Chapter 591 – Attacking the Ice Divine Country

An Xielong stepped out from the void, came to in front of Yang Feng, glanced at him, and praised, “Old Huang, so this is your personal disciple Yang Feng. Not bad. He matches our Yan’er rather well. Old Huang, why don’t we tie the knot between our two sects?”

Huang Yihe rolled his eyes and said: “Your Yan’er is indeed a top choice when it come to looks and cultivation base, but with her temperament, will she let you make arrangements for her? If you tell her this, I’m afraid that she’ll come to fight our Feng’er the next day. At that time, if the marriage idea fall through and our relationship becomes antagonistic, it will be troublesome.”

After thinking it through, An Xielong’s eyes flashed with regret: “You’re right! What a pity.”

When An Xielong thought of his witch-like daughter, he felt a headache. As a Great Elder of the Saint Demon Sect, he is a callous and fierce character. But when it comes to his daughter, to his sole relative in the world, he loves her dearly, and is basically helpless against her.

In the world of Warlocks, some Warlocks don’t care much about their relatives. Most of such Warlocks have concubines and offsprings in droves. Some Warlocks who have a hard time procreating, only have one or two children. Such Warlocks cherish their children deeply.

Surrounded by starlight, the Star River Ming Xuan blurred into motion, stepped across several kilometers, appeared in front of Yang Feng, and spoke with a mild smile: “So you are Yang Feng. You killed Bai Yunlie? Well done!”

The Bai family’s 13 Infinity Warlocks suppressed the Eastern World and took charge of the Great Cloud Dynasty’s Imperial Court. If more than half of the 13 Infinity Warlocks died, the Bai family’s rule will collapse.

Powerhouses who can advance to the Infinity Warlock rank, which one of the doesn’t have their own considerations? But the Bai family is very powerful. With the resources of the Great Cloud Dynasty at its disposal, the Bai family has countless experts at its beck and call.

However, if the Bai family weakens, then the Three Grand Ministers, the Nine Ministers and the Eight Marshals will turn on the Bai family and bring it to its knees. Therefore, after Bai Yunlie’s death, the remaining 12 Infinity Warlocks of the Bai family became cautious. Now they won’t easily enter dangerous places.

Luo Qingcheng stepped out of the void, glanced at Yang Feng, and uttered coldly: “We shouldn’t stay here for long. Let’s disperse.”

“Alright!” An Xielong smiled and disappeared with a blur.

With a flash of starlight, the Star River Ming Xuan disappeared.

Luo Qingcheng turned into moonlight and disappeared into the void.

No matter how he tried, Yang Feng can't find any traces of the three Infinity Warlocks.

With a wave of his hand, Huang Yihe tossed an ordinary jade card that flew into Yang Feng's hand: "Feng'er, the Great Cloud Dynasty's detection methods are very formidable, so I have to leave. The Battle Demon Sect has set up spies in the Great Cloud Dynasty. If you need anything, then you can mobilize those spies with this jade card."

The Ten Great Sects have a history of more than 10,000 years in the Great Cloud Dynasty. They all have planted countless spies in the dynasty.

After Bai Wuqing abolished the Ten Great Sects, he didn't attack the Eight Great Families, but went to remove the influence of the Ten Great Sects on the Great Cloud Dynasty.

In just a century, the Great Cloud Dynasty will be able to remove most of the influence of the Ten Great Sects. In this century, Bai Wuqing's political ability will be put to the test.

Grasping the Battle Demon Sect's spies in the Great Cloud Dynasty, Yang Feng has an extra power hidden in the darkness. Now many things no longer need him act personally.

With that, Huang Yihe's body collapsed into specks of light and disappeared.

Yang Feng's figure collapsed, and the countless Sea Hunters entered the sea.

Not long after, a huge eyeball formed from countless runes suddenly appeared in the void, and light shot out from the huge eyeball and scanned the area.

That huge eyeball is a Holy grade secret treasure called Heaven Watch Eye, and it is placed in the royal palace of the Great Cloud Dynasty. Once operated, it can 'see' almost the entire Eastern World. At the same time, if enough magic crystals are used, it can let a Warlock cross tens of thousands of kilometres in a flash. Even if space disruption spells are used, they can't interfere with the Heaven Watch Eye's spying ability.

However, every time the Holy grade secret treasure Heaven Watch Eye is used, it needs to consume all the power of a Holy Spirit Warlock. In this era without Holy Spirit Warlocks, every time the Heaven Watch Eye is used, an astronomical number of magic crystals has to be used. Thus, this Holy grade secret treasure cannot be used rashly.

Blurry, distorted shadows converged and recreated the scenes from not long ago. This is one of the mystical spells of the Heaven Watch Eye – Image Recovery. With this spell, the images of everything that happened in an area can be easily rewound and viewed.

But due to some strange interference, the distorted shadows collapsed and disappeared in an instant. Before leaving, Huang Yihe used a secret method to erase all traces in this area. Even Image Recovery can't salvage any images in this area.

"Cannot be rewound. There are fluctuations of power from Infinity Warlocks fighting here."

"The Whale Marshal is really dead!"

"These damn monsters!"

“ ... ”

Angry voices came from the huge eye, yet no one dared to step out of the eye.

“The Whale Marshal’s whereabouts are secret, so how could he be besieged?”

“There are spies inside the Imperial Court, and they must be of a high status!”

“The Ten Great Sects are indeed a malignant tumor attached to the Great Cloud Dynasty. His Majesty’s vision is far-sighted. It was a brilliant idea to abolish them in advance.”

“ ... ”

Along with a burst of discussions, the huge eyeball swiveled and disappeared.

Not long after, the entire Great Cloud Dynasty knew that the Whale Marshal of the Eight Marshals died in the Sea of Monsters. The Sea of Monsters is the only route leading to the Turandot Subcontinent. Soon, the rumor that the Whale Marshal was killed by Yang Feng spread throughout the Great Cloud Dynasty.

In the Great Cloud Dynasty, another round of purge was carried out. Affected by the purge, numerous Warlocks were forced to leave the Great Cloud Dynasty’s Imperial Court.

During the purge, Bai Wuqing removed the children of the Eight Great Families from the most crucial positions without batting an eye, which again weakened the influence of the Eighth Great Families within the Imperial Court.

Yang Feng’s true body hid in the Andrak Plane and entered closed door cultivation. At the moment, it was the most chaotic and dangerous time in the Great Cloud Dynasty. He didn’t want to get involved in this storm, and be smashed.

Time passed, and soon it was three years later.

The Andrak Plane, in a secret room, Yang Feng slowly opened his eyes, which flickered with bright light, and advanced Moonlight Warlocks rank aura permeated out of him.

Yang Feng sighed lightly: “The Andrak Plane pales in comparison to the Cangzhi Plane. With the same resources, I could have already promoted to a Glorious Sun Warlock in the Cangzhi Plane. But here, I only reached the advanced Moonlight Warlock rank. The gap between the two planes is too big.”

The Cangzhi Plane is the most powerful primary material plane and the sole grade 1 plane known to date.

It is due to the Cangzhi Plane’s unique characteristics that human Warlock Emperor capable of suppressing countless planes and defeating, suppressing, and sealing existences from other planes with Warlock Emperor rank battle prowess can be born in the Cangzhi Plane.

In the Cangzhi Plane’s continent, cultivation is much faster than in other planes. Under the same cultivation conditions, the speed of cultivation in the Cangzhi Plane is 10 times faster than that in the Andrak Plane.

The Cangzhi Plane's unique characteristics made the Ten Great Sects very reluctant to leave the plane. Since those sects have fled the Cangzhi Plane, they will slowly decline, and might even disappear into the long river of history.

"It's time to get started!" Yang Feng walked out of the secret room and disappeared with a blur.

Outside the Ice Divine Country, there are 10 Star Destroyer Battlestars and one Interstellar Carrier suspended in the air.

500,000 3rd generation battle robots and 6 million 2nd generation battle robots have spread out to surround the divine country.

Standing outside the divine country, Yang Feng said flatly: "Ice Goddess, It's me, Yang Feng. Surrender. As long as you submit to me, I can let you live."

How can a potential threat be allowed to exist right outside your doorstep?

At this time, there are only two gods – the Goddess of Ice and the Goddess of Love – left in the Andrak Plane. These two goddesses are two unstable factors in the Andrak Plane. If he doesn't subdue or kill the two goddesses, Yang Feng won't feel at ease to use the Andrak Plane as his foundation.

A cold, decisive shout of the Goddess of Ice came from the Ice Divine Country: "Yang Feng, you nasty piece of work, I will never yield!"

Yang Feng sighed regretfully, then a flash of coldness streaked past his eyes, and he commanded: "What a pity! Begin!"

Dazzling rays of light blasted into the Ice Mountain Range covered by snow and ice all year round.

Swept by the dazzling rain of light, droves of ice life forms were blasted apart.

Although Yang Feng has kept a low profile for three year. But in secret, he has sent a mechanical legion to examine the believers of the Goddess of Ice in the Ice Mountain Range. When he attacked, he used world-shaking force, leaving no margin for error.

Chapter 592 – Fighting the Ice Divine Country

"Yang Feng, you're so vicious!" The Goddess of Ice's stern shout came from the Ice Divine Country.

It's not clear how much damage the Goddess of Ice incurred with the death of countless believers. Under Yang Feng's deliberate attacks, of the countless believers of the Goddess of Ice, only less than 3,000 remained.

Now that the number of her believers is less than 3,000, the Goddess of Ice begun to decline slowly but firmly, and some of her extraordinary abilities begun to weaken.

As long as Yang Feng's mechanical legion besieged the Ice Divine Country for 100 to 200 years, the Goddess of Ice will slowly weaken and eventually die.

Ever since the Time Lord suffered a great loss in the divine country of a supreme god, human Warlocks are very careful when dealing with gods, and won't enter a divine country rashly.

Of course, if it is an Infinity Warlock, they can naturally break into the divine country of a feeble divine force rank god and kill the god.

Yang Feng waved his hand, and a dense swarm of battle robots flew towards the Ice Divine Country.

The Ice Divine Country opened a huge entrance, and let the swarm of robots enter inside.

If the Ice Divine Country had activated a powerful barrier to protect itself, then it would put it in a confrontation with Yang Feng where consumption of power is key. Besieged by countless robots, the barrier would eventually break. Since this is the case, then the Goddess of Ice might as well open a passage for the robots to enter.

When the robots entered the Ice Divine Country, they were met with a snow storm.

The Ice Divine Country is shrouded in white snow, and snow storms rage everywhere.

<The current temperature is -230°C.>

<The closer you move to the central region, the lower the temperature gets.>

<Due to law interference, scanning systems cannot be launched.>

<...>

When the battle robots entered the Ice Divine Country, a series of information was fed back to Yang Feng from the level-3 optical computer.

Unlike on Earth, absolute zero (-273.15°C) is not the lowest temperature in the Cangzhi Plane. In some special environments, the spells of Glorious Sun Warlocks containing the law of ice can exceed this temperature.

Even so, a -230°C temperature is already extremely low. It is equivalent to releasing a level-3 large area of effect ice spell at all times.

Once ordinary humans enter the Ice Divine Country, they will be frozen into ices statue shortly after. Even human Warlocks below the Great Warlock rank will be quickly frozen to death if they don't cast spells to protect them from the cold. In this environment, the fighting strength of Great Warlock rank powerhouses will be weakened by more than 50%. But even Great Warlocks can't bear a long exposure to this environment.

