Chapter 661 – Yu Tianling

In Great Cloud Dynasty, ordinary people who can't practice cultivation make up a class, level-1 Warlocks to Starry Sky Warlocks make up another class, and Moonlight Warlocks and above make up the last class.

In the eyes of these ordinary students, Moonlight Warlocks are aloof heroes of Wuxia [1] novels. Any Moonlight Warlock is eligible to establish a sect. Once such a sect is established, countless Warlocks will flock towards it. It should be mentioned that the strongest powerhouses in ordinary advanced Warlock academies are just Starry Sky Warlocks.

Lan Chuxia and Murong Yuling also looked at Yang Feng in amazement, unable to believe this fact. They both knew that Yang Feng is very strong, but they never expected him to turn out to be a Moonlight Warlock.

His face deathly pale, Shentu Feng knelt on the ground and implored, mucus and tears running down his face: "Senior, I know I was wrong! I won't bother Murong Yuling again. For the sake of our Shentu family, spare my life!"

"Since you wanted to cripple my arms, then I'll cripple yours."

Yang Feng pointed with a finger, and two rays of light flew out and slammed into Shentu Feng's arms.

Shentu Feng's arms burst apart, and countless fragments flew into the air, and then were obliterated. He squealed like a pig from the pain.

Yang Feng spoke coldly: "Get out!"

Shentu Feng gritted his teeth, struggled onto his feet, and left, cutting an extremely sorry figure.

After driving Shentu Feng away, Yang Feng smiled and spoke to the students: "Let's continue the party!"

The party went on, but the students looked now at Yang Feng with awe in their eyes.

After the party was over, Yang Feng received many date invitations from girls.

When Shentu Feng escaped the villa, his eyes flashed with resentment, and he roared in his mind: "Damn that wretched Zhao Fan! To cripple my arms, we are now sworn enemies! I will destroy you!"

Great Cloud Dynasty's healing secret methods are extremely mature. Except for Warlock Monarchs, Holy Spirit Warlocks, or Warlock Emperors, even if most of an Infinity Warlock's body was destroyed, they can fully recover by means of alchemy, healing secrets treasures, or healing secret methods.

With his arms destroyed, on Earth, Shentu Feng would be a disabled person for the rest of his life. But in Great Cloud Dynasty, as long as he goes to a hospital and spends hundreds of thousands of magic stones, he can be fully restored. But even so, Shentu Feng is still filled with killing intent towards Yang Feng. This is the first time that someone dared to treat him this way.

Shentu Feng silently recited an incantation, a communications device lit up, and an impatient voice came from the other side: "Feng, what's wrong? Hurry up and spit it out, don't waste my time!"

Shentu Feng gritted his teeth and said: "Brother, someone blew apart my arms! A Lei and A Hu were killed. You have to avenge me!"

Shentu Feng told Shentu Xiong everything that happened, not forgetting to embellish here and there.

Shentu Xiong said coldly: "You idiot, to provoke a Moonlight Warlock from Secret Treasure Division, are you looking to die? If he wasn't apprehensive of our Shentu family, you would have been dead already, you fool. Don't ever provoke him again. In Imperial Court, there are many people who have malicious intentions towards the Eight Great Families. Don't give them ammunition to use against us, understood?"

Shentu Feng could only swallow his anger and say: "Yes! Brother!"

Great Cloud Dynasty's Imperial Court has just leveled the Ten Great Sects. At the same time, they are also eyeing the Eight Great Families. Thus, although the children of the Eight Great Families still have great power, but they cannot rampage like before.

Secret Treasure Division, inside a research room, Shentu Xiong closed the communications device, his eyes flashed with killing intent, and quasi-Moonlight Warlock rank fluctuations of power spread from him: "Zhao Fan, a mere Moonlight Warlock dares to lay his hands on someone from our Shentu family, what a reckless thing."

Shentu Xiong silently recited an incantation, waved his hand, and touched a cylindrical mission crystal column beside him, and countless missions ejected from the mission crystal column.

All of a sudden, Shentu Xiong's eyes narrowed and the corners of his mouth rose: "Found it. Zhao Fan, your luck is really horrible. You're screwed!"

In addition to refining secret treasures, the Warlocks in Secret Treasure Division also accept some dangerous missions, such as maintaining some special large secret treasures in special places.

Shentu Xiong found one of the most dangerous missions and assigned it to Yang Feng.

"Follow Major General Yu Tianling to Red Rock Subcontinent and maintain the large secret treasure Planar Lighthouse? Why was I assigned such a mission? Is this the work of the Shentu family?"

As soon as Yang Feng returned to Secret Treasure Division, he received a mission assignment notice. He looked at the sudden mission notice, frowned slightly, and sank into his thoughts.

Yu Tianling is the younger sister of Marshal Yu Yan of the Eight Marshals of Great Cloud Dynasty, and she is a Bright World Warlock rank powerhouse.

For her to go to Red Rock Subcontinent, Yu Tianling must have a special mission. According to Yang Feng's original plan, his true body will peacefully increase its strength, while this avatar sneaked into Secret Treasure Division to steal alchemy data. He doesn't want to be involved in a Bright World Warlock rank mission. However, since Secret Treasure Division has already announced the mission, he can hardly refuse it.

“If I have to go, then I must make sure to get enough benefits!”

As he weighed things again and again, Yang Feng walked towards the section chief’s office.

It didn’t take long for the entire Secret Treasure Division to learn that Yang Feng has advanced to a Moonlight Warlock. After taking a test, his tier of Alchemist was upgraded to Grandmaster Alchemist from tier 5 Alchemist.

The mission that Shentu Xiong forcibly assigned him has already been confirmed. As such, Yang Feng cannot refuse it. But the section chief promised Yang Feng that he can enter the Secret Treasure Division’s core database and read some first-rate alchemy data after he completes the mission.

A few days later, Yang Feng and 300 tier 4 Alchemists and above boarded a luxurious pink airship.

“What a beautiful airship. This is Tianling, the private airship of Major General Yu Tianling, it’s really beautiful. If only I could have such an airship!”

A beautiful, petite Moonlight Warlock with her hair combed into a ponytail, an exquisite figure, and a scholarly temperament looked at the 10,000-meter-long giant airship that looks like an island in the sky with envy in her eyes.

A somewhat dumb, ordinary-looking male Moonlight Warlock said: “Jiang Mei, the Tianling is a level-8 secret treasure. With six Bright World Warlocks operating it, it can even contend against an Infinity Warlock. We have no way of obtaining such a secret treasure.”

Jiang Mei snorted coldly, and a glint of annoyance flashed in her eyes: “Zhang Tie, you party pooper. I was just daydreaming, can’t I even do that? Humph! You stupid blockhead.”

The leaders of this mission are the three Moonlight Warlocks Jiang Fan, Zhang Tie, and Yang Feng’s avatar Zhao Fan. Since he has no interest in making arrangements for the 300 tier 4 Alchemists, Yang Feng handed his authority to Jiang Mei and Zhang Tie, and then began to stroll around.

Walking freely on the Tianling, Yang Feng diffused his tremendous spirit force to scan its structure. At the same time, he used the power of the level-4 optical computer to quickly analyze the information of the airship.

Yang Feng suddenly turned his head and looked towards the entrance of the Tianling. He saw an enchanting woman wearing a dark battle suit with short black hair, a tall and curvaceous figure, and an unruly charm come his way.

Ten people are following behind the enchanting woman, two of which are Glorious Sun Warlocks and the remaining eight are Moonlight Warlocks.

When the enchanting woman came before the Secret Treasure Division personnel, she said with a faint smile: “Hello, everyone! I am Yu Tianling!”

Looking at Yu Tianling with excitement in his eyes, Zhang Tie straightened his back and said: “Hello, Major General. I am Zhang Tie, and they are Jiang Mei and Zhao Fan. Leave the maintenance of the secret treasure to us!”

“Good!” Yu Tianling smiled and said lightly: “Renee!”

There was a flash of light, and a blond, tall high elf with pointy ears, a full figure, and Moonlight Warlock rank cultivation base appeared beside Yu Tianling and spoke respectfully: “Mistress, I am here!”

“If there is anything you need, you can talk to her. I still have things to do, goodbye!”

Yu Tianling politely revealed a faint estrangement, and then turned around and walked away.

The two Glorious Sun Warlocks and eight Moonlight Warlocks followed behind Yu Tianling, showing no intention of interacting with Yang Feng and company.

Many combat Warlocks fighting on the front lines don’t have favorable opinions of research Warlocks who specialize in alchemy. For combat Warlocks, only comrades and companions fighting alongside them can be trusted. They look down on research Warlocks hiding behind the front lines and refining secret treasures.

Renee smiled politely: “Hello, everyone, I am the steward of the Tianling. If there is anything, don’t hesitate to tell me! There are some areas on the Tianling that are restricted, please be mindful of this.”

Renee quickly spoke about the restricted areas on the Tianling that Yang Feng and company are not permitted to enter.

A month later, the level-8 secret treasure the Tianling landed in a huge airship port in Red Rock Subcontinent.

Chapter 662 – God Blood Plane

Wearing a unique military uniform of Great Cloud Dynasty, a beautiful woman with short black hair and a capable temperament came to Yang Feng and his party and said with a polite smile: “Hello, I am Liu Wei! Presumably you already know that your mission this time is to maintain the large secret treasure Planar Lighthouse. Please follow me, I will take you to the Planar Lighthouse.”

Yang Feng frowned slightly and said: “I am Zhao Fan, one of the the chief Alchemists for this mission! The Planar Lighthouse is one of the most important secret treasures to maintain planar passageways. As far as I know, among the planar passageways made public by Great Cloud Dynasty’s Imperial Court, there is no planar passageway in Red Rock Subcontinent.”

Bright World Warlock rank mission is extremely dangerous for the current Yang Feng’s avatar. If he is not careful, he may fall and have to give up the identity of Zhao Fan. This will be a major roadblock to his plans to infiltrate Secret Treasure Division’s upper echelon.

Liu Wei smiled and said, “In Red Rock Subcontinent, there is a planar passageway leading to another plane set up during the Magic Note Dynasty era. That planar passageway was not destroyed, but sealed. Not long ago, our people unsealed the planar passageway and successfully crossed it to the other plane.”

When the Warlocks present heard this, their eyes lit up and showed looks of excitement.

Great Cloud Dynasty controls many planar passageways, and those planar passageways lead to other planes. Human Warlocks obtain tremendous amounts of resources from other planes to fuel the development of Warlock society.

If opened successfully, a new planar passageway leading to another plane will net Great Cloud Dynasty tremendous benefits.

Yang Feng very calmly pointed out the core of the issue: “For even Major General Yu Tianling to be deployed, which plane does this planar passageway lead to?”

