

MGE 581

Chapter 581 – In One Fell Swoop

In the Cangzhi Plane, but with his pinnacle Bright World Warlock rank cultivation base, even if Jiang Ziming was sneak-attacked, the star destroyer artillery would at most wound him seriously, and not kill him. However, in the Andrak Plane, suppressed by the plane origin will, Jiang Ziming's strength decreased sharply, and so he was killed by the star destroyer artillery.

After firing the star destroyer artillery, due to the reaction force, the Arc Battlestar exploded into countless pieces.

Yang Feng gazed at the disintegrated battlestar and uttered regretfully: "The burden on the Arc Battlestar is too great!"

36 Arc Battlestars hidden by Yang Feng lifted their clocking mode at once, and 36 beams of light instantly blasted into the warships of the expeditionary army that lost the protection of the Nine Gods Sky Wheel.

The warships of the Cangzhi Plane's expeditionary army exploded one after another, and countless Warlocks were swallowed up by the explosions.

A fierce flash in his eyes, the the God of War barked: "Kill! Kill them all!"

At once, the seven gods urged their divine legions, cast a variety of divine spells containing laws, and attacked the human Warlocks of the Cangzhi Plane.

"Things look bad, I should escape!" Dong Rui's face flickered, and he turned into a stream of light and flew towards the astral passageway that surged with ripples.

When Dong Rui fled, the Moonlight Warlocks who have been recruited by the Bai family turned and flee towards the astral passageway without hesitation.

Each Moonlight Warlock has a lifespan of thousands of years. Except for Moonlight Warlocks cultivated by the Bai family and the Jiang family, the other Moonlight Warlocks weren't willing to continue risking their life.

The Cangzhi Plane's human Warlocks were at a complete disadvantage to begin with. Now that one-third of Moonlight Warlocks escaped, the situation became even more precarious.

Burning divine force crystals, as if invincible beings, the seven gods tore apart the line of defense of the human Warlocks.

Countless divine soldiers advanced dauntlessly towards the human Warlocks and started fighting.

The seven gods destroyed one Warlock tower after another, and then let their divine soldiers fight with the human Warlock who lost the protection of the Warlock towers.

From the astral passageway, one warship after another flew out Every time a warship emerged, countless artillery fire fired by the 36 Battlestars blasted towards the Warlock tower aboard the warship.

Before the warships had time to cast their shields, Yang Feng smashed their Warlock tower, and then the warships were swarmed by divine soldiers.

Seeing things fall apart, the morale of the Other Plane Development Division elites finally began to collapse, and countless streams of light escaped towards the astral passageway.

The reinforcements from the Other Plane Development Division coming in from the astral passageway in a constant stream filled the astral passageway almost to the brim. The Great Warlocks who rushed into the astral passageway were crushed into pieces by the terrifying spatial forces.

Seeing that things are beyond salvageable, a lieutenant immediately shouted at Bai Tianxing, anxious: "Your Highness, flee! If you don't escape, you're going to be imprisoned."

Bai Tianxing spoke with a distressed look on his face: "Escape? Where can I escape to? The Other Plane Development Division's 1-million-elite-army was ruined in my hands. If I return to the Cangzhi Plane, my royal father won't let me off! My siblings won't miss this great opportunity either!"

1 million troops, equivalent to one-fifth of the Other Plane Development Division's elite power was lost in the Andrak Plane. Additionally, a Bright World Warlock died, and the reinforcements were ambushed.

Even though Bai Tianxing is a Prince, and has the Jiang family at his back, but he can hardly bear such disastrous losses.

The lieutenant barked: "Your Highness, as long as you're alive, everything is possible!"

Bai Tianxing's eyes flickered with light, and he gritted his teeth and said: "Yes, I want to live! Everything is possible so long as I'm alive!"

With that, Bai Tianxing turned into a dazzling ray that shot towards the astral passageway.

More than a dozen Moonlight Warlocks followed Bai Tianxing.

At this moment, due to the steady stream of reinforcements arriving from the astral passageway, only scattered human Warlocks can escape through the astral passageway. If they tried to escape aboard a warship, they would collide with a warship coming this way.

In the astral passageway, the collision between two warships spells a dead end, and may even lead to the collapse of the astral passageway. Only Moonlight Warlocks can escape the Astral World and find a way out via this passageway.

"No!"

"These sons of bitches have abandoned us!"

"Damn it. Bai Tianxing, that bastard, he abandoned us!"

"We're done for! These fuckers have discarded us!"

"I spent my whole life fighting for the Imperial Court, yet this is what I get in return! Starting today, I am no longer a member of the Great Cloud Dynasty!"

"..."

Furious voices rose from the warships, lights flashed, and Great Warlocks descended towards the surface world like raindrops.

The astral passageway in mid transmission isn't something that Great Warlocks can cross. In their despair, they found a path to survival, that is, to infiltrate the Andrak Plane.

These Great Warlocks are elites who have undergone countless training, and experienced countless battles. Once they have infiltrated the Andrak Plane, then no matter how harsh the environment is, they can survive.

The 36 Arc Battlestars shone brightly, and a rain of light showered the Great Warlock elites, killing them one by one.

Ka-boom! Ka-boom! The sound of great explosions rang without end. When the Cangzhi Plane's warships flew out of the astral passageway, they were besieged by gods who burned divine force crystals.

The seven gods won't permit the Cangzhi Plane's human Warlocks to gain a foothold in the Andrak Plane again. They are all aware that in terms of strength, the Andrak Plane is far from being an opponent of the Cangzhi Plane. Only by making sure that the Cangzhi Plane's experts don't get a foothold in the Andrak Plane, and by preventing them from studying the plane origin will, can they control the Andrak Plane forever.

After the 83rd warship flew in, no more warships entered the Andrak Plane through the astral passageway. Clearly, the lucky survivors have told everything that transcribed in the Andrak Plane to the upper echelon of the reinforcements.

"Open fire!" As the seven gods slayed the remaining human Warlocks, Yang Feng issued a callous order.

Equipped with star destroyer artillery, the star destroyer artillery of five Arc Battlestars shone brightly and fired five dazzling pillars of light that slammed into the God of War, the God of Death, the God of Murder, the God of Justice, and the God of Fire.

"Dammit!"

"Yang Feng, you wretch!"

"Son of a bitch!"

"..."

Amid frantic roars, the five gods were instantly swallowed and pulverized by the dazzling pillars of light, leaving only five godheads behind.

The void twisted, and five Void Assassins emerged, grabbed the five godheads, and disappeared.

At almost the same time, two Ark Battlestar primary artillery beams hit the lower body of the Goddess of Ice and the Goddess of Love and dealt great damage to the two goddesses.

"Yang Feng, you damn scoundrel!"

"Yang Feng, I will never forgive you!"

Following two furious shouts, the remaining upper body of the two goddesses turned into two streams of light that flew into their respective divine countries.

Sitting aboard a warship, Yang Feng's eyes shimmered with regret: "Unfortunately, I only modified six star destroyer artilleries. If there were more star destroyer artilleries, I would be able to take care of these gods in one fell swoop."

After the Cangzhi Plane's expeditionary army was dealt with, the seven gods of the Andrak Plane would naturally want to expel Yang Feng from the plane next. But Yang Feng is set on taking the Andrak Plane as one of his bases. Both sides don't see eye to eye. Therefore, before the human Warlocks were completely eradicated, Yang Feng sneak-attacked the seven gods and killed five of them thanks to the star destroyer artilleries.

Yang Feng ordered coldly: "Now is the time to end this! Annihilate them!"

In the surface world, mountains located far away from human habitats split open, and a flood of steel composed of Starry Sky Rippers and other 2nd generation robots soared into the sky and flew towards the seven divine legions and the human Warlocks who have already lost the power to resist.

Among the seven divine legions, the divine legions of the Goddess of Love and the Goddess of Ice retreated and fled towards the respective divine countries.

The other five divine legions rushed towards the mechanical legion.

Before the two sides collided, the 36 Arc Battlestars fired numerous beams that slammed into the five divine legions, blasting thousands of divine soldiers into fragments.

Chapter 582 – Divine Countries Die

Now that the five gods died, their divine soldiers can no longer be revived. Numbering 1 million, the divine soldiers were torn into pieces by the fierce artillery fire of the battlestars.

Engines booming, the flood of steel formed from Starry Sky Rippers and other 2nd generation robots plunged into the middle of the divine legions.

Most of the divine soldiers are experts at the level-3 Warlock rank and below. Only about 100,000 experts are at Legend rank and above. As soon as the robots rushed into the divine legions, they cut through the divine legions like a hot knife through butter, slaughtering the divine soldiers with wild abandon.

The sound of explosions echoed nonstop in the sky, and countless parts and fragments fell to the ground.

"What terrifying golems! Each golem has Legend rank battle prowess, and they number in the millions! What a dangerous guy!" Hiding in her divine country, the Goddess of Love watched the dense flood of steel, and her heart trembled.

At this time, due to the nourishment of divine force, the Goddess of Love who had half of her body blasted away has recovered completely. Her aura is only slightly inferior to that of her peak condition.

The Goddess of Ice hiding within her divine country watched the five legions being engulfed by the mechanical torrent. Her mind revolved lightning-fast, yet she could not come up with a good plan: “What do I do? Do I just watch him take control of the entire Andrak Plane?”

The fierce battle lasted for three days and three nights. Without any suspense, the 1 million divine soldiers were annihilated by Yang Feng’s torrent of steel.

The human Warlocks of the Other Plane Development Division surrendered to Yang Feng, allowing him to gather 200,000 elites.

After replenishing their energy, 200,000 battle robots turned into a flood of steel and flew towards the divine country of the God of War.

The 200,000 battle robot were just scouts that Yang Feng sent to test the waters. A divine country is not only the base of a god, but also their strongest and most fearsome divine armament.

In the outside world, the true body of a supreme god is equivalent to a Holy Spirit Warlock rank expert in terms of strength. However, in the 1st Warlock Dynasty era, there was a supreme god who has gravely injured the Time Lord inside their divine country. This is a perfect example for how frightening divine countries are.

Every god will do their best to strengthen their divine country. The longer the god has lived, the stronger their divine country will be, and the more difficult it will be to kill them inside their divine country.

Even if a Bright World Warlock entered the divine country of some weak divine force rank god who have lived for hundreds of thousands of years, they might be subdued or killed if careless.

Before the 200,000 battle robots reached the divine country, the battle robots at the front hit a membrane and turned into countless parts.

A divine country is a temple where a god resides, and it has a powerful barrier activated at all times. Unless the god opens an entrance in the barrier, the divine country can only be entered if the barrier is destroyed first.

The Gunner Robots among the 200,000 battle robots fired at the barrier with super railguns.

The dense rain of light blasted into the barrier and set off ripples.

<With the current attack power, the barrier will be broken after one month.> The level-3 optical computer made a deduction from the changes in the barrier in an instant.

Yang Feng smiled: “But there’s an easier and more effective way!”

Space ripples surged in front of the divine country, and countless Devourers suddenly flew out, lunged at the barrier, and started absorbing the barrier’s power.

One after another, energy crystals were excreted by the insect-like Devourers, and then quickly collected by the battle robots.

