

## **MGE 561**

### **Chapter 561 – Spiritsinger**

After chatting with them, Yang Feng learned some basic information about the two girls.

Murong Yuling is a beautiful girl who has become a celebrity in the Cloud Province. She is a Spiritsinger who cultivates a special secret method, and her singing has a strange magical power. When immersed in her singing, even Starry Sky Warlocks will experience an increase in their spirit force.

In the archgod era, there was a beautiful archgod called Moonlight Sonata. Moonlight Sonata had a miraculous ability – her singing could increase people's soul force.

During her time, Moonlight Sonata sang on the Moon Sacred Mountain every 100 years. Every time she sang, countless archgods would come from all over the Cangzhi Plane to listen to her singing.

When the Time Lord raised his army against the archgods for the third time, the archgod Moonlight Sonata sang the Moon God Soul Suppression Song and killed a good friend of the Time Lord and wounded heavily the Time Lord himself.

Later, the archgod Moonlight Sonata was slayed by the Time Lord. Legend has it that when Moonlight Sonata was slayed, the Time Lord also suffered an injury to his soul by her Moon God Soul Suppression Song, and thus died prematurely.

In the archgod era, there were many Warlock Emperor rank archgods. Before the Time Lord advanced to a Warlock Emperor, he has lost many times and suffered numerous injuries. After he became a Warlock Emperor, although no legend of his defeat was passed down, but according to the historical records, he was severely injured several times.

Spiritsingers are Bloodline Warlocks artificially manufactured by the 2nd Warlock Dynasty's Taboo Lord by using some blood essence found in a relic of Moonlight Sonata.

The early Spiritsingers also possessed some of the power of the archgod Moonlight Sonata, and their singing could raise the soul force of Infinity Warlocks.

After the passage of time, the bloodline of Spiritsingers has become thinner and thinner, to the point that it is already incredible that the singing of modern Spiritsingers can make the spirit force of people increase.

The number of people with Spiritsinger bloodline in the Great Cloud Dynasty is great, but few can awaken the power of the bloodline. Murong Yuling is a level-3 Bloodline Warlock who has awakened Spiritsinger bloodline. With the power of Spiritsinger, she has swept the Cloud Province and gained countless fans. She has even many Moonlight Warlock and Glorious Sun Warlock rank fans.

Lan Chuxia is a student in an advanced Warlock school in the Cloud Capital.

The Great Cloud Dynasty has popularized Warlock education, and has founded elementary, intermediate, and advanced Warlock schools.

Elementary Warlock schools teach a variety of basic bodies of knowledge and how to promote to an Apprentice Warlock. Intermediate Warlock schools teach knowledge that enables Apprentice Warlocks to advance to official Warlocks. Advanced Warlock schools teach knowledge and spells for level-1 Warlocks to promote to Great Warlocks.

Ordinary people who aren't talented enough to enter the major Warlock groups promote step by step in accordance with this model, and then join the Imperial Court after graduation. Via merit points, they get more advanced secret methods and resources.

Within the Great Cloud Dynasty, magic stones can be mass-produced through some peculiar extraordinary plants. As such, magic stones in the Great Cloud Dynasty are rather inexpensive, so many people can buy them for cultivation. If their soul aptitude is higher than level-2, then basically anyone can practice cultivation until the level-1 Warlock rank.

When Yang Feng joined the Battle Demon Sect, he has skipped countless cumbersome steps, and has reached the current Moonlight Warlock realm.

If he hasn't joined the Battle Demon Sect, then he would be studying in an advanced Warlock school at this time. He would have to compete with the geniuses of advanced Warlock schools for a slot in the Imperial Court.

Time flew by as they chatted, and the Cloud Capital appeared before everyone's eyes.

Yang Feng glanced at the Cloud Capital and praised: "That's the Cloud Capital, how splendid!"

The Cloud Capital's city wall is a towering city wall 1,000 meters tall engraved with countless seals. Atop the city wall, there are numerous nine-story-tall Warlock towers.

Apart from the Warlock towers, there is a statue every 100 meters atop the city wall. The statues are of dragons, fiends, and other formidable extraordinary life forms.

In the center of the Cloud Capital, 36 dragon-shaped clouds hold a city in the air. The city in the city suspended in the clouds is the Great Cloud Dynasty's center, the Cloud Aerial Royal City.

"The Cloud Capital is divided into five zones. The first is the Transcendent Zone, where only Moonlight Warlock rank experts and above and the Great Cloud Dynasty's central officials as well as their family members can reside. The Transcendent Zone is located near the Cloud Aerial Royal City."

"The second zone is the Noble Zone. Only the aristocrats may live in that area."

"The third is the Wealthy Zone. Although anyone can purchase property in that area, but the number of magic stones required is astronomical, and is directly calculated in magic crystals. People who aren't rich simply can't afford to live there."

"The fourth is the Commoner Zone. My family lives near the Saint Blue Advanced Warlock Academy. Mister Zhao Fan, come and visit me when you have time! By the way, Mister Zhao Fan, where do you live?" Lan Chuxia smiled sweetly at Yang Feng and asked.

Yang Feng smiled: "I live in the White Oak Villa District in the Wealthy Zone."

As a quasi-Moonlight Warlock, although Zhao Fan's net worth was far lower than that of true Moonlight Warlocks, and he could not live in the Noble Zone, but buying a small villa in the Wealthy Zone isn't a problem.

Lan Chuxia's pretty eyes flashed with excitement, and she said in a lovely voice: "The White Oak Villa District, a villa there costs at least 10,000 magic crystals. Mister Zhao Fan, can I visit you some time?"

Yang Feng spoke with a smile: "Of course. You are welcome to visit me at anytime."

After a while, the huge flying boat stopped at the boat yard outside the Cloud Capital.

When they entered the Cloud Capital, Yang Feng and the two girls each went their merry way.

Yang Feng entered the White Oak Villa District with Zhao Fan's identity and started his life as Zhao Fan.

Yang Feng left some tracks outside the Cloud Capital in order to create the false impression that he came from another place, and tried to test whether the people behind the scenes would risk exposure and attack him near the Cloud Capital.

A month later, Yang Feng stepped into the Cloud Capital with his original identity and directly entered the Transcendent Zone and the Call to Service Hall.

The Call to Service Hall is an institution of the Great Cloud Dynasty specially in charge of receiving those who have been recruited by the Great Cloud Dynasty but have no assigned duties.

As someone summoned by the Emperor's imperial edict, no one dared to make things difficult for Yang Feng. Soon all procedures were completed, and he moved into the Call to Service Hall.

"Yang Feng!" A voice sounded in the Call to Service Hall, and Yang Feng turned around and saw Jiang Lang [1] and a young man coming his way.

Jiang Lang said with a forthright smile: "Yang Feng, let me introduce you. This is my friend Li Yang. Li Yang, this is my friend Yang Feng, the person who defeated 10 supreme geniuses of the West World in the Time Sky City."

Li Yang uttered with a friendly smile: "Hello, Yang Feng."

Yang Feng also uttered with a smile: "Hello, Li Yang."

Jiang Lang chuckled: "Let's go to the Myriad Flowers Immortal Jade Palace together. The girls there are very good. As long as you have enough magic crystals, you can even enjoy beautiful Moonlight Warlock rank girls."

Yang Feng responded after a moment of thought: "Moonlight Warlock rank girls you say? Are they captives from other planes?"

Moonlight Warlock rank experts are Transcendents, and every one of them can establish a sect in the Great Cloud Dynasty. No matter which force they go to, they will attract offers of recruitment. It is impossible for them to become prostitutes.

Jiang Lang said: "Yes, they are captives from other planes. The Myriad Flowers Immortal Jade Palace belongs to the Eight Great Families the Jiang family. Other plane experts who have been suppressed by

the Jiang family are sent to the Myriad Flowers Immortal Jade Palace. The Jiang family is one of the three major slave traders in the Great Cloud Dynasty. If you want to buy or sell slaves, go to the Jiang family.”

The Great Cloud Dynasty banned the enslavement of its citizens and the citizens of states who formally signed an international agreement with the Great Cloud Dynasty. However, people from other planes are not covered by the legal protection of the Great Cloud Dynasty. Therefore, the Myriad Flowers Immortal Jade Palace can openly use slaves from other planes to service people.

When Yang Feng’s group of three came to the Myriad Flowers Immortal Jade Palace, they asked for a luxurious private room and ordered fine food.

After they took their seats, Jiang Lang asked: “Yang Feng, which department are you planning to enter?”

Yang Feng answered: “I’m not too clear about the Cloud Capital’s affairs.”

“The imperial Court is divided into the civilian and military branches. Moonlight Warlocks who have been summoned generally enter the military branch.”

“In the military branch, there are the royal guards, city guards, field forces, frontier troops, and regional troops. The Great Cloud Dynasty currently isn’t in conflict with any external forces. As such, if you join the military branch, you’ll be idle. It will be very difficult to make contributions and obtain resources.”

“Apart from those, there is still the Demon Hunting Division, the Demon Suppression Division, the Barbarian Suppression Division, and the Other Plane Development Division.”

“The Demon Hunting Division is responsible for suppressing freaks and wicked Warlock groups in the Great Cloud Dynasty. The Demon Suppression Division is responsible for subduing the Demon Realm and other similar places. The Barbarian Suppression Division is fighting against barbarians who worship barbarian gods. The Other Plane Development Division goes to other planes to suppress the local aboriginals and develop their territory for the Great Cloud Dynasty.

“The Great Cloud Dynasty is very rich in resources. But to get resources, you must use merit points in exchange. These four divisions are currently the most dangerous divisions of the Great Cloud Dynasty. But it is there that you can obtain a large amount of merit points in the shortest time. Yang Feng, which division are you going to join? Let’s join one together so that we can take care of one another.” Jiang Lang said.

---

[1] – Jiang Lang – he’s a Bright Moon School disciple; he should be the Moonlight Warlock who gave Yang Feng a hand in the Fuso Subcontinent by killing some Moonlight Warlocks

## **Chapter 562 – Trap**

Yang Feng considered carefully. The Demon Hunting Division specializes in suppressing evil Warlock groups of the Great Cloud Dynasty. The evil Warlock groups native to the Great Cloud Dynasty are deeply hidden and very powerful, and the most powerful among them even have Infinity Warlocks. Yang

Feng has a lot of enemies in the Great Cloud Dynasty. After thinking for a while, he discarded the idea to join the Demon Hunting Division.

The Demon Subduing Division goes to dangerous places like the Demonic Realm. When he went to the Demonic Realm before, Yang Feng has used his huge mechanical legion to gain a tremendous amount of merit points. But that kind of thing can't be repeated. After all, the freaks in the Demonic Realm aren't stupid. If Yang Feng uses the mechanical legion to clear up the freaks in the Demonic Realm repeatedly, the Bright World Warlock rank freaks won't stand idly by.

