Chapter 901 – Blood Sacrifice

The Stone Monarch changed into a 100-meter-tall giant and sent a fist barreling towards the Gumana Universe's powerhouses. In the fist's wake, the Gumana Universe's powerhouses were petrified and shattered.

Lightning fast, the Dragon Wing Monarch, with one against five, forcefully tied down the five supreme Infinity Warlocks of the Gumana Universe.

With a roar, the Overwolf Monarch changed into a 100-meter-long black wolf covered in a black armor, and a terrifying breath spread from him. His figure fluttered, and he swallowed a powerhouse of the Gumana Universe.

Yang Feng stepped forward, appeared behind a powerhouse of the Gumana Universe, and sent a fist flying. Containing berserk essence of power, the fist slammed into the powerhouse of the Gumana Universe and crushed him into pieces.

Whenever a powerhouse of the Gumana Universe is killed, their flesh and blood is absorbed by the Universe Stairs much like those of the dark powerhouses.

The Stone Monarch, the Dragon Wing Monarch, the Overwolf Monarch, and the Devicorn Monarch are all Warlock Monarch rank powerhouses. Although they only have a junior Warlock Monarch rank cultivation base, but they possess amazing fighting strength. They can even fight intermediate Warlock Monarch.

Most of the Gumana Universe's Infinity Warlock rank powerhouses have forcefully upgraded to their current realm using different treasures. If they had enough numbers, they could contend against the Stone Monarch and them. However, after experiencing countless dangers in the core area of the Dark Star Realm, the Gumana Universe's powerhouses can hardly threaten the four Warlock Monarch rank powerhouses with their remaining numbers.

With a cold look in his eyes, Qingshi Zhenxing spread the fingers of his hand, and five Hives suddenly flew out of his hand, expanded, and landed on the ground.

With a flash of light, crowds of the Gumana Universe's powerhouses flew out of the Hives and shot towards Yang Feng and the other four like raindrops.

"Hives, five of them!"

When the Dragon Wing Monarch saw this scene, his countenance changed greatly. He spread his wings and turned into a black ray that flew towards the distance.

If the power of a Hive is concentrated, it can even defeat a junior Warlock Monarch rank powerhouse. At the same time, the fighting power of each Hive can be adjusted so that it can deal with different situations.

The five Hive legion are each led by seven supreme Infinity Warlock rank commanders. Behind the seven commanders, there are 100 Infinity Warlock, 1,000 Bright World Warlock, 5,000 Glorious Sun Warlock, and 100,000 Moonlight Warlock rank powerhouses.

The combat power of each Hive legion is far above that of a junior Warlock Monarch rank powerhouse. With five Hive legions joining forces, coupled with the Warlock Monarch rank Qingshi Zhenxing, the dark powerhouses stand no chance.

In addition to the Dragon Wing Monarch, the figure's of the other dark powerhouses swayed slightly, and they turned into streams of light and escaped in different directions.

At this critical time, the gap between elites and a mob is glaringly evident. The Gumana Universe's vanguard is composed of elites. If they are ordered by the higher-ups, they must advance dauntlessly and fight to the death.

Although the dark powerhouses are very powerful, but they will choose to escape once they find out that they are no match for the enemy.

Qingshi Zhenxing's mouth portrayed a cold smile, and he uttered coldly: "You want to escape? Not so fast!"

From the five Hives, tubes extended, squirmed, and turned into flowers engraved with countless runes.

The strange flowers sparkled and radiated rays that formed a huge barrier in the void.

When the Dragon Wing Monarch knocked against the huge barrier, he was sent flying back.

The Dragon Wing Monarch was about to attack the huge barrier, when a Hive legion commanded by seven supreme Infinity Warlock rank powerhouses surrounded and engaged him.

The Stone Monarch, the Devicorn Monarch, the Overwolf Monarch, and Yang Feng were all besieged by a Hive legion.

Qingshi Zhenxing turned into a stream of green light and pursued the other dark powerhouses. Without any bearing of a powerhouse, he and five supreme Infinity Warlock rank powerhouses joined forces and rapidly besieged and slayed the dark powerhouses one after another.

Mists of blood erupted as the dark powerhouses were slayed one after another. Their flesh, blood, and soul were absorbed by the Universe Stairs.

After all the Infinity Warlock rank dark powerhouses that entered this place were obliterated by Qingshi Zhenxing and his experts, he commanded the experts to fly into a Hive to heal themselves and restore their strength.

When Qingshi Zhenxing and the five supreme Infinity Warlock rank powerhouses flew out of the Hive, they appeared in front of everyone in peak condition.

The Hive is a carrier, a fearsome weapon, a healing facility, and a logistics replenishment unit.

When the Dragon Wing Monarch saw that Qingshi Zhenxing has fully recovered his power, his face fell, and he begged for mercy, spineless: "I'm willing to serve you, Sir Qingshi Zhenxing! Please spare my life!"

A shade of cunning streaked past Qingshi Zhenxing's eyes, and he said with a cold smile: "Is that so? Okay, Dragon Wing Monarch, go attack the Overwolf Monarch. As long as you kill him, I will consider making you a member of the Gumana Universe."

The Gumana Universe's powerhouses that were besieging the Dragon Wing Monarch flew aside and gave way.

"Overwolf Monarch, let's use your head to help me!"

The Dragon Wing Monarch's eyes flickered with enigmatic light, and he blurred and flew towards the Overwolf Monarch.

In an instant, the Dragon Wing Monarch appeared beside the Overwolf Monarch and slammed his hand into the barrier.

The Overwolf Monarch also took the opportunity to strike the barrier with all his might.

When the two Warlock Monarch rank powerhouses attacked with all their might, a crack appeared in the barrier.

Qingshi Zhenxing became furious at once and yelled: "You dare play tricks on me! Kill them!"

The Dragon Wing Monarch watched as the crack in the barrier mended, and regret flashed in his eyes: "What a pity! It wasn't enough!"

The Gumana Universe's powerhouses rushed out in an endless stream. Under the leadership of the supreme Infinity Warlock rank powerhouses, they besieged the Dragon Wing Monarch and the Overwolf Monarch.

Qingshi Zhenxing took a deep look at the two Warlock Monarch rank powerhouses, and then blurred and took the five supreme Infinity Warlocks to besiege the Stone Monarch.

Injuring five fingers is not as effective as severing one finger.

After experiencing countless battles, the Gumana Universe's powerhouses are well aware of this truth. Since the Dragon Wing Monarch and the Overwolf Monarch have joined forces, it is difficult to kill them in a short period of time. As such, the best course of action is to first get rid of the Stone Monarch, the Devicorn Monarch, and Yang Feng, who are much easier to deal with.

After Qingshi Zhenxing joined the battle, the Stone Monarch was soon riddled with wounds, and his life force waned.

"You want to kill me! Okay, then let's die together!"

The Stone Monarch's eyes flashed ferociously, and he roared, burned his life force, and unleashed a punch.

"Retreat!"

Qingshi Zhenxing's complexion changed greatly, and roared, turned into a green stream of light, and disappeared.

The Stone Monarch's eyes shimmered with regret, and gray light of petrification shot out from his fist and enveloped four supreme Infinity Warlock, 20 Infinity Warlock, and 300 Bright World Warlock rank powerhouses.

Except for the supreme Infinity Warlock rank powerhouses wearing a gold armor, who were only half petrified, the other powerhouses that were exposed to the light of petrification turned into statues, and then broken into pieces.

The Universe Stairs flickered and absorbed the souls of the Stone Monarch and the Gumana Universe's powerhouses.

"Ha-ha, let's die together!"

Yang Feng suddenly burst into laughter. He silently recited an incantation and pointed with a finger, and the Eye of Ge, of the six Sky Devils, suddenly appeared and, with terrifying demonic force, looked down.

In a flash, demonic light swept the Gumana Universe's powerhouses around Yang Feng.

Swept by demonic light, one supreme Infinity Warlock, 30 Infinity Warlock, 100 Bright World Warlock, 2,000 Glorious Sun Warlock, and 10,000 Moonlight Warlock rank powerhouses turned into ashes.

After unleashing this strike, Yang Feng turned into ashes as well.

"Die!"

All of a sudden, Qingshi Zhenxing appeared behind the Dragon Wing Monarch, the green rhombus crystal on his forehead flashed, and a green beam blasted into the Dragon Wing Monarch.

The Dragon Wing Monarch trembled suddenly, and then froze in midair.

The attacks of eight supreme Infinity Warlock rank powerhouses slammed into the Dragon Wing Monarch in an instant.

Fire, a red beam, a ghost claw, and other powers intertwined and smashed the Dragon Wing Monarch to pieces.

Then, the Hive legions bombarded the flesh and blood of the Dragon Winged Monarch and blew his soul to pieces.

The Universe Stairs lit up and absorbed the remains of the Dragon Wing Monarch.

"Die!"

Countless runes appeared all over the Overwolf Monarch's body, and he opened his mouth and fired an black ray barreling towards Qingshi Zhenxing.

Qingshi Zhenxing's face flickered, and he severed his right arm decisively. His right arm changed into his likeness and appeared in an alternate space.

When the black beam slammed into Qingshi Zhenxing, it smashed him to pieces.

After unleashing this strike, the Overwolf Monarch turned into ashes, and then his soul was absorbed by the Universe Stairs.

Qingshi Zhenxing's right arm flew into a Hive and absorbed the power of the Hive to heal himself.

Chapter 902 – Sweeping the Battlefield

"Now is my chance!"

Yang Feng, who was playing dead inside the level-9 secret treasure the Defilade Stone, suddenly flew out. Spatial whirlpools formed around him and unleashed countless 5th generation battle robots that rushed toward the Gumana Universe's powerhouses like a tide.

"Yang Feng, this is Yang Feng's mechanical legion!"

"Damn it, this is Yang Feng's mechanical legion! Kill him! Only by killing Yang Feng will there be an end to this!"

"..."

As soon as the Gumana Universe's powerhouses saw the swarm of 5th generation battle robots, their countenance changed drastically, and they bellowed.

Yang Feng took the first place on the Human Infinity Merit Stele. His mechanical legion has even slayed two Warlock Monarch rank powerhouses of the Gumana Universe, which caused a huge stir in the Gumana Universe's camp.

It should be mentioned that the Gumana Universe's vanguard only had 32 Warlock Monarch rank powerhouses.

Of the 32 Warlock Monarch rank powerhouses, 10 died at the hands of quasi-Holy and Holy step powerhouses, four did at the hands of Warlock Monarch rank powerhouses, and 3 died at the hands of Infinity Warlocks.

Yang Feng's mechanical legion is so formidable that even the Gumana Universe's powerhouses have heard of it.

Of the five Hive legions, except for the one that besieged the Devicorn Monarch, the other four Hive legions shot towards the mechanical legion.

After the arms trade with the Bright Moon School, the Star River Sect, and other Warlock groups, Yang Feng's 5th generation battle robots have expanded greatly in number. The mechanical torrent frantically attacked the Gumana Universe's powerhouses.

As light crisscrossed, a large number of Glorious Sun Warlock and Moonlight Warlock rank powerhouses of the Gumana Universe died at every moment.

Large swaths of mist of blood were absorbed by the Universe Stairs.