The energy crystals excreted by the Devourers are super energy crystals, and each super energy crystal contains 10,000 times the energy of an ordinary high-energy crystal. Super energy crystals are requisite goods for Undyings and other 3rd generation battle robots.

Giant weapons like warships can use all kinds of energy crystals to replenish their energy, while Starry Sky Rippers, Undyings, and other battle robots need higher-level energy crystals to function.

The energy contained in a super energy crystal is already comparable to all the energy an ordinary Starry Sky Warlock possesses, which is why they can be used to propel 3rd generation battle robots like Undyings.

With the Devourers on the scene, the barrier only lasted for two hours before it collapsed.

The 200,000 battle robots poured into the divine country of the God of War like a tide.

In fact, the God of War was a Moyindu Wolf, and the interior of his divine country is a vast grassland stretching without end.

The vast grassland is divided into different zones where different extraordinary life forms wander.

Moyindu Wolves are quite militant, and they like hunting and fighting. Thus, the divine country is full of various extraordinary life forms for them to hunt.

So long as the Moyindu Wolf God of War gave an ordered, the countless extraordinary life forms inside his divine country would launch an attack on any invader.

As soon as the battle robots flew into the divine country, they crashed to the ground.

<This divine country has a restricted airspace law set up. Anyone who enters here is prohibited from flying. Moreover, the law of space, the law of shadows, and many other laws are forbidden and rejected here. It is equivalent to a small world with unique laws.>

As soon as the battle robots entered the divine country, they sent back all kinds of information, which was quickly analyzed by the level-3 optical computer.

Every divine country has different laws set up by a god, by which even the god themselves must abide. However, those laws are of great benefit to the god themselves.

Once a restricted airspace law is set up, even intermediate divine force rank gods cannot fly within a divine country.

Railgun beams blasted the extraordinary life forms into pieces, which turned into specks of light and disappeared.

“The number of extraordinary life forms inside this divine country exceeds 30 million. These extraordinary life forms aren’t real life forms, but are constructs formed from divine force and the divine country’s laws. Killing them just consumes a little bit of divine force.”

With the assistance of the level-3 optical computer, Yang Feng quickly made a judgment.

In the special environment of this divine country, many spells and divine spells cannot be used. If an ordinary Bright World Warlock entered this place alone, they would be exhausted by the more than 30

million extraordinary life forms to death. After all, in here, Bright World Warlocks cannot use the power of heaven and earth to cast meteorological spells.

Crushing and killing all the extraordinary life forms in its way, the huge mechanical legion reached the center of the divine country.

At the center of the divine country, there is a huge ancient tree, and on top of the ancient tree, there is a huge nest. That huge nest is where the God of War lived.

The swarm of battle robot quickly climbed up the ancient tree and got into the huge nest.

Inside the nest, there are precious divine force crystals stacked everywhere.

The battle robots quickly plundered the divine force crystals, and then transported them out of the divine country

The robots have just left, when the God of War's divine country trembled slightly, spatial ripples appeared behind it, and a terrifying attractive force shrouded the divine country and pulled it into the Astral Realm.

As soon as the divine country entered the Astral Realm, countless stones flew from the void and shrouded it, forming a dead celestial body.

In the Andrak Plane, you can clearly see a star blooming with dazzling light, and then slowly fall and disappear.

The divine countries of the God of Death, the God of Fire, the God of Justice, and the God of Murder all lit up brightly, and then were swallowed by the Astral Realm and turned into a dead celestial bodies.

When gods die, their divine countries are swallowed up by the Astral Realm, where they become abandoned celestial bodies.

If a god is resurrected, they can enter the abandoned celestial body and spend copious amount of divine force to transform the abandoned celestial body back into a true divine country.

Yang Feng's eyes shimmered with regret: "Unfortunately, I'm not strong enough. If it was an Infinity Warlock rank expert, they could use secret treasures to lock up the divine countries and refine them into special secret treasures. Secret treasures made from divine countries are extremely powerful, and are classified as world-class secret treasure."

There are very few human Warlocks in the Cangzhi Plane who can form a virtual world. In order to enhance the fighting strength of Warlocks, Alchemists came up with the concept of world-class secret treasures.

Chapter 583 – Billow

The so-called world-class secret treasure is a secret treasure similar to a virtual world refined from the divine country of a god via incredible alchemy mastered by humans.

Via world-class secret treasures, much like experts who has cultivated a virtual world, human Warlocks can draw world force and possesses a steady stream of fearsome power to contend against experts of the same rank.

World-class secret treasure is a concept that the Magic Note Dynasty put forward, and it was realized in the later period of the Magic Note Dynasty.

The Great Cloud Dynasty has secret methods for refining world-class secret treasures. Unfortunately, the production of world-class secret treasures requires Infinity Warlocks, Infinity Warlocks specialized in alchemy to boot. In order to refine a world-class secret treasure, the Infinity Warlock has to consume a huge amount of power.

In Magic Note Dynasty era, alchemy reached great heights. It was an era where alchemy flourished to the extreme. In the Magic Note Dynasty, the status of Alchemists was far greater than in any other era. In that era, Alchemists have refined seven Empyrean grade secret treasures, one of which was dubbed as the [Country of Myriad Gods] and was made from the divine countries of countless gods.

After the collapse of the Magic Note Dynasty, due to the frequent wars, countless Alchemists were lost. In the Dawn Dynasty era, Alchemists were far from the level of Alchemists in the Magic Note Dynasty era.

After the research and development carried out by countless Warlocks, modern alchemy has already surpassed that of the Dawn Dynasty era, yet it still cannot compare to the alchemy of the Magic Note Dynasty era. Therefore, in the Great Cloud Dynasty, on the surface, there is only one Alchemist – Secret Treasure Division's Division Chief Hundred Treasures Alchemist – known to be able to use divine countries of gods to refine into world-class secret treasures.

Of course, there are still many Alchemists who can refine divine countries into secret treasures, but only the Hundred Treasures Alchemist can refine world-class secret treasures. Old monsters hiding in the shadow of history aren't included.

Yang Feng clenched two godheads and sank into deep thought: "Death and war, these two godheads can promote my clone in the Feisuo Plane to the weak divine force rank. But in this way, I will clash with several strong divine force rank gods. At present, I'm still not qualified to clash with strong divine force rank gods."

In the Feisuo Plane, gods who grasp the law of death or the law of war are extremely powerful beings. In the Zaliah pantheon, there is the God of War Barrios, who is a strong divine force rank god.

For a god such as Yang Feng who has no backing, occupying the law of shadows is fine. But if he dares to touch the law of death, or the law of war, then gods like God of War Barrios will get rid of him.

There are two ways for gods to become stronger. The first way is to devour a higher-level godheads, and to switch the main law to the law of the higher-level godhead. The other way is to devour godheads of the same law.

If the God of War Barrios can devour enough godheads of war and absorb the law of war contained within the godheads, then he may break through and promote to a mighty divine force rank god. But if he devours the godhead of piece, the two laws will conflict with each other, and he will weaken instead.

The laws and divine authorities grasped by gods don't follow the principle the more the better. Instead, they must be connected and coordinated. According to Warlock research, there are three strongest god paths. The first is to purely wield one law and one divine authority. The second is to grasp laws and divine authorities that influence each other and connect and coordinate with each other. The third is to embrace all laws, integrate all divine authorities, and become a Myriad God Emperor comparable to a Warlock Emperor.

The three god paths are each more difficult than the other. The strongest gods the Cangzhi plane's human Warlocks have defeated were supreme gods. Every supreme god has taken the first path, and only wields one rule and one divine authority. The strongest experts of the second path are mighty divine force rank gods. As for the strongest experts of the third path, human Warlocks have only seen one weak divine force rank fool.

After his victory, Yang Feng sent a large number of battle robots throughout the Andrak Plane's outer space, who began the construction of a Skynet that will control the entire Andrak Plane.

All munitions factories in the Turandot Subcontinent, the Fuso Subcontinent, the Feisuo Plane, and the grade 9 plane formerly occupied by the Shadow Prince Mecca have begun to carry out upgrades and revisions.

3rd generation battle robots have also begun to be produced on a small scale in the Andrak Plane.

The Great Cloud Dynasty, the Other Plane Development Division's headquarters, in a conference hall.

Seven people are sitting in front of a long table. The seven are seven division chiefs of the Other Plane Development Division, and they each possess Bright World Warlock rank battle prowess.

A black cat is sitting in the seat of honor. The black cat is an avatar of the Division Chief Amol of the Other Plane Development Division.

There is a vacant seat in front of the the long table, which is the seat of the Deputy Division Chief Jiang Ziming.

A strange silence pervaded the hall. Gazes of the deputy division chiefs kept wandering towards Jiang Ziming's empty seat, a peculiar glint in their eyes.

Amol spoke in a serious tone: "Jiang Ziming has died in the Andrak Plane. Additionally, 1 million elites commanded by Bai Tianxing and 900,000 elites commanded by Jiang Ziming have died in the Andrak Plane."

"Jiang Ziming died?"

"He actually died? Isn't the level cap of the Andrak Plane the Glorious Sun Warlock rank? No matter how powerful those indigenous gods are, but as long as he didn't enter a divine country, then how could they kill him?"

"1.9 million elites were killed, damn it! Jiang Ziming, that wretch, deserves to die!"

"..."

The faces of the seven deputy division chiefs changed greatly, and they commented spiritedly.

The Other Plane Development Division has a total of eight deputy division chiefs and one division chief. The division chief Amol has 1 million elites directly under him. Jiang Ziming and three other deputy division chiefs each control 1 million elite troops. The remaining four deputy division chiefs are respectively responsible for supporting the recruits training, logistics, plane origin analysis, and Shadow Fang and other similar special forces in charge of infiltration and subversion.

The attack on a small grade 6 plane has resulted in the loss of nearly two-fifth of elite soldiers and a Bright World Warlock. This loss is a heavy blow for the Other Plane Development Division.

Although the Other Plane Development Division still has 10 million soldiers in training, and can easily replenish the 5 million elites structure. But the replenishment soldiers cannot compare with the battle-hardened elites. Besides, the more than 200 Moonlight Warlocks and three Glorious Sun Warlocks lost in the war are even more difficult to be replaced.

The more than 200 Moonlight Warlocks were a foundation that the Other Plane Development Division has build up for tens of thousands of years. Even with the division's ability, it cannot cultivate and recruit so many experts within hundreds of years to 1,000 years.

A burly man shouted with an angry expression: "Those bastards in the Andrak Plane dare to kill our people. That's unforgivable. Division chief, we must take revenge and wipe them out."

Amol said with a mocking smile: "Well said. Jiang Tie, I permit you to take your army and attack the Andrak Plane. However, you must bear all the responsibilities."

Jiang Tie's eyes flickered, and he uttered resolutely: "I'm incompetent, and am not a match for the indigenous gods of the Andrak Plane. Division Chief, I ask that you go and personally quell those aboriginal gods.

Strange gazes focused on Amol.

The Andrak Plane is a grade 6 plane. Even if an Infinity Warlock enters the plane, they will all the same be suppressed to the Glorious Sun Warlock realm by the plane origin will.

In the Andrak Plane, an Infinity Warlock may be killed not unlike Jiang Ziming was.

