

## MGE 891

### Chapter 891 – Chance Encounter

The Gumana Universe's vanguard has suffered disastrous casualties. Of course, they have also killed countless powerhouses, erased many human Warlock groups, and destroyed many planes of this universe.

After the Gumana Universe's vanguard destroyed their designated targets, they went into hiding. The Abyss is evidently one of the places they choose to hide in.

In the endless Abyss, there are many human Warlocks with floor lord avatars. As such, it is impossible to hide from human Warlocks the news that the Gumana Universe's powerhouses entered the Abyss.

However, the Gumana Universe's powerhouses hold a favorable position in the endless Abyss. Only Warlock groups of the caliber of the Six Warlock Dynasties that can dispatch Holy Spirit Warlocks may wipe them out. Warlock groups without Holy Spirit Warlocks pose no threat to the Gumana Universe's powerhouses hiding in the Abyss.

Yang Feng's abyssal avatar pondered: "However, the Gumana Universe's powerhouses hiding in the Abyss poses a headache only to most human Warlock groups. If the Six Warlock Dynasties set their mind and display their underlying strength, they can still wipe them out. Unless, this is some kind of plot."

Due to the lack of clues, Yang Feng's abyssal avatar cannot guess the plot of the Gumana Universe's powerhouses. He can only drop it and send someone to pay close attention to the 17,000th floor of the Abyss.

The news that the Gumana Universe's powerhouses entered the Abyss soon spread in the world of Warlocks and caused a stir. Many powerful Warlock groups originally wanted to encircle and annihilate the Gumana Universe's powerhouses. But when they heard that the enemy is hiding in the Abyss, they could only choose to give up.

The Warlock groups focused their attention on the Six Warlock Dynasties. Only the Six Warlock Dynasties have the power to crush the Gumana Universe's powerhouses. By following the Six Warlock Dynasties, they can slay the Gumana Universe's powerhouses.

The Six Warlock Dynasties responded quite calmly. After a while, invitation letters fell into the hands of the leaders of Warlock groups.

The Gold Factor Plane is the plane that Yang Feng seized from the Three Transcendent Kings.

As a grade 3 plane, Gold Factor Plane's grade is one grade higher than that of the Battle Demon Sect's base the Battle Demon Plane. As soon as this plane fell into his hands, Yang Feng invested a lot of resources to transform it into his second base.

The Gold Factor Plane, near a beautiful beach, a dozen plus beauties in swimsuits are frolicking.

While sitting in a beach chair, Yang Feng watched the more than a dozen beauties frolicking. There is an invitation letter rotating in his hand.

Looking at the invitation letter, Yang Feng frowned slightly and sank into his thoughts: “Human Supreme Council? With my current strength, it is very easy for me to get a seat in the Human Supreme Council, but it’s impossible to become a chairman.”

Since the first war with the Gumana Universe’s vanguard, Yang Feng got a large number of arms orders. Until now, he has manufactured a large number of 5th generation battle robots, which have joined his ranks and the ranks of his allies.

Now the number of 5th generation battle robots under Yang Feng’s command has reached 9 million and is still rising.

Even so, Yang Feng’s forces don’t count for much in front of the topmost Warlock groups. His forces can only be regarded as a first-rate Warlock group. One of the most important factors behind this is that there is no Holy Spirit Warlock in his camp.

Yang Feng frowned slightly and sighed slowly: “Before becoming a Holy Spirit Warlock, you are just an ant.”

Infinity Warlocks can be regarded as strong in any plane. However, Holy Spirit Warlocks are regarded as guardians of a race. Only races with a Holy Spirit Warlock rank powerhouse can be called a superior race in this universe, and won’t be bullied excessively.

Also, only Holy Spirit Warlock rank powerhouses pose a slight threat to Warlock Emperors.

Before the core world’s Warlocks appeared, Infinity Warlocks were the most powerful existences in the Cangzhi Plane. But now that the core world’s Warlocks have emerged in response to the great tribulation, Holy Spirit Warlock have become the strongest powerhouses.

In the battle to defend the Bai Family’s headquarters, Yang Feng has witnessed the terror of Holy Spirit Warlocks. Any Holy Spirit Warlock could have destroyed the Gumana Universe’s powerhouses.

Although Yang Feng has millions of 5th generation battle robots and hundreds of millions of 4th generation battle robots, but in front of a Holy Spirit Warlock, he stands no chance.

The Human Supreme Council is an institution that the Six Warlock Dynasties want to use to integrate the resources of human Warlocks and control the power of human Warlocks. This is an overt plot.

Yang Feng has to admit that such a powerful institution will be of great significance to the continuation of this universe. However, if this powerful institution is not in his hands, he will always feel a little ill at ease.

After all, Yang Feng has little contact with the Six Warlock Dynasties and has no deep ties with them. Although he is on friendly terms with the Taboo Dynasty. But in the face of major interests, the Taboo Dynasty’s powerhouses will naturally choose to take care of their own interests.

Yang Feng’s eyes shone, and he made up his mind: “In the end, you have to rely on yourself. Although my ties with the Taboo Dynasty cannot be severed. However, it is better to get the position of a chairman.”

Yang Feng blurred and disappeared.

The Moon Magic Sea is a strange sea in the Cangzhi Plane. In this sea, whenever night falls, nine bright moons appear in the sky.

The Moon Magic Sea is the main channel that links the Western World with the Velus Subcontinent.

Velus Subcontinent is one of the largest subcontinents in the Cangzhi Plane, is closely connected with the Western World, is rich in resources, and has three Infinity Warlocks standing guard. It is completely different from a barren place like the Turandot Subcontinent.

A 3,000-meter-long and 100-meter-tall luxury cruise ship is sailing in the Moon Magic Sea. On the deck of the luxury cruise ship, a grand ball is being held.

Well-dressed handsome men and beautiful women are dancing on the dance floor, walking around with a glass in hand, and making friends.

The Warlocks aboard this luxury cruise ship are wealthy people. If that wasn't the case, they wouldn't be able to afford the tickets to this luxury cruise ship sailing to the Velus Subcontinent.

Yang Feng is sitting in a corner of a bar aboard the luxury cruise ship, tasting fine wine quietly. On the table in front of him, there are more than a dozen dishes of precious food that are the specialty of the Moon Magic Sea.

"Delicious, this moon magic sea devil egg is really delicious. It is both sweet and fragrant. It is really memorable."

Yang Feng used chopsticks to pick up a peanut-sized, ruby-like egg emitting faint light, put it in his mouth, and chewed, and his eyes radiated the shade of elation.

Cangzhi Plane has countless extraordinary life forms, and the food cooked from them isn't something that ordinary food can compare to in terms of taste.

Every time Yang Feng goes to a place, he will pay a lot of money and buy all kinds of top-level food to enjoy. As an Infinity Warlock, there are few things in the world that he cannot buy with his wealth.

"Hello, can we sit with you?"

A bright voice sounded, and Yang Feng raised his head and saw a blond, beautiful girl with a tall and sexy figure, wearing light makeup and a beautiful girl with short blue hair, beautiful, spirited eyes, and a tall and sexy figure.

In the world of Warlocks, female Warlocks generally use magic to adjust their appearance. Many female Warlocks practice secret methods that can enhance their beauty. Female bloodline Warlocks, even more so, are all beautiful. Therefore, beautiful women are common and ugly women are rare in the world of Warlocks.

Yang Feng replied with a smile: "Please."

Women from the Western World are much more open-minded than women from the Eastern World. If there is a man they like, they will take the initiative to talk with him.

The blond, beautiful girl pulled the beautiful girl with short blue hair to sit opposite of Yang Feng and said with a smile: "My name is Julie. This is my friend, Carma. May I ask your name?"

Yang Feng replied with a smile: "My name is Yang Feng."

Julie asked curiously: "Are you an aristocrat from the Eastern World?"

Yang Feng asked back with a smile: "Why do you think so?"

Julie uttered with a confident smile: "Moon magic sea devil egg, moonlight clam, moon magic silver fish, green devil crab, these delicacies are priced in grams. A gram of moon magi sea devil egg costs 100 magic crystals. This is something that the poor can't afford. Besides, you have a very elegant air about you. At first glance, you look like you are from a top aristocratic family from the Eastern World."

Carma looked at the delicious food, and her beautiful eyes shimmered with brightly.

Yang Feng asked with a smile: "Ladies, would you like to enjoy these delicacies with me?"

"If you insist, then I won't stand on ceremony."

Julie smiled straightforwardly, took a pair of chopsticks, picked up a moon magic devil egg, and put it in her mouth, and her eyes revealed the shade of intoxication.

Carma hesitated for a moment. Finally, unable to resist the temptation of the delicious food in front of her, she took a pair of chopsticks and went for a moon magic sea devil egg as well.

While eating and chatting, Yang Feng easily learned of Julie and Carma's information. Julie is from the Brest Dynasty's Rulen Family, a family with a Moonlight Warlock. She is the family's 392nd successor. Carma is the daughter of an upstart family from the Brest Dynasty. Both of them are students of the Brest Dynasty's Bowen Warlock Academy. They are now on a trip to the Velus Subcontinent.

## **Chapter 892 – Prestige**

Since the Cangzhi Plane is guarded by the Six Warlock Dynasties, the universe rift outside the Cangzhi Plane was sealed immediately after it emerged. As a result, the disaster of war didn't befall the plane. Although it is no secret that the other universe's powerhouses have invaded, but for most ordinary Warlocks, their lives haven't been impacted yet.

"Julie, you're here." A very handsome young man in a black suit, with short blond hair, came over.

The young man took a look at Yang Feng, frowned slightly, and looked around silently. After seeing the valuable delicacies such as moon magic sea devil eggs, the young man's eyes shrank slightly, and he said politely with a gentlemanly smile: "Hello, Mister. My name is Mike, one of the trustees of the cruise ship Meron and a friend of Julie. May I sit with you?"

A Warlock who can enjoy top food such as moon magic sea devil eggs must have an impressive background. Unlike hedonistic children of rich parents who don't understand anything, Mike is quite capable.

Yang Feng uttered with a smile: "Please."

Mike is quite erudite and knows all kinds of things about the Moon Magic Sea and is witty. With him around, the conversation is never stale. He is obviously interested in Julie. When he speaks, he pays her quite a bit of attention and tries to accommodate her, leaving no room for doubt regarding his intentions.

Julie, on the other hand, is a little cold towards Mike, assuming a polite attitude with hints of estrangement.

Carma is clearly interested in Mike, as she keeps looking for topics to talk to him.

With a smile on his face, Yang Feng sat aside and enjoyed the delicious food while watching the love triangle.

“In the Moon Magic Sea, there are countless powerful sea monsters. Some sea monsters even possess Moonlight Warlock rank fighting strength. They can easily capsize a giant cruise ship like this one.”

“Many Warlock families dare not navigate this route. It took our Porec Family 500 years to establish contact with the Moon Magic Sea’s merfolk and open up this route. I actually have some reputation among the merfolk of this route. If you encounter any danger in the Moon Magic Sea, you can mention my name.”

Mike’s eyes fell on Julie and shimmered with faint pride.

Boom!

All of a sudden, the huge cruise ship made loud noise and shook violently.

The tables and chairs on the deck were lifted off the floor, and issued clattering sounds.

Life force fields emerged abruptly. The Warlocks aboard the cruise ship activated their life force fields to protect themselves at once.

The Warlocks around ordinary people with high status cast spells to guard their patrons.

