Chapter 671 – Quelling Grand Duke Gogno

Yu Yan's soul force swept out, and her face fell at once: "So fast! Why is he so fast? He deserves to be one of the three kindred grand dukes most hopeful to advance to a kindred grand prince!"

Just as there are weak and strong Infinity Warlocks, the same is true for kindred grand dukes. Grand Duke Gogno is a most powerful kindred grand duke.

In peak condition and with two Monarch grade secret treasures, Yu Yan may be able to surpass Grand Duke Gogno. But after a few fierce battles, Yu Yan who has no time to recover is not the opponent of Grand Duke Gogno.

"Damn it, if things go on like this, we will be disposed of before we reach our destination! Now we can only believe in him!"

Yu Yan gritted her teeth, silently recited an incantation, and spurted a mouthful of blood essence, and countless black flames rose from her and turned into a pair of burning black Fenghuang wings.

With resolve in her eyes, Yu Tianling also spurted a mouthful of blood essence from her mouth that turned into Fenghuang wings.

The flames of the black Fenghuang wings and the Fenghuang wings interwove and triggered a resonance. Countless flames instantly enveloped Yu Yan and Yu Tianling and formed into a life-like Fenghuang.

When the Fenghuang flapped its wings, countless flames fluttered, and it crossed 10,000 kilometres in an instant.

"Awesome, as expected of Marshal Yu of Great Cloud Dynasty's Eight Marshals! No wonder the mighty sixth true ancestor is tempted by her. Pity that this is God Blood Plane! Now that you have come here, you can only wait to be captured!"

Grand Duke Gogno glanced at the fire Fenghuang, smiled, and turned into a beam of bloody light flying after the pair of sisters. He knows very well that the secret method that Yu Yan and Yu Tianling have unleashed is very taxing and cannot be maintained for a long period of time. When they can no longer maintain the secret method, the flight speed of Yu Yan and Yu Tianling will slow down.

Although Yu Yan and Yu Tianling have studied the law of space, but Infinity Warlocks can easily affect space.

In front of an expert such as Grand Duke Gogno, only Infinity Warlocks who can evolve their path that hinges on the law of space into the essence of space can use the law of space to freely cross space and teleport far away.

If Yu Yan and Yu Tianling use spatial spells in front of Grand Duke Gogno to teleport far away, they can be easily wounded by Grand Duke Gogno using spatial force instead, and may even be teleported to next to him.

When facing old monstrous Infinity Warlocks, no one will use spatial spells to escape. Only when dealing with some astral beasts and Infinity Warlock rank freaks with low-intelligence will people use spatial spells to escape. Those with low intelligence fundamentally don't know how to use spatial force to attack and defend.

The three powerhouses quickly flew out of Magadan Region. After crossing the domains of several kindred viscounts, they entered the domain of Viscount Duccio. Grand Duke Gogno is getting closer and closer to the Yu family's sisters.

The endless Thunder Dragon Mountains appeared in front of the three people. Without hesitation, the Yu family's sisters plunged into the mountain range where countless dangerous extraordinary life forms live.

Grand Duke Gogno saw through the intentions of the Yu family's sisters at a glance and sneered: "How stupid! It's useless! Although those extraordinary life forms are extremely dangerous for others, but for the strong, they are nothing but ants!"

There are countless powerful extraordinary life forms in Thunder Dragon Mountains. Even if a kindred earl enters Thunder Dragon Mountains, there is a possibility of them dying.

But Gogno is a kindred grand duke, an Infinity Warlock rank existence. So long as he is given time, he can slaughter all the creatures in Thunder Dragon Mountains. He can even easily kill the strongest extraordinary life form in Thunder Dragon Mountains – Aurora Thunder Dragon.

The Yu family's sisters blurred into motion and plunged into a cave.

"Be crushed!"

Grand Duke Gogno bellowed and pointed towards the cave.

A red beam of light slammed into the cave like a divine punishment and blasted a 1,000-meter-tall mountain into fragments.

Two rays flashed, and the Yu family's sisters took this chance to fly towards another mountain.

There are countless caves in Thunder Dragon Mountains.

The Yu family's sisters are like gophers. When they see a hole, they drill into it. Whenever Grand Duke Gogno attacks, he blasts a mountain to pieces.

Thunderous rumbles rise in Thunder Dragon Mountains nonstop.

Sensing Grand Duke Gogno's terrifying aura, countless extraordinary life forms fled at once. There are also some fearless extraordinary life form who attacked Grand Duke Gogno. But as soon as they emerged, their blood was drained and absorbed by Grand Duke Gogno, becoming his nutrients.

True blood kindred have a terrifying innate ability to manipulate blood. Without secret methods or spells to protect themselves, low-level extraordinary life forms may have their blood drained once they reach a certain range from the true blood kindred.

Whenever extraordinary life forms in the Starry Sky Warlock rank realm or below appear before Grand Duke Gogno, they will have their blood absorbed by him.

Grand Duke Gogno looked at the Yu family's sisters escaping into the distance and frowned: "How annoying, are they trying to consume my power? My power has indeed been consumed by half!"

God Blood Plane is one of the 36 primary material planes. As such, the plane itself is very dense and firm. Despite how strong he is, Great Duke Gogno has to spend a lot of blood energy to destroy a mountain.

"Such attacks are too inefficient!"

With a thought Grand Duke Gogno changed his fighting style. He turned into a bloody falling star and flew towards the Yu family's sisters.

Within a dozen or so breaths of time, Grand Duke Gogno strangely appeared behind Yu Yan and pointed with a finger, and an arrow made of blood flames shot towards her.

Yu Yan turned around and stabbed the blood flames arrow with her spear.

Two violent forces broke out in an instant, and Yu Yan was flung back. She spat out blood and fell into a cave.

Grand Duke Gogno's figure fluttered, and he shot towards Yu Yan like a bloody falling star and locked in battle with her.

As the two sides fought and fled, Yu Yan's injuries mounted bit by bit, with blood oozing out of the corners of her mouth.

Grand Duke Gogno's fighting style is shrewd and ruthless. He doesn't give Yu Yan a chance to fight back, but instead keeps wandering around her and consuming her life force with his terrifying resilience.

As a peerless powerhouse in the top three of Great Cloud Dynasty's Eight Marshals, if Yu Yan goes all out, she can even give a kindred grand prince damage.

Since Grand Duke Gogno doesn't want to die together with Yu Yan, his way of fighting is to pester her and exchange injury for injury.

Under the shameless attack method of Grand Duke Gogno, Yu Yan's wounds became increasingly serious and her aura weaker.

After fighting hundreds of rounds and crossing dozens of mountains, Yu Yan drove Grand Duke Gogno back with a spear strike, and then blurred into motion and dove into a cave.

Grand Duke Gogno smiled coldly, blurred into motion and flew into the cave closely after her.

"Finally hooked! Fire!" Hidden in some corner, Yang Feng who has been watching all this silently showed a smile and ordered grimly.

The main artillery of a Blazing Sun Battlestar hidden in the cave shone and fired a resplendent beam.

"Shit! I fell into a trap!"

Feeling the threat of death, blood energy welled up inside him, and Grand Duke Gogno formed one bloody barrier after another before him.

When the beam blasted into the bloody barriers, they were smashed in an instant, and then Grand Duke Gogno was swallowed by the beam.

When the beam disappeared, Grand Duke Gogno was nowhere to be seen, There are now eight drops of bright red true blood floating in the air with a small barrier around them.

A black figure flashed, and the Blazing Angel Alexia equipped with the Ruler Armor descended from the sky and mercilessly slashed at the barrier with the Blazing Angel Sword in her hands, and Fallen Angel Flames burned the barrier.

“This kindred grand duke true blood is mine!”

Yang Feng’s true body who has taken the form of Undying Mountain’s Young Master Lei Ming emerged with a step. He silently recited an incantation and pointed with a finger, and the True God Empyrean Imprint emerged. Countless chains formed from runes flew out from the imprint and shot towards the barrier.

Zhan Hongtao and the other Bright World Warlocks of Li Gui Province subordinated to Yang Feng cast spells and bombarded the last barrier of Grand Duke Gogno

Under the frantic bombardment, the barrier of the eight drops of true blood shattered, and then countless chains released by True God Empyrean Imprint stabbed into the eight drops of true blood. The kindred Grand Duke Gogno’s eight drops of true blood were quelled and sealed one after another.

Grand Duke True Blood is a first rate material for refining elixirs. By absorbing the refined eight drops of Grand Duke True Blood, it can enable Alexia, Zhan Hongtao, and many other pinnacle Bright World Warlocks have a breakthrough and promote to an infinity Warlock rank existence in one go.

If Yang Feng ingests an elixir refined from the eight drops of Grand Duke True Blood, he can also break through the bottleneck and advance to a Bright World Warlock in one fell swoop.

Yang Feng collected the eight drops of true blood and said with a smile to the Yu family’s sisters: “Hello, Marshal Yu. I am Lei Ming, the Young Master of Undying Mountain. It’s a pleasure to make your acquaintance.”

Chapter 672 – Infinity Warlock Rank Kindred Avatar

Yu Yan didn’t relax and instead remained vigilant. Calmly looking at the powerhouses from Li Gui Province, she spoke with a smile: “I am Yu Yan, and this is my sister Yu Tianling, the pleasure is all ours, Young Master Lei Ming!”

Each Infinity Warlock is a mobile treasury themselves. Even human Warlocks, once they practice cultivation to the Moonlight Warlock rank, they will be Transcendent rank powerhouses, and each part of their body will be a most precious alchemy material.

Now that they are seriously injured, the Yu family's sisters are worried that Yang Feng will fall out with them and hit them when they are down.

"This isn't a suitable place to stay for a long time! We'll take our leave first, goodbye!"

Yang Feng took a deep look at the pair of sisters, and then smiled, turned around, and entered the midst of his subordinated powerhouses.

As one of Great Cloud Dynasty's Eight Marshals, Yu Yan's fighting power is amazing. If she fights desperately, half of the Bright World Warlock powerhouses Yang Feng brought from Li Gui Province may die.

Yang Feng doesn't want to surrender the lives of Li Gui Province's Bright World Warlocks in order to kill an Infinity Warlock.

After eating a strike from the Blazing Sun Battlestar's main artillery, he still hadn't died. Only by mobilizing Li Gui Province's powerhouses was Yang Feng able to crush the heavily wounded Grand Duke Gogno.

Even though Yu Yan is seriously injured, but Yang Feng doesn't want to fight her without a good reason.

There was a flicker in Yu Yan's beautiful eyes, and she uttered: "Please wait! We need your help, Young Master Lei Ming!"

Yang Feng replied with a smile: "Then what price are you willing to pay? We already helped you take care of Grand Duke Gogno, or else you would have fallen into his hands. You already owe us a big favor!"

Yu Yan smiled and spoke, a shrewd look in her eyes: "No, even if you stayed aside, we could still have escaped from him. Although that would entail a certain price. Additionally, while acting as bait, we helped you ambush him, enabling you to get eight drops of Grand Duke Blood. In fact, you owe us a favor!"