However, if Amol doesn't stick up for his subordinates, then his status in the division will be sharply reduced.

There was a flash of ridicule in Amol's eyes, and he said frigidly: "I'm going into seclusion to research a spell. As for the matter with the Andrak Plane, I leave it to you. This is an order!"

Jiang Tie's face fell, and he got up and roared: "This order is unreasonable! I won't accept it!"

Even Jiang Ziming died when he entered the Andrak Plane. Now the plane's experts are on guard. In the absence of a bridgehead, even if a Bright World Warlock enters the plane, they will be in danger of dying.

"You dare to disobey orders!" The black cat suddenly expanded and slapped out with its claw.

The cat claw crossed the void and slapped Jiang Tie in the face, blasting half of his skull away and into a wall. A large quantity of blood squirted out from his head.

Strange runes lit up on Jiang Tie's face and formed a black chain that sealed Jiang Tie's Bright World Warlock rank cultivation base.

Stunned, the other six deputy division chiefs didn't dare to do anything suspicious.

A violent aura emerged from Amol, his can eyes shimmered with cold and ruthless light, and he said coldly: "I am the the division chief of the Other Plane Development Division. If you have the skill, then have the Jiang family force me to abdicate. Otherwise, obey my order. If there is a next time, then the Jiang family won't save you."

Chapter 584 – Bai Wuqing

The remaining half of Jiang Tie's skull squirmed and, under the nourishment of Bright World Warlock rank vitality, quickly regenerated. After one breath of time, his head was mostly regenerated.

Eyes flashing with enmity, Jiang Tie lowered his head, gritted his teeth, and responded, "Yes, Division Chief!"

Ripples shrouded Amol's black cat avatar, and he disappeared: "I am going into seclusion. Don't bother me if there is nothing pressing!"

Jiang Tie's eyes flickered with resentment, and he roared furiously in his heart: "Amol, how dare you humiliate me! I'll make you pay for this!"

The Green Cloud Plane is a grade 9 plane belonging to the Great Cloud Dynasty, and it has a population of more than 100 million ordinary humans.

Spatial ripples surged in the Green Cloud Plane's outer space, and a battleship 1,000 meters long emerged.

From a semi-plane remodeled by spells suspended in the Green Cloud Plane's outer space, 36 Great Warlocks flew out.

A burly Great Warlock dressed in black shouted: "This is the Great Cloud Dynasty's Green Cloud Plane! Identify yourselves!"

A brilliant light flew out from the battleship and formed Yang Feng's figure in the void.

Yang Feng said flatly: "I am the Battle Demon Sect's Yang Feng."

A Great Warlock dressed in a black gown immediately turned pale from fright and exclaimed: "Yang Feng, that is, the Yang Feng who killed nearly 2 million elites from the Other Plane Development Division in one fell swoop!"

The countenances of the other 35 Great Warlocks changed dramatically and their eyes flashed with fear.

The 36 Warlocks stationed in the Green Cloud Plane are all experts from the Other Plane Development Division. As such, they naturally know that the Other Plane Development Division has lost to Yang Feng two days ago and that nearly 2 million elite Warlocks died at Yang Feng's hands.

At the thought of facing such a frightening existence, fear shimmered in the eyes of these Great Warlocks.

Yang Feng spoke: "Submit, or die, choose one. I'll give you three seconds to consider. "

"There's nothing to consider. I am a Warlock cultivated by the Great Cloud Dynasty. Since the Imperial Court let me guard this place, then it is my mission to defend it. Yang Feng, I am not your match. But every dynasty has its loyal officials! Let I, Wang Yi, be one such loyal official!" The eyes of the Great Warlock in black shone with intense light, then he roared, his body blurred, and he turned into a 100-meter-long Andaroman Snake. Exuding an ancient and cruel aura, he flew towards the huge battleship.

"What a good official! I'll give you a hand and send you to the Netherworld!" Yang Feng praised, and then a beam shot out from the huge battleship, slammed into the Andaroman Snake, and blasted it into bloody pieces.

When the 35 Great Warlocks saw this scene, they felt a chill in their heart. Wang Yi was the strongest expert among them. Since he couldn't block a strike from the huge battleship, then they even more so couldn't do it.

A Great Warlock barked: "The Battle Demon Sect is an opponent of the Great Cloud Dynasty. Yang Feng, even if you take this plane, the Great Cloud Dynasty will reclaim it sooner or later. Everyone, follow me. Even if we die here now, the Imperial Court won't treat our families unfairly. But if we surrender, not only will our reputation be destroyed, but when the Imperial Court takes this plane back, we will be killed nonetheless. We are better off fighting him now."

The Great Warlock silently recited an incantation and pointed at the huge battleship with the staff in his hand.

A beam fired from the huge battleship slammed into the Great Warlock's head and blasted it apart.

It seems that the Great Warlock evoked an unyielding spirit in the remaining 34 Great Warlocks, and they started casting spells.

Starry Sky Rippers flew out of the huge battleship and shot towards the 34 Great Warlocks at a fearsome Mach 15 speed.

Following series of afterimages, the 34 Great Warlocks were torn to shreds in an instant.

After the 34 Great Warlocks were killed, a dense swarm of Gunner Robots and Bladed Robots flew towards the Green Cloud Plane under the leadership of Starry Sky Rippers.

The Starry Sky Rippers are tasked with the suppression of the human Warlocks, while the Gunner Robots and Bladed Robots are tasked with maintaining law and order.

Watching the 36 Great Warlocks being killed, Yang Feng mused: "The Great Cloud Dynasty is still in its flourishing stage. To destroy it, there is a long way to go!"

If it was a dynasty at its final stage, then so long as human Warlocks encountered an existence they cannot contend with, they would fundamentally choose to run away or surrender.

The 36 Great Warlocks attacked Yang Feng knowing that they were going to die, proving that the Great Cloud Dynasty is still in its flourishing period.

Yang Feng's eyes flickered coldly, and he mused: "Since the Great Cloud Dynasty is my enemy, then let me be the one to dig its grave."

As soon as the numerous battle robots entered the surface world, they destroyed one weak resistance of human Warlocks after another.

The huge warship sent numerous engineering robots into the plane's outer space, which began to build a Skynet.

Virtually at the same time, five warships flew into five grade 9 planes – the Purple Fragrant Plane, the South Cloud Plane, the Anli Plane, the Guli Plane, and the Maud Plane. The five warships easily quelled the resistance in the five grade 9 planes and conquered them.

Each of the five grade 9 planes has a population of more than 100 million people, The faith force provided by more than 500 million ordinary people is sufficient to support the existence of a mighty divine force rank god.

The more powerful a god is, the more faith force they need. If a strong divine force rank god doesn't have at least 50 million believers, they will slowly weaken, and their godhead will fall from the strong divine force rank to the intermediate divine force rank.

Intermediate divine force rank gods need to have at least 1 million believers. Weak divine force rank gods need at least 100,000 believers. Feeble divine force rank gods need at least 3,000 believers to maintain their existence.

The wars between ordinary people will also affect the existence of gods. Some gods who obtained a godhead and reached the heavens in a single bound do not understand the marvels of believers. Thus, their godhead will weaken gradually, and they will drop in rank.

The five grade 9 planes are a great asset to Yang Feng's clone.

The Great Cloud Dynasty, royal palace, in the Immortal Cloud Hall, there are nine purple coiling dragons exuding Bright World Warlock rank might placed in the hall. There are powerful Warlocks standing in the hall, each of which is comparable to Transcendents.

Above the heads of the nine purple dragons, there is a purple gold throne, and on the throne, there sits the handsome and majestic Bai Wuqing.

As the royal family of the Great Cloud Dynasty, the Bai family has countless planes under its control, grasps tremendous resources, and wields countless secret methods. It even has a complete Emyrean grade secret method. Amid the countless experts of the Bai family, Bai Wuqing stands out from the crowd, and is the strongest expert.

The Great Cloud Dynasty's royal family is different from other Warlock groups. Generally, the strongest experts of the various sects are Great Elders, while the Sect Masters are in charge of various ordinary affairs. As for the royal family, the Emperor is the strongest expert.

In the world of Warlocks, the strong rule. A Warlock Emperor rank expert can suppress all the forces in the Cangzhi Plane by themselves. With the title of Emperor, you can have the resources and power of the entire Great Cloud Dynasty to practice cultivation. Consequently, virtually every Emperor of the Great Cloud Dynasty was an Infinity Warlock.

Bai Wuqing is a supreme genius of the Bai family. At the outset, he staged a coup d'état, killed the previous Emperor who was still at their prime, and seized the throne for himself. In the history of the Bai family, only a handful of peerless experts have killed the previous Emperor and climbed the throne. In the Great Cloud Dynasty, he is publicly recognized as the number one expert.

There are three people standing in front of Bai Wuqing, and they are the Three Ducal Ministers – the Grand Preceptor, the Grand Tutor, and the Grand Protector.

Below the Three Ducal Ministers, there are the Nine Ministers of the Three Departments and Six Ministries.

The Three Grand Ministers and the Nine Ministers all exude Infinity Warlock rank fluctuations of power.

In addition to the Three Grand Ministers and the Nine Ministers, all the ministers of the Imperial Court exude powerful fluctuations of power comparable to that of Transcendents.

As long as a human Warlock reaches the Moonlight Warlock rank, their stage of being will transform, and they will become a Transcendent-like existence. No matter the Warlock, highly retentive memory is one of their basic extraordinary abilities. As long as they put their mind into it, Moonlight Warlocks can be easily competent no matter the position, and can perform 100 times better than ordinary people.

The 7th Warlock Dynasty the Magic Note Dynasty once created an Empyrean secret treasure named the Magic Note Throne. Although this Empyrean grade secret treasure has no offensive ability, but it can gather the power of the dynasty's people to form something akin to faith force – imperial force.

Warlocks who control the Magic Note Throne can not only use imperial force to practice cultivation, but they can also grant the right for other experts to use imperial force to practice cultivation.

Taking the Magic Note Dynasty as an example, in those days, the experts who were conferred the positions of the Three Grand Ministers and the Nine Ministers by His Majesty the Emperor were only at the Infinity Warlock rank. But within a short 1,000 years, they have all advanced to the Holy Spirit Warlock rank. This is the fearsome characteristic of the Magic Note Throne.

The Magic Sound Throne is under the control of the Bai family. With this Empyrean grade secret treasure as its foundation, the Bai family developed and grew continuously, and eventually became a most powerful family.

Chapter 585 – Fury

The Great Cloud Dynasty's Imperial Court system is the same as that of the Magic Note Dynasty, which is based on the use of the Empyrean grade secret treasure Magic Note Throne.

If the Great Cloud Dynasty could unify the Cangzhi Plane, then Bai Wuqing using the Magic Note Throne could easily break through to the quasi-Holy Spirit Warlock realm, and may even promote to a Holy

Spirit Warlock in one fell swoop. Additionally, he'll have a chance to advance to the supreme Warlock Emperor realm.

A censor with Moonlight Warlock rank cultivation base stepped out and said: "Your Majesty, the Other Plane Development Division attacked the Andrak Plane and lost close to 2 million elites, and even Deputy Division Chief Jiang Ziming died in the Andrak Plane. I hereby accuse Division Chief Amol of misconduct for dereliction of duty, lack of judgement, embezzlement, and bribery."

