower level souls will be processed into low level soul coins. More advanced souls will be processed into soul stones. The top-shelf souls will be given to nether monarchs as tribute.

Netherworld is dominated by the three nether emperors.

Under the three nether emperors, there are eighteen nether holies, while under the nether holies, there are nether monarchs.

The nether monarchs are powerhouses who deal with all kinds of matters of Netherworld. The three nether emperors and eighteen nether holies generally don't involve themselves in managerial matters.

"Qian sisters, for you to come to Netherworld, that's really foolish!"

A terrible nether wind blew from afar. In the nether wind, a nether ogre dragon shrouded in nether aura and emanating strange dragon qi strode this way.

The nether ogre dragon exuded Infinity Warlock rank fluctuations of power. He looked at the Qian sisters derisively, as if a big cat toying with a pair of small mice.

Qian Yingying threw Chen Feihai a pitiful look and pleaded softly, "Older brother Chen Feihai, please help us."

The nether ogre dragon glanced at Chen Feihai, and his eyes glimmered with killing intent. He uttered coldly, "Are you going to stand up for them?"

Chen Feihai uttered decisively, "Sir, I am Chen Feihai, a legitimate son of Yuyuan Manor's Chen Family. I just met these two by chance. I have to intention of standing up for them."

The nether ogre dragon frowned and said flatly, "Yuyuan Manor's Chen Family. There is some relation with your family and I. Step aside and I won't kill you."

"Yes! Sir!"

Chen Feihai's eyes flashed with humiliation, and he gritted his teeth and stood aside quietly.

Although the nether ogre dragon is just emanating Infinity Warlock rank fluctuations of power. But in Netherworld, even a Warlock Monarch rank powerhouse may not be a match for him.

Qian Meimei clenched her teeth and asked, "Third Nether Emissary, how did you find us?"

The Third Nether Emissary smiled coldly and said in reply, "It's the hun nether clan's turn to be in charge. As such, the emissaries in the entire Necro Sea and Nether Moon Island are all people from the hun nether clan. You coming here is equivalent to walking right into a trap. Give up! Gu Nether Emperor is destined to die! In hundreds of thousands of years, a new Gu Nether Emperor will be born. Why have you come to Netherworld to die for him?"

"Gu Nether Emperor is going to die?"

Yang Feng willed, and the Mirror of Fate broke out with countless runes and surged with ripples, and then regained its calm. Yet nothing was displayed on it.

Yang Feng frowned: "Sure enough, I can't perceive news about Gu Nether Emperor. Netherworld is one of the few worlds in the universe that I cannot perceive with my power."

After he advanced to an Eternal Sovereign, Yang Feng has become truly invincible in the world of Warlocks. With the Eternal grade secret treasure, the Mirror of Fate, in Yang Feng's possession, the absolute majority of places in the world of Warlocks are an open book to him.

Under the disturbance of the river Styx, despite how strong he is, Yang Feng can't pry into the secrets of Netherworld.

Qian Meimei looked at the Third Nether Emissary and said, "Once Gu Nether Emperor dies, a new Gu Nether Emperor will indeed be born hundreds of thousands of years later. However, the new Gu Nether Emperor will have forgotten everything from his past life. It will be equivalent to him being dead. He is the ancestor of our clan and the source of our strength. No matter the price we have to pay, we will not give up on saving him. Third Nether Emissary, this has nothing to do with them. Please let them go."

"And they are?"

The Third Nether Emissary glanced coldly at Yang Feng and Death Lord, smiled contemptuously, and said in a cold voice, "You two lowly things, kneel down and lick my toes. I may consider letting you live."

In Netherworld, even a Warlock Monarch rank powerhouse is no match for the Third Nether Emissary. This fact is at the fountainhead of his arrogance.

Yang Feng glanced at the Third Nether Emissary and said with a smile, "You will let us live? That's is a lie. Don't you want to kill us while we kneel?"

With his fearsome power as an Eternal Sovereign, Yang Feng saw through the Third Nether Emissary's intentions at a glance.

"You're quite smart. Unfortunately, in this world, the smarter you are, the earlier you'll die!"

When Yang Feng exposed his intentions, the Third Nether Emissary's eyes flashed with intense killing intent. His right claw surged with endless nether qi, turned into a blur, and stabbed towards Yang Feng.

Chen Feihai's eyes glimmered with the shade of exhilaration, and he sneered in his heart: "How stupid. To provoke people of the nether clan, what a reckless act."

"Be careful!"

Qian Meimei's expression changed greatly, and she warned loudly.

Yang Feng gazed at the Third Nether Emissary with a look of derision on his face. Even if he stands still and lets the Third Nether Emissary attack him for 10,000 years, the other party won't be able to harm him at all.

Standing quietly beside Yang Feng, the expressionless Death Lord took a step, appeared in front of Yang Feng, and extended a finger towards the other party, and terrible life and death force broke out in an instant.

"You are..."

The Third Nether Emissary's eyes flickered with shock. Before he could finish speaking, his body collapsed into dust that drifted away with the wind.

Chen Feihai's eyes shimmered with the shade of incredulity, "The Third Nether Emissary died just like that? A great figure of Netherworld died just like that?"

"So strong! Who is that person? He killed the Third Nether Emissary with just one hit. Yet such a powerhouse is that man's escort. Who on earth is that man?"

Qian Meimei took a deep look at Yang Feng, and her pretty eyes flashed with shock.

Qian Meimei gritted her teeth, went to Yang Feng, and advised him, "Sir, the Third Nether Emissary is a trusted aid of Dragon Nether Monarch. Since he was killed, Dragon Nether Monarch won't let this be! You should run away! In Netherworld, even Holy Spirit Warlocks are not a match for Dragon Nether Monarch."

Yang Feng smiled faintly and said, "They're already here!"

Nether qi surged in the void, and 10 3,000-meter-long warships constructed from bones flew towards this side.

Aboard the warships, there are many strange nether soldiers constructed from bones.

Aboard the front most warship, on a throne of bones, there sits a powerhouse with a dragon head and a human body, who is emanating fearsome nether aura.

Chen Feihai's eyes flashed with the shade of elation, and he mused, "Dragon Nether Monarch! He is a peerless powerhouse who previously killed human Holy Spirit Warlocks. Since he stepped in, these two are dead no matter their background."

Qian Yingying's petite body trembled and her beautiful eyes flashed with despair, and she cried out: "How come Dragon Nether Monarch took action himself? How come he's here so fast!"

"Human powerhouse, did you kill my subordinate, the Third Nether Emissary?"

Aboard the front most warship, Dragon Nether Monarch looked coldly at Yang Feng and asked frigidly.

Yang Feng replied with a calm smile, "Yes, I did!"

Dragon Nether Monarch uttered callously, "In that case, commit suicide! As long as you commit suicide, I will forgive your sins. Otherwise, I will kill you, and then extract your blood and curse your relatives. I'll sever your family's bloodline."

Yang Feng responded indifferently, "It has been a long time since I was threatened in this way. I'm in a good mood today! Commit suicide! And I will leave you with an intact corpse."

"Stubborn! Styx Suppression Array!"

Dragon Nether Monarch barked, a frigid look in his eyes.

The ten nether warships broke out with countless mysterious runes and appeared to connect with the river Styx, which is the incarnation of the laws of death and possesses infinity power.

A vast projection of the river Styx emerged in the void, ran through the universe, and surged towards Yang Feng.

Styx Suppression Array is Dragon Nether Monarch's trump card. Even if it's a Great Holy rank powerhouses, if they are hit by the projection of the river Styx, they will lose all memories and become an idiot.

"Impressive! In Netherworld, this spell can even vanquish a Great Holy!"

Yang Feng smiled faintly and praised in admiration, and then stabbed with his hand.

Countless mysterious runes shone, and a huge, eternally inextinguishable finger, that runs through the past, present, and future, appeared and touched the projection of the river Styx.

The projection of the river Styx, which can suppress a Great Holy, collapsed directly. At the same time, the nether warships were smashed and turned into powder together with the nether soldiers.

Chapter 1372: A Nether Emperor Submits

“You are Feng Eternal Sovereign! No, please stop...”

All of a sudden, Dragon Nether Monarch’s expression changed greatly and his eyes flickered with despair, and he shouted at the top of his lungs.

The huge finger touched Dragon Nether Monarch, and the insufferably arrogant nether monarch, who can easily quell a Holy Spirit Warlock, disintegrated into dust that dispersed with the wind.

“Feng Eternal Sovereign! He is lord Feng Eternal Sovereign! Luckily, I didn’t offend him. No, Eternal Sovereigns possess heaven-defying power. No malice can escape their perception.”

Chen Feihai is quite the clever character. He prostrated himself on the ground decisively and said respectfully to Yang Feng: “Greetings, mighty Feng Eternal Sovereign. Unaware of your identity, this sinner, Chen Feihai, harbored malice towards you. Please forgive this sinner.”

“You are a clever one! Let’s go!”

Yang Feng glanced at Chen Feihai, smiled faintly, and then paid him no more mind.

“Thank you, sir!”

Chen Feihai breathed a sigh of relief and fled to the depths of Netherworld.

Qian Yingying’s beautiful eyes flashed with the shade of incredulity, and she murmured, “Feng Eternal Sovereign! He is actually Feng Eternal Sovereign! I have traveled with such a great figure. Curses, I missed a golden opportunity.”

“Greetings, your majesty Feng Eternal Sovereign!”

Qian Meimei pulled her little sister, Qian Yingying, to kneel and saluted Yang Feng respectfully. Although Yang Feng may not care about them, but they cannot show a lack of manners.

Devour Imperial Court’s forces are all over the universe. Furthermore, Devour Imperial Court has countless experts. It has 5 unequalled overlord-level Emphyreans. Devour Imperial Court is the No. 1 power in the whole universe. If Yang Feng’s subordinates learn that Qian Meimei disrespected him, the Qian family will be wiped out from the face of Cangzhi Plane.

“Get up!”

“Thank you, your majesty!”

Qian Meimei heaved a sigh of relief and pulled up her little sister.

All of a sudden, ripples rose in the void and tremendous nether qi billowed.

A 1,000-kilometer-long nether dragon shrouded in gray scales, emanating quasi-Emphyrean rank might flew over from afar.

On the head of the nether dragon, there stands a tall, somewhat ugly, yet filled with a strange charm man. This man is dressed in a Nether Imperial Robe, has a Nether Imperial Crown on the head, and holds a Nether Imperial Scepter in a hand.

As soon as the man appeared, the nether qi within a radius of tens of thousands of kilometers churned.

“Greetings, Hun Nether Emperor!”

All nether clan powerhouses within thousands of kilometers knelt on the ground, not daring to look directly at Hun Nether Emperor’s face.

The status structure within Netherworld is extremely strict. Hun Nether Emperor, who stands at the top of the nether clan, can deprive any nether powerhouse at the nether monarch level of their power and life as long as they look at him.

The nether dragon stopped 1,000 kilometers away from Yang Feng, and Hun Nether Emperor jumped off, walked up to Yang Feng, bowed slightly to him, and asked, “Well met, your majesty Feng Eternal Sovereign. What brings you to Netherworld?”

Yang Feng responded indifferently, “I’m going to Nether Origin Sea!”

Hun Nether Emperor’s countenance changed greatly, and his eyes glimmered with a dignified shade, “Nether Origin Sea. That’s the sacred land of the nether clan and the final destination of all dead. Anyone who wants to go to Nether Origin Sea is an enemy of the nether clan. Your majesty, please reconsider this!”