An Infinity Warlock rank redstone powerhouse barked: "Kill him! As long as you kill Yang Feng, the mechanical legion will collapse!"

"That is correct. Unfortunately, you don't have that ability!"

A vast breath suddenly rose, and countless runes appeared on Yang Feng. He operated the Eternal Imperishable Body and slammed a fist into the supreme Infinity Warlock rank redstone powerhouse.

A terrifying force erupted inside the Infinity Warlock rank redstone powerhouse in a flash.

"Hongshi Qing!"

The eyes of two supreme Infinity Warlock rank powerhouses turned red, and they attacked Yang Feng frenziedly.

Brilliant Star Hunters suddenly appeared in front of Yang Feng and activated their energy shields.

When the attacks of the two supreme Infinity Warlock rank powerhouses slammed into the Brilliant Star Hunters, they pulverized dozens of units together with their energy shields, making it impossible for them to regenerate.

"Die!"

Yang Feng, as if an invincible Transcendent, took a step, appeared before a supreme Infinity Warlock rank powerhouse, and slammed a fist into the other party. The essence of power obliterated the the supreme Infinity Warlock rank powerhouse and the essence of devour devoured the flesh, blood, and soul of the opponent.

Once the Eternal Imperishable Body is activated, Yang Feng can use several essences at the same time. A strike that contains multiple essences is extremely powerful. This is an area in which the Eternal Imperishable Body has surpassed the Primal Chaos Imperishable Body by far.

Just as the remaining supreme Infinity Warlock rank powerhouse was about to attack Yang Feng, seven pinnacle Bright World Warlock rank Dazzling Light Units stabbed him with their blades, and then cut him into several pieces.

20 plus Bright World Warlock rank Dazzling Light Units suddenly flew out, fired beams at the fragments of the supreme Infinity Warlock rank powerhouse, and killed him.

"Yang Feng, die!"

Seven supreme Infinity Warlock rank powerhouses of the Gumana Universe forced their way out of the swarm of 5th generation battle robots and attacked Yang Feng.

With a faint smile, Yang Feng blurred and entered the mechanical swarm.

5th generation battle robots activated their energy shields and blocked in front of Yang Feng.

When the joint attack of the seven supreme Infinity Warlock rank powerhouses arrived, it blasted 100 plus Glorious Warlock rank 5th generation battle robots to smithereens.

At this moment, 5,000 Brilliant Envoys shone brightly and attacked a supreme Infinity Warlock rank flamewell powerhouse.

The light radiated by the 5,000 Brilliant Envoys suddenly condensed into a brilliant radiance that shot towards the supreme Infinity Warlock rank flamewell powerhouse.

The supreme Infinity Warlock rank flamewell powerhouse, who just attacked Yang Feng, only had time to form a huge wall of fire around him.

When the brilliant radiance slammed into the wall of fire, it pierced through the wall of fire, and then stabbed into the flamewell powerhouse and purified him.

At this moment, three brilliant beams slammed into the flamewell powerhouse and dealt him heavy damage, and fire swirled, disappeared, and revealed a handsome red-haired man.

When the fourth brilliant beam slammed into the red-haired man, it purified the red-haired man into ashes.

“Chiyen Mingshi!”

The other six supreme Infinity Warlock rank powerhouses roared in indignation. They activated magic shields and strengthened their defenses, no longer daring to look down on the 5th generation battle robots that they can destroy easily.

One-on-one, the 5th generation battle robots are not the opponents of supreme Infinity Warlock rank powerhouses. However, when faced against a large number of units, the supreme Infinity Warlock rank powerhouses may die if careless.

At this moment, when everyone’s eyes were attracted to this side, Yang Feng appeared on the other side behind a supreme Infinity Warlock rank powerhouse, slammed a fist into the other party, and unleashed the essences of power and devour. He forcefully devoured the flesh, blood, and soul of the opponent.

Seeing this scene, the Devicorn Monarch’s eyes flashed with astonishment: “So strong! So this is the Battle Demon Sect’s Sect Master Yang Feng and his mechanical legion, how truly formidable!”

On the battlefield, explosions ran incessantly and blood and flesh splashed about.

At every moment, a large number of 5th generation battle robots exploded. At the same time, even more powerhouses of the Gumana Universe were slayed and turned into a mist of blood.

While the Infinity Warlock and Bright World Warlock rank powerhouses of the Gumana Universe are destroying the 5th generation battle robots, the the 5th generation battle robots are massacring the low-level powerhouses of the Gumana Universe.

As long as the core chip of the Dazzling Light Units and the Brilliant Star Hunters, which are two kinds of battle robots with undying properties, is not destroyed, it can absorb the surrounding parts and regenerate automatically, making them very difficult to deal with.

The Gumana Universe’s powerhouses are being slayed by the 5th generation battle robots at an astonishing speed.

Yang Feng, as if a fearsome carrier, is constantly releasing 5th generation battle robots onto the battlefield. As a result, despite how desperately the Gumana Universe's powerhouses are killing the 5th generation battle robots, their numbers only increase. This situation is simply despairing.

"Curses! Yang Feng, you damned beast!"

Qingshi Zhenxing flew out of a Hive and saw Yang Feng kill a supreme Infinity Warlock rank powerhouse with a punch. His eyes widened, his heart bled, and he unleashed a heaven-shaking roar.

Because of the wall that separates the universes, the Gumana Universe's vanguard cannot replenish its forces. As a result, every powerhouse of the Gumana Universe is valuable.

The five Hives are already the most powerful forces that the Gumana Universe's vanguard can dispatch to interfere with the outside world. If these five Hives are destroyed, it will be difficult for the Gumana Universe's vanguard to deploy anymore forces.

Yang Feng glanced at Qingshi Zhenxing and said contemptuously: "Trash!"

Anger flashed in Qingshi Zhenxing's eyes, but he soon regained his composure, took a look in the direction of the Devicorn Monarch, and uttered coldly: "Devicorn Monarch, if you join hands with us and get rid of Yang Feng, then I will make you a member of the Gumana Universe. Furthermore, I will apply to the higher-ups to help you advance to a Holy Spirit Warlock rank powerhouse."

The Devicorn Monarch's eyes flashed, and he replied decisively: "Okay! Deal!"

The Gumana universe's powerhouses besieging the Devicorn Monarch left at once and shot towards Yang Feng.

Qingshi Zhenxing said in a deep voice: "Yang Feng, the Gumana Universe has three Eternals and eighteen Warlock Emperor rank powerhouses. Your universe is doomed to be devoured by our universe. Submit and become one of us. Let's destroy this universe together. With your talent and the resources of our universe, you will surely advance to beyond the Holy Spirit Warlock realm.

"You're talking nonsense. Your universe already has three Eternals. Even if I join your universe, I will never become an Eternal. I think it's more suitable to use you as nutrients to fuel the evolution of our universe."

With a faint smile, Yang Feng appeared behind a supreme Infinity Warlock rank powerhouse and slammed his fist into the other party. He blasted the opponent to pieces and devoured him completely.

Chapter 903 – Vanquishing Qingshi Zhenxing

For those in a higher position, the less people there are to share resources with the better.

Each of the Gumana Universe's three Eternals advanced to their current realm during a war of annexation between universes after numerous hardships and perils.

In times of peace, it is impossible for a Warlock Emperor to advance to an Eternal in the Gumana Universe, all because the three Eternals won't agree to share the resources they control.

The soul of an Eternal won't decay, won't be cleansed by the passage of time. An Eternal possesses tremendous power and can destroy a universe with a low energy level. If nothing unexpected happens, an Eternal can exist forever in their home universe.

If there is a shortcoming, that would be at times when the universe's energy level rises or falls. Whether the energy level of the universe rises or falls, they will meet enemies from other universes.

Under the assault of other universe's enemies, Eternals can be seriously injured and killed.

The Cangzhi Plane has previously given birth to Eternals, who died at the hands of enemies. Eternals seek to strengthen themselves continuously. Under such a premise, they naturally do not want see the birth of a new Eternal.

Even if it is a powerhouse of the Gumana Universe, the three Eternals won't support it. If Yang Feng, who is a powerhouse from another universe, sides with them, he will at most reach the Holy Spirit Warlock rank. As for the Warlock Emperor rank, it will be almost impossible for him to reach it.

After the Gumana Universe's powerhouses invaded, Yang Feng weighed the pros and cons and made a choice.

A fierce ray flashed in Qingshi Zhenxing's eyes, and he barked: "Since you made your choice, then let me send you on your way! Start the Bloody Prison Battleground!"

Within the five Hives, 10 supreme Infinity Warlock rank powerhouses and 100 Infinity Warlock rank powerhouses burned their vitality wildly and poured tremendous power into the five Hives.

Red beams suddenly emerged, extended towards Yang Feng's position, and formed a huge barrier, sealing Yang Feng in the huge red barrier.

The barrier shrouding this area that prevented the Devicorn Monarch and others from escaping disappeared at this moment.

Only Qingshi Zhenxing and Yang Feng were in the huge barrier.

Outside the huge barrier, Yang Feng's mechanical legion continued to kill the Gumana Universe's powerhouses, who turned into a mist of blood and were absorbed by the Universe Stairs.

At this time, virtually all of the Gumana Universe's powerhouses below the Bright World Warlock rank are dead. Only the powerhouses above the Glorious Sun Warlock rank are still left struggling.

"I really didn't expect that I would be forced to use the Bloody Prison Battleground in order to deal with you. Yang Feng, because of you, the Gumana Universe has lost countless good soldiers. I will offer them your life as a sacrifice!"

A ferocious shade flashed in Qingshi Zhenxing's eyes, his purple-gold armor glittered, and advanced Warlock Monarch rank power erupted and gushed out like a tide in a flash. Next, he blurred, turned into a stream of light, and flew towards Yang Feng.

Spatial whirlpools appeared around Yang Feng, and a swarm of 5th generation battle robots rushed towards Qingshi Zhenxing like a tide.

"It's no use! Before their numbers have reached a certain degree, these golems are nothing more than a pile of junk. At this time, you can only rely on your own strength!"

Qingshi Zhenxing smiled coldly and spread the fingers of his hand, and green rays shot towards the 5th generation battle robots.

The energy shields burst like bubbles, while the armor, components, and even the core chips forged from various super alloys were purified and turned into ashes.

The hundreds of 5th generation battle robots that blocked in front of Qingshi Zhenxing, an advanced Warlock Monarch rank powerhouse, only made him consume a trace of his strength.

The expression in Yang Feng's eyes turned dignified. He silently recited an incantation, and nine Devour Black Moons suddenly emerged and shot towards Qingshi Zhenxing like meteors.

"Break!"

With a sharp look in his eyes, Qingshi Zhenxing barked and fired a green beam containing the essence of purification from the green rhombus crystal on his forehead. The green beam blasted into the nine Devour Black Moons.

The nine Devour Black Moons collapsed. Blood coming from his mouth trickled down Yang Feng's face.

"As to be expected of an advanced Warlock Monarch rank powerhouse!"

A flash of excitement in his eyes, Yang Feng operated the Eternal Imperishable Body. Countless runes appeared on him, and he grew into a 100-meter-tall giant. He sent a fist flying, and a Devour Black Moon and a mountain projection suddenly appeared and swept towards Qingshi Zhenxing.