Yang Feng smiled and took a few steps back: "Marshal Yu, that sounds really insincere. If you insist on your version of the truth, then there's nothing to talk about."

Alexia equipped with Ruler Armor blocked in front of Yang Feng.

When Yu Yan is in her peak form, even though she is equipped with Ruler Armor, Alexia is still not a match for Yu Yan who is armed with Black Fenghuang Armor and Black Fenghuang Spear. But now that Yu Yan has been wounded repeatedly, even with Yu Tianling on her side, the two of them are not a match for Yang Feng's many subordinates.

Yu Tianling bowed and said: "We do indeed owe you a big favor. Thank you for your help."

Yu Tianling went on to say: "Please help us leave God Blood Plane! We can pay you an intermediate divine force rank godhead. The godhead possesses the law contracts."

Yang Feng's eyes brightened slightly, and then dimmed: "Intermediate divine force rank godhead, that's good stuff! Unfortunately it doesn't match the laws I need. Although this godhead is precious, yet it is not what I need."

The divine authority of Yang Feng's clone in Feisuo Plane is war, massacre, and shadows. He doesn't need the law of contracts.

For gods, it is not the more laws they master the better, but the purer the better. In Feisuo Plane, strong divine force gods often master only one or two laws and one or two divine authorities.

Yu Yan took a deep look at Yang Feng and said flatly: "What do you want?"

Yang Feng replied with a smile: "I wish the two of you to join Undying Mountain, become my subordinates, and work for me!"

A glint of contempt in her pretty eyes, Yu Yan sneered: "You are just a Glorious Sun Warlock, yet you want to recruit us to become your subordinates?! Is this a joke?"

Yu Yan is an Infinity Warlock, a human Warlock at the apex of Cangzhi Plane. It's no wonder that she is a proud and arrogant woman. If it was a Holy Spirit Warlock who came to recruit her instead, she might be happy to serve them. But Yang Feng is just a Glorious Sun Warlock. It is beneath her to serve someone like that.

"If you change your mind, crush this crystal, and I will come save you. However, keep in mind that if you're captured by a kindred grand prince rank powerhouse or higher, I won't be able to save you. So don't even bother crushing the crystal. Good bye then!"

Yang Feng smiled and threw a crystal flying towards Yu Yan, and then flew towards a cave with Li Gui Province's powerhouses.

Inside the cave, there is a top grade warp gate. It is thanks to this top grade warp gate that Yang Feng could easily transfer Li Gui Provinces's top powerhouses to come here and slay Grand Duke Gogno.

"Their auras disappeared! Whats going on?"

Yu Yan gazed at the strange cave, a look of curiosity and apprehension in her beautiful eyes. She is itching to fly into the cave and take a closer look at the barrier inside. But then she recalled the power of the Blazing Sun Battlestar's main artillery, and a chill welled up inside her.

Blazing Sun Battlestar's main artillery can inflict a grave wound on an Infinity Warlock rank powerhouse, and it can even injure a Warlock Monarch rank powerhouse.

With Yu Yan's current strength, once she is hit by Blazing Sun Battlestar's main artillery, she will be likely killed, and even if she is not killed, she will be surely disabled.

When Blazing Sun Battlestar's main artillery beam ambushed Grand Duke Gogno, it has flown past Yu Yan. She could feel the terror of the main artillery just from this.

Yu Tianling creased her slender eyebrows: "Sister, let's go! Since he left so confidently, there must be other means there. Even when we are in a peak condition, it would still be pointless! We'll just offend him in vain!"

A gleam of indignation streaked past Yu Yan's beautiful eyes, and she clenched her white teeth and said in a deep voice: "That guy is the most hateful man I have ever met! When I return to Cangzhi Plane, I must teach him a lesson!"

“Let’s go!”

Yu Yan took out a dozen plus vials of first-rate elixirs and consumed them. She regained part of her strength and unleashed a secret method to escape this place with Yu Tianling.

Li Gui Province, inside a secret room, Yang Feng’s true body holding eight drops of Grand Duke Gogno’s true blood sank into his thoughts: “These eight drops of Grand Duke True Blood are indeed a rare treasure, but it’s still hardly enough to let me tackle the Infinity Warlock realm. If I use them on my kindred avatar, I can turn it into a kindred grand duke!”

Yang Feng’s true body is a human Warlock, the core secret method he cultivates is the secret method Primal Chaos Imperishable Body created by the Taboo Lord in his later years, and the law essence he condensed is the essence of devour, all of which has no relation with blood energy. As for his kindred avatar, it is composed of a true blood kindred, and can perfectly absorb most of the power of Grand Duke Gogno.

If Yang Feng’s true body uses the true blood on him self, he will waste a large part of its power. It wouldn’t have mattered, but Grand Duke Gogno is a kindred grand duke who has a huge territory with countless people. After weighing it again and again, Yang Feng chose to let his kindred avatars absorb the power of the Grand Duke True Blood.

Yang Feng silently recited an incantation and pointed at the eight drops of Grand Duke True Blood. Suddenly, the God Empyrean Imprint flew out, and numerous chains made of runes shot towards a drop of true blood.

As the drop of true blood struggled, a faint soul of Grand Duke Gogno appeared.

Grand Duke Gogno enticed with a tempting voice: “Human Warlock, I am Grand Duke Gogno. I have more than 1 trillion people under my control and countless resources. Please spare my life! I will offer you endless resources, so that you can smoothly promote to an Infinity Warlock!”

“Your words are indeed very tempting. Unfortunately, I don’t have a way to control an Infinity Warlock. I can only invite you to die!”

Yang Feng smiled coldly and slammed Grand Duke Gogno with his hand, and numerous runes erupted and erased the discarnate soul of Grand Duke Gogno. With a flick of Yang Feng’s finger, the drop of true blood flew into the mouth of his kindred avatar.

When Yang Feng’s kindred avatar swallowed that drop Grand Duke True Blood, its blood surged, and endless power welled up inside it. The kindred avatar evolved all the way until it became a kindred earl.

Yang Feng looked at his kindred avatar with some envy, and then went on to purify the second drop of Grand Duke True Blood: “The evolution of this race is really fast, much faster than that of human Warlocks!”

After Yang Feng’s kindred avatar devoured the second drop of Grand Duke True Blood, it made a breakthrough and advanced to a kindred marquis in fell one swoop.

Immediately afterwards, Yang Feng's kindred avatar devoured five more drops of the true blood, and then broke through to a kindred grand duke. After devouring the last drop of true blood, Yang Feng's kindred avatar became an intermediate Infinity Warlock rank grand duke.

Yang Feng is envious of the kindred avatar's evolution speed. This is the frightening thing about the evolution of kindred. As long as they have true blood of upper-level kindred, they can quickly evolve and reach new heights. This is one of their strongest racial abilities.

Yang Feng looked at the kindred avatar with intermediate Infinity Warlock rank strength and uttered regretfully: "Even if it is a kindred who absorbs the true blood, it still wastes a lot of power of the true blood. The power of Grand Duke Gogno was more than this! What a pity!"

Grand Duke Gogno was a quasi-Warlock Monarch rank existence. Without using any secret methods, he can already rival Yu Yan. If Yu Yan did not have those two Monarch grade secret treasures, she would not be his opponent.

Chapter 673 – Alexia's Evolution

Although Yang Feng's kindred avatar now possess intermediate Infinity Warlock rank power, but it's only slightly stronger than Alexia when she is equipped with Ruler Armor.

As Yang Feng gazed at his kindred avatar, the corners of his mouth rose slightly: "However, as long as I create a sufficiently powerful secret treasure for this kindred avatar, it should be able to become a most outstanding existence among kindred grand dukes in terms of battle prowess!"

"Now it's time to carry out the next step of the plan!"

Yang Feng's kindred avatar showed an excited smile and stepped into the top grade warp gate.

Snow Night City's Snow White Castle is the center that controls the entire Snow Night City as well as the residence of the Grand Duke of Gogno.

A bloody stream of light flew into Snow Night City and shot towards Snow Night Castle.

"Enemy attack!"

"Enemy attack!"

"..."

Alarms sounded in Snow Night Castle. All of a sudden, powerful barriers emerged and covered the whole Snow Night Castle.

A gorgeous blond female kindred earl with a voluptuous body standing besides the barrier saluted Yang Feng and said respectfully: "Sir, I am Bina. This is Grand Duke Gogno's Snow Night City. Grand Duke Gogno isn't here now, please leave. If there is anything you want to tell the grand duke, we can relay it for you."

Although the female kindred earl is the woman Grand Duke Gogno favors the most, but she doesn't dare offend another kindred grand duke.

“Grand Duke Gogno is already dead! I, Duccio, am the new master of Snow Night City from now on! Open the barrier and welcome your new master, this is an order!”

Yang Feng smiled coldly, and grand duke-titled blood energy spread from him and shrouded Snow Night City. He took a deep look at Bina and used the innate ability of kindred Bloodline Command.

Bina’s eyes widened, and then the true blood inside her compelled her to shout loudly: “Open the barrier and greet our new master!”

When Grand Duke Gogno was still alive, he set up a bloodline brand inside his subordinates. As a result, other kindred grand dukes of the same bloodline cannot command his subordinates.

Now that Grand Duke Gogno has been devoured by Yang Feng’s kindred avatar, the bloodline brand set up inside his subordinates has collapsed. His subordinates can no longer resist the command of Yang Feng’s kindred avatar who is also of the sixth true ancestor bloodline.

The barrier of Snow Night Castle suddenly collapsed, and Transcendent rank auras flew out from inside the castle, knelt in front of Yang Feng, and said respectfully: “We welcome you, mighty Grand Duke Duccio!”

“Good! From now on, you are my subordinates!”

Yang Feng raised the corners of his mouth and spread the fingers of a hand, and a ball of blood condensed in his hand. The ball of blood bloomed and turned into bloody rays that flew into Bina and other subordinates of Grand Duke Gogno, and then set up a bloodline brand that belongs to Yang Feng.

Unless Yang Feng is killed or a blood ancestor step is, it is impossible to erase the bloodline brand inside these kindred subordinates.

After Yang Feng subdued Grand Duke Gogno’s subordinates, he issued an order to have the true blood kindred inside Snow Night City come to Snow Night Castle to swear allegiance to him and receive his bloodline brand.

After taking control of Snow Night City, Yang Feng went directly to Grand Duke Gogno’s treasury.

Snow Night City is a secret treasure Grand Duke Gogno spent 10,000 years and countless resources to forge. Once Snow Night City is fully activated, even a kindred grand prince can be defeated. This is a very safe place, so Grand Duke Gogno’s treasury is also located here.

“This is the treasury of Grand Duke Gogno? Sure enough, I made the right choice!”

As soon as Yang Feng entered the treasury, he saw countless treasures from different planes radiating dazzling light inside.

Attracted by fluctuations of divine force, Yang Feng suddenly looked in a direction, and then was taken aback, a peculiar gleam in his eyes: “Godhead, 1 strong divine force grade godhead, 2 intermediate divine force grade godheads, 10 weak divine force grade godheads, 30 feeble divine force grade godheads, and 100 demi-godheads. Did the old monster slaughter a pantheon?”