Nether Origin Sea is the source of the river Styx and is the final destination of the river Styx.

One of the reasons behind the existence of the three nether emperors is to protect Nether Origin Sea from being disturbed by anyone.

During his time, Death Lord was an unequaled overlord-level Empyrean who suppressed the universe. However, Death Lord was well aware that if he went to Netherworld, a nether emperor would be able to easily quell him.

There is constant infighting between the three nether emperors. However, if anyone attempts to enter Nether Origin Sea, they will work together to quell the other party.

Yang Feng was calm and collected, as if stating a fact: “If going to Nether Origin Sea means that I will be the enemy of the nether clan, then there is no need for the nether clan to exist.”

Hun Nether Emperor’s expression changed greatly, and he uttered through gritted teeth, “Great Feng Eternal Sovereign, even if it’s you, it is impossible to wipe out the nether clan. As long as the river Styx exists, the nether clan will exist as well.”

Yang Feng said with a faint smile, “Yes, even it is I, I can’t destroy the river Styx. Otherwise, the whole universe will be in danger of collapse. But I can still wipe out the nether clan of this generation. When the new generation nether clan is born, everything will be forgotten.”

“In that case, let me have a taste of your ability!”

With a cold flash in his eyes, Hun Nether Emperor broke out with countless runes, and vast nether aura gushed out in an instant and spread in all directions.

Containing a Styx will, the eternally unchanging river Styx, which has existed since the birth of the universe, suddenly churned, suppressed the past, present, and future, and surged towards Yang Feng.

“Terrific! So this is the power of a nether emperor. No wonder the others never entered Cangzhi Plane’s Netherworld!”

When Death Lord saw the fearsome river Styx, his countenance changed greatly, and he retreated briskly.

The power of the strike triggered by the Styx will is shocking. Even if it’s Time Lord, he wouldn’t be able to use Space-Time Walk and escape to the future. This is the strongest strike of Hun Nether Emperor.

Faced against Yang Feng, who was known as the strongest Emyrean since ancient times and has advanced to an Eternal Sovereign, Hun Nether Emperor didn’t underestimate the other party.

“Not bad. This strike mobilized the will of the whole Netherworld. This peerless attack was unleashed with river Styx as the medium. It suppresses the past, present, and future and unites time into one! If I encountered such an attack before I advanced to an Eternal Sovereign, I would have to escape! But now, there’s nothing to fear!”

Yang Feng smiled faintly and extended his finger.

Eternal force suddenly erupted, and a terrifying, eternally inextinguishable finger ran through the past, present, and future, suppressed everything, and touched the river Styx.

The river Styx flew backwards, and a large tract of its water rushed towards all parts of the Netherworld.

Where the water passed, the soul of nether clan creatures was extracted and their body decomposed and entered the river Styx.

The river Styx is the source of all nether clan creatures as well as their nemesis. Except for the three nether emperors, the rest of nether clan powerhouses will be directly decomposed and submerged into the river Styx if so much as a drop of its water pollutes them.

The fearsome finger smashed the river Styx and shot towards Hun Nether Emperor.

Soul light shone abruptly, and true dragon, kungpeng, angel, fiend, and other true spirit-level souls appeared and formed 36 soul radiances.

Each of the 36 soul radiances can resist an attack of an unequaled overlord-level Emyrean. Subjected to Yang Feng’s finger, the 36 soul radiances collapsed like bubbles.

Hun Nether Emperor was sent tumbling in the air for tens of thousands of kilometers, cracks appeared all over his body, and nether blood dripped down from his body. His eyes were filled with shock: “How come he’s this strong? Feng Eternal Sovereign! How come he’s this strong? I’m a nether emperor and have the protection of Netherworld’s will, yet I was only barely able to withstand his attack! Truly scary!”

“To be able to withstand my attack, quite impressive. That’s a nether emperor for you. Die!”

Yang Feng smiled faintly. His eyes surged with intense killing intent, and he sent a palm flying.

Countless runes shone, and terrifying Eternal force formed a giant palm in the void that suppressed everything and shot towards Hun Nether Emperor.

“Great Feng Eternal Sovereign, don’t kill me. Please spare my life. I am willing to serve you. And make Netherworld become one of your domains!”

Upon seeing this, Hun Nether Emperor was nearly scared silly and roared loudly.

“In that case, I’ll spare your life!”

When Yang Feng’s words came out, the giant palm formed an abstruse rune that entered Hun Nether Emperor’s forehead.

With the obstruction of Netherworld’s will, even if Yang Feng uses the Mirror of Fate, he’s unable to know everything about Netherworld. But once the rune seed is planted in Hun Nether Emperor’s forehead, he can perceive everything that happens around Hun Nether Emperor.

If the river Styx is not destroyed, the three nether emperors will continue to be reborn. If Yang Feng kills Hun Nether Emperor, then even if he destroys everything of the other party, after hundreds of millions of years, a new Hun Nether Emperor will be born nonetheless.

But if Hun Nether Emperor is subdued, Yang Feng can control Cangzhi Plane’s Netherworld and gain great benefits.

Yang Feng said slowly, a cold look in his eyes, “Take me to Shi Nether Emperor!”

If Yang Feng quells the three nether emperors, Gu Nether Emperor, Hun Nether Emperor, and Shi Nether Emperor, he can unify Netherworld and implement his will.

Hun Nether Emperor’s eyes flashed with the shade of delight, and he responded, “I know where he is! I’ll take you there!”

“No need! Your majesty Feng Eternal Sovereign, I am here. I am also willing to submit to you and serve you. And make your will be done in Netherworld.”

Ripples surged, and the somewhat ugly Shi Nether Emperor, who is dressed in an identical manner as Hun Nether Emperor, walked out of the void and bowed to Yang Feng in salute.

Shi Nether Emperor is an experienced character. He is aware that Yang Feng can’t stay here and rule the whole Netherworld. Furthermore, human Warlocks are not suitable to stay in Netherworld. If he submits to Yang Feng, then once Yang Feng leaves, he will still be one of the three bigwigs of Netherworld. But if he doesn’t submit to Yang Feng, only death will await him. His subordinates will be purged by Hun Nether Emperor.

Qian Yingying’s beautiful eyes flashed with shock: “How formidable! So this is Feng Eternal Sovereign, the only and strongest Eternal Sovereign of our universe. He defeated Hun Nether Emperor in an instant and forced Shi Nether Emperor to actively submit. Truly formidable.”

Qian Meimei clenched her hands, and her eyes flickered with a peculiar shade, “Eternal Sovereign! So this is an Eternal Sovereign!”

Chapter 1373: Unifying Netherworld

Yang Feng flicked his finger, and a rune containing a seed of his power flew towards Shi Nether Emperor and merged into his forehead.

Shi Nether Emperor sighed slightly and remained silent, allowing the rune containing a seed of Yang Feng's power merge into his forehead.

Qian Meimei clenched her teeth, and then came forward and uttered, "Great Feng Eternal Sovereign, please help us save Gu Nether Emperor. He will surely serve you. No matter what you want to do in Netherworld, it'll surely be better if all three nether emperors help you."

"You're smart!"

Yang Feng glanced at Qian Meimei and smiled indifferently. Countless mysterious runes flashed in his eyes. He tore at the void with his hands, and a giant rift appeared in space.

A terrible storm swept everyone into the giant space rift.

Ripples surged, and Yang Feng and his party appeared in front of a palace refined from the bones of various powerful beings and emitting frightening might.

"Greetings, mighty Feng Eternal Sovereign!"

When the nether clan powerhouses in front of the palace saw Yang Feng, they knelt on the ground and greeted him respectfully.

"I'm seriously injured and can't come out to greet you. Please forgive me, your majesty Feng Eternal Sovereign!"

An aged voice came from the palace, and a flight of stairs made out of bones appeared in front of Yang Feng.

"It's fine!"

Yang Feng stepped onto the flight of stairs, and then appeared in the palace along with a flash of light.

On the palace's throne, there sits the tall and sturdy Gu Nether Emperor. Only bones and white hair remain of Gu Nether Emperor.

"Greetings, ancestor!"

As soon as the Qian sisters saw Gu Nether Emperors, of whom only bones are left, they knelt on the ground and spoke respectfully.

Gu Nether Emperor grinned and said, "Greetings, your majesty Feng Eternal Sovereign. As you can see, I don't have much time left. It's hard for me to salute you."

Yang Feng glanced at Gu Nether Emperor and said with a cold smile, "You actually tried to attack the Eternal realm, how foolish!"

The three nether emperors are the embodiment of the laws of Netherworld. In Netherworld, they even possess pseudo Eternal might and can kill more than 90% of unequaled overlord-level Emphyreans. But they can't leave Netherworld. Furthermore, if they try to attack the Eternal realm, they will die.

After hearing this, Hun Nether Emperor and Shi Nether Emperor took a deep look at Gu Nether Emperor, sighed lightly, and remained silent.

Gu Nether Emperor issued a hoarse laugh and uttered, "In the long river of history, I am not the only nether emperor to attack the Eternal realm and die."

Yang Feng asked, "Do you want to die or do you want to live?"

Gu Nether Emperor replied, "Of course I want to live! I attacked the Eternal realm in order to live longer. Your majesty Feng Eternal Sovereign, so long as you can save my life, I am willing to submit to you, take you as my master, and make your will be done in Netherworld.

Yang Feng extended his finger and touched Gu Nether Emperor, and a tremendous amount of Eternal force poured into the other party and erased his wounds.

Gu Nether Emperor's eyes flashed with an ecstatic color. He breathed in, and the nether qi within hundreds of millions of kilometers billowed, turned into nether clouds, and flowed into his body.

After more than a dozen breaths of time, Gu Nether Emperor recovered his full strength and emanated terrifying nether emperor might.

Gu Nether Emperor bowed deeply to Yang Feng and said, "Many thanks for your help, mighty Feng Eternal Sovereign."

Yang Feng uttered indifferently, "Take me to your treasury!"

Gu Nether Emperor smiled wryly and responded resolutely, "Yes! Lord!"

Hun Nether Emperor and Shi Nether Emperor smiled bitterly, a look of helplessness in their eyes. They realized that their treasuries cannot escape Yang Feng's clutches.

With Gu Nether Emperor leading the way, Yang Feng stepped into a treasury.

Gu Nether Emperor has lived for 30 million years. As such, there are countless treasures, heaps of rare materials of heaven and earth rarely seen in the outside world, and even many Emyrean grade secret treasure materials that have gone extinct in the outside world in his treasury.

The three nether emperors are practically invincible in Netherworld and have a long lifespan. Since powerhouses from the outside world often seek them out, they each have a huge treasury.

Yang Feng pocketed all kinds of treasures of heaven and earth and precious materials he needed.

.

"This is a palm of that being! I didn't expect to find it here!"

In the treasury, Yang Feng saw a jade box, and a dignified color flashed in his eyes. Within the jade box, there lies a white jade palm without fingers.

The white jade palm without fingers is the remains of a terrifying being that stood far above ordinary Eternal Sovereigns.

After Yang Feng advanced to the Eternal realm, there was practically no substance in the whole universe that he could not destroy. Even if it's the Mirror of Fate, he can smash it with one palm strike. Only the white jade phalanx bones and the white jade palm cannot be destroyed.

"It represents the direction of my next evolution. This palm is of great use to me."

Yang Feng's eyes surged with mysterious runes and diffused Eternal aura, and he gazed at the white jade palm.