Bulky cuttlefish tentacles full of suction cups suddenly ejected from the sea, wound around the huge cruise ship, and pulled it underwater

The 3,000-meter-long luxury cruise ship trembled slightly, and was pulled down by the frightening cuttlefish.

Mike broke out with a Great Warlock rank life force field, operated a spell, and yelled towards the bottom of the sea: “Stop. I am Mike from the Porec Family, I am good friends with General Comolion!”

The huge tentacle paid his words no attention and continued to pull the luxury cruise ship down.

With flashes of light, magic carpets appeared above the luxury cruise ship. Many Warlocks jumped atop the magic carpets. People looked at the huge tentacles pulling the luxury cruise ship down with shock on their faces, and despair flashed in their eyes.

That luxury cruise ship has a huge defensive barrier, which can resist the attacks of Starry Sky Warlock rank powerhouses.

Along the way, the luxury cruise ship relied on the powerful barrier to crush countless low-level sea monsters. Without the luxurious cruise ship, these low-level Warlocks would not be able to cross the Moon Magic Sea alive.

“Yang Feng, get on the magic carpet. If you don’t hurry, there won’t be any place for you.”

Julie, while pulling Carma, jumped onto a magic carpet nimbly. When she saw Yang Feng sitting quietly on the deck, the countenance of her pretty face changed slightly, and she shouted.

In the short time they spent together, Julie has developed a favorable impression of Yang Feng, this aristocrat from the Eastern World. She naturally does not want to see him die here.

Yang Feng smiled and flicked his finger, and a tongue of blue flame suddenly flew out and fell on a tentacle of the giant cuttlefish.

As soon as the tongue of blue flame fell on the cuttlefish’s tentacle, it burned wildly, and azure fire spread at an amazing speed. In an instant, the azure fire covered all of the cuttlefish’s tentacles and extended towards the sea.

A bizarre scene took place. The azure fire suddenly sank into the sea and extended to the body of the giant cuttlefish hidden deep in the sea.

Deep underwater, the giant cuttlefish retracted its tentacles, thrashed wildly, and raised one huge wave after another, which struck towards the luxury cruise ship.

As soon as the luxury cruise ship got free from the giant cuttlefish, a huge barrier rose. When the huge waves hit the barrier, they were deflected aside.

The giant cuttlefish struggled as it was burned into ashes by the azure fire.

“We’re saved!”

“So strong! It’s a Glorious Sun Warlock! To be able to burn this giant cuttlefish to death so easily, it must be a Glorious Sun Warlock.”

“I didn’t expect there to actually be a hidden Glorious Sun Warlock aboard!”

“...”

When the low-level Warlocks sitting atop magic carpets saw the giant cuttlefish burn to ashes, they discussed excitedly, and their eyes filled with awe focused on Yang Feng.

Glorious Sun Warlocks are Transcendent rank powerhouses. In the world of Warlocks, every Glorious Sun Warlock is a bigwig among bigwigs.

Mike gazed at Yang Feng, and his eyes flickered with shame. Thinking of how he tried to show off in front of Yang Feng a moment ago, he wanted to find a hole and crawl inside.

Carma looked at Yang Feng, and her beautiful eyes blossomed with a queer shade: “Glorious Sun Warlock! He is actually a Glorious Sun Warlock, a Transcendent rank powerhouse!”

Carma, who is from an upstart family, worships the strong. The reason why she pursued Mike was because he was the most outstanding individual she had ever met. However, compared with Yang Feng, Mike is just an ant. As a result, she changed her target.

A complex shade flashed across Julie's beautiful eyes, and her thoughts churned: "Glorious Sun Warlock! I already guessed that he is extraordinary. However, I didn't think that he would be this extraordinary!"

Powerhouses above the Starry Sky Warlock rank are already Transcendents. Such powerhouses are in a different league from ordinary Warlocks. As a result, it is extremely challenging to make friends with them.

"Who! Who the hell killed my precious pet!"

The surface of the sea surged suddenly, and a 20-meter-tall merfolk powerhouse with a whale head and a human body, exuding Glorious Sun Warlock rank fluctuations of power, emerged and roared.

Glorious Sun Warlock rank fluctuations of power enveloped the luxury cruise ship. Even though the luxury cruise ship activated a barrier, but the complexion of many ordinary people paled nonetheless, and they coughed up a mouthful of blood.

Subjected to the pressure emitted by the Glorious Sun Warlock rank powerhouse, Mike gritted his teeth and uttered respectfully: "Esteemed sir, I am Mike from the Porec Family, I am good friends with General Comolion!"

The merfolk powerhouse shot Mike a contemptuous glance, then surged with killing intent and uttered ferociously: "The Porec Family! Never heard of it! Was it you, humble human, who killed my pet?!"

Under the fearsome Glorious Sun Warlock rank pressure, Mike gritted his teeth and replied, enunciating each syllable: "It... wasn't me!"

"I killed your pet!"

Yang Feng's calm voice sounded. The whaleman powerhouse's gaze fell on Yang Feng, and a dignified shade streaked across his eyes.

The whaleman powerhouse asked coldly: "I am Jinggu, a general of the Dulan Imperial Court. Who are you? Why did you kill my pet?"

Yang Feng replied: "I am the Battle Demon Sect's Yang Feng!"

Jinggu's countenance changed drastically, and he exclaimed: "The Battle Demon Sect's Yang Feng! You are the Battle Demon Sect's Sect Master Yang Feng!"

"The Battle Demon Sect's Sect Master! He is the legendary Battle Demon Sect's Sect Master Yang Feng who took first place on the Infinity Merit Stele!"

"He is the Battle Demon Sect's Sect Master Yang Feng? Unfortunately, I didn't talk to him before!"

"..."

Aboard the luxury cruise ship, everyone's eyes flashed with astonishment. Next, gazes full of scorching shade and regret focused on Yang Feng.

Warlocks from the Western World know little about Warlocks from the Eastern World. However, the top 10 powerhouses on the Infinity Merit Stele are well-known all over the world. Even low-level Warlocks in the Western World know that in the Eastern World, the Sect Master of a first-rate Warlock group took first place on the Infinity Merit Stele.

Mike's breathing became rapid and his eyes focused on Yang Feng and filled with a scorching shade: "The Battle Demon Sect's Sect Master, he is actually the Battle Demon Sect's Sect Master Yang Feng! Damn it, I missed such a great opportunity. I wonder if he'll accept me as an apprentice if I ask him?"

As one of the successors of the Porec Family, Mike is already the successor of a prestigious Warlock family in the eyes of ordinary people. However, compared to his Warlock group, the Battle Demon Sect is in another league. If he could take Yang Feng as his teacher, that would be equivalent to a tremendous fortuitous encounter, which would save him at least 500 years of struggle.

### **Chapter 893 – Refusal**

Jinggu restrained the air of arrogance around him and saluted respectfully, saying: "Greetings, sir. I ask sir to please forgive my previous transgression."

Wisps of Infinity step might diffused from Yang Feng and shrouded Jinggu: "I want to see the Dulan Monarch, help me pass on the message."

After the war with the abyssal fiends, the Dulan Imperial Court left the sea it stayed previously and moved to the Moon Magic Sea.

"Yes, sir!"

Jinggu plunged into the sea and disappeared.

The Warlocks who stood atop magic carpets jumped down one after another. Their eyes fell on Yang Feng and shimmered with a scorching shade.

Yang Feng released specks of light and disappeared before everyone's very eyes.

"He's gone!"

"Regrettably, I missed such a great opportunity."

"..."

When the people aboard the luxury cruise ship saw Yang Feng disappear, they showed looks of regret.

At this time, the sea suddenly tumbled and rolled, and an elite merfolk legion riding on waves emerged from the depths of the sea.

A sexy, mesmerizing woman with long blue hair and snow-white skin, dressed in a garment made from pearls, riding a giant octopus, emerged from the sea as well.

Terrifying pressure spread from the merfolk legion and enveloped the luxury cruise ship.

Under this pressure, the people aboard the luxury cruise ship shivered with fear.

The mesmerizing merfolk woman parted her rosy lips, and a honey-sweet voice full of temptation sounded: "The Dulan Imperial Court's Admiral Lanhai has come to greet Sir Yang Feng."

When the people aboard the luxury cruise ship, whether men or women, heard that voice, intoxication surged in their eyes.

Light emerged on the surface of the sea and formed Yang Feng's figure.

"Greetings, Sir!"

When they saw Yang Feng, the merfolk bowed and saluted him.

Yang Feng took a step and appeared on the giant octopus.

Waves surged, and the huge merfolk legion dove into the sea.

"Amazing, so this is an Infinity Warlock! With just a few words, he made those unruly, fearsome merfolk behave!"

"The Battle Demon Sect's Sect Master is not an ordinary Infinity Warlock. He is the person who took first place on the Infinity Merit Stele. Such a powerhouse can naturally get the attention of the merfolk!"

"If only I could cultivate to the Infinity Warlock realm, how great would it be?"

"Infinity Warlock? It would be already great to be able to cultivate to the Moonlight Warlock realm!"

"..."

As the people aboard the cruise ship watched Yang Feng disappear in the sea, their eyes revealed envy and longing.

"Infinity Warlock, so this is an Infinity Warlock! As expected of a most formidable Warlock. Regrettably, I'm not talented enough. It's very difficult for me to advance to an Infinity Warlock."

Julie looked at the sea where Yang Feng disappeared with yearning in her beautiful eyes.

Carma looked at the place where Yang Feng disappeared with a scorching gaze in her beautiful eyes and whispered: "A man like that is my most ideal partner. Even if it is his lover, I am most willing to become one."

Before long, a beautiful and luxurious merfolk city appeared in front of Yang Feng.

There was originally a temporary royal palace of the Dulan Imperial Court in the Moon Magic Sea. Naturally, this temporary imperial residence cannot compare to the original Dulan Imperial Court, but it is barely enough for the Dulan imperial Court's merfolk powerhouses to use.

Guided by Admiral Lanhai, Yang Feng entered the royal palace of the Dulan Imperial Court.

As soon as he entered the royal palace, Yang Feng saw sirens, mermaids, mussel women, snake women, nagas, and other kinds of beautiful merfolk women.

Formidable breaths diffused from every corner of the royal palace and faintly locked on Yang Feng.

When he stepped into the hall, Yang Feng saw a tall, handsome man wearing a blue imperial robe and a blue crown, who appears to be only 27 or 28 years old, full of dignity, sitting on the throne.

The handsome young man is one of the three Monarchs of the seas of the Cangzhi Plane, the Dulan Monarch.

In the endless seas of the Cangzhi Plane, billions upon billions of merfolk must obey the orders of the Dulan Monarch. His words can change the fate of countless people.

In front of the Dulan Monarch, there stand important officials of the Dulan Imperial Court arranged into two rows. The important officials are all merfolk powerhouses. They mostly look like humans, retaining only some characteristics that betray their identity as merfolk.

During the eras of the Eight Warlock Dynasties, merfolk were vassals of human Warlocks. Due to their integration of human aesthetic concepts, the higher their status is, the more merfolk evolve to look like humans.

One after another, eyes focused on Yang Feng, many of which revealed admiration, jealousy, and other complicated emotions.

From the time when Yang Feng entered the Battle Demon Sect and appeared in people's sight, it has been less than 300 years. For some ancient merfolk with formidable bloodline, their children with such an age are considered to be underaged. Yet in that short period of time, Yang Feng has not only become an Infinity Warlock, but also taken first place on the Infinity Merit Stele. As such, it is not surprising for the merfolk powerhouses to be full of complicated feelings.

