Chapter 881 – Vajra Transcendent

t

Yang Feng took a look at Polent, and a wisp of Infinity Warlock rank might pressed on Polent like a mountain.

Polent's complexion changed greatly. As if bearing a huge mountain, he sank into the ground with a rumble.

Yang Feng replied: "You are not qualified to talk to me, have the primary god you believe in come speak to me!"

The complexion of Polent, who had been confident in front of Root III a few moments ago, changed drastically, and he became somewhat servile and said: "Yes, Your Majesty. I have now connected with the mighty primary god."

On Polent's forehead, the imprint that represents a god's darling shone and established a connection with some incredible space via an invisible rule. From that space, endless divine might spilled out and covered the hall.

Consequently, the countenance of the ordinary people in the hall changed drastically, fear arose inside them, and they prostrated themselves on the floor, trembling all over.

The dozens of bodyguards also prostrated themselves on the floor, shivering all over.

Gold light emerged from that space and, with Polent as the vessel, formed the three-meter-tall, blond Vajra Transcendent emitting strong divine force grade fluctuations of power.

The Vajra Transcendent glanced at Yang Feng with a frigid ray in his eyes and said coldly: "I am Vajra Transcendent, a guardian of this world! Outsider, this world is under our protection! Get out of here!"

"To dare talk to me like this, it seems that you have already recovered your strong divine force rank power. However, it isn't like I have never killed strong divine force rank gods before."

Yang Feng's eyes flashed with cold killing intent. He spread the fingers of his hand, and a huge hand appeared out of thin air and shot towards the Vajra Transcendent.

"Lowly outsider, die!"

The Vajra Transcendent's projection became furious at once. He bellowed, turned into a huge, radiant hand, and barreled towards Yang Feng.

Boom!

A powerful shockwave burst the hall apart. Yang Feng's huge hand smashed the Vajra Transcendent's huge hand, and then slammed into the Vajra Transcendent's projection and shattered it.

"Petty outsider, I will remember you!"

At the moment before the Vajra Transcendent's projection collapsed, he issued an angry roar, and gold light suddenly formed a golden brand that barreled towards Yang Feng.

"I'm not the same as before!"

Yang Feng's eyes flashed with enigmatic light. He flicked a finger, and a mass of Seven Color Skyfire suddenly flew out and shot towards the gold brand.

Before the gold brand could get near Yang Feng, it was burned by the Seven Color Skyfire.

After Yang Feng advanced to the supreme Infinity Warlock realm, he became able to contend against some weak Warlock Monarchs. Consequently, unless they possess a heaven-defying divine armament, it is almost impossible for the tracking brand cast by a strong divine force rank god to stick to him.

Yang Feng extended his hand and grasped a gold divinity from the Vajra Transcendent's projection that still hasn't dissipated.

The True God Emyrean Imprint suddenly flew out, and Yang Feng threw the gold divinity into the imprint.

As a secret method that was developed from the Emyrean grade secret method the Transcendent Text, the True God Emyrean Imprint is most effective against gods, fiends, archdevils, and other Transcendent creatures.

As soon as the gold divinity was sealed by the True God Emyrean Imprint, Yang Feng obtained a lot of information.

Yang Feng glanced at Root III and company and asked flatly: "I am Yang Feng, emperor of the Holy Moon Empire. Do you surrender, or die?"

In the fight with the Vajra Transcendent's projection just now, if Yang Feng hadn't protected them, none of these ordinary people would have survived.

Root III's complexion changed a few times. Finally, he sighed unhurriedly, prostrated himself on the ground, and uttered: "The Reganha Empire is willing to submit unconditionally to Your Majesty and obey your will."

"I'll send someone to take over the Reganha Empire."

Yang Feng's eyes flashed with the shade of satisfaction, and he disappeared with the wind, leaving only this sentence behind.

In the vast starry sky, Yang Feng looked up at the stars in the sky, and a cold color flickered in his eyes: "I already scanned this entire world once, yet wasn't able to find any trace of him. In that case, there is only one possibility, that is, he must be hiding in a divine country, which blocks the scanning."

When the Warlock Monarch rank red rhombus race powerhouse was escaping, he was locked by the Starfield Battlestar with a special method. As long as he is within a certain distance, the red rhombus race powerhouse cannot break away from the Starfield Battlestar's locking.

Of course, in the vast universe, there are countless powerful and mysterious things. The Gumana Universe must have formidable secret methods and secret treasures that can block the locking of the Starfield Battlestar.

But if the red rhombus race powerhouse had the ability to get rid of the locking of the Starfield Battlestar, he should have done so earlier when he was being chased, instead letting himself being chased by Yang Feng, cutting a sorry figure.

In this world, only divine countries of gods, which contain countless mysteries, can block the locking of the Starfield Battlestar.

A divine country is the foundation of a god in a plane, and takes countless years to be refined.

The longer a god lives, the more resources they will invest in their divine country and the more powerful their divine country will be. The divine country of a feeble divine force rank god who has lived for 1 million years, even if it is an intermediate divine force rank god, they wouldn't dare to enter it lightly.

Gazing at the stars suspended in the sky, Yang Feng's eyes flashed with cold killing intent: "If you dare to shelter the scoundrel from the Gumana Universe, I will destroy you!"

The Starfield Battlestar slowly emerged from the void and opened its gates, and Blazing Sun Battlestars, Star Destroyer Battlestars, and Interstellar Carriers flew out of the Starfield Battlestar.

Warp gate technology is one of the most formidable technologies mastered by the xizu. The most remarkable feature of warp gate technology is that as long as you have a warship with a warp gate installed somewhere, after a while, many xizu warships and armies will emerge there.

When the huge fleet emerged, it flew directly into the starry sky.

Before long, the huge fleet appeared in a vast expanse with no stars.

The main artillery of the Starfield Battlestar shone, and a bright column of light slammed into empty space.

All of a sudden, ripples rose, and an extremely large celestial body appeared in the previously empty space.

The celestial body sparkled suddenly, and a brilliant barrier containing the law of vajra appeared around it. The column of light slammed into the formidable barrier.

The formidable barrier containing law of vajra collapsed and crumbled. When the first layer of the barrier collapsed, a second layer emerged.

After the column of light penetrated through nine layers of the barrier, its power was exhausted, and it dissipated.

The huge fleet shone, and a dense rain of beams fired by secondary artillery slammed into the barrier containing the law of vajra and raised ripples, but they couldn't even break one layer of the barrier.

"As to be expected from the divine country of a strong divine force rank god, a strong divine force rank god proficient in defense to boot. With the current force, it will take at least several decades to break

into the divine country. Despite being wrecked by the Dark Transcendent King once, the divine country is still so formidable. If it was before he was injured, the Vajra Transcendent could be regarded as a top existence among strong divine force rank gods.”

Yang Feng looked at the Vajra Transcendent’s divine country as it was bombarded by a rain of beams with a queer flash in his eyes and quickly analyzed.

A divine country is the ultimate means of defense of a god.

As such, the best way to kill a god is to destroy their churches and slay their believers in the secular world. In this way, you can force the god out of their divine country to fight.

However, even if all intelligent life forms of their world die, the god will only weaken gradually. With the divine force crystals they accumulated over the years, they can live for hundreds of even 1,000 years. Therefore, if you have to deal with a god as quickly as possible, the best way is to destroy their divine country, or slay them inside their divine country using absolute strength.

Although Yang Feng knows of the best ways to deal with a god, but he cannot execute them. He can only choose to deal with the god as soon as possible within his means. Because once the Warlock Monarch rank red rhombus race powerhouse fully recovers and restores his full strength, Yang Feng won’t be able to slay him any longer.

Yang Feng waved his hand, and a swarm of Devourers flew out and stuck to the barrier of the Vajra Transcendent.

The swarm of Devourers quickly devoured the divine force and law force within the barrier and eroded large holes in the barrier.

Only five minutes later, the barrier around the Vajra Transcendent’s divine country dissipated, exposing the interior of the divine country to Yang Feng’s army.

The Devourers’ devour force is terrifying. If the Vajra Transcendent keeps opening the barrier, his reserve of divine force crystals will be depleted in three days. Without the reserve of divine force crystals, the fighting strength of the Vajra Transcendent will weaken by more than half. After weighing up things, he gave up on opening the barrier resolutely.

Chapter 882 – Defeating the Divine Legion

“Is this the divine legion subordinated to the Vajra Transcendent? Interesting!”

Outside the divine country, Yang Feng looked towards Vajra Transcendent’s divine country and saw that there are 10-meter-tall, humanoid weapons engraved with vajra runes and exuding gold light everywhere in the divine country.

Angels are the most popular type of weapon of the gods. No matter what kind of environment, gods can use different Angel Pools to create different types of angels.

But angels are not the only weapons gods use. In the Feisuo Plane, the Titan Pantheon’s gods like to use the Martyr’s Halls’ martyrs instead of angels.

The Titan Pantheon's Martyr Halls serves to reincarnate the souls of the Titan Empire's deceased heroes into martyrs. Martyrs not only possess the combat memory from before they died, but can also fight in the Martyr Halls and improve their strength.

Martyrs that are released from the Martyr Halls possess far greater fighting strength and growth rate than angels. The only drawback is that martyrs need to consume much more resources than angels to be cultivated and maintained.

Clearly, the Vajra Transcendent has obtained the manufacturing method of another type of weapon, and then produced these humanoid weapons that are similar to giants and are engraved with mysterious runes.

"Attack!"

With a thought from Yang Feng, a swarm of strengthened 4th generation battle robots stormed the Vajra Transcendent's divine country like a tide.

Interstellar Probes took the opportunity to fly into the divine country as well.

When the Interstellar Probes flew into the divine country, countless tentacles extended from them, and they dispersed in all directions. As soon as the tentacles appeared, they began to analyze the circumstances of the divine country.

As a top interstellar scouting unit, the purpose of Interstellar Probes is not only to search for enemies and resource celestial bodies, but also to analyze structure of celestial bodies and evaluate the combat power of enemies.

"The Vajra Transcendent's divine country, 43.6% intact, embedded with the law of vajra. Gods who grasp the law of vajra possess far greater defenses and more formidable resistances than ordinary gods. Their weakness is that their movement speed is generally lower than that of other gods in the same realm."

A string of information was fed back by the Interstellar Probes.

Yang Feng said with a faint smile: "43.6% intact, this means that the Vajra Transcendent's divine country has still not recovered from the attack of the Dark Transcendent King. I expected as much."

These days, Yang Feng collected information about the mythological era of this world to verify the veracity of the intelligence he obtained from the Spectral Wolf Transcendent. According to the information he collected, the Three Transcendent Kings were indeed severely injured by the Dark Transcendent King and their divine countries were nearly shattered

Although a divine country is the final fortress of a god, but there is a limit to how much it can bear. The Dark Transcendent King is a quasi-Holy step peerless powerhouse. If it wasn't for the fact that the Three Transcendent Kings aren't ordinary strong divine force rank gods, their divine countries would have been destroyed, and they would have been slain by the Dark Transcendent King.