When the censor stepped out, silence filled the Imperial Court.

Through their own intelligence channels, the officials in the hall have long learned that close to 2 million elites of the Other Plane Development Division have died in the Andrak Plane.

The Prince Bai Tianxing has commanded an army to attack the Andrak Plane, but in the end, the supreme genius Yang Feng of the Battle Demon Sect pulling strings from behind the scenes killed close to 2 million elites of the Great Cloud Dynasty in one fell swoop.

Yang Feng who was supposed to join the Great Cloud Dynasty as a member stands now on the opposite side of the Great Cloud Dynasty. In a stroke, he wiped out close to 2 million elites of the Other Plane Development Division. Even for the Great Cloud Dynasty, this is a big blow.

The Other Plane Development Division is a 5-million-strong elite army the Great Cloud Dynasty uses to suppress and attack other planes. Now that nearly 2 million of its elites were eliminated, it is equivalent to a loss of two-fifth of its power.

In order to replenish the numbers of the Other Plane Development Division, it is necessary to transfer elite Warlocks from other armies. For the Great Cloud Dynasty that now needs to concentrate its power on settling the Battle Demon Sect, this is quite detrimental.

In addition, the most remarkable genius of the Bai family Bai Tianxing is involved. Since this involves the dispute for the title of Crown Prince, the Imperial Court ministers don't dare to comment.

Crown Prince is the title of the successor to the throne. Once a Prince is conferred the title of Crown Prince, they can use imperial force stored in the Magic Note Throne to practice cultivation, making it easier for them to promote to the Infinity Warlock rank.

Once the Emperor perishes, the Crown Prince will naturally succeed the throne, and can use the power of the Magic Note Throne to suppress their enemies.

In the Bai family, apart from rubbish Crown Princes who were defeat by others, many Crown Princes smoothly succeeded the throne once their predecessor died.

Bai Wuqing spoke indifferently: "Due to dereliction of duties, Amol shall be removed from the post of division chief of the Other Plane Development Division. Of the remaining seven deputy division chiefs of the Other Plane Development Division, whoever can kill Yang Feng shall be the next division chief. Put Yang Feng on the 10th place in the Demon Hunting Division's wanted list."

An eunuch wrote down Bai Wuqing's words respectfully.

"The top 10 of the Demon Hunting Division's wanted list. His Majesty puts a lot of importance on him.

“The top nine on the wanted list are all Infinity Warlocks. For Yang Feng to be able to enter the top 10, he really stirred His Majesty’s killing intent.”

“With nearly 2 million elites wiped out, the Other Plane Development Division will take at least 100 years to recover. To His Majesty, it’s definitely not a small blow.”

“...”

Although the ministers were silent, but their hearts were surging with waves.

The nine Infinity Warlocks on the Demon Hunting Division wanted list are nine great enemies the Great Cloud Dynasty gained over the tens of thousands of years since its inception. They are hiding in other planes, not daring to set foot on in the Cangzhi Plane lightly.

The 10th place on the wanted list is equivalent to having the Demon Hunting Division focus on hunting Yang Feng next, and even the Infinity Warlock division chief of the Demon Hunting Division might personally take action and kill Yang Feng.

Bai Wuqing said flatly: “Bai Tianxing’s desire for merit led to a great defeat. He shall be demoted to a common person and exiled to the Demonic Realm. Jiang Tie is suspected of corruption. He shall be dismissed from the post of a deputy division chief of the Other Plane Development Division, and await punishment.”

With that, the countenance of representative from the Jiang family changed greatly, and despair streaked past their eyes.

“Bai Tianxing is finished!”

“The Jiang family bet on the wrong horse.”

“...”

Gazes of schadenfreude focused on the representative from the Jiang family. The Other Plane Development Division is the most popular department of the Great Cloud Dynasty. Although most of the resources obtained from other planes must be turned over to the imperial treasury, but the Other Plane Development Division can retain a small amount of precious materials.

Additionally, as people in the Other Plane Development Division often come in contact with other planes, it’s possible to discover the coordinates of some other planes with life forms. The coordinates of each such plane can be sold for a hefty penny.

Even if it’s just a grade 9 plane, it can still be used as a base to spread faith. As for grade 7 planes and above, they are even more precious, because they can breed gods. Human warlocks who long for immortality are willing to pay any price for a god slot.

Now that the Jiang family lost its standing in the Other Plane Development Division, it sustained not a small blow. With one deputy division chief dead and another relieved of his post, the Jiang family has lost more than three-fourths of its influence in the Other Plane Development Division.

The Minister Wei Jin of the Ministry of War of the Six Ministries suddenly opened an eye on his forehead, and a strange rune emerged, and his face fell.

Bai Wuqing asked flatly: “Wei Jin, what happened?”

An unsightly expression on his face, Wei Jin gritted his teeth and answered: “Your Majesty, the Green Cloud Plane, the Purple Fragrant Plane, the South Cloud Plane, the Anli Plane, the Guli Plane, and the Maud Plane were captured by Yang Feng mechanical legion.”

Boom! With a loud noise, the whole hall shook. Underneath the expressionless Bai Wuqing’s feet, the earth split open, and countless cracks spread into the surrounding.

The nine purple dragons opened their eyes, which flickered with savage and berserk light. A boundless and tyrannical aura spread from the nine purple dragons.

In the Imperial Court, everyone lowered their heads, not saying a word. They can feel a tyrannical aura pervading the hall.

The nine purple dragons are monsters formed from imperial force. In this hall, they can even kill Infinity Warlocks.

Bai Wuqing sitting on the throne feels like an incarnation of rage.

Although the Great Cloud Dynasty isn’t an unparalleled and invincible dynasty like the Eight Warlock Dynasties, but ever since its inception, the dynasty is growing with each passing day, taking back planes that were taken away by others and exploring and colonizing new planes.

Although the six planes that Yang Feng captured are only grade 9 planes, but this is nonetheless equivalent to slap in Bai Wuqing’s face.

Bai Wuqing said indifferently: “Bai Yunlie.”

“Your Majesty!”

A burly man straight like a ruler stepped out. He exudes a domineering aura.

Bai Wuqing spoke flatly: “Destroy those six planes.”

Bai Yunlie responded respectfully: “Yes, Your Majesty!”

The Bai Family has 13 Infinity Warlocks, and Bai Yunlie is one of them. He is one of the 13 Grand Princes of the Great Cloud Dynasty.

Once a Bai family member advances to an Infinity Warlock, they will be granted the title of Grand Prince of the Great Cloud Dynasty. Apart from tremendous power and countless resources, they will also receive a grade 7 plane.

Many ministers felt a chill in their heart when they heard the order. In general, grade 9 planes are very precious commodities. If they are snatched away by others, then they’ll be recaptured. Few people will destroy the planes. After all, ordinary people of grade 9 planes can offer a steady supply of divine force crystals.

There are many people who ascended to godhood under the wing of the Great Cloud Dynasty, and those gods all need faith force from ordinary people.

But in his moment of fury, the ministers didn't dare to dissuade Bai Wuqing. After all, Bai Wuqing is a ruthless character. Anyone who has angered him during his moment of fury is dead.

A few days later, in the Green Cloud Plane's outer space, spatial ripples rose abruptly.

Bai Yunlie stepped out from the spatial ripples.

The moment Bai Yunlie emerged, a tremendous plane origin will rose from the depths of the Green Cloud Plane and crushed towards him.

"The plane origin will of a trifling grade 9 plane wants to suppress me, fat chance!"

Bai Yunlie smiled coldly, and a frightening Infinity Warlock rank life force field suddenly clashed with the plane origin will and overwhelmed the plane origin will little by little.

"Infinity Warlock!"

From the Green Cloud Plane's Skynet came a warning, attracting Yang Feng's attention to the Green Cloud Plane. The first thing he saw was the human Warlock Bai Yunlie fighting the suppression of the plane origin will, and even suppressing the plane origin will instead.

"Kill him! Open fire!"

In the semi-plane in the outer space of the Green Cloud Plane, numerous steel gates opened and revealed a fully charged star destroyer artillery.

The level-3 optical computer calculated and deduced Bai Yunlie's reaction pattern and predicted his action.

The star destroyer artillery lit up, and an extremely bright pillar of light cutting through the void barreled towards Bai Yunlie along the orbit calculated by the level-3 optical computer.

Chapter 586 – Killing an Infinity Warlock

"God Guard Shield!" A dignified look appeared in Bai Yunlie's eyes, and he raised his hand, and the level-8 secret treasure God Guard Shield suddenly flew out.

When the 100-meter-tall secret treasure shield inlaid with the godheads of gods specializing in the divine authority of protection flew out, a god formed from dozens of godheads suddenly awakened.

The god stepped out of the God Guard Shield, spread the fingers of a hand, and four shields – a hexagram, a heptagram, an octagram, and an enneagram – formed from countless runes suddenly appeared in the void.

When the pillar of light that has instakilled the Bright World Warlock Jiang Ziming struck the shields, it destroyed the enneagram and the octagram shields before its energy was exhausted, and it collapsed.

When Bai Yunlie used the level-8 secret treasure God Guard Shield, his aura weakened at once, and his cultivation base was suppressed to the junior Bright World Warlock rank from the pinnacle Bright World Warlock rank.

In the Green Cloud Plane, due to the suppression of the plane origin will, the Infinity Warlock Bai Yunlie cannot devour the energy of heaven and earth to restore his power. Every time he uses his power, he'll weaken by a fraction.

Only Infinity Warlocks who have formed a virtual world inside them can have access to a stream of power in any environment.

"Plane origin will? Let me crush you!" A fanatical look in his eyes, Bai Yunlie's aura clambered up wildly. He beckoned with his hand and collected the God Guard Shield, and then a bronze halberd appeared in his right hand.

The might of level-8 secret treasures is unmeasurable. Unless they have formed a virtual world, Infinity Warlocks can only wield a single level-8 secret treasure at the same time.

At the same time that Bai Yunlie collected the God Guard Shield, numerous rays shot at Bai Yunlie from the semi-plane.

The small semi-plane suspended in the Green Cloud Plane's outer space has been transformed by Yang Feng into a small fortress. Even a Bright World Warlock cannot ignore the dense energy beam attack.

"Just some low-level secret treasures! Break!" Bai Yunlie's eyes shimmered with fierce light, and he sneered and hurled the level-8 secret treasure Void Break Halberd towards the small semi-plane.

When the Void Break Halberd blasted into the semi-plane, a terrifying mushroom cloud rose suddenly, as if a several million tons nuclear warhead exploded.

The small semi-plane 30 kilometers in diameter equipped with numerous defensive installations was instantly devoured by the fearsome explosion.

When he saw the small semi-plane being smashed, Yang Feng inhaled a breath of cold air: "Awesome! As expected of an Infinity Warlock, he makes for a terrifying enemy! No wonder the Great Cloud Dynasty's Imperial Court sent such a tyrannical monster alone to destroy the Green Cloud Plane. If the level-3 stronghold hasn't been built not too long ago, I would have no way to deal with such a monster in a low-grade plane like the Green Cloud Plane."

