

MGE 1481

Chapter 1481: Slaying the First Human Emperor

“Brazen! Li Zhen, you dare resist the call of the Tianxing Palace! That’s a sin worthy of death!”

A furious voice reverberated in the void. A powerhouse shrouded in violent starlight, donning starlight armor walked out from the Tianxing Palace.

In the void, three stars shrouded in endless murderous intent emerged and radiated scarlet starlight that shone on the powerhouse donning starlight armor.

When Zhou Tianshi operated his eyes and saw the three stars, his complexion changed dramatically, and he exclaimed, “Tanlang Star, Pojun Star, Qisha Star, the Three Xiong Stars have gathered! That’s the hallmark of a chaos demon, of the master of the Three Xiong Stars who will lead the world into chaos.”

With that, Zhou Tianshi turned into a stream of light and flew towards the imperial palace of the state of Zhao.

“Chaos demon! The enemy of the human emperor!”

When Huangpu Qinghe saw the powerhouse donning a starlight armor, his countenance changed drastically, and he turned into a stream of light and flew towards the imperial palace.

“Chaos demon! The mortal enemy of the human emperor! It’s a shame, but he appeared late!”

Star Shadow Leopard Holy gazed at the sky and sighed lightly, and then blurred into motion, turned into a stream of light, and flew towards the imperial palace.

“Greetings, human emperor!”

A dozen plus Star Holies appeared next to Yang Feng and saluted him respectfully.

The dozen plus Star Holies are powerhouses that either submitted to Yang Feng or were cultivated by him and are the reserves of the state of Zhao.

Yang Feng waved his hand and uttered flatly, “Step back!”

Holies can’t meddle in a fight between Star Emperor rank powerhouses. After all, once they get involved in such a fight, they will be easily killed by the opponent as if cannon fodder.

“Yes!”

Aware that this isn’t a fight they can interfere in, the dozen plus Star Holies retreated respectfully.

The chaos demon smiled coldly and uttered frigidly, “Even if tens of thousands of years pass, the human emperor is still so hypocritical! It’s disgusting!”

“Yang Feng asked indifferently, “Who are you?”

The chaos demon replied proudly, “I am Demon Emperor Zhu Yu who has slayed the Fifth Human Emperor!”

“Demon Emperor Zhu Yu! It’s actually him! So he’s the one who has slayed the Fifth Human Emperor and ruined the efforts of the human clan back in the day! Because of him the star devil clan had nearly turned the tables on us!”

“It’s actually that demon!”

“Demon Emperor Zhu Yu! That’s the demon who slaughtered countless people of our human clan and slayed the Fifth Human Emperor! This freak is still alive!”

“...”

When the Star Holies heard this, their complexion changed greatly and their eyes flickered with terror.

In the history of the World of Stars, there have existed peerless demons who have been favored by the Three Xiong Stars. Once a peerless demon favored by the Three Xiong Stars appears, he is bound to become a mortal enemy of the human emperor.

Past peerless demons were either quelled by the human emperors, or they took down human emperors together with themselves. Only Demon Emperor Zhu Yu managed to slay a human emperor.

If it were not for the fact that Demon Emperor Zhu Yu disappeared abruptly, the human race would have likely fallen into his hands of the chaos demon and sunk into dark times.

“Li Zhen, since you are unwilling to submit to the Tianxing Palace, then go to hell!”

With a flash of murderous intent in his eyes, Demon Emperor Zhu Yu bellowed, and the Three Xiong Stars glimmered and radiated starlight that sprinkled on him.

“This is the Emperor Slayer Halberd, a treasure I refined using the corpse of the Fifth Human Emperor! The Emperor Slayer Halberd can sever star force and anything else in its way! Now die! After you die, I will use your corpse as nutrients for my advancement!”

A halberd surrounded by endless starlight, resentment, and murderous intent appeared in Devil Emperor Zhu Yu’s hand, and then tore the sky and stabbed towards Yang Feng.

In an instant, the Three Xiong Stars in the sky radiated fearsome star force, intertwined with the Wenqu Star, Wuqu Star, and Ziwei Star, and cut off the assistance of the Three Tian Stars provided to Yang Feng.

Without the support of the Three Tian Stars, Yang Feng can only rely on himself to fight.

“I have blocked the Wenqu Star, Wuqu Star, and Ziwei Star. Now you are just a newly promoted Star Emperor and are no match for me.”

Demon Emperor Zhu Yu surged with black star force and roared thunderously as if a demon lord, and the void split open.

Huangpu Qinghe’s countenance changed drastically, “The Three Tian Stars have been suppressed! The human emperor will die!”

Meng Hao sighed lightly, and his eyes shimmered with complicated emotions, “How fierce! He chose this time to fight with the human emperor! How vicious! He has grasped the human emperor’s weak point. After all, the human emperor has grown for too long!”

When the state of Wei was destroyed, Meng Hao held resentment towards Yang Feng. However, after Yang Feng unified the three states, the state of Zhao became prosperous and steadfast. He doesn't want Yang Feng to die.

Zhou Tianshi's eyes flickered with despair and filled with anguish, "Curses, we're too weak! We don't have the qualifications to participate in this fight!"

"If I was a mere human emperor that just advanced, then I really wouldn't be a match for you. It's a shame, but I'm not just a human emperor!"

Yang Feng looked at Demon Emperor Zhu Yu, who looked like an invincible demon lord, smiled lightly, and swung his palm.

A big star force hand containing Eternal force flew out and slammed towards Demon Emperor Zhu Yu.

Demon Emperor Zhu Yu's resistance was instantly crushed, and he dropped from the sky and shouted madly, a look of disbelief on his face, "Impossible! How is this possible? I have advanced to a Star Emperor 30,000 years ago. Furthermore, I have comprehended countless mysteries in the Tianxing Palace. How could I be defeated? How could I be defeated at your hands?"

"That's because you messed with the wrong opponent! I'm an Eternal!"

Yang Feng quietly replenished in his heart. Countless mysterious devour runes emerged from the big star force hand and shrouded Demon Emperor Zhu Yu.

Shrouded by the devour runes, Demon Emperor Zhu Yu trembled, and rays of black light flowed into Yang Feng from the other party.

In a breath of time, Demon Emperor Zhu Yu turned into dust that scattered with the wind.

The Tanlang Star, Pojun Star, and Qisha Star in the sky radiated dazzling starlight, and three beams of starlight illuminated Yang Feng and made his aura to climb higher.

All of a sudden, countless stars appeared in the World of Stars and radiated brilliant starlight that intertwined and fused with the soul and origin of this body of Yang Feng and formed an Eternal imprint that flew towards the depths of the universe.

"You want to advance to the Eternal realm, then go to hell! In this universe there can only be one Eternal!"

The Eternal of the World of Stars awakened and mobilized the power of the universe, and a hand appeared and extended towards the Eternal imprint.

Regarding an Eternal, once a second Eternal appears in their universe, it is equivalent to the other party fighting over resources with him and even posing a threat to him.

Once an Eternal appears in the World of Stars, then the master of the World of Stars will ruthlessly slay them.

Following a glimmer of light, Xingji appeared, gripped the Shield of the Ruler, and urged endless star force to form a giant barrier blocking in front of the hand.

Rumble!

Along with a blare, Xingji was sent flying by the terrifying hand and the giant starlight barrier collapsed directly.

After Xingji blocked that attack, the Eternal imprint of Yang Feng's avatar fused with the universe.

In the entire universe, countless stars sprinkled starlight that formed a star force sea. The star force sea turned into a beam that flowed into Yang Feng and crazily strengthened his body and soul.

"Oursiders! How did you infiltrate my World of Stars!"

A voice full of astonishment and anger transmitted from the depths of the World of Stars. Along with a glimmer of starlight, a middle-aged man dressed in a star robe walked out and gazed at Xingji in astonishment and anger.

"Your World of Stars? From now on the World of Stars belongs to me! First Human Emperor!"

A cold voice rose. Along with a glimmer of light, Yang Feng appeared in the void and looked at the First Human Emperor in ridicule.

"Mere trash that just advanced to the Eternal realm wants to wrestle away the World of Stars from me, you're overestimating yourself!"

The First Human Emperor snorted coldly and willed, and the entire universe broke out with terrifying rejection force and frenziedly rejected Xingji's existence.

"It's no use! I am an Eternal just like you! We both have the same scope of authority! We'll have to contest in terms of strength."

Yang Feng willed, and the boundless rejection force of the universe disappeared.

"Now go to hell! And hand over the World of Stars!"

Yang Feng's avatar smiled coldly, and a figure flew out from behind him. That figure is Yang Feng's true body.

The eyes of Yang Feng's true body glimmered. He surged with countless devour runes and extended his hand, and a terrifying devour black hole appeared and swept towards the First Human Emperor.

"Six Stars Unite!"

The First Human Emperor's eyes shimmered ferociously. The starlight of the Three Tian Stars and Three Xiong Stars illuminated him and formed a star force halberd, and he gripped the star force halberd and slashed at the devour black hole.

The devour black hole surged with terrifying devour force and drew in the star force halberd together with the First Human Emperor.

Terrifying devour force broke out and crazily devoured the Eternal origin of the First Human Emperor.

An Eternal imprint appeared directly. Yang Feng crushed the Eternal imprint of the First Human Emperor, and then refined the other party's true spirit and origin and channeled it into Xingji.

When Xingji got the true spirit and origin of the First Human Emperor, she spat out countless threads of starlight that formed a cocoon and began to evolve.

Chapter 1482

1482 – Advancing to the 6th Layer Eternal Realm

“The World of Stars has finally fallen into my hands! Ling, start harvesting!”

After Yang Feng slayed the First Human Emperor, his eyes flickered coldly.

Ling appeared behind Yang Feng and opened her beautiful eyes, and numerous mysterious runes appeared all over her body.

A circular rune that looks to be carved from white jade appeared on Ling’s forehead and emanated strange fluctuations that spread towards the depths of the World of Stars.

The entire World of Stars trembled, and tremendous universe origin was continuously extracted and channeled into Ling’s body.

Ling pointed with her hand, and a pure energy beam emerged abruptly and flowed into Yang Feng’s body.

Yang Feng frenziedly operated the Devour Heavenly Art, broke out with countless devour runes all over his body, and frantically devoured the pure energy beam, and his power rose bit by bit.

After absorbing the formidable energy beam, Yang Feng’s aura climbed step by step, and he made a breakthrough in one go. 6th layer Eternal realm aura diffused from him.

Yang Feng sensed the power that welled up inside him, and his eyes shimmered with the shade of comfort, “As expected of an Eternal King grade secret treasure! It’s really great! It can directly harvest universe origin force!”

After Yang Feng advanced to a 5th layer Eternal, he had to spend countless resources and time to advance by a layer.

But when he conquered the World of Stars, he directly harvested its universe origin, which allowed him to advance to the 6th layer Eternal realm. This speed of advancement is unprecedented.

