

MGE 701

Chapter 701 – Quelling Yu Province’s Five Overlords

“Open your souls! Submit, you two, or die! If not, Black Devil Dragon Serpent and Seven Color Rose Garden will be destroyed because of you!” Yang Feng’s voice full of majesty and cruelty echoed in the area.

“Ha-ha-ha! Who do you think you are! You want me to submit to you, stop dreaming! Even Bai Wuqing cannot make me submit! I am the Dragon Serpent Ancestor, an Infinity Warlock! Unless you are a Warlock Emperor, you can forget about subduing me! Let me go! Otherwise, I’ll go all out and set a curse on your Blazing Angel, making her strength decline. She shall eventually drop to the Glorious Sun Warlock rank!” Coiling around Alexia, the Dragon Serpent Ancestor roared wildly, an unruly smile on his face.

“Then go to hell!”

Alexia showed an enchanting smile, and countless dark sword rays slashed the Dragon Serpent Ancestor attached to her.

Slashed into dozens of parts, the Dragon Serpent Ancestor was blown away from Alexia.

A brilliant beam fired from afar blasted into the Dragon Serpent Ancestor’s flesh and vaporized it.

Taking advantage of the situation, Alexia slashed the Dragon Serpent Ancestor’s Infinity Core and extinguished his soul, and then grabbed his Infinity Core.

After slaying the Dragon Serpent Ancestor, Alexia licked her bright red lips and locked her beautiful eyes shimmering with thick killing intent on the Seven Color Rose Garden’s Garden Master.

Curled up, the ultimate form Six-winged Sun-devouring Centipede blocked the Seven Color Rose Garden’s Garden Master’s escape route.

There was a flash of struggle on the pretty face of the Seven Color Rose Garden’s Garden Master, and then she finally sighed: “I got it! I am willing to open my soul and let you set up a restriction! Our Seven Color Rose Garden will join Undying Mountain! Young Master, we’ll be in your care!”

“Don’t resist!”

Countless black chains pierced the Seven Color Rose Garden’s Garden Master and sealed a large portion of her power. The Seven Color Rose Garden’s Garden Master didn’t resist at all. She knows that once she shows any signs of resistance, only one end will await her.

“Open your soul!”

Upon hearing Yang Feng’s order, the Seven Color Rose Garden’s Garden Master silently recited an incantation, and a flamboyant and magnificent Seven Color Rose projection appeared behind her and released soul aura.

The space twisted, Yang Feng's True God Empyrean Imprint flew out and stopped above the Seven Color Rose Garden's Garden Master's soul, and countless black chains formed from runes pierced into her soul and formed Yang Feng's brand.

"Annihilation mode terminated!"

A mechanically synthesized voice rang in Undying Mountain's territory, and the countless black chains disappeared.

Looking around, the Seven Color Rose Garden's Garden Master saw Warlock remains everywhere. The Warlocks who followed the Five Overlords into Undying Mountain's territory are all dead.

"Skeleton Demon Venerable! He's also dead!"

The eyes of the Seven Color Rose Garden's Garden Master suddenly constricted, and she saw a crimson skeleton tall as a mountain lying on the ground, dead. It has a huge hole in its skull. Its Infinity Core was evidently dug out.

"Everyone is dead!"

"All Warlocks who went in are dead! Is this the strength of Undying Mountain?"

"Except for the Seven Color Rose Garden's Garden Master, everyone is dead!"

"To kill everyone, does Undying Mountain want to be enemies with all of Yu Province's Warlock groups?"

"..."

When the black chains disappeared, the Warlocks spectating from a distance saw the mess in Undying Mountain's territory, saw the Warlock remains littering the ground, and they felt a chill run down their spine.

Although Yu Provinces Five Overlord's are not a match for the Ten Great Sects, but when they join forces, even the Ten Great Sects will be apprehensive.

Yet when the Five Overlords sent their elites to attack Undying Mountain, they couldn't even hold out for a single day before being completely annihilated. This is simply horrifying.

At this moment, the bright beam in Undying Mountain's territory attracting countless laws of heaven and earth gradually faded, and then junior Bright World Warlock rank fluctuations of power spread from Undying Mountain's territory.

"That's the Sun God Empyrean Flower for you! It not only enabled my soul aptitude to break through to inferior level-9, but also enabled me to promote to a Bright World Warlock!"

In the secret room, Yang Feng's true body opened his eyes slowly and, feeling the surging power inside him, raised the corners of his mouth.

According to Yang Feng's calculations, it would take at least thirty years for him to successfully break through to the Bright World Warlock realm.

But with the Sun God Empyrean Flower, Yang Feng easily skipped 30 years and promoted to a Bright World Warlock in one fell swoop. Now he truly stands at the top of the world.

No matter which plane we're talking about, Bright World Warlocks are regarded as top powerhouses. In Feisuo Plane, the intermediate divine force rank Goddess Lolth is already the primary god of the dark elves.

Even in Cangzhi Plane, Bright World Warlocks are first-class powerhouses. They are Great Elders of top sects and hold great authority.

"Next it's the time to attack! To dare attack my Undying Mountain, Yu Province's Warlocks are really brazen! It seems that I need to do some purging and make it clear who Yu Province's master is!"

Killing intent streaked past Yang Feng's eyes, his figure fluttered, and he disappeared from the secret room.

Shortly after, a dense crowd of battle robots and one after another huge battlestars and interstellar carriers flew out of Undying Mountain's territory and headed towards the nearest Warlock group – Heart of Dragon Elephant.

"Those are Undying Mountain's golems!"

"There are so many!"

"Undying Mountain dispatched this many golems! What do they plan to do?"

"..."

When the spectating Warlocks saw the dense crowd of golems, a chill ran down their spines, fear shimmered in their eyes, and an indistinct premonitions welled up inside them.

Heart of Dragon Elephant's headquarters, in the reception hall, there are six people sitting. These six people are Heart of Dragon Elephant's Glorious Sun Warlocks. There is a huge crystal ball placed in the center of the hall. From inside the crystal ball you can see a dense swarm of battle robots rushing towards Heart of Dragon Elephant's headquarters.

Watching the dense swarm of battle robots with a dignified look in his eyes, Heart of Dragon Elephant's Sect Master spoke with a wry smile: "They're here! That's so fast!"

An Elder of Heart of Dragon Elephant spoke with a cold smile: "What of it? Heart of Dragon Elephant is a legitimate sect registered with Great Cloud Dynasty. If they dare to attack us, they will be enemies with Great Cloud Dynasty!"

Another Elder of Heart of Dragon Elephant roared loudly: "Undying Mountain killed our Great Elders! We should go press charges with Great Cloud Dynasty!"

The other three Elders also clamored loudly and advocated to teach Yang Feng a lesson through Heart of Dragon Elephant's connections in Great Cloud Dynasty.

"People of Heart of Dragon Elephant, listen up! Immediately surrender unconditionally to my Undying Mountain, or die!"

A voice reverberated in Heart of Dragon Elephant's headquarters, and the Warlocks here revealed looks of alarm.

Light shone, and Heart of Dragon Elephant's Sect Master appeared outside the sect's headquarters. When he came outside, he saw the mechanical legion covering the sky and blotting out the sun.

Heart of Dragon Elephant's Sect Master uttered slowly: "I am Heart of Dragon Elephant's Sect Master Nie Tian! Undying Mountain's Young Master Lei Ming, as our Heart of Dragon Elephant is a lawful sect registered with Great Cloud Dynasty, we are protected by Great Cloud Dynasty's laws! You..."

"Kill everyone!"

Yang Feng sitting in a luxurious litter interrupted coldly.

Alexia's figure flickered, and she turned into a dazzling black ray and appeared behind the Heart of Dragon Elephant's Sect Master.

A look of alarm and despair on his face, Heart of Dragon Elephant's Sect Master disintegrated in an instant, and all his life force extinguished.

Accompanied by the rumbling of engines, the dense crowd of battle robots flew towards Heart of Dragon Elephant's headquarters like raindrops

Alexia's figure flashed several times inside Heart of Dragon Elephant's headquarters, and easily killed the remaining Glorious Sun Warlocks.

The dense crowd of battle robot poured into Heart of Dragon Elephant's headquarters like a flood, and then miserable screams burst out from the sect's headquarters.

Seven Color Rose Garden's Garden Master's heart shook: "Fortunately I surrendered to him, or else my Seven Color Rose Garden would have suffered the same fate!"

Yang Feng glanced at Seven Color Rose Garden's Garden Master and asked flatly: "What's your name?"

Seven Color Rose Garden's Garden Master answered respectfully: "My name is Zhuo Bing, my Lord!"

Yang Feng said: "Go gather your Seven Color Rose Garden's forces and wait for me!"

"Yes! My Lord!" Zhuo Bing responded respectfully, then turned into a stream of light and flew towards Seven Color Rose Garden's headquarters.

"The next target is Heart of Gale!"

Leaving 3 million battle robots and a fleet to guard Heart of Gale's headquarters, Yang Feng led the rest of the huge legion towards another Yu Province's overlord – Heart of Gale.

Before long, Alexia easily slayed Heart of Gale's Glorious Sun Warlocks and a crowd of battle robots inundated Heart of Gale's headquarters.

After dealing with Heart of Gale, Yang Feng left a fleet to guard Heart of Gale's headquarters, and then continued to attack Blood Spear Sect.

There is a huge gap between Yu Province's Five Overlords and the Ten Great Sects, that is, their foundation is rather shallow. The sects here don't have strong enough magical barriers to suppress Infinity Warlocks. This is why Yang Feng didn't hesitate to attack them one by one.

Chapter 702 – Slaying Major General Holy Light

A swarm of battle robots surrounded Black Devil Dragon Serpent's headquarters.

"Black Devil Dragon Serpent's people, listen to me! Surrender to my Undying Mountain unconditionally, or die!" Alexia's voice filled with killing intent echoed throughout Black Devil Dragon Serpent's headquarters.

"You're talking big! This is Great Cloud Dynasty, what gives you the courage to be so brazen here!" Accompanied by a cold snort, a handsome young man with a burly figure, short black hair, and an unruly temperament slowly walked out with his hands behind his back.

Behind the young man followed Black Devil Dragon Serpent's Sect Master and three elders, who stared at Yang Feng sitting on the luxurious litter with resentment.

The young man with an unruly temperament swept Yang Feng with a gaze and uttered coldly: "I am Grand Prince Kang Manor's housekeeper Bai Yu! Black Devil Dragon Serpent's Sect Master has agreed to join Grand Prince Kang's camp, and so they are now Grand Prince Kang Manor's men! Screw off! Or else don't blame Grand Prince Kang Manor for not standing on ceremony!"

Grand Prince Kang is not only one of Great Cloud Dynasty's 13 Grand Princes, but he is also an Infinity Warlock. He has tremendous authority in Great Cloud Dynasty, and Yu Province is part of his sphere of influence.

Originally Yu Province's Five Overlord Warlock groups somewhat competed with Grand Prince Kang Manor. But now that Yang Feng eliminated four of the Five Overlords, Black Devil Dragon Serpent chose to join Grand Prince Kang's camp. Now there is no one for Grand Prince Kang Manor to be apprehensive of.

Sitting on the luxurious litter, looked indifferently at Bai Yu, Yang Feng said coldly: "Black Devil Dragon Serpent's great elders have just attacked our Undying Mountain! How does Grand Prince Kang Manor plan to deal with this matter?"

