

## MGE 1564

### Chapter 1564: Breach

Eternal World is extremely wide and has countless resources. In theory, it should be sufficient to support the birth of 10,000 Eternal Kings. However, the absolute majority of resources are in the hands of the living Eternal Kings,

Even when the War of Kings erupts, only one Eternal King can be born or can set foot on the peak again in Eternal World per era.

After Yang Feng's incarnation of Wither King and True Dragon King appeared, if the slumbering Eternal Kings show themselves, they must have an assurance that they can win against Wither King and True Dragon King. Otherwise, if they are careless, they might become resources for the evolution of these two.

In a secret realm full of golden light, a giant golden mountain glimmered and split open.

A 10,000-meter-long golden roc flew out of the golden mountain and radiated golden light.

"True Dragon King, since you awakened, then let's continue our millions of years-long battle!"

Golden Rock King surged with a vicious aura, tore through the firmament, plunged into the void, and flew toward Jiaman Weili Sacred Firmament.

One day later, the manwei clan in Jiaman Weili Sacred Firmament was destroyed and more than 80% of manwei clan powerhouses were consumed by Golden Rock King, shocking the entire Eternal World.

"Golden Rock King appeared!"

"Golden Rock King and True Dragon King are mortal enemies who have fought for millions of years. Since True Dragon King showed himself, Golden Rock King was bound to appear and fight him. Otherwise, if True Dragon King steps into the Eternal King realm again, Golden Rock King will surely die.

"Since the two went out into the world, then I will sit this one out!"

"..."

When the Eternal Kings who planned to awaken sensed the presence of Golden Rock King and True Dragon King, they contemplated things again and again and finally chose not to come out.

"Golden Rock King, True Dragon King? Since this is the case, then I should stop and carry out the next step!"

Muyuan Sacred Firmament, on a broken star, Yang Feng's eyes flickered, and he surged with ripples and disappeared.

Several days later, Zhenji Sacred Firmament, in the basement of a villa, a Warp Gate glimmered, and Yang Feng emerged.

"This time's harvest was tremendous. I plundered six Eternal King treasuries. After I have refined them completely, with my reserves, I will have hope of advancing to an Eternal King!"

Yang Feng's eyes flickered with a scorching shade, and he sat cross-legged, closed his eyes, and surged with mysterious runes.

Every time the mysterious runes shimmered, Yang Feng's aura became more formidable by a fraction, and his body and soul transformed continuously.

Time elapsed and 10 years passed in a flash.

In the secret chamber, Yang Feng slowly opened his eyes, looked at the dust that filled the floor, and creased his eyebrows, "It's not that simple to advance to an Eternal King! My resources have already been depleted, but there's still a way to go before I can advance to an Eternal King."

"It seems that I can only use the bone of the dead God Emperor!"

"So long as I advance to an Eternal King, I will have a chance to find more bones of the God Emperor. If I can't advance to an Eternal King, then when the Kings return, I will surely have a tragic death!"

Yang Feng's eyes flickered with a shade of firmness, and he took out the God Emperor's bone, dissolved it, refined it, and absorbed it into his body.

The ruins of the Jiawei clan's headquarters.

Light shone, and True Dragon King appeared in front of the ruins.

"Wither King? Ever since I and Golden Rock King awakened, this Wither King vanished without a trace! This is different from the modus operandi of Wither King! Back in the day, he was cruel and violent and didn't pay any attention to us."

True Dragon King glanced at the ruins, and two rays of true dragon light ejected from his eyes and shot toward the ruins.

Swept by true dragon light, the remnant wither force in the ruins flew out and entered True Dragon King's hand.

"This wither force contains Eternal King realm power! However, it's transformed Eternal King realm power! Besides, the nature of this power isn't that of wither, but that of devour! Someone pretended to be Wither King and wantonly plundered Eternal King treasuries in order to advance to an Eternal King!"

True Dragon King glanced at the wither force and saw through its nature.

This wither force is wither force Yang Feng refined from his power using Wither King's secret method, and it possesses infinite power. It can confuse unequalled Sacred Lord realm powerhouses, but it can't confuse Eternal Kings like True Dragon King.

"In the Ten Sacred Firmament, there's only one person who is both proficient in the essence of devour and has reached this level! That person is Yang Feng, the young lord of Azure Sacred Hall! He concealed himself really deeply!"

True Dragon King's eyes surged with dragon qi, swept the top powerhouses of the Ten Sacred Firmaments in an instant, locked on Yang Feng, and shimmered with frigid murderous intent.

In the Ten Sacred Firmaments, there is a considerable number of powerhouses proficient in the essence of devour. However, Yang Feng was the only one who advanced to an Eternal tycoon in the past 1 billion years. Coupled with other characteristics, True Dragon King was able to lock on Yang Feng.