“I’ll give you the remaining universe origin! Xingji!”

Yang Feng pointed with his hand, and a beam emerged abruptly and flowed into Xingji.

After Xingji absorbed the universe origin of the World of Stars, she erupted with endless light and the cocoon split open. Xingji evolved again and gained 6th layer Eternal realm power.

Xingji’s beautiful eyes glimmered with the shade of elation, and she uttered, “Thank you for bestowing me power, lord!”

Yang Feng smiled lightly and said, “The universe origin of the World of Stars is most compatible with you! This power should naturally be given to you!”

Different universes have different universe origins and different universe laws. Only Eternal World can accommodate countless powers.

The World of Stars is a universe with star force as the core. For Xingji, who wields star force, universe origin of this universe is most compatible with her.

Yang Feng uttered, "Ling! Has the deduction of the 7th layer of the Devour Heavenly Art been finished?"

Ling replied, "The deduction has been finished."

A string of information entered Yang Feng's mind.

Yang Feng creased his eyebrows when he saw the information, "The 7th layer of the Devour Heavenly Art is really thorny!"

The 4th layer, 7th layer, and 9th layer of the Eternal realm represent three great transformation realms of the Eternal realm. It is extremely hard for an Eternal to advance to the 7th layer Eternal realm.

From Du Luo King's treasury Yang Feng not only obtained Du Luo King's complete Eternal heavenly art, but also obtained countless Eternal tycoon rank secret methods he collected. Coupled with Ling's terrifying computing power, the 7th layer of the Devour Heavenly Art was finally deduced.

The fastest way for Yang Feng to cultivate the Devour Heavenly Art to the 7th layer is to devour an Eternal tycoon with 9th layer Eternal realm cultivation base proficient in the essence of devour.

Yang Feng took a glance at this method and discarded it right away. If he uses this method, his chances of success are zero.

An Eternal tycoon can mop the floor with Yang Feng. Unless he escapes to the world of Warlocks, only death will await him.

But once Yang Feng escapes into the world of Warlocks, it will mean that he will have to hide in the world of Warlocks, never to advance to the Eternal King realm.

In addition, if he enables the universe of the world of Warlocks to devour 100 other universes on the same level as the World of Stars, then the resulting power can allow him to advance to a 7th layer Eternal.

Furthermore, if Yang Feng uses the universe origin Ling harvests from the World of Demongods and the World of Stars, then he'll be able to break through and advance to a 7th layer Eternal realm powerhouse after 100,000 years.

There are still two other paths that he can take, that is, obtain Eternal miraculous materials characteristic of Eternal World and use their help to advance; or use Ling's power, go to the universe of a 7th layer Eternal, and harvest said universe's Eternal origin and use it to advance.

Yang Feng's eyes flickered frigidly, "Eternal miraculous materials are in the hands of Eternal Kings and Eternal tycoons. In addition, there may be some in danger zones. With my current strength, If I go to those danger zones, I will be throwing away my life.

Eternal miraculous materials are only born in the Ten Sacred Firmaments and the places that bear them are under the control of either Eternal Kings or Eternal tycoons.

Because of this many rogue Eternals will join the camp of Eternal Kings or major force in order to obtain Eternal miraculous materials.

"I have the treasury of Du Luo King in my possession. If I join a major force, I'll only be backing myself into a corner. In that case, the remaining path is to proceed to a universe with a 7th layer Eternal and harvest said universe's Eternal origin."

"Of the universes whose dimensional coordinate I hold at the moment, only one has a 7th layer Eternal, namely Shengguang Universe."

"Shengguang Universe is currently in a universe devour war with Duyun Universe! This is a great opportunity for me!"

The corners of Yang Feng's mouth rose into a pleased smile.

If it were at normal times, then even if Yang Feng used Ling to infiltrate the life-bound universe of a 7th layer Eternal, it would be a suicidal attempt.

But during a universe devour war, Yang Feng can take advantage of the chaos.

Universe devour wars are most dangerous, where anything can happen. Back in the day when Yang Fang got the favor of the universe of the world of Warlocks, he experienced outrageous growth, advanced to an Eternal, and killed the three Eternals of Gumana Universe.

"Before I leave, I should make proper arrangements first!"

Yang Feng's figure fluttered, and he appeared in the World of Stars and began to handle various affairs.

The universe sea, in front a universe crystal wall.

Following a flash of ripples, Yang Feng appeared in front of the universe crystal wall and looked at it with a dignified shade in his eyes.

"So that's a Universe Hook, a secret treasure produced by Eternal World!"

On the universe crystal wall, there is a pitch-black giant hook lodged. The giant hook is connected to another universe crystal wall, pulling that universe towards the other universe.

The Universe Hook is a peerless secret treasure that a 9th layer Eternal realm Eternal tycoon refined from universe origin of a universe that perished.

Once the Universe Hook hooks a universe, the resentment force of countless perished intelligent life forms contained within the Universe Hook will pull said universe to another universe, pull it towards the depths of extinction.

A Universe Hook can be used only one time. Once it is used, after two universes enter the final stage of the universe devour war, the Universe Hook will disappear. Eternal tycoons have few such treasures.

Yang Feng looked at the terrifying Universe Hook and felt a slight chill in his heart, “The most dreadful thing in the universe is when the the dimensional coordinates of a universe are exposed to Eternals of Eternal World. The dimensional coordinates of the world of Warlocks absolutely cannot be exposed. Luckily the dimensional coordinates have changed after the world of Warlocks’ advancement. Now even if it’s Eternal Kings, they won’t be able to easily find the dimensional coordinates of the world of Warlocks.

In Eternal World, there are elites and overlords of countless universes congregate. These powerhouses possess incredible secret treasures, including secret treasures like the Universe Hook that can trigger a universe devour war.

“Ling!”

Following Yang Feng’s order, Ling walked out from behind him, a white jade rune appeared on her forehead, and a white beam ejected out and merged into the universe crystal wall.

A transparent channel appeared, and Yang Feng shrouded in white light entered the universe crystal wall.

After crossing the universe crystal wall, Yang Feng saw an endless universe.

“This universe’s universe energy level is really high! Even though the world of Warlocks annexed Gumana Universe, it’s still inferior to Duyun Universe.

“Hmm, it’s better to display it in a digitized form according to my understanding. Carry out the digitization.

Yang Feng willed, and Ling began to do the digitization.

According to Yang Feng’s understanding, a universe that can bear 1st layer Eternals has level-1 universe energy level. With this analogy, a universe that can bear 9th layer Eternal Sovereigns is a level-9 universe.

The universe energy level of the world of Warlocks was originally level-1. After devouring Gumana Universe, it’s universe energy level was only upgraded to level-2. This meant that if an Eternal uses an Eternal heavenly art in the world of Warlocks, they can cultivate to the 2nd layer Eternal real.

Yang Feng was able to advance to a 6th layer Eternal all thanks to the countless resources he obtained from other universes.

If he just stayed in the world of Warlocks, then he would be at most a pinnacle stage 1st layer Eternal at this time.

The World of Stars is a universe with level-3 universe energy level. Compared to the current world of Warlocks, it is a notch better. However, since a large chunk of the World of Stars’ universe origin has been harvested by Yang Feng, it is currently in a weakened state and is just slightly better than the world of Warlocks.

As for the World of Demongods, it is a universe with level-0 universe energy level. After all, it can’t produce level-1 Eternals.

Naturally universe energy level isn't unchanging. Thanks to Yang Feng's remodeling, the universe energy level of the World of Demogods is advancing towards level-1. After Yang Feng advanced repeatedly, the universe energy level of the world of Warlocks is advancing towards level-3.

The higher a universe's universe energy level is, the easier it is for powerhouses in said universe to cultivate. Conversely the lower a universe's universe energy level is, the harder it is for powerhouses to cultivate.

Chapter 1483: Infiltrating Duyun Universe

"The current universe energy level is level-4."

Ling's eyes flickered as she gathered data and quickly gave an answer.

Yang Feng's eyes flashed, "Level-4 universe. Without taking Eternal World into account, this is the most formidable universe I have encountered. Very well! Start the fate scan! Search for children of fate!"

"Yes! Starting the scan!"

Countless mysterious runes appeared in Ling's eyes.

Mysterious ripples emerged in Ling's eyes. A white jade rune appeared on Ling's forehead, and mysterious light emanated and spread towards the entire universe.

Ling responded, "Locked on 3,675 children of fate."

Duyun Universe is currently in a universe devour war with Shenguang Universe. Although Duyun Universe has eight Eternals, but it is still at a disadvantage.

The 7th layer Eternal realm sole god of Shenguang Universe is sufficient to quell the eight Eternals of Duyun Universe by himself.

Under these circumstances, the universe will of Duyun Universe began to produce powerhouses, with countless geniuses appearing all over the universe.

The countless geniuses will fight as if Gu [1] in a jar, and the last remaining individual will advance to an Eternal.

Although Yang Feng is proficient in the essence of fate. But in Duyun Universe, he can't locate the children of fate by means of the essence of fate.

After Ling devoured Du Luo King's secret treasure, she has become more formidable. Now even if it's in Duyun Universe, she can mobilize the power of fate.

Eternals are matchless beings in their life-bound universe. Yet they stand no chance against Eternal Kings.

"Let's choose the one with the strongest fate force first!"

Yang Feng scanned with his eyes and pointed with his hand, and a portal appeared in front of him.

Yang Feng stepped into the portal and disappeared in a flash.

Duda Star.

In a cave, there is a blond and blue-eyed young man lying on the ground and gasping for air. The young man smiled coldly and muttered, a flash in his eyes, "Beth, you bitch! You actually sent assassins after me! How vicious! Once I have cultivated successfully, I will make you pay for this!"

Along with a flash of ripples, Yang Feng walked out from the void, swept the blond and blue-eyed young man with his gaze, and uttered flatly, "Child of fate, consider yourself unlucky. You have been chosen by me! If you have any last wishes, I will fulfill them for you!"

"Are you an assassin sent by Beth? You're really formidable. It's a shame, but you can't kill me."

The blond and blue-eyed young man sneered. A golden crystal emerged from his forehead, emanated Warlock Monarch realm fluctuations of power, and turned into countless mysterious runes, and frightening space fluctuations shrouded the blond and blue-eyed young man.

"That's a child of fate of this universe for you! Despite being merely a level-3 Warlock realm powerhouse, you possess a Warlock Monarch rank life-saving secret treasure! That's really impressive! It's a shame, but you're rather unlucky! After all, you met me!"

Yang Feng smiled faintly and pointed with his hand.

In an instant, the frightening space fluctuations pacified, and the flow of the golden crystal's power reversed, sealing him.

How is this possible? This is a Space Teleportation Crystal refined by Cohen Monarch! Even Holies can't break it! How did you break it!"

The blond and blue-eyed young man roared frenziedly, his face painted with disbelief.

