

The Mightiest Little Peasant Chapter 1958

“That’s right! This is a ten-thousand-year-old ice sea godly metal!”

The White Tiger heavenly Saint held the box in his hand and bragged in all directions.

In the box, there was a large piece of ice-blue metal. It was covered in a hazy spiritual light and exuded a cold air.

“Good treasure!”

Tang Hao complimented her in his heart.

He was not unfamiliar with the ice sea divine metal. It was also called the ice sea dark metal. It was a rare spiritual material in itself. Moreover, the older it was, the rarer it was.

Ten-thousand-year-old ice sea divine metal was extremely rare.

He had once obtained a piece, which was found in the ancient ruins of Kunwu during the time of Qiyuan. Kunwu was a prominent orthodoxy in ancient times, and even the incense burner was forged from ice sea divine iron.

He had also obtained many rare metals.

However, these things had all been refined by him and refined into the immortal mansion.

When he had first refined the immortal estate, he had thrown in all the treasures he had collected over the years, including a large amount of rare gold and iron, as well as many that could be called divine materials.

However, these divine materials weren’t big. Most of them were just small pieces, which were nothing to the entire immortal mansion. They were far less than the divine materials he got from refining the nine-Dragon divine coffin.

There was also the mountain-sized piece of creation true gold.

Therefore, even though he had refined many kinds of divine materials, strictly speaking, his immortal mansion could only be considered to have refined two kinds of divine materials.

The piece of ice sea divine metal in front of him was also a little small and wasn’t suitable to be refined into an immortal estate. However, it was a rare material for refining weapons.

“What a big piece! Fellow Daoist Yi, where did you get this?”

At this moment, the gazes of all the cultivators in the surroundings were attracted by that piece of godly metal.

They pointed and discussed, their eyes burning with greed.

The White Tiger heavenly Saint laughed out loud and said in a boastful tone, "I didn't pick up this piece of godly metal. I dug it out with my own strength. The process was quite dangerous, and I had a 90% chance of dying!"

"Dug up?"

"Really?"

Everyone was shocked.

If he had dug it up, didn't that mean that there was a ten thousand year old ice sea divine iron ore there?

Such a piece of ice sea divine metal was already priceless. If it was an entire ore vein, the value would be unimaginable!

"Hey! Don't even think about it. That place is very dangerous and famous for being a forbidden land. Even a seven tribulations old monster would face the risk of dying there. I was lucky and almost died in there."

The White Tiger heavenly Saint said with a look of lingering fear.

Seeing that he didn't say anything, the others didn't continue asking.

A place with an ice sea divine iron mine was definitely an extremely dangerous place and could not be entered casually.

Besides, no one would reveal such a secret.

"Interesting!"

Tang Hao mumbled to himself. He sized up the man again.

He was rather interested in this ice sea divine iron mine.

"Hey! I've already taken out my treasure, so it's your turn now. I'd like to see what you can take out to compete with this piece of godly metal."

The White Tiger heavenly Saint said smugly as he looked at Tang Hao.

However, he was extremely confident. Such a large piece of ten thousand year old icy sea god metal was far more precious than a sixth tribulation weapon. Even if this fellow could take out another sixth tribulation weapon, it would not be able to compare to him.

Unless this guy could take out several sixth tribulation weapons, then he would not be able to beat him.

And could this guy have many sixth tribulation weapons?

This was clearly impossible!

Tang Hao scratched his head, looking troubled.

However, he was worried about what he should take out. He had too many treasures on him. Not to mention tribulation weapons, he had two Supreme weapons, a large number of Emperor weapons, and even more 8th tribulation and 7th tribulation weapons.

In terms of mystical materials, he also had a lot. When he was refining the immortal mansion, he had used up all his years of accumulation. But during this period, he had saved up a lot more. He had killed so many sixth tribulation Warriors some time ago and they had a lot of rare mystical materials on them.

As for the other elixirs and spirit herbs, there was no need to mention them. Any one of them could scare the people here.

“Hahaha! This guy can’t make it!”

“Look at him, he probably can’t take out any decent treasures!”

Seeing his expression, all the cultivators around him burst into laughter.

The White Tiger heavenly Saint laughed disdainfully. “You dare to compete in treasure with the people of the 33 heavens? aren’t you a joke? These two treasures of yours are quite good, so I’ll grudgingly accept them.”

As he spoke, he took a step forward and reached out to grab the two treasures.

“A bottle, an alms bowl, two 6th tribulation items, this guy has made a big profit!”

All the cultivators in the four directions looked envious.

Two 6th tribulation weapons could be exchanged for a large sum of Pangu coins.

“Hold on!”

However, at this moment, a loud shout was heard.

“Eh? What, you want to go back on your word?”

The White Tiger heavenly Saint stopped in his tracks and looked up coldly at his opponent.

The eyes of the cultivators around them also became somewhat unfriendly.

“Good fellow! You still want to act shamelessly!”

“Do you believe that we won’t let you leave Emperor Pan City?”

Many people shouted fiercely.

“Who wants to go back on their word!” Tang Hao smiled. “I just remembered that I have a treasure with me!”

The crowd was stunned for a moment, then they laughed.

They did not believe that this fellow could take out any other treasure that could compare to this ten thousand year old ice sea divine metal.

“Hey!” Tang Hao laughed. I don’t know what happened today, but it’s such a coincidence that my treasure is also a mystical material!”

“What? Is it also a mystical material?”

The White Tiger heavenly Saint was stunned.

The two coincidences just now were already very strange. How could there be a third time?

Wasn’t this too freakish?!

“I don’t believe it! You must be lying to me!” He shouted.

Everyone’s faces were also filled with disbelief. A spiritual material on the level of the ten thousand year frozen sea divine metal was quite rare. Very few people could have a piece. How could this guy just happen to have one?

“You don’t believe me? Then take a look, what is this!”

Tang Hao flicked his sleeve, and a small box flew out.

As soon as the lid was opened, a bright purple divine light rushed into the sky.

“This is ... Purple gold? It’s also ten thousand years old?”

Everyone looked at it and was stunned.

In the box lay a large piece of purple metal. It was so bright that it dazzled people’s eyes.

They recognized it almost at a glance. It was purple gold, the kind that was common in the market. However, judging from the patterns and color of the purple gold, it was not an ordinary piece of purple gold, but a rare purple gold that had reached ten thousand years old.

Although purple gold was a common spiritual material, it was more common than the ice sea divine iron. However, this spiritual material was especially suitable for refining weapons. It had a wide range of applications and the demand was particularly high.

It was not like the ice sea divine metal, which could only be used to refine special types of treasures.

Moreover, ten-thousand-year-old purple gold was just as rare as ten-thousand-year-old ice sea divine metal.

Thus, ten thousand year old purple gold was a level higher in value than ten thousand year old ice sea divine metal.