Due to the suppression of the plane origin will, even a Bright World Warlock will be suppressed to the Great Warlock realm inside the Green Cloud Plane. Despite being under the suppression of the plane origin will, for Bai Yunlie to still be able to erupt with such a frightening fighting strength is simply shocking.

Bai Yunlie still hasn't caught his breath, when the rumbling of engines sounded as a dense swarm of Starry Sky Rippers flew towards him at Mach 15 speed.

There was a flash of coldness in his eyes, and Bai Yunlie silently chanted an incantation and spread the fingers of his hand, and a strange mark appeared on his hand.

Wind elemental particles suddenly formed violent wind blades that slashed toward the Starry Sky Rippers.

Slashed by wind blades containing the law of wind, the magic shield around the Starry Sky Rippers shattered, and the units themselves turned into countless fragments that fell from the sky.

A strange scene suddenly took place. Countless broken parts suddenly flew up and formed Undying robots.

When the Undying appeared, they suddenly erupted with Mach 25 speed. They instantly reached Bai Yunlie and slashed at him with their swords.

“Get lost!” Bai Yunlie’s face fell. He roared, and violent wind blades erupted around him and cut in all directions.

The hundreds of Undyings were instantly cut into countless pieces by the violent wind blades.

As if they have a life of their own, the countless pieces attracted each other and formed Undyings before Bai Yunlie again.

Taking advantage of the situation, Devourers attached to the Undyings lunged towards the life force field three meters away from Bai Yunlie.

The large number of Devourers swallowed the wind elemental particles contained in the storm of wind blades.

Bai Yunlie suddenly felt his life force being drained wildly. Feeling both shocked and angry, he beckoned the level-8 secret treasure Void Break Halberd to return to his hand.

At this time, standing next to the level-8 secret treasure Void Break Halberd, thousands of Sealer robots raised their power to the maximum, and blue seals of light shrouded the Void Break Halberd and severed the connection between the halberd and Bai Yunlie.

If it was in the Cangzhi Plane, Bai Yunlie controlling the law of wind could absorb and release a copious amount of life magic energy with every movement. He could slice and dice the Undyings to the atomic level and destroy their undying core, making it impossible for them to regenerate.

But in the Green Cloud Plane, Bai Yunlie has been suppressed by the plane origin will to a great degree. The whole plane is rejecting him. He can’t absorb any life magic energy and can’t contend with the Sealers who have sealed the Void Break Halberd.

Bai Yunlie has an unclear premonition in his heart: “Dammit. If it was in the Cangzhi Plane, these golems wouldn’t be able to harm me. However, now, I must withdraw.”

With his original junior Infinity Warlock rank cultivation base, Bai Yunlie could destroy the Green Cloud Plane’s plane origin will. However, although the Green Cloud Plane’s plane origin will is weak, but it is an aggregate of the plane’s power after all. It isn’t that easily destroyed.

Bai Yunlie has to contend against the plane origin will and resist the almost endless stream of robots at the same time. In his mind, idea of retreat unwittingly took root.

Within the Green Cloud Plane, in the secret chamber of a villa, a Warp Gate shone brightly, and Yang Feng stepped out and pressed one Dimensional Badge after another.

Along with rays of light, 18 Arc Battlestars equipped with a star destroyer artillery each suddenly appeared. There was a bright light, and a star destroyer artillery fired at Bai Yunlie.

Before the star destroyer artillery fired, the Devourers suddenly flew away and exposed Bai Yunlie.

Bai Yunlie's complexion changed dramatically, and a premonition of a deadly danger surged inside him. He severed the connection with the level-8 secret treasure Void Break Halberd at once, and then the level-8 secret treasure God Guard Shield suddenly flew out and blocked in front of him.

The god stepped out of the God Guard Shield, spread the fingers of a hand, and four shields – a hexagram, a heptagram, an octagram, and an enneagram – formed from countless runes suddenly appeared in the void.

When the pillar of light slammed into the shields, it destroyed the enneagram and the octagram shields before its energy was exhausted, and it collapsed.

Another pillar of light fired from a star destroyer artillery instantly crashed into the heptagram shield, and the heptagram shield dimmed.

Another two pillars of light slammed into the heptagram shield one after another, and then the heptagram shield finally shattered.

One after another, pillars of light crashed into the hexagram shield.

Every time a star destroyer artillery fired a pillar of light, an Arc Battlestar detonated. The Arc Battlestars cannot bear the tremendous force coming from the star destroyer artilleries.

An expressionless look on his face, Yang Feng watched the battlestars he built by spending a great amount of resources explode.

As long as he can eliminate an Infinity Warlock, Yang Feng is willing to pay any price.

After the ninth pillar of light slammed into the hexagram shield, the shield finally collapsed. The tenth pillar of light swallowed the God Guard Shield together with Bai Yunlie.

Bai Yunlie is indeed an Infinity Warlock. After being swallowed by the pillar of light shot by a star destroyer artillery, his body was bruised, but he still didn't die.

The eleventh pillar of light instantly swallowed Bai Yunlie and vaporized part of his body.

"Yang Feng, I am a Grand Prince of the Great Cloud Dynasty! You can't kill me! If you kill me, there will be an irreconcilable enmity between the Bai family and the Battle Demon Sect!" Bai Yunlie's lower body was directly vaporized by the eleventh pillar of light, leaving only a head, which growled wildly.

The twelfth pillar of light instantly slammed into Bai Yunlie's remaining head, and blasted half of his head apart.

The thirteenth pillar of light finally blasted Bai Yunlie's head to smithereens, leaving only an Infinity Core suspended in the air behind.

Countless Devourers suddenly rushed towards the Infinity Core in a black insect swarm.

Strange black gas poured out from the Infinity Core. Before it was swallowed by the Devourer, the black gas suddenly issued a scream, "Yang Feng, I curse you! I curse you to have a horrible death! I curse you..."

After searching the area, a Devourer picked up the Infinity Core and flew towards the level-3 laboratory Yang Feng established in the Green Cloud Plane.

Chapter 587 – Shocking the World

The Great Cloud Dynasty, deep in the royal palace, inside the Cloud Soul Palace, there are soul lamps exuding soul auras placed in the hall.

If a soul lamp is lit, it is proof that the corresponding Warlock is still alive. Many Warlocks either go to explore other planes for a few centuries, or enter seclusion for 100 years to research a spell. For the Bai family, it is of great importance to know whether these Warlocks are dead or alive, and so they set up the soul lamps. Once they die, a soul lamp will go out in the Cloud Soul Hall.

In the deepest part of the Cloud Soul Hall, there are 13 soul lamps. The 13 soul lamps represent the 13 Infinity Warlocks of the Bai family.

Suddenly, a soul storm surged within the Cloud Soul Hall, and a soul lamp went out.

A Warlock guarding the Cloud Soul Hall opened the gate of the hall, and his eyes fell on the deepest part of the temple. Immediately after, his eyes flickered with panic, and he exclaimed: “Grand Prince Bai Yunlie died!!”

Soon after, an imposing death knell reverberated within the royal palace. Within the royal palace, everyone became aware that an Infinity Warlock of the Bai family died.

The Bai family members within the royal palace showed a look of worry.

The 13 Infinity Warlocks are the backbone of the Bai family.

It is thanks to the 13 Infinity Warlocks that the Bai family is known as the number one family in the Great Cloud Dynasty.

Although the Three Grand Ministers and Nine Ministers are also Infinity Warlocks, but they only serve the Great Cloud Dynasty. When the Bai family is strong, they will naturally bow their heads and obey orders. But once the Bai family is weak, who knows what they’ll be thinking.

In the past, the Bai family was also a loyal minister of an ancient family, serving the ancient family for generations. Later, the ancient family declined in a war for hegemony, and the Bai family took the opportunity to stab the ancient family in the back, and took possession of the Emyrean grade secret treasure Magic Note Throne. At that time, after the leader of the Bai family allied with the Ten Great Sects and the Eight Great Families, he suppressed the major forces of the time and ascended to the throne.

The death of an Infinity Warlock is equivalent to the collapse of one of the 13 pillars supporting the Bai family.

“What gall! That scoundrel, he dares to kill an Infinity Warlock of my Bai family!”

In the royal study, a violent life force field pervaded the study, and a terrifying pressure spread with Bai Wuqing as the core.

Standing beside Bai Wuqing is an eunuch with a Glorious Sun Warlock cultivation base. Subjected to the terrifying pressure emanating from Bai Wuqing, the eunuch's face turned pale, and he trembled.

Within the royal palace, Bai Wuqing wields the Empyrean grade secret treasure Magic Note Throne. Although the Magic Note Throne cannot directly provide a powerful offensive ability, but it can provide the wielder almost endless supply of power. Coupled with other secrets of the Bai family within the royal palace, even if a Warlock Monarch rank expert came here, they would be subdued.

There was a flash of coldness in Bai Wuqing's eyes, and he barked, "Pass my decree! I will personally lead troops to purge the Battle Demon Sect in one go!"

Suppressed by the Great Cloud Dynasty's Imperial Court, the power of the Battle Demon Sect within the Great Cloud Dynasty shrank continually. The Battle Demon Sect's Warlocks scattered all over the Great Cloud Dynasty fled back to Battle Demon Sect.

Some high-ranking officials of the Battle Demon Sect wielding a massive military force chose to rebel directly and set off fires throughout the Great Cloud Dynasty.

Originally, Bai Wuqing planned to quell all the rebels in the Great Cloud Dynasty, first and then use all the power of the Great Cloud Dynasty to destroy the Battle Demon Sect in one fell swoop.

However, now that one of its Infinity Warlock died, the Bai family suffered a great wound to its strength. If the Battle Demon Sect is not annihilated, it may plant a seed of disloyalty in the hearts of the remaining Ten Great Sects and Eight Great Families.

In order to unify the Great Cloud Dynasty, Bai Wuqing must destroy the Battle Demon Sect with the force of a clasp of thunder. Only then will he be qualified to eradicate or incorporate the Ten Great Sects and the Eight Great Families one by one.

As long as the Great Cloud Dynasty shows a little slump, then the whole Eastern World will become turbulent, and countless hidden monsters will jump out.

Following Bai Wuqing's order, the Great Cloud Dynasty's war machine was started, and countless materials were moved in the direction of the Tian Lian Province neighboring the Battle Demon Province.

Elite Warlock armies guarding various places were also transferred to the Tian Lian Province.

The news of Bai Yunlie's death also spread shortly after. The entire Great Cloud Dynasty now knows that an Infinity Warlock died at Yang Feng's hands.

The Tai Yi Sect, in a luxurious palace. Yi Yuanyang clenched his fists, his face ashen. After a long time, he sighed lightly, and revealed a look of dejection: "He even eliminated an Infinity Warlock. Is the gap between us actually this big?"

Every Infinity Warlock is a genius among geniuses. Not only does it require hard work, but also great opportunities to be able to reach this realm.

As a peerless expert who has formed a virtual world in the Starry Sky Warlock realm, Yi Yuanyang will advance to the Glorious Sun Warlock realm without suspense. However, for people who have formed a virtual world, the promotion from the Glorious Sun Warlock rank to the Bright World Warlock rank, and then the promotion to the Infinity Warlock rank constitutes a tremendous hurdle.