Ice Fairies with long silver hair and snow-white skin that look like beautiful women, six-meter-tall Ice Bears, three-meter-tall Snowmen with white hair that look like men, and other creatures formed from snow and ice suddenly appeared.

Yang Feng looked at the huge divine legion and showed a playful smile: "So this is the divine legion of the Goddess of Ice. Compared to Angels, they are not up to par."

Angels are weapons the Supreme God God of Heaven who once wounded the Time Lord created.

Angels are divided into nine grades. The upper three grades are the Blazing Angel, the Seat Angel, and the Wisdom Angel. The middle three grades are the Primary Angel, the Energy Angel, and the Power Angel. The lower three grades are the Right Angel, Great Angel, and the Angel.

Angels of the upper three grades have the potential advance to the Infinity Warlock rank, while Blazing Angels even more so have the potential to evolve into existences comparable to supreme gods in terms of fighting strength. Angels of the middle three grades have the potential to evolve into existences comparable to Transcendents in terms of battle prowess. Angels of the lower three grades are unable to break through the Transcendent boundary, and at most can only reach the demigod realm.

After the Supreme God God of Heaven was slain by the Time Lord, the manufacturing methods of Angels have spread to many planes thanks to human Warlocks.

The divine legions in the Feisuo Plane are only composed of Angels and Braves.

Since the divine legion of the Goddess of Ice has neither Angels nor Braves, there is a huge disparity in terms of strength between her divine legion and the divine legions of the Feisuo Plane.

A violent hurricane of ice and snow blew towards Yang Feng's mechanical legion.

Click! Click! Along with brittle sounds, a thin layer of ice covered the mechanical legion at once.

The divine legion of the Goddess of Ice suddenly moved and swept towards the mechanical legion like a tide.

From within the seemingly frozen mechanical legion, 5,000 Undyings suddenly blurred into motion and flew into the midst of the divine legion.

With the flicker of sword rays, Ice Fairies, Ice Bears, and other divine soldiers had their limbs cut off instantly, and they collapsed on the ground, powerless.

Sealers flew out suddenly, emitted light, and sealed one divine warrior after another, who turned into fist-sized crystals.

The divine legion has an undying property, their souls unperishable to a certain extent. A divine soldier formed from the soul of a level-1 Warlock rank believer can "die" 100 times before their soul collapses and disappears. A Legend rank soul can "die" 5,000 times, a demigod rank soul can "die" 10,000 times, a feeble divine force rank soul can "die" 100,000 times, and a weak divine force rank soul can "die" 1 million times.

The undying property of divine legions is the trickiest part about dealing with them. There are only three ways of dealing with them. The first is to destroy the divine soldiers faster than they can be reborn. The second is to seal them. The last is to kill the lord of the divine country. Once the lord of the divine country dies, the undying property of the respective divine soldiers will disappear.

Yang Feng obtained a lot of information about warfare between human Warlocks and gods from the Battle Demon Sect and formulated the most appropriate response.

Each Undying possesses Starry Sky Warlock rank battle prowess. There are only 100,000 Legend rank and three demigod rank experts in the divine legion.

Under the frantic attacks of the Undyings, the huge divine legion was pierced into, broken up, and sealed continuously.

In front of Yang Feng's 3rd generation battle robots, the divine soldiers of the seemingly immense and invincible divine legion of the Goddess of Ice appeared to collapse at the first blow, their numbers decreasing at a speed visible to the naked eye.

Suddenly, a huge barrier appeared outside the Ice Divine Country, cutting off the battle robots that have entered the divine country from the battle robots outside.

After the interior of the Ice Divine Country was cut off from the outside world, the connection was also lost.

Outside the Ice Divine Country, countless battle robots attacked the barrier madly, setting off ripples. Within a short period of time, they cannot break through the barrier.

Yang Feng smiled slightly: "Launching the barrier to cut off the inside from the outside, and then annihilating the enemies that entered inside... It seems that this Goddess of Ice isn't a fool!"

When attacking a divine country, you have to consider the environment, laws, divine legion, barrier and other factors. Within a short time, even Infinity Warlocks cannot break into a divine country.

Of course, when a barrier is launched, it will consume a tremendous amount of divine force crystals at all time, which is a great burden on the divine country.

Inside the Ice Divine Country, the 100-meters-tall, beautiful Goddess of Ice's true body with snow-white skin, long silver hair, and a sexy figure exuding a bone-chilling aura suddenly appeared in the midst of the violent snowstorm.

The Goddess of Ice parted her cherry lips and performed the divine spell Breath of the Goddess of Ice, and a white freezing air exited her lips.

The temperature in the Ice Divine Country fell like crazy, and everything the white freezing air touched was frozen into ice.

3rd generation battle robots slaughtering divine soldiers were turned into ice sculptures.

Inside the Ice Divine Country, the might of divine spells conjured by the Goddess of Ice is comparable to that of advanced Glorious Sun Warlocks. With only one move, tens of thousands of 3rd generation battle robots were frozen.

Yang Feng praised: "Remarkable. As expected of a goddess inside her divine country, her combat power is really amazing."

The Artillery Robots fired small positron artilleries at the ice sculptures.

Dazzling rays slammed onto the ice statues and blasted them to pieces.

The remains of the Undyings quickly converged back into Undyings, which rushed towards the Goddess of Ice.

In one breath of time, 50,000 Undyings flew out of the ice, arrived in front of the Goddess of Ice, and slashed at her.

Cracks immediately appeared on the body of the Goddess of Ice, but then ice force surged, and the injuries of the Goddess of Ice healed instantly.

Inside the Ice Divine Country, the Goddess of Ice has all kinds of extraordinary abilities. Her healing ability inside the divine country is also very different from when she is in the outside world.

“Ice Divine Domain!” The Goddess of Ice opened her beautiful eyes, the law of ice flashed in her eyes, and immense divine force suddenly formed an Ice Divine Domain that engulfed the 50,000 Undyings.

Inside the Ice Divine Domain, enveloped by a temperature lower than the absolute zero that completely violates the rules of physics, the time of the Undyings seemed to freeze, and they fell from the sky.

Chapter 593 – Quelling the Goddess of Ice

When Yang Feng saw the Goddess of Ice exuding powerful divine might, his eye flashed with a dignified look: “Astounding! Gods in their divine country are really something else!”

According to the analysis of the level-3 optical computer, 1,000 3rd generation battle robots can quell a Moonlight Warlock. The Goddess of Ice is just a feeble divine force rank god. According to Warlock classification, she should belong to the Moonlight Warlock realm.

However, in the Ice Divine Country, the Goddess of Ice is even fiercer than Glorious Sun Warlocks. With a divine spell, she froze 50,000 Undyings. Of course, this is only possible because this divine country is filled with the law of ice. The environment here matches the divine spells of the Goddess of Ice.

Yang Feng ordered coldly: “Begin!”

Outside the Ice Divine Country, the star destroyer artillery of a Star Destroyer Battlestar shone brightly, and a dazzling beam of light crashed into the barrier enveloping the divine country.

The Ice Divine Country shook, and the barrier at last collapsed little by little, and then shattered completely.

Under the guidance of the level-3 optical computer, another star destroyer artillery fired a beam that entered the Ice Divine Country and blasted into the Goddess of Ice.

Even though the beam was weakened by the laws inside the Ice Divine Country, but it was still extremely powerful. When the beam blasted into her, half of the Goddess of Ice’s body collapsed directly.

Countless ice force permeated out from the Goddess of Ice, and her body restored quickly.

Star destroyer artillery beams were fired in an seemingly uninterrupted fashion. With the guidance of the level-3 optical computer, the beams slammed into the Goddess of Ice with great precision and blasted her into pieces.

“Go to hell!” When Yang Feng’s true body saw the Goddess of Ice being blasted apart, he drew world force from the small world inside the World Ring, blurred into motion, and appeared in front of the

Goddess of Ice, and then slammed the True God Empyrean Imprint into the godhead of the Goddess of Ice.

Countless runes poured out from the True God Empyrean Imprint, pierced into the body of the Goddess of Ice, and eroded the severely injured goddess continuously.

The Goddess of Ice issued miserable screams, and then countless divine soldiers rushed madly this way.

Forming a torrent of steel, the battle robots around Yang Feng attacked the divine soldiers with reckless abandon, not yielding a single step. Instead, they launched a counter-charge.

When the two torrents slammed into each other, the divine legion was carved open, and one divine soldier after another died. In front of the 3rd generation robot legion that can easily kill a Moonlight Warlock, the divine legion of the Goddess of Ice appears somewhat powerless.

An hour later, the countless runes of the True God Empyrean Imprint finally eroded the Goddess of Ice completely. There was a flash of light, and the Goddess of Ice was sealed into the True God Empyrean Imprint.

"I ordered you to stop attacking!" After a breath of time, the Goddess of Ice flew out from the True God Empyrean Imprint and ordered indifferently. Her eyes have lost their brightness.

"Yes! My Lord!"

The remnant divine soldiers knelt on the ground and said very unwillingly yet respectfully.

Once you have become a divine soldier, you basically cannot go against the orders of your god. Even though these divine soldiers know that the goddess they believe in has already been quelled by the treacherous Yang Feng, but they cannot disobey the orders of the goddess.

After the Goddess of Ice was dealt with, Yang Feng led the huge mechanical legion towards the divine country of the Goddess of Love.

The mechanical legion has just flown halfway, when a bright ray flew out of the divine country of the Goddess of Love and shot in the direction of the mechanical legion, revealing the exceedingly fascinating and enchanting Goddess of love.

In terms of appearance alone, Shi Xue is more beautiful than the Goddess of Love. But in terms of sex appeal, the Goddess of Love is 100 times better than Shi Xue. Under the nourishment of love divine force, the Goddess of Love can make an ordinary person be willing to die for her with a casual look.

Standing in front of the huge fleet, the Goddess of Love uttered: "Your Majesty Yang Feng, I would like to request an audience with you!"

The door of a carrier opened, revealing a passage.

The Goddess of Love smiled sweetly and stepped into the passage. After walking along the passage, she came to the bridge and sat confidently in front of Yang Feng.

Yang Feng scanned the Goddess of Love with his gaze, and his eyes flashed gravely. He pointed with a finger, and the True God Empyrean Imprint emerged from the fingertip: "Goddess of Love, hand over your soul and serve me."

The Goddess of Love smiled sweetly: "Your Majesty Yang Feng, I'm ready to abandon everything and go to the Cangzhi Plane. If you insist on getting my soul, then I have no other choice than following through with this."

Yang Feng said with a faint smile: "Gods who abandon their original plane will be hit by a backlash. If you do indeed abandon everything and go to the Cangzhi Plane, then your soul will be severely damaged and your strength will fall to below the Great Warlock rank. Besides, your lifespan will be less than 1,000 years, and you won't be able to escape the Cangzhi Plane."

The soul and advancement of a god has a mysterious connection with a plane's plane origin will. Once a god renounces everything and leaves their original plane, they will be severely injured, and might even die.

Because of this, the Goddess of Ice and the Goddess of Love could only cling to their divine country, not daring to escape rashly.

A dignified look in her eyes, the Goddess of Love spoke respectfully: "Yes, I don't want to die, nor do I want to take such a big risk. This is why I came to see you, Your Majesty. I am willing to make a Styx oath with you and serve you. However, although I am willing to serve you, but there are some things that I won't do. Your Majesty, please do not force me, and leave me with some self-respect. Otherwise, I'd rather leave everything behind and escape from here. Anyway, staying is also death."