In Feisuo Plane, elves only have 1 strong divine force grade and 2 intermediate divine force grade gods. For Grand Duke Gogno to have so many godheads here, it is beyond shocking.

“Fortunately I brought Li Gui Provinces powerhouses. Otherwise, if he wasn’t killed at that time, the one to die might be me.”

Yang Feng looked at the bodies of devils, dragons, giants, high elves, and other race powerhouses in the treasury, and felt a chill go down his spine.

Grand Duke Gogno was a quasi-Warlock Monarch rank powerhouse, and he has lived for more than 100,000 years. In that long period of time, who knows how many tough enemies he has killed. This time, however, he didn’t expect Yang Feng to scheme against him, which is how he was killed before he displayed his full strength.

If it was a head-on confrontation, even if the powerhouses under Yang Feng’s command joined forces with the Yu family’s sisters, they may not be Grand Duke Gogno’s opponent.

Yang Feng saw a black heart engraved with countless abstruse runes, and his eyes lit up, and he revealed a look of excitement: “This is the heart of a Fallen Angel, an Infinity Warlock rank Blazing Angel heart! Using this Fallen Angel heart plus enough dark force, I can create an Infinity Warlock rank Fallen Angel that belongs to me!”

The life center of human Warlocks lies in their soul core, the life center of kindred lies in their true blood, and the life center of Fallen Angels lies in their heart.

It is easy to kill a Fallen Angel, but it is extremely difficult to obtain a complete Fallen Angel heart, as they often blow themselves up under adverse circumstances. This Infinity Warlock rank Blazing Angel heart is naturally extremely rare.

Yang Feng quickly regained his calm: “However, to create an Infinity Warlock rank Blazing Angel, I need to create a Fallen Angel Pool first. A lot of resources need to be spent!”

Fallen Angel Pool is a treasure that births Fallen Angels, and it is also a place where Fallen Angels who only have the heart remaining regain their body.

An Infinity Warlock rank Fallen Angel can fight until only a heart is remaining. As long as the heart returns to Falling Angel Pool, the body can be quickly restored to its peak condition.

This is the terror of Fallen Angel legions. If you don’t destroy the Fall Angel Pool, Fallen Angels are almost like cockroaches that won’t die.

Yang Feng pondered for a while, and then said flatly through a communications device: “Alexia, come here!”

After a short while, a black beam shone, and Alexia appeared behind Yang Feng: “Greetings, my Lord!”

Yang Feng took out the Fallen Angel heart and uttered indifferently: “If you devour this Fallen Angel heart, can you become an Infinity Warlock rank Blazing Angel?”

The always indifferent Alexia looked at the Fallen Angel heart in Yang Feng’s hand with a fervent look in her eyes, and her breathing quickened: “I can!”

Yang Feng threw the heart to Alexia: “Then this is yours!”

Excitement streaked past Alexia's eyes. Suppressing her excitement, she uttered: "My Lord, if you build a Fall Angel Pool, and then inject enough dark force, you can get an Infinity Warlock rank Blazing Angel with this heart! Are you sure you want to give me this Fallen Angel heart?"

Yang Feng replied with a smile: "I understand! However, you have followed me for so long and rendered considerable military merit. A mere Fallen Angel heart doesn't count for much. As long as you are willing to serve me wholeheartedly, then I won't treat you badly!"

Alexia knelt on one knee in front of Yang Feng and spoke a vow with a solemn expression: "Yes! I, Alexia, swear to dedicate my body and heart to you, my Lord!"

Prior to this, Alexia only obeyed Yang Feng because she could not resist the shackles of the soul brand. But after accepting the Fallen Angel heart, she truly recognized Yang Feng as her master.

Alexia devoured the heart without hesitation, and a powerful attractive force spread from her delicate body.

With a wave of Yang Feng's hand, countless high grade magic crystals suddenly flew out and released a copious amount of life magic energy that disappeared into Alexia's body.

Threads formed from dark force suddenly flew out and formed a dark cocoon around Alexia. Traces of Infinity Warlock rank fluctuations of power slowly pulsated inside the dark cocoon.

Yang Feng showed a smile: "It was indeed the right choice to give up ingesting the true blood. In this way, I will soon have two Infinity Warlock rank powerhouses."

If Yang Feng ingested an elixir made from Grand Duke Gogno's true blood, he would at most expedite his breakthrough to the Bright World Warlock realm. But by letting his kindred avatar absorb the true blood, Yang Feng obtained two Infinity Warlock rank powerhouses. Additionally, the tremendous resources in Grand Duke Gogno's treasury can bring Yang Feng's power to a higher level.

Chapter 674 – Monarch Grade Kindred Secret Treasure

Yang Feng gazed at Grand Duke Gogno's treasury with admiration in his eyes: "It's really huge. If you use all the resources here, you could create a Warlock group comparable to Cangzhi Plane's Ten Great Sects."

Grand Duke Gogno is a quasi-Warlock Monarch rank kindred grand duke who has reached the bottleneck tens of thousands of years ago, unable to make any headway due to bloodline shackles. Since he had no plans of cultivating another kindred grand duke, he accumulated countless resources that are his spoils of war over the years, which he stashed in the treasury.

All kindred grand dukes have equal footing. They only obey the true ancestors of the same bloodline, and not even kindred grand princes can command them. It is for this reason that Grand Duke Gogno hadn't cultivated another kindred grand duke.

"That's a Monarch grade secret treasure!" In the deepest part of the treasury, there is a huge blood pool thousands of square kilometres in area. In the center of the blood pool, there is a long sword inscribed

with countless bloody runes. The bloody long sword emits terrifying blood energy. As soon as Yang Feng saw the long sword, he made a judgment.

Yang Feng looked at the long sword floating in the blood pool with a dignified gleam in his eyes: "Kindred powerhouses aren't expert at forging secret treasures. This long sword should be a secret treasure that a Grandmaster Alchemist of Cangzhi Plane refined for Grand Duke Gogno. Fortunately, this secret treasure hasn't formed yet, or else the ambush would have been a joke."

Kindred blood energy, Fallen Angel dark force, and human Warlock life force are completely different types of energy. With the exception of some secret treasures that are versatile in terms of energy, kindred cannot use secret treasures developed by human Warlocks.

Since kindred powerhouses are sufficiently powerful to contend with human Warlocks without using secret treasures, they fundamentally look down on the alchemy of humans. Therefore, there are very few kindred Alchemists in God Blood Plane, and consequently there are few secret treasures that kindred can use.

Most of the secret treasures created by humans serve to strengthen life force of human Warlocks and trigger resonance.

Since kindred blood energy is a force completely different from human Warlock life force, you need countless Grandmaster Alchemists carrying out deductions to research secret treasures exclusive to kindred.

Although Grand Duke Gogno's strength is earth-shattering, but his talent for alchemy is mediocre. He can use precious materials to refine level-8 secret treasures exclusive to kindred, which are completely useless when it comes to him. He can destroy level-8 secret treasures at will.

Warlock Monarch grade secret treasures are obviously far beyond the ability of Grand Duke Gogno. For that, he has captured a Grandmaster Alchemist from Cangzhi Plane. Under the guidance of the Grandmaster Alchemist, he spent countless materials and time to form a Monarch grade secret treasure embryo.

If Grand Duke Gogno had a Monarch grade secret treasure, then his fighting strength would have reached junior Warlock Monarch rank. The Monarch grade secret treasure would be his ultimate trump card

"God blood, devil blood, Angel blood, dragon blood... archgod blood! In order to refine this Monarch grade secret treasure, Grand Duke Gogno spared no cost. It's a pity that he didn't manage to refine this Monarch grade secret treasure successfully before he died! With the materials available, analyze the refining method of this secret treasure, and compute a method to refine it successfully as soon as possible!"

Yang Feng gave an order, and 100 level-4 optical computers quickly established models and began to analyze the Monarch grade secret treasure according to the bodies of knowledge recorded in the database.

The Monarch grade secret treasure has no use to Yang Feng's true body. But his kindred avatar is a kindred grand duke, it can fully exert the power of the secret treasure.

“Secret Treasure City No. 5,765 secret treasure is a kindred secret treasure refined by a kindred Bloodline Warlock, Seven Stars Abode No. 3,476 data has the theoretical conjecture of refining kindred secret treasures...”

Countless information related to kindred secret treasures quickly flashed in the level-4 optical computers, and then combined with xizu technology for modeling and analysis.

“According to the analysis of the current data, it isn’t possible to use Cangzhi Plane’s alchemy to analyze this Monarch grade secret treasure. However, using xizu technology, we can refine a new Monarch grade secret treasure without changing the blood energy enhancement method. Here is a list of materials needed!”

A few hours later, a line of information was transmitted by an optical computer.

Yang Feng looked at the list of materials, and his eyelids jumped up. The new Monarch grade secret treasure requires almost half of the rare resources in Grand Duke Gogno’s treasury, among which are godheads, dragon crystals, devil cores, and the like.

After a moment of thought, Yang Feng spoke resolutely: “Then adopt this plan! Refine the Monarch grade secret treasure at once.”

There are more than 1 trillion people in Grand Duke Gogno’s territory, which is much greater than the number of humans ruled by the human gods in Feisuo Plane. At the same time, although the resources this territory can provide cannot compare to the resources a greater province in Cangzhi Plane can provide, but it is still amazing. It is more than enough to support the cultivation of three Infinity Warlocks.

Grand Duke Gogno is able to occupy such a huge territory because he is a powerful existence of the quasi-Warlock Monarch rank, and even grand prince kindred are a little apprehensive of him. Without enough strength, Yang Feng cannot hold such a large territory.

Before long, all kinds of robots entered the treasury and quickly transformed into various apparatuses like Transformers.

A machine covered in tentacles suddenly flew out, and then its tentacles with numerous tiny probes quickly approached the bloody long sword and began the next step of analysis.

In the world of Warlocks, there are countless strange phenomena. Secret treasures with a spirit may even evolve into extraordinary life form-like existences, and they can also practice cultivation and evolve independently.

The bloody long sword is a Monarch grade secret treasure embryo. Even so, it needs a careful touch to be successfully refined.

10 days later, the news that Yang Feng’s avatar Duccio occupied Snow Night City spread across God Blood Plane. Countless kindred bigwigs learned that an insignificant kindred viscount subordinated to Grand Duke Gogno became a kindred grand duke by some stroke of luck and that Grand Duke Gogno died.

God Blood Plane, in an ancient castle, a handsome, very young man in aristocratic attire is holding a beautiful elven girl in his arms, forming a very beautiful picture. The only thing that damages this beautiful picture is the fact that the elven girl has two bloody holes on her neck and that blood is oozing out of the two bloody holes.

“Grand Duke Gogno has just died, and then Grand Duke Duccio appeared, what a coincidence! To be able to devour Grand Duke Gogno, this Duccio isn’t simple. His scheming is on another level! However, such a guy who reached the pinnacle in one go isn’t eligible to inherit Grand Duke Gogno’s territory!”

The corners of the handsome man’s mouth curved into a fearsome smile, and fluctuations of blood energy that are only slightly inferior to those of Grand Duke Gogno seeped out from him.