With the power of Cangzhi Plane’s human Warlocks, the conquest of planes below grade 6 is pretty much a given. Once Other Plane Development Division’s army arrives, such planes can be easily quelled.

Although Yang Feng has wiped out many elites of Other Plane Development Division in Andrak Plane, but in the past few years, Imperial Court has already replenished the loss of the elites. Although the current Other Plane Development Division is not as tyrannical as it used to be, but it’s still a breeze to quell a plane below grade 6.

For a Bright World Warlock such as Yu Tianling to be dispatched in person, the plane the planar passageway leads to must not be simple.

Liu Wei said: “The plane passageway leads to one of the 36 primary material planes – God Blood Plane.”

“God Blood Plane!”

Everyone took a breath of cold air when they heard that.

God Blood Plane is one of the 36 primary material planes, and is ruled by kindred. In God Blood Plane, kindred are divided into junior vampires, intermediate vampires, advanced vampires, junior kindred (level-1 Warlocks), intermediate kindred, advanced kindred, pure-blood kindred, baron kindred, viscount kindred (Moonlight Warlock), earl kindred, marquis kindred, duke kindred (Infinity Warlock), grand prince kindred, and true ancestor kindred.

God Blood Plane has given birth to nine true ancestor kindred. The first true ancestor kindred is a Warlock Emperor rank powerhouse who lived through the archgod era and even more ancient times.

In the 2nd Warlock Dynasty era, the Taboo Lord once went to God Blood Plane, where he defeated the first true ancestor kindred and won a drop of Primordial True Ancestor Blood.

After the 2nd Warlock Dynasty, the first true ancestor kindred disappeared without a trace. Following the collapse of the 8th Warlock Dynasty, true ancestor kindred are said to have disappeared from God Blood Plane.

However, there are still six Warlock Monarch rank grand prince kindred in God Blood Plane. It is definitely a most dangerous plane. However, God Blood Plane is also one of the planes most rich in resources. Kindred bloodline of high level kindred can create a powerful Bloodline Warlock family. Moreover, human Warlocks possess many secret treasures to refine high-level kindred into precious elixirs that enhance soul aptitude of Warlocks.

According to legend, Primordial True Ancestor Blood is a peerless treasure with the ability to break the god-man boundary and enable a Warlock to promote their soul aptitude to level-9.

True Ancestor Blood of the other eight true ancestor kindred has the ability to break the heaven-man boundary and enable a human Warlock to advance their soul aptitude to level-8.

But apart from the Taboo Lord of the 2nd Warlock Dynasty, no one else has won Primordial True Ancestor Blood from the first true ancestor kindred. Most of the powerhouses who challenged the true ancestors have become their food instead.

They are surprised that Yu Tianling is trying to open this sealed planar passageway.

At the moment, the strongest human Warlocks in Cangzhi Plane are only at the Infinity Warlock rank. By relying on the Empyrean grade secret treasures left from the Eight Warlock Dynasties and sealing most of the planar passageways, only this way can human Warlocks dominate Cangzhi Plane.

Among the 36 primary material planes, the powerhouses of powerful planes such as Evil God Plane, Demonest Plane, and others want to open a planar passageway leading to Cangzhi Plane. They are much stronger than human Warlocks in Cangzhi Plane.

The number of top powerhouses in God Blood Plane far exceeds that of Cangzhi Plane. With its current strength, for Cangzhi Plane to rashly open a planar passageway leading to God Blood Plane is suicidal.

Once God Blood Plane powerhouses are able to enter Cangzhi Plane through the stable planar passageway, then apart from major forces with the protection of Holy grade and Empyrean grade secret treasures, the rest of human Warlocks will be reduced to food for high-level kindred from God Blood Plane.

Zhang Tie said coldly, a gloomy expression on his face: "Why do you want to open a planar passageway to God Blood Plane? That's too dangerous! If you don't give us a reasonable explanation, then we won't help you open the planar passageway!"

Li Wei replied: "This planar passageway utilizes the most advanced plane crossing technology of Magic Note Dynasty. Through this planar passageway, you can designate different locations to teleport to. Unless the other side seizes control of the planar passageway from this side, they will never be able to use it."

When they heard this statement, Warlocks from Secret Treasure Division revealed a look of sudden realization. With this most advanced plane crossing technology of Magic Note Plane, you can control the entrance and exit freely. You can gain tremendous wealth from planar trade alone.

An enigmatic gleam streaked across Zhang Tie's eyes.

Yang Feng glanced at Zhang Tie standing beside him, silent: "No wonder Yu Tianling would come here! Presumably, she came here to guard the planar passageway and prevent others from competing over it. All their Infinity Warlocks are being watched by other forces, so they sent a Bright World Warlock to Red Rock Subcontinent to stand guard."

Yang Feng's heart stirred suddenly: "Should I send people to fight over this planar passageway?"

Ever since the xizu technology was promoted to level-4, the fighting power of his mechanical legion has surged to a terrifying level. If an ordinary Moonlight Warlock is caught unprepared, they will be cut into countless pieces by a Type II Undying in an instant. Of course, a Moonlight Warlock enchanted with defensive spells can batter a Type II Undying like a dog.

Unless it is a peerless genius who formed a virtual world like Nangong Wumie, thousands of 4th generation battle robots can even dispose of a Glorious Sun Warlock.

With countless powerful battle robots together, Blazing Angel Alexia, and Li Gui Province's Bright World Warlocks, Yang Feng's force is already comparable to that of Battle Demon Sect of the Ten Great Sects.

After a moment of thought, Yang Feng chose to give up: "No, it's meaningless. I can't defend it! Currently, the strongest force in Cangzhi Plane is still Great Cloud Dynasty's Imperial Court!"

Great Cloud Dynasty's Imperial Court has extremely deep roots, and they have the protection of Empyrean grade secret treasures. Even if it is a Holy Spirit Warlock, but if they dare go to Cloud Capital, they will be quelled by the countless powerhouses operating Empyrean grade secret treasures.

With Li Wei taking the lead, Yang Feng and his party entered a fortress with a powerful barrier. In the center of the fortress, there is a 100-meter-tall Planar Lighthouse engraved with countless mysterious runes.

The function of the Planar Lighthouse is to control the planar passageway leading to God Blood Plane and make it impossible for God Blood Plane's powerhouses to enter Cangzhi Plane through the planar passageway.

With this planar passageway, Cangzhi Plane's human Warlocks will always be in the offensive position.

In the Magic Note Dynasty era, many such planar passageways were established in Cangzhi Plane. But after the collapse of Magic Note Dynasty, the powerhouses of other planes barged into Cangzhi Plane and destroyed one planar passageway after another, causing the human Warlock civilization to regress greatly.

When the hundreds of Alchemists from Secret Treasure Division entered the Planar Lighthouse, they began to do various calibrations. Many alchemy techniques of Great Cloud Dynasty stem from Magic Note Dynasty. These Alchemists restored the Planar Lighthouse in just a week.

Inside the Planar Lighthouse, one of the three chief Alchemists Zhang Tie announced excitedly: "Begin the final calibration! Start the Planar Lighthouse!"

The Planar Lighthouse lit up, and countless runes shone brightly. A 30-meter-tall bronze gate appeared in the void, opened slowly, and revealed a planar passageway leading to God Blood Plane. The planar passageway is extremely stable, to the point that even Warlock Emperor rank powerhouses can use it.

Chapter 663 – Fenghuang [1] Holy Armor and Fenghuang Spear

Yu Tianling looked at the planar passageway that appeared out of thin air and showed a satisfied smile. Before the Planar Lighthouse was completely repaired, she could only open an unstable planar passageway that could only teleport Great Warlocks to God Blood Plane.

Now that the Planar Lighthouse has been repaired, a complete planar passageway has appeared. With enough magic crystals, even Infinity Warlocks can easily traverse the planar passageway and freely travel between the two planes. It showcases the enormous value of this complete planar passageway.

In Great Cloud Dynasty, there are no more than 30 complete planar passageway, and most of them lead to some grade 3 planes or grade 4 planes. Great Cloud Dynasty only has three complete planar passageways leading to the 36 primary material planes, and this is the fourth.

The planar passageway controlled by Battle Demon Sect leading to Feisuo Plane is an unstable planar passageway. At most, it can only send Bright World Warlocks into Feisuo Plane. It's not in the same league as complete planar passageways.

The complete planar passageway has just appeared, when a bloody moon suddenly appeared in the air and endless darkness enveloped the land. The bloody moon radiates bloody light.

A swarm of kindred powerhouses flew out of the bloody moon and flew towards the Planar Lighthouse.

Looking like he has never seen the sun, a handsome, pale man with bat wings specific to kindred on his back and fascinating red luster in his eyes smiled gracefully and said: "Yu Tianling, you have worked hard! Thank you for repairing the Planar Lighthouse. From today on, this planar passageway belongs to us kindred!"

A series of fluctuations of blood energy at the Transcendent rank rolled out, and one powerful kindred after another flew out of the bloody moon. The male Transcendent rank kindred are all handsome and the female Transcendent rank kindred are all beautiful. They all exude a fearsome charm, which can make you fall for them at first sight.

Red Rock Fortress has already activated a very powerful barrier. However, there are still many human Warlocks who were charmed by the handsome and beautiful kindred powerhouses in the sky, and revealed looks of adoration in their eyes. They even forgot that the kindred are the enemy.

In Cangzhi Plane, there are kindred powerhouses hidden in many places. They don't even need to use spells. Using their charm alone, they can easily confuse many human Warlocks to willingly become their food.

Among pinnacle human Warlocks, there are some powerhouses who like to raise beautiful kindred as pets.

Inside Red Rock Fortress, the human Warlocks looked at the kindred powerhouses suspended in the air with dignified looks in their eyes.

The number of kindred powerhouses that flew out from the bloody moon has already exceeded 500,000. Although most of them are vampire and untitled kindred cannon fodder, but the huge number plus the never ending flow of kindred powerhouses already have the power to threaten Red Rock Fortress.

Yu Tianling sneered, and then commanded indifferently: "Marquis Joseph, if it's just you, then capturing Red Rock Fortress is wishful thinking! You came here just to die in vain! Begin!"

The Warlock towers atop Red Rock Fortress radiated light, and then brilliant beams swept towards the kindred powerhouses.

Vampires and untitled kindred are being decimated by the beams

Many kindred turned into bats in an attempt to escape the bombardment. But in the end, they were still crushed and annihilated.

The regeneration of kindred is extremely fearsome. For ordinary vampires, as long as the head hasn't been cut off and the heart hasn't been stabbed, they will slowly regenerate no matter how serious the injury is.

As for pureblood kindred, as long as the true blood inside them isn't destroyed, then even if their head is shattered and their heart is stabbed, they can consume blood energy to regenerate quickly. They are a frightening enemy.