Styx, also known as Soul Origin River, is a river of the Netherworld, and it runs through countless planes of the universe. It is everywhere, and at the same time is nowhere. Only in the Netherworld can you see Styx.

Without using secret methods or secret treasures, even Warlock Emperor rank experts will lose their soul and become empty shells when eroded by Styx.

In the countless planes, the Styx oath is one of the strongest oaths you can make. There are very few secret treasures and existences that can unravel the Styx oath.

Yang Feng pondered for a while, and then shook his head and refused: "I can promise to let you have enough self-respect, and I can make a Styx oath. But you'll have to give me your soul. The Andrak Plane is currently my base and foundation. In here, no unstable factors are allowed. If you don't agree, then go to the Cangzhi Plane! I won't stop you!"

The Styx oath is almost unbreakable. However, in the Cangzhi Plane, there are still some rare and precious treasures that can break the Styx oath.

The Andrak Plane is a grade 6 plane. Even if Warlock Monarch rank powerhouses enter this plane, they will still be suppressed to the Glorious Sun Warlock realm. Only Holy Spirit Warlock rank powerhouses may defeat the plane origin will of the Andrak Plane with unparalleled power.

As long as there are no uncertain factors in the Andrak Plane, it will be equivalent to owning an extremely safe base. By then, even if the main army of the Great Cloud Dynasty comes to attack, he has the confidence to wipe out the opponent.

Within this base, Yang Feng won't allow any forces beyond his control to exist. If the Goddess of Love doesn't agree, then he can only ask her to leave, or suppress her directly. This is related to his fundamental interests, so Yang Feng cannot take even half a step back.

The pretty eyes of the Goddess of Love shifted like clouds, and then she finally gritted her teeth and said: "Okay, I agree!"

Once the Goddess of Love leaves the Andrak Plane, her soul will be severely damaged, and her godhead will fall apart. By then, even if she reaches the Cangzhi Plane, there is a 80-90% chance that she will die.

If a human Warlock wants to become a god, then so long as they have a god slot and enough believers, it is a simple matter. However, it is very difficult for a god to transform into human Warlock. If they are careless, they will die. The connection between a god and their plane is too deep. Once the connection is severed, the godhead will fall apart, and the god may die.

After agreeing on the conditions and making the Styx oath, the Goddess of Love gave Yang Feng a strand of her soul, which he sealed in the True God Empyrean Imprint. In this way, the fate of the Goddess of Love is in his hands.

The Li Gui Province is a marvel among the Great Cloud Dynasty's lesser provinces. The Li Gui Province is both larger and richer than many greater provinces of the Great Cloud Dynasty. But it is just a lesser province, and the biggest reason for that is that it is a forbidden area for Infinity Warlocks.

After Infinity Warlocks enter Li Gui Province, they will die in less than 30 days. Since Infinity Warlocks of the Great Cloud Dynasty cannot enter the Li Gui Province, it made the province a chaotic place where Warlock groups that don't obey the rule of the Great Cloud Dynasty gather.

Although the Great Cloud Dynasty has sent countless experts to occupy an area in the Li Gui Province, but even more territory was divided between different Warlock groups. The Great Cloud Dynasty's stronghold in the Li Gui Province has been breached several times by many Warlock groups in the past 1,000 years. The Great Cloud Dynasty's Imperial Court which is tyrannical in the outside world, is stumped in the Li Gui Province.

Chapter 594 – Evil Spirit Fang

Li Gui Province, Shariman City.

It the Shariman City, a magic chariot stopped in front of the most famous brothel the Myriad Flowers Pavilion, and a burly man with short hair and a big beard exuding a formidable temperament alighted.

Two other magic chariots stopped next to the first magic chariot, and bodyguards in black suits and sunglasses alighted and surrounded the man with a big beard. These bodyguards are in fact disguised Undyings. Equipped with a layer of human flesh and skin, they look no different from human Warlocks. The man with the big beard is of course Yang Feng.

“Dear guests, is this your first time to visit our Myriad Flowers Pavilion? My name is Hong Gu, the reception manager for the Myriad Flowers Pavilion. How do I address you?” When a woman with long purple-black hair in a revealing black evening dress exuding the charm of a mature woman saw Yang Feng coming in, she sized up the eight bodyguards besides Yang Feng discretely, her pretty eyes brightened, and she smiled and greeted him enthusiastically.

Looking like the son of a big shot, Yang Feng revealed a frivolous smile and uttered: “My surname is Lei, you can call me Young Master Lei. I heard that Qian Ningshuang of the Myriad Flowers Pavilion is the number Miss in the Shariman City. Ask her to accompany me.”

The eight Undyings simulated Starry Sky Warlock rank fluctuations of power at once.

“Amazing. For this man to have eight Starry Sky Warlocks as bodyguards, his background isn’t simple. I must not offend him.”

Her mind revolved lighting fast, and then Hong Gu spoke with a sweet smile: “Yes. Young Master Lei, this way, please.”

Under Hong Gu’s lead, Yang Feng entered a private room and sat down. The eight Undying bodyguards stood aside, silent.

Soon, a girl with porcelain skin, long, waterfall-like black hair, a small yet sexy figure entered the private room.

Qian Ningshuang bowed in salute and uttered, looking meek and pitiable: “I am Ningshuang. Greetings, Young Master Lei.”

Yang Feng’s eyes lit up. He beckoned with his hand, and an attractive force caught Qian Ningshuang and pulled her into his arms. He said with a careless smile: “Ha-ha, come here, have some drinks with me.”

Acting coquettishly and cute, Qian Ningshuang began attending to Yang Feng with great care.

After three rounds of alcohol, there was a knock on the door, and Hong Gu entered and said with a forced smile: “Young Master Lei, would you mind to exchange for another girl? If you are willing, we will offer you a 50% discount on your expenses in the Myriad Flower Pavilion today.”

The smile on Yang Feng face disappeared suddenly. Eyes shimmering coldly, he flicked his finger, and a pouch suddenly flew out. Countless magic crystals flew out of the pouch like a tide and spilled on the ground. He uttered, arrogant and domineering: “I have magic crystals. Today, I came here to enjoy myself because I think highly of the Myriad Flowers Pavilion. Yet the Myriad Flowers Pavilion wants to make me lose face. Are you sick of living, is that it? Believe it or not, but if I want to, I can level the Myriad Flowers Pavilion!”

Hong Gu spoke softly: “I believe it, of course I believe it. Young Master Lei, it is the Young Master of the Evil Spirit Fang who wishes the company of Ningshuang. The Myriad Flowers Pavilion cannot oppose the Young Master of the Evil Spirit Fang, so please forgive me. How about this, the Myriad Flowers Pavilion’s Miaofu is a girl as beautiful as Ningshuang. It would be better to have Miaofu accompany you. Today, the Myriad Flowers Pavilion will cover all your expenses. What do you think?”

To have eight Starry Sky Warlocks as bodyguards, and be able to easily take out countless magic crystals, Yang Feng must be the son of a powerful big shot. The Myriad Flowers Pavilion doesn't dare to offend him lightly.

Big shots know of the principle live and let live. But their children are ruthless and unscrupulous. If they target the Myriad Flowers Pavilion, it is entirely possible for them to kill everyone in the pavilion.

The Evil Spirit Fang is one of the four tycoons of the Li Gui Province's Shariman City, and it has two Moonlight Warlock guardians. A small force like the Myriad Flowers Pavilion doesn't dare to oppose the Young Master of the Evil Spirit Fang.

Yang Feng smiled coldly and waved his hand, and a queer skull slammed into the table, which then turned into black dust. He spoke: "Evil Spirit Fang? Never heard of it. Ask him take a hike, and don't disturb me. Otherwise, he will regret it."

Just as Qian Ningshuang wanted to say something coquettishly she saw Yang Feng's eyes reveal frigid killing intent, and she fell silent at once.

For children of top bigwigs, face is more important than anything else. If they are slighted, then even a beautiful Warlock like Qian Ningshuang will be killed directly.

"Not even caring about I, the Evil Spirit Fang's Young Master, how daring. You son of a bitch, are you tired of living or what?!" An unruly and domineering voice sounded, and a handsome young man exuding a gloomy aura strode in and sneered.

This young man is the Young Master of the Evil Spirit Fang. The young man is followed by four other young men, each of whom looks handsome, and carries the air of a silk pants.

In an elegant secret room in the Myriad Flowers Pavilion, a beautiful girl in white with an unearthly temperament reclining on a water bed stared at a screen. The screen depicted the scenes of Yang Feng's room.

The beautiful girl in white ran her fingers atop the water bed and revealed a look of curiosity: "Who is that? I've never met him. To have eight Star Sky Warlocks as bodyguards, what are his origins?"

Beside the beautiful girl in white stood a middle-aged man with an expressionless face. The middle-aged man emitted Moonlight Warlock rank fluctuations of power.

There was a flash of cruelty in his eyes, and the Young Master of the Evil Spirit Fang said with a cold smile: "Old man, cut off his limbs, shove him into an urn, and throw the urn into the Myriad Snakes Cave!"

The Li Gui Province's Shariman City isn't under the control of the Great Cloud Dynasty, but is under the control of the four tycoons. The four tycoons are in control of the fate of countless people. As the only son of the Master of the Evil Spirit Fang, this Young Master has been arrogant, domineering, and ruthless since young. Except for Warlocks on the same level as the four tycoons, he doesn't care about anyone else.

“Yes! Young Master!” A man standing behind the Young Master suddenly opened his eyes, and a 30-centimeters-long horn immediately grew on his head, and he transformed into a 3-meter-tall Unicorn Evil Ogre, and Starry Sky Warlock rank wicked aura permeated out of him.

Yang Feng’s eyes flashed with killing intent, and he ordered frigidly: “Kill that bastard, and kill anyone blocking your way!”

An Undying suddenly blurred into motion and appeared in front of the Unicorn Evil Ogre.

The Unicorn Evil Ogre was torn into countless fragments that spattered on the ground.

After instakilling the Unicorn Evil Ogre, the Undying appeared before the Young Master of the Evil Spirit Fang in a flash and slashed at the other party’s forehead.

A bead suddenly flew out of the chest of the Young Master, turned into a skull carved with numerous runes exuding a dense ogre qi, and activated a black barrier.

The Undying slashed at the black barrier, and its sword ricocheted.

“You killed my servant and even attacked me, you’re dead! You’re going to die today! No one can save you!” There was a flash of fear in the eyes of the Young Master, and then he roared, furious.

The skull shot out black gas from its mouth, and a huge skull appeared in the air and issued a ghost-like wail.

“Evil Spirit Command!”

“The Evil Spirit Fang’s Evil Spirit Command, what happened?”

“Why is there the Evil Spirit Command in the Myriad Flowers Pavilion?”

“...”

When the Warlocks in the Shariman City saw the huge skull wailing in the air, their faces fell, and they quickly hid in their homes.

The Shariman City, inside the Evil Spirit Fang’s encampment, numerous Warlocks in black robes gathered quickly.

“Son of a bitch, who is it? How dare they attack my son? I will cut them into 10,000 pieces!” A handsome-looking man with engraved with runes covered in red, sitting in a pool of blood immediately opened his eyes, which are shot with blood, and bellowed wildly.

An overbearing aura rose inside the Shariman City and shot towards the Myriad Flowers Pavilion.

The Undying slashed violently at the barrier formed by the Evil Spirit Order and set off ripples. However, is isn’t able to break the barrier within a short time.

