

MGE 681

Chapter 681

681 – Forging Hammer

“Let’s go!”

Yu Yan pressed her hand on Yu Tianling’s head, gray light shone, and the latter fainted .

After drinking a vial of elixir, Yu Yan recovered some of her strength and hugged Yu Tianling .

In a valley .

Stream of light shone, and Yang Feng and his party flew into a cave deep in the valley .

Yu Yan looked at the top grade warp gate with surprise in her beautiful eyes and asked: “What is this?”

Yang Feng answered proudly: “This is a top grade warp gate, it is a top-notch secret treasure that can enable you to travel between two planes!”

Xizu warp gate technology is far more outstanding than Cangzhi Plane’s plane teleportation array technology . Not only can warp gates be mass produced, but top-grade warp gates even have the miraculous ability to enable free travel between two planes . Warp gates are much more formidable than Cangzhi Plane’s planar passageways .

There was an enigmatic flash in Yu Yan’s eyes . She saw the value of the top grade secret treasure at once: “A secret treasure that can enable you to travel between two planes! Did Undying Mountain’s alchemy reach this stage? No wonder you are able to develop so fast . With such heaven-defying secret treasures, Undying Mountain will surely become one of the most powerful forces in the future!”

With warp gates, you can easily mobilize your forces scattered in the different domains you rule to attack enemies .

With top grade warp gates that are equivalent to complete planar passageways at his disposal, Yang Feng can practice planar trade and earn tremendous resources .

Lights shone and ripples rose in the top grade warp gate .

Yang Feng and Alexia entered directly into the warp gate . Yu Yan looked deeply at the warp gate, and then stepped inside .

“We’re back to Cangzhi Plane!”

When Yu Yan stepped out of the warp gate, her eyes sparkled, and she opened her mouth and breathed in .

Life magic energy in an area 1,000 kilometres in area suddenly converged into a huge tornado that rushed into Yu Yan’s mouth .

Within a dozen plus breaths of time, Yu Yan who looked like she was on her last gasp recovered her vitality at once, and her aura quickly became stronger .

Yang Feng uttered: "Right, Zhao Fan is a friend of mine, help him climb the ladder in Secret Treasure Division!"

Yu Yan responded casually: "Okay . "

As one of Great Cloud Dynasty's Eight Marshals, Yu Yan has an extensive network of friends in Great Cloud Dynasty . To help a mere Moonlight Warlock climb the ladder in Secret Treasure Division is not a problem for her . Unless Yang Feng sets his sight on high positions such as deputy division chief and division chief, she can help him out .

Cloud Capital, Secret Treasure Division's headquarters .

Yang Feng's avatar Zhao Fan stepped into Secret Treasure Division's headquarters and attracted countless gazes .

Zhou Lan, a beautiful woman with a scholarly temperament wearing an eye glasses-like secret treasure, walked up to Yang Feng: "Zhao Fan, Sir Division Chief wishes to see you!"

"Sir Division Chief wishes to see him!"

"That kid is really lucky!"

"To get an invitation from Sir Division Chief, what a luck bastard!"

"..."

Discussions full of envy erupted in Secret Treasure Division .

Secret Treasure Division has 1 division chief, 8 deputy division chiefs, 36 bureau chief, and 288 deputy bureau chiefs . Among them, Division Chief Forging Hammer is an Infinity Warlock rank powerhouse, one of the strongest Infinity Warlocks in Great Cloud Dynasty to boot .

Forging Hammer is fundamentally either practicing cultivation, forging secret treasures, or conducting experiments .

In fact, it is the 8 deputy division chiefs and 36 bureau chiefs who maintain the operation of Secret Treasure Division . However, Forging Hammer is a bigwig with tremendous sway in Secret Treasure Division, and that's because three of the 8 deputy division chiefs are his disciples, and three other deputy division chiefs have received a lot of help and guidance from him .

Yang Feng nodded and followed Zhou Lan .

After passing through numerous winding corridors and going through various secret treasure inspections, a hall engraved with countless mysterious runes looking like a giant bird egg appeared in front of Yang Feng .

"Is this, another world?"

As soon as Yang Feng stepped into the huge bird egg hall, he found himself in another world that extends without end .

Yang Fang's avatar Zhao Fan is a Moonlight Warlock, a Transcendent rank powerhouse . He can easily see the scenery 1,000 kilometres away . Since he is unable to see the end, this means that the area of this world exceeds 1,000 kilometres in diameter .

"This is a celestial body that was modified into what it is now using spells, including spatial spells . To be precise, this should be classified as a virtual divine country!"

A voice rang next to Yang Feng's ears . His vision blurred, and he appeared in a huge laboratory .

In the huge laboratory, you can see Alchemists who are rare in the outside world everywhere . These Alchemists are all busy carrying out research and experiments .

An ordinary-looking middle-aged man in casual clothes and without the presence of a powerhouse sitting on a sofa is sizing up Yang Feng leisurely .

Targeted by the gaze of the middle-aged man, all of Yang Feng's secrets are exposed, giving him a creepy feeling: "This man is definitely an Infinity Warlock!"

Although Moonlight Warlocks are already Transcendent rank powerhouses . But when facing Infinity Warlocks, they cannot withstand a single blow . Many Infinity Warlocks can kill a Moonlight Warlock with a spell from thousands of kilometres away .

A majority of female Warlocks choose to cultivate secret methods that will make them more beautiful . Male Warlocks, on the other hand, pursue secret methods that are more powerful and can prolong their life . Therefore, in Great Cloud Dynasty, beautiful female Warlocks can be seen everywhere . As for male Warlocks, much like ordinary men, there are handsome and ugly ones .

The middle-aged man waved his hand, and a jade card flew into Yang Feng's hand: "I am Forging Hammer! Zhao Fan, you helped the Yu family's sisters, you did well . I owe Yu Yan a favor . Starting today, you are my 36th bureau chief!"

When the Alchemists doing different types of research heard this statement, they looked at Yang Feng with envy in their eyes .

By becoming one of the 36 bureau chiefs of Secret Treasure Division, Yang Feng has ascended to the upper echelon of Secret Treasure Division . He became one of the division's core figures and gained a high authority .

Secret Treasure Division is the holy place that all Alchemists in Great Cloud Dynasty dream of . In Secret Treasure Division, the number of Moonlight Warlocks exceeds 1,000 people, and most of them aren't even deputy bureau chiefs .

The posts of Secret Treasure Division's bureau chiefs is mostly occupied by Glorious Sun Warlocks . For Yang Feng who is only a Moonlight Warlock to be able to become a bureau chief, it naturally evoked the envy of everyone .

Forging Hammer waved carelessly, and his eyes gaze fell on a sphere in his hand: "This is the core of Secret Treasure Department, and all the most advanced alchemy is developed here . With your identity jade card, you can go into most places . Okay, you can leave now!"

Yang Feng looked at the sphere in the hands of Forging Hammer, and his heart stirred slightly: “This is a 3rd generation battle robot! Great Cloud Dynasty’s reaction is fast!”

Undying Mountain rose in Li Gui Province and occupied the entire province within a short period of time . Naturally Great Cloud Dynasty cannot stay idle . On the one hand, they sent people to infiltrate Li Gui Province, on the other hand, they conduct research on the secret treasures of the province .

The corners of Yang Feng’s mouth rose slightly: “With Great Cloud Dynasty’s alchemy, their research should not be able to uncover much . It’s a pity that that they cannot study the most crucial thing – Matter and Energy Converter . As long as that is the case, all they’re effort is going to be in vain . ”

One of xizu core technologies is Matter and Energy Converter . So long as there is enough energy, this technology can form all kinds of precious and rare materials that then can be refined into powerful weapons .

Great Cloud Dynasty inherited part of Magic Note Dynasty’s heritage, and so their alchemy is quite developed . With Great Cloud Dynasty’s power, they can manufacture powerful golems and secret treasures, but due to the requirement in resources, they cannot mass-produce them .

Yang Feng left the virtual divine country and went to his new office .

A beautiful woman with short black hair and a sensual and elegant temperament in a black dress came to Yang Feng and said respectfully: “Bureau Chief Zhao Fan, I am your secretary He Rui . I’ll be in your care . ”

Yang Feng spoke lightly: “Have Shentu Xiong come to see me!”

He Rui replied: “Yes! Bureau Chief!”

Soon after, Shentu Xiong entered the room and looked at Yang Feng who has the position of bureau chief with envy in his eyes .

Yang Feng glanced at Shentu Xiong and said flatly: “Shentu Xiong, I have a special mission for you! There is a problem with Ice Domain Plane’s barrier generator . Within three days, you must go there and safeguard the barrier generator for 100 years . Do you have any objections?”

A bitter look in his eyes, Shentu Xiong gritted his teeth, saluted, and said aloud: “Yes! I will complete this mission that you entrusted me, Sir Bureau Chief!”

Ice Domain Plane is a grade 8 plane with little to no resources . It is impossible to break through to the Moonlight Warlock rank there . Yang Feng throwing the quasi-Moonlight Warlock Shentu Xiong into Ice Domain Plane is equivalent to exiling him, making it so that Shentu Xiong cannot break through and promote to a Moonlight Warlock within 100 years . Additionally, there are no humanoid life forms in Ice Domain Plane, which means that Shentu Xiong will spend 100 years there alone .

Shentu Xiong understands that this is Yang Feng’s retaliation, but he dares not say anything . Or else he will be directly stripped of his identity as a member of Secret Treasure Division .

Chapter 682 – Nine Realms Initial Completion

Secret Treasure Division is one of the most important departments of Great Cloud Dynasty. Every year, countless powerful secret treasures are created by Secret Treasure Division.

Much like Ten Great Sects, Great Cloud Dynasty's Eight Great Families also have their own planes. Furthermore, they continue to explore Astral Boundary and colonize other planes.

In the wars with other plane's natives, their consumption of secret treasures is huge. Although Eight Great Families also cultivate their own Alchemists, but they are still short on various secret treasures, and thus need to purchase secret treasures from Secret Treasure Division. Moreover, new alchemy techniques appear in Secret Treasure Division each year. In order to obtain the latest alchemy technology of Secret Treasure Division, Eight Great Families must plant their own people in Secret Treasure Division.

Shentu Xiong is the most outstanding alchemy genius among Eight Great Families. With only quasi-Moonlight Warlock rank cultivation base, he can already refine level-6 secret treasures. Such alchemy talent is rare in Secret Treasure Division. Only a place like Secret Treasure Division can provide the necessary resources to nurture him at a fast speed.

If Shentu Xiong disobeys Yang Feng, he will be deprived of the status of a member of Secret Treasure Division, his path as an Alchemist will be cut off, and a tentacle of Shentu family in Secret Treasure Division will be severed.

Ten Great Sects and Eight Great Families are powerful as they are because the children they nurtured are spread throughout Great Cloud Dynasty's Imperial Court.

Secret Treasure Division is the department most valued by Great Cloud Dynasty's Imperial Court. It is extremely difficult for people of Eight Great Families to enter Secret Treasure Division. Shentu Xiong joined Secret Treasure Division without a hitch. But now that he's facing Yang Feng's retaliation, he can only bear it.