Yang Feng saluted the Dulan Monarch and said in a neither servile nor overbearing tone: "The Battle Demon Sect's Sect Master Yang Feng greets the Dulan Monarch!"

The Dulan Monarch asked lightly: "Yang Feng, for you to come see this Monarch, what can I do for you?"

Yang Feng replied: "I came to ask Your Majesty to sell me the Desolate Holy Vessel!"

The Dulan Monarch's eyes congealed, and he said in a cold smile: "The Desolate Holy Vessel? The Desolate Holy Vessel is a Holy grade secret treasure of the Dulan Imperial Court. It is not a treasure that can be sold. Please go back!"

The Desolate Holy Vessel is a Holy grade secret treasure refined from the Brilliant Great Holy's head as the main material and it possesses extremely profound powers.

Each Holy grade secret treasure is a treasure with the power to seal the destiny of a major force.

An Emyrean grade secret treasure such as the Sea God Royal Court possesses terrifying might. However, every time it is activated, it consumes countless resources and even damages the origin force of the merfolk powerhouses, greatly damaging their vitality. This is a trump card that can only be used at the most critical and dangerous times.

However, Holy grade secret treasures are different. If they pay a certain price, Warlock Monarch rank powerhouses can still use a Holy grade secret treasure to fight enemies.

The Dulan Imperial Court has never stopper collecting secret treasures since the collapse of the Eighth Warlock Dynasty. Over the past tens of thousands of years, the merfolk have only collected five Holy grade secret treasures. Coupled with the eight Holy holy grade secret treasures their race possessed to begin with, merfolk have now a total of 13 Holy grade secret treasures. This shows how precious and rare Holy grade secret treasures are.

Yang Feng uttered with a smile: "Every treasure has a price. I can use a vial of archaic kun [1] dragon blood essence to exchange for the Desolate Holy Vessel."

The eyes of Dulan Monarch radiated with resplendent light, and he exclaimed: "Archaic kun dragon blood essence!"

The Dulan Imperial Court's royal family are descendants of an archaic kun dragon. Originally, their evolution potential was limited to the Infinity Warlock realm. But when the Dulan Monarch was young, he got a portion of archaic kun dragon blood essence in an adventure, which he purified and used to break the shackles and advance to a Warlock Monarch rank powerhouse.

However, after the Dulan Monarch was promoted to a Warlock Monarch rank powerhouse, the power of his bloodline was exhausted. He already stayed in the junior Warlock Monarch rank for tens of thousands of years. If he can get a vial of archaic kun dragon blood essence, he will be able to break the shackles of bloodline and advance again. He may even be able to advance to a Holy Spirit Warlock rank powerhouse.

Adult pure blood archaic kun dragons are Bright World Warlock rank extraordinary life forms. As long as they work hard, they may practice cultivation until the Holy Spirit Warlock rank. According to legend, the first primordial kun dragon in the universe was a Warlock Emperor rank entity. Therefore, as its descendants, archaic kun dragons can continue to evolve as long as they enhance the power of their bloodline.

Pure blood kun dragons in the Cangzhi Plane have long since been hunted to extinction by the Taboo Lord. Only some relic sites from ancient times have some archaic kun dragon blood essence remaining.

The vial of archaic kun dragon blood essence is a treasure Yang Feng extracted from an archaic kun dragon in the Extraordinary Beast Plane.

The Dulan Monarch closed his eyes. When he opened them again, all the excitement in his eyes disappeared, and he uttered unhurriedly: "I can give you cultivation resources worth 20 times more than the archaic kun dragon blood essence in exchange."

Although the archaic kun dragon blood essence is precious, but with the Dulan Imperial Courts wealth, they can easily pay resources worth 100 times more than it in exchange.

Yang Feng replied flatly: "I only want the Desolate Holy Vessel!"

The Dulan Monarch uttered resolutely: "Please leave!"

"I'll take my leave then."

Yang Feng frown slightly, looked deeply at the Dulan Monarch, and then turned around and walked away without hesitation.

No one noticed that specks of dust fell from Yang Feng's soles and remained in the hall.

The Dulan Monarch glanced at the important officials and said indifferently: "You may withdraw!"

"Yes! Your majesty!"

The important officials saluted the Dulan Monarch and left respectfully.

After the important officials disappeared from the hall, a redstone [2] powerhouse with a red rhombus crystal embedded on his head emerged and uttered without a trace of politeness: "Dulan Monarch, why didn't you follow my orders just now and vanquish the Battle Demon Sect's Sect Master?"

King Dulan replied with a bit of respect: "Sir Hongshi Zhen, he just came to look for a treasure, he didn't commit any offense. If I had vanquished him without an excuse, I'm afraid it would have aroused suspicion."

## **Chapter 894 – Plan**

Hongshi Zhen uttered coldly: "This man is a great enemy of my race. I want him to die here."

Dulan Monarch frowned slightly and said unhurriedly: "The Battle Demon Sect's Sect Master is not a nobody. If I kill him here, the human Warlocks won't live it be."

If it was a rogue cultivator without any background, the Dulan Monarch would have killed him. Even if it was a human Infinity Warlock rank rogue cultivator, he would have slayed him without hesitation.

However, Yang Feng is the Battle Demon Sect's Sect Master and has many allies and subordinates. Even though the Dulan Monarch is a Warlock Monarch rank powerhouse, but he doesn't dare to kill such a bigwig.

There are countless experts among human Warlocks, including more than one Holy Spirit Warlock. Furthermore, many more experts are still slowly awakening.

As for merfolk, they only have the Devil Sea Great Holy standing guard, who still hasn't fully awakened. If human Warlocks find an excuse to make trouble, then despite their home advantage, merfolk won't be able to resist them.

"If there is no excuse, then make one. Dulan Monarch, don't forget that it was with our help that you were able to get rid of your brothers and ascend the throne of the Dulan Imperial Court. It was also with our help that you advanced to a Warlock Monarch."

"If the news of your collusion with us comes out, not only the human Warlocks will come after your life, but even other merfolk won't let you off." Hongshi Zhen said with a cold smile.

When Yang Feng heard this, he felt a chill in his heart: "The Dulan Monarch colluded with the other universe's powerhouses! That's terrible!"

The Dulan Monarch is not only one of the three Monarchs of the Cangzhi Plane's merfolk, but also wields the Empyrean grade secret treasure the Sea God Royal Court. He possesses terrifying power. If

such a fearsome force becomes a turncoat at a critical time, the defensive line of human Warlocks will suffer heavy damage.

The other universe's powerhouses have planted who knows how many spies in this universe. If you think about it carefully, it will make your hair stand on end.

In the process of annexation between two universes, most of the life forms of the annexed universe will either die or become slaves of the other universe. However, there is also a small number of traitors who will be sheltered by the other universe's powerhouses.

Taken advantage of this point, the Gumana Universe's powerhouses planted spies in this universe. Who knows how many powerhouses were bought by them and became their lackeys.

The Gumana Universe, which has three Eternals, has unfathomable underlying strength. Were it not for the wall that separates the universes, the Gumana Universe would have already crushed everything with absolute power and annexed this universe, where the strongest powerhouses are only Warlock Emperors. Under such circumstances, it is not surprising for the Gumana Universe to be able to rope in many traitors.

The eyes of the Dulan Monarch flashed with enigmatic light, and he said slowly: "It is absolutely impossible to deal with Yang Feng openly. However, I can ask him to go to the Dark Star Realm to retrieve a Dark Star True Dragon Stone. When he enters the Dark Star Realm, you can hunt him down."

Hongshi Zhen's eyes flickered with queer light, and he said: "The Dark Star Realm? Okay, let's go with that. As long as you have him enter the Dark Star Realm and arrange for us to go in, then the rest can be left to us."

With a flash of red light, Hongshi Zhen disappeared from the hall.

As soon as Hongshi Zhen disappeared, the Dulan Monarch shed all humility, then took a deep look at the place where Hongshi Zhen disappeared, and his eyes flickered with abstruse light.

"The Dark Star Realm, where is that?"

Yang Feng began to search information on the Dark Star Realm in the database. In the end, he found the information in an ancient book of the Star River Sect.

The Dark Star Realm is a battlefield of Warlock Emperor rank powerhouses. During the archgod era, the Dark Star Realm was a plane comparable to the 36 primary material planes that gave birth to a Warlock Emperor rank powerhouse, the Dark Star Emperor.

Due to unknown reasons, four Warlock Emperor rank powerhouses attacked the Dark Star Emperor together. Because of the unbridled display of power of the five Warlock Emperor rank powerhouses, the plane origin of the Dark Star Emperor's plane was severely damage and nearly collapsed.

Due to the fight between the five Warlock Emperor rank powerhouses, the Dark Star Realm was wrecked, and its laws became chaotic.

At the last juncture of the battle between five races eons ago, the Dark Star Emperor burned the power of the plane origin, combined it with his own, and inflicted heavy injuries on the other four Warlock Emperor rank powerhouses.

In that battle, the Dark Star Emperor died and the other four Warlock Emperor rank powerhouses sustained hard to heal, serious injuries. Since then, no one paid the Dark Star Realm any more attention.

The Dark Star Realm was discovered at the later stage of the Eighth Warlock Dynasty, the Dawn Dynasty. At the time, the human Warlocks were too busy with internal strife to explore the Dark Star Realm. Many human Infinity Warlocks have since entered the Dark Star Realm and died. In the end, the planar passage leading to the Dark Star Realm was seized by the merfolk and now fell into the hands of the Dulan Imperial Court.

“Dark Star True Dragon Stone, that is a treasure formed from a drop of the Warlock Emperor rank Primordia Black Dragon Emperor’s blood essence. At the time, the Primordial Black Dragon Emperor was one of the experts who besieged the Dark Star Realm.

Although many human Warlocks who have gone to the Dark Star Realm have died. But at the same time, a lot have brought back treasures from Dark Star Realm.

Dark Star True Dragon Stone is one of the most valuable treasures that human Warlocks brought back from the Dark Star Realm.

A Dark Star True Dragon Atone is enough to let the Dulan Monarch’s bloodline evolve and him gain great power. It is more valuable than the archaic kun dragon stone Yang Feng offered. The archaic kun dragon blood essence can only enhance the Dulan Monarch’s evolution potential. The Dark Star True Dragon Stone, on the other hand, can not only upgrade the potential of the Dulan Monarch’s bloodline, but also greatly enhance his strength.

Yang Feng’s eyes glowed with a peculiar shade: “This old fellow’s scheming is really something. As long as I enter the Dark Star Realm, whether I live or die, he won’t make any losses.”

Yang Feng toured all over the Dulan Imperial Court and enjoyed the scenery. When no one was paying attention, countless robots invisible to the naked eye flew out from all parts of his body and disappeared into the Dulan Imperial Court.

Three days later, the Dulan Monarch finally summoned Yang Feng into the royal palace.

The Dulan Monarch took a deep look at Yang Feng and said with profound meaning: “Yang Feng, the Desolate Holy Vessel is a Holy grade secret treasure of the Dulan Imperial Court, it is not supposed to be sold to anyone. However, as long as you are willing to go to the Dark Star Realm and bring me back a Dark Star True Dragon Stone from the depths of the Dark Star Realm, then I’ll give you the Desolate Holy Vessel.”

“Dark Star True Dragon Stone!”