The Evil Spirit Fang’s Young Master revealed a sinister and cruel smile and said, “You son of a whore, you forced me to use the Evil Spirit Order. You’re dead! Kneel now and cut off your hands, and I will spare your lowly life and make you my dog! I will lock you in the kennel and let you get intimate with the dogs!”

Evil Spirit Order is an important treasure of the Evil Spirit Fang that has the level-6 defensive spell Wicked Ghost Skull Barrier sealed inside. Every time it is discharged, the Evil Spirit Fang will have to spent a tremendous amount of resources to seal the spell again. Now that the Young Master of the Evil Spirit Fang used the Evil Spirit Order, he won't be able to have the protection of the Evil Spirit Order for a long time, which made him furious to the extreme.

There was a streak of contempt in the eyes of the beautiful girl in white in the secret chamber: "Evil Spirit Order! To be able to use such a first-rate secret treasure at will, what a silk pants. It's no wonder that although the Master of the Evil Spirit Fang is the number one expert in the Shariman City, but the Evil Spirit Fang is the weakest of the four forces."

Chapter 595 – Quelling Evil Spirit Fang

With a frigid smile, Yang Feng took out an orb and threw it casually: "You have called for reinforcements? Then I'll do the same! Let's see who's reinforcements are more powerful!"

The orb suddenly flew into the sky, opened, and emitted a giant mountain projection exuding strong demonic qi.

5,000 3rd generation battle robots disguised as human Warlocks driving lightning fast aboard magic chariots quickly headed for Myriad Flowers Pavilion.

"Kill them!" When the Master of Evil Spirit Fang saw the 5,000 Undyings, he quickly concluded that they are likely Yang Feng's men, and he ordered without hesitation.

With bright lights, Evil Spirit Fang's Warlocks transformed into various evil ogres of Evil God Plane.

There are some similarities between Evil Spirit Fang's Warlocks and Fuso Subcontinent's Warlocks, in the sense that they both use evil ogre bloodlines from Evil God Plane and cultivate various evil secret methods.

After they transformed, the Warlocks from Evil Spirit Fang blurred into motion and rushed towards the Undyings.

"The Warlocks of Evil Spirit Fang are fighting foreign Warlocks. Zhan Gui's son stirred up a hornet's nest this time."

"Evil Spirit Fang's Warlocks are very strong. Those foreigners don't even have a Moonlight Warlock. It seems that they will suffer a big loss!"

"..."

Warlocks from Shariman City's other three tycoons watched on from the sidelines, showing no intention to give a helping hand.

Although Evil Spirit Fang is the weakest of the four tycoons of Shariman City, but Zhan Gui, the Master of Evil Spirit Fang, is the number one expert in Shariman City. Moreover, Warlocks with evil ogre bloodline can't differentiate between foe and friend once they went on a killing spree.

There are countless powerful evil gods in Evil God Plane. In terms of the number of powerhouses alone, even Cangzhi Plane's human Warlocks can't compare. However, Evil God Plane's evil gods fight amongst themselves ceaselessly, which is why they haven't become a thorn in Cangzhi Plane's side.

The dense swarm of Undyings suddenly erupted with Mach 20 speed and shot towards Evil Spirit Fang's Warlocks.

Following a series of afterimages, Warlocks of Evil Spirit Fang were instantly turned into countless fragments that fell to the ground.

The smile on Zhan Gui's face stiffened, his eyes flashed with incredulity, and he cried out, "How, how is this possible? How come there are so many Starry Sky Warlocks?"

Even if it is Shariman City, Starry Sky Warlock are considered experts. Evil Spirit Fang only has 30 Starry Sky Warlocks. The 5,000 Starry Sky Warlocks are a terrifying force.

With a blur, an Undying appeared in front of Zhan Gui, slashed at the other party's life force field with a sword, and cut it open.

"It doesn't matter who you are, but since you want to kill me, then die!" Eyes shot with blood, Zhan Gui bellowed, and numerous weird runes extended down his face. His body expanded suddenly, and he turned into a 1,000-meter-tall Hegemon Evil Ogre covered with sharp bone spurs exuding terrifying might.

Hegemon Evil Ogres are one of the strongest races among Evil God Plane's evil ogres. In the archgod era, Hegemon Evil Ogres have produced two Warlock Emperor rank powerhouses. But due to their stupidity, they were played by the Time Lord, and fought each other, which gave the Time Lord an opportunity to kill them. At that time, the Time Lord still might not have been an opponent of the two Hegemon Evil Ogres.

Once Zhan Gui transformed into a Hegemon Evil Ogre, an overbearing aura spread from him. Warlocks throughout Shariman City can feel the fearsome might released by Zhan Gui. After he transformed into a Hegemon Evil Ogre, even some weaker Glorious Sun Warlocks are not his match.

Flashing around the Hegemon Evil Ogre, the 5,000 Undyings slashed at the opponent with their sharp swords. After one breath of time, the Hegemon Evil Ogre was cut into countless pieces, and a copious amount of blood spewed out in all directions.

"Defeated? Zhan Gui, Zhan Gui was defeated?"

"What's going on?"

"How, how could Zhan Gui have lost?"

"..."

Struck dumb, the Warlocks watching the fight cannot believe their eyes. Zhan Gui is the number one expert on Shariman City. After transforming into a Hegemon Evil Ogre, he's even stronger. No one can beat him in a one on one fight. Yet such top-level expert was instakilled by the 5,000 Undyings, making the blood of the onlookers run ice-cold.

A Moonlight Core suddenly shot out from the remains of the Hegemon Evil Ogre and flew towards the Warlock tower of Evil Spirit Fang.

As Transcendent level experts, Moonlight Warlocks have numerous ways for them to be reborn. Even if their body is chopped into pieces, but as long as the Moonlight Core is intact, they will have a way for them to be reborn.

A Sealer spread the fingers of a hand, and a ray of light hit the Moonlight Core.

Suddenly, a dense evil aura emerged from the Moonlight Core and tried to break away from the light. After struggling for a while, the Moonlight Core was sealed into a crystal.

1,000 3rd generation battle robots quickly began to clean the battlefield, and the remaining 4,000 3rd generation battle robots flew towards Myriad Flowers Pavilion at Mach 20 speed.

Within a few breaths of time, 4,000 3rd generation battle robots wearing black suits and sunglasses appeared in Myriad Flowers Pavilion.

As if carved out of stone, the 4,000 battle robots stood silently and stared coldly at the Young Master of Evil Spirit Fang.

In the secret chamber, the pretty eyes of the beautiful girl who looks like nothing can faze her flashed with envy and dignity: "What formidable soldiers. They are not only jagged and unswerving elites, but they are also Starry Sky Warlocks. Who is that silk pants? How come there are so many elites serving him?"

The computing chips of the 4,000 battle robots are embedded with the fighting patterns of Other Plane Development Division's most elite Starry Sky Warlocks. Therefore, unlike ordinary Starry Sky Warlocks, every movement of theirs screams of elites.

In Cangzhi Plane, Other Plane Development Division's Starry Sky Warlocks may even kill Moonlight Warlocks who aren't proficient in combat. That's the difference between elite and ordinary Warlocks.

When Hong Gu saw the 4,000 3rd generation battle robots, her body trembled and her eyes filled with fear: "Fortunately, I didn't offend him just now. These silk pants are each scarier than the last one."

Yang Feng looked at the Young Master of Evil Spirit Fang and company and uttered coldly: "Kill them all!"

Following a blur of figures, the 4,000 3rd generation battle robots attacked Evil Spirit Order's barrier, and the barrier shook at once.

"No, I don't want to die, let me go! I don't want to die" The Young Master of Evil Spirit Fang trembled, his face distorted in terror, two lines of yellow liquid flowed down his legs, and he screamed miserably.

The next moment, the barrier collapsed, and the fierce and ruthless Young Master of Evil Spirit Fang was chopped into countless pieces in an instant. The several lackeys next to him were also killed in an instant.

"Evil Spirit Fang came to me for trouble, truly reckless. Starting today, Evil Spirit Fang shall no longer exist in Shariman City." Yang Feng's eyes shimmered coldly, and he got up and strode outside.

Following behind Yang Feng, the 4,000 3rd generation battle robots walked in a virtually uniform pace.

The beautiful girl raised her eyebrows slightly and guessed Yang Feng's intention: "He's going to Evil Spirit Fang to level it!"

All the way up to Evil Spirit Fang's base, everything was peaceful. No one daring to stop this army.

With a flicker of light, a thin man with long red hair exuding a wicked charisma flew out of Evil Spirit Fang's headquarters. Standing in midair, the man admitted defeat loudly: "I am Ma Qianming, the Great Elder of Evil Spirit Fang! Young Master Lei, everything that happened before was the fault of Zhan Gui and his son. They are now dead. On behalf of Evil Spirit Fang, I apologize to you, Young Master Lei. At the same time, I am willing to compensate you with 300 beautiful Warlocks. Why don't we turn hostility into friendship?"

Zhan Gui who practices Hegemon Evil Ogre Transformation Secret Method is the backbone of Evil Spirit Fang. However, he was instakilled by the 5,000 3rd generation battle robots. Although Ma Qianming is also a Moonlight Warlock, but he doesn't want to be enemies with Yang Feng.

Yang Feng uttered coldly: "I said – starting today, Evil Spirit Fang shall no longer exist in Shariman City."

Yang Feng has plotted this all from the start. He has decided to eliminate Evil Spirit Fang and replace it, which is why he clashed with Evil Spirit Fang's Young Master in Myriad Flowers Pavilion. So why would he back down now?

"If that's the case, then do as you please! I, Ma Qianming, hereby quit Evil Spirit Fang! Goodbye!" Without hesitation, Ma Qianming turned into a stream of bloody light and fled, not caring about the fate of his comrades in Evil Spirit Fang.

"This Ma Qianming is rather decisive!" Yang Feng was slightly surprised. He pointed at the base of Evil Spirit Fang and cast a spell to detect evil, and beams of wicked light soared into the sky from the base. Apparently, virtually all Warlocks in Evil Spirit Fang are wicked characters, their hands stained with blood.

Yang Feng ordered coldly: "Attack!"

Chapter 596 – Way of the Dragon [1]

With Zhan Gui dead and Ma Qianming gone, the Warlocks of Evil Spirit Fang have no desire to fight. Along with flashes of light, they fled in different directions.

The Undyings fluttered into motion and started slaughtering the opponent.

Every Warlock of Evil Spirit Fang has a lot of cultivation resources on them. With them wiped out, it will bring in Yang Feng a great wealth.

Before long, the Warlocks in Evil Spirit Fang's base were quelled, and all Warlocks radiating strong wicked light were killed.

With great trepidation, the other three tycoons of Shariman City watched Yang Feng eliminate all Warlocks of Evil Spirit Fang. After occupying their base, Yang Feng purified the Warlock tower, and began to lay new defenses.

“Wings of Fire’s Qiao Mingzheng is here to pay a visit!”

“Gloom Worm’s Xu Wu is here to pay a visit!”

“Radiant Crow’s Ye Yifan is here to pay a visit!”

As Yang Feng was examining the assets of Evil Spirit Fang, three voices came from outside. The three people emitted pinnacle Moonlight Warlock rank fluctuations of power.

Wings of Fire, Gloom Worm, Radiant Crow, and Evil Spirit Fang are jointly known as Shariman City’s four tycoons. With Shariman City as the core, they control the fate of billions of people within an area of 10,000 kilometers in radius.

Qiao Mingzheng, Xu Wu, and Ye Yifan are the leaders of Wings of Fire, Gloom Worm, and Radiant Crow respectively.