Shentu Xiong gave Yang Feng a deep look, resentment flashed in his eyes, and he said secretly: "Zhao Fan, I will remember this! There will come a day when I'll repay today's humiliation a 100-fold!"

Yang Feng glanced at Shentu Xiong and raised the corners of his mouth slightly.

After practicing Transcendent Text, Yang Feng can clearly perceive the negative force emitted by a person. Shentu Xiong is only a quasi-Moonlight Warlock. The evil intent in his heart naturally cannot escape Yang Feng's perception.

A few days later, on a huge airship, Shentu Xiong is sitting in a luxury cabin with two other race beauties in his arms, a ferocious glint in his eyes: "Zhao Fan, I must kill him! Otherwise, with him there, even if I come back from Ice Domain Plane, he will banish me to another plane. Bai family has already began aiming their killing intent at Eight Great Families. They must be very happy that Zhao Fan has acted against me!"

One of the important reasons why Shentu Xiong is so well-behaved is because Great Cloud Dynasty's Bai family is getting stronger and stronger, attacking and removing the influence of Eight Great Families on all fronts.

If it was before Ten Great Families were quelled, Shentu Xiong would never place a trifling Moonlight Warlock without any background like Yang Feng in his eyes.

Killing intent shimmered in Shentu Xiong's eyes, and he made up his mind: "After I've stayed in Ice Domain Plane for a year or two, I'll ask the family to mobilize experts from Phantom Hall to kill him!"

Phantom Hall is a powerful secret force of Shentu family responsible for assassinations, and it is controlled by Shentu family's Patriarch. There have even been two Bright World Warlocks who have died at the hands of Phantom Hall's assassins.

Suddenly, the huge airship shuddered, and a strange power spread instantly inside.

The huge airship stopped still, and everyone inside it became motionless.

A wisp of gray smoke swept Shentu Xiong. The blood essence inside him disappeared in a flash, and he turned into a corpse, a look of fear and despair on his face.

The strange power disappeared immediately, and the airship returned to normal.

"Ah!"

"Help!"

"..."

When the two other race slaves Shentu Xiong bought from a slave market saw that Shentu Xiong is dead, their faces suddenly changed greatly, and they issued ear-piercing screams.

Following flashes of light, dozens of Great Warlock rank powerhouses and above rushed into the cabin.

A Starry Sky Warlock glanced at Shentu Xiong, and his face fell and his body shook: "Sir Shentu Xiong was murdered!"

Another Starry Sky Warlock said with a bitter expression: "How awful! Sir Shentu Xiong was killed silently! The murderer must be a powerhouse at the Moonlight Warlock rank or above. This isn't something we can handle!"

Moonlight Warlocks are Transcendent rank powerhouses. A Moonlight Warlock is enough to massacre everyone aboard this airship. When these Warlocks thought of this, they felt a chill in their hearts.

Shentu family's headquarters.

Sitting in a study, Shentu family's Patriarch Shentu Mingyao listened to a report with a somber face.

Shentu Mingyao uttered coldly: "Who the hell dared to kill my child? Find it out!"

Shentu Mingyao's confidant responded respectfully: "Sir Patriarch, the other party did a very clean job, leaving virtually not traces. Besides, the assassins are at least Moonlight Warlock rank powerhouses."

Killing intent streaked past Shentu Mingyao's eyes, and he uttered grimly: "Absence of evidence is the biggest clue. There are only a few forces that can mobilize so many Moonlight Warlocks in such a short time. However, those forces have no reason to attack us."

Within Great Cloud Dynasty, there are not many forces that can mobilize more than 100 Moonlight Warlocks at the same time. Only Imperial Court and Eight Great Family can achieve this.

Eight Great Families are all behemoths. If there are any conflicts between them, they will settle the problem by negotiation or duel. They wouldn't use such an extreme method that could escalate into war.

Shentu Mingyao suddenly thought of a terrible possibility: "Can it be their doing? Just to incite hatred and suspicion between us?"

Shentu Mingyao's eyes suddenly shimmered with frigid killing intent, and he made a decision: "Very well! Since you are being unscrupulous, then don't blame me for being inconsiderate!"

Shentu Mingyao doesn't suspect Yang Feng. Because in his view, a bureau chief of Secret Treasure Division fundamentally doesn't have the power to mobilize more than 100 powerhouses at the Moonlight Warlock rank or above. After all, even if he, the Patriarch of Shentu family, wants to mobilize so many powerful Warlocks to carry out a major operation, he needs to report to the Great Elders and get permission.

Li Gui Province, Undying Mountain, inside a vast practice room, Yang Feng's true body suspended in the air is radiating light from nine spots.

A large number of high grade magic crystals is flying into Yang Feng's body in a dense stream and pouring into the nine small worlds inside him.

Using resources from Li Gui Province and the treasuries of two kindred grand dukes, Yang Feng successfully formed nine small worlds. With one small world at the core, the remaining eight small worlds revolve around it. The nine worlds are frantically absorbing huge amounts of power and growing continuously.

If it were not for Li Gui Province and the territories of the two kindred grand dukes, then the consumption of the nine small worlds would cause him a headache.

Following a crisp sound, Yang Feng slowly opened his eyes.

"Pinnacle Glorious Sun Warlock! I'm only one step away from quasi-Bright World Warlock rank realm! The Nine Realms Lord was indeed extraordinary. If he hadn't met the Star Lord, that age would definitely have been the age of the Nine Realms Lord!"

Yang Feng felt the almost boundless power welling up inside him, and he revealed a smile.

Forming nine small worlds made Yang Feng consume hundreds of times the resources of an ordinary Glorious Sun Warlock, but his strength also far exceeds that of an ordinary Glorious Sun Warlock.

With sufficient resources, the speed of cultivation of the Nine Realms Lord's secret method is far higher than that of other secret methods. Another condition for practicing the Nine Realms Lord's secret method is soul aptitude. But for Yang Feng whose soul aptitude has reached superior level-8, that is not a problem.

Yang Feng uttered slowly: “For the current me, the treasure trove of the Black Emperor is still too dangerous. The most urgent task at hand is to go to Sun God Shrine and receive the baptism of sun force.”

In the archgod era, prior to the Black Emperor age, it was the Sun God age. The Sun Gods gave birth to a Warlock Emperor rank powerhouse called the Sun Emperor who wielded sun force. Sun Gods were Glorious Sun Warlocks upon reaching adulthood. They radiated endless light and heat like suns.

Sun God Shrine is the place where the Sun Emperor lived and trained the younger generation.

During the rise of the Time Lord, human Warlock cultivation system wasn’t perfect. He was stuck after he promoted to a Moonlight Warlock. In the end he entered Sun God Shrine, absorbed sun force, and finally became a Glorious Sun Warlock. Therefore, the realm following the Moonlight Warlock realm was named Glorious Sun Warlock realm.

Once human Warlocks enter Sun God Shrine, they can absorb the endless sun force contained in the shrine and condense small suns in the small world inside them, making the small world more perfect and real.

Although human Warlocks can also use other treasures instead. But for Yang Feng, entering Sun God Palace to absorb sun force is the best choice.

Chapter 683 – Grand Welcome

Sun God Shrine is located in a crack between Astral Boundary and Cangzhi Plane called Dazzling Sunlight Space, a place filled with powerful flames. Even Bright World Warlocks can be easily burned to ashes once inside.

Sun God Shrine is the place where the Sun Emperor used to live, and it is enchanted with an extremely powerful barrier. Only powerhouses with a special token can enter Sun God Shrine via special channels.

Due to the powerful barrier, once you set foot in Sun God Shrine, you will have your power suppressed to the Glorious Sun Warlock rank. The same is true even for Warlock Monarchs.

Sun God Shrine is opened every 100 years, and the day when Sun God Shrine opens again is approaching. Great Cloud Dynasty’s Imperial Court controls special channels and tokens to enter the Sun God Shrine.

“Bai Yuxian, I want to go to Sun God Shrine! Is my token ready?”

Yang Feng pressed a magic mobile phone he developed, found Bai Yuxian’s name, and called her.

The magic mobile phone radiated blue light that formed a vivid figure of Bai Yuxian in the air.

Bai Yuxian uttered with concern: “I already prepared the token. However, are you sure you want to enter Sun God Shrine? Sun God Shrine is connected to many planes. Every time it opens, many monstrous geniuses from different planes will enter it. According to the information of my Bai family, many hidden monstrous geniuses of different planes will enter Sun God Shrine this time, including some of Great Cloud Dynasty’s Seven Glorious Sun Stars.

Human Warlocks have explored Astral Boundary for countless years. At their peak, every Warlock Dynasty will discover countless planes.

Whenever a Warlock Dynasty collapses, much like Battle Demon Sect, many powerful Warlock groups will escape to other planes with their entire force.

After countless years, some Warlock groups will decline due to the plane they migrated into not being strong enough, while others will develop into behemoths not inferior even to Cangzhi Plane's powerful Warlock groups.

Yang Feng responded with a confident smile: "You don't have to worry about me!"

Bai Yuxian uttered: "Fine! I will give you the token when you arrive at Cloud Capital!"

"Good!"

Cloud Capital, at Brilliant Dragon Airship Port. The port is nearly empty. Numerous staff members are busy cleaning the airship port everywhere.

At a corner of the airship port, there are five girls sitting, each of which is enchanting and full of youthful vigor. If placed on Earth, any one of them would be considered as the most beautiful girl in the world.

Poiena, a beautiful girl with long blond hair, black eyes, snow-white skin, an explosive figure, and traits of Asians and Caucasians asked curiously: "What's going on? Why were we all summoned here, what bigwig are we going to welcome?"

Luo Bingbing, a tall and beautiful girl with her hair tied into a ponytail, a perfect figure, and a heroic temperament looked around, smiled brightly, and said proudly: "I don't know. But to be able to summon us Five Fairies, they are definitely not simple!"

The five girls of distinctive qualities sitting in this corner are the five most famous Warlock idols in Cloud Province. There are countless ordinary people and low-level Warlocks throughout Cloud Province who are their admirers.

Shen Yue, a beautiful girl with a pure little face and a height of only 1.4 meters, yet giant breasts exuding an adorable temperament pointed with a finger: "Look! That's the Director of Board of Rites! A legendary Infinity Warlock! Why did he come in person?"

Startled, Zhou Qin, a beautiful girl with wavy maroon hair, wearing a white dress and a butterfly hairpin on the head looked in the direction Shen Yue is pointing: "The Director of Board of Rites Wu Huan? What's going on? He is an Infinity Warlock. Even other Infinity Warlocks may not be able to make him welcome them personally. Only the Emperors of Western World's Three Dynasties or important ministers of the Imperial Court can make him personally welcome them!"

The most famous of the Five Fairies Murong Yuling's beautiful eyes flashed with curiosity, and she looked in direction Shen Yue is pointing.

She saw a middle-aged man wearing the gown of the Director of Board of Rites standing quietly in the airship port. Standing there quietly, he looks like the center of the universe. Everyone's attention is deeply attracted by him.