However, Yu Tianling is a major general of Cangzhi Plane. She has extremely rich combat experience, and her subordinates are elite Warlocks who have experienced countless battles. The spells released from the Warlock towers are all fire spells. With the power of countless fire spells stacking up, they turned an area into a sea of fire.

Burned by the sea of fire, countless kindred powerhouses turned into ashes. As their pure blood was purified, pure blood kindred issued miserable screams and died one after another.

"Extinguish!" A kindred earl shouted loudly and waved his hand, and a tremendous amount of blood energy turned into blood flames that covered the countless fire spells and forcibly suppressed them.

Formidable titled kindred powerhouses channeled blood energy to bombard the barrier of Red Rock Fortress.

Kindred powerhouses with the viscount title or higher are comparable to Transcendent rank powerhouses. Every time they bombard the barrier, they will set off slight ripples on the barrier.

The two Glorious Sun Warlocks and eight Moonlight Warlocks suddenly flew out from behind Yu Tianling, conjured secret methods, and locked in combat with kindred with the viscount title or higher.

The two Glorious Sun Warlocks and the eight Moonlight Warlocks are equipped with many formidable secret treasures. By relying on those secret treasures, they have blocked the Transcendent rank kindred who are twice as many as them, all the while holding a faint upper hand.

Red light flashed on Yu Tianling's body, and a gorgeous red armor engraved with Fenghuang patterns formed from countless runes covered her entire body. At the same time, a spear carved with countless runes appeared in her hand.

Infinity Warlock rank aura emanated out from Yu Tianling and spread in all directions.

When Marquis Joseph saw the two secret treasures, his countenance suddenly changed dramatically, and he exclaimed: "Holy grade secret treasures Fenghuang Holy Shield and Fenghuang Spear! Only members of the fifth Warlock Dynasty's Yu family who have Fenghuang bloodline can operate these two secret treasures. Yu Tianling, it seems that you are the No. 1 powerhouse of your Yu family, not your sister Yu Yan."

“Die!”

Fierce flames burning in her beautiful eyes, without saying a word, Yu Tianling turned into a fire Fenghuang that can burn everything and shot towards Marquis Joseph.

A flash of red light in his eyes, Marquis Joseph erupted with pinnacle Bright World Warlock rank fluctuations of power, and a copious amount of blood energy poured out and formed bloody seals.

The bloody seals superimposed and formed a nine-layered bloody hexagram barrier that blocked in front of Marquis Joseph.

The nine-layered bloody hexagram barrier is the strongest barrier Marquis Joseph has mastered. Even junior Infinity Warlock rank powerhouses require to cast two spells to break this barrier.

Yu Tianling’s avatar fire Fenghuang slammed into the bloody hexagram barrier, and the bloody hexagram barrier distorted and collapsed layer by layer, unable to stop the fire Fenghuang.

Seeing this scene, Yang Feng inhaled a breath of cold air: “Incredible. Is this Yu Tianling? She clearly hasn’t formed a virtual world, but she still has such frightening combat power. Those two Holy grade secret treasures are truly extraordinary! In this state, without equipping the Ruler Armor, Alexia may not be her opponent!”

Yang Feng just glanced at the bloody hexagram barrier, and the level-4 optical computer performed trillions of calculations and analysis. From the feedback, Yang Feng realized that Alexia would have to attack the bloody hexagram barrier at least ten times before she could break it..

Yu Tianling’s avatar fire Fenghuang shattered the nine-layered bloody hexagram with a single strike. That kind of power far exceeds the limit of power that a Bright World Warlock can exert.

“Stop!” At this moment, a roar came from inside the bloody moon, Infinity Warlock rank fluctuations of power rolled out, and a tremendous amount of blood fire formed a giant hand that blocked in front of Marquis Joseph and swatted at Yu Tianling.

Yu Tianling’s avatar fire Fenghuang stabbed into the giant hand formed from blood fire, forcibly pierced through it, appeared in front of the Marquis Joseph, and stabbed her spear into Marquis Joseph.

A great amount of flames welled up inside Marquis Joseph, causing him to release heart-wrenching screams.

Marquis Joseph’s heart shot out from his body burning inside crimson flames and flew towards the bloody moon.

An arrow formed from blood energy shot towards Yu Tianling.

Wielding the Fenghuang Spear in her hands, Yu Tianling thrust upwards and struck the arrow formed from blood energy enveloped in flames.

The two powers detonated. Yu Tianling shot down like a meteor, slammed into the ground, and blasted open huge cave in the ground, and a large mouthful of blood sprayed out from her mouth.

Equipped with the Fenghuang Holy Armor and the Fenghuang Spear, even though Yu Tianling possesses destructive power beyond the junior Infinity Warlock rank, but she isn't an Infinity Warlock herself. She is far from being the opponent of a true Infinity Warlock.

Inside the bloody moon, the figure of a handsome kindred boy with an arrogant look on his face flickered, and he appeared behind a Moonlight Warlock subordinated to Yu Tianling and stabbed his hand into the body of the Moonlight Warlock. Within just a breath, the Moonlight Warlock lost all his blood and became a dry corpse at a speed visible to the naked eyed.

The kindred boy tossed the Moonlight Warlock aside and showed a cruel smile: "That was delicious. The blood human Warlocks at the Moonlight Warlock rank and above is really delicious. Hello everyone, I am Grand Duke Antimo."

[1] – Fenghuang

Chapter 664 – Marshal Yu

Yang Feng looked at kindred Grand Duke Antimo and frowned slightly: "What terrible luck! A true blood kindred with the grand duke title, that's a being that can compete with Infinity Warlocks!"

The Fenghuang Holy Armor and Fenghuang Spear are powerful Holy grade secret treasures. But Yu Tianling only has advanced Bright World Warlock rank cultivation base, which is not enough to fully operate these two secret treasures.

If Yu Tianling used these two secret treasures to deal with Antimo from the get go, she might still be able to deal him heavy blow, or even defeat him. But she erupted with her power to wound Joseph severely, falling one step short of killing him.

After Yu Tianling erupted with her power in that attack, the remaining power is clearly not enough to fight against Grand Duke Antimo!

Grand Duke Antimo used Marquis Joseph to consume most of Yu Tianling's power before he finally emerged from the bloody moon. He doesn't have the bearing of a powerhouse. As soon as he emerged, he killed one of Yu Tianling's Moonlight Warlock subordinates.

When the Moonlight Warlock died, the remaining two Glorious Sun Warlocks and seven Moonlight Warlocks besieged by kindred Transcendent rank powerhouses fell into a precarious positions.

Antimo spread the fingers of a hand. Marquis Joseph's heart flew into his hand at once, and a copious amount of blood energy flowed into it and forced out the fenghuang flames burning it.

After the flames were forced out of the heart, it twisted rapidly, and changed into Marquis Joseph's form. At this moment, he is releasing Moonlight Warlock rank fluctuations of power.

Antimo tossed a glob of red blood essence, which flew into Marquis Joseph's mouth.

When Marquis Joseph swallowed the crimson blood essence, frightening blood essence erupted inside him, and his power rose gradually. He quickly recovered until the junior Bright World Warlock realm.

Looking up at the sky, a dignified glint shimmered in Yang Feng's eyes: "Incredible, true blood kindred are something else! No matter how seriously injured they are, as long as they have enough blood essence, they can quickly restore their strength."

The regeneration of true blood kindred is superior to that of fiends, elves, dragons, and other extraordinary life forms. With enough blood essence, they can quickly heal most of their injuries and regain most of their combat power.

As soon as he restored most of his strength, Marquis Joseph glanced at Yu Tianling with a vicious look, and his figure fluttered. Leaving behind afterimages, he appeared before the two Glorious Sun Warlocks and seven Moonlight Warlocks, and attacked the nine human Warlocks ferociously.

Antimo took a step forward, and appeared in front of Yu Tianling, blocking the path to Red Rock Fortress.

Staring at Yu Tianling with a scorching look in his eyes, Antimo spoke with a graceful smile: "Yu Tianling, I appreciate you very much! Your aptitude is much higher than your sister's! Become my woman! I can give you kindred true blood and make a true blood kindred, make you an immortal and eternal existence! Isn't this the ultimate pursuit of you human Warlock?"

Yu Tianling smiled coldly and pointed out the lies: "An eternal existence? It sounds beautiful and all. But unfortunately, even if I become a true blood kindred, I still won't be able to become a truly eternal existence. It's true that you kindred live far longer than us humans, but unfortunately you also have a huge flaw. Otherwise, why did your first true ancestor hole themselves up in God Blood Plane, and never set foot on Cangzhi Plane?"

The kindred first true ancestor is a Warlock Emperor rank powerhouse. Legend has it that he existed since before the archgod era, that he is one of the oldest antiques in the world. But he always stayed in the God Blood Plane.

During the Seven Warlock Dynasties eras, the Seven Warlock Emperors have all conquered God Blood Plane. The Taboo Lord in particular has defeated the first true ancestor and obtained a drop of Primordial True Ancestor Blood.

After the other Six Warlock Emperors ascended the throne, as soon as their armies arrived at God Blood Plane, the true blood ancestors and grand princes went into hiding, leaving the human Warlocks to dominate God Blood Plane.

But once the Warlock Dynasties started collapsing, the kindred powerhouses would emerge from different nooks and crannies, attack Cangzhi Plane, and accelerate the speed of collapse.

In any case, the first true ancestor has always been hiding in the dark. Except for the time when he was defeated by the Taboo Lord, there has never been any news of him.

Numerous human Warlock prodigies have taken it upon themselves to research on kindred. Through various experiments, it has long been concluded that kindred are not immortal. They do have a longer lifespan than humans. But much like humans, they also age, their souls decay, and they die.

“You are really beautiful and smart. Too smart for your own good. Now I can only turn you into food!”

Antimo smiled regretfully and spread the fingers of a hand, and an overwhelming amount of blood flames gushed out, covered the sky, and swept towards Yu Tianling.

The overwhelming blood flames have terrifying corrosive properties. When submerged inside them, even an Infinity Warlock will be burned to ashes.

Yu Tianling silently recited an incantation, and a huge fenghuang flew out of the Fenghuang Spear and released countless fenghuang flames that surrounded her.

With their tyrannical power, the blood flames suppressed and reduced the fenghuang flames to the extreme. The fenghuang flames look like they would collapse at any time.

Suddenly, the void cracked open, Infinity Warlock rank fluctuations of power suddenly out, and black fenghuang flames seemingly capable of devouring everything in the world flew out and shot towards Antimo like a meteor.

Enveloped by the black fenghuang flames, Marshal Yu Yan of Great Cloud Dynasty's Eight Marshals dressed in Monarch grade secret treasure Black Fenghuang Armor and holding Monarch grade secret treasure Black Fenghuang Spear shooting towards Antimo.

With the boosted provided by the two Monarch grade secret treasures, even an Infinity Warlock who formed a virtual world would be seriously wounded when stabbed by Yu Yan.