God Blood Plane, within a manor, a beautiful woman with long blond hair and a sexy figure wearing a swimsuit and a pair of sunglasses is lying in a chair on a beach. In front of her there is a sea extending without end.

The sea extending without end overlays with the manor that is hundreds of square kilometres in area, forming a strange scene that ordinary people cannot imagine.

A bloody ray emerged and entered the beautiful blond woman, and she raised the corners of her mouth and spoke in a low voice: “Grand Duke Duccio? Interesting, a small-time kindred viscount became a grand duke in one go, and even occupied Gogno’s treasury. His scheming is incredible. I just don’t know if he can hold his territory.”

Inside Snow Night Castle, in a luxurious palace.

A fragrance wafting out from her, Bina stepped into the palace and saw Yang Feng’s kindred avatar sitting on the throne surrounded by dozen plus beautiful girls who originally served as blood banks.

As soon as Bina entered the palace, she saluted Yang Feng and said respectfully: “Your Majesty!”

Yang Feng let a beautiful dragonborn girl feed him a fruit much sweeter than litchi, and then asked casually: “What is it? Speak!”

Bina said with a bitter expression: “Marquis Levon and Marquis Rania defected to Grand Duke Charlie, and Marquis Riclow’s stance is unclear. Among the remaining 13 earls, 10 have been roped in by Grand Duke Charles, while the stances of the other 3 is unclear. 382 viscounts who have originally belonged to Grand Duke Gogno have also defected to Grand Duke Charlie. Now we have only control over Snow Night City!”

A virtuous minister serves only a virtuous master. Generally, kindred grand dukes evolve step by step, and by the time they become grand dukes, they will have numerous experts as subordinates to help them govern a huge territory.

As Bina gazed at Yang Feng, a faint flash of dissatisfaction flashed in her beautiful eyes. After he occupied Snow Night City, Yang Feng indulges himself like a mouse who jumped into a rice tank. He flirts and plays with the beautiful girls of different races in Snow Night City everyday. During this time, he didn’t take a single step outside of Snow Night City, giving the rest of the kindred grand dukes a chance to recruit kindred powerhouses who belong to Grand Duke Gogno. If it wasn’t for the bloodline brand

Yang Feng set up on Bina and other kindred powerhouses in Snow Night City, they would have already defected to other grand dukes.

Chapter 675 – Coercion of Visitors

Yang Feng said indifferently: “I understand! Well, if there is nothing else, you can take your leave!”

Disappointment flashed in Bina’s eyes, and she sighed faintly and spoke respectfully: “Yes! His Majesty!”

At this moment, a beautiful, silver-haired human girl kneeling in front of Yang Feng gritted her white teeth, raised her head, and spoke up: “Your Majesty, there is something I would like to say!”

Yang Feng said indifferently: “Speak!”

The beautiful human girl uttered respectfully: “Your Majesty, we are honored that you dot on us. But we also ask you to focus on the kingdom. Only when the kingdom is peaceful and you are healthy, Your Majesty, can we have a good life. Your Majesty, please give some thought to the kingdom’s affairs.”

In God Blood Plane, a force controlled by a kindred grand duke is regarded as a kingdom.

Kindred marquises, earls, and viscounts are all aristocrats in such kingdoms. Every year, kindred marquis, earls, and viscounts must provide a lot of resources to the kindred grand dukes.

The wealth in Grand Duke Gogno’s treasury that can create several Infinity Warlocks, part of it was accumulated thanks to the offerings provided by kindred marquises, earls, and viscounts over the years.

The stronger a kindred kingdom is, the more dignified its people will be before people of other kingdoms.

Yang Feng smiled and uttered: “What’s your name?”

The beautiful human girl replied: “My name is Carrie!”

Yang Feng asked: “Not bad. Have you learned how to manage a kingdom?”

Carrie answered confidently: “Yes, I have! I have not only learned dancing, singing, and the common languages of seven planes, but I also learned how to manage a kingdom!”

Carrie and the other dozen plus other race girls around Yang Feng are top blood banks Grand Duke Gogno cultivated by spending countless resources. Existences such as Grand Duke Gogno are very picky when it comes to taste. Their blood banks must not only be beautiful virgins, but must also be knowledgeable and have an outstanding temperament. Much like human aristocrats, their food not only has to be delicious, but also meet certain standards.

Carrie and the other beautiful virgin blood banks are elites selected from amid 100 million beautiful girls and carefully nurtured. If placed on Earth, each one of them can become an elite among elites. But such beautiful girls are just food banks of Grand Duke Gogno.

“Interesting! This is a drop of my blood! Drink it and you will become my blood descendant!”

Yang Feng extended a finger of his left hand, and a drop of red blood appeared on his finger.

The dozen plus beautiful girls of different races around Yang Feng looked at the drop of bright red blood on his finger with envy in their eyes.

In God Blood Plane, only when you become a true blood kindred can you be regarded as an elite. As for these beautiful girls, no matter how beautiful and remarkable they are, but as long as they haven't become true blood kindred, they are just playthings and blood banks.

In God Blood Plane, countless handsome men and beautiful women are willing to take part in blood bank contests held by true blood kindred in order to become blood banks of high-level kindred. They try their best to please the other side with the expectation that they may be turned into true blood kindred and become bigwigs in God Blood Plane. Many true blood kindred have started as blood banks of kindred aristocrats.

"Thank you, Your Majesty!"

With a flash of ecstasy in her beautiful eyes, Carrie took Yang Feng's finger in her mouth and greedily ingested the drop of blood.

Yang Feng's avatar is a kindred grand duke. Even if the drop of blood is not kindred true blood, but it still has far more power than ordinary kindred true blood.

After Carrie ingested the drop of blood, tremendous blood energy enveloped her delicate body. Her beautiful eyes turned crimson, vampire fangs appeared in her mouth, and true blood kindred aura containing enticement diffused from her delicate body.

Sensing the powerful blood energy inside her, Carrie weeping with joy prostrated herself on the floor in front of Yang Feng and uttered respectfully: "Thank you for turning me into a distinguished true blood kindred, Your Majesty. I will dedicate everything of mine to you, Your Majesty."

Yang Feng was about to say something, when he suddenly raised his eyebrows and smiled coldly: "Since you have come, then come in!"

"It seems that your perception ability is rather good, Viscount Duccio, oh, no, I should call you Duke Duccio now."

Accompanied by a chuckle, a handsome kindred grand duke with a noble temperament oozing out of him and vicissitudes of life pervading his eyes dressed in formal attire walked in unhurriedly.

The kindred grand duke is followed the two people. The two are Marquis Levon and Marquis Rania formerly subordinated to Grand Duke Gogno.

Yang Feng swept the kindred grand duke with his gaze and said indifferently: "You are Grand Duke Charlie? Are you the one who stole my subordinates and annexed my territory?"

Marquis Levon snorted and shouted: "Your territory? That's the territory of Grand Duke Gogno, it doesn't belong to you! Now that Grand Duke Gogno is no more, his territory belongs to the truly strong! Grand Duke Charlie is the true master of these lands!"

Yang Feng spoke: "Grand Duke Charlie, I am talking to you. When is a dog eligible to participate in the dialogue between grand dukes?"

With a flash of anger in their eyes, Marquis Levon and Marquis Rania stared at Yang Feng.

In Cangzhi Plane, although Bright World Warlocks are far weaker than Infinity Warlocks, but Infinity Warlocks still regard them highly. They are the Great Elders of many sects.

But in God Blood Plane, kindred grand dukes have the power to decide the fate of subordinated kindred marquises. Therefore, the status of kindred marquises and kindred grand dukes is not at the same league.

Kindred Grand Dukes are kings, while kindred marquises are only subjects, albeit with a slightly higher status. They aren't worthy of participating in a dialogue between kings.

Charlie replied with a smile: "Levon's words are also my words. And they are not my dogs, but my most loyal subjects, closest confidants, and also my friends!"

After hearing Charlie's words, the eyes of Marquis Levon and Marquis Rania glittered with emotion, and their loyalty towards him rose higher.

Yang Feng's eyes flickered, and he asked frigidly: "Charlie, why did you come?"

Charlie glanced at Yang Feng with a scornful look in his eyes and sneered: "I came to ask you to hand over Grand Duke Gogno's treasury and Snow Night City. They are not something that you can take for your own!"

Grand Duke Charlie is only slightly weaker than Grand Duke Gogno. Even in God Blood Plane, he is in the top 20 among Infinity Warlock rank powerhouses.

When Carrie and the other beautiful girls of Snow Night City heard this, they turned pale, and their eyes revealed traces of fear and despair.

Once Yang Feng loses Snow Night City, the status of Carrie and the other beautiful girls in Snow Night City will instantly plummet to the bottom.

Yang Feng glanced at Charlie like a god overlooking a mortal and said indifferently: "Charlie, this is Snow Night City. I am curious, why did you choose to challenge me here? Don't you know that Snow Night City is the strongest secret treasure Grand Duke Gogno has refined?"

Charlie replied with a cold smile: "In the hands of Grand Duke Gogno, Snow Night City is indeed a terrifying secret treasure. So while he was still alive, apart from a few of his friends and the great sixth true ancestor, no grand duke and grand prince dared to step into Snowy Night City. However, Duccio, how many days have you been in Snow Night City? How much of Snow Night City's strength have you mastered?"

"Why..." Yang Feng smiled slightly and paused for a moment, and then said coldly: "100% of course!"

When Yang Feng's words fell, numerous runes suddenly appeared in Snow Night City, making the city look like an ancient beast that slept for countless years slowly waking up.

All of a sudden, countless runes lit up inside the hall.

Two silver rays shot out from the hall and headed towards Marquis Levon and Marquis Rania.

In an instant, Marquis Levon and Marquis Rania were hit by the two silver rays. Countless runes appeared on them and eroded them.

With horrified looks on their faces, Marquis Levon and Marquis Rania roared wildly, stimulated their blood energy, and tried to get rid of the runes, but to no avail. The runes still eroded them frantically.

Marquis Levon screamed, panic-stricken: “Your Majesty Charlie, save us!”

Both Marquis Levon and Marquis Rania can imagine the fate that awaits them once they fall into Yang Feng’s hands.

Grand Duke Charlie erupted with fearsome blood energy and formed a tract of blood flames burning and purifying dozens of silver rays shooting at him one by one.

“Pretty good! Grand Duke Charlie, you’re pretty good! If you can beat me, this Snow Night City is yours!”

Yang Feng sitting on the throne smiled coldly and flicked a finger, and a silver ray shone brightly.

Marquis Levon exploded in an instant, and seven drops Marquis True Blood flew towards Yang Feng and landed on his hand.

Chapter 676 – Killing Grand Duke Charlie

Seeing this scene, Marquis Rania screamed in horror: “Grand Duke Charlie, save me!”

Since Marquis Rania has the bloodline brand of Grand Duke Charlie set up inside him, even if he wants to betray him, he can’t. He can only beg Grand Duke Charlie to save him.

