

The Mightiest Little Peasant Chapter 2355

The atmosphere in the square was silent.

Daoist Yujiang's request was a little too demanding, as he had to be of the ice attribute and his bloodline must not lose to the purple lightning Thunder Lion.

"My fellow Daoists, none of you have it?"

Daoist Yujiang looked left and right, feeling a little disappointed.

"I do have an ice attribute one. However, in terms of bloodline, it's slightly inferior to the purple lightning Lion. I wonder if Daoist Yujiang is willing to trade?" A moment later, a xiuzhe raised his hand and shouted.

"What bloodline is it? tell me!" Daoist Yujiang said hurriedly.

"It's a mutated Frost Dragon Python. It has a trace of the bloodline of a skyscraping Python!" The xiuzhe said.

Daoist Yujiang was a little hesitant after hearing that.

In the snake Clan, the Dragon Python bloodline was considered not bad. It was rather ancient and ordinary cultivators might treat it as a treasure. However, in the eyes of these planet realm old monsters, it was still a little lacking.

"Alright! Change it!"

He thought about it again and again, but in the end, he gritted his teeth and decided to change.

He had no other choice, and no one else could offer a better bloodline.

"The frost Dragon Python is fine as well. After devouring its bloodline, my clone will have one more divine ability!" He said to himself.

At the level of a star transformation cultivator, they would not usually devour bloodlines. That was because there was no need for that. It was just a little supernatural power. To a star transformation cultivator, it was not very useful. Most of it was prepared for the clone.

"You two, have you decided?"

Tai Yuan Taoist stepped forward and asked the two.

Seeing the two of them nod, he stepped forward, took the treasures they handed over, and exchanged them.

"Do you have anything else you want to exchange?" Taiyuan Taoist asked Jade River Taoist.

“No more!”

Daoist Yujiang shook his head and left the stage, returning to his seat.

“That’s good! Please welcome the next one!”

Tai Yuan Taoist pointed at the next one.

This was a star transformation cultivator from Suzaku heaven called Zhu Yang.

After he went on stage, he looked around and said loudly, “I have a lot of useless treasures on me. I’ll take them all out. You can choose whichever you like!”

With that, he waved his hand, and a dozen treasures flew out and landed on the ground with a clatter.

Looking closely, most of them were tribulation artifacts, and they were all Emperor artifacts.

“These are all treasures I dug out from ancient ruins! It’s an Emperor artifact, and it’s a pretty good treasure. Take a look, do you like any of them?”

“What do you think of this sword? You don’t like it? Then change to another one. This mirror looks so good!”

He knelt down, picked up the Emperor artifacts one by one, and showed them to the xiuzhe below the stage.

“Old monster yang, are you setting up a street stall?”

The xiuzhe below joked.

The crowd burst into laughter.

The cultivators weren’t very interested and just looked around casually. To Hua Xing old monster, Emperor artifacts weren’t anything good. Most of them had a few on them so they didn’t really need them.

“Old monster yang, I think that mirror is fine. I’ll give you a top-grade elemental Holy fruit. Do you want to trade?”

A xiuzhe raised his hand and shouted.

“Elemental Holy fruit?”

Daoist Zhu Yang’s eyes lit up and he hurriedly nodded with an excited expression. “Yes yes! Of course I’ll change!”

The xiuzhe in the surroundings were all shocked.

The primordial spirit fruit was an extremely rare spiritual fruit. Its effects were very magical and could be used to treat the injuries of the primordial spirit. It would not be an exaggeration to call it a divine fruit.

In today's Pangu world, there were no more than ten original spirit fruit trees, and the bearing cycle was long, sometimes hundreds of years. Therefore, this spirit fruit was very rare.

"It's the old monster Qing Yi. He has an elemental spirit fruit tree, and it must have just borne a batch. That's why he's so generous, willing to exchange it for an Emperor weapon!"

Some xiuzhe looked at the xiuzhe that had spoken and said in a low voice.

"So it's him! I haven't seen him in the last few tournaments!" The xiuzhe in the surroundings said in surprise.

Old monster Qing Yi from the Green Dragon heaven!

He was an old senior. Among the star realm old monsters, his qualifications were second only to Taiyuan Taoist. He was also one of the oldest.

"Hey! He's an old senior, so he naturally won't come every time. He'll only come a few times occasionally, but this time, many of our fellow Daoists didn't come!" The xiuzhe said.

After a pause, he continued, "as you all know, in the 33 heavens, the Azure Dragon heavens is very good at wood-type mantras. They are the best at cultivating spiritual trees and spiritual medicines. Their yi wood Green Dragon divine fluid is a Supreme treasure for cultivating and growing plants. It can greatly shorten the growth cycle of plants."

"I've also heard of it. However, this senior can take out a top-grade elemental spirit fruit so easily. He's really amazing!"

"It would be great if I could exchange for one. In case my primordial spirit is injured in the future, I don't have to worry anymore."

The cultivators from all four sides discussed and all felt envious of old monster yang.

A random Emperor weapon could be exchanged for a top-grade elemental spirit fruit. He was really lucky!

"Elemental Holy fruit?"

In the corner, Tang Hao was also shocked.

This was a rare spirit wood that even he didn't have!

Although he had many plants that could heal the soul and some that could heal the primordial spirit, none of them were as effective as this elemental spirit fruit.

"He's from the Green Dragon heaven! No wonder!"

Tang Hao came to a sudden realization when he heard the discussion.

The Azure Dragon heaven's Dao of plants and vegetation was rather powerful, and the Yi wood Azure Dragon divine fluid was famous. It was a treasure that countless herbalists and alchemists dreamed of. Many of the alchemy forces' materials were purchased from the Azure Dragon heaven.

He looked at the Qing Yi Daoist with a burning gaze.

A top-grade elemental spirit fruit at the start. This senior is really rich, so rich that oil is about to flow out!

However, he didn't have any evil thoughts. First of all, this senior's cultivation was deep. He should be at the nine thousand blood level like him. He wouldn't be easy to deal with. Second, he had a good relationship with the Azure Dragon heavens. He had no reason to deal with the people of the Azure Dragon heavens.

"If there's a chance, I can exchange ideas with him!"

Tang Hao believed that this senior must have an extremely large spirit medicine storage, and there might be many types that he didn't have.

He also wanted to study the famous Yimu Green Dragon divine liquid.

"Daoist Qing Yi, are you sure you want to trade a top grade elemental spirit fruit for an Emperor artifact?"

Even Tai Yuan Taoist was a little surprised.

The value of these two treasures was not equal. The difference was too great.

"Taiyuan Taoist, it's okay. I've saved up a lot. I still have more than twenty! It's fine to exchange for another one. I like this mirror and want to exchange it for my disciples and Grand-disciples in the future."
"

Daoist Qing Yi smiled.

"As expected of senior Qing Yi!"

"Senior already has more than nine thousand blood. In a few hundred years, you'll have ten thousand blood and become a half-step venerable sovereign. At that time, you can complete your star transformation and return to the Azure Dragon heaven to prepare for Nirvana!"

The xiuzhe of the four sides all started to flatter.

"Since that's the case, I won't try to persuade you anymore!" Taiyuan Taoist smiled and went forward to pick up the mirror. He handed it to Qing Yi Taoist.

Then, he took a purple wooden box from Daoist Qing Yi and handed it to Daoist Zhu Yang.