Antimo's face distorted and he cried out, “Marshal Yu! It turned out to be her! Why is she here?”

At this time, Antimo's power was fully restricted by Yu Tianling, and so he could not divide his power to resist Yu Yan's frightening blow.

“Surprise!”

The moment Antimo was about to be stabbed, a strange expression appeared on his face, and he sneered.

From inside Antimo's shadow, a black figure flew out suddenly. Emanating Infinity Warlock rank fluctuations of power, a 100-meter-tall archdevil with a fierce appearance emerged, and a shield made of numerous skulls appeared in his hand. The archdevil used the shield to block Yu Yan's attack.

Yu Yan stabbed the giant shield made of numerous skulls, and the skulls burst apart one after another. A total of 18 skulls burst apart before the attack was neutralized.

The 100-meter-tall archdevil with a pair of horns on the head revealed a sinister smile: “Yu Yan, we meet again!”

Eyes flickering with frigid killing intent, Yu Yan pointed at the archdevil with the Black Phoenix Spear in her hand and said coldly: “Fanad! Step aside, or die!”

The archdevil Fanad is an Infinity Warlock rank archdevil who has been lurking in Cangzhi Plane for a long time. He fought against Yu Yan ten plus times, and each time he was defeated. He was even almost killed a few times.

Marshal Yu Yan is one of the strongest individuals among the Eight Marshals. With two Monarch grade secret treasures, she's no weaker than an Infinity Warlock who formed a virtual world.

The archdevil Fanad replied with a grin: "Yu Yan, I am indeed not your opponent. However, I am not alone!"

A fierce aura welled up, and an Infinity Warlock rank Undying Hellion emerged, gazed at Yu Yan, and said with a malevolent smile: "Yu Yan, the ones who are going down are you and your sister. Wait till I capture you both alive! You'll regret the day you were born!"

Looking at the two infinity Warlock rank powerhouses, Yu Yan's pupils constricted.

True blood kindred, archdevils, and hellions are far stronger than humans of the same rank. Equipped with two Monarch grade secret treasures, Yu Yan isn't afraid of fighting them two-on-one. But if it's three-on-one, then that's beyond the scope of her ability.

"Gaspar, go to hell!" Yu Yan roared loudly, and violent black fenghuang flames revolved around her and formed a black pillar of flames.

A dignified look in their eyes, the two Infinity Warlock rank powerhouses Fanad and Gaspar stimulated their bloodlines, and powerful defensive spells enveloped them.

Marshal Yu Yan is in the top three among the Eight Marshals in terms of fighting strength. If they are the least bit careless, Fanad and Gaspar may even be in danger of being killed.

Yu Yan flapped gently the wings on her back, and black fenghuang flames condensed into black light feathers that shot towards Fanad and Gaspar like arrows.

Fanad's right hand surged with demonic qi, he swatted the space before him, and the space collapsed. When the countless black light feather shot into the collapsed space, they were crushed instantly.

Enveloped in hellion qi, Gaspar punched out 10,000 times in a flash, and the fist afterimages crushed countless wisps of black fenghuang flames.

At this moment, Yu Yan's figure blurred, and she appeared behind Antimo and sent her spear stabbing towards him.

Antimo's face fell. His body shattered into blood mist that strangely moved 10 kilometres away in an instant.

Yu Yan grabbed Yu Tianling, blurred into motion, and then the two sisters appeared inside Red Rock Fortress.

Chapter 665 – Sudden Change

Only five of Yu Tianling's Transcendent rank subordinates managed to escape back to Red Rock Fortress.

Within the barrier of Red Rock Fortress, all human Warlocks watched the three Infinity Warlock rank other race powerhouses in the sky with fear in their eyes.

As soon as Yu Yan entered Red Rock Fortress, the defensive power of the barrier suddenly skyrocketed, and a new barrier emerged and covered the entire fortress.

Antimo glanced at Red Rock Fortress and sneered: "Interesting! Marshal Yu, this barrier should be able to resist the attacks of five Infinity Warlocks for ten days without being destroyed. Ten days is sufficient time for Great Cloud Dynasty to mobilize enough military power to encircle us!"

Yu Yan said coldly: "That's right! Since you understand, then live when there's still time! I have reported everything that happened here to Imperial Court. Within three days, Imperial Court's army will be here to kill you all."

Antimo smiled slightly and uncovered the fact that Yu Yan is trying to hide: "There's no need for three days. As long as they use Heaven Watch Eye, the experts to suppress us will arrive here within an hour!"

Yu Yan creased her slender eyebrows slightly, and an unclear premonition welled up inside her.

Antimo's eyes flashed coldly, and he shouted loudly: "However, it won't take us three days to destroy this barrier either. Break!"

Eyes shimmering fiercely, Zhang Tie who has unwittingly moved behind Yang Feng and Jiang Mei sent a tremendous amount of life force into the bracelets on his wrists.

Two black spikes shot out from Zhang Tie's secret treasure bracelets and slashed Yang Feng and Jiang Mei from behind in an instant, giving them a fatal blow.

Virtually at the same time, Zhang Tie silently recited an incantation and pointed with a finger, and a ray entered the Planar Lighthouse.

Countless runes lit up on the Planar Lighthouse, and a planar passageway leading to the interior of Red Rock Fortress appeared in the void.

"Damn it!" Yu Yan's face flickered. Staring at Zhang Tie, she flicked a finger, and a dazzling black fenghuang arrow shot towards Zhang Tie.

Zhang Tie smiled coldly and stimulated the power of the Planar Lighthouse, and planar passageways leading to other places formed before him.

The black fenghuang arrow entered the void and burst into the abyss deepest part of a planar passageway.

Smiling coldly, the three Infinity Warlock rank powerhouses blurred into motion and entered the planar passageway.

The three Infinity Warlock rank powerhouses can enter the barrier from this planar passageway. Attacking from the inside, the three powerhouses can smash destroy the barrier.

As soon as the three Infinity Warlocks entered the planar passageway, the Planar Lighthouse released light, and a strange power erupted in the planar passageway and separated the planar passageway into three parts leading to different locations.

One of the planar passageways disappeared in an instant, and kindred Grand Duke Antimo appeared alone in Red Rock Fortress.

Antimo's face fell, and he yelled furiously: "What are you doing, Zhang Tie?"

Overjoyed, Yu Yan and Yu Tianling frantically operated their power and attacked Antimo together. Acting together, the two sisters beat Antimo back again and again.

The situation where the other race experts were sure to win reversed unexpectedly.

Stunned, Zhang Tie denied hastily: "I didn't do anything!"

"But I did!"

A black ray stabbed Zhang Tie in the head. His head exploded, and red and white matter splashed on the ground.

Yang Feng who is supposed to be dead is standing on the Plane Lighthouse. Chanting incantations, he is freely manipulating this fearsome secret treasure.

Covered in blood fire, Antimo activated his charm spells to the limit and transmitted his voice: "Zhao Fan, let Fanad and Gaspar in. I can swear by the Styx that once we have captured these two women and destroyed their cultivation bases, they will be given to you as concubines. At the same time, I will use my true blood to transform you into a noble true blood kindred and make you the lord of more than 1 billion people!"

Yang Feng refused righteously: "I am loyal to Imperial Court in life and in death! Antimo, you other race vermin, I will never betray Imperial Court!"

Yu Yan stabbed a huge hole into Antimo with her spear and at the same time shouted majestically, "Well said, Zhao Fan. Persevere. So long as you persevere, my Yu family will provide you with enough resources to promote to a Bright World Warlock!"

This battle is related to the fate of the Yu family. If the two pillars of the Yu family Yu Yan and Yu Tianling are wiped out here, then the Yu family's position in Great Cloud Dynasty will plummet. By comparison, although the amount of resources necessary for you to promote to a Bright World Warlock is tremendous, but the Infinity Warlock Yu Yan can still bear this expense.

"Marshal Yu, don't worry, they are dead meat!"

Yang Feng smiled and waved his hand, and a ray entered the Planar Lighthouse. Queer planar passageways appeared suddenly. Containing Fanad and Gaspar, these planar passageways connected together and formed a large maze leading to God Blood Plane.

Fanad and Gaspar are trapped in the planar passageway! With their Infinity Warlock rank strength, they can smash the planar passageways. But the spatial force the moment the planar passageway collapses will tear them to shreds in an instant.

While being besieged by Yu Yan and Yu Tianling, Antimo covered with blood flames cannot block the Black Phoenix Spear. With every hit, he'll issue a miserable scream, and his life origin will weaken by a

fraction. Despite devouring globes of blood essence continuously, he is still barely hanging in. It appears like he will be swallowed by countless flames and turned into ashes at any moment.

Persevering for about half an hour, Antimo performed various escape spells in order to flee this place. However, Red Rock Fortress's barrier is extremely powerful. Every time he was about to escape, he was blocked by the barrier, and then the sisters Yu Yan and Yu Tianling caught up to him and engaged in close quarters combat.

Standing atop the Planar Lighthouse, Yang Feng is operating the large secret treasure to hold the Infinity Warlock rank powerhouses Fanad and Gaspar trapped.

Outside Red Rock Fortress, kindred powerhouses attack the barrier like crazy, but to no avail.

"What an unforeseen factor!"

Inside Red Rock Fortress, a man hidden in the dark frowned slightly, took out a communications device, and uttered coldly: "Do it!"

Within Red Rock Fortress, heaven-shaking explosions took places at the Warlock towers and blasted the Warlock towers apart.

The barrier enveloping Red Rock Fortress was blown into pieces.

The energy required by such a large secret treasure like the Planar Lighthouse comes from the Warlock towers. With the Warlock towers blown to pieces, the Planar Lighthouse can no longer maintain the planar passageways it unleashed, and so planar passageways collapsed.

The two infinity Warlock rank powerhouses Fanad and Gaspar revealed malevolent smiles, killing intent flickered in their eyes, and they looked deeply at Yang Feng!

"What horrible luck! There are even moles! Who wants to kill them this much?"

With a thought, Yang Feng silently recited an incantation and pointed at the Planar Lighthouse.

A planar passageway appeared behind Yu Yan and Yu Tianling.

"Flee!" Yang Feng left this sentence behind. Without looking back, he plunged into another planar passageway that appeared beside him and fled into God Blood Plane.

The three Infinity Warlocks coupled with countless kindred powerhouses can get rid of Yu Yan and company before Great Cloud Dynasty's reinforcements arrive.

Since Yang Feng doesn't want this avatar to die here, he chose to escape.

Yu Yan deserves to be one of the Eight Marshals. She promptly made a gesture and flew towards the planar passageway together with Yu Tianling.

As the nest of true blood kindred, God Blood Plane is a very dangerous place. But even so, the plane itself is vast. As long as Yu Yan who is proficient in countless secret methods conceals herself properly, she can go into hiding.