Although stunning beauties like the Five Fairies will surely attract the attention of countless people. But in this airship port, they cannot compare to the Director of Board of Rites. His presence overwhelms everything else.

Poiena's beautiful eyes flickered brilliantly, and she sighed slightly: "Incredible! This is an Infinity Warlock, a true powerhouse! If such a powerhouse was my man, how great would it be!"

The Five Fairies are well-known figures in show business. But in the eyes of Transcendent rank powerhouses, they are just ordinary beautiful Warlocks.

Bright World Warlocks and Infinity Warlocks are usually immersed in cultivation, or are roaming Astral Boundary in the search of opportunities. They don't pay attention to them. Otherwise, a Bright World Warlock just has to exert a little pressure, and the company they belong to will have to yield.

Poiena and them know that they are unattainable stars only in front of ordinary people. But in front of true Transcendent rank powerhouses, they are nothing.

Transcendent rank powerhouses generally only take other Transcendent rank powerhouses as wives, so that they can easily bear offsprings and their offsprings are far stronger than ordinary people. It is difficult for Transcendent rank powerhouses to have children with ordinary people. Even if they manage to bear a child, but the child's soul aptitude won't be very high. Moreover, an ordinary woman pregnant with the child of a Transcendent rank powerhouse may have all their power sucked away by the fetus and die.

In the era of the 1st Warlock Dynasty, the strongest powerhouses among humans had a hard time reproducing. But after generations of human Warlocks studying this problem, they developed secret methods to greatly reduce the mortality rate of ordinary women pregnant with the children of Transcendent rank powerhouses. However, after using this kind of secret method, the offsprings will be very weak. Therefore, Transcendent rank powerhouses generally look for other Transcendent rank powerhouses to take as partners.

Shen Yue asked, curious: "Sister Yuling, I heard that your boyfriend is a Moonlight Warlock?"

With this remark, the eyes of the other Three Fairies focused on Murong Yuling, revealing looks of expectation and envy in their eyes. Moonlight Warlocks are Transcendent rank powerhouses. For them, a Moonlight Warlock is already the most ideal husband material.

Murong Yuling smiled proudly and said: "Mhm, he is a Moonlight Warlock!"

Her big beautiful eyes flickering, Shen Yue uttered adorably: "That's great! By the way, Sister Yuling, when will you introduce him to us?"

"When there's a chance!"

Despite the flash of vigilance in her beautiful eyes, Murong Yuling still smiled brightly. She made up her mind never to introduce Yang Feng to them who are not inferior to her in any respect.

Poiena looked up and said: "They're here!"

The Five Fairies raised their heads and saw a huge airship coming from afar and slowly descending.

The door of the huge airship opened, and Yang Feng guarded by Zhan Ying, Hua Xiangxuan, Alexia, 6 Moonlight Warlocks, and 14 4th generation battle robots alighted.

Wu Huan swept Alexia with his gaze, and his eyes constricted slightly. A warm smile appeared on his face, and he stepped forward and said: "Hello, I am Great Cloud Dynasty's Director of Board of Rites Wu Huan. You must be Undying Mountain's Young Master Lei Ming! Sure enough, heroes are young! You are not even 100 years old, yet you already possess a Glorious Sun Warlock rank cultivation base! Impressive!"

Yang Feng smiled and praised back: "Hello, Director Wu. I cannot compare to you who is an Infinity Warlock and the Director of Board of Rites! My little bit of achievement that is all thanks to my father is really too lacking!"

The Director of Board of Rites Wu Huan is an Infinity Warlock rank powerhouse with great authority. Since he came here to welcome Yang Feng in person, gave him a lot of face, Yang Feng Naturally won't be ungrateful offend the other party rashly.

Wu Huan smiled and said: "I have set up a banquet for you and invited the Cloud Province's Five Fairies. Their singing and dancing are much better than that of ordinary people, and even many goddesses of other planes cannot compare to them!"

Yang Feng uttered: "The Five Fairies? That's great, I like to listen to Murong Yuling's singing!"

Wu Huan smiled and waved, saying: "She is over there. Since you like her, then lets have her accompany you!"

A Starry Sky Warlock in a military uniform with a grim face came to the Five Fairies and said: "Murong Yuling, Sir Director has summoned you. Please come with me. Undying Mountain's Young Master Lei Ming likes your singing very much!"

Poiena stared at Murong Yuling with envy in her pretty eyes: "Damn, why is it Murong Yuling and not me?"

The other Three Fairies also stared at Murong Yuling with envy in their beautiful eyes.

Chapter 684 – Grade 3 Plane

Murong Yuling frowned slightly, unwilling. But she cannot refuse the call of the Director of Board of Rites. She just got up and walked towards Wu Huan and company.

Although Murong Yuling is a famous idol in Cloud Province, but she is only a level-3 Warlock. With her identity, she can refuse the invitation of Moonlight Warlocks at most.

"Hello, Murong Yuling, I am Undying Mountain's Lei Ming, a fan of yours! I am happy to meet you!" As soon as Murong Yuling came over, Yang Feng said cordially.

Murong Yuling smiled slightly. There is a trace of estrangement in her bearing: "Hello, Young Master Lei Ming, your reputation pierces the sky like lightning. You even defeated one of the Seven Glorious Sun Stars Nangong Wumie, that's really amazing!"

As one of the Seven Glorious Sun Stars, Nangong Wumie is recognized as one of the top seven Glorious Sun Warlocks in Great Cloud Dynasty. He is a peerless genius most hopeful of promoting to the Bright World Warlock realm. For such a powerhouse to be defeated at Yang Feng's hands, it caused a small sensation in Great Cloud Dynasty's Transcendent rank powerhouse community.

Although Murong Yuling is only a bigwig in the show business community, but ever since Yang Feng's avatar Zhao Fan advanced to a Moonlight Warlock, she began to learn some things related to the Transcendent rank powerhouse community.

Yang Feng responded politely: "It's all luck!"

After exchanging a few pleasantries, Yang Feng guarded by Undying Mountain's powerhouses sat in a luxury magic chariot and headed towards Holy Light Manor, a luxurious manor in Cloud Capital.

Wu Huan sat in another luxurious magic chariot, closed his eyes, and uttered unhurriedly: "An Infinity Warlock rank powerhouse is willing to act as his guard! The foundation of Undying Mountain is far beyond our imagination! Moreover, the status of Lei Ming in Undying Mountain is much higher than we thought!"

"That's Blazing Angel Alexia, the Blazing Angel Lei Ming subdued! When she was subdued by Lei Ming, she only possessed Bright World Warlock rank cultivation base. For her to evolve into an Infinity Warlock rank powerhouse, Undying Mountain must have provided the necessary resources! Undying Mountain is a force with extremely deep roots!" A voice sounded inside the luxury chariot, but the driver driving in front appears not to hear anything.

Wu Huan's eyes flashed, and he spoke gravely: "Yes! To be able to evolve a Bright World Warlock rank Blazing Angel into an Infinity Warlock rank Blazing Angel, they should be at least at the level of the Ten Great Sects. Undying Mountain is worth roping in! Make the arrangements, I want the Five Fairies."

The voice said: "Yes! Sir!"

The Five Fairies are celebrities in Cloud Province. But for Infinity Warlocks, they only need to pay a small price to get them. Moreover, celebrities are updated at a quick pace. After the Five Fairies retire, new idols will soon take their place.

Holy Light Manor is a top-level manor constructed in the extremely expensive Noble Zone by a top Grandmaster Alchemists using spacial alchemy.

On the outside, Holy Light Manor only covers about 100 acres of land. But on the inside, it looks like a scene from paradise. There are a luxurious manor with an area of hundreds of square kilometres, beautiful mountains, clear lakes, and white clouds.

In the garden of the luxurious manor, there is a large round table filled with all kinds of delicacies that are rare in the outside world. Many of the delicious are full of life magic energy. With a bite, they can strengthen the body of ordinary humans, prolong their life, and change their soul aptitude.

After Yang Feng, Murong Yuling, Wu Huan, and Alexia took their seat, they sampled the delicious dishes while watching the singing and dancing performance of the Four Fairies.

Yang Feng praised: "They deserve to be called the Four Fairies, their singing and dancing are really outstanding. In my Li Gui Province, there are no such good performers."

Wu Huan uttered with a smile: "Young Master Lei Ming, since you like them, then take the Five Fairies back with you!"

Sitting aside, Murong Yuling's pretty face turned ashen, and she gritted her white teeth. Fear flashed in her beautiful eyes.

Yang Feng asked, curious: "Oh, can I really? They aren't slaves after all!"

The law in Great Cloud Dynasty is extremely strict. Only slaves or concubines cultivated by big families can be traded freely. The Five Fairies are famous idols of Great Cloud Dynasty popular in Cloud Province, and even Moonlight Warlocks cannot compel them.

Wu Huan smiled and said: "The Five Fairies colluded with the hellions. As a punishment, they have been deprived of their citizenship and have been demoted to slaves. I already bought them. If you like them, then I'll give them to you."

Murong Yuling shivered. Her whole body feels ice-cold, as if she has fallen into an ice cave. It is only today that she realized how powerful and terrifying people with real authority are. With just one sentence, the other party deprived her of all her rights and reduced her to a slave. No matter how famous she is in Cloud Dynasty, she isn't worth anything in the eyes of the other party.

Within Great Cloud Dynasty, only Transcendent rank powerhouses who have a position in the Imperial Court cannot be randomly reduced to slaves by others.

Yang Feng smiled and said: "Okay! Their singing and dancing are outstanding and I like them very much, I won't stand on ceremony."

After exchanging a few words, Yang Feng and Wu Huan decided the fate of the Five Fairies famous in Cloud Province. This is the power of truly influential people.

"Young Master Lei Ming, I have something I would like to discuss with you in private! Please dismiss your attendants!"

Wu Huan waved his hand, and the surrounding guards and waiters left quickly.

Yang Feng also waved his hands and had Zhan Ying, Murong Yuling, and others leave, leaving only the Infinity Warlock rank powerhouse Blazing Angel Alexia by his side.

As an Infinity Warlock, every move of Wu Huan contains a powerful energy field, and he is proficient in countless secret methods. Yang Feng doesn't dare to stay alone with such an old monster. Even when the two of them are negotiating, Yang Feng will be more confident with Alexia by his side.

Wu Huan drained a cup of fine wine in one gulp, and then said with a smile: "Great Cloud Dynasty intends to give Undying Mountain a gift. The gift is the coordinates of a grade 3 plane. If Undying Mountain suppresses the grade 3 plane and agrees to offer Great Cloud Dynasty 60% of the plane's resources every year, then the grade 3 plane is yours."

Yang Feng was moved when he heard that: "A grade 3 plane!"

A grade 3 plane is a powerful plane that can give birth to mighty divine force rank gods, that is, Warlock Monarch rank powerhouses. Even Battle Demon Sect only grasps the coordinates of two grade 4 planes. The coordinates of a grade 3 plane is enough for many powerful forces to fight over them.