Channeling blood energy to burn the silver rays, Grand Duke Charlie stared at Yang Feng with a look of incredulity in his eyes: “Fuck, how is this possible? How can he be in control of the entire Snow Night City in such a short time! What’s going on?”

Snow Night City is a defensive secret treasure Grand Duke Gogno refined by spending 10,000 years and countless resources. Even kindred grand princes will be defeated, or even quelled once they enter Snow Night City.

However, Snow Night City is the most important trump card of Grand Duke Gogno. Except for Grand Duke Gogno, even his trusted aids the three kindred marquises do not know the mysteries of Snow Night City.

To fully master this large secret treasure, even a kindred grand duke would need decades or even 100 years. This is the reason why Grand Duke Charlie dared to break into Snow Night City and threaten the new kindred grand duke – Yang Feng.

But to Yang Feng who mastered Cangzhi Plane’s advanced alchemy, gathered alchemy data from Li Gui Province’s Warlock groups, and analyzed Golem Dynasty’s celestial body relic that suppressed the supposed Golem Lord, taking control of a secret treasure is much easier than to God Blood Plane’s kindred.

After he occupied Snow Night City, Yang Feng appeared to be idle. But in fact, he sent countless battle robots to hold the key positions of Snow Night City and took control of Snow Night City.

“Die!” As if a god who overlooks the secular world and grasps the fate of countless life forms, Yang Feng glanced at Marquis Rania and barked coldly.

Following a dazzling silver ray, Marquis Rania burst apart, and seven drops of Marquis True Blood flew towards Yang Feng.

Staring at Yang Feng’s kindred avatar, Duke Charlie said solemnly: “Duccio, I admit defeat! I will erase the bloodline brand I left in the subordinates of Grand Duke Gogno and return them to you! I will also return you their territories! Now let me go!”

Yang Feng sitting on the throne said with a smile: “Sorry, but I’m more interested in the true blood inside you! In short, you are right! Only the truly powerful can own Grand Duke Gogno’s domain! I am still quite weak. But as long as I absorb your true blood, I can become a powerhouse who can rival Grand Duke Gogno. As such, please die here in Snow Night City!”

Bina gave Yang Feng a deep look, and her pretty eyes flashed with excitement: “So that’s how it is! He showed his weakness in order to lure other grand dukes into Snow Night City, and then take the opportunity to use Snow Night City to quell and devour the opponent! What a great scheme! If it’s him, he might become a greater existence than Grand Duke Gogno!”

There was also a flash of excitement in the eyes of the dozen plus beautiful girls of various races standing next to the throne.

In God Blood Plane, the strong are revered. Compared to Cangzhi Plane, the law of the jungle here is more cruel and prominent. As the ruler of a kingdom, the stronger Yang Feng is and the more brilliant his means are, the better off the people under his command will be and the more superior they will feel when dealing with people from other kingdoms.

“If it’s just you, you can’t make me stay!” Grand Duke Charlie bellowed, and countless blood flames surged and formed a bloody fire taking up an area one meter in diameter with him as the center. The silver rays that could easily quell a kindred marquis slammed into the bloody fire and collapsed, unable to harm Grand Duke Charlie.

Yang Feng sitting on the throne said with a lofty smile: “Blood Flames Origin Domain! Impressive! Grand Duke Charlie, you’re indeed stronger than I am! Come on, let’s have a fair fight! If you can kill me, everything will be yours!”

Grand Duke Charlie was enraged when he heard this. In here, he has to resist countless silver rays, which consumes a tremendous amount of energy with every passing breath. Fighting with Yang Feng in this place is simply courting death.

Grand Duke Charlie is a formidable character. After rapidly making a judgment, his figure fluttered, and he turned into a stream of bloody light and rushed outside.

The countless silver rays kept blasting into Grand Duke Charlie’s Blood Flames Origin Domain, but to no avail.

“To be able to escape from my Snow Night Castle, I didn’t expect anything less from you, Grand Duke Charlie! It’s a pity that this is Snow Night City, a place that can suppress grand prince powerhouses! So go ahead and die!”

Sitting on the throne, countless bloody runes flashed in Yang Feng eyes, and a tremendous amount of blood energy entered Snow Night Castle.

Above Snowy Night City, countless forces surged and formed nine huge bloody pillars in the wink of an eye.

The nine huge blood pillars intertwined with each other, surged with boundless blood energy, and frantically extracted vitality of more than 10 billion life forms in Snow Night City.

The vitality of more than 10 billion life forms connected with the nine huge bloody pillars and formed a bloody atlas inscribed with countless runes that seems to contain the power of a world.

At the very center of the bloody atlas, there is an eye of an unknown existence.

The eye who according to legend is from a foreign universe opened slowly and fired a green beam that slammed into Grand Duke Charlie in a flash.

Inside the green beam, Grand Duke Charlie struggled like a bug stuck on a spider web, and the Blood Flame Origin Domain that has an astonishing defense collapsed inch by inch.

Grand Duke Charlie roared wildly, “Duccio, grand dukes subordinated to the Sixth True Ancestor are not permitted to kill one other. By killing me, aren’t you afraid of the Sixth True Ancestor’s punishment?! Release me, spare my life, and I will give you sufficient compensation!”

“Release you? How is that possible? Go ahead and die!”

Yang Feng smiled fiercely, and Infinity Warlock rank blood energy surged, compressed, and formed a 20-meter-long bloody sword that slashed towards Grand Duke Charlie.

Trying his best to resist the green beam, Grand Duke Charlie has no margin to resist the bloody sword as well. He could only watch as the bloody sword sliced him in two.

The green beam took this chance to break the defense of Grand Duke Charlie and swallow him completely.

Once the green beam disappeared, only eight drops of Grand Duke True Blood remained.

The eight drops of Grand Duke True Blood shivered and flew towards the huge eye in the atlas.

“Your offering is only one drop of Grand Duke True Blood! Don’t go too far!”

Yang Feng snorted coldly, extended his hand that crossed the void, and grabbed seven drops of Grand Duke True Blood, staring coldly at the huge eye in the atlas who is from a foreign universe.

That strange huge eye emitted angry roars, furious that Yang Feng robbed its loot.

Under the wrath of the huge eye, everyone inside Snow Night City who is not a true blood kindred knelt on the ground and shivered in fear.

Yang Feng sneered and breathed in, and sucked the seven drops of Grand Duke Charlie's true blood into his mouth. With his intermediate Infinity Warlock rank strength, he can already devour Grand Duke Charlie's true blood by himself.

Once he devoured the true blood, a tremendous amount of blood energy immediately poured into him and nourished him, prompting his life's essence to evolve and become stronger and stronger.

If the true body of the huge eye from another universe were here, it could squash Yang Feng like a bug. But it is only a projection that uses the power of the entire Snow Night City to maintain its existence. No matter how furious it is, it can only devour the one drop of Grand Duke True Blood, and then disappear slowly.

The nine bloody pillars collapsed and disappeared one by one, and the fearsome power shrouding Snow Night City disappeared instantly.

"He killed Charlie!"

"He gained full control of Snow Night City, what's going on? Is it a trap set up by the old fox Gogno?"

"Grand Duke True Blood should already have no effect on Gogno! This should not be a plot of Gogno!"

"This Duccio is really treacherous!"

"..."

Powerful beings hiding tens of thousands of kilometres away are observing the goings on here through all kinds of extraordinary methods. Seeing Charlie being killed by Yang Feng, these powerful beings felt a chill run down their spine, and their hearts filled with apprehension towards Yang Feng.

Kindred grand dukes are Infinity Warlock rank powerhouses, they are nearly imperishable beings. As long as the true blood is not destroyed, they can quickly restore themselves. In a fight between kindred grand dukes, at most, one side will lose, while the other side is unable of exterminating the defeated side.

Yu Yan is much stronger than kindred grand dukes of God Blood Plane, yet she was still seriously injured by the attacks of several kindred grand dukes. For none of the kindred grand dukes to die while fighting Yu Yan is a testament to their strength and survivability.

Charlie's death at Yang Feng's hands filled these kindred grand dukes with fear and apprehension, and their thoughts of dealing with him also mostly dissipated.

"Convey my order! Attack the domains of Grand Duke Gogno and Grand Duke Charlie at once! They all belong to me, Duccio! Kill anyone who resists! Mwahaha!"

After Yang Feng devoured Grand Duke Charlie's true blood, a fearsome aura not the least bit inferior to that of Grand Duke Gogno rose from him into the sky and formed a terrifying column of blood energy!

Chapter 677 – Fighting Three Grand Dukes

"My Lord! You are truly the greatest being!"

“My Lord, I am willing to dedicate everything to you!”

“...”

In Snow Night City, the more than 10 billion life forms of different races feeling the terrifying blood energy emitted by Yang Feng prostrated themselves on the ground and praised him excitedly and emotionally.

In God Blood Plane strong are revered! As the ruler of a kingdom, Yang Feng who is now no weaker than Grand Duke Gogno used to be has enough power to awe all his subjects

Yang Feng mobilized 300,000 kindred from Snow Night City with an order and formed a kindred legion.

However, there isn't a single viscount-titled kindred among the 300,000 kindred. Viscount-titled kindred are Transcendent rank powerhouses, and they are also the key of maintaining Snow Night City that can quell Infinity Warlock rank powerhouses. They cannot be dispatched rashly.

Yang Feng's kindred avatar turned into a stream of light and flew towards Grand Duke Charlie's dwelling Scarlet Thorns City.

Scarlet Thorns City is the center of Scarlet Thorns Kingdom. But unlike the secret treasure Snow Night City forged from a celestial body, it is just an ordinary ancient castle. Nevertheless, no one dares to run rampant here. And that is because Scarlet Thorns City is the residence of Grand Duke Charlie.

Grand Duke Charlie is extremely powerful, and is only slightly inferior to Duke Gogno. Furthermore, he is tactful and cunning, and has established friendly relationships with more than a dozen kindred grand dukes. His sphere of influence is wider than that of Grand Duke Gogno.

All of a sudden, a terrifying aura suddenly filled Scarlet Thorns City, and a handsome young man walked out of a distorted track of space and said unhurriedly: “I am Grand Duke Figo, a friend of Grand Duke Charlie. Grand Duke Charlie has died at the hands of Grand Duke Duccio! Everyone,, come out now!”

Kindred grand duke blood energy burst out from Grand Duke Figo and enveloped Scarlet Thorns City.

Powerful auras rose from Scarlet Thorns City, and 9 kindred marquises, 23 kindred earls, and 215 kindred viscounts flew out from Scarlet Thorns City and formed small groups.

While joining forces, these Scarlet Thorns City's Transcendent rank powerhouses can contend against a kindred grand duke for a short period of time. However, a kindred grand duke can eliminate them one at a time until none of them is left.

The young pinnacle kindred marquis at the very front gritted his teeth and said: “Uncle Figo, if we surrender to you, will you help us kill Duccio?”

Figo frowned, smiled bitterly, and sighed, saying: “Charmant, Duccio absorbed your father's true blood. By now he's already stronger than I am. Among kindred grand dukes, only Grand Duke Raenor subordinated to the Third True Ancestor and Grand Duke Acunha subordinated to the Seventh True Ancestor can rival him. I can only protect you, but I can't kill him!”