Qingshi Zhenxing operated a secret method, and an eye suddenly appeared in the green rhombus crystal on his forehead. Countless eyes emerged from the eye and looked deeply at Yang Feng.

A green beam containing the essence of purification blasted into Yang Feng's fist.

Hit by the green beam, the Devour Black Moon and the mountain projection containing the essence of power collapsed and shattered one after another.

When the remaining green light hit Yang Feng, green smoke rose from him, and the Battle Demon Armor cracked.

Qingshi Zhenxing opened his mouth, and a snake formed from green light shot towards Yang Feng. The green snake pierced through Yang Feng's life force field and bit him, and toxic-like purification force poured into his body.

When the green snake bit Yang Feng, as if it had a life of its own, it plunged into Yang Feng from the wound and purified and destroyed his body wildly.

"Damn it!"

Yang Feng's complexion changed greatly. Countless Devourers flew out from the small worlds inside him, flew inside his body, and frantically devoured the purification force.

In a flash, the Devourers completely devoured the purification force the green snake has transformed into.

Qingshi Zhenxing's eyes constricted slightly, and he uttered in a deep voice: "As expected, it's really hard to deal with a universe child favored by this universe!"

Even if Yang Feng was not a universe child favored by the universe before, but after he took the first place on the Human Infinity Merit Stele, his identity as a universe child became a certainty, and he became one of the most important targets on the Gumana Universe's kill list.

Yang Feng pinched the Ruler Magic Cube, and countless black pieces flew out and formed an armor that covered his body.

The Ruler Magic Cube has been strengthened continuously. At this time, in the center of the Ruler Magic Cube, there are five Warlock Monarch rank magic cores embedded. Additionally, there are Infinity Cores embedded in the joints of the Ruler Magic Cube.

When the Ruler Magic Cube armor enveloped Yang Feng, a vast, almost boundless power poured into him and his surroundings, making him look like an invincible Transcendent.

"What secret treasure is that? So powerful! It's mine!"

Qingshi Zhenxing stared at Yang Feng's Ruler Magic Cube armor with greed in his eyes and fired another green beam of purification from the green rhombus on his forehead shooting towards Yang Feng.

Yang Feng pointed with a finger, and a Devour Black Moon containing endless power suddenly appeared, erupted with peerless devour force, and devoured the green beam of purification.

Qingshi Zhenxing uttered with a shocked look on his face: "How is this possible?! He is but an Infinity Warlock, how could he have blocked my attack that easily?"

There is a huge gap between the Warlock Monarch realm and the Infinity Warlock realm. Furthermore, after Qingshi Zhenxing was strengthened by the purple-gold armor, his fighting strength reached the advanced Warlock Monarch rank. An Infinity Warlock rank powerhouse should stand no chance against him.

"Go to hell!"

Yang Feng's figure fluttered, and he instantly appeared in front of Qingshi Zhenxing along with an afterimage. He slammed a fist containing the essences of devour and power into the other party.

Boom!

The front part of the purple-gold armor suddenly sank in, and Qingshi Zhenxing spurted out a large mouthful of blood and knocked against the Bloody Prison Battleground.

"What a hard tortoise shell! However, even with this tortoise shell on, only a dead end awaits you!"

Yang Feng's eyes shimmered with peculiar light, and he slammed another fist into Qingshi Zhenxing, which led to his teeth being cracked and his face being covered with blood. His face is beyond recognition.

Boom! Boom! Boom!

Countless afterimages flashed as Yang Feng slammed one fist after another into Qingshi Zhenxing, devouring his flesh and blood and destroying his bones. Nevertheless, Qingshi Zhenxing resisted with all his might.

“Sir!”

“Damn it!”

“How could this be!”

“...”

Outside the Bloody Prison Battleground, the eyes of the Gumana Universe’s powerhouses flashed with the shade of despair, and their morale suddenly fell to the bottom.

No one noticed that every time Yang Feng’s fist blasted into a wound on Qingshi Zhenxing’s body, an invisible thread gushed out from his fist and poured into Qingshi Zhenxing.

“Qingshi Zhenxing, I am your master!”

After Yang Feng gave Qingshi Zhenxing another injury, he revealed his real intention. All of a sudden, the Phantom Ruler appeared behind him. Strange eyes opened on its body and looked at Qingshi Zhenxing, and countless runes plunged into the other party.

At this moment, Qingshi Zhenxing, who was seriously injured, entered a trance. Taking Yang Feng as the Spirit Eyes Eternal, his heart shuddered, and he replied in a low voice: “Yes, Lord!”

Chapter 904 – Evolution! Dazzling Ruler

In the Bloody Prison Battleground, Qingshi Zhenxing, who was originally at a disadvantageous position, suddenly burst out with brilliant green light, blasted Yang Feng away with a punch, and fired a green beam from the rhombus crystal on his forehead that blasted into Yang Feng and purified him frantically.

Green smoke rose from Yang Feng, and his face distorted in pain.

“Well done!”

“Kill him, Sir Qingshi Zhenxing!”

“...”

Besieged by the 5th generation battle robots, the Gumana Universe’s powerhouses, whose ranks are on the verge of collapse, showed looks of excitement and resisted the siege of the 5th generation battle robots with all their might.

Besieged by the 5th generation battle robots, the Bright World Warlock rank powerhouses of the Gumana Universe were chopped into countless pieces one after another.

Booming sounds rang incessantly in the sky as the 5th generation battle robots were destroyed by the Infinity Warlock rank powerhouses of the Gumana Universe.

Since the five Hives, which are supporting the existence of the Bloody Prison Battleground, cannot replenish the power of the Gumana Universe's powerhouses, the power of the Gumana Universe's powerhouses is being consumed like crazy at virtually all times.

Due to the crazy consumption, the strength of the Gumana Universe's powerhouses is decreasing bit by bit.

A supreme Infinity Warlock rank flamewell powerhouse opened his mouth and belched a red flame that fell into the huge mechanical legion. The energy shields of 100 plus 5th generation battle robots collapsed at once and the units themselves turned into ashes, no longer able to regenerate.

Seven Bright World Warlock rank Dazzling Light Units suddenly rushed out from the mechanical sea like assassins and slashed with their blades at the supreme Infinity Warlock rank flamewell powerhouse.

The supreme Infinity Warlock rank flamewell powerhouse has already destroyed 1,000 plus Glorious Sun Warlock rank 5th generation battle robots. Besieged by countless 5th generation battle robots, the weakened flamewell powerhouse clenched his teeth, and a wall of fire appeared around him.

In the distance, 5,000 Brilliant Envoys urged the law of light, and countless rays of light condensed into a beam of purification that blasted into the wall of fire around the supreme Infinity Warlock rank flamewell powerhouse.

The wall of fire collapsed in an instant, and the remaining light of purification slammed into the flamewell powerhouse and burned him. The flamewell powerhouse screamed miserably.

The blades of the seven Bright World Warlock rank Dazzling Light Units flickered, and they sliced the flamewell powerhouse along with his soul to pieces.

A Bright World Warlock rank Dazzling Light Unit shone brightly and absorbed the soul of the supreme Infinity Warlock rank flamewell powerhouse. Then, the unit suddenly expanded, and beautiful mechanical wings extended from its back.

Ripples spread from the Dazzling Light Unit.

Dazzling Light Units flew over from the surroundings and plunged into the Blazing Light Unit.

After consuming 100 low-level Dazzling Light Units, the unit's color turned into a brilliant silver-white color, countless mysterious runes appeared on it, and it evolved into the ultimate weapon of the xizu — a Dazzling Ruler.

When its evolution was completed, the Dazzling Ruler radiated silver light from its silver electronic eyes, unfurled its silver mechanical wings, and diffused mysterious ripples in all directions.

Swept by the mysterious ripples, the Dazzling Light Units on the battlefield released ripples of their own and formed a strange resonance.

Under the effect of the strange resonance, the Dazzling Light Units underwent wonderful changes. Their fighting strength was upgraded by one level.

The fighting strength of the 130 Dazzling Light Units that have already promoted to the Bright World Warlock rank was upgraded to the Infinity Warlock rank. The fighting strength of the 300,000 Glorious Sun Warlock rank Dazzling Light Units was upgraded to the Bright World Warlock rank.

After the fighting strength of Dazzling Light Units were upgraded, a great change took place on the battlefield.

Under the frenzied siege of the Dazzling Light Units, the Gumana Universe's powerhouses were blasted into a mist of blood one after another.

"What's going on? Damn it! What's going on!"

Before being blasted apart, Hongshi Ming looked in the direction of the Bloody Prison Battleground and saw a despairing scene. Qingshi Zhenxing, who should be fighting Yang Feng, is standing respectfully next to Yang Feng.

"Complete wipeout! The subordination of the Gumana Universe's powerhouses is really scary!"

Yang Feng looked at the remnants of the Gumana Universe's powerhouses, and his eyes shimmered with a stern shade.

During such a fierce war, unless you set up restrictions on them, enchant them with magical spells, or erode their mind, human Warlocks would have had many deserters.

The Gumana Universe's elite powerhouses, who were fighting desperately due to Qingshi Zhenxing's order, were finally annihilated by Yang Feng's mechanical legion.

"To be able to upgrade the fighting strength of the Dazzling Light Units by one level, Dazzling Ruler is one of the ultimate weapons of the xizu for a reason. Really impressive. However, Dazzling Light Units are the most expensive kind of unit of the 5th generation battle robots. They can only be used as a most elite legion."

Yang Feng looked at the unit that has evolved into a Dazzling Ruler, and his eyes flashed with a scorching shade.

The construction of Dazzling Light Units requires a huge amount of resources. As a result, the Dazzling Light Units under Yang Feng's command only number 1 million.

With the Dazzling Ruler as the commander, the Dazzling Light Unit legion's fighting strength increased by more than 100 times. It may even be able to slay a quasi-Holy step powerhouse.

Yang Feng looked at the five Hives and smiled: "This time, the spoils are quite impressive."

Hives are a kind of weapon developed by the Gumana Universe. Each Hive is equivalent to a miniature divine country. Although they are not as frightening as divine countries of gods, but each Hive has all kinds of mysterious powers. If they can analyze the Hives, it will be beneficial for human Warlocks when fighting the Gumana Universe's powerhouses.

Each Hive has the ability to self destruct. If Yang Feng had not captured Qingshi Zhenxing, who is the highest commander of this legion, it would be impossible to capture the five Hives.

Yang Feng asked: "Who was the Dark Star Emperor?"

Qingshi Zhenxing's replied unhurriedly, a dull look in his eyes: "The Dark Star Emperor was one of the spies His Majesty the Spirit Eyes Eternal sent to this universe."

Yang Feng's eyes flashed with the shade of understanding: "Sure enough!"

Qingshi Zhenxing and his party knew so much about the Dark Star Realm and were able to easily enter the core area of the Dark Star Realm, where even quasi-Holy step powerhouses can die, because the Dark Star Emperor was a spy of the Gumana Universe.

Yang Feng asked in a deep voice: "Who is the highest level spy in this universe at the moment?"

Qingshi Zhenxing answered: "I don't know. Only Green Shadow Monarch, who is in charge of intelligence, may know the answer to this question."

Yang Feng asked a few more questions pertaining spies, yet Qingshi Zhenxing answered "I don't know" every time.