Among the planes that human Warlocks have discovered so far, Cangzhi Plane is a superior grade 1 plane, the 36 primary material planes are superior grade 2 planes, then follow the second-rate grade 2 planes, grade 3 planes, and so on.

Second-rate grade 2 planes are small in number, and they are mostly occupied by human Warlocks who escaped. Second-rate grade 2 planes cannot give birth to Warlock Emperor rank powerhouses, but they can give birth to Holy Spirit Warlock rank powerhouses.

The grade 3 planes is extremely important even for Great Cloud Dynasty. After all, it is a plane that can give birth to Warlock Monarch rank powerhouses.

Yang Feng responded: "What does the Imperial Court want my Undying Mountain to do?"

Wu Huan said with a smile: "The Imperial Court hopes that Undying Mountain sends an Infinity Warlock to serve the Imperial Court."

After Great Cloud Dynasty eradicated the Ten Great Sects, it recovered the greater provinces occupied by the Ten Great Sects and obtained a huge amount of resources. However, when the Ten Great Sects disappeared, Marshal Jing was killed, 13 Princes died, and some Bright World Warlocks fell, making the situation of Great Cloud Dynasty unstable.

Although Great Cloud Dynasty has many powerhouses, but those powerhouses mostly keep watch over different domains and protect the entire Great Cloud Dynasty. This is when Wu Huan came to welcome Yang Feng in his capacity as the Director of Board of Rites to rope Undying Mountain in.

Yang Feng spoke calmly: "An Infinity Warlock cannot compare to a grade 3 plane."

So long as you have godheads and tremendous resources, you can easily cultivate a bunch of powerful gods in a grade 3 plane.

A grade 3 plane is a plane that can hold 1,000 gods. Great Cloud Dynasty can use the the godheads and god slots of the plane to recruit countless experts to serve them.

Wu Huan said, nonchalant: "The grade 3 plane originally belonged to the Imperial Court, but then it was snatched away by the hellion army three years ago! But we still have 136 gods who were conferred godhood by Great Cloud Dynasty fighting against them. As long as Undying Mountain sends troops, we can pincer and wipe the hellion army out easily."

Yang Feng's eyes constricted slightly, and he guessed secretly: "This old fogey is omitting things. The grade 3 plane must be in jeopardy, or maybe it has already fallen. Only then would he come to me for help. With their strength, if Other Plane Development Division cannot quell the hellion army, then the hellion army must be tyrannical. They want to deceive me and use me as cannon fodder! At the same time, they want to weaken me and the hellion army."

Yang Feng said with a smile: "This matter is of great importance. I must report it to the Mountain Master and let the Mountain Master decide. I ask that you prepare all kinds of data for the Mountain Master to look them over."

"This little guy is not a simple one!"

When Wu Huan heard that, he took a deep look at Yang Feng, and then revealed a smile and uttered: "Fine. However, Great Cloud Dynasty's Eight Great Families also intend to serve the dynasty."

Chapter 685

685 – Two Dubhe Stars

In the following days, Yang Feng began to mobilize his contacts in Cloud Capital and began to collect information on the grade 3 plane Wu Huan spoke of .

Yang Feng bribed a lot of chess pieces in Cloud Capital . However, most of the chess pieces don't have a high status, and so they have no access to such top-level information .

However, with his other identity of Secret Treasure Division's Bureau Chief Zhao Fan, Yang Feng learned some information from Secret Treasure Division .

The grade 3 plane is called the Moon Crow Plane . Under the siege of the hellion army, it is already in jeopardy . Moon Crow Plane's gods who were conferred godhood by Great Cloud Dynasty were forced into their divine kingdoms, where they take a stance with the support of their divine legions .

Other Plane Development Division once dispatched a large army to attack the hellion army in Moon Crow Plane, but then was ambushed by the hellion army and had its main forces annihilated . Great Cloud Dynasty's 48th Prince who was in command of the army was also killed .

Due to the purge of the Ten Great Sects, Great Cloud Dynasty doesn't have enough experts to suppress the underground world's Demonic Realm . In recent years, many wars broke out in the underground world's Demonic Realm, and even battles between Infinity Warlock rank powerhouses took place .

Countless of Great Cloud Dynasty's experts fell in Demonic Realm, Moon Crow Plane, and other major battlefields .

The planar passageway in Red Rock Subcontinent was snatched away, and so Great Cloud Dynasty had to send Marshal Ying and Marshal Long of the Eight Marshals to seize it back .

Although Great Cloud Dynasty looks calm, peaceful, and prospering, but there are fierce fights occurring on many fronts .

The powerful forces are aware that if Great Cloud Dynasty is given enough time to recover from the purge of the Ten Great Sects, their strength will surge again . These powerful forces took advantage of this period of time that Great Cloud Dynasty is in a weakened state to launch attacks from different directions and weaken Great Cloud Dynasty's power .

The death of Starry Sky Warlocks doesn't count for much to Great Cloud Dynasty . With their foundation, so long as Great Cloud Dynasty supplies an unrestricted amount of resources, they can produce Starry Sky Warlocks en masse in a short period . But every time a Transcendent rank

powerhouse falls, Great Cloud Dynasty incurs a bit of damage . After all, even with sufficient resources, it will take hundreds of years to cultivate a Moonlight Warlock .

While Great Cloud Dynasty faces enemies on multiple fronts, the Eight Great Families quietly sit on the sidelines and watch the tigers fight . Their top powerhouses have disappeared without a trace . This is when Wu Huan in his capacity as the Director of Board of Rites lowered himself to welcome Yang Feng .

Bai Wuqing removed the Ten Great Sects one by one and recovered 10 greater provinces on one fell swoop . If Great Cloud Dynasty is given time to recover, then Great Cloud Dynasty will be more powerful than ever .

Unfortunately the other forces don't give Great Cloud Dynasty time to recover . Taking advantage of Great Cloud Dynasty's moment of weakness, they launched their offensive against the dynasty . Coupled with the rift that exists between the Eight Great Families and Great Cloud Dynasty, it led to such a predicament .

Yang Feng's eyes flashed with regret: "Now is the best time to annex Great Cloud Dynasty! Unfortunately I'm not strong enough at the moment! I have to bide my time!"

Many munitions factories under Yang Feng's command have begun to manufacture 4th generation battle robots and modify the already constructed 3rd generation battle robots . However, it's still been a short time since he started building 4th generation battle robots, and thus he hasn't amassed them on a significant scale yet . With his current strength, it is impossible to annex Great Cloud Dynasty .

After Yang Feng issued an order to continue to infiltrate Great Cloud Dynasty, he began to prepare for the trip to Sun God Shrine .

A few days later, in Cloud Capital's Brilliant Dragon Airship Port, a giant airship 3,000 meters in length inscribed with countless mysterious runes anchored .

Yang Feng boarded the giant airship unhurriedly and saw more than 70 people form small circles aboard . Emitting faint Glorious Sun Warlock rank fluctuations, they all clearly are Glorious Sun Warlock rank powerhouses .

"Lei Ming, you really came!"

Aboard the giant airship, when Nangong Wumie saw Yang Feng arrive, his eyes lit up slightly, and he walked over with a smile .

Yang Feng uttered with a smile: "Nangong Wumie, you have become stronger . "

Smiling brightly, a fragrance wafting off from her, Bai Yuxian came over: "Young Master Lei, please take care of me inside Sun God Shrine . "

Yang Feng asked, curious: "Moonlight Seven Stars are really extraordinary . Bai Yuxian, in addition to you, have all Moonlight Seven Stars advanced to Glorious Sun Warlocks?"

Bai Yuxian replied with a sweet smile: "That's right . For the sake of Sun God Shrine, we Moonlight Seven Stars have all broken through and promoted to Glorious Sun Warlocks . After all, Sun God Shrine only opens once every 100 years . If we miss this chance, it will take 100 years before we get another chance to enter Sun God Shrine . "

Bai Yuxian pointed with a finger: "These two groups are the Glorious Sun Seven Stars and the former Moonlight Seven Stars!"

On the huge airship, there are two groups of people exuding powerful auras different from that of other Glorious Sun Warlocks, with each group having six people .

The 12 Warlocks are monster-level geniuses of the Glorious Sun Seven Stars and the former Moonlight Warlock Seven Stars . These 12 Warlocks have either formed a virtual world inside them, or have other powerful means . They are far stronger than other powerhouses of the same rank .

Nangong Wumie pointed at an ordinary-looking man with eyes as bright as stars and a strong presence wearing a white Warlock robe, narrowed his eyes, and said: "Among the former Moonlight Seven Stars, although others are also strong, but they have promoted to Glorious Sun Warlocks not long ago and cannot compare to the Glorious Sun Seven Stars in terms of strength . But Dubhe Star Ba Xun is a monster among monsters . Even if it's me, I may not be able to beat him!"

Yang Feng uttered with a dignified look in his eyes: "Oh! If this is the case, then he is really a monster among monsters!"

Each of the Glorious Sun Seven Stars is a monster-level genius who has reached the Glorious Sun Warlock realm dozens or even 100 years ago, and they all possesses the power to contend with the weakest Bright World Warlocks . Ba Xun has promoted to a Glorious Sun Warlock less than 10 years ago, yet he already is comparable to the Glorious Sun Seven Stars in terms of power . His talent is really incredible .

Nangong Wumie pointed to other people: "Among the current Glorious Sun Seven Stars, Dubhe Star Lan Ba and Merak Star Jiang Qi are also powerhouses whom I have no certainty of defeating ."

Dubhe Star Lan Ba is a handsome young man with unique features and a domineering temperament in a blue Warlock robe .

Jiang Qi is a tall yet thin man with a strange imprint engraved on his face, 10 earrings on his ears, a cold face, and a strange temperament .

Standing next to Lan Ba is a beautiful girl with black hair, a slender figure, and an unearthly temperament . She is much more beautiful and enchanting than the Five Fairies famous in Cloud Province .

Proud as they are, the Glorious Sun Seven Stars and the former Moonlight Seven Stars formed small circles with one other, exuding an air of rejection to other people .

When Yang Feng boarded the giant airship, the Glorious Sun Warlocks have already discovered him . Besides Nangong Wumie and Bai Yuxian, none of the other Glorious Sun Seven Stars and former Moonlight Warlock Seven Stars approached Yang Feng .

A middle-aged man wearing a green Warlock robe and exuding a scholarly air slowly walked onto a platform .

When the middle-aged man came to the platform, he unleashed Infinity Warlock rank fluctuations of power .

Everyone on the giant airship quieted down and looked at the middle-aged man .

Feeling great danger from the middle-aged man, Yang Feng focused his gaze on him .

The middle-aged man glanced at the more than 70 Glorious Sun Warlocks and grinned, saying: “I am An Lei, the guardian in charge of taking you to Sun God Shrine! I will take you to a channel leading to Sun God Shrine . I would like to remind you that there are many dangers in Sun God Shrine . Additionally, there will be powerhouses from numerous planes there fighting for Sun God Fire . Every time Sun God Shrine opens, the number of people who come back is less than one-tenth! If you don’t want to die, you can still leave now!”