“If it’s a Dark Star True Dragon Stone, then it’s indeed qualified to exchange for the Desolate Holy Vessel!”

“...”

Upon hearing this, the important officials of the Dulan Imperial Court discussed in hushed tones, approving of the Dulan Monarch’s decision.

There are more than 10 Holy grade secret treasures in the Dulan Imperial Court. The Desolate Holy Vessel is only an auxiliary Holy grade secret treasure with low fighting strength. Every 10 years, it can condense Desolate Holy Wine. The Desolate Holy Wine is a peerless wine, a glass of which can upgrade the soul aptitude of a human Warlock to superior grade 6 from inferior grade 5.

Although Desolate Holy Vessel can also improve the soul aptitude of merfolk powerhouses, but the effect is not as pronounced.

The Dark Star True Dragon Stone is a treasure that can be used immediately to greatly improve the combat power of merfolk powerhouses. The merfolk powerhouses are naturally willing to exchange a Dark Star True Dragon Stone that can enhance their strength for a Holy grade secret treasure, the Desolate Holy Vessel, that is of nonuse to them.

Yang Feng's eyes shone with enigmatic light, and he replied with a smile: "Your Majesty, I would like to go to the Dark Star Realm and get you a Dark Star True Dragon Stone."

"Very well, I will now open the passage leading to the Dark Star Realm and send you there!"

The Dulan Monarch took out a black staff, silently recited an incantation, and tapped with the staff. Black ripples surged, and an abstruse, blurry passage appeared in front of him.

The abstruse and blurry passage is the projection of the planar passage leading to the Dark Star Realm. The specific location of the planar passage itself is a secret of the Dulan Imperial Court. Through the projection, Yang Feng can enter the planar passage and go to the Dark Star Realm.

Yang Feng swept the projection of the planar passage with his tremendous soul force. After ascertaining that there are no abnormalities, he smiled and stepped into the projection of the planar passage.

With a blur, Yang Feng appeared in a sky full of dark clouds perpetually shrouded in endless darkness. The sky is fragmented, with huge gaps everywhere. From the huge gap, elemental particles of different elements poured into this strange world.

"So this is the Dark Star Realm, it's indeed a broken world. A fight between Warlock Emperors is really terrifying. Only a superior grade 1 plane like the Cangzhi Plane can regenerate itself and erase the vestiges left by a fight between Warlock Emperor rank powerhouses."

Yang Feng gazed at the Dark Star Realm, which looks like a world that has gone through the apocalypse, with a queer shade in his eyes.

Holy Spirit Warlocks can destroy grade 4 planes, while Warlock Emperor rank powerhouses can destroy planes such as the 36 primary material planes. The Cangzhi Plane is the sole plane that Warlock Emperor rank powerhouses cannot fully destroy.

The Cangzhi Plane has a powerful regeneration ability. Many traces left by fights between Warlock Emperor rank powerhouses have been wiped out by the passage of time. Only the vestiges left by Eternals can stand the test of time, never to disappear.

Since the Dark Star Realm's plane origin will was severely damaged, the plane's grade has dropped. It is impossible to repair the damage caused by the fight between Warlock Emperor rank powerhouses, making this plane that nearly collapsed extremely dangerous.

## Chapter 895 – Ambush

All of a sudden, a red ray emerged from afar and almost instantly blasted into Yang Feng.

Yang Feng erupted with one magic shield after another in a flash.

When the red ray slammed into the magic shields, the magic shields burst like bubbles and collapsed.

After piercing through a dozen plus magic shields, the red ray slammed into Yang Feng. A tyrannical force broke out in a flash and shattered Yang Feng.

A scarlet flame suddenly rose, turned into a cloud of fire, and swept towards Yang Feng's remains. The cloud of fire enveloped Yang Feng's remains with the power to destroy everything and burned them to ashes.

The void distorted, and a crowd of powerhouses exuding Infinity Warlock rank breath, for a total of 120 individuals, emerged from the void.

Among them, there are six leaders, two of which are a redstone and a greenstone powerhouses, both of whom are wearing a gold armor. The both of them are true Infinity Warlock rank powerhouses. Strengthened by the gold armor, they can display supreme Infinity Warlock rank strength.

Of the other four leaders, one is an Infinity Warlock rank spiritglory powerhouse enveloped in mysterious radiance, who has the innate ability to manipulate spatial force.

One is a ghostblade powerhouse enveloped by countless howling discarnate souls, whose body is covered in sharp blades.

One is a 100-meter-tall hyperion powerhouse engraved with countless runes, each of which contains a wisp of the law of power.

One is a flamewell powerhouse shrouded in fire that seems capable of burning anything.

The six leaders possess at least quasi-Warlock Monarch rank battle prowess and are far stronger than their subordinates, who can only display Infinity Warlock rank battle prowess thanks to a foreign object.

The redstone powerhouse frowned slightly and said: "Died? How can the Battle Demon Sect's Yang Feng die like this?"

The spiritglory powerhouse uttered flatly: "Hongshi Ming, Yang Feng is famous for his formidable golems. His true body, however, is nothing special. For him to be killed in a surprise attack is not surprising. When we six join forces, we can even slay a Warlock Monarch! Killing an Infinity Warlock is nothing!"

Surprise attack is a second to none magical solution when it comes to defeating a stronger opponent. There have been many powerful beings who, due to a moment of carelessness, were sneak-attacked and killed by others.

Hongshi Ming frowned slightly and said to the greenstone powerhouse: "Qingshi Huang! Something feels wrong, take a look!"

Redstones, greenstones, whitestones, and purplestones, these four sacred races are similar in appearance, yet they are proficient in different fields. Redstones are proficient in offense, greenstones are proficient in insight, whitestones are proficient in defense, purplestones are proficient in illusions.

Tracking is a branch of greenstones' insight. Every greenstone powerhouse is an expert tracker proficient in various formidable tracking techniques.

The green rhombus crystal on Qingshi Huang's forehead radiated green light, then its interior twisted and turned into a green eye.

The green eye split into countless eye projections. At the same time, countless strange eyes appeared in the sky.

The eyes emitted green light that fell on the earth. Enveloped by the green light, everything became clear.

When Qingshi Huang cancelled the secret method, the green rhombus crystal on his forehead reverted to its original appearance. He said full of confidence: "I didn't find anything, he should have died!"

Hongshi Ming's eyes burst out with bright light, and he said with a smile of excitement: "If he died, then forget it. Let's go. Our goal this time is that treasure! If we can get that treasure, we will be bestowed great rewards. Our promotion to the Starcraft realm (Warlock Monarch) is just around the corner.

The ghostblade powerhouse sneered: "He-he, this universe's natives are all imbeciles. In the Dark Star Realm, there is a treasure over which even Imperishable realm (Holy Spirit Warlock) powerhouses will go crazy. Those fools had this world under control for tens of thousands of years, yet gained nothing, how truly worthless."

Hongshi Ming uttered with a smile: "Guiren Xuan, the natives of this world are no fools. It's just that their powerhouses fell into a deep sleep in order to fight us. The Dark Star Realm's planar passage fell into the hands of those stupid merfolk, that is truly a waste. Merfolk have a long lifespan and have control over the vast seas with countless resources, they have no need to explore secret realms. The Dark Star Realm is very dangerous. As such, it is not surprising for them to abandon it.

Merfolk are different from humans. Most human Warlocks are weak and have a short lifespan. In order to get cultivation resources, when dangerous places and secret realms emerge, human Warlocks will go to exploit and explore those places regardless of the danger. At the time when the Battle Demon Sect was one of the Great Cloud Dynasty's Ten Great Sects, they only had four Bright World Warlocks. That was because their Infinity Warlock had just died while exploring the Astral Boundary.

Merfolk, however, have a long lifespan, control the vast seas that possess abundant resources, and have few foreign enemies. They became complacent overtime, unwilling to explore dangerous places like the Dark Star Realm.

The Dulan Monarch knows that there is Dark Star True Dragon Stone in the Dark Star Realm, yet he isn't willing to enter the Dark Star Realm. After all, the Dark Star Realm is really dangerous. He doesn't want to die in the Dark Star Realm.

The spiritglory powerhouse's eyes flashed with incandescent color, and he said in a deep voice: "Let's go! Let's go get that treasure."

“Okay!”

The Infinity Warlock rank powerhouses flew towards the depths of the Dark Star Realm.

In a valley far away, a handsome young man exuding wicked qi, with a devil horn on his head, smiled: “Interesting. Yang Feng, the human who placed first on the Infinity Merit Stele, entered the Dark Star Realm and was killed by the other universe’s powerhouses. There is definitely a large conspiracy in play here. I like it!”

“The Dark Star Realm has a treasure over which even Holy Spirit Warlock rank powerhouses would go crazy! What is the treasure?”

“However, no matter what sort of treasure it is, you need strength to be able to seize it. The other universe’s powerhouses are too many. I can’t seize the treasure with my strength alone, I need “companions”.

With a flash of black light, the young man with a devil horn blurred, turned into a ray of black light, and disappeared.

The planar passage connecting the Cangzhi Plane and the Dark Star Realm is indeed controlled by merfolk. But there are more than one paths leading to the Dark Star Realm.

It is not difficult to find the coordinates of the Dark Star Realm from the Astral Boundary. But without a planar passage, it is very difficult for any race to enter the Dark Star Realm on a large scale.

The environment in the Dark Star Realm is really inhospitable to humans. However, for fiends, devils, and other dark extraordinary life forms, this world is a paradise. As long as they don’t enter the core area where the Warlock Emperor rank powerhouses fought, there is nothing in this world that can threaten their existence.

“The Dark Star Realm still has a treasure over which Holy Spirit Warlock would go crazy? Interesting!”

The area where Yang Feng was eliminated, inside a seemingly ordinary stone, the eyes of Yang Feng, who shrunk to one-hundredths of his original size due to a spell, revealed excitement.

Since Yang Feng eavesdropped on the conversation between the Dulan Monarch and Hongshi Zhen, he naturally knew that there might be an ambush outside the planar passage.

Before leaving the planar passage, Yang Feng replaced himself with a Bright World Warlock rank Flesh Golem and equipped it with Infinity Warlock rank magic shields.

When he came to the Dark Star Realm, Yang Feng hid himself in the level-9 secret treasure the Defilade Stone, which entered empty space and fell silently on the ground.

Although Qingshi Huang’s tracking art is really formidably, but he couldn’t see Yang Feng, who was masked by the Defilade Stone. Only if Qingshi Huang had reached the Holy Spirit Warlock realm, would he be able to see through the concealment of the Defilade Stone with the Greenstone Holy Eye that can see through anything.

All of a sudden, the Defilade Stone turned transparent, and a gust of wind picked it up and sent it flying towards the distance.

After flying for about 100 kilometers, Yang Feng jumped out of the Defilade Stone and burst out with black light.

When the black light disappeared, Yang Feng turned into a handsome, burly archdevil exuding wicked qi.

“It is full of negative energy here. Several million years later, this plane will have withered and degenerated into a dead place without any life. This kind of place is a most attractive place for dark extraordinary life forms.”

As soon as Yang Feng transformed into an archdevil, he felt unspeakably comfortable. The sense of pressure felt by human Warlocks disappeared completely at this time.

Yang Feng raised the corners of his mouth, then suddenly became transparent, concealed his breath, and flew rapidly after the Gumana Universe’s powerhouses.