In the same fashion, although the tree Infinity Warlock rank powerhouses Antimo, Fanad, and Gaspar are not a match for human Warlocks in Cangzhi Plane, but they are still lurking here because the plane is extremely wide. As long as they don't act recklessly, it is extremely difficult to trace them.

"It's not that easy to leave!"

Staring at Yu Yan and Yu Tianling with resentment, Antimo opened his mouth, and a drop of true blood that he regards as his life suddenly flew out, turned into two blurry soul marks. The two soul marks instantly appeared behind Yu Yan and Yu Tianling and imprinted onto their bodies.

"Go to hell!" At the moment when the planar passageway blurred, Fanad issued an aggrieved bellow, and then blurred into motion and appeared before a Glorious Sun Warlock. He waved his hand, and the head of the Glorious Sun Warlock appeared in his hand. He opened his mouth, and an indistinct soul force flew out of the body of the Glorious Sun Warlock and entered his mouth.

Gaspar's figure fluttered, and he appeared in front of the other Glorious Sun Warlock. With a flash of his right hand, a Glorious Sun Core and a heart appeared in his hand.

The eyes of the Glorious Sun Warlock lost their luster, and he turned into a corpse. Gaspar tore the corpse to pieces that he shoved into his mouth and chewed.

Hellions like to devour human powerhouses, as they can become stronger this way. This is also the reason why human Warlocks suppress hellions everywhere.

Chapter 666 – Entering God Blood Plane

Following a ray of light, Yang Feng appeared in an unfamiliar land filled with a rejection force, making him seem out of place here.

When Transcendent rank powerhouses enter other worlds, they will provoke the suppression of said worlds. The suppression of the worlds is the main reason why Transcendent rank powerhouses don't dare to hastily go to other worlds.

Only Great Warlock rank powerhouses won't be subjected to any rejection and suppression when they enter other worlds, and that is because no matter how Great Warlock rank powerhouses fight, they cannot harm the world origin force.

When Moonlight Warlock rank powerhouses and above fight, they may damage a world's world origin force.

"This is God Blood Plane, one of the 36 primary material planes! This plane was conquered by Cangzhi Plane before! I can simulate the fluctuations of power of this world's life forms and blend into the world!"

Yang Feng silently recited an incantation, and gold runes flew out, circled around him, and changed the fluctuations of power emanating from him into those of a true blood kindred.

The rejection force disappeared immediately.

Regarding the planes they have conquered before, human Warlocks have all kinds of information on how to blend into them. This is one of the greatest advantages of human Warlocks.

An enigmatic flash in his eyes, Yang Feng quickly analyzed: "Being able to come here is also a big gain. Now that I'm here, I only need to find a place to settle down and install a top grade warp gate, and then I can open a path leading to God Blood Plane. Next I need to find a way to infiltrate true blood kindred society and become a part of it!"

Each of the 36 primary material planes has powerhouses at the Infinity Warlock rank or higher. During the collapse of the 8th Warlock Dynasty, the complete planar passageways leading to the 36 primary material planes were largely destroyed by human Warlocks.

That's because once there is a complete planar passageway leading to the 36 primary material planes, Cangzhi Plane may fall under the control of other races.

After the collapse of the 8th Warlock Dynasty, countless human Warlocks battled with other race powerhouses who entered Cangzhi Plane, which ended in a lose-lose situation. Countless other race powerhouses and human Warlocks died. This has resulted in a decline of Cangzhi Plane's powerhouses, with the strongest powerhouses being merely at the Infinity Warlock rank.

The human Warlocks rely on the power of several Empyrean grade secret treasures to barely guard Cangzhi Plane from being controlled by other races. If the other races gain control of a stable planar passageway, they may be able to become the new rulers of Cangzhi Plane.

Originally, under the leadership of the Time Lord, humans slayed, banished, sealed, and drove out countless archgods, and finally took control of Cangzhi Plane. Then under the leadership of the Seven Warlock Emperors, they had the universe recognize the human race as one of the strongest races.

Humans were able to become the rulers of Cangzhi Plane, and other powerful races may be able as well. That's why the Eight Warlock Dynasties collapsed so quickly.

"Fate Algorithm! With fate as guide, let's go to a place suitable for me to take refuge!"

Yang Feng silently chanted an incantation and conjured the secret method Fate Algorithm, and wisps of fate force seeped out of him, formed an arrow, and pointed northwest.

There was a peculiar gleam in his eyes, and Yang Feng set off northwestward.

Yang Feng walked for about 4 kilometres, and then entered a dense jungle. He had just entered the jungle, when a level-4 extraordinary life form Fire Demonic Tiger rushed out from the tall underbrush and pounced towards Yang Feng lightning-fast.

In God Blood Plane, except for the cities where true blood kindred live, there are many powerful extraordinary life forms in the countryside.

"Really! You're too weak! Lie down!"

Yang Feng looked coldly at the Fire Demonic Tiger and released the innate spell of true blood kindred Compulsion.

Suddenly, the Fire Demonic Tiger shivered, its eyes revealed fear, and it prostrated itself on the ground, expressing its subservience.

The kindred innate spell Compulsion, much like divine might of gods and demonic might of demons, is a might that higher level life forms can use to suppress lower level life forms.

The Compulsion Yang Feng simulated is at the kindred viscount rank, which is comparable to Transcendent rank might. As a mere level-4 extraordinary life form, the Fire Demonic Tiger can't resist kindred viscount rank Compulsion.

With a light jump, Yang Feng leaped onto the Fire Demonic Tiger, and then continued to travel northwestward.

After traveling for about 50 kilometres, a 30-meter-tall city wall, a worn down city wall not enchanted with any spells appeared before his eyes.

Yang Feng glanced at the huge city and quickly made an assessment: "There are no Warlock towers and no enchantments. This kind of wall can only defend against enemies below the level-1 Warlock rank. For the truly powerful, it has no meaning."

On Cangzhi Plane, slightly larger human cities have Warlock towers, and the city walls are enchanted with countless spells. Once Red Rock Fortress's barrier is activated, it can resist five Infinity Warlocks for 10 days. From this, it can be seen how remarkable human cities in Cangzhi Plane are.

When he entered the huge city, Yang Feng saw people of different races – such as humans, beastmen, elves, fiends, and even devils – in the city.

The source of power of true blood kindred is the true blood inside them. By absorbing the blood of different powerhouses, it can make the true blood inside them stronger and more vigorous.

It is because of this that true blood kindred capture many other race people via various methods and bring them to God Blood Plane, which led to this scene of many races intermingling.

In fact, due to the frequent contact between the 36 primary material planes and Cangzhi Plane's human Warlocks, excluding Sandra Plane of the aloof high elves, the rest of the planes have races not native to the plane existing.

Yang Feng took a closer look and saw that the humans wear ragged clothes, have dull eyes, and have collars on their neck that represent their status as slaves.

The beastmen, elves, fiends, and devils are of a higher class. In charge of supervising the human, they often hit and scold them.

For true blood kindred, the stronger the master of the blood they drink, the more delicious they find it and the faster their strength will increase. If humans don't practice cultivation, their physical aptitude simply cannot compare to that of the rest of the races. Their status is naturally lower than that of beastmen, elves, fiends, devils, and other extraordinary life forms born with formidable power.

When the beastmen, elves, and demons saw Yang Feng riding a Fire Demonic Tiger, fear and apprehension emerged in their eyes, and they all retreated. They didn't dare to approach Yang Feng.

In God Blood Plane, only true blood kindred bigwigs have the qualifications to control powerful extraordinary life forms like Fire Demonic Tigers.

“This is it!”

When Yang Feng passed by an iron cage, his heart stirred suddenly, and he felt a trace of fate force throbbing. He stopped and looked at the iron cage.

He saw a human loli about 11 or 12 years old in the iron cage. The human loli is dressed in tattered clothing and has very beautiful yet dirty long silver hair. She curled up in the corner of the iron cage like a helpless puppy.

All smiles, a foxman man stepped forward and spoke respectfully: “My Lord, this is a human child I just caught. With a bit of training, she’ll be a top quality virgin. Her blood is definitely the most delicious virgin blood. She is yours for only a medium blood coin.”

Blood coin is the currency kindred use. It is an object that viscount-titled true blood kindred refine using the blood essence of various life forms. Low-level vampires can absorb blood coins to refine their bloodline and evolve.

With enough blood coins, a vampire can break through the bottleneck and become a kindred. In turn, with enough medium or large blood coins, kindred can evolve into true blood kindred.

In God Blood Plane, as long as a person of any race accumulates enough blood coins, they can ask a true blood kindred to transform them into a vampire, and then climb the ladder of evolution step by step and finally evolve into a true blood kindred. This is the only evolutionary path of many races in God Blood Plane.

In God Blood Plane, everyone would be proud to be transformed into a vampire. However, true blood kindred won’t easily transform people into vampires, because once everyone has become a vampire, it will become difficult for them to find food.

“You lowlife, it’s your honor to offer her to me. How dare you ask me for money, are you looking to die?!”

Feigning the pride, coldness, and cruelty of a viscount-titled true blood kindred, Yang Feng glared at the foxman man. The face of the foxman man suddenly contorted, and a copious amount of blood flowed out of his facial orifices and formed a medium blood coin in midair.

“This medium blood coin is for you, take it!”

Yang Feng smiled coldly. With a flash of simulated blood energy, the blood coin flew to the corpse of the foxman man and the cage with the silver-haired loli opened.

Staring at the silver-haired loli, Yang Feng spoke in an arrogant way specific to a viscount-titled true blood kindred: “Come out. From today on, I am your master!”

The silver-haired loli stood up slowly. She has a pair of beautiful, ruby-like red eyes, which make her appear shrouded in a mysterious and dangerous feeling.

Chapter 667 – Regina

Yang Feng took a closer look at the silver-haired loli and praised: "What a pretty thing. A few years later, she'll definitely grow into an outstanding beauty!"

The silver-haired loli has porcelain-white, delicate skin, beautiful ruby-like eyes, a petite and slender figure, and exquisite facial features. Even though she is all dirty, but you can still vaguely see her beautiful outline. Her only shortcoming is that the lumps on her chest are really small. Compared to many well-developed Caucasian lolis, she's far worse off.

Looking at the silver-haired loli, Yang Feng spoke in an arrogant tone: "From today on, you are called Regina and belong to me! Understood?"

Her eyes dull, Regina answered in a tender and sweet voice: "Yes, Sir. I will work hard to be your food bank, Sir."

In God Blood Plane, the only value of ordinary humans is to become the food of vampires and kindred. Their offsprings are educated in this way. They are taught that their only mission in life is to become food and toys for vampires and kindred.

Yang Feng raised his eyebrows slightly and touched Regina's forehead with a finger, and powerful soul force enveloped Regina.