Bai Yu sneered: "Black Devil Dragon Serpent has joined Grand Prince Kang Manor, yet you dare to kill them?! Young Master Lei Ming, if you don't give us an explanation, then when I return to His Highness Grand Prince, I will request that he invites you to Imperial Court!"

Black Devil Dragon Serpent's Sect Master smiled resentfully and said: "That's right Grand Prince Kang likes to collect beautiful girls of all races, and he's still missing a Blazing Angel! Lei Ming, hand over the Blazing Angel beside you and offer her to Grand Prince Kang! Otherwise, Grand Prince Kang will make a petition with Imperial Court to expel your Undying Mountain from Yu Province!"

Black Devil Dragon Serpent's Warlocks stared at Yang Feng in the sky with ridicule.

Staring at Yang Feng, Bai Yu's eyes flashed, and he spoke with a cold smile: "Did you hear that, Lei Ming? Hand over the Blazing Angel next to you! If not, your Undying Mountain will be expelled from Yu Province!"

"How amusing! Lei Ming is in trouble now!"

"An Infinity Warlock rank Blazing Angel or Undying Mountain's base in Yu Province, this is certainly a dilemma!"

"No matter which he chooses, it'll be a huge loss to him!"

"..."

There are Warlocks watching the goings from a distance thanks to different spells. Without powerful spells masking the battlefield, these Warlocks can rely on spells to see and hear distant scenes.

Yang Feng sneered: "How intriguing! A bunch of ants dare to bark at me, who gave you the courage to do that? Starting with Black Devil Dragon Serpent's people, kill everyone!"

Killing intent flickered in Alexia's beautiful eyes, then her figure fluttered, and she appeared in front of Black Devil Dragon Serpent's Sect Master and slashed down.

Dazzling black light shone, and Black Devil Dragon Serpent's Sect Master was torn to shreds.

Along with booming roars of engines, battle robots poured into Black Devil Dragon Serpent's headquarters like a tide and slaughtered all the human Warlocks they saw.

"Help!"

"I don't want to die!"

"No, don't!"

"..."

As countless Warlocks met tragic ends at the hands of the battle robots, and their blood died Black Devil Dragon Serpent's headquarters red.

Shivering, staring at Yang Feng with resentment, Bai Yu roared: "Lei Ming, how dare you! You're dead! You're absolutely dead! When I return, I will report everything you have done to His Highness Grand Prince! Your Undying Mountain is finished!"

A smile of derision on his face, Yang Feng said indifferently: "You think you can go back alive? Kill him!"

The ultimate form Six-winged Sun-devouring Centipede flapped its wings and, as if a natural disaster, turned into a sun and flew towards Bai Yu. It appeared in front of Bai Yu in an instant and him.

Bai Yu's eyes shimmered with despair: "No!"

"Stop!"

Accompanied by a pinnacle Bright World Warlock rank aura, a thunderous voice came from afar.

Crack!

The ultimate form Six-winged Sun-devouring Centipede gobbled up Grand Prince Kang Mansion's Glorious Sun Warlock rank housekeeper and chewed.

A black ray suddenly appeared in the air and turned into a handsome man with a burly figure and an ashen face, dressed in black armor. This young man is Major General Holy Light, and he is in command of a 1.08 million-strong army stationed in Yu Province.

Major General Holy Light is one of Yu Province's Four Major Generals. Since he represents the dignity of Great Cloud Dynasty's Imperial Court, even the Five Overlords have to show him some respect.

Staring at Yang Feng with a complicated look in his eyes, Major General Holy Light sighed: "Young Master Lei Ming, you killed Grand Prince Kang Manor's housekeeper! Grand Prince Kang Manor won't let you off! Why did you do such an extreme thing?"

Yang Feng glanced at Major General Holy Light and said flatly: "Grand Prince Kang Mansion's people are intolerable bullies! My Undying Mountain isn't a force that anyone can humiliate casually! Major General Holy Light, I will give you a chance to submit to me and join my Undying Mountain! If not, you shall die here!"

With a flash of black light, Alexia appeared behind Major General Holy Light.

Resplendent light flashed, and the ultimate form Six-winged Sun-devouring Centipede appeared in front of Major General Holy Light.

While releasing booming sounds, a dense swarm of battle robots suddenly flew out and formed a fearsome formation that enclosed Major General Holy Light.

Major General Holy Light's face fell, and he said coldly: "Does your Undying Mountain want to rebel?"

Yang Feng replied indifferently: "Rebel? We would never do such a thing! However, there are many traitors in Imperial Court! Our Undying Mountain wants to eradicate the mongrels in Imperial Court who have colluded with other races. Major General Holy Light, if you aren't willing to submit to our Undying Mountain, then we can only assume you to be a mongrel who colluded with other races! According to Great Cloud Dynasty's law, this is a great offense that warrants the execution of the perpetrator and their relatives!"

"Ha-ha! I, Major General Holy Light, am a man loyal to Great Cloud Dynasty! I will never yield to you rebels! If you want my life, then take it yourselves!"

Smiling boldly, eyes shining brightly, Major General Holy Light extended a hand, and a level-8 secret treasure Holy Light Lance appeared in his hand.

Alexia's figure blurred, and she appeared beside Major General Holy Light and sent a rain of sword rays stabbing at Major General Holy Light.

Major General Holy Light urged the level-8 secret treasure Holy Light Spear, turned into dazzling light, and engaged Alexia.

Light and dark collided numerous times. Each time light collided with dark, it would shake and ripple.

After more than a dozen breaths of time, Alexia is still untainted by even a speck of dust, but Major General Lei Ming is already covered with wounds, and the sword wounds on his body are burning with Fallen Angel Fire.

“An Infinity Warlock rank Blazing Angel indeed is extraordinary! I may not be your opponent, but that doesn’t mean you can kill me easily!”

Standing in midair, Major General Holy Light waved his hand, and a huge magic bean flew out suddenly. As soon as the huge magic bean flew out, it lit up with countless runes, broke apart into countless rays of light, and formed a 10,000-strong Magic Bean Army. The Magic Bean Lord even exudes Bright World Warlock rank fluctuations of power.

The Magic Bean Army is one of Major General Holy Light’s trump cards – Gui Shen Magic Bean! If cultivated to the pinnacle, Gui Shen Magic Bean’s Magic Bean Lord can even evolve into an Infinity Warlock rank existence.

The 10,000-strong Magic Bean Army can even contend with a weaker junior Infinity Warlock rank existence. Of course they aren’t the opponent of an Infinity Warlocks. Nevertheless, they can be used as cannon fodder to block an Infinity Warlock.

The Magic Bean Army has just appeared, when a resplendent beam of light slammed into it and vaporized it instantly.

Alexia’s sword slashed towards Major General Holy Light. Major General Holy Light raised the Holy Light spear in his hands to block. Some sword rays formed from dark force passed through Major General Holy Light’s defense, landed on his body, and opened numerous sword wounds, giving him serious damage.

At this moment, a blazing sun shone, and the ultimate form Six-winged Sun-devouring Centipede gobbled up Major General Holy Light and chewed.

“He killed Major General Holy Light!”

“Undying Mountain unexpectedly killed Major General Holy Light! They want to rebel!”

“Damn, it seems that Yu Province is about to go through a great change!”

“Yu Province? No, the entire Great Cloud Dynasty will go through an upheaval!”

“...”

When the spectating Warlocks saw Yang Feng slay Major General Holy Light, they felt a chill in their heart. Only those who want to rebel would be so reckless as to kill someone from Great Cloud Dynasty’s Imperial Court.

Chapter 703 – Annexing Yu Province

Yu Province, Great Cloud Dynasty’s military command headquarters.

“Major General Holy Light was killed by Undying Mountain’s Lei Ming!”

One of Yu Province's Four Major Generals Major General Tempest is gazing at a broken soul lamp in the command headquarters with a cold gleam in his eyes.

Major General Tempest shouted loudly into a cylindrical loudspeaker: "Head my command! The whole army is to enter level-1 state of war at once!"

1,000 kilometers away, as if fearsome demonic beasts, battlestars fired their primary artillery.

In the next moment, huge beams of light instantly blasted into Great Cloud Dynasty's command headquarters in Yu Province.

Multicolored magic shields lit up on Great Cloud Dynasty's command headquarters. But under the bombardment of the huge beams of light, the multicolored magic shields shattered one by one, and then the entire command headquarters was erased.

A dense rain of light barreled towards Great Cloud Dynasty's barracks. Blasted by light beams, the Warlock towers towering in the barracks were torn to shreds.

Before they could react, countless Great Cloud Dynasty's Warlocks were blasted into pieces by the rain of light.

A dense crowd of battle robots flew into the barracks like raindrops and engaged Great Cloud Dynasty's Warlocks!

"What's going on?"

"Damn it! It's a rebellion! Undying Mountain started a rebellion!"

"What do we do?"

"..."

Great Cloud Dynasty's military department fell into chaos, and the Warlocks roamed like headless chickens.

Many powerful weapons in Great Cloud Dynasty's military department were destroyed by light beams before they could be operated.

Numerous Great Cloud Dynasty's Warlocks died at virtually every moment.

"Undying Mountain, fucking bastards!"

Following an enraged roar, the space rippled, and a 10,000-meter-long ancient dragon inscribed with countless runes flew out and exuded junior Infinity Warlock rank life force.

The ancient dragon is the trump card of Great Cloud Dynasty's military department in Yu Province. This ancient dragon is a powerful secret treasure refined by Great Cloud Dynasty's Secret Treasure Division that can gather the power of Warlocks. If enough Warlocks are used as a power source, then it can even exert pinnacle Infinity Warlock rank power.

As soon as the ancient dragon emerged, it fired a black beam containing the laws of corrosion and wither from its maw blasting towards an interstellar carrier releasing various aircraft.

The interstellar carrier opened a huge energy shield that blocked in front of the black beam.

When the black beam fired by the ancient dragon blasted into the energy shield, the power of the law of corrosion exploded.

The energy shield twisted and collapsed.

Boom!

Amid the a tremendous explosion, the huge interstellar carrier was torn apart, and countless fragments scattered around.

Along a flash of black, Alexia already equipped with the Ruler Armor swayed gently, and then appeared on the head of the ancient dragon and slashed it's head with a great sword formed from the Ruler Armor.

The ancient dragon has an extremely hard body. Strengthened by spells, its hard for even Infinity Warlocks to split open its scales. But when Alexia who is going all out slashed it with the Ruler Sword, she opened a huge hole in the scale armor.

Alexia's figure blurred, and she turned into a black ray that shot into the ancient dragon's head.

Inside the ancient dragon, there is a huge space, inside which there are 36 Warlock towers. Each Warlock tower emits powerful light that enters the countless runes suspended in the air.

The runes suspended in the air are central runes that control the operation of the ancient dragon. It is through the countless runes that these Warlocks are able to control frightening weapons like this ancient dragon.

"Damn Blazing Angel, you Undying Mountain's bitch! You shall die here!" A bellow of resentment came from a Warlock tower.

Alexia's figure fluttered, and she appeared in front of the Warlock tower and slashed out. In the blink of an eye, a 100-meter-long black sword ray slammed into the Warlock tower, broke through the magic shield, and sliced the Warlock tower into two.