Yang Feng contemplated for a moment, and then said: “Let them in!”

An Undying walked out of Evil Spirit Fang’s base and spoke to the three tycoons in a neither servile nor overbearing tone: “Gentlemen, the Young Master invites you in!”

There was a flash of dissatisfaction in the eyes of Gloom Worm’s Xu Wu, and he snorted coldly: “How arrogant.”

Qiao Mingzheng narrowed his eyes and glanced at the Undying, and then strode into Evil Spirit Fang’s base.

When the three tycoons entered the base, they sensed Undyings hiding in the shadows staring coldly at them.

The three tycoons don’t fear the Undyings on an individual basis, and they each can easily kill more 10 Undyings. But when besieged by 5,000 Undyings, they won’t fare any better than Zhan Gui.

After crossing several corridors, the three tycoons came to a large hall, where they saw Yang Feng sitting on a throne.

On both sides of the hall, there are 3rd generation battle robot standing like statues.

Looking at the three tycoons from above the throne, Yang Feng spoke in an unruly and prideful tone, just like a silk pants: “I am Lei Ming, the Young Master of Undying Mountain. You can call me Young Master Lei.”

Qiao Ming’s face changed drastically: “Undying Mountain? Could it be Undying Mountain that fought 6th Warlock Dynasty and the Golem Lord?”

Xu Wu and Ye Yifan are shocked as well. Looking at Yang Feng, their eyes are full of curiosity and fear.

Undying Mountain was a powerful Warlock group that inherited part of the power 5th Warlock Dynasty Death Dynasty. After the collapse of 5th Warlock Dynasty, Undying Mountain remained the most powerful Warlock group in Cangzhi Plane for a long time.

At the time of his rise, 6th Warlock Dynasty's Golem Lord was once persecuted by the forces of Undying Mountain and forced to escape to another plane.

After 6th Warlock Dynasty's Golem Lord has ascended the throne, he used unparalleled power to destroy Undying Mountain and kill countless of its experts.

The remaining powerhouses of Undying Mountain escaped from Cangzhi Plane and began wandering Astral Boundary. Few people know of their circumstances.

In Cangzhi Plane, every so often, ancient Warlock groups will return from secret places, among which are Warlock groups like Battle Demon Sect that were forced into hiding in other planes of Astral Boundary.

When ancient Warlock groups such as Undying Mountain return from other planes, they are generally far weaker than when they were at their peak. But no matter how weak they are, they can easily crush Warlock groups like Wings of Fire that have Moonlight Warlocks at most.

Yang Feng glanced at the three tycoons and said faintly: "Evil Spirit Fang attacked me. From today on, all assets of Evil Spirit Fang are owned by Undying Mountain. Do you have any objections?"

As one of Shariman City's four tycoons, Evil Spirit Fang controls many assets such as casinos, brothels, slave trade, and secret treasure shops.

Yang Feng orchestrated the conflict with Evil Spirit Fang's Young Master in order to seize all assets of Evil Spirit Fang.

The three tycoons exchanged looks, and then uttered: "No objections!"

Of course, the three tycoons are also very interested in the assets of Evil Spirit Fang. But since Yang Feng wiped out Evil Spirit Fang, it's natural for him to take the assets. The three tycoons are not willing to fall out with Yang Feng. After all, Yang Feng's Undyings are too fearsome. Even if the three Warlock groups join forces, they may not be Yang Feng's match.

Qiao Mingzheng spoke: "Young Master Lei, Shariman City is under the jurisdiction of Nethermoon Ogre Dragon. If you want to take root in Shariman City, you have to obtain permission from Nethermoon Ogre Dragon."

In Li Gui Province, there are Five Heavenly Lords and Nine Heavenly Ogres. Five Heaven Lords are constituted by Song family, Ye family, Zhan family, Zhao family, and Chen family. Nine Heavenly Ogres are constituted by Nethermoon Ogre Dragon, Thunder Demon Evil Ogre, Purgatory Ogre, Ogre Worm Pavilion, Cool Breeze Abode, Seven Stars Abode, Secret Treasure City, Water Moon Heaven, and Thunder Demon Sect.

At one point, Five Heavenly Lords have been glorious in Eastern World, and were even stronger than the current Eight Great Families. Of Nine Heavenly Ogres, apart from Nethermoon Ogre Dragon and

Thunder Demon Evil Ogre, the other seven forces have once been glorious in Eastern World. In their prime, they were even stronger than Battle Demon Sect.

Five Heavenly Lords and Nine Heavenly Ogres are the masters of Li Gui Province. Great Cloud Dynasty once attacked Li Gui Province, but then was defeated by a coalition formed by Five Heavenly Lords and Nine Heavenly Ogres, suffering heavy casualties and loosing five Bright World Warlocks in the process.

After the defeat, Great Cloud Dynasty reluctantly gave up Li Gui Province, and just established a stronghold in the province, which symbolizes that the province is the territory of Great Cloud Dynasty. After which, it stopped attacking the province.

Eastern World's land is under the control of Great Cloud Dynasty. Although Li Gui Province is rich in resources, but it's impossible for Infinity Warlocks to enter it. It's of little value for Great Cloud Dynasty. Coupled with the desperate resistance of Five Heavenly Lords and Nine Heavenly Ogres, Li Gui Province became the sphere of influence of Five Heavenly Lords and Nine Heavenly Ogres.

Shariman City is in the sphere of influence of Nethermoon Ogre Dragon. If Yang Feng was only passing through, there would no issues. However, if he wants to replace Evil Spirit Fang and become one of the four tycoons in Shariman City, he must get the permission of Nethermoon Ogre Dragon.

Of course, if Yang Feng has the strength to fight with Nethermoon Ogre Dragon, he naturally can ignore Nethermoon Ogre Dragon. However, Nethermoon Ogre Dragon Warlock group has Bright World Warlocks. If he started a war rashly, then even though Yang Feng has already manufactured many 3rd generation battle robots and upgraded 2nd generation battle robots, but he still has no guaranty of victory.

Besides, Nethermoon Ogre Dragon has been in power in Li Gui Province for more than 10,000 years, so who knows what trump cards they have up their sleeve. If he doesn't have to, Yang Feng is reluctant to fall out with forces such as Nethermoon Ogre Dragon.

Yang Feng uttered flatly: "I got it. In a few days, I will go to Ogre Dragon City."

Ogre Dragon City is the capital of Nethermoon Ogre Dragon Warlock group as well as one of the 14 giant cities in Li Gui province. Five Heavenly Lords and Nine Heavenly Ogres have each built a giant city. With a giant city as the center, they projected influence into the surroundings, taking complete control of Li Gui Province.

In Lu Gui Province, only Li Gui Demon Mountain, one of the most restricted areas in the continent, is not under the control of Five Heavenly Lords and Nine Heavenly Ogres.

Li Gui Demon Mountain has existed ever since the archgod era. According to ancient records, some powerful Holy Spirit Warlocks entered Li Gui Demon Mountain and died.

Of the eight Warlock Emperors, except for the Dawn Lord, the other seven Warlock Emperors have entered Li Gui Demon Mountain, and they all have returned alive. But none of the other Warlocks who entered Li Gui Demon Mountain have come out.

In short, Undying Mountain Yang Feng had made up replaced Evil Spirit Fang and became one of the four tycoons in Shariman City.

The modified 2nd generation battle robots quickly integrated into Shariman City, replaced the Warlocks of Evil Spirit Fang, and took over the assets.

A few days later, Yang Feng received an invitation letter from Ogre Dragon City.

After getting the invitation, Yang Feng immediately set off for Ogre Dragon City.

Ogre Dragon City's city wall is 500 meters tall, and it has eight gates. Each of the gates has an eight-story-tall Warlock tower located nearby.

As soon as he entered Ogre Dragon City, Yang Feng saw Succubi, Churels, and other beauties from other races walking in the streets, painting a beautiful scenery.

In Ogre Dragon City, Yang Feng rented a huge manor.

The next day, he came to the sacred mountain Nethermoon Ogre Dragon was located in and handed the invitation to a Great Warlock guard.

The Great Warlock soon came back and said, "Young Master Lei, the Sect Master invites you in!"

Yang Feng nodded and went inside.

After crossing multiple corridors, he stepped into a hall, where he saw a handsome man looking to be 21 or 22 years old exuding a domineering aura. This young man is Liu Boen, the Sect Master of Nethermoon Ogre Dragon.

[1] – Way of the Dragon is the name of a film with Bruce Lee, and it roughly means – a talented person doesn't fear challenges

Chapter 597 – Bronze Warrior

Liu Boen looked at Yang Feng with killing intent in his eyes and uttered frigidly: "Lei Ming, you've got guts! To wipe out Evil Spirit Fang, does Undying Mountain want to be enemies with Nethermoon Ogre Dragon?"

Quasi-Bright World Warlock rank might permeated out from Liu Boen and shrouded Yang Feng. Even though Yang Feng has advance Moonlight Warlock rank cultivation base, but he still feels a tremendous pressure.

Yang Feng looked Liu Boen straight in the eyes and said indifferently: "Sect Master Liu, people from Evil Spirit Fang attacked me first. We only acted in self-defense. Undying Mountain has no intention of being enemies with you. But if you are determined to fight us, Sect Master Liu, Undying Mountain will meat you head on."

Liu Boen responded coldly: "You're talking a big game. My Nethermoon Ogre Dragon doesn't welcome you. Leave Shariman City at once, or we'll regard you as an enemy."

Undead Mountain fabricated by Yang Feng seems to have a deep background, so many Warlock groups feel that it is the same Undying Mountain from before 6th Warlock Dynasty.

For such an ancient Warlock group to return to Cangzhi Plane, they need land and resources. They are bound to clash with other Warlock groups.

Liu Boen will never allow those powerful ancient Warlock groups to settle within his domain. Otherwise, in the future, the first thing they will deal with is Nethermoon Ogre Dragon.

Yang Feng smiled slightly and said: "Fine, Undying Mountain will withdraw from Shariman City. However, Sect Master Liu, I hope that you won't regret today's decision."

Liu Boen spoke indifferently: "Leave!"

Yang Feng left without hesitation, and then left Ogre Dragon City.

Yang Feng put Evil Spirit Fang's assets in Shariman City on sale. As Nethermoon Ogre Dragon wants Yang Feng to get out as soon as possible, it hinted for the remaining three tycoons to buy the assets at a high price, which made Yang Feng not a small penny

Yang Feng left Nethermoon Ogre Dragon's sphere of influence and went directly to Moon Heaven City, which is the capital of Water Moon Heaven, a force hostile to Nethermoon Ogre Dragon.

When he entered Moon Heaven City, he sent invitations to Five Heavenly Lords and Nine Heavenly Ogres as well as other forces with Moonlight Warlocks in Li Gui Province.

Nethermoon Ogre Dragon, in the sacred mountain.

Liu Boen scanned the invitation with his gaze, and his eyes revealed contempt. He flicked with his finger, and a flame rose suddenly and burned the invitation into ashes: "Secret treasure auction. Secret treasures that can transform the strength of a force will be auctioned. Humph, playing to the gallery. That should be level-9 secret treasures. How can such secret treasures be put up for auction?"

Inside a manor, the mysterious girl in white who was in Myriad Flowers Pavilion in Shariman City looked at the invitation and smiled: "Secret treasures that can transform the strength of a force? Interesting, is Undying Mountain willing to put level-9 secret treasures up for auction?"

