

Chapter 2337 Engaging with Drake Once Again

When Rylan felt the various changes in his body, he, too, couldn't help but exclaim, "This new instructor is truly amazing!"

Amidst their astonishment, they became even more convinced of Matthew's abilities.

The rustling sound woke Matthew up from his nap.

When he opened his eyes again, all the students were already gathered in the classroom.

"Matthew, we have finished cleaning up!"

At that moment, Matthew noticed the drastic change in their demeanor.

Matthew saw that there was longing, aspiration, determination, and discontent as well as a hint of exhaustion in their eyes.

Emma and the other girls were surprised to find that their skin became silky smooth and their freckles and acne had disappeared.

Now, they were even more interested in Matthew compared to diamond jewelry.

At that moment, Matthew also understood that his mission in Ground Hall had been accomplished.

Outside the classroom, Drake frowned as he listened to the noises inside.

He didn't expect that in just over a month since he left, some of the classes and even the instructors had become so unruly.

When Drake pushed past the teachers, he saw Matthew, who was lying down, wearing a mask.

Drake's face contorted with anger. "It's you again?"

First, he broke the rules of Ground Force, and now the students were being unruly under his supervision.

What was even more infuriating was that he was sleeping during class.

The trainee instructor was becoming more unruly.

With this thought in mind, Drake walked into the classroom.

When the students saw Drake, who was known to be stern and intimidating, walked in, they immediately silenced and lined up obediently.

"Instructor, I just witnessed your skills during the previous encounter. I'm itching for a fight. How about sparing a few rounds with me?"

On the opposite side, Matthew could tell from Drake's expression that this was not a friendly invitation to practice, but rather a match to teach him a lesson.

At this moment, Matthew was puzzled. Did I do something to offend him?

However, he had no time to think as Drake didn't wait for his response.

"You kids, step back a bit. It wouldn't be good if any of you got hurt!"

As soon as all the students were at a safe distance from Matthew, Drake launched his attack coming straight at him.

Just by looking at Drake's starting stance, Matthew knew that he specialized in the Elusive Fist.

In an instant, countless shadows of fists intertwined with each other.

Within a short timeframe, both of them had already exchanged blows dozens of times.

Drake was shocked. He didn't expect the trainee instructor to have such skills.

It was already taking considerable effort to teach this young man a lesson.

Drake felt a bit embarrassed by it.

After glancing at the surrounding students, he decided not to prolong this match any longer.

Drake changed his technique to Elusive Cloud Fist where his move suddenly shifted.

Matthew raised his right fist, meeting Drake's punch head-on.

At that moment, a surge of energy erupted.

The invisible force pushed the onlookers several meters away.

As for the two of them, they both retreated after the exchange.

Before Matthew could fully stabilize himself, he intentionally took a few steps back before stopping and clasp his fists.

"Thank you for going easy on me, Drake."

Drake saw through Matthew's little trick with just one glance.

"Hmph, you young ones never learn their lesson. Be mindful of your position. If I catch you sleeping during class again, you'll have to bear the consequences."

After saying that, Drake turned around and left with his hands behind his back.

There was a hint of satisfaction on his face but no one noticed it.

Once Drake left, Matthew couldn't help but let out a sigh of relief.

He didn't expect the deputy dean of Ground Force to be so difficult to deal with.

Moreover, judging from Drake's actions, it seemed that he held a strong opinion of Matthew.

Shaking his slightly numb arm, Matthew looked at the group of shocked trainees.

"Alright, stop daydreaming. Make good use of your time and work hard in your training. You can also be just as strong in the future."
