

## The Mightiest Little Peasant Chapter 1918

“Great Qin’s atmosphere is quite good!”

Tang Hao landed in the Qin Palace and looked around. He could see how many people and Saints there were on the land of great Qin.

Compared to when he had left, great Qin had become more and more powerful. Not only had its territory expanded by a few times, but it also had many saints, making it look incredibly prosperous.

“It’s all thanks to you, brother Tang!”

The Qin Emperor said with a smile.

The two sovereigns who followed behind him both revealed emotional expressions.

Back on the sacred planet, the five Dynasties had stood side by side, and this situation had lasted for thousands of years. The five great divine dynasties had similar strength, and everyone thought that this situation would continue for another thousand years.

However, no one had expected that a monster would suddenly appear and kill Emperor Qi and Emperor Chu, breaking the situation of the sacred planet.

After that, great Qin had devoured two dynasties in a row, and its strength had continuously increased, far surpassing their two dynasties.

After the Qin Emperor advanced to the 2nd tribulation, the great Qin Dynasty became the ruler of the sacred planet. The two dynasties had to bow down to them in order to survive.

And this monster was even more monstrous now. After a trip to the upper world, he returned with a perfected five tribulations. This speed really frightened them.

Furthermore, they had never heard of anyone who could return from the upper worlds. At the very least, none of their ancestors had returned after going to the 33 heavens.

The fact that this exalted immortal Tang had returned was enough to prove how powerful his methods were!

Looking at this exalted immortal Tang, then looking at the Qin Emperor who was grinning from ear to ear, they felt particularly bitter and remorseful.

How good would it be if I could build a good relationship with this person earlier!

“Al! It’s all my fault for being wrong!”

“Who would have thought!”

They couldn’t help but sigh in their hearts.

Back then, who would have thought that this kid from the ancestral star, the Dong Lin sacred planet, would have such achievements today!

The more they thought about it, the more regretful they felt and the more bitter their hearts became.

After entering the hall, Tang Hao and the Qin Emperor sat down first before the Qian Emperor and the Qian Emperor dared to sit down. Their expressions were also a little reserved.

“Brother Tang, then the upper realm ... Is it really as the rumors say? it’s full of immortal Qi and divine medicine, and it’s a Holy Land for cultivation!” After explaining the situation of the sacred planet, the Qin Emperor asked about the upper realm.

When the two emperors heard this, they immediately perked up.

They were also extremely curious about the upper realm.

Especially after seeing the changes in this person, they looked forward to the upper realm even more.

“A cultivation Holy Land ... It’s true!” Tang Hao said.

The rumor was true. Pangu continent was indeed full of immortal energy and had countless immortal meridians. In terms of cultivation environment, it was many times better than the lower realm.

“Really?”

The Qin Emperor and the others immediately revealed fascinated expressions.

“But ...” Tang Hao’s tone changed. “Even though it’s a Holy Land for cultivation, it’s still extremely dangerous. There are countless Saints and powerhouses there. If you’re not careful, you’ll die and your Dao will disappear.”

Then, Tang Hao briefly introduced the situation on Pangu continent.

“Thousands of ancient race beings!”

“Above the ancient clan, there are still the real 33 heavens! What a huge world this is!”

The Three Sovereigns were shocked.

They had never known that the upper realm was so huge.

“Brother Tang, have you come into contact with the Qin clan? I wonder how the geniuses of our clan who were sent up there are doing now, and how are the seniors who went to the upper realm?” The Qin Emperor asked again.

“This ...”

Tang Hao hesitated.

He had naturally come into contact with the Qin clan before. Not only did he beat up their Saint son, he even snatched their saintess. The enmity between them could be considered huge.

He wasn't sure about the geniuses of the lower realm's Qin clan that were sent up there. However, he was sure that they were doing well. As for the ancestors of the great Qin divine dynasty, they had most likely been killed by sovereign Gu tuo.

As soon as he said this, the Qin Emperor was stunned. After a long while, he sighed and said, "Forget it! This is all fate!"

"It seems that our dynasty's ancestor has also fallen!"

Emperor Qian and the others sighed.

"The upper realm is really full of danger. It seems that I can't go up until the second tribulation!" Then, they smiled bitterly and temporarily gave up on the idea of going to the upper realm.

"Brother Qin, you don't have to go up for the time being!"

Tang Hao said to the Qin Emperor.

In the upper realm, he had enemies everywhere and thousands of clans. He also had the even more terrifying great void heaven. He only managed to barely hold it down because of The Blood king's name, and his situation was rather dangerous.

That was why he didn't go to see assistant han and the others. He didn't want to expose their relationship and implicate them.

In such a situation, he didn't want the Qin Emperor and the others to go up and be implicated by him.

"Alright!"

The Qin Emperor thought for a while and nodded.

"These pills and celestial jades are all prepared for you!"

After chatting for a while, Tang Hao waved his hand and took out a ring. He gave it to the Qin Emperor, which contained a lot of nourishing pills and a large number of immortal jades. With these resources, the Qin Emperor would have no problem breaking through to the third tribulation.

The Qin Emperor took it and opened it. He was immediately speechless.

Emperor Qian and the other Emperor were looking on with envy.

"You guys have it too!"

Tang Hao smiled and took out two rings.

He didn't prepare anything for the two of them in advance, but now that he had seen them, he couldn't refuse. Moreover, it was just some pills and celestial jades. It was quite worth it to win over the two great God dynasties.

"We have one too?"

The Emperor Qian duo was stunned at first, and they were in slight disbelief.

Then, he was overjoyed.

"Many thanks, exalted immortal!"

They quickly rose to their feet and respectfully took the Rings from Tang Hao's hands.

"Alright! I should go back to Donglin!"

Tang Hao stood up and bade farewell to the three of them. He turned into a stream of light and shot into the sky.

"Look! He's gone!"

All around the sacred planet, countless cultivators looked at the dazzling light and exclaimed.

"We offer our respects to the immortals!"

Countless xiuzhe bowed in the direction of the flowing light and called out respectfully.

They waited until the stream of light was far away and disappeared at the end of the starry sky before they stood up, their faces revealing an expression of surprise.

This was the number one person in the starry sky back then!

After a few years, he had returned from the upper realm, and his cultivation base had already reached a level that they could not see through!

"As expected of the number one freak of nature back then!"

They all praised.

Soon, the sacred planet was in an uproar.

The news of the return of the once number one person in the starry sky spread everywhere and caused a huge sensation.

Everyone was heatedly discussing this exalted immortal Tang.

The news quickly spread to every corner of the starry sky.

The People's memories were once again awakened. The invincible venerable Tang, who once dominated the starry sky, once again became the focus of the world. His once impressive battle achievements were also dug up by everyone and talked about with great relish.

By then, Tang Hao had crossed the vast Galaxy and entered the Dong Lin Galaxy.

This time, he concealed his aura and landed on planet Dong Ling like a mortal.