The Gumana Universe has a strict confidentiality system. Although Qingshi Zhenxing is a Warlock Monarch rank powerhouse, but he is only a field officer. It is not surprising that he has no access to information regarding spies in this universe.

Yang Feng uttered: "Collect the treasures of this world!"

"Yes!"

Qingshi Zhenxing answered respectfully and took out a green disk from a chest pocket, and green light fell on the green disk from the green rhombus crystal on his forehead.

The green disk radiated bright light that entered the void.

The void rippled, and a silver mask, a pair of worn-out black gloves, and a dagger flew out of the void and landed on the green disk.

"Lord, this is a Myriad Transformations Mask. It can transform you into anyone. Only when an Eternal pays close attention, a Warlock Emperor rank powerhouse uses an insight spell, or a Holy Spirit Warlock rank powerhouse with some unique bloodline uses a special spell, will it be possible to see through your identity."

"These are Devil Emperor Gloves, an Emyrean grade secret treasure that His Majesty the Spirit Eyes Eternal gave the Dark Star Emperor. They have a fearsome offensive and defensive power.

"This is a God Slayer Dagger, a Holy grade secret treasure that can pierce through the life force field of Warlock Emperor rank powerhouses as well as all kinds of magic force field. Once stabbed by it, even a Holy Spirit Warlock will have most of their power sealed."

"These three treasures are peerless treasures His Majesty the Spirit Eyes Eternal bestowed the Dark Star Emperor at the time. It was thanks to these three treasures that the Dark Star Emperor was able to advance to a Warlock Emperor rank powerhouse in this universe."

Qingshi Zhenxing explained respectfully.

Yang Feng watched the three treasures with excitement in his eyes: “What great treasures!”

Each one of the three treasures is at least a Holy grade secret treasure, while the Devil Emperor Gloves are even an Empyrean grade secret treasure. Even though the Devil Emperor Gloves are severely damaged and cannot be repaired, but if they are dismantled, you’ll be able to obtain many God grade treasures of heaven and earth that can be used to refine Empyrean grade secret treasures.

As for the Myriad Transformations Mask and the God Slayer Dagger, they are formidable equipment for assassins. For Yang Feng, who occasionally assumes the role of an assassin, these two treasures are of great use.

Chapter 905 – The Phantom Ruler Evolves

Yang Feng looked at the huge stairs with a peculiar light in his eyes and asked slowly: “How do you use the Universe Stairs?”

Qingshi Zhenxing answered: “As long as the Universe Stairs absorb enough flesh, blood, and souls of powerhouses, a rift leading to our universe can be opened. People can use that rift to travel between the two universes. If enough powerhouses are sacrificed, you can even open a rift that allows Holy Spirit Warlock rank powerhouses to cross it.

Yang Feng asked: “Is there a record in the Gumana Universe to where the Universe Stairs lead to?”

“There isn’t. The Dark Star Emperor kept this channel strictly confidential. As a result, we don’t know where it leads to.”

Maritime trade can get you tens of times the profit and planar trade can even get you 10,000 times the profit. As for universe trade, the profit obtained from it can even move Warlock Monarch rank powerhouses.

If Yang Feng was in the position of the Dark Star Emperor, he would also firmly grasp the passage linking two universes to earn tremendous wealth.

Only with enough resources can Yang Feng cultivate countless experts and create more and more powerful mechanical legions to strengthen his forces.

Yang Feng uttered: “Do you know how to operate the Universe Stairs?”

Qingshi Zhenxing replied: “I do! The Universe Stairs is a kind of treasure that leads to a higher level universe from a lower level universe. In some low energy level universe, the Universe Stairs is also known as the Path to Heaven. We got the technology regarding the Universe Stairs from a low energy level universe we annexed, and then developed it further.”

Yang Feng asked curiously: “Have you ever used the Universe Stairs to explore a higher level universe?”

“The use of the Universe Stairs to explore a higher level universe is strictly prohibited in the Gumana Universe. Anyone who violates this taboo will have their entire family wiped out. Higher level universes are not full of good intentions towards lower level universes. On the contrary, they are full of malice and regard lower level universes as nutrients for their advancement.”

“In the early days of the Gumana Universe, we had four Eternals. Because we used the Universe Stairs to explore a higher level universe and were discovered by said higher level universe’s powerhouses, three of our Eternals died in battle and the Spirit Eyes Eternal was seriously injured. Our entire universe was almost destroyed at the time. Furthermore, the energy level of our universe fell.

Yang Feng asked: “Are there beings more powerful than Eternals? What do you call them?”

Qingshi Zhenxing answered: “According to the information we have at present, Eternals are the strongest beings we encountered in the higher level universe. Of course, we have not continued to explore the higher level universe. There may or may not be beings more powerful than Eternals.”

Yang Feng asked: “If I go to the Gumana Universe using the Universe Stairs, can I return?”

Qingshi Zhenxing responded: “It should be possible! The Dark Star Emperor used the Universe Stairs to bring many spies into this universe. However, too much time has passed. I don’t know if the arrangements on the other side of the Universe Stairs have been preserved or not.”

Yang Feng uttered: “Qingshi Zhenxing, I want you to input all the information you have on the Universe Stairs, the Dark Star Realm, and the Gumana Universe into the database.”

Qingshi Zhenxing said respectfully: “Yes! Master!”

With Qingshi Zhenxing’s help, the core area of the Dark Star Realm turned into Yang Feng’s back garden. The rare and precious materials and extraordinary plants of the archgod era that are nearly extinct in the outside world fell into Yang Feng’s hands.

“This is Phantom Star Gold, one of the main materials necessary for the Phantom Ruler to evolve.”

In the Dark Star Palace, Yang Feng reached out with his hand towards a tract of fog, and a weightless stone, which looks like it is made out of circling blue cloud, appeared in his hand.

That Phantom Ruler appeared beside Yang Feng at once.

With a smile, Yang Feng threw the Phantom Star Gold to the Phantom Ruler: “It’s yours!”

Countless tentacles extended from the Phantom Ruler, stabbed into the Phantom Star Gold, and absorbed the weightless stone. As if it went up in smoke, the Phantom Star Gold disappeared.

After the Phantom Ruler absorbed the Phantom Star Gold, it suddenly blurred, distorted, crazily absorbed the surrounding phantom force.

“Has the evolution begun? Enter the Dream World. That is the place most suitable for you to evolve.”

There was a flash of excitement in Yang Feng’s eyes. A dream seal extracted from the bloodline of a dream life form appeared in his right hand, and he pointed into the void.

Ripples surged, and the Phantom Ruler was sucked into a hole in space.

After the Phantom Ruler plunged into the hole in space, it appeared in the Dream World. As if it turned into a huge black hole, it started to devour the surrounding dream force.

Devourer, Phantom Ruler, Dazzling Ruler, and other ultimate weapons of the xizu, every one of them is exceedingly powerful and frightening. But their most frightening feature is the unique evolution properties. They can evolve into different weapons with different combat and cultivation styles.

A huge whirlpool appeared in the Dream World, which is full of distortions and weird phenomena and has lollipops, milk biscuits, dragon remains, devil wings, and other things floating in the sky, and frantically devoured the surrounding dream force. This disturbance startled fearsome existences hidden in the Dream World.

“Warlock Monarch, another Warlock Monarch was born in the Dream World.”

“Another guy advanced to a Warlock Monarch!”

“What fellow has promoted to a Warlock Monarch?”

“...”

Startled, the fearsome dream life forms in the Dream World looked this way.

Light shone and ripples surged as the fearsome dream life forms moved this ways.

The Dream World is an entity formed from the dreams of this universe’s countless intelligent life forms. When the Dream World was first born, the dream life forms inside it fundamentally could not affect reality. But after countless years of evolution, the Dream World has evolved into a terrifying world that can birth Holy Spirit Warlock rank life forms.

Nevertheless, Warlock Monarch rank dream life forms are already the pinnacle of the countless dream life forms in the Dream World. The birth of such an existence will naturally cause a huge sensation in the Dream World.

All of a sudden, the sky above the Phantom Ruler was engulfed by endless darkness, and a 10,000-meter-long hand fell down towards the Phantom Ruler.

Dragon heads full of sharp teeth strangely appeared from the palm of the giant hand and shot towards the Phantom Ruler.

Transparent tentacles shot out of the Phantom Ruler and stabbed into the giant hand.

The dragon heads on the giant hand withered, and then the giant hand itself withered as well and turned into green ashes that sprinkled on the earth.

The transparent tentacles extended into the void and stabbed into a strange place.

“Stop!”

An angry roar full of apprehension came from the strange place.

“Rookie, stop!”

A gloomy voice sounded in this space, distorted spatial fluctuations surged, and five bizarre Dream Monarchs exuding Warlock Monarch rank breath appeared.

With a thought from Yang Feng, the transparent tentacles returned to the Phantom Ruler. He looked coldly at the five Dream Monarchs.

Among the five Dream Monarchs, there is a 100-meter-tall strange existence covered in the faces of intelligent life forms; an existence with a snake head, a human body, and a pair of dragon wings on the back; a stunningly beautiful woman with butterfly wings and a charming figure, which is shrouded in a fog; a ragged, 100-meter-tall teddy bear; and a 100-meter-long ship with countless human faces on the hull.

The face on the abdomen of the strange existence covered in the faces of intelligent life forms smiled and said: "I am the the Myriad Faces Dream Monarch. They are the Snake Dragon Dream Monarch, the Fantasy Butterfly Dream Monarch, the Bear Dream Monarch, and the Human Faces Ship Dream Monarch. What do we call you?"

Yang Feng manipulated the Phantom Ruler to reply coldly: "I am the Phantom Dream Monarch!"

"This is my dream mark. If there is anything, you can contact me through this dream mark. Of the many worlds, our Dream World is the weakest. Sooner or later, someone will come to the Dream World to attack us. We must help each other to survive this catastrophe."

The Myriad Faces Dream Monarch smiled and pointed with a finger, and green light condensed into a green crystal that fell into the Phantom Ruler's hand.

Although the Dream World has no resources, but with its ability to connect planes with intelligent life forms, it is a convenient path leading to many planes that is second only to the Astral Boundary. Anyone who takes control of the Dream World can use it to launch attacks on various planes.

As long as the Gumana Universe's powerhouses analyze part of the Dream World's rules and gather Holy Spirit Warlock rank powerhouses, they can take control of the Dream World.

"This is my dream mark!"

The other four Dream Monarchs handed the Phantom Ruler their dream marks as well.

Yang Feng also formed dream marks in his hand and handed them to the five Dream Monarchs.

Chapter 906 – Subduing Hongshi Zhen

In the Dark Star Palace, ripples surged, and the Phantom Ruler flew out of the Dream World and appeared beside Yang Feng.

After the Phantom Ruler advanced to a Warlock Monarch rank powerhouse, its strength became extremely terrifying.

Originally, the Phantom Ruler had to attach itself to Qingshi Zhenxing to be able to confuse him. Once it confused Qingshi Zhenxing, the Phantom Ruler couldn't control anyone else.