"This sort of space teleportation, I was already able to break it when I was in the Warlock Monarch realm! Let alone now when I have reached the Eternal realm! In front of absolute strength, even a child of fate like you will be backed into a corner."

Yang Feng smiled tranquilly and tapped the forehead of the young man with a finger. Along with a flash of black light, the young man disappeared in an instant.

Yang Feng's eyes glimmered, and he easily read the memories of the young man.

Yang Feng was taken aback when he finished reading the young man's memories, "I see! So this guy is called Arthur and his fiancée broke up with him. But they have already slept together. In order to hide this fact and charm a new man to be her betrothed, his fiancée tried to kill him!"

Duyun Universe's people are divided into slaves, commoners, aristocrats, and royals.

Arthur's identity is that of a fallen aristocrat. He had an affectionate relationship with his fiancée and had already slept with her. But his fiancée, who was unwilling to stay idle, met the successor of a great aristocratic family, and then chose to abandon Arthur and seduce said successor of a great aristocratic family.

In order to conceal her past, the girl called Beth used her resources to send waves of assassins after Arthur.

But Arthur wasn't a child of fate for no reason. As he was being chased by the assassins, he had repeated fateful encounters and even obtained the inheritance of Cohen Monarch. He advanced from the level-1 Warlock realm to the level-3 Warlock realm and was close to promoting to the Great Warlock realm and going back to exact revenge.

Along with a flash of ripples, an avatar separated from Yang Feng and turned into Arthur, emanating soul fluctuations identical to those of Arthur.

Ling pointed with her hand, and a white radiance ejected out from the void and merged into Yang Feng's avatar.

The white radiance is Arthur's fate. Fate is colorless and formless, and even Eternals can't extract it. Yet Ling was able to easily extract his fate. It was possible because she refined the Eternal King grade treasure.

Yang Feng's eyes shimmered with the shade of pity, "It's a shame, but unlike in the World of Stars, I can't resort to cheats here!"

In the World of Stars, when Yang Feng awakened the Three Tian Stars as his life-bound stars, he used their power to advance to the Glorious Sun Warlock realm in one go, and then used his Eternal characteristics to erupt with a crazy speed of promotion.

However, Yang Feng's advancement in the World of Stars was classified as reasonable.

But if his avatar in Duyun Universe advances to the Glorious Sun Warlock realm in one go, it will definitely arouse suspicion. If the Eternals of this universe are alarmed, Yang Feng can only escape this universe helter-skelter.

"Since Arthur has already reached the edge of promotion, it won't be an issue if he advances to a Great Warlock realm powerhouse now."

Yang Feng's thoughts revolved. Countless patterns appeared on the avatar, and he frenziedly absorbed the surrounding life origin energy, made a breakthrough, and advanced to a Great Warlock realm powerhouse

Yang Feng swept the surroundings with his gaze, and his eyes flickered with the shade of pity, "There are no fortuitous encounters in the vicinity."

With Ling's terrifying ability, with a slight scan, it will become apparent if there are any treasures, fortuitous encounters, and so on in the area.

If there are fortuitous encounters in the area, Yang Feng can trigger the fortuitous encounters and reasonable advance at a frenzied rate.

"I should go back! And deal with Arthur's unfinished business in passing."

Yang Feng's figure flickered, and he disappeared from this place.

Duda Star, at Lemmens Academy, one of the ten academies of Duda Star. Only children of great aristocratic families, fallen aristocrats, and commoner geniuses can enter Lemmens Academy.

Arthur was a fallen aristocrat and a genius. By relying on great effort, he passed the entrance exams and entered Lemmens Academy. At the same time, he bore the hopes of his family's revival on his shoulders.

"Arthur, why have you returned?"

When Yang Feng stepped into Lemmens Academy, a blond and blue-eyed, sexy and charming, stunningly beautiful girl walked this way.

Yang Feng imitated Arthur's mannerisms: he glared at the stunningly beautiful girl, clenched his fists, gritted his teeth, and uttered, "Beth, you bitch, you dare appear in front of me?"

Yang Feng has completely assimilated Arthur's memories and can fully imitate Arthur's mannerisms.

A handsome man with short blond hair stepped forward and uttered with a cold look in his eyes, "Arthur, shut your smelly mouth! Beth is Carthage's woman. If you don't simmer down, I will teach you a good lesson! I will teach you how to behave!"

Yang Feng asked, "And you are?"

Beth replied with a light smile, "This is senior Andre, the successor of Count Azalea as well as one of the ten experts on the academy's Dragon List!"

Andre revealed a proud smile.

Lemmens Academy is teeming with geniuses. To be able to become one of the ten experts, it's naturally something to be proud of.

"Since that's the case, then follow me to the arena to have a duel to the death!"

Yang Feng threw a glove at Andre's face.

In Duyun Universe, throwing a glove at the opponent's face is a provocation as well as an invitation to a duel.

Andre grabbed the glove, stared at Yang Feng with endless murderous intent in his eyes, and uttered while enunciating each syllable, "Duel to the death! Very well! Arthur, since you're tired of living, then I'll oblige you!"

When Beth witnessed this, a feeling of uneasiness welled up inside her.

Andre is the successor of Count Azalea, the successor of a great aristocratic family. If he dies at Yang Feng's hands, it will set off huge waves, and even Beth might be implicated.

Beth promptly reassured herself, "Andre is a 9th layer Spirit Apprentice, only a step away from advancing to an Extraordinary! He is one of the ten experts of Lemmens Academy. But Arthur is just a 1st layer Spirit Apprentice. He's not a match for Andre."

"Have you heard? Andre and Arthur are going to duel to the death!"

"Duel to the death? Is there some deep hatred between them?"

"It's because of Beth!"

"Isn't that Carthage's woman?"

"Who knows!"

"A love square?"

"Love pentagon! Ha-ha, that Beth is such a minx."

"A duel to the death! Interesting!"

"..."

The elites of Lemmens Academy were startled and rushed towards the arena of the academy.

<hr /> [1] – Gu

Chapter 1484: Slaying Andre

Since the universe devour war between Duyun Universe and Shenguang Universe has started, the elites of the two universes engaged in the universe realm bridge formed between the two universes and fought over the land of the universe realm bridge.

Because of this, fighting was encouraged and competition was promoted in Duyun Universe.

Lemmens Academy has not only permitted private fights, but has also permitted official duels. Even life and death duels aren't prohibited. This is all due to the academy's philosophy of cultivating the strong.

There is already a sea of people around the arena.

"Andre is a 9th layer Spirit Apprentice, only a step away from being able to advance to an Extraordinary! Arthur stands no chance!"

"After Arthur entered the academy, he only advanced to a 1st layer Spirit Apprentice. Although he may be regarded as a genius when compared to ordinary people. But compared to Andre, he's too weak. He just dug himself into a hole."

"..."

The spectating students commented spiritedly and looked at Yang Feng in the middle of the arena with pity.

9th layer Spirit Apprentice is comparable to pinnacle stage level-3 Warlock. 1st layer Spirit Apprentice is comparable to early stage level-1 Warlock.

Level-1 Warlocks stand no chance against level-3 Warlocks.

On a dais at the arena, there are three people sitting, two male and one female.

A handsome young man with short blue hair and brown eyes sneered, a flash of derision in his eyes, "Arthur unexpectedly challenged Andre! What a foolish thing!"

The eyes of a blond and blue-eyed young man shimmered, and he spoke with a faint smile, “Mike, Arthur’s fiancée was seduced and stolen by Carthage. It’s not surprising that he has gone crazy. Since he was able to return alive from Laoxia Mountain Range, he should have some skill.”

A blond and blue-eyed young woman, who has a sexy figure, is gorgeous, and emanates a heroic air snorted coldly, and her eyes flickered, “No! Ryan, it wasn’t Carthage who seduced Beth. But that slut Beth who seduced Carthage. I don’t know what’s so great about that slut for you boys to go crazy over her.”

Mike uttered with a light smile, “Pauline, she can’t compare to you in any aspect! The only aspect she’s better in than you is femininity.”

Pauline’s eyes flickered with resentment, and she waved her fist and threatened menacingly, “Mike, do you want to go to the arena with me and have a spar?”

Mike responded with a light smile, “Your only detriment is your violent temper. There’s no way Carthage would like you. If you mend this point, I guarantee that Beth won’t stand a chance against you. After all, you are the only girl in the Ten Champions.”

Mike, Ryan, and Pauline are part of the Ten Champions of Lemmens Academy. While Carthage is ranged first among the Ten Champions. He is the most formidable genius of Lemmens Academy.

Because Carthage is so dazzling, Beth felt deeply attracted to him. She dumped Arthur, and then used various schemes to become Carthage’s woman.

Pauline said proudly, “I was born that way! If Carthage doesn’t like me, than that’s his loss!”

Ryan uttered abruptly, “It has started!”

Gazes focused on the arena.

With two teachers as witnesses, Yang Feng and Andre signed the duel to the death contract, completed all the relevant procedures, and formally entered the arena.

“Arthur, you’re really an idiot. After you returned to Lemmens Academy, if you stayed put, I would have no way to deal with you. But now you challenge me to a duel to the death! You must be suicidal!”

Andre’s eyes flickered coldly, and he took out a golden crystal plaque.

Mysterious runes appeared in the golden crystal plaque, and golden marks emerged from the crystal plaque, intertwined on Andre’s body, and formed a golden dragon battlegear, making him look like a golden dragonman.

That’s the Golden Dragon Battlegear! A top-shelf battlegear placed in the top 10 among class 1 Extraordinary battlegears!”

He actually has the Golden Dragon Battlegear, that’s Andre for you. This time Arthur is toast!”

“While being strengthened by the Golden Dragon Battlegear, even a class 1 Extraordinary may not be a match for him. So this is the strength of one of the Ten Champions! It’s really amazing!”

“...”

When the spectating students saw this, they drew in a sharp breath.

In Lemmens Academy, if you cultivate to a class 1 Extraordinary (Great Warlock), you can graduate, and then enter a college.

While equipped with the Golden Dragon Battlegear, Andre is nearly invincible in Lemmens Academy. Even if it's the rest of the experts of the Ten Champions, they must use secret methods of the same level to be able to defeat him.

Crystal battlegear is the crystallization of Duyun Universe's extraordinary force. As long as they're equipped with a sufficiently powerful crystal battlegear, then Extraordinaries can even defeat powerful enemies whose cultivation base is higher by a greater realm than theirs.

Yang Feng smiled coldly and spread the fingers of his hand, and a bronze crystal plaque appeared.

Cyan light radiated from the crystal plaque and formed a bronze battlegear with wings and a bronze sword.

"What battlegear is that?"

"From which crystal is that battlegear formed?"

"It's looks like an ancient crystal battlegear!"

"..."

When the spectating students saw the strange battlegear, their eyes flickered with enigmatic light.

"So you had a fateful encounter. However, this antique from ancient times is already out-of-date! Arthur, go to hell!"