There are many dangers in Sun God Shrine, and there will be powerhouses of numerous planes entering Sun God Shrine for different reasons . Because of this, only 70 plus Glorious Sun Warlocks are going into Sun God Shrine . The number is this low because Great Cloud Dynasty restricted the number of Glorious Sun Warlocks who can enter Sun God Shrine on one hand, and many Glorious Sun Warlocks are unwilling to enter Sun God Shrine and risk their life on the other hand .

In fact, even if you don’t absorb Sun God Fire, but with the various secret methods developed by human Warlocks, you can still practice cultivation to the Bright Word Warlock and Infinity Warlock realms .

Within Great Cloud Dynasty, experts who have advanced to Infinity Warlocks without absorbing Sun God Fire account for more than 90% of powerhouses .

The Glorious Sun Warlocks who choose to enter Sun God Shrine to absorb Sun God Fire are peerless geniuses with great confidence . They brave this danger for the sake of getting a faint chance of advancing to the Warlock Emperor realm .

It is extremely difficult to promote to a Warlock Emperor . You must reach a virtually perfect state in every realm and have a solid foundation .

An Lei uttered with a grin: “Since no one wants to leave, then let’s go!”

The runes on the giant airship lit up, countless lights shone, and the huge airship fluttered and turned into a resplendent ray flying into the sky

Getting faster and faster, the huge airship suddenly blurred and flew directly into a distorted channel .

Yang Feng looked at the distorted channel and said slowly: “This is the legendary astral channel . In Astral Boundary spanning through countless planes, you can find special channels that you can use to travel freely in the vast sea of stars . ”

Chapter 686 – Sun God Shrine

After flying for one day and one night in the distorted channel, a huge hole appeared at the end of the channel. The giant airship flew out of the hole, and a huge astral body appeared before everyone’s eyes.

The giant airship flashed and turned into a stream of light flying towards the huge astral body.

There is a very powerful barrier around the huge astral body.

The giant airship knocked into the membrane-like barrier. Countless runes shone, and the giant airship crossed the barrier and landed on an airship port.

Not far from the airship port, there is a 1,000-meter-tall crimson gate engraved with countless mysterious runes. Around the crimson gate, there are 9 nine-story-tall Warlock towers erected. The 9 nine-story-tall Warlock towers have activated the powerful barrier guarding the astral body.

An Lei led the Glorious Sun Warlocks to the crimson gate, and then uttered flatly: "Since you all have a token to enter Sun God Shrine, you can go in! Remember, you can stay in there for 48 days. After that, the token you have will teleport you back here. Make sure that the token is not destroyed. Otherwise, you might have to stay in Sun God Temple and wait for the next time it opens."

The 70 plus Glorious Sun Warlocks coming from various forces of Great Cloud Dynasty took out a palm-sized token each. The nine suns engraved on the token shone brightly and pulled them into streams of light that entered the crimson gate.

Ripples set off on the crimson gate, a vast aura apparently capable of burning everything emerged from the crimson gate, and wisps of powerful spatial law surrounded and engulfed the Glorious Sun Warlocks.

A sense of vertigo assaulted his mind. When Yang Feng came back to his senses, he found that he is already in a strange space.

In this strange space, everywhere is filled with fire elemental particles, and the temperature is above 3,000 °C. Everywhere you look, you can see magma flowing, flames burning, and poisonous smoke rising.

Yang Feng glanced at Sun God Shrine and frowned slightly: "This is Sun God Shrine! It is not a place where humans can live! Only Sun Gods can live in this forsaken place!"

With a temperature of 3,000 °C, even if it is Starry Sky Warlock rank powerhouses, very few can stay in such a place for a long period of time without resorting to secret treasures.

Even if it is Glorious Sun Warlocks, except for those proficient in the law of fire, the rest will feel uncomfortable in such an environment. After all, in such an environment, their life force field will be consumed at all times.

Bright lights shone as the Glorious Sun Warlocks cast secret methods and flew away.

Nangong Wumie smiled at Yang Feng, cast a secret method, and turned into a stream of light shooting away: "Lei Ming, I will go ahead first!"

Bai Yuxian smiled sweetly at Yang Feng and turned into a stream of light shooting away: "Young Master Lei, I'm going as well!"

Each Glorious Sun Warlock who enters Sun God Shrine is a genius among geniuses confident in themselves. In addition to the Sun God Fire, there are countless outstanding treasures born in Sun God Shrine.

Legend has it that in the deepest part of Sun God Shrine, there are ancient treasures left by the Sun Emperor.

Archgods of the archgod era had many powerful secret treasures. Those secret treasures are not secret treasures refined by archgods, but are magical treasures with all kinds of extraordinary powers naturally born in the world. Because of the materials they are made of, the ancient secret treasure used by archgods are far more formidable than Warlock secret treasures. Moreover, many ancient secret treasures are themselves top alchemy materials, which is why they are sought after by countless people.

In modern times, the ancient secret treasures from the archgod age are very scarce. Once these ancient secret treasures emerge, they will be contested by various forces, and then processed by top Alchemist. In the world of Warlocks, the primary materials of many Empyrean secret treasures are ancient secret treasures from the archgod age.

It is because of this legend that many Glorious Sun Warlocks enter Sun God Shrine. These Glorious Sun Warlocks are all geniuses very confident in themselves. Naturally unwilling to share the treasures they find with other people, they choose to act alone.

Yang Feng looked around, and then blurred into motion, flew 10,000 meters away, and landed in a valley, where he set up a strong barrier, and then took out a top grade warp gate, set it up, and operated it.

Light shone, and the top grade warp gate rippled and opened.

4th generation battle robot immediately walked over from the other side of the warp gate.

Yang Feng showed a smile of excitement: "Success! My deduction was correct! When it is closed, Sun God Shrine is completely sealed off, and the warp gate cannot be opened. But now that Sun God Shrine is opened, it means that my mechanical legions can be fully transported through the warp gate!"

As long as the mechanical legions are transported over, no matter which plane the other Glorious Sun Warlocks come from, they will be eliminated by Yang Feng.

Although Yang Feng believes that he is one of the strongest individuals among Warlocks of the same rank. However, he is cautious by nature. If he can make sure that he prevails, he doesn't mind using the battle robots.

Glorious Sun Warlocks who enter Sun God Shrine are geniuses from different planes, who knows what sort of trump cards and strange spells they have. A moment of carelessness can spell out death.

When the Nine Realms Lord was rampant in the world, he didn't put the Star Lord in his eyes. In the end, however, it was the Star Lord who had the last laugh and quelled the Nine Realms Lord. This is what happens to those who are careless.

Countless robots walked out of the warp gate and rapidly transformed into various instruments such as power plants, munitions factories, an optical computer, and so on.

That small valley was quickly converted into a large base.

Flame-resistant micro drones flew out of the large base and spread in all directions.

In the large base, the level-4 optical computer shone and carried out calculations. Wherever the micro drones flew by, everything was recorded and reconstructed into holographic projections in front of Yang Feng.

Within Sun God Shrine, you can see sun-like spheres of light every 1,000 meters. Those spheres of light are Sun God Fire formed by absorbing the surrounding fire elemental particles in Sun God Shrine.

In the archgod age, when Sun Gods reached adulthood, they would enter Sun God Shrine to look for Sun God Fire to absorb and obtain greater power.

The temperature on the surface of Sun God Fires is more than 7,000 °C, while inside is more than 10 million °C. Even Glorious Sun Warlocks need to use special secret methods to absorb Sun God Fires and make them their own. In a moment of carelessness, once Sun God Fire explodes, even a Bright World Warlock rank powerhouse can be burned to ashes.

“These Sun God Fires are not good enough. Since I came to Sun God Shrine, I will absorb the strongest Sun God Fires!”

Yang Feng looked at Sun God Fires floating in the air, raised his eyebrows, and chose not to absorb them. Instead he sent more drones.

At this moment, Yang Feng’s arm twitched slightly, and a palm-sized Six-winged Sun-devouring Centipede crawled out of his hand and transmitted a strange signal.

Nurtured by the resources provided by Li Gui Province, the Six-winged Sun-devouring Centipede has already evolved into its mature state. It already possesses a Glorious Sun Warlock cultivation base.

Yang Feng said with a smile: “You want to devour those Sun God Fires to continue to evolve! Okay! Go ahead and evolve freely!”

The Six-winged Sun-devouring Centipede transmitted its elation, issued a cry, and immediately flew away.

A ray of light shone in the base, and a holographic projection of the Six-winged Sun-devouring Centipede appeared.

It showed the Six-winged Sun-devouring Centipede quickly appear before a small sun. It’s figure fluttered, and it turned into an eight-meter-long centipede with six insect wings. Next it opened its mouth, and golden light enveloped the small sun.

That small sun was swallowed by the Six-winged Sun-devouring Centipede. After that, a sun-like pattern emerged on the body of the Six-winged Sun-devouring Centipede.

The appetite of the Six-winged Sun-devouring Centipede is evidently large. It blurred into motion and flew towards another small sun.

Watching the Six-winged Sun-devouring Centipede continue to devour one small sun after another, Yang Feng sighed in his heart: “The talent and abilities of other races are much more impressive than those of humans!”

Unlike the Six-winged Sun-devouring Centipede who can continuously devour the small suns, Yang Feng can only absorb nine suns and send them into the nine worlds inside him. If he absorbs weak suns, it will adversely affect his worlds. In the future, it will require him hundreds of times or thousands of times as much resources for him to lay a good foundation.

Before long, 100,000 micro drones with a heat resistance of up to 1 million °C appeared in Sun God Shrine, flew to different places, and recorded the outline of the terrain in Sun God Shrine.

“Found it!”

Staring at the information listed in the holographic projection and the analysis of the level-4 optical computer, Yang Feng’s eyes suddenly lit up. His figure flickered, and he turned into a stream of light shooting away.

After a while, a huge sun emitting endless light and heat appeared in front of Yang Feng.

Chapter 687 – Eliminating Shang Zizhen

“This sun is good, it suits my Swallowing Suns Ripping Sky Secret Method well! Young fellow, get lost! Or else die!”

A handsome young man with his hair worn in a bun, an otherworldly temperament, and an arrogant expression, dressed in white refined clothing, materialized from a blur, strangely appeared before the huge sun, and looked at Yang Feng with pride in his eyes.

Yang Feng glanced at the young man and said in a cold voice: “This sun is indeed very good, I also fancy it! Scram! Or else die!”

The young man uttered coldly: “Pigheaded fellow, I am Magic Note’s Shang Zizhan! What about you?”

Yang Feng responded: “Undying Mountain’s Lei Ming!”

“Undying Mountain’s Lei Ming? Let me teach you a lesson. It is best not to answer the enemy’s questions, otherwise it might lead to following...!”

Shang Zizhen showed a strange smile, and countless runes condensed in his hand into a golem engraved with countless runes that looks exactly like Yang Feng.

Shang Zizhen squeezed the golem that looks exactly the same as Yang Feng hard, and the golem exploded.