Yang Feng mused, "There is no trace of vitality and no soul aura. The owner of this palm should be really dead! At least in this universe, he should not be able to hide from my eyes."

In their universe, Eternal Sovereigns have incredible abilities and are difficult to kill. As long as the universe exist, their lifespan won't run out. In their universe, they possess all kinds of incredible powers. Space-Time Walk is just one of them.

But once an Eternal Sovereign leaves their universe, they will be subject to various restrictions. In the worst case scenario, when an Eternal Sovereign goes to a universe with completely different universe laws, they will be weakened and drop to the bottom of that universe.

After Yang Feng advanced to the Eternal realm, an Eternal channel between the two universes opened. However, neither Yang Feng nor the three Eternal Sovereigns of Gumana Universe are willing to enter the other party's home ground.

If the three Eternal Sovereigns of Gumana Universe come to the universe of the world of Warlocks, Yang Feng can easily vanquish them.

Similarly, once Yang Feng goes to Gumana Universe, he will be greatly weakened. By then, any one of the three Eternal Sovereigns will be able to easily vanquish him.

Both Yang Feng and the three Eternal Sovereigns of Gumana Universe are waiting for the final battle. Once the universe devouring enters its final stage, the universe laws of the two universes will be intertwined and integrated.

At that time, Yang Feng and the three Eternal Sovereigns of Gumana Universe will be able to display their peak combat power in this integrated universe.

Yang Feng fiddled with the white jade palm, and a dignified color flashed in his eyes: "I wonder what realm this being has reached. Judging from the power contained in his remains, if he didn't die, he would be able to even quell this universe! What a terrific being. He has surpassed the known Eternal Sovereigns by far. If I had the strength of the master of this palm, I would be able to easily vanquish the three Eternal Sovereigns of Gumana Universe."

In Gu Nether Emperor's treasury, except for the white jade palm, there is nothing else deserving Yang Feng's astonishment.

After calmly plundering Gu Nether Emperor's treasury, Yang Feng went to plunder the treasuries of Hun Nether Emperor and Shi Nether Emperor and obtained a large number of precious materials and even several treasures of heaven and earth that have disappeared in the outside world. Those several

treasures of heaven and earth are materials needed to build the level-8 stronghold Yang Feng designed.

Nether Origin Sea is the ultimate destination of all souls in the universe, the place where the countless rivers Styx ultimately converge, and the sacred land and restricted area of the nether clan.

Nether Origin Sea is extending without end in sight, and its water is 1,000 times richer than that of other places. A drop of Nether Origin Sea's water can erase the memories of an Empyrean, while a hundred drops can wash into oblivion the soul of an Empyrean.

At the edge of Nether Origin Sea, ripples rose, and Yang Feng and the three nether emperors walked out of the void.

"This is Nether Origin Sea."

Yang Feng looked at the vast Nether Origin Sea, which is filled with terrible nether qi, and his eyes flashed with curiosity. He pointed with a finger, and a radiance surged, turned into a large hand, and tried to scoop out a handful of Nether Origin Sea's water.

As soon as the large hand touched Nether Origin Sea's water, it immediately collapsed, decomposed, and disappeared.

"My lord, Nether Origin Sea's water contains terrifying force that can decompose anything. Only treasures refined from Nether Origin Stone drifting in Nether Origin Sea can bear this terrifying force."

Gu Nether Emperor took out a stone bottle the size of only two fingers and handed it to Yang Feng.

"I see!"

Yang Feng accepted the stone bottle and took a look at it, and innumerable mysterious runes appeared in his eyes.

The stone bottle contains natural force, which Yang Feng easily analyzed. He pointed with his hand, and light shone and turned into a large stone hand that grabbed Nether Origin Sea's water and flew to Yang Feng.

"It worked!"

"Is he a nether emperor, or are we nether emperors?"

"An Eternal Sovereign is actually this powerful?"

There was a flash of astonishment in the eyes of the three nether emperors. As nether emperors, they can easily mobilize the power of any river Styx to suppress an enemy. However, when it comes to Nether Origin Sea's water, they can't mobilize even a drop of it and need to carry it in special vessels.

If the three nether emperors fall into Nether Origin Sea, they will be decomposed and die. Then hundreds of thousands of years later, Netherworld will give birth to new nether emperors.

Yang Feng's eyes glimmered with an enigmatic shade: "As expected of Nether Origin Sea! Even if an Eternal Sovereign falls into Nether Origin Sea, if there is no resistance and special spells involved, his soul imprint will be directly washed into oblivion and the body will be decomposed. As expected of a

restricted area among restricted areas, a mysterious restricted area that the eight Warlock Emperors of the human race didn't dare to visit."

Gu Nether Emperor said slowly, "Lord, the three of us can condense a nether ship each. When we work together, we can only reach Nether Origin Middle Island. We can't reach Nether Origin Island in the deepest part of Nether Origin Sea.

Chapter 1374: Two Lives Flower

Yang Feng nodded.

Gu Nether Emperor held a Nether Imperial Scepter and recited an incantation, and countless runes appeared and merged into the Nether Imperial Scepter.

The Nether Imperial Scepter burst out with countless mysterious runes and turned into a ship of bones engraved with countless mysterious runes and fell into Nether Origin Sea.

When Yang Feng boarded the ship of bones, countless mysterious runes shone in his eyes, and he gazed at the ship of bones. At the same time, his aura changed continuously.

Gu Nether Emperor's eyes flashed with the shade of astonishment: "To be able to comprehend the composition of this nether ship, incredible! Feng Eternal Sovereign is really incredible!"

With the help of the memories engraved in his soul and the power of Netherworld, Gu Nether Emperor can form a ship of bones that can cross Nether Origin Sea. He himself, however, cannot comprehend the principles of this spell.

Yang Feng is actually analyzing the structure of the ship of bones. Once he fully analyzes it, he will be able to easily cast the same spell. This is where the strength of human Warlocks lies.

"Feng Eternal Sovereign is unfathomable!"

Hun Nether Emperor and Shi Nether Emperor exchanged a look, and the shade of shock flickered deep in their eyes.

Along the way, Hun Nether Emperor and Shi Nether Emperor also cast a spell and summoned two nether ships respectively, taking them to a small island.

"Lord, this is Nether Origin Middle Island. It is one of the core sacred places of the nether clan."

When he set foot on Nether Origin Middle Island, Gu Nether Emperor immediately gave Yang Feng an introduction.

Yang Feng looked around and saw that there are nether trees with rich nether aura growing on Nether Origin Middle Island.

On the nether trees, there are many fruits with dragon, fiend, devil, and other extraordinary creature runes.

Gu Nether Emperor uttered proudly, "These are Nether Origin Fruits of Nether Origin Middle Island. Once any creature ingests this fruit, they will be directly transformed into a nether clan powerhouse. They're a priceless treasure in the outside world."

Unless it's an Eternal Sovereign, the lifespan of any powerhouse will run out. Apart from Emphyreans, anyone can consume a Nether Origin Fruit, become a nether clan powerhouse, and live another lifetime.

Many powerhouses who have exhausted their lifespan will pay any price in order to obtain a Nether Origin Fruit.

The Nether Origin Fruit is one of the most precious specialty products of Netherworld.

Yang Feng glanced at the Nether Origin Fruit trees, casually plucked some of the best fruits, and continued to walk towards the depths of the island.

As if a desolate island surrounded by death, the whole island is surrounded by endless nether qi and is full of gray tones.

In the deepest part of the island, there is a place shrouded by white light full of vitality.

Within the white light, there is a green, vibrant grassland. In the green grassland, there are ten small white flowers.

Each of the ten small white flowers contains another flower bud within their flower bud, which are intertwined, and their petals are inscribed with mysterious runes.

Gu Nether Emperor said slowly, "Two Lives Flower! A unique flower that is born once every 1 million years. As long as there is a trace of the soul imprint or soul aura, even souls that have been in the river Styx for thousands of generations can be reborn and appear in this world again."

The means of Eternal Sovereigns are unfathomable. Even if a person died, they can still revive that person. But if a person died decades ago and their soul fell into the river Styx, then even Eternal Sovereigns won't be able to resurrect that person.

The Two Lives Flower is the only peerless treasure that can perfectly resurrect a person that has died a long time ago. As long as he has a Two Lives Flower, Death Lord can use a secret method to bring his wife back to life.

"What a great treasure."

Yang Feng's eyes flashed with a queer shade, and he pointed with a finger at the ten Two Lives Flowers. Five of the ten Two Lives Flowers flew out and fell into his hands.

Three flowers flew out and fell into the hands of Gu Nether Emperor, Hun Nether Emperor, and Shi Nether Emperor respectively.

There are countless treasures on this island. However, since the three nether Emperors are not on good terms, they haven't worked together for the past millions of years. This is the reason why ten Two Lives Flowers appeared here. If they did work together, such treasures of heaven and earth would have been plucked by them long ago.

Yang Feng waved his hand and said, "Okay, you can go back!"

Gu Nether Emperor's countenance changed greatly, and he asked, "Lord, do you want to enter the deepest part of Nether Origin Sea? No one has ever entered there! Even if it's an Eternal Sovereign, if

they fall into the sea, all their memories will be washed away, and then they will gradually be eroded and decomposed by the water of Nether Origin Sea. Our nether ships basically can't sail in the deepest part of Nether Origin Sea."

"Please rethink this, lord!"

Hun Nether Emperor and Shi Nether Emperor looked at each other and began to advise.

No matter how Hun Nether Emperor and Shi Nether Emperor resent Yang Feng, they don't dare to reveal even a sliver of it. Even if the three nether emperors work together and mobilize the power of Netherworld to fight Yang Feng, they will just be quelled without suspense.

Yang Feng said indifferently, "It's because no one has ever been there that I want to take a look. In this universe, there aren't many things that can pique my interest. But the deepest part of Nether Origin Sea is one of them. There's no need to persuade me! Go back!"

"Yes! Lord!"

The three nether emperors were helpless. They could only cast a spell, summon a nether ship, and leave the island.

"This is a prompt of fate. If I enter the deepest part of Nether Origin Sea, I can obtain huge gains. Of course, it will also be accompanied by great danger. If I am careless, I will be in danger of dying. Interesting. After I advanced to an Eternal Sovereign, this is the first time I have such a premonition."

On the seashore of Nether Origin Middle Island, two mysterious runes containing the essence of fate appeared in Yang Feng's eyes, and strands of fate aura surrounded him.

In the world of Warlocks, an Eternal Sovereign is the pinnacle of existence. If it were not for the universe devour war, an Eternal Sovereign would be a nearly eternally undying and insurmountable existence.

In this universe, there are few things that can pose a threat to Yang Feng's life. But at the same time, there are few treasures that can improve his cultivation base.

Yang Feng encountered the same bottleneck as many Eternal Sovereigns in the Eternal Sovereign age, that is, a slow progress in strength. If there are no fateful encounters, there won't be much difference in Yang Feng's strength between now and 100 million years in the future.

Although there is danger in the deepest part of Nether Origin Sea, but there may also be a great opportunity. Yang Feng has weighed things over and over and finally decided to enter the deepest part of Nether Origin Sea.

If the three Eternal Sovereigns of Gumana Universe enter the universe of the world of Warlocks at this time, Yang Feng can quell the other party. However, the three Eternal Sovereigns won't come and throw away their lives. Instead, they will wait for the chance to have the final battle with Yang Feng.

Gumana Universe has also stopped the infiltration of the universe of the world of Warlocks. That's because Yang Feng has the Eternal grade secret treasure, the Mirror of Fate. If he wills it, he can find and kill all the spies of Gumana Universe in his universe through the power of fate.

