

## The Mightiest Little Peasant Chapter 2856

“Swish!”

The void trembled.

A huge ship landed in the sky above the cloud Sea.

It was five to six million feet long and was dark gold in color. There were countless carvings of Buddhas and fairies on the ship, but they all looked a little lewd and even a little unsightly.

This was da Ai Tian.

“Senior, the Ji family is right in front!”

On the ship, there were countless figures. Most of them were evil monks from the day of great joy, and some were from the Tian long divine dynasty.

At the bow of the ship, ao Hong was standing behind the evil child, pointing to the front and said.

He looked at the eyes in front of him, excited and proud.

With this opportunity, he could finally take care of that guy. He had to take revenge!

It would be best if that guy was in the Ji family. He would clean up the place and then destroy the Ji family. He would also abduct those beautiful women to show respect to his senior.

If she’s not here, that’s fine. As long as we can capture fairy Ji, it can be considered revenge.

“Good! I hope the fairy ji you speak of will satisfy me!”

The evil child said.

If it wasn’t for this brat from the Tian long celestial dynasty boasting about fairy Ji to the point of no end, which made his heart itch, he would not have come here and come into conflict with a fellow who could kill the old monster of the Dao gathering realm.

“Senior Bao, are you satisfied?”

Aohong laughed.

That Ji Ruyin was famous for her unparalleled beauty in Cangliu. In terms of looks, she wasn’t inferior to that fairy ning of Jing Yan Zhai.

He had noticed her a few years ago, but he had not done anything because he had been too busy.

“I hope so! Let’s go!”

“Let’s go!” The evil child shouted in a low voice, and the ship under his feet started to move forward.

At this moment, there was a commotion in the Ji family.

Countless figures rushed into the sky, looking at the huge ship in the distance with panic on their faces.

“They must be here to collect the key to the spiritual void realm!”

“Heavens! It was the day of great joy! How could it be them!”

When they saw the appearance of the ship, they were a little frightened.

Among the nine magnates, da Huan Tian was the most terrifying.

Many female cultivators turned pale and immediately fell down, not daring to show their faces.

“Why is it the day of great joy!”

Ji juechen’s body trembled and his face turned pale.

If it were other big shots, it would be easier to talk to them. As long as they handed over the key, they would be fine. However, da Xi Tian was different. They were people of the evil sect, and they loved to abduct beautiful women to cultivate and refine them into human cauldrons.

The Ji family had many beautiful female cultivators, including a famous fairy from Cangliu.

“It’s broken!”

He was a little anxious and fearful.

“Activate the great formation!”

Tang Hao said as he looked at him.

He had already seen clearly that it was the day of great joy. He was not surprised to see ao Hong on the ship.

“Yes, divine ancestor!”

Ji juechen turned around, and only then did he calm down.

In the next moment, layers of formations were activated around the island. Countless divine lights shot into the sky and formed layers of light screens.

“Yo! They even activated a large formation, are they trying to resist?”

On the warship, the evil child was stunned for a moment before he burst into laughter.

How could such a tiny force use a formation to block his sky of great Joy's interplanetary warship?

What a joke!

He could destroy such a broken array with one slap.

If a warship was used, it could blow up the island with a single cannon, razing it to the ground and obliterating it completely.

"Hahaha! You really don't know your place!"

Behind him, the group of evil monks also laughed.

They looked forward with a look of disdain.

This so-called Ji family didn't even have a ninth tribulation. In their eyes, they were just an insignificant force. This kind of force actually wanted to resist. Shouldn't they open their Mountain Gate and come out to welcome them on their knees?

Then, he would offer up all the female cultivators in the clan.

In this way, they might consider sparing their lives.

But now, this group of people actually tried to resist in vain. Only death awaited them.

"Kill! Kill the entire Ji family!"

"Kill all the men and bring all the women here!" He ordered.

They shouted in excitement.

"Good! Since they don't know what's good for them, then don't blame us. Kill them all!" The evil child raised his hand and shouted.

"Get ready, fire one shot first. Pay attention, one-third of the power is enough!"

Then, he turned around and shouted.

The next moment, the ship stopped, and a bright divine light burst out of the cannon at the bow.

In an instant, the dark sky was illuminated by the endless divine light.

After a moment of accumulation, BOOM! With a loud bang, a dazzling divine light tore open the void, carrying with it a destructive aura as it blasted forward.

On the ship, everyone revealed an excited expression.

They couldn't wait any longer. They were only waiting for this cannon to blast open the formation. Then, they would rush into the island and slaughter, plunder, and snatch the beautiful women.

However, at this moment, a ball of bright divine light suddenly burst out in front of the formation. It was like a cold Moon, blocking the divine light.

Everyone on the ship was stunned.

Before they could react, the divine light crashed into the cold Moon, creating a deafening sound.

In that instant, the light illuminated the world.

"What's that?"

All the cultivators on the ship narrowed their eyes and looked over after getting used to it.

The next moment, they were all shocked.

The Cold Moon was not damaged at all. It was still hanging high in the sky.

"It's him! That guy!"

"What?" Ao Hong was stunned and shouted.

Wasn't this Cold Moon the celestial artifact that had blocked the combined attacks of many divine ancestors at the Royal immortal gathering?

"What? Is this that guy?"

The evil child at the bow of the ship was shocked.

Then, he squinted his eyes and looked at the Cold Moon carefully. His eyes were filled with a touch of fire and greed.

"Kid ao, is this the celestial artifact you were talking about?"

He turned around and said.

"Senior, it is!" "Yes." Ao Hong hurriedly said, "that day, he used this celestial artifact to block the joint attack of more than 20 Saint ancestors."

"This is good stuff!"

The evil child touched his mouth and his eyes became more and more heated.

But very quickly, he restrained himself. Although this thing was good, it was not easy to snatch it. Even if he snatched it, it would be a bit hot.

Although he didn't believe that this guy was really a heaven-defying genius who wasn't even 100 years old, he believed that this guy had an extraordinary background. There shouldn't be such a person in the origin immortal domain. It was very likely that he had come from another immortal domain.

It was probably a big force. Otherwise, how could it have a celestial artifact?

"Fellow Daoist, step aside. The nine powerhouses of the origin immortal realm are working together. Don't get involved, or else you'll be killed!"

He shouted towards the front.

"The Ji family members inside, listen up. Immediately open the formation and hand over the key and the female cultivators of the Ji family. Otherwise, your Ji family will be destroyed today."

Then, he shouted toward the island.

The next moment, the ship under his feet trembled, and the muzzles of the cannons began to glow with divine light again, exuding a terrifying aura.
