

The Mightiest Little Peasant Chapter 2351

“Al!”

The old monster of the South Pole sighed again. He was extremely depressed.

He felt that he was really old and useless. Thousands of years of cultivation was not even as good as a 100-year-old kid!

“You don’t have to be so worried. When the Daoist master comes out ...”

The old monster from the cursed sky consoled.

“Daoist master? Could he still count on it now? The Dao Masters of our three great orthodoxies are nowhere to be seen. What’s the use even if one of them came? Didn’t you see how the devil Dao ancient Emperor coughed up blood from the blast?”

The old monster of the South Pole smiled bitterly.

One Dao master was useless. Two Dao Masters were needed. By the time two Dao Masters appeared, it would be a long time.

The curmudgeon from the divine curse realm smiled and stopped talking.

“Don’t be like this. Xingchen is right there. Let’s think of a way. We’ll definitely be able to come up with something!” An old monster of the great void heaven advised.

“That’s right! Can’t be rushed!” That senior brother of his also nodded and said.

He muttered to himself for a moment. Suddenly, as if he had thought of something, he exclaimed in a low voice, “Oh right, how could I have almost forgotten!” As he said that, he revealed a happy expression.

“Eh? What?”

The other three all looked at him.

“An exchange! Have you all forgotten?” The senior brother said.

“An exchange? Oh! That’s right! It’s just about to reach the 500th year, and it’s about to open again!” The old monster from the cursed sky thought for a while and said in realization.

Then, he also revealed a happy expression.

This social gathering was a gathering between Hua Xing old monsters. It was held once every 500 years. Every time that happened, the Hua Xing old monsters that were scattered all over the void would wake up from their deep sleep. Some of them would leave in person, while others would send their avatars to participate in the social gathering.

Every time, there would be a lot of people participating.

They could use this exchange to find more helpers to deal with that kid.

“I still have a lot of people on the cursed planet. I couldn’t contact them before, but I’m sure many of them have come out of seclusion this time. I can contact them and deal with that kid together!”

“That’s right! My great void heaven also has quite a few!” The old monster of the great void heaven nodded and said, “furthermore, more importantly, there are many experts in the array Dao world among these old monsters. If we can invite one or two of them, we will definitely be able to break this array and take back the star.”

“Yeah! Why didn’t I think of that!”

The South Pole old monster slapped his head and said in surprise, “haha! As expected, there is always a way out!”

“Come to think of it, it’ll be in two months ... We’ve been tormented by that kid. Otherwise, why didn’t we think of such an important thing earlier?” The old monster of the divine curse realm said.

“This exchange is a good opportunity. We have to prepare well. Let’s go back first!”

The four of them discussed for a while and then returned to the residence.

“An exchange? What kind of exchange was it? Don’t tell me it’s an exchange meeting between Hua Xing old monsters?”

In the cave abode on creation peak, Tang Hao retracted his gaze.

He pondered with a strange expression on his face. Didn’t they say that these old monsters wouldn’t move for thousands of years once they turned into stars? Why was there an exchange meeting?

What was this exchange meeting about?

Tang Hao was very confused.

“I have to find someone to ask clearly!”

He pondered for a moment, then left the cave abode and headed straight for Vermillion Bird heaven.

He met elder lie in the main hall of the Vermillion Bird sky.

“A planet transformation exchange? How did you know?” Elder lie was very surprised.

This exchange meeting should only be known by the old monsters of the planet transformation realm. Moreover, most of them were from the 33 heavens. This person had never transformed into the planet, nor was he from the 33 heavens. How did he know?

"I heard about it from someone. I'm a little curious, so I came over to ask!" Tang Hao said.

Elder lie's expression was a little strange. He heard someone mention it? Those were planet realm old monsters. Weren't the four planet realm old monsters of Pangu the same?

"Since you want to know, I'll tell you. It's not a secret that can't be told anyway." He muttered.

"There is indeed such an exchange between the old monsters of planet Hua. This is a tradition. I don't know when it started, but it's impossible to find out. The rule is that it happens once every five hundred years."

"Most of the thousand-Blood Warriors will know about this before they turn into planets. If it's US from the 33 heavens, we will tell them early. If it's outside, we will also find a suitable opportunity to tell them."

He glanced at Tang Hao with a strange expression on his face.

"This kid is a freak, so he can't be counted. This kid doesn't need to transform into a star at all, so is there a need to inform him?"

"I see!" "I heard that in two months it'll be the five hundred year period?"

"Right!" Elder lie said.

"Then ... What's the purpose of this exchange? How many people are there?" Tang Hao asked again.

"It's just an exchange. They talk about the Dao and trade some treasures. I heard that there are quite a lot of people. I don't know how many there are, but most of them are from the 33 heavens. The other races and rogue cultivators are rare. After all, there are too few of them who can turn into planets."

"Actually, many old monsters would cultivate all kinds of mantras during their star transformation. They would not be idle and would need to communicate with each other. Also, their stars would sometimes give birth to some treasures that could be used for exchange."

Elder lie introduced.

"Oh?" Tang Hao was surprised."There are treasures on the stars?"

"Of course! Those were stars! It's very mysterious, and if you're lucky, you can even give birth to some very powerful treasures. I once heard that a senior's star gave birth to a high-grade immortal Meridian, and an immortal spirit was born in it, turning into a Holy Spirit of heaven and earth. Later, that senior caught it and refined it into an extremely powerful avatar."

"Also, some rare metal ores can also be born on these stars. It all depends on luck!"

Elder lie said.

Tang Hao's heart skipped a beat when he heard that. If a star could produce treasures, could his own star also have treasures?

"I didn't know at that time, and I didn't go to investigate. If there's a chance, I'll go and search carefully. Maybe I can find some treasure!" He muttered to himself.

"Where is this exchange going to be held? Do you have any conditions?"

Tang Hao asked again.

"There are no conditions. You can participate. As for the location, it's the same every time. It's on a planet called the Longyuan planet. The location of this planet is fixed. All Hua Xing old monsters know about it."

"The Dragon origin star?" Tang Hao was surprised.

"Longyuan planet is the planet of a senior from tai Qing Tian. He has been a star for a long time and is very qualified. He has eight to nine thousand blood a long time ago. He is not afraid of others coveting it, so he has been holding the exchange meeting there."

"Oh," Tang Hao said.

A long time ago, he had eight to nine thousand blood. He was really a super antique. No one dared to provoke such a person easily!

He asked a few more questions about the exchange meeting and finally asked for the location of the Longyuan planet. Then he left.
