

## Chapter 2349 The Searchers

As soon as he returned home, Matthew immediately began preparing various medicines.

If his assumptions were right, these searchers must be after Stanley and Tiger.

It was only a matter of time before they found them.

Before that happened, Matthew had to first treat their injuries.

The night passed without any words being exchanged.

The next morning as the sun shone into the room, Stanley slowly opened his eyes.

He looked down at the bandages wrapped around his chest and hands.

Although he didn't know who had helped him, he knew that he had been saved.

Just as he was still in confusion, the door opened.

He exclaimed in surprise upon seeing the person at the door.

"You're back, Matthew!"

Matthew nodded and smiled when he saw Stanley waking up.

His complexion seemed to have improved.

"Come on, Tiger. Feed him the medicine. Both of you will be healed after a few more days."

After Stanley took the medicine, Matthew asked, "How did you get injured so badly?"

When they heard his question, there was a shift in their expressions.

"Sorry, Mr. Larson. You shouldn't have been involved in this, but they've discovered all our bases. We have nowhere else to hide except for Lakeside Garden!"

It seemed that these people came prepared.

"Don't worry about it, Mr. Carlson. Both of you are my friends! Anyway, do you know where the perpetrators come from?"

Stanley's answer was exactly what Matthew had expected.

It was the Nolan Family, the first-ranked aristocratic family in Cathay, who started coming for Billy's power.

"Have you contacted Billy recently, Mr. Carlson?"

To answer Matthew's query, Stanley shook his head dejectedly.

For a moment, Matthew's heart felt heavy.

It seemed that the Nolan Family was preparing to take action against Billy and had also blocked the information from spreading.

It made Matthew think of the forces under Levi.

Somehow, he felt that there was a connection between the two.

"Please take good care of yourselves, you two. I will handle the issue with the Nolans. Don't worry."

After comforting them, Matthew left the room.

When he arrived downstairs, he decided to ask for help after much hesitation.

If he was alone, he was confident that he could go against the Nolan Family even when they were in Eastshire.

Now that Stanley and Tiger were involved, Matthew had to consider their safety.

By the time he had completed his tasks, it was already noon.

At this time, he received news from Eastshire Hall's Shiloh.

Although they couldn't contact Levi, Shiloh realized that something had gone wrong, especially after the Damron Family's attack yesterday.

They understood that this matter couldn't be delayed further.

If something happened to Matthew in Eastshire, it would be a responsibility he couldn't bear.

Therefore, he made the decision to contact Matthew to complete the handover procedures for the hall leader position.

Matthew was somewhat surprised when he heard the news.

He didn't expect that Shiloh, that old man, would have the courage to do so.

Of course, for him, saving time was the best outcome.

After he was given some instructions, Matthew went to the Martial League branch in Eastshire again.

The handover procedures were simple. All it took was to log Matthew's identity into the system and hand the exclusive identification card for hall leaders to him.

"Mr. Larson, if you return to Bainbridge, please tell Master Levi about the situation here. Also, if possible, please tell him that Old Master Sandel misses him and hopes to see him back soon."

Upon hearing that, Matthew looked at Shiloh in shock.

He didn't expect this harmless old man to have hidden intentions.