When the Gumana Universe’s powerhouses showed themselves previously, they were locked on by Yang Feng’s Interstellar Probes. Unless they disappear from this plane, or use a top-level concealment method to hide their traces, they won’t be able to escape Yang Feng’s tracking.

Yang Feng followed the Gumana Universe’s powerhouses all the way to the Dark Star Realm’s core area.

Powerful fluctuations of power came from the front and rumbling sounds echoed incessantly.

Hiding in the rear, Yang Feng could see that the earth is full of huge holes as he advanced. Clearly, the Gumana Universe’s powerhouses have fought here. Furthermore, there are no bodies here. They were evidently collected by the Gumana Universe’s powerhouses.

## **Chapter 896 – Alliance**

“It is much more suitable for the strong to explore secret realms than for the weak!”

Yang Feng swept the surroundings with a glance and uttered inwardly.

There are wisps of breath left by Glorious Sun Warlock and Bright World Warlock rank dark extraordinary life forms in the surroundings. If a Bright World Warlock rank human Warlock came here, they would be killed before they could enter the core area of the Black Star Realm.

Suddenly, a space rift emerged behind Yang Feng. A two-meter-long void snake inscribed with countless mysterious runes appeared, opened its maw, and shot towards Yang Feng abruptly.

Yang Feng, who seems to have eyes on his back, grabbed the palm-sized void snake.

“This is a Moonlight Warlock rank void snake, it has terrifying void poison. Even if it is a Bright World Warlock rank powerhouse, if they are accidentally bitten, unless they are a body-tempering Warlock, they will most likely be poisoned to death. This Dark Star Realm is really dangerous. No wonder human Warlocks didn’t occupy this world.”

Yang Feng squashed the void snake and put it into a storage badge.

The void snake is a rare void extraordinary life form. By extracting its blood and combining it with special secret methods, you can create a Moonlight Warlock rank bloodline Warlock family. This makes the void snake quite valuable.

Only in dangerous areas such as the Dark Star Realm can you catch such rare void extraordinary life forms like the void snake. It is very difficult to meet them in other places.

“My friend, you’re quite capable. To be able to squash a monster such a void snake, you should be a grand duke rank powerhouse. Would you be interested in joining us to fight the other universe’s powerhouses?”

A voice sounded beside Yang Feng’s ear. A handsome young man with devil horn, a burly dark multiple-armed freak engraved with countless dark runes, a sexy, charming, peerlessly-beautiful lamia, a redhaired man with savage bloodthirsty eyes, who looks roughly no different from a human, and an old man with a white beard, white hair, a haggard face, closed eyes, and three strange seal on the forehead, walked out from the side.

Although the five powerhouses don’t emit any breath, but Yang Feng can tell from some clues that they are all Infinity Warlock rank powerhouses.

A smile flashed in Yang Feng’s eyes, and he replied indifferently: “I’m also very interested in hunting the other universe’s powerhouses.”

The young man with a devil horn said with a light smile: “My name is Devicorn. These are Darkarms, Dark Lamia, Redeye, and Whitehair. How do we address you?”

Darkarms, Dark Lamia, and the rest are obviously aliases they came up with. Naturally, no one would use their real name in this temporary alliance.

If it wasn’t for the fact that the other universe’s powerhouses are terrifyingly strong, then the powerhouses gathered by Devicorn would have fought among themselves first.

Yang Feng answered casually: “Call me Devilhand.”

Devicorn uttered with a smile: “Devilhand, let’s go!”

Undetectable fluctuations diffused from the six powerhouses, and they instantly decomposed and followed behind the Gumana Universe’s powerhouses stealthily.

The Gumana Universe’s powerhouses have 120 Infinity Warlock rank powerhouses. Whenever the savage dark extraordinary life forms hidden in the Dark Star Realm appear, they are blasted to pieces with absolute power. While crushing anything that stands in their way, the Gumana Universe’s powerhouses advanced into the core of the Dark Star Realm.

While the Gumana Universe’s powerhouses in the front took the brunt of the attack of the dark extraordinary life forms, but Yang Feng and company in the rear still had quite a few strange extraordinary life forms attack them.

Every time he encounters a dark extraordinary life form, Yang Feng will squash it, and then toss it into the storage treasure. At the same time, he carefully observes the other five people.

Each time Devicorn attacks, he relies on the power of his formidable archdevil fleshly body to crush the extraordinary life forms.

Darkarms, on the other hand, casts dark spells and fires dark rays at the dark extraordinary life forms. So long as a black ray hits a dark extraordinary life form, it will erode and turn the dark extraordinary life form into ashes.

Whenever a dark extraordinary life form appears with 10 meters of the charming Dark Lamia, it will disappear mysteriously. With his extraordinary eyesight, Yang Feng can see her sweep the dark extraordinary life forms near her with her tongue and stuff them into her mouth.

Redeye, as the name suggests, has red eyes. He fires sharp red rays from his eyes. Whenever a dark extraordinary life form is hit by the red rays, it will wither and turn into ashes.

Whitehair has his eyes closed, but his white hair seems to be alive. As soon as a dark extraordinary life form appears, threads of white hair will stab the dark extraordinary life form, suck it dry, and then toss the desiccated carcass aside.

Fast as a bolt of lightning, Yang Feng's group of six easily disposed of the dark extraordinary life forms that could even kill Bright World Warlock rank powerhouses. At the same time, they maintain a magic barrier around them to conceal the fluctuations that arise every time they attack, so as not to alarm the Gumana Universe's powerhouses.

It was because he saw Yang Feng squash the void snake without leaking any fluctuations of power, that Devicorn invited Yang Feng.

If they made a commotion while fighting and alarmed the Gumana Universe's powerhouses, they would have to retreat and would no longer be able to follow behind the other party.

Of course, this is related to the fact that the dark extraordinary life forms that Yang Feng and them encounter aren't strong enough. If they came across Bright World Warlock and Infinity Warlock rank extraordinary life forms instead, Yang Feng and them would not be able to conceal the fluctuations of power from the Gumana Universe's powerhouses.

As soon as he stepped into the core area of the Dark Star Realm, Yang Feng felt a burst of chaos. Everywhere is enveloped by endless darkness and filled with huge black holes that are as black as black ink.

The huge black holes are vestiges formed from the fight between the five Warlock Emperors. Even if it is a quasi-Holy step powerhouse, if they enter one of these huge dark holes, they will be instantly devoured.

If the plane origin of the Dark Star Realm wasn't severely damaged, it would be able to slowly repair these vestiges left from the fight between Warlock Emperors. But since the origin will has nearly shattered, the whole plane will collapse in a few million years. By then, there will naturally be no power to supply to these dark holes.

Accompanied by tremendous explosions, formidable fluctuations of power came from afar.

Yang Feng cast Transcendent Pupils. Mysterious runes appeared in his eyes, and he looked towards the depths of the Dark Star Realm.

Ahead, strange, palm-sized extraordinary existence that hover between real and illusory emerged from the huge dark holes, opened their maws, blurred, and rushed frantically towards the Gumana Universe's powerhouses.

Upon seeing this, Yang Feng's countenance changed slightly and his eyes shimmered warily: "Those are specter alhoons, and they're so many! No wonder that even Infinity Warlocks will die here."

Specter alhoons are strange existences born from the life force of a Warlock Emperor rank powerhouse, dark force, and the collapsed will of a shattered plane origin.

With their fearsome fighting power, specter alhoons can slay Glorious Sun Warlocks and pose a threat to Warlock Monarch rank powerhouses. As for existences below the Glorious Sun Warlock rank, as long as they see the specter alhoons, they will lose their mind and become their puppets.

The specter alhoons that flew out from the huge black holes have already exceeded 100,000 individuals, and their number is still rising.

The 120 Gumana Universe's powerhouses formed a battle array, stimulated their power frantically, and rained attacks on the specter alhoons, blasting large swaths of them to pieces.

Yang Feng's group of six cast secret methods and covered their breath and power completely for fear of alarming the scary specter alhoons.

The Gumana Universe's powerhouses have experienced countless battles and are proficient in attacking in a group. Taking turns, they rained down all kinds of formidable attacks on the specter alhoons and blasted them apart.

After tens of thousands of specter alhoons died, they suddenly opened their maws and sucked in at the same time.

Mental fluctuations suddenly condensed and formed a huge sword of sound waves that pierced into the Gumana Universe's powerhouses.

Under the attack of the sword of sound waves, the heads of 20 plus Gumana Universe's powerhouses exploded, and they died.

With this strike, the Gumana Universe's powerhouses lost one-sixth of their battle strength.

Hongshi Ming roared with bloodshot eyes: "Lingyao Yuntian, what are you waiting for!"

The spiritglory powerhouse took a deep breath and turned his hand, and a white bead appeared in his hand. The white bead is called the Spiritglory Bead and is a treasure the spiritglory powerhouse refined using countless resources. It grows along its master.

A dozen plus spiritglory powerhouses flipped their hand, and a Spiritglory Bead appeared in their hand.

Lingyao Yuntian pointed with a finger, and the Spiritglory Bead flew out and released Spiritglory Sacred Light at once.

The Spiritglory Bead in the hand of the dozen plus spiritglory powerhouses trembled and resonated with Lingyao Yuntian's Spiritglory Bead

The Spiritglory Sacred Light Lingyao Yuntian's Spiritglory Bead released intensified and shot towards the swarm of specter alhoons.

Hit by the Spiritglory Sacred Light, the specter alhoons were turned into black smoke and purified.

## **Chapter 897 – Perilous Land**

The Spiritglory Sacred Light is evidently the bane of the specter alhoons. When they were hit by the Spiritglory Sacred Light, the 100,000 plus specter alhoons, which could even seriously wound a Warlock Monarch rank powerhouse, were turned into ashes.

Lingyao Yuntian and the other dozen plus spiritglory powerhouses wizened instantly, and their breath became extremely weak.

Although Lingyao Yuntian and them were able to erase the 100,000 plus specter alhoons, each of which can kill a Glorious Sun Warlock rank powerhouse, with their attack, but they also had to pay a heavy price.

Figures flickered, and Lingyao Yuntian and the dozen plus spiritglory powerhouses were placed in the center of the Gumana Universe's powerhouses.

Lingyao Yuntian and the dozen plus spiritglory powerhouses quickly ingested a dozen plus vials of a transparent elixir and rapidly recovered their strength.

Specter alhoons continued to fly out from the black holes and rush towards the Gumana Universe's powerhouses.

Hongshi Ming's face flickered, and he barked: "Move forward!"

Along with flashes of light, the Gumana Universe's powerhouses, without even caring for the corpses of their companions, rushed forward frenziedly.

With the main force of the specter alhoons wiped out, the scattered specter alhoons could no longer block the Gumana Universe's powerhouses. The Gumana Universe's powerhouses forged a bloody path forward.

Yang Feng's group of six cast secret methods, quietly followed behind the Gumana Universe's powerhouses, and quickly crossed the area with the specter alhoons.

When they left the area occupied by the specter alhoons, countless dust-like Nano Detection Robots flew out from Yang Feng, scattered in all directions, and landed on the ground. They are motionless like stones.

Dark spirit body existences like specter alhoons are only interested in living life forms. They are not the least bit interested in the Nano Detection Robots.

After Yang Feng's group of six silently passed through the area with specter alhoons, one after another, transparent powerhouses hiding their breath flew over from the rear and followed them.

These powerhouses are proficient in concealment secret methods. Unfortunately, they still couldn't escape the detection of the Nano Detection Robots.

Yang Feng's heart stirred slightly: "There's someone behind us? They want to be the oriole [1]?"