Warlocks scrambled out of the Warlock tower. They have just flown out, when black fire enveloped them and burned them to ashes.

When the Warlock tower was destroyed by a slash from Alexia, one-thirty-sixth of the runes suspended in the air collapsed, and the aura of the ancient dragon suddenly declined all the way to the pinnacle Bright World Warlock rank.

"So strong!"

"So this is an infinity Warlock rank Blazing Angel! Incredible!"

"Damn it!"

"..."

The Warlocks within the other 35 Warlock towers looked at Alexia with despair in their eyes.

Alexia brandished her sword, and a dazzling black sword ray instantly crushed into another Warlock tower. The Warlock tower that cannot be destroyed by ordinary Infinity Warlocks was directly cut in half. Terrifying dark force eroded all the Warlocks inside the Warlock tower, ignited their souls, and burned them to ashes.

“Stop! We surrender! Don’t kill anymore!”

Following a helpless and desperate voice, a junior Bright World Warlock with an ashen face flew out of a Warlock tower, stopped in front of Alexia, and released a long sigh, saying: “I am Major General Thunderclap! Please stop, we surrender!”

Major General Holy Light is dead and Major General Tempest and Major General Dawnjade were killed in the first round of shelling. Even if the last Major General Thunderclap fights with his life on the line, he is not an opponent of Alexia who is equipped with the Ruler Armor.

In Yu Province’s military department, there are still two weapons, an ancient giant and an Arch Dragon Fiend, than can display Infinity Warlock rank power. But due to Yang Feng’s sneak attack, the military department’s Warlocks suffered heavy casualties and didn’t get a chance to use these two powerful weapons. Major General Thunderclap has no choice but to surrender.

With Major General Thunderclap capitulating, there are no longer any forces in Yu Province that can contend with Yang Feng.

In Yu Province, countless Warlock groups either ran away or chose to submit to Yang Feng’s Undying Mountain. When Grand Prince Kang Manor’s forces in Yu Province heard that Yu Province’s military department was annihilated by Yang Feng, they immediately fled Yu Province.

One of Great Cloud Dynasty’s lesser province’s Chi Province, in a villa.

“Has the Bai Family forced Undying Mountain to rebel, how amusing! it seems that the Bai Family has been sitting in its position for too long! It has already begun to degenerate and decay!”

A very handsome man dressed in a silver-white Warlock robe, with a wicked aura, revealed a strange smile: “The insignificant Undying Mountain wants to overthrow Great Cloud Dynasty, fat chance! Let’s give it a hand and give hope to more people!”

Several days later, abyssal cracks leading to Abyss suddenly appeared all over Chi Province, and countless abyssal fiends poured into Chi Province and began to slaughter Chi Province’s humans.

Chi Province’s military department was besieged by three abyssal fiend grand dukes, 10 abyssal fiend marquises, and countless other abyssal fiends, and eventually most of the Warlocks in the military department were wiped out.

One of Great Cloud Dynasty’s greater provinces Mirage Province, in a manor.

A handsome young man smiled, and devil aura slowly welled up inside him: “Ha-ha! The abyssal fiends are unwilling to stay idle anymore? Then let’s destroy this state!”

A few days later, the Marshal Lang stationed in Mirage Province was ambushed and seriously injured, and then fled in a sorry state.

Then a devil legion besieged Mirage Province's military department. The battle fell into a stalemate. But at the most critical time, several generals betrayed the military department, and the defensive line collapsed. The warriors garrisoned in Mirage Province were wiped out by the devil legion.

Following this, an endless stream of devils entered Yu Province through planar passageways and became a major force in Cangzhi Plane.

Shortly after, in one of Great Cloud Dynasty's 36 greater provinces Serene Province, Zhao Family of the Eight Great Families set up a banquet and invited high ranking military officials stationed in Serene Province to attend the banquet. Taking advantage of this opportunity to deal with Serene Province's high ranking military officials, the Zhao Family quickly captured the entire Serene Province.

When the Zhao Family made its move, the Wang Family of the Eight Great Families acted as well and conquered one of Great Cloud Dynasty's 36 greater provinces Blue Province and subdued the army garrisoned in Blue Province.

As if a domino effect was triggered, the other five of the Eight Great Families betrayed Great Cloud Dynasty and conquered a greater province each, following which they started to reorganize and expand their forces.

In Demonic Realm, freaks from numerous planes launched a frenzied assault and dealt a disastrous blow to Demonic Realm's defensive line.

Yang Feng's avatar Grand Duke Duccio also brought countless kindred powerhouses from God Blood Plane into Cangzhi Plane through the planar passageway in Red Rock Subcontinent and attacked one of Great Cloud Dynasty's lesser provinces Giant Rock Province.

Great Cloud Dynasty's army stationed in Giant Rock Province mounted a small resistance before retreating and evacuating into Great Cloud Dynasty's general headquarters, allowing Yang Feng to easily occupy Giant Stone Province.

Chapter 704 – Great Cloud Dynasty's Envoy

After Yang Feng's Undying Mountain occupied Yu Province, countless robots poured into Yu Province from Li Gui Province and built various defenses and secret munitions factories, transforming the entire Yu Province.

Although Yu Province is a lesser province and has far less resources than Mirage Province and other greater provinces, but it is still a place with perfect laws of heaven and earth, countless resources, and vast territory. The resources it contains can support the birth of Infinity Warlocks.

Yang Feng is aware that his current strength is not enough to contend with Great Cloud Dynasty. But at this time, Great Cloud Dynasty is in a tumultuous state. Taking advantage of its state, powerful existences of numerous planes poured into Great Cloud Dynasty via planar passageways and other methods. For the current Yang Feng, as long as he can hold Yu Province, that's already a victory.

Yu Province, Undying Mountain's headquarters.

Looking valiant and heroic, Zhan Ying dressed in female bodyguard clothing came to the back garden of Undying Mountain's headquarters and saw Yang Feng comfortably reclining on a soft chair and quietly watching the performance of Cloud Province's Five Fairies.

A complicated glint streaked past Zhan Ying's beautiful eyes, and she uttered respectfully: "Young Master, Bai Yuxian request an audience!"

Yang Feng's avatar Undying Mountain's Young Master Lei Ming is a Bright World Warlock (no one knows that Yang Feng broke through to a Bright World Warlock) who broke through the god-man boundary. He is the third peerless genius who broke through the god-man boundary in the last 10,000 years in Cangzhi Plane.

As long as they don't die prematurely, a being who broke through the god-human boundary will at least promote to a Warlock Monarch and become a true overlord.

Even in the Eight Warlock Dynasties' ages, Warlock Monarch rank powerhouses were hegemonies whom few people dared to provoke.

As for Holy Spirit Warlocks who are one realm above Warlock Monarchs, they even more so can be regarded as the guardians of a race. During the Eight Warlock Dynasties' ages, only races with Holy Spirit Warlocks are eligible to negotiate with human Warlocks.

Holy Spirit Warlocks rarely emerge. As such, it is Warlock Monarch rank powerhouses who control Cangzhi Plane. Even in the Eight Warlock Dynasties' ages, Warlock Monarchs were officials guarding frontier provinces and other planes.

When Yang Feng first came to Li Gui Province, he was just a Moonlight Warlock. But in less than a century, he has already achieved such accomplishments, which filled Zhan Ying with complicated emotions.

When Bai Yuxian came to the back garden, she saluted Yang Feng and uttered respectfully, an enigmatic gleam in her pretty eyes: "Well met, Young Master Lei Ming!"

Yang Feng casually pointed to a chair: "Take a sit!"

While taking her seat, Bai Yuxian silently watched the performance of the Five Fairies.

Bai Yuxian said: "Young Master Lei Ming, I came on the orders of His Majesty the Emperor to investigate the truth of what happened in Yu Province."

Yang Feng responded lightly: "Haven't I already reported the truth to Imperial Court? Yu Province's Five Overlord Warlock groups colluded with other races and attacked my Undying Mountain, and then were quelled by us. Great Cloud Dynasty's Major General Holy Light was seduced by fiends and degenerated into an abyssal being, and so we had no choice but to kill him."

Having listened to Yang Feng's lies, Bai Yuxian's pretty face still contains a refreshing smile, saying: "His Majesty wants to know more about this matter, and thus instructed me to invite you to Cloud Capital to explain it in detail. If you give a detailed explanation in Cloud Capital, His Majesty will surely understand you."

Yang Feng replied lazily: "I'm sorry, but I'm seriously ill at the moment and cannot travel far. Please apologize to His Majesty on my behalf!"

The news that Yang Feng's avatar Undying Mountain's Lei Ming broke through the god-man boundary has spread throughout Great Cloud Dynasty's upper echelon. Right now he doesn't dare to go to Cloud Capital.

Once Yang Feng goes to Cloud Capital, there is a very high chance that the Bai Family's powerhouses get rid of him directly.

Once a peerless genius who broke through the god-man boundary matures, they can break through to the Warlock Monarch or even Holy Spirit Warlock rank.

Now that human Warlock civilization has declined to this extent, a Holy Spirit Warlock possesses the power to overthrow the rule of Great Cloud Dynasty.

Bai Yuxian's eyes constricted slightly, and then she said with a sweet smile: "Young Master Lei Ming, His Majesty regards you very highly! As long as you go to Cloud Capital, His Majesty will give you the hand of his most beloved 19th Grand Princess and grant you the greater province Blue Province as your fief!"

Yang Feng looked at Bai Yuxian with an enigmatic smile and said: "Blue Province? I seem to have heard that Blue Province has been occupied by the Wang Family of the Eight Great Families!"

Bai Yuxian spoke with a confident smile: "That's just a minor issue! So long as Great Cloud Dynasty quells other regions, it will be easy to squash that rebellion!"

Yang Feng said: "It's a pity, but I am seriously ill and cannot leave Yu Province."

The smile on Bai Yuxian's pretty face slowly faded, and she sighed, saying: "Young Master Lei Ming, if you don't go to Cloud Capital, then Cloud Capital will send a large army to fight Undying Mountain! Because of you, Undying Mountain will be dragged into a war."

Yang Feng uttered lightly: "Great Cloud Dynasty has numerous fires to put out, are there any forces it can spare to fight me?"

Bai Yuxian said: "Although numerous strong enemies have emerged in Great Cloud Dynasty, but after all, the dynasty is the ruler of the Eastern World and holds countless trump cards. This time Marshal Long, Marshal Hu, Marshal Feng, Marshal Yu, Grand Prince Kang, and Grand Prince Wang have assembled in Bright Moon Province! When the army arrives, they will launch an attack on Undying Mountain! Even though you're Undying Mountain is strong, but it cannot prevail against Four Marshals and Two Grand Princes!"

Yang Feng smiled and responded, an enigmatic gleam in his eyes: "Six Infinity Warlocks! Great Cloud Dynasty must think really highly of my Undying Mountain!"

An Infinity Warlock is equivalent to a strong divine force rank god. As for six Infinity Warlocks teaming up, there aren't many forces in the Eastern World that can withstand such a force.

Besides, the Four Marshals are top bigwigs among the Eastern World's Infinity Warlocks, and any one of them can easily defeat Yu Province's Five Overlords. As for Grand Prince Kang and Grand Prince Wang, these two top Bai Family's powerhouses are even stronger.

