

The Mightiest Little Peasant Chapter 2249

"I heard that ... The goddess of the Fusang celestial race is an absolute beauty! She's born with an enchanting charm, and everyone says that she's a peerless stunner!"

On the boat, Master Li looked at Tang Hao with a faint smile.

There was a hint of ridicule in his tone.

Tang Hao smiled wryly and told her about Tamamo's background.

"So it's your old flame!"

Young master Li replied with an 'Oh', and his face was full of ridicule.

"Let's not talk about this. Let's talk about business. What is the place you mentioned?" Tang Hao smiled wryly. He could not hold on any longer.

"Good! Then let's get down to business!"

Young master Li pursed his lips and smiled, saying, "the place we are going to this time is an ancient ruin. It was discovered by our ancestors in Vermillion Bird heaven. It is very dangerous, and only those with a cultivation of the seventh tribulation can enter."

"There are many opportunities inside, but they have yet to be fully explored. Once the Saints of the Vermillion Bird heaven break through to the seventh calamity, they will enter these ruins to explore. This is also a tradition."

"I've just advanced to the 7th tribulation, so it's time for me to go there and try my luck. Maybe I can find some divine pills and immortal medicines, and my cultivation level will catch up with yours, brother Tang."

Realization dawned on Tang Hao when he heard that.

There were countless ancient ruins in this vast void, and most of them were very dangerous. Sixth tribulation saints didn't dare to step into them.

Most of the ruins had been thoroughly explored and looted clean. Since this ruin had not been completely explored, it meant that this place was extremely hidden and only the people of Suzaku heaven knew about it.

This was normal, as there were many such places in the void.

The ancient dragon tribe's tomb was one such example. It was hidden extremely well. If the old flood Dragon had not revealed the location of the tomb, no one would have discovered it.

"I'm not too sure about the origin of this place. My ancestors have investigated it, but they still can't figure out which ancient orthodoxy it is. However, this orthodoxy should be related to fire and is quite similar to my Vermillion Bird heaven."

Li gongzi said again.

Tang Hao nodded. He wasn't very interested in the origin of this place, as long as there were treasures inside.

"I don't know much either. When we get there, we'll investigate carefully and we'll know everything." Li gongzi said.

Then, she looked at Tang Hao from head to toe and smiled."I heard that you were able to pick up a Kunwu token. Your luck is not ordinary. Perhaps you will be able to obtain some treasures this time."

"Then I'll have to borrow brother Li's auspicious words!"

Tang Hao smiled.

Young master Li smiled and chatted with Tang Hao for a while. Then, he suddenly became serious and said,"Brother Tang, you've already reached the realm of 500 immortal blood. I think you're not far from the true realm of 1000 immortal blood."

"Yup!" Tang Hao said.

"Then have you ever thought about how to continue to improve and advance to a higher level after reaching the realm of thousand blood?" Li gongzi said.

"This ... I did think about it."

Tang Hao said hesitantly.

He had naturally considered this question before, and it had been bothering him for a long time.

In the seventh tribulation realm, it was not easy to increase one drop of immortal blood. He had devoured hundreds of seventh tribulation primeval beasts to reach the realm of 500 drops of immortal blood.

If he wanted to reach the thousand Blood Realm, he just needed to devour some ancient beasts. There were still quite a few 7th tribulation ancient beasts in the ancient race.

However, what about after that? could it be that he could devour the entire tribe?

Although the untainted tribe was powerful, the seven tribulations were not cabbages that could be grown casually. One more tribulation was one less tribulation. There would be a day when they were all devoured.

He had calculated that even if he devoured all the seven tribulations of the untainted tribe, he would not be able to advance to the realm of ten thousand blood.

As for the celestial medicine?

That wouldn't work either. Even a stalk of divine medicine couldn't defy the heavens and allow him to reach the realm of ten thousand blood in one step.

"In ancient times, there was an abundance of celestial Qi, various natural treasures, and even celestial medicine. So, it was not too difficult for a seven-tribulation cultivator to reach ten thousand blood at that time. However, the cultivation environment today is not as good as in ancient times. How can the cultivators of today reach ten thousand blood?"

Tang Hao was confused.

"That's right! It's impossible to break through to ten thousand blood using normal cultivation methods, so we have to find another way." Li gongzi laughed.

"Oh? Is there any way?"

Tang Hao asked curiously.

"I've heard the seniors of my Vermillion Bird heaven mention it before. They mentioned a secret technique called the secret technique of planet transformation!"

Li gongzi said.

"Hua Xing?"

Tang Hao furrowed his brows in confusion.

Hua Xing? What did this mean?

"I've asked, and they said that it's an extremely ancient and mysterious secret art. It can turn one's body into a star and attract the immortal Qi in the vast void to attack the ten thousand blood."

"There's such a secret technique?"

Tang Hao was surprised.

This was the first time he had heard of such a secret technique. Turning one's body into a star? This method could be said to be quite bold and quite magical.

"Then this secret skill ..."

Tang Hao asked.

Li gongzi shook his head and said, "I've only heard them talk about this secret technique. I don't know how it actually turns into a star. Those elders don't know either. The only one who knows is the Dao master of my Vermillion Bird heaven."

"However, I know that the threshold for this secret skill is the thousand Blood Realm. Only when one has reached the thousand Blood Realm can he use this secret skill!"