But now that it advanced to the Warlock Monarch rank, the Phantom Ruler is able to form Phantom Seeds, through which it can control Warlock Monarch rank powerhouses. Now it can control 10 Warlock

Monarch rank powerhouses at the same time at most. If it continues to evolve, the number of Warlock Monarch rank powerhouses that it can control will increase.

Yang Feng mused: “The Eternal Imperishable Body, this secret method can break the boundaries of essences and merge several essences. It seems that I should master some more essences, so that I can give full play to this Eternal grade secret method.

At present, Yang Feng has mastered three essences, that is, the essences of devour, power, and space. Among them, his mastery of the essence of devour is the most profound, while the mastery of the essences of power and space is only at the entry level.

Generally, Warlocks concentrate on the mastery of a single essence and try to elevate it to the limit. If your essence reaches the perfect grade, you will be able to control a certain law in the universe and become a Warlock Emperor rank powerhouse.

Once a certain law in the universe is occupied by someone, no one else will be able to advance to the Warlock Emperor realm via that law. Only after the Warlock Emperor rank powerhouse dies, can others advance to the Warlock Emperor rank realm by relying on that law.

There are nine kindred true ancestors in the God Blood Plane. But except for the First True Ancestor, the Second and Third True Ancestors, who have existed since the archgod era, still have not advance to the Warlock Emperor realm. On the one hand, this is the case because it is extremely difficult to advance to the Warlock Emperor realm. On the other hand, this is the case because the law of blood is firmly occupied by the First True Ancestor. Before the First True Ancestor dies, no one else can advance to the Warlock Emperor realm using the law of blood.

In order for a Warlock Emperor rank powerhouse to be able to advance to an Eternal, apart from the essence they have mastered, they must also master the essence of time, the essence of space, and the essence of fate and sublimating their soul. Only then will they be able to advance to an Eternal.

Yang Feng has no understanding of the essence of time, has an entry level mastery of the essence of space, and has pried into some mysteries of the essence of fate via the Fate Algorithm. He still has a long way to go to reach the entry level mastery of the essence of fate.

The Eternal Imperishable Body, this unique secret method can enable a Warlock to integrate several essences inside them without conflict. At the same time, it can also integrate the powers of several essences. Due to these properties, it is better than the Primal Chaos Imperishable Body.

Of course, the peerless Eternal Imperishable Body also needs far more resources than the Primal Chaos imperishable Body to be cultivated.

At the time, the Dark Transcendent King plundered the wealth and resources of one world after another and used it all to enhance his strength before he promoted to a quasi-Holy step powerhouse.

But then, the overly arrogant Dark Transcendent King stormed a divine country and fought three strong divine force rank gods. In the end, the fight ended in a draw and both sides suffered damage, and then the Dark Transcendent King was sneak-attacked and killed by his “friend”.

“Dark Blood Origin Stone, there’s so much of it. Furthermore, it’s the highest grade Dark Blood Origin Stone! This is the best evolution treasure for dark existences.”

As Yang Feng strolled inside the Dark Star Palace, he collected all kinds of treasures of heaven and earth. All of a sudden, his eyes lit up, and he stared at a 10-meter-tall black crystal mound with excitement in his eyes.

Dark Blood Origin Stone is a kind of treasure that has to absorb the blood and soul of countless powerful Transcendent rank powerhouses, takes upwards of 10,000 years to be born, and only appears in places with rich dark force.

Dark Blood Origin Stone is a pinnacle evolution treasure for dark extraordinary life forms. After getting Dark Blood Origin Stone, Yang Feng's abyssal lord avatar and his Infinity Warlock rank blazing angels may be able to break through and advance to the Warlock Monarch realm.

Yang Feng cast Transcendent Pupils. Runes appeared in his eyes, and he looked at the Dark Blood Origin Stone.

He saw a strange phenomenon formed from snakes, dragons, devils, and other extraordinary life forms intertwining and mixing together that cannot be seen by the naked eye.

Yang Feng pointed to the Dark Blood Origin Stone and uttered coldly: "Destroy it!"

The Phantom Ruler suddenly emerged and ejected countless transparent tentacles that stabbed into the strange phenomenon.

The strange phenomenon formed from different extraordinary life forms mixing together trembled at once. Thanks to dream force, the phenomenon was absorbed into the Dream World, where it was transformed into dream force and easily devoured by the Phantom Ruler.

The shade of satisfaction streaked across Yang Feng's eyes "Impressive. After advancing to the Warlock Monarch realm, the Phantom Ruler can even interfere with such lifeless phenomena."

Originally, the Phantom Ruler could only interfere with and manipulate intelligent life forms. It could not influence golems, specters, extraordinary phenomena, and other lifeless existences. Nor could it influence matter.

However, after it advanced to the Warlock Monarch realm, the Phantom Ruler begun to transform. It can now influence golems, specter, strange phenomena, and other lifeless existences. When it advances to the Holy Spirit Warlock realm, the Phantom Ruler will be able to change from illusory into real and affect the real world with its attacks.

When the strange phenomenon linked to the Dark Blood Origin Stone was broken, Yang Feng put away the mound formed from Dark Blood Origin Stone.

"It's a pity that the Dragon Empyrean Blade cannot be collected!"

Yang Feng collected all kinds of treasures in the Dark Star Palace. But when he thought of the Dragon Empyrean Blade, his eyes flashed with regret.

The Dragon Empyrean Blade is an Empyrean grade secret treasure, and it's a complete Empyrean grade secret treasure to boot. If he could subdue it, the Battle Demon Sect would be able to become a pinnacle force in the world of Warlocks.

The Dulan Imperial Court, deep in the royal palace, in a secret chamber, Hongshi Zhen, who was practicing cultivation, suddenly opened his eyes, frowned slightly, and turned into red smoke and disappeared.

Thousands of kilometers away from the Dulan Imperial Court, in the abyss of a marine trench shrouded in endless darkness, a 50-meter-long fish monster swam into a huge cave.

The giant fish monster opened its mouth, and Hongshi Zhen jumped out of its mouth.

Hongshi Zhen looked at Qingshi Zhenxing standing in the giant cave and asked coldly: "Qingshi Zhenxing, have you finished your task?"

Qingshi Zhenxing replied coldly: "We don't interfere with each other's tasks, this is an ironclad rule stipulated by the higher-ups. Hongshi Zhen, have you forgotten this ironclad rule?"

Hongshi Zhen relaxed a little and said: "You don't seem to be a fake. What do you want?"

Qingshi Zhenxing showed a strange smile: "I want to kill you!"

All of a sudden, countless strange dream eyes emerge and the Warlock Monarch rank breath of the Phantom Ruler rose in the huge cave. In fact, the huge cave is formed from Phantom Ruler. Both Hongshi Zhen and Qingshi Zhenxing are inside the Phantom Ruler.

Dream light shot out from the dream eyes and shone on Hongshi Zhen.

"Shit!"

An indistinct premonition welled up inside Hongshi Zhen. He wanted to activate a defensive secret treasure, when he suddenly felt like the world was spinning. His soul exited his body and entered the Dream World.

"Crap, this is the Dream World!"

When Hongshi Zhen saw his biscuit body and candy legs, despair appeared in her eyes.

The Dream World is an extremely strange place where the laws are constantly changing. Furthermore, it can give birth to Holy Spirit Warlock rank existences at most and is extremely poor in resources. As a result, the Gumana Universe's powerhouses have never paid it much attention, nor have they studied it in depth.

When Hongshi Zhen saw himself enter the Dream World, he realized that he fell into a dangerous trap.

A huge hand fell from the sky and shot toward Hongshi Zhen's biscuit man incarnation.

"Break!"

Hongshi Zhen urged his soul force frantically, roared, and formed a blade slashing at the sky.

Boom!

When the blade formed from Hongshi Zhen's soul force hit the giant hand, it crumbled. The giant hand struck the ground and suppressed all resistance at once.

Numerous transparent tentacles extend from the giant hand, stabbed into Hongshi Zhen's soul, destroyed his resistance bit by bit, and finally planted a Phantom Seed inside him and took control of his soul.

Ripples flickered, and Hongshi Zhen's soul flew out of the Dream World and returned to his body.

When Hongshi Zhen, whose soul returned, saw Yang Feng standing in front of him, he bowed respectfully and said: "Greetings, master!"

Yang Feng's eyes flashed with killing intent and he ordered flatly: "Take me to the Dulan Royal Palace, let me meet him in a place that isn't being monitored!"

Hongshi Zhen replied respectfully: "Yes! Master!"

Yang Feng blurred, distorted, and entered Hongshi Zhen's shadow.

Hongshi Zhen's figure swayed slightly, thick fog enveloped him, and he flew towards the Dulan Royal Palace.

In the Dulan Royal Palace, there are many restriction and countless permanent detection spells set up. Even if it is a Holy Spirit Warlock rank powerhouse, it would be hard for them to sneak in. However, after Hongshi Zhen took out a token engraved with strange runes, the many restrictions and the countless detection spells in the Dulan Royal Palace became useless, allowing him to enter the Dulan Royal Palace from a passage that nobody knows about.

Chapter 907 – Quelling the Dulan Monarch

The Dulan Royal Palace, in a hidden palace.

After the Dulan Monarch stepped into the palace, he pointed with a finger, and ripples flickered and enveloped the palace.

Spells flashed and sealed the palace completely, making it impossible to peep inside.

Ripples surged, and Hongshi Zhen appeared in front of the Dulan Monarch.

The Dulan Monarch said with a trace of respect: "Sir Hongshi Zhen, why did you summon here?"

Hongshi Zhen replied haughtily: "I obtained a secret treasure by chance, take a look! What is its origin?!"

Hongshi Zhen waved his hand, and a red crystal ball flew towards the Dulan Monarch.

The Dulan Monarch grabbed the red crystal ball.

Suddenly, numerous transparent tentacles extended and dream light poured out from the red crystal ball and shot towards the Dulan Monarch.

Hanging from the neck of the Dulan Monarch, a silver jade pendant suddenly released brilliant silver light that easily broke the dream light.

Dream force is not invincible. On the contrary, there are many secret treasures and secret methods in the world of Warlocks to restrain dream force.

Since the Dulan Monarch is the king of the Dulan Imperial Court, he has numerous secret treasures at his disposal. The Holy grade secret treasure the Holy Guard, which he wears around his neck, can restrain dream force, dark force, illusion force, and other strange powers.

A black shadow, with its breath almost perfectly masked, flew out from behind Hongshi Zhen and stabbed with a dagger at the Dulan Monarch.

Before he could react, the defensive secret treasures on the Dulan Monarch were triggered, and magic shields appeared abruptly.

When the dagger stabbed into the magic shields, they collapsed one after another.

Just when the dagger was about to stab his abdomen, the Dulan Monarch's abdomen burst open and a fierce force erupted in an instant and sent Yang Feng, who is holding the God Slayer Dagger, flying.

As a veteran powerhouse who has experienced who knows how many assassination attempts, the Dulan Monarch made the most correct response in the first moment, which is not to allow an assassin's dagger stab him.

In the world of Warlocks, the daggers of assassins have strange powers. They have various poisons, cruel curses, or seals attached. The best way to deal with assassins is to keep them at bay.

Almost at the same time, a green light flashed, and Qingshi Zhenxing appeared in the palace. Countless mysterious eyes appeared in the green rhombus crystal on his forehead.