Now that Yang Feng refined the Eternal grade secret treasure, the Mirror of Fate, the powerhouses of Gumana Universe only have one choice, that is, to launch the final decisive battle and kill Yang Feng with absolute power when the universes have integrated.

Yang Feng doesn't fear any one of the three Eternal Sovereigns. He's even confident that he can defeat them. But if the three immortals work together, Yang Feng's chances of winning aren't high.

Yang Feng stood quietly at the edge of Nether Origin Sea for a moment and pointed with his hand, and tremendous Eternal origin force welled up, turned into countless runes containing nether aura, and formed a nether ship identical to Gu Nether Emperor's nether ship.

Yang Feng jumped onto the nether ship, and the nether ship moved without any wind and swam towards the deepest part of Nether Origin Sea.

The nether ship had just swam for more than 20 kilometers, when terrible decomposition force rushed out of Nether Origin Sea and decomposed the nether ship bit by bit.

At the moment when the nether ship was completely decomposed, Yang Feng pointed with his hand, Eternal origin force surged, and Hun Nether Emperor's nether ship appeared.

After this nether ship carried Yang Feng for more than 20 kilometers, it also began to decompose.

Shi Nether Emperor's nether ship emerged and carried Yang Feng forward.

The nether ships of the three nether emperors appeared alternately and carried Yang Feng for 699 kilometers in Nether Origin Sea.

When a nether ship crossed the 700 kilometer mark, it sunk, decomposed directly, and disappeared.

All of a sudden, Nether Origin Sea billowed, a 10,000-meter-long nether beast made out of Eternal bones and a kind of black stone flew out, and thousands of tentacles shot towards Yang Feng.

When the nether beast moved, the whole Nether Origin Sea churned and formed towering waves that swept towards Yang Feng.

"That's a pretty good attack! If I hadn't comprehended the law of nether, I would never be able to withstand this attack. However, since I came here, I have naturally comprehended the law of nether. You're just throwing away your life in vain!"

Yang Feng smiled slightly. With a frigid killing intent his eyes, he pointed with his hand, and countless runes shone and formed a nether ship under his feet.

Yang Feng waved his hand, and a terrible nether wind surged towards Nether Origin Sea's water and directly suppressed it.

Yang Feng extended his hand, and a giant, eternally inextinguishable hand running through the past, present, and future emerged and grabbed the nether beast.

Rune chains ejected, wound around the nether beast, and sealed it.

In Nether Origin Sea, waves churned, and one nether beast after another appeared from the sea and stared at Yang Feng with frenzied killing intent in its eyes.

Chapter 1375: Defeating the Will of Netherworld

“Get out!”

“Get out of here!”

“Get out or die!”

“...”

Under the influence of the will of Netherworld, the wills of the nether beasts in Nether Origin Sea reverberated in the area.

In the center of the countless nether beasts, there in a nether beast emperor, and his eyes flashed with a fierce shade. Yet in the abyss of his eyes, there is a glimmer of apprehension.

“That’s great. Is this large gift basket for me?”

Yang Feng smiled calmly and spread the fingers of his hand, and the nether ship under his feet rushed towards the nether beasts like an arrow.

With a fierce flash in their eyes, the nether beasts cast various innate secret abilities, which set off waves in Nether Origin Sea that surged towards Yang Feng.

Even if it’s the three nether emperors, if they are hit by these waves, they will be easily eroded and turned into pools of liquid.

Yang Feng broke out with terrifying Eternal force and waved his hand, and a giant hand that could sunder the sky barreled towards the nether beasts.

The ferocious nether beasts were directly suppressed by the giant hand and could not move.

“Roar!”

With a ferocious glimmer in his eyes, the nether beast emperor unleashed a deafening roar, and incredible shock waves swept towards the giant hand.

When the shock waves formed by Nether Origin Sea’s power hit the giant hand, the giant hand shattered directly.

Yang Feng’s eyes shimmered with a queer color, and he uttered slowly, “To be able to break my spell, that’s really surprising!”

With a fierce flash in his eyes, the nether beast emperor erupted with innumerable runes, and vast will of Netherworld seemingly capable of suppressing the heaven and earth appeared on him.

As if the whole Nether Origin Sea came to life, with the nether beast emperor as the core, a terrifying vortex capable of devouring the heaven and earth suddenly rose and swept towards Yang Feng.

“You want to devour me?! Then go to hell!”

Yang Feng beckoned with his hand, the the Warbringer Halberd appeared in his hand. With a ferocious glimmer in his eyes, he brandished the Warbringer Halberd, and a fearsome halberd ray that contains Eternal aura and can quell the heaven and earth appeared and slashed towards the vortex.

When the fearsome halberd ray and the vortex collided, the will of Netherworld suffered serious damage.

The whole Netherworld shook.

Gu Nether Emperor looked up, and his eyes flickered with astonishment, "The will of Netherworld was damaged! My strength has decreased!"

Hun Nether Emperor's eyes shimmered with astonishment, "Feng Eternal Sovereign was able to deal serious damage to the will of Netherworld. That's inconceivable!"

Shi Nether Emperor sighed faintly: "Feng Eternal Sovereign! Truly preposterous!"

For the three nether emperors, the will of Netherworld is the source of everything and the origin of their strength. It is impossible for them to contend against it. Yet Yang Feng was able to damage it. This is simply incredible.

After the will of Netherworld was severely damaged, Nether Origin Sea became more frantic. The vortex suddenly turned crazy and drew Yang Feng inside.

After that vortex swallowed Yang Feng, endless nether laws surged and turned into nether threads that wound around Yang Feng and dragged him to the deepest part of Nether Origin Sea.

Terrifying decomposition force enveloped Yang Feng and tried to decompose his soul and wash away his memories.

Vast Eternal force surged, and countless runes shone, circled around Yang Feng, and guarded his soul.

"Will of Netherworld! Since you want to kill me, then break for me!"

Yang Feng's eyes flickered coldly and shone with countless runes, and the nether runes he learned from the three nether emperor's evolved.

Tremendous energy poured into Yang Feng's eyes from the Kunmo Stone.

In Yang Feng's eyes, two runes condensed slowly and emitted nether aura.

The two runes had just condensed, when a vast and mighty force broke out and tried to break them.

Yang Feng willed, and the small world inside him burst out with terrible power that shattered the mighty force.

As soon as the two mysterious nether runes formed inside Yang Feng's eyes, a vast, almost endless force burst out in an instant and devoured and suppressed everything.

The fearsome nether threads around Yang Feng were devoured directly. As if seeing a ghost, the nether threads, which contain the will of Netherworld, retreated, turned into strange smoke, and disappeared.

After more than ten breaths of time, the nether threads around Yang Feng disappeared completely.

Yang Feng opened his eyes and saw nether beasts rush towards him. The water of Nether Origin Sea continuously eroded his barriers. Once the barriers collapse, the consequences will be too horrible to contemplate.

“Without the help of the will of Netherworld, you dead creatures want to harm me?”

Yang Feng’s eyes glimmered coldly. He pointed with his hand, and vast devour force broke out and swept towards the nether beasts.

Swept by the devour force, the nether beasts stuck together and formed a large parcel, which quickly shrunk, entered Yang Feng’s hand, and was sealed directly.

With a slight flash of light, Yang Feng shot upwards and jumped out of Nether Origin Sea. Countless runes shone, and a nether ship appeared underneath his feat and carried him to the depths of Nether Origin Sea.

Yang Feng’s eyes glimmered with the shade of expectation: “Since the will of Netherworld personally tried to stop me, there must be pretty good treasures in the deepest part of Netherworld. No one has been to that place since the beginning of the universe.”

The universe of the world of Warlocks has existed for more than 10 billion years. During this period of time, many of the most precious treasures of heaven and earth have been snatched away. Only in the deepest part of Netherworld, not even Eternal Sovereigns have been there.

If Yang Feng were not strong enough to subdue the three nether emperors and had not comprehended the essence of nether, he would likely be suppressed by the will of Netherworld. He would fall into Nether Origin Sea and become a part of it.

The nether ship sailed for 100,000 kilometers through calm waters, which disappointed Yang Feng.

The corpses of the nether beasts are great treasures. Yang Feng can gain huge benefits every time he kills a nether beast.

An island appeared on Nether Origin Sea’s border. On the border, there is a transparent crystal wall.

“This is a universe crystal wall! On the other side of the crystal wall, there is another universe. Unfortunately, with my power, it is impossible to break the universe crystal wall!”

Yang Feng took a look at the transparent crystal wall, and then boarded the island.

The island only occupies an area 100 kilometers in radius. However, the island is filled with the purest life force and chaos aura from the time when the universe was created.

“Qilin Jade Flower! It takes 100,000 years for it to grow and bloom. By consuming a Qilin Jade Flower, the blood inside you will be transformed into pure qilin blood. There’s actually such a legendary treasure here.”

Yang Feng glanced at the island, and his eyes glimmered brightly. He saw a flower made of blue jade growing quietly on a meadow. On that flower, there is a tiny qilin playing and exuding the might of a king of beasts.

“True Dragon Origin Stone! It’s a stone that can hatch a true dragon!”

“Sun Deva Tree! Each of its fruits can turn into a sun!”

“...”

As Yang Feng walked across the island, he saw precious extraordinary plants, and his eyes glimmered brightly.

On this island, even grass is a rare treasure that is hard to find in the outside world that even Emphyreans will be moved by. While a stone is a top Emphyrean grade secret treasure material.

“This is a Kunmo Stone! What a large piece!”

When Yang Feng reached the center of the island, he saw a bucket sized Kunmo Stone lying quietly on the ground. His eyes lit up and surged with excitement.

The Kunmo Stones Yang Feng obtained before were all the size of a fist. If this bucket sized Kunmo Stone is divided, more than 40 fist sized Kunmo Stones can be obtained.

.

Yang Feng stared at the Kunmo Stone with excitement in his eyes: “With this Kunmo Stone, I can create a level-8 stronghold! This trip to Netherworld turned out to be really profitable!”

After Yang Feng advanced to the Eternal realm, his intelligence has skyrocketed. He already deduced the level-8 stronghold, which the xizu have never deduced. However, he lacked the materials to refine a level-8 stronghold.

Now that he obtained such a large Kunmo Stone, coupled with various top minerals on this island, Yang Feng has enough resources to make Ling evolve into a level-8 stronghold.

After Yang Feng got the Kunmo Stone, he looked around the island excitedly. Although he found many precious treasures and minerals, but he didn’t find another peerless treasure that could greatly improve his combat power like the Kunmo Stone.

Yang Feng searched the island for a while. After leaving only the roots of some herbs, he departed the island.

Cangzhi Plane, Devour Imperial Court, in a hidden square.

“Here is the Two Lives Flower you wanted!”

Yang Feng flicked his finger, and a jade box with a Two Lives Flower flew into Death Lord’s hands.

“Many thanks, lord. If I can revive my wife, I will be your subordinate forever and will never betray.”

When he received the jade box with a Two Lives Flower, the agitated Death Lord bowed deeply to Yang Feng and spoke with gratitude.

Chapter 1376: Resurrection

Death Lord took out the Two Lives Flower carefully. A jade box flew out and opened, and a piece of blood-stained clothing flew to in front of the Two Lives Flower.

With a bright glimmer in his eyes, Death Lord opened his mouth, and a mass of blood essence containing tremendous soul force ejected and fell into the Two Lives Flower.

