

Chapter 3013 Change at Sacred Mount

The Red Fire Lotus only bloomed once every century, just in time to mark the transition from the old sect master to the new sect master.

For generations, the sect master would be purified by the Red Fire Lotus while guarding it, enhancing their talents, and gaining Insights.

However, this was an anomaly Lucius had never seen before.

The teasing from the Bamboo King caused Lucius' face to darken.

"Mr. Bamboo, please refrain from mocking me.

"What should we do about this?

"The Red Fire Lotus is the foundation of Sacred Mount and the source of its deep well of spiritual power.

"The premature blooming of the Red Fire Lotus is not a good sign."

Upon hearing that, the other cultivators instantly stopped smiling as solemn looks replaced their smiles.

There was surely a sign behind this.

The Red Fire Lotus had bloomed prematurely even though it only bloomed once a century. Not only would it greatly reduce the nimbus available on the Sacred Mount, but it could also destabilize the foundations of the Sacred Mount.

Just as everyone fell silent with worry, the nine-colored celestial lights suddenly withdrew and sank into Sasha's body.

As the brightly blooming Red Fire Lotus dimmed, its fire-red petals slowly curled up until the flower turned back into a lotus bulb.

Everyone watched in shock as the remaining rays of the nine-colored celestial lights condensed into an illusionary image of the Red Fire Lotus that melded into Sasha's back. Meanwhile, a simplified image of the Red Fire Lotus began to shine from where it appeared on her forehead.

Sasha's beauty was considered very above average in the first place, but the red mark on her forehead now made her seem more mysterious.

As the lights faded away, Sasha's body fell to the ground.

Wind began to pick up around Ivy as she calmly caught Sasha's body in a flash.

"Mr. Stewart, please check on her."

Perhaps Ivy was mistaken, but she felt like Sasha looked much more beautiful than before.

Stewart came to her side in a flash and placed a hand on Sasha.

"Incredible!

"I didn't expect the girl's blood to be perfectly compatible with the Red Fire Lotus.

"It's like she was born to host the Red Fire Lotus in her body!"

Everyone in the cave began whispering when they heard that.

Was there such a thing as a host for a divine treasure like that?

Something flashed in Lucius' eyes as realization struck him.

He had always wondered how Sasha could have made her way to the forbidden area when it was protected by the Ten-Sided Celestial Formation.

It was very likely due to her bloodline.

The Red Fire Lotus was sentient, and it most likely lured Sasha over after it sensed her blood.

It even made sure she could safely make her way to it.

"This is bad!"

What they feared had come true!

"The situation is bad! The nimbus of the Sacred Mount has indeed decreased by 30%!"

Lucius exclaimed with a face full of worry.

The people of Sacred Mount and the depths of their talents were closely related to the nimbus provided by the Red Fire Lotus. The Sacred Mount's foundation had been shaken by the 30% decrease.

Everyone naturally sensed it.

There was instantly tension in the air.

"Sect master, what do we do with this girl?"

When Stewart said that, everyone turned to look at Lucius.

After all, even if Sasha did not mean for this to happen, she was still involved.

Ivy's brows furrowed as she coldly looked at her father.

After a moment of silence, Lucius waved his hand.

"Let's not discuss this matter for now.

"Mr. Stewart, take her back to her room for now.

"Mr. Bamboo, Mr. River, and everyone else, please follow me to the main peak!"

Everyone nodded in agreement.

With the major changes happening at the Sacred Mount, there were many things that required changing as well.

"Feather, head down and inform Matthew of the situation right now."

As soon as that was said, someone shot out of the cave and away from the Sacred Mount at the speed of light.