A green beam shot out from the green rhombus crystal on Qingshi Zhenxing's forehead and blasted into the Dulan Monarch.

Since the Dulan Monarch's magic shields were destroyed by the God Slayer Dagger, the green beam hit him squarely. The tremendous life energy inside him froze for a moment.

Hongshi Zhen beckoned, and the God Slayer Dagger flew into his hand. He stabbed the Dulan Monarch with the dagger.

When the God Slayer Dagger stabbed him, countless runes spread in a flash and covered the Dulan Monarch, severing his control over his body and sealing him completely.

"Almost turning the tables, that's the Dulan Monarch for you. Impressive."

Yang Feng beckoned with a hand, and the God Slayer Dagger flew into his hand. He looked at the Dulan Monarch and smiled.

As one of the Cangzhi Plane's three merfolk kings, the Dulan Monarch has tremendous wealth and strength and has a defensive Holy grade secret treasure.

Yang Feng mobilized the Phantom Ruler, Hongshi Zhen, Qingshi Zhenxing and himself and used the God Slayer Dagger, yet he was barely able to capture the Dulan Monarch.

Yang Feng has also mobilized the Warlock Monarch rank Flesh Golem avatar, the Ruler of the Night avatar, the kindred grand duke avatar, and other formidable combat power. However, if the God Slayer Dagger hadn't shattered the magic shields released by the Dulan Monarch's secret treasures, Qingshi Zhenxing would not have gotten the chance to break through the Dulan Monarch's defense and freeze his life energy. By then, even though Yang Feng had mobilized so many experts, it would be difficult to capture the Dulan Monarch in a short period of time.

The Dulan Monarch's face sank. He stared at Hongshi Zhen and asked slowly: "Sir Hongshi Zhen, what is the meaning of this?"

With a smile, Yang Feng changed back into his true appearance and asked: "Dulan Monarch, take a look, who am I?"

"Yang Feng, it's you!" The Dulan Monarch's eyes flashed with astonishment, and he exclaimed: "You sided with the Gumana Universe!"

Yang Feng uttered with a cold smile: "It was you who sided with the Gumana Universe and let them ambush me in the Dark Star Realm! What a good plan!"

The Dulan Monarch said with a calm expression: "It was a necessary sacrifice. Only by sacrificing you would they trust and value me more, would I get more important information from them. I have always been on the side of our universe. I just lied to them. Yang Feng, release me, and I will give you the Desolate Holy Vessel. You won't be able to obtain the Desolate Holy Vessel without me."

Yang Feng's eyes flickered with derision, and he sneered: "Even if I didn't have you, I would still be able to get my hands on the Desolate Holy Vessel!"

Hongshi Zhen stepped forward and took down the secret treasure on the Dulan Monarch one after another.

Many transparent tentacles shot out from the Phantom Ruler and stabbed into the Dulan Monarch.

Since the Dulan Monarch's life energy was sealed, he cannot resist the power of the Phantom Ruler. His eyes dimmed, and he entered a state of confusion.

After regaining consciousness, the Dulan Monarch saluted Yang Feng and said respectfully: "Greetings, Lord!"

Yang Feng asked flatly: "Where is the Desolate Holy Vessel?"

The Dulan Monarch replied respectfully: "It's in the Sea Monarch Treasury that is handed down to Dulan Monarchs from generation to generation. In the Sea Monarch Treasury, there are two Infinity Warlock rank powerhouses standing guard. They are called Huan Yan and Wei Xu. They both wield insight spells and can use the restrictions set up around the treasury to check if transformation spells or control spells were used. Even if it is me, I will have to be investigated as well."

There are countless precious treasures, which the merfolk have collected over hundreds of thousands of years, in the Sea Monarch Treasury. Most of the Holy grade secret treasures are inside the treasury as well. Naturally, the defense of the Sea Monarch Treasury is very strict.

Yang Feng said: "Tell me how to get to the Sea Monarch Treasury!"

“Yes! Lord!”

The Dulan Monarch extended his hand. Light shone, and a sphere of knowledge formed in his hand, and then flew towards Yang Feng.

Yang Feng squashed the sphere of knowledge, and information on the Sea Monarch Treasury poured into his sea of knowledge.

With a flash of light, Yang Feng’s Warlock Monarch rank Flesh Golem avatar suddenly appeared.

Yang Feng waved his hand, and the Myriad Transformations Mask flew to his Warlock Monarch rank Flesh Golem avatar.

The Warlock Monarch rank Flesh Golem avatar changed rapidly and assumed the likeness of the Dulan Monarch.

“What a wonderful disguise secret treasure!”

When the Dulan Monarch saw this scene, countless runes appeared in his eyes, and he looked at the Flesh Golem with the light of insight in his eyes, and then his heart shuddered

Although he has been unable to break through the junior Warlock Monarch realm due to bloodline shackles, but as one of the three merfolk kings, the Dulan Monarch is proficient in many secret methods and has mastered many laws. Thanks to the power of the law of detection, the Dulan Monarch can see through most transformation spells and disguise secret treasures. Yet despite that, the Flesh Golem in his eyes looks no different from he himself. Even the soul’s breath, which is the most difficult thing to change, is identical to his own. This is simply astonishing.

Yang Feng said: “Dulan Monarch, three drops of blood essence!”

The Dulan Monarch operated a secret method, his face paled, and three drops of blood essence emitting multicolored light flew out of his mouth and flew to Yang Feng.

Although the three drops of blood essence are not as precious as the true blood of the God Blood Plane’s true blood kindred, but the Dulan Monarch still has to spend three years of time to recover from the loss of the three drops of blood essence.

If the three drops of blood essence are diluted and refined into an elixir and an ordinary person ingests the elixir, they would be able to become a Starry Sky Warlock rank existence.

Yang Feng flicked his finger, and the three drops of blood essence flew towards the Myriad Transformations Mask.

A mouth opened on the Myriad Transformations Mask and devoured the three drops of blood essence. Now the disguise of Yang Feng’s Flesh Golem avatar has no more flaws.

Yang Feng pointed with a finger, and a coffin suddenly emerged. The Dulan Monarch entered the coffin and was sealed.

In the Dulan Imperial Court, there are detection spells everywhere. The Phantom Ruler's Phantom Seed can be detected by the detection spells. In such an environment, it is very likely that the fact that the Dulan Monarch is being controlled will be exposed.

Ripples surged, and everyone in the palace disappeared as if nothing happened. Only the Flesh Golem avatar, which has disguised itself as the Dulan Monarch, remained.

Yang Feng pushed the door open and went straight to the Merfolk Monarch Treasury.

Along the way, every time he stepped into an important area, a series of detection spells landed on Yang Feng. After confirming that Yang Feng is indeed the Dulan Monarch, the hidden gazes that had focused on him moved away.

In the world of Warlocks, there are many beings that can change into others. Therefore, there is never a lack of detection spells in the headquarters of major forces.

If Yang Feng had not obtained the Myriad Transformations Mask, he would not have pretended to be Dulan Monarch and walked in the Dulan Imperial Court as the other party.

Chapter 908 – The Abyssal Floor Lord Avatar Evolves

In front of a huge bronze gate, there are two people sitting. One of the two has eight eyes, while the other appears to be hovering between real and illusory.

These two are Huan Yan and Wei Xu, and they are Infinity Warlock rank powerhouses guarding the Sea Monarch Treasury.

"Your Majesty, please stop!"

When Yang Feng came to the Sea Monarch Treasury, he heard Huan Yan's somewhat hoarse voice.

Yang Feng stopped and stood quietly in front of the bronze gate.

Huan Yan silently recited an incantation and extended a hand.

Suddenly, a giant eyes appeared on the bronze gate. The giant eye is called the Truth Spirit Eye. It is a treasure extracted from an Infinity Warlock rank astral life form the truth star serpent eye and refined by countless spells.

Under the gaze of the Truth Spirit Eye, even if it is a Holy Spirit Warlock, they won't be able to escape its insight without having mastered the essence of illusion and being proficient in disguise.

The Truth Spirit Eye radiated light. When the light illuminated Yang Feng, it didn't set off any ripples.

Huan Yan uttered respectfully: "Your Majesty, please go in!"

Yang Feng, however, wasn't fooled and asked coldly: "What about today's password?"

As a treasury that contains treasures gathered by the Dulan Imperial Court throughout hundreds of thousands of years, the Sea Monarch Treasury has tremendous wealth. Therefore, detection and

defense are of top priority in this place. In addition to magic detection, there are also psychological, password, and other kinds of tests.

If Yang Feng didn't get the correct information and tried to enter without the password, he would have been suppressed directly. Even if it was a Warlock Monarch rank powerhouse, they would be suppressed in front of the Sea Monarch Treasury.

Wei Xu said: "The sea breeze blows the moon!"

Yang Feng replied: "The blue sea rises into the sky!"

"The password is correct. Your Majesty, please go in."

Following flashes of light, the Sea Monarch Treasury opened slowly, and dazzling light poured out from within.

When Yang Feng walked into the Sea Monarch Treasury, he saw that the treasury is extremely vast. As if a kingdom of treasures, the treasury is filled with all kinds of treasures of heaven and earth that emit brilliant light.

"As expected of the Sea Monarch Treasury. If I could enter this treasury much earlier, it would be easy to build the level-5 stronghold. Moreover, there are many materials necessary for the construction of the level-6 stronghold."

When Yang Feng entered the treasury, his eyes brightened and revealed excitement.

In terms of value alone, without taking the Universe Stairs and the Dragon Empyrean Blade into account, the Sea Monarch Treasury is far more valuable than the Dark Star Palace. However, many of the treasures in the Dark Star Palace have demand but no supply. Take Dark Blood Origin Stone as example, it is not a treasure that can be bought with magic crystals.

Yang Feng beckoned with his hand, and a heart engraved with countless mysterious runes flew into his hand. The corner of his mouth rose into a smile: "This is a King Fiend Heart. With this treasure, my abyssal floor lord avatar can advance to an abyssal king. My position in the 666 floor of the abyss will be as steady as a mountain."

If Yang Feng's abyssal floor lord avatar can advance to an abyssal king, he'll become one of the most powerful beings in the Abyss. Coupled with the floor lord authority, a slightly weaker Holy Spirit Warlock may not be able to suppress his abyssal floor lord avatar in the 666th floor of the Abyss.

Once Yang Feng's abyssal floor lord avatar becomes an abyssal king, although he still won't be able to capture the Gumana Universe's base. However, it will be very difficult for the Gumana Universe's vanguard to capture his 666th floor of the Abyss.

Brilliant light shone, and a seemingly ordinary-looking vessel inscribed with mysterious runes flew into Yang Feng's hand.

With the Desolate Holy Vessel in hand, Yang Feng sank into his thoughts and carefully recalled the records about the Brilliant Great Holy: "This is the Desolate Holy Vessel! The last part of his body."

The Brilliant Great Holy is a Great Holy step powerhouse, second only to a Warlock Emperor rank powerhouse. Each Great Holy step powerhouse is a pinnacle existence among Holy Spirit Warlock rank powerhouses.

The Brilliant Great Holy should have died millions of years ago, but he can still be resurrected via an incredible method. Yang Feng is naturally quite cautious when it comes his revival.