Andre's eyes flickered with a vicious shade. As if a golden dragonman hunting prey, his hand suddenly erupted with golden light and barreled towards Yang Feng's heart.

Andre's speed was fast to the extreme. Even if his opponent was a dragon, they would have their heart ripped out.

"Die!"

Yang Feng simply took a step forward and slashed with his sword in a flash.

A cyan sword ray broke out, tore the space, and shot towards Andre at inconceivable speed.

When the cyan sword ray streaked past, the golden light dimmed, and Andre trembled and uttered with a look of incredulity on his face, "You killed me!"

In the next moment, terrifying force broke out and blasted Andre into countless fragments that scattered on the floor.

Silence filled the area, and the eyes of the spectating students flashed with disbelief.

"Arthur, you actually, you actually killed Andre! You're done for!"

A stupefied referee trembled, pointed at Yang Feng, greeted his teeth, and barked thusly, filled with fear.

Andre was a direct descendant of a great aristocratic family. Even though he was killed in a fair duel, his death will still trigger huge waves.

The referee was a fallback that Andre set up. Once Andre was in danger, the referee would violate the rules of the duel and rescue Andre.

But no one expected that Andre, one of the Ten Champions, would be killed by Yang Feng in a single sword strike.

Yang Feng responded with a cold smile, "I had a fair duel with Andre! He died at my sword and has no one else to blame other than himself. Are you trying to violate the rules and interfere in a fair duel?"

The referee stayed silent, a cold look in his eyes. If he had rescued Andre just now, then he would surely have obtained great benefits. These benefits would be more than enough to make up for the penalty of violating the rules.

But if the referee violates the rules now and attacks Yang Feng, he will receive a terrible punishment.

Yang Feng turned around, looked at Beth, and uttered with a smile of derision, "Beth, go back and tell Carthage that if he has the guts, then he should go to the arena with me and have a duel to the death! If he doesn't have the guts, tell him to hide like a good-for-nothing and not mess with me."

Beth became pale in the face, and her beautiful eyes filled with both fear and indignation.

When he finished speaking, Yang Feng's figure fluttered, and he walked out of the arena and strode away.

Mike gazed at Yang Feng's back and drew in a sharp breath, "How vicious! He actually cut down Andre!"

Ryan's eyes flickered with apprehension, "He actually slayed Andre! He's done for! The Azalea Family won't let him get away with it."

The Ten Champions come from great aristocratic families and have a robust background. They view ordinary people and fallen aristocrats as ants. Yet now that the successor of a great aristocratic family was slayed by Yang Feng. This naturally shocked them greatly.

Pauline looked at Yang Feng's back with interest in her beautiful eyes.

"He slayed Andre! The Azalea Family won't let him get away with it. Lemmens Academy can't protect him! But a college can!"

On Duda Star, Lemmens Academy cultivates students from 1st layer to 9th layer Spirit Apprentice realms. Once students break through the 9th layer Spirit Apprentice realm, they will step into the class 1 Extraordinary realm and can take the college entrance examination and enter a college to further their studies.

Colleges are holy grounds of cultivation where prodigies of Duda Star are cultivated. They are full of experts and even have Holy realm powerhouses standing guard.

On Duda Star there are three colleges, namely Battlegod College, Duda Royal College, and Purple Eye College.

“Duda Royal College has a large number of prodigies of great aristocratic families. Me slaying Andre is equivalent to offending the great aristocrat community. If I enter Duda Royal College, I will have to face many troubles. I need an excuse to fight constantly and increase my strength rapidly, so Battlegod College is my best bet!”

Yang Feng contemplated for a while and turned his hand, and the crystal plaque belonging to Arthur appeared. He touched the crystal plaque and chose the trial by fire to enter Battlegod College.

Chapter 1485: 10 Stars Genius

A floating crystal vehicle stopped in front of a towering luxurious building, and Yang Feng alighted the vehicle.

The difference between Duyun Universe and other universes is that it is a universe with all kinds of crystals as its energy source. The whole society here presents a unique thriving scene of advanced civilization.

The wall of the towering luxurious building is inlaid with countless golden crystals and is shrouded with a formidable barrier.

Even if a nuclear bomb were to explode on the building, it wouldn't be able to deal any damage.

The imposing luxurious building is Battlegod College.

“Hello, can I help you with anything!”

When Yang Feng entered Battlegod College, an extremely beautiful receptionist dressed professionally spoke with a pleasant smile.

Yang Feng replied, “I come to participate in Battlegod College's entrance examination!”

The receptionist took out a crystal card, tapped it several times, and then revealed a sweet smile, “Hello, student Arthur! Please follow me!”

With the receptionist leading the way, Yang Feng arrived at a large square in Battlegod College.

At the large square, there are 100 plus youngsters gathered. They are geniuses from various places of Duda Star and they have come here to participate in Battlegod College's entrance examination.

Battlegod College originally had strict procedures, recruiting students once every three years.

But now the universe devour war broke out and large amounts of powerhouses die at every moment. Under these circumstances, Battlegod College had no choice but to change its rules. As long as you meet the requirements, you can take a test. If you pass the test, you can become a student of Battlegod College.

“That's Arthur!”

The beautiful Pauline was startled when she saw Yang Feng at the square. She hesitated for a moment, and then squeezed through the crowd and arrived in front of Yang Feng.

Pauline uttered with a slight smile, "Hello, Arthur. I am Pauline, a senior of yours from Lemmens Academy. It turns out that you have already advanced to a class 1 Extraordinary! No wonder you were able to kill Andre with a single sword strike!"

Yang Feng responded with a light smile, "So you're senior Pauline! You have also advanced to a class 1 Extraordinary. It appears that you are more talented than Carthage.

Pauline is one of the Ten Champions of Lemmens Academy as well as the No. 1 beauty of Lemmens Academy.

In terms of appearance, Pauline is better than Beth. But in terms of femininity, she is a lot worse than Beth.

Pauline's beautiful eyes flickered with the shade of unwillingness, "Carthage is a true genius! He has advanced to a class 1 Extraordinary a year ago. Furthermore, he obtained a special invitation from Duda Royal College. But for some reason he remained in Lemmens Academy. Compared to him I am far too lacking."

"Silence!"

An old man dressed in blue walked over, looked around, and spoke thusly.

Warlock Monarch realm fluctuations of power diffused from the old man and swept in all directions.

"Class 7 Extraordinary!"

Pauline's beautiful eyes surged with mysterious light, and she turned silent.

The 100 plus geniuses at the square became quiet at once.

The old man in blue uttered flatly, "Start the examination!"

Mysterious blue light sprinkled down from above the square and shrouded the 100 plus geniuses.

"This is detection light! It's really impressive! If it was before I obtained the Mask of Fantasy Spirit Emperor, when I was in the Holy Spirit Warlock realm, it would be impossible for me to escape its detection!"

Yang Feng calmly sensed the detection light and let it enter his body.

With his 6th layer Eternal realm strength and coupled with Ling's ability, even an 8th layer Eternal wouldn't be able to see through his disguise. If they don't grasp formidable detection spells, even some 9th layer Eternal realm Eternal tycoons wouldn't be able to see through it.

At this time, in the middle of the 100 plus geniuses, the countenance of a young man changed. His figure distorted and changed into that of an angel, and Bright World Warlock realm fluctuations of power diffused from him.

"For my lord!"

The angel's eyes flickered with intense murderous intent, and he bellowed. Countless feathers of light ejected out from the wings behind him and shot towards the surrounding geniuses.

The Bright World Warlock realm angel is not a match for the Warlock Monarch realm old man in blue. As such, he could only kill the geniuses of Duyun Universe at the square.

Yang Feng's complexion changed. He curled up into a ball, and a blue crystal flew out, radiated mysterious light, and formed a blue crystal shield blocking in front of him.

"This is Battlegod College! You damn angel, go to hell!"

The eyes of the old man in blue turned cold, and two blue crystal guns appeared.

The two crystal guns inscribed with abstruse patterns glimmered, and two blue beams slammed into the angel.

When the Bright World Warlock realm angel was hit by the blue beams, his body crumbled.

Blue light appeared on the square and shrouded the geniuses.

When the feathers of light unleashed by the angel slammed into the barrier formed from blue light, they raised ripples and disappeared.

Only six unlucky geniuses were hit by the feathers of light and died.

"Duyun Universe's civilization has a strong offense but a weak defense! The class 7 Extraordinary's blue crystal guns possess fearsome might and can even deal serious damage to Great Holy realm powerhouses. But in terms of combat power, he may not necessarily be able to win against a human Warlock Monarch. Although this universe's universe energy level is at level-4, but its no wonder that it only has 3rd layer Eternal Sovereigns at most. That's because they overemphasize on external objects and destructive power and neglect their own development!"

Yang Feng glanced at the six fallen geniuses and secretly criticized in his heart.

If it were a Warlock Monarch from the world of Warlocks, he would be able to easily suppress the angel and protect everyone at the square.

Of course Warlock Monarchs of the world of Warlocks have no way of harming a Great Holy. In this aspect, Duyun Universe is far more formidable then the world of Warlocks.

The old man in blue said indifferently, "Continue with the examination!"

Teleportation beams surged, and the bodies of the six fallen geniuses disappeared.

The mysterious detection light dropped down and sprinkled on the crowd of geniuses.

A quarter of an hour later, the detection light disappeared.

"Now carry out power examination!"

The words of the old man in blue have just fallen, when a crystal wall appeared.

“The examination rules are as follows: you are not allowed to use any secret treasures, attack the crystal wall with merely your own power.

In Duyun Universe, there are many mysterious secret treasures, some of which can enable people to become superhumans. But that’s meaningless.

No matter who it is, in order to advance to an Eternal, they must develop their body and soul and evolve to the extreme.

The xizu focused too much on formidable battle robots and didn’t develop their body and soul. They went astray and ended up perishing.

“I’ll go!”

The figure of a young man fluttered, and he appeared on the square, surged with strange patterns, unleashed a howl, and punched the crystal wall.

The crystal wall flashed and released white light.

“Power, failure!”

The eyes of the young man dimmed, and he proceeded to another site that tested speed.

“Speed, failure!”

“Actual combat, failure!”

“Comprehensive evaluation, failure! Next!”

A cold voice sounded, and the youngsters was eliminated.

Battlegod College only admits real geniuses. Although the young man has already advanced to a class 1 Extraordinary, but he’s strength is still too lacking and thus was rejected.

The 100 plus geniuses at the square took the tests and were eliminated one by one.

Pauline’s pretty eyes flickered with a dignified shade, and she uttered unhurriedly, “Battlegod College only admits real geniuses! They’re strength is too weak and thus can’t be admitted into Battlegod College. Only experts on the level of the Ten Champions of Lemmens Academy have hopes to enter Battlegod College.”

“I have to join Battlegod College and in a spectacular fashion to boot. Only then will I be able to obtain more cultivation resources and evolve fast. I can’t arouse suspicion!”

