

The Mightiest Little Peasant Chapter 2095

“Who is it? Who is it?”

Young master Taixu bellowed in anger, and his expression was extremely ferocious.

His blood was gone!

It wasn't just blood. There was nothing left on the mountain. It was bare.

What made him even angrier was that looking at the marks left on the mountain, it was clearly something that had happened not long ago. It was definitely done by a cultivator and not by the Fox race.

Who was it that took his blood!

He searched the entire world but found nothing. He rushed out of the world and released his divine sense. With Qing Hu mountain as the center, he searched frantically for any clues.

But still, there was nothing!

The fellow who had stolen the treasure had already fled far away.

“Could it be ... Him?”

Young master Taixu calmed down. The first thing he thought of was the man surnamed Tang.

But then, he shook his head and rejected the idea.

That Tang fellow was not a prophet. How could he have discovered this place before him and taken all the treasures away? this was absolutely impossible!

“The biggest possibility is that when the disciples were searching for the entrance, they attracted the attention of some people. They found the entrance ahead of time, entered it, and robbed all the treasures.”

He muttered.

“I'd like to see who has the guts to snatch my treasure! Investigate, turn this wasteland upside down, and find the guy who stole the sky Fox blood!”

He called over a group of disciples and shouted angrily.

“Yes! Young master!”

The group of disciples echoed.

They were also filled with anger. The treasures here should have been theirs, but they had been stolen halfway. Who could take this lying down? they wanted to catch this bastard and cut him into pieces.

Meanwhile, in the desolate Dragon region next door, Tang Hao sat cross-legged on a barren mountain. He grinned when he saw the scene.

Naturally, he was the one who had robbed Qing Hu mountain.

As he searched for the Buddha blood, he also paid attention to the situation in the great void heaven. When young master Taixu received news of Green Fox Mountain, he also knew about it. He rushed over at the first moment, found the entrance, and ransacked it.

Once the Army of split souls arrived, not a single blade of grass was left in the mountain.

There weren't many treasures in the Azure Fox World. There were only some divine herbs and some mystical materials. The most precious treasure was naturally the three drops of Sky Fox blood.

"This is good stuff!"

Tang Hao took out the three drops of blood and studied them for a moment.

The aura of these three drops of blood was similar to his two drops of King Roc blood. After all, they were all part of the ancient ferocious ten, so their strength should be similar.

He only needed one type of demon blood to refine the blood of chaos. He could save the remaining one for sis Xiangyi and the others to use for blood coagulation.

"Let's go!"

Tang Hao collected the blood, then left to continue searching for the Buddha blood.

On the other side, the people of the great void heaven were frantically searching for the person who stole the celestial Fox blood. They had even put out a bounty, causing a huge commotion.

After ten days, there was news of Supreme blood in the great void heaven.

This time, Tang Hao used the same trick. He rushed over as soon as he heard the news, stole the treasure, and left.

This time, he obtained two drops of lion's blood. It was the blood of an ancient three-headed Golden Lion. Although it wasn't on the level of the ten vicious, the difference wasn't too big.

"Where's my blood?"

"How did this happen?"

Young master Taixu was furious once again.

His HP was gone again!

Just like the last time, it had been stolen a few days in advance. The scene was bare, and nothing was left.

He was even more in disbelief. The technique used was exactly the same, as if it was done by the same person.

But how was that possible?

How could there be someone who knew about their great void heaven's actions in advance?

Could it really be him?

The more he thought about it, the more he felt that this was the doing of that fellow. After all, other than that fellow, there was no one else who had the guts to go against his great void heaven.

"It seems like there really is a traitor! I just don't know who the traitor is!"

The elders discussed this for a long time and all believed that there was a traitor who had leaked the news, which led to their successive failures.

"It should be that brat. He's quite capable. Next time, we'll personally move out to find Supreme blood. Let's see if he still dares to come!"

Elder Xu Heng said angrily.

He hated this brat surnamed Tang to the bone. Not only did this brat kill his great void heaven true inheritance, he even ruined their plans and snatched their treasures. He truly deserved to die!

After learning that the elders had set out to personally search for the Supreme blood, Tang Hao did not go again. With his current strength, he was far from being a match for these seven tribulation powerhouses.

He had disrupted three operations of the great void heaven and snatched three types of blood, and that was enough.

He continued to wander in search of the Buddha blood.

In the blink of an eye, another month had passed.

That day, Tang Hao was looking for traces of the Buddha's blood as usual when he suddenly heard a piece of news.

"Have you heard? in the East continent, there is a light of Buddha. It seems that some Buddha treasure has appeared!"

“Who said it’s a Buddha treasure? I heard that an ancient Buddhist relic has appeared. Many people are rushing there now.”

Tang Hao’s heart skipped a beat when he heard the news.

Ancient Buddhist ruins?

“This is strange!”

Tang Hao mumbled.

The current Buddhist ruins were extremely rare.

“Since it’s a Buddhist relic, I have to go there. Maybe there’s Buddha blood inside!”

Tang Hao asked around for a while more before he headed to the eastern barren territory.

When he arrived in the East continent, he got more information.

“The Buddha’s light appeared in the lake. The lake is the biggest Lake in the East continent. It is as vast as the ocean!”

“It’s indeed a relic. However, this relic has existed for a long time. The Buddhist light this time is from a Pagoda in this relic!”

“A tower?”

Tang Hao was surprised.

He felt a little suspicious. Since these ruins had already existed and had been discovered by someone, how could there still be treasures left? What was going on with this Pagoda that was emitting Buddhist light?

“That’s right! It was a tower! This Pagoda seems to have existed in the past, but no one has discovered its special features. This time, for some reason, it suddenly emitted a Buddhist light and such a shocking phenomenon appeared. ”

“It is said that there is a small world hidden in this tower. Many people have already entered, but there is no news yet. I don’t know what is going on inside.”

Tang Hao fell into deep thought after he heard the news.

The situation sounded a little strange, and he wasn’t sure if it was a trap.

After considering for a long time, he still left.

No matter what, he had to go in and take a look.

On the way to the spirit Lake, there were lights everywhere, and it was very lively. Many cultivators plunged into the lake, heading towards the Buddhist relics at the bottom of the lake.

Tang Hao followed him in and arrived at the ruins.

This was a temple that was at the bottom of the lake. In the center of the temple stood a Pagoda that was currently blooming with an astonishing Buddhist light, illuminating the entire world under the lake.

One after another, the xiuzhe rushed towards the pagoda and entered the pagoda door.

Tang Hao walked around the ruins and arrived at the tower. He hesitated for a moment, but still stepped inside.