A Warlock who has formed a virtual world is far stronger than an ordinary Warlock. Additionally, when going to other planes, a Warlock who has formed a virtual world may use world force to erupt with fearsome power for a short time. But at the same time, the hurdle that they have to overcome to reach the Infinity Warlock rank is 100 times harder than that of other Warlocks.

The two Great Elders of the Battle Demon Sect, Huang Yihe and Yue Wuxian, were also trapped at the pinnacle Bright World Warlock rank for who knows how many years. If they haven't broken through the heaven-man boundary, they would still be trapped in the pinnacle Bright World Warlock rank, unable to advance by even an inch.

When he thought about how Yang Feng killed an Infinity Warlock, even though Yi Yuanyang has a strong will, but he still suffered a great mental blow.

It should be noted that Bai Yunlie wasn't an ordinary Infinity Warlock, but an Infinity Warlock of the Bai family. Due to a lack of level-8 secret treasures, ordinary Infinity Warlocks may not be able to exert the peerless power of an Infinity Warlock. However, each of the 13 Grand Princes of the Bai family has two level-8 secret treasures, which is enough for them to display battle prowess comparable to that of strong divine force rank gods. For Yang Feng to be able to kill such an Infinity Warlock, Yi Yuanyang cannot imagine how powerful he is now.

Saint Lotus Sect, on a magnificent mountain top covered in mist, there is a lotus pond blooming with numerous white lotuses.

The dense mist is released by the Magic Dragon Fairy Lotuses in the lotus pond. Dressed in a white Warlock gown, Bai Yilian is reclining inside the dense mist, and her starry-like eyes are flickering with an enigmatic radiance: "He even killed an Infinity Warlock. This Yang Feng is getting more and more complicated. If he doesn't die, he may very well become another Warlock Emperor in the future."

On the battlefield between the Bright Moon Sect and the Saint Lotus Sect, there are bodies of human Warlocks scattered on the ground. On that battle covered in blood and corpses, Jiang Lang, soaked in blood with a great sword in hand, showed a smile and let out hearty laughter: "Amazing. That's my buddy for you. Once he kills a few more Infinity Warlocks of the Bai family, the Great Cloud Dynasty will fall apart. Ha-ha!"

With 13 Infinity Warlocks and the Magic Note Throne as its foundation, the Bai family has a firm grip on the Three Grand Ministers and the Nine Ministers and other Infinity Warlocks.

But once too many of the Bai family's Infinity Warlocks have died, the Bai family will be powerless to control the Imperial Court, and may even be toppled.

The Saint Demon Sect, inside a beautiful hall.

Holding a beautiful woman in his embrace, the Saint Demon Sect's holy son suddenly sighed: "Infinity Warlock, even an Infinity Warlock was killed. What a monster."

The beautiful woman asked: "My Lord, which Infinity Warlock has died?"

No matter where they go, Infinity Warlocks are among the strongest existences. Even at the respective peaks of the Eight Warlock Dynasties, Infinity Warlocks were still major figures.

In the Eastern World, any time an Infinity Warlock dies is a major event that may affect the rise and fall of a force.

Once the two sects ranking at the bottom of the Ten Great Sects lost the Infinity Warlock supporting them, they will drop from the ranks of the Ten Great Sects.

The Saint Demon Sect's holy son responded flatly: "It's the Bai family's Bai Yunlie. He died at the hands of the Battle Demon Sect's Yang Feng."

Taken aback, the beautiful girl's pretty eyes filled with shock and incredulity, and she exclaimed: "How is that possible? How can Yang Feng who has promoted to a Moonlight Warlock less than two years ago kill an Infinity Warlock? Even if Bai Yunlie stood still, Yang Feng should be unable to break through his life force field."

The Saint Demon Sect's holy son uttered meaningfully: "Yes, according to reason, it is impossible for Yang Feng to kill Bai Yunlie. But in the world of Warlocks, there is nothing impossible. Otherwise, the virtually invincible Eight Warlock Dynasties who have overwhelmed countless planes, how could they collapse so quickly? In theory, none of the opposing forces was the opponent of the Eight Warlock Dynasties."

There was a flash of killing intent in the beautiful girl's eyes: "What do we do now? Get rid of him?"

The Saint Demon Sect's holy son chuckled, "No. What do we stand to gain by getting rid of him? It's better that we make friends with him. And if he owes us a favor, that would be the best. The friendship of a future Warlock Emperor is invaluable. Even if he dies before he becomes a Warlock Emperor, the price of making friends with him is much lower than that of being enemies with him."

The Saint Demon Sect's holy son sighed lightly, a complicated look in his eyes: "Unfortunately, the only one in the Saint Demon Sect who can contend against Yang Feng is nowhere to be found. Otherwise, I might really be tempted to kill him at all cost."

Chapter 588 – Escape from the Cangzhi Plane

The Battle Demon Sect, in a palace suspended in the clouds, the four Great Elders are sitting around a jade table.

He Liannu deliberated for a while, and then said: "Bai Yunlie, one of the 13 Grand Princes of the Bai family, was killed by Yang Feng."

Feeling carefree, Huang Yihe laughed loudly: "Ha-ha, that's my disciple for you! What a brilliant performance! Even I didn't expect him to accomplish such a feat! Truly remarkable!"

The other three Great Elders smiled helplessly.

Yue Wuxian spoke with a cold smile: “Old Huang, your disciple did indeed a splendid job by killing an Infinity Warlock of the Bai family. But the Bai family won’t take this lying. Bai Wuqing now wants to lead his troops personally.”

There is a dignified look in the eyes of He Liannu and Yu Jingang.

Bai Wuqing is the publicly recognized number one expert in the Great Cloud Dynasty. Additionally, the Imperial Court’s Three Grand Ministers and Nine Ministers are all Infinity Warlocks. Other than that, who knows how many experts are hidden in the Bai family.

The Battle Demon Sect does have a rather deep foundation, but compared to the Great Cloud Dynasty, it’s nothing much.

For Bai Wuqing to personally lead the troops, that means that countless experts of the Great Cloud Dynasty will gather under him to launch a shocking attack on the Battle Demon Sect.

Huang Yihe played it down: “Since Bai Wuqing is going all out, then we’ll just launch the final plan and leave the Cangzhi Plane.”

Although the Battle Demon Sect followed the Bai family to establish the Great Cloud Dynasty. But they know of the principle – after the cunning hare is killed, the hound is boiled [1]. Following the establishment of the Great Cloud Dynasty, the Battle Demon Sect has always been ready to move the entire sect to a grade 4 plane under its control when necessary.

In the grade 4 plane controlled by Battle Demon Sect, there are three strong divine force rank gods from the Battle Demon Sect. Even if the Great Cloud Dynasty attacks the grade 4 plane, the outcome isn’t written in stone.

He Liannu hesitated, and then said: “But once we leave the Cangzhi Plane, the Battle Demon Sect will be forever unable to reach the Warlock Monarch rank. Moreover, the resources of the Battle Demon Plane are limited. It can’t compare to the Great Cloud Dynasty. Once we leave the Cangzhi Plane, the Battle Demon Sect will have lost a strong foundation.”

The Battle Demon Sect occupies a greater province in the Great Cloud Dynasty. Just the resources provided by the greater province are enough for the Battle Demon Sect to support the birth of 10 Infinity Warlocks and support many Glorious Sun Warlocks and Moonlight Warlocks.

But once they leave the Cangzhi Plane and go to the Battle Demon Plane, He Liannu and Yu Jingang will find it 100 times harder to advance to Infinity Warlocks.

Once the Battle Demon Sect moves to the Battle Demon Plane, it is bound to decline slowly.

Huang Yihe spoke: “Bai Wuqing will not only come himself, but also bring the Three Grand Ministers and Nine Ministers. Even if the Battle Demon Sect goes all out, at most, we’ll kill two or three Infinity Warlocks before we are wiped out. What would be the point of that?”

Eyes shimmering with a cold gleam, Huang Yihe enunciated each syllable: “If we leave, the blade of the Bai family will point to other forces sooner or later. At that time, we’ll naturally have a chance to stage a comeback.”

After contemplating for a moment, the other three Great Elders nodded in agreement.

The power of the Great Cloud Dynasty in the Cangzhi Plane is too terrifying. By resisting desperately and taking out its trump cards, the Battle Demon Sect can only kill two or three Infinity Warlocks at most, and there is even the possibility that they won't be able to kill a single Infinity Warlock.

At the moment, their best course of action is fleeing here and hiding in the darkness.

A few days later, blazing light suddenly rose within the Battle Demon Sect, entered the sky, and formed a strange mark.

A huge hole emerged above the Battle Demon Sect and swallowed the entire sect.

Where the Battle Demon Sect used to be, only a huge, ugly hole is left.

Tian Lian Province, the Huang Lian City, in an exquisite palace, a handsome middle-aged man sitting on a chair is enjoying the dance of beautiful women.

This handsome middle-aged man is the Tiger Marshal Yue Zichao, one of the Great Cloud Dynasty's Eight Marshals. Each of the Eight Marshals is an Infinity Warlock.

Yue Zichao is the marshal who led countless troops of the Great Cloud Dynasty to quell the Battle Demon Sect. When he came to the Tian Lian Province, he wasn't eager to attack, but instead amassed power and nibbled away at the Battle Demon Province's power.

The Battle Demon Sect has a deep foundation. If Yue Zichao took people to storm the Battle Demon Sect's base directly, that would be throwing away his life in vain. By nibbling away at the Battle Demon Province, he is sapping the Battle Demon Sect's power.

Once the Eight Marshals have assembled and all the power was gathered, Yue Zichao plans to attack the Battle Demon Sect's base directly.

However, after Bai Wuqing made the decision to lead the troops, Yue Zichao stopped all military operations and waited for Bai Wuqing to arrive.

A tall, handsome young man stepped into the palace and said: "Marshal, I have an urgent report!"

Yue Zichao waved at the dancers and said: "Stone? You guys, leave!"

The dancers quickly retreated, and Yue Zichao looked at the young man with a smile and asked: "Stone, what happened?"

The young man is a valiant general under Yue Zichao called Fang Shi [2]. He is a Bright World Warlock, and is Yue Zichao's right-hand man.

Fang Shi answered: "The day before, the Battle Demon Sect cast a secret method. The Battle Demon Sect's headquarters disappeared from the Battle Demon Province, and most Battle Demon Sect Warlocks fled. The Battle Demon Province has fallen into chaos. Marshal, do we take this opportunity to recapture the Battle Demon Province?"

Yue Zichao's brows furrowed suddenly, and he revealed an awkward expression: "The Battle Demon Sect has fled? What a fierce method."

If the Battle Demon Sect was still present, then once the Great Cloud Dynasty gathered its forces and launched an all out attack, then even if the Great Cloud Dynasty would have to pay the lives of one or two Infinity Warlocks, the Battle Demon Sect would be directly destroyed.

Now that the Battle Demon Sect escaped, the numerous armies gathered here by the Great Cloud Dynasty suddenly became useless.