The Barbarian Suppression Division resided in a place called the Barbaric Realm southeast of the Great Cloud Dynasty. The Barbaric Realm is said to be the place where the 7th Warlock Dynasty's Magic Note Lord and a Warlock Emperor rank being have fought. The natural laws in the Barbaric Realm were shattered by the Magic Note Lord and the unknown being.

With its natural laws broken, the Barbarian Realm is a natural Magic Ban Domain. Elemental Warlocks are particularly vulnerable there. Except for the first spell, many spells of human Warlock cannot be conjured in the Barren Realm, let alone large area of effect meteorological spells.

Barbarians are humanoids with human and Barbarian Giant blood who live in the Barren Realm. They are natural Body-tempering Warlocks. Adult barbarians possess level-3 Body-tempering Warlock rank strength. Barbarians believe in barbarian Moonlight Warlock rank existences which they call barbarian gods.

In the Barbarian Realm, barbarian gods have amazing combat power, far exceeding ordinary human Warlocks. Even Infinity Warlocks have died in the Barbarian Realm.

Yang Feng weighed again and again, and finally chose not to enter the Barbarian Suppression Division. The power source of his battle robots is high-energy crystals inside them, not the energy of heaven and earth, and so they can display 100% of their fighting strength in the Barbarian Realm. However, there are many barbarian god rank experts in the Barbarian Realm, and many human Warlocks of the Barbarian Suppression Division die there each year. It's not a place suitable for farming merit points.

The Other Plane Development Division is a department that is specifically responsible for attacking and capturing different planes. There are restrictions on the rank of experts that many other planes can accommodate. Yang Feng is leaning towards this department.

Yang Feng said: "Other Plane Development Division, we can choose another plane to develop and earn merits."

Jiang Lang chuckled: "Ha-ha, I think so too. Most of the aboriginals of other planes are stupid. Even suppressed by the world origin, we can still crush them."

At this moment, there was a knock on the door.

Jiang Lang spoke: "Come in!"

A succubus with short purple hair and a sexy figure dressed in black leather exuding an alluring charm, a dragon girl with horns exuding dragon might, and an elf exuding a natural and youthful aura walked into the room.

When the three beautiful women entered the room, they said with cheerful smiles: "I am Ali (Sana, Annie). Greetings, Sirs!"

Yang Feng eyes lit up a little when he saw the three beautiful women enter the room. The three of them each have their own charm. They have extraordinary temperament, and are only slightly inferior to stunning beauties like Carolina and Shayenna. Besides, these three beauties are at the Starry Sky Warlock rank, which adds to their charm.

Starry Sky Warlocks aren't uncommon in the Great Cloud Dynasty. Although their status is far inferior to that of Moonlight Warlocks. However, Starry Sky Warlocks are experts who can proclaim themselves hegemony of an area. Those who can practice cultivation until the Starry Sky Warlock rank are geniuses among human Warlocks. The feeling of intimacy with Starry Sky Warlock rank girls is very different from that of ordinary human girls.

Jiang Lang's gaze fell on the succubus, and he said carelessly: "Yang Feng, these three beauties are ranked top three in the Myriad Flowers Immortal Jade Palace. If I wasn't a Moonlight Warlock, it would be impossible to have them accompany us. Choose one first."

Knowing that Jiang Lang is a womanizer, Yang Feng just smiled and chose the dragon girl Sana.

Overjoyed, Jiang Lang took the beautiful succubus Ali into his arms.

The beautiful elf Annie went to Li Yang.

Yang Feng asked: "Aren't there supposed to be Moonlight Warlock rank girls in the Myriad Flowers Immortal Jade Palace? Why don't you call them to accompany us?"

Jiang Lang replied regretfully: "There are only two Moonlight Warlock rank girls in the Myriad Flowers Immortal Jade Palace, and they cost 1 million magic crystals a day. I can't afford such beauties."

An average human who unlike Yang Feng hasn't implanted a plane seed inside them will have to spend more than 100,000 magic crystal to reach the junior Starry Sky Warlock rank.

1 million magic crystals isn't a small number for a Moonlight Warlock like Jiang Lang. Although he can fork out this sum, but he feels that it isn't worth to spend so many magic crystals just to lay with a Moonlight Warlock rank girl.

While enjoying the intoxicating girls and delicious food, Yang Feng and the other two talked about this and that and became more intimate with one another.

Yang Feng found that Jiang Lang's friend Li Yang has wide-ranging knowledge and has his own unique insights on cultivation. He has traveled many places.

As the three were chatting, and the door suddenly burst open, countless pieces of wood spattered, and an unruly, domineering boy about 16 or 17 years old stepped into the room.

Five other boys wearing gorgeous Warlock gowns followed behind the boy. At a glance, you could tell that the boys come from extraordinary backgrounds. The boys were guarded by 8 Great Warlocks.

The unruly- and overbearing-looking boy opened his eyes wide, pointed at Yang Feng's group of three, and cursed: "You sons of bitches, you dare mess with my woman, are you sick of living? Get the hell out

of here! Otherwise, I'll break your legs and cut off your member and throw you into the palace as eunuchs!"

"Ha-ha! To touch my woman, do you want to die!"

"If these three lose their member, it'll make for a fine spectacle!"

"..."

The five boys wearing gorgeous Warlock gowns showed cruel smiles.

Yang Feng frowned, feeling that something was off.

Suddenly, Li Yang transmitted his voice: "That boy is the 308th Prince. He's unruly, overbearing, and ruthless. His mother's family is the Eight Great Families the Shentu family. Every year, many people die in his hands. He is both stupid and vicious. If he wasn't the son of His Majesty, he would have died many times over already. Someone is scheming against us."

The average lifespan of Emperors of the Great Cloud Dynasty is more than 1,000 years. Coupled with a 3,000-strong harem, the number of princes and princesses they bear is great.

"You bunch of ants, screw off!" Jiang Lang's eyes flashed fiercely, and he bellowed. He erupted with a Moonlight Warlock rank life force field that covered the 308th prince along with the other boys.

The 308th Prince and the other arrogant boys were all playboys who reached the level-1 Warlock rank by consuming elixirs. Enveloped by the Moonlight Warlock rank life force field, they were immediately forced to kneel on the ground, shivering.

Suddenly, the 308th Prince trembled, spat out a mouthful of black blood, bulged his eyes, and died.

"Murdered! His Highness was murdered!" The three girls in the arms of Yang Feng and the other two screamed in horror.

Yang Feng's eyes flashed coldly. Without compassion for the fairer sex, he slapped the dragon girl, and a violent force exploded and blasted her into countless fragments in an instant.

Jiang Lang drew his sword and chopped out. Sword rays flickered and chopped the succubus along with the other people in the room into countless pieces.

Li Yang pointed with his finger, and wind blades sliced the elf beside him into numerous pieces in a flash.

Yang Feng waved his hand, and Seven Color Skyfire suddenly appeared, rolled out towards the bloody remains in the room, and burned them to ashes.

Queer marks shot out from the corpses and barreled towards Yang Feng in order to brand him.

Seven Color Skyfire burned the weird marks to ashes shortly after.

Frigid killing intent shimmered in Yang Feng's eyes, and he spoke chilly: "We have fallen into a trap. The other side is bound to strike with the speed of a clap of thunder. Let's flee. If we stay here any longer, we'll die."

The crime of murdering a Prince of the Great Cloud Dynasty, even a Battle Demon Sect genius like Yang Feng cannot shoulder it. Once arrested, he is sure to die.

Although the Battle Demon Sect has tremendous power in the Imperial Court, but the Cloud Capital is the domain of the royal family. The Battle Demon Sect has just a few high officials here, and it is impossible to exonerate Yang Feng and them.

The other two nodded. Without further ado, the three turned into streams of light and flew towards the outside.

“To kill His Highness the 308th Prince in the Myriad Flowers Immortal Jade Palace, what gall! Turn yourselves in! Or do you want to implicate your families and friends?”

A bellows rose in the Myriad Flowers Immortal Jade Palace, and six moonlight Warlocks, three men and three women, suddenly flew out of the Myriad Flowers Immortal Jade Palace. Two men and two women blocked in front of Yang Feng, while the other man and woman blocked in front of Jiang Lang and Li Yang respectively.

The defensive arrays in the Myriad Flowers Immortal Jade Palace began to activate, and magic shields suddenly appeared and covered the Myriad Flowers Immortal Jade Palace.

### **Chapter 563 – Carving out a Bloody Path**

Yang Feng’s face was cold. With a thought, the white Battle Demon Armor enveloped him instantly. At the same time, he pressed the magic cube in his hand, and the Ruler Armor covered his body.

A handsome middle-aged man with a refined temperament watched Yang Feng and said coldly: “Yang Feng, give up resistance at once. Otherwise, not only will you die, but you will also implicate the Battle Demon Sect.”

“Anyone who stands in my way shall die!” Yang Feng’s eyes flashed fiercely, and he extracted world force from the World Ring and poured it into the level-7 secret treasure Lightning Awl.

Violent lightning flickered and turned into a torrent of lightning that swept towards the middle-aged man.

The middle-aged man’s face changed drastically. He silently recited an incantation and pointed with a finger, and countless seals formed a shield in midair.

In a flash, the violent torrent of lightning pierced through the shield, stabbed into the middle-aged man, and turned his body into ashes inch by inch.

“No! Don’t!” The Moonlight Warlock issued a scream filled with endless regret, and then his head, which was the only thing that remained of him at this point, also turned into ashes.

“You killed Jiang Lie! Die, you bastard!” Eyes shot with blood, a beautiful Moonlight Warlock roared and pointed at Yang Feng with the level-6 secret treasure scepter in her hand.

Black like ink, capable of attacking the soul, Discarnate Soul Wind suddenly emerged and swept towards Yang Feng.

Discarnate Soul Wind is a queer wind from the Netherworld. No matter how strong they are, but if they don't practice a special secret method, then even Moonlight Warlocks will be seriously wounded or even killed by the Discarnate Soul Wind.

When blown by the Discarnate Soul Wind, even Glorious Sun Warlock rank experts who don't cultivate special soul secret methods will be rendered immobile, and then will be besieged.

"In this case, I'll let you meet your companion so that your journey to the Netherworld goes more smoothly! There's no need to thank me!" Without retreating, Yang Feng blurred into motion and plunged into the Discarnate Soul Wind. Whirlpools suddenly emerged around him, swallowed the Discarnate Soul Wind, and conveyed it into the small world inside him.

Countless Devourers flew out abruptly, pounced on the Discarnate Soul Wind, and devoured it completely.

