

The Mightiest Little Peasant Chapter 3312

“My sword! My sword!”

“Ah!” A shrill scream pierced the sky.

The heavenly Dao Daoist was dumbfounded. His face was pale, and he was in a daze.

Just now, he had lost contact with his celestial artifact.

The celestial sword that he had used for thousands of years was gone!

“How is that possible?”

On the side, Samantabhadra was also dumbfounded.

How long has it been!

No matter how strong this kid’s cultivation was, it would take him a lot of time to take the celestial King Sword from Tiantong. How could the sword be gone in the blink of an eye?

“That’s the sea calming Pearl?”

“How could this kid have such a powerful treasure?”

All around, the celestial Venerables finally saw it clearly, and they were almost dumbfounded.

It was the legendary divine item, the sea calming divine Pearl!

Moreover, the power of this item was so terrifying!

With this Pearl, the young man had completely crushed the two heavenly venerates of the Yuanshi sect, leaving them with no way to fight back.

He had even lost his sword, which had been refined by that kid in front of everyone.

“This is too tragic!”

“This kid is too ruthless!”

They shuddered and shuddered.

It was the greatest humiliation to a cultivator to be robbed and refined into a treasure!

They couldn't imagine how they would react when such humiliation fell on their heads. At the very least, they would vomit three liters of blood.

“Sea calming Pearl?”

“This kid's strength is already so terrifying?”

Many people in the immortal world were using their treasures to spy on the situation from afar.

When he saw this, he shuddered.

They had thought that the two elders of the primitive sect were more than enough to defeat him and break his legend of invincibility since he had lost both his arms and two Supreme treasures.

However, he did not expect this kid to have a sea calming divine Pearl!

Moreover, his cultivation had also skyrocketed. Compared to the time when he had repelled the primordial chaos boy, his strength had improved by leaps and bounds, becoming more terrifying.

He was still invincible!

“Fuck, fuck, fuck! This stinky brat, he’s actually using my treasure to show off his might!”

In a cave in a barren mountain, the primordial chaos boy was activating his spell technique and watching this scene.

He kept on cursing and was about to explode from anger.

If this brat had not snatched his divine Pearl, he would have been the one to show off.

“That’s the sea calming Pearl? Fellow Daoist Tang actually has such a treasure?”

The Saint who was rushing over stopped and was stunned.

He could not believe his eyes.

Daoist Tang already has so many treasures, and now you've got another sea calming Pearl. Even he felt that it was a little too unbelievable.

"The sword is not bad!"

Under everyone's watchful eyes, Tang Hao picked up the sword and waved it a few times before putting it away.

"Return the sword!"

The heavenly Dao Daoist howled madly and was about to use his treasure to attack again.

"Tiantong, don't! You can't!"

When Samantabhadra saw this, he shivered in fear.

He had already lost the celestial King Sword. If he took another treasure, it would be a free gift!

In fact, he was even afraid that this kid would covet his Celestial King mirror.

It was already embarrassing enough to lose one treasure. If they lost another one, the primordial beginning sect would never be able to raise their heads again.

"Let's go!"

He pulled the heavenly Dao Daoist and retreated.

“You guys ... What are you waiting for? Otherwise, it’ll be too late!”

As he retreated, he roared in all directions.

At this time, everyone came to their senses.

However, when they looked up, they saw that the sea of lightning in the sky had begun to dissipate. The celestial tribulation had ended!

“We’re finished!”

Everyone’s hearts sank.

Once the immortal tribulation was over, that kid would have nothing to worry about. He could recall the ten thousand laws divine mountain and the two treasures of the gods Palace. The three Supreme treasures combined into one was simply unimaginable!

“Go! Let’s go!”

Someone shouted. He immediately tore open the void and shuttled away.

They didn’t want to stay and test the power of the three Supreme treasures. It was too terrifying!

In the blink of an eye, six or seven groups of people had left.

Only the two from the Yuanshi sect were left frozen on the spot.

They looked around, their expressions extremely blank.

Fuck!

This group of bastards, they ran too fast!

“Let’s go!”

The two’s faces darkened, and they turned to run.

Tang Hao did not chase after them. He watched them escape and sighed in relief.

Even with his current cultivation, it was still difficult for him to activate three Supreme treasures at the same time, especially the ten thousand laws divine mountain and the sea calming divine Pearl, which consumed a lot of celestial core power and Taoist connotation.

“Fellow Daoist, I’m one step too late!”

The nation protecting Saint flew up and smiled bitterly.

He realized that it didn’t make much of a difference whether he came or not. Even if he did, it didn’t seem to be of much use. Fellow Daoist Tang alone would be enough.

“Thank you for protecting me, fellow Daoist!”

After the old divine Emperor finished his tribulation, he flew over and bowed in thanks.

“No need to thank me!”

Tang Hao said, waving his hand.

Come to think of it, this was also because of him. Those people were all here for him.

“Fellow Daoist’s demeanor just now was truly unrivaled. This old man is impressed!”

The old divine Emperor stood up and complimented with a somewhat fervent expression.

He truly admired this person’s divine power.

After a while, tantai Feiyun flew over with an excited expression.

“It’s your turn now. Don’t worry, no one will come! With fellow Daoist Tang here, they won’t dare to come!” The old divine Emperor looked at him and laughed.

Tantai Feiyun acknowledged and headed towards the center of the Tribulation.

Very quickly, he successfully transcended the Tribulation and advanced to the zenith heaven.

After his tribulation, the immortal list reappeared, and both of them were listed on it.

There were already more than 110 people on the list.

“My ranking didn’t change much!”

Tang Hao checked his ranking. He was still at the 36th place.

“Oh! It’s very difficult to change the list once you’re on it, unless you have a battle with the person at the top and use all your divine powers to determine the winner. Only then can you shake the immortal list and replace your opponent’s ranking.”

The nation protecting Saint explained.

“I see! That’s not interesting!”

Tang Hao shook his head. He was disinterested.

This was too troublesome. There was no need to do this just for a ranking.

“Exactly! People at the zenith heaven realm rarely fought, not to mention using all their magical powers to fight to the death. The price to pay was too great! That’s why the rankings rarely change.” The nation protecting Saint laughed.

“Let’s go back and celebrate, fellow cultivator Tang!”

The old Saint Emperor greeted them warmly, and the group boarded the immortal ship, returning to the Saint spirit Imperial City.

The news had already spread, and the Imperial City was already in an uproar.

The two old Saint emperors had successfully advanced to the zenith heaven realm, which meant that the Saint spirit dynasty now had three zenith heavens overseeing it. Such strength was already comparable to many large sects and top clans.

Tang Hao accompanied the two old sage emperors and celebrated for a while before leaving, returning to the bright moon Palace.

His immortal soul left his body and once again went to the four corners of the immortal world to search for immortal opportunities.

He needed to improve as soon as possible and break through to the immortal King realm.

He could sense that this so-called immortal encounter wasn't something good. It wasn't something that would benefit the immortal world, as people said. There had to be a conspiracy behind it. The night Immortal King's words were proof of that.

He still couldn't guess what the plan was, so the only way was to strengthen himself as soon as possible.
