

The Mightiest Little Peasant Chapter 2118

BOOM!

Another bolt of tribulation lightning fell and exploded with a punch.

The elders of the great void heaven in the distance were already numb.

They didn't even bother to count how many lightning strikes this was. To them, it didn't matter at all, because no matter how many lightning strikes it was, it was all the same in front of that guy. It could only be blown up with a single punch.

There were still some xiuzhe watching from afar. Some were originally within the range of the lightning tribulation and had escaped after being alarmed. There were also some who had heard the commotion of the lightning tribulation and rushed over from the four Seas.

They watched this scene from afar with their mouths wide open, revealing extremely shocked expressions.

They all felt like they were dreaming.

Was this still the lightning tribulation, or the terrifying seventh tribulation?

"That guy ... Who is he?"

They looked at the figure who was going through the Tribulation from afar, and their hearts were filled with intense curiosity.

The lightning continued to fall, and in the blink of an eye, there were more than forty bolts.

Tang Hao could no longer destroy it so easily. He summoned his armor and divine halberd to continue blocking the lightning.

The later the lightning tribulation was, the more powerful it was, and the longer the interval was. Each lightning had to be prepared for a while before it fell.

When the last bolt of lightning, which was the 81st bolt of lightning, struck, the lightning tribulation had already lasted for half a day.

Tang Hao attacked with all his strength and easily took the last lightning bolt.

Then, the lightning in the sky dispersed, and a huge pillar of light fell from the clouds, shining on Tang Hao.

This was the purest immortal Qi. It poured into Tang Hao's body continuously, strengthening his physical body and primordial spirit.

He was bathed in the light pillar, and the aura around him rose sharply.

At the same time, a portion of the immortal Qi was absorbed by his blood of chaos. The blood of chaos continued to expand, and another drop of blood was separated.

In an instant, the immortal radiance on his body surged, and his aura rose sharply.

“Five drops of blood!”

Tang Hao was overjoyed.

He had just entered the seventh tribulation realm and already had five drops of immortal blood. This was something that ordinary cultivators didn't even dare to think about.

The transformation continued for half a day before the light pillar dissipated.

The world returned to normal.

Tang Hao stood there, clenching his fists. He activated his primordial spirit, then laughed heartily.

After advancing to the seventh tribulation, his physical body, primordial spirit, and immortal mansion had all been greatly improved. They were several times stronger than when he had advanced to the sixth tribulation. The blood of chaos in his body seemed to have undergone some changes after the baptism, and his momentum was stronger.

“Finally ... The seventh tribulation!”

Tang Hao's heart was filled with excitement.

When he first arrived at Pangu, he was only at the second tribulation realm. All along the way, he had been through a lot. He had enemies everywhere and was hunted down everywhere. He was once in danger of dying, but he had made it through and finally advanced to the seventh tribulation.

The seventh tribulation was a magnate!

On Pangu continent, no one dared to look down on any seven tribulations divine Lord.

At this moment, he was standing at the peak of Pangu's cultivation world, on the same level as the Masters of the ancient clans and sects.

In the past, the seven tribulations cultivators that he had to look up to and respect were now nothing more than ordinary people in his eyes. This was because he had also reached this height, and they were all people of the same level.

Although the 6th tribulation and the 7th tribulation seemed to be only a step away, the difference in status between the two was like the difference between heaven and earth.

After crossing this step, one would become a magnate, an existence that everyone had to look up to. This kind of change was earth-shaking.

Tang Hao was truly at ease now.

At this point, he finally had the strength to settle down on Pangu continent. He was strong enough to protect himself and the people around him.

“Hu!”

A moment later, he composed himself and heaved a long sigh of relief.

Following that, he looked around and saw the group from the great void heaven.

“Everyone from great void heaven, do you still want to make a move?”

Tang Hao said indifferently.

His tone was filled with confidence.

If they wanted to fight, he did not mind accompanying them. It was a good opportunity to test how much his strength had improved after advancing to the seventh tribulation.

As the elders of the great void heaven heard this, their expressions changed.

“This brat is so insolent!”

An elder said angrily.

Xu Heng’s face was also filled with anger. This brat’s words were truly somewhat insolent!

“Hmph! Kid, you’ve just advanced to the seventh tribulation, and you dare to look down on us seniors?” He shouted angrily, “today, I’ll teach you a lesson and let you know that there’s always someone better than you!”

As he spoke, his body trembled and his aura burst forth. He was about to attack.

This kid had advanced to the seventh tribulation and his strength was no longer the same as before. Moreover, with ye Xi in his hands, it was very difficult to kill him. Even if so many elders attacked him together, they might not be able to kill him. However, with his strength, it was more than enough to defeat this kid and teach him a lesson.

He, Xu Heng, was a 7th tribulation expert of the older generation after all. He had already advanced to the 7th tribulation for 500 to 600 years. His magical powers and abilities would definitely crush this junior.

“Good! I’d like to see what you’re capable of!”

Tang Hao shouted fearlessly.

“Hmph!” Xu Heng snorted angrily again, and the celestial core power in his body shook as he was about to attack.

However, at this moment, a loud shout suddenly came from the void not far away.

“Elder Xu Heng, there’s no need for you to do anything this time. Leave this brat to me!”

Xu Heng was stunned. He looked over and saw a ripple in the void. A figure stepped out. It was a middle-aged man in Black. He had a thin face and a cold expression.

As he stood there, his body exuded a shocking cold Qi that seemed to freeze the void in all directions.

“This kid’s life belongs to the night race!”

He looked at Tang Hao, his narrow eyes bursting with a terrifying killing intent.

His frosty face also revealed a bit of ferocity.

This brat had killed the Holy Son of the night race and seized their Supreme treasure. This was an irreconcilable hatred!

“The night Lord?”

The elders of the great void heaven were stunned and somewhat surprised. They did not know why the night Lord would appear here.

However, after thinking for a while, they understood that the night clan had not given up on looking for this kid. They had eyes and ears everywhere in the four Seas and eight desolates. The Thunder tribulation just now was extremely loud and could not escape the eyes and ears of the night clan.

If he were to go through the seventh tribulation at this time, it would definitely attract the attention of the night race. It would not be strange for the night Lord to come and investigate personally.

If the night Lord had not come personally, he might not have been able to make it. After all, this place was close to the ruins of the North Sea and too far away from the eight desolates.

“Since the night Lord is here, I’ll let you take this kid’s life!”

Xu Heng hesitated for a moment, but he still restrained his aura and let the person out.

The night patriarch had a blood feud with this kid. No matter if he backed down or not, the night patriarch would still attack. He might as well back down and avoid conflict, and at the same time, gain a favor from the night patriarch.

“Many thanks!”

The night patriarch cupped his hands and expressed his thanks.

Then, he turned around and glared at Tang Hao with a menacing gaze, his killing intent soaring.