Yang Feng instantly appeared in front of the beautiful woman and slammed a Primal Chaos Annihilation Fist into her, and the force of primal chaos and annihilation erupted and poured into her.

"How can this be! How can you ignore the Discarnate Soul Wind? Impossible!" A look of incredulity on her face, the beautiful Warlock screamed, and her body collapsed inch by inch and turned into dust. Only the Moonlight Core remained.

Taking advantage of the moment Yang Feng killed the female Warlock, a spear cutting through the void like a shooting star appeared behind him.

Another Warlock changed into a Frost Giant 100 meters tall, clenched his fists, and punched out. Boundless ice force gushed out in an instant and turned into a world of ice and snow that swept towards Yang Feng.

Smiling coldly, Yang Feng silently chanted an incantation, his figure blurred, and he stepped into another dimension. Although it seems that he is still in this world, but in fact, he is no longer in this space.

There was ripple in space, and the female Warlock wielding the spear strangely teleported in front of the Frost Giant's fist.

"No! Somebody save her!" The Frost Giant screamed and tried to stop, but his huge fist still hit the female Warlock who had a look of horror in her eyes.

The violent freezing air instantly entered and froze the beautiful Warlock into an ice sculpture, and then a violent force surged and shattered her into ice debris.

"You degenerate, you killed your beloved with your own hands, how reprehensible! Let me send you on your way!" Yang Feng barked, cast Blink, appeared on the head of the Frost Giant, and barreled his fist towards the other party's head.

"I'm sorry, Little Mei ... I'm sorry!" The Frost Giant originally wanted to resist, but after hearing Yang Feng's words, his face twisted into despair, and he gave up resistance. Yang Feng blew the other side's head into pieces and took the Moonlight Core.

After Yang Feng killed the Frost Giant, a spatial undulation enveloped him, and he appeared behind the Moonlight Warlock who engaged with Jiang Lang. Next, he pointed with a finger, and Nine Revolutions Divine Wind suddenly burst out and shredded his lower body. Then, he extended his hand, and numerous seals shot out from his hand and stabbed into the head of the Moonlight Warlock and sealed it. Yang Feng tossed the head into an empty Dimensional Badge.

As long as the Moonlight Warlocks haven't cast a spell to disrupt the space, Yang Feng can use the law of space to engage in incredible fighting.

The face of the last Moonlight Warlock fell, and she retreated briskly and shouted: "I surrender, don't kill me! I surrender! I'm not part of the Jiang family, I was recruited! Spare me! I'll let you set up a soul restriction, just don't kill me!"

Yang Feng pointed with a finger. Suddenly, the True God Empyrean Seal flew out, and black seal chains shot out and stabbed directly towards the female Warlock: "Don't resist! Otherwise, you will die!"

There was a look of struggle in the female Warlock's beautiful eyes, but then she finally sighed and gave up resistance, allowing the seal chains stab into her and entangle her soul.

Li Yang's eyes flashed with an enigmatic gleam: "So strong! In such a short period of time, he killed four Moonlight Warlocks. No wonder he's a peerless genius who suppressed 10 supreme geniuses of the Western World in the Time Sky City."

Li Yang's origin is extraordinary, and ordinary Moonlight Warlocks are not his match. But if he was besieged by four Moonlight Warlocks, he could only choose to escape.

In such a short period of time, Yang Feng slayed four Moonlight Warlocks, which is simply too shocking.

"Break!" Jiang Lang looked at the magic barriers covering the Myriad Flowers Immortal Jade Palace and roared, and a ray of sword qi 100 meters long soared into the sky and sliced the barriers open.

Yang Feng's group of three turned into streams of light and flew out of the Myriad Flowers Immortal Jade Palace.

"To frame us, the Myriad Flowers Immortal Jade Palace doesn't deserve to exist!" Li Yang glanced at the Myriad Flowers Immortal Jade Palace, and killing intent streaked past his eyes. He took out a spherical secret treasure and threw it towards the Myriad Flowers Immortal Jade Palace.

When the spherical secret treasure fell on the ground, it burst open and turned into raging flames that filled the Myriad Flowers Immortal Jade Palace. In the wake of the flames, everything turned to ashes. Blood-curdling screams rose in the Myriad Flowers Immortal Jade Palace.

"To commit murder in the Cloud Capital, presumptuous!" Outside the Myriad Flowers Immortal Jade Palace, 100 Warlocks dressed in white Demon Hunting Division Warlock gowns appeared, each of which exuded Starry Sky Warlock rank aura or above. The 10 people heading the group are moonlight Warlocks.

Such a force can even suppress a Glorious Sun Warlock.

"Demon Hunter Division! Sure enough, there are layers to this plot to kill us! Since this is the case, then go to hell! Mechanical Legion Summon!" There was a flash of killing intent in Yang Feng's eyes, and the

space around him rippled, and 200,000 battle robots hidden inside his small world suddenly flew out and rushed towards the 100 Demon Hunting Division Warlocks.

A dense rain of light shot towards the 100 Demon Hunting Division Warlocks, and magic shields appeared around the Warlocks.

Countless rays of light shattered the magic shields of three Starry Sky Warlocks and devoured them.

Numerous Starry Sky Rippers erupted with Mach 10 speed, plunged into the midst of the Demon Hunting Division Warlocks, and fought frantically.

Almost instantly, Yang Feng's figure blurred, and he disappeared from the battlefield.

Jiang Lang blurred into motion and fled towards the north.

Li Yang crushed into the wall of an ordinary home and cast a spell to escape elsewhere.

Under the siege of the 200,000 battle robot, the Demon Hunting Division experts died one after another. The 10 Moonlight Warlocks were also entangled by the siege of battle robots, unable to get away and pursue Yang Feng.

In a dark alley, a handsome middle-aged man with white hair walked unhurriedly with his hands behind his back, and advanced Glorious Sun Warlock rank fluctuations of power slowly spread from him: "Yang Feng, you're really something else. No wonder you're a peerless genius who defeated 10 supreme geniuses of the Western World in the Time Sky City in one stroke. If I didn't come in person, then you'd be able to escape. Do you surrender, or do you want me to take action? You're going to die if I have to take action."

## **Chapter 564 – Escape**

"Glorious Sun Warlock! You're a bureau chief of the Demon Hunting Division! Who set us up? What do they want to do? Even if we are to die, you should at least tell us the reason behind this farce." A shadow twisted and formed into Yang Feng's true body. He stared at the unfamiliar Glorious Sun Warlock warily and asked coldly.

The Demon Hunting Division has one division chief, four deputy division chiefs, 36 bureau chiefs, and 72 deputy bureau chiefs. The division chief is an infinity Warlock, the four deputy division chiefs are Bright World Warlocks, the 36 bureau chiefs are Glorious Sun Warlocks, and the 72 deputy bureau chiefs are Moonlight Warlocks. In terms of strength alone, the Demon Hunting Division is equally matched with the Battle Demon Sect.

Fearsome advanced Glorious Sun Warlock rank might spread from the Demon Hunting Division bureau chief, and he took a step forward and answered calmly: "No one has set you up. You murdered His Highness. If you don't surrender at once, then you will die here today. This is Cloud Capital, not even Infinity Warlocks can escape from here. Surrender."

Before his words have fallen, the Demon Hinting Division bureau chief suddenly waved his hand, and a level-7 secret treasure Lock God Chains shot towards Yang Feng.

The level-7 secret treasure Lock God Chains is a standard secret treasure provided to the Demon Hunting Division bureau chiefs. Although it cannot compare to some special level-7 secret treasures in terms of power, but it still surpasses level-6 secret treasures by far.

Many Glorious Sun Warlock rank freaks have been suppressed by the Demon Suppression Division, thrown into the Dark Prison, and turned into test subjects for taboo research, and they all loath the Lock God Chains.

The Great Cloud Dynasty clearly states that no one is allowed to use citizens for research purposes. However, slaves captured in other planes and evil Warlocks deprived of all human rights are an exemption. The Dark Prison is a place that many evil Warlocks fear. Once they are apprehended and thrown into the Dark Prison, life will be a constant torment. If they refuse to be hunting dogs of the Great Cloud Dynasty, they will be reduced to test subjects.

Yang Feng suddenly retreated briskly, slammed into a house next to him, and plunged inside.

Suddenly, a Moonlight Core along with a portion of the Ruler Armor shot out from the Ruler Armor, turned into a robot exuding Yang Feng's aura, and rushed towards the Lock God Chains.

Numerous chains stabbed into the robot at once, and countless seals rose on the robot's body and sealed the Moonlight Core, making the robot unable to move.

The Demon Hunting Division bureau chief exclaimed in admiration: "What a wonderful golem! It carries your soul aura, and can even deceive the Lock God Chains! Amazing! Unfortunately, no matter how you struggle, there's no use. Even the Moonlight Seven Stars cannot escape from me!"

The Demon Hunting Division bureau chief is called Dong Rui, and he comes from humble origins. Starting with elementary Warlock school, he overcame numerous hurdles and joined the Great Cloud Dynasty's Demon Hunting Division. After hunting countless freaks and obtaining a large amount of resources, he finally advanced to the Glorious Sun Warlock realm.

Against ordinary junior Glorious Sun Warlocks, Dong Rui only needs to strike once with the Lock God Chains to suppress and seal them. Yang Feng, however, was able to escape once, which he couldn't help but praise.

"Shit!" Suddenly, Dong Rui's countenance changed greatly. He could feel a fearsome fluctuation of power and spatial fluctuation come from the house, and he blurred into motion and rushed into the house.

The moment before Dong Rui entered the house, Yang Feng disappeared in a top grade warp gate.

The moment Yang Feng entered the top grade warp gate, it activated the self-destruction sequence.

In an instant, dazzling light and boundless heat along with debris blasted toward Dong Rui.

A powerful life force field appeared around Dong Rui and blocked the explosion that could seriously injure ordinary Moonlight Warlocks.

"Do you think you can escape from me this way? You're too naive!" Dong Rui's eyes flashed with anger, and he waved his hand, and an exquisite astral gate suddenly flew out and landed on the ground.

The astral gate radiated light, and a whirlpool appeared in its center.

Dong Rui stabbed his hand into the astral gate.

In the Astral Boundary, a hand suddenly extended from the void. The hand opened, and an eye appeared in the center of the palm. The eye turned, looked towards the depth of the Astral Boundary, and locked on the plane Yang Feng has escaped to.

“Found you! An eerie voice sounded next to Yang Feng, and a strange feeling of being watched arose in his heart. He felt like the surrounding temperature has lowered.

The next moment, the exquisite astral gate exploded, and tremendous backlash force erupted and cut off Dong Rui’s hand. The hand was left behind in the Astral Boundary.