In a luxurious castle, a handsome boy holding an invitation revealed a pensive expression: "This Young Master of Undying Mountain is a little treacherous, but he doesn't seem to be a fool. What might those secret treasures be?"

Originally, Five Heavenly Lords and Nine Heavenly Ogres wouldn't take this inexplicable invitation seriously. However, in the fight in Shariman City, Undying Mountain used 5,000 Starry Sky Warlocks and instakilled Zhan Gui who can contend against Glorious Sun Warlocks. In everyone's view, Undying Mountain is an ancient Warlock group that is about to return, which is why it has attracted the attention of many Warlock groups.

Some of Five Heavenly Lords and Nine Heavenly Ogres are interested in the auction, others are dismissive of it, and destroyed the invitation sent by Yang Feng.

Tempted, the leaders of many Warlock groups in Li Gui Province converged towards Moon Heaven City.

A month later, hundreds of Warlock leaders from different forces are sitting in a large conference center in Moon Heaven City.

In the front row, there are 14 chairs reserved for Five Heavenly Lords and Nine Heavenly Ogres.

Of the 14 chairs, only four have people occupying them. They are the mysterious girl in white from Myriad Flowers Pavilion, a handsome boy, a fat man with a rune engraved on the forehead, and a thin middle-aged man with an expressionless face.

In the conference center, the Warlock leaders from different forces watched the four people with awe and fear in their eyes.

The mysterious girl in white asked curiously: "Wei Hao, what secret treasures do you think Lei Ming is going to auction?"

Wei Hao is one of Water Moon Heaven's true disciples, and he holds a very high position in Water Moon Heaven.

There was a flash of admiration in Wei Hao's eyes, and he replied with a smile: "Xiangxuan, when that Lei Ming came to Moon Heaven City, he immediately sent out invitations, and then stayed inside the conference center. I don't know what sort of secret treasures he plans to auction."

Hua Xiangxuan is one of the top eight beauties in Li Gui Province, ranked as number two. She is not only beautiful, but is also the only direct kin of the City Master of Secret Treasure City. Countless talented youngsters in Li Gui Province are her admirers.

Wei Hao carried on with a smile: "Secret treasures that can transform the strength of a force? This is definitely an exaggeration. If there are such secret treasures, would they be willing to sell them? But since this is taking place within Moon Heaven City, I came to take a look."

Hua Xiangxuan smiled sweetly: "The world is big and full of mysteries. 7th Warlock Dynasty Magic Note Dynasty has developed many secret treasures such as Magic Note Throne that can transform the strength of a force."

At this moment, Yang Feng walked in from a side chamber and came to the dais. Curious gazes focused on him.

No one dares to look down on the legendary Young Master of the ancient Warlock group Undying Mountain.

"I am Lei Ming, the Young Master of Undying Mountain. Ladies and Gentlemen, you all came from afar to see the secret treasures that can transform the strength of a force. This is the said secret treasure." Yang Feng took out a bronze necklace engraved with a rune and inlaid with a fist-sized crystal. He beckoned with a hand, and a level-1 Warlock walked in.

Yang Feng threw the necklace to the level-1 Warlock.

The level-1 Warlock pressed the necklace. Bronze light shone, and the bronze necklace instantly broke down and formed a set of bronze armor that covered him, and Great Warlock life force field permeated out of him.

“Great Warlock!”

“With this secret treasure, a level-1 Warlock can become a Great Warlock! What an astounding secret treasure!”

“To be able to transform a level-1 Warlock into a Great Warlock, that’s such a wonderful secret treasure.”

“ ... ”

The eyes of the leaders from different forces brightened, and they praised.

It’s very difficult to cultivate Warlocks. In Li Gui Province, Warlocks at level-1 and above can be seen everywhere. But Great Warlocks, they are most elite soldiers placed in forces such as Nethermoon Ogre Dragon and Water Moon Heaven.

Yang Feng smiled, saying: “This secret treasure is named Bronze Warrior and is classified as a level-4 secret treasure. With it, Warlocks at level-1 and above can display Great Warlock rank power. Of course, the stronger a Warlock is, the longer they can last in a fight. Level-1 Warlocks can fight for 1 hour. Level-3 Warlock can fight for 10 days. Undying Mountain can supply an unlimited amount of this secret treasure, with each piece being priced at 100,000 magic crystals.”

“An unlimited amount of this secret treasure can be supplied!”

“Did the alchemy of Undying Mountain reach such a degree?”

“If this is the case, then the secret treasure Bronze Warrior can really transform the strength of a force!”

“ ... ”

The leaders of the various forces stared at Bronze Warrior with a scorching light in their eyes.

In Li Gui Province, any Warlock group that has existed for more than 1,000 years and has a Moonlight Warlock standing guard will have more than 1 million official Warlocks. If all of the more than 1 million Warlocks become Great Warlocks, that power will make even a Glorious Sun Warlock wary.

The originally somewhat absent-minded Hua Xiangxuan, Wei Hao, and the other two Warlocks from Five Heavenly Lords and Nine Heavenly Ogres all showed dignified looks.

Wei Hao said gravely: “If there is an unlimited supply, then Bronze Warrior is indeed a secret treasure that can transform the strength of a force.”

When faced against 1,000 Great Warlocks, a Moonlight Warlock can easily defeat them. But when faced against 100,000 Great Warlocks led by a Starry Sky Warlock who can form a magic array, a Moonlight Warlock may be quelled.

A complicated look in her eyes, Hua Xiangxuan felt a sense of danger: “Unlimited supply, how many Alchemists does Undying Mountain have? Do they have more Alchemists than our Secret Treasure City? Otherwise, how could it be possible to make so many Bronze Warriors?”

Secret Treasure City is famous in Li Gui Province for its alchemy. Virtually all forces cooperate with Secret Treasure City and buy a lot of secret treasures from them to strengthen themselves.

Now that Yang Feng's Undying Mountain has appeared with an unlimited supply of Bronze Warrior secret treasure, it's easy to imagine that it will prompt the forces to buy them. This fact gave rise to a sense of danger inside Hua Xiangxuan.

Chapter 598 – Scrambling for Silver Warriors

Yang Feng smiled and clapped his hands, and a Great Warlock walked in from a side chamber.

Yang Feng cast a detection spell on the Great Warlock, and a powerful life force field permeated out of the Great Warlock.

The Warlock leaders operated secret methods, unleashed eye abilities, looked at the Great Warlock, and peered into the real situation of the Great Warlock.

"An ordinary Great Warlock."

"Great Warlock!"

After he gave the Warlock leaders time to perform their investigations, Yang Feng flipped his hand, and a silver necklace identical to the bronze necklace appeared in his hand: "This is Silver Warrior made by Undying Mountain. With it, a Great Warlock can contend against a Starry Sky Warlock."

Yang Feng threw the silver necklace to the Great Warlock. The Great Warlock pressed the silver necklace. Countless silver parts covered him and turned him into a silver-armored warrior, and Starry Sky Warlock rank might permeated out of the Great Warlock.

"Starry Sky Warlock! What a marvelous secret treasure!"

"To make a Great Warlock possess Starry Sky Warlock rank battle prowess, such a formidable secret treasure!"

"If it can be supplied in large quantities, then this secret treasure is indeed a treasure that can transform the strength of a force!"

"..."

When the leaders from different forces in Li Gui Province saw the miraculous ability of the silver necklace, their eyes burst out with the light of excitement and their breathing quickened.

Li Gui Province is part of Eastern World, and the human Warlock civilization here is also extremely developed. Every force with a Moonlight Warlock standing guard has 10,000 to 20,000 Great Warlock elite troops. As for Starry Sky Warlocks, the Warlock forces don't have many. Except for Five Heavenly Lords and Nine Heavenly Ogres, none of the other forces have more than 1,000 Starry Sky Warlocks.

If Silver Warrior can be supplied in large quantities, then the Warlock forces with these secret treasures can definitely crush Warlocks forces without these secret treasures.

Gazes full of scorching light focused on Yang Feng.

Yang Feng spoke with a smile: "Each piece of Silver Warrior secret treasure is priced at 100 high grade magic crystals. If you don't have high grade magic crystals, then you may use 3 million low grade magic crystals instead. Additionally, you can use land, population, mineral resources, and cultivation resources. Undying Mountain can only produce 10,000 pieces of Silver Warrior secret treasure per month. The auction will now begin with sets of 10 pieces, and the starting price is 30 million low grade magic crystals."

A beautiful auctioneer stepped forward and said with a sweet smile: "I am Wang Ya, I am the auctioneer for this auction. Now I am officially beginning the auction with 10 pieces of Silver Warrior. The starting price is 30 million magic crystals, with a 1 million magic crystals bid increment."

Wei Hao uttered immediately: "30 million magic crystals!"

Wei Hao knows that with enough secret treasure Silver Warrior, it will greatly increase the fighting strength of Water Moon Heaven's Warlocks.

If the 10,000 Silver Warrior secret treasures fall into the hands of Water Moon Heaven, then they'll be able to overwhelm Nethermoon Ogre Dragon. As for the low grade magic crystal, they are nothing to major forces such as Water Moon Heaven and Nethermoon Ogre Dragon. Only the major forces are likely to be able to equip their soldiers with a large number of the level-5 secret treasure Silver Warrior.

The thin, expressionless middle-aged man said coldly: "31 million magic crystals!"

"32 million magic crystals!" Wei Hao frowned slightly and increased the price by 1 million magic crystals.

The fat man with a rune engraved on his forehead smiled and said: "40 million magic crystals!"

Wei Hao looked silently at the fat man with apprehension.

The fat man is Ye Wuxin, the Young Master of Ye family of Five Heavenly Lords. Not only is he a Moonlight Warlock, but he has also a ruthless disposition. More than 6 Moonlight Warlocks have died at his hands. Wei Hao is rather apprehensive of him.

The venue was silent, and Ye Wuxin easily won the 10 Silver Warrior.

In the following auctions, Ye Wuxin bid 40 million magic crystals each time and pocketed the pieces of Silver Warrior secret treasure. It didn't take long before 9,000 pieces the Silver Warrior secret treasure were in his hands.

"As expected of Ye family of Five Heavenly Lords, they are really strong. They bought so many pieces of Silver Warrior secret treasure."

"It seems that the strength of Five Heavenly Lords is indeed above that of Nine Heavenly Ogres."

"..."

The Warlock leaders in the auction venue all showed peculiar looks and mused.

"Shit! If things go on like this, won't Water Moon Heaven be overwhelmed by Ye family?"

Wei Hao suddenly awakened. A dignified glint streaked past his eyes, and he began to increase the price.

The remaining 1,000 piece of Silver Warrior secret treasure were all won by Wei Hao, who in average paid 50 million magic crystals per set of 10 pieces.

After the 10,000 pieces of Silver Warrior secret treasure were sold out, the Warlock leaders coming from different places sought out Yang Feng and bought fervently pieces of Bronze Warrior secret treasure.

“Young Master Lei, please wait a moment!” After the auction was over, Wei Hao stepped forward and called Yang Feng: “I, Water Moon Heaven’s true disciple Wei Hao, greet you, Young Master Lei.”

Yang Feng responded with a smile: “Brother Wei, how may I, Undying Mountain’s Lei Ming, help you?”

Wei Hao uttered: “I want to make friends with you, Young Master Lei, and talk about business.”

Yang Feng responded: “Okay, let’s talk inside!”

Ye Wuxin also came over and smiled, saying: “I am Ye Wuxin, the Young Master of Ye family of Five Heavenly Lords. Young Master Lei, why don’t we make friends as well?”

