

The Mightiest Little Peasant Chapter 2398

“Aperture opening pill! It’s not bad!”

The group of venerable sovereigns said.

Although the aperture opening pill was not as good as the star dew, it was still an eight tribulation divine pill. One aperture opening pill could expand the immortal aperture in one’s body.

“Only three, who wants them?”

The Vermillion Bird path master took out the three Jade bottles and looked at the other venerable sovereigns.

The venerable sovereigns were hesitating. If they took the aperture opening pill now, they would not be able to get the next treasure box. Who could guarantee that there would not be another drop of star dew or something better in the next box?

“No one wants it! Then keep it first!”

The Vermillion Bird path master understood what everyone was thinking, so he did not ask any further. He tossed the Jade bottle to Tang Hao and told him to keep it.

Tang Hao took the Jade bottle and put it away.

To him, this pill wasn’t of much use.

“I remember that there’s a nine-headed Eagle over there. It’s much more powerful than this profound flood Dragon, but with our strength, we can definitely eat it.”

“There’s another one with one aperture opened over there. It’s a Scarlet Gold divine ape!”

Then, the group of venerable sovereigns started to discuss their next target.

After a round of discussion, everyone finally decided to deal with the Scarlet Gold divine ape first, then the nine-headed Eagle.

Tang Hao started the divine boat and flew toward the divine ape mountain.

Along the way, everyone was a little more cautious. They used all sorts of abhijnas to scan their surroundings in case the great void sect master and the others followed them or ambushed them.

“That’s weird! Where are they?”

After searching several times and finding nothing, they all felt a little strange.

Logically speaking, given the hatred between the great void sect master and little friend Tang, there was no reason for them to give up. This was because the black and yellow tower was indeed the best time to deal with little friend Tang.

They would definitely follow behind and observe in the dark, looking for an opportunity to make a move.

Little friend Tang invited them to board the ship so that they could act together. This was to prevent the great void sect master and the others from launching another attack.

But now, they could not even find the shadow of the great void sect master and the others. This was really strange!

“They really gave up? It can’t be!”

Thearch golden scales muttered in disbelief.

“There are indeed no traces of them, but this shouldn’t be!” The Vermillion Bird path master frowned with a perplexed expression. “Could it be that they’ve encountered some sort of opportunity? What treasure did you find?”

He guessed.

“Who knows! It’s better if they don’t come, we can easily collect the treasure, and they won’t come out halfway to snatch it from us!”

After thinking for a while, they couldn’t find any clues, so they were too lazy to pay attention to it.

When they arrived at the divine ape mountain, they did the same thing. First, they sent out a venerable sovereign to attract the firepower. Then, they gathered the eight venerable sovereigns on the ship and millions of cultivators to fire a cannon to injure the divine ape.

Then, the nine venerable sovereigns swarmed up and besieged him.

“Al! It’s too tragic!”

On the ship, Zao Huazi and the others shook their heads in sympathy.

It was an eight-tribulation Emperor-level creature with the primordial bloodline. If it was in the outside world, it could shake the earth with a stomp of its feet. But now, it was being beaten up by a group of venerable sovereigns. The situation was ... Too miserable!

Looking at the divine ape’s miserable state, they all felt a little pitiful.

“Aiya! Don’t use the sword! Look, blood is all over!”

“Use your fists and smash it hard! Don’t you 8th tribulation cultivators have the strongest bodies? why are you using tribulation weapons?”

Tang Hao, who was watching from the side, was a little anxious. He kept shouting.

In his eyes, even if it was just a drop of blood, it was still a treasure. He definitely couldn't waste it.

The group of venerable sovereigns were speechless, but they still did as they were told. They put away all kinds of tribulation weapons and directly punched The Crimson Gold divine ape to death. Then, they extracted its primordial spirit.

"I'll do it!"

When it came to the division of loot, Thearch golden scales was the first to rush forward. He was the bait this time, so he was naturally the one to open the treasure box.

"Let me see what treasure is inside!"

After receiving the treasure box, Thearch golden scales was excited. The cultivators also looked at the treasure box in his hand with anticipation.

Under everyone's watchful eyes, venerable sovereign golden scales opened the treasure box, and a red light burst out.

"A Supreme artifact?"

He looked at it and was disappointed.

For people at his level, Supreme artifacts were no longer good treasures. Which venerable sovereign didn't have a few powerful Supreme artifacts in their hands? what they lacked was a higher level treasure, a misty immortal artifact!

"It's a piece of Jade. It's used for defense. It's not bad!"

Numinous treasure Dao master laughed.

No matter what grade, good defensive treasures were always less than offensive treasures, and it was even more so among Supreme weapons. Seals, ancient swords, treasure mirrors, Spears, and other types could be found everywhere, but defensive Supreme weapons such as battle armors were quite rare.

"It's alright!"

Thearch golden scales laughed bitterly.

This piece of Jade was far inferior to the star dew.

"There's no treasure chest, let's go!"

Tang Hao activated his heaven's eye and thoroughly searched the entire mountain range. When he did not find the treasure chest, he led the group straight to the nine-headed Eagle's Nest.

The nine-headed Eagle's Nest was on a sacred mountain that was hundreds of thousands of feet high. In order to deal with this beast, everyone had spent a lot of effort. The first shot did not hit, and it was delayed for a moment. The second shot was condensed, and it hit and seriously injured it.

He removed the treasure box and opened it. It was also a Supreme artifact.

Tang Hao searched around and found a treasure chest. It was a golden treasure chest.