Although Great Cloud Dynasty's royal family the Bai Family has countless silk pants, but it also has countless powerhouses. Those who can promote to the Infinity Warlock rank are all fearsome existences who have fought in countless battles. The Bai Family's 13 Grand Princes are all fearsome existences who can contend with strong divine force rank gods outside their divine countries and even defeat them.

Bai Yuxian continued to persuade: "Young Master Lei Ming, so long as you go to Cloud Capital, you can not only put out this fire of war, but you'll also be able to gain a beautiful wife, glory, and wealth, you'll be able to live a very comfortable life. But if you stay here and wait, only destruction awaits Undying Mountain! Do you have the heart to watch Undying Mountain get destroyed because of you?"

Yang Feng responded casually, a lazy look on his face: "I am seriously ill and cannot go to Cloud Capital. Anyway, although my Undying Mountain is loyal to Great Cloud Dynasty, but if the Imperial Court sends an army to fight us, we'll have to retaliate."

A cold gleam in her beautiful eyes, Bai Yuxian got up and said: "Since that is the case, then I will take my leave!"

"Escort her out!"

Zhan Ying took a few steps forwards and said to Bai Yuxian: "Please follow me!"

Bai Yuxian gave Yang Feng a deep look, and then turned around and left.

Gazing at Bai Yuxian's back, Yang Feng raised the corners of his mouth slightly: "Since the stage has been set! Then let's get started!"

Bright Moon Province is one of Great Cloud Dynasty's 36 greater provinces. It used to be Bright Moon School's domain, and it was named after Bright Moon School. After Bright Moon School ran away, it was fully occupied by Great Cloud Dynasty.

Bright Heart City is a giant city located in the west of Bright Moon Province closest to Yu Province. At this time, Bright Heart City has already become a huge barracks. Every day there are numerous airships arriving at Bright Heart City from different directions, carrying Warlocks and military resources.

Great Cloud Dynasty's army has many frightening weapons developed by Secret Treasure Division. Take the ancient dragon corpse Yang Feng encountered in Yu Province. Once this fearsome weapon is operated, ordinary Infinity Warlocks might not be its opponent.

However, such weapons need to consume an astronomical amount of resources to be operated.

Since these weapons consume so much resources, Great Cloud Dynasty only employs them during times of war. As for times of peace, they usually send Demon Hunting Division's division chief and other Infinity Warlocks to pursue Infinity Warlocks.

In Bright Heart City, there are six distinct barracks, which are respectively affiliated with the six Infinity Warlocks.

Every Infinity Warlock has their own directly-subordinated troops.

Yuxin Inn is the most luxurious inn in Bright Heart City.

A magic chariot stopped in front of Yuexin Inn, and the handsome and burly Marshal Long of Great Cloud Dynasty's Eight Marshals, with a pair of dragon horns and a charming temperament, which makes him capable of capturing the hearts of countless girls, slowly alighted from the magic chariot, took a deep look at Yuexin Inn, and went in.

Chapter 705 – Wiping out Infinity Warlocks

“You’re here, Old Long!”

As soon as Marshal Long entered Yuexin Inn, Marshal Hu Yue Zichao greeted him.

“Old Hu! It seems that unlike the beautiful Yu Yan, I lack persuasiveness! You never come when I invite you! Say, are you interested in her?”

When Marshal Long saw Yue Zichao, he smiled, strode over, and complained with a smile.

Marshal Hu Yue Zichao shook his head and looked at a handsome, confident-looking man: “Her? No way! She is always cold like a block of ice. No one but her sister has seen her smile. Compared to her, beautiful girls who are considerate are my type. Old Feng is probably a bit interested in her.”

The handsome and confident-looking young man is Marshal Feng of the Eight Marshals.

Marshal Long said with a smile: “Old Feng? No way! He’s more fickle than you. Reportedly all women in a grade 9 plane are part of his harem! Yu Yan hates this kind of man the most.”

Marshal Feng spoke with a chuckle: “A man cannot say no way! Old Long, my harem is running low on Arethusa Spring Water! Help me get a few tons!”

Marshal Long frowned slightly, saying: “Arethusa Spring Water! Old Feng, if you go on like this, your cultivation base will weaken with time!”

Arethusa Spring Water is a special kind of spring water. Once a woman drinks Arethusa Spring Water, she’ll give birth to a daughter. It is a very strange treasure some races that only have females use to preserve their race. Many planes don’t produce it.

Among the planes Marshal Long controls, there is a plane that produces Arethusa Spring Water, which is why Marshal Feng asked him for it.

Marshal Feng uttered with a smile: “It’s not a problem. Anyway, with my aptitude, junior Infinity Warlock rank cultivation base is already my limit. Life is short, so I’d best enjoy it.”

Marshal Long frowned, shook his head, and sighed, saying: “Fine! When I go back, I’ll have someone deliver Arethusa Spring Water to you.”

Once a human Warlock’s cultivation base breaks through to the Moonlight Warlock rank, their life span will exceed 1,000 years. The life span of an Infinity Warlock is on average over 4,000 years. While the life span of Bloodline Warlocks is much longer.

Not all Warlocks choose to continue to practice cultivation and pursue strength all their life. Many Warlocks will have their interests and vices.

Although Marshal Long is a bit dissatisfied with Marshal Feng's lack of motivation for improvement, but he doesn't intend to interfere with his life.

At this moment, with a fragrance wafting out from her, the mesmerizing Yu Yan wearing a black dress, with her hair tied into a bun and her face bare of any make up, radiating brilliant light like a beautiful piece of jade, entered the inn's reception hall.

"What a beauty!"

"She is indeed the No. 1 beauty in the army!"

"Marshal Yu deserves to be called the No. 1 beauty in Great Cloud Dynasty's military!"

"..."

The high-ranking military officials in the inn's reception hall looked at Yu Yan with a scorching gleam in their eyes.

Yu Yan is an authentic Infinity Warlock and possesses overwhelming fighting strength. Additionally, she is beautiful beyond compare. This is why she is recognized as the No. 1 beauty in Great Cloud Dynasty's military.

There are many beauties in Great Cloud Dynasty's military, and there are even several beautiful women whose figure, looks, and temperament are not inferior to Yu Yan's. However, neither of them is an aloof and powerful Infinity Warlock, so they cannot become the No. 1 beauty in Great Cloud Dynasty's military.

With a smile on his face, Marshal Feng greeted Yu Yan: "Yu Yan, we meet again. We last met three years ago! It's good to see you! You are getting more and more beautiful!"

Yu Yan gave Marshal Feng a complicated look and sighed, saying: "Feng Lang, I'm sorry!"

The female bodyguard standing next to Yu Yan suddenly moved. She appeared in front of Marshal Feng with the speed of a clap of thunder and stabbed him with a sword, and violent Fallen Angel Sky Fire erupted and enveloped him at once.

The male waiter who just so happened to be next to Marshal Hu also suddenly raised his head and thrust the god armament Shadow of Death in his hand stabbing at Marshal Hu.

Marshal Hu Yue Zichao burst out with one magic shield after another, but Shadow of Death easily ran through them and finally stabbed him in the abdomen.

Curses containing the law of shadow appeared on Marshal Hu Yue Zichao and eroded his body and soul like crazy.

Yu Yan's figure flashed, and the Monarch grade secret treasure Black Fenghuang Armor and the Monarch grade secret treasure Black Fenghuang Spear appeared at once, then her figure swayed slightly, and she turned into a Black Fenghuang rushing towards Marshal Long without hesitation.

"Dragon God Morph!"

Marshal Long didn't utter any superfluous words, didn't ask why Marshal Ye has rebelled. The level-9 secret treasure Dragon God Bead engraved with numerous runes in front of Marshal Long's chest shone.

Following bright light, Marshal Long turned into a 300-meters-long Six-winged Black Dragon God with a huge dragon head and three pairs of dragon wings, covered in dragon scales shining with countless runes, and exuding quasi-Warlock Monarch rank aura!

"Garden Labyrinth!"

The Seven Color Rose Garden's Garden Master silently recited an incantation and waved the level-9 secret treasure Seven Color Rose.

The Seven Color Rose's petals suddenly drifted, enveloped the entire Yuexin Inn, and formed a barrier.

Before the barrier is destroyed, no one will know what happened in Yuexin Inn. At the same time, due to Garden Labyrinth, Yuexin Inn entered a strange space.

The eyes of Marshal Long who turned into a 300-meter-long Six-winged Black Dragon God shimmered fiercely, and the level-9 secret treasure Prismatic Dragon God Crystal suddenly flew out and floated above his head.

"Yu Yan, since you betrayed us, die!"

Following a heaven-shaking bellow, the Prismatic Dragon God Crystal full of dark force and containing the laws of decay and destruction turned into a torrent of light and flew towards Yu Yan.

Yu Yan's figure flickered, and she changed into a flame Fenghuang burning with fierce fire and collided with the Prismatic Dragon God Crystal.

When the two powerful forces collided, they set off a frightening shock wave that spread out in all directions.

Caught off guard by the shock wave, many Moonlight Warlock rank high-ranking military officers suffered minor injuries and sprayed out blood from their mouth.

Marshal Long is the No. 1 expert among the Eight Marshals. Yu Yan is not his opponent. When the two sides engaged, Yu Yan fell into a complete disadvantage.

But on the other side, burned by Alexia's Fallen Angel Fire, Marshal Feng only struggled for a dozen plus breaths of time before only an Infinity Core remained.

After Alexia killed Marshal Feng, her figure swayed gently, and she appeared in front of the Marshal Hu who was stabbed by Shadow of Death and stabbed her sword towards his forehead.

Marshal Hu smiled ferociously and shouted: "If you want to kill me, it won't be that simple! Explode!"

Marshal Hu's neck bulged like it's about to burst. As long as he can escape from the powerful god armament Shadow of Death, even if he only has a head left, Marshal Hu can use secret treasures to quickly regenerate.

"Useless! You are destined to die here!"

“Fate Algorithm”

Yang Feng silently chanted an incantation and pointed with a finger, and wisps of fate force shot out from his finger and enveloped Marshal Hu.

All the secret treasures on Marshal Hu’s body turned sluggish and lost their effect. As if suppressed by a strange force, he cannot budge the remaining power inside him. He can only watch the Blazing Angel Sword stab into his forehead.

“Damn it! How can I die like this!”

This final thought welled up in Marshal Hu’s mind, then Alexia’s sword stabbed him in the forehead, and Blazing Angel Fire burned his soul.

Seeing Marshal Feng and Marshal Hu dying one after another, Marshal Long willed it, and the level-9 secret treasure Prismatic Dragon God Crystal fluttered and transformed into a 50-meter-long Three-headed Gold Dragon Lord exuding junior Infinity Warlock rank fluctuations of power.

The figure of the Three-headed Gold Dragon Lord swayed gently, and it blocked in front of Marshal Ye.

Marshal Long’s body fluttered, and crashed into Garden Labyrinth’s barrier like a giant mountain.

Boom!

Along a loud noise, Marshal Long incarnated into a Six-winged Black Dragon God forcibly broke Garden Labyrinth’s barrier.

Both Marshal Long incarnated into a Six-winged Black Dragon God and Seven Color Rose Garden’s Garden Master spat out a large mouthful of blood, seriously injured.

“It’s a pity, Marshal Long! You’re only a step away from being able to leave this place!”