Yang Feng’s eyes flickered, and he took a step and arrived on the square.

The old man in blue uttered with an indifferent expression, “Begin!”

Yang Feng took a step, surged with patterns containing abstruse power, and sent his fist flying, and his fist unleashed blue lightning and slammed into the crystal wall.

Boom!

Along with a blare, the crystal wall shattered.

“Class 2 Extraordinary realm power!”

“Incredible! He’s only a class 1 Extraordinary, yet he possesses class 2 Extraordinary realm power!”

“A true genius!”

“...”

The eyes of the examiners flashed with excitement, and they spoke one after another.

The eyes of the old man in blue lit up, and he revealed a smile of excitement, “Power, 10 stars!”

Yang Feng stepped into the speed examination site. He surged with mysterious patterns from his legs, took a step, and appeared at the finish line as if through teleportation.

“Speed, 10 stars!”

Yang Feng entered the actual combat site, and a pinnacle stage Great Warlock realm powerhouse lunged at him immediately.

Yang Feng’s figure fluttered, and he appeared in front of the pinnacle stage Great Warlock realm powerhouse, punched the other party, and sent him flying.

“Actual combat, 10 stars!”

The old man in blue spoke with excitement in his eyes, “Comprehensive evaluation, 10 stars! This is a genius that appears once in a decade!”

Chapter 1486: I Am a Student of Battlegod College

Pauline took a deep look at Yang Feng, and her pretty eyes flashed with complicated emotions, “A 10 stars genius! No wonder he dared to kill Andre!”

10 stars geniuses are geniuses that appear once in a decade on Duda Star. Once Yang Feng enters Battlegod College, the college will attach great importance to him. By then even great aristocrats won’t be able to do anything to him while he’s in Battlegod College.

“Arthur, hence forth you are a student of Battle God College. My name is Beddes and I’m a teacher of Battlegod College. If you have any questions regarding cultivation in the future, don’t hesitate to come to me.”

The old man in blue glanced at Yang Feng with satisfaction in his eyes, took the crystal plaque in Yang Feng’s hands, and tapped it with a finger.

A gun and a battlegear coat of arms appeared in the crystal plaque. This is the coat of arms of Battlegod College.

Yang Feng responded, “Yes! Teacher Beddes!”

After a shot chat, Yang Feng left Battlegod College and headed towards Lemmens Academy.

“That’s him!”

Shortly after Yang Feng returned to Lemmens Academy, a female voice sounded from the side.

A woman with heavy makeup pointed at Yang Feng and shrieked, "That's him! He's the one who raped me! Mister policeman! That's him! Arrest him!"

20 plus policemen emerged from different directions and surrounded Yang Feng.

A burly rank 3 policeman with a hook nose and a vicious air about him walked over, looked at Yang Feng, and uttered coldly, "Student, you are a suspect in a rape case. Please follow us!"

"Rape!"

"Arthur raped someone!"

"How shameless!"

"What a lowly thing! He brought shame to us aristocrats!"

"..."

Gazes of condemnation focused on Yang Feng.

Lemmens Academy students rushed over from different direction and surrounded the area.

"Arthur, you killed my older brother! Even if you don't die this time, I will ruin your reputation! I will make you understand that the Azalea Family isn't something that a fallen aristocrat like you can provoke!"

In the middle of Lemmens Academy students, a 1,76-meter-tall, blond and blue-eye great beauty with a curvaceous figure, slender legs, and snow-white skin glared at Yang Feng and raised the corners of her mouth into a cold smile.

The great beauty is Victoria, Andre's younger sister. She is one of the Ten Champions of Lemmens Academy. She is also one of the top five beauties of Lemmens Academy, second only to Pauline. She is far more famous than Beth.

Yang Feng asked flatly, "You claim that I'm a rapist? Do you have any evidence to prove your claim?"

The woman with heavy makeup shouted in a sobbing voice, "I have proof! These are your briefs! It has your DNA!"

"I thought that it was a wrongful accusation! Who would have imagined that he's actually such a person!"

"That's really disappointing!"

"..."

The eyes of the spectating students flashed, and they commented one after another.

The rank 3 policeman said frigidly, "Student Arthur, now please follow us back to assist us in the investigation. If you refuse, we will have to forcefully restrain you."

The 20 plus policemen took out black crystals and pressed them. Along with a flash of black light, a black battlegear appeared on them.

The black battlegear is called Cheetah Crystal Battlegear and is a standard equipment of the police. They are also equipped with a black ray gun that can pierce through class 6 Extraordinary realm (Infinity Warlock) barrier.

The most dreadful thing is that the police represents the power of Duda Star's government. As such, even class 7 Extraordinary realm powerhouses don't dare to attack them lightly.

"You trash, you want to frame me? You brought it on yourself."

Yang Feng smiled coldly and spread the fingers of his hand, and a bronze crystal appeared. Bronze chains ejected out from the crystal and stabbed the rank 3 policeman and the 20 plus policemen.

The rank 3 policeman and the other policemen were aught of guard. They were stabbed by the bronze chains and sealed, unable to move.

Yang Feng broke out with mysterious patterns, took a step, appeared in front of the woman with heavy makeup, and grabbed her.

"Since you came to frame me, then let everyone see your ugly memories! This is a memory reader! You must be happy to use it!"

Yang Feng took out a bronze headband and placed it on the woman's head.

Metal needles stabbed into the woman's brain and began to rapidly read her memories.

Bronze light ejected out from the bronze headband and formed a bronze holographic projection in the void.

"Take this and come with us to testify that someone raped you!"

In the holographic projection, the rank 3 policeman handed the woman a pair of briefs.

The woman hesitated and said, "Sir Fernan, you want me to frame someone? I won't do something like that!"

The rank 3 policeman said with a cold smile, "100,000 credits! Grisna, I have countless ways to make you disappear. Either take the money and do as you're told, or become a corpse in some ditch, chose one!"

The eyes of the woman flashed with fear, and she uttered, "Okay, sir! I'll do as you say! Who do you want to frame?"

The rank 3 policeman replied, "A student of Lemmens Academy called Arthur!"

"It's a frame-up!"

"So the rank 3 policeman tried to frame Arthur!"

"It's seems that we falsely accused Arthur!"

"..."

Lemmens Academy students watched the holographic projection in the void with a scowl.

"Fernan! It's your turn! I want to see who is behind this!"

Yang Feng smiled coldly and strode towards Fernan.

Fernan's countenance changed dramatically, and he released howls as if a wounded beast, "No. You don't have the authority to do that. I'm an imperial policeman. Only the imperial court has the qualification to try me. You don't have the qualification to do that to me!"

"Damn it!"

In the middle of the crowd of students, Victoria's complexion changed, and she flicked her wrist. A gun that can pierce through the defenses of class 6 Extraordinaries appeared in her hand.

A black beam ejected out from the crowd of students and shot towards Fernan.

The corners of Yang Feng's mouth rose into a smile, and he pulled Fernan up from the ground. The black beam missed his vital points and instead hit Fernan in the right arm, blasting the right arm apart.

"How cruel! Everyone, come and see who wants to get rid of the witness!"

Yang Feng laughed out loud and placed the bronze headband on Fernan's head.

Bronze light ejected out from the bronze headband and formed a holographic projection in the void.

Victoria's voice transmitted from the holographic projection, "Fernan, I want you to deal with someone."

Fernan gripped a communicator and asked, "Young lady Victoria, who do you want me to deal with?"

Victoria answered coldly, "A student of Lemmens Academy called Arthur. He killed my older brother. I want to ruin his reputation."

Fernan hesitated and asked, "Is it you who wants me to deal with him, or is it the Azalea Family? After all, Arthur is an aristocrat. I don't have the power to deal with him."

Victoria responded, "Naturally it's the Azalea Family! Fernan, don't ever forget, the things you have achieved until now was all thanks to the power of the Azalea Family. The Azalea Family can send you to heaven, or condemn you straight to hell."

Fernan uttered with a grin, "Yes! Young lady Victoria, how about I turn Arthur into a rapist?"

Victoria's carefree voice came from the communicator, "That's a great idea!"

"It's over!"

Victoria looked at the bronze holographic projection in the void with despair, her face ashen.

This matter has been exposed in front of many student and has already been disseminated on the internet. The Azalea Family will have to pay a huge price to suppress this.

"Stop!"

A furious voice transmitted in the void, and a rank 1 policeman dressed in black battlegear and emanating class 2 Extraordinary realm fluctuations of power rushed over together with 30 plus policemen.

The rank 1 policeman glared at Yang Feng and barked, "Arthur, stop what you're doing, or else I will arrest you for attacking policemen and obstruction!"

The 30 plus policemen pointed at Yang Feng with the black crystal guns in their hands, a flash of intense murderous intent in their eyes.

"Who do you want to arrest?"

Yang Feng sneered and waved his hand, and an identification crystal appeared. The identification crystal glimmered, and a gun and battlegear coat of arms emerged and suspended in the void.

"Battlegod College! You are a student of Battlegod College! Curses! That idiot Fernan be damned!"

When the overbearing rank 1 policeman saw the coat of arms, his complexion changed dramatically and became unsightly, and he cursed.

Battlegod College is one of the most formidable forces of Duda Star. If a student commits a crime, the police has to report it to Battlegod College and let the people of the college handle it.

Yet now the police tried to frame a student of Battlegod College, and the student obtained proof of the frame-up. This incident will shake the entire police of Duda Star.

Fernan's face turned ashen, and he screamed, "No! Battlegod College! Victoria, you deceived me! You deceived me!"

Chapter 1487: Apology

The rank 1 policeman's countenance changed several times. He looked around, smiled bitterly, stepped forward, and said, "Student Arthur, I would like to have a word with you!"

The 30 plus policemen behind the rank 1 policeman stepped forward and blocked the students.

With a calm smile on his face, Yang Feng followed the rank 1 policeman to a tall tree.

The rank 1 policeman spoke in a somewhat ingratiating tone, "Student Arthur, I am Mark, a rank 1 policeman! We are really sorry for what happened. Everything is the doing of that scum Fernan. We will expel Fernan from the police. Furthermore, we will owe you a favor. So how about we let this matter rest?"

"I have two conditions. First, I don't want to see Fernan ever again, no matter where I go. Second, although I have entered Battlegod College, but I lack cultivation resources. If the police provides me with cultivation resources, then I will cooperate with you to restore the reputation of the police.

Yang Feng smiled and pointed with his hand, and a list of cultivation resources appeared in Mark's communicator crystal.

Mark's eyebrows jumped up, and he greeted his teeth and uttered, "These resources are enough to cultivate to the class 3 Extraordinary realm. That's daylight robbery."

Yang Feng replied with a light smile, "Compared to the reputation of the police, these resources don't count for much. Furthermore, you guys can pass the losses to Count Azalea. I'm sure that he will be happy to pay these resources to mend his relationship with the police.

