

The Mightiest Little Peasant Chapter 2875

In the main hall of the Ji family.

Tang Hao sat at the head of the hall while Ji juechen and a group of elders stood in front of him.

The Ji family members were all shocked.

More than a month ago, the divine ancestor had left Cangliu and said that he was going to kill a few people. He had even asked them to hide. Now that he had returned safely and had even asked them to return to the Ji family, this clearly meant that the people had been killed.

Without a doubt, those people were from the day of great joy.

This was because, apart from the day of great joy, the people from the other big shots had recently come to Cangliu.

“The divine ancestor must have killed a few more Dao integration stage super mighty figures!”

Ji juechen thought to himself in shock.

After the death of the spirit-devouring evil child, the people sent by the heaven of great joy must have been even more powerful, at least Dao integration stage.

After killing a group of Dao integration cultivators and seizing their Dao attainment, the divine ancestor's cultivation base had probably reached the peak!

A peak stage being who was less than a hundred years old was simply too shocking!

“We don't have to worry about the nine magnates for the time being!”

Tang Hao said as he glanced at them.

On the day of great joy, a peerless master and eight Guardian-level elders had died. They would definitely not act rashly. If they dared to come again, it would be exactly what he wanted.

The great joy stellarsky domain was protected by a great formation set up by a true immortal. He couldn't attack it, but if they came out, he could kill them easily.

As for the other eight magnates, even the myriad beasts sect, which had lost many people, had now shown signs of befriending them, so there was no need to worry about them for the time being.

“From now on, the Ji family will continue as it is. I'll keep this true spirit. If you need anything, just use this token!”

As Tang Hao spoke, he took out a sacred ancestral token, summoned a true spirit, and entered it.

“Yes, divine ancestor!”

Ji juechen stepped forward and respectfully received it.

“Divine ancestor, are you leaving?”

He asked after taking a few steps back.

In an instant, the elders’ expressions changed slightly. Ji Ruyin’s pretty face changed as well.

“Yes, I’m going out to look for something!” Tang Hao nodded. However, there’s no rush. We can wait for a while. ”

“Oh!”

Ji juechen heaved a sigh of relief.

Then, he turned around and glanced at Ji Ruyin. ””Divine ancestor, why don’t you bring ru Yin along when the time comes? Ru Yin is intelligent and capable. She might be of great help to you, divine ancestor. ”

“This ... Is good!”

Tang Hao looked at her and nodded.

“Many thanks, divine ancestor!”

Ji Ruyin was overjoyed and quickly bowed in thanks.

“Silly girl, I can only help you up to this point!” Ji juechen looked at her and sighed.

This girl had been depressed for more than a month. She looked at the stars every day. How could he not know what she was thinking?

However, feelings could not be forced. He could only try his best to create a chance for her.

“These things are for your Ji family.”

As Tang Hao spoke, he flicked his sleeve, and a ring flew out.

When Ji juechen received it and opened it to take a closer look, he was stunned.

The ring contained countless spiritual essences and a large number of fierce beast souls. The number of fierce beast souls was enough for the Ji family to cultivate more than a dozen 30000-meter-tall experts.

When these 30000-meter-tall figures transcended their tribulations, the Ji family would be able to produce more than a dozen divine ancestors.

This was something he didn't even dare to think about in the past!

"Many thanks, divine ancestor!"

He immediately knelt on the ground and kowtowed. He was so excited that his entire body was trembling.

The elders behind him were stunned. When they saw the old ancestor's excited look, they knew that the item in the ring was not ordinary. Immediately, they also knelt down and thanked him.

"There's no need to do this!"

Tang Hao smiled and waved his hand.

"You'd better cross your tribulation soon! Without a ninth tribulation, we can't hold the fort!" He said to Ji juechen.

"Yes, divine ancestor!" Ji juechen stood up and said excitedly.

With so many beast souls, he could devour some and refine his true spirit to a stronger level, and then he would have enough confidence in passing the Tribulation.

"Alright, I'll go back first!"

Tang Hao nodded, then stood up and left the hall.

"Farewell, divine ancestor!"

Everyone in the hall bowed in unison and sent him off.

"Holy ancestor!"

When he returned to the attic, he saw the sisters, Chun Xuan and Qiu Ci.

After not seeing each other for more than a month, they seemed to have become even more beautiful, especially Ji Qiuci, who was wearing a slim black gauze dress that perfectly highlighted her graceful figure and was extremely hot.

"She's almost as good as that girl ye Siyao ... Just a little bit more!"

Tang Hao mumbled to himself as he glanced at the screen.

Little ye's figure was truly like that of a demon. Among all the stunning beauties he had seen, only a few could compare to her.

However, ye girl did not have the seductive aura that Qiu Ci had.

Her hot figure, coupled with her charming temperament, was really a bit deadly!

Tang Hao glanced at it again, then quickly looked away.

“This girl, why is she wearing more and more skimpily?” He muttered in his heart.

Chun Xuan was dressed in white and was elegant and dignified. However, she was a little too sexy and provocative in a light chiffon dress.

Seeing him like this, Ji Qiuci couldn't help but giggle. A touch of playfulness and smugness appeared at the corner of her eyebrows.

“Divine ancestor, you must be tired! I'll give you a good shoulder massage.”

She walked up to him and massaged his shoulders enthusiastically.

That fiery, full figure was almost sticking to his body. That pair of snow-white jade-like hands gently stroked his shoulders, tugging at his heartstrings.

This girl ...

Tang Hao laughed to himself.

After spending some time with them, he understood the sisters' personalities. The younger sister was more playful and mischievous. She was also very smart and knew how to read people's expressions. Her emotional intelligence was very high.

As for her sister, she was gentle and dignified, and her personality was more reserved.

“Alright, go back and cultivate!”

They spent some time together and asked about their cultivation progress, then Tang Hao let them go back.

The sisters' current cultivation was over 20000 feet, still far from crossing the Tribulation.

Tang Hao also wanted them to take it slow and go to the spiritual void realm more to gain experience. This way, they would have more confidence in transcending their tribulations in the future.

After they left, Tang Hao went to the spiritual void realm.

At this moment, the chaotic space of the spiritual void realm was almost filled with spiritual essences of all colors. He was completely unable to count how many spiritual essences were there.

It had been 70 days since the news of the key spread.

In these 70 days, many of his clones had brought a large number of keys to various parts of the starry sky. He had also developed many offline transmission channels to speed up the transmission of information.

Now, a fifth of the stars in the origin immortal domain had keys.

The forces on the stars offered spiritual essence as soon as they came up. The wheel had not stopped for many days. In order to speed up, he had even made a few more wheels.

“I’m rich! I’m rich!”

Tang Hao grumbled. He grinned so widely that he could not close his mouth.

With such a system, he could collect money without having to run around and painstakingly collect spiritual essences. These spiritual essences would come to him on their own.

“Al! It can’t fit anymore!”

After refining these spiritual essences, he filled Jade bottles one after another. In the end, he didn’t have any more Jade bottles to use and had to refine another batch himself.

These essences were the purest divine liquid that had been obtained after being calcined by the Taixu divine fire. Naturally, they could not be placed in ordinary Jade bottles. They had to be high-grade, airtight bottles.

After spending an entire day, he finally managed to process all these spiritual essences. He then went up and checked the situation on the spirit void continent.
