

## MGE 1565

### Chapter 1565: Advancing to an Eternal King

The feeling of fear and trepidation welled up in the hearts of the people in the Ten Sacred Firmaments.

“Eternal King! Someone is advancing to an Eternal King!”

“This is bloodline suppression!”

“Someone is advancing to an Eternal King!”

“...”

The eyes of experienced Eternals in the Ten Sacred Firmaments flickered with shock. They realized that someone is advancing to an Eternal King.

Endless streams of energy gathered from the Ten Sacred Firmaments, converged on the area where Yang Feng is located, and formed a terrifying energy storm.

A river of time appeared in the void and played back the history of the Ten Sacred Firmaments.

Yang Feng walked in the river of time and absorbed time force, forming origin of the essence of time.

“Yang Feng! Found you at last! You already reached this step! I must stop you!”

When True Dragon King saw Yang Feng, his eyes flickered ferociously. He surged with endless true dragon qi, ripped the void apart, crossed tens of thousands of light-years in an instant, appeared in front of the river of time, and sent a dragon hand barreling toward Yang Feng.

Eternal Kings are extremely rare in Eternal World. On the one hand, it’s because it’s really hard to advance to an Eternal King. Once the attempt fails, only death will await you.

On the other hand, the overwhelming majority of the powerhouses in Eternal World don’t wish to see the birth of an Eternal King. Countless people will step in to prevent it.

While Yang Feng walked in the river of time and traced back to the origin, all his power was poured into the essence of time and the origin, leaving him unable to withstand True Dragon King’s attack.

At this time, a Whip of the Ruler ejected out from the void, crossed the firmament, turned into a bolt of lightning, and smashed True Dragon King’s dragon hand.

Ling walked out of the void. With an icy flash in her pretty eyes, she pointed with her finger, and six Whips of the Ruler flew out and shot toward True Dragon King like six true dragons.

“Break!”

There was a fierce flash in True Dragon King’s eyes, and he belched a frightening dragon breath barreling toward Yang Feng in the river of time.

The six Whips of the Ruler intertwined and formed a net blocking in front of Yang Feng.

When the dragon breath hit the net, it set the net on fire and burned it into nothing.

Ling waved her hand, and a nearly endless number of Adjudicators and 1 million Eternal Realm Adjudicator Rulers appeared and attacked True Dragon King.

The 1 million Eternal realm Adjudicator Rulers are weapons Yang Feng refined after plundering the Eternal King treasuries. Even if it's unequaled Sacred Lord realm powerhouses, they will have to spend a lot of effort to destroy them.

"A bunch of insects! You dare stand in the way I, the great True Dragon King! Then let me show you Eternal King realm power!"

True Dragon King's eyes flickered viciously, and he belched a stream of true dragon qi that swept toward the Adjudicators and Adjudicator Rulers.

Swept by the true dragon qi, the billions of Adjudicators transformed and changed into mechanical dragons.

The 1 million Eternal realm Adjudicator Ruler trembled and also began to dragonify.

"Resonance!"

Ling's pretty eyes flickered icily. Mysterious resonance ripples diffused from her and spread in all directions.

The 1 million Eternal realm Adjudicator Rulers began to resonate with each other. They fused their power together and withstood True Dragon King's dragonification.

The billions of Adjudicators that have turned into mechanical dragons engaged the 1 million Eternal realm Adjudicator Rulers, and terrible explosion sounded incessantly.

At this moment, Yang Feng has reached the origin of the river of time. He inhaled, and the river of time flowed into his body.

Spatial gates containing countless space laws appeared and plunged into Yang Feng's body continuously.

"Go to hell! Yang Feng!"

When True Dragon King saw this, he no longer bothered with Ling. He extended his hand, and his hand turned into a 100,000-kilometer-long true dragon that opened its maw and shot toward Yang Feng.

"So long as I'm not dead, you can't harm my master!"

Ling's pretty eyes shimmered coldly. Whips of the Ruler appeared, intertwined, and shot toward the 100,000-kilometer-long true dragon.

Kaboom! Kaboom!

Each Whip of the Ruler that slammed into the true dragon smashed a part of the true dragon's body. The true dragon was reduced to a length of 50,000 kilometers in an instant. Yet it still continued to shoot toward Yang Feng.

Starlight flickered, and Xingji equipped with the Shield of the Ruler appeared, steered a boundless amount of starlight, and blocked in front of the true dragon.

Kaboom!

The true dragon knocked into the Shield of the Ruler and smashed the Shield of the Ruler together with Xingji.

Xingji's crystal microchip flew out, turned into a stream of light, and entered Ling's hand.