The Two Lives Flower absorbed Death Lord's blood essence and the power of his discarnate soul and burst out with countless mysterious runes.

A river Styx projection emerged from the Two Lives Flower, and crossed the past, present, and future.

The river Styx projection kept going further into the past and finally showed the scene of the death of Death Lord's wife.

The will of Netherworld flew in from all directions, and specks of soul light of Death Lord's wife, which have been baptized for countless years, flew over from the all corners of the universe and gathered on the Two Lives Flower.

Countless mysterious runes shone, and a slender and although not devastatingly beautiful, yet nonetheless very beautiful woman, slowly condensed in the Two Lives Flower.

"Duoduo!"

The eyes of the lifeless-looking Dead Lord brightened, and he trembled slightly and clenched his fists. A voice escaped from his lips, light and thin, for fear of breaking the soul.

When an Empyrean is agitated, calamities will engulf the world.

Death Lord is too excited, and his mental state is in chaos, which makes him unable to control his power.

Yang Feng's eyes flashed with a complex color, and he said slowly, "That's some love for you!"

Magic Note Lord shrugged and uttered emotionlessly, a look of disapproval on his face, "Yes. Neither of us can compare to Death Lord in terms of devotion to a woman. Of course, I can't figure out what's so good about women."

"Older brother Shang!"

The eyes of the soul projection were vacant. Finally, the vacant shade disappeared, and the soul projection gazed at Death Lord, surged with tender emotions from the eyes, and spoke with of emotion.

Death Lord trembled, and two tears rolled down his face. He spread the fingers of his hand, and a Fairy Moon White Lotus suddenly flew out and landed on the soul projection.

Countless rays of sacred light shone, and the Fairy Moon White Lotus absorbed Duoduo's soul.

Light full of sacred aura radiated from the Fairy Moon White Lotus. The Fairy Moon White Lotus blossomed, and a beautiful woman dressed in white curled up in the flower bud was revealed. The beautiful woman is Death Lord's wife, Duoduo.

When Duoduo opened her eyes, she smiled sweetly, leaped out of the flower bud, and became the size of an adult. She arrived in front of Death Lord and smiled softly: "Older brother Shang, you lost weight!"

“Duoduo! Duoduo!”

Death Lord hugged Duoduo. As if he were holding the most precious treasure, he trembled, burst into tears, and wept.

After tens of thousands of years, his live’s goal was finally achieved. The shackles binding Death Lord collapsed, and his aura rose and became stronger.

Magic Note Lord said with a smile: “Death Lord is really strong! If he were not bound by love, I’m afraid he would have been a great enemy of yours in the fight for the Eternal slot.”

Yang Feng uttered without hesitation, “No! Even if he competed with me over the Eternal slot, the winner would still be me.”

Magic Note Lord gave Yang Feng a deep look, and then said with a light smile, “Indeed! In terms of a firm mind, you are ranked first among us!”

Yang Feng had a firm goal in mind as he trod amid countless bloody storms and killed countless enemies, only then was he able to use countless resources and rise from an ordinary person to an Eternal Sovereign.

“Many thanks, your majesty Feng Eternal Sovereign, for giving my husband the Two Lives Flower. I will never forget this kindness.”

Leading Death Lord by the hand, Duoduo walked up to Yang Feng, bowed towards him, and said respectfully.

Yang Feng uttered meaningfully, “There’s no need for thanks! He deserves the Two Lives Flower.”

Death Lord is an unequaled overlord-level Emphyrean. In the entire universe, besides Yang Feng, there are no more than three people who can best him.

A Two Lives Flower in exchange for such a peerless overlord, it is well worth the investment.

The group went to the best restaurant in Devour Imperial Court and had a few drinks before dispersing.

Time elapsed and 20 years passed in a flash.

Cangzhi Plane, the headquarters of Devour Imperial Court, in a huge square.

A giant stronghold with a diameter of 1,000 kilometers, engraved with countless runes is suspended in the void.

From the giant stronghold, countless tiny mechanical tentacles extended. Those mechanical tentacles pierced into liquid metal pools and absorb the liquid metal formed from of various Emphyrean rank materials.

Countless mysterious runes formed on the huge stronghold.

The countless mysterious runes contain Eternal might. Even though they absorbed countless precious treasures of heaven and earth, they still can’t take the last step and form successfully.

“It’s time!”

Yang Feng's eyes flashed. He shone with countless runes and pointed with his hand, and tremendous Eternal force poured into the giant stronghold.

By absorbing Yang Feng's tremendous Eternal force, the countless runes inscribed on the huge stronghold took shape.

After nine days, the last rune formed successfully at last.

After the last rune was formed, energy storms were triggered within tens of millions of light-years.

Drawn by mysterious laws of the universe, a great amount of universe energies converged on Cangzhi Plane.

"What is that?"

"What's going on?"

"These fluctuations of power have surpassed the fluctuations of power when someone is advancing to the Emyrean realm."

"Eternal grade secret treasure! A new Eternal grade secret treasure is born!"

"Feng Eternal Sovereign is really awesome! He actually refined an Eternal grade secret treasure."

"To be able to refine an Eternal grade secret treasure in less than 1,000 years, that's preposterous!"

"..."

When the earth-shaking changes took place, in the entire universe, powerhouses at the Holy Spirit Warlock realm and higher were startled, and their eyes converged on this place.

The universe of the world of Warlocks has a shallow foundation. As such, it can give birth to only one Eternal Sovereign.

As a result, this vision of heaven and earth, which exceeds that of a powerhouse advancing to the Eternal realm, can only appear when an Eternal grade secret treasure is born.

"Eternal grade secret treasure! The alchemy of Feng Eternal Sovereign has actually reached this level! An Eternal Sovereign is indeed far above us in all aspects!"

Magic Note Lord looked at the dark clouds with a complex color in his eyes and sighed faintly.

Magic Note Lord is a genius of alchemy. When Yang Feng was in the Emyrean realm, even though he absorbed the alchemy essence of several civilizations, his attainments in alchemy were still below those of Magic Note Lord. However, after he advanced to the Eternal realm, Yang Feng's intelligence increased greatly, and he studied all kinds of alchemy. At this time, his attainments in alchemy are far above those of Magic Note Lord.

The level of life of an Eternal Sovereign surpasses that of an Emyrean. The learning ability of the two is also vastly different.

“Amazing! As expected of Feng Eternal Sovereign!”

In a palace, with Duoduo in his arms, Death Lord sighed lightly, and his eyes flashed with a complex color.

Every Emphyrean yearns to advance to the Eternal realm. Death Lord’s No. 1 goal was to revive his wife, Duoduo, while his other goal was to advance to the Eternal realm.

At the time, Death Lord was not sure that he could defeat Yang Feng, so he chose to compromise and work for the other party, all so that he could revive his wife.

Duoduo’s slim eyebrows creased slightly and her beautiful eyes flashed with anxiety, and she held Death Lord’s large hands tightly, “Older brother Shang!”

As an unequaled overlord-level powerhouse who established Death Imperial Court, Death Lord won’t easily accept playing second fiddle to another. Duoduo is worried that his will to fight for supremacy will ignite again.

Yang Feng’s will is as solid as iron, and he is ruthless. If Death Lord rebels, then even though he has made great contributions to the human race, Yang Feng won’t show any mercy.

Death Lord smiled unwittingly and hugged Duoduo, filled with tenderness: “Although I can’t advance to the Eternal realm and have some regrets. But as long as you’re with me, a mere Eternal slot is nothing at all.”

Duoduo hugged Death Lord and overflowed with tenderness: “Mhm! Once the universe great tribulation is over, let’s travel the universe and enjoy life.”

Death Lord smiled and said, “Okay!”

In the void above Cangzhi Plane, dark clouds billowed and lightning thundered. The entire plane seemed to change into a world of thunder and lightning.

“Divine Punishment Thunderclouds!”

“What terrible Divine Punishment Thunderclouds!”

“This Divine Punishment Thunderclouds is more terrible than the one that appeared for the Mirror of Fate!”

“What kind of Eternal grade secret treasure has his majesty Feng Eternal Sovereign refined? How come it’s so fearsome?”

“...”

On Cangzhi Plane, powerhouses of Devour Imperial Court and various races looked up at the sky and saw the billowing thunderclouds, and their eyes flashed with astonishment.

This time the Divine Punishment Thunderclouds that condensed in the void are more than a hundred times more terrifying than when the Mirror of Fate was born. This means that the Eternal grade secret treasure Yang Feng refined has exceeded the Mirror of Fate by far.

“Great! This is the purest lightning energy!”

Yang Feng walked out of the void and looked at the terrible thunderclouds in the sky, and his eyes flickered with an ecstatic shade. He extended his hand, and a giant hand that appears to run through the firmament extended towards the Divine Punishment Thunderclouds.

Countless runes shone, turned into rune chains, and stabbed into the sky.

Drawn by mysterious laws, the thunderclouds enveloping the whole Cangzhi Plan were locked by countless runes chains, pulled into the giant hand, and then finally turned into a terrifying lightning ball.

Yang waved his hand, and the terrifying lightning ball entered the level-8 stronghold.

Chapter 1377: Level-8 Stronghold

“Sure enough!”

“As expected of Feng Eternal Sovereign!”

“He dealt with the Divine Punishment Thunderclouds so easily!”

“He has become stronger!”

“...”

When the spectating powerhouses saw the Divine Punishment Thunderclouds disappear, their eyes glimmered with a complicated shade.

The Divine Punishment Thunderclouds are a fearsome existence that can slay Emyreans. However, such terrifying force was easily suppressed, sealed, and turned into resources for the level-8 stronghold’s promotion. This shows Yang Feng’s terror.

The level-8 stronghold shone, and then the runes diffused Eternal aura.

Yang Feng frowned, bit the tip of his tongue, and spewed out precious blood essence, which merged into the level-8 stronghold.

When the level-8 stronghold absorbed Yang Feng’s blood essence, it glittered with runes and broke out with flawless Eternal aura.

The level-8 stronghold opened. Lying quietly in the stronghold, Ling opened her eyes, and invincible Eternal aura rose from her unhurriedly.

“My lord! Thank you very much for bestowing Eternal force upon me!”

Ling came in front of Yang Feng and knelt on one knee, and her beautiful eyes shimmered with a scorching color.

When the other two Kings of Rulers, Ying and Xingji, saw this, their beautiful eyes flickered with envy.

Yang Feng uttered with a slight smile, “Let’s see how strong you have become.”

“Yes! My lord!”

Ling took a deep look at Yang Feng, and countless mysterious runes appeared in her eyes. Tremendous strings of data were instantly transmitted into Yang Feng's mind.

The 12 Ruler Saints under Ling's command appeared at once and knelt in front of Yang Feng.

The 12 Ruler Saint all exude fluctuations of power of unequaled overlord-level Emphyreans.

As her direct subordinates, when Ling advanced to the Eternal realm, the 12 Ruler Saints also obtained great benefits. Any one of them has exceeded Ying and Xingji in terms of strength.

"Alloy Realm Breaking Beast, a mechanical beast that can break through universe barriers."

"Universe Exploration Shuttle, an aircraft that can scout out other dimensions and universes."

"Devour Origin Beast, a mechanical beast that absorbs universe origin.

"Mechanical Hive, a mechanical unit developed with the Hive as template. Tier V Mechanical Hives containing ordinary Emphyrean rank combat power can be created.

"..."

One after another, mechanical beasts and weapons appeared in Yang Feng's mind.