A strange, invisible force swept towards Yang Feng along an incredible law, as if to devour him instantly.

“Fate Algorithm!”

Countless queer runes welled up inside Yang Feng’s eyes, and fate force oozed out of his body, distorted the strange force, and returned it back to Shang Zizhen.

A look of shock on his face, Shang Zizhen burst into countless pieces of flesh with a pop, which in turn shot towards Yang Feng as if they have a life of their own.

Yang Feng took a level-7 secret treasure Vulcan Scepter and pointed with it. Suddenly, violent purple flames emerged, devoured the surrounding fire force, and formed a purple sea of fire that incinerated and purified all of Shang Zizhen’s flesh.

Yang Feng glanced at an empty place and said indifferently: "Come out! I know you're not dead! This little trick is useless against me!"

There was a twist in that empty space, and Shang Zizhen came out into the open and glanced at Yang Feng with a gloomy look in his eyes: "What spell is that? My secret method should have been foolproof."

"Die!"

An indifferent expression on his face, Yang Feng took a step forward and appeared in front of Shang Zizhen with a blur. With a flick of his wrist, a level-7 secret treasure Devouring Sword suddenly appeared in his hand, and he slashed out. Small black holes seemingly capable of devouring everything emerged and swept towards Shang Zizhen.

"You're underestimating me! Wretched Lei Ming, let me show you my true power! Sun Morph!"

With a ferocious look in his eyes, Shang Zizhen roared. Wisps of world force frantically poured out of him, countless runes flickered on him, and he transformed into a huge sun and shot towards Yang Feng.

An impact from the huge sun can easily destroy a celestial body. This is the essence of Sun Morph.

Shang Zizhen felt a huge threat coming from Yang Feng, which is why employed his most powerful secret method.

"Interesting! Essence of devour!"

An enigmatic gleam in his eyes, Yang Feng smiled and operated the essence of devour, and an abstruse Devour Black Moon that seems capable of devouring all light suddenly appeared.

The Devour Black Moon erupted with a frenzied attractive force and forcibly engulfed the huge sun Shang Zizhen has incarnated into.

The huge sun Shang Zizhen has incarnated unleashed a heat that rose to 9 million °C. Swept by this heat, even a Bright World Warlock would be wounded and might even incur serious damage.

The Devour Black Moon devoured the light and heat like a huge black hole. No matter how the huge sun Shang Zizhen has incarnated into struggles, his power was devoured by the Devour Black Moon.

The endless power flowed out of the Devour Black Moon, entered Yang Feng's body, and poured into the nine worlds and nourished them.

"My power! You absorbed my power! Spare my life, let me go! I admit I was in the wrong! I won't come near you ever again! Spare me, let me go! I beg you! Lei Ming!"

Shang Zizhen's screams and pleading came from the Devour Black Moon. A greater part of the power inside him was already devoured by the Devour Black Moon, which harmed his Glorious Sun Warlock foundation. The most terrifying thing is that he can't even escape.

Yang Feng just looked on with a sneer. After a dozen plus breaths of time, Shang Zizhen's power was fully devoured by the Devour Black Moon. Only some ashes sprinkled down from the midair.

“The essence of devour has great power. However, it even devoured and destroyed this guy’s Glorious Sun Core and storage secret treasures, which is a pity!”

Yang Feng glanced at the huge sun, silently recited an incantation, and pointed with a finger, and countless black runes flew out of his finger, formed a giant black net, and shot towards the huge sun.

Engulfed by the black net, the huge sun shrank until it eventually was the size of a fist, and then flew into Yang Feng’s body and entered his first world.

When the huge sun entered Yang Feng’s first world, endless sunlight sprinkled onto the ground, and the extraordinary plants on the ground absorbed the sunlight and their vitality increased.

When the sun emerged, as if a certain rule of the first world inside Yang Feng was met, the land rumbled and shook and extended by thousands of meters.

After absorbing the sun, Yang Feng continued to travel throughout Sun God Shrine. With the reconnaissance of the 100,000 micro drones, most of Sun God Shrine’s topography was investigated, enabling him to know clearly which place has Sun God Fire suitable for him.

In just three days, Yang Feng killed seven Glorious Sun Warlocks from other planes and absorbed nine suns. With the nine suns, the nine worlds inside him entered a perfect state.

Feeling the changes inside him, satisfaction streaked across Yang Feng’s eyes: “Not bad. In my current state, when I return to Cangzhi Plane, I can begin my breakthrough to a Bright World Warlock! Sun God Shrine deserves its reputation. It’s a pity that Moon God Shrine is not under the control of humans, or else if I absorbed moonlight force while in the Moonlight Warlock rank, my foundation would be even more perfect!”

Moon God Shrine is a shrine from the archgod age that belonged to the Warlock Emperor rank powerhouse Moon Emperor who once proclaimed himself a hegemon in Cangzhi Plane. The Moon Emperor is one of the less than five female Warlock Emperor rank powerhouses recorded in the history of Cangzhi Plane.

During the Moon Emperor era, there were three other Warlock Emperor rank powerhouses. But all of them were defeated by the Moon Emperor in a fair fight, and they finally accepted Moon Emperor as their lord.

At that time, when the Time Lord was being chased as a Starry Sky Warlock, he snuck into Moon God Shrine, absorbed moonlight force, and finally broke through and advanced to a Moonlight Warlock. It is due to this that the realm immediately after the Starry Sky Warlock realm was named Moonlight Warlock realm.

But after the collapse of the 3rd Warlock Dynasty Transcendent Dynasty, Moon God Shrine disappeared. Of course by that time human Warlocks have already developed countless secret methods to substitute Moon God Shrine. So even though Moon God Shrine disappeared, it didn’t affect the evolution of human Warlocks.

However, for those Warlock geniuses who pursue perfection and have their sights set on the Warlock Emperor realm, the disappearance of Moon God Shrine is a regrettable thing.

If you can fully integrate Moon God Shrine's moonlight force and Sun God Shrine's sun force in a world inside you, you'll be able to form a perfect cycle of yin and yang [1] force.

Although human Warlocks have found alternative forces, but they are still slightly inferior to Moon God Shrine's moonlight force.

As Yang Feng refined the suns inside him, countless level-4 Sealers joined hands to unleash sealing light and seal the suns in the sky, and then dragged them back to the base and sent them to Andrak Plane.

Each of the small suns evolved from Sun God Fire in Sun God Shrine is a huge energy source. For Yang Feng, they are the best energy storage.

The energy contained in each small sun is equivalent to the energy generated by all power plants within Yang Feng's sphere of influence for 10 years.

Yang Feng glanced at a holographic projection and couldn't help but praise: "The Six-winged Sun-devouring Centipede is really like a fish back in water, it has already devoured 72 suns! That's simply terrific!"

Under the guidance of the level-4 optical computer, the Six-winged Sun-devouring Centipede devoured one sun after another. Every time it devours a sun, a sun-like imprint appears on its carapace and its aura turns fiercer. If not for the suppression of Sun God Shrine's barrier, the Six-winged Sun-devouring Centipede might have already evolved to the Bright World Warlock rank.

At this moment, in the center of the Sun God Shrine, a radiant beam of light rose abruptly. In the center of the beam of light, a magical flower with nine petals and four green leaves engraved with natural runes slowly blossomed.

The entire Sun God Shrine shook slightly, and the small suns turned into streams of light, flew towards the magical flower in the center of the beam, merged into the magical flower, and became the flower's nutrients.

Chapter 688 – Sun God Empyrean Flower

"That's the Sun God Empyrean Flower, a miraculous treasure born from the essence of countless suns! By ingesting the entire Sun God Empyrean Flower, you might be able to break through the god-man boundary, which will propel your soul aptitude to inferior level-9 from superior level-8!"

Yang Feng looked at the magical flower in the center of the beam of light with a fanatic look in his eyes, then his figure fluttered, and he turned into a stream of light shooting in the direction of the Sun God Empyrean Flower.

Miraculous treasures that can enable people to break through the heaven-man boundary are beyond rare in Cangzhi Plane. As for miraculous treasures that can enable people to break through the god-man boundary, they are as rare as a Phoenix's feather.

The Sun God Empyrean Flower takes more than 50,000 years to form in a special environment. Once born, it will attract countless people to compete over it.

“Sun God Empyrean Flower!”

“That’s the Sun God Empyrean Flower, a wondrous treasure that can break through the god-man boundary!”

“To be able to see such a rare treasure like the Sun God Empyrean Flower, I’m really lucky!”

“...”

Inside Sun God Shrine, outrageous geniuses from different planes gazed at the sudden appearance of the Sun God Empyrean Flower with excitement in their eyes. They blurred into motion and turned into streams of light shooting towards the Sun God Empyrean Flower.

The Sun God Empyrean Flower is located in the center of Sun God Shrine. This is the place where the Sun Emperor used to live, and it is the most dangerous place in Sun God Shrine.

In the past, no one would approach this dangerous place. But under the attraction of the Sun God Empyrean Flower, these Glorious Sun Warlock geniuses coming from different planes turned into streams of light and flew towards the center of Sun God Shrine.

A male Warlock shrouded in flames, wearing a blue Warlock robe and a necklace radiating light, quickly flew to the edge of the center of Sun God Shrine.

At the edge of the center of Sun God Shrine, you can clearly see that the center is littered with large caves similar to giant nests.

Around the large caves, there are fierce stone statues engraved with special runes. The stone statues depict fiends, devils, high elves, dragons, Fenghuangs, and various other powerful existences.

The male Warlock had just approached, when numerous runes appeared on a 1,000 meter-tall stone statue depicting a giant, the petrification effect on the giant disappeared in an instant, and it opened its eyes. It radiated red light from its eyes and exuded tyrannical Glorious Sun Warlock rank fluctuations of power.

The stone statue of a giant stepped forward, grabbed a wolf tooth club with teeth as large as small mountains beside it, and slammed the wolf tooth club towards the male Warlock.

“A mere giant from ancient times wants to fight me, you’re overestimating yourself!”

The male Glorious Sun Warlock snorted coldly, his figure blurred, and he entered an alternate space.

Only if you use a spatial disruption spell, or the essence of power of the law of power to smash the space, can you attack the male Glorious Sun Warlock in the alternate space.

As if it hit empty air, the wolf tooth club passed through the male Glorious Sun Warlock, hit the ground, and blasted open a huge hole.

At the moment when the male Glorious Sun Warlock sneered, a pal-sized Four-winged Void Lizard emerged in the alternate space and bit the male Glorious Sun Warlock in the foot.

Black aura suddenly rose from the male Glorious Sun Warlock’s foot and spread quickly.

The Glorious Sun Warlock's necklace suddenly lit up, and green light enveloped him and stopped the black aura at his lower body.

Whoosh!

A Sun God Arrow tore through the void, crossed the alternate space, and instantly shot the Glorious Sun Warlock in the head and blasted his head apart.

The body of the Glorious Sun Warlocks suddenly shattered like paper, and then an afterimage appeared 1,000 meters away and changed into the Glorious Sun Warlock's true body.