Accompanied by a chuckle, Yang Feng’s kindred avatar equipped with a Ruler Magic Cube series Blood Ruler Armor inlaid with an Infinity Core appeared in front of Marshal Long and slashed at him with the Monarch grade secret treasure God Blood Sword in his hand.

In an instant, a crimson sword ray shrouded in the law of blood shot towards Marshal Long.

Marshal Long faced upwards and uttered a dragon roar, and then grabbed the crimson sword ray with his dragon claw.

A violent force broke out and smashed Marshal Long into the ground, and several sword wounds appeared on his body.

Alexia’s figure flickered, and she appeared next to Marshal Long’s wings and slashed at them, and then a black sword ray flashed and slashed Marshal Long’s wings.

The ultimate form Six-winged Sun-devouring Centipede suddenly appeared and belched a sunlight pillar blasting towards Marshal Long.

Chapter 706 – Blazing Sun Battlestars

Marshal Long grabbed at the sunlight pillar with his right dragon claw, which turned into a huge vortex that forcibly sapped and obliterated most of the sunlight pillar's power.

"Color me impressed, Marshal Long! You deserve to be called the strongest expert among the Eight Marshals! But alas, you are not our opponent!"

A strange figure appeared behind Marshal Long and stabbed him with the strong divine force grade god armament Shadow of Death, and numerous powerful runes entered his body and sealed his power.

After his attack succeeded, the figure of Yang Feng's true body fluttered, and he retreated by hundreds of meters. He quietly watched the curses of Shadow of Death erode Marshal Long's body.

"You won! I only have one question. Yu Yan, why did you betray us!"

Marshal Long gazed at the Infinity Warlock rank powerhouses around him, then his eyes finally fell on Yu Yan, he lifted the transformation, and asked, a complicated look on his face.

When Marshal Long lifted his transformation, the Three-headed Gold Dragon Lord fighting with Yu Yan disappeared, turned back into the level-9 secret treasure Prismatic Dragon God Crystal, and dropped to the ground.

Yang Feng silently recited an incantation, light flashed, and a black rope shot out, wrapped around the Prismatic Dragon God Crystal, and sealed it completely.

Shame streaked past Yu Yan's beautiful eyes.

Although Great Cloud Dynasty's Eight Marshals aren't too friendly with one another, but they are comrades, after all. So when Marshal Long and the other three received an invitation from Yu Yan, they came to this reception.

"I forced her. By using her sister, I coerced her into becoming my subordinate. Then I forced her to lead you into this trap."

"However, history is written by the winners. Everything is fair in war! You should be able to understand this reasoning, Marshal Long!"

Yang Feng watched Marshal Long calmly.

Marshal Long uttered flatly: "History is written by the winners! Well said! Victory is everything on the battle field! If you lose, you'll lose everything, and your name will be besmirched!"

Yang Feng said: "Marshal Long, I appreciate you very much! Join Undying Mountain and serve me."

In order to be able to kill Marshal Long, Yang Feng mobilized five Infinity Warlock rank existence – Yu Yan, Alexia, Seven Color Rose Garden's Garden Master, ultimate form Six-winged Sun-devouring Centipede, and his avatar kindred pinnacle grand duke

Except for Seven Color Rose Garden's Garden Master, the other four Infinity Warlock rank powerhouses can easily prevail over ordinary Infinity Warlock rank beings.

Marshal Long answered calmly: "To develop Undying Mountain to this degree in such a short time, Lei Ming, you're really amazing! A fine fowl perches only on a fine tree, I do understand this principle. Only

it's a pity that I received great kindness from the Bai Family! If it weren't for the Bai Family, I would be nothing more than a street urchin. My cultivation base, glory, wealth, authority, they all came from the Bai Family. The great kindness and goodwill the Bai Family showed me, I, Long Shitou, will never forget them. So don't waste your breath on me, and just kill me!"

There was a flash of regret in Yang Feng's eyes, and he sighed, saying: "What a loyal subordinate! A pity! Then let me oblige you!"

Alexia took a step forward and pierced Marshal Long in the forehead with her sword, and Fallen Angel Fire destroyed his life force.

Yang Feng turned towards Great Cloud Dynasty's high-ranking military officers trapped in Garden Labyrinth and asked calmly: "As for you, do you surrender, or die?"

A Glorious Sun Warlock sighed after being silent for a while and said: "I surrender!"

"I surrender!"

"..."

As if the domino effect was triggered, more than 100 high-ranking officers chose to surrender. With Yuexin Inn being controlled by Yang Feng's Infinity Warlocks, they have no way out.

Except for a few people, no one is willing to give up their life for the Bai Family.

After the more than 100 high-ranking officers surrendered, Yang Feng used the True God Empyrean Imprint to seal their power, and then let Seven Color Rose Garden's Garden Master deal with them.

Yang Feng asked: "Yu Yan, Grand Prince Kang and Grand Prince Zheng didn't accept your invitation. Is there a way to make them appear?"

Yu Yan shook her head and answered: "Each of the Bai Families 13 Grand Princes are very careful and cautious. We don't know where they are staying. If there are things to discuss, you have to go to the Warlock tower they designated! We won't get a chance to sneak-attack them!"

Yang Feng's eyes flashed coldly and he uttered frigidly: "If sneak-attacks won't work, then we'll just storm them!"

In a place about 4,000 kilometers south of Bright Heart City, 10 Blazing Sun Battlestars surrounded by countless robots emerged slowly.

The primary artillery of the 10 Blazing Sun Battlestars shone and fired a beam barreling towards the camps of the two grand princes in Bright Heart City. In the wake of the 10 beams, Warlock towers, barracks, and secret treasures turned into powder.

Numerous secondary artilleries of the 10 Blazing Sun Battlestars shone, and a dense rain of light poured into the camps of the two grand princes.

Boom! Boom!

As huge explosions sounded nonstop in the two camps, countless Warlocks fled about like headless chickens.

The engines of the countless battle robots hidden in Yu Yan's camp roared, and they rushed towards the other five camps like a tide.

"Marshal Hu! Where is Marshal Hu?"

"Marshal Feng!"

"Marshal Yu!"

"..."

Loud voices full of fear echoed in the area.

Boom!

Light shone, and a 300-meter-tall Eight-armed Giant exuding Infinity Warlock rank fluctuations of power emerged from Marshal Hu's camp and rushed towards the battle robots. The Eight-armed Giant is holding seven level-8 secret treasures – blade, spear, sword, halberd, shield, bow, hammer.

Like an undefeatable Transcendent, the Eight-armed Giant destroyed numerous battle robots with its attacks.

A dense rain of beams hit the Eight-armed Giant, but they were neutralized by the magic shield surrounding it, unable to hurt it.

Undyings have just rushed into the Eight-armed Giant's impact area, when they were blasted apart.

On the battlefield, there are Undyings wriggling and recovering everywhere. The strongest feature of Undyings is their undying property. So long as the core chip is not destroyed, they can automatically recover.

The figures of the Warlocks under Marshal Hu's command flickered, and they gathered towards the back of the Eight-armed Giant.

The soldiers under Marshal Hu's command are experts with rich combat experience and have mastered countless tactics. Even though they cannot find the marshal, but they won't easily fall apart.

Moreover, the three marshals have countless experts under their command. Coupled with the Bright World Warlock rank vice-marshals, it's naturally not so easy to make their ranks collapse.

The earth trembled, and a more than 100-meter-tall Infinity Warlock rank extraordinary life form ultimate form Earth Heart God Bear inscribed with runes and with a horn on the head rose from the ground.

Earth Heart God Bears are a kind of extraordinary life form that naturally grasps the law of earth and the law of power, while ultimate form Earth Heart God Bears are a kind of Infinity Warlock rank existence that can even compare to the weapon Blazing Angel.

However, Earth Heart God Bears are extremely rare. The formidable force Great Cloud Dynasty that controls numerous planes was only able to capture one ultimate form Earth Heart God Bear and refine it into an Infinity Warlock grade weapon.

When the Earth Heart God Bear appeared, it abruptly moved, rushed into the midst of the countless battle robots, and brandished its giant bear paws. Each time it struck with its giant bear paws, the Earth Heart God Bear smashed a dozen plus battle robots, smashing the core chips of the Undyings.

In an empty space, there are two Blazing Sun Battlestars that have their cloaking mode activated hiding. They don't emit any fluctuations of power.

After the Eight-armed Giant and the Earth Heart God Bear appeared, the main artillery of the two Blazing Sun Battlestars shone, and two bright beams of light slammed into them.

The Eight-armed Giant and the Earth Heart God Bear activated multi-colored magic shields at once, but then were crushed and disintegrated by the beams of light.

"What is that!"

"Damn it! What sort of weapon are those? Why are they so strong? How can they so easily destroy the Eight-armed Giant and the Earth Heart God Bear!"

"..."

When Great Cloud Dynasty's Warlocks saw the two Infinity Warlock rank existences being blasted into ashes by the Blazing Sun Battlestars' primary artilleries, they were struck dumb, and despair flickered in their eyes.

"Manta Stone Wolf! Dark Corpse Nest! Gale Giant! Why haven't they been launched yet!"

"Fuck, those bastards are really abominable! They don't have the guts to have an upright battle!"

"Who was it? Who opened the barrier and let them in!"

"..."

In the the middle of the chaotic six camps, many Warlocks observing the goings on saw that none of the other Infinity Warlock grade weapons appeared, and so cast secret methods and escaped.

A black castle suddenly flew out of Grand Prince Kang's camp, shone with black light, and turned into a stream of light running away.

A 1,000-meter-long extraordinary life form Space Breaker Dragon with four pairs of wings, exuding Infinity Warlock rank might, flew out of Grand Prince Zheng's camp and shot into the distance.

Chapter 707 – Annexing Bright Moon Province

While watching Grand Prince Kang and Grand Prince Zheng escape, Yang Feng mused: "They sure escaped fast! They're really clever! If they were a bit slower, they would have to stay here! It sure is difficult to hunt down Infinity Warlocks!"

This time Yang Feng mobilized all the experts he could and took out all the 4th generation battle robots and sent them into this war.

If Grand Prince Kang and Grand Prince Zheng stayed and fought him, Yang Feng would be able to consume their strength and kill them with his mechanical sea.

After Yu Province fell into his hands, Yang Feng took possession of the province's countless resources. Originally Yang Feng could only build one Blazing Sun Battlestar a year. But after Yu Province fell into his hands, Yang Feng became able to build a Blazing Sun Battlestar every three months. His productivity increased four-fold.

With the current productivity, even if all of his 3rd generation battle robots were destroyed, Yang Feng can fully replenish them in a short time.

"Grand Prince Kang fled!"

"Grand Prince Zheng abandoned us!"

"I surrender! I surrender!"

"I surrendered!"

"..."

When the Warlocks in the midst of the fierce battle saw Grand Prince Kang and Grand Prince Zheng run away, their morale plummeted at once, and they shouted loudly.

But even more Warlocks used secret methods to flee. Not willing to remain in such hopeless war, the enemy army collapsed like a landslide.

Watching the Warlocks escape, Yang Feng spoke with a faint smile: "What a pity! If you insisted on resisting, you could make me lose some more robots!"

20 interstellar carriers suddenly appeared, and countless fighters flew after the Warlocks at a terrifying speed.