Among the numerous mechanical beasts, the most important ones for Yang Feng are the Alloy Realm Breaking Beast and the Devour Origin Beast.

After Yang Feng advanced to the Eternal realm, although he obtained an eternal lifespan and virtually infinite power in his universe, but if he wants to advance further, it will be extremely difficult.

Yang Feng analyzed all kinds of known information. If an Eternal Sovereign wants to advance further, they can only do so by launching a war of annihilation similar to universe devour war and plunder another universe's origin.

In addition, they can also go to the mysterious greater universe. But practically nothing is known about the greater universe.

Yang Feng looked at the new weapons with a queer shade in his eyes, "Universes with high latitude and high universe energy level are too dangerous! Let's start by exploring universes with low latitude and low universe energy level! If I can devour several universes of low latitude and low energy level, I am certain that I will be able to defeat the three Eternal Sovereigns of Gumana Universe!"

In the perception of any Emphyrean, the universe is practically endless and boundless.

However, after Yang Feng advanced to the Eternal realm, he was able sense the edge of the universe.

The edge of the universe is surrounded by a universe crystal wall that can't be seen by even Emphyreans. The universe crystal wall blocks the powerhouses of other universes from coming here.

Beyond the universe crystal wall, there are different dimensions with chaotic space-time.

Depending on their universe energy level, each universe is located in a different dimension with chaotic space-time.

Yang Feng is an Eternal Sovereign of the world of Warlocks. But once he enters a different dimension chaotic space-time without a universe's coordinates, he will lose his direction and eventually die.

Boom!

The whole universe was shocked by tremendous noise.

Yang Feng's eyes glimmered with a peculiar shade, "The universe barrier has finally shattered!"

The universe barrier is the most powerful means of defense of a universe with low universe energy level. Once a universe barrier is activated, no being of a different universe can enter the universe, giving the creatures of the universe time for evolution and growth.

At the same time, a large amount of universe origin needs to be spent in order to maintain the universe barrier. It can't be maintained endlessly. Once the universe barrier reaches a threshold, it will have no choice but to collapse, or else the whole universe will begin to wither.

In addition to his steel-like will and the crystallization of xizu technology, one of the most important reasons why Yang Feng was able to advance to the Eternal realm was because the universe will of the universe needed him to advance to the Eternal realm in order to contend against the enemy universe's three Eternal Sovereigns.

After the level-8 stronghold was successfully refined, the universe will could no longer maintain the universe barrier.

"The universe barrier has collapsed!"

"What's going on?"

"Why at this time?!"

"Start all defense boundaries now!"

"Enter the first level of combat readiness!"

"..."

In the world of Warlocks, all forces with the protection of Holy Spirit Warlocks realized at this moment that the universe barrier collapsed and began to activate all kinds of fallbacks and enter the state of combat readiness.

Magic Note Lord woke up from his study of alchemy and looked into the distance with a dignified color in his eyes: "The universe barrier has collapsed! The great war seems inevitable!"

Death Lord sighed faintly, took a deep look and Duoduo, and uttered, "Duoduo, I'm going to fight the enemy! I going to protect our home! Please wait for me!"

Holding Death Lord in her hands, she gave him a light kiss, her face brimming with deep feelings and tenderness: "Yes, I will wait for you here. However, if you die, I won't live by myself. So promise me that you'll live."

There are many beauties in the world of Warlocks. Among the many beautiful Warlocks, Duoduo looks can be regarded as superior, but not peerless. But her love for Death Lord is as deep as the sea.

“I will live!”

Death Lord gave Duoduo a deep kiss and revealed a smile. He is brimming with confidence and might and emanates the demeanor of a invincible Warlock Emperor.

After the collapse of the universe barrier, the boundary between the two universes disappeared, as if they integrated.

In the world of Warlocks’ central starfield, the starfield suddenly blurred, the space-time distorted and became chaotic, and powerhouses of Gumana Universe appeared.

When the two universes merged, the area of the universes expanded crazily.

Powerhouses at the Holy realm and above clearly felt the rise of the universe’s universe energy level, making it easier for them to attack the Emyrean realm.

“The universe barrier is finally broken!”

“The great war has begun!”

“We can’t give the people of this universe time to react!”

“Kill them all!”

“...”

One huge fleet after another flew out of Gumana Universe and flew towards the universe of the world of Warlocks.

Hives flew out from all over and flew towards the universe of the world of Warlocks with great momentum.

From the starfield of each of Gumana Universe’s three divine races, 150 Tier V and 3 Tier VI Hives flew out.

A total of 450 Tier V and 9 Tie VI Hives flew out from the three starfields and, while surrounded by countless other Hives, flew towards the headquarters of Devour Imperial Court.

“In this great war, everyone from Devour Imperial Court must die! Anyone who supports Devour Imperial Court will become our enemy! We won’t accept their surrender!”

“Anyone who attacks Devour Imperial Court will become our friend and can join our universe’s camp and live!”

“Surrender and live! Resist and die!”

The eyes of the three Eternal Sovereigns of Gumana Universe shimmered frostily, and their thunderous voices rang incessantly in the void and spread to the whole universe.

After the collapse of the universe barrier between the two universe, the universe devour has entered the final stage. The laws of the two universes have been integrated. As such, the three Eternal Sovereigns can use their Eternal might in this universe and channel their words into the minds of every Holy Spirit Warlock.

“Gumana Universe has three Eternal Sovereigns, while our universe only has one! The difference is too large! It’s best to side with Gumana Universe!”

“Feng Eternal Sovereign killed powerhouses of our race! The hatred between us is as deep as the sea! His retribution has finally come!”

“Devour Imperial Court won’t stand a chance against the siege of three Eternal Sovereigns. It’s best to take Gumana Universe’s side. Feng Eternal Sovereign, thank you very much. If it were not for you, Gumana Universe might not have accepted us!”

“Feng Eternal Sovereign, you have destroyed my race with cruel and vicious means. This time, I will also breach your Devour Imperial Court, ruin your efforts, destroy everything of yours, and have all the people related to you die!”

“I’ve been waiting for a long time! You guys are here at last!”

“...”

In the universe of the world of Warlocks, many greater races guarded by Holies chose to submit to Gumana Universe at the first moment and sent elite experts to serve powerhouses of Gumana Universe.

In such a universe war, the victorious camp will surely purge the defeated camp. Powerhouses at the Holy Spirit Warlock realm and higher of the defeated camp will be all killed without exception. Even if you escape to the edge of the universe, you may still not be able to escape the pursuit of the Eternal Sovereigns.

Chapter 1378: Ambushing the Vanguard Army

“I, Immitis Ogre Lord request an audience with the three Eternal Sovereigns.”

Ripples rose in the void, and Immitis Ogre Lord came out of the void and appeared in front of the Tier VI Hive in the very front.

Divine light ejected out of the Tier VI Hive and illuminated Immitis Ogre Lord

Immitis Ogre Lord flashed and appeared in a vast hall inside the Tier VI Hive.

In the hall, exuding Eternal fluctuations of power, the three Eternal Sovereigns are sitting on three thrones.

Wing Eternal Sovereign asked, “Immitis Ogre Lord, how may we help you?”

Immitis Ogre Lord smiled lightly and said, “Your majesty Wing Eternal Sovereign, I in the hopes of joining Gumana Universe’s camp. I have many good friends who wish to do the same!”

The eyes of Divine Eyes Eternal Sovereign surged with mysterious runes and formed eyeballs. The eyeballs emitted strange divine light that shone on Immitis Ogre Lord.

Thanks to the strange divine light, Divine Eyes Eternal Sovereign was able to see through everything about Immitis Ogre Lord.

Even if Yang Feng uses the Mask of Fantasy Spirit Emperor, he won't be able to escape the probing of Divine Eyes Eternal Sovereign's divine light.

Yang Feng assassinated many powerful enemies, destroyed one major force after another, and plundered countless resources with the help of the Mask of Fantasy Spirit Emperor back in the day.

Yang Feng has been the object of research of Gumana Universe ever since he advanced to the Eternal realm. The three Eternal Sovereigns are quite worried that Yang Feng disguised as someone close to them will come and try to assassinate them.

Immitis Ogre Lord frowned slightly, yet he still let the strange divine light shine on him.

Divine Eyes Eternal Sovereign quickly retracted the divine light and nodded towards the other two Eternal Sovereigns.

Wing Eternal Sovereign said coldly, "You can join our camp. However, you surrendered too late. You must prove your loyalty with actions."

If it were before Cangzhi Plane recovered, a Holy Spirit Warlock joining the camp of Gumana Universe would have made the three Eternal Sovereigns overjoyed. Before Boyan Lord arrived in the world of Warlocks, if an Empyrean joined their camp, the three Eternal Sovereigns would even be willing to support them to become the No. 1 expert below the Eternal realm.

But now that the universe barrier has shattered and the final stage of the universe war has arrived, an Empyrean can no longer become the key to affect the overall situation of the war.

On a battlefield with Eternal Sovereigns, an Empyrean can only become the last straw that broke the camel's back.

In order to weaken the resistance of the universe of the world of Warlock as much as possible, only then will the three Eternal Sovereign recruit traitors.

Immitis Ogre Lord smiled faintly and said, "Please rest assured. My friends are willing to dedicate everything to the three majesties. They are willing to serve as the vanguard in the attack of Devour Imperial Court."

Divine Eyes Eternal Sovereign's eyes glimmered with the shade of praise, and he uttered, "Okay! Immitis Ogre Lord, if you do well, you will become the lord of a sacred race of our universe in the future!"

In the universe devour war, countless cannon fodder are going to die. The first tier cannon fodder are other universe powerhouses who actively joined the camp of Gumana Universe.

"Thank you, your majesties! I'm going to organize the manpower and attack Devour Imperial Court."

Immitis Ogre Lord bowed to the three Eternal Sovereigns in salute, radiated light, and disappeared.

The eyes of Frost Eternal Sovereign flickered with she shade of derision, and he uttered with a cold smile, "For an Empyrean to betray their universe, how truly foolish!"

The eyes of Wing Eternal Sovereign glimmered, and he uttered lightly, "Although a powerhouse who betrayed their universe can never advance to the Eternal realm, but they can at least save their life. A wise man submits to circumstances. Without these people, we would have to spend more time to annex this universe."

Divine Eyes Eternal Sovereign's eyes glimmered with the light of wisdom, and he uttered unhurriedly, "Yes, without these people, we would have to spend more effort to annex this universe. With more people on our side, there will be fewer enemies, and our chances of winning will be higher. Moreover, after this war is over, there's no way too many of them will be alive."

Frost Eternal Sovereign and Wing Eternal Sovereign exchanged a look and revealed a smile.

Immitis Ogre Lord soon integrated the powerful races eager to join the camp of Gumana Universe.

Fearsome fleets flew towards the starfield where Cangzhi Plane is located.

In a vast palace, there is a large oval table. At the head of the table, there sit three people, namely Immitis Ogre Lord, Glutton Ogre Lord, and Malum Dragon Lord.

On both sides of the oval table, there are more than 100 Holy rank powerhouses sitting.

Glutton Ogre Lord's eyes flashed with a fierce shade, and he uttered slowly, "Immitis Ogre Lord! For them to place us as the vanguard, they clearly have bad intention! They want us to serve as cannon fodder! Go and tell them that we want to have the same treatment as the rest of the armies of Gumana Universe."

The gazes of the rest of the powerhouses gathered on Immitis Ogre Lord. They are all aware that the powerhouses of Gumana Universe want them to serve as the vanguard in order to use them as cannon fodder.