Although a divine country is sturdy and has all kinds of incredible extraordinary powers. However, it is quite hard to restore it. A lot of divine force crystals need to be consumed.

It has been less than 100 years since the Transcendent Church was reactivated. The faith force the Vajra Transcendent gathered in this period of time is not worth mentioning. Even though the Vajra Transcendent has his belief spread to other planes and can harvest divine force crystals from those planes, but it is still impossible to obtain a lot of divine force crystals in a short time.

It was on this basis that Yang Feng launched an attack on the Vajra Transcendent's divine country without hesitation.

With Type III Undyings as the vanguard, the dense swarm of 4th generation battle robots almost instantly appeared in front of the Vajra Transcendent's divine legion and slashed at the giant-like weapons.

Along with the piercing sound of blades slashing, the giant-like weapons were cut into pieces by the Type III Undyings, and a large amount of gold blood spilled onto the earth.

"How can this be! Damn it, my vajra giants possess a much greater defense than angels. How can they be so easily chopped up by those golems?!"

In the center of the divine country, in a gold hall, the countenance of the Vajra Transcendent, who exudes a frightening breath, changed greatly, and he roared wildly.

The loud voice reverberated in the gold hall and formed powerful shock waves. If a Starry Sky Warlock heard the Vajra Transcendent's roar, they would be easily shaken to pieces.

The vajra giants are weapons the Vajra Transcendent forged using a special method. The defense of each vajra giant is tyrannical. Even if it is a feeble divine force rank god, they need to spend a lot of divine force to slay them.

Yet the vajra giants were easily chopped into pieces by the Type III Undyings. This filled the Vajra Transcendent with anger and a trace of fear.

This world's God of War, shining with brilliant light and exuding intermediate divine force rank fluctuations of power, came forward and said in a deep voice: "My Lord, please let me go out and slay your enemies!"

The Vajra Transcendent looked around. In the once full of gods shrine, only the God of War remains. The rest of the gods either died at the Dark Transcendent King's hands or fell into a deep slumber.

"Let's go together and kill that outsider!"

Cold light shimmered in the eyes of the Vajra Transcendent, and he raised the strong divine force grade divine armament the Vajra Scepter high and frantically burned divine force.

In the divine country, countless rays of divine light shine, and all the powers in the divine country were extracted and transformed into vajra law force.

The vajra runes on the vajra giants shone and enveloped the surroundings in gold light.

This time, when the Type III Undyings slashed the vajra giants with their swords, they only managed to cut open huge wounds. They cannot cut the vajra giants into two instantly.

Those vajra giants formed a battle line. With a huge wolf tooth club in their hands, they blasted the Type III Undyings into pieces.

At the same time, the wounds of the vajra giants were healed rapidly by the gold light.

When the God of War appeared on the battlefield, he burned divine force and waved the divine armament the Sword of the God of War in his hand, and, with him as the core, auxiliary divine spells enveloped an area 10,000 kilometers in radius and blessed the vajra giants.

The speed, defense, and resilience of the vajra giants, who were blessed by a number of auxiliary divine spells, increased by a level.

Yang Feng looked at the vajra giants, whose fighting strength increased again, with a cold smile: "Unfortunately, no matter how much they improve, the essence of the vajra giants is still far too lacking. They are not an opponent of my mechanical legion."

The fighting strength of each vajra giant is infinitely close to the Starry Sky Warlock realm, while their defense even surpasses that of many Starry Sky Warlocks.

However, the strengthened 4th generation battle robots, each of which possesses tyrannical fighting strength, are comparable to Moonlight Warlocks. In essence, they are far superior to the vajra giants.

Millions of 4th generation battle robots swarmed into the Vajra Transcendent's divine country and frantically besieged the Vajra Transcendent's vajra giants.

The Vajra Transcendent, who has recovered not long ago, has only managed to produce 300,000 vajra giants.

Under the siege of the millions of 4th generation battle robots, the 300,000 vajra giants were crushed at every moment.

Meanwhile, the countless parts of Type III Undyings, who were destroyed by vajra giants, combined automatically and formed new Type III Undyings that continued to attack and tear the vajra giants to pieces.

There was a bellow, and the Vajra Transcendent turned into a fearsome giant 10,000 meters tall, rushed into the midst of the 4th generation battle robots, and slammed the 10,000-meter-long wolf tooth club in his hands into the 4th generation battle robots.

Boom! Boom! Boom!

Tremendous explosions fell incessantly. The Vajra Transcendent looks like an invincible being. With every strike, which contains the law of power, he blasted 4th generation battle robots into powder. After being pulverized, the Type III Undyings were no longer able to form anew.

Within a dozen plus breaths of time, thousands of 4th generation battle robots were destroyed by the Vajra Transcendent.

Yang Feng, with a cold gaze, proceeded to order the 4th generation battle robots to besiege the Vajra Transcendent and the intermediate divine force rank God of War.

Besieged by countless 4th generation battle robots, the light surrounding the God of War dimmed.

Although gods possess tremendous battle prowess, but they also have weaknesses, that is, they need to burn a lot of divine force crystals to maintain their peak condition.

Since this world's God of War and the Vajra Transcendent woke up not too long ago, their reserves of divine force crystals are quite lacking, which resulted in the current state of affairs.

If it was a god with a divine country that has been active for tens of thousands of years, it would be virtually impossible to make them use up their divine force crystals in a short period of time.

Six minutes later, the main artillery of the Starfield Battlestar in the sky shone and fired a brilliant column of light that blasted into the Vajra Transcendent.

With a furious roar from the Vajra Transcendent, he crazily burned divine force, countless runes emerged from the divine country, and an endless power entered his body.

Chapter 883 – Capturing the Vajra Transcendent

After the column of light fired by the Starfield Battlestar's primary artillery dissipated, the 10,000-meter-tall Vajra Transcendent, with half of his body missing, emerged.

A large amount of blood scattered on the earth.

Upon seeing this scene, Yang Feng praised in admiration: "As you would expect from the Vajra Transcendent famous for his defense, what a frightening defense."

The main artillery of the Starfield Battlestar can slay Warlock Monarch rank powerhouses. The Gumana Universe's Warlock Monarch rank powerhouse didn't dare to block the beam fired by the main artillery of the Starfield Battlestar head on.

For the Vajra Transcendent to eat an attack from the main artillery of the Starfield Battlestar and not die, this is simply incredibly.

Engines boomed, and a swarm of 4th generation battle robots flew to the Vajra Transcendent and brandished their blades.

Ding! Ding! Ding! Ding!

The sound of metal striking metal rang, as the blades of the Type III Undyings, which can even injure a Warlock Monarch, couldn't even split open the Vajra Transcendent's skin.

However, most of the Type III Undyings drilled into the wounds left by the main artillery of the Starfield Battlestar and chopped with their blades frantically, ripping the Vajra Transcendent's wounds further open.

"Outsider, I'm going to kill you!"

With a roar, the Vajra Transcendent erupted with a fearsome force field that flung the Type III Undyings away and, while exuding a fierce breath, rushed outside the divine country.

The Vajra Transcendent is aware that his strength will drop by several times once he leaves the divine country. However, if he stays inside the divine country, after his divine legion is completely annihilated, it is only a matter of time before he and the God of War will die.

The only way for the Vajra Transcendent to survive is to destroy the Starfield Battlestar and kill Yang Feng.

“My Lord!”

With a roar, the God of War burned a small amount of divine force crystals and turned into the Sword of the God of War.

The 4th generation battle robots blocking in front of the God of War were slashed into pieces.

Lightning, ice cones, gravity spheres, light beams, and other attacks rained on the Sword of the God of War and shook it, and gold blood dripped from it.

Moonlight Warlock rank powerhouses, who are already Transcendents, can even injure Warlock Monarch rank powerhouses.

Attacked by countless 4th generation battle robots, which is equivalent to being besieged by Moonlight Warlocks, the God of War naturally sustained considerable damage.

With a flash of a brilliant sword ray, the Sword of the God of War broke through the siege of the 4th generation battle robots and appeared outside the divine country.

Yang Feng sneered: “Idiots, you could have persisted for a long time in the divine country. Attack!”

Various doors opened on the Starfield Battlestar, and a swarm of 5th generation battle robots flew out and shot towards the Vajra Transcendent and the God of War like a sharp spear.

In a flash, the God of War was besieged and torn to pieces by a dozen plus Bright World Warlock rank Dazzling Light Units.

Brilliant Star Hunters hacked at the Vajra Transcendent with their blades and cut open wounds of different sizes on his body.

The Vajra Transcendent roared wildly and slammed the wolf tooth club in his hands into Brilliant Star Hunters, Dazzling Light Units, and other 5th generation battle robots.

The movement speed and reaction of 5th generation battle robots is far higher than those of 4th generation battle robots. As a result, each time the Vajra Transcendent attacked with all his might, he only managed to destroy a dozen plus 5th generation battle robots.

The swarm of 5th generation battle robots enveloped the Vajra Transcendent like ferocious army ants.

Countless explosions took place, a large amount of gold blood drifted in the area, and the Vajra Transcendent’s roars rang.

The fierce battle lasted for three minutes before the Vajra Transcendent, with his limbs severed and his body heavily mutilated, was captured by the 5th generation mechanical legion and brought to in front of Yang Feng.

“Vajra Transcendent, we meet again.”

Sitting on a bridge, Yang Feng looked at the Vajra Transcendent, who returned to his human form, and spoke with an enigmatic smile.

The Vajra Transcendent swept Yang Feng with a glance, disdain shimmered in his eyes, and he sneered: “Wretched human Warlock, can you do anything besides relying on golems to fight?! If you have the ability, come to my divine country and fight me. I will acknowledge you if you defeat me in my divine country.”

“Acknowledge me? I already defeated you! I don’t need you to acknowledge me, I just need you to obey and serve me!”

Yang Feng sneered, silently recited an incantation, and pointed with a finger.

The True God Empyrean Imprint suddenly appeared, and then countless runes emerged from the imprint and formed rune chains that stabbed into the Vajra Transcendent.

Although the Vajra Transcendent snarled and struggled wildly, but he couldn’t resist the erosion of the True God Empyrean Imprint.

The True God Empyrean Imprint is a secret method based on the Transcendent Empyrean Imprint. The Transcendent Empyrean Imprint is a unique secret method recorded in the Transcendent Text customized to control Transcendent rank existences. No matter how much the Vajra Transcendent struggled, he couldn’t break from from the erosion of the runes, and was ultimately eroded completely.

“Greetings, master!”

A quarter of an hour later, the eyes of the previously rebellious and domineering Vajra Transcendent surged with a dull shade. Following flashes of light, his severed limbs flew back and reattached. He got up and saluted Yang Feng coldly.