To open a gate that leads to the Astral Boundary isn’t easy. You must spend a great amount of resources to build a true astral gate. That simple astral gate that Dong Rui has used was a secret treasure specially crafted by the Demon Hunting Division to track down and lock the position of enemies who fled into the Astral Boundary; it cannot be operated for a long time.

Dong Rui frowned and uttered slowly: “An unknown world, he fled to an unknown world. To be able to escape to another plane from the Cloud Capital, what treasure was that?”

Warp gates is the crystallization of xizu technology. Once activated, they can enable people to easily cross great distances and even teleport to other planes. Warp gates are much more outstanding than the Cangzhi Plane’s planar passageways that lead to other places.

A crafty rabbit has three burrows. When Yang Feng was operating in the Cloud Capital as Zhao Fan, he secretly set up several places with warp gates in order to use them to save his life at a critical moment.

Dong Rui had a thought, and his eyes shimmered with greed: “The coordinates of an unknown world, do I report them, or keep them for myself?”

Despite being of humble origins, Dong Rui gradually promoted to an advanced Glorious Sun Warlock. He has to look for resources himself. As such, he knows the pain of practicing cultivation without resources. He wouldn’t have been able to practice cultivation until the Glorious Sun Warlock realm were it not for the treasures he has acquired after killing evil Warlocks.

If you take out the coordinates of an unknown world, you can sell them for a sky-high price. If you conquer and gain full control of that world, then even if it is just a grade 9 plane, it will still have tremendous value.

“Dong Rui, is it settled?” A bland voice sounded in Dong Rui’s ears.

Startled, Dong Rui immediately broke out in cold sweat and responded respectfully: “Deputy Division Chief Liu. Yang Feng used some unknown secret treasure to escape to another plane of unknown coordinates. Here are the coordinates of the plane.”

Liu Xuanzhen is one of the four deputy division chiefs of the Demon Hunting Division, a Bright World Warlock rank expert. He is cruel and merciless, and the number of evil Warlocks that died at his hands is astronomical. Even many people from the Demon Hunting Division have disappeared when on a mission with him.

Of the people who climbed to a high position in the Demon Hunting Division, no one is kind-hearted, as those people would have died early on in confrontations with evil Warlocks.

When Dong Rui saw Liu Xuanzhen come in person, he didn't dare to conceal anything, and immediately reported everything. He didn't even dare to hide the coordinates of the other plane for fear of becoming a sacrificial lamb on some mission.

"What secret treasure did he use?" There was a ripple in space next to Dong Rui, and a handsome boy dressed in casual clothes came out and said full of dignity.

"The secret treasure has already exploded, and only these remains are left." Dong Rui spread the fingers of his hand, and a pile of debris left from the top grade warp gate appeared in his hand.

Dong Rui originally wanted to study the wreckage of the top grade warp gate himself. If he could restore it successfully, it would be a life-saving secret far superior to countless other secret treasures. But when Liu Xuanzhen appeared, he could only offer the latter the remains without any fuss.

"Advanced Reconstruction!" Liu Xuanzhen chanted an incantation and pointed at the wreckage of the top grade warp gate, and blue light shrouded the wreckage.

The wreckage suddenly turned back into the top grade warp gate.

Dong Rui praised promptly: "Deputy Division Chief Liu, you are a man of remarkable abilities! To be able to cultivate Advanced Reconstruction to this degree is amazing."

To reach the top, children of humble origins have to invest more than 100 times the effort than children from large families or sects. They not only must practice cultivation, but also refine their people skills. Dong Rui has paid a price unimaginable to ordinary people to become one of the 36 bureau chiefs of the Demon Hunting Division.

"It looks impressive but is useless! After all, Advanced Reconstruction is not the Time Text's Time Reversal!" Liu Xuanzhen sighed faintly and waved his hand, and the top grade warp gate collapsed into debris immediately.

The Time Lord's most powerful secret method was Time Reversal. No matter how badly he was injured, he could use Time Reversal to go back in time and return to his peak state. It was thanks to this most formidable secret method that he proclaimed himself a hegemon in the archgod era.

Of course, when it comes to attacks of Warlock Emperor rank experts, then even with Time Reversal, you still can't achieve full immunity. Injuries involving laws, even the Time Lord had a hard time curing them. However, during a fight, Time Reversal is certainly a heaven-defying spell. No one else except for the Time Lord has ever cultivated this spell successfully.

## **Chapter 565 – Andrak Plane**

When the Time Lord used Time Reversal, then even when seriously injured by an Emyrean grade secret treasure, he could reverse the flow of time and completely restore himself.

Of course, the further he went back in time, the more power Time Reversal consumed. Even the Time Lord could return to a state of 10 minutes ago at most when faced against Empyrean grade secret treasures.

Liu Xuanzhen's Advanced Reversal can restore the remains of a level-4 secret treasure at most. It has little effect on the top grade warp gate, only able to restore it's shell.

Liu Xuanzhen said indifferently: "Yang Feng has great potential. Dong Rui, I want you to bring back his soul core at all cost."

Dong Rui felt a chill in his heart, and responded respectfully: "Yes! Deputy Division Chief Liu! I will take my men to the plane and bring back Yang Feng's soul core."

Liu Xuanzhen nodded his head, and then his figure blurred, and he disappeared.

After Liu Xuanzhen disappeared, Dong Rui's expression turned gloomy, and a gleam of resentment streaked past his eyes.

As someone who climbed up from the very bottom, Dong Rui strove to avoid disasters. Yang Feng not only is the most remarkable genius of the Battle Demon Sect, but also possesses heaven defying treasures like the top grade warp gate and knows the coordinates of an unknown plane. He doesn't want to provoke such a peerless genius.

When dealing with Yang Feng, Dong Rui only used the capture-type secret treasure Lock God Chains. He didn't use his strongest offensive secret treasure because he didn't want to kill the other party.

Now Liu Xuanzhen is forcing him to go to the other plane to kill Yang Feng, which left Dong Rui resentful. If it was up to him, he wouldn't take on such a task.

The Andrak Plane, inside an underground secret chamber.

Yang Feng silently chanted an incantation and pointed with his finger, and the True God Empyrean Imprint suddenly flew out, and numerous black rune chains shot out from the imprint and pierced into him.

A fuzzy and distorted shadow was ripped out from Yang Feng's body by the rune chains and sucked into the True God Empyrean Imprint.

As soon as the shadow was removed, Yang Feng felt his body relax, and the feeling of being spied on disappeared.

With a thought from Yang Feng, countless Devourers were released from the small world. The Devourers pounced at him and looked for curses.

Warlock secret methods are mysteries and ever-changing. Although Yang Feng has grasped the Time Text, the Transcendent Text, and the Taboo Text, but he doesn't dare to be careless.

The three great texts is profound and mysterious. When cultivated to the pinnacle, they will exhibit unparalleled might. However, it is also true that some of the secret methods recorded in the three great texts are less refined than those of the modern era. After all, many modern secret methods were

created after countless geniuses carefully studied the eight great texts and carried out their own research.

The dense swarm of Devourers covered Yang Feng's body. Suddenly, an attractive force erupted on the side of his abdomen, and transparent light was absorbed and digested.

Yang Feng immediately felt elated, and the ineffable sense of danger disappeared.

There was a flash of fear in his eyes: "The Demon Hunting Division is really scary. If I wasn't cautious enough, I might not be able to escape from that underhanded bureau chief."

With the Transcendent Text as the base coupled with the Battle Demon Sect's data and xizu technology, the True God Empyrean Imprint Yang Feng created still wasn't able to eliminate all the spells Dong Rui has cast on him, which illustrates how troublesome of an opponent Dong Rui is.

When all the curses inside him were cleared, Yang Feng immediately left the cave. But before leaving, he used a spell to erase his aura and all traces.

"Is this plane suppression? If I don't use the power of the small world, I can exert pinnacle Starry Sky Warlock rank power at most." Yang Feng was riding a leopard he has tamed. As he headed for the Narcissus Federation, he silently sensed the changes in his body.

Apart from the 36 primary material planes, the plane origin will of many planes will suppress foreigners whose strength surpasses the Starry Sky Warlock rank.

Take the Infernal World as example – if a Warlock Monarch rank expert enters the Infernal World, they will stand no chance against any one of the nine Infinity Warlock rank devil grand dukes.

The Great Cloud Dynasty's Other Plane Development Division is a department specialized in suppressing rebellions in other planes and attacking other planes. Although the Great Cloud Dynasty's Warlocks are extremely powerful, but they frequently suffer setbacks in low grade planes. They cannot exert their full strength due to the suppression of the plane origin will.

"The limit of power this plane can bear is at the Glorious Sun Warlock rank. After a while, I can still recover my Moonlight Warlock rank power."

In the the Eight Warlock Dynasties era, the Cangzhi Plane has conquered countless planes. Human Warlocks have detailed records on how to conduct wars on other planes.

There are several methods to break the suppression of a plane origin will. The first is to defeat the plane origin will with absolute power. Severely injured, the origin plane will will no longer be able to interfere with human Warlocks. The second is to mask your soul aura with a secret treasure and disguise yourself as a native of the plane and dupe the plane origin will. The third is to separate a part of your soul, throw it into the plane, and merge it with an infant. This is equivalent to being reborn as a native, and you will no longer receive the suppression of the plane origin will. The fourth is to find the plane origin will and use a spell to seal part of the plane origin will in your body. This is equivalent to becoming a native of the plane, and will lift the restriction on your power.

Of course, the Andrak Plane is a grade 6 plane, and the limit of power that it can accommodate is at the Glorious Sun Warlock rank. If a Bright World Warlock lifts the restriction of their power inside the

Andrak Plane, they will be rejected by the plane and expelled. Even if an aboriginal of the Andrak Plane breaks through to the Bright World Warlock realm, they will be rejected by the plane all the same.

Wearing a plane origin will scanner that looks like a string of wooden beads on his wrist, Yang Feng scanned the Andrak Plane and began to analyze the plane origin will.

Nano robots of blasphemy in his clothes began to operate, and distorted and configured his soul aura until it was identical to that of an aboriginal of the Andrak Plane.

Countless data flowed in Yang Feng's eyes, and he quietly read the information given to him by Katrina.

In the Andrak Plane, there are seven gods – the Goddess of Ice, the God of Fire, the God of War, the God of Death, the Goddess of Love, the God of Justice, and the God of Murder.

The seven gods are in control of the Bramble Sparrow Kingdom, the Ice Blue State, the Narcissus Federation, the Guttamar Kingdom, the Scarlet Flame State, the Glun State, and the Norton State.

Of the seven gods, the Goddess of Love, the God of Justice, and the God of Murder are human gods, while the Goddess of Love and the God of Justice are allies. The God of Murder is a neutral god.