Immitis Ogre Lord said solemnly, "Ladies and gentlemen, Gumana Universe has three Eternal Sovereigns! They are bound to win this war. If we don't pay a large enough of a price, then how can we assimilate into Gumana Universe? The three majesties have given us an inviolable order. They want us to serve as the vanguard and open the way for their armies."

When the rest of the powerhouses heard this, their hearts sank, and they remained silent. They all understand this reasoning. But at the thought of attacking Devour Imperial Court, they felt their blood run cold.

Malum Dragon Lord said, "But how do we deal with Feng Eternal Sovereign? With him present, no matter how many we are, only death will await us."

Each Eternal Sovereign is a powerhouse at the very top of the universe. If there was no Eternal Sovereigns in Gumana Universe, the as long as he spent some time, Yang Feng would be able to kill all of Gumana Universe's powerhouse at the Holy Spirit Warlock realm and above.

Even if Immitis Ogre Lord and the other powerhouses are added together, they won't stand a chance against Yang Feng.

Immitis Ogre Lord's eyes glimmered with the light of wisdom: "When coping with the three majesties, Feng Eternal Sovereign won't have power to spare to deal with us. When experts fight, a small variable

can be the difference between victory and defeat. If Feng Eternal Sovereign wastes his power to deal with us, he will have no hope of defeating the three majesties. A clever guy like him naturally won't waste his power on us."

If it were some other time, as long as he consumed less than 2% of Eternal origin force, Yang Feng would be able to easily suppress Immitis Ogre Lord and the other rebels. Yang Feng would just need an hour to fully recover 2% of Eternal origin force.

However, in this universe war, if Yang Feng loses 2% of Eternal origin force, it may be the cause of his defeat.

The rest of the powerhouses felt a little relieved when they heard this. Since his rise, Yang Feng has become a nightmare to countless powerful forces. If it were not for the fact that Gumana Universe has three Eternal Sovereigns, they would never have dared to oppose Yang Feng.

All of a sudden, terrible beams of light ejected from the surroundings and slammed into the huge fleet formed from various races like raindrops.

Boom! Boom! Boom!

Along with heaven-shaking blares, warships, spiritual mountains, and bone ships exploded into pieces.

A Devastator Cannon beam ripped the firmament and slammed into the palace carrying Immitis Ogre Lord and the other Emyreans.

In an instant, the palace's defensive barriers collapsed, and the palace itself was swallowed by the Devastator Cannon beam.

Along with flashes of light, beams slammed into the wreckage of the palace and turned the traitors into ashes.

Countless ripples rose, and a mechanical legion flew out of the void and attacked the vanguard army composed of traitors of the world of Warlocks.

The traitor army suffered heavy damage when it was ambushed. But then it was besieged by the huge mechanical legion, which resulted in more disastrous casualties.

"Who dares to attack me!"

A 10,000-kilometer-tall mountain of flesh suddenly appeared. The huge mountain of flesh has a large belly, a glutton ogre head, a wolf tooth club in the hand, and a fierce glimmer in the eyes. The huge mountain of flesh is Glutton Ogre Lord

"Glutton Ogre Lord, you're really foolish. Your two companions have fled. Only you came to throw away your life! How foolish!"

Accompanied by light laughter, Magic Note Lord came out of the void and stared at Glutton Ogre Lord, a smile on his face.

"Magic Note Lord!"

When Glutton Ogre Lord saw Magic Note Lord, his countenance changed drastically, and his eyes shimmered with graveness.

Of the eight Warlock Emperors of the human race, seven are unequaled overlord-level Emyreans. Magic Note Lord is definitely one of the most dreadful ones. He has countless secret treasures and is the most powerful alchemist of the human race.

“Those bastards!”

Glutton Ogre Lord scanned with his powerful soul force and detected that Immitis Ogre Lord and Malum Dragon Lord had left him here alone. His expression suddenly changed drastically, and he roared.

“Okay, you can go and die!”

Magic Note Lord smiled faintly and waved his hand, and an Emyrean grade secret treasure, the Ogre Subduing Ring, engraved with abstruse runes and radiating dazzling light suddenly flew out and barreled towards Glutton Ogre Lord.

The Ogre Subduing Ring radiated ogre subduing light that shot towards Glutton Ogre Lord.

The Ogre Subduing Ring is a secret treasure Magic Note Lord refined from a leg bone of the restraining ogre race Eternal Sovereign, and it has the miraculous effect of suppressing ogre powerhouses.

“Ogre Subduing Ring!”

Glutton Ogre Lord’s expression changed greatly. He surged with ogre force, brandished the wolf tooth club in his hand, and attacked the Ogre Subduing Ring.

Boom!

In an instant, Glutton Ogre Lord was pressed down by the Ogre Subduing Ring. He raised the wolf tooth halberd and bitterly resisted the ogre subduing light.

Chapter 1379: Annihilation of the Vanguard Army

Magic Note Lord smiled lightly and waved his hand, and the Ogre Slayer Sword flew out and, as if a meteor, stabbed Glutton Ogre Lord in the heart in an instant.

Countless strange ogre subduing runes appeared on Glutton Ogre Lord and suppressed him in an instant.

Overcast light radiated from the Ogre Subduing Ring, swept towards Glutton Ogre Lord, and pulled him into the Ogre Subduing Ring.

“My task is complete!”

Magic Note Lord smiled lightly, and then turned into countless rays of light and disappeared.

All of a sudden, invisible primal chaos spider threads emerged in the void and shot towards the escaping Malum Dragon Lord.

“Primal chaos spider threads! Primal Chaos Mother Spider!”

When Malum Dragon Lord saw the primal chaos spider threads, his countenance changed dramatically, and he belched malum dragon fire that can burn anything.

Wherever the malum dragon fire passed, most of the primal chaos spider threads were set on fire.

However, since Malum Dragon Lord was so focused on escaping, his reaction was a little too slow. As a result, dozens of primal chaos spider threads managed to stab him.

As if the sharpest swords, the primal chaos spider threads pierced through Malum Dragon Lord's protective barriers and stabbed into his scales.

Consequently, primal chaos spider poison poured into Malum Dragon Lord's body.

Under the erosion of the primal chaos spider poison, Malum Dragon Lord trembled, and his strength retreated like a tide.

Almost in an instant, innumerable primal chaos spider threads flew out and stabbed into Malum Dragon Lord.

Malum Dragon Lord trembled as the primal chaos spider poison eroded his malum dragon force and suppressed him.

The sexy and devastatingly beautiful Primal Chaos Mother Spider walked out of the void and spread the fingers of her hand, and countless primal chaos spider threads pulled Malum Dragon Lord towards her.

As the large as a star Malum Dragon Lord flew towards Primal Chaos Mother Spider, he shrank and finally became the size of a palm.

On the other side, the Axe of Death containing life and death force suddenly emerged from the void and hacked at Immitis Ogre Lord.

The person standing behind the Axe of Death is the once invincible in an era Death Lord.

Faced with the peerless axe strike containing frightening life and death force, the fleeing Immitis Ogre Lord fundamentally cannot evade it.

"You want to kill me? It's not that simple!"

Immitis Ogre Lord clenched his teeth and surged with ogre projections, and the Li Gui Mountain containing countless devils flew out at once.

The countless devils wailed. With a dull look in his eyes, the sky devil An emerged from the Li Gui Mountain and sent a claw barreling towards the Axe of Death.

Countless devil projections emerged from behind the sky devil An and unleashed creepy howls.

The entire void became chaotic and trembled constantly.

When the Axe of Death collided with the sky devil An's claw, a peerless axe ray broke out and slashed sky devil An's claw.

The sky devil An's claw is invincible and can pierce even the body of an Eternal Sovereign. However, under the erosion of the death force, it became withered and frail, and, after only a moment of stalemate, collapsed directly.

The axe ray, which can cut down all vitality, sliced the sky devil An's remnant body in two and turned it into ashes.

Boom!

Death Lord brandished the Axe of Death and, as if an invincible overlord suppressing the universe, slashed Immitis Ogre Lord's Li Gui Mountain with his axe, and a world-shaking blare erupted.

The Li Gui Mountain trembled slightly, and then collapsed into pieces.

A terrifying force broke out, and the small world inside the Li Gui Mountain was destroyed instantly. Hundreds of millions of devils disintegrated into countless pieces.

Tremendous life force gushed out of the devils and poured into Death Lord's Axe of Death.

The Axe of Death is the crystallization Death Lord's path. The more powerhouses it slays, the stronger it will become. If it can slay three Eternal Sovereigns and absorb their soul and life force, it will be able to advance to an Eternal grade secret treasure.

At this moment, Immitis Ogre Lord disappeared without a trace.

Death Lord took a deep look into the distance, and then turned into a stream of light, and disappeared

"Stop! Don't kill me!"

"I surrender! Don't kill me! Spare my life!"

"..."

Besieged by countless battle robots, powerhouses of the vanguard army, which attacked Devour Imperial Court, unleashed miserable howls and begged for the opportunity to surrender. But the battle robots continued to kill them mercilessly.

"Sir Frost Lord, please save them!"

When Immitis Ogre Lord returned to the camp of Gumana Universe, he found Frost Lord of frost divine race. Frost Lord is the marshal of Gumana Universe's vanguard.

Frost Lord uttered with a cold smile, "Why should I save them? Their only use is to serve as cannon fodder and consume the Devour Imperial Court's strength. The more of them die the better!"

Immitis Ogre Lord suddenly felt a chill go down his spine and said, "Sir, they are loyal subjects serving the three majesties."

Frost Lord said with a light smile, "Immitis Ogre Lord! After this battle, the universe energy level will surely rise. The more people die, the more resources there will be left for us. Only then will we be able to become stronger and even have a chance to advance to the Eternal realm. Therefore, the more of them die the better."

Frost Lord swept Immitis Ogre Lord with his eyes, “Since they sided with our Gumana Universe, we naturally won’t attack them. Only if they are able to survive, only then will we fulfill our commitment. But the precondition is — they have to survive! Immitis Ogre Lord, you’re an intelligent individual, you should know what to do!”

Immitis Ogre Lord suddenly smiled and uttered unhesitatingly, “Yes! I’ll come up with ways for them to die!”

For Immitis Ogre Lord, the most important thing is he himself. The traitors of the universe of the world of Warlocks can become stepping stones for his advancement and be used to win the trust of the powerhouses of Gumana Universe and render merit.

Frost Lord nodded with satisfaction and looked at the battlefield quietly.

The powerhouses of Gumana Universe stood still and watched as the mechanical legion of Devour Imperial Cuort slaughtered the traitors with contempt in their eyes.

“Why won’t you save us!”

“I curse you!”

“Damn you all!”

“...”

Curses full of resentment transmitted from the traitor army, and the traitors cast various secret methods and escaped in different directions.

Countless Space Rulers emerged and sealed the void. The huge mechanical legion killed the traitors one after another and stained the void with blood.

“Let’s go!”

Just before the traitors were about to be completely wiped out, Frost Lord ordered coldly.

Ten Tier V Hives burst out with mysterious light, fused together with a large number of Tier IV, Tier III, and Tier II Hives, and changed into ten ice dragons as big as the sky.

The ten ice dragons emitting fearsome auras and belched terrifying ice breaths that can freeze a world barreling towards the mechanical legion.

Wherever the dragon breaths passed, battle robots turned into ice sculptures, unable to move.

The joint attack of the ten ice dragon froze 200,000 6th generation battle robots and turned them into ice sculptures. They possess far greater destructive power than ordinary Emphyreans.