As the Gumana Universe's powerhouses trampled anything in their way and unleashed their fearsome power without care, they attracted the monsters of the Dark Star Realm.

The core area of the Dark Star Realm has both precious treasures and great danger. It is almost impossible for an Infinity Warlock to break through the swarm of specter alhoons by themselves.

Thanks to the joint effort of a dozen plus Infinity Warlock rank spiritglory powerhouses, whose innate ability restrains specter alhoons, they managed to blast past the swarm of specter alhoons.

Even if it was a Warlock Monarch rank powerhouse, if they made a misstep while being encircled by the swarm of specter alhoons, they could be seriously wounded or even killed.

As the Gumana Universe's powerhouses slayed countless dark extraordinary life forms on their way to the core area of the Dark Star Realm, they caused a huge disturbance, which attracted the powerhouses who have been paying attention to the core area of the Dark Star Realm.

Yang Feng silently counted the number of powerhouses that appeared: "One, two... seventeen, I found a total of seventeen experts, each of which is an Infinity Warlock rank powerhouse. I wonder if there are any Warlock Monarch rank powerhouses following behind."

Infinity Warlock rank powerhouses are quite rare and have a high status. However, since the Dark Star Realm is a world on the verge of collapse, it is filled with dark and negative force, giving birth to all kinds of treasures of heaven and earth suitable for dark extraordinary life forms. It is a favorite cultivation place for dark extraordinary life forms.

Since the base of many formidable dark existences is located in the Dark Star Realm, it is not surprising that so many dark powerhouses were attracted by the commotion.

One of the important reasons why the Dulan Imperial Court gave up the development of the Dark Star Realm is that there are many dark powerhouses here and they are quite powerful. When powerhouses below the Infinity Warlock realm enter this world, they will be reduced to food of the dark powerhouses. When Infinity Warlock rank powerhouses enter this world, if they are not careful, they may die all the same.

When the Gumana Universe's powerhouses rushed out of the area with the specter alhoons, the upper body of the flamewell powerhouse, who was flying in the front, suddenly disappeared mysteriously, and then the whole person collapsed.

Almost at the same time, six Gumana Universe's Infinity Warlock rank powerhouses died in such a strange way.

Qingshi Huang's eyes flickered gravely. The green rhombus crystal on his forehead released green light. Suddenly, countless eyes appeared inside the green rhombus crystal and looked at the void. In a flash,

Qingshi Huang's complexion changed dramatically, and he shouted: "Don't fly in the sky, descend, descend to the ground."

The Gumana Universe's powerhouses turned into streams of light and descended to the ground.

Yang Feng cast Transcendent Pupils and looked at the void, only to see blurry black holes appear and disappearing in the void. It was these dark holes that cannot be detected using common detection spells that devoured the six Gumana Universe's powerhouses.

The ground is a tract of black land, from which a disgusting smell of blood pervades.

When the Gumana Universe's powerhouses landed on the ground, mouths suddenly opened on the strange black land and shot towards the Gumana Universe's powerhouses.

In a flash, a dozen plus of Gumana Universe's powerhouses, caught of guard, were swallowed by the mysterious black land.

"Help them!"

Hongshi Ming barked and fired a red beam from the red rhombus crystal on his forehead shooting towards the black land.

When the red beam hit the black land, it blasted the black land to pieces and revealed a huge cave.

The other Gumana Universe's powerhouses attacked the black land as well.

Under the bombardment of the Gumana Universe's powerhouses, huge, bottomless holes appeared in the black land. However, the dozen dozen plus of the Gumana Universe's powerhouses that were swallowed have disappeared.

The Gumana Universe's powerhouses could only stare, both resentfully and helplessly, at the strange black land.

The mysterious black land and the swarm of specter alhoons are queer phenomena formed from Warlock Emperor rank life force and the surrounding environment, they are not really alive.

Since the black land has no life, no matter how powerful the Gumana universe's powerhouses are, they cannot kill it.

Of course, as long as they invest enough time and are pay a huge price, the Gumana Universe's powerhouses can still erase and purify the phenomenon that is the black land. However, in such a dangerous place, the Gumana Universe's powerhouses have no time to waste.

Qingshi Huang, who has the insight ability Green Rhombus Eyes, looked into the void and said coldly, a gloomy expression on his face: "Fly five meters above the ground!"

The Gumana Universe's powerhouses continued to fly to the core area of the Dark Star Realm according to Qingshi Huang's order.

The Gumana Universe's powerhouses have just flown for 10 kilometers, when suddenly, an extremely strong black wind erupted from a black hole and blew towards a dozen plus Gumana Universe's powerhouses.

Enveloped by the strange black wind, the flesh and soul of the dozen plus Gumana Universe's powerhouses collapsed and decomposed.

"Save me!"

With a look of horror on their face, a flamewell powerhouse, who has supreme Infinity Warlock rank battle prowess, screamed miserably. Countless flames gushed out and formed a barrier of lames around them, which then was blown out by the black wind.

The innate ability of flamewell powerhouses, the Scarlet Flames, can burn everything and restrain countless enemies. However, their sole weakness is their weak defense. Of course, the defense of flamewell powerhouses surpasses that of ordinary human Warlocks. Yet among the eighteen sacred races, their defense is the weakest.

At ordinary times, the weak defense of flamewell powerhouses can be ignored. But in such a critical moment, their weak defense is fatal.

The hyperion powerhouse with supreme Infinity Warlock rank battle prowess roared furiously. The runes covering his body lit up. He stepped into the black wind, grabbed the flamewell powerhouse, and then dragged them out.

The moment when the hyperion powerhouse walked out of the black wind, the fire that enveloped the flamewell powerhouse collapsed and disappeared, revealing a sexy redhaired beauty.

The vitality of the redhaired beauty has disappeared completely. When a gust of wind blew by, she turned into ashes and disappeared.

When the Gumana Universe's saw this scene, their eyes flashed with horror, and their previous arrogance was finally somewhat restrained. They finally understood why so few people coveted the core area of the Dark Star Realm.

This corps dispatched by the Gumana Universe can even defeat a quasi-Holy step powerhouse. However, before they could reach the core area of the Dark Star Realm, they suffered heavy losses. Dozens of their Infinity Warlock rank powerhouses have died. If things go on like this, they will all die before they reach the deepest part of this place.

Qingshi Huang sighed lightly and said respectfully to a powerhouse in gold armor whose appearance cannot be seen clearly: "Sir Qingshi Zhenxing, please lead us!"

"A bunch of useless rubbish!"

The gold armor turned purple-gold in color, a handsome greenstone powerhouse was revealed, and Warlock Monarch rank breath spread from the greenstone powerhouse.

## **Chapter 898 – Exposure**

"Come out, all of you!"

The green rhombus crystal embedded in the forehead of the Warlock Monarch rank greenstone powerhouse flickered with green light. Suddenly, a green eye appeared inside the green rhombus crystal, and then eyes appeared in midair and fired green light into the void.

Enveloped by the green light, dark powerhouses, who used all kinds of stealth secret methods to conceal themselves, appeared one after another, and a formidable breath of life diffused from them.

Yang Feng, who cast the Devil's Concealment recorded in the Transcendent Text and completely covered his breath, appeared in the open all the same when the green light hit him.

The shade of dignity streaked across Yang Feng's eyes: "What an amazing insight spell. Unless you have a first-rate Monarch grade stealth secret treasure, it is basically impossible to resist his insight ability."

If Yang Feng hides in a stationary secret treasure like the level-9 secret treasure the Defilade Stone, remains motionless, and converges all his power, he will naturally be able to resist Qingshi Zhenxing's insight ability. However, if he wants to follow the Gumana Universe's and resist Qingshi Zhenxing's spell, he can only achieve that by using a Monarch grade stealth secret treasure.

Monarch grade secret treasures are very precious, while stealth secret treasures are even more sought after. Yang Feng, who has plundered many forces, has obtained more than 20 Monarch grade secret treasures. But he doesn't have a single Monarch grade stealth secret treasure.

Enveloped by the green light, a total of 27 strange-looking dark powerhouses appeared.

Among the 27 strange-looking dark powerhouses, three exude Warlock Monarch rank breath.

Of the three Warlock Monarch rank powerhouses, one is a majestic-looking, tall and burly man with a black wolf head, another one is a stone cyclops, and the last one is a ferocious-looking evil god with a pair of dragon wings on the back, an ogre horn on the head, and a scorpion tail wound around his waist.

When the three Warlock Monarch rank dark powerhouses appeared, the 20 plus dark powerhouses quietly approached them.

Due to the erosion of dark energy, dark powerhouses are generally either treacherous and cunning, or ferocious and cruel. Dark powerhouses seldom cooperate with each other in good faith. Instead, they like to kill and undermine one another.

However, since the Gumana Universe's powerhouses are powerful enemies from another universe, the dark powerhouses are forced to cooperate.

Qingshi Zhenxing looked deeply at the Warlock Monarch rank dark powerhouses and uttered unhurriedly: "I am Qingshi Zhenxing. How do I address the three of you?"

In Qingshi Zhenxing's eyes, no one else is worthy of talking to him. Only the three Warlock Monarch rank dark powerhouses have the right to talk to him.

The tall and burly man with a black wolf head answered loftily: "I am the Overwolf Monarch!"

The stone cyclops answered coldly: "Stone Monarch!"

The ferocious-looking evil god replied with a sinister smile: "I am the Dragon Wing Monarch!"

Qingshi Zhenxing spoke with a light smile: “There is a treasure of great value in the core area of the Dark Star Realm. Why don’t we join hands and enter the core area together?”

The eyes of the Dragon Wing Monarch shimmered with a crafty shade, and he asked: “What is that treasure of great value in the core area of the Dark Star Realm? What would make you guys from the Gumana Universe rush in regardless of danger?”

The Gumana Universe’s powerhouses are hated and hunted by the powerhouses of this universe. This time, if it wasn’t for the fact that the Gumana Universe’s powerhouses have a large enough number of Infinity Warlock rank powerhouses, the dark powerhouses would have killed them already.

By killing the Gumana Universe’s powerhouses, you can obtain the favor of this universe, which will magnify your luck in this universe and provide you with more fortuitous encounters. The dark powerhouses naturally wouldn’t mind killing the Gumana Universe’s powerhouses to increase their luck.

For the Gumana Universe’s powerhouses, who are surrounded by enemies on all sides, to go to the Dark Star Realm, they naturally must have an important objective.

“In the core area of the Dark Star Realm, there is an Empyrean grade secret treasure the Dragon Empyrean Blade, which is the blade the Primordial Black Dragon Emperor used. The Primordial Black Dragon Emperor slayed his brother, a primordial green dragon, and used the primordial green dragon’s vertebra as the core and countless God grade precious materials to forge an Empyrean grade secret treasure, which is the Dragon Emperor Blade.”

“At the time, the Dark Star Emperor channeled the Dark Star Realm’s origin force and burned his life, and then severely injured the Primordial Black Dragon Emperor and the other three Warlock Emperor rank powerhouses with one strike. Heavily injured and unable to survive in the Dark Star Realm, the four Warlock Emperor rank powerhouses could only escape this place. The Dragon Empyrean Blade was lost in the core area of the Dark Star Realm during that fight. It was hard for us to get this secret.” Qingshi Zhenxing responded with a smile.

“Empyrean grade secret treasure!”

When they heard this, the eyes of the dark powerhouses shimmered with greed.