Charmant is a kindred powerhouse naturally born from the union of Grand Duke Charlie and a female grand duke marquis. Once he became an adult, he had the strength of a kindred earl. Now he has the

strength of a pinnacle kindred marquis, and may condense the eighth drop of true blood at any time and become a kindred grand duke.

In Scarlet Thorns City, except for Grand Duke Charlie, Grand Duke Charmant is the strongest powerhouse, and he controls all armed forces in the city.

Figo suddenly raised his head and looked in a direction, only to see a scarlet stream of light gleaming faintly in the distance, and then a handsome middle-aged man appeared.

The middle-aged man smiled. Emitting kindred grand duke aura, he made an overbearing declaration: "Charmant, you will be divided between Grand Duke Figo and I, Grand Duke Ramos. Grand Duke Figo, let's split them 50/50!"

Charmant looked at Figo with a pleading look in his eyes: "Uncle Figo!"

Once Grand Duke Ramos and Grand Duke Figo divide things between them, the wealth accumulated by Grand Duke Charlie will also be split up by the two grand dukes.

Without the wealth accumulated by Grand Duke Charlie, even though his talent is excellent, it will be difficult for Charmant to break through and promote to a kindred grand duke. Moreover, there is a great possibility that he will die under mysterious circumstances before he advances to a kindred grand duke.

Figo glanced at Charmant with a placid expression, not saying a word.

Realizing Figo's stance, Charmant's heart sank.

The wealth left by Grand Duke Charlie is too attractive. Although Figo and Ramos were friends with Charlie, but now that he's dead, their friendship is dissolved.

"I disagree!"

There was a flash of scarlet light, and a sexy and enchanting woman with long blond hair cascading like a waterfall appeared, a sweet smile on her face.

As soon as the enchanting woman appeared, she confronted Figo and Ramos and smiled sweetly, and kindred grand duke aura seeped out from her: "Let's divide things three-way!"

Ramos narrowed his eyes and revealed an elegant smile: "Grand Duke Monia, if it's you, then you're indeed qualified to divide things equally with us. Let's form an alliance the three of us. If someone else appears, then let's join forces and defeat them! Grand Duke Charlie's wealth is not enough to share with more people."

Grand Duke Monia uttered decisively: "Okay!"

Grand Duke Figo nodded and agreed with Ramos's proposal as well.

"I don't agree with this proposal!"

A scarlet ray flickered, and Yang Feng appeared in front of the three kindred grand dukes and gazed at them loftily.

When Charmant saw Yang Feng, his eyes turned bloodshot, a beast-like growl escaped his lips, and a violent killing intent seeped out of his body: “Duccio!”

Without giving Charmant more than a glance, Yang Feng’s gaze wandered between the three grand dukes, the look in his eyes relaxed.

The three kindred grand dukes stared at Yang Feng with dignified expressions.

In the eyes of these kindred grand dukes, Yang Feng who evolved into a kindred grand duke and seized the opportunity to occupy Snow Night City is just a scheming and lucky guy. But then Yang Feng killed Grand Duke Charlie and devoured seven drops of his true blood, and his cultivation base rose to the level of Grand Duke Gogno. Now none of them looks down on him.

Ramos gazed at Yang Feng apprehensively and said: “Since you’re also here, Grand Duke Duccio, then let’s equally divide the resources here four-way!”

The two grand dukes Figo and Monia nodded and agreed to the proposal.

In terms of cultivation base alone, Yang Feng is the strongest one here, and thus the apprehensive three grand dukes made this proposal.

Charmant’s face immediately paled, and bitterness and anger filled his eyes. Before the death of Charlie, the three grand dukes Ramos, Figo, and Monia were allies of Charlie. The four of them formed an alliance to contend against Grand Duke Gogno. But shortly after Charlie’s death, these three former allies have already joined forces with Charlie’s murderer, making Charmant bitterly disappointed.

Yang Feng’s eyes shimmered with red light, and he said with a smile: “That won’t do! Since Grand Duke Charlie was killed by me, then all of his wealth belongs to me alone!”

As soon as this statement came out, the surrounding atmosphere became tense. The auras of Figo and the other two Infinity Warlock rank powerhouses resonated subtly. They are clearly ready to join forces.

Figo’s eyes shimmered coldly, and he uttered frigidly: “Duccio, even though you have devoured Charlie’s true blood and your blood energy is a notch stronger than ours. But after all, you have advanced to a grand duke not long ago. Do you really want to be our enemy? Don’t forget, this is not Snow Night City!”

Those who have just promoted to a kindred grand duke by absorbing true blood are in a weakened state for a period of time.

In God Blood Plane, a true blood kindred once found a drop of True Ancestor True Blood by a stroke of luck, and his cultivation advanced by leaps and bounds. Within a short period of 10 days, he evolved into a kindred grand duke. But shortly after his promotion, the lucky guy was sneak-attacked and killed by a marquis-titled true blood kindred. This made kindred realize that although consuming true blood can give you great power in a short time, but it takes a lot of time to take full control of that great power.

“In our race, the strong are revered! Since we reached an impasse, then let’s fight!”

There was a flash of red light in Yang Feng’s eyes. He drew the Monarch grade secret treasure sword God Blood Sword inlaid with numerous powerful cores – demon core, dragon crystal, and others.

Tremendous blood energy welled up from the Monarch grade secret treasure God Blood Sword and formed a sword that seems to contain the extraordinary blood energy of countless races.

Blood-red divided the earth and the sky.

With its boundless power, the sword exuding a tyrannical aura devoured and quelled the void.

“Monarch grade secret treasure! Damn it! This is the Monarch grade secret treasure from Gogno’s treasury!”

Figo’s complexion changed dramatically, and he roared wildly and erupted with a copious amount of blood energy that formed a scarlet enneagram barrier.

The two grand dukes Monia and Ramos gritted their teeth and pointed with a finger, and formed a scarlet enneagram barrier respectively.

The frightening sword appearing to be capable of slicing the world in two slammed into the three scarlet enneagram barriers, and they collapsed and shattered one by one.

Figo and the other two were instantly engulfed by the sword.

Chapter 678 – Defeating the Three Grand Dukes

Following scarlet flashes of light, Figo and the other two kindred grand dukes immediately escaped from the scarlet sword and fled towards the distance.

“Curse you, Duccio, I will bear this in mind!”

“Duccio, today’s matter isn’t over, not by a long shot!”

“...”

As the three kindred grand dukes escaped, they swore at Yang Feng.

The power of a Monarch grade secret treasure is terrifying. Since the three kindred grand dukes don’t stand a chance at defeating Yang Feng, they very reasonably chose to escape.

In God Blood Plane, kindred grand dukes very rarely die since they will chose to escape once things turn south.

Yang Feng quietly watched as the three kindred grand dukes fled.

The three kindred grand dukes are old monsters who have lived for tens of thousands of years. They are proficient in all kinds of escape methods. It may be easy to defeat them, but it is extremely difficult to kill them.

As for Grand Duke Charlie, he died because he entered Snow Night City that was fully controlled by Yang Feng.

But in the outside world, even a kindred grand prince would find it extremely difficult to kill a kindred grand duke.

The countenance of Marquis Charmant changed greatly, and he roared loudly: "Run!"

The kindred Transcendents subordinated to Charmant turned into streams of scarlet light and fled in all directions.

"I order you to stop!"

Yang Feng's eyes gleamed with scarlet light, and grand duke-titled fluctuations of blood energy enveloped an area 1,000 kilometres in radius.

The true blood inside the kindred viscounts surged, and they ground to a halt, a look of despair on their faces.

With a look of struggling on their faces, the 23 kindred earls clenched their teeth and continued flying into the distance

The 9 kindred marquises shuddered slightly and slowed down by a little.

The stronger a kindred is, the more resistance they have towards Bloodline Command. As for true blood kindred marquises, unless they have a bloodline brand inside them, they can resist grand duke-titled commands.

"Charmant, you are indeed Charlie's most remarkable child, a powerhouse most hopeful of evolving into a kindred grand duke. Unfortunately since we are enemies, you all have to die! You can be proud of dying to this Monarch grade secret treasure God Blood Sword!"

There was a fierce flash in Yang Feng's eyes, and he poured pinnacle grand duke-titled blood energy into God Blood Sword and slashed out.

In an instant, the whole world changed and turned into a scene from hell.

High elves, devils, Angels, fiends, giants, dragons, and other powerful beings with torn bodies dripping with blood emerged and darted towards the 9 true blood kindred marquises.

The faces of the 9 true blood kindred marquises changed dramatically, and then they unleashed offensive secret methods to attack those powerful beings.

"Blood Blade!"

A kindred marquis roared and waved his hand, and a blade formed of compressed blood energy that could even injure an Infinity Warlock rank powerhouse slashed towards a giant.

Blood Blade is a powerful offensive secret treasure that kindred grasp. Every time an enemy is slashed by it, all their blood essence will be instantly extracted and sent back to the caster. With this move, true blood kindred powerhouses can get stronger while fighting weaker enemies, not fearing group attacks.

The 50-meter-tall giant was instantly chopped in two.

"Yes, it succeeded!"

A gleam of joy has just streaked past the eyes of the kindred marquis, when the upper body of the giant suddenly appeared in front of him. With his right hand covered in blood energy, the giant caught the kindred marquis and stuffed him into his mouth.

Hair-raising screams came from the mouth of the giant as he chewed, and then the fluctuations of power of the kindred marquis disappeared.

After that kindred marquis was killed, the other seven kindred marquises also screamed one after another. They were killed by those weird beings.

“Duccio! I curse you...”

Charmant persevered for three more breaths of time than the last true blood kindred marquis before also issuing miserable screams and dying.

Yang Feng shook the God Blood Sword in his hand, and drops of Marquis True Blood flew out of the sword and fell into a jade box engraved with countless runes in his other hand.

Every drop of Marquis True Blood is invaluable. When sold in Great Cloud Dynasty, it will surely attract countless powerhouses to contest over it.

A drop of Marquis True Blood can turn a Warlock into a Bloodline Warlock with Bright World Warlock rank potential. This kind of treasure is very precious.

After he killed the kindred marquises with a strike, Yang Feng smiled coldly at the 23 kindred earls who had escaped 100 kilometres away, inserted God Blood Sword into the sheath, and spread the fingers of a hand, and scarlet light suddenly spread and swept the 23 kindred earls. The 23 kindred earls shattered and turned into drops of Earl True Blood

The gap in strength between Infinity Warlocks and Glorious Sun Warlocks is terrifyingly wide. Since this kindred avatar of Yang Feng already possesses quasi-Warlock Monarch rank cultivation base, he dealt with the restrained kindred earls without any suspense.

Yang Feng swept the 215 kindred viscounts with a glance and used Bloodline Command, saying coldly: “As for you all, die!”

“No!”

“Spare me!”

“...”

The 215 kindred viscounts exploded, and drops of Viscount True Blood flew out of their bodies and fell into Yang Feng’s hand.

Since these kindred are powerhouses nurtured by Grand Duke Charlie, they are loyal to him and have a sense of belonging.