Mark said with a cold expression, "You're quite the cunning guy. But then we won't owe you anything."

Yang Feng responded with a confident smile, "I know."

As long as Yang Feng's strength continues to upgrade, the attitude of the police of Duda Star will become more respectful towards him.

Mark suddenly adopted a slightly flattering smile and uttered, "Of course, I personally wish to be your friend."

Yang Feng is a student of Battlegod College. If there's nothing unexpected, he is bound to become a powerhouse above the class 3 Extraordinary realm. On Duda Star, the status of powerhouses above class 3 Extraordinary realm is comparable to that of great aristocratic families.

Mark's potential has already been exhausted. If there's nothing unexpected, he will be a class 2 Extraordinary for the rest of his life. He naturally is willing to make friends with a genius with great prospects like Yang Feng.

Yang Feng replied with a faint smile, "It would be my pleasure to be your friend."

Mark is a rank 1 policeman. Although he can't be regarded as a big shot, but he is a middle rank character with prestige and status. He has extensive contacts and is well connected. With him as a friend, Yang Feng can entrust him with any miscellaneous matters he has in the future.

"Settle down, everyone! I just talked to student Arthur to understand the situation and finally ascertained the truth of the matter. The real Fernan has already died heroically. This Fernan is a ruthless murderer and swindler who has assumed Fernan's appearance through plastic surgery.

"This incident is a conspiracy perpetrated by this swindler and Count Azalea to frame student Arthur. I would like to thank student Arthur for uncovering such a vicious swindler for the police."

Mark faced the impassioned crowd of students and lied through his teeth.

"I'm not..."

With a look of despair on his face, Fernan wanted to say something, when Mark knocked him out.

Yang Feng responded modestly, "No, I don't deserve all the credit. Officer Mark had already suspected that there's something wrong with Fernan. I just cooperated with him to catch a swindler hidden in the police."

"So that's how it is!"

"Are you an idiot? Arthur clearly made a deal with the police!"

"..."

Quite a few of the students of Lemmens Academy are aristocrats and are quite smart. At a glance they realized that Yang Feng made a deal with Mark to suppress this matter and restore the reputation of the police.

These students naturally didn't dare to oppose the police and actively deleted the posts on the internet.

Duda Star's police quickly issued a public announcement that conformed with Mark's statement.

"Arthur, you wretched thing! I won't let you get away with it! The Azalea Family won't let you get away with it!"

A floating crystal vehicle stopped in front of the manor of the Azalea Family, and Victoria alighted the vehicle and walked into the manor, a frigid flash in her eyes.

Although the incident was suppressed by the police, but the entire Lemmens Academy already knows that Victoria had a hand in it. She could only return to her family and lie low.

"Cousin, you're back! Come with me! The patriarch wants to see you!"

A blond and blue-eyed beautiful girl of 15 or 16 years of age, with nice curves walked up to Victoria, and her eyes glimmered.

Victoria responded, "Okay!"

Victoria entered a large room and saw elders of the Azalea Family sitting in the room. On the seat of honor, there sat a middle-aged man who seems both familiar and unfamiliar.

Victoria's face darkened, and she asked, "Uncle Bernanke, that seat belongs to the patriarch, to my father. What are you doing sitting there?"

Bernanke replied with faint smile, "Victoria, older brother Raykahn has a pair of good children, so he is no longer the patriarch of the Azalea Family."

Victoria suddenly reacted. Her eyes flickered with shock, and she exclaimed, "What are you saying? Did you remove my father from the position of patriarch because I tried to deal with Arthur? Why? A mere student of Battlegod College prompted the Azalea Family to remove its patriarch?"

Bernanke replied with a smile, "An ordinary student of Battlegod College naturally wouldn't be enough for the Azalea Family to remove its patriarch. But it's a different matter if it's a 10 stars genius that appears once in a decade. We don't wish to make a terrible enemy because of you and your brother."

The young girl standing next to Victoria smile sweetly, pointed at Victoria with a blue gun, and pulled the trigger, "For the sake of the family, we can only sacrifice you, cousin Victoria!"

A blue beam slammed into Victoria, and she fainted.

In a room of Battlegod College, there is a transparent pyramid-like crystal tower.

In the crystal tower, there sit's a person. That person is Yang Feng.

Yang Feng broke out with countless mysterious marks and absorbed the energy diffused from the crystal tower, making his aura climb madly.

A dozen plus breaths of time later, Yang Feng's cultivation base broke through and advanced to the class 2 Extraordinary realm.

At this moment, the crystal tower released brittle sounds and disintegrated into powder that wafted away with a gust of wind.

Yang Feng opened his eyes, and his eyes glimmered, “As expected of Duyun Universe, the cultivation speed of its cultivation system is far faster than that of the world of Warlocks. But in terms of combat, the powerhouses here are heavily reliant on secret treasures, more so than human Warlocks. With strong enough secret treasures, it’s not uncommon for the powerhouses here to defeat enemies of higher realm. But if secret treasures are not taken into account, then the powerhouses here are several times weaker than Warlocks of the same realm.

The universe energy level of Duyun Universe is far higher than that of the world of Warlocks. The cultivation system here is perfectly developed, and the cultivation speed of its geniuses is far faster than that of the world of Warlocks.

After Yang Feng obtained a massive amount of resources, he quickly made a breakthrough. This is something commonly seen in Duyun Universe.

“Master, someone requests an audience with you!”

A crystal cat with wings on the back flew to in front of Yang Feng and made a report.

The crystal cat is an AI that controls Yang Feng’s room.

Yang Feng replied, “Let them in!”

With a flash of light, the door opened, and the youthful, sexy, and gorgeous cousin of Victoria entered with a smile.

“Hello, Arthur. I am Wella, the current successor of the Azalea Family. The Azalea Family wishes to apologize to you for the recent events. This a gift to you from the Azalea Family.”

Wella smiled faintly and clapped her hands.

A two-meter-tall crystal warrior constructed from black crystal brought in a cage.

In the cage, there is a gorgeous, blond and blue-eyed girl dressed in black leather, with dog ears, a slave collar, and a sexy figure. The gorgeous girl is Victoria.

Victoria looked at Yang Feng with fear and despair in her beautiful eyes. She could never have imagined that she, who has been a proud successor of the Azalea Family, would become a lowly slave.

Yang Feng flicked his finger, and a radiance entered Wella’s hand, “Compared to this, I would much more prefer to have these cultivation resources. If you get me these cultivation resources, I will sweep this matter under the rug.”

Wella scanned the information recorded in the radiance, and her beautiful eyes filled with shock, “Class 2 Extraordinary realm cultivation resources! You have already advanced to a class 2 Extraordinary!”

“That’s right!”

Yang Feng smiled faintly, and Starry Sky Warlock realm pressure diffused from him and spread in all directions.

“As expected of a 10 stars genius! No, Arthur, your cultivation talent has surpassed even that of a 10 stars genius. Rest assured, the Azalea Family will fulfill your request. Besides, the Azalea Family wishes to become good friends with you. I also hope to become good friends with you!”

Wella’s pretty eyes turned, and she broke out with astonishing charm, gave Yang Feng a coquettish look, and threw him a fascinating smile.

Chapter 1488: Carthage

Yang Feng said with a faint smile, “It’s my honor to become friends with a beautiful girl such as yourself.”

The Azalea Family is a great aristocratic family of Duda Star with a thousand year long history. They naturally have ways to continue their existence. Seeing that they are unable to stop Yang Feng’s rise, they decisively abandoned Victoria’s lineage and chose to resolve the enmity with Yang Feng.

“What, Arthur passed the entrance examination of Battlegod College! Only true geniuses are able to enter the three colleges of the empire! How did he pass the entrance examination?”

Standing in front of a room, when Beth saw the piece of information that is spreading on the internet, her face distorted, and tremendous regret welled up inside of her.

Battlegod College is one of the three colleges of the empire, and only true geniuses can join it.

If Beth had known that Arthur can enter Battlegod College, she would never have gotten together with Carthage.

“He finally finished cultivating!”

All of a sudden, the crystal lamp in front of the room lit up and the defensive barrier shrouding the room disappeared. Beth’s eyes flickered with the shade of elation, and she pushed open the door and entered inside.

In the middle of a presidential suite like room, on a luxurious carpet, there sat a dashing young man with purple hair and an extraordinary temperament.

The dashing young man is Carthage, the leader of Lemmens Academy’s Ten Champions.

Beth’s pretty eyes flickered with infatuations when she saw Carthage. When she betrayed Arthur, in addition to Carthage’s exceptional talent and strong background, she did it also because of his outstanding looks and extraordinary charm.

When Beth entered the room, tears slid down her face, and she jumped into Carthage’s arms and sobbed pitifully in a low voice, “Carthage, I’m sorry, I messed up. Arthur has become a student of Battlegod College.”

Carthage smiled and said in reply, “I already know it all! Arthur is not only a student of Battlegod College, but he’s a 10 stars genius, and teacher Beddes has taken a liking to him.

Beth’s beautiful eyes flickered with shock, “10 stars genius!”

Battlegod College recruits students all year round, but it only recruits true geniuses. A 10 stars genius is genius among geniuses. If nothing unexpected happens, he will be able to advance to a class 6 Extraordinary (Infinity Warlock) in less than 100 years. He may even be able to advance to a class 7 Extraordinary (Warlock Monarch) or a Holy of legend.

At the thought that she might have missed a Holy of legend, endless regret welled up inside Beth.

Carthage uttered indifferently, "Do you regret getting together with me?"

Beth looked at Carthage affectionately, her eyes filled with love, "No way! Carthage, I and Arthur are just ordinary childhood sweethearts. You are the love of my life!"

Carthage uttered with a smile, "Although Arthur is a 10 stars genius, but a genius needs time to grow. I have many friends in Battlegod College. Arthur won't be a threat to us."

Beth's pretty eyes flickered with infatuation, and she uttered coquettishly, "I knew you were the best!"

After indulging in a bout of passion, Beth left Carthage's room.

Carthage's gentle expression vanished, and his face darkened.

"Carthage, is it worth it to make an enemy of a 10 stars genius of Battlegod College for this cheep woman? With your status, you can have as many women like her as you want."

A weird being shrouded in shadows, making it impossible to see clearly his features, appeared in the room and spoke in a strange voice.

Carthage replied coldly, "She naturally isn't worth it! That kind of woman is just a nice distraction. But who could have expected Arthur to be a 10 stars genius. I have a feeling that Arthur is my fated enemy. He must die. Only when he's dead, only then can I have a peace of mind.

Duda Star has many children of fate, and Arthur and Carthage are among them. There is a mysterious connection between the children of fate. Only by killing the other party, only then can he obtain tremendous benefits and advance further.

Carthage had a great fateful encounter in Lemmens Academy not long ago. He felt that Arthur is his fated enemy, and so he didn't resolve his enmity with the other party. Otherwise he would have already resolved the enmity.

A distorted voice sounded, "Then hurry up! If he's given time to grow, it will be troublesome."