The fighters fired their miniaturized antimatter artilleries, and beams tore the Warlocks to pieces.

The miniaturized antimatter artilleries are so powerful that even Infinity Warlock rank powerhouses cannot withstand them without using defensive spells. The ordinary soldiers – Great Warlocks and Starry Sky Warlocks – stand no chance against them.

When the 20 interstellar carriers appeared, they crushed the resistance of the remaining human Warlocks, who consequently chose to surrender.

The fierce battle continued for another three hours before Yang Feng's mechanical legion quelled all resistance in Bright Heart City.

At this time, there are 10 weapons refined by Great Cloud Dynasty's Secret Treasure Division placed in a huge hall. The 10 weapons are a Scarlet Flame Fenghuang, a Manta Stone Wolf, a Dark Corpse Nest, a Gale Giant, a Primal Chaos Devil Spider, a Space Breaker Dragon Whale, an Archaic Stone Giant, a Six-headed Gold Dragon, an Archaic Sacred Dragon, and a grand duke rank archdevil.

Gazing at the 10 weapons, Yang Feng can't help but exclaim: "Are these the weapons developed by Great Cloud Dynasty's Secret Treasure Division? They sure enough are extraordinary!"

The 10 weapons were all refined from the corpses of Infinity Warlock rank extraordinary life forms. Using spatial magic, these weapons have Warlock towers built inside them. So long as there are enough human Warlocks, they will be able to display Infinity Warlock rank combat strength.

If Yang Feng didn't have Yu Yan's help this time, he wouldn't be able to mount a sneak-attack and kill the Three Marshals as well as a large number of Warlocks responsible for operating these weapons. If he instead confronted the enemy head on, even if he won, Yang Feng would have lost countless battle robots. Moreover, he could even have lost his Infinity Warlock rank powerhouses.

"Of course, the number of Infinity Warlocks in the Imperial Court isn't large, and that is because many Infinity Warlocks are appointed to different regions to quell other races. In fact, Great Cloud Dynasty has fought with other races for more than 10,000 years. Who knows how many Infinity Warlock grade weapons the Imperial Court has. The Imperial Court's foundation is really deep!"

"Among the Ten Great Sects and Eight Great Families, there are a few forces that only have one Infinity Warlock standing guard. But in fact, these sects and families all possess Infinity Warlock grade weapons like Scarlet Flame Fenghuang, Manta Stone Wolf, and they also have their own forces in other planes. It is because of this that they are called the Ten Great Sects and Eight Great Families. With their foundation, trifling Yu Province's Five Overlords cannot compare to them."

"Furthermore, in addition to the powerhouses that are on the surface in the Ten Great Sects and the Ten Great Families, there are many powerhouses adventuring in Astral Boundary. As far as I know, Battle Demon Sects has two Infinity Warlocks adventuring in Astral Realm, and there is reportedly another Infinity Warlock who has become a strong divine force rank god in another plane." Standing next to Yang Feng, Yu Yan looked at the 10 Infinity Warlock grade weapons with a complicated look in her beautiful eyes and said slowly.

The 12 Infinity Warlock grade weapons have accompanied the Four Marshals for countless years. Thus when Yu Yan saw the 10 Infinity Warlock grade weapons before her, it evoked complicated emotions inside her. After all, she brought Yang Feng and his party into Bright Heart City and killed the Three Marshals.

Yang Feng said: "Yu Yan, you only acted on orders. As your Lord, I will assume all responsibility."

Yu Yan smiled sweetly, looking beautiful beyond compare: "Mhm, I understand! Indeed, you are the backstage manipulator, and I am just a subordinate who is following orders under duress. So everything is your fault."

Yang Feng smiled and shook his head, then his eyes fell on the 10 weapons, and countless strategies flashed in his mind.

After Great Cloud Dynasty's main force in Bright Heart City was annihilated, there is no longer any force in Bright Moon Province that can resist Yang Feng's legion. With Yang Feng's mechanical legion sweeping the land, Bright Moon Province's Warlock group surrendered one after another and chose to submit to Yang Feng.

Bright Moon Province was originally the territory of Bright Moon School of the Ten Great Sects. As such, apart from Bright Moon School and their vassals, there are no other large Warlock groups in Bright

Moon Province. Yang Feng conquered the entire Bright Moon Province without a hitch, and then sent countless battle robots to transform the province.

When Great Cloud Dynasty's expeditionary army in Bright Moon Province was annihilated, it gave rise to shock in the entire Eastern World. The fact that Marshal Long, Marshal Feng, and Marshal Hu were slain and Marshal Yu surrendered is particularly shocking.

Great Cloud Dynasty has the Eight Marshals commanding their eight strongest armies.

After the battle in Bright Moon Province, only three of the Eight Marshals were left, mainly Marshal Ying, Marshal Lang, and Marshal Lei. And Marshal Lang is seriously injured.

Now Great Cloud Dynasty can only use the armies of Marshal Ying, Marshal Lei, and the 12 Grand Princes (one grand prince has died). Consequently, the deterrence it exudes has sunk to a new low ever since Great Cloud Dynasty was established.

The numerous forces that were frightened by Great Cloud Dynasty's great power and hid in the dark started to get restless.

Cloud Capital, inside the royal palace.

Face expressionless, exuding a majestic and aloof aura, Bai Wuqing sitting on the throne is gazing at Great Cloud Dynasty's ministers.

"... Yu Yan betrayed us. She led Undying Mountain's forces into Bright Heart City and ambushed Marshal Hu, Marshal Long, and Marshal Feng. Then Undying Mountain smashed the leaderless Bright Heart City. The rebel Lei Ming has already captured Bright Moon Province!"

A Warlock kneeling on the floor reported the situation in Bright Moon Province.

The ministers in the hall stand still like clay puppets. They can feel that a storm is coming.

Bai Wuqing said coldly: "Grand Prince Kang and Grand Prince Zheng fled from the battle, which is unforgivable. They shall be deprived of the title of grand prince and demoted to commoners, and their salary shall be confiscated for 100 years!"

An eunuch hurriedly drew up a decree.

Bai Wuqing carried on indifferently: "By provoking Great Cloud Dynasty and publicly killing Three Marshals, Undying Mountain is guilty of a heinous crime. My ministers, do you have any good ideas on how to destroy Undying Mountain?"

All the ministers bowed their heads and remained silent.

Bai Wuqing is indeed wise, powerful, decisive, fair in meting out rewards and punishments, and has a distinguishing eye when it comes to talent. But he also likes to dominate everything, is headstrong, and doesn't tolerate opposition. Moreover, with his Infinity Warlock rank cultivation base, his computing power is comparable to that of a level-5 optical computer, and so he can easily handle the memorials to the throne coming from various regions.

Bai Wuqing is in charge of everything in Great Cloud Dynasty. The ministers only need to follow his orders. With this practice, he nurtured these officials into obedient pawns who only know to do what they are told.

With a grave look in his eyes, Bai Wuqing said slowly: "Since this is the case, then I will lead troops myself and wipe out those damn rebels in one fell swoop!"

At this moment, an old man with white hair and beard frowned slightly and advised: "Your Majesty, you can't!"

Bai Wuqing asked coldly: "Grand Tutor, why can't I?"

The Grand Tutor persuaded: "Your Majesty, Great Cloud Dynasty is in turmoil right now. Kindred, abyssal fiends, archdevils, and freaks in Demonic Realm, they all have already emerged out of their holes. Any one of those alien races requires Great Cloud Dynasty to do its best to be able to resist them. Your Majesty, you are of extreme importance, and cannot go out lightly. The fate of Great Cloud Dynasty is tied to you, Your Majesty. If anything were to happen to you, Great Cloud Dynasty will be in danger."

Although Bai Wuqing is headstrong, but he is a rare genius of the Bai Family and the emperor of Great Cloud Dynasty. If he dies, Great Cloud Dynasty will immediately fall apart. The other Bai Family's children will likely start a civil war.

Bai Wuqing asked indifferently: "So what do you suggest, Grand Tutor?"

The Grand Tutor answered: "We can ask for help from Western World's Three Dynasties! Kindred, abyssal fiends, archdevils, and Demonic Realm's freaks, they all are enemies of humans. According to the ancient oath, once those alien races set foot on Cangzhi Plane, we must join hands to quell them! If we ask for help, they won't be able to ignore it."

Chapter 708 – Coming to Feisuo Plane

When he heard this, Bai Wuqing was silent for a while before nodding.

Although Cangzhi Plane's human Warlocks are constantly fighting among themselves. But when alien races invade, they will unite. Because in this era where they don't have the protection of a Warlock Emperor, if human Warlocks don't unite, it will be difficult for them to contend with the invading alien races.

The Grand Tutor uttered: "As for Undying Mountain! Their lot is cast. We can send a messenger and ask them to submit a memorial to surrender. If they are even a bit sensible, they won't refuse our call to surrender. The top priority is to try to prevent Undying Mountain from aligning with the other rebels. Otherwise, it will only be more difficult to destroy them in the future."

Bai Wuqing said: "What if they attack the provinces outside of Bright Moon Province?"

The Grand Tutor uttered with a solemn expression: "If that is the case, then I am willing to be the vanguard and go fight them! I won't let them step outside Bright Moon Province!"

Bai Wuqing frowned and sank into his thoughts.

All of a sudden, the eyebrows of an eunuch jerked, and he stepped forward and whispered: "Your Majesty, I received an urgent intelligence."

Bai Wuqing said coldly: "Relay me the intelligence!"

The eunuch reached out, and a gold memorial to the throne appeared in his hand, and then he respectfully handed it to Bai Wuqing.

When Bai Wuqing looked at the piece of intelligence, his face suddenly darkened, and he said indifferently: "Let's do it accord to your suggestion, Grand Tutor!"

"What happened?"

"What is written in the memorial?"

"..."

Although the court officials are very curious about the content of the memorial to the throne that Bai Wuqing obtained, but they remained silent.

After they dispersed, Great Cloud Dynasty's high-ranking officials used their own intelligence networks and soon received news. The freaks in Demonic Realm have broken through Great Cloud Dynasty's blockade, breaking through the 3rd floor of the underground world.

Marshal Mu of Demonic Realm's Four Marshals was seriously injured by an Infinity Warlock rank devil insect.

The Four Marshals can only withstand the offensive of the freak allied army thanks to the barriers and the Warlock towers on the 2nd floor.

Although there are countless experts in Great Cloud Dynasty, but there are too many places for the dynasty to guard. If an attack on Yang Feng fails again and they lose two or more Infinity Warlocks, then the entire Great Cloud Dynasty might collapse as if a domino effect was triggered.

Bai Wuqing is recognized as the Bai Family's most outstanding emperor. After weighing things repeatedly, he chose to compromise with Yang Feng.

Several days later, Undying Mountain's headquarters in Bright Moon Province.

When Bai Yuxian entered Undying Mountain's headquarters, she saw Yang Feng sitting on a large chair, basking in the sun and enjoying the performance of Cloud Province's Five Fairies and other performers.

Without moving, Yang Feng uttered lazily: "Bai Yuxian, you came! What is His Majesty's decree this time?"

Bai Yuxian sat next to Yang Feng and said without hesitation: "Lei Ming, His Majesty wishes that you go back to Yu Province and return Bright Moon Province to the Imperial Court. The Imperial Court will grant you the title of Lord of Yu Province!"

