

## The Mightiest Little Peasant Chapter 2356

“Thank you, senior Qing Yi!”

On the stage, Zhu Yang took the box and opened it. He grinned from ear to ear.

He had earned big this time!

He put away the box and bowed respectfully to Qing Yi Daoist.

He only had 6000 HP, so he had to address Qing Yi Daoist as ‘senior’ out of respect.

Qing Yi Daoist put away the mirror, nodded at him, and smiled.

“There’s still a dozen or so, is there anything that fellow Daoist has taken a fancy to?”

Zhu Yang looked at the crowd and shouted again.

The response below was a little cold.

An 8th tribulation Emperor artifact is really not that attractive. The reason why senior Qing Yi acted was just to prepare a gift for me.

“Eccentric yang, I don’t think anyone wants it. How about this? I’ll offer you some pills, and you can give them all to me. I’ve recently created quite a few more clones, about a dozen. I’m just in need of some treasures!”

A moment later, a xiuzhe spoke.

“It’s Daoist Yu from the purple sky heaven!” Daoist Zhu Yang looked over and said in surprise, “why are you making clones again? you’ve made dozens of them last time!”

“Hey! Since he had nothing to do, it would be good to refine some avatars! I have quite a few pills here, take a look for yourself!”

Priest Yu of the purple sky heaven stood up and flicked his sleeve. Rays of golden light flew out and turned into Jade bottles, floating in the air.

“This is the ten Dragons ten elephant pill!”

He raised his hand, pointed to one of the bottles, and introduced, “After swallowing this pill, one’s physical potential will be instantly stimulated, and one’s strength will be multiplied by several times. Of course, battle pills of this level have some side effects, and this one is no exception.”

“However, after a thousand years of dedicated research and continuous improvement of the pill formula, the side effects of this pill have been reduced to the minimum. It is a rare high-grade battle pill.”

“I’ve heard of this pill before. It’s very effective, but the side effects are huge.”

“Didn’t Daoist Yu say that it has been improved? Then it can’t be wrong, this pill is not bad!”

All the cultivators looked over and discussed in low voices.

They didn’t doubt Daoist Yu’s words at all, because he was a great alchemy master of the purple sky heaven. Before he turned into a star, he was known as the strongest Alchemist and had the opportunity to break through to the alchemy God Realm.

However, Daoist Yu had no interest in the position of alchemy God, so he did not try to break through. After he transformed into a star, he devoted himself to the study of alchemy. Now, his alchemy skills were getting more and more profound.

Not to mention the ten Dragons ten elephants pill, this person could probably even change the pill formula of a divine level pill.

“Since it’s Daoist Yu’s pills, they can’t be bad. I just don’t know how many there are in there!” Daoist Zhu Yang said.

“Ten! I should be able to exchange it for an Emperor artifact of yours!”

Daoist Yu said.

“Alright! Change it!”

Zhu Yang nodded his head.

“Next, let’s take a look at this bottle. It’s the three souls and seven spirits pill, a type of sacred healing pill that can heal injuries to the soul. I’ve also modified it, and its effects are more than ten times that of the ordinary three souls and seven spirits pill. We, Hua Xing, might not need it, but who doesn’t have disciples and descendants? they might need it.”

Daoist Yu pointed to another bottle of pills and introduced.

“Not bad! Not bad!” Daoist Zhu Yang couldn’t help but nod.

This Daoist Yu is quite reliable, and anything he can take out is always good stuff.

“I have 20 here, how about I exchange it for one of your Emperor artifacts?”

“Alright!”

“Look at this bottle. It’s a pill I’ve just created. It’s called the immortal face pill. It’s a top-tier pill that can preserve one’s beauty and improve one’s appearance. It’s a Supreme treasure for female cultivators!”

Fellow Daoist Yu pointed to another bottle and introduced it.

“Hahaha! Daoist brother Yu, why are you making this kind of pill?”

There was a burst of laughter all around.

“Hey! Daoist Yu, what do I need this for? I don’t have a Dao companion, so it’s useless! It’s useless!” Zhu Yang laughed.

“Al! Fellow Daoist yang, how do you know that you’ll never be able to use it? you don’t have a Dao companion now, but aren’t you going to find one after you’ve reached the star transformation stage? Even if I don’t find a Dao companion, can’t I take in a female disciple?”

Daoist Yu earnestly advised.

“This ... Seems to make sense!”

Daoist Zhu Yang pondered for a moment and was really moved. Then I’ll take this pill!”

“Alright! Here are five pills, I’ll exchange them for one of your items!”

Daoist Yu grinned.

He then pointed to the Jade bottle in front of him and introduced the pills to it.

There was a wide variety of pills, and all of them were modified by him, different from the usual ones.

Tang Hao was surprised when he heard that.

“This person’s alchemy skills are almost the same as mine!” He said to himself.

From the many improved pill formulas, he could get a glimpse of this person’s alchemy Dao level.

“As expected of the purple sky!” He sighed.

The purple sky sect had always been a great sect of alchemy. It had always produced many talents and Masters, and it was firmly in the first position of Pangu’s alchemy force.

With his support, the alchemy Dao of his creation sect had developed rapidly over the years. Many geniuses and Masters had emerged, and their standards had been constantly improving. However, in terms of overall strength, they were still slightly inferior to the purple void alchemy Dao.

Only with the addition of those guest elders could they suppress this purple void pill Dao.

However, Tang Hao believed that this was only temporary. With the development momentum of the Dao of alchemy of fate, it would completely surpass the purple sky sect in a few years and become the real number one in Pangu.

“There are really crouching tigers and hidden dragons in this group of old monsters!”

Tang Hao looked around and sighed.

Daoist Qing Yi was a master of plants and vegetation, and this one was a master of alchemy. Both of them were powerful figures, and there were probably many more of them.

After a while, Daoist Yu finished introducing the pills in front of him and completed the trade with Daoist Zhu Yang.

“Good! Let’s welcome the next fellow Daoist on stage!”

Tai Yuan Taoist looked at the third Hua Xing xiuzhe.

It was a black-robed elder from the North Pole. He took out a mystical material, a fist-sized red-gold metal.

Tang Hao did not recognize it, but the old monsters around him were excited.

“It’s star core true gold!”

“What a big piece!”

They all cried out in alarm, and many of them stood up, their eyes burning.

Tang Hao was shocked when he heard that. His expression changed.

“It’s Starcore true gold!”

He gasped in shock.

Starcore true gold was extremely rare. It was a Supreme-grade divine material that was even more precious than creation true gold and void true gold!

This divine material was born from the core of a star. The probability was very small. Only one piece could be born out of thousands of stars. The material was extremely hard, a hundred times harder than aged gold.

In terms of grade, it was on the same level as the nine-colored heavenly crystal and the immortal tear gold that he found in the treasure Vault of Fortune.

Tang Hao had already used the nine-colored heavenly crystal. The control core of the divine craft of creation was made of this material.