Originally, even if he was to be killed, the proud Vajra Transcendent would never surrender to Yang Feng. However, after he was severely injured, he was eroded by the True God Empyrean Imprint. Finally, because control runes were set up in his body, he could only submit to Yang Feng powerlessly.

The Transcendent Lord is a peerless genius, and the Transcendent Text he created is extremely formidable and has all kinds of miraculous extraordinary abilities. The Transcendent Empyrean Imprint, which is recorded in the Transcendent Text, is the nemesis of Transcendent existences.

At the time, by relying on the power of the Transcendent Empyrean Imprint, the Transcendent Lord swept the world. In his wake, Transcendents either submitted, or escaped into the universe.

When the Transcendent Lord was at his peak, there were twelve supreme gods under his control.

Supreme gods can only be born in grade 2 planes or higher. Once a supreme god is born in a grade 2 plane, the plane will no longer be able to birth other gods, and the divine force and laws of the plane will fall under the control of the supreme god.

Each supreme god is comparable to a Great Holy step powerhouse in terms of battle prowess. In their divine country, some of the most powerful supreme gods are even as powerful as Warlock Emperors.

At the time, the Time Lord and the Taboo Lord had no supreme gods under their control, which shows how formidable the Transcendent Lord was.

The True God Empyrean Imprint was derived from the Transcendent Empyrean Imprint. Naturally, it has a powerful restraining effect on all kinds of Transcendents. Even a strong divine force rank god like the Vajra Transcendent could not resist it.

Yang Feng looked at the Vajra Transcendent stand respectfully in front of him and smiled.

At the time in the Feisuo Plane, a strong divine force rank god was already an unreachable and incomparable existence in Yang Feng's eyes. But now, a strong divine force rank god has become his servant.

Yang Feng asked: "A few days ago, a powerful outsider entered this world. As a guardian of this world, do you know where he went?"

Yang Feng came to this world with the purpose of slaying the Warlock Monarch rank red rhombus race powerhouse.

The Vajra Transcendent thought for a moment, and then replied: "The Six-eyed Transcendent, he entered the divine country of the Six-eyed Transcendent."

When the red rhombus race powerhouse was being chased by Yang Feng, he plunged into this world without restraining his breath. Such a strong existence could not escape the senses of the Vajra Transcendent, a guardian of this world.

In a world protected by gods, the gods are part of the laws of the world. Even formidable Warlock powerhouses have to use secret methods to mask their breath and soul if they want to sneak into a world protected by gods.

When Yang Feng sneaked into this world, he masked his breath and soul, incarnated into Georges, and started analyzing the laws of this world.

Yang Feng asked: "What are the coordinates of the Six-eyed Transcendent's divine country?!"

Two gold rays shot out from the Vajra Transcendent's eyes and formed a gold sphere in Yang Feng's hand.

Yang Feng pinched the gold sphere, and the coordinates of the Six-eyed Transcendent's divine country appeared in his sea of knowledge.

Yang Feng ordered decisively: "Set out, the target is the divine country of the Six-eyed Transcendent."

Countless battle robots flew out from the Vajra Transcendent's divine country and entered the fleet.

A Bright World Warlock rank Dazzling Light Unit flew to Yang Feng and handed him the godhead of the God of War and the divine armament the Sword of the God of War.

The great fleet flew into the sky and soon appeared before an astral body.

"I am the Goddess of the Earth and this is the Six-eyed Transcendent. Outsider, this world is guarded by us. May I ask what brings you here?"

A blond, sexy, gorgeous woman exuding a kind and gentle breath and a Transcendent with a ferocious face and six eyes suddenly appeared in the starry sky and blocked in front of Yang Feng's fleet.

"Esteemed Goddess of the Earth, I came here in pursuit of a savage Transcendent from another universe. He escaped into the divine country of the Six-eyed Transcendent. Hand him over and I will leave this world."

With a flash, a holographic projection appeared in front of the two strong divine force rank gods, and Yang Feng uttered unhurriedly.

Chapter 884 – Intrigue

If it wasn't for the invasion of the other universe's powerhouses, Yang Feng would definitely try to annex this world to enhance his power and obtain more resources.

But now that the other universe's powerhouses have invaded, the best course of action is to unite all forces that can be united and defeat the other universe's powerhouses.

If the Vajra Transcendent had given Yang Feng a chance to talk, he would not have used his mechanical legion to wreck the Vajra Transcendent's divine country and capture him.

The Six-eyed Transcendent rolled his six eyes and sneered: "Who even are you? Just because you say that a Transcendent escaped into my divine country, does that mean that a Transcendent really escaped into my divine country? Get out, this world doesn't welcome you!"

"In that case, go to hell!"

Yang Feng's face fell. Suddenly, a beam fired by a Blazing Sun Battlestar grade primary artillery slammed into the Six-eyed Transcendent's projection and purified it.

The beautiful eyes of the Goddess of the Earth flashed coldly and she uttered frigidly: "Outsider, this is the world we guard. Aren't you being too overbearing?"

"Forcing my hand when I'm offering an easy way out!"

Suddenly, another beam fired by a Blazing Sun Battlestar grade primary artillery slammed into the Goddess of the Earth's projection and crushed it.

After crushing the projections of the Two Transcendent Kings, the huge fleet proceeded to fly in the starry sky.

In the center of a fairyland-like divine country filled with the law of the earth, lush forests, and beautiful flowers, there is a huge temple.

In the temple, on the throne, there sits a blond, gorgeous woman. She is this world's Goddess of the Earth.

In front of the Goddess of the Earth, there are twenty female angels, each of whom exudes fluctuations of power above the Starry Sky Warlock rank.

“Curses!”

The countenance of the Goddess of the Earth suddenly changed, her eyes flickered with the shade of fury, and a tender yet severe voice echoed in the temple like thunder.

A beautiful Bright World Warlock rank blazing angel saluted the Goddess of the Earth and asked respectfully: “My Lady, what made you so angry?”

The Goddess of the Earth sighed, saying: “The outsider refused our offer and decided to go to war.”

The beautiful Bright World Warlock rank angel uttered in a deep voice: “Then I shall go out and bring my Lady the outsider’s head.”

The Goddess of the Earth replied unhurriedly: “The enemy is terrifyingly strong, he even quelled the Vajra Transcendent.”

When they heard that, the expression of the angels in the temple flickered.

The Vajra Transcendent is one of the three strong divine force rank gods of this world and is rated as No. 1 in terms of defense. Even though the Vajra Transcendent has been in deep slumber for a long time, but he’s still exceedingly strong. He’s only slightly weaker than the Goddess of the Earth. As such, it is not surprising for the angels to be shocked when they heard that such an existence was quelled by Yang Feng.

As weapons, these angels are fearless and brave. However, they also possess great wisdom. They understand that the enemy is very difficult to deal with.

The Goddess of the Earth originally planned to have a proper conversation with Yang Feng. However, with a few words from the Six-eyed Transcendent, both sides shed all pretenses of cordiality. There is no longer any room for moderation.

The beautiful Bright World Warlock rank angel asked in a deep voice: “What should we do now, my Lady?”

A queer shade flickered in the eyes of the Goddess of the Earth, and she replied unhurriedly: “Without the lips, the teeth feel the cold. Now I can only do my best to support the Six-eyed Transcendent. Otherwise, when the Six-eyed Transcendent is vanquished, I’m afraid that I will be next.”

This world is a grade 3 plane that can accommodate a quasi-Holy step powerhouse. There are many resources in this plane. Furthermore, the god slots of this world can be used to house many powerhouses.

When the Goddess of the Earth sent avatars to travel in the Astral Boundary, she quietly entered the Cangzhi Plane. As such, she naturally knows that human Warlocks are extremely aggressive.

If both sides are evenly matched, human Warlocks may respect the other party and negotiate and cooperate with them. But if there is a huge difference in strength and there is no friendship between the two sides, then human Warlocks will launch an attack and conquer the other party.

Starting with the First Warlock Dynasty, human Warlocks have never stopped exploring and invading. Human Warlocks have absorbed the essence of countless races and created bright and prosperous civilizations.

The Goddess of the Earth flicked her wrist, and a yellow staff appeared in her hand. She tapped gently with the staff, and yellow light shone and formed a huge yellow gate in front of her.

The yellow gate, called the Divine Country Gate, is a powerful divine armament the Goddess of the Earth developed. By using the Divine Country Gate, you can easily travel between divine countries and gather forces to resist an enemy.

“Six-eyed Transcendent, the outsider is on his way to attack your divine country. Give up your divine country and come to my divine country. The two of us will work together to fight against the outsider.”

The Goddess of the Earth tapped the void with the staff in her hand, and divine force surged. Then, the Six-eyed Transcendent’s projection formed in the void, and she said indifferently.

The Six-eyed Transcendent replied slowly: “Goddess of the Earth, please come to my divine country to support me. I will give you 20 saint souls as long as we get through this calamity.”

For gods, saints are most precious treasures. They not only possess great power, but also are devout to the gods. Their body and mind are dedicated to the gods they serve. Each saint soul is a top material for refining blazing angels.

The Goddess of the Earth can use the 20 saint souls to create five blazing angels. For a god, that’s definitely a great reward.

The Goddess of the Earth uttered calmly: “My divine country is filled with the law of the earth. If I am in my divine country, it will be equivalent to me standing on the earth. I will be invincible. But if I go to your divine country, my strength will be reduced by at least 50%. Come to my divine country. I will support you without any payment.”

Among the Three Transcendent Kings, the Vajra Transcendent is crude and straightforward, the Goddess of the Earth is kind and gentle, and the Six-eyed Transcendent is erratic. The Goddess of the Earth doesn’t dare to step into the divine country of the Six-eyed Transcendent lightly.

Apart from inside the divine country of the Six-eyed Transcendent, the Goddess of the Earth is not afraid of the Six-eyed Transcendent anywhere in this world.

The Six-eyed Transcendent uttered with a smile: “Without the lips, the teeth feel the cold. Goddess of the Earth, if I am vanquished, you’ll be next. To help me is to help yourself.”

The Goddess of the Earth replied flatly: “Not necessarily! If I negotiate with him, there is the possibility that we will come to an agreement. If worse comes to worst, I’ll give up my god slot and leave this world.”

The Six-eyed Transcendent sneered: “Leave this world? Impossible! Once you give up the god slot and leave this world, all your strength will disappear. You will no longer be the Goddess of the Earth, but become an ordinary person. Can you really give up everything and be an ordinary person?”

Although gods possess a far longer lifespan and far greater fighting strength than ordinary Warlocks. However, they are shackled by their plane. Once a god has left their original plane for more than a week, they will weaken gradually.

If a god gives up their their plane, their power will gradually vanish, and they will become an ordinary person. They may even die due to the backlash. Therefore, unless it is the last resort, no god will abandon the world where they ascended to godhood.

The Goddess of the Earth spoke calmly: "With Ani and Vega by my side, even if I leave here, I won't die. I can go to another place and have a new start."