Consequently, the Narcissus Federation and the Bramble Sparrow Kingdom are allies. When Katrina infiltrated this world, she joined the Narcissus Federation. She runs a huge force in the Narcissus Federation.

On the way, Yang Feng suddenly turned his head and looked to the left.

He saw seven tall and sturdy freaks that looked like devils with bare upper body and a black scimitar in their hand fighting 30 plus humans far away.

There was a flash of curiosity in Yang Feng's eyes, and he observed carefully: "Are those the Guttamar Kingdom's death warriors?"

The Guttamar Kingdom's death warriors don't understand magic. The black scimitars they wield are queer. Once a scimitar breaks the skin, black gas will enter the human's body and erode them completely, turning them into a black corpse.

The more than 30 human experts are shrouded in green light similar to qi and Warlock life force that strengthens their physique. The humans can barely fight the seven death warriors.

Yang Feng glanced at the weapons in the hands of the death warriors, and his eyes brightened and flickered with excitement: "Law of death, those weapons have a trace of the law of death. No, it's not the law of death, but death force."

Yang Feng's god clone in the Feisuo Plane has control over the law of shadows and the law of massacre, and he covets the law of death and the law of war.

The grade and potential of the law of death is far greater than those of the law of shadows. If Yang Feng kills the God of Death of this plane and seizes the God of Death's godhead, then his god clone in the Feisuo Plane will quickly promote to a weak divine force rank god.

Yang Feng glanced at the more than 30 human experts and shook his head: “The Green Flower Immortal Spirit Method is too lacking in terms of combat.”

The Green Flower Immortal Spirit Method is the secret method that the Goddess of Love cultivated in her early days. The Green Flower Immortal Spirit Method can enable people to practice cultivation until the demigod realm, and is divided into 15 levels. The 30 plus humans have cultivated this to the 9th level at most, and are not the opponents of the death warriors.

With a thought, the life force inside Yang Feng turned, and he cultivated the 1st level of the Green Flower Immortal Spirit Method in one breath of time. At the same time, he walked towards the death warriors.

Every time Yang Feng took a step, the Green Flower Immortal Spirit Method broke through by a level, and by the time he took the 12th step, he cultivated the Green Flower Immortal Spirit Method to the 12th level, which was equivalent to the pinnacle Great Warlock realm.

Yang Feng waved his hand, and ribbons made of green light suddenly shot towards a death warrior.

Shortly after the ribbons swept the death warriors, it stabbed itself with the scimitar in its right hand, and death force poured into it and turned it into a pile of dust.

## **Chapter 566 – Inquisition**

Green ribbons swept the death warriors, and then the death warriors stabbed themselves with the scimitar in their hand.

Black gas poured into the death warriors and corroded them into piles of ashes.

The 12th level of the Green Flower Immortal Spirit Method coupled with Yang Feng’s battle experience isn’t something that the death warriors can contend against.

A burly man with blond hair came to Yang Feng and uttered with gratitude: “Hello, I am Beta. Thank you for saving us. Our Master invites you for a meeting.”

The remaining 20 plus guards also looked at Yang Feng with gratitude.

Yang Feng smiled and walked towards a luxurious carriage pulled by four horses with extraordinary life form bloodline.

When he boarded the bright luxurious carriage the size of an RV [1], Yang Feng saw a handsome blond boy with fair skin sitting in the carriage.

There is a pair of beautiful twin girls kneel sitting next to the handsome boy, looking at the boy with affection in their eyes.

No matter the handsome boy or the beautiful twin girls, there is an extraordinary temperament and charm about them.

Yang Feng’s eyes flickered with enigmatic light: “What a beautiful boy. The Green Flower Immortal Spirit Method is indeed a first-rate secret method to enhance looks.”

In terms of combat, the Green Flower Immortal Spirit Method can be described as mediocre. However, those who cultivate the Green Flower Immortal Spirit Method become more and more good-looking.

The handsome boy asked in an aloof, cold tone: "Who are you?"

Yang Feng frowned slightly, and then answered crudely: "I am Ole."

The face of one of the twin girls flickered, and she shouted sternly: "What gall! Before you is the 6th successor of the Narcissus family, Young Master Bardini. To talk to the Young Master in such a rude tone, are you sick of living, you commoner?"

"Narcissus family?" There was a flash of contemplation in Yang Feng's eyes.

The Goddess of Love originated from the Narcissus family. After the Goddess of Love ascended to godhood 10,000 years ago, the Narcissus family was left in charge to run the Narcissus Federation.

As the 6th successor of the Narcissus family, pride has seeped deep into Bardini's bones.

The other twin barked: "Kneel and apologize to Young Master Bardini at once!"

Bardini watched Yang Feng with a look of pride on his face. In his eyes, except for the aristocracy, the rest are not worthy of his attention. Even though he was rescued by Yang Feng, but he takes it for granted.

Yang Feng smiled mischievously, glared, and operated the Green Flower Immortal Spirit Method, and Great Warlock rank might permeated the carriage.

The beautiful twins are ordinary humans. Under the terrifying Great Warlock rank might, their pretty face paled and their petite body shivered suddenly, and a gleam of fear streaked past their eyes.

"Legend. You are a Legend rank powerhouse!" Bardini's eyes brightened, and his attitude became cordial at once: "Your Excellency, please forgive me for my lack of manners."

In the Narcissus Federation, there are less than 20 Legend Rank experts, and each one of them is a backbone of the federation.

In the Narcissus family, there are only three Legend rank guards. As for demigod rank powerhouses, there is only one in the entire Narcissus Federation.

Even if it is Bardini, but he has to take Legend rank powerhouses seriously, not daring to anger them at will. Although he has a very high status, but if a Legend rank powerhouse wants to kill him, it'll be as easy as killing a chicken. And even if a Legend rank expert does kill him, but as long as they hide in the God of Death's Glun State or an other race state, the Narcissus Federation will be helpless to do anything about them.

Bardini is just the 6th successor. If he wants to be the 1st successor, the support of a Legend rank powerhouse is absolutely vital.

Yang Feng spoke with a forthright smile: "Recently, other state's monsters have been very active in the Narcissus Federation. I plan to join the Inquisition to tear those monsters into pieces, and then become part of the Inquisition's Big Three."

When Bardini heard that, his complexion changed dramatically, and he became even more respectful. But he didn't dare to continue to pursue a close relationship with Yang Feng.

The Inquisition is the most notorious organization in the Church of the Goddess of Love. Every year, the Inquisition burns not a small number of heretics at the stake. The infamous name of the Inquisition can make children cry.

Under Katrina's secret instigation, the relationship of the Ice Blue State, the Scarlet Flame State, and the Norton State with the Narcissus Federation has become increasingly antagonistic, and many experts of the three states have sneaked into the Narcissus Federation, setting off billows.

The Church of the Goddess of Love fought countless battles with the experts of the three states, and even lost three Legend rank powerhouses in the process. Many experts of the Inquisition have also died.

Under these circumstances, Yang Feng will definitely be put in an important position when he joins the Inquisition.

But the Inquisitions's Big Three are cutthroats among cutthroats. If Bardini is too close to Yang Feng, and gets implicated, it will be troublesome.

The Holy Fairy City is the capital of the Narcissus Federation. It was in the Holy Fairy City that the Goddess of Love has ascended to godhood and become a true god. 3,000 years ago, the Goddess of Love has established her own divine country and stabilized her position and rule.

Although the Goddess of Love is only a feeble divine force rank god, but within her divine country, even weak divine force rank gods will be suppressed. Before she had a divine country, the Goddess of Love may still die in one-on-one fight against a weak divine force rank god. But now as long as she doesn't leave her divine country, she is invincible in the Andrak Plane.

"In this world, humans are so good-looking! Or is this the effect of the Green Flower Immortal Spirit Method?"

When he entered the Holy Fairy City, Yang Feng looked around and found out that most of the humans here are very good-looking. The Ole character Yang Feng has changed into is tall and handsome. But in the Holy Fairy City, he looks ordinary.

While admiring the scenery, Yang Feng made a beeline for the Inquisition.

The Inquisition of the Church of the Goddess of Love is located in a relatively remote place west of the Holy Fairy City. The Inquisition is notorious, and the land around it is barren as no merchant dares to open shop there.

Recently, the Inquisition has fought countless times with experts of the three states, and has incurred many casualties. Therefore, it is now publicly recruiting experts of the Narcissus Federation.

Although the Inquisition has a notorious reputation, but it offers very good treatment. Additionally, after joining the Inquisition, you can get judicial immunity. This recruitment has attracted countless experts from the Narcissus Federation.

As soon as Yang Feng arrived at the recruitment site, he saw more than 1,000 experts waiting to be screened.

“5th level of the Green Flower Immortal Spirit Method! Next!” A handsome Inquisition expert with a wicked aura looked indifferently at the experts present and said flatly.

One after another, experts coming from all over of the Narcissus Federation operated the Green Flower Immortal Spirit Method, and green light lit up.

Within the Narcissus Federation, the Green Flower Immortal Spirit Method is the most powerful method. The first 10 levels are very easy to cultivate, and can help people practice cultivation until the junior Great Warlock rank. As for the last five levels, they are controlled by the Narcissus Federation. Only by joining the Inquisition or serving the aristocrats can you obtain them.

Originally, there were other secret methods in the Narcissus Federation, but most of them were incomplete, and could not be cultivated until the Great Warlock realm. Moreover, the Green Flower Immortal Spirit Method can be obtained everywhere. This is why few people in the Narcissus Federation practice other secret methods.

A girl with several sword scars on her face, a sexy body, a grim expression, and short hair came forward and released bright green light of the 9th level.

The eyes of the Inquisition expert showed emotion: “9th level of the Green Flower Immortal Spirit Method! Not bad. What’s your name?”

The short-haired girl replied grimly: “I am Rayleigh!”

“To reach the 9th level, that’s impressive.”

“So young, she must be really talented!”

“...”

The eyes of many experts shimmered with envy and jealousy.

Most of the people present only practiced the Green Flower Immortal Spirit Method to the 4th or 5th level, which is equivalent to the level-2 Warlock rank. The 9th level represents a pinnacle level-3 Warlock rank powerhouse. Even within the Inquisition, they are experts.

The Inquisition expert said indifferently: “Next.”

Yang Feng took a step forward, and radiant green light of the 10th level burst out from his body.

“Legend! A Legend rank powerhouse!”

“This, this is a Legend rank powerhouse!”

“...”

A commotion erupted, and everyone looked at Yang Feng with excitement and shock in their eyes.

There are fewer than 20 Legend rank powerhouses in the Narcissus Federation, and each one of them is a bigwig whom ordinary people cannot meet easily. Now that a Legend rank powerhouse appeared next to them, it naturally caused a huge sensation.

