

The Mightiest Little Peasant Chapter 2855

“Right! Let’s do this, seal the stars!”

The successor of the Emperor mountain shouted, “the inheritance of a true immortal must not be leaked out. What right do these lowly bloodlines have to cultivate the inheritance of a true immortal? The nine superpowers are more than enough to cultivate the true immortal’s legacy!”

“That’s right! Whoever dares to disobey will be exterminated!”

Xuanyuan Zhan placed his hands behind his back and shouted.

There was also a hint of ruthlessness on his face.

Although the forces that had exchanged for the inheritance of a genuine immortal all had nine tribulations, it was not difficult for the big forces like them to kill a ninth tribulation.

Moreover, this time, the nine of them had joined forces.

Not to mention this Azure meteor, even in the entire immortal domain, no one could stop them!

As long as the planet was sealed, this magical world would only belong to the nine magnates.

“Then let’s do this! My Jing Yan house also agrees to seal this star. However, if it’s possible to kill less evil, then it’s better!” Fairy ning nodded.

“Hmph! You’re such a hypocrite!”

The evil child sneered.

They had already started killing, so what was the difference between killing a few more and losing a few? the people of Jing Yan Zhai were still so hypocritical.

“You devil, what are you saying! Fairy ning has a compassionate heart and wants to kill less. Is this called hypocrisy?”

Many young people jumped out from all directions and cursed angrily.

“Merciful heart? Hahaha!”

The evil child laughed.

Which of those who could become big shots had a compassionate heart?

“I’m too lazy to talk nonsense with you bunch of brats, I’ll go down first!” Then, he sneered and left with the people from the sky of great joy.

“My myriad beasts sect will also take our leave first!”

The people from the other forces also said their goodbyes and flew away. Then, they went offline one after another.

In the primal Chaos void, Tang Hao stood there with an extremely cold expression.

As he expected, these nine magnates chose the latter possibility, to monopolize this world!

“These people ... Are too greedy!”

“It’s not that easy to swallow this world!”

Tang Hao mumbled. A bone-chilling light flickered in his eyes.

He snorted angrily and went offline.

Soon, in the real world, a piece of news spread, shaking the entire Azure meteor star.

The nine great leviathans joined forces to seal the Azure meteor star. Everyone had to hand over the key, and not a single one could be left. If anyone was found to have a secret key, their entire family would be exterminated.

From this moment on, it was forbidden to enter the spiritual illusionary realm. Once discovered, the entire sect would be destroyed.

The nine overlords even issued ultimatums to the Super forces who had sealed their mountains and escaped into the void, asking them to hand over the true immortal’s inheritance and swear with their Dao hearts that they would never cultivate the true immortal’s inheritance again. If they were found to violate the oath, their entire family would be exterminated.

As soon as this news came out, the entire cultivation world of Cang Liu star was in an uproar.

Everyone was extremely furious.

These nine magnates wanted to completely monopolize the spiritual void realm and cut off everyone’s path!

He even wanted to exterminate the entire clan at any moment. He was simply too rude and overbearing!

“The spirit illusion Saint created this mystical world to benefit the common people and not to allow it to be monopolized by some power. If the Saint was still alive, he would definitely not let these despicable people succeed!”

For a time, angry shouts could be heard from all directions.

However, they only shouted a few times, and did not dare to really go to the people of the nine Giants to argue.

The nine magnates were too powerful. Even if it was just one ship, it was enough to suppress the entire Cang Liu star. Moreover, if the nine magnates joined forces, it wouldn't be a problem to destroy the entire Cang Liu star.

As soon as the news spread, the large ships in the sky began to evacuate.

These were all major forces under the magnates. They did not dare to go against the nine magnates, so they left as soon as possible.

"The nine tycoons have started to move. Fog spirit sect was the first to suffer. The great emperor mountain broke through the sect and many people died. In the end, the fog spirit Saint ancestor had to hand over the key and inheritance."

"Mt. Pojun was also razed to the ground. Not many people died, but it's still quite tragic."

Very quickly, a series of news arrived from Wu Zhou.

The origin of the spiritual void realm was in Wuzhou, so everything naturally began from Wuzhou.

Hearing this news, the hearts of all the cultivators in the four directions sank.

After Wuzhou, it was Leizhou, and one continent after another passed.

"Great sun Palace, heaven slaying sect can't hold on any longer!"

"The saint's statue in their sect has also been overthrown ..."

As more news spread, despair and depression filled Cangliu.

Tang Hao sat in the Ji residence. His clone and soul were sending him messages.

"Soon!"

He looked up at the starry sky and muttered.

The incarnations he had sent out had already begun to take action. They were all preachers who would spread the key and the method of duplicating it throughout the starry sky.

At that time, the entire starry sky would be filled with the keys to the spiritual void realm. Let's see how these nine magnates would be able to resist it.

The more they banned it, the faster the news spread. No one could stop it.

Moreover, the more brutal and ruthless their methods were, the more anger they would incite, and the seeds of hatred would be planted.

At that time, the influence of his spiritual void realm would also be greater.

“Holy ancestor! Jue Chen requests an audience! There’s an emergency!”

Suddenly, there was the sound of something breaking through the air outside. A figure was rapidly flying over and arrived in front of the pavilion.

Tang Hao opened the door and walked out.

“What’s wrong?”

He said indifferently.

“Divine ancestor, the nine superpowers have joined hands to collect all the keys to the spiritual void realm. Now, forces from Leizhou and Yunzhou have gone there. I think very soon, someone will come to us. Should we hand over the key or not?”

Ji juechen said anxiously.

“Let them come. If they can take it away, then let them!”

Tang Hao said coldly as he looked up at the sky.

Ji juechen was stunned.

From the Holy ancestor’s tone, it seemed like he wasn’t going to compromise easily.

That was true!

The divine ancestor had an extremely powerful background, so how could he compromise so easily?

“Yes! Holy ancestor!”

“Yes,” he replied respectfully.

When he got up, he looked at the sky in the distance.

There, the dark clouds were heavy and the sky was dark.

A storm was coming!

He furrowed his brows and a hint of worry appeared in his eyes.

The other party was one of the nine magnates!

Even if only one of them came, it would be an unimaginable behemoth to the Ji family. With a wave of his hand, he could wipe out the entire Ji family.

However, when he turned around and saw the white-robed divine ancestor, he calmed down.

This divine ancestor's background was astonishing, and his magical powers were unparalleled. This time, he would definitely be safe.

"They're here!"

Tang Hao leaned against the railing and looked into the distant sky. Ripples suddenly appeared in the sky, and an enormous warship tore through the void and landed on the ocean.
