

The Mightiest Little Peasant Chapter 3432

In the immortal realm, the Dao of alchemy was also rather prosperous, far surpassing the Dao of formations.

In the East continent, there were many forces that were famous for their alchemy. Among them, the elixir Sea Mountain was especially famous.

This was a Holy Land of alchemy, where countless alchemists gathered.

There, one could buy many ingredients that could not be found elsewhere. Furthermore, one could also learn profound alchemy techniques.

Many alchemists from all over the East continent would go to the elixir Sea Mountain to buy materials and study alchemy.

If he wanted to find the pill recipe to refine a divine blood treasure, this was the best place to go.

“It’s a good opportunity for me to see what the Holy Land of alchemy in the immortal realm is like!”

Tang Hao put away the map and headed to dan hai mountain.

Along the way, he didn’t forget to look for treasures.

He had plundered all the dangerous places along the way. He had collected all kinds of divine herbs and ores, and he had also found three yang grade divine herbs.

Twenty days later, he arrived at his destination.

In front of him, a vast mountain range appeared. There were many majestic peaks that were tens of millions of feet high, reaching into the clouds.

At a glance, it was actually impossible to count how many there were.

On the periphery of the mountain, there was a circle of buildings. There were countless palaces and towers that were densely arranged in a row.

“Those are pill towers. The places where foreign pill refiners live are rented. The price isn’t cheap.”

“Those mountains all belong to the pill Sea Mountain. Some of them are used to grow herbs, and some of them are the residences of the pill Sea Mountain’s grandmasters. Ordinary people can’t enter.”

Not far away, a group of people rushed over, looking travel-worn.

They raised their heads and looked ahead with respect and longing.

The mountain in front of them was the Holy Land in their hearts.

“Let’s go!”

They could not wait to rush forward.

Tang Hao followed behind them and arrived at the mountain.

There were people everywhere, and it was extremely lively.

Along the streets were shops that sold all sorts of elixir materials, elixir Scriptures, elixir cauldrons, and the like.

“Pill Sea Pavilion?”

After walking for a while, he saw a resplendent Pavilion with a golden plaque hanging on it. It was extremely imposing.

Compared to it, the other shops looked shabby.

“Let’s go in and take a look!”

Tang Hao walked in and started to walk around.

The elixir Ocean Pavilion was huge and was divided into many levels. Each level sold different things. Elixir materials were divided into several levels. There were also elixir Scriptures, elixir cauldrons, and other things for sale.

Starting from the first floor, Tang Hao went through every floor. He bought anything he was interested in.

There were many types of divine herbs here, but high grade ones were rare. There weren’t even many heavenly God grade materials, let alone yang grade ones.

However, there were quite a few pill Scriptures, so he bought a copy of all of them.

He casually flipped through a few of them. Some of them were quite profound, and were considered high-level pill Scriptures in the immortal realm.

He found a recipe for refining divine blood treasures in the pill recipe section, but the price was a bit high.

This kind of recipe was considered an ancient recipe, and it was several times more expensive than an ordinary pill recipe.

After buying the recipe, Tang Hao began to purchase the ingredients according to the list.

After walking around the elixir Sea Pavilion, he had basically bought everything.

Then, he went to the shops outside and gathered the last few materials.

At the same time, he had gathered all the materials for the Yang God pill.

With that, he had prepared five sets of ingredients, one set of divine blood treasure pill recipe, and five sets of yang God great pill recipe.

“Next, I’ll find a place to refine it!”

He found the place where the pill tower was rented and walked in.

“Rent a tower? What level do you want?”

“Is there any difference?”

“That’s huge. The higher the grade, the bigger the space inside, the more high-end the settings, and the more Qi of heaven and earth there is. Of course, the more face you will have.”

“Alright! Then I’ll give you the best!”

Tang Hao wasn’t short of money, so he rented the best tower in the world.

He entered the tower and familiarized himself with it. Then, he sat down, took out the divine furnace and materials, and began to refine.

He first refined the sun god pill.

The difficulty of this pill was not high, but it would take a lot of time.

It wasn’t easy to refine a Celestial King-grade divine herb.

He had spent three days to refine one, then removed the weeds and kept the fine ones, obtaining the purest divine liquid.

The next step was simple. He threw in all the other supplementary materials, refined them one by one, and then fused them together. He had obtained a perfect pill embryo.

After two more days of calcinating, a sun god pill was formed.

“Not bad!”

He was quite satisfied with the round golden elixir in his hand.

After examining it for a while, he kept it and continued to refine.

The next four divine elixirs took him 20 days.

“Next is this treasure!”

After a short rest, he took out the purple jade box.

He opened the lid and took out the nine-colored Kirin. He threw it into the furnace without tearing the talisman.

BOOM!

The divine fire burned up the talismans in an instant.

The Qilin immediately came to life. It let out a sharp hiss and crazily charged around in the furnace.

Tang Hao sent his divine will into the furnace to suppress it, then burned it with the fiercest divine fire.

Just like that, he refined it for a full ten days before he completely refined it.

It took another five days for the divine blood pill to be completed.

After the pill was formed, he swallowed it.

He first took the sun god great pill and absorbed it one by one.

Since it was a large pill, its effects far exceeded that of ordinary yang spirit pills. After absorbing each pill, his cultivation would increase by a large margin.

Finally, there was the divine blood pill.

This pill was as effective as the five pills, or even better.

“Whoosh! Whoosh!”

He opened his eyes and let out a breath after absorbing the divine blood pill.

With six pills in his stomach, his cultivation base had advanced by leaps and bounds.

He had just entered the two-star realm, but now, he was almost at the peak of the two-star realm. With a few more sun god pills, he would be able to break through smoothly and enter the three-star realm.

This speed was already very fast.

It had only been three months since he had devoured the venerable from Jade Dragon Mountain and broken through to two-star.

“I’ll go find a few more yang grade materials!”

He got up and left.

He went to the nearest danger zones and searched them one by one.

He was prepared to charge into the three-star realm in one go.

In half a month's time, he had searched through several dangerous places and successfully found three yang grade divine herbs.

After returning to pill Sea Mountain, he purchased the materials as usual, gathered three sets of pill recipes, and refined them into pills.

Half a month later, the pill was completed.

He swallowed it and finally broke through successfully, advancing to the three-star realm.

"Let's go shopping again!"

He was not in a hurry to leave.

Ever since he came to this pill Sea Mountain, other than buying materials, he had been refining pills in the pagoda and had not properly strolled around.

Now that his cultivation had broken through as he wished, he could finally relax for a while and take a good stroll.

Not only were there shops here, but there were also many pill houses. One could see the lively scene of alchemists sparring. There were also some street stalls. Perhaps one could even find good treasures.

These were all things that he was interested in.

After leaving the pill tower, he first went to the pill house, ready to join in the fun.