If he had a choice, Yang Feng would revive the Brilliant Great Holy only after the advanced to a Great Holy or a Warlock Emperor. In this way, even if the other party has evil intentions, he could take full control of the situation.

Yang Feng contemplated: "According to records, the Brilliant Great Holy should be someone who bears gratitude and grudges alike. His alignment should be lawful. If I resurrect him, even if he isn't grateful, he shouldn't attack me."

The Human Supreme Council will be established soon, since in order to be able to contend against the Gumana Universe's powerhouses, the power of human Warlocks must be unite.

Yang Feng doesn't object to the establishment of the Human Supreme Council. However, he must try his best to climb to a high position in the Human Supreme Council. Otherwise, if someone oppresses him in the name of righteousness and forces him to serve as cannon fodder, he will be hunted by all human Warlocks if he does not obey.

Once Yang Feng becomes part of the upper echelon of the Human Supreme Council, he'll be able to take control of his fate, choose the battlefield and the enemy he likes, and fight when he is at an advantage, rather than falling into a helpless situation and being treated as a discardable pawn or bait.

"This is a Warlock Monarch rank blazing angel heart! It's a merfolk treasury not for no reason!"

"True dragon blood, fenghuang blood, qilin blood, golden crow blood... amazing, there's even blood of the already extinct aurums."

"..."

As Yang Feng strolled inside the treasury, his eyes glittered, and he took resources that are useful to him without a trace of politeness.

However, since the identity of the Dulan Monarch is still of great use to him, Yang Feng just took the treasures that are of considerable use to him.

"This is the Wheel of Time! Did the Dulan Imperial Court get the Time Lord's Empyrean grade secret treasure the Wheel of Time?"

In the deepest part of the Sea Monarch Treasury, there is a huge clock floating in the void, its pointers moving slowly. Wisps of Empyrean might are slowly diffusing from the clock. As soon as Yang Feng saw the huge clock, shock filled his heart.

The First Warlock Dynasty's Time Lord mastered the essence of time and refined the Empyrean grade secret treasure the Wheel of Time.

Ever since he refined the Wheel of Time, the Time Lord was never hurt, and none of the Warlock Emperor rank powerhouses hiding in the universe dared to fight him.

The Wheel of Time is known as one of the most powerful Empyrean grade secret treasures. As such, it is much more valuable than ordinary Empyrean grade secret treasures.

“No, it’s just a treasure that contains part of the power of the Wheel of Time. At the time, in order to enable human Warlocks to comprehend the Time Text, the Time Lord separated part of the Wheel of Time’s power and forced 36 imitations. This is one of the imitations of the Wheel of Time.”

“This is a rare opportunity. Let’s stay here and comprehend the law of time.”

Yang Feng looked at the imitation of the Wheel of Time with a fervent shade in his eyes.

He has already obtained a complete copy of the Time Text. However, he still hasn’t comprehended the mysteries of time contained within the Time Text and mastered the law of time. Only bloodline Warlocks with a special bloodline or some true freakish geniuses can accomplish this.

Yang Feng has spent many years in the Light of Eternity Plane, but he still has no clue about the law of time. The imitation of the Wheel of Time together with the Time Text are enough to give him a glimpse into the mysteries of time.

With a wave of Yang Feng’s hand, his true body flew into the imitation of the Wheel of Time, closed his eyes, operated the Time Text, and started comprehending the law of time.

The 666th floor of the Abyss, in a secret chamber, Yang Feng’s abyssal floor lord avatar suddenly opened his eyes. The warp gate in the secret chamber shone, and a King Fiend Heart suddenly flew out and entered his hand.

“King Fiend Heart, with this treasure, I can advance to an abyssal king!”

The eyes of Yang Feng’s floor lord avatar flashed with the shade of delight, and he opened his mouth and swallowed the King Fiend Heart.

A terrifying force gushed out of the King Fiend Heart and a violently spread inside Yang Feng’s floor lord avatar.

“You want to inherit my power? Interesting. Give me your body. I will transform your body into the body of an abyssal king. If you listen to me, you will become an abyssal king! Furthermore, you’ll be a supreme existence among abyssal kings that can contend against abyssal sages!”

An abyssal king with a ghostly horn and a ferocious appearance, who exude a terrifying breath and appears to be omniscient and omnipotent, suddenly appeared in the sea of knowledge of Yang Feng’s floor lord avatar and spoke in a tone full of temptation.

“A mere discarnate soul will wants to disturb my mind? Go to hell!”

Yang Feng’s floor lord avatar sneered. He suddenly appeared in his sea of knowledge, turned into a giant, and sent his palm barreling towards the abyssal king.

“No!”

With a look of despair on his face, the abyssal king also turned into a giant and raised his hand.

When the two giant hands collided, Yang Feng smashed the abyssal king into pieces and devoured him.

After Yang Feng's floor lord avatar devoured the abyssal king's discarnate soul, countless threads formed from dark force flowed out of him and wound around him, forming a black cocoon.

A strange heartbeat came from within the black cocoon. In less than a breath of time, Yang Feng's floor lord avatar became stronger by a fraction.

Chapter 909 – Slaying an Emissary

The 777th floor of the Abyss is a place that is under the control of the No. 1 beauty in the Abyss, the Succubus Empress. It is a paradise that countless male powerhouses long for day and night.

The Succubus Palace, which is located in the center of the 777th floor of the Abyss, is filled with sexy and enchanting succubi that are rarely seen in the outside world.

In addition to succubi, there are also countless other beauties characteristic of the Abyss in the Succubus Palace.

Thanks to a powerful barrier, apart from beauties, the Succubus Palace is also filled with blooming flowers and tantalizing fragrances. It looks like a fairyland.

The Succubus Palace is a paradise that all male powerhouses in the Abyss dream of. Of the powerhouses that entered the Succubus Palace, at least 20 abyssal floor lord powerhouses never left. They sank into this land full of feminine charms and became its vassals.

Although the Succubus Empress is not the most powerful floor lord in the Abyss, but she is one of the floor lords with the most experts under her command, the vastest force, and the most allies.

With a flash of light, a powerhouse of the Gumana Universe wearing a gold armor and exuding Infinity Warlock rank fluctuations of power appeared above the Succubus Palace and said proudly: "The Gumana Universe's emissary Hongshi Hun requests an audience with Her Majesty the Succubus Empress!"

Sound waves reverberated in the Succubus Palace and entered the ears of the powerhouses side the palace.

Suddenly, various Infinity Warlock rank fluctuations of power rose inside the Succubus Palace, and ferocious and ruthless gazes focused on Hongshi Hun.

Hongshi Hun shuddered inside: "As expected, the Succubus Palace has an extraordinary underlying strength!"

In fact, Hongshi Hun is just a Bright World Warlock rank powerhouse. However, with the power of the gold armor, he was able to advance to an Infinity Warlock rank powerhouse. Naturally, there is a great difference in strength between someone who obtained Infinity Warlock rank power through a secret

treasure and someone who advanced to an Infinity Warlock rank powerhouse by relying on their own ability.

“Please come in.”

The Succubus Empress’s extremely alluring voice sounded, and then a bewitching succubus, with whom an ordinary person could be infatuated at a glance, appeared in front of Hongshi Hun, a fragrance wafting out from her.

The succubus threw Hongshi Hun a flirtatious look and said with a charming smile: “Sir Hongshi Hun, my name is Anna! please come with me!”

“Mhm!”

Hongshi Hun looked at the succubus with greed in his eyes, then replied loftily and followed her into the hall of the Succubus Palace.

“So this is the Succubus Empress! She is the No. 1 beauty in the Abyss not for no reason!”

When he entered the palace hall, Hongshi Hun saw the matchlessly beautiful Succubus Empress, who exudes seduction with every movement, sitting on the throne. His heart throbbed slightly, and greed streaked across his eyes.

Hongshi Hun went straight to the point: “Your Majesty, I come on behalf of His Majesty the Wing Eternal to ask for your hand in marriage! We hope that you marry His Majesty the Wing Eternal and become his consort!”

Sitting atop the throne, the Succubus Empress raised her eyebrows, shock flashed through her eyes, and she sank into her thoughts: “His Majesty the Wing Eternal!”

When the Gumana Universe’s powerhouses invaded, they slaughtered countless powerhouses of this universe. At the same time, many of the Gumana Universe’s powerhouses have been captured. The world of Warlocks is a breeding ground for all kinds of strange spells. As such, it is not surprising that some people managed to obtain intelligence on the Gumana Universe.

There are three Eternal Sovereigns [1] and 18 Warlock Emperor rank powerhouses in the Gumana Universe. As one of the three Eternal Sovereigns, the Wing Eternals possesses heaven-defying strength. Even the Seven Warlock Emperors, who were hailed as unparalleled beings in this universe in their time, are not the opponents of the Wing Eternal.

The Succubus Empress asked faintly: “Then what do I need to do for His Majesty the Wing Eternal?”

As an Eternal Sovereign, there are countless women who wish to become a consort of the Wing Eternal. There are even many beautiful Holy Spirit Warlock rank powerhouses who are willing to become his consort in order to reach further heights.

Although the Succubus Empress is known as the No. 1 beauty in the Abyss. But for an Eternal Sovereign, she is far less valuable than a Holy Spirit Warlock rank powerhouse. Yet the Wing Eternal promised her a consort position. Clearly, he must have an ulterior motive.

Hongshi Hun replied with a smile: "We need you to help us conquer the Abyss and integrate the power of the Abyss."

The Abyss has 17,000 plus floors, 17,000 of which have floor lords. Of the 17,000 floor lords, the strongest possess the strength of an abyssal king, while the weakest possess the strength of an abyssal earl.

If the power of the Abyss can be integrated, it will become a terrifying force.

The Succubus Empress said with a charming smile: "If you want me to help you, please show me your strength. The weak are not qualified to cooperate with the strong, are they?"

Hongshi Hun responded with a smile: "It is true that the weak are not qualified to cooperate with the strong. Please take a look at the Gumana Universe's strength."

The Succubus Empress, who was able to become a floor lord in a dangerous place like the Abyss, naturally isn't someone who can be persuaded by a few words from Hongshi Hun.

On the 666th floor of the Abyss, light shone, and a windshadow powerhouse shrouded in shadows appeared above Yang Feng's Gold Palace in a gust of wind.

"I am Fengying Guang, an emissary of the Gumana Universe! Floor Lord Warren, come out to see me!"

Standing loftily in midair, Infinity Warlock rank fluctuations of power spread from Fengying Guang and swept down.

"An emissary of the Gumana Universe, what do we do? Master is still in closed door cultivation!"

When Munch, who is inside the Gold Palace, sensed the Infinity Warlock rank fluctuations of power coming from Fengying Guang, his face turned pale, his body shivered, and his eyes filled with fear. Thanks to the resources provided by Yang Feng, this trifling low-level fiend has already evolved into an abyssal baron.

"Munch, calm down, stop walking back and forth."

A beautiful succubus about 1.7 meters tall, with long blond hair and fair skin, exuding amazing temptation, slightly creased her slim eyebrows and chided.

Munch replied respectfully: "Yes! Your Highness Cloris!"

Over the past few years, thanks to Yang Feng, Cloris has evolved into an abyssal earl and transformed into a mature succubus. Exuding amazing beauty with every movement, she is recognized as the No. 1 beauty on the 666 floor of the Abyss.

