

MGE 1566

Chapter 1566: Shocking Eternal World

“Yang Feng, I know of many Eternal King treasures! Many Eternal King secrets! Don’t kill me! I am willing to serve you for 100,000 years! There are many beauties in the dragon clan! I will offer them all to you!”

True Dragon King pleaded loudly as he struggled in the devour black hole. He is the sole powerhouse of the dragon clan who has advanced to an Eternal King. He has lived hundreds of thousands of years and is even older than some universes. However, he still doesn’t want to die. He still wants to live.

“No need! I only want your Eternal King origin!”

Yang Feng replied coldly. Devour runes glimmered, and devour black light sprinkled on True Dragon King.

True Dragon King unleashed tragic screams and struggled desperately, and then turned into dust.

Yang Feng beckoned with his hand. Along with a flash of light, the bruised and battered Ling appeared in front of him.

True dragon qi raged inside Ling’s body and ripped her body, making it impossible for her to heal herself.

Yang Feng pointed with his hand, and countless devour runes flowed into Ling’s body and devoured the true dragon qi inside her.

After a dozen plus breaths of time, the Eternal King realm true dragon qi in Ling’s body was completely devoured.

“Now, you damn true dragons, go to hell!”

Yang Feng looked coldly at the true dragons wreaking havoc in the Azure Sacred Hall and pointed with his finger.

A black hole appeared above the true dragons, and devour black light swept toward them.

Tens of thousands of true dragons were drawn into the devour black hole.

“Your majesty Yang Feng, stop! Spare me! Spare the dragon clan! The dragon clan wishes to serve you forever!”

The face of the leader of the true dragon clan distorted, and he unleashed heart-wrenching howls. He cast various secret methods and resisted bitterly.

No matter how the leader of the true dragon clan struggled, he couldn’t withstand the terrifying attractive force. He was swallowed by the devour black hole in one breath of time.

The devour black hole suspended in the void disappeared, and dust emerged and scattered with the wind.

“All dead! Those were the elites of the true dragon clan!”

“True Dragon King is dead!”

“The true dragon clan is finished!”

“That’s the young lord! The young lord broke through the Eternal wall and advanced to an Eternal King!”

“The Azure Sacred Hall now has two Eternal Kings!”

“...”

In the Azure Sacred Hall, bursts of cheers sounded. The Zhenji Sacred Firmament only had two Eternal Kings before. Now that Yang Feng advanced to an Eternal King, the Azure Sacred Hall has become the No. 1 force in the Zhenji Sacred Firmament.

“Eternal King! He advanced to an Eternal King!”

Azure Sacred Lord looked at Yang Feng with envy and jealousy in his eyes, and his thoughts revolved wildly. In the end, he sighed, and worry welled up inside him, “For him to advance to an Eternal King, I wonder if it’s a blessing or a curse for the Azure Sacred Hall!”

The other Eternal tycoons looked at Yang Feng from afar with mixed emotions in their eyes.

Azure Sacred Hall originally was guarded by the Eternal King Azure Zhenji King. But now that another Eternal King was born, it signifies that a conflict between the two Eternal tycoons over the leadership and resources of the Azure Sacred Hall might erupt.

If an internal conflict erupts, the Azure Sacred Hall might decline.

Yang Feng glanced at Azure Sacred Lord and smiled indifferently. His figure fluttered, and he disappeared from this place.

Jiamao Weili Sacred Firmament, above a ruin, the complexion of Golden Roc King’s face suddenly changed, “True Dragon King died! He was killed by an Eternal King who was just promoted! Crap! If there’s nothing unexpected, that Eternal King should be on his way to hunt me down!”

When it comes to Eternal Kings, resources that can allow them to continue to evolve are very scarce in the Ten Sacred Firmament. Most Eternal materials are of no use to them.

Yang Feng is proficient in the essence of devour. But after he advanced to an Eternal King, no matter how many Eternal tycoons he devours, it will at most make his reserves deeper. It won’t allow him to evolve. Only by devouring Eternal King realm powerhouses, only then will he be able to transform rapidly and become stronger.

“Leave this place at once!”

Golden Roc King roared, and a sound wave spread in all directions.

Golden rocs surged with golden light and escaped in different directions.

Golden Roc King cast a secret method, flapped his wings, and turned into a golden ray flying into the distance.

“Golden Roc King, you’re really smart! Unfortunately, you’re still a step too slow!”

Along with a flash of ripples, Yang Feng walked out of a river of time and pressed the palm of his hand on Golden Roc King's forehead, and a devour rune appeared and swallowed Golden Roc King.

"Yang Feng, there has never been any hatred between us! Why have you come to kill me?!"