Ani and Vega are Bright World Warlock rank blazing angels subordinated to the Goddess of the Earth.

If a god leaves their original plane, their strength will decline, and they may even die due to the backlash. However, if there are angels beside them, the angels will guard them and let them get through their weakest period.

The Six-eyed Transcendent's expression flickered. After a moment, he said: "Goddess of the Earth, come and help me. As long as you help me this time, then within the next 10,000 years, I will only keep enough believers in this world to maintain my existence."

The Goddess of the Earth took a deep look at the Six-eyed Transcendent, and then tapped with the yellow staff in her hand, and the Six-eyed Transcendent's projection collapsed and disappeared.

Ani asked curiously: "My Lady, are we not going to help him?"

The eyes of the Goddess of the Earth glimmered gloomily, and she answered: "The Six-eyed Transcendent harbors evil designs. If I go there, I'm afraid that I will either die at his hands or become his puppet."

The Six-eyed Transcendent, whose creed is massacre, betrayal, conspiracy, and the like, is a dark god. Dark gods should never be believed.

The Goddess of the Earth, who has lived for many years, has seen many gods become servants of the Six-eyed Transcendent or disappear after entering his divine country.

At the time, when the Three Transcendent Kings joined forces to fight against the Dark Transcendent King, they chose to fight in the divine country of the Vajra Transcendent. Even the Vajra Transcendent, who is a block-head, would never set foot in the divine country of the Six-eyed Transcendent. The Goddess of the Earth is not foolish enough to enter the divine country of the Six-eyes Transcendent either.

Yang Feng's fleet soon appeared outside the divine country of the Six-eyed Transcendent.

The divine country of the Six-eyed Transcendent is a pitch-dark celestial body filled with dark divine force.

Yang Feng glanced at the divine country and smiled coldly: "So this is the divine country of the Six-eyed Transcendent. Dark divine force is best at eroding the mind. Any intelligent life form that enters this divine country will be affected. Unfortunately, it doesn't work on robots."

The huge fleet opened doors, and swarms of battle robots poured into the divine country like a tide. From within the endless demonic qi, dark angels, which are rather similar to fallen angels, burst out.

Chapter 885 – The Warlock Monarch Rank Red Rhombus Race Powerhouse Dies

“Since you dare storm my divine country, you may as well stay here forever!”

In the center of the divine country, in a huge temple, the Six-eyed Transcendent watching the countless battle robots in the sky snorted coldly, raised the black polearm in his hand, and pointed at the sky.

Violent fluctuations of divine force surged in the divine country abruptly, and mysterious runes emerged in an instant.

Tremendous dark divine force entered the dark angels and raised their fighting strength by a level.

At the same time, the dark divine force in the divine country eroded the 4th generation battle robots.

The enhanced 4th generation battle robots activated their energy shield to resist the erosion of the dark divine force. At the same time, they launched a frenzied attack against the dark angels.

After the dark angels were blessed, their fighting strength reached the Starry Sky Warlock realm. However, they are still far weaker than the 4th generation battle robots. When the vanguard composed of Type III Undyings rushed into the midst of the dark angels, they brandished their blades and chopped the dark angels to pieces.

As soon as the dark angels were chopped up, they turned into black gas that entered the void and formed dark freaks. Then, the dark freaks flew out of the void and rushed towards the huge mechanical legion.

When the dark freaks collide with the Type III Undyings, they were easily slayed, and then turned into dark divine force that entered the divine country.

As if there is no end to them, the dark freaks appeared continuously and consumed the strength of Yang Feng’s mechanical legion.

Although the dark freaks aren’t strong, but their continuous rebirth makes them frightening. Even if a Warlock Monarch rank powerhouse was besieged, their strength would be gradually consumed and, without some formidable secret method, they could even die.

The Six-eyed Transcendent looked at the dark freaks who formed anew again and again and raised the corners of his mouth into a scornful smile: “This idiot, this is my divine country. Just because of a few words of ridicule, he attacked my divine country, what an idiot.”

In his divine country, the Six-eyed Transcendent has the confidence to defeat even Warlock Monarch rank powerhouses. However, since the Dark Transcendent King is a quasi-Holy step powerhouse, he had to join forces with the Goddess of the Earth and the Vajra Transcendent at the time.

“It is a pity that the Goddess of the Earth didn’t fell for it! Otherwise, I could get a taste of her.”

The Six-eyed Transcendent turned his head and took a deep look at a bloody cross engraved with countless runes and exuding a strong smell of blood, and regret flashed in his eyes.

In his divine country, the Six-eyed Transcendent has complete confidence in his ability to quickly quell the Goddess of the Earth. He requested the Goddess of the Earth to come to his divine country in order to launch a surprise attack against her, and then get a taste of her.

Yang Feng sneered: "Unkillable freaks? If it was someone else, this his is the feature of the intact divine country of the Six-eyed Transcendent would have been a great headache, Unfortunately, the opponent is my mechanical legion!"

A level-5 stronghold flew out from the Starfield Battlestar and flew into the divine country of the Six-eyed Transcendent like a meteor.

365 pipes extended from the level-5 stronghold and erupted with an fearsome attractive force that sucked the dark divine force, which the chopped up freaks transformed into, into the level-5 stronghold.

Inside the level-5 stronghold, Eternal Power Furnaces roared, absorbed the dark divine force, and transformed it into high energy crystals.

Huge whirlpools suddenly appeared in the dark divine county and frantically devoured the dark divine force.

Eternal Power Furnace is a kind of machine that specializes in absorbing all kinds of energy and transforming them into high energy crystals. Since dark divine force is a kind of energy, it is only natural for it to be absorbed and transformed.

"Damn it, what's going on?! How could this be?"

When the Six-eyed Transcendent saw the chopped up freaks being absorbed by the level-5 stronghold and the dark divine force in the dark divine country diminish rapidly, his complexion changed drastically.

The Six-eyed Transcendent can clearly perceive that the dark divine force within his divine country is disappearing at an alarming speed.

"Hongshi Jiangyuan, go destroy that thing!"

The eyes of the Six-eyed Transcendent flashed fiercely, and he barked at the Warlock Monarch rank red rhombus race powerhouse engraved with countless mysterious runes, with dull eyes, standing quietly aside.

When the Warlock Monarch rank red rhombus race powerhouse escaped into this world, he was deceived by the Six-eyed Transcendent into entering his divine country, where he was suppressed and refined into a puppet.

The puppet the Warlock Monarch rank red rhombus race powerhouse was forged into is extremely powerful. Naturally, the Six-eyed Transcendent isn't willing to hand over such a treasure to Yang Feng, which resulted in this war.

"Yes! Master!"

The Warlock Monarch rank red rhombus race powerhouse, with a dull air around him, saluted the Six-eyed Transcendent.

Suddenly, the red rhombus on the forehead of the Warlock Monarch rank red rhombus race powerhouse bloomed with a rune, and a red ray hit the Sex-eyed Transcendent.

Hit by the red ray, the Six-eyed Transcendent froze for an instant.

At this moment, the hands of the Warlock Monarch rank red rhombus race powerhouse burst out with six red rays that stabbed into the six eyes of the Six-eyed Transcendent like swords.

In the nick of time, the Six-eyed Transcendent stimulated the dark divine force inside him, and a barrier formed from dark light emerged

The six red rays pierced through the barrier of dark light, and then stabbed into the eyes of the Six-eyed Transcendent and crushed them, and blood flowed down his face.

“You bastard, how dare you injure me, how dare you injure my eyes!”

The Six-eyed Transcendent released a piercing roar. The six eyes of the Six-eyed Transcendent have different extraordinary powers. Among them, two can injure or even kill Warlock Monarch rank powerhouses.

Hongshi Jiangyuan, who is a veteran Warlock Monarch rank powerhouse from the Gumana Universe that has experience countless battles, made the conscious choice to injure the eyes of the Six-eyed Transcendent.

“Thank you for helping me heal, fool!”

The Warlock Monarch rank red rhombus race powerhouses’ eyes flickered with derision, and he radiated red light, rose into the sky, and flew towards the outside.

“Then let’s die together.”

The Six-eyed Transcendent uttered madly and beckoned with his hand, and a mirror with an eye pattern on the surface suddenly appeared and aimed at Hongshi Jiangyuan.

28 runes emerged from the eye and resonated with the runes inside the Warlock Monarch rank red rhombus race powerhouse.

“Curses, you did something to my body!”

Many parts on Hongshi Jiangyuan’s body distorted. He clenched his teeth, and the red rhombus on his forehead release light that enveloped him.

Hongshi Jiangyuan’s body burst in many places, and his blood and flesh fused with the dark divine force in the void and formed a freak that exudes Bright World Warlock rank fluctuations of power.

When the freak took shape, Hongshi Jiangyuan weakened by 30%.

Hongshi Jiangyuan swept the freak with a cold gaze, and then proceeded to fly towards the outside of the divine country. His priority right now is to escape Yang Feng's pursuit, rather than to fight the Six-eyed Transcendent.

"Die! Dark Verdict!"

The Six-eyed Transcendent bellowed, took out the black spear the Dark Verdict, and threw it at Hongshi Jiangyuan.

A large amount of black divine force poured into the Dark Verdict and enhanced it. Upon reaching the pinnacle, the black spear turned into a black ray capable of destroying everything and piercing through anything and shot towards Hongshi Jiangyuan.

The Dark Verdict is one of the most powerful trump cards in the Six-eyed Transcendents' arsenal. In this dark divine country, this trump card can seriously injure and even kill a Warlock Monarch rank powerhouse.

"You lunatic!"

Both startled and angry, Hongshi Jiangyuan barked, and the red rhombus on his forehead radiated red light that formed a red barrier in front of him.

When the Dark Verdict hit the red barrier, it pierced through it, and then stabbed into Hongshi Jiangyuan and blasted his lower body apart.

Hongshi Jiangyuan spilled a large amount of blood, yet he clenched his teeth and flew towards the outside. When he launched a surprise attack against the Six-eyed Transcendent, if he kept fighting the other party, he might have a chance to kill him. But now, he already has no chance to kill the Six-eyed Transcendent.

Within one breath of time, Hongshi Jiangyuan flew out from the divine country.

"I've been waiting for you for a long time!"

When Hongshi Jiangyuan flew out from the divine country and was thinking about casting a secret method, he saw a huge hand containing primal chaos breath barrel towards him.

The red rhombus on Hongshi Jiangyuan's forehead flickered, and he turned into a sharp cone that stabbed the huge hand and pierced through it.

A mechanical torrent formed from 1 million 5th generation battle robots engulfed Hongshi Jiangyuan in an instant.

Red light shone as Hongshi Jiangyuan destroyed the 5th generation battle robots.

"Ha-ha, you damn aboriginal of a lowly universe want to capture me? It's not that easy! Let's die together!"

After Hongshi Jiangyuan destroyed 1,000 plus 5th generation battle robots, he suddenly burst into laughter and, with a flash of red light, exploded in an instant. The fearsome explosion engulfed 3,000 5th generation battle robots around him.