## Chapter 567 – Siege

The Inquisition expert was also moved: “Legend rank powerhouse!”

Although there are countless experts in the Inquisition, but the number of Legend rank powerhouses doesn’t exceed five people.

For such a powerhouse to want to join the Inquisition, it left the Inquisition expert somewhat at a loss of what to do. Legend rank powerhouses are first-rate powerhouses in the Narcissus Federation. For Legend rank powerhouses to join the Inquisition, only the pope of the Church of the Goddess of Love or the Inquisition’s Big Three can negotiate with them. Besides, this is the first time that a Legend rank powerhouse took the initiative to join the Inquisition.

“I am Canas. What’s your name? Why haven’t I seen you before?” A tall, blond, handsome man wearing a black gown has appeared at some point in time. He walked over unhurriedly, stared at Yang Feng with a peculiar gleam in his eyes, and chuckled.

The complexion of the Inquisition expert changed greatly, and he bowed and uttered respectfully: “Greetings, Lord Magistrate!”

As if he hasn’t heard anything, Canas’s gaze full of curiosity fell on Yang Feng.

A crude expression on his face, licking his lips, Yang Feng acted the part of a boorish Legend rank expert: “My name is Ole. I’ve been cultivating bitterly in the Boron Mountain for 30 years before I reached the 10th level of the Green Flower Immortal Spirit Method. I heard that by joining the Inquisition, I can act tyrannically, and can get the later volumes of the Green Flower Immortal Spirit Method as well as cultivation resources. So here I am. I may not be good at much, but I’m pretty good at killing.”

Yang Feng is aware that the Demon Hunting Division has already locked on this plane. Sparing no cost, the forces in the Great Cloud Dynasty who want to kill him will send countless experts to after him.

By joining the Inquisition, Yang Feng can use the Inquisition’s network to collect the resources he needed. At the same time, he’ll wait for an opportunity to use the Andrak Plane’s forces to strike at his pursuers.

The Cangzhi Plane’s human Warlocks are really formidable. Just the Demon Hunting Division alone is enough to quell all resistance of the Andrak Plane.

However, in the Andrak plane, the Cangzhi Plane’s human Warlocks will be suppressed. Even Infinity Warlocks will be suppressed to the Glorious Sun Warlock rank. In this plane, even if an Infinity Warlock comes, Yang Feng will dare to attack them.

But Warlock secret methods are queer. In order to prevent others from seeing through him, Yang Feng can only disguise himself as a coarse, greedy, and lustful character.

Canas’s eyes flashed with enigmatic light, and he spoke with a smile of appreciation: “Ole, the Inquisition needs people like you. As long as you work for the Inquisition, you can get virtually

everything you want! I just received a big mission, and now you all are my subordinates. As long as you perform well, women, money, and power will all be yours!”

Canas tossed a thin secret book flying towards Yang Feng: “This is the 11th level of the Green Flower Immortal Spirit Method.”

Yang Feng took the secret book, revealed a look of excitement, and uttered: “Thank you, Sir!”

In the square, more than 1,000 experts watched the secret book in Yang Feng’s hand with envy in their eyes. Their heads filled with the glory and riches promised by Canas, the experts were quickly put under his command.

Yang Feng and Rayleigh were both given a position.

A few days later, in front of a vast aristocratic manor.

Canas glanced at the aristocratic manor and ordered coldly: “Kill everyone inside. You are free to loot the things inside as you wish.”

The eyes of the more than 1,000 cutthroats turned red at once, and they revealed looks of excitement and rushed towards the aristocratic manor.

As soon as the cutthroats broke into the manor, they killed anyone they saw. Before long, the manor was bathed in blood.

Mixed in with the cutthroats, Yang Feng’s face was expressionless. He scanned the area with his soul force immigrating spirit force and grasped the situation of the entire estate.

Above the ground, the majority of people are ordinary humans. Below the ground, there are more than 300 other race soldiers hiding.

“The Inquisition’s black dogs!”

“Dammit, those black dogs are here!”

“...”

After the 1,000 odd cutthroats rushed into the manor, bellows and the sounds of fighting resounded.

Ice Blue State’s soldiers with long silver hair and sparkling and limpid body, Glun State’s soldiers that resembled humans enveloped in raging flames, and Norton State’s soldiers about two meters tall with the head of a wolf and the body of a human rushed out from the manor and engaged with the Narcissus Federation’s cutthroats.

The Goddess of Ice is an Ice Fairy made of pure ice elemental particles. Ice Fairies are descendants of icy extraordinary life forms and humans. The God of Fire is a Magma Giant, and his people are magma life forms with and without human bloodline. The God of War is a Moyindu Wolf, and his people are descendants of Moyindu Wolves and humans.

The Cangzhi Plane’s human Warlocks have suppressed countless planes, and warped the planes’ aesthetics. Many extraordinary life forms take human form, copulate with humans, and give birth to many strange species.

On an individual basis, these other race warriors are a notch stronger than human soldiers. However, these other race soldiers are divided into three uncoordinated groups that don't trust each other. Therefore, the human soldiers are beating them back.

"Canas, you dare to come and cause me trouble! You shall die today!" An arrogant voice resounded in the manor, and a three-meter-tall man with the outward appearance not too different from that of a human covered in flame runes, bathed in flames stepped out slowly.

When the man appeared, flames flickered, and 10 plus humans beside him turned into fireballs and issued miserable screams. The man exuded pinnacle Legend rank aura.

"Canas, surrender or die!" A Moyindu Wolf with a wolf head and a human body appeared behind Canas and blocked his path of retreat.

"Canas, the Inquisition has abandoned you. Join us, and you can live!" Accompanied by bright laughter, a beautiful woman with silver hair, porcelain skin, and a white rune on the forehead came out of the shadows and blocked behind Canas.

Canas narrowed his eyes. A chill surged in his heart, and he said coldly: "Bougouni, Cerutti, Kafina! Who sold me out?"

Canas's raid on the mansion was a secret. Prior to this, all information was completely blocked by him. No one knew about his whereabouts except for a few high-level officials in the Inquisition. The information he got from the Inquisition stated that there was only an expert who has just entered the Legend rank in the manor. But there turned out to be three Legend rank experts, which is obviously problematic.

The three Legend rank experts around Canas are each a bit stronger than him. With the three joining forces, his path of escape is almost completely sealed. Despite how arrogant he is, he still can't help but despair.

A terrifying aura erupted from a shadow, and a dazzling sword ray slashed towards the Moyindu Wolf Cerutti. Caught of guard, the Moyindu Wolf Cerutti was sliced in two at the waist.

The Green Flower Immortal Spirit Method's green ribbons suddenly stabbed at the Lava Giant Bougouni.

Runes appeared on the green ribbons and suppressed the flame shield around Bougouni and sealed the fire force inside him.

Bougouni's face fell. He operated his innate ability, and violent flames erupted instantly, turning him into a huge man of fire.

Under Yang Feng's exquisite control, the green ribbons suddenly combined into one, pierced through the flames, and stabbed Bougouni 10 centimeters below his heart.

A green rune suddenly formed, and Bougouni felt like something has severed the power inside him, and trembled slightly.

Enveloped by fire force, the green rune crumbled gradually.

But suddenly, a dazzling sword ray severed Bougouni's head, and blood splashed.

Yang Feng stepped out of the shadows and glanced at Kafina, and then blurred into motion, turned into a stream of light, and rushed towards her.

Yang Feng operated the Green Flower Immortal Spirit Method, and green ribbons shot out from his hand and stabbed towards Kafina from different angles like vipers.

Kafina's face flickered, and she erupted with ice force and changed into an ice storm that swept towards the green ribbons.

Swept by the violent ice storm, numerous green ribbons were frozen in ice. At the same time, Yang Feng was also frozen in ice.

"Ha-ha, sweetie, I'm here!" A hearty laughter sounded behind Kafina, and a fist slammed into her abdomen. Suddenly, numerous green ribbons shot out, entangled and stabbed Kafina, and sealed her power.

## **Chapter 568 – Kafina**

Canas stared at Yang Feng's back, a look of shock in his eyes: "This guy is so strong and ferocious!"

Canas has practiced the Green Flower Immortal Spirit Method to the 12th level already, yet he might not be Kafina's opponent. However, Yang Feng who has reached the 10th level of the Green Flower Immortal Spirit Method has defeated Bougouni, Cerutti, and Kafina. Canas was stupefied, unable to believe his eyes.

Hugging Kafina who has her power sealed, Yang Feng laughed wildly and planted a deep kiss on her lips: "Ha-ha, sweetie, starting today, you are my woman."

Ashamed and angered, Kafina bit Yang Feng's tongue.

Green light shone, and Kafina felt pain from her teeth. Blood trickled down her chin and dropped on the ground.

Yang Feng smiled boorishly: "You're a feisty one, I like it!"

With his good acting skills, Yang Feng really looked like a boorish fellow.

A feeling of powerlessness surged inside her, and Kafina shed tears, filled with grievance. The three of them were supposed to besiege and eliminate Canas, one of the Inquisition's Big Three. But then Yang Feng appeared, killed Bougouni and Cerutti, and even captured her. Of course she felt wronged.

Seeing Yang Feng acting so frivolously with the captive, Canas was a little speechless, but after taking a deep look at Kafina, a gleam of greed streaked past his eyes.

Kafina is a Legend rank expert of the Ice Blue State. She is extremely powerful and beautiful, and is said to have the bloodline of the Goddess of Ice.

With her astonishing origins and amazing beauty, this Legend rank girl has tempted Canas, one of the Inquisition's Big Three who has had hundreds of women.

“Ole, this Kafina is from another race...” Canas has just walked over and said a few words, when he felt a ferocious killing intent rise from Yang Feng. He saw that Yang Feng who has been smiling just a moment ago has become expressionless, and a pair of eyes filled with frigid killing intent glared at him as if the eyes of a beast eyeing its pray.

Canas immediately altered his speech: “This Kafina is from another race. Now that she has become your woman, you must restrain her. If she offends the Inquisition’s Judge, I won’t be able to help you.”

In the Inquisition, there is a total of three bigwigs called the Big Three. They are the Magistrate, the Warden, and the Judge. Among the Big Three, the Judge has the highest status and greatest authority.

Yang Feng restrained his killing intent and said carelessly: “I got it!”

There was a flash of anger in Canas eyes, but his face remained calm. Each Legend rank powerhouse has bad temper, and he is well aware of this. However, he is one of the Inquisition’s Big Three, yet Yang Feng, his subordinate, has slighted him just like that. It naturally made him angry, and the gratitude he felt for Yang Feng saving him disappeared without a trace.

However, Yang Feng did defeat three Legend rank powerhouses, and so Canas was afraid that Yang Feng would fall out with him and kill him.