Inside the black devour hole, Golden Roc King spread his wings and struggled wildly. At the same time, he roared thusly.

Yang Feng replied coolly, an apathetic look in his eyes, "Golden Roc King, if I leave, you will attack the human clan. The human clan will likely suffer heavy casualties! To the point that it won't be able to recover even if hundreds of millions of years go by! Therefore, for the sake of the human clan, I can only kill you!"

Golden Roc King smiled ferociously and said, "Ha-ha! Is it for the sake of the human clan, or is it for my Etenral King origin?! You lowly and contemptible thing!"

"Naturally, there's also that!"

With a calm look in his eyes, Yang Feng willed, and devour black light surged inside the devour black hole and swept toward Golden Roc King. Golden Roc King struggled for a while before he trembled and turned into ashes.

"Golden Roc King has died!"

"So vicious!"

"Yang Feng really has advanced to an Eternal King!"

"..."

When they saw this scene, the powerhouses of Eternal World paying attention to this side felt a chill go down their spine.

Pseudo Eternal Kings lying dormant in hidden mysterious places, who suffered severe damage in prior Wars of Kings and are currently in a state of rebirth, didn't dare reveal their whereabouts.

"Anchaliman Sacred Firmament! The place where Kings are fighting! The place with an opportunity to promote to an Eternal God Emperor. That's my battlefield."

Yang Feng looked into the void. His figure fluttered, and he turned into a stream of light and disappeared.

The opportunity to advance to an Eternal God Emperor will only appear once in hundreds of millions of years. If he misses this chance, Yang Feng will have to wait who knows how many hundreds of millions of years before another opportunity to advance to an Eternal God Emperor appears.

If another Eternal King advances to an Eternal God Emperor, the entire Eternal World will be under the control of that Eternal God Emperor. By then, Yang Feng won't have any chances.

At the Anchaliman Sacred Firmament.

Ripples surged, and Yang Feng appeared on the most mysterious battlefield of the War of Kings.

When he entered Anchaliman Sacred Firmament, Yang Feng sensed boundless forces reverberating in the void.

Yang Feng's eyes flickered with an enigmatic shade, and he mused, "The fighting has already started. In that case, have God Emperor bones and the God Emperor Garden already appeared?"

According to legend, the God Emperor bones are the bones of the God Emperor who established the greater universe. The God Emperor Garden is a unique garden that the God Emperor refined back in the day in order to cultivate.

In the God Emperor Garden, there are countless unique treasures that don't exist in Eternal World. Only if you obtain a God Emperor bone, only then can you fight over the treasures in the God Emperor Garden. Only in this way might Eternal Kings be able to advance to a true Eternal God Emperor.

Eternal Kings are generally quite wary of each other and won't lightly fight one another. Only when they vie over a chance to advance to an Eternal God Emperor, only then will they recklessly start a war and fight one another.

"This is the power of Cangqiong King! He can be my first prey."

Along with a flash of ripples, Yang Feng disappeared without a trace and stealthily headed toward a battlefield.

In a starfield, bright light containing terrifying power barreled toward the 10,000-meter-tall Jiawei King.

"Hand over the God Emperor bone! Or die!"

Cangqiong King was surrounded by endless bright light, and his thunderous voice reverberated in the void.

Jiawei King responded icily, "Cangqiong King, we are equally strong! There's no meaning in us fighting! Stop!"

Cangqiong King roared madly, a frigid look in his eyes, "Hand over the Good Emperor bone! Otherwise, I will fight you to my last gasp!"

"If you want to fight, then let's fight!"

Jiawei King's eyes flashed fiercely. He cast a secret method, brandished the spear in his hands, and engaged Cangqiong King.

As the two Eternal Kings fought, stars shattered and turned into dust and rifts appeared in the void.

If the two Eternal King fought outside the Ten Sacred Firmaments, who knows how many lesser firmaments, intermediate firmaments, and even greater firmaments would have been destroyed by them.

Two Eternal Kings once fought outside the Ten Sacred Firmaments. In the end, 16,000 greater firmaments and below were crushed and countless creatures were extinguished.

As if empty air, the completely invisible Yang Feng quietly hid aside and waited for an opportunity.

Time elapsed and 100 years passed in a flash.

Cangqiong King and Jiawei King have already arrived at a remote location of Anchaliman Sacred Firmament. At this time, the two powerhouses are bruised and battered all over, their vitality greatly damaged.

Jiawei King uttered slowly, his face ashen, “Cangqiong King, stop! If things go on like this, both sides will suffer. Tell you what, let’s work together and seize another God Emperor bone. I can make a King Oath. What do you think?”