Chapter 886 – Unifying the World

From within the world-shaking explosion, a red crystal full of cracks flew out and shot away like a stone.

A Dazzling Light Unit appeared in front of the red crystal and grabbed it, and then blurred and flew towards the Starfield Battlestar.

Carrying different remains, many battle robots flew towards the Starfield Battlestar as well.

As a Warlock monarch rank powerhouse from another universe, every inch of Hongshi Jiangyuan's body has great research value.

"Great, he died!"

In his divine country, the Six-eyed Transcendent laughed uproariously, his eyes flashed with madness, and he pointed at the level-5 stronghold with a huge staff.

Countless runes churned, and a huge eye with a diameter of 100 meters suddenly appeared in the divine country. When the huge eye looked in the direction of the level-5 stronghold, it fired a black beam that blasted into the level-5 stronghold.

Magic Eye Black Ray, this is one of the most powerful long-range attack spells the Six-eyed Transcendent has mastered. In the dark divine country, even if it is a strong divine force rank god, if they are hit by the Magic Eye Black Ray, they will be seriously wounded or even killed.

At this time, a transparent energy barrier appeared around the level-5 stronghold.

When the Magic Eye Black Ray hit the transparent barrier, the barrier sank in.

After a moment of stalemate, the black beam formed by the Magic Eye Black Ray collapsed and disappeared.

Huge whirlpools emerged from the level-5 stronghold, devoured the surrounding dark divine force, and condensed new energy crystals.

High-level strongholds of the xizu have the ability to absorb various kinds of energy. In many worlds full of chaotic energy, high-level strongholds can quell and refine those worlds into new colonies of the xizu.

Yang Feng looked at the level-5 stronghold and smiled: "I see, such a method can also be used to attack divine countries."

The most troublesome thing about divine countries is that they are full of a kind of divine force and authority, which can weaken the enemy and strengthen yourself.

But since the level-5 stronghold can absorb the divine force inside divine countries, it provides Yang Feng with an extra trump card when dealing with divine countries.

Of course, the level-5 stronghold is not invincible. If Yang Feng's mechanical legion cannot resist the attacks of the god, then the level-5 stronghold base will be destroyed.

"Curses!"

The Six-eyed Transcendent roared furiously and burned divine force frantically. In an instant, he appeared above the level-5 stronghold and slashed at it with a black sword.

If a god burns divine force, they can freely appear in any corner of their divine country. This is a god's authority in their divine country.

"Idiot!"

Yang Feng's eyes flickered with derision. The main artillery of the Starfield Battlestar flashed and fired a bright beam that blasted into the Six-eyed Transcendent.

Black divine spell shields appeared around the Six-eyed Transcendent, and then collapsed.

The bright beam engulfed the Six-eyed Transcendent in an instant.

200,000 5th generation battle robots flew out from the level-5 stronghold and, when the bright beam disappeared, pounced on the Six-eyed Transcendent.

When the Six-eyed Transcendent emerged, his body was mutilated, countless wisps of dark divine force surged around him, and a large amount of blood dropped on the ground.

Besieged by the 5th generation battle robots, the Six-eyed Transcendent struggled bitterly. With a flick of his wrist, a small black seal suddenly appeared.

The moment when the small black seal appeared, three black sword rays flew out of the level-5 stronghold and stabbed the Six-eyed Transcendent.

Fallen Angel Fire, which contains terrifying power, broke out in an instant and burned the Six-eyed Transcendent wildly.

The hand of the Six-eyed Transcendent that held the small black seal was cut off directly.

Three black chains shot out from the three supreme Infinity Warlock rank fallen angels, stabbed into the Six-eyed Transcendent, wound around him, and burned his divine force and divine soul.

Burned by the Fallen Angel Fire, the Six-eyed Transcendent felt great pain from his soul and screamed miserably, unable to cast any divine spells. Next, he was pulled out of the divine country by Agni and the other two supreme Infinity Warlock rank blazing angels.

As soon as the Six-eyed Transcendent was pulled out of the divine country, a True God Empyrean Imprint flew out and released countless rune chains that stabbed towards him.

Although all six eyes of the Six-eyed Transcendent were destroyed by Hongshi Jiangyuan, but he still has his ways to perceive the things around him. When he "saw" the countless rune chains, he shivered. Just as he wanted to cast some powerful spell, he felt a sharp pain from his soul, and could not cast any spells.

When the countless rune chains pierced into the Six-eyed Transcendent, they wound around his soul and eroded it.

"Greetings, master!"

After struggling for a quarter of an hour, the Six-eyed Transcendent, who was finally completely eroded, saluted Yang Feng respectfully.

Yang Feng ordered: "Have your subordinates stop!"

There are countless dark angels and all kinds of dark freaks in the Six-eyed Transcendent's divine country. Although these weapons are not the opponent of Yang Feng's mechanical legion, but they can still destroy a part of his mechanical legion.

"Yes!"

The Six-eyed Transcendent answered respectfully and waved the staff in his hand, and formidable fluctuation of divine force surged inside his divine country.

In an instant, the dark angels and dark freaks inside the divine country knelt down on the ground and stopped attacking.

"The Six-eyed Transcendent was also defeated! What's more, it was a crushing defeat!"

Inside her divine country, when the Goddess of the Earth saw that the Six-eyed Transcendent was captured by the three blazing angels and brought before Yang Feng, she felt her blood run cold.

Once controlled by the True God Empyrean Imprint, everything will belong to the master. Even if a Transcendent wants to commit suicide, they will find it extremely hard to accomplish.

With a flash of divine light, The Goddess of the Earth's projection appeared before Yang Feng.

Standing in front of the Starfield Battlestar, the Goddess of the Earth humbled herself and saluted Yang Feng, saying: "Congratulations, sir. I am sorry about the previous events. Please allow me to apologize to you."

Watching the touchingly beautiful Goddess of the Earth, Yang Feng uttered plainly: "You don't have to! Goddess of the Earth, I am now the guardian of this world. You have three choices. The first one is to submit to me and become my subordinate. The second one is to leave this world. The third one is to die in this world."

The Goddess of the Earth raised her eyebrows slightly and asked unhurriedly: "Can't we coexist peacefully in this world?"

Yang Feng replied indifferently: "I can't have someone looking over my shoulder! This world is a rare grade 3 plane. With its upper limit, this plane can birth Warlock Monarch rank powerhouses. It is a great foundation for a major force. I can't give it up!"

Grade 3 planes are extremely precious and rare. The Battle Demon Sect has existed for tens of thousands of years, yet its headquarters is only a grade 4 plane. The Battle Demon Sect has also discovered some grade 3 and grade 2 planes. However, these planes all have masters.

Since Yang Feng discovered this grade 3 plane, he naturally won't let it slip by easily.

One of the most important reasons why Yang Feng goaded by the Six-eyed Transcendent's words into attacking the other party, was because the grade 3 plane is of great importance to him.

The Goddess of the Earth hesitated for a moment before asking: “If I choose to submit to you, can we sign a Styx oath to establish the subordination relation?”

Yang Feng responded calmly: “We can’t. Since this grade 3 plane is my foundation, there can be no variables. Although a Styx oath is hard to crack, but it is not impossible!”

Styx oath is one of the highest level oaths in the universe. However, there are countless treasures and mysterious secret methods in this universe. Among them, the leave of an extraordinary plant called the Tree of Deceit from the Eternal age can break the Styx oath.

In addition to the Tree of Deceit, there are several other rare treasures in the universe that can break the Styx oath. Since Yang Feng wants to turn this plane into his foundation, he naturally won’t allow any mishaps and variables.

The Goddess of the Earth said decisively: “In that case, I choose to leave here.”

Without any hesitation, a yellow warship flew out of the divine country of the Goddess of the Earth and plunged into the Astral Boundary.

The Goddess of the Earth doesn’t want to be like the Six-eyed Transcendent, whose fate is in Yang Feng’s hands.

When the Goddess of the Earth withdrew from her divine country, countless battle robots went straight into her divine country and began to dismantle it.

Divine countries are constructed from some kind of authority and law, divine force crystals, and various treasures of heaven and earth. Consequently, each divine country is a huge treasure trove.

After a god dies, their divine country is pulled into the Astral Boundary. By then, no one can get the wealth of their divine country.

Only when a living god like the Goddess of the Earth leaves their divine country, can the wealth of their divine country be obtained.

With the Goddess of the Earth gone, there is no longer any force left in this world capable of resisting Yang Feng. When Yang Feng dispatched the mechanical legion, the countries in this world surrendered one after another and became a member of the Holy Moon Empire.

Chapter 887 – Extraordinary Beast Plane

“Do you two know the Dark Transcendent King’s whereabouts?”

In the rear garden of a luxury villa, Yang Feng is sitting on a beach chair, The two powerhouses the Vajra Transcendent and the Six-eyed Transcendent are standing beside him.

The Vajra Transcendent replied: “I don’t.”

The Six-eyed Transcendent, who has one of his eyes healed thanks to the nourishment of formidable divine force, uttered unhurriedly: “At the time, I hit the Dark Transcendent King with the power of the Black Death Eye, thus establishing a connection with him. As a result, I know his whereabouts.”

Among the Three Transcendent Kings, although the Sex-eyed Transcendent is not the strongest, but his six eyes possess incredible powers. Even a Warlock Monarch rank powerhouse wouldn't dare to get hit with the power of his eyes.

Yang Feng's eyes flashed with enigmatic light, and he said slowly: "In other words, he's still in a weakened state."

If the Dark Transcendent King was in his peak condition, he could easily dispel the power of the Black Death Eye.

The Six-eyed Transcendent hesitated for a moment, and then uttered: "Unless it is a ruse to lure me out and kill me, he should be in a weakened state."

At the time, the Dark Transcendent King stormed the divine country of the Vajra Transcendent and fought the three strong divine force rank gods. He tried to vanquish the three strong divine force rank gods with his quasi-Holy step strength. As a result, it ended in a draw, with both sides suffering severe injuries.

It is possible that, after the events that transpired at that time, the Dark Transcendent King's arrogance was curbed, and he set up such a trap.

Yang Feng contemplated for a moment, and then shook his head and said: "Impossible! The Dark Transcendent King was severely wounded by the three of you and fled while cutting a sorry figure. He must have suffered serious injuries that are hard to heal. In this case, his priority should be to heal himself and eliminate all foreign forces inside him.

"Since he wasn't able to eliminate the power of the Black Death Eye, it proves that he is still in a weakened state."

As he analyzed, Yang Feng's eyes flashed with a scorching ray.

A quasi-Holy step powerhouse is a giant treasure trove themselves. If a quasi-Holy Spirit Warlock rank powerhouse can get the soul core of a quasi-Holy step powerhouse, it would be possible for them to promote to a Warlock Monarch rank powerhouse.

Yang Feng ordered: "Take me to him!"