Cloris looked at the place where Yang Feng has secluded himself with worry in her beautiful eyes. "A powerhouse of the Gumana Universe? What will he do?"

When the Gumana Universe's vanguard appeared, they announced their arrival by exterminating many forces.

The three Eternal Sovereigns and eighteen Warlock Monarch rank powerhouses of the Gumana Universe are pressing on the hearts of this universe's people like mountains.

The reason why many forces of this universe sided with the Gumana Universe and became its spies and hounds is because the Gumana Universe is too powerful. They cannot see any hope of winning.

After he didn't get any response from Yang Feng, Fengying Guang's expression turned cold, and he said in a stern tone: "Floor Lord Warren, come out to see me!"

With a flash of black light, a sword ray covered with Fallen Angel Fire slashed towards Fengying Guang at an astonishing speed.

"Floor Lord Warren, do you want to become an enemy of the Gumana Universe?!"

Fengying Guang's face fell, and endless shadows emanated from him and formed a Shadow Domain that covered the sky.

The sword ray containing Fallen Angel Fire slashed through the Shadow Domain, and then landed on Fengying Guang and cut him in two.

A great amount of Fallen Angel Fire burned Fengying Guang to ashes bit by bit.

"Warren, you dare kill me! You're dead! The Gumana Universe will kill you! The 666th floor of the Abyss will be razed to the ground!"

With a look of despair in his eyes, Fengying Guang screamed shrilly, and then turned into ashes that dissipated with the wind.

With a pair of fallen angel wings flapping behind them, a fallen angel covered in darkness, whose features cannot be seen clearly, is proudly standing in front of Fengying Guang.

As he watched Fengying Guang die, Munch's complexion turned pale, and he uttered in a shivering voice: "It's over! It's over! We're finished!"

For any force, killing their emissary is an intolerable offense. To kill the emissary means to sever the possibility of negotiation. At the same time, it also means war.

At the time when the Gumana Universe's powerhouses descended on the Abyss, they slayed the floor lord of the 17,000th floor of the Abyss.

Of course, although the Gumana Universe's powerhouses are the opponents of the floor lord of the 17,000th floor of the Abyss, who wielded floor lord authority, in a one-on-one fight, but they have many powerhouses. Furthermore, the floor lord of the 17,000th floor of the Abyss only possessed Infinity Warlock rank fighting strength. Even though he could defeat Warlock Monarchs, but he was not able to resist the siege of the Gumana Universe's powerhouses.

On the 666th floor of the Abyss, only Yang Feng is an Infinity Warlock rank powerhouse. Even though he is the floor lord, but he cannot withstand the invasion of the Gumana Universe's army.

In the deepest part of the 17,000th floor of the Abyss, there is a magnificent Tier III Hive, which is a size bigger than a Tier II Hive.

Inside the Tier III Hive, in a giant palace, on a dais, there are three chairs placed. On each chair, there sits a person, each of which is a quasi-Holy step powerhouse emitting wisps of imperishable fluctuations.

Chapter 910 – The Floor Lords Are Shocked

The three quasi-Holy step powerhouses are the commanders of the Gumana Universe's expeditionary forces in this world.

The merger of the Gumana Universe and the world of Warlocks is a gradual process. In the first stage, the spatial rifts opened can only let experts below the Holy Spirit Warlock rank pass through. Therefore, when the three quasi-Holy step powerhouse silently infiltrated this universe using some underhanded tricks, they became the commanders of the vanguard army.

A quasi-Holy step shirake powerhouse shrouded in endless darkness, whose features cannot be discerned, said coldly: "To kill our emissary, that Warren is really daring! He must die!"

The eyes of a quasi-Holy step redstone powerhouse dressed in purple-gold armor, with a red rhombus crystal embedded in his forehead, shone with the shade of cunning, and he uttered slowly: "To dare kill our emissary, he is either stupid or has something to rely on. If I am not wrong, he should be the avatar of some formidable existence.

As the gathering place of this universe's negative energy, the Abyss has many materials dark powerhouses need to practice cultivation. Abyssal lords and abyssal monster are also resources that many powerhouses require.

As long as fiends continue to kill and devour, they can evolve rapidly. On the Bloody Battlefield, as long as they continue to kill, they can easily evolve into a Transcendent rank abyssal lord.

Under such circumstances, the floor lords of many floors of the Abyss are the avatars of formidable beings of the universe.

A ten-meter-tall quasi-Holy step blasteel powerhouse covered in an alloy armor, who looks like a giant robot, said with a cold smile: "No matter whose avatar he is, as soon as our army arrives, we'll crush him. We'll use his death to warn the wavering floor lords."

The quasi-Holy step redstone powerhouse said: "If we want to win, then except of the Dark Gorge Quasi-Holy, who must stay here, one of the two of us must take action. Will you go, or shall I?"

There was a flash of excitement in the eyes of the quasi-Holy step blasteel powerhouse: "I'll go! In this place, my bones are going to get soft!"

"Okay!"

The quasi-Holy step shirake and redstone powerhouses nodded and agreed.

Ripples spread from the 17,000th floor of the Abyss.

Eighteen Tier I Hives and one Tier II Hives flew out of the 17,000th floor of the Abyss, formed a huge army, and flew towards the 666th floor.

The power of the eighteen Tier I Hives and one Tier II Hive is equivalent to half the power of the Gumana Universe's forces that attacked the Bai Family at the time.

As the royal family that has dominated the Cangzhi Plane's Eastern World for more than 10,000 years, the Bai Family has many secret treasures and trump cards. Additionally, they have formed a divine country array in their base.

Even so, under the siege of the Gumana Universe's powerhouses, the Bai Family was forced to use an Empyrean grade secret treasure to defeat the Gumana Universe's powerhouses.

Half of the power that attacked the Bai Family is enough to sweep clean most of the floors of the Abyss.

"The Gumana Universe's powerhouses set out!"

"Their goal is the Floor Lord Warren of the 666th floor of the Abyss!"

"Whose avatar is that Floor Lord Warren? Why is he so arrogant and overbearing?"

"Was that idiot Warren eroded by the will of the Abyss?"

"..."

When the Gumana Universe's powerhouses took action, the floor lords focused their gazes on the Hives, a look of apprehension in their eyes.

Most of the floor lords are abyssal earl rank fiends. On their respective floor, thanks to the floor lord authority, these floor lords can display Infinity Warlock rank battle prowess.

With flashes of black light, the nineteen Hives descended on the 666th floor of the Abyss.

As soon as the Hives descended on the 666th floor of the Abyss, countless roots pierced into the ground and frantically absorbed the abyssal force of the 666th floor.

Once the abyssal force of the 666th floor of the Abyss is fully absorbed, then even though Yang Feng's avatar wields the floor lord authority of the 666th floor, his strength will only be upgraded by 20% at most.

Countless strange-shaped weapons flew out from the nineteen Hives.

As one of the eighteen sacred races, the blasteel race has a Warlock Emperor rank powerhouse standing guard. The evolution route of the blasteel race is similar to that of the xizu.

"Let's greet him first!"

The quasi-Holy step blasteel powerhouse aboard the command ship looked at the Gold Palace with excitement in his eyes and ordered coldly.

300 blasteel weapons, which are similar to self-propelled artillery and are connected to the Hive, shone and fired 300 dark shells at the Gold Palace.

Fallen angels flew out from the Gold Palace and flew towards the Hives like a dark cloud.

The 300 dark shells exploded in the air and turned into countless bolts of dark lightning, forming a giant net.

When the fallen angels made contact with the giant net formed from dark lightning, they raised crackling sounds and turned into ashes.

A single volley wiped out tens of thousands of fallen angels.

“So that’s the power of the Gumana Universe’s powerhouses, how terrifying!”

Munch watched from inside the Gold Palace as tens of thousands of fallen angels were destroyed by a volley with shock in his eyes and shivered.

There are a total of 3.5 million fallen angels in the Gold Palace. Judging by the casualties of this attack, the Gumana Universe’s powerhouses can eliminate all the fallen angels inside the Gold Palace in less than a day.

Much like angels, fallen angels can be reborn in the a Fallen Angel Pool as long as their heart was not destroyed. However, under the attack of the blasteel’s dark lightning shells, the affected fallen angels were turned into ashes, and even their heart was destroyed. Only a small number of hearts flew back to the Fallen Angel Pool in the Gold Palace for rebirth.

As Cloris watched the battlefield, her eyes shimmered with worry. She can also tell that this is a one-sided beating. If things continue like this, it is only a matter of time before the fallen angel legion in the Gold Palace is slaughtered.

With a flash of black light, Yang Feng’s gold horned avatar appeared behind a Tier I Hive. In a flash, he erupted with abyssal king breath, and slammed a fist containing the essence of power into the Tier I Hive.

The Tier I Hive activated magic shields in an instant. Thanks to the magic shields, even if it is a Warlock Monarch rank powerhouse, they won’t be able to destroy the Tier I Hive with one strike.

“Break!”

With a roar, Yang Feng used the floor lord authority, and the abyssal force of the entire floor blessed him, which made his strength rise to an incredible degree. His fist broke through the magic shields and slammed into the Tier I Hive.

Boom!

There was a tremendous blare, and the Tier I Hive was smashed into pieces together with the Gumana Universe’s powerhouses inside.

“King! Abyssal king!”

“He broke through! His trump card is not external help, but a breakthrough!”

“How can this be! How could he break through and advance to an abyssal king? He has advanced to an abyssal grand duke less than 100 years ago!”

“Abyssal king! How is that possible! I advanced to an abyssal grand duke 50,000 years ago, yet I still have no hope of a making a breakthrough. That guy was born less than 300 years ago! How can he have advanced to an abyssal king!”

“ ... ”

The floor lords, who watched the goings on at the 666th floor of the Abyss using different spells, were struck dumb, and their eyes shimmered with endless shock.

In the Abyss, the number of floor lords exceeds 10,000 individuals, yet there are only two known abyssal kings.

As for the two abyssal kings, they are hiding somewhere in the Abyss. Even when the Gumana Universe's powerhouses invaded the Abyss, they showed no reaction.

If it wasn't for the appearance of the Gumana Universe's powerhouses, Yang Feng's floor lord avatar, who has advanced to an abyssal king, could be regarded as the strongest powerhouse in the Abyss.

The complexion of the quasi-Holy step blasteel powerhouse changed greatly, and he exclaimed: "Abyssal king! Damn it! That's his trump card!"

An abyssal king is a top existence in any plane. If it was anywhere else, an abyssal king would not give the quasi-Holy step blasteel powerhouse any headache. But in the 666th floor of the Abyss, an abyssal king with floor lord authority is a fearsome existence of whom even Holy Spirit Warlock rank powerhouses would be somewhat apprehensive.

The quasi-Holy step blasteel powerhouse roared decisively: "Retreat! Retreat now! Jigang Tieming, take everyone to cover the rear!"

108 supreme Infinity Warlock rank powerhouses led 720 Infinity Warlock rank powerhouses together with a swarm of Bright World Warlock rank powerhouses to attack Yang Feng.

All kinds of attacks spread all over the empty space and blasted it apart. Even if it was a quasi-Holy step powerhouse, they would have died under the siege of the countless powerhouses.