Legend rank experts like Yang Feng who have no concerns in the world are the most dreadful opponents. After killing someone, they can just slip away and go to another state. If they don’t strive for progress, a Legend rank expert can live comfortably anywhere.

Without the suppression of the three Legend rank experts, the 300 plus other race soldiers in the manor were wiped out by the more than 1,000 human soldiers recruited by Canas. But in the process, more than 100 human soldiers have died and more than 200 sustained injuries.

After this baptism of blood, the cutthroats coming from all over the Narcissus Federation became more valiant.

When they returned to the Inquisition, they were rewarded according to their merit. Because he killed two Legend rank experts, Yang Feng was directly promoted to commander. At the same time, the news that he captured a Legend rank Ice Fairy spread widely in the inquisition, which aroused the jealousy of many people.

In a luxurious villa, Yang Feng reclining on a sofa was flipping through the exchange catalog.

With an unearthly temperament, the Ice Fairy Kafina wearing a collar and a black and white lace maid costume sat in Yang Feng’s embrace and served him, all the while gnashing her teeth.

Yang Feng put his hand into Kafina’s clothes and mused: “With my current merit points, I can only exchanged for 10 grams of Bamhagra Stone at most. That’s far from enough to promote the stronghold to level-3. I don’t have the time to patiently amass merit points!”

If it wasn’t for the threat coming from the Demon Hunting Division and the Other Plane Development Division, Yang Feng would just steadily accumulate merit points, and then exchange them for Bamhagra Stone. Although this approach is slow, but it is safer.

“Abominable fiend, I will never give in!” Kafina’s pretty face flushed, her beautiful eyes surged with humiliation, and her lovely body trembled. She clenched her white teeth gloomily and said in her heart.

Yang Feng muttered for a while, and then made up his mind: “It looks like I have to start the backup plan!”

Bang! Accompanied by a loud noise, the door was knocked open, and a tall, handsome man wearing a black Inquisition costume strode in.

12 experts dressed in Inquisition costumes walked in after the man in black and stopped behind him.

The man in black took a look at Kafina, and his eyes flashed with amazement, and then he yelled at Yang Feng: “I am Randt. Ore, although you captured the Ice Fairy, but she is the spoils of war of the Inquisition. Hand her over, or I will arrest you on charges of embezzlement!”

Yang Feng glanced at Randt and his party, and his eyes shimmered with contempt. He sneered: “Arrest me? With just you?”

The 12 Inquisition experts watched Yang Feng with fear in their eyes. As an expert who killed two Legend rank powerhouses, Yang Feng isn’t someone they can contend against.

Randt’s face fell, and he said frigidly, unafraid: “This is an order of Lord Judge. You want to disobey an order of Lord Judge, and be labeled as a heretic?”

Hearing those words, the 12 Inquisition experts regained some confidence, and stared coldly at Yang Feng.

Among the Inquisition’s Big Three, the Judge is the number one bigwig. He is the one in charge of the Inquisition, and what he says goes. Even Legend rank powerhouses have died at his hands.

Yang Feng showed a cold smile: “This is an order of the Judge? The Judge dares to give such an order? From today on, he is no longer be the Judge. I am the new Judge.”

When Randt heard that, his face changed dramatically, fear welled up inside him, and he barked: “How brazen! Do you want to betray the Inquisition?”

“Die!”

A green ribbon sliced off Randt’s head, and a copious amount of blood splashed on the ground.

Seeing this scene, the 12 Inquisition experts inhaled a breath of cold air and shivered. They realized that there is going to be great event today.

“The Judge is a disguised heretic. Today, I am going to kill that heretic! Will you follow me, or will you die here as heretics? You only have three seconds to decide!” Legend rank might spread from Yang Feng, and as if a fierce beast that has awoken, he stared coldly at the 12 experts and spoke flatly.

The 12 experts broke out in cold sweat from their back. Caught between two Legend rank experts, they didn’t know whom to choose. If they chose the Judge, then they’ll die here and now. If they chose Yang Feng, then if Yang Feng loses, they and even their family will be labeled as heretics and burned alive.

“Ole, I will never conspire with a heretic!” An Inquisition expert roared, and then green light shot out and beheaded him.

Overflowing with killing intent, Yang Feng stated chilly: “It seems that you heretics are stubborn. So per the rules of the Inquisition, I have no choice but kill you first, and then send your heretic family to reunite with you in the Netherworld.”

An expert knelt on the ground and said respectfully: “I, Boll, want to follow you and fight heretics, Lord Ole! I am willing to dedicate everything to you!”

Another Inquisition expert also knelt on the ground and said respectfully: “I, Thrall, am also willing to follow you and fight heretics, Lord Ore!”

The rest still hesitated, a look of struggle in their eyes.

Bright green light flickered, and the remaining nine Inquisition experts were chopped into pieces.

Seeing this scene, Boll and Thrall were both frightened and elated. If they were any slower, they would be lying on the ground in pieces right now.

“Ole, do you want to betray the Inquisition?” Yang Feng and his party have just walked out of the villa, when a tall, handsome, fierce-looking Legend rank powerhouse called Alak along with more than 100 experts blocked in front of Yang Feng and uttered with a fierce smile.

Alak is a confidant of the Judge, and has tyrannical strength. He has previously killed two Legend rank powerhouses. In the Inquisition, he is second only to the Big Three.

Yang Feng sneered: “Alak, you heretic, surrender now, and you may still live. Otherwise, after I catch you, I will burn you at the stake!”

## **Chapter 569 – Eliminating the Judge**

Alak was angered by what he heard. As the one who has been always threatening others, he was filled with killing intent and ire now that someone threatened him.

A fierce gleam in his eyes, Alak uttered coldly: “Ole, once I catch you, I’ll make sure to give you a taste of all the punishments at the disposal of the Inquisition.”

Alak’s words haven’t fallen yet, when Yang Feng blurred into motion and appeared in front of the former. Green ribbons suddenly formed into a spear that stabbed at Alak.

Alak’s complexion suddenly changed dramatically. He surged with green radiance, and his physical constitution strengthened greatly.

Yang Feng punched out, dazzling green light formed a rune, and Alak was blasted away, and then fell on the ground.

“Protect Sir! Kill the traitor!” An Inquisition expert roared.

With a flash of green light, the expert turned into countless pieces that scattered on the ground.

A dozen plus of Alak's trusted aids radiated green light and lunged at Yang Feng. But as soon as they moved, green light flashed, and they exploded into pieces.

Scared witless, the other Inquisition experts shivered, not daring to move.

Yang Feng took a stepped forward and stepped on Alak's head. Looking at Alak in disdain as if he was an insect, he said coldly: "Alak, die or become my dog, chose one. If you continue to be loyal to that heretic Judge, then I will kill you here and now!"

With that, Yang Feng released force from his foot and stamped Alak's head into the ground, and blood sprayed about.

"No, I don't want to die!" In pain, overwhelmed by the fear of death, Alak trembled and shouted at the top of his lungs, filled with humiliation: "Woof!"

Apart from the brainwashed fanatics of the church, most of the Inquisition experts are ruffians recruited from all over the Narcissus Federation.

Alak is a Legend rank expert who was enticed by the promise of glory, wealth, and cultivation resources and was recruited by the Inquisition. Now faced with the threat of death, Alak can only humiliate himself and become Yang Feng's dog.

Seeing this scene, the Inquisition experts felt a chill in their heart.

As ruffians who came from all over the Narcissus Federation, the Inquisition experts are extremely vicious. But seeing Yang Feng who is 10 times more vicious than them, fear surged inside them.

Alak climbed up slowly. His face is filled with lacerations, making him look sinister. His eyes flickered with a peculiar glint, and endless malice swiveled in his heart.

Alak looked up at Yang Feng who had an enigmatic smile on his face, thought of the crushing defeat just now, and felt a chill in his heart. With his keen intuition, he could clearly feel that he will die if he acts without thinking.

His mind revolved lightning fast, and then Alak knelt on one knee before Yang Feng and spoke respectfully: "I, Alak, am willing to serve you, Sir!"

Yang Feng said flatly: "Take your men and follow me! Kill anyone who resists!"

Alak responded deferentially: "Yes! Sir!"

Alak turned around, swept the dozens of Inquisition experts with his cold gaze, and said with a fierce smile: "You all saw what happened. Follow us to fight the heretic Judge, and you'll live. Otherwise, you'll die."

23 experts hesitated before shouting: "I am willing to follow you and fight the heretic, Sir!"

"If you don't answer to, then go to hell!" Alak's eyes flashed fiercely, and he took out a greatsword engraved with runes and rushed into the midst of the Inquisition experts unwilling to surrender.

As is a wolf who has lunged at a flock of sheep, Alak's sword flashed and claimed the lives of the experts.

The Inquisition experts resisted desperately, but no one could block Alak's sword. After a dozen breaths of time, the remaining experts were killed to a man.

Alak is the number four expert in the Inquisition.

Yang Feng glanced at Alak, hugged Kafina, and strode towards the depths of the Inquisition.

Suddenly, the sounds fighting rang again.

In the deepest place of the Inquisition, there is an imposing and magnificent palace 100 meters tall.

In the palace, a man dressed in a black gown who looked like the ruler of darkness sat on the throne. This man is the number one bigwig of the Inquisition, the Judge.

The screams ringing outside the palace were getting closer and closer, and finally arrived before the palace.

Hugging Kafina with one hand, Yang Feng stepped into the palace.

Behind Yang Feng, there are more than 100 Inquisition experts headed by Alak, all bathed in blood. Their eyes are shot with blood, and radiate crazed killing intent.

"Alak, to betray me, how brave of you!" The Judge glanced at Alak indifferently, and a fearsome aura enveloped Alak.

Suddenly, Alak trembled, dread flickered in his eyes, and he took several steps back unconsciously.

The Judge is the number one expert in the Inquisition, an expert infinitesimally close to the demigod rank. Reportedly, he already possesses demigod rank strength.

In the face of the Judge, Alak didn't even have the heart to resist, trembling continuously. If not for the fact that Yang Feng was also unfathomable, he might have already stabbed him in the back.

A large number of experts rushed in from both sides of the hall and glared at Yang Feng and his team. Among them, there are even two legend Rank experts.

Whether in terms of numbers or strength, Yang Feng and his team are at a disadvantage.

Yang Feng tossed Kafina aside, and radiated dazzling green light of the 12th level.

"The 12th level of the Green Flower Immortal Spirit Method?" The Judge's eyes flashed with ridicule, and he sneered and released black brilliance. Countless distorted faces appeared in the black brilliance and issued silent howls.

There was a flash of surprise in Yang Feng's eyes: "The 12th level of a mutated Green Flower Immortal Spirit Method!"