After the true dragon smashed Xingji, its length was reduced to 20,000 kilometers.

Ling appeared in front of the true dragon and punched the other party. In an instant, a berserk force broke out and shattered the true dragon.

At the moment when the true dragon collapsed, cracks appeared on Ling's body.

All the spatial gates plunged into Yang Feng body at this time.

A power star emerged from the void and integrated with Yang Feng.

"Curses! Die!"

True Dragon King's eyes flashed with a ferocious shade, and he frantically flew toward Yang Feng.

Ying equipped with the Lance of the Ruler emerged from the shadow behind True Dragon King, combusted everything, turned into a shadow lance, and stabbed toward True Dragon King.

"Die!"

True Dragon King swung his tail, and his huge tail slammed into Ying.

In an instant, Ying was assaulted by dreadful true dragon force and broke into pieces. A core chip flew out. Countless cracks appeared on the core chip due to the impact of the dreadful true dragon force.

"You're the one who's going to die!"

With a cold gleam in her pretty eyes, Ling combusted her origin force, and a whip slammed into True Dragon King's huge dragon body.

When the Whip of the Ruler hit, the scales on True Dragon King's body caved in and burst open, and a large amount of flesh and blood splashed everywhere.

The Whip of the Ruler spun, the end of the whip stabbed into the flesh of True Dragon King like a lance, and devour light glimmered and began to devour the flesh and soul of True Dragon King.

"Ant, you dare harm me!"

True Dragon King's eyes flashed fiercely, and he bellowed. Fearsome true dragon force broke out in an instant, flowed along the Whip of the Ruler, and plunged into Ling's body like a torrent.

The terrible Eternal force, which is almost in the Eternal King realm, rushed into Ling's body, wrecked havoc, and opened cracks on her body, and a large amount of blood spilled.

Along with a flash of light, the Whip of the Ruler was shattered by Ling.

After being badly hurt, Ling still kept going. She urged a Whip of the Ruler, and the Whip of the Ruler barreled toward True Dragon King, forcing the other party into a fight with her.

A river of fate appeared. Yang Feng stepped into the river of fate and received the cleansing of fate force.

In the world of Warlocks, Yang Feng's Eternal imprint appeared, shook slightly, and then disappeared in a flash according to mysterious laws.

In the next moment, the river of fate disappeared.

A devour black hole appeared. Yang Feng stepped into the devour black hole and sat cross-legged inside.

Yang Feng's Eternal imprint emerged from the void, turned into a stream of light, and flowed into Yang Feng's body.

Once Yang Feng fully integrates with his Eternal imprint, he can step into the Eternal King realm, and his body and soul will be perfect. By then, no matter which universe he goes to, he will be able to mobilize the universe's origin force.

"Ant, go to hell!"

When he saw this, True Dragon King's eyes flickered fiercely, and he gritted his teeth and performed the True Dragon Secret Art. In an instant, he climbed to the top again and reached the Eternal King realm. He sent a dragon hand barreling toward Ling.

True Dragon King's strike crushed Ling's defenses and blasted her tens of thousands of kilometers away, leaving her all bruised and battered.

After advancing to an Eternal King, True Dragon King's strength increased sharply. So long as he attacks Ling, he can kill her in less than 10 strikes.

"Die, Yang Feng!"

Without paying Ling any attention, True Dragon King surged with true dragon force and extended his hand toward Yang Feng.

"True Dragon King, you're a step too late!"

Yang Feng opened his eyes, and his eyes glimmered with endless coldness. Eternal King realm fluctuations of power diffused from him. He extended a hand toward True Dragon King's hand.

Kaboom!

The void collapsed. True Dragon King was flung 10,000 kilometers away. Cracks appeared on his body, and a large amount of dragon blood spilled. At the same time, his aura was weakened by 100 times.

"You were already heavily injured and dropped from the Eternal King realm. After forcefully stimulating Eternal King realm power, you suffered even more damage. You're no longer a match for me. To come here and to kill me, you have dug a hole for yourself! Now let me send you to meet your maker!"

Yang Feng's eyes surged with frigid murderous intent. He took a step, appeared in front of True Dragon King in an instant, and extended his hand, and a devour black hole appeared and swept toward True Dragon King.

True Dragon King turned pale in the face, and his eyes flickered with fear. He surged with true dragon force and flew madly into the distance, trying to escape from the devour black hole.

"Die!"

An icy voice sounded. In an instant, the devour black hole appeared above True Dragon King, unleashed devour black light, and swallowed True Dragon King.

"No! Don't kill me! Yang Feng, I know I was wrong! Don't kill me!"

True Dragon King's tragic screams transmitted from the devour black hole.