"Intermediate level-8 soul aptitude!"

Yang Feng's eyelids jumped up, and the arrogance particular to true blood kindred on his face almost collapsed.

Before today, Yang Feng has seen only one level-8 soul aptitude prodigy – Shi Xue.

Except for Shi Xue, Regina has the highest soul aptitude Yang Feng has ever seen.

If Regina was born in Cangzhi Plane, once it was known that she has such a fearsome soul aptitude, countless powerful forces would send experts to fight over her.

Under the premise that they don't form a virtual world, which increases the difficulty of breaking through bottlenecks, then as long as they have the proper secret methods and enough cultivation resources, a prodigy with intermediate level-8 soul aptitude can easily promote to a Bright World Warlock in the future, and will have a much easier time advancing to an Infinity Warlock than other Warlocks.

The two most outstanding prodigies of Battle Demon Sect Huang Yihe and Yue Wuxian who have formed a virtual world have been stuck in the quasi-Infinity Warlock realm, unable to break through. In the end, it was thanks to breaking through to inferior level-8 soul aptitude that they barely managed to advance to Infinity Warlocks. This showcases the importance of soul aptitude.

The corners of Yang Feng's mouth rose slightly: "Fate Algorithm is indeed a peerless secret method that controls the power of fate. With her alone, this trip to God Blood Plane has been worth it!"

Looking at Yang Feng, Regina revealed a mysterious smile. After hesitating for a moment, she grabbed Yang Feng's hand with her two little hands, and then pressed the hand on her chest.

“Ah! What are you doing?”

Yang Feng was dumbfounded, and his heart surged with stormy billows. Blood energy surged, enveloped his hand, and turned his hand slippery, and he easily broke free from Regina’s small hands.

As if a helpless puppy about to be abandoned by its owner, Regina stared at Yang Feng with her beautiful ruby-like eyes and begged: “Master, am I not doing it right? I will work hard, I will study hard! Please don’t abandon me!”

Yang Feng pinched Regina’s chin and spoke in an arrogant tone specific to true blood kindred: “Fool, things like this will have to wait until seven years later! Now all you have to do is to study, grow, and become more beautiful. In the future, I will consider making you into my blood descendant!”

Regina nodded seriously: “Mhm! I will work hard!”

Following afterimages, a 1.7-meter-tall, mesmerizing pure blood kindred woman with long blond hair and a sexy figure dressed in black leather appeared in front of Yang Feng.

The mesmerizing pure blood kindred woman is followed by 20 plus very pretty vampires of different races.

Marina threw Yang Feng a flirtatious look and smiled charmingly, saying: “Your Highness Viscount, I am Marina, a servant of the master of Oren City Viscount Duccio! The great Viscount Duccio hopes to be able to invite you for a visit to our castle.”

Marina smiled, and beastmen, elves, fiends, and people of other races became enchanted by her natural charm, unable to move their eyes away from her. They all revealed looks of infatuation.

Kindred possesses a remarkable natural charm. It is pure charm, not a spell, and so cannot be broken. The charm of pure blood kindred and above is comparable to that of Abyss’s Succubi.

Yang Feng took a deep look at Marina and smiled slightly: “Okay!”

In the center of Oren City lies a large, beautiful manor. Within the manor, vampire cannon fodder and kindred powerhouses who control them can be seen everywhere.

Whether men or women, all are good looking. There is no ordinary looking nor ugly person in the manor.

In the center of the manor, there lies a huge castle full of Medieval style. This huge castle is where Viscount Duccio lives.

When he entered the huge castle, Yang Feng sensed strong auras looming in the huge castle.

With a scan of his spirit force, Yang Feng quickly made an analysis: “Two kindred barons and twelve pure blood kindred.”

In God Blood Plane, Transcendent rank kindred are at the top of the food chain. It is very difficult to reach this level, and their numbers aren’t large.

Oren City is located in a very remote area. For this kind of place to have a kindred viscount and two kindred barons is already quite amazing. Yang Feng guessed that all the resources in this area should be supplied to the kindred viscount, which is why his servants are so few and so weak.

“Hello, I am Viscount Duccio, a descendant of the great sixth true ancestor. Viscount from afar, how do I address you?”

In a beautiful hall, surrounded by a dozen other race beauties, a handsome man with short blonde hair and a powerful charm stood up, welcomed Yang Feng, and introduced himself enthusiastically.

Yang Feng responded elegantly and courteously: “I am Anderson, a descendant of the seventh true ancestor. I am happy to make your acquaintance, Viscount Duccio.”

Among themselves, titled true blood kindred communicate as equals, rarely showing the arrogance inscribed in their bones.

Viscount Duccio invited cordially: “You came at a really good time. I just raised some delicious blood banks. Let’s have a glass and chat, what say you?”

Yang Feng showed a courteous smile: “Okay!”

Duccio clapped his hands, and beautiful vampire women dressed revealingly appeared with a long table and all kinds of delicious food.

God Blood Plane’s true blood kindred can survive even without drinking the blood of intelligent life forms. However, a true blood kindred who doesn’t consume blood will weaken over time until they can’t even display 30% of their strength. Thus very few people chose not to drink blood. However, in addition to consuming blood, they can also enjoy the taste of other delicacies.

Not long after, six 16-year-old girls – a beastman, an elf, a demon, a human, a dragonborn, and an ogre – came in.

Despite looking immature, the six girls have well developed figures. At the same time, they have first-class looks, a mixture of purity and sensuality.

Standing beside Yang Feng, Regina looked at the bulging chests of the six girls, and then looked at her barren chest, and her beautiful eyes dimmed slightly.

Duccio pointed to the six girls and said with a proud smile: “These six girls are the highest quality blood banks I have recently cultivated. They are only 16 years old. Not only are they virgins, but each has a level-2 Warlock rank strength. Their blood is absolutely delicious. You are my distinguished guest, please pick three you like first.”

“Then I’ll oblige respectfully!” Yang Feng pointed at the human, dragonborn, and elven girls and said arrogantly: “The three of you, come here!”

With a fragrance wafting out from them, the three girls came over. Their beautiful eyes contain both excitement and fear.

Duccio smiled slightly, grabbed the beautiful foxman girl beside him, hugged her, opened his mouth with ferocious fangs, and bit down at the foxman girl’s neck.

The foxman girl issued a scream. Her eyes suddenly glazed over, and she fell into a state of excitement. Then she twitched and, as if she lost all the water inside her, turned into a dry corpse.

When they feed, kindred secret a special kind of liquid that induces a feeling of ecstasy into the pray. Many pray willingly become blood banks of kindred for the sake of that feeling of ecstasy.

Trembling, the beautiful ogre and demon girls looked at Duccio with fear in their eyes.

Duccio threw the body of the beautiful foxman girl aside, showed a gentleman-like smile, and uttered: "It's too bad. But it's so delicious. If you're not careful, you'll drain them dry. The blood of beautiful virgins is really intoxicating. Viscount Anderson, you haven't tried yours yet? Do you think they aren't delicious enough?"

Chapter 668 – Refining Duccio

Yang Feng smiled slightly and glanced at the elven girl.

With a look of fear in her eyes and a fragrance wafting out from her, the elven girl hugged Yang Feng and slanted her head, revealing the snow-white neck.

Yang Feng exposed his false fangs, bit down on the elven girl's neck, and injected a kindred-like psychedelic elixir into her.

The beautiful eyes of the elven girl suddenly glazed over, her petite body flushed, and she fell into the state of rapture.

After absorbing part of the elven girl's blood and storing it, Yang Feng released the elven girl. The elven girl fell into Yang Feng's arms. Breathing heavily, her mind is in a state of confusion.

Seeing this scene, the human and dragonborn girls felt a bit relieved.

Becoming the blood bank of a true blood kindred is not certain doom. It all depends on which true blood kindred it is that will drink your blood. If it is a brutal true blood kindred, then you will be slaughtered.

Duccio asked, curious: "The mighty sixth true ancestor has issued a true ancestor decree and ordered us to encircle Cangzhi Plane's human Warlocks. Viscount Anderson, are you also going to encircle the human Warlock?"

Yang Feng replied with a smile: "The great seventh true ancestor has as well issued a true ancestor decree! However, I'm aware that each of these human Warlocks who came from Cangzhi Plane are much stronger than I am. Even if I find them, I am not their opponent. I don't want to meet them."

A scorching look in his eyes, Duccio spoke unhurriedly: "Yes, an Infinity Warlock and a Bright World Warlock, the two human Warlocks have reportedly seriously injured Grand Duke Antimo! Going against such powerhouses is simply suicidal. However, a true ancestor decree cannot be violated. It is said that the sixth true ancestor likes that pair of sisters very much. Whoever captures them alive, the sixth true ancestor will give them a drop of Grand Prince True Blood!"

Yang Feng's eyes narrowed slightly when he heard that, and he exclaimed: "A drop of Grand Prince True Blood, how extravagant!"

A true blood kindred grand prince is equivalent to a Warlock Monarch rank powerhouse. Every kindred grand prince only possesses nine drops of true blood and a large amount of ordinary blood.

As long as they have enough blood energy, a kindred grand prince can regenerate the ordinary blood almost infinitely. But the same is not true for true blood. Each drop of true blood contains one-ninth of a kindred grand prince's power. Once a drop of true blood is taken away, a kindred grand prince will usually take thousands of years to condense another drop.

A drop of true blood of a kindred grand prince is enough to propel a kindred viscount such as Duccio to a kindred earl with Glorious Sun Warlock rank strength and have the potential to become a kindred marquis.

As their source of power, a kindred grand prince will never give their true blood away. Even the kindred true ancestors don't have many drops of Grand Prince True Blood.

"Grand Prince True Blood is naturally an excellent reward. Unfortunately, the two human Warlocks are too strong. We stand no chance at all. I think that all the true blood of a viscount is also a rare supplement that can elevate my strength to a higher level."

Duccio smiled coldly, silently recited an incantation, and pointed at the dragonborn and human girls.

Countless bloody runes appeared on the dragonborn and human girls. Their eyes lost their spirit, and they issued miserable screams. Their bodies exploded in an instant, and a copious amount of blood formed into bloody runes that shot towards Yang Feng.

The blood of the elven girl stored in Yang Feng's fake fangs trembled, turned into countless insect-like runes, and attempted to break through the vessels that sealed them.

Runes emerged from Yang Feng's body, bound him like chains, and sealed his power. He's face changed dramatically, and he cried out: "Lock Soul Blood Poison! To use this most vicious spell developed by human Warlock to deal with a comrade, you animal, that's lower than low! How many comrades have you killed with this vicious spell?"

Showing a crazed and sinister smile, Duccio looked at Yang Feng like the other is a vial of tonic and said: "Comrades? Anderson, you are such a fool! In this world, only you yourself matters! The rest are stepping stones for you to move forward. I was able to become a kindred viscount in a short 300 years all the way from an ordinary vampire by devouring the blood of countless people. Devouring the blood of our comrades is the fastest evolution path of us kindred! This is the original sin of our race!"