The Judge was unable to cultivate the 13th level of the Green Flower Immortal Spirit Method and reach the demigod realm, so he took another path and used the souls and resentment of countless convicts to merge them into the Green Flower Immortal Spirit Method, which led to this strange state. His might now exceeds the power of the 12th level of the Green Flower Immortal Spirit Method by far.

The Judge looked coldly at Yang Feng and company, took out a black crown of bones engraved with numerous seals, and put it on.

Black gas poured into the Judge from the crown of bones and pushed his strength to the junior demigod realm.

Alak's face changed greatly, his body trembled, and his eyes flashed with fear: "Demigod, this is demigod rank power!"

"Demigod rank power!" Yang Feng frowned slightly, countless runes streaked past in his eyes, and the green radiance emanating from him changed into that of the 13th level.

While using the alias Ole, Yang Feng could not use world force. Since this is the case, then only a demigod can contend against another demigod.

Alak was stupefied, unable to believe his eyes: "Demigod! He has promoted to a demigod?"

Kafina's pretty eyes radiated astonishment, and she exclaimed: "Demigod, how is it possible? He has previously cultivated the Green Flower Immortal Spirit Method to the 10th level, so how did he suddenly reach the 13th level?"

"Demigod! How can this be?" The Judge was stunned when he saw this. Eyes shot with blood, body trembling, he almost fell into madness.

In the Narcissus Federation, there is just one demigod standing guard. The Judge has been working hard for many years, yet he has been trapped in the 12th level of the Green Flower Immortal Spirit Method, unable to advance by an inch. Only by relying on a treasure can he display demigod rank power for a short period of time.

Yet Yang Feng easily broke into the demigod realm in front of his eyes, making the Judge's outlook on life seem to collapse.

Yang Feng took a step forward and appeared in front of the Judge like a ghost. Taking advantage of the moment when the Judge was in a state of shock, Yang Feng punched him in the abdomen.

With a blare, the aloof Judge was blasted away, and then hit a wall at once. Numerous green radiances shone on the Judge's abdomen and sealed his power completely.

Yang Feng beckoned with his hand, and a green ribbon took the demigod grade Crown of Evil Spirit from the Judge. He sat on the Judge's throne, looked grimly at the surrounding experts, and said with a cold smile: "From today on, I am the new Judge. Come forward if you disagree!"

Silence rained in the palace, and many of the experts could not believe their eyes. Seeing the Judge who was a virtually invincible figure in their eyes being suppressed by Yang Feng shocked them to the extreme. Neither willing to yield to Yang Feng, nor wanting to die, they fell into a state of silence.

## **Chapter 570 – Pope of the Church of the Goddess of Love**

“Her Holiness the Pope is here!” A voice sounded outside the hall, and a tall, beautiful woman with an extraordinary temperament wearing a crown and a set of clothing inlaid with brightly-shining jewelry stepped into the hall.

“Greetings, Your Holiness!” In the hall, the Inquisition’s experts bowed respectfully to the beautiful woman.

The position of Pope of the Church of the Goddess of Love has been held by mesmerizing women with extraordinary temperament throughout the ages.

Two Legend rank experts guarded in front of the Pope and stared coldly at Yang Feng.

Frigid killing intent surged from all over and locked on Yang Feng. As long as the Pope gave the order, all the experts present will attack Yang Feng with reckless abandon.

“It’s over!” Alak looked at the surrounding experts with despair in his eyes.

The eyes of the more than 100 experts behind Alak also flickered with despair. The Pope can use demigod armaments and display demigod rank battle prowess, and coupled with the Inquisition’s countless experts working together, even a demigod rank expert can be suppressed.

Yang Feng got up from the throne, and the green light around him disappeared at once. He came to before the Pope, bowed deeply, and uttered: “Greetings, Your Holiness. The Judge has gone against the law and colluded with heretics. The evidence is conclusive. For the sake of the church, I, Ole, stepped in to set things right and eliminated the Judge. I ask that you forgive me, Your Holiness!”

When the Inquisition experts heard Yang Feng spit lies as if they were truths, they revealed angry looks and glared at Yang Feng.

The Pope spoke lightly: “Colluding with heretics, the Judge’s crimes cannot be forgiven. Ole, by disposing of the rebel, you rendered an outstanding contribution. I now declare you the new Judge!”

Dumbstruck, the experts in the hall could not believe their ears.

A strange feeling surged in the hearts of some people from the Inquisition’s upper echelon, and they looked at the Pope. Next, they lowered their head, and coldness welled up inside them.

Although the Inquisition is part of the Church of the Goddess of Love, but the Judge was extremely powerful and ran the Inquisition by himself. For the church to mobilize the Inquisition, it was often necessary to compromise with the Judge.

As soon as the Judge died, his murderer Yang Feng was appointed as the new Judge. This development left the Inquisition’s experts who have soaked in conspiracies and machinations feel a chill inside them.

Alak immediately greeted Yang Feng: “Greeting, Sir Judge!”

“Greetings, Sir Judge!”

Voices echoed in the hall as virtually all Inquisition experts greeted Yang Feng respectfully.

As a demigod rank expert and with the Pope's support, Yang Feng's appointment as the Inquisition's Judge is perfectly legitimate. No matter how unwilling the former Judge's diehard followers are, but they can only watch in despair as Yang Feng assumes the position of Judge.

At night, in a luxurious villa in the Inquisition, Yang Feng sitting on a sofa covered in white tiger hide carefully looked through the record of treasures and materials stored in the Inquisition.

Kneel sitting beside him, Kafina served Yang Feng respectfully. He is now the new Judge. Besides, he is a demigod rank powerhouse. She no longer has the intention of resisting him.

Yang Feng smiled: "As expect the of the Inquisition, the amount of Bamhagra Stone it has in stock is enough to build three level-3 Large Matter and Energy Converters."

Large Matter and Energy Converter is one of the core technologies of xizu. In theory, as long as there is sufficient energy, Large Matter and Energy Converters can create anything.

With a level-3 Large Matter and Energy Converter Built, Bamhagra Stone can be synthesized. Of course, this requires a large amount of energy.

Yang Feng secretly built countless nuclear power plants, geothermal power plants, and other power plants in the Turandot Subcontinent, the Fuso Subcontinent, and the Feisuo Plane. With these power plants, his energy reserves are vast, and within a short period of time, there is no need to worry about energy.

There was a flash of killing intent in Yang Feng's eyes, and he mused: "When people from the Demon Hunting Division and the Other Plane Development Division come, I will give them hell!"

Yang Feng was framed in the Cloud Capital. Where it not for his preparations, he would have been captured or killed by now. With this, the feeling of identifying himself with the Great Cloud Dynasty has completely disappeared.

"I have the Battle Demon Sect behind me. According to reason, even the Tai Yi Sect cannot frame me in the Cloud Capital." Yang Feng frowned and kept thinking. But no matter what, he could not think of a force capable of framing a Ten Great Sects peerless genius in the Cloud Capital.

The Tai Yi Sect is known as the number one sect in the Great Cloud Dynasty, but not even it can frame a genius of the Battle Demon Sect in the Cloud Capital.

Yang Feng killed a Moonlight Warlock from the Jiang family and extracted their memories from his severed head, but it didn't bring him much useful information. He just knows that the Jiang family has participated in his frame-up.

Yang Feng contemplated carefully and eliminated the forces who don't have what it takes to pull this off, and then a hair-raising behemoth suddenly surfaced: "No, there is another force in the Cloud Capital, and that is the royal family! The Great Cloud Dynasty Royal Family!"

In the Great Cloud Dynasty, the most powerful force is the royal family. Unless the Ten Great Sects and Eight Great Families join forces, they won't be able to overpower the royal family. On their own, the sects and families aren't a match for the royal family.

The Cloud Capital is the center of the great Cloud Dynasty, and is firmly controlled by the royal family. Other forces can infiltrate only a small part of it.

Yang Feng frowned and sank into his thoughts: "Why does the royal family want to get rid of me? Why do they dare to get rid of me?"

The Battle Demon Sect is a Ten Great Sects sect, and it is extremely powerful. Numerous experts from the Battle Demon Sect are active in various areas of the Imperial Court. Even the royal family should be somewhat apprehensive of such a powerful force.

With Yang Feng's background, no one should attack him lightly. The frame-up orchestrated by the royal family puzzled him. He has a vague feeling that there is a huge storm brewing.

Just then, there was a knock on the door.

Yang Feng said: "Come in!"

The door was pushed open, and a tall, sensual, and bewitching girl with dazzling gold hair exuding a seductive temperament strode in, a fragrance wafting out from her.

The bewitching girl walked up to Yang Feng, lifted Kafina's chin, and uttered with a sweet smile: "Dear, did you capture this little thing? She doesn't look half bad, I'm a little jealous."

Bewildered by the temperament of the bewitching girl, Kafina's eyes turned dull, and then her expression changed into that of incredulity, and she spoke in a trembling voice: "You are Her Holiness the Pope of the Church of the Goddess of Love."

Under Kafina's horrified gaze, the Pope smiled, sat in Yang Feng's embrace, looked at Yang Feng lovingly, and said gently: "Dear, I miss you so much!"

Yang Feng kissed the beautiful face of the Pope, smiled meaningfully, and exclaimed in admiration: "Katrina, you're amazing. To become the Pope of the church, you're really something else."

It is because the Pope of the Church of the Goddess of Love is Katrina that Yang Feng could dispose the Judge so unbridledly and take the position of Judge for himself.

Yang Feng asked: "Do you have complete control of the Apologetics?"

A church is fundamentally composed of the three forces – the Papacy, the Apologetics, and the Inquisition.

At times, when the Apologetics or the Inquisition are stronger, they can somewhat contend against the Papacy.

The former Judge was unruly, and fundamentally didn't take the young Pope Katrina seriously. But then Yang Feng stepped in, disposed of the Judge, and took advantage of Katrina's support to take control of the Inquisition.

If Katrina takes control of the Apologetics, then the entire Church of the Goddess of Love will be controlled by Yang Feng and her.

Katrina smiled sweetly: "Commander Gray of the Apologetics is a god's darling. Although he obeys my orders, but that's only true so long as my orders are reasonable. I have only about one-tenth of the Apologetics under my control.

Yang Feng spoke regretfully: "That's a pity."

Katrina smiled sweetly, saying: "Dear, this is just right. The Goddess of Love pays the church attention from time to time. If the church is completely under my control, she may pass down a divine decree and deprive me of my rights.

Unlike the Feisuo Plane, the Andrak Plane only has seven gods, and there are only two more slots to promote to godhood. Although the gods dwell in their divine country, but they still often cast their gaze on the secular world, and even tread the secular world using their true body from time to time.

If Katrina takes complete control of the church, then even the Goddess of Love will be disturbed!