Each Empyrean grade secret treasure possesses endless might. Although Infinity Warlock rank powerhouses cannot display the might of the Empyrean grade secret treasures, but if you sell it to a large Warlock group, you’ll be able to quote an astronomic price.

Even if you don’t sell the Empyrean grade secret treasure, holding it in your hands while seeking enlightenment will be of great benefit.

Since the Primordial Black Dragon Emperor was a dark powerhouse, the Dragon Emperor Blade he wielded is similarly an Empyrean grade dark secret treasure. Just the fluctuations of power that diffuse from such an Empyrean grade dark secret treasure are a great tonic to dark extraordinary life forms.

A fierce ray flashed in the Dragon Wing Monarch’s eyes, and he said with a cold smile: “Qingshi Zhenxing, the three of us think that it would be quite appropriate for you guys to explore the way ahead.”

The Stone Monarch and the Overwolf Monarch smiled coldly as well and stared at the Gumana Universe's powerhouses.

After the Gumana Universe's powerhouses suffered casualties on several occasions, their overall strength has weakened quite considerably. If the Dragon Wing Monarch and the other two Warlock Monarch rank powerhouses work together, they should be able to annihilate this corps of the Gumana Universe.

Qingshi Zhenxing replied with a leisurely smile: "In that case, we can only fight you and have both sides suffer! No, if we fight now, we should have the advantage. After all, dark powerhouses never really work together, since they'll backstab one another at critical times."

The face of the Dragon Wing Monarch and the other dark powerhouses suddenly fell slightly, and they fell silent.

In terms of strength alone, the dark powerhouses, who have three Warlock Monarch rank powerhouses, have an edge over the Gumana Universe's powerhouses. But in fact, not only are the three Warlock Monarch rank dark powerhouses not on friendly terms, but the dark powerhouses as a whole are a just assembled mob.

If they really fight, the three Warlock Monarch rank powerhouses and the powerhouses that gathered around them will be unreliable. As a result, the dark powerhouses cannot rival the Gumana Universe's powerhouses.

The Dragon Wing Monarch was silent for a moment before saying unhurriedly: "Fine, we will join hands with you and explore the core area of the Dark Star Realm together."

Qingshi Zhenxing spoke with a light smile: "That is for the best. Our side has already explored several areas as the vanguard. Now it's your side's turn to go explore the road ahead."

The reason why the Gumana Universe's powerhouses made such a huge stir until now, on one hand, it was because it was really impossible to cover up their tracks. On the other hand, it was because they wanted to attract the powerhouses hiding in the Dark Star Realm and use them to explore the core area of the Dark Star Realm.

The remaining forces of the Gumana Universe's vanguard that invaded this universe withdrew to the Abyss and the grade 3 plane the Bacca Plane.

A grade 3 plane can only accommodate Warlock Monarch rank powerhouses at most. Even if it is a Holy Spirit Warlock, if they enter a grade 3 plane, they will be suppressed to the Warlock Monarch realm and might be surrounded and killed.

The Bacca Plane is a bridgehead the Gumana Universe's powerhouses selected to attack this universe. Unless a Warlock Emperor rank powerhouse takes action, or all human Warlock forces of this universe join hands, it is impossible to break through the Bacca Plane and annihilate the Gumana Universe's powerhouses in the Bacca Plane.

However, ever since the Gumana Universe's powerhouses have holed up in the Abyss and in the Bacca Plane, they are being watched by this universe's powerhouses. As such, they could not transfer too

many powerhouses to explore the Dark Star Realm. Consequently, they can only use the dark powerhouses in the Dark Star Realm.

The Dragon Wing Monarch pointed at an Infinity Warlock rank dark powerhouse. “You, go explore the path in front!”

“Yes!”

The complexion of the Infinity Warlock rank dark powerhouse changed slightly, and he gritted his teeth and flew to the front.

With a wave of his hand, a 10-meter-tall Moonlight Warlock rank obsidian golem suddenly flew out and flew ahead at low altitude.

All of a sudden, the obsidian golem disintegrated.

The eyes of the Dragon Wing Monarch shimmered coldly, and he beckoned with his hand. A transparent freak emerged and flew into his hand.

The Dragon Wing Monarch’s face fell, and he said: “Transparent feeder! It’s a strange phenomenon that can devour a Warlock Monarch rank powerhouse.”

“I will deal with them!”

A dark powerhouse shouted in a low voice, then took out a black mirror and pointed it in front, and black light enveloped the void.

Countless transparent feeders were pulled into the black mirror by the black light.

After dealing with the strange phenomenon that is the transparent feeders, the dark powerhouses in the front proceeded to explore the way ahead by releasing projections, avatars, golems, and summoned beasts.

There are countless weird phenomena in the Dark Star Realm. Consequently, the dark powerhouses in the front, if they are not careful enough, will be killed by the weird phenomena.

As agreed upon, Qingshi Zhenxing also sent Gumana Universe’s Infinity Warlock rank powerhouses to explore in front.

Although powerhouses who explore in front keep dying, but the strange phenomena in the core area of the Dark Star Realm are also being neutralized by the four Warlock Monarch rank powerhouses and the numerous Infinity Warlock rank powerhouses with queer methods.

“You, go explore the road ahead!”

After a Gumana Universe’s powerhouse died, the Stone Monarch pointed to Yang Feng and ordered coldly.

## **Chapter 899 – Fighting the Stone Monarch**

“You think you can give me orders?”

Yang Feng wrinkled his eyebrows slightly, and supreme Infinity Warlock rank breath spread from him. He stared at the Stone Monarch defiantly and sneered.

The surrounding powerhouses aimed their gazes at the Stone Monarch and Yang Feng, and their eyes revealed scorn.

“To dare disobey my order, you’ve got some nerve! In that case, go to hell!”

The Stone Monarch’s eyes flickered cruelly, and he took a step forward and sent a fist flying. In an instant, heaven and earth were filled with a huge stone fist. As if it had turned into a world of stone, the giant stone fist barreled towards Yang Feng with the might of a world.

When the stone fist was sent flying towards Yang Feng, the surrounding space was completely suppressed, and a terrifying attractive force erupted, locked on Yang Feng, and pulled him towards the stone fist.

Gray light of petrification formed from the essence of petrification enveloped the stone fist. Even if it is an Infinity Warlock, once they are hit by the gray light of petrification, they will petrify and become a stone statue.

Yang Feng took out the Monarch grade secret treasure the Battle Axe of the Devil King and chopped with it at the Stone Monarch.

Demonic qi surged, and a devil king with three devil horns and three eyes on the head, emitting Warlock Monarch rank fluctuations of power, suddenly appeared and chopped at the world of stone with a battle axe, which carried violence, cruelty, and destruction.

When the huge stone fist that filled the heaven and earth slammed down, the gray light of petrified surged and petrified the tyrannical and vicious devil king inch by inch.

The law of power shook, and the Devil Monarch shattered inch by inch.

After the devil king petrified and shattered, the light emitted by the Battle Axe of the devil king dimmed slightly, and its power was weakened by a fraction.

Thereupon, the power of the Stone Monarch’s punch was exhausted.

When his strike was blocked, the Stone Monarch’s eyes flashed viciously, and he unleashed another fist that filled the heaven and earth barreling towards Yang Feng with a might more formidable than that of the previous one by a fraction.

Yang Feng stared at the Stone Monarch with burning fighting spirit: “Warlock Monarch rank powerhouses sure are incredibly strong. That Monarch grade secret treasure can only let me defeat powerhouses of the same level as I. It’s not enough to defeat a Warlock Monarch rank powerhouse, much less a Warlock Monarch rank powerhouse who is favored by heaven and earth.”

“Okay, let’s try out the power of the Eternal Imperishable Body!”

Abstruse runes filled with mysterious power emerged inside Yang Feng. The structure of his body suddenly changed, and wisps of eternal and unperishable fluctuations permeated him.

Faced with the huge stone fist that filled heaven and earth, Yang Feng's eyes flashed the shade of madness, and he slammed his fist into the world of stone.

Boom!

Along with a heaven-shaking blare, the huge world of stone suddenly collapsed, and the light of petrification filled with the essence of petrification surged and started to petrify Yang Feng rapidly. At the same time, the law of power was also transmitted into his body, trying to shake him into pieces.

Yang Feng operated the Eternal Imperishable Body and trembled slightly. The essence of petrification and the law of power collapsed, and then were devoured by his essence of devour and turned into power that belongs to him.

Yang Feng's eyes flickered fiercely. Suddenly, he took the initiative to attack the Stone Monarch. He sent fists carrying berserk essence of power barreling towards the Stone Monarch one after another.

Without faltering, the Stone Monarch erupted with junior Warlock Monarch rank battle prowess and engaged Yang Feng.

As the two attacked each other like most ferocious wild beasts, terrifying fluctuations of power spread in all directions, potholes were blasted into the earth, and spatial rifts emerged.

"Stop! That's enough!"

Qingshi Zhenxing's roar sounded, and the two Warlock Monarch rank powerhouses the Dragon Wing Monarch and the Overwolf Monarch released their fearsome breaths.

Yang Feng and the Stone Monarch collided, and then retreated and confront each other silently.

The Stone Monarch asked coldly: "What's your name?"

Yang Feng answered: "Devilhand!"

"Very well, Devilhand, you are qualified to join us!" With a light smile, the Dragon Wing Monarch pointed at the old Whitehair, who has a wizened face, closed eyes, and a brand engraved on his forehead, who previously journeyed with Yang Feng, and said coldly: "You, go explore the road ahead."

The countenance of Whitehair changed greatly, and he pleaded loudly: "Sir Devilhand, help me!"

All eyes fell on Yang Feng.

Yang Feng said coldly: "He and I are unrelated."

The Dragon Wing Monarch smiled coldly at Whitehair, and his eyes glimmered with killing intent: "Will you go explore the way ahead, or will you stay here and be killed by me?"

Whitehair clenched his teeth, and then walked to the front, pulled out a strand of white hair, and tossed it. In a flash, an avatar that is the spitting image of him appeared and flew ahead.

Although Whitehair's avatar only is only in the Starry Sky Warlock realm, yet the imposing air it emits is no different from that of his true body.

Avatars attracted all kinds of strange phenomena, which then were disposed by Yang Feng and the four Warlock Monarch rank powerhouses.

After who knows how long they traveled in the core area of the Dark Star Realm, three giant black caves appeared in front of Yang Feng and company.

Whitehair pointed with a finger, and a Whitehair avatar flew into a black cave.

“Help me!”

All of a sudden, Whitehair’s eyes flashed with horror and despair, magic shields appeared around him, and he screamed shrilly.

A tyrannical ray of blade qi shot out from inside of Whitehair and slashed him to pieces in an instant.

“A karma spell!”

Seeing Whitehair’s tragic death, everyone’s eyes flashed gravely.

Only weird spells such as karma spells, which are one of the most queer and formidable kinds of spells, can harm the true body via avatars and projections.

“You, go in!”

Qingshi Zhenxing pointed to a flamewell powerhouse enveloped in Scarlet Flames and said coldly:

The flamewell powerhouse turned into a flame and flew into another cave. Shortly after, he came out of that cave and uttered: “There’s nothing inside. It’s a dead end.”

“There!”

Qingshi Zhenxing pointed to the last cave, and the flamewell powerhouse flew into that cave.

This time, shortly after the flamewell powerhouse entered the cave, a powerful breath rose from the cave. At the same time, sounds of fighting came from the cave as well.

“There!”