Yang Feng smiled and flicked a finger, and a piece of paper flew towards Bai Yuxian: "When I get my claws into something, I don't let go. Bright Moon Province is my spoils of war. If you want it back, give me these materials in return!"

Bai Yuxian took the piece of paper and took a look at it, and then her slim eyebrows creased slightly. The various materials written on the piece of papers are all extremely precious. Bai Yuxian hasn't even heard the names of many of these materials.

The materials on that piece of paper are the key materials necessary to advance the stronghold technology to level-5 and level-6. Although Yang Feng searched everywhere, but he still misses three key materials to advance the stronghold technology to level-5.

Bai Yuxian said with a smile: "With Great Cloud Dynasty's strength, these materials can be collected in 100 years. As long as you withdraw from Bright Moon Province, I promise to provide you these materials within 100 years."

Great Cloud Dynasty is now at its weakest. If they can get Bright Moon Province back, they can collect a lot of resources from it within 100 years.

Yang Feng said with a faint smile: "In that case let's discuss this again after you get the materials."

Bai Yuxian spoke: "The Imperial Court intends to confer you the title of Grand Duke of the North! But you have to submit a memorial to the throne to offer an apology, your forces must not go outside Bright Moon Province, and you have to go to Cloud Capital to apologize to His Majesty."

Yang Feng smiled and said: "Submitting the memorial to the throne to offer an apology and keeping my forces inside Bright Moon Province, I can do that. However, I am seriously ill and cannot go to Cloud Capital to meet His Majesty. Please apologize to His Majesty for me."

Bai Yuxian sighed slightly and said: "Fine, I'll take a step back. You can send an emissary to Cloud Capital to apologize to His Majesty on your behalf."

As a peerless genius who broke through the god-man boundary and a figurehead of the huge force that is Undying Mountain, it's naturally impossible that Yang Feng would go to a dangerous place like Cloud Capital.

If Yang Feng was stupid enough to enter Cloud Capital, Bai Yuxian can guess that Bai Wuqing would use all of Cloud Capital's power to quell Yang Feng. Even though he would fall out with Undying Mountain, he wouldn't hesitate.

Yang Feng also took a step back: "Okay, I will send an emissary to Cloud Capital."

Soon, Undying Mountain's letter of apology arrived in Cloud Capital, and then His Majesty the Emperor pardoned Undying Mountain's crimes. Undying Mountain became part of Great Cloud Dynasty again.

The Five Great Families that had betrayed Great Cloud Dynasty quickly united and formed an alliance.

Great Cloud Dynasty sent an envoy to the Western World's Three Dynasties to request assistance. After weighing things, Western World's Warlocks agreed to send powerhouses to join forces with Great Cloud Dynasty and fight the abyssal fiends, kindreds, and other alien races.

There are many forces fighting in the continent, but Yang Feng's Undying Mountain has ceased all offensive activities, quietly accumulating strength.

Feisuo Plane.

Inside the divine country of Yang Feng's clone, there are only some ordinary petitioners living a happy and worry-free life.

In the center of the divine country, there is a 1,000-meters-tall divine mountain, placed at the top of which is an exquisite temple. This temple is where Yang Feng's clone resides.

Inside a secret room in the temple, a top grade warp gate flashed, and Yang Feng's true body appeared in the temple.

When Yang Feng appeared, he looked at his clone, smiled helplessly, and said: "My current situation is really bad! Except for a few evil gods, there are no gods willing to establish contact with me."

Although his clone in Feisuo Plane finally ignited his divine fire, ascended his divine country, and became a feeble divine force rank true god. However, he was still rejected by virtually all of Feisuo Plane's gods. None of the gods of the Four Empires has taken the initiative to become friendly with Yang Feng's clone. Only some evil gods with unknown intentions expressed interest in Yang Feng's clone.

Yang Feng doesn't dare to rashly associate himself with the evil gods. Or else if he makes a misstep, his feeble divine force rank clone may be killed by them.

Most evil gods are existences of the chaotic evil alignment, and many of them will go crazy in battle and kill everyone before them, regardless of friend or foe. Ordinarily, an association with them often involves schemes, massacres, and annexation.

Feeble divine force rank gods are the lowest rung among gods. When interacting with evil gods, if they don't look over their shoulder at all times, they will be devoured by the other party.

The corners of Yang Feng's mouth rose slightly: "Then let's start the plan!"

After these years of development, Red Earth Wasteland has been fully purified and turned into a land full of vitality.

At the same time, the first half blood beastman empire was established in Red Earth Wasteland. Katherine is the empress of the first half blood beastman empire.

Half Blood Beastman Empire, royal palace.

Sitting on the throne, the heroic-looking Katherine is quietly listening to the reports of many half blood beastman ministers.

At this time, Katherine who was just an ordinary lionman half blood beastman girl when she first met Yang Feng has grown into an enchanting woman and a remarkable talent.

Suddenly, light flashed, and a powerful divine force fluctuation filled the royal palace at once.

"It's Our Lord! Our Lord Ian!"

"This is the power of our Lord Ian!"

"..."

When the ministers inside the royal palace sensed the divine force fluctuation, they prostrated themselves on the ground and recited prayers.

With a thought, Yang Feng transmitted a message directly to Katherine's mind.

"Our Lord has passed down a divine decree! We are to prepare for a Holy War! With our flesh and blood, we shall become the sword in our Lord's hand! We shall spread the glory and faith of our Lord and kill all enemies who oppose our Lord!"

Katherine drew a Legend grade sword Sword of Glory, raised it high, released holy light, and shouted like a legendary hero.

"Holy War!"

"Holy War!"

"With our flesh and blood, we shall become the sword in our Lord's hand! We shall spread the glory and faith of our Lord and kill all enemies who oppose our Lord!"

"..."

Their eyes sparkling with excitement and fanaticism, the minister roared loudly.

Ever since Yang Feng rescued the many half blood beastmen from the Beastman Empire, most of the half blood beastman ministers have become Yang Feng's fanatics who regard his words as divine decrees. They are willing to do anything for him.

Chapter 709 – Battle Suits and Gauss Rifles

Feisuo Plane's underground world is the habitat of many dark races. In the underground world, there are undeads, liches, kindred, dark elves, dark dwarfs, arcanists, dark giants, fiends, devils, ogres, and all kinds of other extraordinary life forms suitable to leave in such an environment everywhere.

Heretics and criminals who have committed heinous crimes persecuted in the surface world go to the underground world to find a way to survive.

The surface world belongs to the sphere of influence of the lawful good alignment gods, while the underground world is the base of the chaotic evil alignment gods. Since the religions of numerous evil gods are spread in the underground world, there are many creatures dying tragically in the underground world almost every day.

There are countless passages leading to the underground world in the surface world. In Red Earth Wasteland, there is a huge crack called the Space Rift Grand Canyon leading to the underground world.

"These are the spiral stairs leading to the underground world! Interesting!" Riding a level-4 extraordinary life form Shadow Leopard, Yang Feng reached the spiral stairs, looked around, and exclaimed.

Behind Yang Feng follows a half blood beastman army extending without end. Equipped with black battle suits, holographic scanning helmets, and Gauss Rifles, the half blood beastman soldiers look quite strange.

Standing beside Yang Feng, the previously aloof Carolina of Turandot Subcontinent's Rose Garden said lightly: "Is it really okay for your true body to come here in person? The planar tide hasn't receded yet. Even if it's you, you can only display demigod rank strength in this world.

The corner's of Yang Feng's mouth rose slightly: "If you want to get something, you have to take the corresponding risk! Besides, our opponent is a powerhouse with a karma god armament. Even if I came with an avatar or a projection, the karma god armament can still severely injure me. Moreover, aren't you also here with me?"

Although Carolina chose to submit to Yang Feng, but she always aloof her wasn't willing to get too close to Yang Feng. However, with the help of Yang Feng, Cordelia who is his favorite concubine has already promoted to a Moonlight Warlock, surpassing her. Eunice who only had a level-1 Warlock rank cultivation base at the time has also already promoted to a Moonlight Warlock, which made her even more uncomfortable.

Consequently, the always arrogant Carolina voluntarily got close to Yang Feng, became one of his subordinates, and came to Feisuo Plane alongside him.

After seeing the prosperous Great Cloud Dynasty's Warlock civilization, the air of arrogance around Carolina became well hidden. She now has a higher goal, which is to promote to an Infinity Warlock. Only Yang Feng can help her realize this wish.

The former pope of Feisuo Plane's dark elves Glicedar hugged Yang Feng, blew a hot breath into his ear, and uttered flirtatiously: "That's right, master! With me here, we can easily deal with the dark elves in the underground world!"

Looking a little enviously at Glicedar, Carolina whispered: "Slut!"

Since the arrogant Carolina can't bring herself to employ the methods of seduction like Glicedar, she can only secretly vent her discontent.

"Who is that?"

"He is a divine emissary appointed by our Lord? The spokesperson for our Lord in the secular world! Reportedly it was him who brought these equipment!"

"There are so many beautiful women around him, how enviable!"

"Yes, those beauties are only slightly inferior to Her Majesty the Empress!"

"..."

Thanks to the holographic helmets, the countless half blood beastman soldiers clearly saw the beautiful women around Yang Feng despite the endless dark shrouding the underground world, showing looks of envy.

The spiral stairs are tens of thousands of meters long. After Yang Feng and his entourage passed through the muddy spiral stairs filled with caves, they finally came to the underground world.

“Who are you? This is the territory of the Kobold Lord! Hand over your women and iron tools, or else you will die!”

As soon as they entered the underground world, more than 200 kobolds in ragged clothes, with old swords, iron shovels, and wooden sticks immediately encircled Yang Feng and his party, glared at them, and barked.

Yang Feng looked at the kobolds in front of him, speechless: “Are these kobolds brain-dead? We have so many people here!”

Glicedar said with a fascinating smile: “They don’t know about the new equipment that you gave to your subordinates, Master! The fighting strength of heavily armed soldiers and unarmed ordinary people is not on the same level. This is the root of their erroneous judgment!”

“The dark elf! Hand over the dark elf, otherwise, I will hack you to death!”

A two-meter-tall, two-headed kobold with bulging muscles, a savage temperament, and a 2.5-meter-long machete walked out and stared at Glicedar with greed in his eyes.

The other kobolds looked at Glicedar and couldn’t help but swallow, their eyes filled with avarice.

The dark elves are one of the races that are most adept at charming people. As the former pope of the dark elves, Glicedar’s every move carries infinite charm. She naturally isn’t an existence that these low-level kobolds can resist.

Yang Feng smiled faintly and ordered: “Let’s use them to temper out troops! Angy, take some people and kill them all!”

“Yes! Sir Divine Envoy!”

A concise and capable voice came out from behind, and then a half blood beastman female general equipped with a skin-tight black battle suit and a holographic scanning helmet, with a sexy figure, shouted: “Attack!”

300 half blood beastman female soldiers with curvy figures took out Gauss Rifles and fired at the more than 200 kobolds.

Thumb-sized beams suddenly slammed into the more than 200 kobolds.

The beams that hit the kobolds blasted open fist-sized bloody holes.

“I’ll kill you!”

The two-headed kobold suddenly let out a roar and released Sky Knight (level-1 Warlock) rank aura. He has just taken a step forward, when seven or eight fist-sized bloody holes appeared on his body and his two heads burst burst apart.