The Glorious Sun Warlock has just become corporeal, when a dreadful dragon breath blasted into him. The dragon breath that can burn anything engulfed his flesh and soul.

Suddenly, a bead shattered, and the Glorious Sun Warlock collapsed, and then reappeared more than 10 kilometres away.

The Glorious Sun Warlock had just escaped, when he saw dozens of fearsome existences exuding Glorious Sun Warlock rank fluctuations of power rushing towards him. Various attacks blasted into the Glorious Sun Warlock and shattered him to pieces again.

Relying on one secret treasure after another, the Glorious Sun Warlock escaped seven times from the dozens of ancient freaks before finally being torn to pieces.

On their own, these ancient freaks are no match for that Glorious Sun Warlock. But when faced against dozens of them who have different extraordinary powers attacking together, the formidable Glorious Sun Warlock genius could not resist.

When that human Warlock was torn apart, a black cave opened and swallowed his flesh, soul, and Glorious Sun Core.

Shortly after, a lifelike stone statue of the human Warlock slowly formed in the center of Sun God Shrine. At the same time, the stone statue absorbed the surrounding sun force.

When the human Glorious Sun Warlock died, as if some mechanism was activated, the stone statues in the center of Sun God Shrine shone with runes and came to life.

The figures of those ancient freaks that appear to have woken up from their sleep flashed, and they hid in the nest-like caves in the center of Sun God Shrine.

Whenever anyone approaches their nest, these ancient freaks will attack and eliminate the enemy one by one.

"These ancient freaks possess Glorious Sun Warlock rank battle prowess. Against dozens of them joining forces, even a freak-level Glorious Sun Warlock who has formed a small world inside them may not be their opponent!"

Yang Feng sent 50,000 drones towards the center of Sun God Shrine, and saw the ancient freaks madly fighting with Glorious Sun Warlock rank powerhouses who entered the center of Sun God Shrine.

In addition to human Warlocks, there are many powerful existences capable of using Sun God Fire that entered Sun God Shrine. After a cursory analysis, Yang Feng found out that 15 gods who have the divine authority of Sun God are fighting with those ancient freaks.

The promotion of gods can be described as both very simple and very difficult. If a god can consume the godhead of a higher-level god with the same divine authority, they can easily evolve and become a higher-level god. However, it is very difficult to increase the level of the godhead through other methods.

Many feeble divine force rank gods spend tens of thousands or even more than 100,000 years without being able to promote to a higher level. This is the limitation of gods.

In Sun God Shrine, if these Sun Gods can consume enough Sun God Fire, they may be able to comprehend a higher-level law of the sun and raise the level of their godhead to intermediate divine force grade. This will greatly improve their position in their respective pantheons.

Additionally, intermediate divine force rank gods are qualification to establish their own small pantheon and become the primary god of said pantheon.

The primary god of dark elves Lolth is just an intermediate divine force rank god. Even so, she has grasped the belief of the dark elves spread across countless planes and has become a revered existence. Even human Infinity Warlocks will treat an intermediate divine force rank god as an equal. After all, as long as the intermediate divine force rank god stays in their divine country, then even human Infinity Warlocks will die when they enter their divine country.

The number of the ancient freaks is far greater than that of powerhouses who entered Sun God Shrine. Under the siege of the ancient freaks, one powerhouse after another died.

“That’s Ba Xun, Lan Ba, Jiang Qi!”

Yang Feng glanced at a holographic projection, and saw the three outrageous geniuses contend against freaks at the edge of the center of Sun God Shrine.

Standing on the head of a 500-meter-tall Diamond Giant, Ba Xun’s figure alternates between corporeal and incorporeal. Whenever his figure turns corporeal, he will destroy the core of an ancient freak and kill them.

Jiang Qi wanders among the ancient freaks, his body enveloped by a mist-like gauze. As if blind, the ancient freaks don’t notice him.

Lan Ba is riding a carriage pulled by a Three-headed Golden Dragon. Standing in front of him are nine giant ogres from Evil God Plane exuding a fierce aura.

The nine giant ogres are all equipped with secret treasures exclusive to giant ogres. They roared wildly, channeled powerful ogre force, and killed the ancient creatures that blocked their way one by one.

At the edge of the center of Sun God Shrine, from among Cangzhi Plane’s human Warlocks, only the three of them seem to be most at ease. The Glorious Seven Stars and former Moonlight Seven Stars channel the power of the virtual world inside them, perform powerful offensive secret methods, and

eliminate the ancient creatures one by one. The rest of Cangzhi Plane's human Warlocks struggle to fight the ancient creatures.

Chapter 689 – Six Great Geniuses

"These few are monsters among monsters! It seems that the peerless experts cultivated by other planes should not be underestimated!"

The holographic projection flashed, and the images from another direction appeared at once. In the other direction, there are three people who are displaying impressive fighting strength.

One of them is a beautiful female Warlock with long black hair, a slender figure, a dragon horn, a crimson trident in hand, a green armor engraved with countless mysterious runes. The beautiful female Warlock blurred and brandished the crimson trident, and a crimson spear ray shot out and slashed an ancient freak into pieces. Effortlessly evading the siege of dozens of ancient freaks, she eliminates them one by one.

Another person has a secret treasure Transcendent Diagram in hand. Dozens of Glorious Sun Warlock rank Transcendents flew out of the Transcendent Diagram, engaged in a fight with dozens of ancient freaks, and tore them to shreds one at a time.

The last person has transformed into an 500-meter-tall archdevil that rather resembles the Fifth Sky Devil Che You. He has three eyes, and is covered in black runes. The black light emitted from his third eye crushed the souls and smashed the cores of ancient freaks.

Ba Xun, Lan Ba, Jiang Qi, and these three powerhouses from other planes crushed the ancient freaks blocking their way and headed towards the Sun God Empyrean Flower.

Despite how strong Ba Xun and them are, they don't dare to fly and withstand the attacks of countless ancient freaks.

"With the ancient freaks guarding here, it seems that the Sun God Empyrean Flower is destined to be mine!"

The corners of Yang Feng's mouth rose slightly, then he blurred, turned into a Devour Black Moon, and flew towards the Sun God Empyrean Flower like a meteor.

As a peerless treasure that can enable you to break through the god-man boundary, the Sun Divine Empyrean Flower is extremely hard to come by. Despite having the resources of Li Gui Province and the treasuries of two kindred archdukes at his disposal, Yang Feng still hasn't come across such a treasure. He cannot miss this chance.

In a few breaths of time, Yang Feng flew into the center of Sun God Shrine.

Dozens of ancient freaks suddenly rushed out of the nests and unleashed various innate abilities and magic attacks flying towards Yang Feng.

When these attacks hit Yang Feng's incarnation the Devour Black Moon, they were crushed and turned into pure energy that entered the nine small worlds inside him.

Showing no signs of slowing down, Yang Feng urged the essence of devour and flew into the center of Sun God Shrine.

“Who is that?”

“What an arrogant guy!”

“Damn it! Judging from his speed, the Sun God Empyrean Flower will fall into his hands!”

“Is that guy crazy? There are more than 1,000 ancient freaks in the center of Sun God Shrine!”

“...”

The geniuses of different planes gathered in Sun God Shrine are freak-level Glorious Sun Warlocks. When Yang Feng took action, they all sensed the change, and their eyes focused on the Devour Black Moon.

Nangong Wumie is entangled with dozens of ancient freaks. Relying on the unpredictable Stars Descend, he dodges the attacks of the dozens of ancient freaks easily. At the same time, he weakens the fighting strength of the ancient freaks step by step.

Nangong Wumie suddenly looked up into the distance, countless star runes shone in his eyes, and he sighed slowly: “This is law materialization! No, it’s the essence of devour! That’s Lei Ming! He’s taking action!”

Nangong Wumie grasps Stars Descend and is a divination grandmaster. He has divined that Sun God Empyrean Flower is a turning point for his fate. If he can get the Sun God Empyrean Flower, he’ll still have a trace of hope of becoming a Warlock Emperor. If he misses this chance, he’ll no longer be eligible to participate in the competition over the position of Warlock Emperor.

At that time when the Star Lord competed with the Nine Realms Lord for the position of Warlock Emperor, there was a critical turning point of fate when he received tremendous benefits and finally climbed to the throne and advanced to a Warlock Emperor rank powerhouse.

“If I use my hidden trump card and fight desperately, how high are my chances of winning? Star Deduction!”

Nangong Wumie silently recited an incantation and pointed with a finger, and countless specks of starlight shone and formed all kinds of weird runes. Those weird runes suddenly turned into numerous twisting lines that only he can understand.

“The odds not even 50%, and if I fail, I will die!”

Nangong Wumie’s face paled and his eyes shimmered for a while before he finally released and long sigh and lost his fighting spirit. He practically has no chance of winning, and if he fails, he will die. This rate of success is too low, pouring cold water on his adventurous heart.

“I’m still too weak!” Nangong Wumie blurred, turned into specks of starlight, and disappeared. He retreated from the center of Sun God Shrine.

Standing on a tall mountain at the edge of the center of Sun God Shrine, Bai Yuxian gazed at Yang Feng from afar with an enigmatic gleam in her beautiful eyes: "That's Lei Ming! To dare to charge into the center of Sun God Shrine, he got guts! What a monster!"

Although Bai Yuxian is also one of the former Moonlight Seven Stars, a genius among geniuses. But she has just promoted to a Glorious Sun Warlock after all. She stands no chance against the siege of dozens of Glorious Sun Warlock rank ancient freaks. After weighing things over and over, she chose to watch from the sidelines.

In addition Bai Yuxian, many other Glorious Sun Warlocks chose to withdraw from the center of Sun God Shrine, watching the goings-on from outside.

"Fuck, someone acted first! It seems that I can't continue to conserve my strength!"

There was a flash of cold light in Ba Xun's eyes, and tremendous world force emerged from his body. He operated the essence of ice and turned into a stream of blue light shooting towards the Sun God Empyrean Flower.

When the attacks of the ancient freaks reached Ba Xun, they froze, and then strangely floated in the air, shattered, and disappeared.

"They got serious! I can't let them leave me in the dust!"

Jiang Qi wandering between the ancient freaks undetected. However, his movement speed isn't fast. After all, those ancient freaks are extremely powerful, and some of them can even break his secret method. After he sensed the movement of Yang Feng and Ba Xun, he unleashed the essence of illusion, turned into a being that exists in the crack between illusory and real, and flew in the direction of the Sun God Empyrean Flower.

"Really! It seems that I have to step up!"

A cold gleam in his eyes, Lan Ba stood up and surged with quasi-Glorious Sun Warlock rank life force field. He turned over his hand, and a black level-9 secret treasure Evil Ogre Dragon Armor inlaid with an Infinity Warlock rank evil ogre core appeared on his body.

Lan Ba's figure fluttered, and he turned into a ray of black ray shooting towards the Sun God Empyrean Flower.

When the spells of the ancient freaks blasted into Lan Ba, they were shattered by ogre qi enveloping the Evil Ogre Armor.