Qingshi Zhenxing, without hesitation, brought the remnants of the Gumana Universe’s powerhouses towards that cave.

The Dragon Wing Monarch and the other dark powerhouses were slower by a beat. Since the powerhouse inside the cave is not one of them, they are not in a hurry.

Countless transparent dust particles flew out from Yang Feng and sprinkled on the ground.

After everyone left, the transparent dust particles quickly condensed into detection insects that flew towards the other two caves silently.

Although karma spells are terrifying, but after years of research, Yang Feng has worked out how to counter them.

The detection insects are not directed by Yang Feng, but are linked to an optical computer. All information gathered by the detection insects is transmitted to the optical computer at once.

In this way, even if someone uses a karma spell to destroy the detection insects, they can only trace the karma threads back to the level-5 optical computer and destroy it. Yang Feng, however, won't be harmed.

When a dozen plus detection insects entered the deepest part of the cave where Whitehair was killed, they saw a blade that exudes endless dark breath floating in the void, looking like it has fallen into eternal sleep.

Dark force born from the destruction of an entire world is being continuously infused into the blade, nourishing and repairing it.

Suddenly, a black, tyrannical sword ray flew out from the blade and erased the dozen plus detection insects in an instant.

Boom!

Along with a loud blare, the optical computer that was connected to the dozen plus detection insects exploded.

Another dozen plus detection insects flew into the second cave. At the end of the cave, there is a strange altar with a black cross on top. The black cross has traces of dark red blood on it.

After another optical computer confirmed that there is no danger, it fed back the information to Yang Feng.

"The Empyrean grade secret treasure the Dragon Empyrean Blade is complete, has its own will, and has already regained part of its power. Unless they receive its recognition, then even if it is a Warlock Monarch rank powerhouse, they will anger it and be slayed by it. Only a Holy Spirit Warlock rank powerhouse can forcefully suppress it."

"The Gumana Universe's powerhouses are well prepared, so their goal is definitely not the Dragon Empyrean Blade!"

"The person who was nailed to the black cross had freed themselves just recently. The flamewell powerhouse was either possessed or replaced by that person!"

Yang Feng rapidly analyzed the intelligence he obtained from the optical computer. Looking at the flamewell powerhouse walking in front as cannon fodder, an unclear premonition welled up inside him.

Along the way, they encountered many dangers, yet the phenomena were crushed and destroyed by the powerhouses.

After passing through a broken space, a vast and boundless continent shrouded in endless darkness and split into pieces appeared in front of Yang Feng and them.

On the continent, there are many exquisite buildings full of archgod era style. Most of the buildings have been smashed to pieces.

There are four rifts in the sky, which ooze darkness and endless danger. Those are spatial rifts that can inflict serious injuries even to Holy Spirit Warlocks.

## Chapter 900 – Universe Stairs

Everyone looked at the split into pieces continent covered in endless darkness with greed in their eyes.

That is a place where Dark Star Emperor used to reside, a place where a Warlock Emperor rank powerhouse once lived. Furthermore, over the past millions of years, no one has been here to plunder the resources.

With the Dark Star Realm's origin will heavily damaged, it is difficult to produce new treasures of heaven and earth. However, the place where the Dark Star Emperor resided was originally the center of the Dark Star Realm, the core place of a world. In such a place, there are bound to be countless treasures.

For Warlock Monarch rank powerhouses, a drop of blood from existences such as the Dark Star Emperor and the Primordial Black Dragon is a beyond precious treasure. Once such blood drops on the earth, it will form all kinds of precious treasures of heaven and earth, which can even tempt Holy Spirit Warlock rank powerhouses.

All of a sudden, six ripples flashed slightly. Six dark powerhouses cast secret methods, disappeared silently, and flew towards the continent.

In the vast void, three mists of blood suddenly burst out. Three dark powerhouses died silently.

The breath of two other dark powerhouses disappeared directly.

The last dark powerhouse showed a look of horror on his face, screamed, and broke into pieces.

Seeing this, the originally restless dark powerhouses, who wanted to charge into the continent to plunder its treasures, became well-behaved. They looked at the continent with apprehension.

Qingshi Zhenxing uttered lightly: "This is the place where the Dark Star Emperor resided, the Dark Star Palace! Only by following the right path can we enter the Dark Star Palace. Otherwise, we will be swallowed by the dark nihilism that covers the Black Star Palace.

With that, the green rhombus crystal on Qingshi Zhenxing's forehead flashed slightly, and a green beam shot into the void and illuminated a green path.

Qingshi Zhenxing and the other Gumana Universe's powerhouses blurred and flew towards the Dark Star Palace along the green path.

The Dragon Wing Monarch and the other dark powerhouses looked at each other, then blurred and followed Qingshi Zhenxing into the depths of the Dark Star Palace.

Outside the green path, there are dark currents everywhere. These dark currents are dark nihilism, which is the strongest essence the Dark Star Emperor had wielded at the time.

Even though the Dark Star Emperor has died many years ago, the dark nihilism can still wipe out quasi-Holy step and severely wound Holy step powerhouses.

Yang Feng cast Transcendent Pupils. Countless runes appeared in his eyes, and he looked around.

In the currents formed by dark nihilism, there are all kinds of strange and twisted phenomena hidden. However, due to some bizarre law, those phenomena avoid the path Yang Feng and them are walking.

When Yang Feng saw this scene, he sank into his thoughts.

As he walked along the strange green path, a huge yet broken palace appeared in front of Yang Feng.

All kinds of debris, many of which are finest alchemy materials, are scattered around the palace.

Yang Feng took a look at the palace's debris with excitement in his eyes: "Star Tear Stone, Dazzling Stone, Star Core, Andel Stone... as expected of the palace of a Warlock Emperor rank powerhouse, there are so many precious ores here. Materials necessary to advance the stronghold to level-6 can be seen everywhere."

Xizu technology is divided into seven levels. Level-6 strongholds can already produce weapons that can contend against Holy Spirit Warlock rank powerhouses.

As for level-7 strongholds, the xizu have mobilized the power of the entire race and only managed to build one such unit at the time. A level-7 stronghold has the power to contend against Warlock Emperor rank powerhouses.

In fact, level-6 strongholds are the highest level of stronghold that the xizu could mass produce. Even in the world of Warlocks, the resources needed for the construction of level-7 strongholds, which are God grade treasures of heaven and earth and precious materials that can be used to refine Empyrean grade secret treasures, are beyond difficult to collect.

At the time, the xizu dominated the whole universe and gathered the resources of an entire universe, yet they were only able to build only one level-7 stronghold. After all, the energy level of the universe where the xizu lived was half an energy level lower than that of the world of Warlocks.

Level-6 stronghold is Yang Feng's limit at the moment. As long as he builds a level-6 stronghold and invests a large amount of resources, he will be able to create a mechanical legion that can contend against Holy Spirit Warlock rank powerhouses. By then, his force will be regarded as a topmost force among human Warlocks.

The dark powerhouses watched the scattered debris with greed and excitement in their eyes. Although these dark powerhouses are not proficient at alchemy, but they also know that the debris are treasures that can be exchanged for various precious resources with human Warlocks.

Qingshi Zhenxing swept everyone with his gaze and said coldly: "The debris contain Warlock Emperor rank power. They are integrated with the surrounding environment. Once you touch them, you will be besieged by the surrounding phenomena. If you want to take the debris, then please leave. If you dare take action, I'll kill you."

Along with flashes of magic light, the dark powerhouses cast spells and looked at the debris. At a glance, they could see that these precious debris contain all kinds of strange powers that are connected to some strange phenomena.

The dark powerhouses frowned slightly and restrained their desire to take action.

No one has entered the Dark Star Palace for the past millions of years. As a result, the palace is filled with rare and exotic treasures and precious extraordinary plants from the archgod era and the bodies of countless powerhouses.

In a battle of Warlock Emperor rank powerhouses, Moonlight Warlocks are only regarded as cannon fodder. Starry Sky Warlock rank powerhouses, on the other hand, don't even have the qualification to be cannon fodder.

Although the Dark Star Realm's origin will has already collapsed, but at the time, countless powerhouses have died in the Dark Star Palace. The huge amount of life energy contained in the countless corpses has become the nutrients for the extraordinary plants. Many of the extraordinary plants can even tempt Warlock Monarch rank powerhouses.

"That's Dark Star True Dragon Stone!"

After passing through a courtyard full of corpses and precious extraordinary plants, a giant black stone that extends for a dozen plus kilometers appeared in front of Yang Feng.

Emitting a fearsome might, black dragon projections are circling above the giant black stone.

The giant black stone is a Dark Star True Dragon Stone. At the time, the blood essence of the Primordial Black Dragon fell on the ground, fused and integrated with a stone, and formed a treasure of heaven and earth.

Apart from the giant black stone, there is no other Dark Star True Dragon Stone within dozens of kilometers. Obviously, the giant Dark Star True Dragon Stone must have absorbed all the surrounding Dark Star True Dragon Stone.

After discovering the Dark Star True Dragon Stone, Qingshi Zhenxing swept everyone with his gaze.

Yang Feng assumed an expression of greed appropriate if a dark powerhouse, but he didn't make a move.

Qingshi Zhenxing's eyes flashed gravely: "Could it be that Yang Feng was really killed?"

After passing through several winding corridors, 1,000-meter-long spiral stairs made from God grade treasures of heaven and earth appeared in front of everyone.

The spiral stairs, which are engraved with countless mysterious runes and contain a terrifying breath, seem like they are going to run through the universe.

Although the spiral stairs are full of scars, but they are not broken.

Within thousands of meters of the stairs, the ground is filled with strange dust without a trace of vitality.

"Ladies and gentlemen, we arrived. The Universe Stairs are our ultimate destination. All of you have worked hard. You can now set your mind at rest and die."

When Qingshi Zhenxing saw the spiral stairs full of cracks, the corners of his mouth rose into a smile. All of a sudden, a green beam shot out from his forehead and hit a dark powerhouse.

Caught off guard, the dark powerhouse suddenly swelled up and burst into a mist of blood.

The spiral stairs radiated light and absorbed the mist of blood.

The countenance of the Dragon Wing Monarch changed greatly, and he retreated abruptly. He enchanted himself with dozens of defensive spells and said with a gloomy expression: "Sacrifice! Qingshi Zhenxing, you lured us here to use as blood sacrifices?"

These dark powerhouses are all rather proficient in plots and machinations. Upon seeing this scene, they guessed Qingshi Zhenxing's intentions.

"That's right, I brought you here in order to use you as blood sacrifices. I'm going to activate the Universe Stairs and open a passage that runs through the two universes. Now, behave and become sacrifices for the Gumana Universe's cause."

Qingshi Zhenxing smiled and give an order. Commanded by the five supreme Infinity Warlock rank powerhouses, the Gumana Universe's powerhouses rained attacks on the dark powerhouses.

The Dragon Wing Monarch barked: "I already knew that you bastards are not trustworthy. Devicorn Monarch, you still haven't shown yourself? If we are killed, you won't be able to survive either."

"I know!"

The eyes of Devicorn hiding beside the Dragon Wing Emperor flashed fiercely, and he suddenly expanded by a size and erupted with Warlock Monarch rank might. A devil horn sprouted from his right hand, and he stabbed with it at the Gumana Universe's powerhouses.

A black beam slammed into a powerhouse of the Gumana Universe. In an instant, it smashed the powerhouse of the Gumana Universe into pieces, which turned into dust and disappeared.