“Since he took the lead, Yang Feng surely has obtained tremendous benefits! He must be throttled before he can advance to an Eternal King! Otherwise, we will become resources for his evolution!”

True Dragon King’s eyes flickered coldly, and he surged with mysterious runes and looked at a strand of wither force.

The strand of wither force churned and turned into a dragonman. The dragonman just appeared when a mysterious law surged. The mysterious law smashed the dragonman into dust.

“It looks as this Yang Feng has already made contact with the Eternal King realm threshold and is only a step away from advancing to an Eternal King! Furthermore, he’s really careful. He used the essence of fate to sever all traces of himself. What a scoundrel!”

True Dragon King’s eyes flickered with a ruthless hue, and he raised his head, looked into the void, and spoke frostily, “Since you’re hiding from me, then I’ll destroy your foundation in Zhenji Sacred Firmament first! Let’s see how you’ll fight me in the future!”

Zhenji Sacred Firmament, Azure Sacred Hall’s outer space.

True dragon force emerged in the void as true dragons flew in the starry sky and headed toward Azure Sacred Hall’s headquarters.

Azure Sacred Lord, come out! The mighty True Dragon King wishes to see you!”

A 1,000-kilometer-long true dragon Sacred Lord overlooked Asuze Sacred Hall, and a thunderous voice reverberated in the void.

Along with a flash of ripples, Asuze Sacred Lord appeared above Azure Sacred Hall and gazed at the many true dragons surrounding Azure Sacred Hall’s headquarters.

Surrounded by true dragons, there is a golden litter. In the golden litter, there sits a person with a dragon head and human body, emanating Eternal King realm fluctuations of power. That person is True Dragon King.

“Curses! It’s True Dragon King!”

When Asuze Sacred Lord saw True Dragon King, his heart sank.

Originally, even if the true dragon clan devoted all their strength to attack, Asuze Sacred Lord was confident that he could defeat them by relying on geographical advantage. But now that True Dragon King appeared, Azure Sacred Hall stands no chance of winning.

Asuze Sacred Lord bowed to True Dragon King and asked, “Mighty True Dragon King, what brings you to our Azure Sacred Hall?”

True Dragon King’s eyes flashed with icy murderous intent, and he replied coolly, “Hand over Yang Feng! Otherwise, I will crash Azure Sacred Hall and kill you all!”

“Yang Feng?” Asuze Sacred Lord was taken aback. He gritted his teeth and uttered, “Mighty True Dragon King, Yang Feng isn’t in Azure Sacred Hall at the moment. We have no idea where he is.”

“Yang Feng actually offended you. This isn’t something that Azure Sacred Hall can tolerate. From this moment on, Yang Feng is no longer the young lord of Azure Sacred Hall.”

“I swear in the name of Azure Sacred Lord that once we have any news about Yang Feng, we will report it to you!”

Asuze Sacred Lord promptly made an oath. His oath turned into dazzling light and formed a beautiful contract document that flowed into his forehead.

“Unfortunately, I don’t trust you! I don’t trust you smelly humans! Go to hell!”

True Dragon King’s eyes flashed with a ruthless color. He smiled frigidly and extended his hand, and endless dragon qi boiled and formed a 10,000-kilometer-long golden true dragon that extended a paw toward Asuze Sacred Lord.

Asuze Sacred Lord was greatly alarmed and pointed with a staff.

Azure Sacred Hall’s headquarters glimmered with resplendent blue light, and stars appeared and formed a star barrier blocking in front of Asuze Sacred Lord.

Kaboom!

When True Dragon King’s attack knocked into the blue star barrier, it crushed the star barrier and then continued toward Azure Sacred Hall.

Along with flashes of blue light, Eternals of Azure Sacred Hall turned into streams of light and escaped in different directions.

True Dragon King’s eyes flickered fiercely, and he bellowed, “Kill them all! I’m going to kill all humans related to Yang Feng! Let’s see how long he can endure it!”

Countless true dragons unleashed dragon roars, shot toward Azure Sacred Hall, and killed powerhouses of Azure Sacred Hall.

“True Dragon King! You will die a miserable death! Azure Sacred Hall will never forgive you for this!”

Asuze Sacred Lord screamed tragically, and then turned into a stream of light and disappeared from this place.

Along with flashes of blue light, Etenal tycoons, Sacred Lords, and unequaled Sacred Lords escaped in different directions.

At this time, a beam containing a mighty aura rose somewhere in Zhenji Sacred Firmament and entered the sky.

The entire Eternal World quivered, and tremendous origin force poured out of nine sacred firmaments and converged on Zhenji Sacred Firmament.
