

The Mightiest Little Peasant Chapter 1718

“Alright, you guys can go in! I’ll wait for you over there!”

After Deacon li finished speaking, he walked along the passageway to the finishing point.

The three palaces were in a straight line, and the inner parts were connected by another passage. Deacon li went through the passage on the outside and went around the three palaces to reach the endpoint.

After manager li left, everyone looked at each other. Apart from Tang Hao, the others were all excited.

“Entering the medicine God mountain has always been my dream. Today, I’ve finally arrived!”

“It’s time for me to make a name for myself. I must perform well and enter the medicine God mountain with the best results. I must make my name known throughout the ancient wilderness!”

All of them clenched their fists tightly as their hearts surged with excitement.

It was no wonder that they were like this. The medicine God mountain was simply too famous and had a high status in the alchemy world. Many people had heard of the medicine God mountain when they first started learning alchemy. In their hearts, this was a Holy Land.

Now that they could finally make it here to take the test, how could they not be excited?

Tang Hao was very calm. He was not in a hurry to go in. He would be the last one to enter after the others had gone in one by one.

Stepping into the hall, he looked around and saw that the hall was extremely spacious. There were no decorations, only futon on the ground. The people who had come in before him were sitting on the futon with their eyes closed in meditation.

Tang Hao walked over and sat down.

After he closed his eyes, he felt his primordial spirit loosen up and he entered an illusionary space.

In this space, there were plants everywhere. At a glance, there were countless types of plants, probably millions of them.

These plants were blooming with a multi-colored glow as they floated there like a bright Galaxy. It was extremely dazzling.

“I’m afraid all the plants in the world are here!”

“Amazing!” Tang Hao exclaimed after a quick glance.

He did a rough count. There were more than two million types of vegetation here.

This number was almost the same as the number he had. Back at the eternal elixir Association, he had grown more than two million types of plants.

The vegetation here was definitely different from the outside world. After all, they were not in the same world. Over the years, many new vegetation must have been born. Many of the vegetation that existed in the outside world did not exist here, and vice versa.

However, the total number should be about the same.

After coming to Pangu continent, the first thing Tang Hao did was to learn about the plants here. He had already mastered some of the plants that were unique to Pangu continent, so he could basically recognize all the plants here.

“Forget it, I’d better keep a low profile!”

Tang Hao was not prepared to recognize them. That would be too shocking. The only reason he joined the medicine God mountain was to cultivate in peace.

“Dark Moon grass!”

He raised his hand and a spiritual herb flew over. As he accurately reported the name, medicinal properties, and uses, the spiritual herb dissipated.

Then, plants and trees flew over and disappeared.

Tang Hao deliberately slowed down his speed. He stopped when it reached seven hundred thousand.

“It’s almost time!”

700,000 plants and vegetation. This result was just average. It could meet the standard and would not attract attention.

When Tang Hao retreated, a ball of light suddenly appeared in the air in front of him. A token fell from the sky. He caught it and saw the big word “three” on it.

“Three points!”

Tang Hao smiled and stood up.

He didn’t care how many points he got, as long as he got the token, it was enough.

At this time, a few other people also withdrew. All of them received a token. Some were annoyed, and some were happy. Then, they all went to the next Hall.

The first hall tested on plants and vegetation, while the second hall tested on Pharmacology.

No matter where he was, the test of alchemy was almost the same. It was nothing more than Herbology, Pharmacology, and practical alchemy. Tang Hao was very familiar with these three things.

In this round, he had also deliberately held back his strength and obtained four points.

Tang Hao scored five points in the last round.

Adding up the three tests, he had 12 points.

This result could only be considered average. In this group of people, there were a few who scored higher than him.

“Wei Dalong, a total of 19 points for the three tests, not bad! Not bad!”

Deacon li took the command token from a person and said with a nod.

“Then ... Manager li, what rank can I rank with this score?”

The Alchemist called Wei Dalong said with some excitement.

Manager li frowned. “Your score isn’t bad. It’s considered above average. You can probably rank around 50000!”

“Ah? Over fifty thousand?”

The alchemist’s eyes widened in disbelief.

“Hey! Fifty thousand is not bad. You don’t know how many alchemists there are in the medicine God mountain. It’s not easy to be ranked in the fifty thousand. ” Manager Li said with a smile.

“Alright! From now on, you’re a member of the medicine God mountain. You’re now a Tier 6 expert. If your ranking rises in the future, your rank will continue to rise. ”

Then, Deacon li took out a token and handed it to The Alchemist.

On one side was the medicine God mountain’s emblem, and on the other side was a big “five.”

“Mu Yan, a total of 17 points in the three rounds. Ranked around 89000. Obtained a ninth-grade token!”

“Ouyang Fei, you got a total of ten points for the three rounds. You are ranked in the 20000s and have obtained a tenth-grade token.”

It was Tang Hao’s turn soon.

Taking the token, Deacon li looked at it and said, “Tang Dali, a total of twelve points for the three rounds. Ranking in the 10800s, you’ve obtained a tenth-grade token!”

On the medicine God mountain, alchemists were roughly divided into ten levels according to the ranking. Level 1 was the highest and level 10 was the lowest.

The first 10000 were first-grade, 10000 to 20000 were second-grade, and so on. Then, those that exceeded 100000 were all classified as tenth-grade.

Tang Hao's was now over one hundred and eight thousand, which was the lowest tenth-grade.

Tang Hao didn't care about its grade. The most important thing was that he had successfully entered the medicine God mountain.

"Alright! Since you're all from the medicine God mountain now, I'll take you around to get to know more about the place. Then, I'll take you to find a cave. "

Deacon li led a group of people deeper into the mountain range.

This mountain range belonged to the medicine God mountain. On each mountain peak, there were countless cave abodes and many alchemists. According to Deacon Li's introduction, the number of alchemists on the mountain was far from a million.

The rumor that there were a million alchemists was just a rumor, which was a little exaggerated.

However, he still had around 300000 Yuan.

Three hundred thousand alchemists was a shocking number.

"Here, ranking and level are the most important. You will live at the place where your level is. For example, fellow Daoist Wei is of the sixth rank, so he can live on the sixth peak, where the immortal Qi is more abundant."

"Level nine can only live on the ninth peak, while level ten can live on the tenth peak. The further back you live, the thinner the immortal Qi is. So, if you want better conditions, you have to work hard to improve your ranking and level."

Along the way, Deacon li explained the situation of the medicine God mountain to them in detail.