Human Warlocks need to cultivate various secret methods, use various elixirs to strengthen themselves, and use countless resources to be able to evolve continuously. Even though Yang Feng has the resources of the entire Li Gui Province, he still needs to work hard to continue with his evolution. Kindred are different. As long as the lower-level kindred can devour the true blood of a higher-level kindred, they can evolve rapidly. This leads to infighting and killing in God Blood Province.

Of course, higher-level kindred has absolute authority over lower-level kindred of the same bloodline. Duccio is a kindred viscount of the sixth true ancestor bloodline. As such, a kindred earl of the sixth true ancestor bloodline has an absolute authority over him.

Only by advancing to a grand duke can this absolute authority be greatly reduced. Although a kindred grand prince of a bloodline can give orders to a kindred grand duke, but the kindred grand duke may not obey the orders completely.

Yang Feng suddenly showed a strange smile: "It makes sense! I also want to get my hands on a viscount-title true blood kindred and absorb their true blood, and that viscount-title true blood kindred is you!"

The void distorted, and five Type II Void Assassins suddenly appeared from the void and hacked at Duccio with the swords in their hands.

Following a flurry of afterimages, Duccio was torn apart. Suddenly, a tremendous amount of blood energy welled up, and then his fragmented body turned into countless bats that flew in different directions.

10 Type III Ice Manipulators suddenly flew out and released a copious amount of white frozen air from their freezing units sweeping in all directions.

Hit by the white frozen air, the countless bats turned into ice chunks.

The frozen bats erupted with powerful blood energy and broke out of the ice chunks one after another.

Six Type II Sealers suddenly flew out and fired countless sealing halos blasting onto the bats, suppressing the bats one by one.

In just a dozen plus breaths of time, the kindred Viscount Duccio whose strength is infinitely close to that of a Glorious Sun Warlock was directly suppressed and sealed by the battle robots.

Along with flashes of afterimages, Void Assassins quietly hunted the powerful pure blood kindred within the castle.

In less than a day, Oren City has silently changed owners.

In the castle, in a secret room, there is a top grade warp gate set up.

With a flash of light, Yang Feng's true body came out of the top grade warp gate.

Yang Feng's Flesh Golem avatar quickly gave his true body the sealed bats that is Duccio.

Yang Feng glanced at Duccio and said regretfully: "Unfortunately it's just a viscount-titled true blood kindred! If it was a grand duke-titled or higher true blood kindred, that would be great!"

The bloodline extracted from a true blood kindred can give rise to a Moonlight Warlock rank Bloodline Warlock family. Although it may be extremely valuable for ordinary Warlocks. But to Yang Feng, Duccio's bloodline is not very useful for improving his strength.

Yang Feng flicked his finger, and a True God Empyrean Imprint flew out and floated in the void.

Countless chains formed from runes shot out from the True God Empyrean Imprint and stabbed into the bats that Duccio has transformed into.

Wriggling strangely, the bats struggled desperately before they finally collapsed one by one and turned into blood colored mist that flew out of the imprint and condensed into five drops of true blood radiating bloody light.

Yang Feng released another Flesh Golem who swallowed the five drops of true blood.

The Flesh Golem quickly twisted and distorted, and eventually became a viscount-titled true blood kindred who is a spitting image of Duccio.

The Yang Feng's true body raised the corners of his mouth slightly: "From today on, I am Viscount Duccio, the master of Oren City!"

Yang Feng's true body smiled slightly and said to Regina who is standing behind his avatar: "Regina, follow me!"

Regina shrank back behind Yang Feng's avatar and looked at him with a pleading look.

Smiling slightly, the body of Yang Feng's avatar blurred, and he transformed into Yang Feng's original appearance: "I am him and he is me. To be precise, he is the real me, while I am just his avatar. This is my true appearance! Regina, if you follow him, it's the same as following me!"

Regina glanced at the two Yang Feng, and then astutely walked towards Yang Feng's true body: "I understand!"

Yang Feng's avatar Zhao Fan left with Yang Feng's true body and Regina, leaving only the viscount-titled true blood kindred avatar that looks exactly like Duccio and exudes Duccio's soul aura behind.

Yang Feng sensed his new avatar and revealed a smile: "The conversion rate is still too low. This body only has half of Duccio's fighting power, making it only slightly stronger than a junior Moonlight Warlock. It's soul is even more pitiful, only at the quasi-Moonlight Warlock rank. However, since Duccio likes to play weak, the strength he displays is only at junior Moonlight Warlock rank. This is already enough."

Chapter 669 – Snow Night City

Viscount Duccio wasn't strong to begin with, and the Flesh Golem Yang Feng made from the five drops of true blood is even weaker, only possessing junior Moonlight Warlock rank strength. But in this way, with the identity of Viscount Duccio as a cover, Yang Feng is able to travel freely in God Blood Plane and reap benefits.

Yang Feng gathered a lot of resources and blood of various powerhouses from Li Gui Province and gave them to his kindred avatar to consume.

After his kindred avatar absorbed the resources and ingested the blood of powerhouses, its cultivation base progressed rapidly, and it recovered the strength of Viscount Duccio in his heyday not long after.

On a particular night, Yang Feng's kindred avatar was enjoying himself with dozens of gorgeous vampire women in the castle, when a strong aura emerged.

Yang Feng raised his eyebrows slightly and waved his hand, saying: "Everyone, get out!"

The dozens of gorgeous vampire women left rapidly.

"Duccio, these toys aren't half bad, how about giving me 20?"

A blonde, handsome young man with an elegant temperament emerged from a twisted void and came to before Yang Feng, a smile on his face.

Yang Feng responded with an impeccable smile: "Posino, give me two drops of true blood in exchange, and I'll give you 20 of them!"

The handsome young man in front of Yang Feng called Posino is also a viscount of the sixth true ancestor bloodline.

Posino shook his head and uttered with a smile: "True blood? That's daylight robbery! If you are willing to give me a drop of your true blood, then I'll send you 10,000 such beautiful vampires, all of which are virgins!"

Although it cannot compare with Cangzhi Plane, but God Blood Plane is also an extremely big plane, while the number of various intelligent life forms that reside on it is calculated in hundreds of millions.

Yang Feng's avatar Viscount Duccio controls 53 large cities with a total population of more than 50 million people.

Posino controls more than 100 large cities with a total population of more than 100 million people, and can mobilize twice as many resources as Duccio. He naturally can easily get many beautiful vampires.

Yang Feng uttered: "Posino, how can I help you? Apart from some cold virgin blood, I have nothing else to receive you."

For kindred, the hot blood full of vitality and aroma is the best delicacy. However, low-level vampires can only drink some blood drawn from blood banks before hand.

By employing proper blood drawing, it is not only not harmful, but is also beneficial to blood banks. In order to have enough blood, kindred generally do not excessively draw the blood of blood banks. They draw blood from blood banks on regular intervals

Posino licked his lips and revealed an excited smile: "Cold virgin blood? That's really cold. I remember you seem to have reared a batch of delicacies, why don't we have a feast?"

Duccio's ability to rear blood banks is first-class among true blood kindred. It is due to this skill of his that many kindred flocked towards him, only to be secretly consumed by him.

Yang Feng replied lightly: "True blood, or grand duke blood coins."

Posino sighed slightly, and then revealed a serious expression: "What a miser. Grand Duke Gogno is calling on us to search for the two Warlocks who infiltrated our plane."

Grand Duke Gogno is one of the seven grand dukes subordinated to the sixth true ancestor, while Duccio and Posino are directly subordinated to him. They must obey the call of Grand Duke Gogno.

Even if Grand Duke Gogno orders Duccio and Posino to die, the two of them can only kill themselves. Only when they practice cultivation until the Infinity Warlock rank, can true blood kindred break the bloodline shackles and truly become masters of their destiny.

Yang Feng frowned slightly and said: "This is the worst news I have ever heard. By the way, since the two human Warlocks are from Cangzhi Plane, they must have not a small number of concealment methods. Isn't Grand Duke Gogno asking us to look for a needle in a haystack?"

Posino sighed lightly: "Reportedly Grand Duke Antimo lurking in Cangzhi Plane paid a drop of true blood to cast a Blood Soul Mark on them. As long as we use a Blood Soul Compass, we can detect them within an area 10,000 kilometres in diameter. Grand Duke Gogno has led people to fight them several times. Many on our side have died, while they have been heavily wounded. However, they still escaped!"

Posino knows that Grand Duke Gogno is using them as cannon fodder. Once they find the trail of the Yu family's sisters, they will be killed by the sisters in the first moment. Grand Duke Gogno will use their deaths as information to hunt the sisters.

Compared to human Moonlight Warlocks, it's much easier for true blood kindred viscounts to be born. Kindred marquises and kindred grand dukes, on the other hand, are harder to be born than Bright World Warlocks and Infinity Warlocks respectively.

As for kindred true ancestors; from before the archgod era to the present, the kindred have only birthed nine such individuals. The number of human Holy Spirit Warlocks in each era is far greater than nine. In here lies the biggest difference between the two races.

For the sake of a drop of Grand Prince True Blood, Grand Duke Gogno has clearly become a bit desperate, to the point that he's even willing to use the precious combat power that is kindred viscounts as cannon fodder for the search.

Yang Feng contemplated for a moment, and then said: "Are the other grand dukes and grand princes staying out of it? Otherwise, the two human Warlocks should not be able to escape."

Posino said meaningfully: "There's only one drop of Grand Prince True Blood!"

Even grand prince-titled powerhouses will be moved by a drop of Grand Prince True Blood. But even though it is the sixth true ancestor, they can only take out one drop of Grand Prince True Blood. That drop of true blood can make countless kindred powerhouses go crazy for it.

For the sake of that drop of Grand Prince True Blood that can increase their chances of advancement by 50%, many kindred grand dukes who have been stuck at the bottleneck to grand prince for tens of thousands of years or even hundreds of thousands of years will go crazy.

Yang Feng and Posino discussed for a while, but came to no solution. They can only heed the call of Grand Duke Gogno and go to Snow Night City.

Snow Night City is the place where Grand Duke Gogno lives. It's not an ordinary city, but a celestial body Grand Duke Gogno picked up and refined via ingenious alchemy into a celestial body suspended in God Blood Plane.

The population in Snow Night City is 13.5 billion people. Of the 13.5 billion people, every man is handsome and every woman is beautiful. Once an ugly person is born in this city, they will be banished to the surface world.

For everyone subordinated to Grand Duke Gogno, Snow Night City is a paradise of their dreams. They are proud to be able to live here.