Yang Feng smiled like a gentleman and responded: “It’s my pleasure to become friends with you, Young Master Ye.”

Wei Hao frowned at this, but didn’t say anything.

The relationship between Water Moon Heaven and Ye family is very ordinary, neither hostile nor friendly. If he can make friends with Ye family’s Young Master, it will benefit him greatly.

With Yang Feng taking the lead, the three came to a room inside the conference center and sat down.

When Wei Hao took his seat, he said probingly: “Young Master Lei, Water Moon Heaven wants to place an order of 3 million pieces of Bronze Warrior.”

Yang Feng smiled: “No problem. Within a month, I will deliver 3 million pieces of Bronze Warrior.”

Wei Hao’s heart shook: “Amazing, Undying Mountain’s foundation runs really deep. I ask for 3 million level-4 secret treasures, and he just accepts the order. Ancient Warlock groups are really frightening.”

There are also Alchemists in Water Moon Heaven, but the number of level-4 secret treasures they have does not exceed 1 million. After all, although Water Moon Heaven creates new secret treasures continuously, but they also expend a large number of secret treasures each year in fights.

Wei Hao carried on: “Additionally, we also want to order 500,000 pieces of Silver Warrior secret treasure from you.”

Yang Feng revealed a distressed expression: “That’s a bit difficult. Undying Mountain can come up with 10,000 pieces of Silver Warrior every month, which is already the limit. After all, we still have other customers.”

In fact, after the construction of the level-3 stronghold, with the stable base that is Andrak Plane, If Yang Feng goes all out to forge Silver Warrior secret treasure, he can easily make 1 million pieces every month. But rare things are expensive. Naturally, he cannot reveal too big of a number of this type of secret treasure.

Wei Hao quoted a price: "We can fork out 100 top grade magic crystals per piece of Silver Warrior secret treasure."

In the black market, roughly 30,000 low grade magic crystals can buy 1 high grade magic crystal. But the number of high grade magic crystals in the black market is small. By purchasing a large number of high grade magic crystals, it will only drive the price higher.

For a Moonlight Warlock like Yang Feng who needs a large number of high grade magic crystals to practice cultivation, no matter how big the number of high grade magic crystals is, it's never enough.

Yang Feng hesitated before he gritted his teeth and said "Okay, I can give you the 10,000 pieces of Silver Warrior secret treasure that I currently have in my possession."

Ye Wuxin smiled slightly and said: "Young Master Lei, we are friends as well. You can't just favor one over the other! Ye family can purchase Silver Warrior secret treasure for 110 high grade magic crystals per piece. We will buy as many as there are in Undying Mountain."

Wei Hao smiled bitterly, "Young Master Ye, give me face. You have already bought 9,000 pieces of Silver Warrior. If I don't bring some pieces of Silver Warrior back, I will be in trouble."

Silver Warrior is a secret treasure that can give Great Warlocks Starry Sky Warlock rank battle prowess. Water Moon Heaven doesn't lack Great Warlocks. If they add 10,000 Starry Sky Warlocks to their ranks, it will greatly enhance their strength.

The two major forces Water Moon Heaven and Nethermoon Ogre Dragon secretly fight with each other endlessly, competing over mineral veins and land. As Nethermoon Ogre Dragon's Warlocks are mainly ogre-type and dragon-type Bloodline Warlocks, they are a notch stronger than Water Moon Heaven. Water Moon Heaven is often at a disadvantage.

If Water Moon Heaven gets 10,000 pieces of Silver Warrior secret treasure, it will have the upper hand in the struggle. After all, Moonlight Warlocks of the two Warlock groups will seldom intervene in such fights, or else it will easily escalate into a confrontation between the two Warlock groups, or even war.

Ye Wuxin spoke with a faint smile: "Okay, I'll give you face. Wei Hao, you owe me a favor."

Wei Hao responded with joy: "Thank you, Young Master Ye."

Ye Wuxin said: "Young Master Lei, Ye family wants to buy all pieces of Undying Mountain's Silver Warrior starting next month. We are willing to pay 120 high grade magic crystals per piece."

Wei Hao's face flickered: "Young Master Ye, isn't this inappropriate?"

If all the pieces of Undying Mountain's Silver Warrior secret treasure go to Ye family, then over time, the balance in Li Gui Province will be broken, and Ye family will become stronger and stronger.

Ye Wuxin responded flatly: "What's inappropriate about it? If you want to buy them, then pay more than I."

Wei Hao uttered: "Young Master Lei, Water Moon Heaven is also willing to pay 120 high grade magic crystals per piece. It's better we and Ye family get even shares."

Chapter 599 – Killing Intent

Yang Feng smiled and said: “I can give you 70% of Silver Warrior secret treasures. The remaining 30% have to be left for other forces.”

In Li Gui province, there are 14 magnates – Five Heavenly Lords and Nine Heavenly Ogres. Silver Warrior secret treasure is just a stepping stone for Yang Feng to enter Li Gui Province. He can't sell Silver Warrior to a single Warlock group, as this would not be in his interest.

Bronze Warrior and Silver Warrior secret treasures require high energy crystals and super energy crystals as power source respectively. With each activation, the secret treasures expend a tremendous amount of energy.

Wei Hao and Ye Wuxin raised the price several times, but Yang Feng didn't relent. Realizing that Yang Feng would not concede on this point, they stopped mentioning it, and began to talk about local customs and practices as well as difficulties they encountered while practicing cultivation.

Before leaving, Wei Hao gave Yang Feng an invitation and uttered meaningfully: “Young Master Lei, this is an invitation for Moon Flower Festival that will be held in Moon Heaven City 3 month later. At that time, at least half of Li Gui Province's top 10 beauties and many other talented youngsters will come. Don't miss this opportunity!”

Yang Feng smiled and took the invitation, aware that Wei Hao has opened a door to the circle of Li Gui Province's upper echelon silk pants and invited him in.

As the Young Master of the ancient Warlock group Undying Mountain, he has 5,000 Starry Sky Warlocks as bodyguards, and can easily take out more than 10,000 pieces of Silver Warrior and millions of pieces of Bronze Warrior. Surrounded by that kind of halo, Yang Feng received Wei Hao's approval, and got the opportunity to join the circle of Li Gui Province's upper echelon silk pants.

At a magic crystal vein occupied by Nethermoon Ogre Dragon.

Xing Quande patrolling at the entrance of the magic crystal vein watched with a smile on his face as slaves dug out magic crystals.

Xing Quande is a Starry Sky Warlock of Nethermoon Ogre Dragon. A few months ago, he led his men to occupy this vein that Water Moon Heaven had just developed and slaughtered the other side's Warlock.

This kind of thing is very common in Li Gui Province. Although Li Gui Province is large, but there are 14 powerful Warlock groups here. Additionally, there are countless small Warlock groups. In order to compete for resources, they fight each other endlessly.

A Warlock group like Evil Spirit Fang who slaughtered ordinary people at will to refine various evil secret treasures didn't dare to exist openly in Great Cloud Dynasty. However, in Li Gui Province, it could become one of the four tycoons of Shariman City. From this, you can tell how chaotic Li Gui Province is.

Xing Quande looked at the countless magic crystal ores with a smile of satisfaction on his face: “Now that this vein is occupied, I can keep 10 high grade magic crystals every month. With enough high grade magic crystals, my chances to break through to a Moonlight Warlock will increase.”

Starry Sky Warlocks generally use low grade magic crystals to practice cultivation. Xing Quande became the manager of this vein so that he could embezzle 10 high grade magic crystals every month.

The competition within Nethermoon Ogre Dragon is fierce. Xing Quande can only hope to promote to a Moonlight Warlock if he seizes every opportunity he can.

Suddenly, an alarm sounded.

“Enemy attack!”

Xing Quande immediately felt nervous and looked into the distance.

He saw a flat, 100-meter-long extraordinary life form Hurricane Flat Snake with sharp teeth flying this way in a gust of wind. Atop the Hurricane Flat Snake stood 10 Great Warlocks and more than 100 level-3 Warlocks of Water Moon Heaven.

At the sight of the 10 Great Warlocks, Xing Quande sneered: “Zhang Sheng, you managed to escape with your life last time. Did you come here to die?”

During Xing Quande’s raid on this vein, these 10 Great Warlocks have escaped by a fluke.

Along with black light, 17 Great Warlocks of Nethermoon Ogre Dragon flew to Xing Quande’s side and looked at the Warlocks from Water Moon Heaven with cold smiles, as if looking at a group of dead people.

“Xing Quande, you killed my teacher last time. Today you’re are going to die!”

Eyes shot with blood, Zhang Sheng pressed a necklace hanging from his neck, and silver light enveloped him and formed a set of silver armor in an instant, and Starry Sky Warlock rank might spread from him.

The other 9 Warlocks also pressed a necklace and transformed into Silver Warriors.

The more than 100 level-3 Warlocks pressed a necklace, and then transformed into Great Warlock rank powerhouses.

Struck dumb, Xing Quande cried out: “Starry Sky Warlocks, how is that possible? What are those secret treasures?”

The 10 Silver Warriors from Water Moon Heaven cast various secret methods and besieged Xing Quande.

The more than 100 Bronze Warriors besieged the rest of the Warlocks from Nethermoon Ogre Dragon.

Different kinds of light flashed and interwove in the area.

The fierce battle lasted for an entire hour. Going all out, Xing Quande killed one Silver Warrior of Water Moon Heaven. But then he was besieged and killed by the remaining Silver Warriors.

Although the Silver Warriors suddenly gained Starry Sky Warlock rank battle prowess, but they are not Starry Sky Warlocks after all. They are still a lot weaker than real Starry Sky Warlocks. This is why Xing Quande managed to kill a Silver Warrior by going all out.

Most of the Warlocks from Nethermoon Ogre Dragon were killed by the more than 100 Bronze Warriors. Only six Great Warlocks escaped by unleashing secret methods.

The same scene took place throughout the areas disputed by Nethermoon Ogre Dragon and Water Moon Heaven. With the help of Bronze Warrior and Silver Warrior secret treasures, Water Moon Heaven seized the areas held by Nethermoon Ogre Dragon.

Additionally, the Warlock groups who have bought a large number of Bronze Warrior secret treasures also began to expand rapidly in all directions.

Li Gui Province was in a state of chaos to begin with. But after the two types of secret treasures were thrown into the mix, Li Gui Province became even more chaotic, and fights broke out more frequently.

Nethermoon Ogre Dragon's sacred mountain, in a hall.

Liu Boen slapped a wooden table and showed a look of anger and regret: "Scoundrel!"

With the help of Bronze Warrior and Silver Warrior secret treasures, Water Moon Heaven suppressed Nethermoon Ogre Dragon completely, and the areas disputed by the two Warlock forces fell into the hands of Water Moon Heaven. Unless Nethermoon Ogre Dragon breaks the unwritten rule and uses experts at the Moonlight Warlock realm and above to fight Water Moon Heaven, they will have a hard time taking back those territories.

The power level of the upper echelon of Water Moon Heaven and Nethermoon Ogre Dragon is about the same. If Nethermoon Ogre Dragon starts a full blown war with Water Moon Heaven, the outcome will be unpredictable. Even if they win, the victory will have come at a tremendous cost. The victorious side will soon be swallowed up by other forces. This is the reason why Nethermoon Ogre Dragon won't resolve itself to wage an all out war with Water Moon Heaven.

Fierce light flickered in Liu Boen's eyes for a while, and then he uttered coldly: "Dark Ogre!"

A warlock in black stepped out of a twisted space and knelt before Liu Boen on one knee: "Greetings, my Lord!"