The innate abilities of some ancient freaks have broken through the Evil Ogre Dragon Armor's ogre qi and blasted onto the Evil Ogre Dragon Armor itself. Only trembling slightly, the Evil Ogre Dragon Armor absorbed 70% of the force. The remaining 30% of the force can't even shake Lan Ba.

"Scoundrels! The Sun God Empyrean Flower is mine!"

The eyes of the beautiful girl with a dragon horn flashed fiercely, and then suddenly turned into dragon-like vertical slits eyes. Countless gold dragon scales covered her delicate body. Her figure blurred, and she turned a dragon-like existence and rushed towards the center of Sun God Shrine.

Spear rays flashed, and the ancient freaks standing in front of the beautiful girl with a dragon horn were easily chopped into pieces.

These ancient freaks have lost most of their mental faculties due to being sealed for too long. However, they do have Glorious Sun Warlock rank power and very powerful physiques. For the beautiful girl with a dragon horn to be able to slay them easily, it is incredible.

“An abominable bunch of lunatics!”

The Warlock holding the secret treasure Transcendent Diagram frowned, then silently recited an incantation and pointed with his hand, and Transcendents specialized in defense flew out of the Transcendent Diagram, formed a powerful barrier, and guarded him who turned into a stream of light flying into the distance.

The Warlock who has turned into an archdevil that looks similar to the Sky Devil Che screamed, and a pair of huge fiend wings grew on his back. With a flap of the wings, he turned into a black stream of light shooting towards the Sun God Empyrean Flower.

When Yang Feng reached the centermost part of Sun God Shrine, he saw a 100,000-meter-tall temple in front of him.

Only, half of the magnificent temple seems to have been wiped out by some immense power, with only the intact half towering into the sky.

There are countless giant stone statues around the huge temple, many of which exude fluctuations of power above the Infinity Warlock rank. But they are all fragmented, with only a bit of residual power left behind.

Chapter 690 – Complete Suppression

Yang Feng looked at the temple with half of it erased, and he recalled a piece of history of the Sun Gods.

The Sun Emperor was an invincible figure when he was alive. In his later years, in order to enable the Sun Gods to dominate the world, he sneak attacked the remaining few Warlock Emperor rank powerhouses and slayed them.

After the Sun Emperor reached the end of his life, the still arrogant and domineering Sun Gods became hostile with many archgods. In the end, countless archgods joined forces to fight the Sun Gods.

In the early days of the war, the Sun Gods possessing Empyrean grade secret treasures the Sun Emperor refined from the other few Warlock Emperor rank powerhouses quelled and eliminated countless enemy archgods.

However, in the later days of the war, a peerless genius was born from among the many enemy archgods. After advancing to a Warlock Emperor rank powerhouse, he led countless archgods to attack Sun God Shrine and wipe out the Sun Gods completely.

In the central area of Sun God Shrine, there are wreckages everywhere. Although there are no guards here, but the place contains far more danger than the outside world.

In the central area of Sun God Shrine, there are various traces Holy Spirit Warlock rank power, and even Warlock Emperor rank power. Warlock Emperor rank powerhouses already possess a trace of eternal immortality. Unless they are erased by power of the same rank, traces of their power won't vanish even after hundreds of thousands of years.

Sun God Shrine is filled with sun force, which serves as a source of power for the traces of Warlock Emperor rank power.

Even if it is an Infinity Warlock, but once the traces of Warlock Emperor rank power get stimulated, the Infinity Warlock will be seriously injured, or even wiped out. Only Holy Spirit Warlock rank powerhouses can resist the attack of traces of Warlock Emperor rank power.

“Transcendent Pupils!”

Numerous strange runes appeared in Yang Feng's eyes and formed a pair of gold Transcendent Pupils, and he looked towards the central place.

All traces of Holy Spirit Warlock and Warlock Emperor rank power appeared before Yang Feng's eyes.

If you use Transcendent Pupils to study the Holy Spirit Warlock and Warlock Emperor rank power, it would be of great benefit to an expert with Glorious Sun Warlock rank cultivation base.

Yang Feng's figure fluttered. He turned into a stream of light, entered the central area, and flew around these traces of power.

After dozens of breaths of time, a Sun Pool appeared in front of Yang Feng.

Sun God Fires float in the Sun Pool. From time to time, a small sun would form and fly outside.

The Sun Pool is the most famous secret treasure of the Sun Gods, and it is integrated with the entire Sun God Shrine. In this special space, it can absorb the sun force and bear Sun God Fires.

In the past, adult Sun Gods would possess Glorious Sun Warlock rank power or higher after absorbing Sun God Fires. This is how they were able to quell many archgod races in Cangzhi Plane.

Above the Sun Pool, there floats the beyond rare and precious treasure Sun God Emyrean Flower.

“It turns out that this Sun Pool is a vessel for cultivating Sun God Emyrean Flowers. There is a barrier set up by a Warlock Emperor rank powerhouse here. Unless a powerhouse of the same rank takes action, you cannot damage this Sun Pool.”

Yang Feng glanced at the Sun Pool and sensed a strong barrier covering it. His figure fluttered, and he appeared before the Sun God Emyrean Flower in an instant.

“You dare to have designs on what has caught my eye right in front of me, go to hell!”

All of a sudden, there was a flash of coldness in Yang Feng's eyes, countless runes appeared on his right fist, and he punched at an empty space.

Under the bombardment of his fist, the void distorted and collapsed.

Enveloped by that force, a Glorious Sun Warlock suddenly appeared, and then instantly exploded into countless pieces of flesh that crumbled inch by inch, leaving only a Glorious Sun Core that fell to the ground.

“So strong!”

“Who is he?”

“Who is this human Warlock? How can he be this strong?”

“Undying Mountain’s Lei Ming, why is he so powerful? Even though he defeated Nangong Wumie, but isn’t this too much?”

“This Undying Mountain’s Lei Ming is a terrible monster!”

“...”

Outside the center of Sun God Shrine, Glorious Sun Warlocks observing the goings on over here are stunned, unable to believe their eyes.

Each Glorious Sun Warlock who dared to enter Sun God Shrine is a genius among geniuses far stronger than others of the same rank. Although these Glorious Sun Warlocks may not be able to defeat monster-level geniuses such as Great Cloud Dynasty’s Glorious Sun Seven Stars, but they are not ants who can be instakilled by the others.

A flash of shock in his eyes, Nangong Wumie sighed faintly: “So strong! Lei Ming, he is actually this strong! It seems that even if I use all my cards, I am not his opponent!”

Bai Yuxian looked at Yang Feng with a resplendent shimmer in her pretty eyes and mused: “Amazing! Undying Mountain’s Lei Ming, he’s really amazing! How shocking! He should be the most outstanding genius of his generation in Undying Mountain, the man who is expected to take charge of the entire Undying Mountain!”

After slaying a Glorious Sun Warlock genius with a punch, Yang Feng grabbed the Sun God Empyrean Flower in midair, put it in a jade box, and sealed it.

Once the Sun God Empyrean Flower is ingested, Yang Feng will break through the god-man boundary, and his soul aptitude will promote to inferior level-9.

If you want to refine the Sun God Empyrean Flower’s medicinal power, you need a place where you won’t be disturbed. If Yang Feng consumes the Sun God Empyrean Flower here, he’ll become the prey of other Glorious Sun Warlocks.

Human Warlocks are proficient in countless abstruse and mysteries secret methods. If they capture Yang Feng who has just consumed the Sun God Empyrean Flower, they can refine him into an elixir.

“They’re here? That’s fast, no wonder they are peerless genius!”

Yang Feng put the Sun God Empyrean Flower in a storage ring and, standing proudly in the air, looked at the people who have just arrived like a god.

Ba Xun, Jiang Qi, Lan Ba, and the other three monster-level Glorious Sun Warlocks who have arrived at the Sun Pool are staring coldly at Yang Feng.

Ba Xun looked at Yang Feng with killing intent in his eyes and said coldly: “Lei Ming, hand over the Sun God Empyrean Flower! I can let you go for the sake of Undying Mountain’s face! Otherwise don’t blame me for playing rough!”

In Great Cloud Dynasty, Undying Mountain is already well-known in the top powerhouse circle. Everyone already knows that it is a formidable force that has an Infinity Warlock rank powerhouse, occupies Li Gui Province, and is proficient in alchemy.

Even Great Cloud Dynasty is a bit apprehensive of Undying Mountain occupying Li Gui Province, and thus sent people to rope them in. Ba Xun is also unwilling to offend Undying Mountain’s Young Ancestor for no reason.

Although Ba Xun can barely contend against some weak Bright World Warlocks, but he still cannot withstand a single blow from an Infinity Warlock rank powerhouse.

Yang Feng smiled and said: “The miraculous treasure Sun God Empyrean Flower, I can’t give it to anyone! You’ll have to fight with me for it! Come at me together, let me test how strong I have become.”

“You’re overestimating yourself! Let me show you how tall the Heavens are!”

A flash of cold light in his eyes, Ba Xun urged the essence of ice. Blue breath that can easily freeze Sun God Fire and violate various laws emerged.

Everything in the wake of the blue breath was frozen into ice.

In the center of Sun God Shrine, the temperature is above 8,000 degrees. As soon as the blue breath appeared, except for the Sun Pool, snow started falling in the surroundings, and the temperature dropped to below absolute zero.

Even the feeble divine force rank Goddess of Ice would be frozen by this blue breath.

The other five Glorious Sun Warlocks all frowned slightly and cast secret methods to resist the terrifying ice force.

“This guy is very strong!”

When the five Glorious Sun Warlocks felt Ba Xun’s essence of ice, a dignified gleam streaked past their eyes.

Faced with the blue breath that seems to be able to even freeze time, Yang Feng silently chanted an incantation, and a Devour Black Moon suddenly appeared. Standing in the center the Devour Black Moon, it’s as if he is the origin of the universe.

The blue breath blasted into the Devour Black Moon, and then was silently devoured and dispelled.

As if an undefeatable god, Yang Feng standing inside the Devour Black Moon gazed at Ba Xun and said coldly: "Former Moonlight Seven Stars Dubhe Star Ba Xun, is this all you got? If so, then count me disappointed!"

Ba Xun's face fell, and he bellowed through clenched teeth. Tremendous world force poured out of him and turned the blue breath into a blue beam slamming in the Devour Black Moon.

As soon as the blue beam sank into the Devour Black Moon, it was devoured and turned into the purest power that was channeled into the nine worlds inside Yang Feng.

Gazing at the remaining five monster-level geniuses, Yang Feng uttered flatly: "Okay, Ba Xun has already attacked. Who's next? Do you want to come together, or one by one? If you don't defeat me, you can't get the Sun God Empyrean Flower!"

"Incredible! Undying Mountain's Young Master Lei Ming is really incredible!"

"Scary! Ba Xun is a powerhouse who found his own path and condensed the essence of ice. Such a powerhouses cannot even break his defenses, that's really scary!"

"Is he the strongest Glorious Sun Warlock? We're not in the same league!"

"..."

Seeing this scene, the hearts of the Glorious Sun Warlocks watching from afar shook, filled with bitterness.