God Blood Plane's kindred aren't proficient at alchemy. Grand Duke Gogno has become a pinnacle kindred grand duke existence more than 100,000 years ago. In that long period of time, he caught a top Alchemist Grandmaster from Cangzhi Plane and spent nearly 10,000 years to build Snow Night City.

In Snow Night City, Grand Duke Gogno holds a 30% chance to quell a kindred grand prince. Even if he cannot quell them, he can still defeat them. This is the power of secret treasures, the power of human alchemy.

Kindred, fiends, dragons, elves, devils, and other such inherently powerful races are far more powerful than human Warlocks of the same rank. Even if human Warlocks transplant their bloodline, they still cannot compare to the source of the bloodline. But by relying on the power of alchemy, human Warlocks have developed all kinds of powerful secret treasures, enabling them to defeat other powerful races one by one.

As soon as Yang Feng entered Snow Night City, he couldn't help but exclaim in admiration: "What a beautiful city!"

In Snow Night City, the streets are spacious and surrounded by high rise buildings full of artistic flair, and luxury magic chariots roam the streets. This city is much more beautiful than many large cities in Cangzhi Plane.

Snow Night City is filled with powerful life magic energy. To maintain the concentration of life magic energy in the city, there must be special secret treasures installed.

The streets here are filled with handsome men and beautiful women. They all have ruddy complexions and spirited eyes, making this city stand out from the other cities in God Blood Plane.

Posino spoke with a smile: "This is Snow Night City after all, a secret treasure His Majesty Grand Duke spent 10,000 years to refine. The grand princes are very envious of His Majesty Grand Duke due to this Snowy Night City."

Yang Feng smiled, and countless nano robots the size of dust particles flew out of his hands and disappeared into Snowy Night City. He quietly followed Posino towards the center of Snow Night City.

In the center of Snow Night City, there lies a huge castle, which is the residence of Grand Duke Gogno.

Yang Feng entered the huge castle and came into a hall, where he saw hundreds of kindred viscounts gathered.

Yang Feng mused: “Hundreds of kindred viscounts. The number of Moonlight Warlock rank powerhouses subordinated to Grand Duke Gogno is much higher than that of Battle Demon Sect!”

Chapter 670 – Grand Duke Gogno

Shortly after, a tall, handsome man who looks very young yet whose eyes contain the vicissitudes of life walked into the hall from a side chamber and sat on the throne.

Yang Feng learned from Duccio’s memories that the handsome, very young-looking man is Grand Duke Gogno, who has 3 kindred marquises, 13 kindred earls, and hundreds of kindred viscounts subordinated to him.

“The reason why I gathered you all here, presumably you all are clear about it. Now I order you to go to Magadan Region at once and search for traces of the two human Warlocks. After finding them, do your utmost to issue an alarm signal, and then try to stop them by any means!”

Looking coldly at the many kindred powerhouses, mysterious bloody light radiated from Grand Duke Gogno’s eyes, and strange blood energy spread from him and enveloped Yang Feng and company.

“Yes! Your Majesty!”

Swept by the bloody light, the true blood inside the hundreds of Moonlight Warlock rank kindred viscounts shuddered, and they bowed their heads and responded respectfully.

Even Yang Feng who has prepared himself beforehand could not resist the control over the true blood inside him, and couldn’t help but to reply respectfully.

Grand Duke Gogno spoke coldly: “Go!”

“Yes! Your Majesty!”

Along with flashes of bloody light, Yang Feng and the many other kindred viscounts turned into streams of light, shot out of Snow Night City, and flew towards Magadan Region.

The nano-robots that Yang Feng has released in Snow Night City are absorbing the life magic energy in the city and multiplying quietly.

100 level-4 optical computers are frantically performing calculations and analyzing the structure of Snow Night City and its various runes.

A level-4 optical computer is comparable to a Bright World Warlock in terms of computing power. With their computing and analytical powers combined, the 100 level-4 optical computers have already surpassed a common Infinity Warlock.

“Now let’s have an experiment, let’s see how powerful the command of a kindred grand duke is! Disobey!”

As soon as Yang Feng flew out of the Snow Night City, he began to experiment. First, he chose to fly towards outside Magadan Region.

Yang Feng had just moved, when he suddenly fell into a trance. When he woke up, he found out that he had already flown a long distance towards Magadan Region.

“Fate won’t do, the true blood inside me won’t let me disobey his orders! How about outward devotion yet inward opposition? I can slow down the flying speed!”

With a thought, Yang Feng became as slow as a snail. At this speed, when he finally arrives in Magadan Region, it will presumably already be a few months later.

Yang Feng flew slowly for a dozen seconds, when he suddenly fell into a trance again. When he woke up, he discovered that his speed has increased a lot. According to his assessment, with the current speed, he will be in his peak condition when he arrives at Magadan Region.

“His command cannot be violated! This is the true blood shackles, the greatest curse of true blood kindred!”

Formidable strength is always difficult to restrict. True blood kindred have the true blood shackles, forming a distinct hierarchy in the kindred world. With the nine true ancestors as bloodline sources, there is a total of nine bloodlines in God Blood Plane.

Thanks to the true blood shackles, true blood kindred powerhouses of the nine bloodlines formed powerful and dauntless kindred armies and fought Cangzhi Plane’s human Warlocks countless times. They defeated the human Warlocks many times.

If it wasn’t for the true blood shackles, God Blood Plane’s kindred would have been defeated by humans god knows how many times. After all, the true blood kindred with Transcendent rank strength fear death. If not for the inviolable commands, they wouldn’t attack human Warlocks without the fear of death, and would instead disband and scatter when they lost.

After experimenting for a while, Yang Feng came to a conclusion: “But this command is not without limitations. I just have to try my best to follow the wording of the command, and that’s enough. I don’t have to work hard to complete the task itself.”

As soon as Yang Feng reached Magadan Region, he lazily took out the Blood Soul Compass and operated it. Three light spots lit up on the Blood Soul Compass, one of which represented Yang Feng. The other two light spots are much brighter and exude dazzling bloody light. They clearly represent the two powerhouses Yu Tianling and Yu Yan.

Yang Feng furrowed his brows and revealed a wry smile: “What bad luck, I won the jackpot!”

The Blood Soul Compass searches for enemies by receiving the waves released from the true blood marks set up by the casters. While it locks on the enemies’ position, it will also be detected by the enemies.

Yang Feng felt a terrible aura, and immediately shouted: “Don’t kill me! I am friends with Zhao Fan, I’m here to save you!”

There was a twist in the void, and Yu Tianling suddenly appeared behind Yang Feng and slapped him lightly with her lily-white hand, and countless runes sank into Yang Feng’s body, sealing all the power inside him.

Yang Feng hurriedly said: "The Blood Soul Compass cannot be destroyed, or else Grand Duke Gogno will take notice and come here with his true body to chase after you."

Yu Tianling stopped mid action. Looking at Yang Feng with vigilance, she silently recited an incantation and pointed with a finger at him, and a series of detection spells fell on Yang Feng and proved that he is telling the truth.

Unless they possess a special secret treasure, a kindred viscount can't resist Yu Tianling's detection spells.

Yu Tianling creased her slim eyebrows and asked: "Why would Zhao Fan help us?"

Apart from close friends and companions, few Warlocks will help others for no reason. Many more Warlocks believe in the principle of equivalent exchange.

His thoughts revolved, and Yang Feng weaved out a lie: "It's because he fell in love with you at first sight! It is for this reason that he contacted me regardless of everything to help you!"

Yu Tianling wrinkled her slim eyebrows. Zhao Fan's appearance flashed in her mind, and she said a bit coldly: "But I don't like him!"

Yu Tianling likes strong combat Warlocks fighting on the front lines. Regarding Alchemist like Zhao Fan staying far behind the front lines, she looks down on them a little despite understanding that without the support of Alchemists, the strength of combat Warlocks will be halved at the very least.

Yang Feng smiled: "You can tell him this in person! I just want to know if you need my help or not? No, it should mutual help! I also need your help."

"Tell me your story!"

Without any warning, a sweet voice rang behind Yang Feng, and a chill welled up in his mind at once. When he looked back, he saw Yu Yan standing behind him with a smile.

There is a dignified look in Yang Feng's eyes: "So this is an Infinity Warlock, incredible! If I were her enemy, she would have killed me before I could sense her, how scary. Alexia is not her opponent! She is indeed one of the Eight Marshals of Great Cloud Dynasty!"

Although this kindred avatar is far weaker than his true body, but it is still a Moonlight Warlock rank powerhouse, and its perception ability is far more developed than that of ordinary human Moonlight Warlocks. For him not to be able to sense Yu Yan's presence, it let him once again experience the power of an Infinity Warlock.

In the west of Magadan Region, a kindred viscount took out a Blood Soul Compass. All of a sudden, his countenance changed greatly, and he shouted loudly: "They're here!"

The kindred viscount had just shouted, when the surrounding space distorted, and all sounds were isolated.

In the wink of an eye, Yu Yan appeared behind the kindred viscount, and the Black Fenghuang Spear in her hand easily pierced into his body. Violent Black Fenghuang Flames welled up, swallowed the kindred viscount along with the Blood Soul Compass, and burned them to ashes.

“Found you!”

Countless specks of bloody light flew out from the Blood Soul Compasses in the hands of the kindred viscounts in Magadan Region and formed a bloody portal in the space, and Grand Duke Gogno’s sinister and tyrannical voice came from the bloody portal.

Grand Duke Gogno’s subordinates Marquis Levon, Marquis Rania, and Marquis Riclow flew to the bloody portal.

The hundreds of kindred viscounts turned into stream of bloody light that poured into the bodies of the three marquises, enabling them to radiate traces of kindred grand duke fluctuations of power.

Even if Yu Yan and Yu Tianling fight desperately, it will be difficult for them to break the large formation formed by the three kindred marquises and hundreds of kindred viscounts in a short time.

A pair of Black Fenghuang wings formed on Yu Yan’s back and flapped violently, and Yu Yan enveloped in Black Fenghuang Flames fled into the distance.

Yu Tianling’s figure fluttered, and she flew towards Viscount Duccio’s territory along with Yu Yan

Terrifying fluctuations of power spewed out of the bloody portal, and Grand Duke Gogno blurred into motion and shot out from the bloody portal, and his eyes locked on the pair of sisters thousands of kilometres away.

“Marshal Yu, since you have come to our God Blood Plane, then let me entertain you!”

Grand Duke Gogno smiled fiercely, spread the bat wings on his back, blurred into motion, and turned into a stream of bloody light shooting towards the pair of sisters.

Ever since Yu Yan and her sister entered God Blood Plane, she has gone through successive battles, having fought with several kindred grad dukes. Although she has no visible injuries, but in fact she has taken some damage. What’s worse, she isn’t given time to heal. Although she operates a secret method, but her flight speed is still far from being a match to Grand Duke Gogno’s.