It didn’t take long for the 200 plus kobolds to die in battle. But Yang Feng suffered no casualties.

“What an awesome weapon!”

“It’s really amazing!”

“As expected of a weapon bestowed by the divine emissary, it’s really powerful!”

“...”

Seeing this scene, the blood of the half blood beastman soldiers boiled, and excitement welled up inside them. For soldiers, nothing is more important than a formidable weapon.

If it was before, the half blood beastmen would have to pay a certain price to wipe out the 200 plus kobolds, and some of them might have even died. But in front of the Gauss Rifles, the kobolds could not withstand a single volley, which filled the half blood beastmen with excitement.

A line of information flashed in Yang Feng’s eyes, and he revealed a smile, looked in a certain direction of the dark underground world, and said flatly: “The Kobold Lord? Then is that the gathering place of kobolds? Since it’s on the way, then let’s destroy it!”

With a wave of Carolina’s hand, the seeds of the extraordinary plant Earth Sunflower suddenly flew out and landed on both sides of the road.

As soon as those Earth Sunflower seeds fell on the ground, they grew rapidly. By absorbing the negative energy of the underground world, they soon bloomed and formed sun-like flowers.

Earth Sunflowers are a kind of extraordinary plant discovered in the underground world of an unusual plane. It can absorb the negative energy of the underground world to grow and radiate sunlight. Earth Sunflowers are the most common type of plant Warlocks use to change the environment of Cangzhi Plane’s underground world.

Consequently, dark races will destroy Earth Sunflowers whenever they see them.

Dark brings many advantages and boosts to the dark races. Although Earth Sunflowers have no power, but they create an environment full of sunshine, which greatly weakens the power of the dark races.

Moreover, one of the magical characteristics of Earth Sunflowers is that they can attract countless extraordinary insects through phototaxis. As such, ordinary freaks may need to pay a bloody price if they want to destroy these flowers.

In the underground world, the most terrifying enemy are the elusive poisonous insects that roam everywhere. Without a special insect repellent, even a Legend rank powerhouse will be eaten by those poisonous insects if careless.

For an ordinary army, marching to the underground world is a nightmare. In Feisuo Plane’s history, there was once a human emperor who sent a million troops to attack the underground world in an attempt to conquer the dark races of the underground world. Before the expeditionary army could have a decisive battle with dark elves and other dark races, it collapsed due to epidemic, poisonous insects, and logistics problems. Only 200,000 soldiers escaped from the underground world.

After that war, the underground world became the default sphere of influence of Feisuo Plane's dark races. Since then, there has never been a human emperor foolish enough to send an army to the underground world.

After Yang Feng's half blood beastman army left the spiral stairs, they walked for about 20 kilometers. When passing through a mushroom forest, they suddenly heard buzzing sounds coming from the mushroom forest, and a swarm of black poisonous insects rushed towards Yang Feng and his party.

Yang Feng ordered: "Nina!"

"Yes! Sir Divine Envoy!"

A half blood beastman general with nice curves, wearing a black battle suit, carrying a large box on her back, came forward and gave an order: "Begin the attack!"

The boxes on the backs of 300 half blood beastmen opened and revealed loudspeakers.

Chapter 710 – Slaying an Avatar of the God of Kobolds

The loudspeakers suddenly emitted infrasonic waves. The 300 infrasonic waves superimposed on each other, and a queer infrasonic wave humans cannot hear, yet deals great damage to insects suddenly spread out and enveloped the small extraordinary insects.

Enveloped by the queer infrasonic wave, the small extraordinary insects fell from the sky like raindrops, convulsed, and died.

With the infrasonic wave team clearing a path, Yang Feng and his army advanced forward. The small extraordinary insects that rushed towards this army died.

For an expeditionary army, those small extraordinary insects that have no end and are difficult to guard against are the most troublesome existence. As for large extraordinary insects, powerhouses will naturally dispose of them.

There is a kobold tribe surrounded by a wooden fence. At the entrance, there are wooden stakes inserted in the ground, each of which has the body of a human, goblin, or other races suspended on them.

However, the kobold tribe surrounded by the fence is extremely vast. At first glance, it seems to occupy an area of tens of square kilometers.

Teams of heavily armed kobolds guards are patrolling the wooden fence. When they saw Yang Feng and company appear, ear-piercing horns sounded in the tribe.

The entire kobold tribe was set in motion at once, and countless kobolds roared and rushed this way.

"Kobold Lord, come out!"

Arlet, a beautiful general Yang Feng subdued in Black Dragon Country spurred her mount forward, pointed at the tribe with the weak divine force grade god armament Black Dragon God's Spear in her hand, and shouted loudly.

“Dragonborn, this is a kobold nation! You foreigners aren’t welcome here. Get out, or else we will hang you and make you into jerky!”

A demigod rank fluctuation of power rose from the tribe, and a 3-meter-tall Kobold Lord covered in black fur, carrying a huge wolf tooth club, with rippling muscles and a crimson light flashing in his eyes, jumped out of the gate of the tribe and smiled ferociously at Arlet.

Yang Feng glanced at the Kobold Lord and analyzed him: “Demigod rank powerhouse! It seems that God of Kobolds Vega gave him divinity, enabling him to gain the power to protect the kobolds during the planar tide.”

Feisuo Plane’s planar tide isn’t over yet. Even if a Holy step Holy Spirit Warlock came to this plane, their cultivation base would be suppressed to merely the pinnacle Starry Sky Warlock rank. Only Warlock Emperor rank powerhouses can ignore a plane’s rules.

During a planar tide, it is the time most chaotic in a plane, the time when the gods’ faith is the most in danger. Normally, the gods strictly control the number of demigod rank powerhouses that appear among their subordinates. After all, once a demigod rank powerhouse is born, they will compete with the god for resources.

But under the threat of the planar tide, the gods can only use various methods to give rise to more demigod rank combatants among their subordinates in the secular world.

The corner’s of Yang Feng’s mouth rose slightly: “Unfortunately he’s still far behind Arlet in terms of strength!”

“Die!”

A Six-headed Black Dragon God projection suddenly appeared behind Arlet. Then her figure blurred into afterimages, and she instantly appeared behind the Kobold Lord.

“You...”

Dumbfounded, the Kobold Lord managed to utter a word before his body split apart, and a copious amount of blood splattered out.

Yang Feng said with a smile: “Now that Arlet is a Glorious Sun Warlock with Six-headed Black Dragon God bloodline, it couldn’t be easier for her to kill a mere Kobold Lord.”

After Arlet submitted to Yang Feng, she has been serving Yang Feng, who in her mind is a dragon god, wholeheartedly. Therefore, Yang Feng injected Six-headed Black Dragon God bloodline essence he obtained into her and turned her into a Six-headed Black Dragon God Bloodline Warlock with terrifying potential.

Six-headed Black Dragon Gods can evolve into Warlock Monarch realm powerhouses at most. If they can break the bloodline shackles, then they can evolve into Nine-headed Black Dragon Gods, and will even have a glimmer of hope of promoting to Holy Spirit Warlock rank existences. Of course, it is fundamentally impossible for them to evolve into Warlock Emperors.

For Bloodline Warlocks, only the bloodline of some primordial dragons can give them a glimmer of hope to evolve into a Warlock Emperor rank powerhouse.

Carolina looked at Arlet with a trace of envy in her beautiful eyes. Arlet submitted to Yang Feng after her, yet her position is now far above her's, leaving her rather agitated.

"The king is dead!"

"The king is dead!"

"..."

When the kobolds saw that Arlet killed the Kobold Lord, they all panicked and fled.

Yang Feng said lightly: "Arlet, I'll leave you in charge!"

"Yes! My Lord!"

Arlet replied respectfully, and then quickly began to issue a series of orders.

The half blood beastman army armed with battle suits and gauss rifles darted into the kobold tribe and started killing all the kobolds that stood in the way.

"My Lord Vega! Your humble servant offers a sacrifice to you. Please showcase your divine power and destroy these invaders!" A kobold shaman with a withered face and a scepter in hand knelt before an altar with an idol of God of Kobolds Vega and supplicated loudly.

In front of the altar stood a dozen plus female kobolds, a pair of female dark elves, two female kindred, seven female dark dwarves, and one female human.

Kobolds are said to be a race born of the union of an Immemorial Red Dragon and a dog, and they possess a trace of Immemorial Red Dragon bloodline. They inherited the licentiousness of dragons. God of Kobolds Vega is not only interested in female kobolds, but is also interested in females of other races.

Along with the prayers of the kobold shaman, the idol of God of Kobolds Vega trembled, and a gold beam of light shot out of nowhere and landed on the idol.

When the idol absorbed the gold beam, as if it came to life, it walked down the huge altar. Its dog eyes flashed with gold light, and it released divine might that enveloped the entire kobold tribe.

Under the suppression of Vega's divine might, almost all half blood beastman soldiers in the tribe revealed looks of terror in their eyes. Unable to control their bodies, they knelt on the ground, shivering. Only half blood beastman officers with level-1 Warlock rank cultivation base or higher barely managed to resist the pressure from the divine might with the help of the battle suits.

"Sure enough, the battle suits still cannot resist the divine might of gods. However, if divine might of gods was so easy to resist, then gods would not have such a lofty status."

Yang Feng swept the half blood beastman soldiers armed with battle suits with a glance, and then his gaze fell on Vega.

"Lowly half blood beastmen, this tribe is under my, the mighty God of Kobold Vega's, protection! Screw off! Otherwise, I will personally take action and send you to hell!" Vega released an angry roar, and the fearsome divine might intensified. Many of the half blood beastman officers who had persisted knelt on the ground.

Yang Feng swept Vega with a glance and said coldly: "A mere feeble divine force rank god who doesn't even has his own divine country wants to compete with the great Lord Ian! You're overestimating yourself! Vega, my Lord has founded his own pantheon! Join my Lord's pantheon and become his god servant! Otherwise, this avatar of yours shall fall here!"

Vega who doesn't even has his own divine country belongs to the ranks of the weakest gods. Yang Feng doesn't care about such a god.

"How bold! Ian is just a feeble divine force god who has promoted to a true god less than 100 years ago! To want me to submit, that's delusional! You are just a divine envoy, yet you dare to speak like that to a true god! Go to hell!" A fierce gleam in his eyes, Vega roared and fired a pillar of fire from his maw barreling towards Yang Feng.

Before this divine force pillar of fire, even a demigod rank powerhouse will be easily burned to ashes.

"How weak! As the god of a weak race, is this the strongest attack your avatar can muster? It's too weak! This is the sorrow of gods of weak races!"

Yang Feng pointed with a finger, and a black vortex appeared in front of him and easily devoured the pillar of fire.

Dumbfounded, Vega said: "How is this possible? You didn't even use divine force, how could you defend against my pillar of fire!"

Following an afterimage, Arlet appeared behind Vega in the wink of an eye and stabbed him in the heart with the Black Dragon God's Spear, and a formidable force erupted in an instant and annihilated Vega's avatar.

"Fate Algorithm!"

Yang Feng silently recited an incantation and pointed with a finger, and a gold ray flew out and fell into his hand. Information from the gold divinity entered his sea of knowledge.

The corner of Yang Feng's mouth rose slightly: "Found you!"