Even if Yang Feng imprinted the bloodline brand into these Transcendent rank kindred, it would only make them obey his orders. Outside this, these kindred powerhouses who hate him will oppose him in

secret. So he chose to kill them all. Anyway, with their true blood, he can easily cultivate a batch of loyal subordinates.

Yang Feng waved his hand, and thousands of modified Undyings, Void Assassins, Sealer, and other battle robots flew into Scarlet Thorns City and occupied all the key places. At the same time, countless nano robots flew into Scarlet Thorns City as well.

Yang Feng used Snow Night City to kill Grand Duke Charlie. Similarly, he is worried that others would use this trick against him. Before entering Scarlet Thorns City, he must confirm whether there is a powerful defensive secret treasure placed inside.

As soon as the thousands of 4th generation battle robots entered Scarlet Thorns City, like hot knife slicing through butter, they easily wiped out any resistance. After performing an analysis, although there are some magic restrictions targeting kindred in Scarlet Thorns City, but it's not on the level of Snow Night City.

Once Yang Feng confirmed that Scarlet Thorns City is no threat to him, he entered it and came to Grand Duke Charlie's treasury.

Once he stepped into Grand Duke Charlie's treasury, Yang Feng saw countless rare resources placed randomly inside. It is a dazzling sight.

Even an Infinity Warlock would be excited by the wealth inside this treasury.

Yang Feng glanced at the treasury and uttered regretfully: "Grand Duke Charlie cannot compare to Grand Duke Gogno!"

There are countless rare treasures in Grand Duke Charlie's treasury. But when it comes to rare treasures such as Infinity Warlock rank Fallen Angel heart, strong divine force grade godhead, and other such first-rate treasures, there are almost none.

The amount of resources in Grand Duke Charlie's treasury may be three times that of the amount of resources in Grand Duke Gogno's treasury, but the value of the treasures here is not even one-tenth.

Because Grand Duke Gogno has participated in many wars in order to achieve a breakthrough and even participated in the war that overthrew the 8th Warlock Dynasty of the humans, he gained some impressive treasures.

Grand Duke Charlie was a crafty man who was unwilling to take risks in the top-level plane wars, which is the reason why he has so many resources in his treasury, yet has very few top treasures.

No matter what plane you are in, you cannot use ordinary magic crystals to buy exceptional treasures such as Infinity Warlock rank Fallen Angel heart and strong divine force grade godhead. Only treasures with similar value can be exchanged for these exceptional treasures.

"This is, Myriad Transformations Star Origin Pool! It is really surprising that Grand Duke Charlie has such a nice treasure."

Yang Feng's eyes suddenly brightened, his body blurred, and he appeared in front of a silver pool.

The silver pool looks like it's less than 20 meters in diameter, but if you look at it closely, you can see that the pool seems to be endless and that there are countless shining specks of starlight forming stars. This silver pool is Myriad Transformations Star Origin Pool, which according to legend is one of the most important secret treasures of Magic Note Dynasty!

Myriad Transformations Star Origin Pool does not have any offensive nor defensive capabilities. Its only function is to birth semi-plane seeds when enough resources are provided.

In Magic Note Dynasty era, thanks to Myriad Transformations Star Origin Pool, a lot of the most outstanding Warlock geniuses have implanted semi-plane seeds inside them and have embarked on the strongest Warlock path.

Chapter 679 – Yu Yan Asks for Help

Myriad Transformations Star Origin Pool is an unparalleled treasure for human Warlocks. Who knows how many Warlock geniuses have to struggle in Astral Boundary to get a plane seed.

However, plane seeds are of little use to kindred. The cultivation of kindred hinges entirely on blood energy. As a kindred, only by constantly absorbing powerful blood and purifying your true blood can you continue to evolve.

Yang Feng mused: "Myriad Transformations Star Origin Pool can enable the most talented individuals under my control to form a small world. But the number of such talents is bound to be great."

Even in Magic Note Dynasty era, there were not too many Warlocks who had a semi-plane seed implanted inside them. And that's because each and every Warlock who implants a semi-plane seed and embarks on the strongest Warlock path consumes a lot of resources. Furthermore, more than 99% of Warlocks who implanted a semi-plane seed inside them are stuck in the Bright World Warlock realm, finding it extremely hard to break through and advance to the Infinity Warlock realm.

For human Warlocks, there is a huge checkpoint between the Bright World Warlock and the Infinity Warlock realm, which is also known as the life and death checkpoint. Countless talented Bright World Warlocks are stuck at this checkpoint for the rest of their life.

For Bright World Warlocks who have formed a small world, to transform and evolve into Infinity Warlocks is more than 1,000 times harder than for ordinary Bright World Warlocks.

It is precisely because of this that Infinity Warlocks who have formed a small world are so rare. In Great Cloud Dynasty's Eight Marshals, each individual is an outstanding talent among Infinity Warlocks, yet none of them has formed a virtual world.

The corners of Yang Feng's mouth rose: "This treasure can be used by Xue'er and Regina."

The resources provided by Li Gui Province, Andrak Plane, Fuso Subcontinent, Feisuo Plane, and Turandot Subcontinent can support the cultivation of about 30 Infinity Warlocks who formed a small world.

All of a sudden, Yang Feng remembered something: "Wait a minute! With Myriad Transformations Star Origin Pool, I can form more small worlds inside me! I remember that the Nine Realms Lord had defeated the Star Lord on several occasions. If it wasn't for the Star Lord being proficient in divination,

which provided him with an opportunity to ascend the throne, the Nine Realms Lord should have been the ruler of the 4th Warlock Dynasty!”

After the collapse of the 3rd Warlock Dynasty and before the establishment of the 4th Warlock Dynasty, Cangzhi Plane’s human Warlocks have seen the rise of numerous freakish geniuses.

Numerous geniuses competed for the position of the Warlock Emperor. And among those geniuses, the most outstanding at the time was not the Star Lord, but a peerless genius called Nine Realms Lord.

The Nine Realms Lord has formed nine worlds inside him, and the path he walked was to refine the law of power into the essence of power. He could erupt with world force of nine worlds and the essence of power in an instant, giving him the power to suppress everyone.

The Star Lord fought the Nine Realms Lord several times, and he has been defeated by the Nine Realms Lord every time. In the end, the Star Lord used his power of divination to seize the opportunity to ascend the throne, advance to a Warlock Emperor, and quell the Nine Realms Lord in one fell swoop.

The Nine Realms Lord is recognized by everyone to have battle prowess comparable to the junior Warlock Emperor rank.

Of course this assessment came as a result of a battle between the Nine Realms Lord and the Star Lord when the Star Lord had just promoted to a Warlock Emperor.

But once the Star Lord reached his peak, just like with other human Warlock Emperors, wherever he went, Transcendents retreated, with no one daring to face his edge. He was recognized as one of the strongest seven human Warlock Emperors.

Yang Feng ordered with a thought: “Check for the Nine Realms Lord’s cultivation method!”

An optical computer surged with streams of data and rapidly checked the data in the database.

Soon a piece of information was sent back: “In the current database, there are only three complete volumes and two incomplete volumes of the secret method Nine Realms Text cultivated by the Nine Realms Lord. The complete volumes are the 5th, 6th, and 7th volumes, and the incomplete volumes are the 4th and 8th volumes. The secret method for forming and absorbing nine worlds is recorded in the 6th volume.”

The Nine Realms Lord was a powerhouse with Warlock Emperor rank strength, and his Nine Realms Text is regarded as an Empyrean grade text. But few people cultivate it.

The nine semi-plane seeds required by Nine Realms Text are extremely hard to procure. Besides, once you have formed nine small worlds, the consumption required by those nine small worlds, even the Battle Demon Sect of the Ten Great Sects won’t be able to bear it.

The Nine Realms Lord was born into Cangzhi Plane’s No. 1 sect at the time. In order to obtain resources necessary to cultivate the nine worlds, he destroyed countless sects and plundered the resources of countless planes. The nine worlds circulate one another, grow, and absorb the power of the surroundings at all times, making him unequalled in the same realm.

Yang Feng ordered: “Very good. Analyse how my true body should practice cultivation to be able to cultivate it perfectly.”

1,000 level-4 optical computers immediately operated wildly and began to perform deductions. This is equivalent to 10 Infinity Warlocks carrying out deduction and analysis nonstop.

After Yang Feng conquered Scarlet Thorns City, the 300,000-strong kindred legion left Snow Night City and headed for the domains of Grand Duke Gogno and Duke Charlie.

Yang Feng personally lead the troops into battle. No kindred dared to contend with him, and so they all took the initiative to surrender and become his subordinates. The territories of Grand Duke Gogno and Grand Duke Charlie were thus directly annexed by him.

The kindred grand dukes subordinated to the Sixth True Ancestor remained silent, not interfering with his matters. Yang Feng's kindred avatar not only possesses a cultivation base comparable to that of Grand Duke Gogno, but he also has the Monarch grade secret treasure God Blood Sword specific to kindred. He is not an existence that ordinary kindred grand dukes can contend with.

After Yang Feng annexed the territories of Grand Duke Gogno and Grand Duke Charlie, he stopped expanding and began to stabilize the rule of those two territories.

The kindred grand dukes who were nervous felt relieved when they saw that Yang Feng knows how not to go too far.

Kindred grand dukes are Infinity Warlock rank existences, and their regeneration ability is extremely strong and fast, far superior to that of human Warlocks. If such a powerhouse made up their mind to escape, then even kindred grand princes may not be able to stop them.

As a result, struggles between kindred grand dukes are limited in scope. They rarely fight one another to the death. After Grand Duke Charlie was quelled by Yang Feng in Snow Night City, his territory became ownerless. These kindred grand dukes aren't willing to clash with Yang Feng over ownerless land. But if Yang Feng attacks their domains, it will definitely cause the other grand dukes to fight back.

In God Blood Plane, although the Nine True Ancestors are in seclusion, but they are all alive, and there are also kindred grand princes. Even though Yang Feng is daring, but he doesn't want to anger the Sixth True Ancestor and bring about his own doom.

The Sixth True Ancestor is a Holy Spirit Warlock rank existence. If they stepped in, then despite Yang Feng being as strong as Grand Duke Gogno, only death would await him.

God Blood Plane regained its peace once Yang Feng annexed the domains of the two grand dukes.

!0 days after Yang Feng unified the domains of the two grand dukes, within a hall of Snow Night Castle.

The palm of Yang Feng's kindred avatar enjoying himself with beautiful girls of different races suddenly heated up, and a crimson mark appeared on it.

Yang Feng's kindred avatar raised the corners of his mouth: "You can't bear it at last?"

In the sky above a mountain range, there are three figures tangling together and colliding.

Amid the collisions, flames and blood flames rain down onto the mountain range below.

As soon as a flame falls on the ground, it turns into a raging fire spreading in all directions and burning everything in its wake.

In the wake of the blood flames, the blood inside intelligent life forms will shot out of their bodies, turn into scarlet rays, and enter the body of the kindred grand duke in the sky.

