

## Chapter 2740 A Day Of Potential Change

The news from the newspaper swiftly disseminated, and with some instigation, a wave of criticism rapidly arose within Seraphis.

'The so-called Holy Doctor from Cathay is undeserving of his title and is nothing more than a murderer!'

'Such a deranged individual has no right to bear the title of Holy Doctor. He should be expelled from Seraphis.'

'Are all members of the Durham Family cowards? They've lost countless disciples, yet they've taken no action.'

'The Durham Family may appear formidable on the surface, but in truth, they are mere cowards. They've allowed thousands of disciples to be slaughtered without uttering a word.'

Shielded by the anonymity of the internet, many people began to voice their opinions. They criticized Matthew and implicated the Durham Family.

In response to this situation, Matthew was the first to speak up. He openly disclosed the incident of the Keller Family pilfering underwater treasures from the Durham Family's territory. This revelation sent shockwaves through Seraphis. The fact that the Durham Family, the most powerful entity in Seraphis, had been exploited was significant news.

Upon hearing this news, Hugo, who had just recovered from his injuries and risen from his bed, was livid.

"That d\*mned scoundrel! I will certainly avenge my son!" At that moment, he resembled a ferocious beast, roaring with all his might.

In less than a month, the five sons of the Keller Family had died one after the other. The pain of losing loved ones in such quick succession dealt a severe blow to Atlas' spirit.

Misfortune seldom comes singly. Atlas was not only mourning the loss of his beloved son but also fretting over the Durham Family's knowledge of the treasure. Following Matthew's revelation, the Keller Family's dirty secrets were laid bare for all to see. Master Telk would undoubtedly not let this slide.

Upon contemplating this, Atlas crushed the teapot in his hand, his eyes brimming with bloodshot veins.

"Kenny, prepare the materials. If the Durham Family comes to hold us accountable, you will claim that all of this was carried out privately by Ruben, and the Keller Family was unaware of it."

Although Atlas' actions were morally questionable, they were a necessary evil. If the Durham Family were to strike at this time, the Keller Family would be defenseless.

Atlas' fury flared up again when he saw his son standing motionless.

"Get out! What are you still doing standing there? Do you want the Keller Family to be annihilated?"

His eyes were ablaze with unbridled rage.

"Also, rally as many people as possible. Call back all personnel currently on assignments outside. This day may be on the brink of change."

As for Kenny Keller, he left filled with trepidation. The deaths of Osiris, Knox, and Ruben were all linked to Matthew. It seemed as though this man was the Keller Family's nemesis. Now, it was his turn, and his heart was heavy with anxiety.

With the evidence provided by Matthew rapidly circulating online, the focus of the public also shifted.

"Things are about to get chaotic. If the Durham Family confronts the Keller Family, will we be affected?"

"A monthly salary of 300. That sounds enticing."

"The Keller Family is audacious, daring to snatch food from the tiger's mouth!"

Compared to the condemnation of Matthew, the news of the Keller Family pilfering the Durham Family's underwater treasure trove was evidently more captivating!

Upon noticing the shift in public sentiment, Matthew finally began to explain his presence at the scene. The reason was straightforward—he harbored a grudge against Solon, who had previously caused trouble at the medical clinic, and he wanted to confront him. However, when he arrived, the tragedy had already unfolded.

This explanation was entirely plausible. After all, the few photos only captured Matthew's back, and there was no footage of him taking action. As long as he clung to this narrative, others couldn't produce any counter-evidence.

And because neither the main branch nor the sub-branches of the Durham Family issued any clarifications at this time, the entire situation descended into chaos.