Carthage's eyes flickered coldly, and he said icily, "I know! In three months, Battlegod College, Duda Royal College, and Purple Eye College will jointly hold a freshman trial by fire. I will kill him during the trial by fire!"

Battlegod College, in Yang Feng's residence.

"Master, teacher Beddes wishes to speak to you!"

The crystal cat housekeeper flew towards Yang Feng and spoke thusly.

Yang Feng got up from Victoria, who is dressed in revealing maid clothes, and pointed with his hand, and a blue uniform appeared on him.

Yang Feng asked, "Teacher Beddes, what do you want to talk to me about?"

Beddes answered, "In three months, Battlegod College, Duda Royal College, and Purple Eye College will jointly hold a freshman trial by fire. The trial by fire is full of dangers, and you may even lose your life! We must upgrade the strength of you freshmen. Come to the Light Gun Pavilion in 20 minutes."

"Yes! Teacher!"

Yang Feng took a refreshing bath and changed into a clean set of clothes, and then went to a room with a teleportation device and pressed a button.

Blue light shrouded Yang Feng. In the next moment, he appeared in a huge palace.

In the huge palace, there are 100 plus youngsters. The 100 plus youngsters each exude an extraordinary aura. They are geniuses from all over Duda Star, are under the age of 30, and possess class 1 Extraordinary realm cultivation base.

Class 1 Extraordinaries are comparable to Great Warlocks. If it were in the universe of the world of Warlocks, they would be regarded as overlord-level geniuses on many stars. But in Battlegod College, they are mere rookies who have just qualified to enter the college.

"That's Arthur! The 10 stars genius of legend!"

"So that's him! The 10 stars genius! The No. 1 freshman of Battlegod College!"

"..."

Gazes full of curiosity and fighting spirit focused on Yang Feng

The youngsters in the palace are geniuses coming from all over Duda Star. They are geniuses similar to Lemmens Academy's Ten Champions, and many of them are stronger than Lemmens Academy's Ten Champions. They are naturally not impressed with Yang Feng.

"Arthur!"

Pauline walked up to Yang Feng, a fragrance wafting out from her.

Yang Feng asked, "Senior Pauline, how have you been?"

Pauline's beautiful eyes shimmered with complicated emotions, and she uttered with a faint smile, "Well enough! Only after entering Battlegod College, only then did I realize how vast the world is. In Battlegod College, the Ten Champions of Lemmens Academy are just ordinary students.

"Quiet!"

When Beddes entered the palace, he spoke thusly, and terrifying pressure spread in all directions, making everyone quiet down.

"I will take you now to Battlegod College's cultivation holy land, Sky Crystal Realm! During the following three months, you can practice cultivation in Sky Crystal Realm."

Beddes flicked his wrist, and a blue staff appeared in his hand. He pointed at Yang Feng and company with the blue staff.

A blue beam dropped down from above and shrouded Yang Feng and company.

Formidable spatial force emerged, and Yang Feng and company blurred and disappeared from this place.

After who knows how long, distorted spatial force surged, and Yang Feng and them appeared in another world.

“This is an artificial world similar to a small world! No, this is a small world constructed from the quintessence of a great world. That’s some amazing technique.”

Yang Feng looked at the surroundings and found that he is in a vast world.

In this world, there are giant pyramids floating in the void. The pyramids are of seven colors, namely red, orange, yellow, green, blue, cyan, and purple.

The red pyramids are the most numerous, while the purple pyramids are the least numerous.

Tremendous life origin energy gushed out from the crystal pyramids and pervaded and nourished the world.

In this world, all kinds of herbs can be seen everywhere.

“So this is Battlegod College’s cultivation holy land, Sky Crystal Realm! This cultivation holy land is really outstanding! Cultivation here will be 100 times faster than in the outside world. While cultivating underneath the crystal pyramids, I can upgrade my strength faster.”

“In general, ordinary class 1 and class 2 Extraordinaries will cultivate underneath the red crystal pyramids. However, since I’m a 10 stars genius, I can cultivate underneath a purple crystal pyramid.”

Yang Feng scanned with his gaze and locked on a purple pyramid. His figure fluttered, and he flew towards the purple pyramid.

When Yang Feng reached an area about 2 kilometers below the purple pyramid, he sat down cross-legged, operated a secret method, and surged with mysterious marks.

A small whirlpool appeared above Yang Feng and began to pull the purple pyramid’s life origin energy to strengthen his avatar’s body and soul.

Originally Yang Feng’s avatar shouldn’t be able to absorb the purple pyramid’s life origin energy. But after his true body modified the cultivation method, it enabled his avatar to absorb the purple pyramid’s life origin energy.

Chapter 1489: Frenzied Evolution

After ten days.

The purple whirlpool grew larger, and a purple beam flowed into Yang Feng’s body.

Countless marks glimmered, and Yang Feng made a breakthrough and evolved into a class 3 Extraordinary (Moonlight Warlock).

After the evolution, Yang Feng took out the cultivation resources he obtained from the police and the Azalea Family.

Countless marks surged, drew in purple light, and channeled it into Yang Feng's body, frenziedly strengthening his body.

"Class 3 Extraordinary! So this is a freshman of Battlegod College? Pretty good talent!"

In the purple crystal pyramid, there sat a blond and blue-eyed devastating beauty with long wavy hair, fair skin, a sexy figure, and a peerless temperament.

The devastating beauty surged with countless mysterious marks and crazily absorbed the power pervading in the purple crystal pyramid. She absorbed 100,000 times as much purple light as Yang Feng did.

The mysterious devastating beauty took a look at Yang Feng, and then closed her eyes. God knows how many geniuses she has seen over the years. A mere class 3 Extraordinary is just too insignificant.

After a month.

Yang Feng glimmered with marks. He made another breakthrough and evolved into a class 4 Extraordinary, and fearsome aura spread in all directions.

"Class 4 Extraordinary! What a rare talent!"

The devastating beauty opened her eyes and glanced at Yang Feng once more, and her eyes welled up with the shade of amazement. She then closed her eyes again.

After two months.

Yang Feng glimmered with marks. He made another breakthrough and advanced to a class 5 Extraordinary in one go, and frightening aura diffused from him and spread in all directions.

"Class 5 Extraordinary! He surprisingly advanced to a class 5 Extraordinary in just two months! Such talent is outrageous! What a monster! To be able to cross two great realms and advance to a class 5 Extraordinary, he must have a secret treasure!"

The devastating beauty in the purple crystal pyramid opened her eyes again, and her beautiful eyes flickered with astonishment. She disappeared from the purple pyramid with a flash of purple light.

"I finally broke through to class 5! I am bound to take first place in the freshman competition!"

Yang Feng opened his eyes and exhaled, and a purple breath ejected out from his mouth and turned into a flood dragon that drifted away with a gust of wind. His eyes filled with confidence and domineeringness.

"Who?"

Yang Feng suddenly turned his head and saw the devastating beauty that was in the purple crystal pyramid, and his eyes flickered with vigilance.

The devastating beauty responded flatly, "I am Collie, a teacher of Battlegod College."

Yang Feng saluted Collie and uttered, "I am Arthur, a freshman of Battlegod College. Hello, teacher."

Collie's beautiful eyes flickered, and she asked slowly, "What secret method are you cultivating? How do you make breakthroughs so fast?"

"I once had a fateful encounter and obtained Cohen Monarch's inheritance! This is a secret method that Cohen Monarch created in his later years!"

Yang Feng pointed with his hand. The ID crystal appeared, and a radiance flew towards Collie.

Collie grabbed the radiance containing Cohen Monarch's secret method and scrutinized it.

As she examined Cohen Monarch's secret method, Collie's pretty eyes lit up, and she exclaimed involuntarily, "Impressive! Cohen Monarch was a rather mediocre individual in his lifetime. He was just an ordinary class 7 Extraordinary. Yet the secret method he created is this amazing. Incredible."

Yang Feng stood quietly aside and smiled.

Cohen Monarch was indeed an ordinary class 7 Extraordinary. However, his secret method was extensively modified by Yang Feng, becoming abstruse and formidable.

The one Yang Feng gave to Collie is the normal version, while the one he is cultivating is a super version that has gone through Eternal optimization. Because of this he was able to break through from class 3 to class 5 Extraordinary in two months.

Collie uttered with a smile, "Arthur, do you want to take me as your teacher and become my disciple?"

Yang Feng saluted Collie and uttered respectfully, "I do. It is a honor to become your disciple, teacher."

With the help of his Eternal true body, Yang Feng's avatar has long since locked on Collie, who is a quasi-Empyrean realm powerhouse. This is why he chose the purple crystal pyramid.

Yang Feng's avatar is still too weak and requires the protection of formidable experts. This way he will be able to grow rapidly. Or else if he grows too quickly, he will offend many people. By then, if a true expert takes action, he will be exposed to grave danger.

"Cohen Monarch's cultivation secret method is very helpful to me. I naturally won't receive it from you for free. These are my cultivation methods and experiences, here you have them."

Collie tapped Yang Feng's forehead with her hand. A mysterious purple rune formed, and abstruse secret methods and bodies of precious knowledge flowed into Yang Feng's mind.

Yang Feng spoke in exultation, "Many thanks, teacher!"

"If you have any questions regarding cultivation, come find me!"

Collie smiled sweetly, surged with purple light, and entered the purple crystal pyramid.

Yang Feng smiled faintly, sat underneath the purple crystal pyramid, and operated his secret method, and a purple whirlpool appeared above him. He frenziedly absorbed the power of the purple crystal pyramid.

Three months passed in the blink of an eye.

With a flash of light, Yang Feng and company appeared in the Light Gun Pavilion.

Yang Feng swept the surrounding with his gaze, and his eyes glimmered, "As expected of geniuses of Duda Star, their progress is really fast!"

Three months ago they were just class 1 Extraordinaries. But now half of them have already become class 2 Extraordinaries, while the rest are on the verge of a breakthrough.

To enable people to advance to the Starry Sky Warlock realm from the Great Warlock realm in a short span of three months, this shows how profound the reserves of Battlegod College are.

Countless talents of Duda Star want to enter the three colleges, that is because the three colleges have countless precious resources.

"Arthur, you, you have met that person!"

Beddes looked at Yang Feng, and his eyes glimmered with shock. He turned into a stream of light and appeared in front of Yang Feng.

Inquisitive gazes focused on Yang Feng.

As a class 7 Extraordinary, Beddes is a big shot of Duda Star with high status. He is a senior figure of Battlegod College. He has always been very calm and rarely lost his composure. Seeing as he lost his composure now, the situation clearly is serious.

Yang Feng asked back, "Teacher Beddes, who are you talking about?"

Beddes uttered agitatedly, "Have you met the vice-dean of Battlegod College, lady Purple Light Witch, Collie!"

Yang Feng responded, "Yes, I met lady Collie and became her disciple."