Moreover, Bai Wuqing had just proclaimed the news that he is joining the fight, yet the Battle Demon Sect has already escaped, giving Yue Zichao a headache. Bai Wuqing isn't lacking in terms of talent. But he shares a common shortcoming with all regents – he likes to make a scene.

Yue Zichao originally wanted to let Bai Wuqing take the great merit of defeating the Battle Demon Sect. But the Battle Demon Sect escaped just like that, and the great feat of defeating the Battle Demon Sect fell into his lap. This put Ye Zichao in a very tricky position.

Yue Zichao pondered for a while, and then uttered: "Forget it! Stone, take troops to recover the Battle Demon Province at once!"

Fang Shi responded and took his leave: "Yes! Marshal!"

Sitting in his chair, Yue Zichao narrowed his eyes and revealed a pondering look: "The Battle Demon Sect seems to be difficult to deal with, and the Great Cloud Dynasty seems to be in trouble."

Yue Zichao mused: "Yang Feng? A mere Moonlight Warlock killed an Infinity Warlock. Compared to Holy step Holy Spirit Warlocks and Warlock Emperors, his methods are not the least bit inferior. Who knows what stage he can reach. Should I pursue a good relationship with him?"

The fact that Yang Feng killed an Infinity Warlock alarmed the entire Great Cloud Dynasty. Some pinnacle experts want to kill him, some want to befriend him, and others want to stay neutral.

The Bright Moon Sect, in the Fool Moon Hall, there sit three beautiful female Warlocks with extraordinary temperaments. The three are the Great Elders of the Bright Moon Sect.

Female Warlocks pay more attention to their appearance than male Warlocks. As such, the Bright Moon School has various secret methods to retain their youthful looks. Of the three Great Elders, two are quasi-Infinity Warlocks and one is a junior Infinity Warlock. They are the pillars of the Bright Moon School.

The graceful and enchanting Luo Qingcheng exuding Infinity Warlock rank fluctuations of power spoke lightly: "The Battle Demon Sect has already escaped. I made up my mind – the Bright Moon School shall withdraw from the Cangzhi Plane immediately."

The petite, innocent-looking, big-breasted, and bewitching Zhong Xinlan frowned, a look of worry in her eyes: "But if we give up the Cangzhi Plane, the Bright Moon School will weaken continuously. It will be nearly impossible to give rise to Infinity Warlocks."

The cold- yet cynical-looking, beautiful An Ying said coldly: "The Battle Demon Sect is gone. As their ally, our Bright Moon School will be the next target of the Imperial Court. If we don't run away now, we're going to be reduced to play things of those smelly men."

Luo Qingcheng spoke: “Yes, now that the Battle Demon Sect is gone, our Bright Moon School will be their next target. Even if I die, I’m not willing to be a plaything for those people. What does the trifling foundation of the Bright Moon School count for? As long as we’re still alive and well, everything is possible. I have made up my mind, and that’s it!”

The other two Great Elders nodded silently.

Soon afterwards, brilliant light shone above the Bright Moon School, and then a huge hole suddenly appeared and engulfing the entire Bright Moon School.

Within a dozen breaths of time, the Bright Moon School has completely disappeared from the Cangzhi Plane.

Within a short few days, the news that the Battle Demon Sect and the Bright moon School escaped from the Cangzhi Plane spread throughout the plane.

The escape of the two great sects is equivalent to a slap in Bai Wuqing’s face. At the same time, apart from the Tai Yi Sect and the Saint Lotus Sect, the other great sects and great families are filled with panic and fear.

Chapter 589 – The Ten Great Sects Are No More

The Great Cloud Dynasty’s colossal war machine is still running, and countless powerhouses are gathering in the Tian Lian Province.

Bai Wuqing commanding the Three Grand Ministers and Nine Ministers as well as three marshals leading countless experts converged on the Tian Lian Province.

A few days later, Bai Wuqing suddenly announced that the Myriad Snow Gate colluded with the Battle Demon Sect and tried to subvert the Great Cloud Dynasty.

Riding numerous warships, the countless troops gathered in Tian Lian Province rushed towards one of the Great Cloud Dynasty’s 36 greater provinces – the Myriad Snow Province.

Caught off guard, the Myriad Snow Gate collapsed like an avalanche under Bai Wuqing’s all-out attack.

The Dragon Ridge Guard responsible for purging Warlocks inside the Great Cloud Dynasty also launched suddenly and arrested Warlocks from the Myriad Snow Gate. Anyone who resisted was killed on the spot.

The Myriad Snow Gate’s headquarters, the Myriad Snow Mountains.

There are numerous huge warships exuding killing intent flying around the Myriad Snow Mountains. Every warship is loaded with elite soldiers of the Great Cloud Dynasty, and each elite soldier has a Great Warlock rank cultivation base.

An eunuch with a Moonlight Warlock rank cultivation base flew into the air and shouted loudly: “His Majesty summons the Great Elder Zhou Qinan of the Myriad Snow Gate to the barracks for an audience!”

Following a ray of light, a three-meter-tall burly man looking like a small giant proudly appeared above the Myriad Snow Gate, and Infinity Warlock rank might spread from him as the center. He is Zhou Qinan, the sole Infinity Warlock of the Myriad Snow Gate.

Zhou Qinan looked deeply at the barracks stretching for hundreds of kilometers and said respectfully: "I, Zhou Qinan, am here to request an audience with His Majesty Bai Wuqing!"

With Zhou Qinan as the core, berserk sound waves spread in all directions. Warlocks within the area thousands of kilometers in radius can hear Zhou Qinan's voice as if he is talking in their ears.

Magic shields rose from the warships and cut off Zhou Qinan's voice.

A roar of an Infinity Warlock at the top of their lungs has enough power to kill low-level Warlocks below the Great Warlock rank within an area 1,000 kilometers in radius. As for Warlocks proficient at sound wave spells, without the protection of spells and secret treasures, a roar can kill Great Warlocks within an area 1,000 kilometers in radius.

Due to this, when armies are sent to quell Infinity Warlocks, the weakest soldiers must have a Great Warlock rank cultivation base. Strengthened by Warlock towers, the countless Great Warlocks can display an astonishing power. With enough Great Warlocks and secret treasures, they can even contend against an Infinity Warlock.

The eunuch barked: "Zhou Qinan, how bold, do you want to resist the decree?"

"Snort!" Zhou Qinan snorted coldly. A bizarre rune that seemed to contain endless evil appeared in his eyes, and he "looked" at the eunuch.

The eunuch trembled, his face twisted, and he screamed. His body squirmed strangely, and then burst apart.

At this moment, a green ray flew out from the barracks and landed on the eunuch's remains. The countless pieces gathered suddenly and formed the eunuch's body once more.

Black gas flew out from the eunuch's body and disappeared.

"Thank you for your kindness, Your Majesty!" The eunuch knelt on the ground and kowtowed towards the barracks.

In the barracks, surrounded by the Three Grand Ministers and the Nine Ministers, Bai Wuqing in a battle gown slowly walked out and "looked" indifferently at Zhou Qinan.

Zhou Qinan suddenly felt as if he was being stared at by an ancient beast, and he trembled all over. He immediately understood the huge gap that exists between himself and Bai Wuqing.

Zhou Qinan spoke unhurriedly: "Your Majesty, I am willing to take the Myriad Snow Gate and leave the Cangzhi Plane. As long as you are alive, Your Majesty, we will never step into the Cangzhi Plane."

The Myriad Snow Mountains are completely sealed off by the elite armies of the Great Cloud Dynasty. As such, it's impossible for the Myriad Snow Gate to escape the Cangzhi Plane right now.

“This is the God Emperor Imprint. Leave a part of your soul in here, and I will give your Myriad Snow Gate a path to survival.” Face cold as ice, Bai Wuqing spread the fingers of a hand, and an imprint engraved with gold text exuding divine aura and a black text exuding demonic aura appeared in his hand.

The God Emperor Imprint is a very famous Monarch grade secret treasure. It is a secret treasure that a Warlock Monarch of the 7th Warlock Dynasty the Magic Note Dynasty created according to the magic principles of the Transcendent Text’s Transcendent Emyrean Imprint. Even if it is a Warlock Monarch rank expert, but once a part of their soul is sealed in the God Emperor Imprint, their fate will be controlled by the master of the God Emperor Imprint.

Every time a human Warlock advances by a realm, their stage of being undergoes a transformation, and many means of controlling them will fail. There aren’t many secret treasures that can control Infinity Warlocks, and this God Emperor Imprint is one of them.

Zhou Qinan’s face fell, and he responded coldly, “Impossible! Even if I die, I will not put part of my soul in the God Emperor Imprint!”

Bai Wuqing spoke flatly: “Since that is the case, then die. Pass down my decree! Attack, leave no stone unturned!”

Tyrannical auras rose next to Bai Wuqing, and one Infinity Warlock after another operated secret treasures and attacked the Myriad Snow Gate.

The entire Myriad Snow Gate was engulfed by numerous frightening spells, a violent elemental storm rose in the area, and ancient life forms exuding ancient might appeared one after another.

10 days later, news spread throughout the Great Cloud Dynasty that the Myriad Snow Gate’s headquarters was razed to the ground, and the Great Elder Zhou Qinan was killed by Bai Wuqing.

The Myriad Snow Gate went all out, yet only managed to heavily wound the Director of Board and Rites Wu Huan and kill a Bright World Warlock of the Great Cloud Dynasty.

The whole Great Cloud Dynasty was shaken. In the Ten Great Sects, Myriad Snow Gate was close to the Bright Moon School in terms of strength. Such a huge sect was eliminated by the Great Cloud Dynasty’s Imperial Court, yet only one Bright World Warlock, seven Glorious Sun Warlocks, and 136 Moonlight Warlocks on their side died. This is simply too shocking.

The Great Cloud Dynasty’s Imperial Court which has suffered repeated setbacks at Yang Feng’s hands bared its fangs and immediately let the world see how powerful it is.

After the Myriad Snow Gate was annihilated, the Saint Demon Sect, the Corpse Demon Sect, and the Star River Sect of the Ten Great Sects transferred their base to another plane without hesitation.

The Golem Gate and the Beast God School immediately sent emissaries to show their allegiance to the Bai family.

With its countless resources, the Cangzhi Plane, can give birth to one Infinity Warlock after another. Once the sects leave for other planes, they will find it very challenging to produce a single Infinity Warlock.

Bai Wuqing accepted the surrender of the Golem Gate, and then launched a surprise attack on the Beast God School along with the Golem Gate, the Saint Lotus Sect, and the Tai Yi Sect.

Due to a Moonlight Warlock traitor, the Beast God Sect's upper echelon was besieged by many powerhouses of the Great Cloud Dynasty, and its five Great Elders died.

The Great Cloud Dynasty received all the power of the Beast God School, and then supported the traitor to become the new School Master of the Beast God School.

After the great upheaval, the Beast God School's resources were plundered by the Imperial Court of the Great Cloud Dynasty, and the school fell from the ranks of the Ten Great Sects to a second-rate small school.

After destroying part of the Ten Great Sects, Bai Wuqing immediately stopped and sent messengers to appease the Eight Great Families.