The Six-eyed Transcendent responded respectfully: "Yes! My Lord!"

Ripples rose in the starfield outside a blue celestial body, and the Starfield Battlestar quietly emerged in the starry sky above the celestial body.

"Is this the Dark Transcendent King's hiding place? This should be a grade 5 plane!"

Inside the Starfield Battlestar, Yang Feng felt a powerful binding force envelop him and restrain his cultivation base to the Moonlight Warlock realm, and he couldn't help but frown slightly.

A grade 5 plane can hold Bright World Warlock rank powerhouses at most. Even if a Holy Spirit Warlock rank powerhouse enters this plane, their strength will be restrained to the Bright World Warlock realm. For such a place to be the hiding place of the Dark Transcendent King, this came as a surprise to Yang Feng.

The Six-eyed Transcendent responded respectfully: “Yes, my Lord, it is here. These are the coordinates I received from my Black Death Eye.”

With a thought from Yang Feng, a door opened on the Starfield Battlestar, which is in stealth mode, and Interstellar Probes flew out, activated stealth mode, and quietly flew to the celestial body.

The Dark Transcendent King is a quasi-Holy step powerhouse. If he made any sort of arrangements, then they would be extremely dangerous traps. Yang Feng is understandably cautious.

When the Interstellar Probes reached the celestial body, they saw that are countless extraordinary plants all over the place.

Suddenly, a freak with a giant black hole for the head emerged from a pitch-black sea, and then fearsome essence of devour erupted and swept the space.

Within an area 10,000 kilometers in radius, all living creatures and trees were directly devoured by the freak. An unlucky Interstellar Probe was also devoured by the freak.

After it devoured everything within an area 10,000 kilometers in radius, it felt satisfied and plunged back into the black sea and disappeared.

In another place, there is a three-headed gold dragon exuding archaic breath soaring in the sky. The three-headed gold dragon, who exudes pinnacle Bright World Warlock rank fluctuations of power, is fighting a fenghuang that also exudes pinnacle Bright World Warlock rank fluctuations of power.

Gold dragon breaths and fenghuang flames, which can burn everything, collided in the sky, and fearsome fluctuations of power spread in all directions.

The place where the two pinnacle Bright World Warlock rank beings fought is enveloped in countless flames.

In another place, a garuda [1] that exudes pinnacle Bright World Warlock rank fluctuations of power flew to a cliff and threw the archaic dragon in its beak on the ground.

Three garuda chicks pounced on the archaic dragon and pecked at it.

“This world is really strange. How come there are so many immemorial and archaic life forms here?”

Aboard the Starfield Battlestar, Yang Feng watched the immemorial and archaic life forms of formidable bloodlines with excitement in his eyes.

Fenghuangs, garudas, such beings are apex extraordinary life forms. Once a pureblood fenghuang grows up, it will possess Bright World Warlock rank strength. Furthermore, it will have the potential to evolve into a Holy Spirit Warlock realm being. A pureblood garuda has a similar evolutionary potential to that of a fenghuang.

This world, which appears to be in the primordial times, is a huge treasure trove with the bloodlines of many pinnacle extraordinary life forms. Many extraordinary life forms that can be found in this world have long since disappeared from the Cangzhi Plane.

In the Cangzhi Plane, many secret methods created by top bloodline Warlocks have been reduced to collectibles that are used as research material. They have no cultivation value due to the lack of corresponding bloodlines.

Yu Yan and Yu Tianling, these two Infinity Warlocks only possess the bloodline of ordinary black fenghuang and ordinary fenghuang respectively. If they got archaic pureblood fenghuang's bloodline power, their bloodline could evolve, their strength would increase sharply, and they would have the potential to advance to the Holy Spirit Warlock realm.

The corners of Yang Feng's mouth rose into a smile: "Treasure house, what a great treasure house! As long as the plane origin will is analyzed, this world will be mine."

If Yang Feng's 5th generation legion composed of 5th generation battle robots with Glorious Sun Warlock rank fighting strength besieges this world, which has Bright World Warlock rank extraordinary life forms at most, the outcome will have no suspense.

As long as this world's plane origin will is analyze, it will become Yang Feng's garden where he can harvest bloodline power.

This celestial body is 100 times as big as Earth. However, the speed of the Interstellar Probes is fearsome. Even without accelerating to the speed of light, they still finished exploring the celestial body within an hour.

Three days later, by relying on the pinnacle Warlock Monarch rank computing power of the level-5 optical computer network, Yang Feng finished analyzing the plane origin will of this world.

In a mountain range of the plane, which Yang Feng randomly named the Extraordinary Beast Plane, Yang Feng pointed ahead of him and asked slowly: "Is this the place where you sense the Dark Transcendent King?"

In front of the mountain range, there is a huge black mountain towering into the clouds. The huge mountain is composed of a very rare mineral called Moroto Astral Stone. The defensive power of Moroto Astral Stone is formidable. Even if it is an all out attack from an Infinity Warlock rank powerhouse, it cannot destroy Moroto Astral Stone.

Unless it is a Holy Spirit Warlock rank powerhouse, no one can destroy this mountain formed from Moroto Astral Stone.

The Six-eyed Transcendent answered: "Yes, it is here! But there is no entrance! I don't know how the Dark Transcendent King got inside this mountain!"

Yang Feng uttered with a smile: "This is the place that the Dark Transcendent King uses to heal his wounds. Naturally, there must be some secret. Otherwise, he wouldn't have escaped to this place in the first place."

Devour Black Moons suddenly emerged and shot towards the mountain composed from Moroto Astral Stone.

The Devour Black Moons erupted with devour force that eroded the mountain.

Although the Devour Black Moons seem fierce, but they can't harm the mountain in the least.

Yang Feng frowned slightly and dispelled the Devour Black Moons: "I can't absorb a wisp of power. My mastery of the essence of devour is still too swallow."

"However, it is not impossible to break through this mountain!"

Yang Feng smiled and wave his hand, and a swarm of Devourers flew towards the mountain.

When the Devourers pounced on the mountain, they forcibly devoured Moroto Astral Stone and formed a passage leading inside the mountain.

Devourers are one of the ultimate weapons of the xizu. They possesses tremendous might. Besides, the devour force they can exert is far greater than that of Yang Feng.

When the passage emerged, an Interstellar Probe flew inside.

At the end of the passage, there is a huge palace. Inside the palace, on the throne, there sits a handsome young man with long blue hair, a mysterious seal on his forehead, and a domineering air about him. Wisps of life force field diffused from him and irradiated the whole palace.

As if sensing something, phantoms roared and rushed towards the Devourers.

The Devourers rushed towards the phantoms as well and inhaled frantically, and the phantoms screamed, turned into black smoke, and disappeared.

Chapter 888 – Eternal Imperishable Body

Yang Feng looked at the strange phantoms that poured out of the passage, and his eyes shimmered with queer light: "Did he die? I didn't expect that the Dark Transcendent King, who stormed a divine country guarded by three strong divine force rank gods by himself, would die in this place."

The phantoms in the passage are frightening. Even if it was a Moonlight Warlock, the phantoms could eliminate them. However, they pose no threat to Yang Feng, who is an Infinity Warlock.

Many treasure troves of Warlocks are really dangerous. Unless there is a special reason, ordinary people will be easily killed when they enter a Warlock's treasure trove.

The Six-eyed Transcendent took a look at the depth of the cave, and regret flashed in his eyes. Although he had awakened decades ago, but since he was scared of the quasi-Holy step Dark Transcendent King, he didn't dare to come to look for him. He was afraid that the other party has healed already and would crushed him to death.

At the time, if it wasn't for the boost provided by the divine country, the Three Transcendent Kings would not have been the opponent of the Dark Transcendent King.

The Six-eyed Transcendent looked around and comforted himself secretly: "Even if I had come to this place, it would have been impossible to open the mountain with my strength alone. Furthermore, a moment of carelessness could have led to death."

With a thought from Yang Feng, a Bright World Warlock rank Flesh Golem suddenly flew inside the passage.

“So this is a quasi-Holy step powerhouse! Incredible, he’s totally different from a knock-off Warlock Monarch like the Red Monarch.”

As soon as Yang Feng’s Flesh Golem avatar reached the Dark Transcendent King, he sensed a fearsome power coming from the corpse.

Although the Dark Transcendent King has died, but the breath his body emits is still far more formidable than that of Yang Feng. If he was in his peak state, Yang Feng would not be his opponent.

Yang Feng carefully looked around the palace.

In the palace, there is a pond engraved with countless mysterious incantations. This is evidently a top-shelf magic pool specially designed to heal the body.

At this time, there is no longer any liquid in this magic pool. There are only some phantoms and strange phenomena. Clearly, the Dark Transcendent King had sucked the top-shelf magic pool dry. Even so, it still wasn’t enough to save his life.

In addition to the top-shelf magic pool, only the materials that constitute the palace are of interest to Yang Feng.

If the palace is torn down, Yang Feng will be able to produce 400,000 5th generation battle robots. At the same time, he’ll harvest some treasures necessary to promote the stronghold to level-6.

Yang Feng came to the body of the Dark Transcendent King and swept it with his tremendous soul force, looking for hidden treasures.

The Dark Transcendent King was a quasi-Holy step powerhouse. In addition to his corpse, any secret treasure he has on his person must be a top treasure as well.

The moment when Yang Feng’s soul force landed on the Dark Transcendent King, the Dark Transcendent King’s eyes suddenly release black light that entered Yang Feng’s Flesh Golem.

“Receive my legacy and avenge me!”

A tremendous power poured into Yang Feng’s Flesh Golem from the Dark Transcendent King.

In a flash, Yang Feng’s Flesh Golem broke through and promoted to the Infinity Warlock realm.

The Flesh Golem is an avatar Yang Feng forged by combining xizu technology, avatar arts of the world of Warlocks, and various bloodline strengthening arts. It has the bloodlines of the strongest archgods and possesses exceptional evolutionary potential.

When the Flesh Golem advanced to the Infinity Warlock realm, it suddenly expanded to seven meters tall, countless runes emerged, a one-meter-long horn grew on its head, the bloodline power inside it surged and became more formidable, and its breath became more imposing.

Thanks to the infusion of formidable power, the Flesh Golem went through several breakthroughs. Finally, it roared and turned into a 10-meter-tall freak covered in mysterious runes, with a horn on the head and a tail on the back, and exuding junior Warlock Monarch rank fluctuations of power.

The quasi-Holy step corpse turned into ashes and disappeared with a gust of wind.

Yang Feng was rendered speechless when he sensed the frightening power contained within the Flesh Golem: "Warlock Monarch, my golem avatar has advanced to the Warlock Monarch realm!"

Each quasi-Holy step powerhouse possesses unparalleled methods. As such, there may be a dangerous trap concealed in their corpse. Once someone touches their corpse, the trap will activate and kill the other party.

Yang Feng didn't expect that the Dark Transcendent King would condense all his power and pour it into the first person who came into contact with his body.