Kindred are one of the races least afraid of crowd attacks. In a battle, they can absorb the blood of low-level intelligent life forms and transform it into pure blood energy to attack, defend, and regenerate, making it extremely difficult to deal with them.

A handsome young man frantically manipulating blood energy sent one wave of attacks after another blasting towards the Yu family's sisters. At the same time, he spoke elegantly: "Yu Yan, surrender! The great Sixth True Ancestor has promised that as long as you surrender, he will personally transform you and your sister into our kind. If you continue to resist, then I can only kill you and your sister. Two Holy grade secret treasures and two Monarch grade secret treasures plus an Infinity Warlock corpse and a Bright World Warlock corpse are a windfall to me."

At this time, Yu Tianling is already bruised all over, and her face is haggard. There is no semblance of a peerless beauty. Her aura is very weak, only emitting junior Bright World Warlock rank fluctuations of power.

Yu Yan on the other hand exudes a burnt smell, and her eyes are listless, but she still clenches her teeth, holds Black Fenghuang Spear tightly in her hands, and urges Black Fenghuang Flames to burn the blood flames.

Yu Yan knows very well that once the both of them fall into the hands of the kindred true ancestor, their ending will be miserable. Among the Nine True Ancestors, the Sixth True Ancestor is a sadist who likes to torture powerful women. Once women of different races fall into his hands, life is worse than death.

The Sixth True Ancestor was severely injured by a female Holy Spirit Warlock of Cangzhi Plane. She destroyed his male appendages, and with a karma weapon to boot. Even the First True Ancestor cannot heal such an injury. This had an adverse impact on his psyche, turning him into a scary sadist who likes to torture and kill Cangzhi Plane's female Warlocks the most. Well aware of this, Yu Yan gritted her teeth and asked Yang Feng for help.

Chapter 680 – Defeating Grand Duke Tolle

Grand Duke Tolle creased his eyebrows, a look of worry in his eyes: "Pig-headed!"

Since many of God Blood Plane's kindred grand dukes aren't willing to stake it all on fighting the first-rate Infinity Warlock Yu Yan, they take turns attacking her. This is how Yu Yan and Yu Tianling managed to escape again and again.

"True Blood Blood Flames Transformation!"

Grand Duke Tolle took a deep look at Yu Yan, and countless scarlet runes suddenly emerged from his body.

An area 1,000 metres in radius was covered by scarlet.

The bodies of all life forms within this area fluttered, and blood essence inside them shot out, turned into specks of scarlet light, and entered Grand Duke Tolle.

"Damn it! He's going all out!"

Surprised, a dignified look overcame Yu Yan's beautiful eyes.

True Blood Blood Flames Transformation is a kindred secret method that ignites the true blood inside them and forms a domain similar to a divine domain with them as the center.

Inside the domain, all existences below the Moonlight Warlock rank will have their blood essence extracted and turned into the source of power of the true blood kindred, and the strength of the true blood kindred will be increased by one rank.

"Black Fenghuang Absolute Thrust!"

Yu Yan clenched her pearl-white teeth and unleashed a secret method to squeeze out the power inside her. Her body suddenly expanded, black flames enveloped her Black Fenghuang Spear, and the spear issued buzzing sounds.

Yu Yan took a step forward, the space swayed slightly, and a black ray emerged in front of Grand Duke Tolle and thrust at him like a bolt of lightning.

Grand Duke Tolle joined his hands together, and berserk blood energy poured out and formed a scarlet whirlpool.

Yu Yan thrust her spear into the scarlet whirlpool and pierced through three-fourths of it in an instant.

Just before Yu Yan's Black Fenghuang Spear was about to run through the scarlet whirlpool, her body fluttered, and she dropped down like a shooting star, slammed into the earth, and blasted open a large hole 100 meters in diameter in the ground.

Inside the large hole, Yu Yan is trembling and losing a copious amount of blood from all over, dying her red. She can hardly move.

"Sister!" Yu Tianling uttered a mournful cry, countless flames ignited around her, and she turned into a flame Fenghuang and stabbed her spear at Grand Duke Tolle.

"You're too weak!"

Grand Duke Tolle glanced at Yu Tianling, smiled coldly, and spread the fingers of a hand, and numerous scarlet rays formed a world containing endless scarlet that swept towards her.

Swept by the world containing endless scarlet, the flames around Yu Tianling extinguished, and blood poured into her facial orifices and formed scarlet runes.

Yu Tianling's beautiful eyes turned white, her delicate body trembled, and her face twisted, and strange runes spread on her body.

Yu Yan struggled to turn her head, looked into the void, and shouted; "Lei Ming, save my sister! I beg you! I agree to anything you want!"

“Lei Ming!”

Startled, Grand Duke Tolle turned to look in the direction Yu Yan is looking.

“No, behind me!”

Faint alarm bells went off in his mind, and Grand Duke Tolle turned around and saw a black ray flicker far away, and then appear before him in the wink of an eye. A sword ray enveloped with Fallen Angel Flames slashed towards him.

“Blood Realm Shield!”

Runes rose around Grand Duke Tolle and formed a huge blood shield blocking before him.

The sword ray containing Fallen Angel Flames crashed into the blood shield and sliced it open, and then cut open a huge wound on Grand Duke Tolle’s body.

“Fallen Angel! Pinnacle Infinity Warlock rank Fallen Angel! No, she’s stronger than that! Is that a secret treasure developed by a human Warlock for Fallen Angels? Damn human Alchemist!”

Grand Duke Tolle blurred into motion and retreated by tens of kilometres at once. At the same time, he swept out with his powerful soul force and found out that the person who attacked him is Alexia equipped with Ruler Armor, and his face fell.

Once she consumed the Infinity Warlock rank Fallen Angel heart, Alexia evolved into an intermediate Infinity Warlock rank Fallen Angel in one fell swoop. After equipping Ruler Armor, her combat power reached the quasi-Monarch Warlock rank. At a glance, Grand Duke Tolle can tell that something is amiss.

“This...”

Grand Duke Tolle just wanted to speak, when black afterimages appeared before him, and seven sword rays pierced towards him from different directions.

A look of fury on his face, countless runes appeared around Grand Duke Tolle and formed a blood shield.

The sword rays pierced through the blood shield and stabbed Grand Duke Tolle, and Fallen Angel Flames enveloped him.

“Damn it! I’ll remember you! Wretched Fallen Angel, you are dead!”

Grand Duke Tolle issued an angry howl, then blurred and turned into nine blood rays shooting in different directions.

“Unfortunately these Infinity Warlocks are all crafty fellows. Unless you deal them a heavy blow from the get go, it is really difficult to kill them!” Along with a voice of lament, the space twisted and Yang Feng’s true body walked out and looked in the direction that Grand Duke Tolle escaped, regretful.

Yang Feng and Alexia have arrived in the vicinity earlier, but they just quietly watched the fight between Yu Yan and Grand Duke Tolle.

Yang Feng originally planned that if Yu Yan could achieve a draw with Grand Duke Tolle, he would take advantage of this opportunity to sneak-attack and kill another grand duke.

Only Yu Yan suffered too heavy injuries. Even though she tried her best, she could only make Gran Duke Tolle expend some power. The Fallen Angel Alexia possesses amazing fighting power, but doesn't have strong enough spells to make a grand duke-titled kindred stay here.

Yang Feng glanced at Yu Yan and said with a smile: "Marshal Yu, I'm here to save you. According to the agreement, open your soul and let me set up a soul brand!"

Yu Yan took a deep look at Yang Feng, and then asked suddenly: "Do you have a planar passageway to freely come to God Blood Plane?"

Yang Feng smiled and answered: "I do! Once you leave God Blood Plane, you will be safe!"

The reason why Yu Yan and Yu Tianling are in such a sorry state is because they were hit by a tracking mark unleashed by a kindred grand duke who burned a drop of true blood.

Even though they are stuck with a tracking mark, but with their strength, it would take Yu Yan and Yu Tianling only two or three months to completely purify it.

But after being forced into God Blood Plane, Yu Yan and her sister were being chased by true blood kindred grand dukes and even kindred grand princes. After going through numerous fierce fights, they finally ended in their current state.

Yu Yan uttered decisively: "Okay, I will sign a soul contract with you. And I will tell you the secret of an archgod treasure-trove! However, I want you to let my sister leave safely!"

Yu Tianling's pretty face changed dramatically and she shouted: "Sister! Don't do it! Lei Ming, I will sign a soul contract with you! Please let my sister go!"

Yu Yan stared at Yu Tianling and shouted sternly: "Shut up!"

The age difference between Yu Tianling and Yu Yan is more than 100 years. Since Yu Tianling was brought up by Yu Yan, they both resemble a pair of sisters and a mother-daughter pair. Not daring to go against Yu Yan, Yu Tianling fell silent immediately.

Yang Feng uttered: "What level is the archgod treasure-trove? If it's below the Infinity Warlock rank, then keep it to yourself!"

Yu Yan wiped off the blood from the corners of her mouth and said lightly: "It's a treasure-trove of the Black Emperor. Is the level high enough?"

Yang Feng eyes radiated scorching light, and he said in a deep voice: "A treasure-trove of the Black Emperor! If it's true, then the level is indeed high enough!"

The Black Emperor was a Warlock Emperor rank existence of the archgod era. Much like the human Seven Warlock Emperors, he also once dominated Cangzhi Plane and suppressed countless experts.

Archgods are far stronger than humans. According to legend, archgods are the descendants of an Eternal. Humans give birth to only one Warlock Emperor rank powerhouse in each era at most. But in the archgod age, several Warlock Emperor rank archgods would appear at the same time.

In the era of the Black Emperor, a total of 13 Warlock Emperor rank archgods were born in Cangzhi Plane. After his sudden emergence, the Black Emperor successively slayed 5 Warlock Emperor rank archgods, subdued the remaining 8 Warlock Emperor rank archgods, and created the Black Emperor Court. The Black Emperor was a terrifying existence on the same level as the human Seven Warlock Emperors.

Yu Yan asked suddenly: "Can the Black Emperor's treasure-trove be exchanged for the safety of the two of us?"

Yang Feng restrained the scorching light in his eyes and replied flatly: "Even if the Black Emperor's treasure-trove really exists, it is replete with danger. I may not be able to get my hands on the treasures inside. Compared to the Black Emperor's treasure-trove, I think that an Infinity Warlock is more valuable."

Yang Feng's true body only has Glorious Sun Warlock rank cultivation base. The Black Emperor was a peerless hegemon who dominated an era. According to reason, it won't be easy to get a hold of his treasure-trove. As a result, compared with the dangerous and mysterious Black Emperor's treasure-trove, he prefers Yu Yan who is one of Great Cloud Dynasty's Eight Marshals.

If Yu Yan surrenders, then Yang Feng will have three Infinity Warlock rank powerhouses at his beck and call. With this fighting power, his side will be even stronger than the Ten Great Sects.

Yu Yan sighed slightly. With a thought, runes lit up, and her sole core that resembles a star emerged and shed all protection.

Yang Feng silently recited an incantation and touched Yu Yan's soul with a finger. Countless soul runes wound around her soul core, slowly sank into her soul core, and finally carved a brand that belongs to him.