Liu Boen said frigidly: "I want Undying Mountain's Lei Ming dead. You have to kill him in Moon Heaven City."

So long as Yang Feng dies in Moon Heaven City, the secret treasure trade between Undying Mountain and Water Moon Heaven will be severed. In this way, Nethermoon Ogre Dragon can slowly take back everything that was taken away by Water Moon Heaven.

"Yes! My Lord!" The figure of the Warlock in black distorted and disappeared.

Immortal Wings Lake is a beautiful lake located in the western part of Moon Heaven City. It is surrounded by various beautiful extraordinary plants. All year long, there are beautiful flowers in full bloom exuding fascinating aroma here.

Immortal Wings Lake and the surrounding garden belong to Water Moon Heaven. In Moon Heaven City, many ordinary people would like to have a swim in the lake, but they can't. Only Warlock big shots close with Water Moon Heaven can freely enjoy Immortal Wings Lake.

Moon Flower Festival is held in a small manor called Immortal Lake Manor located next to Immortal Wing Manor.

Two magic carriages stopped before Immortal Lake Manor. Yang Feng stepped out from one magic carriage, while four Undyings came out from the other magic carriage and followed next to Yang Feng.

A Great Warlock rank guard stepped forward and said respectfully, "Mister, please show me your invitation!"

Anyone who can participate in the Moon Flower Festival is a bigwig. They are not existences that a Great Warlock guard can offend.

Yang Feng gave the guard the invitation letter.

The guard took a look at it, and then stepped aside and made an inviting gesture: "Mister, please go in!"

Yang Feng and his four guards walked into Immortal Lake Manor.

Led by a beautiful Warlock maid, Yang Feng crossed pavilions and corridors, and then saw a group of young men and women gathered together enjoying themselves by the lake side.

"Young Master Lei, you're here!" When Wei Hao saw Yang Feng, his eyes brightened, and he greeted the other party.

Ye Wuxin also got up, smiled heartily, and greeted him.

"That's Lei Ming, the Young Master of Undying Mountain?"

"He is the Young Master of Undying Mountain?"

"..."

Gazes of curiosity, envy, jealousy, apprehension, etc. fell on Yang Feng.

The reputation of Undying Mountain's Young Master Lei Ming has spread throughout Li Gui Province. Within the past three months, countless conflicts erupted in Li Gui Province, and Bronze Warrior and Silver Warrior secret treasures displayed their terrifying power. The forces who possessed the two types of secret treasures gained an overwhelming advantage.

Chapter 600 – A Bet

The major Warlock groups took out countless magic crystals to buy Bronze Warrior and Silver Warrior secret treasures from Yang Feng.

Yang Feng sold Bronze Warrior secret treasures to the Warlock groups who participated in the auction without restrictions, and then screened those who came to him later. The forces that are hostile with the Nethermoon Ogre Dragon got Yang Feng's support, and were sold a large number of Bronze Warrior secret treasures, which improved their strength.

Thanks to Yang Feng's manipulation, the Nethermoon Ogre Dragon is now in a bind. Although they didn't suffer a vital blow, but they are weakening continuously. If this continues for hundreds of years, the Nethermoon Ogre Dragon will decline and fall from the ranks of the top forces of the Li Gui Province.

In the absence of large-scale wars, the top Warlock groups are constantly weakening their enemies through small skirmishes and improving their own power and strength step by step.

Only if a Warlock group produces an invincible genius, will they launch a war to destroy other Warlock groups and occupy more resources. Otherwise, most Warlock groups can only improve their power and strength step by step.

The Five Heavenly Lords and Nine Heavenly Ogres, these 14 powerful forces of the Li Gui Province keep each other in check. None of them possess the power to destroy the other. Under these circumstances, Bronze Warrior and Silver Warrior secret treasures that can improve the power of low-level Warlocks have become crucial to determining the rise and fall of a Warlock force.

The young men and women at the Immortal Wings Lake are the true disciples and Young Masters of top and first-rate Warlock groups. Naturally, they are aware of the influence the Young Master of the Undying Mountain Yang Feng has.

Yang Feng sat down and glanced at the young men and women, and his eyes brightened.

These young men and women are top Warlocks. Except for Ye Wuxin and a few other Warlocks who are practicing special secret methods, they are all good looking.

Among the good looking people, there are four who stand out.

One is Hua Xiangxuan, ranked second among the Li Gui Province's eight beauties. Another is a very handsome young man dressed in green scholar clothing. Yet another is gorgeous girl no less beautiful than Hua Xiangxuan in a crimson dress with a sexy figure oozing an enchanting temperament. The last one is a mesmerizing girl even more beautiful than Hua Xiangxuan in white with snow-white skin and picturesque features exuding an unearthly and holy temperament.

"Let me introduce you, this is Lei Ming, the Young Master of the Undying Mountain!" Wei Hao smiled and introduced Yang Feng to the people in front of him. At the same time, he introduced the people present to Yang Feng.

After Wei Hao introduced the rest of the young people to Yang Feng, he became a bit more serious and introduced the four who stand out to Yang Feng: "Lei Ming, this is Bian Zixin, ranked eighth among the Li Gui Province's top eight beauties, She is the Young Mistress of the Lightning Fang. This is Zhang Mingtang, a peerless genius of the Zhang family of the Five Heavenly Lords. And this is Hu Xianghuan, the Young Mistress of the Secret Treasure City.

Wei Hao carried on: "As for this last person, she is Bai Yuxian, the Merak Star of the Great Cloud Dynasty's Moonlight Seven Stars."

For the first time, Yang Feng's eyes flashed with dignity: "Bai Yuxian, the Merak Star of the Moonlight Seven Stars? One of the most outstanding geniuses of the Bai family's younger generation!"

The Moonlight Seven Stars are the seven most outstanding Moonlight Warlocks of the Great Cloud Dynasty, each of which is a peerless genius who formed a virtual world and can defeat weaker Glorious Sun Warlocks.

Among the Moonlight Seven Stars, three are from the Bai family. They are known as the strongest geniuses of the Bai family's younger generation. If there are no accidents, the Moonlight Seven Stars are virtually guaranteed to promote to Glorious Sun Warlocks. Only the advancement to the Bright World Warlock and Infinity Warlock rank may stop the Moonlight Seven Stars in their tracks.

The Great Cloud Dynasty has a stronghold in the Li Gui Province. At present, the Great Cloud Dynasty is in peace with the Five Heavenly Lords and Nine Heavenly Ogres of the Li Gui Province, so peerless geniuses like Bai Yuxian born from the Bai Family can naturally travel freely in the Li Gui Province.

Moreover, the Bai family is the royal family of the Great Cloud Dynasty as well as the number one Warlock force in the dynasty. Bai Yuxian is equivalent to a Princess of the Bai family, and so her status is far higher than that of anyone else present.

Bai Yuxian smiled enchantingly and said: "Lei Ming, to develop a secret treasure like Silver Warrior, the Undying Mountain's alchemy is really amazing. I am very interested in alchemy. If you have time, can you teach me the Undying Mountain's unique alchemy?"

When Bai Yuxian smiled, the surroundings appeared to brighten. Despite his firm will, Yang Feng's heart couldn't help but skip a beat before that beautiful smile.

There was a flash of envy in Zhan Mingtang's eyes, and he snorted coldly and gave Yang Feng a hostile look: "Humph, what does alchemy count for? For Warlocks, secret treasures are just external things. Only our own strength is key. Warlocks using Bronze Warrior and Silver Warrior secret treasures are far weaker than true Great Warlocks and Starry Sky Warlocks."

Gazing at Zhan Mingtang with adoration in her pretty eyes, the gorgeous Bian Zixin in a red dress spoke in agreement: "That's right. For Warlocks, cultivation base is everything. I've seen level-3 Warlocks using Bronze Warrior secret treasures to gain the power of Great Warlocks, but they can't use level-4 spells. They can't withstand a blow from true Great Warlocks."

Yang Feng glanced at Zhan Mingtang and Bian Zixin, showed a pitying smile as if looking at two retards, and sneered: "The reason why we Warlocks can stand firmly in the Cangzhi Plane and defeat countless formidable races is thanks to powerful secret treasures. The 7th Warlock Dynasty Magic Note Dynasty is regarded as one of the strongest dynasties because it developed all kinds of powerful secret treasures. Both cultivation base and secret treasures are essential, because they are both part of a Warlock's strength. Don't you even understand such a simple thing?"

Zhan Mingtang's face fell, and he uttered coldly: "You have a sharp tongue on you. However, disputes between Warlocks still have to be resolved through strength."

Zhan Mingtang clapped his hands, and a two-meter-tall man with a few scars on his face giving off an oppressive feeling walked out from the side and bowed respectfully to Zhan Mingtang: "Greetings, Young Master!"

Zhan Mingtang spoke with a smile: "This is Eight Ogre, a Starry Sky Warlock I recruited from the Barbarian Ogre Mountains. I heard that you have 5,000 Starry Sky Warlock guards. Let's have a match."

The Li Gui Province is a place of great chaos where countless Warlock groups fight endlessly for resources. Warlock groups put up against the wall by the Great Cloud Dynasty will flee into the Li Gui Province in order to make a comeback.

It is common for Warlocks to swap pointers in the Li Gui province. Silk pants with noble identities recruit many Warlocks from humble origins and let them duel.

Yang Feng responded with a smile: "Interesting! But a duel alone is not exciting enough. Why don't we have a wager? Let's bet 10 million high grade magic crystals."

When Yang Feng made that statement, the Warlocks who intended to watch a good show from the sidelines suddenly revealed dignified looks.

10 million high grade magic crystals is equivalent to 300 billion low grade magic crystals. Warlock groups like the Evil Spirit Fang who have Moonlight Warlocks standing guard have at most 3 million high grade magic crystals. This kind of wager is not a joke.

When they have a grudge, the young men and women do bets. But such a stake can no longer be described as an ordinary grudge.

A cold gleam streaked past Zhan Mingtang's eyes, and he said with a cold smile: "Fine. If lose, I will give you 10 million high grade magic crystals. But if you lose, you'll have to compensate me with 100,000 pieces of Silver Warrior secret treasure."

Although Zhan Mingtang doesn't like Yang Feng due to envy, but he also understands the importance of Silver Warrior secret treasures. 100,000 pieces of Silver Warrior can provide the Zhan family 100,000 Starry Sky Warlocks, which will greatly improve the Zhan family's strength.

Yang Feng asked: "Two out of three, or one?"

Zhan Mingtang hesitated for a while, and then answered cautiously: "Three out of two!"

A ripple surged in space, and two Warlocks – one tall and one slim – exuding queer auras walked out of the space and came to Zhan Mingtang's side. An unruly expression on their face, the two Warlocks looked at Yang Feng and smiled coldly.

"I will provide the arena!" Bai Yuxian spread the fingers of her hand, and a palm-sized arena flew out of her porcelain hand, fell aside, and formed a small arena with spatial force.

Eight Ogre's figure fluttered and he flew into the small arena.

Yang Feng said lightly: "A-da, go ahead. If he doesn't concede, kill him."

"Yes, Master!" An Undying responded in a hoarse voice, and then flickered into motion and entered the small arena at once.

Eight Ogre licked his face with a snake-like tongue, revealed a sinister smile, and threatened fiercely: “To meet me, your out of luck, punk. 10 Starry Sky Warlocks have died at my hands, and you will be the 11th. It’s not too late for you to surrender now. Otherwise, you will regret it later.”