Only after they confirmed that Bai Wuqing has transferred the huge number of troops back to their respective stations did the Eight Great Families breath a sigh of relief. The alliance between the Eight Great Families broke and wheels put into motion halted.

If the Ten Great Sects and Eight Great Families had joined forces, they would have the power to topple the Great Cloud Dynasty. However, after this period of war, the Ten Great Sects lost seven sects and the Eight Great Families fell into dissension. They no longer have the power to contend against the Bai family.

If not for the three dynasties in the Western World paying close attention, the Eight Great Families would not be able to resist Bai Wuqing's advance.

When Bai Wuqing returned to the Cloud Capital, he began to clean up the mess left after the departure of the seven great sects. Numerous experts cultivated by the Bai family filled the gaps left by the seven great sects.

After about 100 years, the wound caused to the Great Cloud Dynasty by the purge of a large number of experts from the seven great sects will be healed.

In the Sea of Monsters, there are huge battleships heading towards the Turandot Subcontinent. On a huge battleship 3,000 meters in length, there sits a burly man with wheat-colored skin and the aura of a son of the sea. This man is the Whale Marshal of the Great Cloud Dynasty's Eight Marshals.

The Turandot Subcontinent was originally just a small subcontinent that couldn't even produce Moonlight Warlocks. But since Yang Feng came from the Turandot Subcontinent, it stirred Bai Wuqing's killing intent, and he sent the Infinity Warlock Whale Marshal to level the subcontinent in one go.

Bai Yunlie was suppressed by the the Green Cloud Plane's plane origin will, and died. Bai Wuqing doesn't believe that Yang Feng can kill an Infinity Warlock in the Cangzhi plane.

In the Turandot Subcontinent, 100 plasmerizers scattered around the coastline shone brightly, and beams shot towards the huge warships thousands of kilometers away.

Suddenly, bright light lit up on the huge warships and formed magic shields that blocked the beams.

The Whale Marshal said flatly: "To be able to attack across thousands of kilometers, these secret treasures are really powerful. They deserve to be secret treasures made by the expert who killed Bai Yunlie."

Chapter 590 – Killing Another Infinity Warlock

The Whale Marshal silently recited an incantation and pointed with a finger.

Near the coast of the Turandot Subcontinent, a 1,000-meter-long hand constructed from pure water elemental particles came down from the sky.

Plasmerizers deployed on the edge of the coastline were crushed into scrap metal by the giant hand made of pure water elemental particles.

<According to the energy analysis, the other party is an Infinity Warlock.>

<Victory probability: 0.0001%. We stand no chance of winning.>

<...>

A string of messages was transmitted by the level-3 optical computer. Yang Feng understands that he cannot defeat an Infinity Warlock in the Cangzhi Plane.

Suppressed by the Green Cloud Plane's plane origin will, Bai Yunlie was unable to freely manipulate the energy of heaven and earth, and his strength has decreased by 90%. That's how Yang Feng was able to kill him.

But in the Cangzhi Plane, Infinity Warlocks can freely control the energy of heaven and earth and absorb tremendous amount of life magic energy drifting in space. Any spell he casts has earth-shaking power.

Yang Feng wrinkled his eyebrows, and then relaxed: "It seems that the Turandot Subcontinent cannot be kept. Fortunately, I have already transferred all essential laboratories to the Andrak Plane."

Yang Feng can't contend against Infinity Warlocks at the moment. If he now appears in the Turandot Subcontinent, he will perish along with the subcontinent, which would be simply moronic.

When Yang Feng decided to become enemies with the Great Cloud Dynasty, he began to prepare the transfer of munitions factories and laboratories in the Turandot Subcontinent.

Now, there only remain some defensive weapons in the Turandot Subcontinent. Even if the subcontinent is taken away, it won't be a big loss.

But for the Turandot Subcontinent which he has always regarded as his rear base to be taken away just like that, Yang Feng still feels rather regretful and full of a sense of danger.

"Come out! I already found you." Suddenly, the Whale Marshal raised his eyebrows and looked up, and sharp water arrows containing the law of water suddenly shot in all directions.

The space distorted, and four powerhouses suddenly emerged.

The fore are a burly man with black hair exuding dense demonic qi, a man surrounded by bright starlight exuding a mysterious aura, the Great Elder Luo Qingcheng of the Bright Moon School, and the Great Elder Huang Yihe of the Battle Demon Sect.

Faced with four Infinity Warlocks, the Whale Marshal's face registered no change, and he sneered: "The Battle Demon Sect's Huang Yihe, the Saint Demon Sect's An Xielong, the Star River Sect's Star River Ming Xuan, and the Bright Moon School's Luo Qingcheng, you four monsters didn't escape."

Whenever an Infinity Warlock rank expert enters the Cangzhi Plane, they will trigger the senses of the plane origin will.

Inside the Great Cloud Dynasty's royal palace, there is a secret treasure called the Heaven Watch Mirror. Whenever an infinity Warlock enters the Cangzhi Plane, they will trigger a response from the Heaven Watch Mirror.

Since the Heaven Watch Mirror didn't react, it means that no new Infinity Warlocks have entered the Cangzhi Plane. In other words, the four Infinity Warlocks have never left the Cangzhi Plane.

Killing intent surged in Huang Yihe's eyes, and he spoke coldly: "Whale Marshal! If you make a Styx oath and swear to join us in eradicating the tyrant Bai Wuqing, then we will immediately retreat. Otherwise, today is the day you die."

The Whale Marshal laughed heartily: "Ha-ha. To appear in front of me, you stray dogs are really reckless. Surrender now while it's still possible. Seeing that you are all Infinity Warlocks, I can plead with His Majesty to spare your life. If you continue to be obstinate, then today shall be the day you die!"

With that, the Whale Marshal waved his hand, and five black figures flew out and erupted with Infinity Warlock rank aura.

Huang Yihe's face fell and his body tensed up and lit up with the light of defensive spells: "Shit, it's an ambush!"

"No, those are just golems that can simulate the aura of Infinity Warlocks! He wants to escape! Everyone, we can't let him escape!" The face of the Star River Ming Xuan suddenly changed dramatically, and he shouted loudly. Next, he silently recited an incantation and tossed a Monarch grade secret treasure Universe Star Chart.

Inside the Universe Star Chart, one star after another lit up. In the outer space of the Cangzhi Plane, the star force of one star after another stirred, fell down, and poured into the Universe Star Chart.

Dazzling starlight containing the star force of over 100 stars formed a pillar of starlight that burst into the sea.

Water, warships, human Warlocks, and extraordinary life forms within a 100-kilometer-radius were disintegrated by the dazzling pillar of starlight.

In that space devoid of water, a figure suddenly condensed. It is the Whale Marshal who used a secret method to merge with part of the sea.

The Whale Marshal has used the fundamental secret method Swallow Sea Whale Secret Method to merge with the water within an area 100 kilometers in radius. As long as there is water, his true body cannot be damaged. Ordinary Infinity Warlocks will have a hard time harming him.

But the Star River Ming Xuan is the strongest Great Elder of the Star River Sect, and he used the Star River Sect's foundation Monarch grade secret treasure, which is how he was able to seriously wound the Whale Marshal.

The Whale Marshal glanced at the Universe Star Chart in the sky and praised loudly: "The Star River Sect's Universe Star Chart enjoys a well-deserved reputation!"

At this moment, a brilliant sword ray emerged out of nowhere, slashed through the void in an a flash, chopped at the Whale Marshal in an instant, and sliced him into pieces.

With the Bright Moon Sect's Monarch grade secret treasure Bright Moon Saint Sword in hand, Luo Qingcheng walked out of the void and wrinkled her eyebrows slightly.

The Whale Monarch's body sliced into pieces turned into arrows that shot into the sea. Once the Swallow Sea Whale Secret Method is practiced to the infinity Warlock realm, it will give the host various unpredictable abilities. Such as, as long as he absorbs enough water elemental particles, he will be able to regenerate blood.

"Whale Marshal, leave your soul behind!"

An Xielong sneered and flew out of the void. The Monarch grade secret treasure Myriad Eyes Ogre Right Hand Glove on his right hand suddenly grew eyes of extraordinary life forms and exuded dense ogre qi, and he grabbed at the countless pieces.

Suddenly, the eyes of extraordinary life forms opened, twisted, and launched an evil eye ability. The pieces emitted gray soul force that coalesced into a little Whale Marshal who flew into An Xielong's hand.

An Xielong's right hand opened, revealed beast-like teeth, and bit the little Whale Marshal soul, making hair-raising sounds.

The Whale Marshal's soul was damaged by this strike. Without a treasure to heal the soul, he won't be able to recover from such a terrible injury with his own strength after thousands of years, or even 10,000 years. Instead, it will continue to deteriorate. This is the terror of the Myriad Eyes Ogre Right Hand Glove.

The Whale Marshal was severely wounded by An Xielong. The countless pieces concealing his soul force blurred into motion and shot into the sea.

Seeing this, a flash of vexations streaked past the eyes of the four powerhouses. Once the Whale Marshal enters the sea, then even the four of them joining forces won't be able to kill him.

"Damn, what a shame!" A look of unwillingness on his face, Huang Yihe calculated in his heart. But none of his secret methods and secret treasures are useful at the moment.

The Whale marshal was decisive in his escape. Moreover, the Swallow Sea Whale Secret Method is a peerless secret method that can display mysterious abilities in the sea. Plus he is an Infinity Warlock. Once the opportunity is missed, it is basically impossible to kill him.

It's easy to defeat Infinity Warlocks, but difficult to kill them. For this reason, when Yang Feng killed Bai Yunlie, he caused a sensation. When Bai Wuqing killed the Myriad Snow Gate's Infinity Warlock Zhou Qinan, he triggered a series of changes, and many of the Ten Great Sects evacuated from the Cangzhi Plan.

Seeing that the Whale Marshal was about to escape, the Sea Hunters hidden in the sea suddenly pounced at the fragments of the Whale Marshal.

A strange power poured out of the Sea Hunters and devoured the fragments of the Whale Marshal.

Every time they devoured a fragment of the Whale Marshal, the Sea Hunters underwent a fantastic change and became more powerful.

More than a dozen pieces of the Whale Marshal suddenly converged together and fused into a reduced version of the Whale Marshal. Standing in the void, the Whale Marshal watched the dense swarm of Sea Hunters with dread and anger.

The Whale Marshal can easily crush the Sea Hunters. But now that he has been wounded one time after another, he can only display Glorious Sun Warlock rank strength. Those Sea Hunters are equivalent to a roadblock blocking his only escape route.

"Ha-ha, Whale Marshal, if you insist on being a loyal servant to Bai Wuqing, then die!" Smiling excitedly, Huang Yihe appeared in front of the Whale Marshal, grabbed the Whale Marshal, and squashed him with the force of a small world.

A Seven Color Skyfire rose from Huang Yihe's hand and burned the pieces clinging to the Infinity Core. Struggling, twisting, and making strange screaming sounds, the fragments eventually disappeared.

The dense swarm of Sea Hunters suddenly gathered and formed Yang Feng's image, who came to Huang Yihe's side and bowed in salute: "Greetings, Teacher!"

When Huang Yihe saw Yang Feng, he immediately showed a smile and said: "Feng'er, it's really you! You're doing a wonderful job!"