Yang Feng looked at the Flesh Golem avatar and smiled: "If my true body got this power, it wouldn't be able to break through the bottleneck and advance to the Warlock Monarch realm. However, a Warlock Monarch rank avatar isn't bad either."

Yang Feng's true body has already reached the supreme Infinity Warlock realm, only a step away from advancing to the Warlock Monarch realm. However, since he formed nine small worlds inside him, he has to upgrade them to full circle before he can advance to a Warlock Monarch.

Even if he received the power of the Dark Transcendent King, Yang Feng would only be able to strengthen himself. He wouldn't be able to break through to the Warlock Monarch realm.

The moment when the body of the Dark Transcendent King turned into ashes, a large amount of information poured into Yang Feng's Flesh Golem along with the Dark Transcendent King's power.

The Dark Transcendent King was a human Warlock from the later stage of the Eighth Dynasty the Dawn Dynasty. In order to obtain a long lifespan, he once infiltrated a grade 5 plane, ignited his divine fire on that plane, and became one of the guardian gods of that plane. Later, an avatar of his found the relic site of an Eternal Sovereign while traveling in the Astral Boundary, entered the relic site by a fluke, and had a fortuitous encounter.

After the Dark Transcendent King left the relic site, he collected resources, abandoned his identity as a god, got rid of the shackles of the plane, and became a human Warlock again. By relying on the secret method he obtained in the relic site of an Eternal Sovereign as well as the bloodline resources obtained from the Extraordinary Beast Plane, he gradually cultivated to the Warlock Monarch realm.

In the Cangzhi Plane, there are the four dynasties in the surface world and Holy Spirit Warlocks in the core world.

The Dark Transcendent King didn't want to be subordinated to others. After he practiced cultivation until the quasi-Holy step, he found the plane where the Vajra Transcendent and company resided and wanted to seize it for himself.

In fact, when the Dark Transcendent King fought the Three Transcendent Kings, he had invited a pinnacle Warlock Monarch friend to help him. If the Dark Transcendent King and his friend had joined hands, they could have easily defeated the Three Transcendent Kings. But when the Dark Transcendent King fought the Three Transcendent Kings, his friend never appeared.

When the Dark Transcendent King was escaping, his friend finally appeared and tried to ambush him. However, the Dark Transcendent King used a fearsome secret method and gave his friend a heavy injury

in one fell swoop. Once he returned to his lair, he found out that after being heavily wounded twice, his origin had dried up and his soul was broken. He was beyond help.

Before the Dark Transcendent King died, he cast a secret method to condense all his power and life essence into one. Once someone scanned him with soul force, his power would pour into them.

If an ordinary Warlock absorbed the Dark Transcendent King's power, they would not be able to bear. However, there are all kinds of strange phenomena in this palace, which can easily slay even Moonlight Warlocks.

Furthermore, Moroto Astral Stone cannot be broken without powerful methods. Therefore, the Dark Transcendent King chose to give his power to the first person who scanned his body with soul force.

However, Yang Feng was too careful. As a result, the Dark Transcendent King's power was infused into his Flesh Golem, leaving him speechless.

"Eternal Imperishable Body is the secret method that the Dark Transcendent King obtained from the relic site of an Eternal. This secret method is the most precious treasure I got this time."

After searching through the information the Dark Transcendent King transmitted, Yang Feng's eyes suddenly brightened and showed excitement.

At present, Yang Feng's primary secret method is the Empyrean grade secret treasure the Primal Chaos Imperishable Body created by the Taboo Lord, which is one of the best secret methods in the world.

However, the Taboo Lord was merely one of the strongest Warlock Monarchs, not an immortal being like an Eternal Sovereign.

The Eternal Imperishable Body created by an Eternal Sovereign is much more valuable and powerful than the Primal Chaos Imperishable Body created by the Taboo Lord.

"It looks like the universe's favor I gained after slaying a large number of powerhouses from the other universe is starting to show effect.

As Yang Feng checked the Eternal Imperishable Body, it dawned on him.

By killing the other universe's powerhouses, you can reap the universe's favor. Although the universe's favor cannot enhance your strength outright, but it can make you become "lucky".

It was thanks to that "luck" that Yang Feng obtained the Eternal Imperishable Body so easily. Even though the Imperishable Secret Body that the Dark Transcendent King obtained was only a portion of the entire secret method, but it was already a windfall.

Although Yang Feng didn't get any treasures from the Dark Transcendent King's dwelling, but there are extraordinary life forms with archaic bloodline everywhere in the Super Beast Plane. This Super Beast Plane is a huge treasure house for Yang Feng.

The grade 3 plane of the Vajra Transcendent and them is a huge treasure house as well. It can be used as Yang Feng's new foundation. In fact, Yang Feng earned great profits by hunting the other universe's powerhouses.

Chapter 889 – Reputation that Shakes the World

The Cangzhi Plane, the Eastern World, one of the 36 greater provinces the Bright Province, outside the capital the Bright Light City.

The earth suddenly erupted with a violent vibration, and then three huge green steles extended from the ground.

“What happened?”

“What’s going on?”

“What’s with the earthquake?”

“...”

Lights flickered in the Bright Light City as Warlocks flew out of the city and flew towards the three huge green steles.

When a Warlock came before a green stele, he said while enunciating each syllable: “Human Holy Merit Stele, first place, Shan Yunsheng, 136.587.432 merit points.”

“This, could these be recording the merit in the fight with the other universe’s powerhouses?”

“This is the Human Monarch Merit Stele! As expected, the top six are the Six Monarchs of the Six Warlock Dynasties. Eh, why isn’t the Golem Monarch on the list?”

“It seems that the Golem Monarch didn’t go out to fight.”

“Is it to preserve strength? Damn it!”

“Sure enough, you’ll obtain merit by fighting the other universe’s powerhouses!”

“...”

The human Warlocks flew to the green steles and looked at them carefully. All of a sudden, there was a flash of excitement in everyone’s eyes.

The information that the two universes are about to merge and annex one another is no secret in the Cangzhi Plane.

Although the powerhouses of the Six Warlock Dynasties sealed the largest rift between the Gumana Universe and this universe. However, the change in the Cangzhi Plane’s heaven and earth could not be hidden from the other Warlocks.

In the world of Warlocks, news spread very quickly. Now, except for those crude and sealed off subcontinents, most human Warlocks are already aware that the two universes are about to merge and annex one another.

When the three green steles appeared, the clever Warlocks guessed what the merit recorded on them is related to.

“The Human Infinity Merit Stele, fourth place, Yan Mowen. Who is he? Do we have such an Infinity Warlock in the Cangzhi Plane?”

“This should be the an expert from the core world.”

“Interesting, I wonder how many people from our surface world can make that stele!”

“...”

After glancing at the Holy and Monarch Merit Steles several times, the Warlocks focused on the Infinity Merit Stele. There are only less than ten names on the Holy Merit Stele and less than 50 names on the Monarch Merit Stele. However, the surface world’s Warlocks are mostly unfamiliar with those names. They are more interested in the Infinity Merit Stele.

“Human Infinity Merit Stele, third place, Lian Wuyi, 3,731,652 merit points.”

“Lian Wuyi, who’s that?”

“It should be a powerhouse from the core world!”

“The essence of human Warlocks is in the core world.”

“Human Infinity Merit Stele, second place, Bai Wuqing 9.731.652 merit points.”

“It’s His Majesty the Emperor! As expected of His Majesty the Emperor!”

“His Majesty has thrice as much merit points as Lian Wuyi! That’s His Majesty for you!”

When the Warlocks saw Bai Wuqing’s name, their spirit was stirred at once, and they revealed excited smiles.

Bai Wuqing is the Emperor of Great Cloud Dynasty as well as its No.1 expert. Although he forcibly expelled the Ten Great Sects from the Cangzhi Plane, but to be fair, he is indeed a wise ruler. There is no major oversight in the aspect of administration. He is quite popular among the people.

“Human Infinity Merit Stele, first place, Yang Feng, 41.725.361 merit points.”

“Yang Feng, who is he? Why haven’t I heard his name?”

“Wait, I seem to recall something. Right, it seems that the Battle Demon Sect has a true disciple called Yang Feng. A few years ago, he overpowered the Western World’s peerless experts in the Time Sky City.

“It has been less than 100 years since the trial by fire in the Time Sky City. At the time, he was just a Moonlight Warlock. How could he advance to an Infinity Warlock so quickly? The Cangzhi Plane is vast, so it is probably someone who just shares the same name!”

“Yes, this Yang Feng may be some bigwig from the core world.”

“...”

Ordinary Warlocks lack information and have little knowledge. Naturally, they don’t know that the Yang Feng on the Infinity Merit Stele is the same the Battle Demon Sect’s true disciples Yang Feng they mentioned.

Suddenly, the sky distorted slightly, and a huge eye appeared above the three merit steles and stared at the three merit steles. A wisp of Infinity step might came from the eye and shrouded the area below.

“Infinity Warlock!”

“An Infinity Warlock is here!”

“...”

The complexion of the human Warlocks around the steles changed drastically. Some weak Warlocks directly flew towards the Bright Light City.

Each Infinity Warlock possesses extremely terrifying strength. The fallout from their fight alone can kill human Warlocks below the Moonlight Warlock rank.

In this era of the great tribulation and chaos, those who know how to protect themselves will live longer.

An exclamation came from the huge eye: “Yang Feng, the Battle Demon Sect’s true disciple Yang Feng. I didn’t expect him to take this step.”

A mirror emerged from the void and looked at the three merit steles, and a cold voice came from it: “The Battle Demon Sect’s Yang Feng is the Undying Mountain’s Young Master Lei Ming. Since he holds the resources of three provinces by himself, his cultivation speed shouldn’t be too slow. It is not that strange for him to advance to an Infinity Warlock.”

“What, Yang Feng is the Undying Mountain’s Young Master Lei Ming!”

“The Undying Mountain’s Lei Ming is Yang Feng?”

“If he is the Undying Mountain’s Lei Ming, the Grand Duke of the North, then it can explain how he advanced to an Infinity Warlock.”

“...”

The eyes of the many Warlocks watching the three merit steles shimmered with enigmatic light, and they commented one after another.

The Undying Mountain’s Young Master Lei Ming emerged abruptly in the Li Gui Province, occupied the Li Gui Province, the Yu Province, and the Bright Moon Province, and was granted the title of Grand Duke of the North. He is a famous figure in the Cangzhi Plane, far more famous than the Battle Demon Sect’s true disciple Yang Feng,

“Scram!”

A cold, ruthless voice suddenly broke out from the sky, and a Warlock Monarch rank breath swept down.

“Crap!”

“...”

The countenance of the surrounding Warlocks changed greatly, and they turned into streams of light and flew to the Bright Light City.

The mirror and the huge eye, which are spells performed by Infinity Warlock rank existences, flew aside.