"She's still alive! That's great! So she's in Sky Crystal Realm. That's really great."

Tears slid down Beddes's face, and he patted Yang Feng on the shoulder and said, "Arthur, I am also a disciple of lady Collie. If it were not for her, I wouldn't be here today. Since you have become her disciple, then that means that you are my junior disciple brother. If you have any difficulties in the future, don't hesitate to come to me.

Yang Feng responded with a light smile, "Okay, senior disciple brother!"

When the other geniuses saw this, their eyes shimmered with envy.

As a class 7 Extraordinary, Beddes is a top powerhouse of Duda Star with high status and great authority. Now that he gained Beddes's support, Yang Feng is practically untouchable in Battlegod College.

Pauline's eyes flickered with envy, "Incredible. A 10 stars genius is a 10 stars genius for a reason. With Beddes's support, even 10 families like the Azalea Family can't touch him.

Although the Azalea Family is a great aristocratic family, but it's strongest powerhouse is a class 4 Extraordinary. It's status is far higher than that of commoners or ordinary aristocrats. But in the eyes of a top powerhouse like Beddes, it is insignificant and can be erased at will.

Beddes took a deep look at Yang Feng, and the corners of his mouth rose into a slight smile, "Arthur, you shall be the freshman representative of Battlegod College from now on. We're counting on you for the freshman competition!"

Yang Feng replied, "Okay!"

Beddes uttered, "Everyone, you can go rest for three days. Gather here again after three days."

The geniuses in Sky Crystal Palace scattered at once.

Pauline and several other geniuses of Battlegod College went to talk with Yang Feng.

Time elapsed and three days passed in a flash.

Veida Star is a star full of strange direbeasts. It is a trial by fire star belonging to Duda Star.

There is a giant mechanical city suspended in Veida Star's outer space.

The mechanical city, in a giant palace, there are three people sitting on seats of honor.

Beddes is one of the three people. In addition to Beddes, there is a middle-aged man full of dignity and arrogance and a dashing man dressed in purple with a gentle smile on his face.

The three people are team leaders of the three colleges. The middle-aged man is Swenett, a class 7 Extraordinary of Duda Royal College. The dashing man in purple is Doune, a class 7 Extraordinary of Purple Eye College.

A group of geniuses from Duda Royal College led by Carthage entered the palace.

On Duda Star, in the middle of every city, there is a giant crystal screen suspended. There are crowds of people around the giant crystal screens.

A blond and blue-eyed great beauty with a sexy figure appeared on the crystal screens and spoke with a pleasant smile, "Hello, everyone! I am Jessica! I will give you live commentary during this time's freshman competition!"

Chapter 1490: Worldwide Broadcast

The three colleges are among the strongest forces of Duda Star and have countless industries. However, they also need to consume massive amounts of resources to cultivate powerhouses.

The freshman trial by fire broadcast can generate a lot of revenue for the three colleges in terms of broadcasting fees, advertising fees, and gambling proceeds.

The freshman trial by fire is brutal and spectacular. It is one of the most anticipated events of Duda Star.

“The freshmen of Duda Royal College are entering now. This year the freshmen of Duda Royal College are quite impressive. The eldest son of Grand Duke Fulmin, Akalon, the second son of Marquis Serpentine, Varin, ... the third son of Grand Duke Elekk, Torek!”

“Among the many geniuses, this year’s freshman representative of Duda Royal College is the third son of Duke Steelfang, Carthage!”

A close-up of the dashing Carthage suddenly appeared on the crystal screens of Duda Star.

“Carthage! Carthage!”

“I love you!”

“Carthage!”

“...”

Cheers erupted around the crystal screens. Many young girls are crazy about the dashing Carthage.

A handsome young man with short fire red hair and brown eyes stared at Carthage with envy and indignation, “Carthage! In this freshman competition, I will make you all realize that the No. 1 powerhouse among the freshmen of Duda Royal College is I, Akalon, not Carthage!”

Akalon was originally the freshman representative of Duda Royal College. But then Carthage appeared and easily snatched away Akalon’s position of freshman representative, filling him with resentment and indignation.

Following the freshmen of Duda Royal College, freshmen of Battlegod College entered.

“The freshmen of Battlegod College are entering now. This year the freshmen of Duda Royal College are also quite impressive. Bendall from Nexus Province, Bellini from Anern Castle, ... Kafurejos from Surren Province!”

“This year’s freshman representative of Battlegod College is a genius from Lemmens Academy, Arthur!”

A close-up of Yang Feng suddenly appeared on the crystal screens of Duda Star.

“Arthur! He has become the freshman representative of Battlegod College! That’s amazing! As expected of a rare 10 stars genius! Fortunately the Azalea Family didn’t become enemies with him!”

At the manor of the Azalea Family, Wella looked at Yang Feng’s projection on a giant crystal screen and drew in a sharp breath, and then rejoiced.

The students who can enter the three colleges are geniuses with boundless prospects. If they don’t die prematurely, they are all but guaranteed to advance to class 3 Extraordinaries.

As for freshman representatives of the three colleges, they are each bound to advance to a class 6 Extraordinary or higher and become a big shot of Duda Star.

“Fortunately we didn’t become enemies with him!”

“Victoria, Andre, those fools have nearly led our family to provoke someone that shouldn’t be provoked.

“We must reinforce the education and management of the family’s younger generation!”

“...”

When they witnessed Yang Feng appear as the freshman representative of Battlegod College, the entire Azalea Family rejoiced.

Following the freshmen of Battlegod College, the freshmen of Purple Eye College entered.

“The freshmen of Purple Eye College are entering now. This year the freshmen of Purple Eye College are also quite impressive. Cafero from Wave Province, Viano from Nin Province, ... Jake from Jacques Province.”

“This year’s freshman representative of Purple Eye College is Lisa from Cali Province!”

A close-up of a gorgeous girl in red battlegear with long fire red hair, sexy figure, and ice queen temperament suddenly appeared on the crystal screens of Duda Star.

“Lisa, I love you!”

“Lisa!”

“Lisa! I love you!”

“...”

When the gorgeous girl with ice queen temperament appeared, the entire Duda Star roiled, and cheers erupted.

“Here are the odds set up by the three betting groups! You can bet and support your favorite students!”

After Jessica’s words have fallen, the odds set up by the three betting groups appeared on the crystal screens.

Countless people on Duda Star began to place bets and support the students they like.

Swenett uttered indifferently, “I hereby declare the official start of the freshman trial by fire! You will stay on Veida Star for a month.”

“When you kill a class 1 direbeast you will get 1 point, when you kill a class 2 direbeast you will get 100 points, and so on. Once the month is up, you will be ranked according to the amount of points you obtained.”

“During the trial by fire you can steal the points of other freshmen. If you defeat or kill other freshmen, you can obtain their points.”

“The freshman that gets first place will obtain the qualification to cultivate in Holy Crystal Realm for a year.”

The eyes of the freshmen flickered with a scorching shade when they heard that.

Holy Crystal Realm is a cultivation holy land in Duyun Universe and is under the control of the eight Eternals. If it were before, Holy Crystal Realm wouldn’t be opened for other forces. But now that the

universe devour war broke out, the eight Eternals can only open Holy Crystal Realm to cultivate geniuses of Duyun Universe.

Sky Crystal Realm under the control of Battlegod College is sufficient to support the cultivation of a quasi-Emperor realm powerhouse. In turn Holy Crystal Realm is sufficient to support the cultivation of Emperor realm powerhouses.

The qualification to cultivate one year in Holy Crystal Realm, this is something that even Holies desire to obtain.

Yang Feng's eyes flickered with a burning shade, "The qualification to cultivate in Holy Crystal Realm! I must obtain it! Only in this way won't my rapid advancement around suspicions."

"Begin!"

Swenett pointed with his hand, and teleportation beams shrouded Yang Feng and the other students.

Along with flashes of light, Yang Feng and company disappeared from this place.

"So this is Veida Star. Compared to Duda Star, it's lacking quite a bit. According to the star's reserves, it can produce Infinity Warlock realm (class 6 Extraordinary) direbeasts at most."

"However, there is quite a large number of direbeasts on this star!"

Yang Feng looked at the surroundings and extended his hand, and blue light appeared in his hand. A blue crystal gun emerged in his hand.

A blue beam ejected out from the blue crystal gun and stabbed into the earth.

Boom!

Along with a loud blare, a 20 meter long worm with a mouth full sharp teeth was blasted into pieces.

Ding!

A resonant sound rose, and Yang Feng saw 100 points appear on his ID crystal plaque.

"Carthage is in that direction? Do I go deal with him?"

"Forget it! My top priority now is to improve my strength. A lot of direbeasts on Veida Star have nice things inside them. I should first collect those things."

Yang Feng contemplated for a moment, and then gave up the idea to deal with Carthage.

After Yang Feng devoured two Eternals of Duyun Universe, he obtained their memories. He has a much greater understanding of Duyun Universe than others. He knows various miraculous secret methods and knowledge pertaining to the concoction of precious potions.

The direbeasts on Veida Star are ferocious. However, there are many great treasures inside them. If the Holies of Duda Star knew about it, they would have already wiped out these direbeasts.

Yang Feng looked at a mountain, smiled faintly, and strode towards the mountain with a lush forest and numerous hidden direbeasts.

When Yang Feng got close to the mountain, a large number of direbeasts rushed towards him from different directions.

Yang Feng was equipped with a bronze battlegear and a blue gun. As he strode amid the direbeasts, blue beams ejected out from the blue gun and killed the direbeasts one by one.

“Arthur started moving! Heavens! So strong! That’s a gale wolf, a class 2 direbeast! Arthur killed it in one shot! That’s a air breaker falcon, a pinnacle class 2 direbeast! It died! Class 3, class 3 direbeast flame flying snake! He killed it in one shot!”

“Class 3 Extraordinary! Arthur is definitely a class 3 extraordinary! To be able to advance to a class 3 Extraordinary in just a couple of months, that’s truly terrific! He’s the freshman representative of Battlegod College not for no reason!”

The scenes of Yang Feng killing direbeasts appeared on the crystal screens. When the spectators saw Yang Feng kill the ferocious direbeasts one after another and coupled with Jessica’s enthusiastic commentary, the entire Duda Star roiled.

“Arthur!”

“Arthur, I love you!”

“Arthur, I placed a bet on you getting first place in the freshman trial by fire! You absolutely must win!”

“...”

Calls of excitement sounded around the giant crystal screens in the middle of Duda Star’s cities.

The scenes of other students fighting with direbeasts also appeared on the crystal screens. However, none of them hunted direbeasts as frenziedly as Yang Feng.

Time elapsed and seven days passed in an instant.

In the past seven days, the whole Duda Star witnessed several people stand out in the freshman competition.

Carthage, Arthur, and Lisa, the three freshman representatives revealed frightening combat power, far greater than that of others. Akalon, Kafurejos, and Viano were also extremely ferocious, crushing everything in their way.