Ripples flickered, and the almost endless mechanical legion scattered and battle robots escaped in different directions.

The warships turned into rays and fled into the distance.

Frost Lord glanced at Immitis Ogre Lord and uttered flatly, “Immitis Ogre Lord!”

“Yes!”

Immitis Ogre Lord gritted his teeth, turned into a stream of black light, and flew towards the mechanical legion.

Boom! Boom! Boom!

Having lost the protection of Emphyreans, one huge warship was squashed by Immitis Ogre Lord after another like a toy, and exploded directly.

The main army of Gumana Universe darted towards Cangzhi Plane.

As for the other planes, the Emphyreans of Gumana Universe attacked them madly, destroying one plane with intelligent life forms after another.

Forced to come out, the Emphyreans of the world of Warlocks engaged the Emphyreans of Gumana Universe.

Virtually every day, hundreds of millions of intelligent life forms died in both universes.

Countless powerhouses of the world of Warlocks sneaked into the starfields of Gumana Universe and unleashed wanton massacres. By destroying the stars of Gumana Universe and weakening the war potential of the other party, they hope to gain a bit of time.

War and death have become the themes of the whole universe.

Yang Feng and the three Eternal Sovereigns didn't step in. They quietly watched the fight between the powerhouses of the two universes and waited for the final battle to come.

The world of Warlocks cannot compare to Gumana Universe in terms of underlying strength. However, over the years, many powerful forces have purchased Yang Feng's battle robots. Under these circumstances, the battle robots made great achievements and killed countless powerhouses of Gumana Universe.

Primal Chaos Mother Spider, Magic Note Lord, and Death Lord, these three unequalled overlord-level Emphyreans fought all over the universe and killed one Emphyrean of Gumana Universe after another.

Thanks to the Warp Gates set up all over the universe, the armies of Gumana Universe can concentrate their forces and quickly throw them into the battlefield to annihilate the enemy.

As the fighting progressed, the powerhouses of Gumana Universe suffered countless casualties. The scales slowly tilted in the favor of the universe of the world of Warlocks.

Chapter 1380: Decisive Battle

Although the universe energy level of Gumana Universe is half an energy level higher than that of the universe of the world of Warlocks, but the most precious resources of the universe are under the control of the three Eternal Sovereigns. As such, the number of Emphyreans of Gumana Universe who can contend against Primal Chaos Mother Spider, Magic Note Lord, and Death Lord is very low.

Although there is a large number of Emphyreans in Gumana Universe, but with the help of Warp Gates, they can be besieged and killed one by one.

“Feng Eternal Sovereign’s alchemy is really fearsome! Wing Eternal Sovereign, when can we copy this robot successfully?”

In a Tier VI Hive, Divine Eyes Eternal Sovereign spread the fingers of his hand, and a 7th generation battle robot comparable to a quasi-Holy rank powerhouse appeared in his hand.

More than 100 quasi-Holy rank 7th generation battle robots broke into a starfield of Gumana Universe, destroyed a life star, and killed tens of billions of intelligent life forms of Gumana Universe. This is an intact 7th generation battle robot powerhouses of Gumana Universe captured.

Wing Eternal Sovereign’s eyes flickered, and he said, “I already analyzed the structure, materials, control system, and core chip of this robot. However, it will take at least 30 years to put it into mass production. Moreover, our technology is completely different from that of Devour Imperial Court. We lack the core technology of Devour Imperial Court. As such, the manufacturing efficiency can at most only reach 60% of that of Devour Imperial Court.

Every Eternal Sovereign has extraordinary intelligence and frightening learning ability.

As soon as the quasi-Holy rank robot fell into the hands of Wing Eternal Sovereign, he easily analyzed its various aspects.

With the ability of Wing Eternal Sovereign, it is easy to create quasi-Holy rank battle robots. Even creating Holy rank battle robots isn’t difficult. However, even if it’s someone as powerful as him, it is very difficult to manufacture such battle robots in large quantities.

Unless Wing Eternal Sovereign can obtain the core secrets of the xizu in Yang Feng’s possession, it will be difficult for him to manufacture battle robots exceeding the xizu technology in a short time.

Frost Eternal Sovereign smiled coldly and uttered resolutely, “It’s a shame, but the key to the outcome of the universe war still lies in the hands of Eternal Sovereigns! Let’s go! We mustn’t give him time!”

The other two Eternal Sovereigns nodded.

In the universe devour war, the battle between Eternal Sovereigns determines the outcome. Once a universe’s Eternal Sovereigns are defeated, that universe will become the defeated party.

All the actions taken against the world of Warlocks by Gumana Universe before were aimed at weakening the underlying strength of the opponent, so that the universe of the world of Warlocks cannot produce an Eternal Sovereign, or that it produces a weak Eternal Sovereign.

But then Yang Feng rose, smashed the plans of Gumana Universe, and finally advanced to an Eternal Sovereign, making the three Eternal Sovereigns apprehensive, not daring to use tricks again.

“Let’s go!”

With a cold gleam in his eyes, Wing Eternal Sovereign spread the fingers of his hand, and mysterious runes flew out of his hand and turned into Eternal light that swept towards the void.

Illuminated by the Eternal light, the warships of the three divine races’ main fleet grew a pair of giant wings.

When the wings sprouted, a distorted torrent of time shrouded the main fleet's warships. With a flap of the wings, the main fleet's warships disappeared.

In a breath of time, the main fleet appeared in Cangzhi Plane's outer space.

To be able to cross millions upon millions of light-years in an instant as well as make Gumana Universe's main fleet cross millions upon millions of light-years, this is an unfathomable power Wing Eternal Sovereigns wield.

As soon as the main fleet of Gumana Universe appeared in the outer space, countless Hives flickered with mysterious runes, formed Hive monsters, and attacked the mechanical forts in Cangzhi Plane's outer space.

Thanks to Wing Eternal Sovereign's terrifying power, the reaction of Devour Imperial Court's mechanical forts was too slow, and thus more than 1,000 mechanical forts were destroyed by the army of Gumana Universe.

But since Cangzhi Plane has become the lair of Devour Imperial Court, there are countless mechanical forts in its outer space at this time.

The mechanical forts immediately activated their defensive protocols, and light beams barreled towards the powerhouses of Gumana Universe like rain drops.

Boom! Boom! Boom!

The sound of huge explosions rang incessantly as mechanical forts were blown to pieces one after another. Hives were also blasted to pieces by the artillery fire.

Holies and Emphyreans of the two universes fought madly in the outer space.

Huge holes were blasted open in the void.

Swarms of mechanical robots formed a mechanical ocean and engaged the powerhouses of Gumana Universe in the void.

Blood, mechanical fragments, and broken parts covered the universe. Countless powerhouses of Gumana Universe died every moment. At the same time, countless mechanical robots were destroyed every moment.

Frost Lord, Bona Lord, and Wing Lord, each of whom is an all unequaled overlord-level Emphyrean, also joined the battlefield and blocked Primal Chaos Mother Spider, Magic Note Lord, Death Lord, Michaelia, and Shi Yu.

The remaining Emphyreans of the 18 sacred races and 3 divine races fought Ying, Xingji, Blue Moon Merfolk Empress, and other Emphyreans.

From time to time, an Emphyrean would die.

In the universe, bloody rain fell and other visions occurred incessantly.

"Feng Eternal Sovereign, surrender! You alone are no match for the tree of us! If you surrender, we will spare the lives of you and your relatives and friends."

A boundless Eternal aura suddenly broke out. Divine Eyes Eternal Sovereign walked out of the void and waved his hand, and a giant hand containing Eternal force shot towards Shi Yu and Michaelia, filled with killing intent.

When Shi Yu and Michaelia saw the giant hand containing Eternal force, their expression changed at once. At this time, they were being restrained by Bona Lord and fundamentally could not resist the blow.

“Divine Eyes Eternal Eternal Sovereign, as an Eternal Sovereign, to bully two Emphyreans, aren’t you ashamed?”

A cold voice came from Cangzhi Plane. A terrifying finger containing endless might stabbed the giant hand, and Divine Eyes Eternal Sovereigns giant hand collapsed.

Two tyrannical Eternal forces collided together and formed a terrifying energy storm.

In the wake of the energy storm, in an area hundreds of thousands of kilometers in radius, anyone below the Holy rank was swept away, and many powerhouses of Gumana Universe died directly.

The eyes of Divine Eyes Eternal Sovereign flickered, and he uttered unhurriedly, “This is a war of extinction between our two universes. The victor won’t be condemned.”

With two flashes of Light, Wing Eternal Sovereign and Frost Eternal Sovereign appeared beside Divine Eyes Eternal Sovereign.

Eternal aura capable of suppressing the universe diffused from the three Eternal Sovereigns and spread in all directions.

“Gumana Universe shall be victorious!”

“His majesty Divine Eyes Eternal Sovereign is invincible!”

“His majesty Wing Eternal Sovereign is invincible!”

“His majesty Wing Eternal Eternal Sovereign is invincible!”

“...”

As soon as the three Eternal Sovereigns appeared, the morale of the powerhouses of Gumana Universe soared, and they roared with excitement.

The appearance of Eternal Sovereigns signifies that the final decisive battle is approaching.

With three Eternal Sovereigns on its side, Gumana Universe has higher chances of victory.

Primal Chaos Mother Spider creased her eyebrows, and her eyes glimmered with helplessness, “Three Eternal Sovereigns! They finally stepped in!”

Magic Note Lord revealed a bitter smile, “So decisive! If the three of them join forces, they won’t leave any gaps!”

There are great conflicts between the three Eternal Sovereigns of Gumana Universe. But once the universe barrier collapsed, the three Eternal Sovereigns joined hands very decisively and stayed together, so as not to give Yang Feng a chance to pick them off one by one.

The three Eternal Sovereigns of Gumana Universe didn't use any tricks nor schemes, but came in an open, aboveboard, and most difficult to resist manner.

Under the terrible Eternal might, all Holies and Emphyreans of the world of Warlocks turned pale in the face and felt their blood run cold.

A terrible pillar of light rose from Cangzhi Plane, and Yang Feng walked out slowly. Boundless Eternal might diffused from him.

"Feng Eternal Sovereign!"

"His majesty Feng Eternal Sovereign is invincible!"

"The human race is invincible!"

"Devour imperial Court is invincible in the world!"

"Your majesty Feng Eternal Sovereign, cut them down!"

"..."

After seeing Yang Feng appear, the eyes of the powerhouses of Devour Imperial Court flashed with excitement, and they roared madly.

The younger generation of Devour Imperial Court gazed at Yang Feng with zealous worship. Since his rise, Yang Feng has killed countless strong enemies and now has advanced to an Eternal Sovereign. He is definitely a top powerhouse among Eternal Sovereigns.

"Feng Eternal Sovereign, I think quite highly of you. If you were in our universe, you could be one of us and be eternally inextinguishable. Unfortunately, you rose in the wrong universe and can only die!"

The eyes of Divine Eyes Eternal Sovereign shone with abstruse runes, and the person himself distorted and turned into a terrifying eye with a diameter of 10,000 kilometers.

In the giant terrifying eye, countless eyes formed, each containing an essence.

The creepy eyes flashed, and strange rays gathered in an instant and formed a terrifying beam, which can destroy everything, barreling towards Yang Feng.

Wing Eternal Sovereign broke out with countless runes and turned into a pair of giant wings that flapped and slashed towards Yang Feng at a terrifying speed.