The clouds in the sky churned, and a tremendous amount of demonic qi converged and formed a dark cloud that spans 10,000 kilometers.

All Warlocks in an area 10,000 kilometers in radius looked up at the dark cloud, and their eyes shimmered with a dignified shade. They can feel that the dark cloud is nurturing a terrifying power.

A 10,000-meter-tall freak engraved with countless mysterious runes, with two horns on the head, emitting quasi-Holy step might, appeared abruptly and sent a fist barreling towards the three merit steles.

For ordinary Warlocks, those three merit steles are just a subject of conversation. But for some powerhouses, the three merit steles are objects that will reveal some of their details. They need to be erased

Boom!

When the fist of the quasi-Holy step freak slammed into the three merit steles, it unleashed an earth-shaking blare and a violent shock wave that spread in all directions.

Under the impact of the violent shock wave, all lives within tens of kilometers was killed.

In the Bright Light City, a huge barrier suddenly appeared and blocked the fearsome shock waves. If the shock waves are allowed to enter the Bright Light City, the ordinary people in the city will all die.

In the Great Cloud Dynasty, ordinary people who cannot practice cultivation still account for the vast majority of the population.

The quasi-Holy step freak sent one fist after another barreling towards the three merit steles like meteors.

Within tens of kilometers of the three merit steles, the earth quacked and cracked and magma erupted, yet the three merit steles remained unharmed.

“Damn it, who did it?!”

The quasi-Holy step freak issued an angry roar, then blurred, entered the dark cloud made from demonic qi, and disappeared

Dazzling green light shone, and the surrounding environment within tens of kilometers of the three merit steles strangely reverted to its original state as if nothing had happened.

But dozens of kilometers away, the apocalyptic scene still remained.

Infinity Warlock rank powerhouses possess tremendous power. As a result, when such powerhouses fight among themselves, they generally go outside the starry sky.

Each large city of human Warlocks has many Warlock towers built, which form powerful barriers that can resist the aftermath of a fight between powerhouses. After all, not all Infinity Warlocks will actively go outside the starry sky to fight.

In a palace, the Six Warlock Dynasty's Warlock Monarchs sat around a round table, in the middle of which there is a crystal suspended in the air. The crystal emitted rays that formed a vivid projection of the three merit steles.

The Taboo Monarch looked at Yang Feng's name on the Infinity Merit Stele, her beautiful eyes flashed with extraordinary splendor, and her mouth portrayed a smile: "First place on the Infinity Merit Stele, really amazing, as expected of the person I fancy!"

Chapter 890 – Movement of the Gumana Universe's Powerhouses

The Time Monarch frowned slightly and said slowly: "There is something strange about these merit steles!"

The universe will is a nonentity that can only achieve a certain will through a series of coincidences similar to the movie "Final Destination". The three merit steles, however, are not things that naturally occur in the universe, but secret treasures refined by some powerful being.

The Star Monarch frowned slightly and uttered slowly: "These merit steles are treasures refined by someone who has drawn on the universe will with a unique secret method. Their purpose seems to be to sow dissension."

Fame and wealth are two words that Infinity Warlocks cannot break away from. They are a double-edged sword. The appearance of the strange merit steles not only exposed the top human experts in the universe, but also stirred up the struggle between them.

The Infinity, Monarch, and Holy Lists in the core world are a way that the Six Warlock Dynasties use to sow dissension and split apart other forces and Warlock geniuses.

In order to compete over ranking, many Infinity Warlocks on the Infinity List fight each other endlessly and form deep feuds. Such Infinity Warlocks are conducive to the control of the Six Warlock Dynasties.

Now that the Infinity, Monarch, and Holy Merit Steles appeared, narrow-minded and irascible powerhouses will attack other powerhouses on the merit steles, which is not conducive to the unity of human Warlocks.

The Magic Note Monarch frowned slightly, saying: "Can they be destroyed?"

The Taboo Monarch replied unhurriedly: "We can destroy them using an Empyrean grade secret treasure. But that would be meaningless. After all, they are already connected to the universe will. Even if we destroy them, they will soon regenerate somewhere else. Only existences at the level of our Lords can erase them from the laws and destroy them completely."

The universe will cannot form the Infinity, Monarch, and Holy Merit Steles on its own. However, as long as a powerful entity links with the universe will and refines such secret treasures, it will be extremely

difficult to erase them. Although Empyrean grade secret treasures can destroy them, but they will quickly be reborn elsewhere.

With a flash of wisdom in his eyes, the Time Monarch uttered: "We should set up the Human Supreme Council, we must gather the strength of all humans to survive this crisis."

If there was a Warlock Emperor rank human powerhouse, then human Warlocks would naturally establish a Warlock Dynasty with said Warlock Emperor as the core.

But since no Warlock Emperor rank human powerhouse has been born and there is no great difference between the Six Warlock Dynasties in terms of strength, the establishment of the Human Supreme Council and integration of all human forces is the best course of action for the Six Warlock Dynasties.

"I agree!"

"I agree!"

"I agree!"

"I agree!"

"I agree!"

The other Five Monarchs agreed without hesitation.

If the proper terminology isn't used, then what is said won't be followed. Although the Six Warlock Dynasties are the most powerful forces in the Cangzhi Plane, far more powerful than other Warlock groups. But only by establishing the Human Supreme Council will they be able to grasp the power of humanity.

The 666th floor of the endless Abyss, Yang Feng's abyssal avatar is quietly practicing cultivation and absorbing the surrounding abyssal force.

Yang Feng's abyssal avatar suddenly opened his eyes, and regret flashed in his eyes: "It's no good, the potential of this abyssal avatar has been exhausted. Unless I get a treasure like a King Fiend Heart, it will be difficult to evolve into an abyssal king even after hundreds of thousands of years."

When abyssal creatures enter the Bloody Battlefield to fight, they can evolve into an abyssal marquis at most. It is very difficult for an abyssal marquis to advance to an abyssal grand duke.

To advance to an abyssal king from an abyssal grand duke is even harder and is almost impossible. Compared to the advancement to a Warlock Monarch from an Infinity Warlock, the odds of advancing to an abyssal king are 100 times lower.

Only those who are favored by the endless Abyss can break the shackles of bloodline and become abyssal kings.

Yang Feng's abyssal avatar is clearly not favored by the Abyss, so his limit is the abyssal grand duke rank. Only by obtaining an exceptional treasure like a King Fiend Heart can his avatar break the shackles and become an abyssal king.

Yang Feng suddenly raised his head and looked into the distance, and countless runes appeared in his eyes: "Someone is invading the Abyss!"

With 36 Tier II Hives as the core, Hives plunged into the Abyss and moved towards the deepest part of the Abyss.

As if huge whirlpools, the Hives crazily devoured the abyssal force in the endless Abyss. They appear like they are native existences of the Abyss.

Yang Feng's blood ran cold when he saw this scene: "Sure enough, there is something strange about the endless Abyss!"

The Abyss is a filthy, dark nest formed from negative energy and broken souls of the universe where fiends and freaks reside. As long as there are intelligent life forms in the universe, the Abyss won't be completely destroyed.

Even if it is a Holy step powerhouse, if they stay in the Abyss for a long period of time, they will be eroded, and degenerate into an abyssal lord. This is how many abyssal king were born.

According to reason, since the Gumana Universe's powerhouses are being rejected by this universe, they should also be eroded by this universe's negative energy. However, as soon as the Gumana Universe's powerhouses entered the Abyss, they were like fish in water. Yang Feng feels that there's something fishy.

Yang Feng watched the Gumana Universe's powerhouses move towards the deepest part of the Abyss, and felt a chill in his heart: "At the time in the Dulan Imperial Court, Poydul should have been working for the Gumana Universe's powerhouses. This signifies that the Gumana Universe has made a lot of arrangements in our universe and has many fallback plans.

Judging from the performance of the Gumana Universe's powerhouses, they have a deep understanding of this universe. They must have many spies here. Moreover, the Gumana Universe's energy level is half an energy level higher than that of this universe, making this war of annexation between universe's extremely dangerous for this universe.

Abyssal fiends are violent, savage, chaotic, and irrational. However, the floor lords of the Abyss have wisdom. They watched as the Gumana Universe's powerhouses moved deeper into the Abyss without stepping in.

A 1,000-meter-long dragon-headed elephant with the head of a dragon, the body of an elephant, two horns on the head, a pair of dragon wings on the back, exuding abyssal grand duke fluctuations of power, flew out and fired a black beam barreling towards a Hive.

The countless openings of the Hive closed, and then the black beam blasted into the Hive and distorted the side it hit.

From the other Hives, 50 Infinity Warlock and 1,000 Bright World Warlock rank powerhouses flew out and shot towards the dragon-headed elephant.

Countless lights shone, and the dragon-head elephant was blasted to pieces by the Gumana Universe's powerhouses.

“They’re not weakened!”

“What’s going on? Shouldn’t only abyssal creatures not being weakened in the endless Abyss?”

“It’s strange!”

“...”

The floor lords, who watched what happened here via different methods, frowned slightly, and apprehension flashed in their eyes.

The Abyss is full of abyssal force, which can suppress alien species that enter the Abyss. Apart from abyssal life forms, when other beings enter the Abyss, they will be eroded by the endless abyssal force, and finally become abyssal life forms themselves.

At the time, when the Eight Warlocks Emperors of the Cangzhi Plane suppressed countless planes, they eliminated all kinds of powerful beings in the endless Abyss again and again, making them into cultivation resources.

Even so, the Abyss has never been completely under the control of the Eight Warlock Emperors, because the erosion of abyssal force is too terrifying, and so the top human Warlocks couldn’t stay in the Abyss for a long time.

Although the Abyss is said to have no end, but in fact, there is a limit. Yang Feng’s abyssal avatar has carefully examined it. At present, the Abyss has about 17,362 floors.

But among them, 17,000 floors have been set, while the remaining 362 floors are still in a semi-formed state. Since they are in an unstable, chaotic state, the 362 floors of the Abyss cannot give birth to floor lords. As such, they cannot be regarded as fully formed.

It is because the Abyss is in a strange state that the number of floors cannot be determined.

The Gumana Universe’s legion dove to the 17,000th floor of the Abyss, stormed it, and fought its floor lord.

Slow to respond, the floor lord of the 17,000th floor of the Abyss didn’t escape at the first moment. Consequently, he was surrounded and slayed by the Gumana Universe’s legion. The Gumana Universe’s legion seized the floor lord authority of the 17,000th floor and garrisoned on the plane.

Yang Feng’s abyssal avatar mused: “To hide in the Abyss, it’s a clever choice. Unless it is a Holy Spirit Warlock rank powerhouse, it would be suicidal to enter the Abyss occupied by the Gumana Universe’s powerhouses. With the buff provided by the floor lord authority and the debuff provided by abyssal force, even if it is a Holy Spirit Warlock, if they enter the endless Abyss alone, they may be surrounded and killed by the Gumana Universe’s powerhouses.”
